Westport Shareholders Vote For Merger

with Fuel Systems at Shareholder Meeting

~Merger plus all other resolutions pass with overwhelming shareholder support~

March 18, 2016

VANCOUVER, BC Westport Innovations Inc. (TSX:WPT / NASDAQ:WPRT) (**Westport**), engineering the world's most advanced natural gas engines and vehicles, announced today that it held its Special Meeting of Shareholders (the **Meeting**) in Vancouver, British Columbia and its shareholders approved all resolutions presented in relation to the proposed business combination (the **Merger**) between Westport and Fuel Systems Solutions, Inc. (**Fuel Systems**). At the Meeting, shareholders approved the issuance of such number of Westport common shares as required according to the Agreement and Plan of Merger dated September 1, 2015 (as amended) to complete the Merger, with 98% of votes cast voted in favour of the resolution, 94% of votes cast voted in favour of the amendment to Westport's Omnibus Incentive Plan, and 98% of votes cast voted in favour of amending the articles of incorporation of Westport to change its name from Westport Innovations Inc. to Westport Fuel Systems Inc.

Our shareholders have spoken and clearly believe, as do we, that this merger will create a stronger company with greater scale, global reach and substantial synergies, said David Demers, CEO of Westport. We look forward to working together as one company as we await the results of Fuel Systems' shareholder meeting.

Benefits of the Merger to Westport Shareholders and Westport Board Recommendation

The Westport Board of Directors believes that the Merger will provide Westport and its shareholders with a number of significant strategic and financial benefits, including but not limited to the following:

Scale The combined company is expected to provide the scale and expertise to compete effectively, grow, and deliver strong shareholder returns especially when markets improve.

Strength The combined company is expected to benefit from a strengthened balance sheet and enhanced liquidity, and to be positioned for continued investment and long-term financial stability.

Global reach The combined company is expected to have a broad global reach enabling it to better serve customers and distributors. It will offer state-of-the-art facilities on five continents and a distribution network serving 70 countries, including the world's largest and fastest-growing markets. It will also bring together strong product brands including: Emer, Prins, OMVL, BRC, IMPCO, Zavoli and more.

Increased efficiencies Consolidation is expected to produce cost-efficiencies. The Merger is expected to be accretive to the combined company's adjusted EBITDA and earnings in 2016, excluding one-time costs. Total annual savings and Merger synergies are expected to reach approximately \$30 million by 2018, excluding one-time costs.

Enhanced R&D and product development The Merger is expected to combine Westport's expertise in medium- and heavy-duty, and high horsepower applications with Fuel Systems' core focus and development efforts in automotive and industrial applications. The combined technological expertise and product development will span from passenger cars to heavy-duty trucks to locomotives, and from marine applications to stationary power.

Deep OEM relationships The combined company is expected to have strong original equipment manufacturer (OEM) relationships. Both companies have built long-standing relationships with OEMs such as General Motors Company, Ford Motor Company, Nissan Motor Company, Kia Motors Corporation, Subaru of Fuji Heavy Industries, Mitsubishi Group, Volvo Car Group, Volkswagen, Fiat Chrysler Automobiles, Tata Motors, GAZ Group, PACCAR Inc., Weichai and Cummins.

The resolutions are fully described in the Supplement to the Management Information Circular of Westport dated March 7 2016, which can be found on the Westport website: www.westport.com/merger.

About Westport

Westport engineers the world's most advanced natural gas engines and vehicles. More than that, we are fundamentally changing the way the world travels the roads, rails and seas. We work with original equipment manufacturers (OEMs) worldwide from design through to production, creating products to meet the growing demand for vehicle technology that will reduce both emissions and fuel costs.
