Karla M. Rabusch	
President	
Wells Fargo Advantage Funds	
During the period, global fixed-income markets fluctuated between periods of risk aversion and confidence that drove be	orresponding recoveries in investor ound prices higher and yields lower.
Dear Valued Shareholder:	
We are pleased to offer you this annual report for the Wells Fargo Advantage Multi-Sector Income Fund for	r the 12-month period that ended

We are pleased to offer you this annual report for the *Wells Fargo Advantage Multi-Sector Income Fund* for the 12-month period that ended October 31, 2012. Upon reviewing the report, you may notice that your Fund has included a summary portfolio schedule in lieu of a complete portfolio schedule, which we hope will help you focus on your Fund s principal holdings and assist you in evaluating your Fund s risk profile and investment strategy. For those investors who wish to see it, the Fund s full portfolio is still available upon request or via **wellsfargoadvantagefunds.com** or the web link found on the summary portfolio schedule.

During the period, global fixed-income markets fluctuated between periods of risk aversion and corresponding recoveries in investor confidence that drove bond prices higher and yields lower. On the whole, global bond markets generated positive returns during the period, benefiting from strong rallies over the final three months of the period in the corporate bond and securitized sectors. The lower-rated credit tiers and longest-maturity segments of the fixed-income markets outperformed the higher-quality and shorter-maturity segments during the period, overcoming spates of risk aversion that temporarily damaged security valuations in the spring months of 2012.

Global credit markets were roiled by the European debt crisis.

The 12-month period began on the heels of an escalating credit crisis in Europe that crescended in August 2011 and echoed into September 2011. October 2011 saw a modest recovery with the formal announcement of a European debt deal late in the month. These leading events set the tone for the 12-month period that began in November 2011. The prospect of a default in Greek bonds resurfaced in November 2011, stirring waves of global risk aversion that led to resurgent rallies in U.S. Treasuries with declines in the prices of riskier sovereign bonds in Europe and a sharp decline in high-yield bond prices across the globe.

Fortunately, risk aversion abated in December 2011 with a strong recovery in bond pricing that seemed to bolster investor confidence and fortified a trend of declining spreads that carried into the first two months of 2012. Most investment-grade global fixed-income markets continued to generate positive returns during these months, but were nonetheless hindered by spates of risk aversion that would routinely flare up and demand further intervention from central banks in Europe and the U.S. The global bond markets were enthralled to central bank policies in Europe decisive policymaking would bolster markets while re-escalating crises in Greece and Spain would undercut confidence.

Improving economic trends burgeoned in the U.S. while Europe fell into recession.

The first months of 2012 saw strengthening investor confidence in the U.S. economy despite indications of a recession in Europe. The improving conditions in the U.S. led to greater confidence in the U.S. credit markets, which began to show some resistance to the credit problems of Europe. During these months, the lowest-rated credit tiers of the U.S. domestic fixed-income markets generally performed the best, while the highest-quality credit tiers and U.S. Treasuries generally declined in value as their yields began to shift higher on expectations for a strengthening economy. In Europe, trends were not as pronounced but growing confidence in the U.S. financial system did generally inspire renewed confidence in the valuations of bonds across the globe.

Unfortunately, the trends of improving credit confidence would, once again, be undermined by the woes of Europe. As Greece neared default on its sovereign debt again, politicians began to hint at the possibility of exiting the euro. By early

Letter to shareholders (unaudited)

Wells Fargo Advantage Multi-Sector Income Fund 3

May 2012, the default crisis in Europe had escalated to a debate over the viability of the euro, amplifying the crisis to an unprecedented level of worst-case consideration. Consequently, global investors once again rallied to the U.S. Treasury market, driving long-term yields to some of their lowest levels on record. That same month, U.S. Treasuries and the highest-rated credit tiers were the best performers, while the lower-rated credit tiers of the global fixed-income markets generally performed positively but underperformed those sectors.

For several weeks it appeared that investors would continue to prefer higher-quality over riskier asset classes as long as the problems in Europe persisted. The crisis continued to deepen into July 2012, prompting the International Monetary Fund to warn European policymakers of a significant risk of deflation. Running counter to the woes in Europe, U.S. credit markets began to improve in June 2012, benefiting from consistent policy commitment by the Federal Reserve to maintain highly accommodative monetary conditions. In the U.S., the second half of June 2012 and the entire month of July 2012 saw strong performance in the lower-rated and longer-maturity segments of the fixed-income markets as U.S. credit markets tried to remain isolated from the crisis in Europe.

European markets finally followed suit in August 2012 and into September and October 2012 as the European Central Bank (ECB) calmed market fears by announcing a program of unlimited bond-buying support and declaring to do whatever it takes to preserve the euro. Perhaps the most convincing statement of all for investors was Mario Draghi, the president of the ECB, declaring that the euro is irreversible. Global credit markets responded strongly through the final months of the period, with the lowest-rated securities performing best, most notably high-yield corporate bonds and emerging markets debt. Thus, despite intermittent spikes in risk aversion and profound concerns in Europe, the 12-month period finished with a convincing positive trend of strong performance across the global fixed-income markets.

Recent events have not altered our message to shareholders.

The heightened volatility across the global financial markets during the final months of 2011 and much of 2012 and lingering uncertainties about the outlook going forward have left many investors questioning their resolve and their investments. Yet, it is precisely at such times that the market may present opportunities as well as challenges for prudent investors. For many investors, simply building and maintaining a well-diversified¹ investment plan focused on clear financial objectives is the best long-term strategy.

Thank you for choosing to invest with *Wells Fargo Advantage Funds*. We appreciate your confidence in us and remain committed to helping you meet your financial needs. Average annual total returns¹ (%) as of October 31, 2012

			Since
			inception
	1 Year	5 Year	6-25-03
Based on market value	19.33	11.86	7.82
Based on net asset value (NAV) per share	13.69	9.28	8.71

Figures quoted represent past performance, which is no guarantee of future results and do not reflect the deduction of taxes that a shareholder may pay on fund distributions or the sales of fund shares. Investment return and principal value of an investment will fluctuate so that an investor s shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.

The Fund s annualized expense ratio for the year ended October 31, 2012, is 1.24%, which includes 0.11% of interest expense.

Performance highlights (unaudited)

Comparison of NAV vs. market value since inception²

The Fund is leveraged through a secured debt borrowing facility and may issue preferred shares. The use of leverage results in certain risks including, among others, the likelihood of greater volatility of net asset value and the market price of common shares. Foreign investments are especially volatile and can rise or fall dramatically due to differences in the political and economic conditions of the host country. These risks are generally intensified in emerging markets. Derivatives involve additional risks including interest rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments they are designed to hedge or to closely track. Bond fund values fluctuate in response to the financial condition of individual issuers, general market and economic conditions, and changes in interest rates. In general, when interest rates rise, bond fund values fall and investors may lose principal value. High-yield securities have a greater risk of default and tend to be more volatile than higher-rated debt securities. This Fund is exposed to mortgage- and asset-backed securities risk.

- 1. Total returns based on market value are calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Total returns based on NAV are calculated based on the NAV at the beginning of the period and end of period. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund s Automatic Dividend Reinvestment Plan. Total returns do not reflect brokerage commissions or sales charges. If these charges were included, the returns would be lower.
- 2. This chart does not reflect any brokerage commissions or sales charges.

Performance highlights (unaudited)
MANAGER S DISCUSSION

Wells Fargo Advantage Multi-Sector Income Fund 5

The Fund returned 19.33% during the 12 months ended October 31, 2012, based on market value. During the same period, the Fund s return based on NAV was 13.69%.

Strategy

At the beginning of this period, the Fund announced several changes to the investment guidelines and strategies of each of its investment allocations or sleeves and the Fund as a whole. The investment allocation ranges changed for the High-yield bond sleeve, International/Emerging Markets sleeve, and the Mortgage/Corporate sleeve. The International/Emerging Markets sleeve strategy was changed to permit investing in emerging market debt securities. The Mortgage/Corporate sleeve strategy was changed to permit investing in fixed-rate mortgages and investment-grade corporate bonds. These changes, combined with other strategy changes, contributed to the Fund s performance.

Eurozone problems emanating from the euro-periphery countries continued to impact the non-core euro regions (countries outside of Germany, France, United Kingdom, Italy, Netherlands, Belgium, and Luxembourg) throughout the period, which fell back into recession as austerity programs took hold. However, with the European Financial Stability Facility (EFSF), European Stability Mechanism (ESM), Labor Market Training (LMT), Fiscal Compact, and single European Banking Regulation all in the pipeline and above all else the political will to keep the monetary union together, yield spreads from bonds issued by the periphery regions started to stabilize, as did the valuation of the euro. In general, riskier securities across the globe performed strongly, benefiting from continued policy interventions by the European Central Bank and the U.S. Federal Reserve Bank.

During the 12-month period, the international/emerging markets fixed-income portion of the Fund focused on income-oriented securities, specifically finding value in local developed and emerging markets with higher relative yields, yet healthy fundamental sources of cash flow. This positioning had a positive effect on the performance of the Fund as emerging markets debt and high-yield debt outperformed sovereign developed-market debt.

The high-yield asset class in the United States ironically behaved as a perceived safe-haven during a fluctuating and often uncertain economic environment, as investors swarmed into the asset class for a steady source of higher yields. High yield defaults have been low thanks to strong corporate fundamentals consisting of decent earnings, strong balance sheets with large cash positions, cheap and abundant financing, central bank policies encouraging low rates, and sustained liquidity and a manageable maturity schedule for issuers of high-yield bonds. The Fund s exposure to U.S. high-yield corporate bonds added to returns during the quarter.

In the U.S. investment-grade markets, corporate bonds and structured products generally outperformed U.S. Treasuries during the period as spreads rallied virtually across the board. Commercial mortgage-backed securities (CMBS) and corporate bonds, particularly in the A-rated and BBB-rated tiers, offered some of the best returns. Fixed-rate mortgage-backed securities (MBS) outperformed adjustable-rate mortgages (ARMs). The mortgage/corporate sleeve of the Fund continued to invest in MBS, asset-backed securities, ARMs, and corporate bonds. In general, the lower-rated segments of these sectors were the best contributors to performance during the period.

Ten largest holdings ³ (%) as of October 31, 2012	
Poland, 5.25%, 10-25-20	2.72
Russia, 7.85%, 3-10-18	2.48
Hungary, 6.75%, 11-24-17	2.28
Brazil, 10.00%, 1-1-17	2.16
Mexico, 7.25%, 12-15-16	1.94
Texas Competitive Electric Holdings LLC, 3.75%, 10-10-14	1.91
Sprint Capital Corporation, 6.88%, 11-15-28	1.71
Indonesia, 7.38%, 9-15-16	1.56
Turkey, 0.00%, 2-20-13	1.53
South Africa, 6.50%, 2-28-41	1.28
Contributors to performance	

The international/emerging markets bond allocation benefited from positioning in the higher-yielding bond markets of Brazil, Colombia, Hungary, Indonesia, Mexico, Poland, Russia, Turkey, and South Africa. Positioning in euro-denominated and British sterling-denominated investment-grade and high-yield corporate debt also added to value. The Fund s exposure to the high-yield and emerging market sectors were

significant contributors to performance. Our currency allocations to the Chilean peso, Colombian peso, Korean won, Mexican peso, and Polish zloty also added value.

The U.S. high-yield bond portion of the Fund saw market forces pushing high-yield bond prices higher and yields lower. Individual credit selection in specific securities with the potential for significant price appreciation helped performance of the Fund during the period.

^{3.} The ten largest holdings are calculated based on the value of the securities divided by total net assets of the Fund. Holdings are subject to change and may have changed since the date specified.

6 Wells Fargo Advantage Multi-Sector Income Fund	Performance highlights (unaudited)
Credit quality ⁴ as of October 31, 2012	
Effective maturity distribution ⁵ as of October 31, 2012	_
Country allocation ⁵ as of October 31, 2012	
The mortgage/corporate credit sleeve s focus on A-rated and BBB-rated credits added value as lower-rated credits during the period. The Fund s holdings in corporate bonds, CMBS, and residential MBS broadly added spreads tightened. Financial sector fixed-income securities contributed to performance.	1
Detractors from performance	
Currency exposure to the Brazilian real, Indonesian rupiah, and South African rand detracted from performance	during the period.
The U.S. high-yield bond portion of the Fund maintained a relatively conservative positioning compared with the	ne broader U.S. high-yield

market, as we anticipated challenging economic conditions. This positioning restrained performance as riskier bonds with either lower quality or longer maturities generally outperformed their higher-quality high yield counterparts.

The mortgage/corporate credit sleeve held a slightly conservative duration positioning, preferring to add incremental yield through increased credit exposure rather than increased interest-rate risk. Consequently the lower-duration positioning restrained performance when the markets rallied and the long end of the U.S. Treasury yield curve shifted significantly lower. Duration and yield-curve positioning modestly detracted from performance.

- 4. The ratings indicated are from Standard & Poor s, Moody s Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings: Credit quality ratings apply to underlying holdings of the Fund and not the Fund itself. Standard & Poor s rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standing within the rating categories. Standard & Poor s rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standing within the rating categories. Moody s rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody s rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Moody s rates the creditworthiness of short-term securities from P-1 (highest) to P-3 (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of three rating agencies, the lower rating was utilized and if rated by one of the agencies that rating was utilized. Credit quality is subject to change and is calculated based on the total investments of the Fund. We generally define higher-quality (investment grade) bonds as bonds having a rating above BBB/Baa and lower-quality bonds as bonds having a rating below BBB/Baa.
- 5. Percentages are subject to change and are calculated based on the total long-term investments of the Fund.

Performance highlights (unaudited)

Management outlook

Wells Fargo Advantage Multi-Sector Income Fund 7

Global market conditions continue to appear characterized by high levels of both consumer and government debt in the old, developed economies that will likely continue to hinder growth. We continue to question where sustainable growth can emerge from in the largest economies. Thus, the international/emerging markets team s strategy continues to underweight the old, industrialized, lower-yielding economies with structural problems and overweight those economies that not only have higher yields but also have healthier, more sustainable growth, lower deficits (in some cases, surpluses), and central banks that have the ability to maneuver freely.

The high-yield team believes that the majority of U.S. companies within high yield have a sufficient cash cushion to absorb a slight recession before default risk would meaningfully increase. In the team s view, highly accommodative monetary policy combined with strong corporate balance sheets offers a complementary backdrop of liquidity for high-yield companies to weather a slower revenue-growing environment. We feel that the outlook for high-yield markets demonstrates the potential for continued positive performance but at a more modest pace, and that high yield remains a favorable investment alternative to lower-yielding areas of the fixed-income markets, albeit with additional risk.

Within U.S. mortgages and investment-grade corporate bonds, the team believes that stable interest-rate policy should continue to preserve a comfortable environment for relatively steady bond yields to offer relatively generous compensation from corporate bonds and securitized debt. We continue to focus on the medium-quality credit tiers of A-rated and BBB-rated securities as compelling sources of yield. Approximately 50% of the mortgage/corporate sleeves exposure is in corporate fixed-income securities and around 40% is in fixed-rate and floating rate mortgage securities. Our credit exposure remains centered on industrials and financials, particularly in banks. We believe that continued highly accommodative monetary policy should continue to benefit the credit and securitized sectors in the upcoming 12-month period.

^{1.} Calculated based upon average common shares outstanding

The accompanying notes are an integral part of these financial statements.

^{2.} Total return is calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund s Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

^{3.} Interest expense ratio relates to interest associated with borrowings and/or leverage transactions.

^{4.} The net investment income ratio reflects any distributions paid to preferred shareholders.

22 Wells Fargo Advantage Multi-Sector Income Fund

Notes to financial statements

1. ORGANIZATION

Wells Fargo Advantage Multi-Sector Income Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on April 10, 2003 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income consistent with limiting its overall exposure to domestic interest-rate risk.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (normally 4 p.m. Eastern Time).

Fixed income securities acquired with maturities exceeding 60 days are valued based on evaluated bid prices received from an independent pricing service which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the independent pricing service or values received are deemed not representative of market value, values will be obtained from a broker-dealer or otherwise determined based on the Fund s Valuation Procedures.

Equity securities that are listed on a foreign or domestic exchange, except for The Nasdaq Stock Market, Inc. (Nasdaq), are valued at the official closing price or, if none, the last sales price. Securities listed on Nasdaq are valued at the Nasdaq Official Closing Price (NOCP). If no NOCP is available, securities are valued at the last prior sales price. If no sales price is shown on the Nasdaq, the bid price will be used. If no sale occurs on the primary exchange or market for the security that day or if no sale occurs and no bid price is shown on Nasdaq, the prior day s price will be deemed stale and fair values will be determined in accordance with the Fund s Valuation Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the rates of exchange in effect on the day of valuation at a time specified by the Management Valuation Team of Wells Fargo Funds Management, LLC ($\,$ Funds Management).

Debt securities of sufficient credit quality acquired with maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Management Valuation Team. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Management Valuation Team which may include items for ratification.

Valuations of fair valued securities are compared to the next actual sales price when available, or other appropriate market information to assess the continued appropriateness of the fair valuation methodology used. These securities are fair valued on a day-to-day basis, taking into consideration changes to appropriate market information and any significant changes to the input factors considered in the valuation process until there is a readily available price provided on the exchange or by an independent pricing service. Valuations received from an independent pricing service or broker quotes are periodically validated by comparisons to most recent trades and valuations provided by other independent pricing services in addition to the review of prices by the adviser and/or subadviser. Unobservable inputs used in determining fair valuations are identified based on the type of security, taking into consideration factors utilized by market participants in valuing the investment, knowledge

about the issuer and the current market environment.

Notes to financial statements

Foreign currency translation

Wells Fargo Advantage Multi-Sector Income Fund 23

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the rates of exchange at a time specified by the Management Valuation Team on the date of valuation. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment adviser to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

Forward foreign currency contracts

The Fund may be subject to foreign currency exchange rate risk in the normal course of pursuing its investment objectives. A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on foreign currency related transactions. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably. The Fund s maximum risk of loss from counterparty credit risk is the unrealized gains or losses on the contracts. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund s commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are reported on the basis of identified cost of securities delivered.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the Fund is informed of the ex-dividend date.

24 Wells Fargo Advantage Multi-Sector Income Fund

Notes to financial statements

Income from foreign securities is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with federal income tax regulations, which may differ in amount or character from net investment income and realized gains recognized for purposes of U.S. generally accepted accounting principles.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund s income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund s tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

Reclassifications are made to the Fund s capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under federal income tax regulations. U.S. generally accepted accounting principles requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. The primary permanent differences causing such reclassifications are due to bond premiums, certain distributions paid, consent fees, and foreign currency transactions. At October 31, 2012, as a result of permanent book-to-tax differences, the following reclassification adjustments were made on the Statement of Assets and Liabilities:

		Accumulated net
	Overdistributed net	realized losses
Paid-in capital	investment income	on investments
\$(342,689)	\$(777,213)	\$1,119,902

Under the *Regulated Investment Company Modernization Act of 2010*, the Fund is permitted to carry forward capital losses incurred in taxable years which began after December 22, 2010 for an unlimited period. However, any losses incurred are required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than be considered all short-term as under previous law. In addition, the Fund may elect to defer any portion of a post-October capital loss or qualified late-year ordinary loss to the first day of the following taxable year. A post-October capital loss is the greatest of the net capital loss, net short-term capital loss or net long-term capital loss for the portion of the taxable year after October 31. A qualified late-year ordinary loss is the net loss comprised of (a) net gain or loss from the sale or other disposition of certain capital assets for the portion of the taxable year after October 31.

As of October 31, 2012, the Fund had net capital loss carryforwards, which are available to offset future net realized capital gains, in the amount of \$94,018,990 with \$4,567,517 expiring in 2016 and \$89,451,473 expiring in 2017.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund s investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund s investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- n Level 1 quoted prices in active markets for identical securities
- n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- n Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

Notes to financial statements

Wells Fargo Advantage Multi-Sector Income Fund 25

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of October 31, 2012, the inputs used in valuing investments in securities, which are carried at fair value, were as follows:

			Significant	
	Quoted prices	Significant other observable Inputs	unobservable inputs	
Investments in securities	(Level 1)	(Level 2)	(Level 3)	Total
Agency securities	\$ 0	\$ 24,634,497	\$ 0	\$ 24,634,497
Asset-backed securities	0	1,003,067	0	1,003,067
Corporate bonds and notes	0	420,964,022	0	420,964,022
Equity securities Common stocks Preferred stocks	517,044 705,780	0 0	2,322 0	519,366 705,780
Foreign corporate bonds and notes	0	32,475,867	0	32,475,867
Foreign government bonds	0	194,831,048	0	194,831,048
Non-agency mortgage backed securities	0	56,178,180	0	56,178,180
Term loans	0	120,269,682	16,839,203	137,108,885
Yankee corporate bonds and notes	0	59,424,091	0	59,424,091
Short-term investments Investment companies	26,329,441 \$ 27,552,265	0 \$ 909,780,454	0 \$ 16,841,525	26,329,441 \$ 954,174,244

As of October 31, 2012, the inputs used in valuing the Fund s other financial instruments, which are carried at fair value, were as follows:

		Significant		
	Quoted prices	Significant other es observable inputs unobservab		
Other financial instruments	(Level 1)	(Level 2)	(Level 3)	Total
Forward foreign currency contracts+	\$ 0	\$ 415,812	\$ 0	\$ 415,812

⁺Forward foreign currency contracts are presented at the unrealized gains or losses on the instrument.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Corporate bonds and	Term	Yankee corporate bonds		
	notes	stocks	loans	and notes	Total
Balance as of October 31, 2011	\$ 5,243,760	\$ 0	\$ 3,971,316	\$ 191	\$ 9,215,267
Accrued discounts (premiums)	2,652	0	36,542	0	39,194
Realized gains (losses)	(3,211)	0	9,204	0	5,993
Change in unrealized gains (losses)	366,989	0	29,932	0	396,921

Transfers in and transfers out are recognized at the end of the reporting period. For the year ended October 31, 2012, the Fund did not have any significant transfers into/out of Level 1 or Level 2.

Purchases		0	0	14,431,847	0	14,431,847
Sales	(12	4,713)	0	(5,397,811)	0	(5,522,524)
Transfers into Level 3		0	2,322	3,758,173	0	3,760,495
Transfers out of Level 3	(5,48	5,477)	0	0	(191)	(5,485,668)
Balance as of October 31, 2012	\$	0	\$ 2,322	\$ 16,839,203	\$ 0	\$ 16,841,525
Change in unrealized gains (losses)						
relating to securities still held at						
October 31, 2012	\$	0	\$ 0	\$ 111,510	\$ 0	\$ 111,510

26 Wells Fargo Advantage Multi-Sector Income Fund 4. TRANSACTIONS WITH AFFILIATES Notes to financial statements

Advisory fee

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo) is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.55% of the Fund s average daily total assets. Total assets consist of net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Funds Management has retained the services of certain subadvisers to provide daily portfolio management to the Fund. The fees for subadvisory services are borne by Funds Management. Wells Capital Management Incorporated, an affiliate of Funds Management, is a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.30% of the Fund s average daily total assets. First International Advisors, LLC, an affiliate of Funds Management and an indirect, wholly owned subsidiary of Wells Fargo, is also a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.10% of the Fund s average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual administration fee of 0.05% of the Fund s average daily total assets.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 shares with no par value. For the year ended October 31, 2012 and the year ended October 31, 2011, the Fund did not issue any shares.

6. BORROWING AND LEVERAGE TRANSACTIONS

The Fund has borrowed \$230 million through a secured debt financing agreement administered by a major financial institution (the Facility). The Facility has a commitment amount of \$230 million which expires on February 25, 2013, at which point it may be renegotiated and potentially renewed for another one-year term. At October 31, 2012, the Fund had secured borrowings outstanding in the amount of \$230,203,210 (including accrued interest and usage and commitment fees payable).

The Fund s borrowing under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued to fund the Fund s borrowings or at the London Interbank Offered Rate (LIBOR) plus 1.0%. During the year ended October 31, 2012, an effective interest rate of 0.32% was incurred on the borrowings. Interest expense of \$634,043, representing 0.09% of the Fund s average daily net assets, was incurred during the year ended October 31, 2012.

The Fund has pledged all of its assets to secure the borrowings and currently pays, on a monthly basis, a usage fee at an annual rate of 0.40% of the daily average outstanding principal amount of borrowings and a commitment fee at an annual rate of 0.40% of the product of (i) the daily average outstanding principal amount of borrowings and (ii) 1.02. Prior to February 27, 2012, both the usage fee and commitment fee were charged at an annual rate of 0.50%. The secured borrowing fees on the Statement of Operations of \$1,808,327 represents the usage fee, commitment fee, and structuring fees. For the year ended October 31, 2012, the Fund paid structuring fees in the amount of \$106,031.

During the year ended October 31, 2012, the Fund entered into reverse repurchase agreements that had an average daily balance outstanding of \$32,222,683 with an effective annual interest rate of 0.41% and paid interest of \$132,113 representing 0.02% of the Fund s average daily net assets. The maximum amount outstanding under reverse repurchase agreements during the year ended October 31, 2012 was \$99,573,404 (including accrued interest).

7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding short-term securities, for the year ended October 31, 2012 were as follows:

Purchases at cost Sales proceeds

U.S. government	Non-U.S. government	U.S. government	Non-U.S. government
\$0	\$810,309,167	\$181,342,011	\$511,283,881

As of October 31, 2012, the Fund had unfunded term loan commitments of \$14,464,777.

Notes to financial statements

8. DERIVATIVE TRANSACTIONS

Wells Fargo Advantage Multi-Sector Income Fund 27

During the year ended October 31, 2012, the Fund entered into forward foreign currency exchange contracts for economic hedging purposes.

At October 31, 2012, the Fund had forward foreign currency contracts outstanding as follows:

Forward foreign currency contracts to buy:

		Contracts to	U.S. value at	In exchange	Unrealized gains
Exchange date	Counterparty	receive	October, 31, 2012	for U.S. \$	(losses)
11-9-12	State Street Bank	22,900,000 MYR	\$ 7,514,046	\$ 7,473,159	\$ 40,887
11-28-12	State Street Bank	41,600,000 ZAR	4,779,925	4,891,476	(111,551)
11-28-12	State Street Bank	9,000,000 ZAR	1,034,118	1,030,208	3,910
12-3-12	State Street Bank	65,000,000 THB	2,116,505	2,105,604	10,901
12-6-12	State Street Bank	118,600,000 MXN	9,029,124	8,897,364	131,760
12-6-12	State Street Bank	25,000,000 MXN	1,903,272	1,907,554	(4,282)

Forward foreign currency contracts to sell:

					Unrealized
		Contracts to	U.S. value at	In exchange	gains
Exchange date	Counterparty	deliver	October, 31, 2012	for U.S. \$	(losses)
11-27-12	State Street Bank	12,415,000 TRY	\$ 6,902,740	\$ 6,864,482	\$ (38,258)
11-28-12	State Street Bank	142,000,000 ZAR	16,316,089	16,702,935	386,846
12-3-12	State Street Bank	65,000,000 THB	2,116,505	2,112,104	(4,401)

The Fund had average contract amounts of \$51,548,659 and \$28,850,391 in forward foreign currency exchange contracts to buy and forward foreign currency exchange contracts to sell, respectively, during the year ended October 31, 2012.

The fair value, realized gains or losses and change in unrealized gains or losses, if any, on derivative instruments are reflected in the appropriate financial statements.

9. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid was \$50,466,000 and \$51,862,226 of ordinary income for the years ended October 31, 2012 and October 31, 2011, respectively.

As of October 31, 2012, the components of distributable earnings on a tax basis were as follows:

Unrealized	Capital loss
gains	carryforward
\$39,538,942	\$(94,018,990)

10. INDEMNIFICATION

Under the Fund s organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund s maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

11. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2011-11, Disclosures about Offsetting Assets and Liabilities. ASU 2011-11, which amends FASB ASC Topic 210, Balance Sheet, creates new disclosure requirements which require entities to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of Assets and Liabilities or subject to an enforceable master netting arrangement or similar agreement. The disclosure requirements are effective for interim and annual reporting periods beginning on or after January 1, 2013. Management is currently assessing the potential impact, in addition to expanded financial statement disclosure, that may result from adopting this ASU.

28 Wells Fargo Advantage Multi-Sector Income Fund

Notes to financial statements

In May 2011, FASB issued ASU No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU No. 2011-04 amends FASB ASC Topic 820, Fair Value Measurements, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP. The ASU is effective prospectively for interim and annual periods beginning after December 15, 2011. Adoption of the ASU will result in additional disclosures in future financial statements, as applicable.

In April 2011, FASB issued ASU No. 2011-03 *Reconsideration of Effective Control for Repurchase Agreements*. ASU No. 2011-03 amends FASB ASC Topic 860, *Transfers and Servicing*, specifically the criteria required to determine whether a repurchase agreement (repo) and similar agreements should be accounted for as sales of financial assets or secured borrowings with commitments. ASU No. 2011-03 changes the assessment of effective control by focusing on the transferor s contractual rights and obligations and removing the criterion to assess its ability to exercise those rights or honor those obligations. This could result in changes to the way entities account for certain transactions including repurchase agreements, mortgage dollar rolls and reverse repurchase agreements. The ASU will become effective on a prospective basis for new transfers and modifications to existing transactions as of the beginning of the first interim or annual period beginning on or after December 15, 2011. Management has evaluated the impact of adopting the ASU and expects no significant changes.

12. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Per Share Amount
October 26, 2012	November 15, 2012	December 3, 2012	\$0.1000
November 7, 2012	December 17, 2012	January 2, 2013	\$0.1000

These distributions are not reflected in the accompanying financial statements.

Report of independent registered public accounting firm

Wells Fargo Advantage Multi-Sector Income Fund

BOARD OF TRUSTEES AND SHAREHOLDERS OF WELLS FARGO ADVANTAGE MULTI-SECTOR INCOME FUND:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments and the summary portfolio of investments, of the Wells Fargo Advantage Multi-Sector Income Fund (the Fund), as of October 31, 2012, and the related statement of operations for the year then ended, statements of changes in net assets for each of the years in the two-year period then ended, statement of cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the Standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2012, by correspondence with the custodian and brokers, or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Wells Fargo Advantage Multi-Sector Income Fund as of October 31, 2012, the results of its operations for the year then ended, changes in its net assets for each of the years in the two-year period then ended, its cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Boston, Massachusetts

Other information (unaudited)

TAX INFORMATION

For the fiscal year ended October 31, 2012, \$31,712,834 has been designated as interest-related dividends for nonresident alien shareholders pursuant to Section 871 of the Internal Revenue Code.

Current tax law generally provides for a maximum tax rate for individual taxpayers of 15% on long-term capital gains and qualifying dividends on corporate stocks. This rate is scheduled to expire at the end of 2012. In the absence of further Congressional action, the maximum tax rate on long-term capital gains for individual taxpayers would increase to 20% and income from dividends would be taxed at the rates applicable to ordinary income.

In addition, for taxable years beginning after December 31, 2012, absent further Congressional action, an additional 3.8% Medicare tax will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person s modified adjusted gross income (in the case of an individual) or adjusted gross income (in the case of an estate or trust) exceed certain threshold amounts.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-222-8222**, visiting our website at **wellsfargoadvantagefunds.com**, or visiting the SEC website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Fund s website at **wellsfargoadvantagefunds.com** or by visiting the SEC website at sec.gov.

PORTFOLIO HOLDINGS INFORMATION

The complete portfolio holdings for the Fund are publicly available on the Fund s website (**wellsfargoadvantagefunds.com**) on a monthly, 30-day or more delayed basis. The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q, which is available without charge by visiting the SEC website at sec.gov. In addition, the Fund s Form N-Q may be reviewed and copied at the SEC s Public Reference Room in Washington, DC, and at regional offices in New York City, at 233 Broadway, and in Chicago, at 175 West Jackson Boulevard, Suite 900. Information about the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Other information (unaudited) **BOARD OF TRUSTEES**

Wells Fargo Advantage Multi-Sector Income Fund 31

The following table provides basic information about the Board of Trustees (the Trustees) and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for the Wells Fargo Advantage family of funds, which consists of 138 funds* comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust, and four closed-end funds, including the Fund (collectively the Fund Complex). All of the Trustees are also Members of the Audit and Governance Committees of each Trust in the Fund Complex. The mailing address of each Trustee and Officer is

525 Market Street, 12th Floor, San Francisco, CA 94105. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

^{*} Jeremy DePalma acts as Treasurer of 61 funds and Assistant Treasurer of 77 funds in the Fund Complex.

Automatic dividend reinvestment plan AUTOMATIC DIVIDEND REINVESTMENT PLAN Wells Fargo Advantage Multi-Sector Income Fund 33

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

ITEM 2. CODE OF ETHICS

As of the end of the period, October 31, 2012, Wells Fargo Advantage Multi-Sector Income Fund has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Trustees of Wells Fargo Advantage Multi-Sector Income Fund has determined that Judith Johnson is an audit committee financial expert, as defined in Item 3 of Form N-CSR. Mrs. Johnson is independent for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a)

<u>Audit Fees</u> - Provided below are the aggregate fees billed for the fiscal years ended October 31, 2011 and October 31, 2012 for professional services rendered by the principal accountant for the audit of the Registrant s annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Audit Fees were \$54,500 and \$53,210, respectively.

(b)

<u>Audit-Related Fees</u> There were no audit-related fees incurred for the fiscal years ended October 31, 2011 and October 31, 2012 for assurance and related services by the principal accountant for the Registrant.

(c)

<u>Tax Fees</u> - Provided below are the aggregate fees billed for the fiscal years ended October 31, 2011 and October 31, 2012 for professional services rendered by the principal accountant for the Registrant for tax compliance, tax advice, and tax planning.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Tax Fees were \$1,660 and \$1,700, respectively. The incurred Tax Fees are comprised of excise tax review services.

For the fiscal years ended October 31, 2011 and October 31, 2012, the Tax Fees were \$1,940 and \$1,990, respectively. The incurred Tax Fees are comprised of tax preparation and consulting services.

(d)

All Other Fees There were no other fees incurred for the fiscal years ended October 31, 2011 and October 31, 2012.

(e)(1)

The Chairman of the Audit Committees is authorized to pre-approve: (1) audit services to Wells Fargo Advantage Multi-Sector Income Fund; (2) non-audit tax or compliance consulting or training services provided to the Fund by the independent auditors (Auditors) if the fees for any particular engagement are not anticipated to exceed \$50,000; and (3) non-audit tax or compliance consulting or training services provided by the Auditors to the Fund s investment adviser and its controlling entities (where pre-approval is required because the engagement relates directly to the operations and financial reporting of the Fund) if the fee to the Auditors for any particular engagement is not anticipated to exceed \$50,000. For any such pre-approval sought from the Chairman, Management shall prepare a brief description of the proposed services. If the Chairman approves of such service, he or she shall sign the statement prepared by Management. Such written statement shall be presented to the full Committees at their next regularly scheduled meetings.

(e)(2)
Not Applicable.
(f)
Not Applicable.
(g)
Non-Audit Fees There were no non-audit fees billed for the fiscal years ended October 31, 2011 and October 31, 2012, by the principal accountant for services rendered to the Registrant, and rendered to the Registrant s investment adviser, and any entity controlled by, or under common control with the adviser that provides ongoing services to the Registrant.
(h)
The Registrant s audit committee of the board of directors has determined that non-audit services rendered to the registrant s investment adviser, that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of the Regulation S-X, does not compromise the independence of the principal accountant.
ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS
Not applicable.
ITEM 6. PORTFOLIO OF INVESTMENTS

Report of Independent Registered Public Accounting Firm The Shareholders and Board of Trustees of

Wells Fargo Advantage Multi-Sector Income Fund:

We have audited the financial statements of the Wells Fargo Advantage Multi-Sector Income Fund (the Fund) as of October 31, 2012, for each of the years presented and have issued our unqualified report thereon dated December 21, 2012 (which report and financial statements are included in Item 1 of this Certified Shareholder Report on Form N-CSR). We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Boards (United States). Our audit included audits of the Fund s portfolio of investments (the Portfolio) as of October 31, 2012 appearing in Item 6 of this Form N-CSR. This Portfolio is the responsibility of the Fund s management. Our responsibility is to express an opinion on this Portfolio based on our audit.

In our opinion, the Portfolio referred to above, when read in conjunction with the financial statements of the Fund referred to above, present fairly, in all material respects, the information set forth therein.

Boston, Massachusetts

December 21, 2012

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PROXY VOTING POLICIES AND PROCEDURES REVISED AS OF FEBRUARY 8, 2012

- 1. Scope of Policies and Procedures. These Policies and Procedures (Procedures) are used to determine how to vote proxies relating to portfolio securities held by the series of Wells Fargo Funds Trust, Wells Fargo Master Trust, Wells Fargo Variable Trust, Asset Allocation Trust, Wells Fargo Advantage Global Dividend Opportunity Fund, Wells Fargo Advantage Income Opportunities Fund, Wells Fargo Advantage Multi-Sector Income Fund, and Wells Fargo Advantage Utilities & High Income Fund (the Trusts) except for those series that exclusively hold non-voting securities (hereafter, all such series, and all such Trusts not having separate series, holding voting securities are referred to as the Funds).
- 2. Voting Philosophy. The Funds and Wells Fargo Funds Management, LLC (Funds Management) have adopted these Procedures to ensure that proxies are voted in the best interests of Fund shareholders, without regard to any relationship that any affiliated person of the Fund (or an affiliated person of such affiliated person) may have with the issuer. Funds Management exercises its voting responsibility, as a fiduciary, with the goal of maximizing value to shareholders consistent with governing laws and the investment policies of each Fund. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership, the Funds support sound corporate governance practices within companies in which they invest.

3. Responsibilities

- (a) Board of Trustees. The Board of Trustees of each Trust (the Board) has delegated the responsibility for voting proxies relating to the Funds portfolio securities to Funds Management. The Board retains the authority to make or ratify any voting decisions or approve any changes to these Procedures as the Board deems appropriate. Funds Management will provide reports to the Board regarding voting matters when and as reasonably requested by the Board. The Board shall review these Procedures as often as it deems appropriate to consider whether any revisions are warranted. On an annual basis, the Board shall receive and review a report from Funds Management on the proxy voting process.
- (b) Funds Management Proxy Committee
 - (i) Responsibilities. The Funds Management Proxy Voting Committee (the Proxy Committee) shall be responsible for overseeing the proxy voting process to ensure its implementation in conformance with these Procedures. The Proxy Committee shall monitor Institutional Shareholder Services (ISS), the proxy voting agent for Funds Management, to determine that ISS is accurately applying the Procedures as set forth herein. The Proxy Committee shall review the continuing appropriateness of the Procedures set forth herein, recommend revisions to the Board as necessary and provide an annual update to the Board on the proxy voting process.
 - (ii) Voting Guidelines. Appendix A hereto sets forth guidelines regarding how proxies will be voted on the issues specified. ISS will vote proxies for or against as directed by the guidelines. Where the guidelines specify a case by case determination for a particular issue, ISS will forward the proxy to the Proxy Committee for a vote determination by the Proxy Committee. Finally, with respect to issues for which a vote for or against is specified by the Procedures, the Proxy Committee shall have the authority to direct ISS to forward the proxy to the Proxy Committee for a discretionary vote by the Proxy Committee if the Proxy Committee determines that a case-by-case review of such matter is warranted. The Proxy Committee may also consult Fund sub-advisers on certain proxy voting issues on a case-by-case basis as the Proxy Committee deems appropriate or to the extent that a sub-adviser of a Fund makes a recommendation regarding a proxy voting

issue. As a general matter, however, proxies are voted consistently on the same matter when securities of an issuer are held by multiple Funds.

(iii) Proxy Committee. In all cases, the Proxy Committee will exercise its voting discretion in accordance with the voting philosophy of the Funds. In cases where a proxy is forwarded by ISS to the Proxy Committee, the Proxy Committee may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by ISS or other independent sources; (ii) input from the investment sub-adviser responsible for purchasing the security; and (iii) information provided by company management and shareholder groups.

Voting decisions made by the Proxy Committee will be reported to ISS to ensure that the vote is registered in a timely manner and included in Form N-PX reporting.

- (iv) Securities on Loan. As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy). However, if the Proxy Committee is aware of an item in time to recall the security and has determined in good faith that the importance of the matter to be voted upon outweighs the loss in lending revenue that would result from recalling the security (i.e., if there is a controversial upcoming merger or acquisition, or some other significant matter), the security will be recalled for voting.
- (v) Practical Limitations to Proxy Voting. While Funds Management uses its best efforts to vote proxies, in certain circumstances it may be impractical or impossible for Funds Management to vote proxies (e.g., limited value or unjustifiable costs). For example, in accordance with local law or business practices, many foreign companies prevent the sales of shares that have been voted for a certain period beginning prior to the shareholder meeting and ending on the day following the meeting (share blocking). Due to these restrictions, Funds Management must balance the benefits to its clients of voting proxies against the potentially serious portfolio management consequences of a reduced flexibility to sell the underlying shares at the most advantageous time. As a result, Funds Management will generally not vote those proxies in the absence of an unusual, significant vote or compelling economic importance. Additionally, Funds Management may not be able to vote proxies for certain foreign securities if Funds Management does not receive the proxy statement in time to vote the proxies due to custodial processing delays.
- (vi) Conflicts of Interest. Funds Management may have a conflict of interest regarding a proxy to be voted upon if, for example, Funds Management or its affiliates have other relationships with the issuer of the proxy. In most instances, conflicts of interest are avoided through a strict and objective application of the voting guidelines attached hereto. However, when the Proxy Committee is aware of a material conflict of interest regarding a matter that would otherwise require a vote by the Proxy Committee, the Proxy Committee shall address the material conflict by using any of the following methods:

 (1) instructing ISS to vote in accordance with the recommendation ISS makes to its clients; (2) disclosing the conflict to the Board and obtaining their consent before voting; (3) submitting the matter to the Board to exercise its authority to vote on such matter; (4) engaging an independent fiduciary who will direct the Proxy Committee on voting instructions for the proxy; (5) consulting with outside legal counsel for guidance on resolution of the conflict of interest; (6) erecting information barriers around the person or persons making voting decisions; (7) voting in proportion to other shareholders (mirror voting); or (8) voting in other ways that are consistent with each Fund s obligation to vote in the best interests of its shareholders. Additionally, the Proxy Committee will not permit its votes to be influenced by any conflict of interest that exists for any other affiliated person of the Fund (such as a sub-adviser or principal underwriter)

or any affiliated persons of such affiliated persons and the Proxy Committee will vote all such matters without regard to the conflict.

Funds Management may also have a conflict of interest regarding a proxy to be voted on if a member of the Board has an affiliation, directly or indirectly, with a public or private company (an Identified Company). Identified Companies include a Board member $\,$ s employer, as well as any company of which the Board member is a director or officer or a 5% or more shareholder. The Proxy Committee shall address such a conflict by instructing ISS to vote in accordance with the recommendation ISS makes to its clients.

- (vii) Meetings. The Proxy Committee shall convene as needed and when discretionary voting determinations need to be considered, and shall have the authority to act by vote of a majority of the Proxy Committee members available at that time. The Proxy Committee shall also meet at least semi-annually to review the Procedures and the performance of ISS in exercising its proxy voting responsibilities.
- (viii) Membership. The voting members of the Proxy Committee shall be Tom Biwer, Travis Keshemberg, Patrick McGuinnis and Erik Sens. Andrew Owen shall be a non-voting member and serve in an advisory capacity on the Proxy Committee. Changes to the membership of the Proxy Committee will be made only with Board approval. Upon departure from Funds Management, a member s position on the Proxy Committee will automatically terminate.
- 4. Disclosure of Policies and Procedures. Each Fund shall disclose in its statement of additional information a description of the policies and procedures it uses to determine how to vote proxies relating to securities held in its portfolio. In addition, each Fund shall disclose in its semi-and annual reports that a description of its proxy voting policies and procedures is available without charge, upon request, by calling 1-800-222-8222, on the Fund some sweb site at www.wellsfargo.com/advantagefunds and on the Securities and Exchange Commission some website at http://www.sec.gov.
- 5. Disclosure of Proxy Voting Record. Each Trust shall file with the Commission an annual report on Form N-PX not later than August 31 of each year (beginning August 31, 2004), containing the Trust s proxy voting record for the most recent twelve-month period ended June 30.

Each Fund shall disclose in its statement of additional information and semi- and annual reports that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Funds web site at www.wellsfargo.com/advantagefunds or by accessing the Commission s web site at www.sec.gov.

Each Fund shall disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any shareholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

The name of the issuer of the portfolio security;	
The exchange ticker symbol of the portfolio security;	
The Council of Uniform Securities Identification Procedures (CUSIP) number for the portfolio security (unless the CUSIP i available through reasonably practicable means, in which case it will be omitted);	is not
The shareholder meeting date;	
A brief identification of the matter voted on;	

Whether the matter was proposed by the issuer or by a security holder;

Whether the Fund cast its vote on the matter;

How the Fund cast its vote (e.g. for or against a proposal, or abstain; for or withhold regarding election of directors); and

Whether the Fund cast its vote for or against management.

Form N-PX shall be made available to Fund shareholders through the SEC web site.

APPENDIX A

TO

PROXY VOTING POLICIES AND PROCEDURES

Funds Management will vote proxies relating to portfolio securities held by the Trusts in accordance with the following proxy voting guidelines. To the extent the specific guidelines below do not address a proxy voting proposal, Funds Management will vote pursuant to ISS current U.S. and International proxy voting guidelines. Proxies for securities held by the Wells Fargo Advantage Social Awareness Fund related to social and environmental proposals will be voted pursuant to ISS current SRI Proxy Voting Guidelines. In addition, proxies related to issues not addressed by the specific guidelines below or by ISS current U.S. and International proxy voting guidelines will be forwarded to the Proxy Committee for a vote determination by the Proxy Committee.

Uncontested Election of Directors or Trustees

THE FUNDS will generally vote for all uncontested director or trustee nominees. The Nominating Committee is in the best position to select nominees who are available and capable of working well together to oversee management of the company. THE FUNDS will not require a performance test for directors.

FOR

FOR

THE FUNDS will generally vote for reasonably crafted shareholder proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors, unless the company has adopted formal corporate governance principles that present a meaningful alternative to the majority voting standard.

WITHHOLD

THE FUNDS will withhold votes for a director if the nominee fails to attend at least 75% of the board and committee meetings without a valid excuse.

AGAINST

THE FUNDS will vote against routine election of directors if any of the following apply: company fails to disclose adequate information in a timely manner, serious issues with the finances, questionable transactions, conflicts of interest, record of abuses against minority shareholder interests, bundling of director elections, and/or egregious governance practices.

WITHHOLD

WITHHOLD

THE FUNDS will withhold votes from the entire board (except for new nominees) where the director(s) receive more than 50% withhold votes out of those cast and the issue that was the underlying cause of the high level of withhold votes has not been addressed.

WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee and/or the full board if poor accounting practices, which rise to a level of serious concern, such as: fraud; misapplication of GAAP; and material weaknesses identified in Section 404 disclosures, are identified.

THE FUNDS will withhold votes from members of the Audit Committee if the company receives an adverse opinion on the company s financial statements from its auditor.

WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if there is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm.

THE FUNDS will withhold votes from all directors (except for new nominees) if the company has adopted or renewed a poison pill without shareholder approval since the

company s last annual meeting, does not put the pill to a vote at the current annual meeting, and does not have a requirement or does not commit to put the pill to shareholder vote within 12 months. In addition, THE FUNDS will withhold votes on all directors at any company that responds to the majority of the shareholders voting by putting the poison pill to a shareholder vote with a recommendation other than to eliminate the pill.	WITHHOLD
THE FUNDS will withhold votes from compensation committee members if they fail to submit one-time transferable stock options (TSO s) to shareholders for approval.	WITHHOLD
Limitation on Number of Boards a Director May Sit On	
	WITHHOLD
THE FUNDS will withhold votes from directors who sit on more than six boards.	
THE FUNDS will withhold votes from CEO directors who sit on more than two outside boards besides their own. Ratification of Auditors	WITHHOLD
THE FUNDS will vote against auditors and withhold votes from audit committee members if non-audit fees are greater than audit fees, audit-related fees, and permitted tax fees, combined. THE FUNDS will follow the disclosure categories	AGAINST/
being proposed by the SEC in applying the above formula.	WITHHOLD
With the above exception, THE FUNDS will generally vote for proposals to ratify auditors unless:	
an auditor has a financial interest in or association with the company, and is therefore not independent, or	FOR
	AGAINST
there is reason to believe that the independent auditor has rendered an opinion that is neither accurate nor indicative of the company s financial position.	
	AGAINST
THE FUNDS will vote against proposals that require auditors to attend annual meetings as auditors are regularly reviewed by the board audit committee, and such attendance is unnecessary.	
THE FUNDS will vote for shareholder proposals requesting a shareholder vote for audit firm ratification.	AGAINST
THE FUNDS will vote against shareholder proposals asking for audit firm rotation. This practice is viewed as too disruptive and too costly to implement for the benefit achieved.	FOR

Company Name Change/Purpose	AGAINST
THE FUNDS will vote for proposals to change the company name as management and the board is best suited to determine if such change in company name is necessary.	FOR
However, where the name change is requested in connection with a reorganization of the company, the vote will be based on the merits of the reorganization.	

CASE-BY-CASE

In addition, THE FUNDS will generally vote for proposals to amend the purpose of the company. Management is in the best position to know whether the description of what the company does is accurate, or whether it needs to be updated by deleting, adding or revising language. **FOR** Employee Stock Purchase Plans/401(k) Employee Benefit Plans **FOR** THE FUNDS will vote for proposals to adopt, amend or increase authorized shares for employee stock purchase plans and 401(k) plans for employees as properly structured plans enable employees to purchase common stock at a slight discount and thus own a beneficial interest in the company, provided that the total cost of the company s plan is not above **FOR** the allowable cap for the company. Similarly, THE FUNDS will generally vote for proposals to adopt or amend thrift and savings plans, retirement plans, pension plans and profit plans. Anti-Hedging/Pledging/Speculative Investments Policy CASE-BY-CASE THE FUNDS will consider proposals prohibiting named executive officers from engaging in derivative or speculative transactions involving company stock, including hedging, holding stock in a margin account, or pledging stock as collateral for a loan on a case-by-case basis. The company s existing policies regarding responsible use of company stock will be considered. **Approve Other Business** FOR THE FUNDS will generally vote for proposals to approve other business. This transfer of authority allows the corporation to take certain ministerial steps that may arise at the annual or special meeting. AGAINST However, THE FUNDS retains the discretion to vote against such proposals if adequate information is not provided in the proxy statement, or the measures are significant and no further approval from shareholders is sought. **Independent Board of Directors/Board Committees FOR** THE FUNDS will vote for proposals requiring that two-thirds of the board be independent directors. An independent board faces fewer conflicts and is best prepared to protect stockholders interests. WITHHOLD THE FUNDS will withhold votes from insiders and affiliated outsiders on boards that are not at least majority independent. WITHHOLD

THE FUNDS will withhold votes from compensation committee members where there is a pay-for-performance disconnect (for Russell 3000 companies).

FOR

WITHHOLD

THE FUNDS will vote for proposals requesting that the board audit, compensation and/or nominating committees be composed of independent directors, only. Committees should be composed entirely of independent directors in order to avoid conflicts of interest.

THE FUNDS will withhold votes from any insiders or affiliated outsiders on audit, compensation or nominating committees. THE FUNDS will withhold votes from any insiders or affiliated outsiders on the board if any of these key committees has not been established.

THE FUNDS will vote against proposals from shareholders requesting an independent compensation **AGAINST** consultant. **Director Fees** THE FUNDS will vote for proposals to set director fees. **FOR** Minimum Stock Requirements by Directors **AGAINST** THE FUNDS will vote against proposals requiring directors to own a minimum number of shares of company stock in order to qualify as a director, or to remain on the board. Minimum stock ownership requirements can impose an across-the-board requirement that could prevent qualified individuals from serving as directors. **Indemnification and Liability Provisions for Directors and Officers FOR** THE FUNDS will vote for proposals to allow indemnification of directors and officers, when the actions taken were on behalf of the company and no criminal violations occurred. THE FUNDS will also vote in favor of proposals to purchase liability insurance covering liability in connection with those actions. Not allowing companies to indemnify directors and officers to the degree possible under the law would limit the ability of the company to attract qualified individuals. **AGAINST** Alternatively, THE FUNDS will vote against indemnity proposals that are overly broad. For example, THE FUNDS will oppose proposals to indemnify directors for acts going beyond mere carelessness, such as gross negligence, acts taken in bad faith, acts not otherwise allowed by state law or more serious violations of fiduciary obligations. **Nominee Statement in the Proxy** AGAINST THE FUNDS will vote against proposals that require board nominees to have a statement of candidacy in the proxy, since the proxy statement already provides adequate information pertaining to the election of directors. **Director Tenure/Retirement Age AGAINST** THE FUNDS will vote against proposals to limit the tenure of directors as such limitations based on an arbitrary number could prevent qualified individuals from serving as directors. However, THE FUNDS is in favor of inserting cautionary language when the average director tenure on the board exceeds 15 years for the entire board. **FOR**

The Funds will vote for proposals to establish a mandatory retirement age for directors provided that such retirement age is not less than 65.

Board Powers/Procedures/Qualifications

CASE-BY-CASE

THE FUNDS will consider on a case-by-case basis proposals to amend the corporation s By-laws so that the Board of Directors shall have the power, without the assent or vote of the shareholders, to make, alter, amend, or rescind the By-laws, fix the amount to be reserved as working capital, and fix the number of directors and what number shall constitute a quorum of the Board. In determining these issues, THE FUNDS will rely on the proxy voting Guidelines.

Adjourn Meeting to Solicit Additional Votes

THE FUNDS will examine proposals to adjourn the meeting to solicit additional votes on a case-by-case basis. As additional solicitation may be costly and could result in coercive pressure on shareholders, THE FUNDS will consider the nature of the proposal and its vote recommendations for the scheduled meeting.	CASE-BY-CASE
	FOR
THE FUNDS will vote for this item when:	
THE FUNDS is supportive of the underlying merger proposal; the company provides a sufficient, compelling reason to support the adjournment proposal; and the authority is limited to adjournment proposals requesting the authority to adjourn solely to solicit proxies to approve a transaction THE FUNDS supports.	
Reimbursement of Solicitation Expenses	
	CASE-BY-CASE
THE FUNDS will consider contested elections on a case-by-case basis, considering the following factors: long-term financial performance of the target company relative to its industry; management s track record; background of the proxy contest; qualifications of director or trustee nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.	
Board Structure: Staggered vs. Annual Elections	
	CASE-BY-CASE
THE FUNDS will consider the issue of classified boards on a case-by-case basis. In some cases, the division of the board into classes, elected for staggered terms, can entrench the incumbent management and make them less responsive to shareholder concerns. On the other hand, in some cases, staggered elections may provide for the continuity of experienced directors on the Board.	
Removal of Directors	
	CASE-BY-CASE
THE FUNDS will consider on a case-by-case basis proposals to eliminate shareholders rights to remove directors with or without cause or only with approval of two-thirds or more of the shares entitled to vote.	
	AGAINST
However, a requirement that a 75% or greater vote be obtained for removal of directors is abusive and will warrant a vote against the proposal.	
Board Vacancies	
	AGAINST

THE FUNDS will vote against proposals that allow the board to fill vacancies without shareholder approval as these authorizations run contrary to basic shareholders rights.

FOR

Alternatively, THE FUNDS will vote for proposals that permit shareholders to elect directors to fill board vacancies.

Cumulative Voting

CASE-BY-CASE

THE FUNDS will vote on proposals to permit or eliminate cumulative voting on a case-by-case basis based upon the existence of a counter balancing governance structure and company performance, in accordance with its proxy voting guideline philosophy.

THE FUNDS will vote for against cumulative voting if the board is elected annually.

Board Size	AGAINST
	FOR
THE FUNDS will vote for proposals that seek to fix the size of the board, as the ability for management to increase or decrease the size of the board in the face of a proxy contest may be used as a takeover defense.	
However, if the company has cumulative voting, downsizing the board may decrease a minority shareholder s chances of electing a director.	
By increasing the size of the board, management can make it more difficult for dissidents to gain control of the board. Fixing the size of the board also prevents a reduction in the board size as a means to oust independent directors or those who cause friction within an otherwise homogenous board.	
Shareholder Rights Plan (Poison Pills)	
THE FUNDS will generally vote for proposals that request a company to submit its poison pill for shareholder ratification.	FOR
Alternatively, THE FUNDS will analyze proposals to redeem a company s poison pill, or requesting the ratification of a poison pill on a case-by-case basis.	CASE-BY-CASE
Poison pills are one of the most potent anti-takeover measures and are generally adopted by boards without shareholder approval. These plans harm shareholder value and entrench management by deterring stock acquisition offers that are not favored by the board.	
Fair Price Provisions	
THE FUNDS will consider fair price provisions on a case-by-case basis, evaluating factors such as the vote required to approve the proposed mechanism, the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.	CASE-BY-CASE
THE FUNDS will vote against fair price provisions with shareholder vote requirements of 75% or more of disinterested shares.	AGAINST
Greenmail	

FOR

THE FUNDS will generally vote in favor of proposals limiting the corporation s authority to purchase shares of common stock (or other outstanding securities) from a holder of a stated interest (5% or more) at a premium unless the same offer is made to all shareholders. These are known as anti-greenmail provisions. Greenmail discriminates against rank-and-file CASE-BY-CASE shareholders and may have an adverse effect on corporate image.

If the proposal is bundled with other charter or bylaw amendments, THE FUNDS will analyze such proposals on a case-by-case basis. In addition, THE FUNDS will analyze restructurings that involve the payment of pale greenmail on a case-by-case basis.

Voting Rights

FOR

THE FUNDS will vote for proposals that seek to maintain or convert to a one-share, one-vote capital structure as such a principle ensures that management is accountable to all the company s owners.

Alternatively, THE FUNDS will vote against any proposals to cap the number of votes a shareholder is entitled to. Any measure that places a ceiling on voting may entrench management and lessen its interest in maximizing shareholder value.

AGAINST

Dual Class/Multiple-Voting Stock

AGAINST

THE FUNDS will vote against proposals that authorize, amend or increase dual class or multiple-voting stock which may be used in exchanges or recapitalizations. Dual class or multiple-voting stock carry unequal voting rights, which differ from those of the broadly traded class of common stock.

FOR

Alternatively, THE FUNDS will vote for the elimination of dual class or multiple-voting stock, which carry different rights than the common stock.

Confidential Voting

THE FUNDS will vote for proposals to adopt confidential voting.

FOR

Vote Tabulations

AGAINST

THE FUNDS will vote against proposals asking corporations to refrain from counting abstentions and broker non-votes in their vote tabulations and to eliminate the company s discretion to vote unmarked proxy ballots. Vote counting procedures are determined by a number of different standards, including state law, the federal proxy rules, internal corporate policies, and mandates of the various stock exchanges.

Equal Access to the Proxy

CASE-BY-CASE

THE FUNDS will evaluate Shareholder proposals requiring companies to give shareholders access to the proxy ballot for the purpose of nominating board members, on a case-by-case basis taking into account the ownership threshold proposed in the resolution and the proponent s rationale for the proposal at the targeted company in terms of board and director conduct.

Disclosure of Information

AGAINST

THE FUNDS will vote against shareholder proposals requesting fuller disclosure of company policies, plans, or business practices. Such proposals rarely enhance shareholder return and in many cases would require disclosure of confidential business information.

Annual Meetings

FOR

THE FUNDS will vote for proposals to amend procedures or change date or location of the annual meeting. Decisions as to procedures, dates or locations of meetings are best placed with management.

AGAINST

Alternatively, THE FUNDS will vote against proposals from shareholders calling for a change in the location or date of annual meetings as no date or location proposed will be acceptable to all shareholders.

FOR

THE FUNDS will generally vote in favor of proposals to reduce the quorum necessary for shareholders meetings, subject to a minimum of a simple majority of the company s outstanding voting shares.

Shareholder Advisory Committees/Independent Inspectors	
	AGAINST
THE FUNDS will vote against proposals seeking to establish shareholder advisory committees or independent inspectors. The existence of such bodies dilutes the responsibility of the board for managing the affairs of the corporation.	
Technical Amendments to the Charter of Bylaws	
	FOR
THE FUNDS will generally vote in favor of charter and bylaw amendments proposed solely to conform to modern business practices, for simplification, or to comply with what management s counsel interprets as applicable law.	CASE-BY-CASE
However, amendments that have a material effect on shareholder s rights will be considered on a case-by-case basis.	
Bundled Proposals	
	CASE-BY-CASE
THE FUNDS will vote for bundled or conditional proxy proposals on a case-by-case basis, as THE FUNDS will examine the benefits and costs of the packaged items, and determine if the effect of the conditioned items are in the best interests of shareholders.	
Dividends	
	FOR
THE FUNDS will vote for proposals to allocate income and set dividends.	
	FOR
THE FUNDS will also vote for proposals that authorize a dividend reinvestment program as it allows investors to receive additional stock in lieu of a cash dividend.	
	AGAINST
However, if a proposal for a special bonus dividend is made that specifically rewards a certain class of shareholders over another, THE FUNDS will vote against the proposal.	AGAINST
THE FUNDS will also vote against proposals from shareholders requesting management to redistribute profits or restructure investments. Management is best placed to determine how to allocate corporate earnings or set dividends.	

Reduce the Par Value of the Common Stock

FOR

THE FUNDS will vote for proposals to reduce the par value of common stock.

Preferred Stock Authorization

FOR

THE FUNDS will generally vote for proposals to create preferred stock in cases where the company expressly states that the stock will not be used as a takeover defense or carry superior voting rights, or where the stock may be used to consummate beneficial acquisitions, combinations or financings.

AGAINST

Alternatively, THE FUNDS will vote against proposals to authorize or issue preferred stock if the board has asked for the unlimited right to set the terms and conditions for the stock and may issue it for anti-takeover purposes without shareholder approval (blank check preferred stock).

In addition, THE FUNDS will vote against proposals to issue preferred stock if the shares to be used have voting rights **AGAINST** greater than those available to other shareholders. THE FUNDS will vote for proposals to require shareholder approval of blank check preferred stock issues for other than general corporate purposes (white squire placements). FOR **Preemptive Rights FOR** THE FUNDS will generally vote for proposals to eliminate preemptive rights. Preemptive rights are unnecessary to protect shareholder interests due to the size of most modern companies, the number of investors and the liquidity of trading. **Share Repurchase Plans FOR** THE FUNDS will vote for share repurchase plans, unless: AGAINST there is clear evidence of past abuse of the authority; or AGAINST the plan contains no safeguards against selective buy-backs. Corporate stock repurchases are a legitimate use of corporate funds and can add to long-term shareholder returns. **Executive and Director Compensation Plans** CASE-BY-CASE THE FUNDS will analyze on a case-by-case basis proposals on executive or director compensation plans, with the view that viable compensation programs reward the creation of stockholder wealth by having high payout sensitivity to increases in shareholder value. Such proposals may seek shareholder approval to adopt a new plan, or to increase shares reserved for an existing plan. FOR THE FUNDS will review the potential cost and dilutive effect of the plan. After determining how much the plan will cost, ISS evaluates whether the cost is reasonable by comparing the cost to an allowable cap. The allowable cap is industry-specific, market cap-base, and pegged to the average amount paid by companies performing in the top quartile of their peer groups. If the proposed cost is below the allowable cap, THE FUNDS will vote for the plan. ISS will also apply a pay for performance overlay in assessing equity-based compensation plans for Russell 3000 companies.

If the proposed cost is above the allowable cap, THE FUNDS will vote against the plan.	
	AGAINST
Among the plan features that may result in a vote against the plan are:	
	AGAINST
plan administrators are given the authority to reprice or replace underwater options; repricing guidelines will conform to changes in the NYSE and NASDAQ listing rules.	
THE FUNDS will vote against equity plans that have high average three-year burn rate. (The burn rate is calculated as the total number of stock awards and stock options granted any given year divided by the number of common shares outstanding.) THE FUNDS will define a high average three-year burn rate as the following: The company s most recent	AGAINST

three-year burn rate exceeds one standard deviation of its four-digit GICS peer group segmented by Russell 3000 index and non-Russell 3000 index; and the company s most recent three-year burn rate exceeds 2% of common shares outstanding. For companies that grant both full value awards and stock options to their employees, THE FUNDS shall

apply

a premium on full value awards for the past three fiscal years.	
Even if the equity plan fails the above burn rate, THE FUNDS will vote for the plan if the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation. If the company fails to fulfill its burn rate commitment, THE FUNDS will consider withholding from the members of the compensation committee.	FOR
THE FUNDS will calculate a higher award value for awards that have Dividend Equivalent Rights (DER s) associated with them.	CASE-BY-CASE
THE FUNDS will generally vote for shareholder proposals requiring performance-based stock options unless the proposal is overly restrictive or the company demonstrates that it is using a substantial portion of performance-based awards for its top executives.	FOR
THE FUNDS will vote for shareholder proposals asking the company to expense stock options, as a result of the FASB final rule on expensing stock options.	FOR
THE FUNDS will generally vote for shareholder proposals to exclude pension fund income in the calculation of earnings used in determining executive bonuses/compensation.	FOR FOR
THE FUNDS will generally vote for TSO awards within a new equity plan if the total cost of the equity plan is less than the company s allowable cap.	AGAINST
THE FUNDS will generally vote against shareholder proposals to ban future stock option grants to executives. This may be supportable in extreme cases where a company is a serial repricer, has a huge overhang, or has highly dilutive, broad-based (non-approved) plans and is not acting to correct the situation.	CASE-BY-CASE
THE FUNDS will evaluate shareholder proposals asking companies to adopt holding periods for their executives on a case-by-case basis taking into consideration the company s current holding period or officer share ownership requirements, as well as actual officer stock ownership in the company.	FOR
For certain OBRA-related proposals, THE FUNDS will vote for plan provisions that (a) place a cap on annual grants or amend administrative features, and (b) add performance criteria to existing compensation plans to comply with the provisions of Section 162(m) of the Internal Revenue Code.	CASE-BY-CASE

In addition, director compensation plans may also include stock plans that provide directors with the option of taking all or a portion of their cash compensation in the form of stock. THE FUNDS will consider these plans based on their voting power dilution.

THE FUNDS will generally vote for retirement plans for directors.

THE FUNDS will evaluate compensation proposals (Tax Havens) requesting share option schemes or amending an existing share option scheme on a case-by-case basis.

Stock options align management interests with those of shareholders by motivating executives to maintain stock price appreciation. Stock options, however, may harm shareholders by diluting each owner s interest. In addition, exercising options can shift the balance of voting power by increasing executive ownership.

	FOR
Bonus Plans	CASE-BY-CASE
	CASE-BY-CASE
THE FUNDS will vote for proposals to adopt annual or long-term cash or cash-and-stock bonus plans on a case-by-case basis. These plans enable companies qualify for a tax deduction under the provisions of Section 162(m) of the IRC. Payouts under these plans may either be in cash or stock and are usually tied to the attainment of certain financial or other performance goals. THE FUNDS will consider whether the plan is comparable to plans adopted by companies of similar size in the company s industry and whether it is justified by the company s performance.	
Deferred Compensation Plans	
	FOR
THE FUNDS will generally vote for proposals to adopt or amend deferred compensation plans as they allow the compensation committee to tailor the plan to the needs of the executives or board of directors, unless	
	AGAINST
the proposal is embedded in an executive or director compensation plan that is contrary to guidelines	
Disclosure on Executive or Director Compensation Cap or Restrict Executive or Director Compensation	
THE FUNDS will generally vote for shareholder proposals requiring companies to report on their executive retirement benefits (deferred compensation, split-dollar life insurance, SERPs, and pension benefits.	FOR
THE FUNDS will generally vote for shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote, unless the company s executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.	FOR
THE FUNDS will generally vote against proposals seek to limit executive and director pay.	AGAINST
Tax-Gross-Up Payments	
	CASE-BY-CASE
THE FUNDS will examine on a case-by-case basis proposals calling for companies to adopt a policy of not providing tax gross-up payments to executives.	

Relocation Benefits

The FUNDS will not consider relocation benefits as a problematic pay practice in connection with management say-on-pay proposals.

Exchange Offers/Re-Pricing

The FUNDS will not vote against option exchange programs made available to executives and directors that are otherwise found acceptable.

Golden and Tin Parachutes

THE FUNDS will vote for proposals that seek shareholder ratification of golden or tin parachutes as shareholders should have the opportunity to approve or disapprove of these severance agreements.	
Alternatively, THE FUNDS will examine on a case-by-case basis proposals that seek to ratify or cancel golden or tin parachutes. Effective parachutes may encourage management to consider takeover bids more fully and may also enhance employee morale and productivity. Among the arrangements that will be considered on their merits are:	CASE-BY-CASE
arrangements guaranteeing key employees continuation of base salary for more than three years or lump sum payment of more than three times base salary plus retirement benefits;	
guarantees of benefits if a key employee voluntarily terminates;	AGAINST
guarantees of benefits to employees lower than very senior management; and	
indemnification of liability for excise taxes.	
By contrast, THE FUNDS will vote against proposals that would guarantee benefits in a management-led buyout.	
Stakeholder Laws	
THE FUNDS will vote against resolutions that would allow the Board to consider stakeholder interests (local	AGAINST
communities, employees, suppliers, creditors, etc.) when faced with a takeover offer.	FOR
Similarly, THE FUNDS will vote for proposals to opt out of stakeholder laws, which permit directors, when taking action, to weight the interests of constituencies other than shareholders in the process of corporate decision-making. Such laws allow directors to consider nearly any factor they deem relevant in discharging their duties.	
Mergers/Acquisitions and Corporate Restructurings	
	CASE-BY-CASE
THE FUNDS will consider proposals on mergers and acquisitions on a case-by-case basis. THE FUNDS will determine if the transaction is in the best economic interests of the shareholders. THE FUNDS will take into account the following	

factors:

anticipated financial and operating benefits;	
	CASE-BY-CASE
offer price (cost versus premium);	
prospects for the combined companies;	CASE-BY-CASE
how the deal was negotiated;	
changes in corporate governance and their impact on shareholder rights.	
In addition, THE FUNDS will also consider whether current shareholders would control a minority of the combined company s outstanding voting power, and whether a reputable financial advisor was retained in order to ensure the	
protection of shareholders interests.	
On all other business transactions, i.e. corporate restructuring, spin-offs, asset sales, liquidations, and restructurings, THE FUNDS will analyze such proposals on a case-by-case basis and utilize the majority of the above factors in determining what is in the best interests of shareholders. Specifically, for liquidations, the cost versus premium factor may not be	
applicable, but THE FUNDS may also review the compensation plan for executives managing the liquidation.	

Appraisal Rights

THE FUNDS will vote for proposals to restore, or provide shareholders with rights of appraisal.	FOR
Rights of appraisal provide shareholders who are not satisfied with the terms of certain corporate transactions (such as mergers) the right to demand a judicial review in order to determine the fair value of their shares.	
Mutual Fund Proxies	
	CASE-BY-CASE
THE FUNDS will vote mutual fund proxies on a case-by-case basis.	
Proposals may include, and are not limited to, the following issues:	
eliminating the need for annual meetings of mutual fund shareholders;	
entering into or extending investment advisory agreements and management contracts;	
permitting securities lending and participation in repurchase agreements;	
changing fees and expenses; and	
changing investment policies.	
APPENDIX B	
го	
PROXY VOTING POLICIES AND PROCEDURES	
Members of Funds Management Proxy Voting Committee	
Thomas C. Biwer, CFA	
Mr. Biwer has 38 years experience in finance and investments. He has served as an investment analyst, portfolio strategist, pension officer. He received B.S. and M.B.A. degrees from the University of Illinois and has earned the right to use the CF.	

Erik J. Sens, CFA

Mr. Sens has 22 years of investment industry experience. He has served as an investment analyst and portfolio manager. He received undergraduate degrees in Finance and Philosophy from the University of San Francisco and has earned the right to use the CFA designation.

Travis L. Keshemberg, CFA

Mr. Keshemberg has 17 years experience in the investment industry. He has served as a overlay portfolio manager and investment consultant. He holds a Masters Degree from the University of Wisconsin Milwaukee and Bachelors degree from Marquette University. He has earned the right to use the CFA, CIPM and CIMA designations.

Patrick E. McGuinnis, CFA

Mr. McGuinnis has 12 years of experience in the investment industry as an analyst. He holds B.S. and M.S. degrees in Finance from the University of Wisconsin and has earned the right to use the CFA designation.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PORTFOLIO MANAGERS

Niklas Nordenfelt, CFA

Mr. Nordenfelt is jointly responsible for managing the Fund, which he has managed since 2010. Mr. Nordenfelt joined Wells Capital Management in 2003, where he is a senior portfolio manager and co-manager of the Sutter High Yield Fixed Income team. Education: B.S., Economics, University of California, Berkeley.

Philip Susser

Mr. Susser is jointly responsible for managing the Fund, which he has managed since 2010. Mr. Susser joined Wells Capital Management in 2001, where he is a senior portfolio manager and co-manager of the Sutter High Yield Fixed Income team. Education: B.A., Economics, University of Pennsylvania; J.D., University of Michigan.

Janet S. Rilling, CFA, CPA

Mr. Rilling is jointly responsible for managing the Fund, which she has managed since 2011. Ms. Rilling has been with Wells Capital Management or one of its affiliate firms since 2005. Ms Rilling has been working in the investment management field since 1995.

Michael Bray, CFA

Mr. Bray is jointly responsible for managing the Fund, which he has managed since 2011. Mr. Bray joined Wells Capital Management in 2005 as a portfolio manager on the Customized Fixed Income Team specializing in government, agency and interest rate derivative instruments. Prior to joining Wells Capital Management, Mr. Bray was a principal responsible for multi-currency yield curve arbitrage business at Windward Capital, LLC from 2004 to 2005. From 1996 to 2004, he was the managing director at State Street Research and Management, focusing on mutual fund and institutional account management. Education: B.S., Math and Actuarial Science, University of Connecticut, Storrs; M.B.A., Pennsylvania State University.

Christopher Y. Kauffman, CFA

Mr. Kauffman is jointly responsible for managing Fund, which he has managed since 2008. Mr. Kauffman has been with Wells Capital Management or an affiliate firm since 2003, where he is a senior portfolio manager with Wells Fargo affiliate Tattersall Advisory Group (TAG). Education: B.A., Finance and Economics, Master s, Business Administration with an emphasis in finance, Washington University in St. Louis, MO.

Anthony Norris

Mr. Norris is jointly responsible for managing Fund, which he has managed since 2003. Mr. Norris is Managing Director, Chief Investment Officer, and Senior Portfolio Manager with First International Advisors. He has been with Wells Capital or one of its affiliate firms since 1990.

Peter Wilson

Mr. Wilson is jointly responsible for managing the Fund, which he has managed since 2003. Mr. Wilson is Managing Director, Chief Operating Officer, and Senior Portfolio Manager with First International Advisors in London. Mr. Wilson has been with Wells Capital or one of its affiliate firms since 1989. He was educated in Canada, Hong Kong and England.

Michael Lee

Mr. Lee is jointly responsible for managing the Fund, which he has managed since 2003. Mr. Lee joined First International Advisors in 1992, where he currently serves as a Director of Trading and Senior Portfolio Manager.

Alex Perrin

Mr. Perrin is jointly responsible for managing the Fund, which he has managed since 2003. Mr. Perrin joined First International Advisors in 1992, where he currently serves as Director of Research and Senior Portfolio Manager.

Christopher Wightman

Mr. Wightman is jointly responsible for managing the Fund, which he has managed since 2012. Mr. Wightman joined First International Advisors in 2011, where he currently serves as Senior Portfolio Manager. Prior to joining First International Advisors, he served as a senior investment manager specializing in global fixed income strategies at JP Morgan Chase.

OTHER FUNDS AND ACCOUNTS MANAGED

The following table provides information about the registered investment companies and other pooled investment vehicles and accounts managed by the portfolio manager of the Fund as of the Fund s most recent period ended October 31, 2012.

MATERIAL CONFLICTS OF INTEREST							

The Portfolio Managers face inherent conflicts of interest in their day-to-day management of the Funds and other accounts because the Funds may have different investment objectives, strategies and risk profiles than the other accounts managed by the Portfolio Managers. For instance, to the extent that the Portfolio Managers manage accounts with different investment strategies than the Funds, they may from time to time be inclined to purchase securities, including initial public offerings, for one account but not for a Fund. Additionally, some of the accounts managed by the Portfolio Managers may have different fee structures, including performance fees, which are or have the potential to be higher or lower, in some cases significantly higher or lower, than the fees paid by the Funds. The differences in fee structures may provide an incentive to the Portfolio Managers to allocate more favorable trades to the higher-paying accounts.

To minimize the effects of these inherent conflicts of interest, the Sub-Advisers have adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that they believe address the potential conflicts associated with managing portfolios for multiple clients and ensure that all clients are treated fairly and equitably. Additionally, some of the Sub-Advisers minimize inherent conflicts of interest by assigning the Portfolio Managers to accounts having similar objectives. Accordingly, security block purchases are allocated to all accounts with similar objectives in proportionate weightings. Furthermore, the Sub-Advisers have adopted a Code of Ethics under Rule 17j-1 of the 1940 Act and Rule 204A-1 under the Investment Advisers Act of 1940 (the Advisers Act) to address potential conflicts associated with managing the Funds and any personal accounts the Portfolio Managers may maintain.

First International Advisors

First International Advisors Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, First International Advisors has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

Wells Capital Management

Wells Capital Management s Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, Wells Capital Management has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

COMPENSATION

The Portfolio Managers were compensated by their employing sub-adviser from the fees the Adviser paid the Sub-Adviser using the following compensation structure:

First International Advisors Compensation. The compensation structure for First International Advisors so Portfolio Managers includes a competitive fixed base salary plus variable incentives (First International Advisors utilizes investment management compensation surveys as confirmation). Incentive bonuses are typically tied to pretax relative investment performance of all accounts under his or her management within acceptable risk parameters. Relative investment performance is generally evaluated for 1, 3, and 5 year performance results, with a predominant weighting on the 3-and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. This evaluation takes into account relative performance of the accounts to each account s individual benchmark and/or the relative composite performance of all accounts to one or more relevant benchmarks consistent with the overall investment style. In the case of each Fund, the benchmark(s) against which the performance of the Fund s portfolio may be compared for these purposes generally are indicated in the Performance sections of the Prospectuses.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASES

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Governance Committee (the Committee) of the Board of Trustees of the registrant (the Trust) has adopted procedures by which a shareholder of any series of the Trust may submit properly a nominee recommendation for the Committee s consideration.

The shareholder must submit any such recommendation (a Shareholder Recommendation) in writing to the Trust, to the attention of the Trust s Secretary, at the address of the principal executive offices of the Trust.

The Shareholder Recommendation must be delivered to, or mailed and received at, the principal executive offices of the Trust not less than forty-five (45) calendar days nor more than seventy-five (75) calendar days prior to the date of the Committee meeting at which the nominee would be considered.

The Shareholder Recommendation must include: (i) a statement in writing setting forth (A) the name, age, date of birth, business address, residence address and nationality of the person recommended by the shareholder (the candidate); (B) the series (and, if applicable, class) and number of all shares of the Trust owned of record or beneficially by the candidate, as reported to such shareholder by the candidate; (C) any other information regarding the candidate called for with respect to director nominees by paragraphs (a), (d), (e) and (f) of Item 401 of Regulation S-K or paragraph (b) of Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended (the Exchange Act), adopted by the Securities and Exchange Commission (or the corresponding provisions of any regulation or rule subsequently adopted by the Securities and Exchange Commission or any successor agency applicable to the Trust); (D) any other information regarding the candidate that would be required to be disclosed if the candidate were a nominee in a proxy statement or other filing required to be made in connection with solicitation of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder; and (E) whether the recommending shareholder believes that the candidate is or will be an interested person of the Trust (as defined in the Investment Company Act of 1940, as amended) and, if not an interested person, information regarding the candidate that will be sufficient for the Trust to make such determination; (ii) the written and signed consent of the candidate to be named as a nominee and to serve as a Trustee if elected; (iii) the recommending shareholder s name as it appears on the Trust s books; (iv) the series (and, if applicable, class) and number of all shares of the Trust owned beneficially and of record by the recommending shareholder; and (v) a description of all arrangements or understandings between the recommending shareholder and the candidate and any other person or persons (including their names) pursuant to which the recommendation is being made by the recommending shareholder. In addition, the Committee may require the

candidate to interview in person and furnish such other information as it may reasonably require or deem necessary to determine the eligibility of such candidate to serve as a Trustee of the Trust.

ITEM 11. CONTROLS AND PROCEDURES

- (a) The President and Treasurer have concluded that the Wells Fargo Advantage Multi-Sector Income Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.
- (b) There were no significant changes in the Trust s internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the second quarter of the period covered by this report that materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

ITEM 12. EXHIBITS

- (a)(1) Code of Ethics pursuant to Item 2 of Form N-CSR is filed and attached hereto as Exhibit 10a.
- (a)(2) Certification pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is filed and attached hereto as Exhibit 99.CERT.
- (a)(3) Not applicable.
- (b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) is filed and attached hereto as Exhibit 99.906CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
