LETTER TO MYLAN SHAREHOLDERS

Dear Fellow Mylan Inc. Shareholders:

Over the last several years, Mylan Inc. (Mylan) has undergone a strategic transformation from a domestic generics company into a global leader in the pharmaceutical industry one with unprecedented scale in our operating platform, diversity in our portfolio, and significant control over the cost and quality of our products. In addition to the cultivation of numerous organic growth drivers, a key aspect of our transformation and growth has been meaningful participation in the ongoing consolidation of the global pharmaceutical industry. Mylan has been highly active in evaluating and acquiring major assets within the industry that would effectively build on our operating platform and commercial presence, complement our existing strengths and capabilities, enhance our financial flexibility, strengthen our competitive position, and deliver additional shareholder value.

In furtherance of this strategy, Mylan identified Abbott's non-U.S. developed markets specialty and branded generics business (the Business) as an exceptional asset and the right next strategic transaction for Mylan. Mylan subsequently entered into an Amended and Restated Business Transfer Agreement and Plan of Merger with New Moon B.V., a new holding company organized and existing under the laws of the Netherlands (New Mylan), Moon of PA Inc. (Merger Sub), and Abbott Laboratories (Abbott), dated as of November 4, 2014 (the Business Transfer Agreement), providing for, among other things, the acquisition of Mylan and the Business by New Mylan. As consideration for the transfer of the Business, Abbott will receive 110,000,000 New Mylan ordinary shares and, in exchange for their shares of Mylan common stock, Mylan shareholders will receive an equal number of New Mylan ordinary shares. Immediately following the transaction, the former shareholders of Mylan will own approximately 78% and Abbott's affiliates will own approximately 22% of the outstanding New Mylan ordinary shares. The exchange of shares of Mylan common stock for New Mylan ordinary shares will be a taxable transaction for Mylan shareholders. The New Mylan ordinary shares are expected to be listed on the NASDAQ Global Select Market under the ticker symbol MYL.

Mylan is undertaking this transaction because we believe that the Business is a compelling strategic fit, which will help Mylan accomplish a number of our goals. Specifically, the Business will diversify and build upon the infrastructure and strategy we already have in place; enhance our geographic footprint and commercial platform in non-U.S. geographies; create critical mass across customer sales channels; and create significant financial flexibility and a more competitive tax structure, better positioning Mylan for future opportunities.

The Business, which is being acquired on a debt-free basis, includes an attractive and differentiated portfolio of more than 100 specialty, branded generic and over-the-counter pharmaceutical products in five major therapeutic areas (cardio/metabolic, gastrointestinal, anti-infective/respiratory, CNS/pain, and women's and men's health). The portfolio includes several patent-protected, novel, and/or hard-to-manufacture products with durable growth potential. Key products include Creon[®], Influvac[®], Brufen[®], Amitiza[®], and AndroGel[®], among others.

The Business will enhance Mylan's geographic reach and provide Mylan with enhanced scale and critical mass in our largest markets outside of the United States. The transaction is expected to approximately double Mylan's revenues in Europe by strengthening our presence in Italy, the United Kingdom, Germany, France, Spain, and Portugal, among others. It is also expected to more than double Mylan's revenues in Canada and Japan and build on Mylan's business in Australia and New Zealand. The transaction also will provide Mylan with a meaningful presence in the specialty and branded generics markets in Central and Eastern Europe.

Table of Contents

Additionally, the Business will significantly expand Mylan's commercial platform and capabilities. The Business includes an active sales organization of approximately 2,000 representatives serving more than 40 non-U.S. markets. The Business's strong sales force in key developed markets will enhance Mylan's reach with physicians and patients and complements Mylan's existing strength in pharmacies. This platform will provide Mylan with the enhanced infrastructure and expertise to more effectively execute on existing growth opportunities that require access to the physician channel, such as the global expansion of EpiPen® Auto-Injector and the anticipated launch of biologics and respiratory products, including generic Seretide® and generic Advair®.

The Business also will bring Mylan two high-quality manufacturing facilities in France and Japan.

The Business is expected to provide approximately \$1.9 billion in additional annual revenues and approximately \$670 million in additional annual adjusted EBITDA (pre-operational efficiencies) at closing. We believe that we are uniquely positioned to drive enhanced financial performance and profitability from these assets by leveraging our integrated, efficient operating platform, more effectively distributing the portfolio across channels, and maintaining a greater strategic focus on key products. As a result, we expect to stabilize revenues and grow earnings before interest, taxes, depreciation, and amortization (EBITDA) and EBITDA margins.

The transaction is expected to be immediately and significantly accretive to Mylan and to deliver in excess of \$200 million in cumulative pre-tax operational efficiencies by the end of the third year after closing. Mylan has experience in successfully integrating large, complex transactions such as this one, and we are confident in our ability to deliver the value inherent from this combination.

Mylan's pro forma leverage at closing, which is expected to be significantly enhanced at approximately 2.3x debt-to-adjusted EBITDA, substantially below current levels, and strong cash flow generation will further enhance Mylan's balance sheet and provide financial flexibility to pursue future opportunities in the continually evolving and consolidating pharmaceutical sector to create additional shareholder value. The transaction also is expected to lower Mylan's adjusted tax rate (currently forecasted to be approximately 24-25% in 2014) to approximately 20-21% in the first full year after the consummation of the transaction, and to the high teens thereafter, further enhancing Mylan's competitiveness.

In conclusion, we are even more confident in our ability to continue to deliver double-digit long-term growth for our shareholders in the future. We will continue to aggressively seek opportunities to leverage Mylan's exceptional platform and even better position Mylan for the next phase of its growth.

We look forward to a successful transaction.

Very truly yours,

Robert J. Coury
