RISK FACTORS

An investment in our common stock involves certain risks. You should carefully consider the risks related to our common stock described below, the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2010 and the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks related to our common stock and faced by us described below and elsewhere in this prospectus supplement and the accompanying prospectus.

The Price of Our Common Stock May Fluctuate Significantly, and This May Make It Difficult for You to Resell Shares of Common Stock Owned by You at Times or at Prices You Find Attractive.

The price of our common stock on the NYSE constantly changes. We expect that the market price of our common stock will continue to fluctuate and there can be no assurances about the market prices for our common stock.

Our stock price may fluctuate as a result of a variety of factors, many of which are beyond our control. These factors include:

actual or anticipated quarterly fluctuations in our operating results and financial condition;

changes in financial estimates or publication of research reports and recommendations by financial analysts or actions taken by rating agencies with respect to our common stock or those of other financial institutions;

operating results that vary from the expectations of management, financial analysts and investors;

speculation in the press or investment community generally or relating to our reputation or the financial services industry;

strategic actions by us or our competitors, such as acquisitions, restructurings, dispositions or financings;

actions by our current shareholders, including sales of common stock by existing shareholders and/or directors and executive officers;

the operating and securities price performance of companies that investors consider comparable to us;

future sales of our equity or equity-related securities;

changes in the frequency or amount of dividends or share repurchases;

proposed or adopted regulatory changes or developments;

Edgar Filing: SUNTRUST BANKS INC - Form 424B2

anticipated or pending investigations, proceedings or litigation that involve or affect us;

domestic and international economic factors unrelated to our performance; or

general market conditions and, in particular, developments related to market conditions for the financial services industry.

S-4

Table of Contents

In addition, in recent years, the stock market in general has experienced extreme price and volume fluctuations. This volatility has had a significant effect on the market price of securities issued by many companies, including for reasons unrelated to their operating performance. These broad market fluctuations may adversely affect our stock price, notwithstanding our operating results.

There May Be Future Sales or Other Dilution of Our Equity, Which May Adversely Affect the Market Price of Our Common Stock.

Except as described under the heading **Underwriting** below, we are not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The issuance of any additional shares of common stock or of preferred stock, convertible securities or warrants or the exercise of such securities could be substantially dilutive to shareholders of our common stock. For example, exercise of the warrants we issued to the United States Treasury in connection with our participation in the CPP would dilute the value of our common stock. We can provide no assurances that we will decide or be able to repurchase the warrants in the future. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase their pro rata share of any offering of shares of any class or series. The market price of our common stock could decline as a result of sales of shares of our common stock made after this offering or the perception that such sales could occur. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our shareholders bear the risk of our future offerings reducing the market price of our common stock and diluting their stock holdings in us.

You May Not Receive Dividends on our Common Stock.

Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. Furthermore, holders of our common stock are subject to the prior dividend rights of any holders of our preferred stock at any time outstanding or depositary shares representing such preferred stock then outstanding. Although we have historically declared cash dividends on our common stock, we are not required to do so. During 2009, we reduced the quarterly dividend on our common stock from \$0.10 per share to \$0.01 per share, where it remains at the most recent declaration in February 2011. In the future we may further reduce or eliminate our common stock dividend. This could adversely affect the market price of our common stock.

Subject to obtaining approval from the United States Treasury, we intend to repurchase the Series C Preferred Stock and Series D Preferred Stock issued to the United States Treasury with the proceeds from this offering together with other funds, including the proceeds from the proposed Senior Notes Offering, as described in **Use of Proceeds**. We currently anticipate based on discussion with our banking regulators that we will be permitted to repurchase the Series C Preferred Stock and Series D Preferred Stock following consummation of this offering; however, there can be no assurance when the Series C Preferred Stock and Series D Preferred Stock can be repurchased, if at all. Until such time as the Series C Preferred Stock and Series D Preferred Stock is repurchased, we will remain subject to the terms and conditions of the CPP and related documents which, among other things, require us to obtain regulatory approval to pay dividends on our common stock other than regular quarterly cash dividends of not more than \$0.77 per share and, with some exceptions, to repurchase shares of our common stock. Further, our continued participation in the CPP subjects us to increased regulatory and legislative oversight, including with respect to executive compensation.

Table of Contents

If We Do Not Receive Approval to Repurchase Our Series C and Series D Preferred Stock, the Consent of the United States Treasury May Be Required for Us to Increase Our Common Stock Dividend.

We currently have shares of Series C Preferred Stock and Series D Preferred Stock outstanding that were issued to the United States Treasury pursuant to the CPP. Prior to November 14, 2011, unless we have redeemed the Series C and Series D Preferred Stock or the United States Treasury has transferred the Series C and Series D Preferred Stock to a third party, the consent of United States Treasury will be required for us to declare or pay any dividend or make any distribution on our common stock (other than regular quarterly cash dividends of not more than \$0.77 per share of common stock) or redeem, purchase or acquire any shares of our common stock or other equity or capital securities, other than in connection with benefit plans consistent with past practice and certain other circumstances specified in the purchase agreements associated with the issuance of these shares. In addition, these limitations may extend through December 31, 2011, unless we have redeemed the Series D Preferred Stock or the United States Treasury has transferred the Series D Preferred Stock to a third party prior thereto. Additionally, if we increase our dividend above \$0.54 per share per quarter prior to the tenth anniversary of our participation in the CPP and the warrants issued in connection with our Series C and Series D Preferred Stock are then outstanding, then the exercise price and the number of shares to be issued upon exercise of the warrants issued in connection with our Series C and Series D Preferred Stock will be proportionately adjusted. The amount of such adjustment will be determined by a formula and depends in part on the extent to which we raise our dividend. These provisions could result in lower dividends than we may have otherwise declared in the absence of these restrictions.

Subject to obtaining approval from the United States Treasury, we intend to repurchase the Series C Preferred Stock and Series D Preferred Stock issued to the United States Treasury with the proceeds from this offering together with other funds, including the proceeds from the proposed Senior Notes Offering. We currently anticipate based on discussion with our banking regulators that we will be permitted to repurchase the Series C Preferred Stock and Series D Preferred Stock following consummation of this offering; however, there can be no assurance when the Series C Preferred Stock and Series D Preferred Stock can be repurchased, if at all. In addition, we can provide no assurances that we will decide or be able to repurchase the warrants issued in connection with our Series C and Series D Preferred Stock in the future.

Our Results of Operations and Our Ability to Fund Dividend Payments on Our Common Stock and All Payments on Our Other Obligations Depend Upon the Results of Operations of Our Subsidiaries.

We are a separate and distinct legal entity from our banking and non-banking subsidiaries. Our principal source of funds to make payments on securities is dividends from our banking subsidiaries. Various federal and state statutes and regulations limit the amount of dividends that our banking and non-banking subsidiaries may pay to us without regulatory approval. In particular, dividend and other distributions from our bank to our holding company would require notice to or approval of the applicable regulatory authority. There can be no assurances that we would receive such approval.

In addition, if, in the opinion of the applicable regulatory authority, a bank under its jurisdiction is engaged in or is about to engage in an unsafe or unsound practice, such authority may require, after notice and hearing, that such bank cease and desist from such practice. Depending on the financial condition of our banking subsidiaries, the applicable regulatory authority might deem us to be engaged in an unsafe or unsound practice if our banking subsidiaries were to pay dividends. The Federal Reserve has issued policy statements generally requiring insured banks and bank holding companies only to pay dividends out of current operating earnings.

Table of Contents

Payment of dividends could also be subject to regulatory limitations if any of our banking subsidiaries became *under-capitalized* for purposes of the *prompt corrective action* regulations of the federal bank regulatory agencies that are the primary regulators of our banking subsidiaries.

Under-capitalized is currently defined as having a total risk based capital ratio of less than 8.0%, a Tier 1 risk-based capital ratio of less than 4.0%, or a core capital, or leverage, ratio of less than 3.0%. Throughout 2010, our banking subsidiaries were in compliance with all regulatory capital requirements and considered to be *well-capitalized* under applicable regulations. In addition, we expect that federal bank regulatory agencies will adopt heightened regulatory standards regarding capital requirements as a result of recent final rules released by the Basel Committee on Banking Supervision. More information on these expected requirements is contained in SunTrust's Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Furthermore, our right to participate in any distribution of assets of any of our subsidiaries upon its liquidation or otherwise, and thus your ability as a holder of the common stock to benefit indirectly from such distribution, will be subject to the prior claims of creditors of such subsidiary, except to the extent that any of our claims as a creditor of such subsidiary may be recognized. As a result, our common stock is effectively subordinated to all existing and future liabilities and obligations of our subsidiaries.

Offerings of Debt, Which Would Be Senior to Our Common Stock Upon Liquidation, and/or Preferred Equity Securities Which May Be Senior to Our Common Stock for Purposes of Dividend Distributions or Upon Liquidation, May Adversely Affect the Market Price of Our Common Stock.

We may attempt to increase our capital resources or, if our or the capital ratio of any of our banking subsidiaries falls below the required minimums, we or such banking subsidiary could be forced to raise additional capital by making additional offerings of debt or preferred equity securities, including medium term notes, trust preferred securities, senior or subordinated notes and preferred stock. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings will receive distributions of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing shareholders or reduce the market price of our common stock, or both. Holders of our common stock are not entitled to preemptive rights or other protections against dilution.

Our board of directors is authorized to issue preferred stock in one or more series, to fix the number of shares in each series, and to determine the designations and preferences, limitations and relative rights of each series, including dividend rates, terms of redemption, liquidation preferences, sinking fund requirements, conversion rights, voting rights, and whether the preferred stock can be issued as a share dividend with respect to another class or series of shares, all without any vote or other action on the part of shareholders.

Additionally, holders of our common stock are subject to the prior dividend and liquidation rights of any holders of our preferred stock then outstanding.

Anti-Takeover Provisions Could Negatively Impact Our Shareholders.

Certain provisions of our articles of incorporation, bylaws and Georgia law could have the effect of preventing, delaying or discouraging an attempt to obtain control of us. See *Anti-takeover Provisions* in the section of this prospectus supplement entitled *Description of Capital Stock*.

RECENT DEVELOPMENTS

Repurchase of Series C and Series D Preferred Stock

In November 2008 we issued 35,000 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series C, having a liquidation preference of \$100,000 per share, to the United States Treasury and in December 2008 we issued 13,500 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series D to the United States Treasury. These issuances were made pursuant to the CPP as part of the TARP. We issued to the United States Treasury in connection with each of the Series C Preferred Stock transaction and the Series D Preferred Stock transaction a ten-year warrant relating to the purchase of up to 11,891,280 shares of our common stock at an initial exercise price of \$44.15 per share and the purchase of up to 6,008,902 shares of our common stock at an initial exercise price of \$33.70 per share, respectively.

Subject to approval by the United States Treasury, we intend to redeem all the shares of our Series C Preferred Stock and Series D Preferred Stock. We will use the net proceeds from this offering together with the proceeds described below under Proposed Senior Notes Offering and other funds for the redemption of the Series C Preferred Stock and Series D Preferred Stock. In connection with the redemption of the Series C Preferred Stock and Series D Preferred Stock if and as approved by the United States Treasury, we have agreed to undertake the common stock offering. If the repurchase of the Series C Preferred Stock and Series D Preferred Stock is completed, we may seek at a future date to repurchase the common stock warrants issued to the United States Treasury in connection with the Series C and Series D Preferred Stock issuances; however, we can provide no assurances that we will decide or be able to repurchase the warrants in the future.

In the period in which we repurchase the Series C Preferred Stock and Series D Preferred Stock, we will accelerate the accretion of the issuance discount on the Series C Preferred Stock and Series D Preferred Stock and record a corresponding reduction in retained earnings, resulting in a one-time, noncash reduction in the calculation of diluted earnings per common share (i.e., a reduction in net income available to common stockholders in an amount equal to the issuance discount accelerated). The issuance discount is due to the carrying value of the Series C Preferred Stock and Series D Preferred Stock being at a discount to their liquidation values as a result of the initial recognition of Series C Preferred Stock, Series D Preferred Stock and the related warrants based on their relative fair values at issuance. As of March 17, 2011, the amount of the remaining issuance discount on the Series C Preferred Stock and Series D Preferred Stock was \$74 million.

Proposed Senior Notes Offering

Subject to market conditions, we intend to promptly commence the proposed Senior Notes Offering to fund, in part, our proposed redemption of the Series C Preferred Stock and Series D Preferred Stock. There can be no assurance that the proposed Senior Notes Offering will be completed and the Series C Preferred Stock and Series D Preferred Stock redeemed. The completion of this offering is not conditioned upon the completion of the proposed Senior Notes Offering. This prospectus supplement is not an offer to sell debt; any offer to sell debt will be made only by a separate prospectus supplement.

First Quarter 2011

While our first quarter is not yet complete and we plan to release our first quarter results in late April, the following list describes our current expectations for the first quarter of 2011:

we expect that we will experience continued modest net interest margin expansion due to lower deposit costs and efforts to enhance loan spreads;

Table of Contents

we expect that average loans and deposits will be relatively stable compared to the fourth quarter of 2010;

we expect that core fees will be down an approximate low double digit percentage amount compared to the fourth quarter of 2010, due to market sensitive revenue, including (i) a decline in investment banking fees due in part to the first quarter being seasonally slower than the fourth quarter and (ii) mortgage production fees declining primarily due to higher interest rates resulting in lower origination volumes;

we expect that noninterest income will benefit from securities gains in amounts comparable to recent quarters;

we expect that noninterest expense will be modestly down from the fourth quarter of 2010;

we expect that net charge-offs will be stable to modestly down compared to the fourth quarter of 2010;

we expect that the reduction in our allowance for loan and lease losses (*ALLL*) will be similar to the *ALLL* release in the fourth quarter of 2010 subject to normal quarter-end evaluation; and

we expect a one time charge in this quarter of \$74 million to net income available to common shareholders, or approximately \$0.15 per share, related to the difference of the carrying value of the Series C and Series D Preferred Stock and the repayment amount. The expectations described in this section are preliminary in nature and are based upon currently available information, and the line items described can be highly volatile. Accordingly, no assurance can be given that our financial results for the completed quarter will be consistent with our current expectations described above.

USE OF PROCEEDS

We expect to receive net proceeds from the offering of shares of our common stock of approximately \$1.0 billion, after estimated expenses and underwriting commissions. We intend to notify the United States Treasury of our intent to repurchase all of the shares of our Series C Preferred Stock and Series D Preferred Stock issued to the United States Treasury under the CPP. We currently anticipate based on discussion with our banking regulators that we will be permitted to repurchase the Series C Preferred Stock and Series D Preferred Stock following consummation of this offering. If permitted to do so, we expect to fund such repurchase with the proceeds of this offering, the proceeds of our proposed Senior Notes Offering and cash on hand. The Series C Preferred Stock and Series D Preferred Stock would each be repurchased at its \$100,000 per share liquidation preference, plus accrued and unpaid dividends.

If we do not repurchase the Series C Preferred Stock and Series D Preferred Stock, then we may use the net proceeds of this offering and the proposed Senior Notes Offering for general corporate purposes. Pending the use of the net proceeds, we may invest the proceeds in highly liquid short term securities.

If we complete the repurchase of the Series C Preferred Stock and Series D Preferred Stock, we may in the future seek to repurchase the warrants that we issued to the United States Treasury as a result of our participation in the CPP at a price to be determined. However, we can provide no assurances that we will decide or be able to repurchase the warrants in the future.

REGULATORY CONSIDERATIONS

As a financial holding company and a bank holding company under the Bank Holding Company Act, SunTrust is subject to regulation, supervision and examination by the Federal Reserve. For a discussion of the material elements of the regulatory framework applicable to financial holding companies, bank holding companies and their subsidiaries and specific information relevant to SunTrust, please refer to SunTrust's Annual Report on Form 10-K for the fiscal year ended December 31, 2010, and the subsequent reports we file with the SEC, which are incorporated by reference in this prospectus supplement. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, SunTrust's earnings are affected by actions of the Federal Reserve, the FDIC, which insures the deposits of our banking subsidiaries within certain limits, and the SEC, which regulates the activities of certain subsidiaries engaged in the securities business.

SunTrust's earnings are also affected by general economic conditions, our management policies and legislative action.

In addition, there are numerous governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on SunTrust's business.

Depository institutions, like SunTrust's bank subsidiaries, are also affected by various federal laws, including those relating to consumer protection and similar matters. SunTrust also has other financial services subsidiaries regulated, supervised and examined by the Federal Reserve, as well as other relevant state and federal regulatory agencies and self-regulatory organizations. SunTrust's non-bank subsidiaries may be subject to other laws and regulations of the federal government or the various states in which they are authorized to do business.

No regulatory approvals are required to effect this common stock offering.

Edgar Filing: SUNTRUST BANKS INC - Form 424B2

We present net interest income, total revenue, net interest margin and the efficiency ratio on a fully taxable equivalent (*FTE*) basis. The *FTE* basis adjusts for the tax-favored status of income from certain loans and investments. We believe this measure to be the preferred industry measurement of net interest income and it enhances comparability of net interest income arising from taxable and tax-exempt sources.

Table of Contents

- (2) We present a return on average assets less net realized and unrealized gains on securities and a return on average realized common shareholders' equity. The foregoing numbers primarily reflect adjustments to remove the effects of our securities portfolio which includes the ownership by us of common shares of The Coca-Cola Company. We use this information internally to gauge our actual performance in the industry. We believe that the return on average assets less the net realized and unrealized securities gains and the return on average realized common shareholders' equity are more indicative of our performance because they more accurately reflect returns that are related to our core businesses which are primarily customer relationship and customer transaction driven. The return on average assets less net realized and unrealized gains on securities is computed by dividing net income/(loss), excluding securities (gains)/losses and The Coca-Cola Company stock dividend, by average assets less net unrealized securities gains. The return on average realized common shareholders' equity is computed by dividing net income/(loss) available to common shareholders excluding net securities (gains)/losses and The Coca-Cola Company stock dividend by average realized common shareholders' equity.
- (3) The common dividend payout ratio is not applicable in a period of net loss.

DIVIDEND POLICY

The payment of future dividends is subject to the discretion of our board of directors which will consider, among other factors, our operating results, overall financial condition, credit-risk considerations and capital requirements, as well as general business and market conditions. In the quarter ended September 30, 2009 we reduced the quarterly dividend on our common stock from \$0.10 per share to \$0.01 per share. In the future, we may further reduce or eliminate our common stock dividend. The Federal Reserve, in its expectation that a bank holding company act as a source of financial strength to its subsidiary banks, has reiterated the requirement to inform and consult with the Federal Reserve before paying dividends that could raise safety and soundness concerns.

Prior to November 14, 2011, unless we have repurchased our outstanding Series C and Series D Preferred Stock or the United States Treasury has transferred the Series C and Series D Preferred Stock to a third party, the consent of United States Treasury will be required for us to declare or pay any dividend or make any distribution on our common stock (other than regular quarterly cash dividends of not more than \$0.77 per share of common stock) or redeem, purchase or acquire any shares of our common stock or other equity or capital securities, other than in connection with benefit plans consistent with past practice and certain other circumstances specified in the purchase agreements associated with the issuance of these shares. These limitations may extend through December 31, 2011, unless we have redeemed the Series D Preferred Stock or the United States Treasury has transferred the Series D Preferred Stock to a third party prior thereto. Additionally, if we increase our dividend above \$0.54 per share per quarter prior to the tenth anniversary of our participation in the CPP, then the exercise price and the number of shares to be issued upon exercise of the warrants issued in connection with our Series C and Series D Preferred Stock will be proportionately adjusted. The amount of such adjustment will be determined by a formula and depends in part on the extent to which we raise our dividend. These provisions could result in lower dividends than we may have otherwise declared in the absence of these restrictions.

Subject to obtaining approval from the United States Treasury, we intend to repurchase the Series C Preferred Stock and Series D Preferred Stock issued to the United States Treasury with the proceeds from this offering together with other funds, including the proceeds from the proposed Senior Notes Offering. We currently anticipate based on discussion with our banking regulators that we will be permitted to repurchase the Series C Preferred Stock and Series D Preferred Stock following consummation of this offering; however, there can be no assurance when the Series C Preferred Stock and Series D Preferred Stock can be repurchased, if at all. In addition, we can provide no assurances that we will decide or be able to repurchase the warrants issued in connection with our Series C and Series D Preferred Stock in the future.

Voting and Other Rights. Holders of shares of our common stock are entitled to one vote for each share held of record on all matters on which shareholders are entitled or permitted to vote. There is no cumulative voting for the election of directors. As described below, our articles of incorporation require a special shareholder vote to approve business combinations, including mergers, consolidations and sales of assets, involving interested shareholders.

No Preemptive Rights. Holders of shares of our common stock do not have preemptive rights to subscribe for or to purchase any additional shares of our stock or securities or any conversion or redemption rights.

Distributions. Holders of shares of our common stock are entitled to receive dividends when declared by our board of directors out of funds legally available therefor, subject to the rights of the holders, if any, of our preferred stock or depositary shares representing such preferred stock then outstanding. As a bank holding company, our ability to pay distributions is affected by the ability of our banking subsidiaries to pay dividends. The ability of these banking subsidiaries, as well as us, to pay dividends in the future currently is, and could be further, influenced by bank regulatory requirements and capital guidelines.

Assets upon Dissolution. In the event of liquidation, holders of our common stock are entitled to share in the distribution of assets remaining after payment of debts and expenses and after required payments to holders of our preferred stock or depositary shares representing such preferred stock then outstanding.

Any person other than a bank holding company is required to obtain prior approval of the Board of Governors of the Federal Reserve System to acquire 10% or more of our outstanding common stock under the Change in Bank Control Act. Any holder of 25% or more of our outstanding common stock, other than an individual, is subject to regulation as a bank holding company under the Bank Holding Company Act of 1956.

Validly Issued, Fully Paid and Nonassessable. Our outstanding shares of common stock are validly issued, fully paid and nonassessable.

Table of Contents**Preferred Stock and Warrants**

Our articles of incorporation authorize our board of directors to provide for the issuance of preferred stock in one or more series, without shareholder action. Our board of directors is authorized to fix the designation, powers, preferences and rights, and the qualifications, limitations and restrictions of the shares of each series of preferred stock we issue. For each series of preferred stock, the board is permitted to specify the designation of each series and the number of shares in the series; the rate of dividends payable on the series; the timing of the dividend payments and the date from which dividends accumulate; whether the shares of the series can be redeemed and, if applicable, the terms and conditions for redemption; the liquidation preference and amount for the series; any conversion rights and, if applicable, the terms and conditions for conversion; and the voting rights, if any, for the series.

Series A Preferred Stock. We have issued depositary shares representing ownership interests in 5,000 shares of Perpetual Preferred Stock, Series A, with a \$100,000 liquidation preference per share, or Series A Preferred Stock. The Series A Preferred Stock is not convertible into our common stock or any other class or series of our securities and will not be subject to any sinking fund or other similar obligation for their repurchase or retirement. Dividends on the Series A Preferred Stock, if declared, will accrue and be payable quarterly at a rate per annum equal to the greater of three-month LIBOR plus 0.53%, or 4.00%. Dividends on the shares are non-cumulative. Shares of the Series A Preferred Stock have priority over our common stock with regard to the payment of dividends. On or after September 15, 2011, the Series A Preferred Stock will be redeemable at our option at a redemption price equal to \$100,000 per share, plus any declared and unpaid dividends. The Series A Preferred Stock does not have any voting rights other than with respect to certain limited matters, including the right (together with all other holders of preferred stock) to elect two directors if we fail to pay six quarterly dividends, the right to vote on matters that could adversely affect the holders of the Series A Preferred Stock and on certain other matters to the extent required by law.

Series B Preferred Stock. In connection with the issuance of preferred purchase securities by one of our wholly owned trust subsidiaries, we designated a series of preferred stock, consisting of 5,010 designated shares of Perpetual Preferred Stock, Series B, with a \$100,000 liquidation preference per share, or Series B Preferred Stock. The Series B Preferred Stock is expected to be issued pursuant to stock purchase contracts in the future to our wholly owned trust subsidiary. The Series B Preferred Stock will not be convertible into our common stock or any other class or series of our securities and will not be subject to any sinking fund or any other similar obligation for their repurchase or retirement. Dividends on the Series B Preferred Stock, if such shares are outstanding and dividends are declared, will accrue and be payable semi-annually prior to December 15, 2011 and quarterly, thereafter. These dividends will be calculated (a) if the Series B Preferred Stock is issued prior to December 15, 2011, at a rate per annum equal to 5.853% until December 15, 2011, and (b) thereafter, at a rate per annum that will be reset quarterly and will equal the greater of (i) three-month LIBOR for the applicable dividend period plus 0.645% and (ii) 4.00%. Dividends on the shares are non-cumulative. Shares of the Series B Preferred Stock will have priority over our common stock with regard to the payment of dividends. On or after the later of December 15, 2011 and the stock purchase date under the stock purchase contracts associated with these shares (which we expect to be December 15, 2011, but may in certain circumstances be an earlier date or be deferred for quarterly periods until as late as December 15, 2012), the Series B Preferred Stock will be redeemable at our option at a redemption price equal to \$100,000, plus an amount equal to any declared and unpaid dividends. Our right to redeem the Series B Preferred Stock once issued is subject to the prior approval of the Federal Reserve and certain other contractual obligations set forth in a replacement capital covenant we entered into at the time the preferred purchase securities were issued. The Series B Preferred Stock does not have any voting rights other than with respect to certain limited matters, including the right (together with all other holders of preferred stock) to elect two directors if we fail to pay six quarterly dividends, the right to vote on matters that could adversely affect the holders of the Series B Preferred Stock and on certain other matters to the extent required by law.

Series C Preferred Stock and Series D Preferred Stock. As part of the CPP established under the EESA, we entered into separate purchase agreements with the United States Treasury pursuant to which we issued and sold to the United States Treasury 35,000 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series C, having a liquidation preference of \$100,000 per share, or Series C Preferred Stock, and 13,500 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series D, or Series D Preferred Stock. We issued to the United States Treasury in connection with each of the Series C Preferred Stock transaction and the Series D Preferred Stock transaction a ten-year warrant relating to the purchase of up to 11,891,280 shares of our common stock at an initial exercise price of \$44.15 per share and the purchase of up to 6,008,902 shares of our common stock at an initial exercise price of \$33.70 per share, respectively. Cumulative dividends on the Series C Preferred Stock and Series D Preferred Stock will accrue on the liquidation preference at a rate per annum of 5% for the first five years, and at a rate per annum of 9% thereafter, but will be paid only if, as, and when declared by our board of directors. The Series C Preferred Stock and the Series D Preferred Stock have no maturity date and rank senior to our common stock (and *pari passu* with our other authorized series of preferred stock) with respect to the payment of dividends and distributions and amounts payable upon our liquidation, dissolution, and winding up. The Series C Preferred Stock and the Series D Preferred Stock do not have any voting rights other than with respect to certain limited matters, including the right (together with all other holders of preferred stock) to elect two directors if we fail to pay six quarterly dividends, the right to vote on matters that could adversely affect the holders of the Series C Preferred Stock or Series D Preferred Stock, as applicable, and on certain other matters to the extent required by law. Our ability to repurchase both the Series C Preferred Stock and the Series D Preferred Stock is subject to certain limitations set forth in the purchase agreements relating thereto, including regulatory approval.

Prior to November 14, 2011, unless we have repurchased the Series C and Series D Preferred Stock or the United States Treasury has transferred the Series C and Series D Preferred Stock to a third party, the consent of the United States Treasury will be required for us to declare or pay any dividend or make any distribution on our common stock (other than regular quarterly cash dividends of not more than \$0.77 per share of common stock) or redeem, purchase or acquire any shares of our common stock or other equity or capital securities, other than in connection with benefit plans consistent with past practice and certain other circumstances specified in the purchase agreements associated with the issuance of these shares. These limitations may extend through December 31, 2011, unless we have repurchased the Series D Preferred Stock or the United States Treasury has transferred the Series D Preferred Stock to a third party prior thereto.

We intend to repurchase all of the shares of our Series C and Series D Preferred Stock and, if permitted to do so, we expect to fund such repurchase with the proceeds of this offering, the proposed Senior Notes Offering, and other funds. The Series C and Series D Preferred Stock would each be repurchased at its \$100,000 per share liquidation preference, plus accrued and unpaid dividends.

Anti-takeover Provisions

Certain provisions of our articles of incorporation, bylaws and Georgia law could have the effect of preventing, delaying or discouraging an attempt to obtain control of us.

Our articles of incorporation and bylaws include the following provisions which may impact the ability of a third party to obtain control of us:

Unless approved by three-fourths of all of our directors or if the transaction meets certain fair price criteria set forth in our articles of incorporation, our articles of incorporation provide that any business combination with an interested shareholder requires the affirmative vote of at

Table of Contents

least 75% of our then outstanding common stock, including the affirmative vote of the holders of at least 75% of our then outstanding common stock not beneficially owned by the interested shareholder.

Our articles of incorporation require an affirmative vote of at least 75% of the outstanding shares entitled to vote (including the affirmative vote of at least 75% of the outstanding shares other than those beneficially held by any interested shareholder) to alter or amend the fair price provisions of our articles of incorporation.

Our articles of incorporation authorize our board of directors to provide for the issuance of blank-check preferred stock in one or more series, without shareholder action. Our board of directors is authorized to fix the designation, powers, preferences and rights, and the qualifications, limitations and restrictions of the shares of each series of preferred stock we issue.

Our bylaws contain an advance notice provision providing that any shareholder may present a nomination for a directorship or a proposal for consideration at an annual meeting or special meeting of shareholders only if advance notice of the nomination or proposal has been delivered to us not less than 120 days prior to the first anniversary of the date on which we first mailed our proxy materials for the preceding year's annual meeting of shareholders. If the date of the annual meeting is advanced more than 30 days before, or delayed by more than 30 days after, the anniversary of our preceding year's annual meeting, then in order to be considered timely, a shareholder's notice must be received by the 10 day following the earlier of the day on which notice of the scheduled date of the meeting was mailed to shareholders or publicly disclosed thereto.

Our bylaws provide that any director or the entire board of directors may be removed, with or without cause, but only by the affirmative vote of the holders of 75% of the outstanding shares of our common stock, including the affirmative vote of at least 75% of the outstanding shares of our common stock not beneficially owned by an interested shareholder.

Our board of directors may amend, adopt or repeal the bylaws or adopt new bylaws by a majority vote of all directors, but any bylaws adopted by our board of directors may be amended, altered or repealed by the shareholders. In addition, our articles of incorporation provide that the affirmative vote by at least 75% of the outstanding shares entitled to vote is required (including the affirmative vote by at least 75% of the outstanding shares other than those beneficially owned by any interested shareholder) to alter or amend certain provisions in our bylaws relating to directors.

Our articles of incorporation also include a social responsibility provision, which would permit our board of directors to consider certain non-economic impacts of a proposed transaction.

With respect to Georgia law.

we have elected to be covered by the Business Combinations Statute, which generally prohibits an interested shareholder from completing a business combination with us for five years without approval of our board of directors, including mergers, consolidations and sales of assets; and

unless elected otherwise in a Georgia corporation's articles of incorporation, shareholders may act by written consent only through the unanimous consent of all shareholders. We have not made an election to allow action by less than unanimous written consent of our shareholders.

Table of Contents

**CERTAIN UNITED STATES FEDERAL TAX CONSEQUENCES TO
NON-U.S. HOLDERS OF COMMON STOCK**

The following is a summary of certain U.S. federal income and estate tax consequences relevant to the purchase, ownership and disposition of our common stock by a non-U.S. holder (as defined below) as of the date hereof. This summary deals only with non-U.S. holders that acquire our common stock in this offering and hold our shares as a capital asset.

For purposes of this summary, a non-U.S. holder means a beneficial owner of our common stock that is not a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) and is not any of the following for U.S. federal income tax purposes: (i) an individual citizen or resident of the United States, (ii) a corporation (or other entity treated as a corporation) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if (1) its administration is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all of its substantial decisions, or (2) it has a valid election in effect under applicable United States Treasury regulations to be treated as a U.S. person.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (which we refer to as the Code), and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, or be subject to differing interpretations, so as to result in U.S. federal tax consequences different from those summarized below. This summary does not represent a detailed description of the U.S. federal tax consequences to you in light of your particular circumstances. In addition, it does not address the U.S. federal tax consequences to you if you are subject to special treatment under the U.S. federal tax laws (including if you are a bank or other financial institution, insurance company, broker or dealer in securities, tax-exempt organization, foreign government or agency, U.S. expatriate, controlled foreign corporation, passive foreign investment company, or a person who holds our common stock in a straddle or as part of a hedging, conversion or constructive sale transaction). Except where noted, this summary does not address any taxes other than U.S. federal income tax. We cannot assure you that a change in law will not alter significantly the tax consequences that we describe in this summary.

If an entity classified as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. If you are a partnership holding our common stock, or a partner in such a partnership, you should consult your tax advisors.

If you are considering the purchase of our common stock, you should consult your own tax advisors concerning the particular U.S. federal tax consequences to you of the ownership and disposition of our common stock, as well as the consequences to you arising under the laws of any other taxing jurisdiction, including any state, local or foreign tax consequences.

Dividends

Dividends paid to a non-U.S. holder of our common stock (to the extent paid out of our current or accumulated earnings and profits, as determined for U.S. federal income tax purposes) generally will be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business by a non-U.S. holder within the United States and, where an income tax treaty applies, are attributable to a U.S. permanent establishment of the non-U.S. holder, are not subject to this withholding tax, but instead are subject to U.S. federal income tax on a net income basis at applicable individual or corporate rates. Certain certification and disclosure requirements must be

Table of Contents

complied with in order for effectively connected dividends to be exempt from this withholding tax. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. holder of our common stock who is entitled to and wishes to claim the benefits of an applicable treaty rate (and avoid backup withholding as discussed below) for dividends, generally will be required to (i) complete Internal Revenue Service, or IRS, Form W-8BEN (or an acceptable substitute form) and make certain certifications, under penalty of perjury, to establish its status as a non-U.S. person and its entitlement to treaty benefits or (ii) if the common stock is held through certain foreign intermediaries, satisfy the relevant certification requirements of applicable United States Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are entities rather than individuals.

A non-U.S. holder of our common stock eligible for a reduced rate of U.S. federal withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income tax with respect to gain recognized on a sale or other disposition of our common stock unless (i) the gain is effectively connected with a trade or business of the non-U.S. holder in the U.S. and, where a tax treaty applies, is attributable to a U.S. permanent establishment of the non-U.S. holder (in which case, for a non-U.S. holder that is a foreign corporation, the branch profits tax described above may also apply), (ii) in the case of a non-U.S. holder who is an individual, such holder is present in the U.S. for 183 or more days in the taxable year of the sale or other disposition and certain other conditions are met, or (iii) we are or have been a U.S. real property holding corporation for U.S. federal income tax purposes.

We believe we currently are not, and do not anticipate becoming, a *U.S. real property holding corporation* for U.S. federal income tax purposes.

Federal Estate Tax

Common stock held by an individual non-U.S. holder at the time of death will be included in such holder's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Information Reporting and Backup Withholding

We must report annually to the IRS and to each non-U.S. holder the amount of dividends paid to such holder and the tax withheld (if any) with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and any withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty. In addition, dividends paid to a non-U.S. holder may be subject to backup withholding unless applicable certification requirements are met.

Payment of the proceeds of a sale of our common stock within the United States or conducted through certain U.S. related financial intermediaries is subject to information reporting and, depending upon the circumstances, backup withholding unless the non-U.S. holder certifies under penalties of perjury that it is not a United States person (and the payor does not have actual knowledge or reason to know that the holder is a United States person) or the holder otherwise establishes an exemption.

Table of Contents

Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against such holder's U.S. federal income tax liability provided the required information is timely furnished to the IRS. Payments subject to withholding tax will not also be subject to backup withholding tax.

Additional Withholding Tax on Certain Payments Made After December 31, 2012

Under legislation enacted in 2010, dividends and the gross proceeds of a disposition of our common stock paid after December 31, 2012 to a foreign financial institution (as specially defined for this purpose) generally will be subject to U.S. federal withholding tax of 30%, unless the institution enters into an agreement with the U.S. government to withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of the institution (including certain equity and debt holders of the institution, as well as certain account holders that are foreign entities with U.S. owners). The legislation generally also provides for a U.S. federal withholding tax of 30% on dividends and the gross proceeds of a disposition of our common stock paid after December 31, 2012 to a foreign entity that is not a foreign financial institution, unless the entity provides the withholding agent either with (i) a certification identifying the substantial U.S. owners of the entity, which generally include any U.S. person who directly or indirectly owns more than 10 percent of the entity (or more than zero percent in the case of some entities), or (ii) a certification that the entity does not have any substantial U.S. owners. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of any taxes withheld under this legislation. Prospective investors are encouraged to consult with their own tax advisors regarding the possible implications of this legislation on their investment in our common stock.

EMPLOYEE RETIREMENT INCOME SECURITY ACT

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA) (each, a Plan), should consider the fiduciary standards of ERISA in the context of the Plan 's particular circumstances before authorizing an investment in the common stock. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under ERISA or the U.S. Internal Revenue Code (the Code).

Section 406 of ERISA and Section 4975 of the Code prohibit Plans, as well as individual retirement accounts, Keogh plans any other plans that are subject to Section 4975 of the Code (also Plans), from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax under the Code or penalties or other liabilities under ERISA or the Code for those persons, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (Non-ERISA Arrangements) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, non-U.S or other laws (Similar Laws).

The acquisition of the common stock by a Plan or any entity whose underlying assets include plan assets by reason of any Plan 's investment in the entity (a Plan Asset Entity) with respect to which SunTrust or any of its affiliates is or becomes a party in interest or disqualified person may result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code, unless the common stock are acquired and held pursuant to an applicable exemption. The U.S. Department of Labor has issued five prohibited transaction class exemptions, or PTCEs , that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase of the common stock. These exemptions are PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, ERISA Section 408(b)(17) and Section 4975(d)(20) of the Code provide an exemption for the purchase and sale of the common stock, provided that neither the issuer of the common stock nor any of its affiliates have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than adequate consideration in connection with the transaction (the service provider exemption). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Any purchaser of the common stock or any interest therein will be deemed to have represented by its purchase of the common stock or any interest therein that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing the common stock on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement or (2) the purchase of the common stock will not constitute a non-exempt prohibited transaction or a similar violation under any applicable Similar Laws. Any person making the decision to invest in the common stock on behalf of a Plan or Plan Asset Entity will, by purchasing the common stock, be deemed to have also represented that (1) the purchaser will pay no more than adequate consideration in connection with the purchase of the

Table of Contents

common stock, (2) neither SunTrust nor any of its affiliates is a fiduciary (within the meaning of ERISA or any Similar Laws) with respect to the purchaser in connection with the purchaser's acquisition of or investment in the common stock and (3) no advice provided by SunTrust or any of its affiliates has formed a primary basis for any investment decision by or on behalf of such purchaser in connection with the purchase of the common stock.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing the common stock on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above, the service provider exemption or the potential consequences of any purchase under Similar Laws, as applicable. Purchasers of the common stock have exclusive responsibility for ensuring that their purchase and holding of the common stock do not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The sale of any common stock to a Plan, Plan Asset Entity or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by any such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement or that such investment is appropriate for such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement.

Representation

Any purchaser of common stock or any interest therein represents by its purchase of the common stock that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and it is not purchasing the common stock on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement or (2) the purchase of the common stock will not constitute a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Code or under any applicable Similar Laws. Any person making the decision to invest in the common stock on behalf of a Plan or Plan Asset Entity also represents that by purchasing the common stock, (1) the purchaser will pay no more than adequate consideration in connection with the purchase of the common stock, (2) neither SunTrust nor any of its affiliates is a fiduciary (within the meaning of ERISA or any Similar Laws) with respect to the purchaser in connection with the purchaser's acquisition of or investment in the common stock and (3) no advice provided by SunTrust or any of its affiliates has formed a primary basis for any investment decision by or on behalf of such purchaser in connection with the purchase of the common stock.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by us.

Paid by Us

| Per share | \$ 0.84813 |
| Total | \$ 29,900,176.03 |

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$0.50887 per share from the initial public offering price. If all the shares are not sold at the initial public offering price, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We and other parties have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 90 days after the date of this prospectus, except with the prior written consent of the representatives. This agreement does not apply to any existing employee benefit plans.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. The underwriters must close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Table of Contents

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. In connection with those derivatives, the third parties may sell securities covered by this prospectus, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter or will be identified in a post-effective amendment.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a *Relevant Member State*), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the *Relevant Implementation Date*) it has not made and will not make an offer of shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

- (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;
- (c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- (d) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an *offer of shares to the public* in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Table of Contents

Each underwriter has represented and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, as amended (the *FSMA*)) received by it in connection with the issue or sale of the shares in circumstances in which Section 21(1) of the FSMA does not apply to us; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.
