Item 2.05. Costs Associated With Exit or Disposal Activities.

On October 24, 2012, the Company committed to an expansion of Project Renewal, a program originally announced in October 2011 designed to reduce the complexity of the organization and increase investment in the most significant growth platforms within the business, funded by a reduction in structural SG&A costs. Under the expansion of Project Renewal, the Company will simplify and align around two key activity systems – Brand & Category Development and Market Execution & Delivery. As part of the expanded program, the Company’s Consumer and Professional groups will be eliminated and the Company’s nine global business units will be streamlined into six reporting business segments. The Company will begin reporting under the new structure in the fourth quarter of 2012.

The expansion of Project Renewal is expected to generate annualized incremental cost savings of approximately \$180 million to \$225 million when fully implemented by the end of the second quarter of 2015. The majority of these savings will be re-invested in the business to strengthen brand building and selling capabilities in priority markets around the world. In connection with the expansion, the Company expects to incur incremental cash costs of \$225 million to \$250 million, approximately 80% of which are employee-related cash costs, including severance, retirement, and other termination benefits and costs. The Company also expects to record pretax restructuring charges in the range of \$250 million to \$275 million over the same period. The Company estimates that the expansion of Project Renewal will result in slightly over a 10% reduction in the global workforce over the next two and a half years.

Cumulative costs of the expanded Project Renewal are now expected to be \$340 million to \$375 million pretax, with cash costs of \$300 million to \$340 million. Project Renewal in total is expected to generate annualized costs savings of approximately \$270 million to \$325 million by the end of the second quarter of 2015, with savings of \$90 million to \$100 million expected by the first half of 2013.
