FOR IMMEDIATE RELEASE

Exelon Increases Offer to Acquire NRG Energy by 12.4 Percent

Company Cites Additional Upside Value Identified Since Initial Offer

Also Shares Details on Financing

CHICAGO (July 2, 2009) Exelon Corporation (NYSE:EXC) today announced an increase in its offer to acquire all of the outstanding NRG common stock in an all-stock transaction with a fixed exchange ratio of 0.545 of a share of Exelon common stock for each NRG share, a 12.4 percent increase over the initial exchange offer of 0.485. Exelon's increased offer represents value of over \$3 billion to NRG shareholders.

Exelon also filed today with the SEC an investor presentation that will be used as part of the company's proxy solicitation for the election of nine new, independent directors to the NRG board of directors. In the presentation, Exelon cited approximately \$1.5 billion of additional newly identified synergies as the primary reason for the increase. The new offer also reflects the value of NRG's recent acquisition of the Reliant Energy retail business.

We listened to NRG investors and balanced their views with the best interests of Exelon shareholders. An exhaustive analysis by our internal team, informed by the best third-party experts, resulted in additional synergies, allowing us to increase our offer to NRG shareholders," said John Rowe, chairman and chief executive officer of Exelon. "Our track record of the Unicom-PECO merger, cost-cutting initiatives, and fleet optimization proves we can deliver this further value to Exelon and NRG shareholders. This is our best and final offer, and we will use the time leading up to the NRG annual meeting on July 21 to communicate the value of our new offer to NRG shareholders, encouraging them to vote for nine new independent directors who can unlock that value.

Exelon's more detailed analysis of NRG's structure, cost platform and operations assumes that the company would not only absorb NRG but also integrate and transform it. This approach, plant benchmarking, and application of Exelon's management model to NRG's assets yielded an estimated present value of \$3.6 billion to \$4.0 billion in operational synergies from areas including corporate/IT, fossil and nuclear fleet, trading, development, and retail operations. It reflects a 30 percent reduction in NRG's O&M expense, which is consistent with prior power sector transactions and reflects Exelon's track record of delivering cost reductions.

In the presentation, Exelon also shared details on its financing plan to maintain its investment grade credit ratings while optimizing long-term shareholder value. Exelon says it is confident, based on discussions with its outside advisors, that the company will be able to meet all financing needs associated with the transaction, including the re-financing of \$4.7 billion of NRG's senior notes and other NRG debt, if necessary, while maintaining investment grade credit ratings.

Exelon says it continues to pursue NRG because of the long-term value that can be created by industry consolidation. Exelon believes that the scope, scale and diversified risk of the combined company will allow it not only to withstand the ever-changing forces of the markets and regulation but also to grow and create more value than each company could on its own.

Exelon says its offer will create immediate value for NRG shareholders and a commensurate value for Exelon shareholders. NRG shareholders will benefit from Exelon's stronger investment grade balance sheet, low-carbon nuclear fleet, operating excellence, and a \$600 million share in the synergies resulting from the combination. Exelon shareholders benefit from NRG's assets, cash flow, and its own share of the synergies.

Together, the two companies would become the first national generation company, said Rowe. There is no model that can do more for shareholders of both companies than an Exelon-NRG combination.

Exelon will conduct a conference call with investors to discuss this announcement and presentation at 8 a.m. ET (7 a.m. CT) today. The call-in number in the U.S. and Canada is 800-690-3108, and the international call-in number is 973-935-8753. If requested, the conference ID number is 17092348. Media representatives are invited to participate on a listen-only basis. The call will be web-cast and archived on Exelon's Web site: www.exeloncorp.com. (Please select the Investor Relations page.) Telephone replays will be available until July 16. The U.S. and Canada call-in number for replays is 800-642-1687, and the international call-in number is 706-645-9291. The conference ID number is 17092348.

Exelon announced on June 17, 2009, that it had filed its definitive proxy materials with the Securities and Exchange Commission to solicit proxies from NRG shareholders at the NRG annual meeting of shareholders scheduled for July 21, 2009. In today's presentation, Exelon urges all NRG shareholders to use the BLUE proxy card to vote in favor of proposals to expand the NRG Board and elect nine new, independent and experienced directors who will act in shareholders' best interests to capture the highest shareholder value possible.

Important Information

This press release relates, in part, to the offer (the "Offer") by Exelon Corporation ("Exelon") through its direct wholly-owned subsidiary, Exelon Xchange Corporation ("Xchange"), to exchange each issued and outstanding share of common stock (the "NRG shares") of NRG Energy, Inc. ("NRG") for 0.545 of a share of Exelon common stock. This press release is for informational purposes only and does not constitute an offer to exchange, or a solicitation of an offer to exchange, NRG shares, nor is it a substitute for the Tender Offer Statement on Schedule TO or the Prospectus/Offer to Exchange included in the Registration Statement on Form S-4 (Reg. No. 333-155278) (including the Letter of Transmittal and related documents and as amended from time to time, the "Exchange Offer Documents") previously filed by Exelon and Xchange with the Securities and Exchange Commission (the "SEC"). The Offer is made only through the Exchange Offer Documents. **Investors and security holders are urged to read these documents and other relevant materials as they become available, because they will contain important information.**

Exelon filed a preliminary proxy statement on Schedule 14A with the SEC on April 17, 2009 in connection with its solicitation of proxies (the "Preliminary Exelon Meeting Proxy Statement") for a meeting of Exelon shareholders (the "Exelon Meeting") to be called in order to approve the issuance of

shares of Exelon common stock pursuant to the Offer. Exelon expects to file a definitive proxy statement on Schedule 14A with the SEC in connection with the solicitation of proxies for the Exelon Meeting (the Definitive Exelon Meeting Proxy Statement). **Investors and security holders are urged to read the Preliminary Exelon Meeting Proxy Statement and the Definitive Exelon Meeting Proxy Statement and other relevant materials as they become available, because they will contain important information.**

Investors and security holders can obtain copies of the materials described above (and all other related documents filed with the SEC) at no charge on the SEC's website: www.sec.gov. Copies can also be obtained at no charge by directing a request for such materials to Innisfree M&A Incorporated, 501 Madison Avenue, 20th Floor, New York, New York 10022, toll free at 1-877-750-9501. Investors and security holders may also read and copy any reports, statements and other information filed by Exelon, Xchange or NRG with the SEC, at the SEC public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 or visit the SEC's website for further information on its public reference room.

Exelon and Xchange will be participants in the solicitation of proxies from Exelon shareholders for the Exelon Meeting or any adjournment or postponement thereof. In addition, certain directors and executive officers of Exelon and Xchange may solicit proxies for the Exelon Meeting. Information about Exelon and Exelon's directors and executive officers is available in the Preliminary Exelon Meeting Proxy Statement. Information about Xchange and Xchange's directors and executive officers is available in Schedule II to the Prospectus/Offer to Exchange. Information about any other participants will be included in the Definitive Exelon Meeting Proxy Statement.

Forward Looking Statements

This press release includes forward-looking statements. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements made herein. The factors that could cause actual results to differ materially from these forward-looking statements include Exelon's ability to achieve the synergies contemplated by the proposed transaction, Exelon's ability to promptly and effectively integrate the businesses of NRG and Exelon, and the timing to consummate the proposed transaction and obtain required regulatory approvals as well as those discussed in (1) the Exchange Offer Documents; (2) Exelon's 2008 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 18; (3) Exelon's First Quarter 2009 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors and (b) Part I, Financial Information, ITEM 1. Financial Statements: Note 13; and (4) other factors discussed in Exelon's filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this press release. Exelon does not undertake any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this press release, except as required by law.

Statements made in connection with the Offer are not subject to the safe harbor protections provided to forward-looking statements under the Private Securities Litigation Reform Act of 1995.

All information in this press release concerning NRG, including its business, operations, and financial results, was obtained from public sources. While Exelon has no knowledge that any such information is inaccurate or incomplete, Exelon has not had the opportunity to verify any of that information.

###

Exelon Corporation is one of the nation's largest electric utilities with nearly \$19 billion in annual revenues. The company has one of the industry's largest portfolios of electricity generation capacity, with a nationwide reach and strong positions in the Midwest and Mid-Atlantic. Exelon distributes electricity to approximately 5.4 million customers in northern Illinois and southeastern Pennsylvania and natural gas to 485,000 customers in the Philadelphia area. Exelon is headquartered in Chicago and trades on the NYSE under the ticker EXC.

On July 2, 2009, Exelon Corporation issued the following notice:

This morning, Exelon Corporation announced an increase in its offer to acquire all of the outstanding NRG common stock in an all-stock transaction with a fixed exchange ratio of 0.545 Exelon shares for each NRG share, a 12.4 percent increase over the initial exchange offer of 0.485.

Attached is the complete news release and materials for today's conference call. Conference call details are below.

Exelon Corporation will discuss the proposed NRG Energy transaction in a 45-minute conference call scheduled for Thursday, July 2nd, at 7:00 AM Central Time (8:00 AM Eastern Time). The call-in numbers are:

US & Canada Callers: 800-690-3108

International Callers: 973-935-8753

Conference ID # if requested: 17092348

A conference call replay will be available two hours after the call ends through July 16th, 2009. The numbers to dial for the replay are:

US & Canada Callers: 800-642-1687

International Callers: 706-645-9291

Conference ID #: 17092348

You will also be able to listen to a live audio webcast on the Investor Relations page of Exelon's website (www.exeloncorp.com). The webcast will be archived and available for replay two hours after the conference call ends.

The call details are also included in the attached document. If you have any problems opening the attachment, please contact Martha Chavez at martha.chavez@exeloncorp.com or call her at 312-394-4069.

This presentation relates, in part, to the offer (the Offer) by Exelon Corporation (Exelon) through its direct wholly-owned subsidiary, Exelon Xchange Corporation (Xchange), to exchange each issued and outstanding share of common stock (the shares) of NRG Energy, Inc. (NRG) for 0.545 of a share of Exelon common stock. This presentation is for informational purposes only and does not constitute an offer to exchange, or a solicitation of an offer to exchange, NRG shares, nor is it a substitute for the Tender Offer Statement on Schedule TO or the Prospectus/Offer to Exchange included in the Registration Statement on Form S-4 (Reg. No. 333-155278) (including the Letter of Transmittal and related documents and as amended from time to time, the Exchange Offer Documents) previously filed by Exelon and Xchange with the Securities and Exchange Commission (the SEC). The Offer is made only through the Exchange Offer Documents. **Investors and security holders are urged to read these** documents and other relevant materials as they become available, because they will contain important information.

Exelon filed a proxy statement on Schedule 14A with the SEC on June 17, 2009 in connection with the solicitation of proxies (the NRG Meeting Proxy Statement) for the 2009 annual meeting of NRG stockholders (the NRG Meeting). Exelon will also file a proxy statement on Schedule 14A and other relevant documents with the SEC in connection with its solicitation of proxies for the 2009 annual meeting of Exelon shareholders (the Exelon Meeting) to be called in order to approve the issuance of shares of Exelon common stock pursuant to the Offer (the Exelon Meeting Proxy Statement). **Investors and security holders are urged to read the NRG Meeting Proxy Statement and the Exelon Meeting Proxy Statement and other relevant materials as they become available,** because they will contain important information.

Investors and security holders can obtain copies of the materials described above (and all other related documents filed with the SEC) at no charge on the SEC's website: www.sec.gov. Copies can also be obtained at no charge by directing a request for such materials to Innisfree M&A Incorporated, 501 Madison Avenue, 20th Floor, New York, New York 10022, toll free at 1-877-759-9501. Investors and security holders may also read and copy any reports, statements and other information filed by Exelon, Xchange or NRG with the SEC, at the SEC public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call toll free at 1-800-SEC-0330 or visit the SEC's website for further information on its public reference room.

Exelon, Xchange and the individuals to be nominated by Exelon for election to NRG's Board of Directors will be participants in the solicitation of proxies from NRG stockholders for the NRG Meeting or any adjournment or postponement thereof. Exelon and Xchange will be participants in the solicitation of proxies from Exelon shareholders for the Exelon Meeting or any adjournment or postponement thereof. In addition, certain directors and executive officers of Exelon and Xchange may solicit proxies for the Exelon Meeting and the NRG Meeting. Information about Exelon and Exelon's directors and executive officers is available in Exelon's proxy statement, dated March 19, 2009, filed with the SEC in connection with Exelon's 2009 annual meeting of shareholders. Information about Xchange and Xchange's directors and executive officers is available in Schedule II to the Prospectus/Offer to Exchange. Information about any other participants is included in the NRG Meeting Proxy Statement or the Exelon Meeting Proxy Statement, as applicable.

Forward-Looking Statements

This presentation includes forward-looking statements. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements made herein. The factors that could cause actual results to differ materially from these forward-looking statements include Exelon's ability to achieve the synergies contemplated by the proposed transaction, Exelon's ability to promptly and effectively integrate the businesses of NRG and Exelon, and the timing to consummate the proposed transaction and obtain required regulatory approvals as well as those discussed in (1) the Exchange Offer Documents; (2) Exelon's 2008 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 18; (3) Exelon's first quarter 2009 Quarterly Report on Form 10-Q filed on April 23, 2009 in (a) Part II, Other Information, ITEM 1A. and investment grade balance sheet

Significant presence in five major competitive markets (Illinois, Pennsylvania, Texas, California and the Northeast) rather than two or three

Second lowest carbon emitting intensity in the industry

For NRG and Exelon Shareholders, a
Combination Means:

4
1.

Includes owned and contracted capacity after giving effect to planned divestitures.

2.

Exelon and NRG market capitalization as of 6/26/09.

5

For NRG Shareholders, Exelon Means
Participation in a Company with:

The largest, best run, lowest cost nuclear fleet in the U.S.

A plan to build 1,300-1,500 MW of new nuclear through
uprates
at a fraction of the cost and risk of NRG's partial
ownership of STP 3&4

The largest carbon upside in the industry

The opportunity to realize any upside from gas, coal and
capacity prices without the higher risk from downside
commodity cycles facing stand-alone NRG

A history of financial discipline and shareholder return

Investment
grade
balance
sheet
(BBB/A3/BBB+)

Exelon Generation Senior Unsecured credit ratings.

2.
Shareholder return from Exelon inception (10/20/00) through 6/26/09. Total return after reinvesting all dividends back into the
security
at

the closing price on the day following the relevant ex-dividend date. Includes stock price appreciation with dividend reinvestment. Excludes taxes and fees.

2

1

An EXC/NRG Combination Is Compelling

For NRG shareholders

Higher exchange ratio = 0.545

Greater growth opportunities than NRG stand-alone, at lower risk and relative cost

~\$3.1 billion transaction value

For Exelon shareholders

\$0.6-\$2.5 billion transaction value

2% -
7% accretion to EPS

Improved cash flow

Retained investment grade rating

~\$1.5 billion in additional, bankable synergies (\$3.6 to \$4.0 billion total)

NRG is more vulnerable to low gas prices, high carbon costs and credit constraints

We can get this deal done -
regulatory approvals and financing are on
course

Now is the time to move forward quickly: Elect Exelon's slate of nine
independent candidates for the NRG Board

2. Reflects retail price including line losses and gross receipts tax.

2
1

Carbon
Legislation
Is
Coming

Who
Can
Better
Navigate a Carbon-Constrained World?

Waxman-Markey legislation provides allocations to merchant coal units only if they actually run in any given year with this allocation mechanism, merchant coal plants will dispatch more than is economically efficient and fewer merchant coal plants will retire

If merchant coal allocations are granted in a manner that does not change dispatch and retirement incentives, Exelon's EBITDA would increase by about \$1.5 billion and NRG's EBITDA would increase by about \$150M in Year 1

While Exelon has supported merchant coal allocations as part of an overall industry compromise, if no allocations are granted, Exelon's EBITDA would increase by \$1.5 billion and NRG's EBITDA will decrease by \$150M in Year 1
Note: Dollar values reflect illustrative results based on potential outcomes of climate legislation and should not be interpreted as

Exelon's Uprate
Plan
NRG's New Nuclear Plan
at Max Equity Position¹

1. Exelon expects that NRG's planned equity sell-down
would further reduce NRG's net equity interest to
approximately 35%, or 936 MW, and possibly even less

We are impressed with Exelon's optimistic plans to add up to 1,500 MW from nuclear uprates

over the next eight

years. The returns on these investments should be very attractive, as the company does not anticipate a higher run-rate of O&M expenses (i.e., O&M/MWh should decrease).

-

Angie Storzynski, Macquarie Securities, June 12, 2009

3
NRG's prediction
Pennsylvania Procurement Provides Strong
Evidence of the Value of Exelon's Mid-Atlantic Fleet
Well,
they
recently

another
neighboring
utility,
First
Energy,
announced their auction results as they transitioned to open
market, and in fact that they realized was \$61.50 per megawatt
hour, which obviously is a far cry from \$107.50. \$61.50 obviously is
better than \$60, but it's hardly worth waiting three years for, nor is
it worth foregoing NRG's own considerable growth prospects

David Crane, Deutsche Bank Conference, May 27, 2009
What Actually Happened

Exelon Generation wins commitments in PECO and
Allegheny
auctions
for
more
than
7
million
MWhs
at
attractive pricing

There had been some suggestions (notably from NRG)
that the recent FE price might presage downside risk in
the PECO auction -
but such fears were clearly not borne
out and highlights the different market dynamics such as
positive basis to PECO's Philadelphia location.

NRG Faces Significant Risks and
Overvalues its Stand-Alone Business
Prospects
24

NRG Touts Numerous Growth
Opportunities,
But A Closer Look Reveals Minimal Value
New Nuclear
(NINA)

NRG significantly underestimates both costs and risks

Any value estimate is speculative at this point

Reliant

Purchase appears accretive, but NRG's EBITDA projections are extremely aggressive and suggested EBITDA multiple is unrealistic

Net value of ~ \$1/share

Padoma

Wind

150 MW net ownership (0.7% of NRG existing capacity) of new wind in Texas scheduled to come on-line by the end of 2009

Potential net value in the \$0.00-0.10/share range

eSolar

184 MW net ownership (0.8% of NRG existing capacity) of new solar in Southwest scheduled to come on-line in 2011/2012

Potential net value in the \$0.00-0.25/share range

GenConn

Energy

200 MW net ownership (0.9% of NRG existing capacity) of new peaking in Connecticut scheduled to come on-line in 2010/2011

Estimated net value of ~\$0.10/share

1. Upper end of range is based on optimistic net value estimate assuming a 10% profit margin on capital invested. NRG's only real growth opportunity is the gas and heat rate upside in its existing 23,000

MW domestic fleet

Exelon has similar upside plus enormous carbon upside as well

1

27

NRG Is Overvaluing Reliant Retail's Financial

Impact

Valuation Considerations

Even when assuming a \$250 million run rate EBITDA for Reliant Retail, the financial impact to NRG is less than \$1.00 per share

Exelon

fully
supports
the
retail
business
model,
and
the
Reliant
acquisition
appears
value-accretive

However,
the
suggestion
that
over
\$1
billion
in
equity
value
(or
~\$4.50
per
share)
has
been
created
is
an overstatement

Valuation of 4-6x EBITDA is not achievable

NRG paid 1.9x to 2.6x
EBITDA in an auction

Public markets have not imputed attractive
multiples
to retail businesses in the past

No allocation of debt
in NRG's valuation either in the
form of collateral or increased working capital

NRG seems to ignore the **higher level of risk**
for retail;
implies higher cost of capital
Potential Price Per Share Impact (\$ M)

\$250 million run rate EBITDA appears aggressive

Gross margins
(\$670 M) assume steady mass market
and Commercial & Industrial margins which **have been**
volatile

Aggressive pricing from **large competitors**
(e.g.,
Centrica, FPL, CEG) **will**
likely **compress margins**

Requires strong execution
across key disciplines (e.g.,
risk management, customer service)

Under the new administration, we anticipate there will be more stringent environmental rules and regulations, including NOX

and
SO2
and
particulate
reductions
under
a
revised
Clean
Air
Interstate
Rule
(CAIR), an aggressive EPA/DOJ New Source Review enforcement initiative

These
regulations
may
result
in
significant
compliance
costs
for
NRG's
coal-fired
generation
assets

These regulations will have minimal impact on Exelon's compliance costs given our nuclear portfolio

1.
In its 3/31/09 Form 10-Q, NRG states that it has prepared an environmental capital expenditure plan for numerous pending regulations but does not disclose the amount of the planned expenditures.

2.
Forecasted amounts shown above are included in transaction analysis.

Environmental Capital Expenditures
Could Severely Limit NRG's Future Growth

2
1

looking closer:

NRG claims
that its hedge program insulates it from the current commodity
down-cycle

NRG has sold about 2/3 of its baseload
energy forward for 2011, but at much lower prices
than for 2009 sales

As NRG's above-market hedges roll off, we estimate that NRG's baseload
energy revenues
could decline by ~\$700 million based on current market prices between 2009 and 2011

At Current Forward Prices, ~\$700 Million in
NRG Revenue Deterioration From 2009-2011

1.
Based on 2/28/09 market conditions, per Exelon Hedging Disclosures (April 2009).

2.

32

32

Exelon Has a Financing Plan That Is Executable, Provides
Investment Grade Metrics and Creates Long-Term Value

I think Exelon has the
capability to refinance
and close the
exchange offer

-

Jonathan Baliff, NRG
Executive Vice
President, Strategy

4

We have modeled varying combinations of debt refinancing, asset divestitures,
equity
or
equity-linked
issuance
and
accelerated
debt
paydown
to
maintain
our
investment
grade
credit
ratings

with
a
view
to
long-term
shareholder
value

Our optimal financing plan includes:

-
- Divesting assets of ~\$1.6 billion
-
- Issuing ~\$1.1 billion of mandatory convertible equity or common equity
-
- Deploying cash on hand of ~\$1.7 billion
-
- Financing \$4.2 billion in the debt capital markets

The plan is
executable
and provides **investment grade metrics**

We
have
incorporated
a
cost
of
issuing
equity
or
equity-linked
securities
into
our
model as we believe EXC's
long-term value is greater than its current stock price

The strategic benefits, long-term value and synergies created by the combination
are
more
valuable
than
the
cost
of
an
equity
or

equity-linked
issuance:

Combined
company
will
benefit
from
low-cost,
baseload
generation
positions
in
PJM and ERCOT which will provide diversification and a platform for future growth

Long-term DCF value remains positive at \$0.6 -
\$2.5 billion, inclusive of cost to
issue
a
mandatory
convert
of
\$0.1

0.5
billion

NRG Shareholders can secure the best transaction possible by taking the following actions:
This approach will allow NRG shareholders to share in the significant value to be
generated from creating the largest, most diversified
power company in the U.S.

34
This will **not**
result
in Exelon's slate
constituting a
majority of the
NRG Board

NRG's Board has been entrenched in its steadfast opposition to a transaction
with Exelon by:

-
Supporting an entrenched CEO and Senior Management who have sought to
obstruct Exelon's attempts to obtain regulatory approvals for the
transaction

-
Consistently ignoring the spoken will of a majority of NRG's shareholders
and refusing to negotiate with Exelon or allow due diligence

We are committed to this transaction but will continue our efforts only as long as we have shareholder support. The election of only four new directors would raise a significant question about the level of that support

Voting For Only Four Directors Will Reduce the Likelihood of a Value-Enhancing Transaction

It's Time to Act to Capture This Value

RPM Capacity Auctions in PJM

The results of the recent RPM capacity auction are not anticipated to reflect a new norm

due to an anticipated market response to low clearing prices and rule changes for demand response bidding

The RTO clearing price for 2012/2013 was \$16.46 MW-day. The clearing price

for MAAC and Eastern MAAC resources was \$133.37 MW-day and \$139.73 MW-day respectively.

-
Exelon offered
12,200
MWs
of
capacity
in
the
RTO
region;
1,500
MWs
in
the
MAAC
region; and 9,600 MWs
of capacity in Eastern MAAC region

A market response to the low clearing prices in the RTO region is anticipated

-
Modified resource bidding behavior
-
Retirement of costly and less efficient generation
-
Cancellation of new generation projects
-
Less Cleared Demand Response (DR)

The RPM capacity auction prices for 2012/2013 are the result of increased generation supply and demand response resources, decreased load PJM wide, and locational reliability requirements

The 2012/2013 capacity auction was the first time in which Interruptible Load Resources (ILR) were required to offer into RPM as a capacity resource

-
The
PJM
tariff
was
interpreted
to
require
existing
ILR
Resources
to
bid

at
\$0

On June
8,
2009,
PJM
and
its
stakeholders
began
considering
changes
that
would eliminate offer caps on DR

-

Tariff changes could result in future auctions that better reflect the true market value of capacity (i.e. the value to end use customers who sell firm power rights)

Scale and Complexity of Nuclear New Build
Introduces a Unique Set of Challenges for NRG

42

New nuclear build is a high risk proposition for NRG and represents a substantial portion of the company's market cap

Even with financing support by the U.S. and Japanese governments, NRG is placing a significant portion of the company's market cap at risk

Exelon's size and investment grade balance sheet significantly lessens the impact of this mega-project on the company's operating and financial risk profile

1.

New build equity financing percentages are presented for various levels of total nominal project costs per kW, assuming 80% of funding and market capitalization as of 6/26/09. The equity financing percentages reflect NINA ownership of STP units 3 and 4 and NRG ownership of NINA at 88%.

2.

Estimate of the total nominal project cost per kW based on the midpoint of the NRG price range for the nominal EPC and ownership cost from NRG's 6/4/09 presentation at Macquarie Global Infrastructure Conference, plus estimated interest during construction, initial fuel load costs, guaranteed loan fees and debt service reserve.

ERCOT Wind:

18 GW of Transmission Approved, Can Sell RECs
Nationally Under Federal RES, and Price Depression
Will Be Absorbed By Texas Alone

Upper Midwest Wind:

Dependent on Not-Yet-Approved Multi-State
Transmission Buildout
and Price Depression

Will be Spread Over A Broad Area

Mid-Atlantic Wind:

Limited Wind Resources, So Will
Purchase RECs
From Other Areas

43

Exelon has the liquidity, market access and financial flexibility to manage risk and pursue sizeable growth initiatives when appropriate

Exelon's Balance Sheet Can Weather
Volatile Commodity Markets

Lower interest rates and lower cost of capital

Lower cost of equity capital

Ability
to
source
capital
from
multiple
markets
(e.g.
commercial
paper)
reduces
risk
of
liquidity crunch

Investment grade market more likely to be accessible during challenging business cycles

Banks in this environment more willing to lend to large, diversified, highly-rated companies

Over 20 banks committed to Exelon's facilities providing over \$7B in aggregate commitments

Broad
Access to
Capital
44
Lower
Cost of
Capital

Lower margin and collateral needs

Ability to bid competitively on PPAs
and long-term deals since counterparties prefer
investment grade companies

Reduced working capital requirements, no prepayments on long-term contracts
Financial
and
Business
Flexibility

Risks Inherent In A Non-investment Grade

Balance Sheet

Though currently re-opened, the non-investment grade market has closed on several occasions in recent memory, while the high-grade market has been consistently accessible regardless of economic cycles

Erratic access to such a critical source of funding would have significant liquidity implications for non-investment grade issuers like NRG
