Qualitative Information and Financial Statements

1. Qualitative information related to the results of operations

With respect to the economic and financial environment for the April-September period of fiscal 2008, the economic slowdown in the United States and Europe became evident, as the intensified financial crisis in the United States triggered by the subprime problem spilled over to Europe. The Asian and emerging economies followed a slowing trend, despite some signs of firmness. Meanwhile, concerns on a global inflation persisted due to rising prices of energy and raw materials. In Japan, the economy was underpinned by its exports to emerging countries, but corporate performance remained sluggish, reflecting the economic slowdown in the United States and Europe and rising prices of fuels and raw materials. Private consumption also remained stagnant due to inflation and a weakness in wages. Consumer prices increased their rate of growth due to rising prices of crude oil and food.

In the financial environment, the U.S. federal funds target rate was lowered to 2 percent in response to the subprime problem, and in the Euro zone, the European Central Bank kept its key interest rate unchanged after raising it to 4.25 percent in summer in order to curb inflation. The Bank of Japan left the uncollateralized overnight call rate target intact at 0.5 percent, but upward pressure on Japan s short-term interest rates persisted on the back of the financial market turmoil in the United States and Europe. Long-term interest rates temporarily surged toward the middle of June in reaction to the rapid rise in interest rates in the United States and Europe, but followed a downward trend due to the accelerating flight to quality stemming from the intensified financial crisis in the United States thereafter. In the foreign exchange market, the yen fluctuated in the 100 yen range against the dollar, amid growing concerns over an economic slowdown in the United States and Japan.

Under such business environment, consolidated gross profits for the six months ended September 30, 2008 decreased by 100.3 billion yen from the previous interim period to 1,696.5 billion yen. This was mainly due to a decrease of a fees from derivative transactions and net fees and commissions such as investment trust related businesses, insurance businesses, securities businesses and real estate businesses, even though net interest income remain unchanged. Net business profits before credit costs for trust accounts and provision for general allowance for credit losses for the six months ended September 30, 2008 decreased by 111.6 billion yen from the previous interim period to 623.8 billion yen, because general and administrative expenses increased by 11.2 billion yen due to an increase of expenses relating to systems integration.

In addition, consolidated net income for the six months ended September 30, 2008 was 92.0 billion yen, a decrease of 164.6 billion yen compared with the previous interim period. Because total credit costs increased by 67.4 billion yen compared with the previous interim period due to credit rating changes which reflected a domestic and overseas economic slowdown and deterioration of corporate performance, and net gains (losses) on equity securities decrease by 129.7 billion yen compared with the previous interim period due to an occurrence of losses on write-down of equity securities by 145.2 billion yen.

2. Qualitative information related to the financial conditions

The decrease in total net assets reflected a decrease of total valuation and translation adjustments by 766.6 billion yen, which are mainly due to a decrease of net unrealized gains (losses) on other securities reflecting a deterioration of stock prices in domestic stock markets, even though total shareholder s equity increased by 197.6 billion yen due to a decrease of treasury stock with a share exchange of our stock and a Mitsubishi UFJ NICOS Co., Ltd. s stock .

The following Specified Subsidiary was newly consolidated during the period.

| Name | Location | Stated Capital | Primary Business | Ownership |

(2) Changes in accounting policies, procedures and presentation rules applied in the preparation of the interim consolidated financial statements

The Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements
The Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements (ASBJ PITF No.18, May 17, 2006) is applicable to fiscal years beginning on or after April 1, 2008, and MUFG has adopted this practical solution starting in this fiscal period. The adoption of the practical solution resulted in a 7,218 million yen increase in each of ordinary profits and income

before income taxes and others for the six months ended September 30, 2008.

(Additional information)

Net actuarial loss (gain) not recognized as net periodic cost of retirement benefits, which is recorded on the financial statements of foreign subsidiaries under US GAAP in accordance with Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (FASB Statement No.158) and which was previously deducted from net assets and allocated to Other assets or Reserve for retirement benefits in the consolidation process, is recorded separately, net of related tax effects and minority interests portion, as Pension liability adjustments of subsidiaries preparing financial statements under US GAAP, under valuation and translation adjustments in net assets. This change resulted in a 21,136 million yen decrease in Other assets, a 9,620 million yen increase in Reserve for retirement benefits, a 11,814 million yen decrease in Deferred tax assets and a 6,573 million yen decrease in Minority interests.

The Accounting Standard for Lease Transactions

Finance leases other than those that were deemed to transfer the ownership of leased property to the lessees have previously been accounted for in a similar manner to operating leases. However, the Accounting Standard for Lease Transactions (ASBJ Statement No.13, March 30, 2007) and the Implementation Guidance on the Accounting Standard for Lease Transactions (ASBJ Guidance No.16, March 30, 2007) became applicable to fiscal years beginning on or after April 1, 2008, and MUFG adopted this accounting standard and practical guideline starting in this fiscal period.

(As lessees)

Domestic consolidated subsidiaries finance leases other than those that are deemed to transfer the ownership of leased property to the lessees, which commenced in fiscal years beginning prior to April 1, 2008, are accounted for in a similar way to operating leases. Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees, which commenced in fiscal years beginning on or after April 1, 2008, are accounted for in a similar way to purchases and depreciation for lease assets is computed under the straight-line method over the lease term with zero residual value unless residual value is guaranteed by the corresponding lease contracts. The adoption of the new standard did not have a material impact on the interim consolidated statement of income.

(As lessors)

Finance leases other than those that are deemed to transfer the ownership of leased property to the lessees are accounted for in a similar way to sales and income and expenses related to such leases are recognized by allocating interest equivalents to applicable fiscal periods instead of recording sales and costs of goods sold. The adoption of the new standard resulted in a 58,083 million yen decrease in Ordinary income (including a 4,266 million yen increase in Interest income and a 62,349 million yen decrease in Other ordinary income), a 58,295 million yen decrease in Ordinary expenses (including a 56,376 million yen decrease in Other ordinary expenses), a 212 million yen increase in Ordinary profits , a 6,107 million yen increase in Extraordinary gains and a 6,319 million yen increase in Income before income taxes and others for the six months ended September 30, 2008.

Mitsubishi UFJ Financial Group, Inc.

Net presentation of derivative instruments subject to master netting agreements

Beginning in this fiscal period, MUFG has started to record in its financial statements, on a gross basis, the fair value amounts recognized for derivative instruments executed with the same counterparty as assets and liabilities, which were previously netted out if there was a legally valid master netting agreement between the two parties.

MUFG examined its relevant accounting presentation practice from a viewpoint of best financial disclosure practice relating to credit risk and determined that its financial statements under Japanese GAAP should be prepared without offsetting derivative assets and liabilities because the amounts of cash collateral received or payable for derivative transactions have recently been increasing and, as a result, it is no longer sufficiently reasonable to offset only the fair value amounts recognized as assets and liabilities for derivative instruments.

This change resulted in a 3,336,769 million yen increase in Trading assets , a 3,384,170 million yen increase in Trading liabilities , a 1,141,588 million yen increase in Other assets and a 1,094,188 million yen increase in Other liabilities as of September 30, 2008.

Evaluation of securities (Additional information)

Floating-rate Japanese government bonds which are included Securities have preciously been evaluated based on market values. The domestic consolidated banking subsidiary has examined its accounting treatment for Floating-rate Japanese government bonds in accordance with the Practical Solution on Measurement of Fair Value of Financial Assets (ASBJ PITF No.25, October 28, 2008) and determined that market values at the end of the interim period cannot be deemed as fair values and evaluates its Floating-rate Japanese government bonds based on reasonably estimated amounts starting in this fiscal period.

This change resulted in a 122,235 million yen increase in Securities , a 41,083 million yen decrease in Deferred tax assets and a 81,152 million yen increase in Net unrealized gains (losses) on other securities .

(3) Classification Based on Prior Year Operating Results as Provided in the JICPA Audit Committee Report No.66

Although we recorded taxable income for the six months ended September 30, 2008, we are classified as 4 described above since we have material net operating losses carried forwards. However since we believe the net operating losses carried forwards are attributable to extraordinary factors such as changes in laws and regulations, we apply the exception to classification 4.

(Five years future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating losses carried forwards were incurred due to, among other things, the followings: (i) we accelerated the final disposition of non performing loans in response to both the Emergency Economic Package, which provided guidance to major banks to remove claims to debtors classified as likely to become bankrupt or below from their balance sheets, and the Program for Financial Revival, which urged major banks to reduce the ratio of non performing loans to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the Law Concerning Restriction, etc. of Banks Shareholdings etc.

(Five years future taxable income is estimable.)

[Extraordinary Factors Such as Changes in Laws and Regulations]

Our net operating losses carried forwards were incurred due to, among other things, the followings: (i) we accelerated the final disposition of non performing loans in response to both the Emergency Economic Package, which provided guidance to major banks to remove claims to debtors classified as likely to become bankrupt or below from their balance sheets, and the Program for Financial Revival, which urged major banks to reduce the ratio of non performing loans to total claims by about half; and (ii) we reduced our holdings of strategic equity investments under the Law Concerning Restriction, etc. of Banks Shareholdings etc.

Our exposure to securitized products and related investments as of September 30, 2008 is outlined below. (Figures are on a managerial basis and rounded off.)

[Balance, net unrealized gains (losses), realized losses]

The balance as of the end of September 2008 decreased to ¥3.12 trillion in total, a decrease of ¥201 billion compared with the balance as of the end of March 2008. This decrease was mainly due to sales and redemptions, and the balance denominated in local currencies decreased at the end of September 2008.

Net unrealized losses were ¥501 billion, and the rate of decline in market value was 16.1%, an increase of 6.5% from the rate at the end of March 2008.

The effect on the P/L for the six months ended September 30, 2008 was a loss of \(\frac{\pmathbf{4}}{4} \) billion, mainly due to losses on disposal of residential mortgage-backed securities (RMBS). (The realized losses for the fiscal year ended March 31, 2008 were \(\frac{\pmathbf{1}}{1} \) 17 billion.)
