Table of Contents

HARLEY-DAVIDSON, INC.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation and Use of Estimates

The condensed interim consolidated financial statements included in this quarterly report on Form 10-Q have been prepared by Harley-Davidson, Inc. (the Company) without audit. Certain information and footnote disclosures normally included in complete financial statements have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission and U.S. generally accepted accounting principles for interim financial information. However, the foregoing statements contain all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of Company management, necessary to present fairly the condensed consolidated balance sheets as of September 28, 2008 and September 30, 2007, the condensed consolidated statements of income for the three and nine month periods then ended and the condensed consolidated statements of cash flows for the nine month periods then ended. For further information, refer to the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. New Accounting Standards

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 requires employers that sponsor defined benefit pension and postretirement benefit plans to recognize previously unrecognized actuarial losses and prior service costs in the statement of financial position and to recognize future changes in these amounts in the year in which changes occur through comprehensive income. Additionally, employers are required to measure the funded status of a plan as of the date of their year-end statements of financial position. The Company adopted SFAS No. 158, as it relates to recognizing the funded status of its defined benefit pension and postretirement benefit plans, and the related disclosure requirements, as of December 31, 2006. The requirement to measure the funded status as of the date of the year-end statement of financial position was adopted on January 1, 2008. Upon adoption, the Company recorded a reduction to retained earnings of \$18.1 million (\$11.2 million, net of tax) and an increase to accumulated other comprehensive income of \$4.2 million (\$2.6 million, net of tax).

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. SFAS No. 157 applies to fair value measurements required by existing accounting pronouncements and does not require any new fair value measurements. The Company adopted SFAS No. 157 on January 1, 2008; see Note 7 for disclosures required under SFAS No. 157. The Company has not adopted SFAS No. 157 for non-financial assets and liabilities as permitted by FASB Staff Position No. FAS 157-2, which provided a deferral of such provisions until 2009.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations. SFAS No. 141(R) changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, pre-acquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS No. 141(R), changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS No. 141(R) will be effective for the Company beginning in fiscal year 2009. This standard will change the Company's accounting treatment for business combinations on a prospective basis, when adopted.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging

Table of Contents

activities. Entities will be required to provide enhanced disclosures about: (a) how and why an entity uses derivative instruments; (b) how derivative instruments and related hedge items are accounted for under SFAS No. 133 and its related interpretations; and (c) how derivative instruments and related hedge items affect an entity's financial position, financial performance and cash flows. The Company is required to adopt SFAS No. 161 beginning in fiscal year 2009. The Company is currently evaluating the impact the new disclosure requirements will have on its consolidated financial statements and notes thereto.

3. Additional Balance Sheet and Cash Flow Information

Inventories are valued at the lower of cost or market. Substantially all inventories located in the United States are valued using the last-in, first-out (LIFO) method. Other inventories are valued at the lower of cost or market using the first-in, first-out (FIFO) method. Inventories consist of the following (in thousands):

	September 28, 2008	December 31, 2007	September 30, 2007
Components at the lower of FIFO cost or market			
Raw materials and work in process	\$ 152,350	\$ 149,954	\$ 149,040
Motorcycle finished goods	170,140	107,768	164,744
Parts and accessories and general merchandise	116,480	124,109	94,768
Inventory at lower of FIFO cost or market	438,970	381,831	408,552
Excess of FIFO over LIFO cost	37,693	32,134	31,602
	\$ 401,277	\$ 349,697	\$ 376,950

Table of Contents

The reconciliation of net income to net cash (used by) provided by operating activities is as follows (in thousands):

Foreign currency adjustments	(4,053)	(6,626)
Other, net	66,273	15,288
Changes in current assets and liabilities:		
Accounts receivable, net	(39,521)	(33,576)
Finance receivables accrued interest and other	5,370	(13,232)
Inventories	(32,918)	(78,775)
Accounts payable and accrued liabilities	214,929	221,096
Other	(25,073)	2,520
Total adjustments	(798,131)	620,491
Net cash (used by) provided by operating activities	\$ (221,222)	\$ 1,368,257

4. Acquisition

On August 8, 2008, the Company announced the completion of its purchase of privately-held Italian motorcycle maker MV Agusta Group (MVAG). The Company acquired 100 percent of MVAG shares for total consideration of \$68.3 million (\$105.1 million), which includes the satisfaction of existing bank debt for \$47.5 million (\$73.2 million). In addition, the agreement provides for a contingent payment to the former owner of MVAG in 2016, if certain financial targets are met. The Company financed the transaction and MVAG's initial working capital requirements through \$175.1 million of short-term revolving debt under existing credit facilities. The Company believes the acquisition of MVAG will enhance the Company's presence in Europe and its penetration into the performance segment of the motorcycle market.

In conjunction with the acquisition of MVAG, the Company recorded initial goodwill of \$87.9 million and initial intangible assets of \$33.8 million. The Company is in the process of obtaining third-party valuations of certain intangible assets; thus, the allocation of the purchase price is still preliminary. Additionally, the Company recorded a \$16.6 million one-time expense (included within Selling and administrative expenses) related to the fair value of acquired in-process research and development projects.

The operating results of MVAG, which is part of the Motorcycles & Related Products segment, have been included in the Company's consolidated financial statements from the date of acquisition. Pro forma information reflecting this acquisition has not been disclosed as the pro forma impact on consolidated net income would not be material.

Table of Contents**5. Impairment of Investment in Retained Securitization Interests**

During the nine months ended September 28, 2008 and September 30, 2007, the Company recorded an impairment charge of \$6.3 million and \$3.5 million, respectively, related to its retained securitization interests (a component of Finance receivables held for investment in the Condensed Consolidated Balance Sheets). Retained securitization interests are recorded at fair value, which is based on the present value of future expected cash flows using the Company's best estimate of key assumptions for credit losses, prepayment speed and discount rates commensurate with the risks involved. During the nine months ended September 28, 2008 and September 30, 2007, the fair value of certain retained securitization interests was lower than the amortized cost, which indicated impairment. These impairments were considered permanent and as a result the investment in retained securitization interests has been appropriately written down to fair value. The decline in fair value was due to higher actual and anticipated credit losses on certain securitization portfolios. During the nine months ended September 30, 2007, the higher actual and anticipated credit losses were partially offset by a slowing in actual and expected prepayment speeds. These charges were recorded as a reduction of Financial services income.

6. Restructuring Costs

During the second quarter of 2008, the Company finalized a plan to ship fewer motorcycles to its worldwide dealer network in 2008 than it shipped in 2007. The Company achieved this reduction through temporary plant shutdowns, adjusted daily production rates and a workforce reduction involving approximately 730 positions. As a result of the workforce reduction plan, the Company recorded an \$11.5 million charge during the second quarter of 2008 within Selling, administrative and engineering expense. The total restructuring charge consisted of \$7.6 million of employee severance benefits and \$3.9 million of special retiree benefits for those individuals eligible to receive benefits. During the third quarter of 2008, the Company increased its restructuring plan charge related to special retiree benefits by \$0.9 million while reversing \$0.4 million of employee severance benefits not expected to be utilized. As of September 28, 2008, all 730 employees and contract workers have departed from the Company.

The following table summarizes the Company's restructuring reserve recorded in Accrued liabilities as of September 28, 2008 (in thousands):

	Employee Severance
Original reserve	\$ 7,594
Utilized cash	(76)
Balance, June 29, 2008	\$ 7,518
Utilized cash	(3,248)
Reserve release noncash	(381)
Balance, September 28, 2008	\$ 3,889

Of the total restructuring reserve, \$3.9 million is recorded within Accrued liabilities and \$4.8 million is recorded within Postretirement healthcare benefits in the Company's Condensed Consolidated Balance Sheet as of September 28, 2008.

7. Fair Value Measurements

The fair value of financial assets and liabilities are measured on a recurring or non-recurring basis. Financial assets and liabilities measured on a recurring basis are those that are adjusted to fair value each time a financial statement is prepared. Financial assets and liabilities measured on a non-recurring basis are those that are adjusted to fair value when a significant event occurs. In determining fair value of financial assets and liabilities, the Company uses various valuation techniques. The availability of inputs observable in the market varies from instrument to instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the market and may require management judgment.

Table of Contents

The Company assesses the inputs used to measure fair value using a three-tier hierarchy. The hierarchy indicates the extent to which inputs used in measuring fair value are observable in the market. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, foreign currency exchange rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's own judgments about the assumptions market participants would use in pricing the asset or liability. The use of observable and unobservable inputs is reflected in the hierarchy assessment disclosed in the table below.

The following table presents information about the Company's financial assets and liabilities measured at fair value on a recurring basis as of September 28, 2008, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value (in thousands):

	Balance as of September 28, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents and marketable securities	\$ 258,583	\$ 258,059	\$ 524	
Derivatives	13,570		13,570	
Investment in retained securitization interests	399,827			\$ 399,827
	\$ 671,980	\$ 258,059	\$ 14,094	\$ 399,827
Liabilities:				
Derivatives	\$ 6,258		\$ 6,258	

The following table presents additional information about the Investment in retained securitization interests which is measured at fair value on a recurring basis using Significant Unobservable Inputs (Level 3). The Investment in retained securitization interests is valued using pricing models and discounted cash flow methodologies incorporating assumptions that, in management's judgment, reflect the assumptions marketplace participants would use at September 28, 2008. Refer to Critical Accounting Estimates under Item 7 and Note 3 of Notes to the Consolidated Financial Statements under Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for further discussion regarding the assumptions used to value the Investment in retained securitization interests.

(in thousands)	Three months ended September 28, 2008	Nine months ended September 28, 2008
Balance, beginning of period	\$ 461,657	\$ 407,742
Total gains or losses (realized/unrealized):		
Included in Financial services income ^(a)	12,986	39,220
Included in other comprehensive income	(5,059)	(13,382)
Sales, repurchases and settlements, net	(69,757)	(33,753)
Balance, end of period	\$ 399,827	\$ 399,827

(a) Total gains or losses included in Financial services income includes an impairment charge of \$6.3 million as discussed in Note 5. Finance receivables held for sale in the aggregate are carried at the lower of cost or estimated fair value, and are measured at fair value on a non-recurring basis using significant unobservable inputs (Level 3). HDFS uses discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments, that in management's judgment, reflect assumptions marketplace participants would use at September 28, 2008. Any amount by which cost exceeds fair value is accounted for as a

Table of Contents

valuation allowance with an offset to other income. At September 28, 2008, the Company recorded a non-cash charge of \$9.4 million due to a decline in the fair value below cost on finance receivables held for sale, primarily as a result of higher estimated funding costs related to significant volatility in the capital markets. The fair value of the finance receivables held for sale at September 28, 2008 was \$2.24 billion.

8. Product Warranty and Safety Recall Campaigns

The Company currently provides a standard two-year limited warranty on all new motorcycles sold worldwide, except for Japan, where the Company provides a standard three-year limited warranty on all new motorcycles sold. The warranty coverage for the retail customer includes parts and labor and generally begins when the motorcycle is sold to a retail customer. The Company maintains reserves for future warranty claims using an estimated cost per unit sold, which is based primarily on historical Company claim information. Additionally, the Company has from time to time initiated certain voluntary safety recall campaigns. The Company reserves for all estimated costs associated with safety recalls in the period that the safety recalls are announced. Changes in the Company's warranty and safety recall liability were as follows (in thousands):

	Three months ended		Nine months ended	
	September 28, 2008	September 30, 2007	September 28, 2008	September 30, 2007
Balance, beginning of period	\$ 81,427	\$ 74,017	\$ 70,523	\$ 66,385
Warranties issued during the period	12,273	13,625	37,921	40,642
Warranties from business acquisition	2,469		2,469	
Settlements made during the period	(21,881)	(18,582)	(51,047)	(49,611)
Recalls and changes to pre-existing warranty liabilities	115	58	14,537	11,702
Balance, end of period	\$ 74,403	\$ 69,118	\$ 74,403	\$ 69,118

The liability for safety recall campaigns was \$4.2 million and \$2.9 million as of September 28, 2008 and September 30, 2007, respectively.

Table of Contents**9. Business Segments**

The Company operates in two business segments: Motorcycles & Related Products (Motorcycles) and Financial Services (Financial Services). The Company's reportable segments are strategic business units that offer different products and services. They are managed separately based on the fundamental differences in their operations. Selected segment information is set forth below (in thousands):

	Three months ended		Nine months ended	
	September 28, 2008	September 30, 2007	September 28, 2008	September 30, 2007
Motorcycles net revenue	\$ 1,422,834	\$ 1,541,401	\$ 4,301,716	\$ 4,340,494
Gross profit	484,072	591,353	1,522,133	1,619,566
Operating expenses	250,046	233,068	710,420	639,512
Operating income from Motorcycles	234,026	358,285	811,713	980,054
Financial Services income	111,966	98,471	312,095	319,964
Financial Services expense	76,333	49,002	204,408	146,349
Operating income from Financial Services	35,633	49,469	107,687	173,615
Corporate expenses	1,657	2,292	14,482	13,763
Income from operations	\$ 268,002	\$ 405,462	\$ 904,918	\$ 1,139,906

As discussed in Note 5, Financial Services income for the nine months ended September 28, 2008 and September 30, 2007 includes an impairment charge of \$6.3 million and \$3.5 million, respectively. As discussed in Note 7, Financial Services income for the three and nine months ended September 28, 2008 includes a lower of cost or fair value adjustment related to finance receivables held for sale of \$9.4 million.

As discussed in Note 4, Operating expenses of the Motorcycles segment for the three and nine months ended September 28, 2008 include a \$16.6 million one-time expense related to the fair value of acquired in-process research and development projects. Additionally, as discussed in Note 6, Operating expenses of the Motorcycles segment for the three and nine months ended September 28, 2008 include a net restructuring charge of \$0.5 million and \$12.0 million, respectively. Neither of these charges relates to Financial Services.

Table of Contents**10. Earnings Per Share**

The following table sets forth the computation for basic and diluted earnings per share (in thousands, except per share amounts):

	Three months ended		Nine months ended	
	September 28, 2008	September 30, 2007	September 28, 2008	September 30, 2007
Numerator:				
Net income used in computing basic and diluted earnings per share	\$ 166,541	\$ 264,966	\$ 576,909	\$ 747,766
Denominator:				
Denominator for basic earnings per share weighted-average common shares	233,081	247,057	235,068	252,513
Effect of dilutive securities employee stock compensation plan	339	557	253	750
Denominator for diluted earnings per share adjusted weighted-average shares outstanding	233,420	247,614	235,321	253,263
Basic earnings per share	\$ 0.71	\$ 1.07	\$ 2.45	\$ 2.96
Diluted earnings per share	\$ 0.71	\$ 1.07	\$ 2.45	\$ 2.95

Outstanding options to purchase 5.4 million and 1.4 million shares of common stock for the three months ended September 28, 2008 and September 30, 2007, respectively, and 5.1 million and 0.8 million shares of common stock for the nine months ended September 28, 2008 and September 30, 2007, respectively, were not included in the Company's computation of dilutive securities because the exercise price was greater than the market price and therefore the effect would have been anti-dilutive.

11. Comprehensive Income

The following table sets forth the reconciliation of net income to comprehensive income (in thousands):

	Three months ended		Nine months ended	
	September 28, 2008	September 30, 2007	September 28, 2008	September 30, 2007
Net income	\$ 166,541	\$ 264,966	\$ 576,909	\$ 747,766
Foreign currency translation adjustment	(37,736)	14,261	(16,362)	23,105
Changes in net unrealized (losses) and gains, net of tax:				
Retained securitization interest	(3,263)	4,823	(8,705)	(3,881)
Derivative financial instruments	9,971	(7,218)	20,740	(8,144)
Marketable securities		641	68	1,342
Unrecognized pension and postretirement benefit plan liabilities	2,623	3,742	7,869	11,226
	\$ 138,136	\$ 281,215	\$ 580,519	\$ 771,414

Table of Contents**12. Employee Benefit Plans**

The Company has several defined benefit pension plans and postretirement healthcare benefit plans (Retirement Plans), which cover substantially all employees of the Motorcycles segment. The Company also has unfunded supplemental employee retirement plan agreements (SERPA) which were instituted to replace benefits lost under the Tax Revenue Reconciliation Act of 1993. Components of net periodic benefit costs were as follows (in thousands):

	Three months ended		Nine months ended	
	September 28, 2008	September 30, 2007	September 28, 2008	September 30, 2007
<u>Pension and SERPA Benefits</u>				
Service cost	\$ 12,841	\$ 12,912	\$ 38,523	\$ 38,736
Interest cost	17,148	14,941	51,444	44,823
Expected return on plan assets	(22,015)	(20,209)	(66,045)	(60,627)
Amortization of unrecognized:				
Prior service cost	1,540	1,673	4,620	5,019
Net loss	1,604	2,919	4,812	8,757
 Net periodic benefit cost	 \$ 11,118	 \$ 12,236	 \$ 33,354	 \$ 36,708
<u>Postretirement Healthcare Benefits</u>				
Service cost	\$ 3,270	\$ 3,191	\$ 9,810	\$ 9,573
Interest cost	5,410	4,895	16,230	14,685
Expected return on plan assets	(2,808)	(2,496)	(8,424)	(7,488)
Amortization of unrecognized:				
Prior service credit	(281)	(281)	(843)	(843)
Net loss	1,375	1,734	4,125	5,202
Special retiree benefits	826		4,781	
 Net periodic benefit cost	 \$ 7,792	 \$ 7,043	 \$ 25,679	 \$ 21,129

The Company does not expect to make additional contributions to further fund its pension and postretirement healthcare plans during the remainder of 2008 beyond the amount of current benefit payments for SERPA and postretirement healthcare plans. However, due to significant declines in worldwide financial market conditions, the Company may be required to make additional contributions in 2009 in addition to the amount of current benefit payments.

During the remainder of 2008, the Company expects to continue its practice of funding the SERPA and postretirement healthcare plans in amounts equal to benefits paid during the year.

As discussed in Note 6, the Company recorded a net restructuring reserve of \$12.0 million during the nine months ended September 28, 2008. Of this amount, \$4.8 million relates to postretirement healthcare benefits which are included as part of Special retiree benefits in the table above.

13. Commitments and Contingencies

The Company is subject to lawsuits and other claims related to environmental, product and other matters. In determining required reserves related to these items, the Company carefully analyzes cases and considers the likelihood of adverse judgments or outcomes, as well as the potential range of possible loss. The required reserves are monitored on an ongoing basis and are updated based on new developments or new information in each matter.

Table of Contents*Shareholder Lawsuits:*

A number of shareholder class action lawsuits were filed between May 18, 2005 and July 1, 2005 in the United States District Court for the Eastern District of Wisconsin. On February 14, 2006, the court consolidated all of the actions into a single case, captioned *In re Harley-Davidson, Inc. Securities Litigation*, and appointed Lead Plaintiffs and Co-Lead Plaintiffs Counsel. Pursuant to the schedule set by the court, on October 2, 2006, the Lead Plaintiffs filed a Consolidated Class Action Complaint, which names the Company and Jeffrey L. Bleustein, James L. Ziemer, and James M. Brostowitz, who are current or former Company officers, as defendants. The Consolidated Complaint alleges securities law violations and seeks unspecified damages relating generally to the Company's April 13, 2005 announcement that it was reducing short-term production growth and planned increases of motorcycle shipments from 317,000 units in 2004 to a new 2005 target of 329,000 units (compared to its original target of 339,000 units). On December 18, 2006, the defendants filed a motion to dismiss the Consolidated Complaint in its entirety. Briefing of the motion to dismiss was completed in April 2007.

Three shareholder derivative lawsuits were filed in the United States District Court for the Eastern District of Wisconsin on June 3, 2005, October 25, 2005 (this lawsuit was later voluntarily dismissed) and December 2, 2005 and two shareholder derivative lawsuits were filed in Milwaukee County Circuit Court on July 22, 2005 and November 16, 2005 against some or all of the following current or former directors and officers of the Company: Jeffrey L. Bleustein, James L. Ziemer, James M. Brostowitz, Barry K. Allen, Richard I. Beattie, George H. Conrades, Judson C. Green, Donald A. James, Sara L. Levinson, George L. Miles, Jr., James A. Norling, James A. McCaslin, Donna F. Zarcone, Jon R. Flickinger, Gail A. Lione, Ronald M. Hutchinson, W. Kenneth Sutton, Jr. and John A. Hevey. The lawsuits also name the Company as a nominal defendant. In general, the shareholder derivative complaints include factual allegations similar to those in the class action complaints and allegations that officers and directors breached their fiduciary duties to the Company. On February 14, 2006, the state court consolidated the two state court derivative actions and appointed Lead Plaintiffs and Lead Plaintiffs Counsel, and on April 24, 2006, the state court ordered that the consolidated state court derivative action be stayed until after motions to dismiss the federal securities class action are decided. On February 15, 2006, the federal court consolidated the federal derivative lawsuits with the securities and ERISA (see below) actions for administrative purposes. On February 1, 2007, the federal court appointed Lead Plaintiff and Co-Lead Plaintiffs Counsel in the consolidated federal derivative action.

On August 25, 2005, a class action lawsuit alleging violations of the Employee Retirement Income Security Act (ERISA) was filed in the United States District Court for the Eastern District of Wisconsin. As noted above, on February 15, 2006, the court ordered the ERISA action consolidated with the federal derivative and securities actions for administrative purposes. Pursuant to the schedule set by the court, on October 2, 2006, the ERISA plaintiff filed an Amended Class Action Complaint, which named the Company, the Harley-Davidson Motor Company Retirement Plans Committee, the Company's Leadership and Strategy Council, Harold A. Scott, James L. Ziemer, James M. Brostowitz, Gail A. Lione, Joanne M. Bischmann, Karl M. Eberle, Jon R. Flickinger, Ronald M. Hutchinson, James A. McCaslin, W. Kenneth Sutton, Jr., and Donna F. Zarcone, who are current or former Company officers or employees, as defendants. In general, the ERISA complaint includes factual allegations similar to those in the shareholder class action lawsuits and alleges on behalf of participants in certain Harley-Davidson retirement savings plans that the plan fiduciaries breached their ERISA fiduciary duties. On December 18, 2006, the defendants filed a motion to dismiss the ERISA complaint in its entirety. Briefing of the motion to dismiss was completed in April 2007.

The Company believes the allegations against all of the defendants in the lawsuits against the Company are without merit and it intends to vigorously defend against them. Since all of these matters are in the preliminary stages, the Company is unable to predict the scope or outcome or quantify their eventual impact, if any, on the Company. At this time, the Company is also unable to estimate associated expenses or possible losses. The Company maintains insurance that may limit its financial exposure for defense costs and liability for an unfavorable outcome, should it not prevail, for claims covered by the insurance coverage.

Environmental Matters:

The Company is involved with government agencies and groups of potentially responsible parties in various environmental matters, including a matter involving the cleanup of soil and groundwater contamination at its York, Pennsylvania facility. The York facility was formerly used by the U.S. Navy and AMF prior to the purchase of the York facility by the Company from AMF in 1981. Although the Company is not certain as to the full extent of the environmental contamination at the York facility, it has been working with the Pennsylvania Department of Environmental Protection (PADEP) since 1986 in undertaking environmental investigation and

Table of Contents

remediation activities, including an ongoing site-wide remedial investigation/feasibility study (RI/FS). In January 1995, the Company entered into a settlement agreement (the Agreement) with the Navy. The Agreement calls for the Navy and the Company to contribute amounts into a trust equal to 53% and 47%, respectively, of future costs associated with environmental investigation and remediation activities at the York facility (Response Costs). The trust administers the payment of the Response Costs incurred at the York facility as covered by the Agreement.

In February 2002, the Company was advised by the U.S. Environmental Protection Agency (EPA) that it considers some of the Company's remediation activities at the York facility to be subject to the EPA's corrective action program under the Resource Conservation and Recovery Act (RCRA) and offered the Company the option of addressing corrective action under a RCRA facility lead agreement. In July 2005, the York facility was designated as the first site in Pennsylvania to be addressed under the One Cleanup Program. The program provides a more streamlined and efficient oversight of voluntary remediation by both PADEP and EPA and will be carried out consistent with the Agreement with the Navy. As a result, the RCRA facility lead agreement has been superseded.

Although the RI/FS is still underway and substantial uncertainty exists concerning the nature and scope of the additional environmental investigation and remediation that will ultimately be required at the York facility, the Company estimates that its share of the future Response Costs at the York facility will be approximately \$6.2 million. The Company has established reserves for this amount, which are included in Accrued liabilities in the Condensed Consolidated Balance Sheets.

The estimate of the Company's future Response Costs that will be incurred at the York facility is based on reports of independent environmental consultants retained by the Company, the actual costs incurred to date and the estimated costs to complete the necessary investigation and remediation activities. Response Costs related to the remediation of soil are expected to be incurred over a period of several years ending in 2012. Response Costs related to ground water remediation may continue for some time beyond 2012.

Under the terms of the sale of the Commercial Vehicles Division in 1996, the Company has agreed to indemnify Utilimaster Corporation, until December 2008, for certain claims related to environmental contamination present at the date of sale, up to \$20.0 million. Based on the environmental studies performed, the Company does not expect to incur any material expenditures under this indemnification.

Product Liability Matters:

Additionally, the Company is involved in product liability suits related to the operation of its business. The Company accrues for claim exposures that are probable of occurrence and can be reasonably estimated. The Company also maintains insurance coverage for product liability exposures. The Company believes that its accruals and insurance coverage are adequate and that product liability will not have a material adverse effect on the Company's consolidated financial statements.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Harley-Davidson, Inc. is the parent company for the groups of companies doing business as Harley-Davidson Motor Company (HDMC), Buell Motorcycle Company (Buell), MV Agusta Group (MVAG), and Harley-Davidson Financial Services (HDFS). HDMC produces heavyweight motorcycles and offers a line of motorcycle parts, accessories, general merchandise and related services. HDMC manufactures five families of motorcycles: Touring, Dyna®, Softail®, Sportster® and VRSC®. Buell produces premium sport performance motorcycles and offers a line of motorcycle parts, accessories and apparel. MVAG produces premium, high-performance sport motorcycles sold under the MV Agusta® brand and lightweight sport motorcycles sold under the Cagiva® brand. HDFS provides wholesale and retail financing and insurance programs primarily to Harley-Davidson and Buell dealers and customers.

The Company operates in two business segments: Motorcycles & Related Products (Motorcycles) and Financial Services (Financial Services). The Company's reportable segments are strategic business units that offer different products and services. They are managed separately based on the fundamental differences in their operations.

The % Change figures included in this section were calculated using unrounded dollar amounts and may differ from calculations using the rounded dollar amounts presented.

Overview and Outlook⁽¹⁾

The Company's 2008 third quarter net revenue and net income were down 7.7% and 37.1%, respectively, compared to the third quarter of 2007. The Company's third quarter financial performance reflected a 13.7% decrease in shipments of Harley-Davidson motorcycles and lower operating income from Financial Services as the challenging U.S. economic environment continued to impact the Company's results during the third quarter of 2008.

Worldwide retail sales of Harley-Davidson motorcycles in the third quarter of 2008 were down 9.6%. U.S retail sales of Harley-Davidson motorcycles in the third quarter of 2008 were down 15.5% while international retail sales were up 11.3%. However, sales growth in certain European countries slowed more during the third quarter of 2008 than the Company anticipated as a result of deteriorating economic conditions. The Company continues to carefully monitor all of its markets in light of the challenging economy and remains committed to shipping fewer Harley-Davidson motorcycles to its worldwide dealer network than it expects they will sell at retail in 2008.

HDFS has maintained its position as a stable, consistent source of financing for dealers and retail customers despite turbulent conditions in the credit markets. Going forward, the Company believes HDFS will continue to have access to capital markets and, in the event that capital market conditions worsen, has developed contingency plans to obtain appropriate funding as discussed under Liquidity and Capital Resources.

On October 16, 2008, the Company announced a narrowed 2008 shipment expectation for Harley-Davidson motorcycles of 303,500 to 306,000 units. This compares to the previous range of 303,500 to 307,500 units. At the same time, the Company also provided a narrowed expectation for 2008 diluted earnings per share of \$3.00 to \$3.10, which compares to the previous range of \$3.00 to \$3.18.

⁽¹⁾ Note Regarding Forward-Looking Statements

The Company intends that certain matters discussed in this report are forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified as such by reference to this footnote or because the context of the statement will include words such as the Company believes, anticipates, expects, plans, or estimates or words of similar meaning. Similarly, statements that describe future plans, objectives, outlooks, targets, guidance or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this report. Certain of such risks and uncertainties are described in close proximity to such statements or elsewhere in this report, including under the caption Cautionary Statements included in this report, and in Item 1A Risk Factors of the Company's Annual Report on Form 10-K for the year ended December 31, 2007. Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this report are made only as of the date indicated, or if no date is indicated as of the filing of this report (October 30, 2008), and the Company disclaims any obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Table of Contents

The Company believes that the near-term global economic environment will be challenging for the business and it will continue to make prudent decisions to manage through this difficult environment. At the same time, the Company is optimistic about its long-term business prospects and plans to continue to reinvest in the business. This was evidenced during the quarter by the acquisition of MVAG which will enhance the Company's presence in Europe and its penetration into the performance segment of the motorcycle market.

Results of Operations for the Three Months Ended September 28, 2008**Compared to the Three Months Ended September 30, 2007****Consolidated Results**

(in millions, except earnings per share and effective income tax rate)	Three months ended		(Decrease) Increase	% Change
	September 28, 2008	September 30, 2007		
Operating income from motorcycles & related products	\$ 234.0	\$ 358.3	\$ (124.3)	(34.7)%
Operating income from financial services	\$ 35.6	\$ 49.5	\$ (13.9)	(28.0)%
Investment income	\$ 2.8	\$ 5.4	\$ (2.6)	(48.6)%
Interest expense	\$ 1.2		\$ 1.2	N/M
Net income	\$ 166.5	\$ 265.0	\$ (98.5)	(37.1)%
Diluted earnings per share	\$ 0.71	\$ 1.07	\$ (0.36)	(33.6)%
Effective income tax rate	38.2%	35.5%		

As discussed in Overview and Outlook, the decrease in Motorcycles operating income during the third quarter was driven by a decrease in shipments of Harley-Davidson motorcycles. In addition, lower operating income from Financial Services contributed to the decrease in consolidated income from operations for the third quarter of 2008 compared to the third quarter of 2007. Please refer to the detailed discussion of segment results following.

Investment income was lower during the third quarter of 2008 due to the decrease in average marketable securities during the same period. Interest expense during the third quarter relates to consolidated debt incurred in connection with the acquisition of MVAG.

Diluted earnings per share in the third quarter of 2008 were down 33.6% from the same quarter last year on lower net income which more than offset the positive impact of fewer weighted-average shares outstanding. Diluted earnings per share during the third quarter of 2008 were positively impacted by a decrease in the weighted-average shares outstanding, which were 233.4 million in the third quarter of 2008 compared to 247.6 million in the third quarter of 2007. The decrease in weighted-average shares outstanding was driven by the Company's repurchases of common stock over the last year. The Company's third quarter 2008 share repurchases are discussed in further detail under Liquidity and Capital Resources.

The Company's effective income tax rate for the third quarter of 2008 was 38.2% compared to 35.5% in the same quarter last year. The increase was due primarily to a one-time \$16.6 million non-deductible in-process research and development charge for MVAG and the expiration of the federal research and development tax credit as of December 31, 2007. In October 2008, the federal research and development tax credit was reinstated for two years retroactive to January 1, 2008 continuing through December 31, 2009. The Company expects its full year effective tax rate for 2008 will be approximately 35.5%.⁽¹⁾

Table of Contents**Motorcycle Unit Shipments & Net Revenue**

The following table includes wholesale motorcycle unit shipments for the Motorcycles & Related Products segment:

	Three months ended				(Decrease) Increase	% Change
	September 28, 2008		September 30, 2007			
Motorcycle Unit Shipments						
United States	49,953	66.9%	65,756	76.0%	(15,803)	(24.0)%
International	24,751	33.1%	20,779	24.0%	3,972	19.1
Harley-Davidson motorcycle units	74,704	100.0%	86,535	100.0%	(11,831)	(13.7)
Touring motorcycle units	24,008	32.1%	28,461	32.9%	(4,453)	(15.6)
Custom motorcycle units*	34,322	45.9%	39,488	45.6%	(5,166)	(13.1)
Sportster motorcycle units	16,374	21.9%	18,586	21.5%	(2,212)	(11.9)
Harley-Davidson motorcycle units	74,704	100.0%	86,535	100.0%	(11,831)	(13.7)
Buell motorcycle units	2,760		2,639		121	4.6%

* Custom motorcycle units, as used in this table, include Dyna, Softail, VRSC and CVO models.

During the third quarter of 2008, the Company shipped 74,704 Harley-Davidson motorcycles, a decrease of 11,831 motorcycles, or 13.7%, from the same quarter last year. The Company's shipments in the U.S. in 2008 continued to be negatively impacted by the challenging economic environment, but were consistent with previously announced plans to ship 23,000 to 27,000 fewer Harley-Davidson motorcycles in 2008 than were shipped in 2007. The Company's shipments in international markets grew during the third quarter, and the percentage of units shipped to international customers increased, consistent with the Company's strategic focus on global markets.

The following table includes net revenue for the Motorcycles & Related Products segment (in millions):

	Three months ended		(Decrease) Increase	% Change
	September 28, 2008	September 30, 2007		
Net Revenue				
Harley-Davidson motorcycles	\$ 1,051.0	\$ 1,182.6	\$ (131.6)	(11.1)%
Buell motorcycles	26.1	22.5	3.6	15.9
	1,077.1	1,205.1	(128.0)	(10.6)
Parts & Accessories	259.0	251.5	7.5	3.0
General Merchandise	84.0	83.2	0.8	1.0
Other	2.7	1.6	1.1	N/M
Net revenue	\$ 1,422.8	\$ 1,541.4	\$ (118.6)	(7.7)%

Motorcycles segment net revenue decreased \$118.6 million, or 7.7%. Net revenue was lower by approximately \$134 million primarily due to the 13.7% lower shipment volume. In addition, product mix changes decreased revenue by approximately \$8 million. Partially offsetting the unfavorability in volume and product mix was favorability of approximately \$2 million from wholesale price increases on Harley-Davidson motorcycles and favorability resulting from changes in foreign currency exchange rates of approximately \$22 million.

Table of Contents**Harley-Davidson Motorcycle Retail Sales**

The Company sells its motorcycles at wholesale to an independent network of dealers and distributors who in turn sell the Company's products at retail. Worldwide retail sales of Harley-Davidson motorcycles decreased 9.6% during the third quarter of 2008 relative to the same period last year. Retail sales of Harley-Davidson motorcycles decreased 15.5% in the United States while growing 11.3% internationally. The following table includes retail unit sales of Harley-Davidson motorcycles:

Harley-Davidson Motorcycle Retail Sales^(a)**Heavyweight (651+cc)**

	Three months ended		(Decrease)	%
	September 28, 2008	September 30, 2007	Increase	Change
North America Region

	1,776	1,254	522	41.6
Total Worldwide Retail Sales	80,952	89,526	(8,574)	(9.6)%

(a) Data source for retail sales figures shown above is sales warranty and registration information provided by Harley-Davidson dealers and compiled by the Company. The Company must rely on information that its dealers supply concerning retail sales and this information is subject to revision. Only Harley-Davidson motorcycles are included in the Harley-Davidson Motorcycle Retail Sales data.

(b) Data for Europe include Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Cost of Goods Sold

Cost of goods sold was \$938.8 million for the Motorcycles segment in the third quarter of 2008, a decrease of \$11.3 million or 1.2% versus the corresponding period last year. Cost of goods sold was also impacted by the 13.7% decline in shipment volume, which resulted in a decrease of approximately \$59 million. Additionally, changes in product mix resulted in a decrease of approximately \$5 million. Partially offsetting these decreases were higher manufacturing costs of approximately \$40 million. Manufacturing costs increased partially as the result of a higher fixed cost per unit due to allocating fixed costs to fewer units. Additionally, higher manufacturing costs were also the result of increased product cost as the Company invests in new models and increased product content, such as new features and options on the Company's motorcycles. Cost of goods sold also increased by approximately \$7 million resulting from changes in foreign currency exchange rates. Raw material surcharges were approximately \$6 million higher when compared to the prior year third quarter.

Table of Contents**Gross Profit**

Gross profit was \$484.1 million for the Motorcycles segment for the third quarter 2008, a decrease of \$107.3 million or 18.1% versus the same period last year. Gross margin for the third quarter of 2008 was 34.0% compared to 38.4% for the third quarter of 2007. The factors impacting the change in gross margin are detailed under **Motorcycle Unit Shipments and Net Revenue** and **Cost of Goods Sold** above.

Financial Services

The following table includes the condensed statements of operations for the Financial Services segment (in millions):

	Three months ended		Increase (Decrease)	% Change
	September 28, 2008	September 30, 2007		
Interest income	\$ 79.8	\$ 43.6	\$ 36.2	83.0%
Income from securitizations	13.9	21.1	(7.2)	(34.0)
Other income	18.2	33.8	(15.6)	(46.1)
Financial services income	111.9	98.5	13.4	13.7
Interest expense	37.5	19.2	18.3	95.3
Operating expenses	38.8	29.8	9.0	30.3
Financial services expense	76.3	49.0	27.3	55.8
Operating income from financial services	\$ 35.6	\$ 49.5	\$ (13.9)	(28.0)%

During the third quarter of 2008, interest income benefited from higher average retail outstanding receivables, partially offset by lower wholesale lending rates. Interest expense was higher in the third quarter of 2008 due to increased borrowings to support higher outstanding retail receivables, partially offset by lower borrowing rates as compared to the same period of 2007. The increase in retail receivables outstanding was driven by the lack of securitization transactions in the second and third quarters of 2008 due to capital market volatility. The increase in operating expenses in the third quarter of 2008 is primarily due to an increase in the provision for credit losses.

Income from securitizations in the third quarter of 2008 decreased as compared to the third quarter of 2007 primarily due to the absence of a securitization transaction during the third quarter of 2008. This compares to a \$782.0 million securitization transaction that was completed in the third quarter of 2007 with a gain of \$3.5 million. Income from securitizations also decreased due to lower income from retained securitization interests, which totaled \$13.9 million in the third quarter of 2008 versus \$17.5 million in the third quarter of 2007.

During the three months ended September 28, 2008, HDFS recorded a non-cash charge to earnings of \$9.4 million from the lower of cost or estimated fair value on its finance receivables held for sale. HDFS uses discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments, that in management's judgment, reflect assumptions marketplace participants would use. Any amount by which cost exceeds fair value is accounted for as a valuation allowance with an offset to other income. The decline in fair value below cost was primarily due to higher estimated funding costs related to significant volatility in the capital markets. The charge to earnings was recorded in other income and was a primary factor for the decrease in other income in the third quarter of 2008 as compared to the same period of 2007.

Table of Contents

Changes in the allowance for finance credit losses on finance receivables held for investment were as follows (in millions):

	Three months ended	
	September 28, 2008	September 30, 2007
Balance, beginning of period	\$ 35.9	\$ 26.9
Provision for finance credit losses	8.0	2.0
Charge-offs, net of recoveries	(7.1)	(1.8)
Balance, end of period	\$ 36.8	\$ 27.1

HDFS' periodic evaluation of the adequacy of the allowance for credit losses is generally based on HDFS' past loan loss experience, known and inherent risks in the portfolio, and current economic conditions. HDFS believes the allowance is adequate to cover estimated losses of principal in the existing portfolio.

Operating Expenses

The following table includes operating expenses for the Motorcycles segment and Corporate (in millions):

	Three months ended			
	September 28, 2008	September 30, 2007	Increase (Decrease)	% Change
Motorcycles and Related Products				
Selling & administrative	\$ 210.9	\$ 185.0	\$ 25.9	14.0%
Engineering	39.1	48.1	(9.0)	(18.7)
Corporate	1.7	2.3	(0.6)	(27.7)
Total operating expenses	\$ 251.7	\$ 235.4	\$ 16.3	6.9%

Total operating expenses, which include selling, administrative and engineering expenses, were 17.7% and 15.3% of net revenue for the third quarters of 2008 and 2007, respectively. Selling and administrative expenses were higher due primarily to the impact of the one-time \$16.6 million expense related to the value of in-process research and development at MVAG during the third quarter of 2008 (see Note 4 of Notes to Condensed Consolidated Financial Statements for further discussion). Additionally, selling and administrative expenses increased due to higher international operating costs associated with the Company's international growth; however, this was partially offset by lower engineering spending during the third quarter of 2008 compared to the third quarter of 2007.

Table of Contents**Results of Operations for the Nine Months Ended September 28, 2008****Compared to the Nine Months Ended September 30, 2007****Consolidated Results**

(in millions, except earnings per share and effective income tax rate amounts)	Nine months ended		(Decrease) Increase	% Change
	September 28, 2008	September 30, 2007		
Operating income from motorcycles & related products	\$ 811.7	\$ 980.1	\$ (168.4)	(17.2)%
Operating income from financial services	\$ 107.7	\$ 173.6	\$ (65.9)	(38.0)%
Investment income	\$ 7.0	\$ 19.4	\$ (12.4)	(63.8)%
Interest expense	\$ 1.2	\$ 1.2	\$ 1.2	N/M
Net income	\$ 576.9	\$ 747.8	\$ (170.9)	(22.8)%
Diluted earnings per share	\$ 2.45	\$ 2.95	\$ (0.50)	(16.9)%
Effective income tax rate	36.7%	35.5%		

The decrease in Motorcycles operating income during the nine months ended September 28, 2008 was driven by a decrease in shipments of Harley-Davidson motorcycles. In addition, lower operating income from Financial Services contributed to the decrease in consolidated income from operations for the nine months ended September 28, 2008 compared to the same period last year. Please refer to the detailed discussion of segment results following.

Investment income was lower during the first nine months of 2008 due to the decrease in average marketable securities during the same period. Interest expense during the first three quarters relates to consolidated debt incurred in connection with the acquisition of MVAG.

Diluted earnings per share for the first nine months of 2008 were down 16.9% from the same period last year on lower net income which more than offset the positive impact of fewer weighted-average shares outstanding. Diluted earnings per share during the first nine months of 2008 were positively impacted by a decrease in the weighted-average shares outstanding, which were 235.3 million in the first nine months of 2008 compared to 253.3 million in the first nine months of 2007. The decrease in weighted-average shares outstanding was driven by the Company's repurchases of common stock over the last year. The Company's third quarter 2008 share repurchases are discussed in further detail under Liquidity and Capital Resources.

The Company's effective income tax rate for the first nine months of 2008 was 36.7% compared to 35.5% in the same period last year. The increase was due primarily to the non-deductible in-process research and development charge for MVAG and the expiration of the federal research and development tax credit as of December 31, 2007. In October 2008, the federal research and development tax credit was reinstated for two years retroactive to January 1, 2008 continuing through December 31, 2009.

Diluted earnings per share during the first nine months of 2008 were positively impacted by a decrease in the weighted-average shares outstanding, which were 235.3 million in the first nine months of 2008 compared to 253.3 million in the first nine months of 2007. The decrease in weighted-average shares outstanding was driven by the Company's repurchases of common stock over the last year. The Company's 2008 share repurchases are discussed in further detail under Liquidity and Capital Resources.

Table of Contents**Motorcycle Unit Shipments & Net Revenue**

The following table includes wholesale motorcycle unit shipments for the Motorcycles & Related Products segment:

	Nine months ended				(Decrease) Increase	% Change
	September 28, 2008		September 30, 2007			
Motorcycle Unit Shipments						
United States	149,228	65.8%	182,447	73.2%	(33,219)	(18.2)%
International	77,670	34.2%	66,966	26.8%	10,704	16.0
Harley-Davidson motorcycle units	226,898	100.0%	249,413	100.0%	(22,515)	(9.0)
Touring motorcycle units	75,691	33.4%	84,934	34.1%	(9,243)	(10.9)
Custom motorcycle units*	105,316	46.4%	109,576	43.9%	(4,260)	(3.9)
Sportster motorcycle units	45,891	20.2%	54,903	22.0%	(9,012)	(16.4)
Harley-Davidson motorcycle units	226,898	100.0%	249,413	100.0%	(22,515)	(9.0)
Buell motorcycle units	9,224		8,376		848	10.1%

* Custom motorcycle units, as used in this table, include Dyna, Softail, VRSC and CVO models.

During the first nine months of 2008, the Company shipped 226,898 Harley-Davidson motorcycles, a decrease of 22,515 motorcycles, or 9.0%, from the same period last year. The Company's shipments in the U.S. in 2008 continued to be negatively impacted by the challenging economic environment, but were consistent with previously announced plans to ship 23,000 to 27,000 fewer Harley-Davidson motorcycles in 2008 than were shipped in 2007. The Company's shipments in international markets grew during the nine-month period, and the percentage of units shipped to international customers increased, consistent with the Company's strategic focus on global markets.

The following table includes net revenue for the Motorcycles & Related Products segment (in millions):

	Nine months ended				(Decrease) Increase	% Change
	September 28, 2008		September 30, 2007			
Net Revenue						
Harley-Davidson motorcycles	\$ 3,255.3		\$ 3,328.3		\$ (73.0)	(2.2)%
Buell motorcycles	89.7		72.8		16.9	23.2
Total motorcycles	3,345.0		3,401.1		(56.1)	(1.6)
Parts & Accessories	706.6		703.1		3.5	0.5
General Merchandise	244.8		232.0		12.8	5.5
Other	5.3		4.3		1.0	N/M
Net revenue	\$ 4,301.7		\$ 4,340.5		\$ (38.8)	(0.9)%

Motorcycles segment net revenue decreased \$38.8 million, or 0.9%. Net revenue was lower by approximately \$273 million primarily due to the 9.0% lower shipment volume. Partially offsetting the unfavorability in volume was favorability resulting from changes in foreign currency exchange rates of approximately \$116 million and product mix changes of approximately \$84 million. In addition, wholesale price increases on Harley-Davidson motorcycles contributed approximately \$20 million to revenue. Net revenue for the first nine months of 2007 was also impacted by sales incentives and a one-time special financing promotion that was not repeated in the first nine months of 2008. This resulted in

approximately \$15 million of favorability in the first nine months of 2008.

Table of Contents**Harley-Davidson Motorcycle Retail Sales**

The Company sells its motorcycles at wholesale to an independent network of dealers and distributors who in turn sell the Company's products at retail. Worldwide retail sales of Harley-Davidson motorcycles decreased 6.0% during the first nine months of 2008 relative to the same period last year. Retail sales of Harley-Davidson motorcycles decreased 11.9% in the United States while growing 12.6% internationally. On an industry-wide basis, the heavyweight (651+cc) portion of the market was down 4.0% in the United States (through September) while growing 3.8% in Europe (through August) when compared to the same periods in 2007. The following table includes retail unit sales of Harley-Davidson motorcycles:

Harley-Davidson Motorcycle Retail Sales^(a)

Heavyweight (651+cc)

	Nine months ended		(Decrease)	%
	September 28, 2008	September 30, 2007	Increase	Change

(a) Data source for retail sales figures shown above is sales warranty and registration information provided by Harley-Davidson dealers and compiled by the Company. The Company must rely on information that its dealers supply concerning retail sales and this information is subject to revision. Only Harley-Davidson motorcycles are included in the Harley-Davidson Motorcycle Retail Sales data.

(b) Data for Europe include Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Table of Contents

The following table includes industry retail motorcycle registration data through the month indicated:

Motorcycle Industry Retail Registrations**Heavyweight (651+cc)**

	2008	2007	(Decrease) Increase	% Change
United States (September) ^(a)	425,731	443,511	(17,780)	(4.0)%
Europe (August) ^(b)	323,139	311,164	11,975	3.8%

(a) U.S. industry data includes 651+cc models derived from submission of motorcycle retail sales by each major manufacturer to an independent third party.

(b) Europe data includes Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. Industry retail motorcycle registration data includes 651+cc models derived from information provided by Giral S.A., an independent agency.

Cost of Goods Sold

Cost of goods sold was \$2.78 billion for the Motorcycles segment in the first nine months of 2008, an increase of \$58.7 million or 2.2% versus the corresponding period last year. The increased cost was led by higher manufacturing costs of approximately \$97 million. Manufacturing costs increased partially as the result of a higher fixed cost per unit due to allocating fixed costs to fewer units. Additionally, higher manufacturing costs were also the result of increased product cost as the Company invests in new models and increased product content, such as new features and options on the Company's motorcycles. Cost of goods sold also increased by approximately \$55 million resulting from changes in foreign currency exchange rates and approximately \$23 million related to changes in product mix. Partially offsetting these cost increases were lower costs of approximately \$123 million resulting from lower shipment volumes. Raw material surcharges were approximately \$6 million higher when compared to the prior year nine months.

Gross Profit

Gross profit was \$1.52 billion for the Motorcycles segment for the first nine months of 2008, a decrease of \$97.4 million or 6.0% versus the same period last year. Gross margin for the first nine months of 2008 was 35.4% compared to 37.3% for the first nine months of 2007. The factors impacting the change in gross margin are detailed under Motorcycle Unit Shipments and Net Revenue and Cost of Goods Sold above.

Financial Services

The following table includes the condensed statements of operations for the Financial Services segment (in millions):

	Nine months ended		Increase	%
	September 28, 2008	September 30, 2007	(Decrease)	Change
Interest income	\$ 197.6	\$ 139.7	\$ 57.9	41.4%
Income from securitizations	36.0	86.2	(50.2)	(58.2)
Other income	78.5	94.0	(15.5)	(16.6)
Financial services income	312.1	319.9	(7.8)	(2.5)
Interest expense	90.1	58.3	31.8	54.6
Operating expenses	114.3	88.0	26.3	29.8
Financial services expense	204.4	146.3	58.1	39.7
Operating income from financial services	\$ 107.7	\$ 173.6	\$ (65.9)	(38.0)%

Table of Contents

During the first nine months of 2008, interest income benefited from higher average retail outstanding receivables, partially offset by lower wholesale lending rates. Interest expense was higher during the first nine months of 2008 due to increased borrowings to support growth in outstanding retail receivables, partially offset by lower borrowing rates as compared to the same period of 2007. The increase in retail receivables outstanding was driven by the lack of a securitization in the second and third quarters of 2008 due to capital market volatility. The increase in operating expenses in the first nine months of 2008 is primarily due to an increase in the provision for credit losses.

Income from securitizations during the first nine months of 2008 was lower as compared to 2007 due primarily to the loss on the first quarter 2008 securitization transaction and the absence of a securitization transaction in the second and third quarters of 2008. This compares to three securitization transactions completed in the first nine months of 2007.

During the first nine months of 2008, HDFS sold \$540.0 million in retail motorcycle loans in a securitization transaction and recognized a loss of \$5.4 million, or 0.99% as a percentage of loans sold. This compares to a gain as a percentage of loans sold of 1.42%, or \$36.0 million, on \$2.53 billion of loans securitized in the first nine months of 2007. The loss in 2008 was driven by increased securitization funding costs due to capital market volatility and higher projected credit losses. In the 2008 securitization transaction, HDFS retained \$54.0 million of the subordinated securities issued by the securitization trust. The subordinated securities that were retained have been included in the investment in retained securitization interests (a component of finance receivables held for investment) in the Condensed Consolidated Balance Sheets. The cash proceeds from the 2008 securitization transaction are net of the cost of the retained subordinated securities.

Income from securitizations was also negatively impacted during the first nine months of 2008 by a \$6.3 million write down of certain retained securitization interests. The write down, which occurred in the second quarter of 2008 and is considered a permanent impairment, resulted from a decline in the fair value of certain retained securitization interests due to higher actual and anticipated credit losses on those securitization portfolios. This compares to an impairment charge of \$3.5 million incurred during the first nine months of 2007.

HDFS reviews its assumptions for determining the fair value of the investment in retained securitization interests each quarter. Key assumptions include expected losses, prepayment speed and discount rate. HDFS determines these assumptions by reviewing historical trends and current economic conditions. Given the challenging U.S. economy, credit losses on HDFS retail installment loans have increased, and as a result, the fair value of retained securitization interests have declined and in some cases this decline is permanent. Depending on the behavior of future loss rates, prepayment speeds and the discount rate, HDFS could experience further write-downs of its retained interests, which had a fair value of \$399.8 million as of September 28, 2008. A write-down in the retained securitization interest generally represents a non-cash charge in the period in which it is recorded, but ultimately represents a reduction in the residual cash flow that HDFS expects to receive from its investment in retained securitization interests.

During the nine months ended September 28, 2008, HDFS recorded a non-cash charge to earnings of \$9.4 million from the lower of cost or estimated fair value on its finance receivables held for sale. HDFS uses discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments, that in management's judgment, reflect assumptions marketplace participants would use. Any amount by which cost exceeds fair value is accounted for as a valuation allowance with an offset to other income. The decline in fair value below cost was primarily due to higher estimated funding costs related to significant volatility in the capital markets. The charge to earnings was recorded in other income and was a primary factor for the decrease in other income during the first nine months of 2008 as compared to the same period of 2007.

Annualized losses on HDFS managed retail motorcycle loans were 1.97% during the first nine months of 2008 compared to 1.65% during the first nine months of 2007. The 30-day delinquency rate for managed retail motorcycle loans at September 28, 2008 increased to 5.59% from 4.91% at September 30, 2007. Managed retail loans include loans held by HDFS as well as those sold through securitization transactions. The increase in losses was primarily due to a higher incidence of loss resulting from an increase in delinquent accounts. The Company expects that HDFS will continue to experience higher delinquencies and credit losses as a percentage of managed retail motorcycle loans in 2008 as compared to 2007.⁽¹⁾

Table of Contents

Changes in the allowance for finance credit losses on finance receivables held for investment were as follows (in millions):

	Nine months ended	
	September 28, 2008	September 30, 2007
Balance, beginning of period	\$ 30.3	\$ 27.3
Provision for finance credit losses	24.5	4.3
Charge-offs, net of recoveries	(18.0)	(4.5)
Balance, end of period	\$ 36.8	\$ 27.1

HDFS' periodic evaluation of the adequacy of the allowance for credit losses is generally based on HDFS' past loan loss experience, known and inherent risks in the portfolio, and current economic conditions. HDFS believes the allowance is adequate to cover estimated losses of principal in the existing portfolio.

Operating Expenses

The following table includes operating expenses for the Motorcycles segment and Corporate (in millions):

	Nine months ended		Increase (Decrease)	% Change
	September 28, 2008	September 30, 2007		
Motorcycles and Related Products				
Selling & administrative	\$ 584.5	\$ 504.9	\$ 79.6	15.8%
Engineering	126.0	134.6	(8.6)	(6.4)
Corporate	14.5	13.8	0.7	5.2
Total operating expenses	\$ 725.0	\$ 653.3	\$ 71.7	11.0%

Total operating expenses, which include selling, administrative and engineering expenses, were 16.9% and 15.1% of net revenue for the first nine months of 2008 and 2007, respectively. Selling and administrative expenses include a \$12.0 million restructuring charge incurred by the Company during the first nine months of 2008 (see Note 6 of Notes to Condensed Consolidated Financial Statements for further discussion) and the impact of the one-time \$16.6 million expense related to the value of in-process research and development at MVAG (see Note 4 of Notes to Condensed Consolidated Financial Statements for further discussion). In addition, selling and administrative expenses were higher due to higher international operating costs associated with the Company's international growth.

Other Matters**New Accounting Standards Not Yet Adopted**

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations. SFAS No. 141(R) changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, pre-acquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS No. 141(R), changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS No. 141(R) will be effective for the Company beginning in fiscal year 2009. This standard will change the Company's accounting treatment for business combinations on a prospective basis, when adopted.

Table of Contents

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities. Entities will be required to provide enhanced disclosures about: (a) how and why an entity uses derivative instruments; (b) how derivative instruments and related hedge items are accounted for under SFAS No. 133 and its related interpretations; and (c) how derivative instruments and related hedge items affect an entity's financial position, financial performance and cash flows. The Company is required to adopt SFAS No. 161 beginning in fiscal year 2009. The Company is currently evaluating the impact the new disclosure requirements will have on its consolidated financial statements and notes thereto.

Critical Accounting Estimates

Critical accounting estimates are described in Critical Accounting Estimates under Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2007. There have been no material changes to the Company's critical accounting estimates included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 except as described below.

Finance Receivables Held for Sale U.S. retail motorcycle loans that the Company intends to securitize at the time of loan origination are classified as finance receivables held for sale. Finance receivables held for sale in the aggregate are carried at the lower of cost or estimated fair value. HDFS uses discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments, that in management's judgment, reflect assumptions marketplace participants would use. Any amount by which cost exceeds fair value is accounted for as a valuation allowance with an offset to other income. Cash flows related to finance receivables held for sale are included in cash flows from operating activities.

Prior to the third quarter of 2008, the cost basis of finance receivables held for sale was lower than the estimated fair value and no lower of cost or estimated fair value adjustment has been required. However, significant volatility in the capital markets during the third quarter of 2008 required HDFS to record a \$9.4 million non-cash charge due to a decline in the fair value below cost related to finance receivables held for sale. In the future, volatility in the capital markets or negative credit performance of finance receivables held for sale could result in further decreases in the fair value of finance receivables held for sale.

Commitments and Contingencies

The Company is subject to lawsuits and other claims related to environmental, product and other matters. In determining required reserves related to these items, the Company carefully analyzes cases and considers the likelihood of adverse judgments or outcomes, as well as the potential range of possible loss. The required reserves are monitored on an ongoing basis and are updated based on new developments or new information in each matter.

Shareholder Lawsuits:

A number of shareholder class action lawsuits were filed between May 18, 2005 and July 1, 2005 in the United States District Court for the Eastern District of Wisconsin. On February 14, 2006, the court consolidated all of the actions into a single case, captioned *In re Harley-Davidson, Inc. Securities Litigation*, and appointed Lead Plaintiffs and Co-Lead Plaintiffs' Counsel. Pursuant to the schedule set by the court, on October 2, 2006, the Lead Plaintiffs filed a Consolidated Class Action Complaint, which names the Company and Jeffrey L. Bleustein, James L. Ziemer, and James M. Brostowitz, who are current or former Company officers, as defendants. The Consolidated Complaint alleges securities law violations and seeks unspecified damages relating generally to the Company's April 13, 2005 announcement that it was reducing short-term production growth and planned increases of motorcycle shipments from 317,000 units in 2004 to a new 2005 target of 329,000 units (compared to its original target of 339,000 units). On December 18, 2006, the defendants filed a motion to dismiss the Consolidated Complaint in its entirety. Briefing of the motion to dismiss was completed in April 2007.

Table of Contents

Three shareholder derivative lawsuits were filed in the United States District Court for the Eastern District of Wisconsin on June 3, 2005, October 25, 2005 (this lawsuit was later voluntarily dismissed) and December 2, 2005 and two shareholder derivative lawsuits were filed in Milwaukee County Circuit Court on July 22, 2005 and November 16, 2005 against some or all of the following current or former directors and officers of the Company: Jeffrey L. Bleustein, James L. Ziemer, James M. Brostowitz, Barry K. Allen, Richard I. Beattie, George H. Conrades, Judson C. Green, Donald A. James, Sara L. Levinson, George L. Miles, Jr., James A. Norling, James A. McCaslin, Donna F. Zarcone, Jon R. Flickinger, Gail A. Lione, Ronald M. Hutchinson, W. Kenneth Sutton, Jr. and John A. Hevey. The lawsuits also name the Company as a nominal defendant. In general, the shareholder derivative complaints include factual allegations similar to those in the class action complaints and allegations that officers and directors breached their fiduciary duties to the Company. On February 14, 2006, the state court consolidated the two state court derivative actions and appointed Lead Plaintiffs and Lead Plaintiffs' counsel, and on April 24, 2006, the state court ordered that the consolidated state court derivative action be stayed until after motions to dismiss the federal securities class action are decided. On February 15, 2006, the federal court consolidated the federal derivative lawsuits with the securities and ERISA (see below) actions for administrative purposes. On February 1, 2007, the federal court appointed Lead Plaintiff and Co-Lead Plaintiffs' Counsel in the consolidated federal derivative action.

On August 25, 2005, a class action lawsuit alleging violations of the Employee Retirement Income Security Act (ERISA) was filed in the United States District Court for the Eastern District of Wisconsin. As noted above, on February 15, 2006, the court ordered the ERISA action consolidated with the federal derivative and securities actions for administrative purposes. Pursuant to the schedule set by the court, on October 2, 2006, the ERISA plaintiff filed an Amended Class Action Complaint, which named the Company, the Harley-Davidson Motor Company Retirement Plans Committee, the Company's Leadership and Strategy Council, Harold A. Scott, James L. Ziemer, James M. Brostowitz, Gail A. Lione, Joanne M. Bischmann, Karl M. Eberle, Jon R. Flickinger, Ronald M. Hutchinson, James A. McCaslin, W. Kenneth Sutton, Jr., and Donna F. Zarcone, who are current or former Company officers or employees, as defendants. In general, the ERISA complaint includes factual allegations similar to those in the shareholder class action lawsuits and alleges on behalf of participants in certain Harley-Davidson retirement savings plans that the plan fiduciaries breached their ERISA fiduciary duties. On December 18, 2006, the defendants filed a motion to dismiss the ERISA complaint in its entirety. Briefing of the motion to dismiss was completed in April 2007.

The Company believes the allegations against all of the defendants in the lawsuits against the Company are without merit and it intends to vigorously defend against them. Since all of these matters are in the preliminary stages, the Company is unable to predict the scope or outcome or quantify their eventual impact, if any, on the Company. At this time, the Company is also unable to estimate associated expenses or possible losses. The Company maintains insurance that may limit its financial exposure for defense costs and liability for an unfavorable outcome, should it not prevail, for claims covered by the insurance coverage.

Environmental Matters:

The Company is involved with government agencies and groups of potentially responsible parties in various environmental matters, including a matter involving the cleanup of soil and groundwater contamination at its York, Pennsylvania facility. The York facility was formerly used by the U.S. Navy and AMF prior to the purchase of the York facility by the Company from AMF in 1981. Although the Company is not certain as to the full extent of the environmental contamination at the York facility, it has been working with the Pennsylvania Department of Environmental Protection (PADEP) since 1986 in undertaking environmental investigation and remediation activities, including an ongoing site-wide remedial investigation/feasibility study (RI/FS). In January 1995, the Company entered into a settlement agreement (the Agreement) with the Navy. The Agreement calls for the Navy and the Company to contribute amounts into a trust equal to 53% and 47%, respectively, of future costs associated with environmental investigation and remediation activities at the York facility (Response Costs). The trust administers the payment of the Response Costs incurred at the York facility as covered by the Agreement.

In February 2002, the Company was advised by the U.S. Environmental Protection Agency (EPA) that it considers some of the Company's remediation activities at the York facility to be subject to the EPA's corrective action program under the Resource Conservation and Recovery Act (RCRA) and offered the Company the option of addressing corrective action under a RCRA facility lead agreement. In July 2005, the York facility was designated as the first site in Pennsylvania to be addressed under the "One

Table of Contents

Cleanup Program. The program provides a more streamlined and efficient oversight of voluntary remediation by both PADEP and EPA and will be carried out consistent with the Agreement with the Navy. As a result, the RCRA facility lead agreement has been superseded.

Although the RI/FS is still underway and substantial uncertainty exists concerning the nature and scope of the additional environmental investigation and remediation that will ultimately be required at the York facility, the Company estimates that its share of the future Response Costs at the York facility will be approximately \$6.2 million. The Company has established reserves for this amount, which are included in Accrued liabilities in the Condensed Consolidated Balance Sheets.

The estimate of the Company's future Response Costs that will be incurred at the York facility is based on reports of independent environmental consultants retained by the Company, the actual costs incurred to date and the estimated costs to complete the necessary investigation and remediation activities. Response Costs related to the remediation of soil are expected to be incurred over a period of several years ending in 2012. Response Costs related to ground water remediation may continue for some time beyond 2012.

Under the terms of the sale of the Commercial Vehicles Division in 1996, the Company has agreed to indemnify Utilmaster Corporation, until December 2008, for certain claims related to environmental contamination present at the date of sale, up to \$20.0 million. Based on the environmental studies performed, the Company does not expect to incur any material expenditures under this indemnification.

Product Liability Matters:

Additionally, the Company is involved in product liability suits related to the operation of its business. The Company accrues for claim exposures that are probable of occurrence and can be reasonably estimated. The Company also maintains insurance coverage for product liability exposures. The Company believes that its accruals and insurance coverage are adequate and that product liability will not have a material adverse effect on the Company's consolidated financial statements.

Liquidity and Capital Resources as of September 28, 2008

The Company expects that its business model will continue to generate cash that will allow it to invest in the business, fund future growth opportunities and return value to shareholders.⁽¹⁾ In addition, the Company has had access and expects that it will have continued access to the unsecured debt, unsecured commercial paper, committed unsecured bank credit facility and asset-backed securitization markets to support the ongoing cash requirements of its Financial Services business. HDFS regularly assesses its long-term capital market strategy, which includes diversifying funding sources in the capital markets to provide the appropriate level of flexibility to fund its business and to adjust to market conditions as necessary.

In the fourth quarter of 2008, HDFS expects to have funding available to repay \$400.0 million of medium-term notes maturing in December 2008, through available funds, proceeds from a fourth quarter 2008 unsecured debt issuance or other sources. HDFS also expects it will have continuing access to the unsecured commercial paper and committed unsecured bank credit facility markets. In addition, HDFS is also exploring the establishment of an asset-backed commercial paper facility to supplement its existing unsecured commercial paper program.

In 2009, HDFS expects to utilize a combination of funding sources including the unsecured debt, asset-backed securitization, commercial paper and committed unsecured bank credit facility markets. In addition, given the unprecedented volatility in the capital markets, HDFS has developed contingency plans which would only be implemented in the event that conditions in the capital markets limit HDFS' funding sources. These contingencies include but are not limited to utilizing cash from the Motorcycles Segment and issuing Harley-Davidson, Inc. unsecured debt.

Due to the extreme volatility in the capital markets and management's conservative approach to liquidity management, the Company does not plan to repurchase shares during the fourth quarter until HDFS has successfully executed a capital market transaction and obtained additional financial flexibility.

Table of Contents

As discussed in Note 4 of Notes to Condensed Consolidated Financial Statements, the Company completed the purchase of MVAG during the third quarter of 2008. The Company financed the transaction and MVAG's initial working capital requirements through \$175.1 million of short-term revolving debt under the Global Credit Facilities (as defined below). Going forward, the Company anticipates that short-term working capital requirements for MVAG will be financed through additional short-term debt borrowings.

Cash Flow Activity

The following table summarizes the operating, investing and financing cash flow activity for the periods indicated (in thousands):

	Nine months ended	
	September 28, 2008	September 30, 2007
Net cash (used by) provided by operating activities	\$ (221,222)	\$ 1,368,257
Net cash (used by) provided by investing activities	(283,955)	462,866
Net cash provided by (used by) financing activities	608,317	(1,671,678)
Total	\$ 103,140	\$ 159,445

Operating Activities

The decrease in operating cash flow from the first nine months of 2007 to the first nine months of 2008 was due primarily to lower securitization proceeds. Proceeds from the sale of retail finance receivables resulted in cash inflows of \$467.7 million and \$2.49 billion during the first nine months of 2008 and 2007, respectively. During the first nine months of 2008, HDFS funded a greater percentage of its business with proceeds from commercial paper and medium-term notes than it did in the same period last year.

As discussed in Note 12 of Notes to Condensed Consolidated Financial Statements, the Company does not expect to make additional contributions to further fund its pension and postretirement healthcare plans during the remainder of 2008 beyond the amount of current benefit payments for SERPA and postretirement healthcare plans. However, due to significant declines in worldwide financial market conditions, the Company may be required to make additional contributions in 2009 in addition to the amount of current benefit payments.

Investing Activities

The Company's investing activities consist primarily of capital expenditures, net changes in finance receivables held for investment and short-term investment activity.

Capital expenditures were \$153.7 million and \$139.4 million during the first nine months of 2008 and 2007, respectively. The Company estimates that total capital expenditures for 2008 will be in the range of \$235.0 million to \$250.0 million.⁽¹⁾ The Company anticipates it will have the ability to fund all capital expenditures in 2008 with internally generated funds.⁽¹⁾

Sales and redemptions of marketable securities (net of purchases) in the first nine months of 2008 resulted in cash inflow of \$2.0 million compared to \$604.9 million in the first nine months of 2007. The year over year decline in cash inflow from marketable securities is a result of the Company reducing its investment in marketable securities over the previous twelve months, generally for the purpose of funding share repurchases.

The year over year increase in cash used in investing activities was also affected by the Company's acquisition of MVAG during the third quarter of 2008.

Financing Activities

The Company's financing activities consist primarily of share repurchases, dividend payments and debt activity. During the first nine months of 2008, the Company repurchased 6.3 million shares of its common stock at a total cost of \$250.0 million. The Company repurchased 3.1 million of these shares under a general authorization provided by the Company's Board of Directors in October 2006 to buy back 20.0 million shares. As of September 28, 2008, no shares remained under this authorization. The

Table of Contents

remaining 3.2 million shares were repurchased under an authorization granted by the Company's Board of Directors in December 2007, which separately authorized the Company to buy back up to 20.0 million shares of its common stock. In addition, the Company also has an authorization from the Company's Board of Directors that is designed to provide the Company with continuing authority to repurchase shares to offset dilution caused by the exercise of stock options and the issuance of nonvested stock. Please see Part II, Item 2 Unregistered Sales of Equity Securities and Use of Proceeds for additional details regarding the Company's share repurchase activity and authorizations.

The Company paid dividends of \$0.96 per share at a total cost of \$225.2 million during the first nine months of 2008, compared to dividends of \$0.76 per share at a total cost of \$189.1 million during the same period last year.

During the nine months ended September 28, 2008, debt increased by \$1.94 billion which was primarily driven by higher finance receivables outstanding as HDFS funded a greater percentage of its business through debt rather than through securitization transactions when compared to the first nine months of 2007. Additionally, the Company financed the acquisition and initial working capital requirements of MVAG through \$175.1 million of short-term revolving debt under the Global Credit Facilities (as defined below). The Company's total outstanding debt consisted of the following as of September 28, 2008 and September 30, 2007 (in millions):

	Nine months ended	
	September 28, 2008	September 30, 2007
Credit facilities	\$ 382.9	\$ 214.4
Commercial paper	786.3	391.6
	1,169.2	606.0
Medium-term notes	2,002.8	594.2
Senior subordinated notes		30.0
Total finance debt	\$ 3,172.0	\$ 1,230.2

Credit Facilities In July 2008, the Company and HDFS entered into a \$950.0 million 364-day facility and a \$950.0 million three-year facility (collectively, Global Credit Facilities) to replace existing credit facilities. The Global Credit Facilities, which total \$1.90 billion, are committed facilities and are primarily used to support HDFS' unsecured commercial paper program and to fund HDFS' lending activities and other operations. Borrowings under the Global Credit Facilities will bear interest at various variable rates, which may be adjusted upward or downward depending on whether certain criteria are satisfied. As a result of the Global Credit Facilities, HDFS may issue unsecured commercial paper in the aggregate equal to the unused portion of the Global Credit Facilities.

Commercial Paper Subject to limitations, HDFS can issue unsecured commercial paper of up to \$1.90 billion as of September 28, 2008. Maturities may range up to 365 days from the issuance date. Outstanding unsecured commercial paper may not exceed the unused portion of the Global Credit Facilities.

Medium-Term Notes In May 2008, HDFS issued \$1.00 billion of 6.80% medium-term notes due in June 2018. HDFS also has \$400.0 million of 3.63% medium-term notes outstanding which are due in December 2008, \$200.0 million of 5.00% medium-term notes due in December 2010, and \$400.0 million of 5.25% medium-term notes due in December 2012 (all four issuances are collectively referred to as Notes). The Notes provide for semi-annual interest payments and principal due at maturity. As of September 28, 2008 and September 30, 2007, the Notes included a fair value adjustment increasing the balance by \$5.1 million and reducing the balance by \$5.8 million, respectively, due to interest rate swap agreements designated as fair value hedges. The effect of the interest rate swap agreements is to convert the interest rate on a portion of the Notes from a fixed to a floating rate, which is based on 3-month LIBOR.

Senior Subordinated Debt At September 30, 2007, HDFS had \$30.0 million of 6.79% senior subordinated notes outstanding which were due in December 2007. In December 2007, the notes matured and the principal and accrued interest was paid in full.

Table of Contents

Intercompany Borrowing HDFS has a revolving credit line with the Company whereby HDFS may borrow up to \$210.0 million from the Company at a market interest rate. As of September 28, 2008 and September 30, 2007, HDFS had no outstanding borrowings owed to the Company under this agreement.

The Company has a support agreement with HDFS whereby, if required, the Company agrees to provide HDFS with financial support in order to maintain certain financial covenants. Support may be provided at the Company's option as capital contributions or loans. Accordingly, certain debt covenants may restrict the Company's ability to withdraw funds from HDFS outside the normal course of business. No amount has ever been provided to HDFS under the support agreement.

Operating and Financial Covenants HDFS and the Company are subject to various operating and financial covenants related to the Global Credit Facilities and Notes. The more significant covenants are described below.

The covenants limit HDFS' ability to:

incur certain additional indebtedness;

assume or incur certain liens;

participate in a merger, consolidation, liquidation or dissolution; and

purchase or hold margin stock.

Under the Global Credit Facilities financial covenants, the debt to equity ratio of HDFS and its consolidated subsidiaries cannot exceed 10.0 to 1.0 and the Company must maintain an interest ratio coverage of 2.5 to 1.0. The minimum required HDFS consolidated tangible net worth is \$300.0 million. No financial covenants are required under the Notes.

At September 28, 2008, HDFS and the Company remained in compliance with all of the existing covenants.

Cautionary Statements

The Company's ability to meet the targets and expectations noted depends upon, among other factors, the Company's ability to (i) continue to realize production efficiencies at its production facilities and manage operating costs including materials, labor and overhead; (ii) manage production capacity and production changes; (iii) manage supply chain issues; (iv) provide products, services and experiences that are successful in the marketplace; (v) develop and implement sales and marketing plans that retain existing retail customers and attract new retail customers in an increasingly competitive marketplace; (vi) sell all of its motorcycles and related products and services to its independent dealers; (vii) continue to develop the capabilities of its distributor and dealer network; (viii) manage changes and prepare for requirements in legislative and regulatory environments for its products, services and operations; (ix) adjust to fluctuations in foreign currency exchange rates, interest rates and commodity prices; (x) manage access to reliable sources of capital and adjust to fluctuations in the cost of capital; (xi) adjust to regional and worldwide demographic trends and economic and political conditions, including healthcare inflation, pension reform and tax changes; (xii) anticipate consumer confidence in the economy; (xiii) manage the credit quality, the loan servicing and collection activities, and the recovery rates of HDFS' loan portfolio; (xiv) retain and attract talented employees; (xv) detect any issues with our motorcycles or manufacturing processes to avoid delays in new model launches, recall campaigns, increased warranty costs or litigation; (xvi) implement and manage enterprise-wide information technology solutions and secure data contained in those systems; and (xvii) successfully integrate and profitably operate MV Agusta Group.

In addition, the Company could experience delays or disruptions in its operations as a result of work stoppages, strikes, natural causes, terrorism or other factors. Other factors are described in risk factors that the Company has disclosed in documents previously filed with the Securities and Exchange Commission. Many of these risk factors are impacted by the current turbulent capital, credit and retail markets.

Table of Contents

The Company's ability to sell its motorcycles and related products and services and to meet its financial expectations also depends on the ability of the Company's independent dealers to sell its motorcycles and related products and services to retail customers. The Company depends on the capability and financial capacity of its independent dealers and distributors to develop and implement effective retail sales plans to create demand for the motorcycles and related products and services they purchase from the Company.

In addition, the Company's independent dealers and distributors may experience difficulties in operating their businesses and selling Harley-Davidson motorcycles and related products and services as a result of weather, economic conditions or other factors.

Refer to Risk Factors under Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for a discussion of additional factors and a more complete discussion of some of the cautionary statements noted above.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for a complete discussion of the Company's market risk. There have been no material changes to the market risk information included in the Company's Annual Report on Form 10-K for the year December 31, 2007.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's management evaluated, with the participation of the Company's President and Chief Executive Officer and Executive Vice President and Chief Financial Officer, the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the President and Chief Executive Officer and the Executive Vice President and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the Securities and Exchange Commission rules and forms, and to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its President and Chief Executive Officer and Executive Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

Changes in Internal Controls

There was no change in the Company's internal control over financial reporting during the quarter ended September 28, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**Part II OTHER INFORMATION****Item 1. Legal Proceedings**

The information required under this Item 1 of Part II is contained in Item 1 of Part I of this Quarterly Report on Form 10-Q in Note 13 of the Notes to Condensed Consolidated Financial Statements, and such information is incorporated herein by reference in this Item 1 of Part II.

Item 1A. Risk Factors

Refer to Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for a discussion regarding risk factors relating to the Company. There have been no material changes to the risk factors included in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table contains detail related to the repurchase of common stock based on the date of trade during the quarter ended September 28, 2008:

2008 Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
June 30 to August 3	3,386	\$ 37		23,797,367
August 4 to August 31	2,507,236	40	2,507,194	21,309,409
September 1 to September 28				21,311,409
Total	2,510,622	\$ 40	2,507,194	

The Company has an authorization (originally adopted in December 1997) by its Board of Directors to repurchase shares of its outstanding common stock under which the cumulative number of shares repurchased, at the time of any repurchase, shall not exceed the sum of (1) the number of shares issued in connection with the exercise of stock options or grants of nonvested stock occurring on or after January 1, 2004 plus (2) one percent of the issued and outstanding common stock of the Company on January 1 of the current year, adjusted for any stock split. The Company did not repurchase any shares under this authorization during the quarter ended September 28, 2008.

The shares repurchased during the third quarter of 2008 were repurchased under an authorization granted by the Company's Board of Directors in December 2007, which separately authorized the Company to buy back up to 20.0 million of its common stock with no dollar limit or expiration date. As of September 28, 2008, 16.7 million shares remained under this authorization.

The Harley-Davidson, Inc. 2004 Incentive Stock Plan permits participants to satisfy all or a portion of the federal, state and local withholding tax obligations arising in connection with plan awards by electing to (a) have the Company withhold shares otherwise issuable under the award; (b) tender back shares received in connection with such award; or (c) deliver other previously owned shares, in each case having a value equal to the amount to be withheld. The Company acquired 3,386 shares under this plan during the quarter ended September 28, 2008.
