PRIMEDIA INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

PRIMEDIA Inc., together with its subsidiaries, is herein referred to as either PRIMEDIA or the Company unless the context implies otherwise. In the opinion of the Company's management, the condensed consolidated financial statements present fairly the consolidated financial position of the Company as of March 31, 2008 and December 31, 2007, the results of consolidated operations of the Company for the three months ended March 31, 2008 and 2007, consolidated changes in stockholders' equity of the Company for the three months ended March 31, 2008 and consolidated cash flows of the Company for the three months ended March 31, 2008 and 2007. The adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. The condensed consolidated balance sheet as of December 31, 2007 has been derived from the Company's audited consolidated balance sheet included in the Company's annual report on Form 10-K for the year ended December 31, 2007. All intercompany accounts and transactions have been eliminated in consolidation. These statements should be read in conjunction with the Company's annual consolidated financial statements and related notes for the year ended December 31, 2007, which are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. The operating results for the three months ended March 31, 2008 are not necessarily indicative of the results that may be expected for a full year. Certain amounts in the prior period's condensed consolidated statement of operations and related notes have been reclassified due to discontinued operations to conform to the presentation for the three months ended March 31, 2008.

On August 1, 2007, the Company effected a one-for-six reverse stock split of its common stock. After the reverse stock split was effected, each PRIMEDIA stockholder received one new share of PRIMEDIA common stock in exchange for every six existing shares of PRIMEDIA common stock. For all periods presented, effect has been given to the impact of the reverse stock split on the amounts reported for shares, including warrants, stock options and nonvested stock, and earnings (loss) and dividends per share.

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes*, on January 1, 2007 and, as a result, recognized a liability for uncertain tax positions and related interest and penalties of \$16.1 million, which was accounted for as an increase to the January 1, 2007 balance of accumulated deficit, net of any valuation allowance impact. The total amount of unrecognized tax benefits as of January 1, 2007 was \$102.5 million. In addition to the unrecognized tax benefits, the Company had \$3.7 million of interest and penalties accrued as of January 1, 2007. The FIN 48 liability is included in other non-current liabilities in the condensed consolidated balance sheet.

Recent Accounting Pronouncements

SFAS No. 157

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, which provides guidance on how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under accounting principles generally accepted in the U.S. (GAAP). SFAS No. 157 creates a common definition of fair value to be used throughout GAAP and prescribes methods for measuring fair value, which is intended to make the measurement of fair value more consistent and comparable across companies.

SFAS No. 157 establishes a three-tiered hierarchy to prioritize inputs used to measure fair value. Those tiers are defined as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable inputs for the asset or liability.

Table of Contents

The highest priority in measuring assets and liabilities at fair value is placed on the use of Level 1 inputs, while the lowest priority is placed on the use of Level 3 inputs.

This statement also expands the related disclosure requirements in an effort to provide greater transparency around fair value measures. SFAS No. 157 is effective as of the beginning of fiscal years beginning after November 15, 2007.

In February 2008, the FASB issued FASB Staff Position (FSP) FAS 157-2, which delays the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years, for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). Examples of items to which the deferral would apply include, but are not limited to:

Nonfinancial assets and nonfinancial liabilities initially measured at fair value in a business combination or other new basis event, but not measured at fair value in subsequent periods (nonrecurring fair value measurements);

Reporting units measured at fair value in the first step of a goodwill impairment test and nonfinancial assets and nonfinancial liabilities measured at fair value in the second step of a goodwill impairment test (measured at fair value on a recurring basis, but not necessarily recognized or disclosed in the financial statements at fair value);

Indefinite-lived intangible assets measured at fair value for impairment assessment (measured at fair value on a recurring basis, but not necessarily recognized or disclosed in the financial statements at fair value);

Long-lived assets (asset groups) measured at fair value for an impairment assessment (nonrecurring fair value measurements); and

Liabilities for exit or disposal activities initially measured at fair value (nonrecurring fair value measurements).

The Company adopted SFAS No. 157 on January 1, 2008 for its financial assets and liabilities, and the adoption did not have a material impact on the Company's financial condition, results of operations or cash flows. The Company is still evaluating the impact of the items deferred by FSP FAS 157-2 (see Note 6 for information and related disclosures regarding the Company's fair value measurements).

SFAS No. 159

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. This statement permits companies to choose, at specified election dates, to measure eligible items, which include most recognized financial assets and liabilities and firm commitments, at fair value with unrealized gains and losses on items for which the fair value option has been elected reported in earnings at each subsequent reporting date. Generally, the decision about whether to elect the fair value option must be:

Applied instrument by instrument;

Irrevocable; and

Applied only to an entire instrument and not to only specified risks, specific cash flows or portions of that instrument.

A company may decide whether to elect the fair value option for each eligible item on its election date. Alternatively, a company may elect the fair value option according to a preexisting policy for specified types of eligible items. A company may choose to elect the fair value option for an eligible item only on the date that certain events occur, including when:

Edgar Filing: PRIMEDIA INC - Form 10-Q

A company first recognizes the eligible item;

A company enters into an eligible firm commitment;

Financial assets that have been reported at fair value with unrealized gains and losses included in earnings because of specialized accounting principles cease to qualify for that specialized accounting; or

The accounting treatment for an investment in another entity changes.

This statement is effective as of the beginning of fiscal years that begin after November 15, 2007. The Company did not elect the fair value option for any of its financial assets or liabilities upon adoption of SFAS No. 159 on January 1, 2008, resulting in no impact on its financial condition, results of operations or cash flows.

SFAS No. 141(R)

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*, which establishes new principles and disclosure requirements pertaining to business combinations. Primary changes to existing accounting include requirements for the acquirer to recognize:

Assets acquired, liabilities assumed and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date;

Table of Contents

Identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values, in a step acquisition;

Assets acquired and liabilities assumed arising from contractual contingencies as of the acquisition date, measured at their acquisition-date fair values;

Goodwill as of the acquisition date, measured as a residual, which in most types of business combinations will result in measuring goodwill as the excess of the consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair values of the identifiable net assets acquired;

Contingent consideration at the acquisition date, measured at its fair value at that date;

The effect of a bargain purchase in earnings; and

Changes in the amount of its deferred tax benefits that are recognizable because of a business combination either in income from continuing operations in the period of the combination or directly in contributed capital, depending on the circumstances. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted. The Company does not presently expect this statement will have a material impact on its financial condition, results of operations and cash flows.

SFAS No. 160

In December 2007, the FASB also issued a related statement, SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*. This statement establishes accounting and reporting standards that require:

Ownership interests in subsidiaries held by parties other than the parent to be clearly identified, labeled and presented in the consolidated balance sheet within equity, but separate from the parent's equity;

The amount of consolidated net income attributable to the parent and to the noncontrolling interest to be clearly identified and presented on the face of the consolidated statement of operations;

Changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary to be accounted for consistently;

When a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value;

Gains or losses on the deconsolidation of a subsidiary to be measured using the fair value of any noncontrolling equity investment rather than the carrying amount of the retained investment; and

Edgar Filing: PRIMEDIA INC - Form 10-Q

Entities to provide sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners.

SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Early adoption is not permitted. This statement must be applied prospectively as of the beginning of the year of adoption, except for the presentation and disclosure requirements, which must be applied retrospectively for all periods presented. The Company does not presently expect this statement will have a material impact on its financial condition, results of operations or cash flows.

SFAS No. 161

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. This statement is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial condition, results of operations and cash flows.

SFAS No. 161 amends existing disclosure requirements to provide users of financial statements with an enhanced understanding of:

How and why an entity uses derivative instruments;

How derivative instruments and related hedged items are accounted for; and

How derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. To meet those objectives, SFAS No. 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements.

Table of Contents

SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early adoption encouraged. In years after initial adoption, SFAS No. 161 requires comparative disclosures only for periods subsequent to initial adoption. The enhanced disclosures required by this statement will not have a material impact on the Company's financial condition, results of operations and cash flows.

FASB Staff Position 142-3

In April 2008, the FASB issued FSP FAS 142-3, *Determination of the Useful Life of Intangible Assets*, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset with a finite useful life. Rather than considering legal, regulatory or contractual provisions that enable renewal or extension of the asset's legal or contractual life without substantial cost, FSP FAS 142-3 requires an entity to use, among other factors, its own historical experience in renewing or extending similar arrangements, regardless of whether those arrangements have explicit renewal or extension provisions, in determining the useful life of the asset. If an entity does not have its own historical experience, it should consider the assumptions that market participants would use about renewal or extension (consistent with the highest and best use of the asset by market participants), adjusted for any identified entity-specific factors.

FSP FAS 142-3 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Early adoption is not permitted. This statement must be applied prospectively as of the beginning of the year of adoption, to all intangible assets acquired after the effective date. The Company does not presently expect this FSP will have a material impact on its financial condition, results of operations or cash flows.

Correction of Error

Subsequent to the issuance of the Company's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2007, the Company discovered an error in its reporting of cash and cash equivalents and available for sale securities in its condensed consolidated balance sheet and of cash flows from investing activities and net increase in cash and cash equivalents in its condensed consolidated statement of cash flows due to the inclusion of auction rate securities as a cash equivalent. This error had no impact on the Company's condensed consolidated statement of operations or cash flows from operating activities for any period.

The error resulted in an overstatement of cash and cash equivalents and a corresponding understatement of available for sale securities as of March 31, 2007. The error also resulted in an understatement of purchases of available for sale securities and proceeds from sale of available for sale securities during the three months ended March 31, 2007. Additionally, the error resulted in an overstatement of net cash provided by investing activities and increase in cash and cash equivalents for the three months ended March 31, 2007.

A summary of the effects of the correction of these errors is as follows (dollars in thousands):

	As Previously Reported	Correction Adjustment	As Corrected
BALANCE SHEET			
Cash and cash equivalents	\$ 145,111	\$ (78,350)	\$ 66,761
Available for sale securities		78,350	78,350
STATEMENT OF CASH FLOWS			
Purchases of available for sale securities	\$	\$ (111,450)	\$ (111,450)
Proceeds from sale of available for sale securities		33,100	33,100
Net cash provided by investing activities	139,085	(78,350)	60,735
Increase in cash and cash equivalents	139,283	(78,350)	60,933
Cash and cash equivalents, end of period	145,111	(78,350)	66,761

The condensed consolidated financial statements have been corrected consistent with the As Corrected amounts above.

Note 2. Divestitures

The Company has classified the results of divested entities and entities to be divested as of March 31, 2008 as discontinued operations in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*.

Edgar Filing: PRIMEDIA INC - Form 10-Q

In the fourth quarter of 2006, the Company announced that it had agreed to sell its Outdoors group, part of the Enthusiast Media segment, which consisted primarily of its hunting, fishing and shooting titles, for \$170.0 million in cash. The transaction was completed in January 2007, at which time the Company recorded a gain of \$58.5 million.

Table of Contents

In the fourth quarter of 2006, the Company announced that it would classify the results of operations of its Education segment as discontinued operations, due to the Company actively pursuing the sale of this segment. The Company's Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a source of educational video; and PRIMEDIA Healthcare, a medical education business. During the second quarter of 2007, the Company completed the sale of Channel One for a loss of \$7.1 million of which \$5.0 million was recorded during the first quarter of 2007, and completed the sale of Films Media Group for a net gain of \$0.2 million. During the first quarter of 2008, the Company sold certain assets and liabilities of PRIMEDIA Healthcare for approximately \$0.2 million, resulting in a gain of \$0.1 million and shut down the remaining operations. The assets and liabilities of PRIMEDIA Healthcare are included in assets and liabilities of businesses held for sale in the condensed consolidated balance sheet as of December 31, 2007 (see *Held for Sale* discussion below).

In February 2007, the Company announced its intent to explore the sale of its Enthusiast Media segment, and on August 1, 2007, it completed the sale for \$1,177.9 million, resulting in a gain of approximately \$461.0 million. The Company applied the net proceeds from the sale to pay down debt. The net proceeds from this sale are subject to routine post-closing adjustments.

In the fourth quarter of 2007, the Company classified the results of operations of its Auto Guides division as discontinued operations due to its intent to dispose of the Auto Guides division by June 2008. The assets and liabilities of the Auto Guides division are included in assets and liabilities of businesses held for sale in the condensed consolidated balance sheet as of March 31, 2008 and December 31, 2007 (see *Held for Sale* discussion below).

The operating results of all of these operations have been classified as discontinued operations for all periods presented.

Total revenue, net and (loss) income before benefit (provision) from income taxes included in discontinued operations for the three months ended March 31, 2008 and 2007 in the condensed consolidated statement of operations are as follows (dollars in thousands):

	Three Months Ended March 31,	
	2008	2007
Total revenue, net	\$ 1,799	\$ 149,248
(Loss) income before benefit (provision) from income taxes(1)	\$ (744)	\$ 19,393

(1) (Loss) income before benefit (provision) from income taxes above excludes gain on sale of businesses.

The gain on sale of businesses, net of tax, was \$0.1 million and \$43.5 million for the three months ended March 31, 2008 and 2007, respectively.

During the first quarter of 2007, the Company recorded a tax benefit of approximately \$61.0 million related to the Enthusiast Media segment. This benefit, which was recorded as a component of discontinued operations, represents the tax consequences of the recharacterization of certain indefinite-lived intangible assets to definite-lived in connection with the reclassification of the Enthusiast Media segment as held for sale during the first quarter of 2007 and was recorded when it became apparent that certain taxable temporary differences would reverse.

During the three months ended March 31, 2008, the Company recognized a tax benefit of \$11.3 million in discontinued operations as a result of its ability to carry back a projected 2008 net operating loss (NOL) against taxes paid on a portion of the 2007 gain on divestitures of certain subsidiaries. The current year NOL arises primarily from the reversal of differences between the book and tax basis in a group of PRIMEDIA Healthcare intangible assets triggered by the sale of those assets during the three months ended March 31, 2008. Further adjustments to the tax benefit reported in discontinued operations related to the NOL carry back, and adjustments to the Company's valuation allowance, are possible as estimations regarding 2008 taxable income change.

Held for Sale

The assets and liabilities of businesses which the Company had initiated plans to sell, but had not sold, as of March 31, 2008 and December 31, 2007, have been classified as held for sale in the condensed consolidated balance sheet. As of December 31, 2007, businesses held for sale represent the assets and liabilities of PRIMEDIA Healthcare and the Auto Guides division, and as of March 31, 2008, it represents the assets and liabilities of the Auto Guides division.

Table of Contents

	March 31, 2008	December 31, 2007
	(Dollars in thousands)	
Assets		
Accounts receivable, net	\$ 796	\$ 2,474
Prepaid expenses and other	36	91
Property and equipment, net	1,254	1,882
Intangible assets	1,327	1,327
Other non-current assets		19
Assets of businesses held for sale	\$ 3,413	\$ 5,793
Liabilities		
Accounts payable	\$ 10	\$ 228
Accrued expenses and other	134	2,250
Other non-current liabilities		6
Liabilities of businesses held for sale	\$ 144	\$ 2,484

As discussed above, in the first quarter of 2008, the Company completed the sale of certain assets and liabilities of PRIMEDIA Healthcare and shut down the remaining operations.

Note 3. Acquisitions**Acquisition of Rentalhouses.com**

In February 2007, the Company acquired the assets of RentalHouses.com for approximately \$9.0 million in cash and the assumption of liabilities. The Company allocated the total purchase price of the acquisition to the following asset classes (dollars in thousands):

	Amortization Period	Amount Allocated
Goodwill		\$ 4,356
Advertiser lists	11 years	4,400
Website	3 years	250
Non-compete agreements	3 years	130
Trademarks	3 years	85
		\$ 9,221

This acquisition did not have a material impact on the Company's results of operations for the three months ended March 31, 2007, nor were the operations of this acquisition material during 2007 prior to the acquisition.

Other Acquisitions

In January 2007, the Company acquired Modified Automotive Group, publisher of *Modified Magazine*, *Modified Luxury & Exotics Magazine*, *Modified Mustangs Magazine*, and their related event partnerships and websites for approximately \$15.0 million in cash, including acquisition related expenses. This acquisition was part of the Enthusiast Media segment, which was sold during the third quarter of 2007.

In addition, during the first quarter of 2007, the Company made other payments relating to acquisitions of approximately \$1.0 million. The results of operations of these acquisitions did not have a material impact on the Company's results of operations for the three months ended March 31, 2008.

Table of Contents

Note 4. Available for Sale Securities

During the three months ended March 31, 2008, the Company sold all of its available for sale securities with no realized gain or loss.

As of December 31, 2007, the amortized cost and fair value of available for sale securities, with gross unrealized gains and losses, were as follows:

	Amortized Cost	Gross Unrealized Gains (Dollars in thousands)	Gross Unrealized Losses	Fair Value
Auction rate securities	\$ 15,425	\$	\$	\$ 15,425
Total available for sale securities	\$ 15,425	\$	\$	\$ 15,425

Note 5. Other Intangible Assets

Intangible assets subject to amortization consist of the following:

	Weighted-Average Amortization Period (Years)	March 31, 2008(1)			December 31, 2007(1)		
		Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Membership, subscriber and customer lists	4	\$ 34	\$ 34	\$	\$ 34	\$ 34	\$
Advertiser lists	12	94,454	76,230	18,224	94,454	75,615	18,839
Other	8	6,170	5,192	978	6,170	5,052	1,118
		\$ 100,658	\$ 81,456	\$ 19,202	\$ 100,658	\$ 80,701	\$ 19,957

(1) Excluding intangible assets classified as assets held for sale (see Note 2).

Intangible assets not subject to amortization had a carrying value of \$6.5 million as of March 31, 2008 and December 31, 2007 and consisted of trademarks. Amortization expense for other intangible assets still subject to amortization was \$0.8 million and \$0.7 million for the three months ended March 31, 2008 and 2007, respectively.

Note 6. Fair Value Measurements of Financial Assets and Liabilities

The Company's financial assets and liabilities that have recurring measurements as of March 31, 2008 are shown below together with the level within the fair value hierarchy they fall:

Description	Fair Value Measurements at Reporting Date Using			
	March 31, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative financial instruments	\$ 6,026	\$	\$ 6,026	\$

Edgar Filing: PRIMEDIA INC - Form 10-Q

Total	\$ 6,026	\$	\$	6,026	\$
-------	----------	----	----	-------	----

The valuation of the derivative financial instruments, comprised of interest rate swaps, is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the interest rate swaps, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its interest rate swap contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts and guarantees.

Table of Contents

Although the Company has determined that the majority of the inputs used to value its derivative financial instruments fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivative financial instruments utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2008, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative financial instrument positions and has determined that the credit valuation adjustments are not significant to the overall valuation. As a result, the Company has classified its derivative financial instrument valuations, in their entirety, in Level 2 of the fair value hierarchy.

Note 7. Accrued Expenses and Other

Accrued expenses and other current liabilities consisted of the following:

	March 31, 2008	December 31, 2007
(Dollars in thousands)		
Payroll, commissions and related employee benefits	\$ 14,219	\$ 15,658
Taxes	665	15,829
Rent and lease liabilities	3,124	1,921
Interest payable	6,114	2,453
Professional fees	4,389	1,120
Divestiture reserves	5,570	5,061
Other	7,664	6,949
	\$ 41,745	\$ 48,991

Note 8. Long-Term Debt

Long-term debt consisted of the following:

	March 31, 2008	December 31, 2007
(Dollars in thousands)		
Borrowings under bank credit facilities	\$ 249,375	\$ 250,000
8% Senior Notes Due 2013	2,576	2,576
	251,951	252,576
Obligation under capital leases	149	261
	252,100	252,837
Less: Current maturities of long-term debt	5,221	5,262
	\$ 246,879	\$ 247,575

Bank Credit Facilities

The bank credit facilities consisted of the following as of March 31, 2008:

	Revolver	Term B	Total
(Dollars in thousands)			
Bank credit facilities	\$ 100,000	\$ 249,375	\$ 349,375

Edgar Filing: PRIMEDIA INC - Form 10-Q

Borrowings outstanding		(249,375)	(249,375)
Letters of credit outstanding	(8,168)		(8,168)
Unused bank commitments	\$ 91,832	\$	\$ 91,832

8% Senior Notes

On April 15, 2008, the Company announced its intent to redeem the remaining 8% Senior Notes on May 15, 2008 and has included the outstanding balance in current maturities of long-term debt on the condensed consolidated balance sheet as of March 31, 2008.

Covenant Compliance

Under the most restrictive covenants contained in the bank credit facilities agreement, the maximum allowable total leverage ratio, as defined in the agreement, is 5.25 to 1. As of March 31, 2008, this leverage ratio was approximately 2.9 to 1.

Table of Contents**Note 9. Income Taxes**

The Company's effective tax rate on income from continuing operations for the quarter ended March 31, 2008 was 31.2% compared to (30.8)% for the quarter ended March 31, 2007. Total tax expense from continuing operations for the quarter ended March 31, 2008 was \$1.0 million, comprised of minimum state tax expense, expense related to the adjustment of FIN 48 reserves for prior years' uncertain tax positions, expense related to the amortization of indefinite lived intangible assets and a benefit from adjustment of the valuation allowance related to the reversal of previously unrecognized deferred tax assets utilized against taxable income.

After consideration of the available evidence, management has determined that it is more likely than not (a likelihood of more than 50%) that all of the Company's income tax benefit from its net deferred tax assets at March 31, 2008 will not be realized within a relatively short period. Accordingly, the Company has recorded a valuation allowance against its deferred tax assets. The valuation allowance exceeds the net deferred tax assets to the extent the difference between the book and tax basis of indefinite-lived intangible assets is not expected to reverse during the net operating loss carryforward period. However, taxable income in future periods may result in a reduction of the valuation allowance to the extent of the income tax expense on the taxable income.

Approximately \$1.4 million of the valuation allowance at March 31, 2008 relates to net deferred tax assets which were recorded in accounting for the previously completed acquisitions of various entities. The recognition of such amount in the future will be allocated to reduce goodwill and other non-current intangible assets.

The Company is currently under audit by various state and local taxing authorities. It is possible that one or more of these state and local tax examinations will be settled during the next twelve months. If any of these settlements do occur within the next twelve months, the Company would make any necessary adjustments to the liability for unrecognized tax benefits. Items that may cause changes to unrecognized tax benefits include the consideration of filing requirements in various states, the allocation of income and expense between tax jurisdictions, and changes in tax laws, regulations and other guidance across one or more of many jurisdictions. These changes could result from the settlement of ongoing litigation, the completion of ongoing examinations, the expiration of the statutes of limitations or other unforeseen circumstances. On the basis of present information, it is the opinion of the Company's management that any assessments resulting from the current examinations will not have a material impact on the Company's current FIN 48 liability. The statute of limitations in select state and local jurisdictions is expected to expire during 2008 and may result in a decrease of unrecognized tax benefits and accrued interest, related to the Company's expense allocation methodology, of \$0.1 million.

The total amount of unrecognized tax benefits as of March 31, 2008 was \$78.8 million. This unrecognized benefit decreased by \$13.9 million during the three months ended March 31, 2008, primarily related to NOLs arising from the timing of the Company's tax basis recovery in intangible assets, which were divested during the period. The benefit arising from the decrease was offset primarily by an increase in valuation allowance due to uncertainty of realization of the NOLs in future periods. Approximately \$20.3 million of the \$78.8 million in unrecognized benefits would, if recognized, have an impact on the effective income tax rate, while approximately \$58.5 million would not. As of March 31, 2008, the Company's recorded FIN 48 liability was \$23.1 million, which included \$2.8 million of interest.

During the three months ended March 31, 2008, the Company recorded a net increase in interest accrued under FIN 48 of \$0.4 million, inclusive of amounts related to divestitures, as an increase in income taxes. It also recorded a net increase in the valuation allowance of approximately \$2.0 million during the same period. The valuation allowance increase was primarily related to the benefit of current year realization of deferred tax assets, offset by the current year tax expense on pre-tax income from continuing operations and the reduction of the FIN 48 NOL reserves.

Note 10. Provision for Restructuring Costs

In the second quarter of 2007, the Company's management approved a plan to reduce its annual corporate overhead expenses to an amount appropriate to service its continuing Consumer Guides operations and relocate its corporate headquarters from New York to Norcross, GA, where its Consumer Guides business is located. The Company expects to complete this plan by May 31, 2008. The total expected cost of this plan is \$6.2 million, of which \$6.1 million has been incurred as of March 31, 2008. The impact of this plan is reflected within employee-related termination costs in the tables below. The employee-related termination costs are expected to be paid in the second quarter of 2008.

Table of Contents

Details of the plans implemented and the related payments during the three months ended March 31, 2008 and 2007 are presented in the following tables:

	Liability as of January 1, 2008	Net Provision for the Three Months Ended March 31, 2008 (Dollars in thousands)	Payments During the Three Months Ended March 31, 2008	Liability as of March 31, 2008
Employee-related termination costs	\$ 4,905	\$ 451	\$ (3,895)	\$ 1,461
Termination of leases related to office closures and other	20,441	45	297	20,783
Total	\$ 25,346	\$ 496	\$ (3,598)	\$ 22,244

	Liability as of January 1, 2007	Net Provision for the Three Months Ended March 31, 2007 (Dollars in thousands)	Payments During the Three Months Ended March 31, 2007	Liability as of March 31, 2007
Employee-related termination costs	\$ 9	\$ 255	\$ (94)	\$ 170
Termination of leases related to office closures and other	24,684	1,653	(1,602)	24,735
Write-off of leasehold improvements, prepaid rent and lease-related liabilities		(319)	319	
Total	\$ 24,693 (1)	\$ 1,589	\$ (1,377)	\$ 24,905 (1)

(1) Excludes liabilities related to discontinued operations of \$3.8 million and \$1.8 million as of March 31, 2007 and January 1, 2007, respectively.

Included in termination of leases related to office closures and other is the Company's remaining liability related to real estate lease commitments for space that it no longer occupies. To reduce the lease-related costs, the Company has aggressively pursued subleases of its available office space. These leases have been recorded at their net present value amounts and are net of sublease income amounts. The liability pertains to various restructuring plans initiated prior to 2006 and is expected to be paid through 2015. The only remaining expenses related to those plans are the imputed interest related to the rental payments, which is recorded in interest expense, and adjustments that may arise in sublease income. Those expenses are not presently expected to be material in future periods. The Company evaluates the adequacy of its restructuring liability on a quarterly basis.

As a result of the implementation of the plans, the Company has closed eight office locations and has notified a total of 170 employees that they would be terminated. As of March 31, 2008, 166 employees have been terminated.

Liabilities of \$2.9 million and \$5.5 million representing the current portion of the provision for restructuring costs are included in accrued expenses and other on the condensed consolidated balance sheet as of March 31, 2008 and December 31, 2007, respectively. Liabilities of \$19.3 million and \$19.8 million representing the non-current portion of the provision for restructuring costs are included in other non-current liabilities on the condensed consolidated balance sheet as of March 31, 2008 and December 31, 2007, respectively.

Note 11. Income (Loss) per Common Share

Income (loss) per common share for the three months ended March 31, 2008 and 2007 has been determined based on income (loss) applicable to common stockholders, divided by the weighted-average number of common shares outstanding for all periods presented.

Table of Contents

	Three Months Ended March 31,	
	2008	2007
	(Amounts in thousands, except per share data)	
Income (loss) from continuing operations	\$ 2,214	\$ (13,175)
Discontinued operations, net of tax	11,383	117,829
Net income	\$ 13,597	\$ 104,654
Shares of common stock and common stock equivalents		
Weighted-average shares used in basic computation	44,172	44,087
Dilutive effect of:		
Unvested restricted stock	20	
Warrants	12	
Weighted-average shares used in diluted computation	44,204	44,087
Basic and diluted (loss) per common share:		
Continuing operations	\$ 0.05	\$ (0.30)
Discontinued operations	0.26	2.68
Net income	\$ 0.31	\$ 2.38

The securities that could potentially dilute basic income per share in the future consist of approximately 1.6 million warrants as of March 31, 2008 and 2007 and 2.8 million and 3.2 million stock options and nonvested shares as of March 31, 2008 and 2007, respectively. For the three months ended March 31, 2008, potentially dilutive securities, including 2.8 million stock options and 1.6 million warrants to purchase common stock, were not included in the computation of diluted income per common share because their strike price was greater than the average market price of the Company's common stock during the period, and their inclusion would have been anti-dilutive. For the three months ended March 31, 2007, potentially dilutive securities were not included in the computation of diluted income per common share because the effect of their inclusion would be anti-dilutive due to the Company's loss from continuing operations.

Note 12. Other Comprehensive Loss

Other comprehensive loss was represented by unrealized losses on cash flow hedges as follows:

	Before-Tax Amount	Tax Benefit	Net of Tax Amount
	(Dollars in thousands)		
Three Months Ended March 31, 2008			
Net unrealized losses on cash flow hedges	\$ (3,599)	\$	\$ (3,599)
Other comprehensive loss	\$ (3,599)	\$	\$ (3,599)

There were no components of other comprehensive income (loss) during the three months ended March 31, 2007.

Table of Contents**Note 13. Derivative Financial Instruments**

The following is a summary of all of the Company's derivative financial instrument positions, all of which were designated in effective cash flow hedging relationships:

	March 31, 2008		December 31, 2007		
	Notional Value	Derivative Asset	Derivative Liability	Derivative Asset	Derivative Liability
(Dollars in thousands)					
Cash Flow Hedges (hedged item)					
Interest rate swaps (debt)	\$ 200,000	\$	\$ 6,026	\$ 200,000	\$ 2,427

The total change in fair value of hedging instruments attributable to the ineffective portion of effective hedging relationships recorded as an adjustment to interest expense during the three months ended March 31, 2008 was less than \$0.1 million. The Company had no derivative financial instruments during the three months ended March 31, 2007. Derivative liabilities are included in other non-current liabilities on the condensed consolidated balance sheet.

Note 14. Commitments and Contingencies

The Company is involved in ordinary and routine legal proceedings incidental to its business. The result of any legal proceedings is inherently unpredictable. However, management believes that the outcome of all such proceedings will not have a material adverse effect on the Company's long-term consolidated financial position, liquidity or results of operations; though the ultimate outcome of any of such matters could be material to the Company's operating results in any given period in which costs or awards, if any, are recognized or otherwise determined.

Workplace Learning

In 2005, the Company sold substantially all of the assets of Workplace Learning for the assumption of ongoing liabilities, while retaining a secondary liability as the assignor of the building and satellite time leases. The Company received a third-party guaranty of up to \$10.0 million against those lease obligations to reimburse the Company for lease payments made (the Guaranty). In the first half of 2006, the Company made payments on behalf of Workplace Learning pursuant to its secondary liability. During the second quarter of 2006, the Company recorded a liability for the fair value of the lease payments, net of sublease income, related to its secondary liability on the lease payments. At that time, the Company also recorded a receivable of \$10.0 million for the amount due from the third-party guarantor for the lease payments. As a result of recording the receivable and liability during the second quarter of 2006, the Company recorded a charge of approximately \$7.2 million to discontinued operations. In the second half of 2006, the Company commenced a lawsuit to collect on the Guaranty. During the fourth quarter of 2006, the Company determined that it was not probable that the third party would remit payment, as required under the Guaranty, and fully reserved for the \$10.0 million receivable with a charge to discontinued operations as of December 31, 2006. The Company continues to exercise all available legal remedies against the third-party guarantor and to fulfill its secondary obligation regarding the Workplace Learning leases. As of December 31, 2007, the satellite time lease had expired.

As of March 31, 2008, the Company has recorded a total liability of \$12.8 million for the fair value of the future lease payments, net of estimated sublease income, in the condensed consolidated balance sheet. Each month, the Company's liability is reduced either by fulfilling its secondary liability as the assignor of the building lease or due to assignee's performance under the terms of the lease, which results in income for the Company. During the three months ended March 31, 2008, as a result of the assignee's performance, the Company recorded \$1.2 million in income, which is included in discontinued operations.

Derivative Litigation

The Company is named as a nominal defendant in a consolidated stockholder derivative action pending in the Court of Chancery of the State of Delaware under the caption *In re PRIMEDIA Inc. Derivative Litigation, Consolidated C.A. No. 1808-N. Kohlberg Kravis Roberts & Co., L.P.* (KKR), and certain present and former PRIMEDIA directors of the Company are also named as defendants. Plaintiffs allege that KKR and the Company's Board of Directors breached their fiduciary duties to the Company in connection with PRIMEDIA's redemption of certain shares of its preferred stock in 2004 and 2005. On November 15, 2006, the Court denied separate motions to dismiss filed by the director defendants and KKR, and, on January 18, 2007, all defendants answered the then operative complaint. On May 23, 2007, the Company's Board of Directors formed a Special Litigation Committee (the SLC) of independent,

Table of Contents

non-defendant directors with full and sole authority to investigate, review and take action with respect to the plaintiffs' claims in the derivative litigation. On September 7, 2007, plaintiffs filed a Second Amended and Consolidated Derivative Complaint (SAC), which, in addition to the allegations discussed above, further alleges that KKR usurped a corporate opportunity of the Company in 2002 by purchasing shares of PRIMEDIA preferred stock at discounts on the open market while causing the Company to refrain from doing the same. On February 28, 2008, the SLC filed a motion to dismiss the SAC and, in support of the motion, its report (filed under seal) concluding that the pursuit of the claims asserted by plaintiffs does not make legal, practical or business sense. Plaintiffs are currently seeking discovery from the SLC in reference to its report and motion to dismiss the SAC.

Indemnifications

The Company is a party to contracts in which it is common for it to agree to indemnify third parties for certain liabilities that arise out of or relate to the subject matter of the contract. In some cases, this indemnity extends to related liabilities arising from the negligence of the indemnified parties but usually excludes any liabilities caused by gross negligence or willful misconduct. The Company cannot estimate the potential amount of future payments under these indemnities until events arise that would trigger a liability under the indemnities.

In connection with the sale of assets and the divestiture of businesses, the Company generally agrees to indemnify the buyer and related parties for certain losses or liabilities incurred by the buyer with respect to: (i) the representations and warranties made by the Company to the buyer in connection with the sale and (ii) liabilities related to the pre-closing operations of the assets sold. Indemnities related to pre-closing operations generally include tax liabilities and other liabilities not assumed by the buyer in the transaction.

Indemnities related to the pre-closing operations of sold assets normally do not represent additional liabilities to the Company but simply serve to protect the buyer from potential liability associated with the Company's obligations existing at the time of the sale. As with any liability, the Company has previously accrued for those pre-closing obligations that are considered probable and reasonably estimable. The Company has not accrued any additional amounts as a result of indemnities which result from asset sales and divestitures. Should circumstances change, increasing the likelihood of payments related to a specific indemnity, the Company will accrue a liability when future payment is probable and the amount is reasonably estimable.

Note 15. Financial Information for Guarantors of the Company's Debt

The information that follows presents condensed consolidating financial information as of March 31, 2008 and December 31, 2007 and for the three months ended March 31, 2008 and 2007 for (i) PRIMEDIA Inc. (as the Issuer), (ii) the guarantor subsidiaries, which are, with limited exceptions, the restricted subsidiaries, represent the core PRIMEDIA businesses and exclude investment and other development properties included in the unrestricted category, (iii) the non-guarantor subsidiaries (primarily representing Internet assets and businesses, new launches and other properties under evaluation for turnaround or shutdown and foreign subsidiaries), which are, with limited exceptions, the unrestricted subsidiaries, (iv) elimination entries and (v) the Company on a consolidated basis. Corporate operating expenses have been included in the operations of the guarantor subsidiaries. These reclassifications are in compliance with the Company's debt agreements and have not had a material effect on its debt covenant ratios as defined in the bank credit facilities. The Company believes that this presentation more accurately reflects the financial information of the categories presented below.

The consolidating financial information includes certain allocations of revenues, expenses, assets and liabilities based on management's best estimates, which are not necessarily indicative of financial position, results of operations and cash flows that these entities would have achieved on a stand-alone basis and should be read in conjunction with the condensed consolidated financial statements of the Company. The intercompany balances in the accompanying condensed consolidating financial statements include cash management activities, management fees, cross promotional activities and other intercompany charges between PRIMEDIA Inc. and the business units and among the business units. The non-guarantor subsidiary results of operations include: internet operations, foreign operations, certain distribution operations, certain start-up magazine businesses, revenues and related expenses derived from the licensing of certain products of guarantor subsidiaries and expenses associated with the cross promotion by the guarantor subsidiaries of the activities of the non-guarantor subsidiaries. The transactions described above are billed by the Company at what the Company believes are market rates. All intercompany related activities are eliminated in consolidation. Consumer Source Inc. (formerly known as PRIMEDIA Companies Inc.) includes all of the businesses and related operations of PRIMEDIA Inc. The operating results of Consumer Source Inc. are the same as consolidated PRIMEDIA Inc., and their balance sheets are substantially the same, except that PRIMEDIA Inc. holds all of the Company's bank credit facilities, senior notes indebtedness, capital stock accounts and other miscellaneous balance sheet accounts.

Table of Contents

The Company is herewith providing detailed information and disclosure as to the methodology used in determining compliance with the leverage ratio in the bank credit facilities agreement. Under its bank credit facilities and senior note agreements, the Company is allowed to designate certain businesses as unrestricted subsidiaries to the extent that the value of those businesses does not exceed the permitted amounts, as defined in these agreements. The Company has designated certain of its businesses as unrestricted (the Unrestricted Group), which primarily represent Internet businesses, trademark and content licensing and service companies, new launches (including traditional start-ups), other properties under evaluation for turnaround or shutdown, and foreign subsidiaries. Except for those specifically designated by the Company as unrestricted, all businesses of the Company are restricted (the Restricted Group). Indebtedness under the bank credit facilities and senior note agreements is guaranteed by each of the Company's 100%-owned domestic subsidiaries in the Restricted Group in accordance with the provisions and limitations of the Company's bank credit facilities and senior note agreements. The guarantees are full, unconditional, and joint and several. The Unrestricted Group does not guarantee the bank credit facilities or senior notes. Although Automotive.com is included in the Restricted Group under the bank credit facilities agreement, it does not guarantee the debt. For purposes of determining compliance with certain financial covenants under the Company's bank credit facilities, the Unrestricted Group's results (positive or negative) are not reflected in the consolidated earnings before interest, taxes depreciation and amortization (EBITDA) of the Restricted Group, which, as defined in the bank credit facilities agreement, excludes losses of the Unrestricted Group, non-cash charges and restructuring charges and is adjusted primarily for the trailing four quarters' results of acquisitions and divestitures and estimated savings for acquired business.

Note 16. Subsequent Events

Resignation of President and Chief Executive Officer

Effective April 25, 2008, the Company's then President and Chief Executive Officer tendered his resignation. In connection with his resignation, the Company has offered to make severance payments to him consistent with amounts that would have been payable to him under his severance agreement had his employment been terminated without cause. The Company has accrued compensation expense of \$1.4 million in the second quarter of 2008 representing amounts payable to him over the next 18 months.

Cash Dividend Declared

On May 7, 2008, the Company's Board of Directors declared a cash dividend of \$0.07 per share of the Company's common stock, payable on June 11, 2008 to stockholders of record on May 19, 2008.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Introduction

In this Report, the words PRIMEDIA, Company, we, us and our mean PRIMEDIA Inc., including its subsidiaries, unless the context otherwise specifies or requires. On August 1, 2007, we effected a one-for-six reverse stock split of our common stock. After the reverse stock split was effected, each PRIMEDIA stockholder received one new share of PRIMEDIA common stock in exchange for every six existing shares of PRIMEDIA common stock. For all periods presented in this Form 10-Q, which we refer to as this Report, effect has been given to the impact of the reverse stock split on the amounts reported for shares, including sales price, warrants, stock options and nonvested stock, and earnings (loss) and dividends per share.

During 2007, we completed the sale of our Enthusiast Media segment and classified the results of operations of our Auto Guides division as discontinued operations, due to our intent to dispose of the Auto Guides division by June 2008. During the first quarter of 2008, we sold certain assets and liabilities of our previously discontinued Education segment and shut down the remaining operations. The results of operations of the Enthusiast Media and Education segments and the Auto Guides division have been presented as discontinued operations for all periods presented.

This document contains forward-looking statements that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as expects, anticipates, intends, plans, believes, seeks or will. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties which could adversely or positively affect our future results include, among others: general economic trends and conditions and, in particular, trends and conditions in the apartment leasing and new home sales sectors of the residential real estate industry; changes in technology and competition; the implementation and results of our ongoing strategic initiatives; the demand by customers for our premium services; expenses of or adverse results from litigation; increases in paper costs; and numerous other matters of national, regional and local market scale, including those of a political, economic, business, competitive and regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.

The following discussion and analysis summarizes our financial condition and results of operations during the three months ended March 31, 2008 and 2007 and should be read in conjunction with our unaudited condensed consolidated financial statements and notes thereto included elsewhere in this Report.

Executive Summary

We are an integrated media company that publishes and distributes advertising-supported print and online consumer guides, primarily for the apartment leasing and new home sectors of the residential real estate industry. Our guides are provided free of charge to end users. During the first quarter of 2008, we distributed approximately 6.2 million of our print guides to approximately 60,000 U.S. locations through our proprietary distribution network, DistribuTech. While DistribuTech exists to facilitate the distribution of our print guides, it also provides distribution services to more than 3,000 third-party publications. Our principle digital assets include the websites associated with our print publications, as well as Rentals.com, our single unit real estate rental product line.

Business Trends and Outlook

Our Apartment Guide business remains stable and continues to exhibit steady growth. Occupancy rates have moved to more normalized levels in most of our markets. However, we do not expect significant additional apartment inventory in 2008, as construction levels remain low. With respect to our Rentals.com business, we expect to focus on improving site engineering and performance and driving traffic through search engine optimization. We will continue to pursue and invest in growth opportunities for these businesses in a strategic and thoughtful manner, looking at initiatives such as online enhancements to our product portfolio and selective market expansion.

Weakness in the new home sales sector has continued in 2008, and we intend to continue prudently managing our cost structure to operate our New Homes division as efficiently as possible. We believe pressure in this business will continue to increase over the near term and remain challenging throughout the year. During the first quarter, we suspended the publication of our Atlanta Professional Home Guide. It may be necessary to suspend additional publications in a small number of markets, if conditions worsen. At the same time, we are also focused on strengthening our client relationships to best position us for when this sector improves.

Table of Contents

Our distribution function continues to be impacted by higher retail display allowance expenses due to expansion of retail locations and by lost revenue from third-party customers who publish free publications, particularly those within the resale home sector who are scaling back or ceasing operations. We do not publish any products for the resale home sector. We will continue to focus on diversifying our customer base and further optimizing our distribution network by eliminating retail locations that are not sufficiently accretive to our advertising revenue.

Transition Plan

We are in the process of relocating our corporate headquarters from New York to Norcross, Georgia, where our Consumer Guides business is based. We expect to continue certain of our New York-based functions and incur their associated costs through the second quarter of 2008.

Internal Control Over Financial Reporting

As is more fully discussed in our Annual Report on Form 10-K for the year ended December 31, 2007, management concluded that, as of December 31, 2007, there were material weaknesses in internal control over financial reporting as it relates to our accounting for income taxes and cash and cash equivalents and available for sale securities.

As of March 31, 2008, we do not believe the material weaknesses have been remediated, but we are actively engaged in the implementation of remediation efforts to address them. We have added personnel to our tax department who possess subject matter expertise and experience and have enhanced processes and internal controls to ensure that the accounting for the provision for income taxes and related income tax balances is in accordance with accounting principles generally accepted in the U.S. (GAAP). We are also in the process of designing and implementing controls to ensure the proper presentation and disclosure of available for sale securities on our consolidated balance sheet and statement of cash flows. Enhancements are expected to include an update to our investment policy, better communication within the organization regarding investment transactions and an increased level of review for investment transactions. In the meanwhile, we have intensified our review of amounts associated with the reporting of income taxes, cash and cash equivalents, and available for sale securities to include multiple levels of management.

Until such material weaknesses are remediated, it is reasonably possible that these material weaknesses could result in a material misstatement of the provision for income taxes and the related income tax balances, as well as cash and cash equivalents and available for sale securities in our annual or interim consolidated financial statements that would not be prevented or detected on a timely basis.

Note 1 to the condensed consolidated financial statements describes the impact on our condensed consolidated financial statements as of and for the three months ended March 31, 2007 of errors resulting from these material weaknesses.

Three Months Ended March 31, 2008 Summary Consolidated Results

Total revenue, net increased 0.8% year-over-year, reflecting a 2.5% increase in advertising revenue from Apartments and a 1.1% increase in distribution revenue, partially offset by a 6.6% decline in advertising revenue from New Homes.

Operating income declined 5.3% year-over-year due to:

\$1.3 million of fees and expenses related to a derivative lawsuit, which are expected to be offset by an insurance recovery for the same matter in the second quarter;

Higher distribution costs as a result of our 2007 expansion of our retail distribution network;

An increase in bad debt expense related to former customers of DistribuTech and New Homes; and

Edgar Filing: PRIMEDIA INC - Form 10-Q

Higher depreciation costs due to internal-use software placed in service. These were partially offset by higher revenue and lower cash and non-cash compensation expense, resulting from a reduction in headcount, and lower restructuring costs.

Table of Contents

Net income decreased \$91.1 million due to the first quarter 2007 gain on the sale of the Outdoor Group and lower operating income, partially offset by a reduction in interest expense from our lower debt level and a tax benefit to discontinued operations.

	2008	2007		
	(Dollars in thousands)			
Advertising	\$ 63,573	\$ 63,137	\$ 436	0.7%
Distribution	13,915	13,763	152	1.1
Total revenue, net	\$ 77,488	\$ 76,900	\$ 588	0.8%

Revenue increased primarily due to an expansion in the number of apartment communities served and an increase in the number of rack pockets sold to third parties, partially offset by a decrease in revenue from New Home Guide. Our Apartment Guide achieved quarter-over-quarter growth as it continues to benefit from condominium conversions and decreased vacancy rates.

Advertising Revenue

Advertising Revenue Component	For the Three Months Ended March 31,		\$ Change Favorable/ (Unfavorable)	% Change Favorable/ (Unfavorable)
	2008	2007		
	(Dollars in thousands)			
Apartments	\$ 51,967	\$ 50,705	\$ 1,262	2.5%
New Homes	11,606	12,432	(826)	(6.6)
Total advertising revenue, net	\$ 63,573	\$ 63,137	\$ 436	0.7%

Apartments

Apartment Guide, ApartmentGuide.com and Rentals.com, representing approximately 82% of advertising revenue during the three months ended March 31, 2008, experienced an increase in revenue compared to the same period in 2007, primarily due to a 2.4% increase in apartment communities that we serve and a 0.9% increase in revenue per community served.

During the three months ended March 31, 2008, Apartment Guide benefited from reductions in occupancy rates across most of its markets. Only 10% of the first quarter 2008 revenue from Apartment Guide was derived from markets that, at March 31, 2008, had high occupancy rates, which we consider to be 95% or higher. This compares to 30% at March 31, 2007. In our current Apartment Guide markets, occupancy rates range from 78.5% to 97.1% at March 31, 2008, with an average of 92.6%. This compares to an average of 93.8% at March 31, 2007. The increase in revenue per community served was driven by premium online product upgrades and a slight year-over-year increase in standard advertising rates.

Apartments continues to benefit from our actions to strengthen client relationships and promote the value of blended media, while providing clients with advertising tools to better track results and demonstrate our effectiveness in generating customer leads and leases. In addition, we are exploring opportunities to expand into new markets, including the Greenville, SC Apartment Guide started during the first quarter of 2008, by leveraging our existing distribution capabilities.

Table of Contents**New Homes**

The New Home Guide/NewHomeGuide.com business, representing approximately 18% of advertising revenue during the three months ended March 31, 2008, decreased 6.6% compared to the same period in 2007. The decrease in revenue was primarily due to a 6.1% decrease in new home communities served and a 0.6% decrease in revenue per community served. These resulted from ongoing declines in premium advertising spending by many new home builders, driven by continued weakness in the new home sales sector.

The difficult conditions for new home builders continued to cause further pressure in the first quarter of 2008, as the challenging mortgage environment, declining home prices and high inventory levels worsened. In response to this environment, in January 2008, we suspended publication of our Atlanta Professional Home Guide.

Distribution Revenue

Distribution revenue, which relates to our distribution arm, DistribuTech, increased by 1.1% during the three months ended March 31, 2008 compared to the same period in 2007. This increase was primarily attributable to a 4.7% increase in the number of pockets sold in our display racks. This growth was slightly offset by a 3.4% decrease in the average revenue per pocket, as most of the new pockets sold were in the lower levels of our racks, which command less revenue than the more desirable upper level. Our growth in distribution revenue was outpaced by the growth in our distribution costs resulting from the addition of new retail locations and the extension of national grocery chain relationships. As anticipated, distribution revenue grew at a slower pace than the fourth quarter of 2007, primarily due to the continued impact of lost business from publishers within the resale home sector scaling back or ceasing operations.

Operating Expenses

Other Expenses Component	For the Three Months Ended March 31,		\$ Change (Favorable)/ Unfavorable	% Change (Favorable)/ Unfavorable
	2008	2007	(Dollars in thousands)	
Cost of goods sold (exclusive of depreciation and amortization of property and equipment)	\$ 7,061	\$ 7,311	\$ (250)	(3.4)%
Marketing and selling	20,158	20,362	(204)	(1.0)
Distribution and circulation	21,177	19,588	1,589	8.1
General and administrative expenses	14,554	14,180	374	2.6
Editorial	1,683	1,435	248	17.3
Depreciation and amortization of property and equipment	3,316	2,951	365	12.4
Amortization of intangible assets	755	736	19	2.6
Provision for restructuring costs	496	1,589	(1,093)	(68.8)
Total operating expenses	\$ 69,200	\$ 68,152	\$ 1,048	1.5%

The increase in operating expenses was primarily due to increases in distribution and circulation, general and administrative expenses, and depreciation and amortization of property and equipment, partially offset by a reduction in provision for restructuring costs. Distribution and circulation expenses increased due to extending national grocery chain and drugstore relationships. The first three months of 2007 did not include the full impact of these costs. General and administrative expenses include the costs associated with the transition of various functions comprising corporate overhead from New York to Norcross, GA. The change in this category was due to \$3.5 million in transition-related costs. Also included is \$1.3 million in fees and expenses incurred during the quarter in connection with a derivative lawsuit that is further discussed in Note 14, Commitments and Contingencies, to the condensed consolidated financial statements. Under the coverage of our primary directors and officers liability insurance, we expect to recover, in the second quarter, approximately \$1.7 million of certain costs incurred prior to 2008 in defending these claims. These increases were partially offset by reductions in corporate overhead of \$4.6 million. Depreciation and amortization of property and equipment increased primarily as a result of internal-use software being placed in service. The provision for restructuring costs decreased due to the elimination of certain positions during the three months ended March 31, 2007.

Table of Contents*Other Expenses*

Other Expense Component	For the Three Months Ended March 31,		\$ Change Favorable/ (Unfavorable)	% Change Favorable/ (Unfavorable)
	2008	2007		
	(Dollars in thousands)			
Interest expense	\$ (5,002)	\$ (29,080)	\$ 24,078	82.8%
Amortization of deferred financing costs	(242)	(584)	342	58.6
Other income (expense), net	172	1,866	(1,694)	(90.8)
Total other expenses	\$ (5,072)	\$ (27,798)	\$ 22,726	81.8%

Interest expense decreased primarily due to lower average debt levels, as during the third quarter of 2007, we repaid all \$492.5 million in principal of our term loan, redeemed all \$410.0 million in principal of our 8⁷/₈% Senior Notes due 2011, redeemed \$292.2 million in principal of our 8% Senior Notes due 2013 (the 8% Senior Notes) and redeemed all \$122.5 million in principal of our Senior Floating Rate Notes due 2010. To a lesser extent, the decrease was also attributable to slightly lower interest rates in the first three months of 2008 compared to the same period of 2007.

The decrease in other income (expense), net was due to a decrease in income earned on our cash balances and available for sale securities. During first quarter of 2008, our average cash balances and available for sale securities were lower during the comparable period in 2007.

Discontinued Operations

In accordance with GAAP, we have classified the operating results of our divested entities and entities to be divested as of March 31, 2008 as discontinued operations in the condensed consolidated statement of operations for all periods presented.

Discontinued operations includes the operations of the Enthusiast Media segment, which was discontinued in the first quarter of 2007 and the Education segment, which was discontinued in the fourth quarter of 2006. The Education segment was comprised of Channel One, Films Media Group and PRIMEDIA Healthcare. We completed the sales of Channel One and Films Media Group during the second quarter of 2007. On August 1, 2007, we completed the sale of our Enthusiast Media segment. During the first quarter of 2008, we sold certain assets and liabilities of PRIMEDIA Healthcare and shut down the remaining operations.

In the fourth quarter of 2007, we classified the results of operations of our Auto Guides division as discontinued operations, due to our intent to dispose of the Auto Guides division by June 2008.

Discontinued operations for the three months ended March 31, 2008 and 2007 includes revenue of \$1.8 million and \$149.2 million, respectively, and operating (loss) income of \$(2.3) million and \$73.8 million, respectively, which includes gain on sale of businesses. The gain on sale of businesses, net of tax, was \$0.1 million and \$43.5 million for the three months ended March 31, 2008 and 2007, respectively.

In 2005, we sold substantially all of the assets of Workplace Learning for the assumption of ongoing liabilities, while retaining a secondary liability as the assignor of the building and satellite time leases. In the first half of 2006, we made payments on behalf of Workplace Learning pursuant to our secondary liability, and during the second quarter of 2006, we recorded a liability for the fair value of the lease payments, net of sublease income, related to our secondary liability on the lease payments. As of December 31, 2007, the satellite time lease had expired. Each month, our liability is reduced either by fulfilling our secondary liability as the assignor of the building lease or due to assignee's performance under the terms of the lease, which results in income for us. During the three months ended March 31, 2008, as a result of the assignee's performance, we recorded \$1.2 million in income, which is included in discontinued operations.

During the three months ended March 31, 2008, we recognized a tax benefit of \$11.3 million in discontinued operations as a result of our ability to carry back a projected 2008 net operating loss (NOL) against taxes paid on a portion of the 2007 gain on divestitures of certain subsidiaries. The current year NOL arises primarily from the reversal of differences between the book and tax basis in a group of PRIMEDIA Healthcare intangible assets triggered by the sale of those assets during the three months ended March 31, 2008. Further adjustments to the tax benefit reported in discontinued operations related to the NOL carry back, and adjustments to our valuation allowance, are possible as estimations regarding 2008 taxable income change.

Table of Contents

Liquidity, Capital and Other Resources

As of March 31, 2008, we had cash and unused credit facilities of \$99.0 million, as further detailed below under *Financing Arrangements*, compared to \$106.4 million as of December 31, 2007. The use of this cash and unused credit facilities is subject to customary conditions contained in our debt agreements.

We have required debt repayments, including capital leases, of \$5.2 million during the next 12 months. We believe our liquidity, capital resources and cash flows from operations are sufficient to fund planned capital expenditures, working capital requirements, interest and principal payments on our debt and other anticipated expenditures for the foreseeable future. We have no significant required debt repayments until 2014.

Working Capital

Consolidated working capital, which includes current maturities of long-term debt, was \$(5.6) million as of March 31, 2008, compared to \$(0.3) million at December 31, 2007. The decrease in working capital was primarily due to a dividend payment of \$3.1 million.

Cash Flow Three Months Ended March 31, 2008 Compared to Three Months Ended March 31, 2007

Net cash used in operating activities was \$16.6 million in the three months ended March 31, 2008, compared to net cash generated from operating activities of \$3.9 million in the three months ended March 31, 2007. This decrease was primarily due to increased retail display allowances, the settlement of post-Enthusiast Media sale obligations, including severance, bonuses and incremental income taxes, and the absence of cash flows from businesses divested after the first quarter of 2007. Cash used in operating activities was partially offset by a decrease in cash paid for interest due to a lower average balance of debt outstanding during 2008 and, to a lesser extent, lower interest rates. For purposes of calculating cash provided by or used in operating activities, discontinued operations are included until sold or shut down; therefore, these discontinued operations did not contribute to operating activities for the full year in which the sale occurred.

Net cash provided by investing activities was \$12.9 million during the three months ended March 31, 2008 compared to \$60.7 million during the same period in 2007. This decrease was primarily due to the sale of the Outdoors group part of Enthusiast Media, which was partially offset by net purchases of available for sale securities in the first quarter of 2007. The proceeds from the sale of businesses (net of payments related to the sale of business) decreased approximately \$169.8 million in the first quarter of 2008, while we sold all of our available for sale securities during the same period. We expect capital spending in 2008 to remain relatively consistent with the 2007 spend.

Net cash used in financing activities was \$3.8 million during the three months ended March 31, 2008 compared to \$3.7 million during the same period in 2007. This increase in use of cash during the first three months of 2008 primarily relates to a \$3.1 million dividend paid on our common stock, substantially offset by lower net repayments of borrowings under credit agreements.

Why We Use the Term Free Cash Flow

Free cash flow is defined as net cash provided by operating activities adjusted for additions to property and equipment and capital lease payments.

We believe that the use of free cash flow enables our chief operating decision maker to make decisions based on our cash resources. We also believe that free cash flow provides useful information to investors as it is considered to be an indicator of our liquidity, including our ability to reduce debt, make strategic investments and pay dividends.

Free cash flow is not intended to represent cash flows from operating activities as determined in conformity with GAAP. Free cash flow, as presented, may not be comparable to similarly titled measures reported by other companies since not all companies necessarily calculate free cash flow in an identical manner, and therefore, is not necessarily an accurate measure of comparison between companies.

Table of Contents

The following table presents our free cash flow:

	Three Months Ended March 31,	
	2008	2007
	(Dollars in thousands)	
Net cash (used in) provided by operating activities	\$ (16,642)	\$ 3,887
Additions to property and equipment	(2,809)	(5,963)
Capital lease payments	(112)	(311)
Free cash flow	\$ (19,563)	\$ (2,387)
Supplemental information:		
Cash paid for interest, including interest on capital and restructured leases	\$ 4,951	\$ 14,033
Cash paid for income taxes, net of refunds received	\$ 15,482	\$ 4,857
Cash paid for restructuring costs, net of sublease receipts	\$ 3,598	\$ 2,093

Our free cash flow during the first three months of 2008 decreased from the first three months of 2007, primarily due to the settlement of post-Enthusiast Media sale obligations, including severance, bonuses and incremental income taxes, and the absence of cash flows from businesses divested after the first quarter of 2007. For purposes of calculating cash provided by or used in operating activities, discontinued operations are included until sold or shut down; therefore, these discontinued operations did not contribute to operating activities for the full year in which the sale occurred.

*Financing Arrangements***Bank Credit Facilities**

Our bank credit facility provides for two loan facilities: (1) a revolving credit facility with aggregate commitments of \$100.0 million (the Revolving Facility), which matures on August 1, 2013, and (2) a Term Loan B credit facility in an aggregate principal amount of \$250.0 million (the Term Loan B Facility), which matures on August 1, 2014 (the Term Loan B Maturity Date).

Amounts borrowed under the Revolving Facility bear interest, at our option, at an annual rate of either the base rate plus an applicable margin ranging from 0.625% to 1.00% or the eurodollar rate plus an applicable margin ranging from 1.625% to 2.00%. The Term Loan B Facility bears interest, at our option, at an annual rate of either the base rate plus an applicable margin ranging from 1.00% to 1.25% or the eurodollar rate plus an applicable margin ranging from 2.00% to 2.25%. The interest rate on the Term Loan B Facility at March 31, 2008 was 4.95%.

There are no scheduled commitment reductions under the Revolving Facility. The loan under the Term Loan B Facility is subject to scheduled repayment in quarterly installments of \$0.6 million payable on March 31, June 30, September 30 and December 31 of each year and commenced on March 31, 2008. The final quarterly installment is scheduled to be paid on June 30, 2014, followed by a final repayment of \$233.8 million on the Term Loan B Maturity Date. Additionally, through August 1, 2009, we are required to manage our interest rate risk arising from the Term Loan B Facility through the utilization of derivative financial instruments in a notional amount equal to at least 35% of the Term Loan B Facility principal outstanding.

Table of Contents

The bank credit facilities consisted of the following at March 31, 2008:

	Revolver	Term B	Total
	(Dollars in thousands)		
Bank credit facilities	\$ 100,000	\$ 249,375	\$ 349,375
Borrowings outstanding		(249,375)	(249,375)
Letters of credit outstanding	(8,168)		(8,168)
Unused bank commitments	\$ 91,832	\$	\$ 91,832

The weighted-average of our commitment fees under the new bank credit facilities during the three months ended March 31, 2008 was 0.30%.

The bank credit facilities agreement, among other things, limits our ability to change the nature of our businesses, incur indebtedness, create liens, sell assets, engage in mergers, consolidations or transactions with affiliates, make investments in or loans to certain subsidiaries, issue guarantees and make certain restricted payments, including dividend payments on or repurchases of our common stock.

8% Senior Notes

The 8% Senior Notes mature on May 15, 2013 with no sinking fund requirements and have interest payable semi-annually in May and November at an annual rate of 8%. On April 15, 2008, we announced our intent to redeem the remaining \$2.6 million in 8% Senior Notes on May 15, 2008 and have included the outstanding balance in current maturities of long-term debt on the condensed consolidated balance sheet as of March 31, 2008. The events of default contained in the 8% Senior Notes are generally less restrictive than those contained in our bank credit facilities.

Interest Rate Swaps

During the second half of 2007, we entered into four interest rate swap agreements, each with a notional amount of \$50.0 million. As of March 31, 2008, all of the interest rate swaps were in designated hedging relationships against the variability of future cash flows due to changes in the benchmark interest rate associated with our Term Loan B Facility. One of the interest rate swaps matures on December 31, 2008; two mature on September 30, 2009; and one matures on December 31, 2009.

Contractual Obligations

The 8% Senior Notes and the bank credit facilities all rank senior in right of payment to all subordinated obligations which PRIMEDIA Inc. (a holding company) may incur. The 8% Senior Notes are secured by a pledge of stock of Consumer Source Inc. (formerly known as PRIMEDIA Companies Inc.).

Our contractual obligations as of March 31, 2008 are as follows:

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 year	1-3 years	4-5 years	After 5 years
		(Dollars in thousands)			
Long-term debt obligations, including current portion	\$ 251,951	\$ 5,076	\$ 5,000	\$ 5,000	\$ 236,875
Interest on long-term debt obligations(1)	95,520	15,693	26,790	31,005	22,032
Capital lease obligations, including current portion	149	145	4		
Interest on capital lease obligations	8	7	1		
Operating lease obligations(2)	148,939	24,148	21,775	19,641	83,375
Workplace Learning lease obligations(3)	12,771	3,415	4,534	3,406	1,416
Total	\$ 509,338	\$ 48,484	\$ 58,104	\$ 59,052	\$ 343,698

- (1) Interest payments are based on our projected interest rates and estimated principal amounts outstanding for the periods presented, giving effect to the interest rate swaps designated in a cash flow hedging relationship against the debt. See Interest Rate Swaps discussion above.
- (2) Future rental commitments for the above operating leases have not been reduced by minimum noncancelable sublease income aggregating \$77.6 million as of March 31, 2008. Operating lease obligations include restructuring liabilities.
- (3) Present value of expected future net payments related to Workplace Learning lease obligations. See *Contingencies and Other* discussion below for further detail.

Table of Contents

The contractual obligations table above does not contain any of our \$78.8 million in unrecognized tax benefits at March 31, 2008, which resulted in a recorded liability of \$23.1 million that has been accrued in accordance with Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, because we are unable to determine when, or if, payment of these amounts will be made.

We had no borrowings outstanding at March 31, 2008 under the revolving loan portion of the bank credit facility. Consequently, no interest payments for the revolving loan portion of the bank credit facility are included in the above table.

We have other commitments in the form of letters of credit of \$8.2 million aggregate face value, which expire on or before March 31, 2009.

A change in the rating of our debt instruments by the outside rating agencies does not negatively impact our ability to use our available lines of credit or the borrowing rate under our bank credit facilities. As of July 2007, our senior debt ratings from Moody's and Standard and Poor's was Ba3 and BB, respectively.

In January 2008, we liquidated \$15.4 million in available for sale securities. On April 15, 2008, we announced our intent to redeem on May 15, 2008 all of the \$2.6 million in 8% Senior Notes outstanding. On May 7, 2008 our Board of Directors declared a cash dividend of \$0.07 per share of common stock, payable on June 11, 2008, to stockholders of record on May 19, 2008. We expect to redeem the debt and pay the dividend out of our existing cash balance. We may also access our revolving line of credit for a short period of time in order to make payments, should it be necessary to do so. Additionally, we currently expect that we will continue to pay a regular quarterly dividend for the foreseeable future, at the discretion of our Board of Directors, dependent on such factors as available cash, anticipated cash needs, overall financial and market conditions, future prospects for cash flow and such other factors as are deemed relevant by our Board of Directors.

Off Balance Sheet Arrangements

We have no variable interest (otherwise known as special purpose) entities or off balance sheet debt, other than as related to operating leases in the ordinary course of business.

Table of Contents

Covenant Compliance

Under the most restrictive covenants contained in our bank credit facilities agreement, the maximum allowable total leverage ratio, as defined in the agreement, is 5.25 to 1 and was approximately 2.9:1 at March 31, 2008.

Contingencies and Other

We are involved in several legal proceedings, including ordinary and routine legal proceedings incidental to our business. See Note 14, Commitments and Contingencies, to the accompanying condensed consolidated financial statements for a description of certain of these proceedings, including a description of the derivative litigation. The result of any legal proceedings is inherently unpredictable. However, management believes that the outcome of all such proceedings will not have a material adverse effect on the our long-term consolidated financial position, liquidity or results of operations, though the ultimate outcome of any of such matters could be material to our operating results in any given period in which costs or awards, if any, are recognized or otherwise determined.

As of and for the three months ended March 31, 2008, none of our officers or directors have been granted loans by us, nor have we guaranteed any obligations of such persons.

In connection with the sale of assets and the divestiture of businesses, we generally agree to indemnify the buyer and related parties for certain losses or liabilities incurred by the buyer with respect to: (i) the representations and warranties made by us to the buyer in connection with the sale and (ii) liabilities related to the pre-closing operations of the assets sold. Indemnities related to pre-closing operations generally include tax liabilities and other liabilities not assumed by the buyer in the transaction. As with any liability, we have previously accrued for those pre-closing obligations that are considered probable and reasonably estimable. We have not accrued any additional amounts as a result of indemnities which result from asset sales and divestitures. Should circumstances change, increasing the likelihood of payments related to a specific indemnity, we will accrue a liability when future payment is probable and the amount is reasonably estimable.

Critical Accounting Policies and Estimates

On January 1, 2008, we adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, it does not require any new fair value measurements of reported balances.

SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, SFAS No. 157 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of a defined hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access. Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Recent Accounting Developments

See Note 1, Summary of Significant Accounting Policies *Recent Accounting Pronouncements*, to the condensed consolidated financial statements, contained elsewhere in this Report.

Table of Contents***Impact of Inflation and Other Costs***

In general, our costs, including paper and fuel and other distribution costs, are affected by inflation. We believe that such effects have not been material to us during the past; however, there is no assurance that they will not be material to us in the future.

Seasonality

Our operations are minimally seasonal in nature.

The majority of our sales are comprised of contracts with a duration of 12 months.

We experience modest seasonality in our single unit real estate listings as that business declines in the winter months. This business represents a relatively small part of the total Consumer Guides business.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***Interest Rate Risk***

We are exposed to the impact of changes in interest rates, primarily through our Term Loan B Facility, which is variable-rate debt that had an outstanding balance of \$249.4 million at March 31, 2008. As part of our management of interest rate risk, we have designated derivative financial instruments in hedging relationships against the variability in cash flows due to changes in the benchmark interest rate on our Term Loan B Facility. The table below shows the change in interest expense we estimate would occur over the next 12 months from 50 and 100 basis point increases and decreases in interest rates based upon our current Term Loan B Facility balance and derivative financial instrument positions at March 31, 2008. Such potential increases or decreases are based on certain simplifying assumptions, including a constant level of debt and an immediate, across-the-board increase or decrease in the level of interest rates with no other subsequent changes for one year.

Interest Rate Change (in Basis Points) (Dollars in thousands)	Change in Interest Expense
+100	\$ 609
+50	305
-50	(305)
-100	(609)

Credit Risk

Our hedging transactions using derivative financial instruments also involve certain additional risks such as counterparty credit risk. The counterparties to our derivative financial instruments are major financial institutions and securities dealers, which we believe are well capitalized with investment grade credit ratings and with which we may have other financial relationships. While we do not anticipate nonperformance by any counterparty, we are exposed to potential credit losses in the event the counterparty fails to perform. Our exposure to credit risk in the event of default by a counterparty is the difference between the value of the contract and the current market price at the time of the default. There can be no assurance that we will be able to adequately protect against the foregoing risks and will ultimately realize an economic benefit that exceeds the related expenses incurred in connection with engaging in such hedging strategies.

Item 4. CONTROLS AND PROCEDURES***Disclosure Controls and Procedures***

Edgar Filing: PRIMEDIA INC - Form 10-Q

The Company's management, with the participation of the Company's Chairman and Interim Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report. Based on such evaluation, the Company's Chairman and Interim Chief Executive Officer and Chief Financial Officer have concluded that, due to the material weaknesses in internal control over financial reporting as it relates to the accounting for income taxes and cash and cash equivalents and available for sale securities, which are further described in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, the Company's disclosure controls and procedures were not effective as of March 31, 2008.

Table of Contents

Changes in Internal Control Over Financial Reporting

During the quarter ended March 31, 2008, the Company added personnel to its tax department who possess subject matter expertise and experience and also enhanced processes and internal controls to ensure that the accounting for the provision for income taxes and related income tax balances is in accordance with GAAP. The Company has also intensified its review of amounts associated with the reporting of income taxes, cash and cash equivalents, and available for sale securities to include multiple levels of management. Other than as described above, there have been no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company is also in the process of designing and implementing controls to ensure the proper presentation and disclosure of available for sale securities on its consolidated balance sheet and statement of cash flows. Enhancements are expected to include an update to the investment policy, better communication within the organization regarding investment transactions and an increased level of review for investment transactions.

PART II. OTHER INFORMATION

Item 1A. RISK FACTORS

There have been no material changes to the Company's risk factors during the three months ended March 31, 2008.

Item 6. EXHIBITS
