To Our Shareholders:

In 2009, we began shifting our strategy from acquiring additional, strategic pipeline assets along the Texas and Louisiana Gulf Coast to finding a more favorable business mix in an effort to improve operational income. This was a daunting exercise against an internal backdrop of declining revenue, depleting cash reserves and mounting stock exchange issues, as well as an external environment of economic recession. Despite these challenges, I'm glad to be able to report that Blue Dolphin Energy Company (Blue Dolphin) made significant headway in re-charting its course in 2010 and 2011, and today we are well positioned for growth over the next few years.

Decrease in Net Loss

For the past few years, throughput volumes on our pipelines continued to decline due to depleting reserves and decreased activity in the Gulf of Mexico. The unfortunate April 2010 Deepwater Horizon blow-out and oil spill, as well as the resultant moratorium on new oil and gas drilling, effectively closed the door on drilling activity around our pipelines and our ability to attract new producers. However, in June 2010, we had the good fortune of signing a commitment letter with Blue Sky Langsa, Ltd. to acquire a working interest in a Technical Assistance Contract for the North Sumatra Basin Langsa Field located offshore in Indonesia. The non-cash transaction closed in July 2010, providing us with a 7% working interest in the field in exchange for 342,857 shares of our common stock. The acquisition of the Langsa Field, at a time when activity in the Gulf of Mexico had come to a stand still, lowered our concentration of risk and contributed to a decrease in our net loss for 2010 compared to 2009.

Improved Financial Strength

Despite increased oil and gas sales revenue from the Langsa Field, we found ourselves in need of working capital as 2010 drew to a close. With limited options, we decided to sell some of our majority-owned assets located at our shore facility in Freeport, Texas, to Sunoco Partners Marketing & Terminals L.P. (Sunoco). The sale of these underutilized assets generated a significant amount of cash (net proceeds of approximately \$3.7 million) while retaining our revenue producing natural gas operations and preserving our oil marketing capabilities.

Relisting on Nasdaq

In addition to our revenue and cash challenges in 2010, we also faced delisting of our common stock from the Nasdaq Capital Market. On separate occasions we were notified by Nasdaq of minimum bid price and stockholders' equity deficiencies against their continued listing standards. To meet the minimum bid requirement, we implemented a one-for-seven (1:7) reverse stock split of our common stock in July 2010. Blue Dolphin's shares began trading on the OTCQB Marketplace in June 2011 following suspension of trading on Nasdaq. However, by August 2011, we resumed trading on the Nasdaq Capital Market after curing our stockholders' equity deficiency as a result of the gain and boost in cash from the Sunoco transaction.

Attractive Asset in Growing Market

In July 2011, we signed a definitive agreement to acquire the full membership interest in Lazarus Energy, LLC (LE). LE 's primary asset is the 56-acre Nixon Crude Processing Facility (the Nixon Refinery), which is located on the border between Gonzales and Wilson Counties near Nixon, Texas — the heart of the Eagle Ford Shale. The site is within close proximity to some of the highest producing wells drilled in the Eagle Ford Shale thus far. The refinery has a processing capacity of approximately 15,000 barrels of oil per day with a storage capacity of 295,000 barrels. As a topping unit, the refinery has a low operating cost and is designed to separate input crude oil and condensate into diesel and jet fuel for sale into nearby markets, as well as naphtha and atmospheric gasoil for sale to nearby refineries for further processing. Over the past few months the refinery has undergone refurbishment activities and was recently restarted. Although currently operating at minimal levels while logistical operations are fine-tuned, we anticipate initial throughput at approximately 10,000 barrels of oil per day.

Fueled by the Eagle Ford Shale play, there has been a resurgence in wholesale product demand and good prices in the area. In addition, crude price differentials between West Texas Intermediate (WTI), which is the benchmark for crude sales in the Nixon area, and Louisiana Light Sweet (LLS) has created an unprecedented environment for local refineries to process the cost advantaged crudes. Therefore, the timing of acquiring the Nixon Refinery could not be better. We will seek to optimize the refinery 's product slate to sell light, high value products to customers in both local and regional markets at competitive prices. We will market the heavier bottom fractions to larger, more complex refineries to be cracked into lighter, higher value products.

Final Thoughts

As we look to the next phase in the life of our company, the opportunities for growth are considerable and we will focus on execution. The first step is closing the acquisition of LE and the Nixon Refinery. The refinery is key to our ongoing recovery and building a foundation upon which to further scale our business. I d like to take this opportunity to thank our staff, who have demonstrated considerable resolve during the past 18 months, as well as our shareholders, who have continued to support our business as we repositioned the company for long-term growth. Working together, I am confident that we will make our shared vision a reality.

With regards,

Record Date; Who Is Entitled to Vote

Edgar Filing: BLUE DOLPHIN ENERGY CO - Form PRE 14A

The Board has fixed the close of business December 12, 2011 as the record date (the Record Date) for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting. A complete list of stockholders entitled to vote at the Annual Meeting will be open for examination by any stockholder during normal business hours for a period of ten days prior to the Annual Meeting at our principal office, which is located at 801 Travis Street, Suite 2100, Houston, Texas 77002. On the Record Date, there were 2,098,390 shares of Common Stock issued and outstanding. Stockholders are entitled to one vote per share of Common Stock held on the Record Date on each matter presented at the Annual Meeting.

Material Delivery

This proxy statement, along with its accompanying notice, and proxy form are first being mailed to stockholders on or about December 26, 2011. The following documents, which have been incorporated by reference, are being mailed with this proxy statement: (i) our Annual Report on Form 10-K and Amendment No. 1 on Form 10-K/A for the fiscal year ended December 31, 2010 (the Annual Report), and (ii) our Quarterly Report on Form 10-Q for the quarter ended September 30, 2011 (the Quarterly Report).

Quorum

The holders of a majority of the shares of Common Stock entitled to vote at the Annual Meeting and represented in person or by proxy shall constitute a quorum at the Annual Meeting for the transaction of business.

Abstentions and Broker Non-Votes

Abstentions If a stockholder abstains from voting on a proposal, the shares are considered present and entitled to vote at the Annual Meeting. Therefore, abstentions will count toward determining whether or not a quorum is present. Under Delaware law, a proxy marked abstain is not considered a vote cast. Accordingly, an abstention will have no effect on the proposal regarding the election of directors as the nominees are elected by a plurality of the votes cast. Abstentions on proposals that require the affirmative vote of a majority of the shares entitled to vote and represented at the Annual Meeting, in person or by proxy, will, in effect, be a vote against such matter.

Broker Non-Votes Broker non-votes occur when brokers, banks or other nominees that hold shares on behalf of beneficial (street name) owners do not receive voting instructions from the beneficial owners prior to the Annual Meeting and do not have discretionary voting authority to vote those shares. Broker non-votes are considered present and entitled to vote at the Annual Meeting. Therefore, broker non-votes will count toward determining whether or not a quorum is present. However, under New York Stock Exchange Rule 452, which has been approved by the Securities and Exchange Commission (the SEC), brokers are prohibited from voting shares of Common Stock for which they have not received instructions on non-routine matters.

Votes Required for Approval

With the exception of the election of directors, our By-Laws, as amended and restated (the By-Laws), require an affirmative vote of a majority of the votes cast by the stockholders present and entitled to vote at the Annual Meeting, either in person or by proxy, for the proposal to be approved. The votes required for approval, and the impact of abstentions and broker non-votes for each proposal stockholders are being asked to consider and vote upon are as follows:

Proposal (1) Election of Directors: You may vote FOR any one or all of the nominees, or withhold your vote for any one or more of the nominees. As the nominees are elected by a plurality of the votes cast, withheld votes and abstentions will not affect the outcome of this proposal. Under applicable SEC rules, this proposal is considered a non-routine matter and brokers will not have discretionary authority to vote shares for which they have not received instructions.

Proposal (2) Ratification of Independent Registered Public Accounting Firm: You may vote FOR or AGAINST or abstain from voting. The affirmative vote of the holders of a majority of the shares of Common Stock entitled to vote and represented at the Annual Meeting, in person or by proxy, is required to approve the ratification of UHY as our independent registered public accountants for the year ending December 31, 2011. Abstentions will have the same effect as a vote AGAINST the ratification. Under applicable SEC rules, this proposal is considered a routine matter and brokers will have the discretionary authority to vote shares of Common Stock for which they have not received instructions.

Proposal (3) Amendment to the Certificate: You may vote FOR or AGAINST or abstain from voting. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock and

Table of Contents

is required to approve the proposed Certificate Amendment. Abstentions and broker non-votes will have the same effect as a vote **AGAINST** adoption of the Certificate Amendment. Under applicable SEC rules, this proposal is considered a non-routine matter and brokers will not have discretionary authority to vote shares for which they have not received instructions.

Proposal (4) Amendments to the Plan: You may vote **FOR** or **AGAINST** or abstain from voting. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock entitled to vote and represented at the Annual Meeting is required to approve the proposed Plan Amendments. Abstentions will have the same effect as a vote **AGAINST** adoption of the Plan Amendments. Under applicable SEC rules, this proposal is considered a non-routine matter and brokers will not have discretionary authority to vote shares for which they have not received instructions.

Proposal (5) Approval of the Issuance of the BDEC Shares: You may vote **FOR** or **AGAINST** or abstain from voting. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock entitled to vote and represented at the Annual Meeting is required to approve the issuance of the BDEC Shares. Abstentions will have the same effect as a vote **AGAINST** approval of the issuance of the BDEC Shares. Under applicable SEC rules, this proposal is considered a non-routine matter and brokers will not have discretionary authority to vote shares for which they have not received instructions.

Proposal (6) Approval of Adjournment or Postponement of the Annual Meeting: You may vote **FOR** or **AGAINST** or abstain from voting. As our By-Laws require the affirmative vote of a majority of the votes cast in order to adjourn or postpone the Annual Meeting to a later time, withheld votes and abstentions will have no effect on this matter. Under applicable SEC rules, this proposal is considered a non-routine matter and brokers will not have discretionary authority to vote shares for which they have not received instructions.

Voting Your Shares

All shares of Common Stock represented at the Annual Meeting by properly executed proxies will be voted in accordance with the instructions indicated on the proxies. If no instructions are indicated with respect to any shares for which properly executed proxies have been received, such proxies will be voted **FOR** Proposal Nos. (1) through (6).

Revoking Your Proxy

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked pursuant to the following actions:

providing written or electronic notice of revocation;

submitting a proxy of a later date; or

voting in person at the Annual Meeting.

A written notice of revocation should be sent to Blue Dolphin Energy Company, Attention: Secretary, 801 Travis Street, Suite 2100, Houston, Texas 77002. Depending on how you hold your shares, you can submit a proxy of a later date via the Internet, by telephone or by mail.

Reimbursement of Solicitation Expenses

Blue Dolphin will bear all costs of this solicitation. Proxies will be solicited primarily by mail, but may also be solicited in person, by telephone or other electronic means by directors, officers and employees of the Company in the ordinary course of business for which they will not receive additional compensation. Blue Dolphin has requested that brokers, nominees, fiduciaries and other custodians send proxy materials to the beneficial owners of Common Stock, for which the Company will reimburse them for their reasonable out-of-pocket expenses.

FREQUENTLY ASKED QUESTIONS (FAQs)

The FAQs presented in this section are to assist you in understanding the proposals for which you are being asked to vote upon for the Annual Meeting. The items addressed may not answer all questions that may be important to you as a stockholder. For additional information, please refer to the more detailed discussion contained elsewhere in this proxy statement or contact Blue Dolphin at (713) 568-4725.

Procedural Matters

1. Why am I receiving this proxy statement?

You are receiving this proxy statement because you are a Blue Dolphin stockholder as of the Record Date for the Annual Meeting.

2. When and where will the Annual Meeting be held?

The Annual Meeting will be held on Wednesday, January 18, 2012 at 10:00 a.m. Central at Blue Dolphin's principal office, which is located at 801 Travis Street, Suite 2100, Houston, Texas 77002.

3. What are the proposals that will be voted on at the Annual Meeting?

You are being asked to consider and vote upon proposals to: (1) elect five directors, (2) ratify the selection of UHY as our independent registered public accounting firm, (3) make one amendment to the Certificate to decrease the number of authorized shares of Common Stock, (4) make two amendments to the Plan to change the expiration date of the Plan and increase the number of shares of Common Stock authorized for issuance under the Plan, (5) authorize the issuance of the BDEC Shares, which will result in a change in control of Blue Dolphin, (6) approve an adjournment or postponement of the Annual Meeting, if necessary and (7) transact any other business that may properly come before the Annual Meeting and any adjournment or postponement thereof.

4. How many votes are required to approve an adjournment or postponement of the Annual Meeting to a later time, if necessary or appropriate, to obtain quorum or solicit additional proxies in favor of the proposals?

If a quorum is not met, the Board may submit a proposal to adjourn or postpone the Annual Meeting to a later date or dates until a quorum is met. If a quorum is met but there are insufficient votes to adopt the proposals, our By-Laws require the affirmative vote of a majority of the votes cast in order to adjourn or postpone the Annual Meeting to a later time. Withheld votes, abstentions and broker non-votes will have no effect on this matter.

5. Who is entitled to attend and vote at the Annual Meeting?

The record date for the Annual Meeting is December 12, 2011. If you owned shares of Common Stock as of the close of business on the Record Date, you are entitled to notice of, and to vote at, the Annual Meeting or any adjournment or postponement of the Annual Meeting. As of the record date there were approximately 2,098,390 shares of Common Stock issued and outstanding.

6. How does Blue Dolphin's Board recommend that I vote on the proposals?

The Board has determined that each of the proposals presented in the proxy statement are in the best interests of you — our stockholder — and unanimously recommends that you vote **FOR** each proposal presented in the proxy statement.

7. How are votes counted?

The inspector of election that is appointed for the Annual Meeting will count the votes. Such person will separately count **FOR**, **WITHHELD**, and **AGAINST** votes, as well as abstentions and broker non-votes.

8. What if I fail to instruct my brokerage firm, bank, trust or other nominee how to vote?

Edgar Filing: BLUE DOLPHIN ENERGY CO - Form PRE 14A

With the exception of Proposal (2), ratification of UHY as our independent registered public accounting firm, which is a routine matter under applicable SEC rules, your brokerage firm, bank, trust or other

Table of Contents

nominee will not be able to vote your shares unless you have properly instructed your nominee on how to vote. Because your brokerage firm, bank, trust or other nominee does not have discretionary authority to vote on Proposals (1), (3), (4), (5) and (6), failure to provide your broker or other nominee with voting instructions on how to vote your shares will result in a broker non-vote for those proposals.

9. What do I need to do now?

After carefully reading and considering the information contained in this proxy statement, including the other documents included as exhibits, please vote your shares as described below. You have one vote for each share of Common Stock you own as of the record date.

10. How do I vote if I am a stockholder of record?

Depending on how you hold your shares, you may vote by completing, signing and dating each proxy form you receive and returning it in the enclosed prepaid envelope, by using the Internet voting instructions printed on your proxy form, by voting via telephone or by appearing in person at the Annual Meeting.

If you are voting by Internet, your voting instructions must be received by 11:59 p.m. Eastern time on the date prior to the date of the Annual Meeting. Voting by mail, the Internet or by telephone will not prevent you from voting in person at the Annual Meeting. You are encouraged to submit a proxy by mail, via the Internet or by telephone even if you plan to attend the Annual Meeting in person to ensure that your shares of Common Stock are present in person or represented at the Annual Meeting.

11. How do I vote my shares if they are held by my brokerage firm, bank, trust or other nominee?

If your shares are held in a brokerage account or by another nominee, such as a bank or trust, then the brokerage firm, bank, trust or other nominee is considered to be the stockholder of record with respect to those shares. However, you still are considered to be the beneficial owner with your shares being held in street name. Street name holders generally cannot vote their shares directly and must instead instruct the brokerage firm, bank, trust or other nominee in how to vote their shares. With the exception of Proposal (2), ratification of UHY as our independent registered public accounting firm, which is a routine matter under applicable SEC rules, your brokerage firm, bank, trust or other nominee will only be permitted to vote your shares for you on Proposals (1), (3), (4), (5) and (6) at the Annual Meeting if you instruct them in how to vote. ***Therefore, it is important that you promptly follow the directions provided by your brokerage firm, bank, trust or other nominee regarding how to instruct them to vote your shares.*** If your shares are registered in the name of a brokerage firm, bank, trust or other nominee and you wish to vote in person at the Annual Meeting, you must bring a proxy from your brokerage firm, bank, trust or other nominee authorizing you to vote at the Annual Meeting. In addition, because any shares you may hold in street name will be deemed to be held by a different stockholder than any shares you hold of record, shares held in street name will not be combined for voting purposes with shares you hold of record. To be sure your shares are voted, you should instruct your brokerage firm, bank, trust or other nominee to vote your shares. Shares held by a corporation or business entity must be voted by an authorized officer of the entity.

12. What constitutes a quorum for the Annual Meeting?

The presence, in person or by proxy, of stockholders representing a majority of the shares of Common Stock entitled to vote at the Annual Meeting will constitute a quorum for the Annual Meeting. If you are a stockholder of record and you submit a properly executed proxy form, then your shares will be counted as part of the quorum. If you are a street name holder of shares and you provide your brokerage firm, bank, trust or other nominee with instructions as to how to vote your shares or obtain a legal proxy from such broker or nominee to vote your shares in person at the Annual Meeting, then your shares will be counted as part of the quorum. All shares of Common Stock held by stockholders that are present in person or represented by proxy and entitled to vote at the Annual Meeting, regardless of how such shares are voted or whether such stockholders abstain from voting, will be counted in determining the presence of a quorum.

13. What does it mean if I receive more than one proxy?

If you receive more than one proxy, it means that you hold shares that are registered in more than one account. For example, if you own your shares in various registered forms, such as jointly with your spouse, as trustee of a trust or as custodian for a minor, you will receive, and you will need to sign and return, a

separate proxy form for those shares because they are held in a different form of record ownership. Therefore, to ensure that all of your shares are voted, you will need to properly execute each proxy form you receive.

14. What happens if I sell my shares of Blue Dolphin Common Stock before the Annual Meeting?

The record date for stockholders entitled to a vote at the Annual Meeting is earlier than the date of the Annual Meeting. If you transfer your shares of Common Stock after the record date but before the Annual Meeting, you will, unless special arrangements are made, retain your right to vote at the Annual Meeting.

15. Am I entitled to appraisal rights?

Under Delaware law, stockholders are not entitled to appraisal rights with respect to any of the proposals presented at the Annual Meeting.

16. Who can answer further questions?

For additional questions, please contact us at (713) 568-4725. For assistance in submitting proxies or voting shares of Common Stock, stockholders of record should contact Securities Transfer Corporation by phone at (469) 633-0101 or through their website at www.stctransfer.com. If your brokerage firm, bank, trust or other nominee holds your shares in street name, you should contact them for additional information.

Selection of UHY as Independent Registered Public Accounting Firm

17. How long has UHY been our independent registered public accounting firm?

UHY has been engaged as our independent registered public accounting firm since 2002 – nearly ten years. Although ratification by our stockholders is not required by our By-Laws, the Board believes that submitting this matter to a vote reflects good corporate practice.

18. What happens if UHY's selection is not ratified?

In the event of a negative vote on such ratification, the Audit Committee will reconsider its selection. Even if this appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in our best interest and that of our stockholders.

Amendment to the Certificate

19. What is the impact of reducing the number of authorized shares of Common Stock?

Having too many authorized shares of Common Stock may result in us having a higher tax burden. As a result, reducing the number of authorized shares of Common Stock will decrease our potential tax liability.

20. If the number of authorized shares is reduced, will there be sufficient authorized shares available to meet future needs?

Based on our current issued and outstanding Common Stock of 2,098,390 and shares of Common Stock issuable upon exercise of outstanding stock options of 30,390, we have a reserve of more than 97 million shares of Common Stock available for issuance. This is significantly more than we would need for future use. The Board believes that reducing the reserve to approximately 9.5 million shares, net of issuance of the BDEC Shares, if approved, would provide a sufficient number of authorized shares of Common Stock to meet our future needs.

Amendments to the Plan

21. Why is it necessary to change the expiration date of the Plan?

The Plan had a ten (10) year term and expired on April 14, 2010. In order to reinstate a stock option plan for Blue Dolphin, we can either adopt a new stock incentive plan or amend the Plan retroactively to have a twenty (20) year term. This would extend the expiration date of the Plan to April 14, 2020. Management believes amending the expiration date of the Plan is the most efficient way to resolve this matter.

Table of Contents

22. What happens if the expiration date amendment is not approved?

If the amendment is not approved, we will need to present a new stock incentive plan for stockholder approval. Doing so would take a considerable amount of time and effort and, during such time while approval is pending, the Compensation Committee of the Board will not be able to make incentive compensation awards pursuant to a stockholder approved plan.

23. Why is it necessary to increase the number of shares available for grant under the Plan?

In July 2010, stockholders approved a 1-for-7 reverse-stock-split of our Common Stock, which reduced the number of shares available for issuance under the Plan from 1,200,000 shares to 171,128 shares. Only 78,992 shares of Common Stock are available for future grants under the Plan. The Compensation Committee of the Board believes that this amount is insufficient to attract, retain and/or recruit key personnel. If approved, the amendment will increase the shares of Common Stock available for future grants under the Plan from 78,992 shares to 907,564 shares.

Acquisition of the Transaction Assets

24. Blue Dolphin is primarily a pipeline gathering and transportation company. Why are we acquiring a refinery?

Although we have historically operated as a pipeline gathering and transportation company (with a small portfolio of offshore leasehold interests), in 2009 we began shifting our focus away from acquiring additional strategic pipeline assets along the Texas and Louisiana Gulf Coast to finding opportunities in the downstream market where we could leverage our existing assets, particularly our onshore facilities in Freeport, Texas. With a more diverse asset suite, we will be better positioned to survive and thrive in today's fluctuating petroleum and products market.

25. Where is the refinery located?

The refinery, located near Nixon, Texas, sits along the border between Gonzales and Wilson Counties, in the heart of the Eagle Ford Shale. It is in close proximity to some of the highest producing wells drilled so far in the Eagle Ford Shale.

26. What kind of refinery is it, and how much is it capable of producing?

Commonly referred to as a refinery, the asset is actually a crude processing facility that sits on 56 acres. As a topping unit, the facility can adjust its yield of various products by modifying its yield slate. The facility has a capacity for processing 15,000 barrels of oil per day and a capacity for storing 295,000 barrels. Although the refinery has been idle for a while, it is currently in the final stage of refurbishment with an anticipated restart in the 4th quarter of 2011. Initial throughput is estimated at approximately 10,000 barrels of oil per day.

27. What will be the impact of issuing such a large number of shares of Common Stock as consideration for the purchase of LE?

The principal effects will be to: (i) significantly increase the Company's number of shares of Common Stock outstanding, which will proportionately reduce the ownership percentage of existing stockholders, and (ii) constitute a change in control of Blue Dolphin, effectively making the Company a controlled company. A controlled company is one of which more than fifty percent (50%) of the voting power is held by an individual, a group or another company. In this case, upon closing of the transaction, LEH will have more than fifty percent (50%) of the voting power of Blue Dolphin.

28. When is the transaction expected to close?

If Proposal (4) is approved by our stockholders at the Annual Meeting, we expect to close the transaction shortly thereafter. However, the contemplated transaction is subject to additional closing conditions. While not anticipated, it is possible that the failure to timely meet these additional closing conditions, or other factors outside either party's control, could delay, hinder or prevent completion of the transaction.

(2) RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

For additional information related to this matter, refer to the FAQs provided as part of this proxy statement.

For purposes of determining whether to select UHY as our independent registered public accounting firm to perform the audit of our consolidated financial statements for 2011, the Audit Committee conducted a thorough review of UHY's performance. The Audit Committee considered:

UHY's performance on previous audits, including the quality of the engagement team and the firm's experience, client service, responsiveness and technical expertise;

the firm's leadership, management structure and client and employee retention;

the firm's financial strength and performance; and

the appropriateness of fees charged.

UHY acts as our principal independent registered public accounting firm. UHY personnel work under direct control of UHY Partners and are leased from wholly owned subsidiaries of UHY Advisors, Inc. in an alternative practice structure.

We are asking our stockholders to ratify the selection of UHY as our independent registered public accounting firm. Although ratification is not required by our By-Laws or otherwise, the Board is submitting the selection of UHY to our stockholders for ratification as a matter of good corporate practice. If the selection is not ratified, the Audit Committee will consider whether it is appropriate to select another independent registered public accounting firm. Even if the selection is ratified, the Audit Committee, in its discretion, may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of Blue Dolphin and our stockholders.

A representative of UHY is expected to be present at the Annual Meeting, with the opportunity to make a statement if he or she decides, and will respond to appropriate questions.

(3) AMENDMENT TO THE CERTIFICATE

This discussion is qualified in its entirety by reference to the Certificate amendment, which is attached to this proxy statement as Exhibit A, and is incorporated herein by reference. You should read the entire Certificate amendment carefully as set forth in Exhibit A, which describes fully the contemplated modifications to the Certificate.

Edgar Filing: BLUE DOLPHIN ENERGY CO - Form PRE 14A

The Certificate currently authorizes us to issue a maximum of 100,000,000 shares of Common Stock. Effective July 16, 2010, stockholders approved a 1-for-7 reverse-stock-split of the Common Stock. Although the number of shares of Common Stock outstanding was reduced as a result of the reverse-stock-split, the number of authorized shares was not decreased. The Board has considered this matter and, in light of the potential higher tax burden associated with having such a relatively large number of outstanding shares of Common Stock, adopted a resolution approving a proposal to decrease the number of shares of Common Stock authorized for issuance from 100,000,000 shares to 20,000,000 shares. As of the Record Date there were 2,098,390 shares of

Table of Contents

Common Stock outstanding. There are a total of 30,390 shares of Common Stock issuable upon exercise of outstanding stock options. If Proposal (5) is approved, we will issue LEH 8,393,560 shares of Common Stock, which will represent a change in control of Blue Dolphin.

The Board believes the proposed decrease in the number of shares of Common Stock authorized for issuance will continue to provide us with the flexibility necessary to: (i) raise additional capital through one or more public offerings or private placements of shares of Common Stock or options, warrants, convertible debt, convertible preferred stock, or other securities exercisable or convertible into shares of Common Stock; (ii) acquire additional assets or businesses by using shares of Common Stock for a portion or all of the consideration paid to the sellers; (iii) repay indebtedness by issuing shares of Common Stock in lieu of cash; (iv) attract and retain directors, officers and key employees and motivate such persons to exert their best efforts on our behalf by issuing options to acquire shares of Common Stock; or (v) effect stock splits in the form of a stock dividend or otherwise to make stock dividends to existing stockholders. The Board believes that the number of shares of Common Stock currently authorized for issuance is significantly more than would be required to provide a sufficient number of shares for transactions such as those described above. Accordingly, the Board believes that the proposed amendment to the Certificate to decrease the authorized shares of Common Stock is appropriate and in the best interests of Blue Dolphin and its stockholders. Other than the aforementioned PSA, we have no arrangements, agreements, understandings or plans at the present time for issuance or use of the authorized shares of Common Stock.

Upon approval of the proposed amendment to the Certificate and filing of the Amended and Restated Certificate with the Secretary of State of the State of Delaware, the authorized shares of Common Stock will be available for issuance by action of the Board for any reasons described above or for any other corporate purpose. The authorized shares of Common Stock in excess of those issued will be available for issuance at such times and for such corporate purposes as the Board may deem advisable, without further action by stockholders, except as may be required by applicable law, National Association of Securities Dealers Rules or by the rules of any stock exchange or national securities association trading system on which the Common Stock may be listed or traded in the future. Upon issuance, such shares will have the same rights as the outstanding shares of Common Stock and will be subject to the rights and preferences of holders of outstanding shares of any preferred stock that we may issue in the future. Holders of Common Stock have no preemptive rights. The issuance in the future of additional shares of Common Stock may have the effect of diluting the earnings per share and book value per share, as well as the stock ownership and voting rights, of the current holders of Common Stock.

(4) AMENDMENTS TO THE PLAN

This discussion is qualified in its entirety by reference to the Plan amendments, which are attached to this proxy statement as Exhibit B, incorporated herein by reference. You should read the entire Plan amendments carefully as stipulated in Exhibit B as the document outlines the contemplated modifications to the Plan.

Reason for the Plan Amendments

The proposed amendments to the Plan are needed because:

Our existing stock option plan expired on April 14, 2010 (the Expiration Date), making either the adoption of a new plan or an amendment to the expired plan a necessity. Management believes extending the Expiration Date of the Plan from ten (10) to twenty (20) years is the most efficient and cost effective means of reestablishing a Blue Dolphin stock option plan. If approved, the amendment will reset the Expiration Date from April 14, 2010 to April 14, 2020; and

Table of Contents

In July 2010, stockholders approved a 1-for-7 reverse-stock-split of the Common Stock, which reduced the number of shares of Common Stock available for issuance under the Plan from 1,200,000 shares to 171,128 shares. Only 78,992 shares of Common Stock are available for future grants under the Plan. The Compensation Committee of the Board feels that this amount is insufficient to properly incentivize directors, officers, employees and/or consultants, contribute to Blue Dolphin's long-term success and create a common understanding of and commitment to the creation of stockholder value. If approved, the amendment will increase the number of shares of Common Stock available for issuance under the Plan from 171,128 shares to 1,000,000 shares.

Summary of the Plan

The material features of the Plan are summarized below. This summary does not purport to be a complete description of all the provisions of the Plan.

Shares Subject to the Plan Under the Plan, we may issue incentive awards up to five percent (5%) of the number of shares of Common Stock issued and outstanding on the first day of the then preceding calendar quarter. The number of securities available under the Plan and outstanding incentive awards are subject to adjustments to prevent the dilution of rights of plan participants resulting from stock dividends, stock splits, recapitalization or similar transaction or resulting from a change in applicable laws or other circumstances. Currently there are 171,128 shares of Common Stock available for issuance under the Plan.

Administration The Board's Compensation Committee administers The Plan. The Compensation Committee may delegate its duties under the Plan, except for the authority to grant incentive awards or take other action on persons who are subject to Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or Section 162(m) of the Internal Revenue Code. In the case of an incentive award to an outside director, the Board acts as the Compensation Committee.

Eligibility Employees, including officers (whether or not they are directors), consultants and non-employee directors are eligible to participate in the Plan.

Types of Incentive Awards Under the Plan, The Compensation Committee may grant incentive awards, which can be incentive stock options (ISOs) as defined in Section 422 of the Internal Revenue Code, non-statutory stock options (NSOs), stock appreciation rights (SARs), shares of restricted stock, performance units and performance shares and other stock based awards.

Terms of Incentive Awards Expiration dates for incentive awards granted under the Plan range from six (6) to ten (10) years from the date of grant. Exercise prices are set at fair market value at the time of grant pursuant to Section 422 of the Internal Revenue Code, which states that the exercise price of an ISO may not be lower than 100% of the fair market value of the underlying stock at the time of grant. Vesting periods are typically immediate. The terms of each incentive award is reflected in an incentive agreement between Blue Dolphin and the participant.

Termination of Employment Except as otherwise provided in the applicable incentive agreement, if a participant's employment or other service with us (or our subsidiaries) is terminated other than due to death, disability or for cause (each capitalized term being defined in the Plan), the then exercisable incentive awards will remain exercisable until the earlier of: (i) the expiration date of such incentive awards and (ii) ninety (90) days after termination. If termination is due to disability or death, the then exercisable incentive awards will remain exercisable until the earlier of the expiration date of such incentive awards or one (1) year following termination in the event of death or disability. On retirement, the then exercisable incentive awards will remain exercisable for six (6) months (except for ISOs, which will remain exercisable for three (3) months). On a termination for cause, all incentive awards will expire on the termination date.

Table of Contents

Change in Control Unless otherwise provided in the participant's incentive agreement, upon a change in control, any restrictions on restricted stock and other stock-based awards will be deemed satisfied, all outstanding ISOs, NSOs and SARs may become immediately exercisable and all the performance shares and units and any other stock-based awards may become fully vested and deemed earned in full.

Expiration Date Subject to the right of the Board to amend or terminate the Plan at any time, the Plan remained in effect until either: (i) all shares of Common Stock subject to the Plan were granted or (ii) the elapse of ten (10) years from the Effective Date. Since not all shares under the Plan were granted, the Plan expired at the end of ten (10) years on the Expiration Date.

Adoption of and Amendments to the Plan

The Plan was initially established by the Board on April 14, 2000 (the Effective Date) and approved by stockholders on May 18, 2000. The Plan was amended effective March 19, 2003 and ratified by the stockholders on May 21, 2003 to increase the Common Stock reserved for issuance under the Plan from 500,000 shares to 650,000 shares (Amendment No. 1). The Plan was further amended effective April 5, 2007 and ratified by stockholders on May 30, 2007 to increase the Common Stock reserved for issuance under the Plan from 650,000 shares to 1,200,000 shares (Amendment No. 2). Effective July 16, 2010, stockholders approved a 1-for-7 reverse-stock-split of the Common Stock, which reduced the number of shares of Common Stock available for issuance under the Plan from 1,200,000 shares to 171,128 shares (Amendment No. 3).

Options Outstanding and Exercisable under the Plan

At the Expiration Date, there were a total of 30,390 shares of Common Stock reserved for issuance upon exercise of outstanding options under the Plan. Although the Plan provides for the granting of other incentive awards, only ISOs and NSOs have been issued to date under the Plan. Expiration dates for options granted under the Plan range from six (6) to ten (10) years from the date of grant. Exercise prices for options granted under the Plan are set at fair market value at the time of grant pursuant to Section 422 of the Internal Revenue Code, which states that the exercise price of an ISO may not be lower than 100% of the fair market value of the underlying stock at the time of grant. Vesting periods for ISOs awarded under the Plan are immediate with the exception of 14,285 ISOs granted in 2007, which had a two-year vesting period.

Common Stock Available for Future Grants

In July 2010, stockholders approved a 1-for-7 reverse-stock-split of the Common Stock, which reduced the number of shares of Common Stock available for issuance under the Plan from 1,200,000 shares to 171,128 shares. Only 78,992 shares of Common Stock are available for future grants under the Plan. The Compensation Committee of the Board feels that this amount is insufficient to properly incentivize directors, officers, employees and/or consultants, contribute to Blue Dolphin's long-term success and create a common understanding of and commitment to the creation of stockholder value.

Effects of Plan Amendments

As there were no grants made under the Plan after the Expiration Date, there will be no accounting effects as a result of stockholders approving the Plan Amendments. If, however, stockholders do not approve the Plan Amendments, Blue Dolphin will need to present a new stock incentive plan for stockholder approval. Until such new stock incentive plan is approved, the Compensation Committee of the Board will not be able to make incentive compensation awards pursuant to a stockholder approved plan.

AMENDMENTS TO THE PLAN.

(5) ISSUANCE OF BDEC SHARES

This discussion is qualified in its entirety by reference to the PSA, which is attached to this proxy statement as Exhibit C, incorporated herein by reference. You should read the entire PSA carefully as it is the document that governs the contemplated transaction.

Reason for the Share Issuance

On July 12, 2011, Blue Dolphin entered into the PSA with the Lazarus entities to acquire one hundred percent (100%) of the issued and outstanding membership interest in LE (the Transaction Assets). Blue Dolphin's consideration for the Transaction Assets is the issuance of 8,393,560 shares of Common Stock to LEH, which will represent eighty percent (80%) of our issued and outstanding Common Stock after closing of the transaction, resulting in a change in control of Blue Dolphin.

Reason for Seeking Stockholder Approval

NASDAQ Marketplace Rule 5635(a) requires stockholder approval prior to the issuance of securities in connection with the acquisition of assets of another company if the securities being issued represent 20% or more of an issuer's outstanding listed securities or twenty percent (20%) or more of the voting power outstanding before the issuance. Furthermore, NASDAQ Marketplace Rule 5635(b) requires stockholder approval when the issuance or potential issuance of securities will result in a change of control of the company. The Common Stock is listed on the NASDAQ Capital Market, and as a result, we are subject to NASDAQ Marketplace Rules. Stockholder approval of Proposal No. 4, Issuance of BDEC Shares, will also constitute approval of the resulting change in control for purposes of NASDAQ Marketplace Rules 5635(a) and (b) and no additional approval will be solicited.

As of the date of this proxy statement, except as otherwise disclosed herein, we do not have any commitments, which alone or when aggregated with subsequent transactions, represent twenty percent (20%) or more of our outstanding listed securities or twenty percent (20%) or more of the voting power outstanding before the issuance. If any material plans, arrangements or contracts regarding securities issuances subject to this proposal arise after the date of this proxy statement and prior to the actual vote on this proposal, we will notify our stockholders and make revised proxy solicitation materials publicly available in accordance with SEC rules.

Dividend Rights Subject to our Amended and Restated Certificate of Incorporation and any rights and restrictions of any other class or series of shares, the Board may, from time to time, declare dividends on the shares issued and authorize payment of a dividend out of our lawfully available funds. The Board may declare that any dividend be paid wholly or partly by the distribution of shares of Common Stock and/or specific assets. Historically, we have not paid a dividend. Any future declaration and payment of dividends following the completion of the transaction will depend on our results of operations, financial condition, cash requirements and other relevant factors, as well as be subject to the discretion of the Board.

Voting Rights Each holder of Common Stock is entitled to one vote for each share of Common Stock held on all matters submitted to a vote of stockholders.

Effect of Potential Issuance on Current Stockholders

Issuance of the BDEC Shares will result in substantial dilution to existing stockholders since they will own a smaller percentage of the Common Stock after the close of the transaction. In addition, issuance will provide LEH with a controlling interest in Blue Dolphin, which could encourage the possibility of, or render easier, certain transactions or proxy contests.

Based on information currently available, the Board considered the possible negative impact that issuance of the BDEC Shares could have on the current stockholders and concluded that any such impact would be outweighed by the positive effect on the stockholders resulting from the acquisition of the Transaction Assets.

Effect of Failure to Approve Issuance of BDEC Shares

If stockholders do not approve the issuance of the BDEC Shares pursuant to the PSA, we will not be able to acquire the Transaction Assets, which will restrict our entry into the downstream sector of the petroleum industry. Although we completed an asset sale in August 2011, for which we received proceeds of approximately

Table of Contents

\$3.7 million in cash, we currently have no other prospects to generate sufficient cash from operations to sustain our business long-term. Over the past four years, we have used a significant portion of our cash reserves to fund working capital requirements. Low commodity prices, production problems, declines in production, disappointing drilling results and other factors beyond our control have significantly reduced funds available from operations. Once current cash reserves are depleted, we may be forced to sell additional assets at unfavorable terms or on an untimely basis.

Effect of Current Litigation

In 2010, we foreclosed on the collateral and filed a lawsuit against the guaranty that secured a \$2.0 million loan, net of credited and recovered amounts, made to LLRII, as borrower, and LEH, as guarantor. In March 2011, we were awarded a partial summary judgment in the amount of \$1.7 million against LLRII and LEH. The only claim that remains pending is a counter-claim alleging breach of contract under a confidentiality agreement. In May 2011, the parties entered into a Rule 11 Agreement in the interests of resolving the claims and disputes that are part of the litigation described herein. The parties have extended the deadline under the Rule 11 Agreement multiple times in an ongoing effort to re-establish a business arrangement that is beneficial to all involved parties. Upon consummation of the transaction, we have agreed to release LLRII of its obligation to pay the outstanding balance due under the Note, as well as to release our claims against LLRII and LEH pursuant to the related lawsuit(s).

Recommendation

The Board has unanimously determined that the contemplated acquisition of the Transaction Assets is advisable and in the best interest of our stockholders and has approved the contemplated PSA. In reaching its determination, the Board: (i) consulted with Blue Dolphin's management and legal and financial advisors; (ii) reviewed the terms of the PSA, including both parties' representations, warranties and covenants, and the conditions to their respective obligations; and (iii) evaluated information related to the Lazarus Entities, including but not limited to information concerning business operations, financial performance and condition, technology, competitive position and businesses and strategic objectives.

THE BOARD RECOMMENDS A VOTE FOR THE

ISSUANCE OF THE BDEC SHARES.

(6) ADJOURNMENT OR POSTPONEMENT

Although it is not expected, holders of a majority of the Common Stock, represented in person or by proxy, although representing less than a quorum, may adjourn or postpone the Annual Meeting for the purpose of soliciting additional proxies. If announced at the Annual Meeting, the By-Laws permit an adjournment, without notice being given to the stockholders, if: (i) the adjournment is not more than thirty (30) days from the date of the Annual Meeting or (ii) no new record date is fixed for such adjourned meeting. Stockholders already having sent in their proxies could revoke such proxies at any time prior to their use at the adjournment or postponement.

(7) TRANSACTION OF OTHER MATTERS

At the date of this proxy statement, the Board was not aware of any matter to be acted upon at the Annual Meeting other than those matters as described in Proposal Nos. (1) through (6), as described herein. If other business comes before the Annual Meeting, the persons named on the proxy will vote the proxy in accordance with their best judgment.

TRANSACTION SUMMARY

Transaction Assets

LE's primary asset is the 56-acre Nixon Crude Processing Facility (the Nixon Refinery). The Nixon Refinery is located on the border between Gonzales and Wilson Counties near Nixon, Texas, which lies in the heart of the Eagle Ford Shale and is within close proximity to some of the highest producing wells drilled in the Eagle Ford Shale thus far. The Nixon Refinery has a processing capacity of 15,000 barrels of oil per day with a storage capacity of 295,000 barrels and, as a topping unit, has a low operating cost. Currently idle, the Nixon Refinery has undergone some refurbishment activities and is set for the final phase of refurbishment with an estimated restart in the fourth quarter of 2011. Once complete, the refinery will be able to separate input crude oil and condensate into diesel and jet fuel for sale into nearby markets, as well as naphtha and atmospheric gasoil for sale to nearby refineries for further processing. Initial throughput is estimated at approximately 10,000 barrels per day.

Transaction Background

In May 2008, Herbert N. Whitney of LEH contacted Mr. Goodpasture to discuss then current condensate gathering and marketing conditions. At the conclusion of their discussion, Mr. Goodpasture recommended that Mr. Whitney follow-up with Mr. Siem to determine if there were any synergistic business opportunities between the two companies. Over the next several weeks, Messrs. Carroll and Siem, as well as Thomas Heath, our then Executive Vice President, and Jason Heuring of LEH, discussed business ideas and a potential business combination. The culmination of these talks was a letter of intent whereby LEH proposed to acquire Blue Dolphin in a reverse merger. The Board decided to pass on the opportunity at that time.

In January 2009, Mr. Carroll reengaged in talks with Blue Dolphin and presented a second letter of intent offering us the right to participate in the development of LLRII's Mermentau Refinery for a \$3 million commitment. While of interest to us, we ultimately could not agree on the terms of a joint venture and talks ended.

In May 2009, Messrs. Carroll and Heath met to discuss the merits of a potential merger or asset transaction. The Board agreed to proceed, and we engaged the services of Foley Energy Services to conduct a preliminary evaluation of the subject LE and LLRII assets, assess the then current market conditions for crude supply and logistical operations and validate the assumptions provided as the basis for the transaction financial models.

In July 2009, LEH signed a Consent to Sublease Agreement with Blue Dolphin Services Co., a wholly owned subsidiary of Blue Dolphin, and 801 Travis Investor, L.P. to sublease a portion of our office space on a month-to-month basis (the Sublease Agreement). In addition, we signed agreements with LEH and LLRII, as follows: (i) a Promissory Note with LLRII as borrower and Blue Dolphin as lender in the amount of \$2.0 million (the Note) for working capital purposes, (ii) a Consulting Agreement in the amount of \$500,000 (the Consulting Agreement) under which we would provide services to LLRII, (iii) a Loan and Option Agreement (the Loan Agreement) granting us the right to acquire LEH's Mermentau, Nixon and Regional assets (in the event LEH acquired the Regional assets) for approximately eighty percent (80%) of our then outstanding Common Stock, such option expiring March 1, 2010, (iv) a Multiple Indebtedness Mortgage with LLRII, as mortgagor and Blue Dolphin as mortgagee, (v) a Guaranty with LEH as guarantor and Blue Dolphin as beneficiary, (vi) a Commercial Security Agreement with LLRII as Grantor and Blue Dolphin as the secured party and (vii) a Certificate of Authority wherein LLRII granted Blue Dolphin a mortgage and security interest in certain LEH property as collateral under the Note.

In August 2009, we funded \$1.2 million of the Note to LLRII. We also funded \$100,000 and \$200,000 under the Note to LLRII in June and July 2009, respectively. The remaining \$500,000 under the Note was retained by us as consideration paid by LLRII under the Consulting Agreement.

In January 2010, the Note became due and LLRII was unable to make the required payment as stipulated under the Loan Agreement. We agreed to forbear the Loan Agreement until June 2010, provided LLRII satisfy certain conditions as set forth in the forbearance agreement. Those certain conditions were not met and we called the full value of the amounts owed under the Loan Agreement to be paid by April 13, 2010.

In May 2010, we terminated the Sublease Agreement and LEH vacated the premises. We also began the foreclosure process on the collateral securing the Loan Agreement, which consisted of real property, namely the Mermentau Refinery held under a first lien and an inactive saltwater disposal well. The collateral went up for auction under a Writ of Seizure and Sale issued by the 31st Judicial District Court, Parish of Jefferson Davis, State of Louisiana. There were no bidders on the Mermentau Refinery. As a credit bid against the Loan Agreement, we bid the minimum amount of \$134,000 for the saltwater disposal well. As there were no third-party bidders on the saltwater disposal well, we acquired the property at its fair market value of \$201,000. We also filed a petition in the 129th Judicial

Table of Contents

District, in the District Court of Harris County, State of Texas (the Court) against LEH, as guarantor of the Note, alleging breach of contract and asserting our right to the unpaid principal balance and all accrued interest due and payable under the Note. LEH filed a counter-claim alleging usurious interest based on the Consulting Agreement.

In September 2010, we exercised our right to cure LEH's alleged usury claim without having to admit guilt based on a statutory provision. In so doing, LLRII was credited \$500,000 against the outstanding principal balance under the Note, and our claim in the Court proceeded without undue delay. In response, LEH filed an amended counter-claim further alleging breach of contract under a confidentiality agreement between the parties.

In February 2011, the Court granted a partial summary judgment on liability under the Note and Guaranty in favor of Blue Dolphin and against LEH and LLRII. The Court, however, deferred a ruling on the damages and attorney's fees to be awarded. Although the parties reached an agreement regarding the amount of attorneys' fees to be awarded, and the defendants do not dispute the calculation of damages sought by Blue Dolphin, the defendants continue to contest Blue Dolphin's entitlement to summary judgment. We filed a motion for entry of the partial summary judgment, and our motion for entry of the partial summary judgment was heard before the Court in March 2011. The Court entered the partial summary judgment in the amount of \$1.7 million in favor of Blue Dolphin and against LEH and LLRII on the Note and Guaranty. The only claim that remains pending is the counter-claim alleging breach of contract under the confidentiality agreement.

In May 2011, Blue Dolphin and LEH entered into a Rule 11 Agreement in the interests of resolving the claims and disputes that are part of the litigation described herein. The parties have extended the deadline under the Rule 11 Agreement multiple times in an ongoing effort to re-establish a business arrangement that is beneficial to all involved parties.

In July 2011, we entered into the PSA whereby we will acquire 100% of the membership interest of LE, the primary asset of which is the Nixon Refinery, and upon completion of the contemplated transaction all pending litigation between the parties will be dismissed.

Transaction Evaluation

With respect to the contemplated transaction, we met with our legal counsel to identify the appropriate regulatory and SEC filing requirements, and our independent registered public accounting firm to determine the proper accounting treatment. We also conducted due diligence to evaluate the Transaction Assets and LE. The due diligence process included, but was not limited to, interviewing personnel, reviewing contracts and agreements, performing equipment inventories, evaluating business models and obtaining independent, third party evaluations for the Transaction Assets.

Notification of Certain Events

Subject to applicable law and certain limitations, we have agreed to consult in good faith on a reasonable basis with LEH to report material (individually or in the aggregate) operational developments, the status of relationships with customers and resellers, the status of ongoing operations and other matters reasonably requested by LEH. In addition, Blue Dolphin and LEH will promptly notify the other party of: (i) any notice received indicating that consent from any entity or person is required for the consummation of the PSA, (ii) any notice received from any governmental authority in connection with the transaction contemplated, (iii) any litigation commenced or, to Blue Dolphin's or LEH's knowledge, threatened against Blue Dolphin or any of its subsidiaries or LEH or any of its subsidiaries that breaches or violates the representations and warranties regarding litigation in the PSA and (iv) any inaccuracy of a representation or warranty or breach of covenant or agreement in the PSA that could be reasonably expected to cause the conditions to the PSA not to be satisfied. Further, Blue Dolphin will promptly notify LEH of any notice or other communication from any party to a material contract that such party is terminating or otherwise materially adversely modifying its relationship with Blue Dolphin or any of its subsidiaries as a result of the PSA.

Table of Contents***Regulatory Approval and Permits***

Consummation of the transaction is not subject to the receipt of any approval and/or consent from any governmental and regulatory authority. LEH, LE and Blue Dolphin agree to keep in full force and effect, and to cooperate with each other to make application for assignment of, existing permits of LE (effective with the consummation of the transaction) or to cooperate with each other to make application for the issuance of new permits subsequent to the consummation of the transaction.

Accounting Treatment

For accounting and financial reporting purposes, the acquisition will be accounted for as a reverse acquisition as that term is used under U.S. generally accepted accounting principles, in which LE is deemed to be the accounting Acquirer and accounting predecessor and Blue Dolphin is deemed to be the accounting Acquiree. Under the acquisition method of accounting, the assets (including identifiable intangible assets) and liabilities (including executor contracts and other commitments) of Blue Dolphin as of the closing date of the acquisition will be recorded at their respective fair values and any excess of fair values over consideration issued the fair values is recorded as goodwill.

Net Operating Loss Carry-Forwards

For federal tax purposes, we had net operating loss carry-forwards (NOLs) of approximately \$21.3 million at December 31, 2010. These NOLs must be used prior to their expiration, which will occur between 2011 and 2030. Utilization of these NOLs will be subject to annual limitations as a result of the change of control that will occur in connection with the transaction. We have historically determined it is more likely than not that some portion or all of our NOLs will not be realized. A full valuation allowance against our deferred tax assets was recognized at September 30, 2011 and December 31, 2010 and 2009 due to our uncertainty as to the utilization of our deferred tax assets in the foreseeable future. We assigned no fair value in our preliminary allocation of fair value to net assets acquired as presented in the accompanying unaudited pro forma combined financial statements based on continued uncertainty as to the utilization of our deferred tax assets in the foreseeable future. Following the closing of the transaction, we will complete our fair value determination of Blue Dolphin s deferred tax assets. If, as a result of final fair valuations of net assets acquired, it is determined that it is more likely than not that some portion or all of our NOLs and other deferred tax assets will be realized in the foreseeable future, we will adjust our preliminary estimate of fair value of deferred tax assets.

Acquired Debt

Pursuant to the PSA, we have agreed to repay existing and new indebtedness of LE not to exceed approximately \$17.5 million, as follows: (i) new debt financing obtained by LEH for the benefit of LE in an amount at least equal to \$3.7 million, the proceeds of which are to primarily be used for completion and startup of the Nixon Refinery (the Debt Financing), (ii) an existing note previously held by Notre Dame Investors, Inc., which is currently held by John Kissick in the amount of approximately \$2.0 million (the Kissick Debt); and (iii) an existing U.S. Department of Agriculture loan payable to 1st International Bank or its assignee (the Payee) in the amount not to exceed approximately \$11.8 million, including outstanding penalties and interest (the USDA Loan);

Kissick Debt Under the PSA, the Kissick Debt shall be amended to provide for an interest rate of no more than six percent (6%) with monthly payments commencing upon the Nixon Refinery becoming operational. Payments will be calculated to provide for a one (1) year amortization from the date of the first payment (approximate amount of \$165,262), provided that such payments shall not exceed ten percent (10%) of the payments to be made with respect to the Debt Financing;

Debt Financing LEH s consideration under the PSA is to obtain a minimum of \$3.7 million in debt financing for use by LE for the completion and startup of the Nixon Refinery, which has occurred as of the date of this filing. The terms of the Debt Financing provide for the application of the gross profit of the Nixon

Table of Contents

Refinery, as follows: (i) first, to the repayment to the provider(s) of such financing of \$150,000 per month, (ii) second, to LE to pay the operating expenses of the Nixon Refinery and debt service, up to a maximum amount of \$750,000 per month and (iii) thereafter, in payments to the provider(s) of such financing which do not exceed eighty percent (80%) of the net cash flow of the Nixon Refinery prior to payout and twenty percent (20%) of the net cash flow of the Nixon Refinery after payout, with such payment obligations expiring after the third year of operation of the Nixon Refinery, and having such terms and conditions as shall be reasonably acceptable to Blue Dolphin; and

USDA Loan Under the PSA, we agreed to assume the USDA Loan. The USDA Loan is evidenced by a Promissory Note dated as of September 28, 2008 as amended, supplemented or modified from time to time, and further described in that certain Loan Agreement dated September 29, 2008 by and among LE and 1st International Bank, as well as Mr. Carroll, Gina Carroll and LEH (together the guarantors).

Principal Amount: The principal amount of the USDA Loan is \$10 million, together with interest per annum on the unpaid principal balance from day-to-day remaining.

Interest: Interest per annum is calculated on the basis of a 360-day year and computed from the date of advance until maturity at the rate equal to the lesser of (a) the maximum rate allowed by law or (b) prime rate (as printed in the Wall Street Journal or an equivalent publication) plus two and one quarter percent (Prime Rate + 2.25%). The interest rate is adjusted on the first day of each calendar quarter.

Payments: A principal and interest payment under the USDA Loan is due monthly through October 1, 2028 (the Maturity Date), when all unpaid principal and unpaid interest shall be due and payable in full. Monthly payments are increased or decreased based on the changes in the interest rate to ensure that the entire loan balance is paid in full on the final Maturity Date.

Other Considerations: As of the seventh anniversary of the USDA Loan, should the outstanding principal amount due be greater than \$7.85 million, LE shall make a one-time principal reduction in an amount sufficient to reduce the principal balance to \$7.85 million (the Required Principal Reduction). The Required Principal Reduction will be subject to a prepayment consideration as stipulated in the loan agreement.

Default: Upon the occurrence of a default, payee may, at its option, without notice or demand, declare the unpaid principal balance of, and the accrued but unpaid interest on the USDA Loan immediately due and payable and exercise and pursue any and all other rights and remedies as provided under the agreement.

In 2010, LE went into default under the USDA Loan as a result of failure to pay certain amounts due and payable and failure to perform certain covenants in the agreement. As a result, the Payee accelerated the USDA Loan and initiated foreclosure proceedings. In August 2011, the Payee agreed to forbear taking certain actions with respect to the USDA Loan for a period of one (1) year, subject to termination by the Payee in the event certain events occur (the Forbearance Agreement). An extension of one (1) additional year is permissible under the Forbearance Agreement so long as certain other conditions are met within the first one (1) year extension period.

As of the date of this filing, the principal balance, on an accelerated basis, was approximately \$9.7 million. Post-default interest, late charges, costs incurred by the Payee related to foreclosure, taxes paid by the Payee and annual renewal fees paid by the Payee to the U.S. Department of Agriculture in relation to the USDA Loan (collectively the Arrearage) was approximately \$1.4 million. The Arrearage, which requires a minimum monthly payment of approximately \$70,000, must be fully paid by the expiration date of the extended forbearance period. In addition, after the Arrearage is paid in full, LE shall pay to Payee twelve (12) consecutive monthly payments of approximately \$83,000 to replenish a \$1.0 million payment reserve as required under the USDA Loan (the Payment Reserve).

Debt Repayment

In August 2011, LE and a third-party entered into: (i) a Construction and Funding Contract (the Construction Agreement), whereby the third-party agreed to provide the Debt Financing, activate and make operable the

Table of Contents

Nixon Refinery and secure all of LE's obligations in exchange for a first-priority security interest in the collateral, (ii) a Joint Marketing Agreement (the "Marketing Agreement"), whereby LE and the third-party will market the refined and processed crude oil (the "Nixon Product") and (iii) a Crude Oil Supply and Throughput Services Agreement (the "Supply Agreement"), whereby the third-party will supply one hundred percent (100%) of the crude oil requirements of the Nixon Refinery up to a maximum of 15,000 barrels of oil per day and LE will store and process the crude oil at the Nixon Refinery. (The Construction Agreement, Marketing Agreement and Supply Agreement are collectively referred to herein as the "Nixon Agreements").

Profits from the sale of the Nixon Product under the agreements between LE and the third-party, as described herein, will provide the funds for repayment of the Kissick Debt and Debt Financing. Pursuant to the Forbearance Agreement, LE agreed that certain payments due to LE under the Nixon Agreements would be paid directly to the Payee as repayment of the Arrearage and for replenishment of the Payment Reserve. The third-party is currently leasing storage tanks at the Nixon Refinery and LE's revenue that is derived from the lease is being used to service the Arrearage until sale of the Nixon Product begins.

Unaudited Pro Forma Information

On July 12, 2011, Blue Dolphin entered into a PSA with the Lazarus Entities. Under terms of the PSA, Blue Dolphin agreed to acquire one hundred percent (100%) of the membership interest of LE in exchange for 8,393,560 shares of Blue Dolphin common stock (the "Acquisition"). The number of Blue Dolphin shares to be issued as consideration will represent eighty percent (80%) of the issued and outstanding common stock of Blue Dolphin at closing, which will constitute a change in control of Blue Dolphin. Closing of the transaction is subject to: (i) approval by Blue Dolphin's stockholders and (ii) completion of a minimum of \$3.7 million in funding by LEH for the benefit of LE for the final phase of refurbishment of the Nixon Refinery, which has occurred as of the date of this filing.

The Acquisition will be accounted for as a reverse acquisition in which LE is deemed to be the Acquirer and accounting predecessor and Blue Dolphin is deemed to be the Acquiree. Following the Acquisition, the combined company will continue to operate under the name Blue Dolphin Energy Company.

In connection with the Acquisition, Blue Dolphin will also release the \$2.0 million loan, net of credited and recovered amounts, made to LLRII, as borrower, and LEH, as guarantor, and the associated litigation. As of December 31, 2010 and September 30, 2011, the \$2.0 million note held by Blue Dolphin was fully reserved against an allowance for doubtful accounts in Blue Dolphin's consolidated balance sheets. Pursuant to the PSA, Blue Dolphin will repay certain existing and new indebtedness of LE not to exceed approximately \$17.5 million.

Following the Acquisition, LEH will be entitled to receive payments based on the gross profit of the Nixon Refinery with respect to the years 2011, 2012, 2013 and 2014. These payments will be made monthly based on cumulative results through the end of each month. The amount of such monthly payments shall be equal to forty percent (40%) of the excess, if any, of cumulative gross profit of the Nixon Refinery over a threshold which shall increase by \$2.5 million for each month that has elapsed since the beginning of that year.

NOTES TO UNAUDITED PRO FORMA

CONDENSED COMBINED FINANCIAL STATEMENTS

Note 1 Basis of Presentation

On July 12, 2011, Blue Dolphin entered into a PSA with the Lazarus Entities. Under terms of the PSA, Blue Dolphin agreed to acquire one hundred percent (100%) of the membership interest of LE in exchange for 8,393,560 shares of Blue Dolphin common stock (the Acquisition). The number of Blue Dolphin shares to be issued as consideration will represent eighty percent (80%) of the issued and outstanding common stock of Blue Dolphin at closing, which will constitute a change in control of Blue Dolphin. Closing of the transaction is subject to: (i) approval by Blue Dolphin's stockholders and (ii) completion of a minimum of \$3.7 million in funding by LEH for the benefit of LE for the final phase of refurbishment of the Nixon Refinery, which has occurred as of the date of this filing.

The Acquisition will be accounted for as a reverse acquisition, in which LE is deemed to be the Acquirer and accounting predecessor and Blue Dolphin is deemed to be the Acquiree. The legacy Blue Dolphin is referred to herein as Old Blue Dolphin. Following the Acquisition, the combined company will continue to operate under the name Blue Dolphin Energy Company.

The unaudited pro forma condensed combined financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and certain footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States (US GAAP) have been condensed or omitted pursuant to such rules and regulations; however, management believes that the disclosures are adequate to make the information presented not misleading.

The acquisition method of accounting under US GAAP requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values at the acquisition date. Fair value is defined under US GAAP as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Market participants are assumed to be buyers and sellers in the principal (or most advantageous) market for the asset or liability. Fair value measurements for an asset assume the highest and best use by these market participants. Fair value measurements can be highly subjective and it is possible that other professionals, applying reasonable judgment to the same facts and circumstances, could develop and support a range of alternative estimated amounts.

Note 2 Pro Forma Condensed Combined Financial Statements

The accompanying unaudited pro forma condensed combined financial statements present the pro forma consolidated financial position and operations of the combined company based upon the historical financial statements of Blue Dolphin and LE, after giving effect to the Acquisition and adjustments described in the following footnotes, and are intended to reflect the impact of the Acquisition on a pro forma basis. The accompanying unaudited pro forma condensed combined financial statements are presented for illustrative purposes only.

The accompanying unaudited Pro Forma Condensed Combined Balance Sheet at September 30, 2011 combines the historical consolidated balance sheets of Blue Dolphin and LE, giving effect to the Acquisition as if it had been consummated on September 30, 2011 and includes pro forma adjustments for preliminary valuations by management of certain tangible and intangible assets as of September 30, 2011. These adjustments are subject to further revision upon finalization of the fair value determinations, which will occur following the closing of the Acquisition.

The unaudited Pro Forma Condensed Combined Statement of Operations for the nine months ended September 30, 2011 and for the year ended December 31, 2010 combines the historical consolidated statements of operations of Blue Dolphin and LE, giving effect to the Acquisition as if it had occurred on January 1, 2011 and January 1, 2010, respectively.

Note 3 Acquisition

Assuming the Acquisition had occurred on September 30, 2011, Blue Dolphin would have acquired all of the membership interests of LE in exchange for 8,393,560 shares of common stock of Blue Dolphin at closing. Following the acquisition, the shares issued to the former owners of LE would constitute 80% of the Company's common stock resulting in a change of control, in which LE controls Blue Dolphin post-acquisition.

The Acquisition is accounted for as a reverse acquisition, in which LE is deemed to be the Acquirer and accounting predecessor and Blue Dolphin is deemed to be the Acquiree, under the acquisition method of accounting in accordance with Accounting Standard Codification (ASC) 805, *Business Combinations*, and uses the fair value concepts defined in ASC 820, *Fair Value Measurement and Disclosures*. Under the acquisition method of accounting, the total estimated purchase price is allocated to Old Blue Dolphin's tangible and intangible assets and liabilities based on their estimated fair values at the date of the completion of the Acquisition.

Immediately preceding the Acquisition, assuming it was completed on September 30, 2011, Blue Dolphin shareholder's held 2,098,390 shares of common stock. The purchase consideration to acquire Old Blue Dolphin was based on the fair value of the 2,098,390 shares of common stock (utilizing the closing price of \$2.35 on September 30, 2011), which was determined to be \$4,931,217.

The purchase price allocation is dependent upon certain valuations and other studies that have not progressed to a stage where there is sufficient information to make a definitive measure and allocation. Accordingly, the pro forma adjustments are preliminary and have been made solely for the purpose of providing unaudited pro forma consolidated financial statements. Material revisions to the ongoing company's current estimates could be necessary when the final purchase price is determined and the valuation process is completed after closing of the Acquisition.

The following table summarizes the preliminary allocation of the purchase price:

Current assets	\$ 3,443,421
Property and equipment	3,861,332
Other long term assets	9,463
Goodwill	610,206
Total assets acquired	7,924,422
Current liabilities	641,230
Long term liabilities	2,351,975
Total liabilities assumed	2,993,205
Net assets acquired	\$ 4,931,217

For purposes of this pro forma analysis, the purchase price has been allocated based on an estimate of the fair value of net assets acquired and consideration expected to be paid as of the assumed date of the acquisition. The estimated fair values were determined based on management's best estimates at the time of this filing. The preliminary purchase price allocation for the transaction is based on preliminary estimates of fair value as of the assumed acquisition date, which will not be the closing date of the Acquisition, and will be adjusted upon completion of the ongoing company's valuation of the related net assets acquired of the business and its review of the closing balance sheet as of the closing date of the Acquisition. Any deferred taxes or deferred tax liabilities will be recognized upon the completion of final valuations, if applicable. The final evaluation of net assets acquired is expected to be completed as soon as a final accounting is performed, but no later than one year from the acquisition date. Any changes in the preliminary value of the net assets acquired will be offset by a corresponding change in goodwill.

Note 4 Pro Forma Adjustments

Pro forma adjustments are necessary to reflect events that are: directly attributable to the Acquisition; factually supportable, and expected to have a continuing impact. The pro forma adjustments included in the unaudited pro forma condensed combined financial statements are as follows:

- (a) To reflect amounts related to Blue Dolphin's net tangible and intangible assets and liabilities at an amount equal to the preliminary estimate of their fair values. A value of \$610,206 was assigned to goodwill, representing the difference between the purchase price and the aggregate preliminary fair values assigned to the tangible assets acquired less liabilities assumed, assuming the Acquisition had occurred on September 30, 2011. There were no separately identifiable intangibles. As discussed in Note 3, preliminary estimates of fair value are subject to revision upon final valuation of property and equipment and review of final balances and tax returns, which will occur after closing of the Acquisition.
- (b) To eliminate LE's accounts payable to the parent company, LEH, which is forgiven and contributed to equity, in conjunction with and immediately prior to closing of the Acquisition.
- (c) To eliminate Blue Dolphin's historical stockholders' equity accounts and LE's historical members' equity accounts to reflect issued equity, based on the equity structure of Blue Dolphin, to be the sum of: (1) LE's issued equity immediately prior to the Acquisition and (2) the fair value of shares issued to stockholders of Blue Dolphin pursuant to the Acquisition.
- (d) To eliminate Blue Dolphin's historical accumulated deficit and to adjust accumulated deficit to equal LE's accumulated deficit as of September 30, 2011.
- (e) To reduce general and administrative expenses for transactions costs of \$21,302 incurred by Blue Dolphin in the nine months ended September 30, 2011 in connection with the Acquisition.
- (f) To reclassify LE's certain income statement balances as of December 31, 2010 to be consistent with LE's income statement presentation as of September 30, 2011.

Note 5 Income (Loss) per Share

Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents. In periods when losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive.

The combined entity's financial statements are prepared as if the transaction had been completed at the beginning of the period. The net income (loss) and shares used in computing the net income (loss) per share for the year ended December 31, 2010 and the nine months ended September 30, 2011 are based on weighted average common shares outstanding during the respective periods. The effect of the additional shares of common stock issued as part of the Acquisition has been included for purposes of presenting pro forma net income (loss) per share.

COMMITTEES AND MEETINGS OF THE BOARD

Board

During 2010, the Board consisted of Dr. Benz and Messrs. Siem, Goodpasture, Kaffie and Ostbye. Mr. Siem served as Chairman. During the fiscal year ended December 31, 2010, the Board held six (6) regular meetings and eight (8) special meetings. Each director attended at least 75% of the total number of meetings of the Board and committees on which he served. The Board has two standing committees, the Audit Committee and the Compensation Committee.

Audit Committee

During 2010, the Audit Committee consisted of Dr. Benz and Messrs. Kaffie and Ostbye with Dr. Benz serving as Chairman. During the fiscal year ended December 31, 2010, the Audit Committee met five (5) times. The Board has affirmatively determined that all members of the Audit Committee are independent and that Dr. Benz qualifies as an Audit Committee Financial Expert. The Audit Committee's duties include overseeing financial reporting and internal control functions and the Audit Committee's charter is available on our website (www.blue-dolphin.com).

Compensation Committee

During 2010, the Compensation Committee consisted of Messrs. Goodpasture and Kaffie. During the fiscal year ended December 31, 2010, the Compensation Committee met one (1) time. The Board has affirmatively determined that all members of the Compensation Committee are independent. The Compensation Committee does not have a charter, however, its duties are to oversee and set our compensation policies, to approve compensation of executive officers and to administer the Plan.

Nominating Committee

Given the size of the Board and that a majority of its members are independent, as defined under NASDAQ Listing Rules, the Board adopted a Board Nomination Procedures policy in July 2005 in lieu of appointing a standing nominating committee. Independent members of the Board use the policy when choosing nominees to stand for election to the Board.

The Board will consider for possible nomination qualified nominees recommended by stockholders. As addressed in the Board Nomination Procedures policy, the manner in which independent directors evaluate stockholder nominees for director is the same as that for nominees received from other sources. Stockholders who wish to propose a qualified candidate for consideration should submit complete information as to the identity and qualifications of that person to the Secretary of Blue Dolphin no later than February 22, 2012, for the 2012 Annual Meeting of Stockholders. The information should be sent to: Blue Dolphin Energy Company, Attention: Secretary, 801 Travis Street, Suite 2100, Houston, Texas 77002. See Director Nominations and Stockholder Proposals by Stockholders for an Annual Meeting of Stockholders in this proxy statement for more information.

The Board will continue to nominate qualified directors of whom it believes will make important contributions to the Board and Blue Dolphin. The Board generally requires that director nominees have sound ethical character, represent all stockholders fairly, demonstrate professional achievements, possess meaningful experience and appreciate the major business issues facing Blue Dolphin. The Board also considers issues of diversity and background in its selection process, recognizing that it is desirable for its members to have differences in viewpoints, professional experiences, educational backgrounds, skills, race, gender, age and national origin.

The membership of the Board immediately after closing of the transaction, subject to approval of the issuance of the BDEC Shares, will consist of six members: (i) three (3) of the existing members of the Board, which will

Table of Contents

consist of Messrs. Siem and Goodpasture, as well as Dr. Benz (Messrs. Kaffie and Ostbye will resign) and (ii) three (3) persons as agreed to by the parties. The parties have agreed to and the Board has recommended the appointments of Frank R. Kline, A. Haag Sherman and Bruce A. Smith, each first time appointees, to serve as directors upon consummation of the transaction. There is no arrangement pursuant to which Messrs. Kline, Sherman and Smith have agreed to serve on the Board.

Pursuant to the PSA, one (1) of the continuing members of the Board who was on the Board prior to closing of the transaction will be required to resign their position as director upon the earlier of either the next annual meeting of stockholders or, subject to the approval of the issuance of the BDEC Shares, the Nixon Refinery achieving a production rate of at least 10,000 barrels of oil per day. Dr. Benz has agreed to resign at that time.

Director Attendance at Annual Meeting

We seek to accommodate directors choosing to participate in person at the annual Board meeting. In an effort to manage expenses, the Board typically holds the annual Board meeting immediately following the annual stockholder s meeting. If a director is unable to attend the annual Board meeting in person, participation by telephone is permitted. In 2010, one (1) director attended the annual Board meeting in person and four (4) directors attended by telephone.

Table of Contents**AUDIT COMMITTEE REPORT**

The duties and responsibilities of the Audit Committee are set forth in a written charter adopted by the Board. The Audit Committee is comprised solely of independent directors who have the requisite financial experience and expertise and meet the requirements of NASDAQ Listing Rule 5605(c) and SEC Rule 10A-3. The Audit Committee reviews and reassesses its written charter annually and recommends any changes to the Board for approval. In addition, the Audit Committee periodically reviews relevant requirements of the Sarbanes-Oxley Act of 2002, proposed and adopted rules of the SEC and new listing standards of the NASDAQ regarding Audit Committee procedures and responsibilities to ensure compliance. The Audit Committee charter was last amended by the Board in August 2008 and is available on our website (www.blue-dolphin.com). Although the Audit Committee Charter was reviewed in 2010, no changes to the charter were made at that time.

The Audit Committee's primary duties and responsibilities are to:

assess the integrity of our financial reporting process and systems of internal control regarding accounting;

assess the independence and performance of our independent registered public accounting firm; and

provide an avenue of communication between our independent registered public accounting firm, management and the Board. Management is responsible for our internal controls and the financial reporting process. Our independent registered public accounting firm is responsible for performing an independent audit of our consolidated financial statements in accordance with standards of the Public Company Accounting Oversight Board (PCAOB) and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

The Audit Committee reviewed and discussed the audited our consolidated financial statements for the fiscal year ended December 31, 2010 with our management and management represented to the Audit Committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee discussed with UHY the matters required to be discussed pursuant to PCAOB guidance related to communication with Audit Committees.

The Audit Committee received written disclosures and the letter from UHY as required by the PCAOB guidance related to communications with Audit Committees concerning independence, and the Audit Committee discussed with UHY their independence. The Audit Committee considered the non-audit services provided by UHY and determined that the services provided are compatible with maintaining UHY's independence. The Audit Committee must pre-approve all audit and non-audit services provided to us by our independent registered public accounting firm.

Fees we paid to UHY in the fiscal years ended December 31, 2010 and 2009 were as follows:

	2010	2009
Audit fees	\$ 163,271	\$ 163,000
Audit-related fees		12,000
Tax fees	18,318	23,000
All other fees	10,323	
Total	\$ 191,912	\$ 198,000

Audit fees for 2010 and 2009 included fees related to the audit of our consolidated financial statements and review of our quarterly reports that are filed with the SEC. Audit-related fees for 2009 included other fees for consultation related to our transaction with LEH. Tax fees for 2010 and 2009 primarily include fees for preparation of federal and state income tax returns as well as tax planning services. The Audit Committee must pre-approve all audit and non-audit services provided to us by our independent registered public accounting firm.

Table of Contents

Based on discussions with management and UHY, review of the representation of management and review of the report of UHY to the Audit Committee, the Audit Committee recommended to the Board that our audited, consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed with the SEC.

CORPORATE GOVERNANCE

Leadership Structure

We are led by Mr. Siem, who has served as Chairman of the Board since 1989 and Chief Executive Officer since 2004. Having a single leader for Blue Dolphin is a common practice at public companies in the United States, particularly those with small market capitalizations. We believe our current leadership structure with the same person serving as both principal executive officer and Chairman of the Board is effective for the us as it; (i) demonstrates to our employees, customers and stockholders that we are under strong leadership, with a single person setting the tone and having primary responsibility for managing our operations and (ii) eliminates the potential for confusion or duplication of efforts.

Risk Oversight

Our Board does not have a lead independent director. Independent directors, individually and collectively, are actively involved in overseeing our risk management through presentations by management to the Board, as well as through telephonic and other electronic communications. Such interactions include consideration of the challenges and risks we face. Furthermore, the two standing Board committees provide appropriate risk oversight. The Audit Committee oversees the accounting and financial reporting processes, as well as compliance, internal control, legal and risk matters. The Compensation Committee oversees compensation policies, including the approval of compensation for our Chairman and Chief Executive Officer. We believe that the processes established to report and monitor systems for material risks applicable to us are appropriate and effective.

Director Independence

The Board has affirmatively determined that each of its members, as well as the director nominees (with the exception of Mr. Siem), are independent and have no material relationship with Blue Dolphin, either directly or indirectly or as a stockholder or officer of an organization that has a relationship Blue Dolphin. Furthermore, all members of the Audit and Compensation Committees are independent, pursuant to NASDAQ Listing and SEC rules.

Pursuant to the PSA, subject to approval of the issuance of the BDEC Shares, the parties have agreed to and the Board has recommended the appointments of Messrs. Kline, Sherman and Smith, each first time appointees, to serve as directors upon consummation of the transaction. There is no arrangement pursuant to which Messrs. Kline, Sherman and Smith have agreed to serve on the Board. The Board has affirmatively determined that each of the appointees are independent pursuant to NASDAQ Listing and SEC rules.

Code of Conduct

In July 2005, the Board adopted a Code of Conduct applicable to all directors, officers and employees, as required by the Sarbanes-Oxley Act of 2002. The Code of Conduct is publicly available on our website (www.blue-dolphin.com). The Code of Conduct requires all directors, officers and employees to act ethically at all times, and prohibits any employee from retaliating or taking any adverse action against anyone for raising or helping to resolve an integrity concern.

The Audit Committee established procedures to enable anyone who has a concern about Blue Dolphin's conduct or policies, or any employee who has a concern about our accounting, internal accounting controls or auditing matters, to communicate that concern directly to the Chairman of the Audit Committee. Violations and/or concerns may be sent anonymously by mail to Dr. Laurence N. Benz (Audit Committee Chairman, Blue Dolphin Energy Company), 13000 Equity Place, Suite 105, Louisville, Kentucky 40223, via email to larry@physicaltherapist.com or such other contact information for Dr. Benz that we may post on our website from time to time.

Table of Contents

Code of Ethics

In April 2003, the Board adopted a Code of Ethics policy that is applicable to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The Code of Ethics policy is posted on our website (www.blue-dolphin.com) and is available to any stockholder, without charge, upon written request to Blue Dolphin Energy Company, Attention: Secretary, 801 Travis Street, Suite 2100, Houston, Texas 77002. Any amendments or waivers to provisions of the Code of Ethics policy will be disclosed on our website.

Communicating with the Directors

At the present time, the Board does not have a formal process by which stockholders can communicate with the Board. The Board currently does not receive a large volume of correspondence from stockholders, so such a formal process would be inefficient. However, any stockholder who desires to contact the Board or specific members of the Board may do so by writing to: Blue Dolphin Energy Company, Attention: Secretary for the Board, 801 Travis Street, Suite 2100, Houston, Texas 77002. Currently, all communications addressed in such manner are sent directly to the indicated directors. In the future, if the Board adopts a formal process for determining how communications are to be relayed to directors, that process will be disclosed on our website.

Table of Contents**EXECUTIVE AND DIRECTOR COMPENSATION*****Executive Compensation Policy and Procedures***

Compensation for our executive officers consists of base salary, cash bonuses and incentive awards that have historically consisted of stock options. We do not offer a retirement plan that provides for the payment of retirement benefits. In the event that an employee retires after age 65, the non-vested portion of any stock options held by the retired employee expires immediately. The vested portion of any stock options held by the retired employee expires, to the extent not exercised, three months after retirement. The Compensation Committee has the authority to approve all forms of executive and director compensation based on its experience and informal consideration of compensation practices of oil and gas companies of similar size and business focus. The Compensation Committee has not used compensation consultants in the past in making its determinations. We believe that stock ownership by our executive officers and other employees furthers the alignment between the interests of the executive officers and other employees and the stockholders, thereby enhancing our efforts to improve stockholder returns and increase stockholder value.

The Plan provides that upon a change in control, the Compensation Committee may accelerate the vesting of options, cancel options and make payments in respect thereof in cash in accordance with the terms of the Plan, adjust the outstanding options as appropriate to reflect such change of control or provide that each option shall thereafter be exercisable for the number and class of securities or property that the optionee would have been entitled to receive had the option been exercised. The Plan provides that a change of control occurs if any person, entity or group acquires or gains ownership or control of more than fifty percent (50%) of the outstanding Common Stock or, if after certain enumerated transactions, the persons who were directors before such transactions cease to constitute a majority of the Board.

The proposed issuance of the BDEC Shares will result in a change in control under the Plan. Unless otherwise provided in the participant's incentive agreement, upon a change in control, any restrictions on restricted stock and other stock-based awards will be deemed satisfied, all outstanding ISOs, NSOs and SARs may become immediately exercisable and all the performance shares and units and any other stock-based awards may become fully vested and deemed earned in full.

The compensation of executive officers is reviewed on an annual basis, as well as when changes in responsibilities occur. The Compensation Committee may not delegate its authority to approve compensation determinations for executive officers. The Compensation Committee determines compensation for executive officers and other employees based on the recommendation of the principal executive officer. The Compensation Committee determines the compensation of the principal executive officer.

Our approach to compensation practices and policies applicable for non-executive employees throughout our organization is consistent with that followed for executive employees. Base pay is based on market median for each position, and bonuses and stock based incentives are based on individual and Blue Dolphin performance. 5.1 **SEC Matters**. The BDEC Shares are being or will be acquired by LEH for its own account and with no intention of distributing or reselling such securities or any part thereof in any transaction that would be in violation of the securities laws of the United States of America, or any state, without prejudice, however, to the rights of LEH to sell or otherwise dispose of all or any part of such securities under an effective registration statement under the Securities Act, or under an exemption from such registration available under the Securities Act. NOTES TO HISTORICAL LE FINANCIAL STATEMENTS

SEPTEMBER 30, 2011 (UNAUDITED)

DECEMBER 31, 2010 AND 2009 (AUDITED)

Note 1 Organization

Company Summary

Lazarus Energy, LLC (LE), a wholly owned subsidiary of Lazarus Energy Holdings, LLC (the Holding Company), owns an oil refinery located near Nixon, Texas. The refinery is in the final stages of refurbishment is currently undergoing operational testing. LE has completed refurbishment of approximately 130,000 barrels, or 44%, of crude oil storage capacity and 10,000 barrels, or 67%, of gasoline storage capacity. Once operational testing is complete, LE will produce petroleum products from crude oil such as liquefied petroleum gas, gasoline, diesel, jet fuel and intermediate products such as naphtha and atmospheric tower bottoms.

Development Stage Company

LE was formed on March 3, 2006. As of September 30, 2011, refinery operations had not yet commenced and LE has not generated significant operating revenue. LE is devoting substantially all of its efforts to refurbish and bring the refinery to operational status.

Note 2 Summary of Significant Accounting Policies

This summary of significant accounting policies has been prepared to assist in understanding LE s financial statements as of and at September 30, 2011 (unaudited) and as of and at December 31, 2010 and 2009 (audited). The policies are in conformity with U.S. generally accepted accounting principles (GAAP) and have been consistently applied in the preparation of these financial statements.

Going Concern

LE s financial statements have been prepared and presented on a basis assuming it will continue as a going concern. The factors below raise substantial doubt about LE s ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should LE be unable to continue as a going concern.

LE recognized a net gain of \$537,148 for the nine months ended September 30, 2011 and net losses of \$321,838 and \$679,911 for the twelve months ended December 31, 2010 and 2009, respectively. At September 30, 2011, LE had current assets of \$390,731 and current liabilities of \$4,129,504 resulting in a working capital deficit of \$3,738,773. These factors raise substantial doubt about LE s ability to continue as a going concern.

In August 2011, LE entered into an agreement with a third-party in which the third-party agreed to provide general contractor services to complete refurbishment of the refinery, provide working capital and supply crude oil in exchange for a portion of the net profits once the refinery is operational up to three (3) years.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents**EXHIBIT D****NOTES TO HISTORICAL LE FINANCIAL STATEMENTS****SEPTEMBER 30, 2011 (UNAUDITED)****DECEMBER 31, 2010 AND 2009 (AUDITED)****Concentration of Credit Risk**

LE, from time to time during the periods covered by these financial statements, may have bank balances in excess of its insured limits. Management has deemed this a normal business risk.

Restricted Cash

At September 30, 2011, LE had restricted cash balances totaling \$191,735. At December 31, 2010 and 2009, LE had restricted cash balances totaling \$225,801 and \$297,002, respectively. These amounts are restricted for loan repayments and potential environmental liabilities that may arise.

Inventory

Inventory is valued at lower of cost or market with cost being determined on a first-in, first out basis. No reserve was deemed necessary at September 30, 2011 or December 31, 2010 and 2009. General and administrative expenses are not inventoried but expensed as incurred. Inventory consisted of the following:

	September 30, 2011	December 31,	
		2010	2009
Fuel	\$ 19,041	\$ 19,041	\$ 19,041
Supplies	22,033	30,399	29,109
	\$ 41,074	49,440	\$ 48,150

Construction in Progress

Construction in progress consists of costs incurred by LE to purchase and refurbish the oil refinery. Amounts are being capitalized as incurred and depreciation will begin once the refinery is operational and placed into service. LE capitalizes interest cost on borrowings, property taxes, and professional fees incurred during the construction of the refinery. Capitalized interest, property taxes and professional fees are added to the cost of the underlying assets and will be amortized over the useful life of the refinery.

Property and Equipment

Management capitalizes additions to property and equipment. Expenditures for repairs and maintenance are charged to expense. Property and equipment are carried at cost. Adjustment of the asset and the related accumulated depreciation accounts are made for property and equipment retirements and disposals, with the resulting gain or loss included in the statements of operations and members' equity.

Intangible Assets

Financing costs are capitalized and amortized over the term of the related debt using the straight-line method. Capitalized financing costs totaled \$675,980 at September 30, 2011 and at December 31, 2010 and 2009. Related accumulated amortization totaled \$101,397 at September 30, 2011 and \$76,047 and \$42,249 at December 31, 2010 and 2009, respectively. When a loan is paid in full, any unamortized financing costs are

removed from the related accounts and charged to operations.

SEPTEMBER 30, 2011 (UNAUDITED)

DECEMBER 31, 2010 AND 2009 (AUDITED)

Revenue Recognition

During the years ended December 31, 2010 and 2009, LE leased the tanks through the Holding Company as they become operational to generate income. LE recorded this income, which was booked in accordance with the terms of the related lease agreement, as related party rental income. LE charged the Holding Company annually for the net amount of rental revenue for the related period. Beginning January 1, 2011, related party rental income was recorded as service revenue as LE no longer leased the tanks through the Holding Company. Upon startup of the refinery, revenue will be recognized in the month that the products are shipped out of the refinery based upon truck delivery tickets.

Depreciation

For financial reporting purposes, depreciation of property and equipment is computed using the straight-line method over the estimated useful lives of assets when the property and equipment are placed in service. For tax reporting purposes, depreciation of property and equipment is computed using the straight-line and accelerated methods over the estimated useful lives at acquisition.

Income Taxes

LE is organized as a limited liability company, which generally is not a taxpaying entity for federal income tax purposes. Therefore, no provision for federal income taxes has been recorded in the financial statements. Income or loss of LE is taxed to the members on their individual returns.

LE adopted Accounting Standards Codification guidance regarding accounting for uncertainty in income taxes. This guidance clarifies the accounting for income taxes by prescribing the minimum recognition threshold an income tax position is required to meet before being recognized in the financial statements and applies to all income tax positions. Each income tax position is assessed using a two-step process. A determination is first made as to whether it is more likely than not that the income tax position will be sustained, based upon technical merits, upon examination by the taxing authorities. If the income tax position is expected to meet the more likely than not criteria, the benefit recorded in the financial statements equals the largest amount that is greater than 50% likely to be realized upon its ultimate settlement. At September 30, 2011 and at December 31, 2010 and 2009, there were no uncertain tax positions that required accrual.

None of LE's federal or state income tax returns are currently under examination by the Internal Revenue Service (IRS) or state authorities. However, fiscal years 2008 and later remain subject to examination by the IRS and respective states.

Deferred Taxes

The State of Texas enacted House Bill 3, which replaced the previous state franchise tax with a margin tax. Legal entities that conduct business in Texas are subject to the Texas margin tax, including previously non-taxable entities such as limited partnerships and limited liability partnerships. The tax is assessed on Texas sourced taxable margin, which is defined as the lesser of: (i) 70% of total revenue or (ii) total revenue less (a) cost of goods sold or (b) compensation and benefits. Although the bill states that the margin tax is not an income tax, it has the characteristics of an income tax since it is determined by applying a tax rate to a base that considers both revenues and expenses.

The Holding Company has elected to record any and all tax liabilities or deferrals and charge each individual subsidiary for their portion of the tax as deemed appropriate. During the years ended December 31, 2010 and 2009, no amounts were charged to LE; therefore, no deferred or accrued taxes were recorded in the financial statements.

Note 9 Notes Payable and Construction Financing

Edgar Filing: BLUE DOLPHIN ENERGY CO - Form PRE 14A

In September 2008, LE obtained a U.S. Department of Agriculture loan payable to 1st International Bank or its assignee under a promissory note in the amount of \$10,000,000 (the "USDA Loan"). The note, which is currently in default, accrues interest at a rate of prime plus 2.25% (effective rate of 5.50% as of September 30, 2011) and has a maturity date of October 2028. The note is: (i) secured by a first lien on the refinery and certain of LE's general assets and (ii) subject to certain restrictive financial covenants related to debt to net worth and current ratio. In August 2011, LE entered into a forbearance agreement that provides for a minimum monthly payment of \$69,443. Interest was accrued on the note in the amount of \$760,000 at September 30, 2011 and \$400,000 and \$0 at December 31, 2010 and 2009, respectively.

LE obtained a loan in the amount of \$2,000,000 pursuant to a promissory note previously held by Notre Dame Investors, Inc. and currently held by John Kissick (the Kissick Debt). The note, which is currently in default, accrues interest at the default rate of 6% and is secured by a second lien on the refinery. The note requires a minimum monthly payment of \$165,262. Payments are not due until the refinery becomes operational. Interest was accrued on the note in the amount of \$597,786 at September 30, 2011 and \$442,214 and \$234,214 at December 31, 2010 and 2009, respectively.

In August 2011, a third-party committed funding in the amount of \$3,700,000 for completion of the refinery's refurbishment and start-up operations. Payments commence once the refinery is operational. Interest accrues at the rate of 6%. Interest was accrued on the financing in the amount of \$0 at September 30, 2011.

Note 10 Capital Leases

LE was obligated under various capital lease agreements for equipment totaling \$31,817 at September 30, 2011 and \$63,738 and \$103,189 at December 31, 2010 and 2009, respectively. The capital leases require minimum monthly payments ranging from \$164 to \$2,559 including interest at rates ranging from 8.50% to 13.39%. The capital leases mature at various dates through February 2014. The assets and liabilities under capital leases are recorded at the lower of the present value of the minimum lease payments or the fair value of the assets. The assets are depreciated over the lower of their related lease terms or their estimated productive lives.

A summary of equipment held under capital leases follows:

	September 30, 2011	December 31,	
		2010	2009
Cost	\$ 58,228	\$ 58,228	\$ 119,311
Less: Accumulated depreciation	(19,619)	(15,252)	(21,784)
Net book value	\$ 38,609	42,976	\$ 97,527

Depreciation on assets under capital leases charged to expense was \$3,662 for the nine months ended September 30, 2011 and \$5,823 and \$9,954 for the years ended December 31, 2010 and 2009, respectively. Interest expense included in the capital lease payments was \$2,900 for the nine months ended September 30, 2011 and \$7,624 and \$10,943 for the years ended December 31, 2010 and 2009, respectively.

Note 11 Contingent Liability

LE was awarded a state grant through the city of Nixon, Texas to install a water pipeline to the refinery. In exchange, LE agreed to hire a predetermined number of employees to work at the facility. The cost to install of the pipeline was approximately \$750,000. LE has hired a portion of the required number of employees and intends to hire the remainder once the facility is operational, which will release LE of paying any of the cost of installing the pipeline. LE recorded no liability at September 30, 2011 and December 31, 2010 and 2009 as management believes that it will meet all of LE's obligations as set forth under the terms of the grant.
