AMAZON.COM, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1 Accounting Policies

Unaudited Interim Financial Information

We have prepared the accompanying consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim financial reporting. These consolidated financial statements are unaudited and, in our opinion, include all adjustments, consisting of normal recurring adjustments and accruals necessary for a fair presentation of our consolidated balance sheets, operating results, and cash flows for the periods presented. Operating results for the periods presented are not necessarily indicative of the results that may be expected for 2012 due to seasonal and other factors. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been omitted in accordance with the rules and regulations of the SEC. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes in Item 8 of Part II, "Financial Statements and Supplementary Data," of our 2011 Annual Report on Form 10-K.

Principles of Consolidation

The consolidated financial statements include the accounts of Amazon.com, Inc., its wholly-owned subsidiaries, and those entities in which we have a variable interest and are the primary beneficiary (collectively, the "Company"). Intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent liabilities in the consolidated financial statements and accompanying notes. Estimates are used for, but not limited to, determining the selling price of products and services in multiple element revenue arrangements and determining the lives of these elements, incentive discount offers, sales returns, vendor funding, stock-based compensation, income taxes, valuation of investments and inventory, collectability of receivables, valuation of acquired intangibles and goodwill, depreciable lives of fixed assets and internally-developed software and contingencies. Actual results could differ materially from those estimates.

Equity-method investments

Equity investments, including our 29% investment in LivingSocial, are accounted for using the equity-method of accounting if the investment gives us the ability to exercise significant influence, but not control, over an investee. The total of our investments in equity-method investees, including identifiable intangible assets, deferred tax liabilities and goodwill, is included within "Other assets" on our consolidated balance sheets. Our share of the earnings or losses as reported by equity-method investees, amortization of the related intangible assets, and related gains or losses, if any, are classified as "Equity-method investment activity, net of tax" on our consolidated statements of operations. Our share of the net income or loss of our equity-method investees includes operating and non-operating gains and charges, which can have a significant impact on our reported equity-method investment activity and the carrying value of those investments. We regularly evaluate these investments, which are not carried at fair value, for other-than-temporary impairment.

We record purchases, including incremental purchases, of shares in equity-method investees at cost. Reductions in our ownership percentage of an investee, including through dilution, are generally valued at fair value, with the difference between fair value and our recorded cost reflected as a gain or loss in our equity-method investment activity. In the event we no longer have the ability to exercise significant influence over an equity-method investee, we would discontinue accounting for the investment under the equity method.

Recent Accounting Pronouncements

In 2011, the Financial Accounting Standards Board ("FASB") issued two Accounting Standard Updates ("ASU"), which amend guidance for the presentation of comprehensive income. The amended guidance requires an entity to present components of net income and other comprehensive

Edgar Filing: AMAZON COM INC - Form 10-Q

income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. The option to report other comprehensive income and its components in the statement of stockholders' equity has been eliminated. Although the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under existing guidance. We adopted these ASUs using two consecutive statements in Q1 2012 for all periods presented.

Table of Contents**Note 2 Cash, Cash Equivalents, and Marketable Securities**

As of September 30, 2012, and December 31, 2011, our cash, cash equivalents, and marketable securities primarily consisted of cash, U.S. and foreign government and agency securities, AAA-rated money market funds, and other investment grade securities. Our marketable fixed-income securities have effective maturities of less than 5 years. Cash equivalents and marketable securities are recorded at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. To increase the comparability of fair value measures, the following hierarchy prioritizes the inputs to valuation methodologies used to measure fair value:

Level 1 Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 Valuations based on unobservable inputs reflecting our own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

We measure the fair value of money market funds and equity securities based on quoted prices in active markets for identical assets or liabilities. All other financial instruments were valued either based on recent trades of securities in inactive markets or based on quoted market prices of similar instruments and other significant inputs derived from or corroborated by observable market data. We did not hold any cash, cash equivalents, or marketable securities categorized as Level 3 as of September 30, 2012, or December 31, 2011.

The following table summarizes, by major security type, our cash, cash equivalents, and marketable securities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy (in millions):

	September 30, 2012			December 31, 2011	
	Cost or Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Total Estimated Fair Value	Total Estimated Fair Value
Cash	\$ 1,757			\$ 1,757	\$ 1,207
Level 1 securities:					
Money market funds	1,304			1,304	3,651
Equity securities	1			1	1
Level 2 securities:					
Foreign government and agency securities	672	10		682	1,640
U.S. government and agency securities	922	3	(1)	924	2,593
Corporate debt securities	647	7		654	563
Asset-backed securities	54			54	55
Other fixed income securities	23			23	22
	\$ 5,380	\$ 20	\$ (1)	5,399	9,732
Less: Restricted cash, cash equivalents, and marketable securities (1)				(151)	(156)
Total cash, cash equivalents, and marketable securities				\$ 5,248	\$ 9,576

- (1) We are required to pledge or otherwise restrict a portion of our cash, cash equivalents, and marketable securities as collateral for standby and trade letters of credit, guarantees, debt and real estate lease agreements. We classify cash and marketable securities with use restrictions of less than twelve months as Accounts receivable, net and other and of twelve months or longer as non-current Other assets on

Edgar Filing: AMAZON COM INC - Form 10-Q

our consolidated balance sheets. See Note 3 Commitments and Contingencies.

Table of Contents**Note 3 Commitments and Contingencies****Commitments**

We have entered into non-cancellable operating, capital and financing leases for equipment and office, fulfillment center, and data center facilities. Rental expense under operating lease agreements was \$139 million and \$96 million for Q3 2012 and Q3 2011, and \$376 million and \$255 million for the nine months ended September 30, 2012 and 2011.

The following summarizes our principal contractual commitments, excluding open orders for purchases that support normal operations, as of September 30, 2012 (in millions):

	Three Months Ended December 31, 2012	Year Ended December 31,					Total
		2013	2014	2015	2016	Thereafter	
Operating and capital commitments:							
Debt principal and interest	\$ 44	\$ 483	\$ 56	\$ 67	\$	\$	\$ 650
Capital leases, including interest	136	492	332	149	47	108	1,264
Financing lease obligations, including interest	9	39	42	42	43	460	635
Operating leases	137	577	573	506	450	2,499	4,742
Unconditional purchase obligations	91	243	179	130	28		671
Other commitments (1) (2)	125	227	195	84	58	670	1,359
Total commitments	\$ 542	\$ 2,061	\$ 1,377	\$ 978	\$ 626	\$ 3,737	\$ 9,321

- (1) Includes the estimated timing and amounts of payments for rent, operating expenses, and tenant improvements associated with build-to-suit leases that have not been placed in service.
- (2) Excludes \$253 million of tax contingencies for which we cannot make a reasonably reliable estimate of the amount and period of payment, if any.

Pledged Securities

As of September 30, 2012, and December 31, 2011, we have pledged or otherwise restricted \$151 million and \$156 million of our cash and marketable securities as collateral for standby and trade letters of credit, guarantees, debt related to our international operations, as well as real estate leases.

Legal Proceedings

The Company is involved from time to time in claims, proceedings and litigation, including the matters described in Item 8 of Part II, Financial Statements and Supplementary Data Note 7 Commitments and Contingencies Legal Proceedings and Other Contingencies of our 2011 Annual Report on Form 10-K and in Item 1, Financial Statements Note 3 Commitments and Contingencies Legal Proceedings and Other Contingencies of our Quarterly Reports on Forms 10-Q for the Periods Ended March 31, 2012, and June 30, 2012, as supplemented by the following:

In October 2009, Eolas Technologies Incorporated filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleges, among other things, that our website technology infringes two patents owned by Eolas purporting to cover Distributed Hypermedia Method for Automatically Invoking External Application Providing Interaction and Display of Embedded Objects within a Hypermedia Document (U.S. Patent No. 5,838,906) and Distributed Hypermedia Method and System for Automatically Invoking External Application Providing Interaction and Display of Embedded Objects within a Hypermedia Document (U.S. Patent No. 7,599,985) and seeks injunctive relief, monetary damages, costs and attorneys' fees. In February 2012, the Court held a jury trial to

Edgar Filing: AMAZON COM INC - Form 10-Q

determine the validity of the asserted patent claims, and the jury found all asserted claims invalid. In August 2012, the plaintiff filed a notice of appeal. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In May 2010, Site Update Solutions LLC filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleged, among other things, that our website technology infringed a patent owned by Site Update purporting to cover a Process for Maintaining Ongoing Registration for Pages on a Given Search Engine (U.S. Patent No. RE40,683) and sought monetary damages, a future royalty, costs and attorneys' fees. In August 2012, the plaintiff dismissed the complaint against us with prejudice.

Table of Contents

In September 2010, Olympic Developments AG, LLC filed a complaint against us for patent infringement in the United States District Court for the Central District of California. The complaint alleges, among other things, that certain aspects of our technology, including our Kindle e-reader, infringe two patents owned by the plaintiff purporting to cover a Transactional Processing System (U.S. Patent No. 5,475,585) and a Device for Controlling Remote Interactive Receiver (U.S. Patent No. 6,246,400B1) and seeks monetary damages, injunctive relief, costs and attorneys' fees. In September 2011, the Court entered an order staying the lawsuit pending the outcome of the Patent and Trademark Office's re-examination of the patents in suit. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In December 2010, Global Sessions LP filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleged, among other things, that certain Amazon and AWS technologies infringed four patents owned by the plaintiff purporting to cover a System And Method For Maintaining A State For A User Session Using A Web System Having A Global Session Server (U.S. Patent No. 6,076,108), an Enterprise Interaction Hub For Managing An Enterprise Web System (U.S. Patent Nos. 6,085,220 and 6,360,249), and a System And Method For Maintaining A State For A User Session Using A Web System (U.S. Patent No. 6,480,894), and sought monetary damages, a future royalty, injunctive relief, costs and attorneys' fees. In October 2012, we entered into a settlement of the litigation that included, among other things, a payment to the plaintiff. The settlement was not material to either the current or future years.

In September 2011, Droplets, Inc. filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleges, among other things, that by offering web applications and software Amazon infringes two patents owned by the plaintiff purporting to cover a System and Method for Delivering a Graphical User Interface of Remote Applications Over a Thin Bandwidth Connection (U.S. Patent No. 6,687,745) and a System and Method for Delivering Remotely Stored Applications and Information (U.S. Patent No. 7,502,838), and seeks monetary damages, injunctive relief, costs, and attorneys' fees. In June 2012, the case was transferred to the United States District Court for the Northern District of California. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In September 2011, Semiconductor Ideas to the Market BV filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleged, among other things, that by offering products including our Kindle e-reader that employ receiver technology designed to diminish signal leakage Amazon infringed two patents owned by the plaintiff purporting to cover a Receiver Comprising A Digitally Controlled Capacitor Bank (U.S. Patent No. 7,299,018) and a Communication Device (U.S. Patent No. 7,072,614), and sought monetary damages, injunctive relief, costs, and attorneys' fees. In July 2012, the plaintiff released all claims and dismissed the complaint against us with prejudice.

In September 2011, LVL Patent Group, LLC filed three complaints against us for patent infringement in the United States District Court for the District of Delaware. The complaints allege, among other things, that certain aspects of our technology, including our mobile applications, infringe four patents owned by the plaintiff purporting to cover a Telephone/Transaction Entry Device and System for Entering Transaction Data into Databases (U.S. Patent Nos. 5,805,676; 5,987,103; and 8,019,060) and a Data Transaction Assembly Server (U.S. Patent No. 6,044,382), and seek monetary damages, injunctive relief, costs, and attorneys' fees. In August 2012, the court entered judgment declaring the '060 patent to be invalid; the case is proceeding with respect to the '676, '103, and '382 patents. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In September 2011, Lochner Technologies, LLC, filed a complaint against us for patent infringement in the United States District Court for the Eastern District of Texas. The complaint alleged, among other things, that by offering products used for desktop virtualization or cloud computing solutions that provide virtual desktop environments Amazon infringed a patent owned by the plaintiff purporting to cover a Modular Computer System (U.S. Patent No. 7,035,598), and sought monetary damages, injunctive relief, costs, and attorneys' fees. In September 2012, the case was transferred to the United States District Court for the Central District of California, Southern Division. In October 2012, the plaintiff dismissed the complaint against us with prejudice.

In March 2012, Data Carriers, LLC filed a complaint against us in the United States District Court for the District of Delaware that alleged, among other things, that certain aspects of the software used in Kindle and on www.amazon.com, www.imdb.com, www.zappos.com, www.wireless.amazon.com, and www.audible.com infringed U.S. Patent No. 5,388,198, entitled Proactive Presentation of Automating Features to a Computer User. The complaint sought an unspecified amount of damages, attorneys' fees, and interest. In August 2012, we entered into a settlement of the litigation that included, among other things, a payment to the plaintiff. The settlement was not material to either the current or future years.

In March 2012, OIP Technologies, Inc. filed a complaint against us for patent infringement in the United States District Court for the Northern District of California. The complaint alleged, among other things, that certain aspects of our pricing methods infringed U.S. Patent No. 7,970,713, entitled Method and Apparatus for Automatic Pricing in Electronic Commerce. The complaint sought three times an unspecified amount of damages, attorneys' fees, and interest. In September 2012, the Court invalidated the plaintiff's patent and dismissed the case with prejudice. The plaintiff is expected to appeal.

Table of Contents

In May 2012, Clouding IP, LLC f/k/a/ STEC IP, LLC filed a complaint against Amazon.com, Inc. and Amazon Web Services, LLC in the United States District Court for the District of Delaware. The complaint alleges, among other things, that our Elastic Compute Cloud, WhisperSync, Virtual Private Cloud, Cloud Drive, and Kindle Store services infringe one or more of 11 patents: U.S. Patent Nos. 7,596,784, entitled Method System and Apparatus for Providing Pay-Per-Use Distributed Computing Resources ; 7,065,637, entitled System for Configuration of Dynamic Computing Environments Using a Visual Interface ; 6,738,799, entitled Methods and Apparatuses for File Synchronization and Updating Using a Signature List ; 5,944,839, entitled System and Method for Automatically Maintaining A Computer System ; 5,825,891, entitled Key Management for Network Communication ; 5,495,607, entitled Network Management System Having Virtual Catalog Overview of Files Distributively Stored Across Network Domain ; 6,925,481, entitled Technique for Enabling Remote Data Access And Manipulation From A Pervasive Device ; 7,254,621, entitled Technique for Enabling Remote Data Access And Manipulation From A Pervasive Device ; 6,631,449, entitled Dynamic Distributed Data System and Method ; 6,918,014, entitled Dynamic Distributed Data System and Method ; and 6,963,908, entitled System for Transferring Customized Hardware and Software Settings from One Computer to Another Computer to Provide Personalized Operating Environments. The complaint seeks an unspecified amount of damages together with interest. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In August 2012, an Australian quasi-government entity named Commonwealth Scientific and Industrial Research Organization filed a complaint against us in the United States District Court for the Eastern District of Texas. The complaint alleges, among other things, that the sale of products which are operable according to the Institute of Electrical and Electronics Engineers (IEEE) 802.11a, g, n, and/or draft n standards infringe U.S. Patent No. 5,487,069, entitled Wireless LAN. The complaint seeks an unspecified amount of damages, enhanced damages, attorneys fees, and injunctive relief. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

In September 2012, B.E. Technology, LLC filed a complaint against Amazon Digital Services, Inc. in the United States District Court for the Western District of Tennessee. The complaint alleges, among other things, that Kindle, Kindle Touch, Kindle 3G, Kindle Keyboard 3G, Kindle DX, and Kindle Fire infringe U.S. Patent No. 6,771,290, entitled Computer Interface Method And Apparatus With Portable Network Organization System And Targeted Advertising. The complaint seeks an unspecified amount of damages, interest, and injunctive relief. We dispute the allegations of wrongdoing and intend to vigorously defend ourselves in this matter.

We cannot predict the impact (if any) that any of the matters described above or in our 2011 Annual Report on Form 10-K or Forms 10-Q for the Periods Ended March 31, 2012, and June 30, 2012, may have on our business, results of operations, financial position, or cash flows. Because of the inherent uncertainties of such matters, including the early stage and lack of specific damage claims in many of them, we cannot estimate the range of possible losses from them (except as otherwise indicated).

Other Contingencies

In November 2011, the State of Arizona issued assessments on behalf of the State and certain cities in the amount of approximately \$53 million, including tax and interest, for uncollected tax for the periods March 1, 2006 through December 31, 2010. The State of Arizona alleged that we should have collected a transaction tax that is similar to a sales tax on applicable transactions during those years. While we continue to believe the assessments were without merit, in September 2012, we entered into a settlement with the State of Arizona that included an agreement that Amazon and its wholly owned retailers collect and remit Arizona sales taxes beginning February 1, 2013, for sales of any physical goods, and July 1, 2013, for sales of digital products or services, as well as resolution of Arizona sales taxes up to those dates and an immaterial payment to the State of Arizona.

See also Note 7 Income Taxes.

Table of Contents**Note 4 Acquisitions, Goodwill, and Acquired Intangible Assets**

In May 2012, we acquired Kiva Systems, Inc. for a purchase price of \$678 million. In the nine months ended September 30, 2011, we acquired certain other companies for an aggregate purchase price of \$738 million. The primary reasons for our 2012 and 2011 acquisitions were to improve fulfillment center productivity and to expand our customer base and sales channels. Acquisition-related costs were expensed as incurred and were not significant. The aggregate purchase price of these acquisitions was allocated as follows (in millions):

	Nine Months Ended September 30,	
	2012	2011
Purchase Price		
Cash paid, net of cash acquired	\$ 613	\$ 617
Existing equity interest		89
Stock options assumed	65	20
Indemnification holdbacks		12
	\$ 678	\$ 738
Allocation		
Goodwill	\$ 560	\$ 593
Intangible assets (1):		
Marketing-related	5	120
Contract-based	3	6
Technology-based	168	
Customer-related	17	71
	193	197
Fixed assets	9	116
Deferred tax assets	34	48
Other assets acquired	41	64
Deferred tax liabilities	(81)	(66)
Debt		(70)
Other liabilities assumed (2)	(78)	(144)
	\$ 678	\$ 738

(1) Acquired intangible assets have estimated useful lives of between 2 and 10 years.

(2) In 2011, other liabilities assumed included a \$38 million contingent liability related to historic tax exposures.

The fair value of assumed stock options was estimated using the Black-Scholes model. We determined the estimated fair value of identifiable intangible assets acquired primarily by using the income and cost approaches. These assets are included within Other assets on our consolidated balance sheets and are being amortized to operating expenses on a straight-line or accelerated basis over their estimated useful lives.

Additionally, the aggregate purchase price of the acquisitions made during the nine months ended September 30, 2011, included the estimated fair value of our previous, noncontrolling interest in one of the acquired companies in addition to cash consideration and the fair value of vested stock options. We remeasured this equity interest to fair value at the acquisition date and recognized a non-cash gain of \$6 million in equity-method investment activity, net of tax, in our Q1 2011 consolidated statement of operations.

Table of Contents**Pro Forma Financial Information**

The acquired companies were consolidated into our financial statements starting on their respective acquisition dates. The net sales and operating loss of the company acquired in 2012 recorded in our consolidated statement of operations from the acquisition date through September 30, 2012, were \$17 million and \$(50) million. The following pro forma financial information presents our results as if the current year acquisition had occurred at the beginning of 2011 (in millions):

	Nine Months Ended September 30,	
	2012	2011
Net sales	\$ 39,850	\$ 30,692
Net income	(83)	337

Goodwill

The goodwill of the acquired companies is generally not deductible for tax purposes and is primarily related to expected improvements in fulfillment center productivity and sales growth from future product offerings and customers, together with certain intangible assets that do not qualify for separate recognition. The following summarizes our goodwill activity in 2012 and 2011 by segment (in millions):

	North America	International	Consolidated
Goodwill - January 1, 2011	\$ 1,116	\$ 233	\$ 1,349
New acquisitions	417	176	593
Other adjustments (1)	(2)	(6)	(8)
Goodwill - September 30, 2011	\$ 1,531	\$ 403	\$ 1,934
Goodwill - January 1, 2012	\$ 1,533	\$ 422	\$ 1,955
New acquisitions (2)	384	189	573
Other adjustments (1)		12	12
Goodwill - September 30, 2012	\$ 1,917	\$ 623	\$ 2,540

(1) Primarily includes changes in foreign exchange.

(2) Primarily includes the goodwill of Kiva Systems, Inc.

Note 5 Equity-Method Investments

Our equity-method investments include a 29% interest in LivingSocial. Summarized condensed financial information for this investee, as provided to us by LivingSocial, is as follows (in millions):

	Nine Months Ended September 30,	
	2012	2011
Statement of Operations:		
Revenue	\$ 372	\$ 167
Operating expense	629	507
Impairment charge	496	

Edgar Filing: AMAZON COM INC - Form 10-Q

Operating loss	(753)	(340)
Net loss (1)	\$ (503)	\$ (375)

- (1) The difference between the operating loss and net loss for the nine months ended September 30, 2012, is primarily due to the recognition of non-operating, non-cash gains on previously held equity positions in companies that LivingSocial acquired during Q1 2012.

Table of Contents

Based on certain triggering events identified by LivingSocial during Q3 2012, including financial performance, industry conditions, and economic factors in certain geographies, LivingSocial tested its goodwill and certain long-lived assets for impairment on an interim basis, instead of its annual October 1 testing date. Although its goodwill impairment test is not complete as of the date of this filing, LivingSocial believes an impairment loss is probable and has provided to us its best estimate. Completion of this impairment test by LivingSocial may result in an adjustment to this estimate.

As of September 30, 2012, the book value of our LivingSocial investment was \$94 million.

Note 6 Stockholders Equity**Stock Repurchase Activity**

In January 2010, our Board of Directors authorized the Company to repurchase up to \$2 billion of our common stock with no fixed expiration. We repurchased 1.5 million shares of common stock for \$277 million in 2011 and 5.3 million shares of our common stock for \$960 million in Q1 2012 under this program.

Stock Award Activity

We granted restricted stock units representing 1.4 million and 1.0 million shares of common stock with a per share weighted average fair value of \$228.51 and \$218.08 during Q3 2012 and Q3 2011. For the nine months ended September 30, 2012 and 2011, we granted restricted stock units representing 6.6 million and 4.5 million shares of common stock with a per share weighted average fair value of \$200.24 and \$191.87.

Common shares outstanding plus shares underlying outstanding stock awards totaled 469 million at September 30, 2012, and 468 million at December 31, 2011. These totals include all vested and unvested stock-based awards outstanding, including those awards we estimate will be forfeited. The following table summarizes our restricted stock unit activity for the nine months ended September 30, 2012 (in millions):

	Number of Units
Outstanding at December 31, 2011	13.1
Units granted	6.6
Units vested	(2.9)
Units forfeited	(1.2)
Outstanding at September 30, 2012	15.6

Scheduled vesting for outstanding restricted stock units at September 30, 2012, is as follows (in millions):

	Three Months Ended December 31, 2012	Year Ended December 31,						Total
		2013	2014	2015	2016	Thereafter		
Scheduled vesting restricted stock units	1.3	4.8	5.0	2.7	1.2	0.6	15.6	

As of September 30, 2012, there was \$1.3 billion of net unrecognized compensation cost related to unvested stock-based compensation arrangements. This compensation is recognized on an accelerated basis, with approximately half of the compensation expected to be expensed in the next twelve months, and has a weighted average recognition period of 1.2 years.

Note 7 Income Taxes

Edgar Filing: AMAZON COM INC - Form 10-Q

Our tax provision for interim periods is determined using an estimate of our annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter we update our estimate of the annual effective tax rate, and if our estimated tax rate changes, we make a cumulative adjustment.

Our quarterly tax provision, and our quarterly estimate of our annual effective tax rate, is subject to significant volatility due to several factors, including variability in accurately predicting our pre-tax and taxable income and loss and the mix of jurisdictions to which they relate, changes in how we do business, acquisitions (including integrations), audit developments, and investments, foreign currency gains (losses), changes in law and relative changes of expenses or losses for which tax benefits are not recognized. Additionally, our effective tax rate can be more or less volatile based on the amount of pre-tax income. For example, the impact of discrete items and non-deductible expenses on our effective tax rate is greater when our pre-tax income is lower.

Table of Contents

In 2012, our effective tax rate will reflect the favorable impact of earnings in lower tax rate jurisdictions that primarily relate to our European operations, which are headquartered in Luxembourg, offset by the adverse effect of losses incurred in other foreign jurisdictions for which we may not realize a tax benefit and have therefore recorded a valuation allowance against the related deferred tax asset. Such losses reduce our pre-tax income without a corresponding reduction in our tax expense, and therefore increase our effective tax rate. Our effective tax rate may also be adversely impacted by the amount of our pre-tax income relative to our income tax expense, acquisitions (including integrations), audit developments, nondeductible expenses, and changes in tax law such as the expiration of the U.S. federal research and development credit at the end of 2011. Taking these items into account, we estimate our annual effective tax rate to be higher than both the 35% U.S. federal statutory rate and our 2011 effective tax rate.

As compared to our current estimate of annual 2012 pre-tax income, we generated a disproportionate amount of losses during Q3 2012 in jurisdictions for which no tax benefit is recognized. In addition, the year to date tax provision as of September 30, 2012 includes income tax expense of \$31 million primarily related to the discrete tax impact of acquisition integrations and developments in foreign tax audits. Accordingly, our Q3 2012 year to date effective tax rate is higher than both our current estimated 2012 annual effective rate and our 2011 effective tax rate.

Cash paid for income taxes (net of refunds) was \$21 million and \$12 million in Q3 2012 and Q3 2011, and \$60 million and \$18 million for the nine months ended September 30, 2012 and 2011.

As of September 30, 2012, and December 31, 2011, gross unrecognized tax benefits (tax contingencies) were \$253 million and \$229 million. Due to the nature of our business operations, we expect the total amount of our tax contingencies for prior period tax positions will grow in 2012 in comparable amounts to 2011; however, changes in state and federal tax laws or tax assessments may impact our tax contingencies. It is reasonably possible that within the next 12 months, we will receive additional assessments and enter into additional settlement agreements with various tax authorities. These assessments and settlements may or may not result in changes to our tax contingencies.

We are under examination by the IRS for calendar years 2005 and 2006 and may be subject to examination by the IRS for all years thereafter. Certain of our subsidiaries are under examination or investigation or may be subject to examination or investigation by the French Tax Administration (FTA) for calendar year 2006 or thereafter. These examinations may lead to ordinary course adjustments or proposed adjustments to our taxes. While we have not yet received a final assessment from the FTA, in September 2012, we received proposed tax assessment notices for calendar years 2006 through 2010 relating to the allocation of income between foreign jurisdictions. The notices propose additional French tax expense of approximately \$252 million, including interest and penalties through the date of the assessment. We disagree with the proposed assessment and intend to vigorously contest it. We plan to pursue all available administrative remedies at the FTA, and if we are not able to resolve this matter with the FTA, we plan to pursue judicial remedies. In March 2012, the U.S. and Japanese tax authorities reached an agreement on the allocation of our income between the U.S. and Japan for calendar years 2006 through 2012. The amount of tax expense, net of related foreign tax credits, recorded for this agreement was not significant. We are also subject to taxation in various states and other foreign jurisdictions including China, Germany, Luxembourg, and the United Kingdom. We are or may be subject to examination by these particular tax authorities for the calendar year 2003 and thereafter.

Note 8 Segment Information

We have organized our operations into two principal segments: North America and International. We present our segment information along the same lines that our chief executive reviews our operating results in assessing performance and allocating resources.

We allocate to segment results the operating expenses Fulfillment, Marketing, Technology and content, and General and administrative, but exclude from our allocations the portions of these expense lines attributable to stock-based compensation. We do not allocate the line item Other operating expense (income), net to our segment operating results. A majority of our costs for Technology and content are incurred in the United States and most of these costs are allocated to our North America segment. There are no internal revenue transactions between our reporting segments.

Table of Contents

Information on reportable segments and reconciliation to consolidated net income (loss) was as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
North America				
Net sales	\$ 7,884	\$ 5,932	\$ 22,638	\$ 16,804
Segment operating expenses (1)	7,593	5,788	21,655	16,156
Segment operating income	\$ 291	\$ 144	\$ 983	\$ 648
International				
Net sales	\$ 5,922	\$ 4,944	\$ 17,187	\$ 13,842

	\$ 13,806	\$ 10,876	\$ 39,825	\$ 30,646

Edgar Filing: AMAZON COM INC - Form 10-Q

- (1) Includes sales from non-retail activities, such as Amazon Web Services (AWS) in the North America segment, advertising services, our co-branded credit card agreements, and other seller sites in both segments.

Note 9 Subsequent Event

In October 2012, we entered into purchase and sale agreements to acquire 11 buildings comprising 1.8 million square feet of our currently leased corporate office space in Seattle, Washington, for approximately \$1.16 billion. Subject to satisfaction of customary closing conditions, we expect to close the purchase in Q4 2012, and made a non-refundable deposit of \$51 million, which will be forfeited if we do not close the transaction in Q4 2012.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Forward-Looking Statements**

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including statements regarding guidance, industry prospects or future results of operations or financial position, made in this Quarterly Report on Form 10-Q are forward-looking. We use words such as anticipates, believes, expects, future, intends, and similar expressions to identify forward-looking statements. Forward-looking statements reflect management's current expectations and are inherently uncertain. Actual results could differ materially for a variety of reasons, including, among others, fluctuations in foreign exchange rates, changes in global economic conditions and consumer spending, world events, the rate of growth of the Internet and online commerce, the amount that Amazon.com invests in new business opportunities and the timing of those investments, the mix of products sold to customers, the mix of net sales derived from products as compared with services, the extent to which we owe income taxes, competition, management of growth, potential fluctuations in operating results, international growth and expansion, the outcomes of legal proceedings and claims, fulfillment center optimization, risks of inventory management, seasonality, the degree to which the Company enters into, maintains, and develops commercial agreements, acquisitions, and strategic transactions, payments risks, and risks of fulfillment throughput and productivity. In addition, the current global economic climate amplifies many of these risks. These risks and uncertainties, as well as other risks and uncertainties that could cause our actual results to differ significantly from management's expectations, are described in greater detail in Item 1A of Part II, Risk Factors.

For additional information, see Item 7 of Part II, Management's Discussion and Analysis of Financial Condition and Results of Operations Overview of our 2011 Annual Report on Form 10-K.

Critical Accounting Judgments

The preparation of financial statements in conformity with GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, we have identified the critical accounting policies and judgments addressed below. We also have other key accounting policies, which involve the use of estimates, judgments, and assumptions that are significant to understanding our results. For additional information, see Item 8 of Part II, Financial Statements and Supplementary Data Note 1 Description of Business and Accounting Policies, of our 2011 Annual Report on Form 10-K and Item 1 of Part I, Financial Statements Note 1 Accounting Policies, of this Form 10-Q. Although we believe that our estimates, assumptions, and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments, or conditions.

Inventories

Inventories, consisting of products available for sale, are primarily accounted for using the first-in first-out (FIFO) method, and are valued at the lower of cost or market value. This valuation requires us to make judgments, based on currently-available information, about the likely method of disposition, such as through sales to individual customers, returns to product vendors, or liquidations, and expected recoverable values of each disposition category.

These assumptions about future disposition of inventory are inherently uncertain. As a measure of sensitivity, for every 1% of additional inventory valuation allowance at September 30, 2012, we would have recorded an additional cost of sales of approximately \$52 million.

Goodwill

We evaluate goodwill for impairment annually or more frequently when an event occurs or circumstances change that indicate that the carrying value may not be recoverable. Our annual testing date is October 1. We test goodwill for impairment by first comparing the book value of net assets to the fair value of the reporting units. If the fair value is determined to be less than the book value or qualitative factors indicate that it is more likely than not that goodwill is impaired, a second step is performed to compute the amount of impairment as the difference between the estimated fair value of goodwill and the carrying value. We estimate the fair value of the reporting units using discounted cash flows. Forecasts of future cash flow are based on our best estimate of future net sales and operating expenses, based primarily on expected category expansion, pricing, market segment share, and general economic conditions. Certain estimates of discounted cash flows involve businesses and geographies with limited financial history and developing revenue models. Changes in these forecasts could significantly change the amount of impairment recorded, if any.

Table of Contents

During the quarter, management monitored the actual performance of the business relative to the fair value assumptions used during our annual goodwill impairment test. For the periods presented, no triggering events were identified that required an update to our annual impairment test. As a measure of sensitivity, a 10% decrease in the fair value of any of our reporting units as of December 31, 2011, would have had no impact on the carrying value of our goodwill.

Financial and credit market volatility directly impacts our fair value measurement through our weighted average cost of capital that we use to determine our discount rate and through our stock price that we use to determine our market capitalization. During times of volatility, significant judgment must be applied to determine whether credit or stock price changes are a short-term swing or a longer-term trend. As a measure of sensitivity, a prolonged 20% decrease from our September 30, 2012, closing stock price would not be an indicator of possible impairment.

Stock-Based Compensation

We measure compensation cost for stock awards at fair value and recognize it as compensation expense over the service period for awards expected to vest. The fair value of restricted stock units is determined based on the number of shares granted and the quoted price of our common stock. The estimation of stock awards that will ultimately vest requires judgment for the amount that will be forfeited, and to the extent actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. We consider many factors when estimating expected forfeitures, including employee class, economic environment, and historical experience. We update our estimated forfeiture rate quarterly. A 1% change to our estimated forfeiture rate would have had an approximately \$21 million impact on our Q3 2012 operating income. Our estimated forfeiture rates at September 30, 2012, and December 31, 2011, were 27% and 28%.

We utilize the accelerated method, rather than the straight-line method, for recognizing compensation expense. For example, over 50% of the compensation cost related to an award vesting ratably over four years is expensed in the first year. If forfeited early in the life of an award, the compensation expense adjustment is much greater under an accelerated method than under a straight-line method.

Income Taxes

We are subject to income taxes in both the U.S. and numerous foreign jurisdictions. Significant judgment is required in evaluating and estimating our tax positions and determining our provision and accruals for these taxes. During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. For example, our effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates and higher than anticipated in countries where we have higher statutory rates, by losses incurred in jurisdictions for which we are not able to realize the related tax benefit, by changes in foreign currency exchange rates, by entry into new businesses and geographies and changes to our existing businesses, by acquisitions (including integrations), by changes in the valuation of our deferred tax assets and liabilities, or by changes in the relevant tax, accounting and other laws, regulations, principles and interpretations. We are subject to audit in various jurisdictions, and such jurisdictions may assess additional income tax against us. Although we believe our tax estimates are reasonable, the final determination of tax audits and any related litigation could be materially different from our historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on our operating results or cash flows in the period or periods for which that determination is made, as well as prior and subsequent periods.

If we determine that additional portions of our deferred tax assets are realizable, the majority of the benefit will come from the assets associated with the stock-based compensation that was not recognized in the financial statements, but was claimed on the tax return. Since this compensation was not recognized in our consolidated statements of operations as expense, the benefit generated will be recorded to stockholders equity.

Recent Accounting Pronouncements

See Item 1 of Part I, Financial Statements Note 1 Accounting Policies Recent Accounting Pronouncements.

Table of Contents**Liquidity and Capital Resources**

Cash flow information is as follows (in millions):

	Three Months		Nine Months		Twelve Months	
	Ended September 30, 2012	Ended September 30, 2011	Ended September 30, 2012	Ended September 30, 2011	Ended September 30, 2012	Ended September 30, 2011
Operating activities	\$ 943	\$ 797	\$ (901)	\$ (366)	\$ 3,368	\$ 3,114
Investing activities	(369)	100	(513)	(461)	(1,982)	(1,676)
Financing activities	31	(82)	(907)	(149)	(1,240)	(183)

Our financial focus is on long-term, sustainable growth in free cash flow¹. Free cash flow, a non-GAAP financial measure, was \$1.1 billion for the trailing twelve months ended September 30, 2012, compared to \$1.5 billion for the trailing twelve months ended September 30, 2011, a decrease of 31%. See Non-GAAP Financial Measures below for a reconciliation of free cash flow to cash provided by operating activities. The decrease in free cash flow for the trailing twelve months ended September 30, 2012, compared to the comparable prior year period was primarily due to increased capital expenditures, a decline in net income, and changes in working capital², partially offset by increases in noncash expenses, increases in deferred revenue, and increases in sales of gift certificates to customers. Tax benefits relating to excess stock-based compensation deductions are presented in the statement of cash flows as financing cash inflows; accordingly, as such tax benefits decline, a greater amount of cash is classified as operating cash inflow. Operating cash flows and free cash flows can be volatile and are sensitive to many factors, including changes in working capital, the timing and magnitude of capital expenditures, and our federal taxable income. Working capital at any specific point in time is subject to many variables, including seasonality, inventory management and category expansion, the timing of cash receipts and payments, vendor payment terms, and fluctuations in foreign exchange rates.

Our principal sources of liquidity are cash flows generated from operations and our cash, cash equivalents, and marketable securities balances, which, at fair value, were \$5.2 billion and \$9.6 billion at September 30, 2012, and December 31, 2011. Amounts held in foreign currencies were \$3.2 billion and \$4.1 billion at September 30, 2012, and December 31, 2011, and were primarily Euros, British Pounds, Japanese Yen, and Chinese Yuan.

Cash provided by (used in) operating activities was \$943 million and \$797 million for Q3 2012 and Q3 2011, and \$(901) million and \$(366) million for the nine months ended September 30, 2012 and 2011. Our operating cash flows result primarily from cash received from our consumer, seller, and enterprise customers, miscellaneous marketing and promotional agreements, and our co-branded credit card agreements, offset by cash payments we make for products and services, employee compensation (less amounts capitalized related to internal use software that are reflected as cash used in investing activities), payment processing and related transaction costs, operating leases, and interest payments on our long-term obligations. Cash received from our consumer, seller, and enterprise customers, and other activities generally corresponds to our net sales. Because consumers primarily use credit cards to buy from us, our receivables from consumers settle quickly. Changes to our operating cash flows have historically been driven primarily by changes in operating income and changes to the components of working capital, including changes to receivable and payable days and inventory turns, as well as changes to non-cash items such as excess stock-based compensation and deferred taxes.

- (1) Free cash flow, a non-GAAP financial measure, is defined as net cash provided by operating activities less purchases of fixed assets, including internal-use software and website development, both of which are presented on our consolidated statements of cash flows. See Non-GAAP Financial Measures below.
- (2) Working capital consists of accounts receivable, inventory, and accounts payable.

Table of Contents

Cash provided by (used in) investing activities corresponds with capital expenditures, including leasehold improvements, internal-use software and website development costs, cash outlays for acquisitions, investments in other companies and intellectual property rights, and purchases, sales, and maturities of marketable securities. Cash provided by (used in) investing activities was \$(369) million and \$100 million for Q3 2012 and Q3 2011, and \$(513) million and \$(461) million for the nine months ended September 30, 2012 and 2011, with the variability caused primarily by purchases, maturities, and sales of marketable securities and other investments, increased capital expenditures, and increases in cash paid for acquisitions. Capital expenditures were \$716 million and \$529 million during Q3 2012 and Q3 2011, and \$1.8 billion and \$1.3 billion for the nine months ended September 30, 2012 and 2011, with the increases primarily reflecting additional investments in support of continued business growth due to investments in technology infrastructure, including AWS, and additional capacity to support our fulfillment operations. We expect this trend to continue over time. Capital expenditures included \$109 million and \$71 million for internal-use software and website development during Q3 2012 and Q3 2011, and \$276 million and \$186 million for the nine months ended September 30, 2012 and 2011. Stock-based compensation capitalized for internal-use software and website development costs does not affect cash flows. We made cash payments, net of acquired cash, related to acquisition and other investment activity of \$37 million and \$48 million during Q3 2012 and Q3 2011, and \$711 million and \$656 million during the nine months ended September 30, 2012 and 2011.

Cash provided by (used in) financing activities was \$31 million and \$(82) million for Q3 2012 and Q3 2011, and \$(907) million and \$(149) million for the nine months ended September 30, 2012 and 2011. Cash outflows from financing activities result from common stock repurchases, payments on obligations related to capital leases and leases accounted for as financing arrangements and repayments of long-term debt. Payments on obligations related to capital leases and leases accounted for as financing arrangements and repayments of long-term debt were \$144 million and \$91 million in Q3 2012 and Q3 2011, and \$437 million and \$341 million for the nine months ended September 30, 2012 and 2011. In Q1 2012, we repurchased \$960 million of our common stock under the \$2 billion repurchase program authorized by our Board of Directors. Cash inflows from financing activities primarily result from proceeds from long-term debt and tax benefits relating to excess stock-based compensation deductions. Proceeds from long-term debt and other were \$109 million and \$9 million in Q3 2012 and Q3 2011, and \$300 million and \$131 million for the nine months ended September 30, 2012 and 2011. Tax benefits relating to excess stock-based compensation deductions are presented as financing cash flows. Cash inflows (outflows) from tax benefits related to stock-based compensation deductions were \$66 million and \$0 for Q3 2012 and Q3 2011, and \$190 million and \$61 million for the nine months ended September 30, 2012 and 2011.

We recorded net tax provisions of \$83 million and \$67 million in Q3 2012 and Q3 2011, and \$234 million and \$205 million for the nine months ended September 30, 2012 and 2011. A majority of this provision is non-cash. We have current tax benefits and net operating losses relating to excess stock-based compensation deductions that are being utilized to reduce our U.S. taxable income. Except as required under U.S. tax law, we do not provide for U.S. taxes on our undistributed earnings of foreign subsidiaries that have not been previously taxed since we intend to invest such undistributed earnings indefinitely outside of the U.S. Cash taxes paid (net of refunds) were \$21 million and \$12 million for Q3 2012 and Q3 2011, and \$60 million and \$18 million for the nine months ended September 30, 2012 and 2011. As of December 31, 2011, our federal net operating loss carryforward was approximately \$384 million and we had approximately \$273 million of federal tax credits potentially available to offset future tax liabilities. Once we utilize federal net operating losses and tax credits, we expect cash paid for taxes to significantly increase. We endeavor to optimize our global taxes on a cash basis, rather than on a financial reporting basis.

In January 2010, our Board of Directors authorized a program to repurchase up to \$2 billion of our common stock. We repurchased 1.5 million shares of common stock for \$277 million in 2011 and 5.3 million shares of common stock for \$960 million in Q1 2012.

In October 2012, we entered into purchase and sale agreements to acquire certain of our currently leased corporate office space for approximately \$1.16 billion and expect to close the purchase in Q4 2012. See Item 1 of Part I, Financial Statements Note 9 Subsequent Event for additional discussion. Additionally, as part of a plan to develop additional corporate office space, we have signed a purchase and sale agreement to acquire three city blocks in Seattle, Washington. Subject to the satisfactory conclusion of our due diligence process, status of land use entitlements, and customary closing conditions, we expect to close the purchase in Q4 2012. We are currently assessing whether we will use cash on hand or other financing options for these transactions. See Item 1 of Part I, Financial Statements Note 3 Commitments and Contingencies for additional discussion of our principal contractual commitments, as well as our pledged securities. Purchase obligations and open purchase orders, consisting of inventory and significant non-inventory commitments, were \$5.1 billion at September 30, 2012. Purchase obligations and open purchase orders are generally cancelable in full or in part through the contractual provisions.

Table of Contents

Because of our model we are able to turn our inventory quickly and have a cash-generating operating cycle³. On average, our high inventory velocity means we collect from our customers before our payments to suppliers come due. Inventory turnover⁴ was 10 and 11 for Q3 2012 and Q3 2011. We expect variability in inventory turnover over time as it is affected by several factors, including category expansion and changes in our product mix, the mix of sales by us and by other sellers, our continuing focus on in-stock inventory availability, our investment in new geographies and product lines, and the extent to which we choose to utilize outsource fulfillment providers.

We believe that cash flows generated from operations and our cash, cash equivalents, and marketable securities balances will be sufficient to meet our anticipated operating cash needs for at least the next 12 months. However, any projections of future cash needs and cash flows are subject to substantial uncertainty. See Item 1A of Part II, Risk Factors. We continually evaluate opportunities to sell additional equity or debt securities, obtain credit facilities, repurchase common stock, pay dividends, or repurchase, refinance, or otherwise restructure our debt for strategic reasons or to further strengthen our financial position. The sale of additional equity or convertible debt securities would likely be dilutive to our shareholders. In addition, we will, from time to time, consider the acquisition of, or investment in, complementary businesses, products, services, and technologies, which might affect our liquidity requirements or cause us to issue additional equity or debt securities. There can be no assurance that additional lines-of-credit or financing instruments will be available in amounts or on terms acceptable to us, if at all.

- (3) The operating cycle is number of days of sales in inventory plus number of days of sales in accounts receivable minus accounts payable days.
- (4) Inventory turnover is the quotient of trailing twelve month cost of sales to average inventory over five quarter ends.

Table of Contents**Results of Operations**

We have organized our operations into two principal segments: North America and International. We present our segment information along the same lines that our chief executive reviews our operating results in assessing performance and allocating resources.

Net Sales

Net sales include product and services sales. Product sales represent revenue from the sale of products and related shipping fees and digital content where we are the seller of record. Services sales represent third-party seller fees earned (including commissions) and related shipping fees, digital content subscriptions, and non-retail activities. Net sales information is as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Net Sales:				
North America	\$ 7,884	\$ 5,932	\$ 22,638	\$ 16,804
International	5,922	4,944	17,187	13,842
Consolidated	\$ 13,806	\$ 10,876	\$ 39,825	\$ 30,646
Year-over-year Percentage Growth:				
North America	33%	44%	35%	46%
International	20	44	24	42
Consolidated	27	44	30	44
Year-over-year Percentage Growth, excluding effect of exchange rates:				
North America	33%	44%	35%	46%
International	27	33	29	32
Consolidated	30	39	32	40
Net Sales Mix:				
North America	57%	55%	57%	55%
International	43	45	43	45
Consolidated	100%	100%	100%	100%

Sales increased 27% in Q3 2012 and 30% for the nine months ended September 30, 2012, compared to the comparable prior year periods. Changes in currency exchange rates impacted net sales by \$(348) million for Q3 2012 and \$371 million for Q3 2011, and by \$(676) million and \$992 million for the nine months ended September 30, 2012 and 2011. For a discussion of the effect on sales growth of exchange rates, see [Effect of Exchange Rates](#) below.

North America sales grew 33% in Q3 2012 and 35% for the nine months ended September 30, 2012, compared to the comparable prior year periods. The sales growth primarily reflects increased unit sales, partially offset by a higher percentage of sales by marketplace sellers. Increased unit sales were driven largely by our continued efforts to reduce prices for our customers, including from our shipping offers, by sales in faster growing categories such as electronics and other general merchandise, by increased in-stock inventory availability, and by increased selection of product offerings.

International sales grew 20% in Q3 2012 and 24% for the nine months ended September 30, 2012, compared to the comparable prior year periods. The sales growth primarily reflects increased unit sales, partially offset by a higher percentage of sales by marketplace sellers. Increased unit sales were driven largely by our continued efforts to reduce prices for our customers, including from our shipping offers, by sales in faster growing categories such as electronics and other general merchandise, by increased in-stock inventory availability, and by increased selection of product offerings. Additionally, changes in currency exchange rates impacted International net sales by \$(347) million for Q3 2012 and by \$367 million for Q3 2011, and \$(670) million and \$981 million for the nine months ended September 30, 2012 and 2011. We expect that, over time, our International segment will represent 50% or more of our consolidated net sales.

Table of Contents*Supplemental Information*

Supplemental information about shipping results is as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Shipping Activity:				
Shipping revenue (1)(2)(3)	\$ 517	\$ 360	\$ 1,448	\$ 1,020
Outbound shipping costs	(1,153)	(918)	(3,336)	(2,523)
Net shipping cost	\$ (636)	\$ (558)	\$ (1,888)	\$ (1,503)
Year-over-year Percentage Growth:				
Shipping revenue	44%	33%	42%	35%
Outbound shipping costs	26	59	32	60
Net shipping cost	14	83	26	82
Percent of Net Sales:				
Shipping revenue	3.7%	3.3%	3.7%	3.3%
Outbound shipping costs	(8.3)	(8.4)	(8.4)	(8.2)
Net shipping cost	(4.6)%	(5.1)%	(4.7)%	(4.9)%

- (1) Excludes amounts earned on shipping activities by third-party sellers where we do not provide the fulfillment service.
- (2) Includes a portion of amounts earned from Amazon Prime memberships.
- (3) Shipping revenue for the three months and nine months ended September 30, 2012, includes amounts earned from Fulfillment by Amazon programs related to shipping services.

We expect our net cost of shipping to continue to increase to the extent our customers accept and use our shipping offers at an increasing rate, our product mix shifts to the electronics and other general merchandise category, we reduce shipping rates, we use more expensive shipping methods, and we offer additional services. We seek to mitigate costs of shipping over time in part through achieving higher sales volumes, negotiating better terms with our suppliers, and achieving better operating efficiencies. We believe that offering low prices to our customers is fundamental to our future success, and one way we offer lower prices is through shipping offers.
