## Edgar Filing: EATON VANCE OHIO MUNICIPAL INCOME TRUST - Form N-Q

Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

FGIC - Financial Guaranty Insurance Company

NPFG - National Public Finance Guaranty Corp.

The Trust invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at February 29, 2012, 39.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.4% to 17.9% of total investments.

- (1) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration. At February 29, 2012, the aggregate value of these securities is \$638,357 or 1.5% of the Trust's net assets applicable to common shares.

(2) Security is subject to a shortfall agreement which may require the Trust to pay amounts to a counterparty in the event of a significant decline in the market value of the security held by the trust that issued the residual interest bond. In case of a shortfall, the maximum potential amount of payments the Trust could ultimately be required to make under the agreement is \$1,455,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security held by the trust that issued the residual interest bond.

(3) Security has been issued as a leveraged residual interest bond with a variable interest rate. The stated interest rate represents the rate in effect at February 29, 2012.

A summary of open financial instruments at February 29, 2012 is as follows:

**Futures Contracts**

| Expiration Month/<br>Year | Contracts                     | Position | Aggregate Cost | Value        | Net Unrealized Depreciation |
|---------------------------|-------------------------------|----------|----------------|--------------|-----------------------------|
| 6/12                      | 3 U.S. 10-Year Treasury Note  | Short    | \$ (391,025)   | \$ (392,859) | \$ (1,834)                  |
| 6/12                      | 15 U.S. 30-Year Treasury Bond | Short    | (2,112,279)    | (2,124,844)  | (12,565)                    |
|                           |                               |          |                |              | <b>\$ (14,399)</b>          |

At February 29, 2012, the Trust had sufficient cash and/or securities to cover commitments under these contracts.

The Trust is subject to interest rate risk in the normal course of pursuing its investment objective. Because the Trust holds fixed-rate bonds, the value of these bonds may decrease if interest rates rise. The Trust purchases and sells U.S. Treasury futures contracts to hedge against changes in interest rates.

At February 29, 2012, the aggregate fair value of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in a liability position and whose primary underlying risk exposure is interest rate risk was \$14,399.

The cost and unrealized appreciation (depreciation) of investments of the Trust at February 29, 2012, as determined on a federal income tax basis, were as follows:

|                                    |                      |
|------------------------------------|----------------------|
| <b>Aggregate cost</b>              | <b>\$ 57,680,030</b> |
| Gross unrealized appreciation      | \$ 5,976,222         |
| Gross unrealized depreciation      | (306,213)            |
| <b>Net unrealized appreciation</b> | <b>\$ 5,670,009</b>  |

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

## Edgar Filing: EATON VANCE OHIO MUNICIPAL INCOME TRUST - Form N-Q

Level 3 – significant unobservable inputs (including a fund’s own assumptions in determining the fair value of investments)  
In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Edgar Filing: EATON VANCE OHIO MUNICIPAL INCOME TRUST - Form N-Q

At February 29, 2012, the hierarchy of inputs used in valuing the Trust's investments and open derivative instruments, which are carried at value, were as follows:

| <b>Asset Description</b>     | <b>Level 1</b>     | <b>Level 2</b>       | <b>Level 3</b> | <b>Total</b>         |
|------------------------------|--------------------|----------------------|----------------|----------------------|
| Tax-Exempt Investments       | \$                 | \$ 63,350,039        | \$             | \$ 63,350,039        |
| <b>Total Investments</b>     | <b>\$</b>          | <b>\$ 63,350,039</b> | <b>\$</b>      | <b>\$ 63,350,039</b> |
| <br>                         |                    |                      |                |                      |
| <b>Liability Description</b> |                    |                      |                |                      |
| Futures Contracts            | \$ (14,399)        | \$                   | \$             | \$ (14,399)          |
| <b>Total</b>                 | <b>\$ (14,399)</b> | <b>\$</b>            | <b>\$</b>      | <b>\$ (14,399)</b>   |

The Trust held no investments or other financial instruments as of November 30, 2011 whose fair value was determined using Level 3 inputs. At February 29, 2012, the value of investments transferred between Level 1 and Level 2, if any, during the fiscal year to date then ended was not significant.

For information on the Trust's policy regarding the valuation of investments and other significant accounting policies, please refer to the Trust's most recent financial statements included in its semiannual or annual report to shareholders.

**Item 2. Controls and Procedures**

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant on this

Form N-Q has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant on this Form N-Q has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant's internal control over financial reporting.

**Signatures**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
