MATSUSHITA REPORTS THIRD QUARTER NET PROFIT INCREASE

- Strong Sales of Digital Products Contributed to Favorable Results -

Osaka, Japan, January 31, 2008 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]) today reported its consolidated financial results for the third quarter and the nine months, ended December 31, 2007, of the current fiscal year, ending March 31, 2008 (fiscal 2008).

Consolidated Third-quarter Results

Consolidated group sales for the third quarter amounted to 2,344.6 billion yen (U.S.\$20.57 billion), down 4% from 2,436.8 billion yen in the same three-month period a year ago. Explaining the third quarter results, the company cited sales gains in all product categories, with strong sales in digital audiovisual (AV) products and white goods. Meanwhile, total sales declined because sales of JVC (Victor Company of Japan, Ltd. and its subsidiaries)¹ for the third quarter are excluded from the consolidated group sales. Of the consolidated group total, domestic sales were down 6% to 1,138.3 billion yen (\$9.99 billion), from 1,214.5 billion yen a year ago. Overseas sales decreased to 1,206.3 billion yen

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

(\$10.58 billion) from 1,222.3 billion yen in the third quarter of fiscal 2007.

- ¹ Victor Company of Japan, Ltd. and its consolidated subsidiaries became associated companies under the equity method from Matsushita's consolidated subsidiaries from August 2007. Accordingly, sales of JVC from August 2007 are excluded from the consolidated group sales. For more information, see Note 3 of the Notes to consolidated financial statements on page 16.

During the third quarter under review, the electronics industry faced severe business conditions in Japan and overseas, due mainly to rising prices for crude oil and other raw materials, and continued price declines caused by ever-intensified global competition, mainly in digital products. Under these circumstances, in fiscal 2008, the first year of the new mid-term management plan GP3, Matsushita is implementing initiatives to accelerate its growth strategy.

As part of such efforts, the company continues to increase the competitiveness of V-products, which contribute to overall business results significantly as the core of its growth strategies, in order to boost its market shares. In overseas businesses, the company aims to accelerate sales growth in emerging markets as well as the United States and Europe. It is already building a framework to increase sales in Russia, Brazil and India, in order to put greater emphasis on cutting-edge products in these markets. In addition, Matsushita is striving to realize a manufacturing-oriented company one that combines all the business activities of the Group toward the launch of products, thereby contributing to the creation of customer value. To achieve this, the company is promoting wider collaboration across business fields and operating regions, and thus implementing innovative activities in all processes including product design and quality, procurement, logistics, overseas sales and other areas of its operations.

Regarding earnings, operating profit² for the third quarter increased by 22%, to 165.4 billion yen (\$1.45 billion), from 135.8 billion yen in the same period a year ago. Despite the negative effects from increasing prices for crude oil and other raw materials, and intensified global price competition, sales increase in real terms excluding the effect of JVC and the companywide cost reduction efforts including material costs and fixed costs led to an increase in operating profit. In other income (deductions), the company recorded an increase in net financial income, while incurring increased expenses associated with the implementation of early retirement programs. These and other factors resulted in pre-tax income of 176.6 billion yen (\$1.55 billion), up 22% from 144.4 billion yen in the previous year. Net income also increased 46% to 115.2 billion yen (\$1.01 billion), from 78.7 billion yen in the same quarter of the previous year. The company's net income per common share was 54.49 yen (\$0.48) on a diluted basis, versus 36.13 yen on the same period a year ago.

² For information about operating profit, see Note 2 of the Notes to consolidated financial statements on page 16.

Consolidated Nine-month Results

Consolidated group sales for the nine months ended December 31, 2007 increased 1% to 6,869.9 billion yen (\$60.26 billion), compared with 6,826.3 billion yen in the same nine-month period a year ago. Explaining the nine-month results, the company cited sales gains in digital AV products, such as flat-panel TVs. Domestic sales amounted to 3,326.1 billion yen (\$29.18 billion), down 2% from a year ago, while overseas sales increased 3% to 3,543.8 billion yen (\$31.08 billion) from the previous year's nine months.

For reasons similar to those given for third quarter results, the company's operating profit for the nine months increased 12% to 385.4 billion yen (\$3.38 billion), from 343.2 billion yen in the comparable period a year ago. Pre-tax income amounted to 364.2 billion yen (\$3.20 billion), down 3% from 376.9 billion yen in the previous year. This result is due mainly to an increase in expenses associated with the implementation of early retirement programs and the previous year's gains of 27.3 billion yen on the sale of the investments regarding cable broadcasting business. Net income was up 14% to 220.3 billion yen (\$1.93 billion), from 193.8 billion yen in the same period a year ago.

Consolidated Third-quarter Sales Breakdown by Product Category

The company's third-quarter consolidated sales by product category, as compared with prior year amounts, are summarized as follows:

AVC Networks

AVC Networks sales increased 5% to 1,131.3 billion yen (\$9.93 billion), from 1,072.5 billion yen in last year's third-quarter. Sales of video and audio equipment increased 10% from the previous year's third-quarter, due mainly to favorable sales in digital AV products such as flat-panel TVs and digital cameras.

In information and communications equipment, sales gains in automotive electronics and mobile phones led to a 1% increase overall from a year ago.

Table of Contents

- 4 -

Home Appliances

Sales of Home Appliances increased 6% to 331.0 billion yen (\$2.90 billion), compared with 311.6 billion yen in last year's third-quarter, due mainly to favorable sales in white goods. In particular, double-digit sales growth was recorded in air conditioners, compressors and refrigerators.

Components and Devices

Sales of Components and Devices were up 1% to 295.5 billion yen (\$2.59 billion), compared with 294.0 billion yen in the same period of the previous year, due mainly to steady sales in general electronic components.

MEW and PanaHome

Sales of MEW and PanaHome amounted to 428.3 billion yen (\$3.76 billion), maintaining the same level as the previous year's 428.1 billion yen. At Matsushita Electric Works, Ltd. (MEW) and its subsidiaries, despite weak sales of building products as a result of a decrease in residential construction starts, sales gains in electronic and plastic materials and automation controls led to an overall increase in sales. At PanaHome Corporation and its subsidiaries, sluggish housing market conditions led to decreased sales.

Other

Sales for Other totaled 158.5 billion yen (\$1.39 billion), up 3% from 154.3 billion yen in the same period a year ago.

Consolidated Financial Condition

Net cash provided by operating activities in the fiscal 2008 third quarter amounted to 65.0 billion yen (\$570 million). This was due mainly to cash inflows from net income and depreciation. Net cash used in investing activities amounted to 93.9 billion yen (\$824 million). Capital expenditures for tangible fixed assets were 95.6 billion yen (\$839 million), mainly consisting of manufacturing facilities for priority business areas such as plasma display panels (PDPs) and semiconductors. Net cash used in financing activities was 68.4 billion yen (\$600 million). Major factors included the repurchase of the company's common stock and the payment of cash dividends. All these activities resulted in cash and cash equivalents of 1,122.8 billion yen (\$9.85 billion) at the end of December 2007, down 99.8 billion yen from the end of the first fiscal half.

The company's consolidated total assets as of December 31, 2007 decreased by 55.8 billion yen as compared with the end of the first fiscal half, to 7,511.5 billion yen (\$65.89 billion). An increase in trade receivables caused by seasonal factors such as year-end sales was offset by a decrease in investments as a result of a declined market value. Stockholders' equity increased 36.8 billion yen, as compared with the end of the first fiscal half, to 3,942.9 billion yen (\$34.59 billion) as of December 31, 2007. Despite an increase in treasury stock on continued repurchases of the company's own shares and a decrease in accumulated other comprehensive income as a result of decreased market value of available-for-sale securities, increases in retained earnings led to an overall increase in stockholders' equity.

Outlook for the Full Fiscal Year 2008

The company expects the future business environment to become more uncertain in the fourth quarter of fiscal 2008, with a global economic slowdown stemming from the U.S. subprime loan problem and the sharp appreciation of the yen. Considering these conditions, as well as increasing prices for crude oil and other raw materials, and ever-intensified global price competition, the forecast for the full fiscal year 2008, ending March 31, 2008, remains unchanged from the forecast announced on July 24, 2007.
