**Travel revenues before business tax and surcharges** comprised of hotel, air and other travel product and service revenues **increased 8%** year-on-year to RMB81.6 million.

Travel revenues before business tax and surcharges by product were as follows (*figures in RMB 000 s; some numbers may not add due to rounding*):

	Q2 2008	% Total	Q2 2007	% Total	Y/Y Growth
Hotel commissions	63,158	77%	60,162	80%	5%
Air ticketing commissions	18,329	22%	13,850	18%	32%

**Operating loss increased year-on-year by RMB5.7 million to RMB7.9 million**, driven primarily by increased revenue offset by greater service development, and sales and marketing expenses.

**Net loss from continuing operations increased year-on-year by RMB18.4 million to RMB20.3 million**, driven primarily by a RMB 9.6 million increase in sales and marketing expenses, a RMB4.5 million increase in foreign currency exchange losses and a RMB7.3 million decrease in interest income compared to the prior year quarter, due to the appreciation of the Renminbi and lower U.S. interest rates.

**Cash and cash equivalents** as of June 30, 2008 were **RMB1.07 billion** (USD\$156.4 million).

As of Aug 25, 2008, the Company repurchased 801,322 ADS at a cost of USD\$6.4million.

We have made significant improvements to our products and services and now is the time to invest in brand awareness and begin to aggressively promote our product offerings, said Guangfu Cui, Chief Executive Officer of eLong. We are doing the right things and believe that our hard work will pay off as we develop our brand and the market rebounds.

We are building the company for the long-term, said Chris Chan, Chief Financial Officer of eLong. We will begin to grow our marketing expense and use our strong balance sheet to our advantage while being prudent with our investments.

## Business Results

### Hotel

Hotel commissions increased 5% for the second quarter of 2008 primarily due to higher room volume. Room nights booked through eLong increased 5% to 968,000, while commission per room night of RMB65.2 was similar to the prior year quarter.

### Air

Air ticketing commissions increased 32% for the second quarter of 2008, driven by a 19% increase in air segments to 412,000, and an increase of 81 basis points in the average percent commission to 6.0% or RMB44.5 per air ticket.

### Profitability

Gross margin in the second quarter was 71% compared to 72% in the prior year period driven by the growth of lower margin air revenues and higher personnel costs.

Operating expenses for the second quarter of 2008 and 2007 were as follows (figures in RMB 000 s; some numbers may not add due to rounding):

	Q2 2008	% Net Revenue	Q2 2007	% Net Revenue	Y/Y Growth
Service development	13,331	16%	12,257	16%	9%
Sales and marketing	38,867	48%	29,313	39%	33%
General and administrative	12,994	16%	13,540	18%	-4%
Amortization of intangibles	217		265		-18%
Write-down of property and equipment and intangibles	121		526	1%	-77%
<b>Total operating expenses</b>	<b>65,530</b>	<b>81%</b>	<b>55,901</b>	<b>75%</b>	<b>17%</b>

Total operating expenses increased 17% for the second quarter of 2008 compared to the second quarter of 2007. Operating expenses were 81% of net revenues increasing by 6 percentage points compared to the second quarter of the prior year.

Service development expense is composed of expenses related to technology and our product offering, including our website, platforms and other related system development. Service development expense increased 9% over the prior year period, mainly driven by increased investment in platform enhancements. Service development expense as a percentage of net revenues remained flat at 16%.

Sales and marketing expense for the second quarter 2008 increased 33% over the prior year period, mainly driven by higher sales commissions in line with revenue growth and increased online and offline marketing promotion expense. The sales and marketing expense increased by 9 percentage points to 48% of net revenues when compared to the same period last year.

General and administrative expense for the second quarter 2008 decreased 4% over the prior year period. General and administrative expense as a percentage of net revenues, decreased by 2 percentage points year-on-year, to 16% in the second quarter.

Other loss, which represents interest income, foreign exchange losses and other income/expense, was RMB13.1 million in the second quarter of 2008, primarily due to a foreign currency exchange loss of RMB19.9 million resulting from the appreciation of Renminbi during the quarter. This foreign currency exchange loss was partially offset by interest income of RMB6.8 million in the second quarter of 2008.

Net loss for the second quarter 2008 increased by RMB18.4 million over the prior year quarter to RMB20.3 million.

Our basic and diluted loss per ADS for the second quarter of 2008 was RMB0.80 compared to a basic and diluted loss per ADS of RMB0.08 in the prior year period.

### **Business Outlook**

eLong expects net revenues, net of business tax and surcharges, for the third quarter of 2008 to be relatively flat, within the range of RMB75 million to RMB83 million, or -5% to 5% compared to the third quarter of 2007.
