Apollo Senior Floating Rate Fund Inc.**Schedule of Investments (continued)****September 30, 2016 (unaudited)**

(a) Senior Loans are senior, secured loans made to companies whose debt is below investment grade as well as investments with similar economic characteristics. Senior Loans typically hold a first lien priority and, unless otherwise indicated, are required to pay interest at floating rates that are periodically reset by reference to a base lending rate plus a spread. In some instances, the rates shown represent the weighted average rate as of September 30, 2016. Senior Loans are generally not registered under the Securities Act of 1933 (the "1933 Act") and often incorporate certain restrictions on resale and cannot be sold publicly. Senior Loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual maturity may be substantially less than the stated maturity.

Senior Loan assets may have additional unfunded loan commitments. As of September 30, 2016, the Fund had unfunded loan commitments, which could be extended at the option of the borrower, pursuant to the following loan agreements:

Borrower	Unfunded Loan Commitments
USS Parent Holding Corp.	\$ 357,219
Total unfunded loan commitments	\$ 357,219

- (b) All or a portion of this Senior Loan position has not settled. Full contract rates do not take effect until settlement date and therefore are subject to change.
- (c) The interest rate on this Senior Loan is subject to a base lending rate plus a spread. These base lending rates are primarily the London Interbank Offered Rate ("LIBOR") and secondarily the prime rate offered by one or more major U.S. banks ("Prime"). The interest rate is subject to a minimum floor, which may be less than or greater than the prevailing period end LIBOR/Prime rate. As of September 30, 2016, the 1, 3 and 6 month LIBOR rates were 0.53%, 0.85% and 1.24%, respectively, and the Prime lending rate was 3.50%. Senior Loans may contain multiple contracts of the same issuer which may be subject to base lending rates of both LIBOR and Prime ("Variable") in addition to the stated spread.
- (d) Foreign issuer traded in U.S. dollars.
- (e) Fair Value Level 3 security. All remaining securities are categorized as Level 2.
- (f) Represents a payment-in-kind ("PIK") security, which may pay interest in additional principal amount.
- (g) Fixed rate asset.
- (h) Non-income producing asset.
- (i) Securities exempt from registration pursuant to Rule 144A under the 1933 Act. These securities may only be resold in transactions exempt from registration to qualified institutional buyers. At September 30, 2016, these securities amounted to \$25,649,599, or 9.12% of net assets.
- (j)

Edgar Filing: Apollo Senior Floating Rate Fund Inc. - Form N-Q

The issuer is in default of its payment obligations as of May 5, 2015, as such, income is no longer being accrued. The issuer paid a cash dividend to all shareholders of record as of January 6, 2016, which was recorded as a cost basis adjustment.

- (k) The aggregate cost of securities for federal income tax purposes was \$424,965,470. Cost for U.S. federal income tax purposes differs from book basis primarily due to the deferral of losses from wash sales. Unrealized appreciation and depreciation on investments were as follows:

Gross unrealized appreciation	\$ 4,985,000
Gross unrealized depreciation	(10,439,990)
Net unrealized depreciation	\$ (5,454,990)

- (l) The Fund has granted a security interest in substantially all of its assets in the event of default under the credit facility.
- (m) Principal \$140,000,000 less unamortized deferred financing costs of \$573,641.

Notes to Schedule of Investments

September 30, 2016 (unaudited)

Security Valuation

Apollo Senior Floating Rate Fund Inc. (the Fund) values its investments primarily using the mean of the bid and ask prices provided by a nationally recognized security pricing service or broker. Senior Loans, corporate notes and bonds, common stock and preferred stock are priced based on valuations provided by an approved independent pricing service or broker, if available. If market or broker quotations are not available, or a price is not available from an independent pricing service or broker, or if the price provided by the independent pricing service or broker is believed to be unreliable, the security will be fair valued pursuant to procedures adopted by the Fund's board of directors (the Board). In general, the fair value of a security is the amount that the Fund might reasonably expect to receive upon the sale of an asset or pay to transfer a liability in an orderly transaction between willing market participants at the reporting date. Fair value procedures generally take into account any factors deemed relevant, which may include, among others, (i) the nature and pricing history of the security, (ii) the liquidity or illiquidity of the market for the particular security, (iii) recent purchases or sales transactions for the particular security or similar securities and (iv) press releases and other information published about the issuer. In these cases, the Fund's net asset value (NAV) will reflect the affected portfolio securities' fair value as determined in the judgment of the Board or its designee instead of being determined by the market. Using a fair value pricing methodology to value securities may result in a value that is different from a security's most recent sale price and from the prices used by other investment companies to calculate their NAV. Determination of fair value is uncertain because it involves subjective judgments and estimates. There can be no assurance that the Fund's valuation of a security will not differ from the amount that it realizes upon the sale of such security.

Fair Value Measurements

The Fund has performed an analysis of all existing investments to determine the significance and character of all inputs to their fair value determination. The levels of fair value inputs used to measure the Fund's investments are characterized into a fair value hierarchy. The three levels of the fair value hierarchy are described below:

Level 1 Quoted unadjusted prices for identical assets and liabilities in active markets to which the Fund has access at the date of measurement;

Level 2 Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, but are valued based on executed trades, broker quotations that constitute an executable price, and alternative pricing sources supported by observable inputs which, in each case, are either directly or indirectly observable for the asset in connection with market data at the measurement date; and

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. In certain cases, investments classified within Level 3 may include securities for which the Fund has obtained indicative quotes from broker-dealers that do not necessarily represent prices the broker may be willing to trade on, as such quotes can be subject to material management judgment. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

At the end of each reporting period, management evaluates the Level 2 and Level 3 assets, if any, for changes in liquidity, including but not limited to: whether a broker is willing to execute at the quoted price, the depth and

consistency of prices from independent pricing services, and the existence of contemporaneous, observable trades in the market.

Apollo Senior Floating Rate Fund Inc.**Notes to Schedule of Investments (continued)****September 30, 2016 (unaudited)**

The valuation techniques used by the Fund to measure fair value at September 30, 2016 maximized the use of observable inputs and minimized the use of unobservable inputs. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Transfers into and out of the levels are recognized at the value at the end of the period. A summary of the Fund's investments categorized in the fair value hierarchy as of September 30, 2016 is as follows:

Apollo Senior Floating Rate Fund Inc.

	Total Fair Value at September 30, 2016	Level 1 Quoted Price	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Assets				
Cash and Cash Equivalents	\$ 31,434,394	\$ 31,434,394	\$	\$
Senior Loans	388,670,712		367,870,304	20,800,408
Corporate Notes and Bonds	26,866,397		26,866,397	
Common Stock	49,235			49,235
Preferred Stock	3,924,136			3,924,136
Unrealized appreciation on Unfunded Loan Commitments	3,870		3,870	
Total Assets	\$ 450,948,744	\$ 31,434,394	\$ 394,740,571	\$ 24,773,779

The following is a reconciliation of Level 3 holdings for which significant unobservable inputs were used in determining fair value for the period January 1, 2016 through September 30, 2016.

Apollo Senior Floating Rate
Fund Inc.

	Total	Senior Loans	Corporate Notes and Bonds	Common Stock	Preferred Stock
Fair Value, beginning of period	\$ 36,863,012	\$ 33,001,459	\$ 35,465	\$	\$ 3,826,088
Purchases, including capitalized PIK	2,377,856	2,377,856			
Sales	(16,406,869)	(16,406,869)			
Accretion/(amortization) of discounts/(premiums)	65,194	65,194			
Net realized gain/(loss)	(1,690,838)	(1,690,838)			
Change in net unrealized appreciation/(depreciation)	2,701,891	2,639,308	(35,465)		98,048
Transfers into Level 3	14,531,528	14,482,293		49,235	
Transfers out of Level 3	(13,667,995)	(13,667,995)			
Total Fair Value, end of period	\$ 24,773,779	\$ 20,800,408	\$	\$ 49,235	\$ 3,924,136

Assets were transferred from Level 2 to Level 3 or from Level 3 to Level 2 as a result of changes in levels of liquid market observability when subject to various criteria as discussed previously. There were no transfers between Level 1 and Level 2 fair value measurement during the period shown. Warrants held at the beginning of the period have been fully exercised. The net change in unrealized appreciation/(depreciation) attributable to Level 3 investments still held at September 30, 2016 was \$828,726.

Apollo Senior Floating Rate Fund Inc.**Notes to Schedule of Investments (continued)****September 30, 2016 (unaudited)**

The following table provides quantitative measures used to determine the fair values of the Level 3 investments as of September 30, 2016:

Apollo Senior Floating Rate Fund Inc.				
Assets	Fair Value at September 30, 2016	Valuation Technique(s)	Unobservable Input(s)	Range of Unobservable Input(s) Utilized
Senior Loans	\$17,735,517	Independent pricing service and/or broker quotes	Vendor and/or broker quotes	N/A
	3,064,100	Market comparable approach ^(a)	Total enterprise value/EBITDA ^(a)	6.75x
	791	Recoverability ^(b)	Wind down costs ^(b)	\$14.43m to \$18.04m
Corporate Notes and Bonds		Recoverability ^(b)	Wind down costs ^(b)	\$14.43m to \$18.04m
Common Stock		Market comparable approach ^(a)	Total enterprise value/EBITDA ^(a)	6.75x
	49,235	Independent pricing service and/or broker quotes	Vendor and/or broker quotes	N/A

Preferred Stock	<u>3,924,136</u>	Discounted cash flow ^(c)	Discount rate ^(c)	8.66%
Total Fair Value	<u>\$24,773,779</u>			

- (a) The Fund utilized a market comparable approach to fair value this security. The significant unobservable inputs used in the valuation model were total enterprise value and earnings before interest, taxes, depreciation and amortization (EBITDA) based on comparable multiples for a similar investment with similar risks. Significant increases or decreases in either of these inputs in isolation may result in a significantly higher or lower fair value measurement.
- (b) The Fund utilized a recoverability approach to fair value this security, specifically a liquidation analysis. There are various, company-specific inputs used in the valuation analysis that relate to the liquidation value of the company's assets, which were estimated by a third-party financial advisor as part of restructuring proceedings. The significant unobservable inputs used in the valuation model were wind down costs. Significant increases and decreases in the input in isolation may result in a significantly higher or lower fair value measurement.
- (c) The Fund utilized a discounted cash flow model to fair value this security. The significant unobservable input used in the valuation model was the discount rate, which was determined based on the market rates an investor would expect for a similar investment with similar risks. The discount rate was applied to present value the projected cash flows in the valuation model. Significant increases in the discount rate may significantly lower the fair value of an investment; conversely, significant decreases in the discount rate may significantly increase the fair value of an investment.

For more information with regard to significant accounting policies, see the Fund's most recent annual report filed with the Securities and Exchange Commission.

Item 2. Controls and Procedures.

- (a) The Fund's principal executive and principal financial officers, or persons performing similar functions, have concluded that the Fund's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended.

- (b) There were no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the Fund's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Fund's internal control over financial reporting.

Item 3. Exhibits.

- (a) Certifications pursuant to Rule 30a-2(a) under the 1940 Act are attached hereto.
