Dear Stockholder of InfoSonics Corporation,

You are cordially invited to attend a Special Meeting (the Special Meeting) of the stockholders of InfoSonics Corporation, a Maryland corporation (InfoSonics, we, our or us), to be held on [], 2017, at the offices of Perkins C LLP, located at 11988 El Camino Real, Suite 350, San Diego, California 92130-2594, at [], local time.

At the Special Meeting, you will be asked to consider and vote upon a proposal to approve the issuance of InfoSonics common stock, par value \$0.001 per share (InfoSonics Common Stock) and InfoSonics 0% Series A Convertible Preferred Stock (InfoSonics Series A Convertible Preferred Stock), in connection with the merger contemplated by the Agreement and Plan of Merger (as amended, the Merger Agreement) dated July 25, 2017, among InfoSonics, Cooltech Holding Corp., a Nevada corporation (Cooltech) and InfoSonics Acquisition Sub, Inc., a Nevada corporation (Merger Sub), and the change of control of InfoSonics which will result from the transaction set forth in the Merger Agreement (the Merger). We refer to this proposal as the Merger Proposal. Under the Merger Agreement, Merger Sub will be merged with and into Cooltech, with Cooltech surviving the Merger as a subsidiary of InfoSonics. At the effective time of the Merger and after giving effect to the other transactions described in this proxy statement/prospectus and the one-for-five reverse stock split effected as of October 10, 2017, the former stockholders of Cooltech will receive 13,875,000 shares of InfoSonics Common Stock and InfoSonics Series A Convertible Preferred Stock, as needed, (assuming that Cooltech stockholders purchased all shares and warrants issued by InfoSonics in the Public Offering and will purchase all shares and warrants issued by InfoSonics in the Private Placement, as defined and discussed herein) which will represent approximately 84% of the shares of InfoSonics Common Stock after the Merger. The InfoSonics Common Stock is listed on the NASDAQ Capital Market under the symbol IFON .

AND SPECIAL MEETING OF INFOSONICS**

The following questions and answers briefly address some commonly asked questions regarding the Special Meeting and the Merger. These questions and answers may not address all questions that may be important to you. Please refer to the more detailed information contained elsewhere in this proxy statement/prospectus, the annexes to this proxy statement/prospectus and the other documents InfoSonics refers to, or incorporates by reference into, this proxy statement/prospectus.

Q: Why am I receiving this proxy statement/prospectus, and why am I being asked to vote on the Merger Proposal?

A: InfoSonics, Merger Sub and Cooltech have agreed to consummate the Merger under the terms of the Merger Agreement that is described in this proxy statement/prospectus. A copy of each of the Merger Agreement and Amendment No. 1 to Agreement and Plan of Merger (the Amendment to the Merger Agreement) is attached to this proxy statement/prospectus as Annex A and Annex B, respectively.

In order to complete the Merger, InfoSonics stockholders must vote to approve the Merger and the issuance of InfoSonics Common Stock pursuant to the Merger and the corresponding change of control of InfoSonics, as required by NASDAQ rules. InfoSonics is also seeking approval of other proposals relating to the Merger set forth herein. InfoSonics will hold a Special Meeting of its stockholders to obtain this vote. You are receiving this proxy statement/prospectus in connection with the solicitation of proxies to be voted at the Special Meeting or at any adjournments or postponements thereof.

You should carefully read this proxy statement/prospectus, including its annexes and the other documents we refer to, or incorporate by reference, into this proxy statement/prospectus, because they contain important information about the Merger, the Merger Agreement and the Special Meeting. The enclosed voting materials allow you to vote your shares without attending the Special Meeting. **Your vote is very important. We encourage you to vote as soon as possible.**

Q: How does the InfoSonics Board recommend that I vote?

A: The InfoSonics Board unanimously recommends that you vote FOR each of the proposals discussed in this proxy statement/prospectus.

Q: What should I do now?

A: After carefully reading and considering the information contained in this proxy statement/prospectus, including the annexes, we encourage you to vote by proxy as soon as possible, whether you plan to attend the Special Meeting or not. All shares represented by valid proxies that we receive through this solicitation, and that are not revoked, will be voted in accordance with your instructions on the proxy card or as instructed via Internet or telephone. You may specify whether your shares should be voted FOR, AGAINST or ABSTAIN with respect to each of the proposals. If you properly submit a proxy without giving specific voting instructions, your shares will be voted in accordance with the InfoSonics Board's recommendations, as noted below. Voting by proxy will not affect your right to attend the Special Meeting. If your shares are registered directly in your name through our stock transfer agent, or you have stock certificates registered in your name, you may vote as follows:

Voting by Telephone. You may vote by calling the toll-free telephone number and following the instructions printed on your proxy card. The deadline for voting by telephone is 11:59 p.m. Eastern Time on the day preceding the Special Meeting. If you vote by telephone, you do not need to return your proxy card.

Voting on the Internet. You may vote on the Internet by accessing the website www.proxyvote.com and following the instructions printed on your proxy card. The deadline for voting on the Internet is 11:59 p.m. Eastern Time on the day preceding the Special Meeting. If you vote on the Internet, you do not need to return your proxy card.

Voting by Proxy Card. You may vote by completing, signing and returning your proxy card by mail. To vote in this manner, please mark, date and sign the enclosed proxy card and return it by mail in the accompanying

postage-prepaid envelope. You should mail your signed proxy card as promptly as practicable so that your shares will be voted at the Special Meeting.

Voting in Person. Even if you have voted by one of the methods described above, you may still attend and vote your shares in person at the Special Meeting, if you are the record owner of those shares. If you do attend and vote your shares in person at the Special Meeting after having voted by any of the methods described above, only your last vote will be counted. However, attendance at the Special Meeting alone will not result in a revocation of any previously submitted proxy cards.

If your shares are held in street name (held in the name of a bank, broker or other holder of record), you will receive voting instructions from the holder of record. You must follow the instructions of the holder of record in order for your shares to be voted. Telephone and Internet voting also will be offered to stockholders owning shares through certain banks and brokers. If your shares are not registered in your own

Table of Contents

name and you plan to vote your shares in person at the Special Meeting, you should contact your broker or agent to obtain a legal proxy or broker's proxy card and bring it to the Special Meeting in order to vote.

Q: Why are InfoSonics and Cooltech proposing to effect the Merger?

A: We believe that Cooltech's business model will create more value for InfoSonics stockholders in the long-term than InfoSonics could achieve as an independent, stand-alone company. For a more complete description of the reasons for the Merger, see "The Merger" InfoSonics Reasons for the Merger and Recommendation of the InfoSonics Board on page 43.

Q: How will InfoSonics stockholders be affected by the Merger?

A: The Merger will have no effect on the number of shares of InfoSonics Common Stock held by InfoSonics stockholders as of immediately prior to the completion of the Merger. However, after issuance of the merger consideration to Cooltech shareholders, and assuming that Cooltech stockholders purchased all shares and warrants issued in the Public Offering and will purchase all shares and warrants issued in the Private Placement (as defined and discussed herein), it is expected that InfoSonics Common Stock held by InfoSonics stockholders prior to the Merger will represent approximately 16% of the outstanding shares of InfoSonics Common Stock after the Merger, on a fully diluted basis, whereas prior to the completion of the Merger such shares represented 100%.

Q: When do InfoSonics and Cooltech expect the Merger to be completed?

A: InfoSonics and Cooltech are working to complete the Merger as quickly as practicable. However, we cannot predict the exact timing of the completion of the Merger because it is subject to certain conditions. See "Proposal 1 The Merger Proposal Conditions to the Merger" on page 75. We hope to complete the Merger by December 31, 2017.

Q: What will happen to InfoSonics if, for any reason, the Merger does not close?

A: InfoSonics has invested significant time and incurred expenses, and expects to continue to incur, significant expenses related to the proposed Merger. If the Merger does not close, the InfoSonics Board and the InfoSonics Special Committee will, among other things, (i) continue to evaluate and review our business operations, properties and capitalization, (ii) make such changes as are deemed appropriate, and (iii) continue to seek to identify strategic alternatives to enhance stockholder value.

Q: Who will be InfoSonics' directors and executive officers following the Merger?

Edgar Filing: InfoSonics Corp - Form S-4/A

A: Following the Merger, the InfoSonics Board will be comprised of a total of five directors, with four designated by Cooltech. The InfoSonics Board is anticipated to include the following individuals as of the closing of the Merger:

Name	Designated By
Mauricio Diaz	Cooltech

For more information about InfoSonics' anticipated directors and executive officers following the Merger and related corporate governance matters, see "Management of InfoSonics Following the Merger" on page 123.

Q: What will happen if InfoSonics stockholders do not approve the Merger-related compensation?

A: Approval by InfoSonics stockholders of the compensation that may be paid or become payable to InfoSonics named executive officers that is based on, or otherwise relates to, the Merger is not a condition to completion of the Merger. The vote is an advisory vote and will not be binding on InfoSonics. If the Merger is completed, the Merger-related compensation may be paid to InfoSonics named executive officers to the extent payable in accordance with the terms of their compensation agreements and arrangements, even if InfoSonics stockholders do not approve, by advisory (non-binding) vote, the Merger-related compensation.

Q: Will my shares be voted if I do not provide my proxy?

A: Under stock market rules currently in effect, brokerage firms and nominees have the authority to vote their customers' unvoted shares on certain routine matters if the customers have not furnished voting instructions within a specified period prior to the Special Meeting. However, except for the Reverse Split Proposal, the proposals to be voted upon at the Special Meeting are not considered routine matters and hence brokerage firms and nominees will not be able to vote the shares of customers from whom they have not received voting instructions. If you hold your shares directly in your own name, they will not be counted as shares present for the purposes of determining the presence of a quorum or be voted if you do not provide a proxy or attend the Special Meeting and vote the shares yourself.

Broker non-votes occur when shares represented by valid proxies are received from a bank, broker or other nominee, but are not voted on a matter because either the bank, broker or nominee did not receive voting instructions from the beneficial owner or the bank, broker or nominee lacks discretionary authority to vote such shares. Any broker non-votes will be counted as shares present and entitled to vote for the purposes of determining the presence of a quorum on each of the proposals to be voted on at the Special Meeting.

Q: If my shares are held in street name by my broker, can my broker vote my shares for me?

A: Yes, but your broker will only be permitted to vote your shares of InfoSonics Common Stock if you instruct your broker how to vote. You should follow the procedures provided to you by your broker regarding how to instruct your broker to vote your shares.

Q: When and where is the Special Meeting?

A: The Special Meeting will be held on [], 2017, at the offices of Perkins Coie LLP, located at 11988 El Camino Real, Suite 350, San Diego, California 92130-2594, at [] local time.

Table of Contents

Q: Who may attend the Special Meeting?

A: All InfoSonics stockholders who owned shares of InfoSonics Common Stock at the close of business on [], 2017, the record date for the Special Meeting, may attend.

Q: Who may vote at the Special Meeting?

A: Only holders of record of InfoSonics Common Stock as of the close of business on [], 2017, the record date for the Special Meeting, may vote at the Special Meeting. As of the record date, InfoSonics had [] outstanding shares of InfoSonics Common Stock entitled to vote at the Special Meeting.

Q: What vote is required to approve the proposals?

A: *Vote Required to Approve the Merger Proposal, the Authorized Shares Increase Proposal and the Reverse Split Proposal.* The affirmative vote of the holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present in person or by proxy) is required for approval of the Merger Proposal and each of the amendments to the Articles of Incorporation (i.e., both the Authorized Shares Increase Proposal and the Reverse Split Proposal). If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have the same effect as voting against these proposals.

Vote Required to Approve the Other Proposals. Approval of all other proposals to be voted on at the Special Meeting requires the affirmative vote of a majority of all votes cast (assuming a quorum is present in person or by proxy) on each proposal. If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of these proposals.

Q: Do any of InfoSonics directors or officers have interests in the Merger that may differ from or be in addition to my interests as a stockholder?

A: Yes, see Interests of the InfoSonics Directors and Executive Officers in the Merger on page 58.

Q: How will our directors and executive officers vote on the Merger Proposal?

A: Our directors and current executive officers have informed us that, as of the date of this proxy statement/prospectus, they intend to vote all of their shares of InfoSonics Common Stock in favor of the Merger Proposal and the other proposals. As of [], 2017, the record date for the Special Meeting, our directors and current executive officers beneficially owned, in the aggregate, [] shares of InfoSonics Common Stock, or collectively approximately []% of the outstanding shares of InfoSonics Common Stock. Additionally, in connection with the Merger Agreement, Joseph Ram, the Company's President and Chief Executive Officer and holder of approximately 21.4% of InfoSonics Common

Stock as of October 16, 2017, entered into a voting agreement (the Voting Agreement) with Cooltech, solely in his individual capacity as a holder of InfoSonics Common Stock and not in any other capacity, pursuant to which, among other things Mr. Ram agreed that he will vote his shares of InfoSonics Common Stock in favor of the adoption and approval of the Merger Agreement and the transactions contemplated by the Merger Agreement.

Q: Why am I being asked to approve the Non-Public Offering Proposal?

A: NASDAQ Listing Rule 5635(d) requires that we obtain stockholder approval prior to the issuance of InfoSonics Common Stock in connection with certain non-public offerings involving the sale, issuance or potential issuance by InfoSonics of InfoSonics Common Stock equal to 20% or more of the InfoSonics Common Stock outstanding before the issuance.

Table of Contents

Q: Why am I being asked to approve the Authorized Shares Increase Proposal?

A: Under the Merger Agreement, approval of the Authorized Shares Increase Proposal is a condition to completing the Merger. Because InfoSonics is a Maryland corporation, it is subject to the Maryland General Corporation Law (the MGCL). In order to amend the Company's current Articles of Incorporation, the MGCL effectively requires that such amendment be approved by stockholders representing a majority of the outstanding shares of the corporation. In connection with the Merger Proposal and the Authorized Shares Increase Proposal, InfoSonics is seeking to amend its Articles of Incorporation to effect the changes described in such proposals.

Q: Why am I being asked to approve adjourning the Special Meeting to a later date, if necessary or appropriate, to solicit additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Merger Proposal?

A: We are asking you to vote on a proposal to adjourn the Special Meeting, if necessary or appropriate, in order to allow for the solicitation of additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Merger Proposal or any of the other proposals or if necessary to achieve a quorum. If the proposal to adjourn the Special Meeting is not approved and there are insufficient votes at the time of the Special Meeting to approve the Merger Proposal or achieve a quorum, InfoSonics may be required to incur additional time and expense in order to hold an effective stockholder meeting for the Merger Proposal to be considered and approved.

Q: What is a quorum ?

A: Under our bylaws, the presence, in person or by proxy duly authorized, of the holders of a majority of the outstanding shares of stock entitled to vote shall constitute a quorum for the transaction of business. If a quorum is not present at the Special Meeting, InfoSonics expects that the Special Meeting will be adjourned or postponed to solicit additional proxies. In general, shares of InfoSonics Common Stock represented by a properly signed and returned proxy card will be counted as shares present and entitled to vote at the Special Meeting for purposes of determining a quorum. Shares represented by proxies marked ABSTAIN are counted in determining whether a quorum is present. In addition, a broker non-vote is counted in determining whether a quorum is present.

Q: Who is soliciting my proxy?

A: This proxy is being solicited by the InfoSonics Board.

Q: Who is paying for the solicitation of proxies?

A: InfoSonics will bear the cost of solicitation of proxies by us. In addition to soliciting stockholders by mail, InfoSonics directors, officers and employees, without additional remuneration, may solicit proxies in person or by telephone or other means of electronic communication. InfoSonics will not pay these individuals for their

solicitation activities but will reimburse them for their reasonable out-of-pocket expenses. Brokers and other custodians, nominees and fiduciaries will be requested to forward proxy-soliciting material to the owners of stock held in their names, and InfoSonics will reimburse such brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket costs. Solicitation by InfoSonics directors, officers and employees may also be made of some stockholders in person or by mail, telephone or other means of electronic communication following the original solicitation. We have retained Georgeson LLC to assist in the solicitation of proxies. We expect to pay Georgeson LLC \$15,000, plus reimbursement of reasonable expenses.

Q: What does it mean if I get more than one proxy card?

A: If your shares are registered in multiple accounts with one or more brokers and/or our transfer agent, you will receive more than one proxy card. If you are submitting your proxy by completing and returning your proxy card, please complete and return each of the proxy cards you receive to ensure that all of your shares are voted.

Table of Contents

Q: If I have given a proxy, may I subsequently change my vote?

A: Yes. If you give us your proxy, you may change or revoke it at any time before the Special Meeting. You may change or revoke your proxy in any one of the following ways:

by re-voting by Internet or by telephone;

by signing a new proxy card with a date later than your previously delivered proxy and submitting it as instructed above; provided that it is received prior to the deadline set forth above;

by notifying our Secretary in writing before the Special Meeting that you have revoked your proxy; or

by attending the Special Meeting in person and voting in person in accordance with the instructions above. Attending the meeting in person will not in and of itself revoke a previously submitted proxy unless you specifically request it.

Your most current vote, whether by telephone, Internet or proxy card, is the one that will be counted.

If you have instructed a broker or other nominee to vote your shares, you must follow the procedures provided by your broker or nominee to change those instructions.

Q: Will I be entitled to dissenter's rights or appraisal rights as a result of the Merger Agreement and the Merger?

A: No. Since InfoSonics common stock is listed on the NASDAQ Capital Market on the record date for determining stockholders entitled to vote on the Merger, under Maryland law, InfoSonics stockholders do not have appraisal rights or similar rights of dissenters with respect to the Merger.

Q: Will the Merger be taxable to me as an InfoSonics stockholder?

A: No. See The Merger Material U.S. Federal Income Tax Consequences of the Merger on page 57.

Q: Will the reverse stock split be taxable to me as an InfoSonics stockholder?

A: No, except that a holder who receives one whole share of InfoSonics Common Stock in lieu of a fractional share may recognize gain in an amount not to exceed the excess of the fair market value of such share over the fair market value of the fractional share to which the holder was otherwise entitled. See Proposal 4 The Reverse Split

Proposal Material Federal U.S. Income Tax Consequences of the Reverse Stock Split on page 88.

Q: After the Special Meeting, how can I determine whether the Merger Proposal was approved by InfoSonics stockholders?

A: Promptly after the Special Meeting, InfoSonics will issue a press release announcing whether the Merger Proposal has been approved by holders of a sufficient number of outstanding shares of InfoSonics Common Stock. In addition, within four business days after the Special Meeting, InfoSonics will file a Form 8-K with the SEC to report the results of the voting on the proposals presented to the InfoSonics stockholders at the Special Meeting.

List of Stockholders

In accordance with the Company's Bylaws, our Secretary will prepare, at least ten days before the Special Meeting, a list of the stockholders entitled to vote at the meeting, arranged in alphabetical order, showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the Special Meeting, during ordinary business hours, for a period of at least ten days prior to the Special Meeting, at the offices of Perkins Coie LLP located at 11988 El Camino Real, Suite 350, San Diego, California 92130-2594. The list will be produced and kept at the time and place of Special Meeting and may be inspected by any stockholder who is present.

Householding of Special Meeting Materials

SEC rules allow us or your broker to send a single set of our proxy materials to any household at which two or more of our stockholders reside, if we or your broker believe that the stockholders are members of the same family. This practice, referred to as householding, benefits both you and us. It reduces the volume of duplicate information received at your household and helps to reduce our expenses. The rule applies to our annual reports, proxy statements and information statements. Once you receive notice from your broker or from us that communications to your address will be householded, the practice will continue until you are otherwise notified or until you revoke your consent to the practice. Stockholders who participate in householding will continue to have access to and utilize separate proxy voting instructions.

If your household received a single set of proxy materials, but you would prefer to receive your own copy, please contact us at the following address or phone number: 4435 Eastgate Mall, Suite 320, San Diego, California 92121, (858) 373-1675, Attention: Secretary. If you do not wish to participate in householding and would like to receive your own set of proxy materials in future years, or if you share an address with another InfoSonics stockholder and together both of you would like to receive only a single set of proxy materials, you should contact your bank, broker or other nominee record holder, or you may contact us at the above address and phone number.

Risk Factors (Page 19)

In evaluating the proposals set forth in this proxy statement/prospectus, you should carefully read this proxy statement/prospectus, including the annexes, and especially consider the factors discussed in the section entitled Risk Factors on page 19 which discusses risk factors relating to the Merger, InfoSonics and Cooltech, including but not limited to the following:

failure to complete the Merger could impact negatively InfoSonics business, financial condition or results of operations or InfoSonics stock price;

we cannot predict when or if the Merger will close; and

the potential Merger will subject InfoSonics to significant additional liabilities and other risks and will cause InfoSonics to incur significant expenses.

The Merger (Page 35)

InfoSonics, Merger Sub and Cooltech agreed to consummate a Merger under the terms of the Merger Agreement that is described herein and attached hereto as Annex A as amended by the terms of the Amendment to the Merger Agreement, attached hereto as Annex B. Pursuant to the Merger Agreement, Merger Sub will merge with and into Cooltech, with Cooltech surviving the Merger and continuing as a wholly owned subsidiary of InfoSonics. At the effective time of the Merger and after giving effect to the other transactions, including the Public Offering and the Private Placement (as defined and discussed in this proxy statement/prospectus) and the reverse stock split effected as of October 10, 2017, the former stockholders of Cooltech will receive 13,875,000 shares of InfoSonics Common Stock and InfoSonics Series A Convertible Preferred Stock, as needed, (assuming that Cooltech stockholders purchased all shares and warrants issued by InfoSonics in the Public Offering and will purchase all shares and warrants issued in the Private Placement, as defined and discussed herein) which will represent approximately 84% of the shares of InfoSonics Common Stock after the Merger, subject to adjustment as provided in the Merger Agreement.

The Merger Agreement is attached as Annex A hereto and the Amendment to the Merger Agreement is attached as Annex B. We encourage you to carefully read the Merger Agreement and the Amendment to the Merger Agreement in their entirety because they are the legal documents governing the Merger.

InfoSonics Reasons for the Merger and Recommendation of the InfoSonics Board (Page 43)

In evaluating the Merger, the InfoSonics Board consulted with InfoSonics management and its financial and legal advisors. The InfoSonics Board considered a number of alternatives to enhance InfoSonics competitive and financial position and to increase stockholder value. The factors listed below and set forth herein were viewed by the InfoSonics Board as supporting its decision ultimately to approve the Merger with Cooltech, as being in the best interests of the InfoSonics stockholders:

the uncertain outlook for InfoSonics and its products, including the verykool® product line, due to its declining financial performance;

Table of Contents

uncertainty about whether InfoSonics can continue as a going concern given substantial, ongoing losses;

uncertainty about the proceeds that InfoSonics stockholders would receive in a liquidation of InfoSonics, and the costs of a liquidation;

InfoSonics' difficulty in raising capital in the public markets;

InfoSonics' possible delisting from the NASDAQ Capital Market in the absence of a transaction; and

the economic conditions in the telecommunications equipment industry, which emphasize leading technology and require significant ongoing expenditures on research & development.

Although this discussion of the information and factors considered by the InfoSonics Board is believed to include the material factors it considered, it is not intended to be exhaustive and may not include all of the factors considered by the InfoSonics Board. For a further discussion of InfoSonics' reasons for the Merger, as well as risks and uncertainties related thereto, see "The Merger - InfoSonics Reasons for the Merger and Recommendation of the InfoSonics Board" on page 43.

Cooltech Reasons for the Merger and Recommendation of the Cooltech Board

In the course of reaching its decision to approve the merger, the Cooltech board of directors consulted with its senior management team and financial advisor, conducted due diligence, and considered a number of factors, including, among others, the:

potential to provide its current shareholders with greater liquidity by owning stock in a public company;

terms and conditions of the Merger Agreement, including, without limitation, the following:

determination that the expected relative percentage ownership of InfoSonics security holders and Cooltech security holders in the combined organization was appropriate based, in the judgment of Cooltech's board of directors, on the board of directors' assessment of the approximate valuations of InfoSonics and Cooltech;

limited number and nature of the conditions of the obligation of Cooltech to consummate the Merger;

the merger consideration issued to Cooltech shareholders will be registered on a Form S-4 registration statement by InfoSonics and will become freely tradable for Cooltech's shareholders who are not affiliates of Cooltech or who have not executed lockup agreements;

ability to raise capital in the future as a public company to fund operations and other activities; and

likelihood that the Merger will be consummated on a timely basis.

Cooltech's board of directors also considered a number of uncertainties and risks in its deliberations concerning the Merger contemplated by the Merger Agreement, including the following:

the possibility that the Merger might not be completed and the potential adverse effect of the public announcement of the Merger on the reputation of Cooltech and the ability of Cooltech to obtain financing in the future in the event the Merger is not completed;

the risk that the Merger might not be consummated in a timely manner, or at all;

the expenses to be incurred in connection with the Merger and related administrative challenges associated with combining the companies;

Table of Contents

additional public company expenses and obligations that Cooltech will be subject to following the Merger that it has not previously been subject to; and

various other risks associated with the combined organization and the Merger, including the risks described in the section entitled "Risk Factors" in this proxy statement/prospectus.

Termination of the Merger Agreement (Page 77)

In general, the Merger Agreement may be terminated at any time prior to the effective time of the Merger, whether before or after the approval of Merger Proposal by InfoSonics stockholders, in the following ways:

by mutual written consent of InfoSonics and Cooltech;

by either InfoSonics or Cooltech if:

the Merger has not been consummated on or before December 31, 2017; provided, that this right to terminate the Merger Agreement shall not be available to any party whose breach of any provision of the Merger Agreement results in the failure of the Merger to be consummated on or before December 31, 2017;

there shall be any Applicable Law (as defined in the Merger Agreement) that (A) makes consummation of the Merger illegal or otherwise prohibited or (B) enjoins Cooltech or InfoSonics from consummating the Merger and such injunction shall have become final and nonappealable; or

at the Special Meeting (including any adjournment or postponement thereof), the approval by the stockholders of InfoSonics shall not have been obtained.

by Cooltech if:

an Adverse Recommendation Change (as defined in the Merger Agreement) shall have occurred or the InfoSonics Special Committee shall have failed to reaffirm the Special Committee Recommendation (as defined in the Merger Agreement) as promptly as practicable (but in any event within five (5) business days) after receipt of any written request to do so from Cooltech; or

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of InfoSonics set forth in the Merger Agreement shall have occurred that would cause the condition set forth therein not to be satisfied, and such condition is incapable of being satisfied by December 31, 2017.

by InfoSonics if:

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Cooltech set forth in the Merger Agreement shall have occurred that would cause the condition set forth in the Merger Agreement not to be satisfied, and such condition is incapable of being satisfied by December 31, 2017; or

Date, Time and Place. A Special Meeting of InfoSonics stockholders will be held on [], 2017, at the offices of Perkins Coie LLP located at 11988 El Camino Real, Suite 350, San Diego, California 92130-2594, at [], local time, for the following purposes:

1. to consider and vote upon a proposal to approve the issuance of InfoSonics Common Stock, par value \$0.001 per share, and InfoSonics Series A Convertible Preferred Stock, par value \$0.001 per share, in connection with the Merger contemplated by Merger Agreement among InfoSonics, Cooltech and Merger Sub, and the corresponding change of control of InfoSonics, which proposal we refer to as the Merger Proposal ;
2. to consider and vote upon a proposal to approve the issuance of InfoSonics Common Stock and warrants to purchase shares of InfoSonics Common Stock in a non-public offering in accordance with NASDAQ Listing Rule 5635, which proposal we refer to as the Non-Public Offering Proposal ;
3. to consider and vote upon a proposal to approve the amendment of the Company s Articles of Incorporation to effect an increase in the authorized amount of InfoSonics Common Stock, from 40,000,000 shares of InfoSonics Common Stock, to 150,000,000 shares of InfoSonics Common Stock, which proposal we refer to as the Authorized Shares Increase Proposal ;
4. to consider and vote upon a proposal to approve an amendment to the Company s Articles of Incorporation to effect a reverse stock split of InfoSonics Common Stock, to the extent required to qualify for the NASDAQ new listing requirements, by a ratio of not less than one-for-two and not more than one-for-twenty at any time prior to January 31, 2018, with the exact ratio to be set at a whole number within this range by the InfoSonics Board in its sole discretion to comply with the applicable NASDAQ listing requirements, which proposal we refer to as the Reverse Split Proposal ;
5. to consider and vote upon a proposal to approve, on a non-binding advisory basis, the compensation to be paid to InfoSonics named executive officers that is based on or otherwise relates to the Merger, which proposal we refer to as the Executive Compensation Proposal ;
6. to consider and vote upon a proposal to adjourn the Special Meeting to a later date, if necessary or appropriate, to solicit additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Merger Proposal or any of the other proposals, which proposal we refer to as the Adjournment Proposal ; and
7. to transact such other business as may properly come before the Special Meeting or any adjournment of the Special Meeting.

The Merger Agreement provides that the requisite InfoSonics stockholder approval of the Authorized Shares Increase Proposal is a condition to closing the transaction, as more fully described in Proposal 1 The Merger

Proposal Conditions to the Merger beginning on page 75.

Record Date and Voting Power. You are entitled to vote at the Special Meeting if you held shares of InfoSonics Common Stock at the close of business on [], 2017, the record date for the Special Meeting. You will have one vote at the Special Meeting for each share of InfoSonics Common Stock you owned at the close of business on the record date. A total of [] shares of InfoSonics Common Stock are entitled to be voted at the Special Meeting.

Vote Required to Approve the Merger Proposal, the Authorized Shares Increase Proposal and the Reverse Split Proposal. The affirmative vote of the holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present in person or by proxy) is required for approval of the Merger Proposal and each of the amendments to the Articles of Incorporation (i.e., both the Authorized Shares Increase Proposal

Table of Contents

and the Reverse Split Proposal). If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have the same effect as voting against these proposals.

Vote Required to Approve the Other Proposals. Approval of all other proposals to be voted on at the Special Meeting requires the affirmative vote of a majority of all votes cast (assuming a quorum is present in person or by proxy) on each proposal. If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of these proposals.

Interests of the InfoSonics Directors and Executive Officers in the Merger (Page 58)

Voting Agreement. Concurrently with the execution of the Merger Agreement, Joseph Ram, Chief Executive Officer of InfoSonics and a holder of approximately 21.4% of the InfoSonics Common Stock as of October 16, 2017, has entered into a Voting Agreement, referred to as the voting agreement, pursuant to which Mr. Ram has, among other matters, agreed to support the Merger and the other transactions contemplated by the Merger.

Under the voting agreement, in addition to agreeing to vote in favor of approval of the Merger and the Merger Agreement and the transactions contemplated thereby, Mr. Ram has agreed to not transfer, sell, offer to sell, exchange, assign, pledge or otherwise dispose of or encumber any of the InfoSonics stock held by him prior to the Merger becoming effective, the termination of the Merger Agreement or the amendment of the voting agreement in a manner adverse to Mr. Ram, whichever occurs first.

One of InfoSonics' directors has interests in the transactions contemplated by the Merger Agreement, including the Merger, that are different from, or in addition to, the interests of holders of InfoSonics shares generally. The InfoSonics Board and the InfoSonics Special Committee were aware of these interests and considered them, among other matters, in evaluating and negotiating the Merger Agreement and in reaching the decision to approve the Merger Agreement and the transactions contemplated thereby, as more fully discussed herein. See *Interests of the InfoSonics Directors and Executive Officers in the Merger* on page 58.

Treatment of Cooltech Capital Stock in the Merger (Page 70)

Common Stock and Series A Preferred Stock. At the effective time of the Merger and giving effect to the reverse stock split effected by InfoSonics on October 10, 2017, all shares of Cooltech common stock and Series A Preferred Stock (collectively, *Cooltech Stock*) will be converted into the right to receive an aggregate of 12,500,000 shares of InfoSonics Common Stock (which may include, on an *as converted* basis, a certain number of shares of InfoSonics Series A Convertible Preferred Stock (convertible on a share for share basis into InfoSonics Common Stock), at the election of any Cooltech shareholder who would own in excess of 4.99% of InfoSonics Common Stock) (collectively, the *Merger Consideration*). The Merger Consideration will be allocated as follows: (i) holders of an aggregate of 2,275,222 shares of Cooltech Stock issued between April 2017 and June 2017 in connection with Cooltech's private placement (the *Private Placement Holders*) are entitled to receive, on a pro rata basis, an aggregate of 3,250,317 shares of InfoSonics Common Stock (or the equivalent, on an *as converted* basis, of InfoSonics Series A Convertible Preferred Stock) and (ii) holders of shares of Cooltech Stock, including shares of Cooltech's outstanding shares of Series A Convertible Preferred Stock (calculated on an *as converted* basis) that are not shares described in (i) above (the *Non-Private Placement Holders*), will be entitled to receive, on a pro rata basis, an aggregate of 9,249,683 shares of InfoSonics Common Stock (or the equivalent, on an *as converted* basis, of InfoSonics Series A Convertible Preferred Stock). The bifurcated allocation of the Merger Consideration is based on the total value of Cooltech Stock issued to each of the Private Placement Holders and Non-Private Placement Holders, respectively. In negotiating this structure, Cooltech considered both the current value of Cooltech Stock and the original investment amounts of the Private Placement Holders and the Non-Private Placement Holders. Cooltech ultimately decided upon this allocation

structure in an effort to compensate the Private Placement Holders for the reduction in the value of

Table of Contents

their original investment amounts while leaving the overall Merger Consideration unchanged. All such shares of Cooltech Stock will no longer be outstanding and will automatically be canceled and retired and will cease to exist, and will thereafter represent only the right to receive consideration address above and the right to receive any dividends or distributions (as set forth in the Merger Agreement). These newly issued shares would represent approximately 84% of the shares of InfoSonics Common Stock after the effective time of the Merger and assuming that Cooltech stockholders purchased all shares and warrants issued by InfoSonics in the Public Offering and will purchase all shares and warrants issued in the Private Placement, as defined and discussed herein.

No Appraisal Rights

No action proposed in the proposals described in this proxy statement/prospectus will provide a right of a stockholder to dissent and obtain appraisal of or payment for such stockholder's shares under Maryland law.

Market Price and Dividend Data (Page 32)

InfoSonics Common Stock is quoted on the NASDAQ Capital Market under the symbol IFON. On July 25, 2017, the last full trading day before the public announcement of the Merger Agreement, the closing price for InfoSonics Common Stock was \$0.49 per share and on [], 2017, the latest practicable trading day before the printing of this proxy statement/prospectus, the closing price for InfoSonics Common Stock was \$[] per share.

Anticipated Accounting Treatment (Page 56)

Due to the fact that Cooltech will acquire control of InfoSonics as a result of the Merger, the Merger will be accounted for as a reverse acquisition pursuant to which Cooltech will be considered the acquiring entity for accounting purposes in accordance with generally accepted accounting principles in the United States of America, referred to as U.S. GAAP, and will allocate the total purchase consideration to InfoSonics' assets. Cooltech's historical results of operations will replace InfoSonics' historical results of operations for all periods prior to the Merger. See The Merger Anticipated Accounting Treatment on page 56.

Material U.S. Federal Income Tax Consequences of the Merger (Page 57)

For U.S. federal income tax purposes, the Merger will not be a taxable event for holders of InfoSonics Common Stock. Consequently, holders of InfoSonics Common Stock will not realize any taxable gain or loss as a result of the Merger, and will continue to possess the same holding period and tax basis in their InfoSonics Common Stock following the Merger as immediately before the Merger.

Material U.S. Federal Income Tax Consequences of the Reverse Split (Page 17)

In general, no gain or loss should be recognized by a U.S. holder (as defined under Proposal 4 The Reverse Split Proposal Material Federal U.S. Income Tax Consequences of the Reverse Stock Split) of InfoSonics Common Stock upon such holder's exchange of pre-split shares for post-split shares, except for those associated with any additional shares the holder receives as a result of rounding up any post-split fractional shares. The aggregate tax basis of the post-split shares received in the reverse split should be the same as the holder's aggregate tax basis in the pre-split shares. Special tax basis and holding period rules may apply to U.S. holders that acquired different blocks of shares at different prices or at different times. The holder's holding period for the post-split shares should include the period during which the holder held the pre-split shares surrendered in the reverse split.

Table of Contents

As discussed below in Proposal 4 The Reverse Split Proposal Treatment of Fractional Shares, no fractional shares of InfoSonics Common Stock will be issued as a result of the reverse split. Instead, if the reverse split leaves a holder with fractional shares, the number of shares due to the holder will be rounded up. The U.S. federal income tax consequences of the receipt of such additional fraction of a share of InfoSonics Common Stock are not clear. A holder who receives one whole share of InfoSonics Common Stock in lieu of a fractional share may recognize income or gain in an amount not to exceed the excess of the fair market value of such share over the fair market value of the fractional share to which the holder was otherwise entitled. InfoSonics is not making any representation as to whether the receipt of one whole share in lieu of a fractional share will result in income or gain to a holder, and each holder is urged to consult with his or her own tax adviser as to the possible tax consequences of receiving a whole share in exchange for a fractional share in the reverse stock split.

The number of shares of InfoSonics Common Stock to be outstanding after the Merger is 16,753,280 based on 3,378,280 shares of common stock outstanding as of October 26, 2017 and:

excludes any shares of InfoSonics common stock reserved for issuance or issuable upon the exercise of stock options or warrants outstanding as of the time of the Merger;

includes 12,500,000 shares of InfoSonics common stock issuable to Cooltech shareholders in connection with the Merger; and

includes 875,000 shares to be issued in connection with the Private Placement.

The number of shares of InfoSonics Common Stock held by InfoSonics or Cooltech stockholders, respectively, following the Merger assumes that Cooltech stockholders purchased and continue to hold at the time of the Merger all of the shares issued by InfoSonics in the Public Offering and will purchase all of the shares to be issued in the Private Placement.

RISK FACTORS

You should consider carefully the following risk factors, as well as the other information set forth in this proxy statement/prospectus and the risk factors listed in Item 1A Risk Factors of our Form 10-K for the year ended December 31, 2017 filed on March 10, 2017, and our Form 10-Q for the six months ended June 30, 2017 filed on August 11, 2017 before making a decision on the Merger or the other proposals presented. The value of your investment may increase or may decline and could result in a loss. You should carefully consider the following factors as well as the other information contained in this proxy statement/prospectus.

RISK FACTORS RELATED TO THE MERGER

Although InfoSonics and Cooltech expect that the Merger will result in benefits to the combined company, the combined company may not realize those benefits because of various challenges.

InfoSonics and Cooltech believe that the Merger will result in greater returns for the InfoSonics stockholders than if InfoSonics remained as a standalone entity. However, the integration of a new company is a complex, costly and time-consuming process. This process may disrupt the business of either or both of the companies, and may not result in the full benefits expected by InfoSonics and Cooltech. There can be no assurance that the combination of InfoSonics and Cooltech will result in the realization of the anticipated benefits from the Merger.

The pendency of the Merger could have an adverse effect on our stock price and/or our business, financial condition, results of operations or business prospects.

The pendency of the Merger could have an adverse effect on our stock price and increase the price volatility and risk of trading in our stock. Our business, financial condition, results of operations or business prospects could also be adversely affected. In addition, the attention of our management may be directed toward the completion of the Merger and related matters and may be diverted from the day-to-day business operations, including from other opportunities that otherwise might be beneficial to us.

Failure to complete the Merger could impact negatively our business, financial condition or results of operations or our stock price.

The completion of the Merger is subject to a number of conditions and there can be no assurance that the conditions to the completion of the Merger will be satisfied. If the Merger is not completed, InfoSonics will be subject to several risks, including:

the current trading price of InfoSonics Common Stock may reflect a market assumption that the Merger will occur, meaning that a failure to complete the Merger could result in a decline in the price of InfoSonics Common Stock;

certain of our executive officers and/or directors may seek other employment opportunities, and the departure of any of our executive officers and the possibility that InfoSonics would be unable to recruit and hire a replacement executive could impact negatively our business and operating results;

the InfoSonics Board would need to reevaluate our strategic alternatives, which alternatives may include a sale of the Company, liquidation of the Company, a return to pre-Merger strategies of growing commercial sales, or other strategic transactions;

we have incurred and will continue to incur substantial transaction costs in connection with the Merger whether or not the Merger is completed;

we would not realize any of the anticipated benefits of having completed the Merger; and

Table of Contents

under the Merger Agreement, we are subject to certain restrictions on the conduct of our business prior to the completion of the Merger, which restrictions could adversely affect our ability to realize our business strategies or take advantage of certain business opportunities in the event the Merger is not completed.

If the Merger is not completed, these risks may materialize and materially and adversely affect our business, financial condition, results of operations or stock price.

The issuance of shares of InfoSonics Common Stock to Cooltech stockholders in connection with the Merger will dilute substantially the voting power of our current stockholders.

Pursuant to the Merger Agreement and assuming that Cooltech stockholders purchased all shares and warrants issued by InfoSonics in the Public Offering and will purchase all shares and warrants issued in the Private Placement, as defined and discussed herein, at the effective time of the Merger, InfoSonics will issue shares of InfoSonics Common Stock to the former Cooltech stockholders which, together with the InfoSonics Common Stock, will represent approximately 84% of the shares of InfoSonics Common Stock after the Merger, subject to adjustment pursuant to the Merger Agreement. Accordingly, the issuance of shares of InfoSonics Common Stock to Cooltech stockholders in connection with the Merger will reduce significantly the relative voting power of each share of InfoSonics Common Stock held by our current stockholders. Consequently, our stockholders as a group will have significantly less influence over the management and policies of the combined company after the Merger than prior to the Merger.

Because the lack of a public market for Cooltech's outstanding shares makes it more difficult to evaluate the value of such shares, Cooltech stockholders may receive consideration in the Merger that is greater than the fair market value of the Cooltech shares.

Cooltech is privately held and its outstanding capital stock is not traded in any public market. The lack of a public market makes it difficult to determine the fair market value of Cooltech or its shares of capital stock. Since the percentage of our equity to be issued to the Cooltech stockholders was determined based on negotiations between the parties, it is possible that the value of the InfoSonics Common Stock to be issued in connection with the Merger will be greater than the fair market value of Cooltech.

The Merger will result in changes to the InfoSonics Board and InfoSonics will pursue different strategies after the Merger than we have pursued independently.

If the Merger is completed, the composition of the InfoSonics Board will change in accordance with the Merger Agreement. Following completion of the Merger, the InfoSonics Board is expected to consist of five members. Initially, the InfoSonics Board is expected to be comprised of Robert Picow and four directors appointed by former Cooltech stockholders. Because a majority of the InfoSonics Board after the Merger will initially be comprised of directors selected by Cooltech, following the Merger we will pursue certain business strategies that we would not have pursued had the Merger not taken place.

We cannot predict when or if the Merger will close.

The Merger is contingent upon a number of conditions beyond our control, including approval by our stockholders. We are, therefore, unable to accurately predict when or if the Merger will close. If we are unable to close the Merger for any reason, we will not realize the potential benefits of the Merger and may face significant liquidity risks, which may have a material adverse effect on our business prospects and the value of our common stock.

The potential Merger will subject us to significant additional liabilities and other risks and will cause us to incur significant expenses.

Following the Merger, we will be subject to substantially all the liabilities of Cooltech. The Merger and subsequent integration process may be complex, costly, time-consuming and divert management's time and

Table of Contents

attention, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. We expect to incur a significant amount of expenses in connection with the Merger, including legal, accounting, financial advisory and other expenses. Many of these expenses are payable by us whether or not the Merger is completed.

If we are unable to consummate the Merger, our stock price may be adversely affected and our financial condition and liquidity position may materially suffer.

If the Merger is not completed for any reason, the trading price of our common stock may decline to the extent that the market price of our common stock reflects positive market assumptions that the Merger will be completed and the related benefits will be realized. In addition, if the Merger is not completed our financial condition could materially suffer, including with respect to our liquidity position, which may be substantially negatively impacted due to expenses related to the Merger.

The fairness opinions obtained by the InfoSonics Special Committee will not be updated before the closing of the Merger.

The fairness opinions obtained from Stout Risius Ross, LLC (Stout) by the InfoSonics Special Committee is dated July 25, 2017. Stout s opinions are necessarily based on business, economic, market, and other conditions as they existed and could be evaluated by Stout on the date of the opinions. Subsequent developments may affect these opinions before the closing of any transactions contemplated by the opinions, including, but not limited to, developments with respect to the assets, liabilities, prospects, revenue, indebtedness, or business of InfoSonics and/or OneClick. Notwithstanding the foregoing, Stout does not have any obligation to update, revise, or reaffirm its opinions and its opinions speak only as of the date thereof. Without limiting the generality of the foregoing, in rendering its opinions, Stout has assumed that the indebtedness reflected on any such pro forma consolidated balance sheet of Cooltech, as of the date of Stout s opinions, would not exceed the sum of (a) \$2.3 million, on account of Cooltech s indebtedness as of June 30, 2017, plus (b) \$8.9 million, on account of OneClick indebtedness related to its financial condition as of the date of Stout s opinions. Stout further assumed that Cooltech on a pro forma basis and upon consummation of the Transactions will have sufficient working capital. Since that opinion was issued, the acquisition of OneClick has been completed on October 1, 2017 and the indebtedness amount exceeds the assumption used in Stout s opinion. As a result, the changed indebtedness may affect the opinion of Stout if it had been issued at a later date. Please refer to the section entitled The Merger Opinion of Stout Risius Ross, LLC on page 49 for more information. The fairness opinion is included as Annex C to this proxy statement/prospectus.

The Merger will result in a change of control of InfoSonics, and Cooltech will be required to submit a new application under NASDAQ s original listing standards. If such application is not approved by NASDAQ, our common stock may be delisted from the NASDAQ Stock Market.

In connection with the Merger, we will issue 12,500,000 shares of common as consideration to Cooltech stockholders under the Merger Agreement. We believe that this issuance will result in a change of control of the Company. NASDAQ Rule 5110(a) provides that a company must apply for initial listing in connection with a transaction whereby a company combines with a non-NASDAQ entity, resulting in a change of control of such company and potentially allowing the non-NASDAQ entity to effectively obtain NASDAQ listing. In determining whether a change of control has occurred, NASDAQ considers all relevant factors including, changes in management, board of directors, voting power, ownership and financial structure of the Company. If our initial listing application is not approved by NASDAQ pursuant to Rule 5110(a), our common stock may be delisted from the NASDAQ Stock Market.

RISK FACTORS RELATED TO INFOSONICS

Our stock price may be volatile, and your investment in our securities could suffer a decline in value.

We cannot predict whether the price of our common stock will rise or fall. A variety of factors may have a significant effect on our stock price, including:

our liquidity situation;

our ability to consummate the Merger;

the addition or loss of customer or supplier relationships;

product availability and cost;

market competition and selling prices;

the cost of promotions, price protection and subsidies;

U.S. and foreign government policies and stability;

the timing of introduction of new products by our suppliers and competitors;

purchasing patterns of customers in different markets; and

general economic conditions.

Our operating performance may cause our stock price to fluctuate. Between January 1, 2016 and October 15, 2017, our stock price has fluctuated between \$1.45 and \$10.00 per share (as adjusted for the reverse stock split effected on October 10, 2017) and we anticipate that significant volatility in our stock price will continue for the foreseeable future.

Furthermore, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. These broad market and industry fluctuations, as well as general economic, political and market conditions such as recessions, interest rate changes or international currency fluctuations, may negatively impact the market price of shares of our common stock, regardless of our operating performance, and cause the value of your investment to decline.

Additionally, in the past, companies that have experienced volatility in the market price of their stock have been subject to securities class action litigation or other derivative stockholder lawsuits. We may be the target of this type of litigation in the future. Securities litigation against us could result in substantial costs and divert our management's attention from other business concerns, which could seriously harm our business regardless of the outcome.

Sales of a substantial number of shares of our common stock or securities linked to our common stock in the public market are expected to be made concurrently with the Merger and future sales could occur at any time. These sales, or the perception in the market that such sales may occur, could reduce the market price of our common stock.

Concurrently with the Merger, we are offering our common stock and issuing an equal amount of warrants to purchase our common stock pursuant to the Securities Purchase Agreements under which we have issued 500,000 and intend to issue an additional 875,000 shares of our common stock and an equal number of warrants to purchase shares of our common stock (amounts adjusted for the reverse stock split effect on October 10, 2017). We also will issue an additional 12,500,000 shares of our common stock as consideration to Cooltech stockholders under the Merger Agreement. Such issuances may materially and adversely reduce the price of our common stock and cause dilution to our existing stockholders.

Table of Contents

We may obtain additional funds through public or private debt or equity financings in the near future. If we issue additional shares of common stock or instruments convertible into common stock, it may materially and adversely affect the price of our common stock. In addition, the future exercise of some or all of our warrants may dilute the ownership interests of our stockholders, and any sales in the public market of any of our common stock issuable upon exercise could adversely affect prevailing market prices of our common stock.

We may be delisted from the NASDAQ Stock Market if we do not satisfy continued listing requirements.

At various times over the last several years we faced potential delisting from the NASDAQ Stock Market for failure to maintain the minimum \$1.00 bid price per share requirement for continued listing. On May 3, 2016, we received a NASDAQ staff deficiency letter indicating that, for the prior thirty consecutive business days, the bid price for our common stock had closed below the minimum \$1.00 per share requirement for continued listing on the NASDAQ Capital Market under NASDAQ Listing Rule 5550(a)(2). In accordance with NASDAQ Listing Rule 5810(c)(3)(A), we were provided an initial period of 180 calendar days, or until October 31, 2016, to regain compliance. The letter stated that the NASDAQ staff would provide written notification that we had achieved compliance with Rule 5550(a)(2) if at any time before October 31, 2016, the bid price of our common stock closed at \$1.00 per share or more for a minimum of ten consecutive business days.

Although the bid price of our common stock did not rise to the \$1.00 per share level for the specified number of days by October 31, 2016, we maintained our compliance with other appropriate listing requirements of the NASDAQ Capital Market, with the exception of the bid price requirement. Accordingly, on November 1, 2016, we received notification from the NASDAQ Stock Market that we were granted an additional 180 calendar day period, or until May 1, 2017, to regain compliance.

As of May 1, 2017, we had not regained compliance with the bid price requirement and on May 2, 2017 we received notification from NASDAQ that on May 11, 2017 our common stock would be delisted and trading suspended unless we requested an appeal. On May 4, 2017, we requested an oral hearing before the NASDAQ Hearings Panel (the Panel) to appeal the NASDAQ staff's delisting determination, which hearing was held on June 1, 2017. We presented a plan to the Panel to regain compliance with the minimum bid price requirement which included the Merger and a reverse stock split, and requested a further extension of time to execute the plan. On June 6, 2017, we received a letter from the NASDAQ Office of General Counsel advising us of the decision of the Panel to grant the Company an extension of time until October 30, 2017.

On October 10, 2017, we effected a one-for-five reverse stock split of our common stock in order to maintain our NASDAQ listing prior to completion of the Merger and we intend to continue to closely monitor the bid price of our stock in light of the Merger. NASDAQ Listing Rule 5110(a) requires that because the Merger with Cooltech (a non-NASDAQ entity) will result in a change of control, we must submit an initial listing application for the post-Merger entity, which would require us to comply with a higher minimum bid price requirement of \$4.00 per share and may necessitate an additional reverse stock split. If our common stock were to be delisted from the NASDAQ Capital Market, trading of our common stock most likely would be conducted in the over-the-counter market on an electronic bulletin board established for unlisted securities such as OTC Pink, OTCQX, OTCQB or the OTC Bulletin Board. Such trading would reduce the market liquidity of our common stock. As a result, an investor would find it more difficult to dispose of, or obtain accurate quotations for the price of, our common stock, thereby negatively impacting the share price of our common stock.

RISKS FACTORS RELATED TO COOLTECH

Cooltech is a new company with a short operating history and a history of losses.

Cooltech was formed on October 3, 2016, and prior to its acquisition of Icon Networks, LLC (Icon), its operating history consisted of preliminary activities in preparation for the acquisition of Icon, appointment of

Table of Contents

officers and directors and engaging professionals. Prior to Cooltech's acquisition of Icon, it had no operating history, no experience, no income-producing activities and had not generated any revenue. Cooltech has incurred a net loss of approximately \$1,329,228 for the six months ended June 30, 2017 as compared to approximately \$163,067 for the six months ended June 30, 2016. Cooltech's operating expenses and its net losses have increased dramatically since the acquisition of Icon, as the wholesale distribution of electronics and related business is an inherently speculative activity.

Since Cooltech has a limited operating history, it is difficult for potential investors to evaluate Cooltech's business.

Cooltech's limited operating history makes it difficult for potential investors to evaluate its business or prospective operations. Although Cooltech's wholly-owned operating subsidiary, Icon, has generated revenues, since formation, Cooltech has not generated any revenues. As an early stage company, Cooltech is subject to all the risks inherent in the initial organization, financing, expenditures, complications and delays inherent in a new business. Investors should evaluate an investment in Cooltech in light of the uncertainties encountered by developing companies in a competitive environment. Cooltech's business is dependent upon the implementation of its business plan. There can be no assurance that Cooltech's efforts will be successful or that it will ultimately be able to attain profitability.

Cooltech will need to obtain additional financing to fund its growth plans.

Cooltech does not have sufficient capital to fund its operations. If Cooltech fails to raise such additional funds, it will need to scale back its growth plans. The specific funding required, however, will depend on the results of its initial activities and the recommendations of its managers and other advisors. Cooltech does not have any sources of funding for the expected expenditures. Cooltech may be unable to secure additional financing on acceptable terms, or at all. Cooltech's inability to raise additional funds on a timely basis could prevent it from achieving its business objectives and could have a negative impact on its business, financial condition, results of operations and the value of its securities. If Cooltech raises additional funds by issuing additional equity or convertible debt securities, the ownership of existing stockholders may be diluted and the securities that it may issue in the future may have rights, preferences or privileges senior to those of the current holders of its common stock or preferred stock. Such securities may also be issued at a discount to the market price of its common stock, resulting in possible further dilution to the book value per share of common stock. If Cooltech raises additional funds by issuing debt, it could be subject to debt covenants that could place limitations on its operations and financial flexibility.

Competition within the consumer electronics wholesale distribution industry may have an adverse effect on Cooltech's business.

The consumer electronics wholesale distribution industry is highly competitive. There are many consumer electronics distribution companies that operate in the same geographic region and operate in the same business sector as Cooltech and distribute and market mobility, computing, audio/video and other products made by manufacturers including, but not limited to, Apple, Boss, Samsung and Nike. Cooltech's principal competitors are large consumer electronic wholesalers located in the United States and Latin America including Tech Data, Ingram Micro, Brightstar Corp, Viastara and Intcomex. Some of these competitors offer a wide range of products at prices comparable to those offered by Cooltech and/or have substantial financial resources and long-standing customer relationships. This competition may reduce Cooltech's margins and/or cause a loss in market share, adversely impacting its operations, cash flow and financial condition.

Adverse economic conditions could affect Cooltech's wholesale business.

An economic downturn would reduce the availability of credit for businesses. Some of Cooltech's retail customers could experience a decline in financial performance. These conditions, as well as adverse fluctuations

Table of Contents

in foreign exchange rates affect their ability to pay amounts owed to Cooltech on a timely basis or at all. There can be no assurance that government response to economic disruptions would increase liquidity and the availability of credit, and as a result, Cooltech's retail customers may be unable to borrow funds on acceptable terms. Financial difficulties experienced by its retail customers could cause Cooltech to curtail or eliminate business with that customer. Any economic decline affecting Cooltech's retail customers would adversely affect its business and results of operations.

Cooltech may not be able to successfully expand its partnership base with new retailers or grow its presence with existing retailers.

As part of its growth strategy, Cooltech intends to increase the penetration with existing retailers and form relations with new retailers; *provided, however*, there can be no assurance that Cooltech will be able to retain or grow its presence with existing retailers or develop partnerships with new retailers. If Cooltech is unable to engage new retailers or retain the retailers Cooltech currently sells its products to, Cooltech's business and results of operations may be adversely affected.

Changes in the market and/or demand for consumer electronics, including, but not limited to, laptops, tablets, cell phones, gaming consoles and audio devices could adversely affect Cooltech's business.

Demand for Cooltech's products will depend in part on the changes in demand for various consumer products, including, computers, speakers, cell phones, gaming consoles or other devices. To the extent that Cooltech cannot offset periods of reduced demand that may occur in these markets, its sales and gross profit may decline, which would negatively impact Cooltech's business, financial condition and results of operations. In addition, reductions in unit volumes of sales for such products or prices of equipment could adversely affect demand for Cooltech's products and could adversely affect its business.

Integration of acquired companies, including Icon and OneClick International, LLC and OneClick License, LLC (together, OneClick), may require significant resources and/or result in significant unanticipated losses, costs or liabilities, and Cooltech may not realize all of the anticipated operating synergies from acquisitions.

Cooltech has grown its business and operations through the acquisitions of Icon and OneClick, the OneClick acquisition was a condition to the closing of the Merger. There can be no assurance that Cooltech's acquisitions will perform as expected in the future. Cooltech may be unable to successfully integrate the operations of and/or the acquired assets of the businesses it acquires into its operations and Cooltech may not realize the anticipated efficiencies and synergies of such acquisitions. In addition, acquisitions require significant managerial attention, which may be diverted from Cooltech's other operations. Furthermore, acquisitions of businesses entail a number of additional risks, including, but not limited to:

problems with effective integration of operations;

the inability to maintain key pre-acquisition customer, supplier and employee relationships;

increased operating costs;

assumption of existing obligations and liabilities; and

exposure to unanticipated liabilities.

If the businesses that Cooltech acquires do not achieve their intended results, its business, financial condition, and results of operations could be materially and adversely affected.

All of OneClick's assets are pledged as collateral to secure its debt obligations.

OneClick's debt obligations to certain holders of its notes are secured by a first priority security interest over all of OneClick's assets. If OneClick were to default on its obligations to such holders, the holders may

Table of Contents

foreclose on OneClick's assets. Any such action could ultimately require Cooltech to curtail or cease its operations of OneClick.

A lender holds a first priority security interest over all of the assets of Icon.

Icon's obligations to Banco de Brasil are secured by a first priority security interest over all of Icon's assets. If Icon were to default on its obligations to Banco de Brasil, Banco de Brasil may foreclose on Icon's assets. Any such action could ultimately require Cooltech to curtail or cease operations.

Cooltech carries limited insurance.

Cooltech's business is subject to a number of risks and hazards generally incident to sales and marketing of electronics and software. Such occurrences could result in damage to its properties, equipment, infrastructure, personal injury or death, environmental damage, delays, monetary losses and possible legal liability. Cooltech only carries third party logistics property coverage. Cooltech does not carry any insurance for its own office space at this time. Even if Cooltech does obtain insurance, it may not cover all of the risks associated with its operations. Insurance against risks such as environmental pollution or other hazards as a result of operations are often not available to companies like Cooltech or on acceptable terms. Should any events against which it is not insured actually occur, Cooltech may become subject to substantial losses, costs and liabilities which will adversely affect its financial condition.

Although Cooltech is not directly subject to breaches in security of information technology systems with respect to its customers' data, because Cooltech uses a third-party payment processor to manage its sales, any significant disruptions or breaches in security to their website and/or information technology systems could adversely affect Cooltech's business.

Cooltech uses a third-party payment processor to manage its sales, and such processor has access to sensitive information about Cooltech's clients including, but not limited to, credit card information. No assurance can be given that its processor deploys network security, data encryption, training and other measures to protect against unauthorized access or misuse.

Breaches or disruptions of the processor's information technology systems, breaches of confidential information, data corruption or other data security issues could adversely affect the processor which in turn would adversely affect the timeliness and management of Cooltech's sales which could adversely affect its financial condition.

Cooltech is dependent upon key personnel.

Cooltech's success is heavily dependent on the continued employment and active participation of key personnel, including its President and Chief Executive Officer, Mauricio Diaz; its Executive Vice President of Sales and Marketing, Felipe Rezk; its Chief Financial Officer, Alfredo Carrasco; and its Chief Operating Officer, Reinier Voigt. Loss of the services of Mr. Diaz, Mr. Rezk, Mr. Carrasco or Mr. Voigt could have a material adverse effect upon Cooltech's business, financial condition or results of operations. Further, Cooltech's success and achievement of its growth plans depend on its ability to recruit, hire, train and retain other highly qualified scientific and managerial personnel. Cooltech's inability to attract and retain the necessary personnel and consultants and advisors could have a material adverse effect on its business, financial condition or results of operations.

Economic, political, social or legal developments in Latin America could adversely impact Cooltech's results of operations and financial condition.

Through its Icon subsidiary, Cooltech's international operations are conducted in Latin America. Thus, Cooltech's financial results are particularly sensitive to the performance of the economies of countries in Latin

Table of Contents

America. Local, regional or worldwide developments may result in adverse economic, political, social or legal developments and adversely affect the economies of any of the countries in which Cooltech conducts its business, which could have a material and adverse effect on its results of operations and financial condition. Cooltech's results are also impacted by political and social developments in the countries in which it conducts business and changes in the laws and regulations affecting its business in those countries. Changes in local laws and regulations could, among other things, make it more difficult for Cooltech to sell its products in the affected countries, restrict or prevent its receipt of cash from its customers, result in longer payment cycles, and impair its collection of accounts receivable.

In order to compete and succeed, Cooltech needs to identify, introduce, and continue to provide, products that provide value for its customers.

Cooltech's future success is dependent on the development of new markets, new applications and new products which customers believe will add value, as well as the continued demand for Cooltech's products among its existing customers. Cooltech's ability to identify, qualify and distribute new products and related technologies to meet evolving industry requirements, at prices acceptable to its customers and on a timely basis are significant factors in determining its competitiveness in its target markets. There can be no assurance that Cooltech will be able to exploit new markets or continue to identify products that achieve wide customer acceptance in the marketplace, or that demand for existing products will continue.

Cooltech's business is subject to the risks of international procurement which could have an adverse effect on its financial results.

A significant portion of Cooltech's finished goods are purchased from foreign manufacturers. As a result, Cooltech's international procurement operations are subject to the risks associated with such activities including, economic and labor conditions, international trade regulations (including tariffs and anti-dumping penalties), war, international terrorism, civil disobedience, natural disasters, political instability, governmental activities and deprivation of contract and property rights. In addition, periods of international unrest may impede Cooltech's ability to procure finished goods from other countries and could have a material adverse effect on its business and results of operations.

Cooltech may not successfully implement its strategic plans.

Cooltech presently has plans to expand its sales, to develop new business opportunities, to continue to seek and evaluate possible strategic alliances to enhance its sales, and to develop and monetize additional opportunities. These plans, however, are subject to modification or replacement by management if it decides that economic, industry, technological, regulatory or other factors warrant a change. In addition, there can be no assurance that Cooltech will successfully implement any or all such plans, or that circumstances in the marketplace and the economy will allow the implementation of such plans.

If Cooltech fails to achieve and maintain favorable pricing and credit terms from its vendors, Cooltech's business would be harmed and its operating results would be adversely affected.

Cooltech's costs are affected by its ability to achieve favorable pricing and credit terms from its vendors and contract manufacturers, including through negotiations for vendor rebates and other vendor funding received in the normal course of business. Because these supplier negotiations are continuous and reflect the ongoing competitive environment, the variability in terms can negatively affect Cooltech's costs and operating results if it cannot sufficiently adjust pricing or cost variables.

The loss of one or more customers would have a material adverse effect on Cooltech's business.

During the fiscal year ended December 31, 2016, Icon's largest three customers collectively accounted for approximately 40% of Icon's revenues. Cooltech does not have contractual arrangements in place with these

Table of Contents

customers. There can be no assurance that one or more of these customers will not cease or materially decrease their business with Icon in the future and that Cooltech's financial performance will not be adversely affected thereby.

Sales directly to original equipment manufacturers (OEM) and contract manufacturers can make Cooltech's revenues, earnings, backlog and inventory levels uneven.

Revenue and earnings from OEM sales may become uneven as order sizes are typically large and often a completed order cannot be shipped until released by the OEM, e.g., to meet a just in time inventory requirement. This may occur at or near the end of an accounting period. In such case, revenues and earnings could decline for the period and inventory and backlog could increase.

Cooltech faces competition from OEMs.

In the compatibles market, Cooltech sells its products at a lower price than OEMs. Customers will often pay some premium for the name brand product when buying additional memory and OEMs seek to exploit this tendency by having a high profit margin on memory products. However, individual OEMs can change their policy and price memory products competitively, and in such an event profit margins and earnings would be adversely affected. Also, OEMs could choose to use free memory as a promotional device in which case Cooltech's ability to compete would be severely impaired.

Cooltech faces competition from cell phone manufacturers who sell products directly to end users in the U.S.

Cooltech faces competition from cell phone manufacturers that sell products directly to end users in the United States. Although sales of cell phones in Latin America are handled through distributors, there can be no assurance that manufacturers will not expand their market and customer base to include direct sales to end users in Latin America. Sales of cell phones directly to end users in the U.S. and Latin America may decrease the number of cell phones sold to end users by distributors, including Cooltech. This decrease in sales may adversely affect its cash flow and financial condition.

The market for Cooltech's products may narrow over time.

The principal market for Cooltech's products consists of Latin America. The competition for the supply of after-products in the industry is very competitive and to the extent it competes in this market Cooltech can be expected to have lower profit margins. Many of Cooltech's competitors have substantially greater financial, technical and marketing resources than it does and it may not be able to compete effectively with them.

Cooltech is subject to certain working capital guidelines by its competitive clients, such as Apple.

As a distributor of consumer electronic brands such as Apple, Apple and others establish guidelines on Cooltech's working capital. If Cooltech does not have sufficient working capital to abide by such guidelines established by Apple and others, it may be unable to distribute certain consumer electronics which could cause a loss in market share, adversely impacting its operations, cash flow and financial condition.

Delays in product development schedules may adversely affect Cooltech's revenues.

The development of software products is a complex and time-consuming process. New products and enhancements to existing products can require long development and testing periods. Cooltech's increasing focus on software plus services also presents new and complex development issues. Significant delays in new product or service releases or

significant problems in creating new products or services could adversely affect Cooltech's revenue.

Table of Contents

Cooltech may make unprofitable acquisitions.

Cooltech is actively looking at acquiring complementary products and related intellectual property. The possibility exists that an acquisition will be made at some time in the future. Uncertainty surrounds all acquisitions and it is possible that a particular acquisition may not result in a benefit to shareholders, particularly in the short-term. In addition, there can be no assurance that the business acquired by Cooltech will become or remain a profitable operating unit of Cooltech or that savings from having a larger consolidated business operation will be realized.

Although Cooltech only sells its products in U.S. dollars, any fluctuations in currency exchange rates and devaluations could cause its sales to decline which could harm its profitability and financial condition.

Because Cooltech sells all of its products, including products sold in Latin America, in U.S. dollars, any devaluation of foreign currencies would cause the relative price of its products to increase and may require Cooltech to reduce its prices to be competitive. The increase in prices of its consumer electronics could deter consumers in Latin America, which is the foreign region where Cooltech currently sells its products, from purchasing its products which would cause a decline in sales thus adversely affecting its revenues and financial conditions.

Cooltech may incur intangible asset and goodwill impairment charges which could harm its profitability.

Cooltech periodically reviews the carrying values of its intangible assets and goodwill to determine whether such carrying values exceed the fair market value. Cooltech's goodwill is subject to an annual review for goodwill impairment. If impairment testing indicates that the carrying value exceeds its fair value, the intangible assets or goodwill is deemed impaired.

Government regulations may have a negative effect on Cooltech's business.

Government regulators, or its customers, may in the future require Cooltech to comply with product or manufacturing standards that are more restrictive than current laws and regulations related to environmental matters, or other initiatives. The implementation of these standards could affect the sourcing, cost and availability of materials used in the manufacture of its products. Also, Cooltech may face challenges with regulators and its customers and suppliers if Cooltech is unable to sufficiently verify that the products are issue free. Non-compliance with these standards could cause Cooltech to lose sales to these customers and compliance with these standards could increase its costs, which may harm its operating results.

In addition to regulations relating to product and manufacturing standards, Cooltech is subject to other regulations including, but not limited to, tax regulations. For example, sales tax in Colombia increased from 16% to 19% in 2017. If the increase in sales taxes in Colombia causes a decrease in spending on consumer electronics, then Cooltech's financial condition may be adversely affected.

Cooltech may suffer a breach of its computer security measures, which could harm its business.

If Cooltech's security measures are breached and unauthorized access is obtained to its information technology systems, Cooltech may lose proprietary data or suffer damage to its business. Cooltech's security measures may be breached as a result of third-party action, including computer hackers, employee error, malfeasance or otherwise, and result in unauthorized access to its data, including intellectual property, if any, and other confidential business information, or its information technology systems. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently, Cooltech may be unable to anticipate these techniques or to implement adequate preventative measures. However, any security breach could result in disclosure of Cooltech's trade secrets or

confidential supplier or employee data, or harm its ability to carry on its business, all of which could result in legal liability, harm to its reputation and otherwise harm its business.

Table of Contents

There can be no assurance that Cooltech's acquisition of OneClick will add value or contribute to the success of Cooltech.

On October 1, 2017, Cooltech acquired all of the outstanding equity of OneClick International, LLC and OneClick License, LLC (collectively, OneClick), and each entity became a wholly-owned subsidiary of Cooltech. OneClick is a consumer electronics retailer specializing in commercializing Apple products, compatible brand accessories, self-produced products, and providing professional technical support to Apple retail customers. OneClick, with locations in the U.S., Argentina and the Dominican Republic, is focused on becoming the largest authorized reseller of Apple products and services in the Americas. There can be no assurance that the acquisition of OneClick will add value to Cooltech's shareholders or that Cooltech will be successful in the retail industry.

Cooltech is subject to certain risks due to its operation in specific regions and countries.

The economic, political, social, legal and other risks Cooltech is subject to in the regions or countries where it conducts business or obtains technology products include but are not limited to:

deteriorating economic, political or social conditions, instability, military conflicts or civilian unrest and terrorism;

additional tariffs, import and export controls or other trade barriers that restrict Cooltech's ability to sell products into countries in Latin America;

changes in local tax regimes, including the imposition of significantly increased withholding or other taxes or an increase in VAT or sales tax on products Cooltech sells;

changes in laws and other regulatory requirements governing foreign capital transfers and the repatriation of capital and dividends;

increases in costs for complying with a variety of different local laws, trade customs and practices;

delays in shipping and delivering products to Cooltech or customers across borders for any reason, including more complex and time-consuming customs procedures (for example, the import restrictions enacted by Argentina in February 2012);

fluctuations of local currencies; and

business interruptions due to natural or manmade disasters, extreme weather conditions, including but not limited to, earthquakes, fires, floods, hurricanes, tornados, tsunamis, medical epidemics, power and/or water shortages and telecommunication failures.

THE MERGER

This discussion of the Merger is qualified in its entirety by reference to the Merger Agreement and the Amendment to the Merger Agreement, each of which is attached to this proxy statement/prospectus as Annex A and Annex B, respectively, and incorporated into this proxy statement/prospectus by reference. You should read the entire Merger Agreement and Amendment to the Merger Agreement carefully as they are the legal documents that govern the Merger.

Effect of the Merger

Upon the terms and subject to the conditions of the Merger Agreement, Merger Sub will merge with and into Cooltech, with Cooltech continuing as the surviving corporation. As a result of the Merger, Cooltech will become a wholly owned subsidiary of InfoSonics.

The time at which the Merger will become effective, referred to as the effective time of the Merger, will occur upon the filing of the Article of Merger with the Secretary of State of the State of Nevada (or at such later time as InfoSonics, Cooltech and Merger Sub may agree and specify in the certificate of merger). At the effective time of the Merger, and as a result of the Merger:

all shares of Cooltech Stock outstanding (on an as converted basis, with respect to the Series A Convertible Preferred Stock) will be cancelled and converted into the right to receive an aggregate of 12,500,000 shares of InfoSonics Common Stock (which may include, on an as converted basis, a certain number of shares of InfoSonics Series A Convertible Preferred Stock (convertible on a share for share basis into InfoSonics Common Stock), at the election of any Cooltech shareholder who, as a result of receiving shares of InfoSonics Common Stock, would own in excess of 4.99% of the issued and outstanding InfoSonics Common Stock);

each share of Cooltech Stock held by Cooltech as treasury stock or owned by InfoSonics immediately prior to the Merger shall be canceled, and no payment shall be made with respect thereto;

each Placement Agent Warrant outstanding immediately prior to the Merger shall be canceled, retired and shall cease to exist;

each share of Cooltech Stock held by any subsidiary of either the Cooltech or InfoSonics immediately prior to the Merger shall be converted into such number of shares of stock of the surviving corporation such that each such subsidiary owns the same percentage of the surviving corporation immediately following the Merger as such subsidiary owned in Cooltech immediately prior to the Merger; and

each share of common stock of Merger Sub outstanding immediately prior to the Merger shall be converted into and become one share of common stock of the surviving corporation with the same rights, powers and privileges as the shares so converted and shall constitute the only outstanding shares of capital stock of the surviving corporation.

We expect that InfoSonics Common Stock will continue to be publicly traded on the NASDAQ Capital Market after the effective time of the Merger, assuming the Reverse Split Proposal is approved by InfoSonics stockholders in order to comply with the higher minimum bid price requirement of \$4.00 per share.

Effect on InfoSonics if the Merger is Not Completed

If the Merger Proposal is not approved by InfoSonics stockholders or if the Merger is not completed for any other reason, the issuance of shares to the former Cooltech stockholders contemplated by the Merger Agreement and corresponding change of control of InfoSonics will not occur. In such event, InfoSonics expects that management will operate the business in a manner similar to that in which it is being operated today, and that InfoSonics stockholders will continue to be subject to the same risks and opportunities to which they are currently subject.

Table of Contents

Furthermore, if the Merger is not completed, and depending on the circumstances that would have caused the Merger not to be completed, the price of InfoSonics Common Stock may decline significantly from the trading price as of the date of this proxy statement/prospectus. If that were to occur, it is uncertain when, if ever, the price of InfoSonics Common Stock would return to the price at which it trades as of the date of this proxy statement/prospectus.

Accordingly, if the Merger is not completed, there can be no assurance as to the effect of these risks and opportunities on the future value of your shares of InfoSonics Common Stock. If the Merger is not completed, the InfoSonics Board will, among other things, (i) continue to evaluate and review our business operations, properties and capitalization, (ii) make such changes as are deemed appropriate, and (iii) continue to seek to identify strategic alternatives to enhance stockholder value. If the Merger Proposal is not approved by InfoSonics stockholders or if the Merger is not completed for any other reason, there can be no assurance that any other transaction acceptable to InfoSonics will be offered or that our business, prospects or results of operation will not be adversely impacted.

Background of the Merger

As part of InfoSonics' ongoing strategic planning process, the InfoSonics Board and its executive officers have over time regularly reviewed and evaluated InfoSonics' strategic direction and alternatives in light of the performance of its business and operations and market, economic, competitive, and other conditions and developments.

On May 6, 2016, InfoSonics announced that it had received a letter from the NASDAQ Listings Qualifications Staff (the Staff) dated May 3, 2016 providing notification that, for the previous 30 consecutive business days, the bid price for the Common Stock had closed below the minimum \$1.00 per share requirement for continued listing on the NASDAQ Capital Market under the applicable NASDAQ Listing Rules and that, under those rules, InfoSonics was provided an initial period of 180 calendar days, or until November 1, 2016, to regain compliance.

Having not regained compliance within the initial 180 calendar day period, on November 2, 2016, InfoSonics announced that it was provided an additional 180 calendar days, or until May 1, 2017, to regain compliance.

In mid-January 2017, Robert Picow, an independent member of the InfoSonics Board, had conversations with Cooltech representatives regarding potential opportunities he may have with them unrelated to InfoSonics. Thereafter, Cooltech representatives asked Mr. Picow whether InfoSonics might be interested in a transaction with Cooltech. Mr. Picow stated he was unaware of potential interest.

On January 27, 2017, Cooltech sent an initial unsolicited proposed non-binding term sheet (the January 2017 Term Sheet) and investor presentation to Mr. Picow with the request that he pass it on to the InfoSonics Board. In the January 2017 Term Sheet, Cooltech proposed certain transactions including a private placement by InfoSonics of \$4,000,000 of convertible preferred stock at a purchase price of \$0.40 per share with 100% warrant coverage at an exercise price of \$0.60 per share, and a Merger of Cooltech into InfoSonics with Cooltech stockholders receiving 80,000,000 newly issued shares of InfoSonics Common Stock. The shares and warrants to be issued to Cooltech under the proposed January 2017 Term Sheet would have represented 87.42% of InfoSonics' fully diluted pro forma outstanding shares. InfoSonics stockholders would have retained 12.58% ownership of the InfoSonics fully diluted pro forma outstanding shares.

Mr. Picow called David Katz, partner of Perkins Coie LLP, outside counsel to InfoSonics to discuss the January 2017 Term Sheet and next steps. Messrs. Picow and Katz forwarded the January 2017 Term Sheet to InfoSonics' two other independent directors, Kirk Waldron and Randall Marx, and scheduled a call to discuss it.

On February 14, 2017, InfoSonics' three independent directors, Messrs. Waldron, Picow and Marx met telephonically with Mr. Katz to discuss the January 2017 Term Sheet. Mr. Katz also briefed the independent directors on their fiduciary duties and responded to questions regarding potential next steps and process. Mr. Katz also advised that an independent opinion of fairness in connection with the financial terms of the transaction would be advisable if a transaction with Cooltech was to be consummated.

On February 15, 2017, Mr. Marx was provided access to Cooltech's electronic data room in order to perform initial due diligence on Cooltech.

On February 20, 2017, Mr. Waldron was provided access to Cooltech's electronic data room in order to perform initial due diligence on Cooltech.

On March 7, 2017, the InfoSonics Board held a regularly scheduled meeting. During the meeting, the InfoSonics Board discussed the January 2017 Term Sheet and decided to enter into a mutual non-disclosure agreement with Cooltech, including a standstill preventing a non-negotiated transaction and any trading by Cooltech in InfoSonics Common Stock. InfoSonics also commenced due diligence regarding Cooltech.

On March 7, 2017, Mr. LoForti was provided access to Cooltech's electronic data room.

On March 15, 2017 Messrs. Ram and LoForti held a telephone conference with John O'Rourke, a shareholder of Cooltech, regarding the names and backgrounds of the Cooltech management and investors and Cooltech's business and financial strategy.

During the course of the first quarter of 2017, InfoSonics' management and representatives of Silicon Valley Bank (SVB) discussed the fact that InfoSonics' continuing losses necessitated a revision to InfoSonics credit line. On March 24, 2017, the SVB credit agreement was amended to eliminate InfoSonics' ability to borrow against its accounts receivable and all related financial covenants were removed.

On April 13, 2017, InfoSonics management, Messrs. Ram and LoForti, met in person at Cooltech's Miami office with representatives of Cooltech, including Mr. O'Rourke, Andy DeFrancesco, Felipe Rezk, Chief Marketing Officer and Chief Sustainability Officer, and Geraldo Rodrigues, Marketing Vice President. The participants discussed potential synergies and strategies and made presentations regarding their respective companies.

On April 17, 2017, InfoSonics received a revised proposed non-binding Term Sheet (the April 2017 Term Sheet) from Mr. O'Rourke. In this April 2017 Term Sheet, Cooltech reiterated the proposed transactions described in the January 2017 Term Sheet, but reduced the amount of the pre-Merger financing from \$4,000,000 to \$1,200,000. The exercise price of the warrants was also reduced to \$0.45 per share. The shares and warrants to be issued to Cooltech under the proposed April 2017 Term Sheet would have represented 85.81% of the combined InfoSonics fully diluted pro forma outstanding shares. InfoSonics stockholders would have retained 14.19% of the combined InfoSonics fully diluted pro forma outstanding shares.

On May 3, 2017, InfoSonics announced that it had received a letter dated May 2, 2017, from the Staff advising that the Staff had determined that: (i) InfoSonics had not regained compliance with the \$1.00 per share minimum bid price requirement of NASDAQ Listing Rule 5550(a)(2) as of May 1, 2017 (following the expiration of two 180-day periods in which to regain compliance previously provided by NASDAQ); and (ii) unless InfoSonics requested an appeal of this determination by May 9, 2017, trading of InfoSonics common stock would be suspended from the NASDAQ Capital Market at the opening of business on May 11, 2017 and a Form 25-NSE would be filed with the Securities and Exchange Commission (the SEC) to remove InfoSonics securities from listing and registration on the NASDAQ Stock Market (the Delisting).

Ram and LoForti participated in a portion of the meetings to discuss various business and strategic issues related to Cooltech. After management left the May 17, 2017 meeting, the InfoSonics Special Committee discussed the various terms of the April 2017 Term Sheet from Cooltech and established revised terms to send back to Cooltech through InfoSonics legal counsel, Perkins Coie LLP. Among other terms that were modified or changed, the InfoSonics Special Committee proposed an increase in the percentage of the combined InfoSonics fully diluted pro forma outstanding shares to be retained by InfoSonics stockholders after the Merger from 13.47% to 19%.

Under this proposal the InfoSonics stockholders would retain 16.1% of the combined InfoSonics fully diluted pro forma outstanding shares. Cooltech stockholders and investors would receive 83.9% of the combined InfoSonics fully diluted pro forma outstanding shares.

On May 23, 2017, the InfoSonics Special Committee held a telephonic meeting to discuss the Cooltech transaction and after full discussion, including regarding its fiduciary duties, approved moving forward with the proposed May 2017 Term Sheet, as modified by Mr. O Rourke s May 22, 2017 revisions, with the recognition that InfoSonics and its advisors had to satisfactorily complete legal and financial due diligence on Cooltech.

On May 23, 2017, representatives of Perkins Coie LLP were provided access to Cooltech s electronic data room.

representatives, this version proposed a private placement of \$5,000,000 but fixed the share purchase price based on a projected 15% discount to the closing stock price of InfoSonics Common Stock on the day prior to the closing. The exercise price of the warrants was fixed at an amount equal to 10% above such closing price. Out of the \$5,000,000 investment, \$2,500,000 was proposed to be loaned back to Cooltech as a bridge loan. The shares and warrants to be issued to Cooltech under the proposed June 2, 2017 term sheet would have represented 85.71% of the combined InfoSonics fully diluted pro forma outstanding shares. InfoSonics stockholders would have retained 14.29% of the combined InfoSonics fully diluted pro forma outstanding shares.

On June, 2, 2017, the InfoSonics Special Committee held a telephonic meeting with Cooltech representatives Messrs. O Rourke, DeFrancesco, Rezk, Diaz, and Kesner regarding the completion of the financing upon the signing of a definitive Merger Agreement rather than at the closing of the Merger.

On June 7, 2017, InfoSonics announced that it received a letter dated June 6, 2017 from the NASDAQ Office of General Counsel advising InfoSonics that the Panel granted InfoSonics an extension of time until October 30, 2017 to execute on its plan and regain compliance with the minimum bid price requirement. As part of this extension, InfoSonics was required to notify the Panel whether it had entered into a definitive Merger Agreement by July 11, 2017. Absent such an agreement by that date, InfoSonics agreed to commence a reverse stock split to regain compliance with the \$1.00 per share price requirement.

On June 8, 2017, the InfoSonics Special Committee received a revised non-binding term sheet from Mr. O Rourke. In this version, reflecting discussions and negotiations between the InfoSonics Special Committee and Cooltech representatives, the private placement was reduced from \$5,000,000 to \$2,750,000 at a purchase price of \$0.40 per share reflecting the deletion of the proposed bridge loan. The exercise price of the warrants remained fixed at an amount equal to 10% above the closing price on the trading day prior to the announcement of the execution of a Merger Agreement. The shares and warrants to be issued to Cooltech and investors under the proposed June 8, 2017 term sheet would have represented 83.44% of the combined InfoSonics fully diluted pro forma outstanding shares. InfoSonics stockholders would have retained 15.66% of the combined InfoSonics fully diluted pro forma outstanding shares.

Between June 8, 2017 and July 15, 2017, the parties continued to negotiate various terms of the proposed non-binding term sheet and settled on the issuance of 62,500,000 shares (prior to the reverse stock split) of InfoSonics Common Stock to Cooltech as consideration in the Merger, a 1,500,000-share reduction from the amount in the June 8, 2017 proposed non-binding term sheet. Together with the shares and warrants that would be issued in exchange for the \$2,750,000 financing, Cooltech and its investors would collectively hold 84.13% of the combined InfoSonics fully diluted pro forma outstanding shares. InfoSonics stockholders would retain 15.87% of the combined InfoSonics fully diluted pro forma outstanding shares.

On June 8, 2017, the InfoSonics Special Committee held a telephonic meeting with representatives of Perkins Coie LLP to discuss various potential financial advisory firms who may be able to provide a fairness opinion in connection with the financial terms of the transaction. On June 12, 2017, the InfoSonics Special Committee sent Cooltech a proposed revised non-binding term sheet. In this version, reflecting discussions between the InfoSonics Special Committee and Cooltech representatives, of the \$2,750,000 private placement, \$1,000,000 would be released to InfoSonics upon signing of the Merger Agreement. There was no change in the relative percentage post-Merger and financing ownership.

On June 13, 2017, the InfoSonics Special Committee held a telephonic meeting and after reviewing InfoSonics financial condition, prospects, history of losses and business model, determined that it was in the best interests of InfoSonics stockholders to approve the terms of the June 12, 2017 term sheet and move forward with definitive documentation of the contemplated transactions, subject to satisfactory completion of further due diligence, negotiation of acceptable definitive transaction documents, and receipt of a fairness opinion from a financial advisor.

On June 16, 2017, the InfoSonics Special Committee held a telephonic meeting and approved and engaged Stout to render an opinion as to the fairness, from a financial point of view, to the holders of InfoSonics shares of the financing and the consideration to be received by those holders in the Merger.

On June 17, 2017, the InfoSonics Special Committee and representatives of Perkins Coie LLP received a draft Merger Agreement from Cooltech.

On June 20, 2017, representatives of Perkins Coie LLP received documentation from legal counsel to Cooltech related to the proposed \$1,000,000 common stock and warrant offering.

From June 17, 2017 through July 25, 2017, Perkins Coie LLP conducted negotiations with Cooltech and its representatives and traded numerous drafts of the Merger Agreement and financing documents with Sichenzia Ross Ference Kesner LLP. Negotiations focused on providing InfoSonics with a fiduciary out in exchange for a \$1 million break-up fee and later with the ability of the InfoSonics Special Committee to change its recommendation to stockholders relating to support of the Merger and related transactions.

On June 20, 2017, a third party valuation firm delivered to the InfoSonics Special Committee its liquidation valuation of InfoSonics as of April 30, 2017. According to the report, the liquidation value range was between \$1,550,000 and \$4,000,000.

On June 20, 2017, the InfoSonics Special Committee held a telephonic meeting to discuss (i) the informal investment proposal from the InfoSonics supplier identified on June 18, 2017, (ii) the documentation received from Cooltech, and (iii) the third party valuation firm's liquidation valuation. Messrs. Ram and LoForti discussed the potential investment with the InfoSonics Special Committee and explained the supplier would require InfoSonics to re-enter a low margin business channel that InfoSonics had recently strategically exited. After a thorough discussion of the proposed investment, the InfoSonics Special Committee viewed the proposed investment as a very uncertain early stage indication of interest and the requirement to re-enter a low margin business channel at much less attractive terms for InfoSonics and its stockholders than the Cooltech transaction. The InfoSonics Special Committee decided to delay a response to the supplier pending resolution of the proposed Cooltech negotiations.

On June 24, 2017, the InfoSonics Special Committee engaged the law firm Whiteford, Taylor & Preston L. L. P. as Maryland legal counsel to advise on the laws of Maryland, InfoSonics' state of incorporation, including with respect to the InfoSonics Special Committee's fiduciary duties.

On June 26, 2017, Mr. Marx, Mr. Katz and Cooltech representatives Messrs. O'Rourke, Kesner and Cahlon met telephonically to discuss status and negotiate the terms of the proposed transactions.

On June 27, 2017, after discussions with representatives from InfoSonics, representatives of Perkins Coie LLP added a closing condition to the draft Merger Agreement that Cooltech's acquisition of OneClick International, LLC and OneClick License, LLC and each such company's subsidiaries must be closed prior to the closing of the Merger. This closing condition was added to the Merger Agreement because representatives of InfoSonics determined that in order to carry out the business plan set forth by Cooltech, the acquisition of the OneClick entities was necessary, and thus wanted to have certainty that the acquisitions of the OneClick entities would be complete prior to closing the Merger.

At the conclusion of the morning meeting, the InfoSonics Board (with the exception of Mr. Ram, who abstained) approved all Merger-related transactions as a business combination under the Maryland General Corporation Law (MGCL) and amended its bylaws to exempt all financing and Merger-related transactions from the MGCL control share acquisition statute.

In the afternoon meeting on July 25, 2017, the InfoSonics Board concluded that, in light of InfoSonics' continued deteriorating financial condition, the best interests of InfoSonics' stockholders would be served by the proposed Cooltech transaction and recommended that the Stockholders vote in favor of the Merger and related transactions.

The reverse stock split also affected the numbers of shares that will be issued in the Private Placement, which is reflected in this proxy statement/prospectus.

InfoSonics Reasons for the Merger and Recommendation of the InfoSonics Board

In evaluating a number of alternatives, the InfoSonics Board consulted with the InfoSonics Special Committee and InfoSonics management and legal and financial advisors, reviewed a significant amount of information, and considered a number of factors, including, among others, the following factors that the InfoSonics Board viewed as supporting its decision ultimately to approve the Private Placement and a Merger with Cooltech, as being in the best interests of the InfoSonics stockholders:

the uncertain outlook for InfoSonics and its products, including the verykool® product line, due to its declining financial performance;

uncertainty about whether InfoSonics could continue as a going concern given substantial, ongoing losses;

uncertainty about the proceeds that InfoSonics stockholders would receive in a liquidation of InfoSonics, and the costs of a liquidation;

InfoSonics difficulty in raising capital in the public markets;

InfoSonics likely delisting from the NASDAQ Capital Market in the absence of a transaction or further reverse stock splits;

the economic conditions in the telecommunications equipment industry, which emphasize leading technology and require significant ongoing expenditures on research & development;

InfoSonics' position in the industry relative to a number of larger competitors with greater financial and other resources;

InfoSonics' customer concentration with three customers representing an aggregate of over 50% of net sales in 2016;

InfoSonics' exit from the U.S. market in late 2016 given heavy losses and patent infringement suits;

the need for research and development investing in InfoSonics and its products in light of InfoSonics' cessation of research and development investing in 2015;

opinion dated July 25, 2017), with respect to the fairness, from a financial point of view, of the Private Placement consideration to be received by InfoSonics pursuant to the Private Placement transaction and based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by Stout in preparing its opinion; and

the financial analysis reviewed by Stout with the InfoSonics Special Committee and the oral opinion to the InfoSonics Special Committee (which was confirmed in writing by delivery of Stout's written opinion dated July 25, 2017), with respect to the fairness, from a financial point of view, of the Merger to the pre-Merger InfoSonics stockholders and based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by Stout in preparing its opinion. See "The Merger" Opinion of Stout Risius Ross, LLC on page 49.

The InfoSonics Board and Special Committee also considered certain potentially negative factors in its deliberations concerning the Merger, including but not limited to the following:

the fact that the Merger, the Private Placement and the Public Offering would result in a change in control of InfoSonics with the InfoSonics stockholders prior to the financings and the Merger holding 15.87% of the outstanding shares of InfoSonics common stock following the Merger and the right to appoint a majority of the InfoSonics Board of Directors;

the risk that the potential benefits of the Merger will not be realized or will not be realized within the expected time period;

the risk that the Merger may result in InfoSonics assuming unknown liabilities;

the risks and challenges associated with the integration of Cooltech's and InfoSonics' businesses, operations and workforce;

the risks and challenges relating to Cooltech's management's lack of experience operating a public company and the limited operating history of Cooltech's business;

the risks associated with Cooltech successfully implementing its business plan;

the risks and contingencies relating to the announcement and pendency of the Merger and the risks and costs to InfoSonics if the closing of the Merger is not timely or if the Merger does not close at all, relationships with employees and third parties and the effect a public announcement of termination of the Merger Agreement may have on the trading price of InfoSonics common stock;

the risks associated with various provisions of the Merger Agreement, including:

the requirement that we conduct our business only in the ordinary course prior to the completion of the Merger, which might delay or prevent InfoSonics from undertaking certain business opportunities that might arise pending completion of the Merger;

the limited ability of InfoSonics to terminate the Merger Agreement upon the receipt of certain bids to acquire InfoSonics from a third party and that InfoSonics must pay to Cooltech a termination fee of \$1 million if the Merger Agreement is terminated under certain circumstances, which might discourage other parties potentially interested in an acquisition of InfoSonics from pursuing that opportunity. The InfoSonics Board and Special Committee, after consultation with its legal and financial advisors, believed that the termination fee payable by InfoSonics in such circumstances, as a percentage of the enterprise value of the transaction, would not materially impede the ability of a third party to make a superior bid to acquire InfoSonics if such third party were interested in doing so;

the risk of diverting InfoSonics' management focus, employee attention and resources from other strategic opportunities and from operational matters while working to complete the Merger; and

the risks described in the section entitled "Risk Factors" beginning on page 19 of this proxy statement/prospectus.

Table of Contents

The InfoSonics Board believes that, overall, the potential benefits to InfoSonics stockholders of the Merger Agreement and the transactions contemplated thereby outweigh the risks and uncertainties.

Although this discussion of the information and factors considered by the InfoSonics Board is believed to include the material factors it considered, it is not intended to be exhaustive and may not include all of the factors considered by the InfoSonics Board. The InfoSonics Board did not find it useful and did not attempt to quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination that the Merger Agreement and the transactions contemplated thereby are fair to, advisable, and in the best interests of InfoSonics and its stockholders. The InfoSonics Board based its determination on the totality of the information presented to and factors considered by it. In addition, individual members of the InfoSonics Board may have given differing weights to different factors.

Cooltech Reasons for the Merger and Recommendation of the Cooltech Board

In the course of reaching its decision to approve the Merger, the Cooltech board of directors consulted with its senior management team, financial advisor, conducted due diligence, and considered a number of factors, including, among others, the:

potential to provide its current shareholders with greater liquidity by owning stock in a public company;

terms and conditions of the Merger Agreement, including, without limitation, the following:

determination that the expected relative percentage ownership of InfoSonics security holders and Cooltech security holders in the combined organization was appropriate based, in the judgment of Cooltech's board of directors, on the board of directors' assessment of the approximate valuations of InfoSonics and Cooltech;

limited number and nature of the conditions of the obligation of Cooltech to consummate the Merger;

the Merger consideration issued to Cooltech shareholders will be registered on a Form S-4 registration statement by InfoSonics and will become freely tradable for Cooltech's shareholders who are not affiliates of Cooltech or who have not executed lockup agreements;

ability to raise capital in the future as a public company to fund operations and other activities; and

likelihood that the Merger will be consummated on a timely basis.

Cooltech's board of directors also considered a number of uncertainties and risks in its deliberations concerning the Merger contemplated by the Merger Agreement, including the following:

the possibility that the Merger might not be completed and the potential adverse effect of the public announcement of the Merger on the reputation of Cooltech and the ability of Cooltech to obtain financing in the future in the event the Merger is not completed;

the risk that the Merger might not be consummated in a timely manner, or at all;

the expenses to be incurred in connection with the Merger and related administrative challenges associated with combining the companies;

additional public company expenses and obligations that Cooltech will be subject to following the Merger that it has not previously been subject to; and

various other risks associated with the combined organization and the Merger, including the risks described in the section entitled "Risk Factors" in this proxy statement/prospectus.

Table of Contents

Also in considering the Merger with InfoSonics, the Board of Directors of Cooltech (the Cooltech Board) consulted the InfoSonics financial statements and other reports filed with the SEC. The Cooltech Board believes that the business of InfoSonics is attractive as a merger candidate for Cooltech given its current operations and presence in Latin America. Specifically, the Cooltech Board believes that combining the business operations of Cooltech and InfoSonics will potentially generate revenue sufficient to support Cooltech's growth and plan of expansion.

The Cooltech Board also considered a traditional initial public offering of its securities. The Merger with InfoSonics became a more attractive option for the reasons mentioned above mainly the attractiveness of combining a complementary business with operations in Latin America with the upside of complementary business operations and efficiencies of a unified public company management team and speed to completion without the need for and expertise of traditional investment bankers to complete a traditional initial public offering.

Projected Financial Information

We have included in this proxy statement/prospectus a summary of InfoSonics and Cooltech's projections solely to give stockholders access to the non-public information that was made available to the InfoSonics Special Committee in connection with its consideration of the private placement of InfoSonics Common Stock and the Merger with Cooltech and provided to Stout and Cooltech in connection with the financial analyses performed by them. These projections are not included in this proxy statement/prospectus in order to influence you to make any investment decision with respect to the Merger, or to influence your decision whether to vote for or against the proposal to approve the Merger with Cooltech.

Although the projections are presented with numerical specificity, the projections reflect numerous estimates and assumptions with respect to general business, economic, market and financial conditions, our ability to execute our strategic plan and other matters, all of which are difficult to predict and many of which are beyond our control. These assumptions are set forth below each financial projection.

The internal financial forecasts upon which these projections were based are, in general, prepared solely for internal use, such as budgeting and other management decisions, and are subjective in many respects, and thus are susceptible to various interpretations. While we believe that the assumptions our management and Cooltech's management used as a basis for the projections were reasonable at the time the projections were prepared, given information our management and Cooltech's management had at the time, this information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this proxy statement/prospectus are cautioned not to place undue reliance on the prospective financial information.

The projections were not prepared with a view toward public disclosure or with a view toward complying with the guidelines established by the American Institute of Certified Public Accountants with respect to prospective financial information, but, in the view of our management, were prepared on a reasonable basis.

Neither our independent auditors, nor any other independent accountants or any other parties (including Stout), have compiled, examined, or performed any procedures with respect to the prospective financial information contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information.

The principal components of the financial projections provided by InfoSonics management and Cooltech's management to Stout for the preparation of its financial analysis and opinions are set forth below. Stout's financial analysis and opinions were also based on, and qualified by, additional information not set forth below, as disclosed in

Opinions of Stout Risius Ross, LLC

On July 24, 2017, Stout rendered an oral opinion to the InfoSonics Special Committee (which was confirmed in writing by delivery of Stout's written opinion dated July 25, 2017), to the effect, as of July 25, 2017 and based upon and subject to the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by Stout in preparing its opinion, that (a) the Private Placement consideration to be received by the Company pursuant to the Private Placement was fair to the Company, from a financial point of view and (b) the Merger was fair to the pre-Merger InfoSonics stockholders, from a financial point of view.

Table of Contents

Stout's opinions were intended to be utilized by the InfoSonics Special Committee as only one input to consider in its process of analyzing the transactions. No opinion, counsel or interpretation was intended in matters that require legal, regulatory, accounting, insurance, tax or other similar professional advice. Stout was not requested to opine as to, and its opinions did not in any manner address the following: (i) the underlying business decision of InfoSonics, InfoSonics securityholders, the InfoSonics Board, the InfoSonics Special Committee or any other party to proceed with or effect the transactions; (ii) the merits of the transactions relative to any alternative business strategies that may exist for InfoSonics or any other party or the effect of any other transactions in which InfoSonics or any other party might have engaged; (iii) the terms of any arrangements, understandings, agreements or documents related to, or the form or any other portion or aspect of, the transactions or otherwise, except as expressly addressed in the opinions; (iv) the fairness of any portion or aspect of the transactions to the holders of any class of securities, creditors or other constituencies of InfoSonics, or to any other party, not specifically addressed in the opinions; (v) the solvency, creditworthiness or fair value of InfoSonics or any other participant in the transactions under any applicable laws relating to bankruptcy, insolvency or similar matters or (vi) how the InfoSonics Board, the InfoSonics Special Committee, the InfoSonics securityholders or any other person should act with respect to the transactions.

Further, Stout's opinions were not intended to and do not constitute a recommendation to any stockholder of InfoSonics as to how such stockholder should vote in regard to the transactions. The InfoSonics Special Committee acknowledges that Stout was not engaged to, and has not, (a) initiated any discussions with, or solicited any indications of interest from, third parties with respect to (i) the transactions, (ii) the assets of InfoSonics, (iii) any businesses or operations of InfoSonics, Cooltech or any other party, or (iv) any alternatives to the transactions, or (b) negotiated the terms of the transactions or the financing for the transactions.

Stout's opinions were premised on the assumption that the assets, liabilities, financial condition, and prospects of InfoSonics as of the date of its opinions had not changed materially since May 31, 2017, the date of the most recent InfoSonics financial statements made available to Stout. Stout's opinions were also premised on the assumption that the assets, liabilities, financial condition, and prospects of Cooltech as of the date of its opinions had not changed materially since June 30, 2017, the date of the most recent Cooltech financial statements made available to Stout.

In rendering its opinions, Stout was not provided a consolidated balance sheet of Cooltech on a pro forma basis reflecting the proposed acquisition of OneClick License LLC and OneClick International LLC (together OneClick) since the acquisition of OneClick had not closed as of the date of the opinions. As such, the opinions are premised upon and assume that any such pro forma consolidated balance sheet of Cooltech, which Stout believes would include, among other things, the effect of the assets and liabilities of OneClick and other affiliates, to the extent appropriate, would have no material effect on the other materials related to Cooltech Stout has reviewed and the overall valuation of Cooltech. Without limiting the generality of the foregoing, in rendering its opinions, Stout has assumed that the indebtedness reflected on any such pro forma consolidated balance sheet of Cooltech, as of the date of Stout's opinions, would not exceed the sum of (a) \$2.3 million, on account of Cooltech's indebtedness as of June 30, 2017, plus (b) \$8.9 million, on account of OneClick indebtedness related to its financial condition as of the date of Stout's opinions. Stout further assumed that Cooltech on a pro forma basis and upon consummation of the Transactions will have sufficient working capital.

Stout's opinions are necessarily based on business, economic, market, and other conditions as they existed and could be evaluated by Stout on the date of the opinions. Subsequent developments may affect these opinions before the closing of any transactions contemplated by the opinions, including, but not limited to, developments with respect to the assets, liabilities, prospects, revenue, indebtedness, or business of InfoSonics and/or OneClick. Notwithstanding the foregoing, Stout does not have any obligation to update, revise, or reaffirm its opinions and its opinions speak only as of the date thereof.

Table of Contents

In rendering its opinions, Stout assumed and relied upon the accuracy and completeness of all financial and other information that was publicly available, furnished by InfoSonics and/or Cooltech, or otherwise reviewed by or discussed with Stout without independent verification of such information and Stout assumed and relied upon the representations and warranties contained in the draft Securities Purchase Agreements and Merger Agreement it reviewed. Stout assumed, without independent verification, that the financial forecasts and projections provided to Stout were prepared in good faith and reflected the best currently available estimate of the future financial results of InfoSonics and Cooltech, and Stout relied upon such projections in arriving at its opinions. Stout was not engaged to assess the reasonableness or achievability of these forecasts and projections or the assumptions upon which they were based, and Stout expressed no view as to these forecasts, projections, or assumptions. Stout assumed that the Private Placement and Merger would be consummated on the terms described in the draft Securities Purchase Agreements and Merger Agreement, without any waiver of any material terms or conditions by the parties to the draft Securities Purchase Agreements and Merger Agreement.

Stout did not conduct a physical inspection of InfoSonics' or Cooltech's facilities or assets. Stout assumed, with the consent of the InfoSonics Board, that the final executed form of the Securities Purchase Agreements and Merger Agreement would not differ materially from the draft of the Securities Purchase Agreements and Merger Agreement that it examined, that the conditions to the Private Placement and the Merger as set forth in the draft Securities Purchase Agreements and Merger Agreement would be satisfied, and that the Private Placement and the Merger would be consummated on a timely basis in the manner contemplated by the draft Securities Purchase Agreements and Merger Agreement. Stout's opinions were necessarily based on business, economic, market, and other conditions as they existed and could be evaluated by Stout at the date of its opinions. Although subsequent developments may affect Stout's opinions, Stout does not have any obligation to update, revise, or reaffirm its opinions. Stout reserves the right, however, to withdraw, revise, or modify its opinions based upon additional information that may be provided to or obtained by it after the date of its opinions that suggests, in Stout's judgment, a material change in the assumptions upon which its opinions were based.

Stout's opinions were furnished for the use and benefit of the InfoSonics Special Committee in connection with the Private Placement and Merger, and were not intended to be used, and may not be used, for any other purpose, without Stout's express, prior written consent. Stout has consented to the reproduction of its written opinion in this proxy statement/prospectus and to the inclusion of our summary of its opinions as it appears in this proxy statement/prospectus.

Summary of Valuation Analyses

In preparing its opinions to the InfoSonics Special Committee, Stout performed a variety of analyses, including those described below. The summary of Stout's analyses is not a complete description of the analyses underlying Stout's opinions. The preparation of a fairness opinion is a complex process involving various quantitative and qualitative judgments and determinations with respect to the financial, comparative and other analytical methods employed and the adaptation and application of these methods to the unique facts and circumstances presented. Stout arrived at its opinions based on the results of all analyses undertaken by it and assessed as a whole. Stout did not form a conclusion as to whether any individual analysis, when considered independently of the other analyses conducted by Stout, supported or failed to support its opinion as to the fairness to InfoSonics, from a financial point of view, of the Private Placement consideration to be received by InfoSonics pursuant to the Private Placement transaction or whether the analysis supported or failed to support its opinion as to the fairness of the Merger, from a financial point of view, to the pre-Merger InfoSonics stockholders. Further, Stout did not specifically rely or place specific weight on any individual analysis. Rather, Stout believes that its analyses must be considered in their entirety, and that selecting portions of its analyses or the factors it considered, without considering all analyses and factors together, could create a misleading or incomplete view of the processes underlying the analyses performed by Stout in connection with the

preparation of its opinions. Each analytical technique has inherent strengths and weaknesses, and the nature of the available information may further affect the value of particular techniques.

Table of Contents

The implied reference range values indicated by Stout's analyses, and the estimates upon which they are based, are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those suggested by the analyses. In addition, any analyses relating to the value of assets, businesses or securities do not purport to be appraisals or to reflect the prices at which assets, businesses or securities may actually be sold, which may depend on a variety of factors, many of which are beyond our control. Much of the information used in, and accordingly the results of, Stout's analyses are inherently subject to substantial uncertainty.

Stout's opinions were provided to the InfoSonics Special Committee in connection with its consideration of the proposed Private Placement and Merger and Stout's opinions were only one of many factors considered by the InfoSonics Board in evaluating the proposed transactions. Neither Stout's opinions nor its analyses were determinative of the Private Placement consideration and/or the Merger, or of the views of the InfoSonics Board or management with respect to the Private Placement consideration or the Merger therein. The type and amount of consideration payable in the Private Placement and the Merger with Cooltech were determined through negotiation between InfoSonics and Cooltech, and the decision to enter into the Private Placement and Merger was solely that of the InfoSonics Board.

The following is a summary of the material analyses reviewed by Stout with the InfoSonics Special Committee in connection with Stout's written opinion delivered on July 25, 2017. The order of the analyses below does not represent relative importance or weight given to those analyses by Stout. In addition, the analyses summarized below include information presented in tabular format. The tables alone do not constitute a complete description of the analyses. Considering the data in the tables below without considering the full narrative description of the analyses, as well as the methodologies underlying, and the assumptions, qualifications and limitations affecting, each analysis, could create a misleading or incomplete view of Stout's analyses.

Key Financial Metrics Private Placement

As further described below, Stout performed a discounted cash flow analysis and also considered a liquidation analysis (performed by an outside firm specializing in liquidation analyses) as inputs in comparing the implied equity value per share reference range for InfoSonics with the proposed Private Placement consideration.

For each of the valuation analyses, Stout calculated a range of estimated enterprise values and, using these enterprise values, calculated a range of estimated equity values for InfoSonics by making the following adjustments with the consent of the InfoSonics Board: (i) adding to estimated enterprise value cash and cash equivalents in an aggregate amount equal to \$352,000, and (ii) adding to enterprise value non-operating assets in an aggregate amount equal to \$43,000. InfoSonics does not have any interest-bearing debt, so no further adjustment to the estimated enterprise values was required in order to calculate the Company's estimated equity values.

For purposes of comparing the implied equity value per share reference range to the proposed Private Placement consideration, Stout calculated the proposed Private Placement consideration to be \$0.40 per share, less \$0.06 per share of estimated warrant value (calculated separately by Stout), for net Private Placement consideration of \$0.34 per share.

Discounted Cash Flow Method InfoSonics

Stout performed two discounted cash flow analyses, which were used to estimate the present value of InfoSonics unlevered, after-tax, free cash flows on a standalone basis. In performing its discounted cash flow analyses, Stout calculated the free cash flows that InfoSonics is expected to generate for the last two fiscal quarters of 2017 and the fiscal years 2018 through 2020 based on our management's long-term forecast for fiscal years 2017 through 2020, and

considering two different outlooks for future growth. The first forecast (Forecast

Table of Contents

1) assumed varying rates of growth for each of the regions in which the Company does business. The second forecast (Forecast 2) was identical to Forecast 1 except for the assumption regarding growth in Europe, the Middle East, and Africa (EMEA). Forecast 2 assumed significantly higher growth for the Company in EMEA.

For Forecast 1, Stout calculated a range of implied enterprise value by calculating the present value of estimated unlevered free cash flows through the end of fiscal year 2020, as well as a residual value that takes into account the cash flows beyond fiscal year 2020, based on a range of discount rates of 16.5% to 18.5%, which were based upon InfoSonics' estimated weighted average cost of capital (WACC), and a range of residual growth rates of 2.5% to 3.5%, which were based on the prospects for longer term growth of InfoSonics' business, as well as the expectations for the telecommunications industry.

For Forecast 2, Stout calculated a range of implied enterprise value by calculating the present value of estimated unlevered free cash flows through the end of fiscal year 2020, as well as a residual value that takes into account the cash flows beyond fiscal year 2020, based on a range of discount rates of 21.5% to 23.5% (a WACC which reflects the risk inherent in the much more aggressive sales and profit scenario of Forecast 2) and a range of residual growth rates of 2.5% to 3.5%.

The estimated WACC used in the analysis was based upon estimates of InfoSonics' cost of equity capital, cost of debt capital, and an assumed capital structure, all of which were based upon information from various independent sources (including the Board of Governors of the Federal Reserve, Duff & Phelps' Valuation Handbook, Morningstar, Inc. and S&P Capital IQ, Inc.) concerning market risk-free interest rates, market equity risk premiums, equity betas, small stock risk premiums, and corporate bond rates. In addition, Stout incorporated a 5.0% company specific risk premium in its calculation of InfoSonics' cost of equity capital in Forecast 2, which reflects the additional risk associated with achieving Forecast 2, which is substantially more aggressive in terms of growth than Forecast 1.

Based on the assumptions above, the discounted cash flow analysis for Forecast 1 resulted in a range of estimated enterprise values of \$770,000 to \$920,000. Based on the assumptions above, the discounted cash flow analysis for Forecast 2 resulted in a range of estimated enterprise values of \$3.0 million to \$3.7 million.

Using this range of enterprise values, Stout calculated an estimated equity value for InfoSonics by (i) adding to estimated enterprise value cash and cash equivalents in an aggregate amount equal to \$352,000 and (ii) adding non-operating assets of \$43,000 to estimated enterprise value. This analysis implied an equity value range for InfoSonics of \$0.08 to \$0.09 per share for Forecast 1 and \$0.24 to \$0.28 per share for Forecast 2.

Liquidation InfoSonics

The Special Committee engaged a third party valuation firm to perform a liquidation analysis of InfoSonics as of April 30, 2017 assuming an orderly liquidation of InfoSonics' balance sheet, net of one time costs. The third party valuation firm determined that the net assets of InfoSonics are valued between \$1.5 million and \$4.0 million under a liquidation scenario. These figures were adjusted by Stout to reflect InfoSonics' May 31, 2017 balance sheet, which indicated an equity value range from \$0.07 to \$0.25 per share, after one time costs.

Results of Valuation Analyses

As described above, Stout performed a discounted cash flow analysis for Forecast 1 and 2 and considered the liquidation analysis as inputs in comparing the implied equity value per share reference range for InfoSonics with the proposed Private Placement consideration. These analyses indicated an equity value per share reference range for InfoSonics of \$0.07 to \$0.28, as compared to the proposed Private Placement consideration of \$0.40 per share (\$0.34

net of warrant value).

Key Financial Metrics Merger with Cooltech

As further described below, Stout performed a discounted cash flow analysis and also considered Cooltech's recent private placement in analyzing the exchange ratio to be received in the combined companies as inputs in comparing the exchange ratio reference range for existing InfoSonics shareholders with the proposed exchange ratio in the Merger.

Discounted Cash Flow Method Cooltech Merger Exchange Ratio

Stout performed a discounted cash flow analysis, which was used to estimate the present value of Cooltech's unlevered, after-tax, free cash flows on a combined basis. In performing its discounted cash flow analyses, Stout calculated the free cash flows that Cooltech is expected to generate for the last two fiscal quarters of 2017 and the fiscal years 2018 through 2019 based on Cooltech management's long-term forecast for fiscal years 2017 through 2019.

Stout calculated a range of implied enterprise value by calculating the present value of estimated unlevered free cash flows through the end of fiscal year 2019, as well as a residual value that takes into account the cash flows beyond fiscal year 2019, based on a range of discount rates of 27.5% to 32.5%, which were based upon Cooltech's estimated weighted average cost of capital (WACC), and an H-Model which assumes that Cooltech's residual growth rate will vary over time from 30% at the beginning of the residual period to a stable, long-term growth rate of 2.5% to 3.5%, which were based on the prospects for longer term growth of Cooltech's business, as well as the expectations for the telecommunications industry.

Based on the assumptions above, the discounted cash flow analysis for Cooltech resulted in a range of estimated enterprise values of \$34.5 million to \$46.3 million. Using this range of enterprise values, Stout calculated an estimated equity value for Cooltech by (i) adding to estimated enterprise value cash and cash equivalents in an aggregate amount equal to \$111,000, (ii) subtracting Cooltech's existing debt and (iii) subtracting debt that will be assumed in the OneClick acquisition of \$8.79 million. This analysis implied an equity value range for Cooltech between \$23.5 million to \$35.3 million.

In calculating the Merger exchange ratio indicated for InfoSonics' existing shareholders, Stout utilized \$1 million to \$4 million for the intrinsic total value of equity of InfoSonics and the Cooltech indicated range of equity values of \$23.5 million to \$35.3 million. This analysis results in a suggested Merger exchange ratio of between 2.7% to 14.0% for InfoSonics' existing shareholders.

Indications from Cooltech Private Placement Transaction

From March 2017 to July 2017, Cooltech conducted a private placement of its shares with the assistance of Laidlaw Securities. Approximately 2.275 million shares were sold at \$2.50 per share, implying a post-money valuation of \$25.5 million. Based on the \$25.5 million post-money value for Cooltech and the estimated range of total intrinsic value of equity of InfoSonics of between \$1 million and \$4 million, the suggested exchange ratio for InfoSonics existing shareholders is 3.7% to 13.1%.

Results of Valuation Analyses

As described above, Stout performed a discounted cash flow analysis and considered a recent Cooltech private placement of stock in comparing the implied equity value exchange ratio reference range for InfoSonics existing shareholders with the proposed Merger exchange ratio to be received by existing shareholders. These analyses

indicated an equity value exchange ratio reference range for InfoSonics existing shareholders of 2.7% to 14.0%, as compared to the proposed Merger exchange ratio of 17.2% (15.9% on a fully diluted basis).

Other Matters

Stout was engaged by the Company to provide an opinion to the InfoSonics Special Committee regarding the fairness, from a financial point of view, of the Private Placement consideration to be received by the

Table of Contents

Company pursuant to the Private Placement and to provide an opinion regarding the fairness of the Merger with Cooltech, from a financial point of view, to the pre-Merger InfoSonics stockholders. We engaged Stout based on Stout's experience and reputation. Stout is regularly engaged to render financial opinions in connection with mergers, acquisitions, divestitures, leveraged buyouts, recapitalizations, and for other purposes. The issuance of Stout's written opinion was approved by an internal committee of Stout authorized to approve opinions of this nature. Pursuant to the engagement letter with Stout, the Company paid Stout a fee of \$150,000 for its services, \$25,000 of which became payable upon the execution of Stout's engagement letter, an additional \$50,000 of which became payable on agreement to sign the term sheet with Cooltech and \$75,000 of which became payable upon the delivery of Stout's opinion, regardless of the conclusion reached therein. No portion of Stout's fee is contingent upon the successful completion of the Private Placement or the Merger. Further, none of Stout's employees who worked on the engagement has any known financial interest in the assets or equity of the Company or Cooltech or the outcome of the engagement, and Stout has not previously provided financial advisory services to the Company. The Company has also agreed to reimburse Stout for certain expenses and to indemnify Stout and certain related parties against certain liabilities and other losses associated with any third-party claim (including securityholder actions) relating to or arising as a result of Stout's services or engagement.

Listing of InfoSonics Common Stock on NASDAQ and New Listing Application

InfoSonics Common Stock is currently listed on the NASDAQ Capital Market under the symbol IFON. NASDAQ considers the Merger proposed in this proxy statement/prospectus to be a business combination with a non-NASDAQ entity and has required that a new listing application be submitted in connection with the Merger. Although we believe that NASDAQ will approve the new listing application, it is possible that NASDAQ will deny the application. If the Merger were to proceed without NASDAQ approval, NASDAQ could issue the combined company a delisting letter immediately after completion of the Merger. If this were to occur, the combined company would take all reasonable action in order to maintain the listing of its common stock on NASDAQ. However, there can be no assurance that the combined company would be successful under such circumstances, and if the combined company's common stock were delisted from NASDAQ, stockholders may have difficulty converting their investments into cash effectively. As a result, under such circumstances, the relative price of the combined company's stock may decline and/or fluctuate more than in the past.

Anticipated Accounting Treatment

Under U.S. GAAP, the Merger will be accounted for as a reverse acquisition pursuant to which Cooltech will be considered the acquiring entity for accounting purposes. As such, Cooltech will allocate the total purchase consideration to InfoSonics' tangible and identifiable intangible assets and liabilities based on their respective fair values at the date of the completion of the Merger. Cooltech's historical results of operations will replace InfoSonics' historical results of operations for all periods prior to the Merger; after completion of the Merger, the results of operations of both companies will be included in InfoSonics' financial statements.

InfoSonics will account for the Merger using the acquisition method of accounting under U.S. GAAP. Accounting Standards Codification 805 *Business Combinations*, referred to as ASC 805, which provides guidance for determining the accounting acquiror in a business combination when equity interests are exchanged between two entities. ASC 805 provides that in a business combination effected through an exchange of equity interests, such as the Merger, the entity that issues the equity interests is generally the acquiring entity. Commonly, the acquiring entity is the larger entity. However, the facts and circumstances surrounding a business combination sometimes indicate that a smaller entity acquires a larger one. ASC 805 further provides that in identifying the acquiring entity in a combination effected through an exchange of equity interests, all pertinent facts and circumstances must be considered, including the relative voting rights of the stockholders of the constituent companies in the combined entity, the composition of

the board of directors and senior management of the combined company and the terms of the exchange of equity securities in the business combination, including payment of any premium.

Table of Contents

Because the former Cooltech stockholders will have a majority voting interest in the combined company, InfoSonics Board will be composed of four board members designated by former Cooltech stockholders and Robert Picow and the chief executive officer of the combined company will be the chief executive officer of Cooltech, Cooltech is considered to be the acquiror of InfoSonics for accounting purposes. This means that the total purchase price will be allocated to InfoSonics' tangible and identifiable intangible assets and liabilities based on their estimated relative fair market values at the date of the completion of the Merger. Final valuations of property, plant and equipment, and intangible and other assets have not yet been completed as management is still reviewing the existence, characteristics and useful lives of InfoSonics' intangible assets. The completion of the valuation work could result in significantly different amortization expenses and balance sheet classifications. After completion of the Merger, the results of operations of both companies will be included in the financial statements of InfoSonics. For further discussion of the accounting treatment, see "Unaudited Pro Forma Condensed Combined Financial Information" on page 93.

Material U.S. Federal Income Tax Consequences of the Merger

The following discussion sets forth the material U.S. federal income tax consequences of the Merger that management believes will apply with respect to holders of InfoSonics Common Stock. This discussion does not address the tax consequences of transactions effectuated prior to or after the Merger, including, without limitation, the tax consequences of the exercise of options, warrants or similar rights to purchase InfoSonics Common Stock. This discussion does not describe all of the tax consequences that may be relevant to a holder in light of the holder's particular circumstances or to holders subject to special rules (such as dealers in securities, financial institutions, insurance companies, tax-exempt organizations, foreign individuals and entities and persons who acquired their InfoSonics Common Stock as compensation). In addition, this summary is limited to holders who hold their InfoSonics Common Stock as capital assets. This discussion also does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. Accordingly, each holder is strongly urged to consult with a tax adviser to determine the particular federal, state, local or foreign income or other tax consequences to such holder related to the Merger.

For U.S. federal income tax purposes, the Merger will not be a taxable event for holders of InfoSonics Common Stock. Consequently, holders of InfoSonics Common Stock will not realize any taxable gain or loss as a result of the Merger, and will continue to possess the same holding period and tax basis in their InfoSonics Common Stock following the Merger as immediately before the Merger.

Regulatory Approvals

Except for the filing of the Articles of Merger with the Secretary of State of the State of Nevada at or before the effective time of the Merger, InfoSonics is unaware of any material federal, state or foreign regulatory requirements or approvals that would be necessary for the consummation of the Merger. The Articles of Merger will not be filed until immediately prior to the effective time of the Merger.

In addition, as a condition to closing the Merger, NASDAQ must have approved an initial listing application of InfoSonics on a post-Merger basis for purposes of the listing of InfoSonics Common Stock on NASDAQ following the Merger.

2. *InfoSonics Board.* Robert Picow will continue to serve on the InfoSonics Board following completion of the Merger. In his role as a director of InfoSonics, Mr. Picow will receive InfoSonics' standard director compensation package.

Employment Agreements and Consulting Arrangements

Joseph Ram. Mr. Ram's employment agreement provides for the payment of severance under certain conditions. If InfoSonics terminates his employment other than for cause or if Mr. Ram terminates his employment for reasonable basis, Mr. Ram is entitled to a severance payment equal to the greater of (i) 18 months of salary and (ii) the salary payable over 50% of the remaining term of the employment agreement, subject to Mr. Ram's execution within 45 days of the termination date of a general release and waiver of claims against InfoSonics. If Mr. Ram voluntarily terminates his employment other than for reasonable basis, he is not entitled to receive a severance payment. Under the terms of the agreement, Mr. Ram is also subject to confidentiality and non-competition restrictions in favor of InfoSonics.

Under the employment agreement, the term reasonable basis generally means a material breach of the employment agreement by the Company that is not timely cured by the Company, a termination without cause during the term of the agreement, a reduction in Mr. Ram's salary except to the extent that a majority of the other executive officers of the Company incur similar reductions, or a termination of employment within 12 months after a change of control.

The term change of control generally means any consolidation or merger in which the Company is not the continuing or surviving corporation, except where the holders of InfoSonics Common Stock immediately prior to the merger own a majority of the voting common stock of the surviving corporation immediately after the merger; a sale, lease, exchange or other transfer of all or substantially all the Company's assets; stockholder approval of a liquidation or dissolution of the Company; the acquisition by any person or entity of a majority of the stock entitled to elect a majority of the directors of the Company; or a bankruptcy proceeding.

The term cause generally means engaging in or committing willful misconduct, gross negligence, theft, fraud or other illegal conduct; refusal or unwillingness to perform, or materially inadequate performance of the executive's duties; breach of any applicable non-competition, confidentiality or other proprietary information or inventions agreement; inappropriate conflict of interest; insubordination; failure to follow the directions of the InfoSonics Board or any committee thereof; or indictment or conviction of any felony, or any entry of a plea of nolo contendere.

It is anticipated that Mr. Ram will become entitled to the severance payments under his employment agreement as a result of the Merger. Following the Merger, Mr. Ram is anticipated to execute a consulting agreement with InfoSonics, the terms of which are still under negotiation.

Vernon A. LoForti. Mr. LoForti's employment agreement provides for the payment of severance under certain conditions. If InfoSonics terminates his employment other than for cause or if Mr. LoForti terminates his employment for reasonable basis, he will be entitled to receive severance payments equal to his base salary for nine months, conditioned upon the execution by Mr. LoForti within 45 days of the termination date of a general release and waiver of claims against the Company. If Mr. LoForti voluntarily terminates his employment other than for reasonable basis, he is not entitled to receive a severance payment. Under the terms of the agreement, Mr. LoForti is subject to confidentiality restrictions in favor of InfoSonics.

Under the employment agreement, the terms reasonable basis, change of control and cause generally have the same meanings as under the employment agreement with Mr. Ram described above (except that reasonable basis does not

include a termination of employment within 12 months of a change of control under Mr. LoForti's employment agreement).

Table of Contents

It is anticipated that Mr. LoForti will become entitled to the severance payments under his employment agreement as a result of the Merger. Following the Merger, Mr. LoForti is anticipated to execute a consulting agreement with InfoSonics, the terms of which are still under negotiation.

The amounts indicated in the table below are estimates of the amounts that would be payable, assuming, solely for purposes of this table, and except as otherwise indicated below, that the Merger was completed on December 31, 2016, and that the employment of each of the named executive officers was terminated without cause on that date.

The estimated amounts below are based on multiple assumptions that may not actually occur or that may vary depending on the actual date the Merger is completed. Accordingly, the actual amounts to be received by a named executive officer in connection with the Merger may differ in material respects from the amounts set forth below. The disclosures in the table below and the accompanying footnotes should be read in conjunction with the narrative description of the compensation arrangements set forth above.

- FOR** Proposal 6 to approve the Adjournment Proposal;

Record Date and Quorum

The InfoSonics Board has fixed the close of business on [], 2017 as the record date. Stockholders of record as of the record date are entitled to notice of and to vote at the Special Meeting. As of the close of business on the record date, [] shares of InfoSonics Common Stock were issued and outstanding. Each InfoSonics stockholder is entitled to one vote for each share of InfoSonics Common Stock held by such stockholder as of the record date. Holders of a majority of the outstanding shares of InfoSonics Common Stock entitled to vote as of the record date must be present in person or represented by proxy at the Special Meeting in order to have the required quorum for transacting business. Abstentions are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business. Broker non-votes (which are shares represented by valid proxies received from a bank, broker or other nominee, that are not voted on a matter either because the bank, broker or nominee did not receive voting instructions from the beneficial owner or the bank, broker or nominee lacks discretionary authority to vote such shares) are counted for determining whether a quorum is present. If you sell or transfer your shares of InfoSonics common stock after the record date but before the Special Meeting, you will retain your right to vote such shares of InfoSonics Common Stock at the Special Meeting unless you have transferred these rights via proxy to the acquirer of your shares. You are urged to vote by completing, signing, dating and mailing the enclosed proxy card in the envelope provided, or by Internet or telephone by following the instructions on the enclosed proxy card. If your shares of InfoSonics Common Stock are held in the name of your broker, bank or other nominee, you should submit voting instructions to your broker, bank or other nominee. Please refer to the voting instruction card included in these proxy materials by your broker, bank or other nominee.

Required Vote

The affirmative vote, in person or by proxy, of holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present) is required to approve the Merger Proposal (Proposal 1), the Authorized Shares Increase Proposal (Proposal 3) and the Reverse Split Proposal (Proposal 4). The affirmative vote, in person or by proxy, of a majority of all votes cast (assuming a quorum is present) at the Special Meeting and entitled to vote on the matter is required to approve the Non-Public Offering Proposal (Proposal 2), the Executive Compensation Proposal (Proposal 5), and the Adjournment Proposal (Proposal 6).

Edgar Filing: InfoSonics Corp - Form S-4/A

Votes may be cast in favor of, or against, each matter. You may also vote **ABSTAIN** with respect to any matter. With respect to the Merger Proposal (Proposal 1), the Authorized Shares Increase Proposal (Proposal 3) and the Reverse Split Proposal (Proposal 4), such abstentions will be treated as shares present in person or represented by proxy and entitled to vote on that matter and thus will have the same effect as votes against the proposals. With respect to the approval of the Non-Public Offering Proposal (Proposal 2), the Executive Compensation Proposal (Proposal 5), and the Adjournment Proposal (Proposal 6), if you vote to abstain, or if you

fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of these proposals.

If your shares of InfoSonics Common Stock are held by a broker, bank or other nominee, such broker, bank or other nominee is only entitled to vote your shares on routine matters, such as the ratification of the appointment of an independent registered public accounting firm, without instructions from you, the beneficial owner of those shares. Your broker, bank or other nominee is not entitled to vote shares held for a beneficial owner on non-routine matters, such as approval of the Merger Proposal, the Non-Public Offering Proposal, the Authorized Shares Increase Proposal, the Executive Compensation Proposal and the Adjournment Proposal. **Consequently, if you do not give your broker, bank or other nominee specific instructions, your shares will not be voted at the Special Meeting. You are encouraged to provide instructions to your broker. This ensures your shares will be voted at the Special Meeting.**

Failure to vote (whether by proxy or in person at the Special Meeting) will have the same effect as a vote against the Merger Proposal, the Authorized Shares Increase Proposal and the Reverse Split Proposal. Failing to vote (whether by proxy or in person at the Special Meeting) will have no effect on the outcome of the vote for the Non-Public Offering Proposal, the Adjournment Proposal, and the Executive Compensation Proposal, assuming a quorum is present.

Share Ownership and Voting by InfoSonics Directors and Executive Officers

As of the record date, the directors and executive officers of InfoSonics held and are entitled to vote, in the aggregate, approximately [] % of the aggregate voting power of the outstanding shares of InfoSonics Common Stock.

Voting of Shares

For Stockholders of Record:

In addition to voting in person at the Special Meeting, if your shares of InfoSonics Common Stock are held in your name by InfoSonics transfer agent as a stockholder of record, you, as an InfoSonics stockholder, may submit a proxy as follows:

By Internet. The web address and instructions for Internet proxy submission can be found on the enclosed proxy card. You will be required to provide your assigned control number located on the proxy card. Internet proxy submission via the web address indicated on the enclosed proxy card is available 24 hours a day. If you choose to submit your proxy by Internet, then you do not need to return the proxy card. To be valid, your Internet proxy must be received by 11:59 p.m. (U.S. Eastern Time) on the day preceding the Special Meeting.

By Telephone. The toll-free number for telephone proxy submission can be found on the enclosed proxy card. You will be required to provide your assigned control number located on the proxy card. Telephone proxy submission is available 24 hours a day. If you choose to submit your proxy by telephone, then you do not need to return the proxy card. To be valid, your telephone proxy must be received by 11:59 p.m. (U.S. Eastern Time) on the day preceding the Special Meeting.

By Mail. Mark the enclosed proxy card, sign and date it, and return it in the postage-paid envelope we have provided. To be valid, your proxy by mail must be received by 11:59 p.m. (U.S. Eastern Time) on the day preceding the Special Meeting.

Edgar Filing: InfoSonics Corp - Form S-4/A

InfoSonics requests that InfoSonics stockholders submit their proxies over the Internet, by telephone or by completing and signing the accompanying proxy and returning it to InfoSonics as soon as possible in the enclosed postage-paid envelope. When the accompanying proxy is returned properly executed (including proper proxy submission by Internet or telephone), the shares of InfoSonics Common Stock represented by it will be voted at the Special Meeting in accordance with the instructions contained on the proxy card.

Table of Contents

If you sign and return your proxy or voting instruction card without indicating how to vote on any particular proposal, the InfoSonics Common Stock represented by your proxy will be voted **FOR** each proposal in accordance with the recommendation of the InfoSonics Board. Unless you check the box on your proxy card to withhold discretionary authority, the proxy holders may use their discretion to vote on the proposals relating to the Special Meeting.

If your shares of InfoSonics Common Stock are held in street name by a broker, bank or other nominee, you should check the voting form used by that firm to determine whether you may give voting instructions by telephone or the Internet and you should read the information in the section entitled Voting of Shares For Beneficial Owners below.

EVERY INFOSONICS STOCKHOLDER'S VOTE IS IMPORTANT. ACCORDINGLY, EACH INFOSONICS STOCKHOLDER SHOULD SUBMIT ITS PROXY VIA THE INTERNET OR BY TELEPHONE, OR SIGN, DATE AND RETURN THE ENCLOSED PROXY CARD, WHETHER OR NOT THE STOCKHOLDER PLANS TO ATTEND THE SPECIAL MEETING IN PERSON.

For Beneficial Owners:

If your shares of InfoSonics Common Stock are held in street name by a broker, bank or other nominee, you have the right to direct your broker, bank or other nominee on how to vote your shares of InfoSonics Common Stock. Your broker, bank or other nominee, as applicable, may establish an earlier deadline by which you must provide instructions to it for how to vote your shares of InfoSonics Common Stock. You should read carefully the materials provided to you by your broker, bank or other nominee. Because a beneficial owner is not the stockholder of record, you may not vote these shares of InfoSonics Common Stock at the Special Meeting unless you obtain a legal proxy from the broker, bank or other nominee that holds your shares of InfoSonics Common Stock giving you the right to vote such shares of InfoSonics Common Stock at the Special Meeting.

Revocation of Proxies

If you are a stockholder of record as of the record date, you may change your vote:

by delivering to InfoSonics (Attention: Corporate Secretary, 4435 Eastgate Mall, Suite 320, San Diego, California 92121), prior to your shares being voted at the Special Meeting, a later dated written notice of revocation or a later dated duly executed proxy card, or

by attending the Special Meeting and voting in person (although attendance at the Special Meeting will not, by itself, revoke a proxy).

A stockholder of record who has voted on the Internet or by telephone may also change his or her vote by subsequently making a timely and valid Internet or telephone vote.

If you are a beneficial owner of shares held in street name by a broker, bank or other nominee, you may revoke your proxy and vote your shares in person at the Special Meeting only in accordance with applicable rules and procedures as employed by such broker, bank or other nominee. If your shares are held in an account at a broker, bank or other nominee, you should contact your broker, bank or other nominee to change your vote.

Solicitation of Proxies; Costs of Solicitation

Your proxy is being solicited by the InfoSonics Board and Special Committee on behalf of InfoSonics. InfoSonics will bear the entire cost of proxy solicitation, including preparation, assembly, printing and mailing of the notice of

Special Meeting, proxy card, this proxy statement/prospectus and any additional materials furnished to InfoSonics stockholders. Copies of these materials will be furnished to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others to forward to those beneficial owners. In addition, InfoSonics may reimburse the costs of forwarding these materials to those beneficial owners.

Table of Contents

Solicitation of proxies by mail may be supplemented by one or more of telephone, email, facsimile, or personal solicitation by InfoSonics directors, officers, or regular employees. No additional compensation will be paid for such services.

We have retained Georgeson LLC to assist in the solicitation of proxies. We expect to pay Georgeson LLC \$15,000, plus reimbursement of reasonable expenses.

Tabulation of Votes

All votes will be tabulated by a representative of Computershare Trust Company, N.A., who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. A representative of InfoSonics will act as the inspector of election appointed for the special meeting.

Adjournments and Postponements

In addition to the Merger Proposal, the Non-Public Offering Proposal, the Authorized Shares Increase Proposal, the Reverse Split Proposal and the Executive Compensation Proposal, InfoSonics stockholders are being asked to approve the Adjournment Proposal, which will give the InfoSonics Board authority to adjourn the Special Meeting one or more times, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the Merger Proposal, the Authorized Shares Increase Proposal or any other proposal set forth herein at the time of the Special Meeting.

If the Adjournment Proposal is approved, the Special Meeting could be adjourned to any date. If the Special Meeting is adjourned, InfoSonics stockholders who have already submitted their proxies will be able to revoke them at any time prior to their use. If you sign and return a proxy and do not indicate how you wish to vote on any proposal, your shares of InfoSonics Common Stock will be voted **FOR** the Adjournment Proposal.

If a quorum is not present or represented at the Special Meeting, then either (1) the chairman of the Special Meeting or (2) the InfoSonics stockholders entitled to vote at the Special Meeting, present in person or represented by proxy, shall have power to adjourn the meeting. Whether or not a quorum is present at the Special Meeting, the chairman of the Special Meeting shall have power to adjourn the Special Meeting from time to time to another time or place or means of remote communications, without notice other than announcement at the Special Meeting of the time and place, if any, and the means of remote communications, if any, by which InfoSonics stockholders and proxy holders may be deemed to be present in person and vote at such adjourned meeting. When a Special Meeting is adjourned to another time and place, unless the InfoSonics bylaws otherwise require, notice need not be given of the adjourned meeting if the time and place, if any, and the means of remote communications, if any, are announced at the Special Meeting at which the adjournment is taken. At the adjourned meeting, InfoSonics may transact any business that might have been transacted at the original Special Meeting. If the adjournment is for more than 30 days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each InfoSonics stockholder of record entitled to vote at the meeting.

The chairman of the Special Meeting may adjourn the Special Meeting to, among other things, solicit additional proxies if there are not sufficient votes at the time of the Special Meeting to approve the Merger Proposal or the Authorized Shares Increase Proposal, allow reasonable additional time for the filing and distribution of any supplemental or amended disclosure to be disseminated to and reviewed by InfoSonics stockholders prior to the Special Meeting, or otherwise with the consent, or upon the request, of Cooltech.

The chairman of the Special Meeting may determine to adjourn the Special Meeting even if the Adjournment Proposal is not approved by InfoSonics stockholders.

Additionally, the InfoSonics Board, acting pursuant to a resolution adopted by a majority of the total number of authorized directors, whether or not there exist any vacancies in previously authorized directorships,

has the right to cancel, postpone or reschedule a Special Meeting of the stockholders at any time, before or after the notice for such meeting has been sent to the stockholders.

Attending the Special Meeting

Only InfoSonics stockholders of record as of the close of business on the record date or their duly appointed proxies may attend the Special Meeting, or if your shares of InfoSonics Common Stock are held in street name by a broker, bank or other nominee and you bring evidence of beneficial ownership of those shares on the record date, such as a copy of your most recent account statement or similar evidence of ownership of InfoSonics Common Stock as of the record date, you may attend the Special Meeting. If your shares of InfoSonics Common Stock are held in street name by a broker, bank or other nominee and you wish to vote at the Special Meeting, you must also bring a proxy from the record holder (your broker, bank or other nominee) of the shares of InfoSonics Common Stock authorizing you to vote at the Special Meeting. All stockholders should bring photo identification (a driver's license or passport is preferred), as you will also be asked to provide photo identification at the registration desk on the day of the Special Meeting or any adjournment or postponement of the Special Meeting. Everyone who attends the Special Meeting must abide by the rules for the conduct of the meeting. These rules will be printed on the meeting agenda. Even if you plan to attend the Special Meeting, we encourage you to vote by telephone, Internet or mail so your vote will be counted if you later decide not to (or are otherwise unable to) attend the Special Meeting. No cameras, recording equipment, other electronic devices, large bags or packages will be permitted in the Special Meeting. Stockholders will be admitted to the meeting room starting at [] a.m., local time, and admission will be on a first-come, first-served basis.

PROPOSAL 1 THE MERGER PROPOSAL

The InfoSonics Special Committee and the InfoSonics Board is asking InfoSonics stockholders to consider and vote upon a proposal to approve the issuance of InfoSonics Common Stock and InfoSonics Series A Convertible Preferred Stock pursuant to the Merger contemplated by the Merger Agreement, and the corresponding change of control of InfoSonics, which proposal we refer to as the Merger Proposal. The Merger Proposal is conditioned on the approval of the Authorized Shares Increase Proposal (Proposal 3) set forth herein.

The following summary describes certain material provisions of the Merger Agreement. This summary is not complete and is qualified in its entirety by reference to the Merger Agreement and the Amendment to the Merger Agreement, each of which is attached to this proxy statement/prospectus as Annex A and Annex B, respectively, and incorporated into this proxy statement/prospectus by reference. We encourage you to read carefully the Merger Agreement (including the exhibits thereto) and the Amendment to the Merger Agreement in their entirety because this summary may not contain all the information about the Merger that is important to you. The rights and obligations of the parties are governed by the express terms of the Merger Agreement and the Amendment to the Merger Agreement and not by this summary or any other information contained in this proxy statement/prospectus.

Explanatory Note Regarding the Merger Agreement

The Merger Agreement is included to provide you with information regarding its terms. Factual disclosures about InfoSonics contained in this proxy statement/prospectus or in InfoSonics public reports filed with the SEC may supplement, update or modify the representations and warranties made by InfoSonics contained in the Merger Agreement. The representations, warranties and covenants made in the Merger Agreement by InfoSonics, Merger Sub and Cooltech were also qualified and subject to important limitations agreed to by InfoSonics, Merger Sub and Cooltech in negotiating the terms of the Merger Agreement and the disclosure schedules thereto. In particular, in your review of the representations and warranties contained in the Merger Agreement and described in this summary, it is important to bear in mind that the representations and warranties were negotiated with the principal purposes of establishing the circumstances in which a party to the Merger Agreement may have the right not to consummate the Merger if the representations and warranties of the other party prove to be untrue due to a change in circumstance or otherwise, and allocating risk between the parties to the Merger Agreement, rather than establishing matters as facts. The representations and warranties may also be subject to a contractual standard of materiality different from those generally applicable to reports and documents filed with the SEC and in some cases were qualified by the matters disclosed to Cooltech, InfoSonics and Merger Sub in connection with the Merger Agreement. Moreover, information concerning the subject matter of the representations and warranties, which do not purport to be accurate as of the date of this proxy statement/prospectus, may have changed since the date of the Merger Agreement, and subsequent developments or new information qualifying a representation or warranty may have been included in this proxy statement/prospectus. Accordingly, the representations, warranties, covenants and other agreements in the Merger Agreement should not be read alone, and you should read the information provided elsewhere in this proxy statement/prospectus and in InfoSonics filings with the SEC. See Where You Can Find Additional Information on page 167.

Effects of the Merger; Directors and Officers; Articles of Incorporation; Bylaws

The Merger Agreement provides that, subject to the terms and conditions of the Merger Agreement, and in accordance with Nevada law, at the effective time of the Merger, Merger Sub will merge with and into Cooltech, with Cooltech surviving the Merger and continuing as a wholly owned subsidiary of InfoSonics. Cooltech, as a subsidiary of InfoSonics, is sometimes referred to in this proxy statement/prospectus as the surviving corporation.

The officers and directors of Cooltech immediately prior to the effective time of the Merger will be the initial officers and directors of the surviving corporation, to hold office until their respective successors are duly appointed or qualified or upon their earlier death, resignation or removal in accordance with the articles of

Table of Contents

incorporation and bylaws of the surviving corporation. At the effective time of the Merger, the certificate of incorporation of Cooltech as in effect immediately prior to the effective time of the Merger will be the certificate of incorporation of the surviving company and the bylaws of Cooltech as in effect immediately prior to the effective time of the Merger will be the bylaws of the surviving company.

Closing and Effective Time of the Merger

The closing of the Merger will take place no later than two business days after the satisfaction or waiver of all the closing conditions set forth in the Merger Agreement (as more fully described below under *Conditions to the Merger*) (other than those conditions that by their nature are to be satisfied at the closing), or, to the extent permissible, waived by the party or parties entitled to the benefit of such conditions, or at such other place, at such other time or on such other date as InfoSonics and Cooltech may mutually agree. The Merger will become effective at the time that the Articles of Merger is duly filed with the Secretary of State of the State of Nevada.

Treatment of Cooltech Capital Stock in the Merger

Common Stock and Series A Preferred Stock. At the effective time of the Merger, all shares of Cooltech common stock and Series A Preferred Stock (collectively, *Cooltech Stock*) will be converted into the right to receive an aggregate of 12,500,000 shares of InfoSonics Common Stock (which may include, on an *as converted* basis, a certain number of shares of InfoSonics Series A Convertible Preferred Stock (convertible on a share for share basis into InfoSonics Common Stock), at the election of any Cooltech shareholder who would own in excess of 4.99% of InfoSonics Common Stock) (collectively, the *Merger Consideration*). The Merger Consideration will be allocated as follows: (i) holders of an aggregate of 2,275,222 shares of Cooltech Stock issued between April 2017 and June 2017 in connection with Cooltech's private placement (the *Private Placement Holders*) are entitled to receive, on a pro rata basis, an aggregate of 3,250,317 shares of InfoSonics Common Stock (or the equivalent, on an *as converted* basis, of InfoSonics Series A Convertible Preferred Stock) and (ii) holders of shares of Cooltech Stock, including shares of Cooltech's outstanding shares of Series A Convertible Preferred Stock (calculated on an *as converted* basis) that are not shares described in (i) above (the *Non-Private Placement Holders*), will be entitled to receive, on a pro rata basis, an aggregate of 9,249,683 shares of InfoSonics Common Stock (or the equivalent, on an *as converted* basis, of InfoSonics Series A Convertible Preferred Stock). The bifurcated allocation of the Merger Consideration is based on the total value of Cooltech Stock issued to each of the Private Placement Holders and Non-Private Placement Holders, respectively. In negotiating this structure, InfoSonics and Cooltech considered both the current value of Cooltech Stock and the original investment amounts of the Private Placement Holders and the Non-Private Placement Holders. InfoSonics and Cooltech ultimately agreed upon this allocation structure in an effort to compensate the Private Placement Holders for the reduction in the value of their original investment amounts while leaving the overall Merger Consideration unchanged. All such shares of Cooltech Stock will no longer be outstanding and will automatically be canceled and retired and will cease to exist, and will thereafter represent only the right to receive consideration address above and the right to receive any dividends or distributions (as set forth in the Merger Agreement). These newly issued shares would represent approximately 84% of the shares of InfoSonics Common Stock after the effective time of the Merger (assuming that Cooltech stockholders purchased all shares and warrants issued by InfoSonics in the Public Offering and will purchase all shares and warrants issued by InfoSonics in the Private Placement, as defined and discussed herein).

Definition of Material Adverse Effect

Under the Merger Agreement, a material adverse effect means, with respect to such entity, a material adverse effect on (i) the condition (financial or otherwise), business, liabilities, assets or results of operations of the entity and its subsidiaries, taken as a whole or (ii) such entity's ability to consummate the transactions contemplated by the Merger Agreement, excluding, with respect to clause (i), any effect resulting from

changes in the financial or securities markets or general economic or political conditions in the United States or any other country or region not having a materially disproportionate effect on such entity and its subsidiaries, taken as a whole, relative to other participants in the industry in which such entity and its subsidiaries operate;

changes (including changes of applicable law or U.S. GAAP) or conditions generally affecting the industry in which such entity and its subsidiaries operate and not specifically relating to or having a materially disproportionate effect on such entity and its subsidiaries, taken as a whole;

acts of war, sabotage or terrorism (or any escalation with respect thereto) or natural disasters involving the United States of America or any other country or region not having a materially disproportionate effect on such entity and its subsidiaries, taken as a whole, relative to other participants in the industry in which such entity and its subsidiaries operate;

the announcement, pendency or consummation of the transactions contemplated by the Merger Agreement;

any failure by such entity and its subsidiaries to meet any internal or published budgets, projections, forecasts or predictions of financial performance for any period (it being understood that this clause shall not prevent a party from asserting that any fact, change, event, occurrence or effect that may have contributed to such failure independently constitutes or contributes to a material adverse effect);

any action taken (or omitted to be taken) by such entity at the written request or with the written consent of the other party; or

any action taken by the entity or any of its subsidiaries that is expressly required by the Merger Agreement;

Securities Purchase Agreements

As described above, the obligations of each party to consummate the Merger Agreement is subject to the completion of the transactions contemplated by the Securities Purchase Agreements.

Termination of the Merger Agreement

In general, the Merger Agreement may be terminated at any time prior to the effective time of the Merger, whether before or after the approval of Merger Proposal by InfoSonics stockholders, in the following ways:

by mutual written consent of InfoSonics and Cooltech;

by either InfoSonics or Cooltech if:

the Merger has not been consummated on or before December 31, 2017; provided, that this right to terminate the Merger Agreement shall not be available to any party whose breach of any provision of the Merger Agreement results in the failure of the Merger to be consummated on or before December 31, 2017;

there shall be any Applicable Law (as defined in the Merger Agreement) that (A) makes consummation of the Merger illegal or otherwise prohibited or (B) enjoins Cooltech or InfoSonics from consummating the Merger and such injunction shall have become final and nonappealable; or

at the Special Meeting (including any adjournment or postponement thereof), the approval by the stockholders of InfoSonics shall not have been obtained.

by Cooltech if:

an Adverse Recommendation Change (as defined in the Merger Agreement) shall have occurred or the InfoSonics Special Committee shall have failed to reaffirm the Special Committee Recommendation (as defined in the Merger Agreement) as promptly as practicable (but in any event within five (5) business days) after receipt of any written request to do so from Cooltech; or

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of InfoSonics set forth in the Merger Agreement shall have occurred that would cause the condition set forth therein not to be satisfied, and such condition is incapable of being satisfied by December 31, 2017.

by InfoSonics if:

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Cooltech set forth in the Merger Agreement shall have occurred that would cause the condition set forth in the Merger Agreement not to be satisfied, and such condition is incapable of being satisfied by December 31, 2017; or

prior to the effective time, InfoSonics receives a Superior Acquisition Proposal (as defined in the Merger Agreement) provided that InfoSonics has complied with its obligations set forth in the Merger Agreement and the InfoSonics Special Committee has made an Adverse Recommendation Change (as defined in the Merger Agreement) with respect to such Superior Acquisition Proposal; or

Cooltech has not complied with its obligations concerning the transactions contemplated by the Securities Purchase Agreements.

Effect of Termination of the Merger Agreement

If the Merger Agreement is terminated, the Merger Agreement will become null and void and there will be no liability on the part of InfoSonics or Cooltech or their respective directors, officers and affiliates, except that the parties may have liability with respect to fees and expenses as provided in the Merger Agreement.

Any provisions in the Merger Agreement relating to representation and warranties regarding director and officer liability, stock exchange listing, certain employee matters, the binding effect of the Merger Agreement and its benefits, assignment, governing law and jurisdiction will survive any termination of the Merger Agreement.

Consequences If Not Approved

InfoSonics has invested significant time and incurred, and expects to continue to incur, significant expenses related to the proposed Merger. If the Merger Proposal is not approved by InfoSonics stockholders, or the Merger otherwise does not close, the InfoSonics Board will continue to evaluate and review our business operations and capitalization, among other things, make such changes as are deemed appropriate and continue to seek to identify strategic

alternatives to enhance stockholder value. See The Merger Effect on InfoSonics if the Merger is Not Completed on page 35.

Vote Required

Approval of the Merger requires the affirmative vote of the holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present in person or by proxy). If you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have the same effect as voting against the Merger Proposal.

PROPOSAL 2 THE NON-PUBLIC OFFERING PROPOSAL

The Proposal

InfoSonics Common Stock is currently listed on the NASDAQ Capital Market and we are subject to the listing rules of the NASDAQ Stock Market. NASDAQ Listing Rule 5635(d) requires us to obtain stockholder approval prior to the issuance of InfoSonics Common Stock in connection with certain non-public offerings involving the sale, issuance or potential issuance by InfoSonics of InfoSonics Common Stock (and/or securities convertible into or exercisable for InfoSonics Common Stock) equal to 20% or more of the InfoSonics Common Stock outstanding before the issuance. Shares of InfoSonics Common Stock issuable upon the exercise or conversion of warrants, options, debt instruments, preferred stock or other equity securities issued or granted in such non-public offerings will be considered shares issued in such a transaction in determining whether the 20% limit has been reached, except in certain circumstances such as issuing warrants that are not exercisable for a minimum of six months and have an exercise price that exceeds market value.

Pursuant to the Merger Agreement, the obligations of InfoSonics, Merger Sub and Cooltech to consummate the Merger are subject to the satisfaction of various conditions, including the completion of the transactions contemplated by the Securities Purchase Agreements. Pursuant to a securities purchase agreement dated as of August 3, 2017, InfoSonics agreed to sell 4,375,000 shares of InfoSonics Common Stock at a purchase price of \$0.40 per share (for an aggregate purchase price of \$1,750,000) and warrants to purchase 4,375,000 shares of InfoSonics Common Stock at an exercise price of \$0.484 per share, pursuant to a private placement exempt from the registration requirements of Section 5 of the Securities Act contained in Section 4(a)(2) thereof and/or Regulation D thereunder (the Private Placement). Due to the one-for-five reverse stock split effected on October 10, 2017, the amount of InfoSonics Common Stock and warrants to purchase InfoSonics Common Stock has been adjusted from 4,375,000 to 875,000 and the purchase price of the warrants from \$0.40 to \$2.00. We are seeking stockholder approval for the issuance of shares of InfoSonics Common Stock in the Private Placement.

The issuance of shares of InfoSonics Common Stock in accordance with the Private Placement would dilute, and thereby reduce, each existing stockholder's proportionate ownership in InfoSonics Common Stock. The stockholders do not have preemptive rights to subscribe for additional shares that may be issued by InfoSonics in order to maintain their proportionate ownership of InfoSonics Common Stock.

The securities to be issued in the Private Placement may be sold at a price that is lower than the current book value and market price of the securities.

Assuming a quorum is present at the Special Meeting, approval of Private Placement requires the affirmative vote of a majority of the total votes cast on this matter, in accordance with NASDAQ Listing Rule 5635(e)(4).

Proposed Private Placement

Pursuant to the securities purchase agreement, prior to the closing of the Merger InfoSonics and Cooltech will have in escrow for the surviving company the proceeds received pursuant to the Private Placement of InfoSonics Common Stock, such proceeds being obtained solely from accredited investors in compliance with the exemption from registration provided by Section 4(a)(2) of the Securities Act or Rule 505 of Regulation D thereunder. The closing of the Private Placement will be subject to approval by our stockholders in accordance with Rule 5635(d) of the NASDAQ Listing Rules (as further discussed below).

Upon the approval of this Proposal 2, our stockholders will have agreed to the closing of the transactions contemplated under the Private Placement, including the issuance of in excess of 20% of InfoSonics issued and outstanding InfoSonics Common Stock, consisting of 875,000 shares of InfoSonics Common Stock and warrants to purchase 875,000 shares of InfoSonics Common Stock, subject to adjustment pursuant to the terms of the securities purchase agreement.

The InfoSonics Common Stock and warrants will be sold to accredited investors affiliated with Cooltech at a purchase price of \$0.40 per share. Each warrant issued in the Private Placement will allow the holder to

Table of Contents

purchase up to a number of shares of InfoSonics Common Stock equal to 100% of the InfoSonics Common Stock purchased by the purchaser at an exercise price equal to \$0.484 per share, subject to adjustment as provided in the securities purchase agreement. The warrants will be exercisable commencing six months from the closing date of the securities purchase agreement and have a term of exercise equal to three years from the initial exercise date. Net proceeds of the sale of the InfoSonics Common Stock will be available to the surviving company in the Merger upon the effective time of the Merger. Descriptions of the InfoSonics Common Stock and the anti-takeover effects applicable to InfoSonics pursuant to the MGCL and InfoSonics Articles of Incorporation and Bylaws are set forth in this proxy statement/prospectus above. See Market Price and Dividend Data Market Price of InfoSonics Common Stock beginning on page 32 and Comparison of Stockholder Rights Anti-Takeover Measures beginning on page 157.

Under NASDAQ Listing Rule 5635, we may not issue securities representing more than 19.99% of the outstanding InfoSonics Common Stock prior to stockholder approval. If we do not obtain stockholder approval for this Proposal 2, the Merger may not close, since the Private Placement and resulting issuance of InfoSonics Common Stock is a condition to each party's obligation to consummate the transactions contemplated by the Merger Agreement. If the Merger is not consummated, we will not consummate this Private Placement.

Vote Required

Approval of the Non-Public Offering Proposal requires the affirmative vote of a majority of all votes cast (assuming a quorum is present in person or by proxy) on each proposal. If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of the Non-Public Offering Proposal.

PROPOSAL 3 THE AUTHORIZED SHARES INCREASE PROPOSAL

The Proposal

InfoSonics Articles of Incorporation authorizes the issuance of 40,000,000 shares of InfoSonics Common Stock, par value \$0.001 per share, and 10,000,000 shares of preferred stock, par value \$0.001 per share. On September 12, 2017, the InfoSonics Board declared advisable the amendment of the Articles of Incorporation to increase the authorized number of shares of InfoSonics Common Stock to 150,000,000 shares of InfoSonics Common Stock, par value \$0.001 per share, subject to stockholder approval.

Purpose and Effect of the Amendment

InfoSonics currently has 40,000,000 authorized shares of InfoSonics Common Stock and 10,000,000 shares of preferred stock. As of October 26, 2017, InfoSonics had 3,378,280 shares of InfoSonics Common Stock issued and outstanding and no shares of preferred stock issued and outstanding.

As a result of the expected issuance of InfoSonics Common Stock to Cooltech stockholders pursuant to the Merger and the Private Placement described in Proposal 2, an increase in our authorized stock is necessary in order to have sufficient additional authorized but unissued shares of InfoSonics Common Stock available to provide flexibility for corporate action in the future. Except in connection with the shares to be issued as contemplated by the Merger Agreement and Private Placement, the Company currently has no arrangements or understandings for the issuance of additional shares of InfoSonics Common Stock or preferred stock. If this proposal is approved, all or any of the authorized shares may be issued without first offering those shares to the stockholders for subscription. The issuance of shares otherwise than on a pro-rata basis to all stockholders would reduce the proportionate interest in InfoSonics of each share.

The increase in the authorized number of shares of InfoSonics Common Stock could have an anti-takeover effect. If the InfoSonics Board desires to issue additional shares in the future, such issuance could dilute the voting power of a person seeking control of the Company, thereby deterring or rendering more difficult a merger, tender offer, proxy contest or an extraordinary corporate transaction opposed by the Company. We currently have no plan to issue newly authorized shares of InfoSonics Common Stock or adopt other anti-takeover proposals intended to discourage third parties from attempting to take over the Company. Stockholders nevertheless should be aware that increasing the number of authorized shares of InfoSonics Common Stock could facilitate InfoSonics ability to deter or prevent changes of control in the future and any issuance of newly authorized shares of InfoSonics Common Stock, regardless of the intent, could have an anti-takeover effect.

The increase of our authorized shares of common stock is not being proposed in response to any effort of which we are aware to accumulate shares of common stock or obtain control of InfoSonics. While it is possible that our management could use the increase of authorized shares of common stock to resist or frustrate a third-party transaction providing an above-market premium that is favored by a majority of stockholders, we do not intend to construct or enable any anti-takeover defense or mechanism on behalf of InfoSonics. We have no intent or plans to employ the increase of our authorized shares of common stock as an anti-takeover device and do not have any plans or proposals to adopt any other provisions or enter into other arrangements that may have material anti-takeover consequences.

In addition to the increase of our authorized shares of common stock, provisions of our governing documents and applicable provisions of Maryland law may also have anti-takeover effects, making it more difficult for or preventing a third-party from acquiring control of InfoSonics or changing our board and management. These provisions may also

Edgar Filing: InfoSonics Corp - Form S-4/A

have the effect of deterring hostile takeovers or delaying changes in InfoSonics' control or in our management. See Comparison of Stockholder Rights - Anti-Takeover Measures beginning on page 157.

A copy of the proposed Articles of Amendment is attached hereto as Annex D. The Articles of Amendment will become effective upon filing with the State Department of Assessments and Taxation of the State of

Maryland as required by the MGCL if filed by InfoSonics, which will only happen if this Proposal 3 (the Authorized Shares Increase Proposal) is approved. Furthermore, the closing of the Merger is conditioned on the completion of this Proposal 3. If this Proposal is not approved, we may not have enough authorized shares to complete the Merger and the transactions contemplated by the Merger Agreement.

Vote Required

Approval of the Authorized Shares Increase Proposal requires the affirmative vote of the holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present in person or by proxy). If you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have the same effect as voting against the Authorized Shares Increase Proposal.

PROPOSAL 4 THE REVERSE SPLIT PROPOSAL

Overview

The InfoSonics Board is asking InfoSonics stockholders to vote on a proposal to approve an amendment to the Company's Articles of Incorporation to effect a reverse stock split of InfoSonics Common Stock, to the extent required to qualify for the NASDAQ new listing requirements, by a ratio of not less than one-for-two and not more than one-for-twenty at any time prior to January 31, 2018, with the exact ratio to be set at a whole number within this range by the InfoSonics Board in its sole discretion to comply with the applicable NASDAQ listing requirements. On September 12, 2017, in connection with the Merger, the InfoSonics Board adopted resolutions declaring that amending the Company's Articles of Incorporation to effect a reverse stock split of InfoSonics Common Stock is advisable, subject to stockholder approval. Accordingly, stockholders are asked to approve a proposal to amend the Company's Articles of Incorporation to effect a reverse stock split consistent with such terms and to grant authorization to the InfoSonics Board to determine, in its sole discretion, whether to implement the reverse stock split, as well as its specific timing and ratio.

The InfoSonics Board strongly believes that the reverse stock split is necessary for the following reasons:

1. To qualify as a new listing on the NASDAQ Capital Market; and
2. To provide us with resources and flexibility, with respect to our capital, sufficient to execute our business plans and strategy, and improve the marketability and liquidity of our common stock.

If approved by our stockholders, the reverse stock split proposal will permit the InfoSonics Board to have the sole authority to elect, at any time on or prior to January 31, 2018, and without the need for any further action on the part of our stockholders: (i) whether or not to effect a reverse stock split; and (ii) if so, the number of whole shares of InfoSonics Common Stock, between and including two and twenty, which will be combined into one share of InfoSonics Common Stock. Notwithstanding approval of the reverse stock split by the stockholders, the InfoSonics Board may, in its sole discretion, abandon the proposed amendment and determine not to effect the reverse stock split. If the InfoSonics Board does not implement a reverse stock split on or prior to January 31, 2018, stockholder approval may be required prior to implementing a reverse stock split with a ratio ranging from not less than one-for-two and not more than one-for-twenty. If the Merger is not consummated, we will not effect this reverse stock split.

In determining which reverse stock split ratio to implement, if any, following receipt of stockholder approval, the InfoSonics Board may consider, among other things, various factors, such as:

the historical trading price and trading volume of our common stock;

the then-prevailing trading price and trading volume of our common stock and the expected impact of the reverse stock split on the trading market for our common stock in the short- and long-term;

our ability to continue our listing on the NASDAQ Capital Market;

which reverse stock split ratio would result in the least administrative cost to us; and

prevailing general market and economic conditions.

Failure to approve the amendment could have serious, adverse effects on the Company and its stockholders. NASDAQ Listing Rule 5110(a) requires that because the Merger with Cooltech (a non-NASDAQ entity) will result in a change of control, we must submit an initial listing application for the post-Merger entity, which will require us to comply with a higher minimum bid price requirement of \$4.00 per share and necessitate a larger or additional reverse stock split. If our common stock were to be delisted from the NASDAQ Capital Market, trading of our common stock most likely would be conducted in the over-the-counter market on an electronic bulletin board established for unlisted securities such as OTC Pink, OTCQX, OTCQB or the OTC Bulletin Board. Such trading would reduce the market liquidity of our common stock. As a result, an investor would find it more difficult to dispose of, or obtain accurate quotations for the price of, our common stock, thereby negatively impacting the share price of our common stock. If the NASDAQ Capital Market delists our common

Table of Contents

stock, our shares may then trade on the OTC Bulletin Board or other small trading markets, such as the pink sheets. In that event, our common stock could trade thinly as a microcap or penny stock, adversely decrease to nominal levels of trading and become avoided by retail and institutional investors, resulting in the impaired liquidity of our shares. Furthermore, without a reasonable number of authorized shares available for issuance, we may be unable to raise additional capital, establish strategic relationships with other companies or expand our business through acquisitions.

Under Section 2-309 of the Maryland General Corporation Law, a Maryland corporation can conduct a reverse stock split by combining issued shares into a smaller number with a corresponding increase in the par value per share, which does not require stockholder approval, so long as the split is (i) effected by a corporation with a class of equity securities registered under the Exchange Act; (ii) approved by a majority of the board; and (iii) the ratio is not more than a 1-for-10. We are seeking stockholder approval for this reverse stock split in case a greater than one-for-ten reverse stock split is necessary in order to qualify for the Nasdaq new listing requirements.

Reasons for the Reverse Stock Split***To comply with the requirements for a new NASDAQ listing application***

Following the Merger, to continue our listing on the NASDAQ Capital Market, we must comply with NASDAQ Listing Rules for an initial listing, which requirements include a minimum bid price of \$4.00 per share, due to the Merger as further discussed below. On May 3, 2016, we received a NASDAQ staff deficiency letter indicating that, for the prior thirty consecutive business days, the bid price for our common stock had closed below the minimum \$1.00 per share requirement for continued listing on the NASDAQ Capital Market under NASDAQ Listing Rule 5550(a)(2). In accordance with NASDAQ Listing Rule 5810(c)(3)(A), we were provided an initial period of 180 calendar days, or until October 31, 2016, to regain compliance. The letter stated that the NASDAQ staff would provide written notification that we had achieved compliance with Rule 5550(a)(2) if at any time before October 31, 2016, the bid price of our common stock closed at \$1.00 per share or more for a minimum of ten consecutive business days. Although the bid price of our common stock did not rise to the \$1.00 per share level for the specified number of days by October 31, 2016, we maintained our compliance with other appropriate listing requirements of the NASDAQ Capital Market, with the exception of the bid price requirement. Accordingly, on November 1, 2016, we received notification from the NASDAQ Stock Market that we were granted an additional 180 calendar day period, or until May 1, 2017, to regain compliance.

As of May 1, 2017, we had not regained compliance with the bid price requirement and on May 2, 2017 we received notification from NASDAQ that on May 11, 2017 our common stock would be delisted and trading suspended unless we requested an appeal. On May 4, 2017, we requested an oral hearing before the NASDAQ Hearings Panel (the Panel) to appeal the NASDAQ staff's delisting determination, which hearing was held on June 1, 2017. We presented a plan to the Panel to regain compliance with the minimum bid price requirement which included the Merger and a reverse stock split, and requested a further extension of time to execute the plan. On June 6, 2017, we received a letter from the NASDAQ Office of General Counsel advising us of the decision of the Panel to grant the Company an extension of time until October 30, 2017.

On October 10, 2017, we effected a one-for-five reverse stock split of our common stock in order to maintain our NASDAQ listing prior to completion of the Merger and we intend to continue to closely monitor the bid price of our stock in light of the Merger. NASDAQ Listing Rule 5110(a) requires that because the Merger with Cooltech (a non-NASDAQ entity) will result in a change of control, we must submit an initial listing application for the post-Merger entity, which would require us to comply with a higher minimum bid price requirement of \$4.00 per share and necessitate a larger or additional reverse stock split.

The InfoSonics Board has considered the potential harm to the Company and its stockholders should the NASDAQ Stock Market not approve the listing of our common stock of the post-merger entity. Failure to qualify for listing could adversely affect the liquidity of our common stock since alternatives, such as the OTC Bulletin Board and the pink sheets, are generally considered to be less efficient markets. An investor likely would find it less convenient to sell, or to obtain accurate quotations in seeking to buy, our common stock on an over-the-counter

Table of Contents

market. Many investors likely would not buy or sell our common stock due to difficulty in accessing over-the-counter markets, policies preventing them from trading in securities not listed on a national exchange or other reasons.

The InfoSonics Board believes that a reverse stock split is a potentially effective means for the post-merger entity to qualify with NASDAQ Listing Rules and to avoid, or at least mitigate, the likely adverse consequences of our common stock not being listed by NASDAQ Capital Market by producing the immediate effect of increasing the bid price of our common stock.

To provide us with resources and flexibility with respect to our capital sufficient to execute our business plans and strategy.

The InfoSonics Board also believes that the increased market price of InfoSonics Common Stock expected as a result of implementing a reverse stock split could improve the marketability and liquidity of InfoSonics Common Stock and will encourage interest and trading in InfoSonics Common Stock. A reverse stock split could allow a broader range of institutions to invest in InfoSonics Common Stock (namely, funds that are prohibited from buying stocks whose price is below a certain threshold), potentially increasing trading volume and liquidity of InfoSonics Common Stock. A reverse stock split could help increase analyst and broker interest in InfoSonics Common Stock as their policies can discourage them from following or recommending companies with low stock prices. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, a low average price per share of InfoSonics Common Stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were higher.

The InfoSonics Board does not intend for this transaction to be the first step in a series of plans or proposals of a going private transaction within the meaning of Rule 13e-3 of the Exchange Act.

Risks of the Proposed Reverse Stock Split

We cannot assure you that the proposed reverse stock split will increase our stock price and have the desired effect of maintaining compliance with NASDAQ Listing Rules and qualify for the new listing.

The InfoSonics Board expects that a reverse stock split of InfoSonics Common Stock will increase the market price of such stock so that we are able to regain and maintain compliance with the NASDAQ minimum bid price. However, the effect of a reverse stock split upon the market price of InfoSonics Common Stock cannot be predicted with any certainty, and the history of similar stock splits for companies in like circumstances is varied. It is possible that (i) the per share price of our common stock after the reverse stock split will not rise in proportion to the reduction in the number of shares of our common stock outstanding resulting from the reverse stock split, (ii) the market price per post-reverse stock split share may not exceed or remain in excess of the \$4.00 minimum bid price for a sustained period of time (as required by the Merger) or (iii) the reverse stock split may not result in a per share price that would attract brokers and investors who do not trade in lower priced stocks, or result in increased trading volume or liquidity. Even if we effect a reverse stock split, the market price of InfoSonics Common Stock may decrease due to factors unrelated to the stock split. In any case, the market price of our common stock will be based on other factors which may be unrelated to the number of shares outstanding, including our future performance. If the reverse stock split is consummated and the trading price of our common stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of the reverse

stock split. Even if the market price per post-reverse stock split share of our common stock remains in excess of \$4.00 per share, we may be delisted due to a failure to meet other continued listing requirements, including NASDAQ requirements related to the minimum number of shares that must be in the public float and the minimum market value of the public float.

Table of Contents***The proposed reverse stock split may decrease the liquidity of our stock.***

The liquidity of our capital stock may be harmed by the proposed reverse stock split given the reduced number of shares that would be outstanding after the reverse stock split, particularly if the stock price does not increase as a result of the reverse stock split.

In addition, investors might consider the increased proportion of unissued authorized shares to issued shares to have an anti-takeover effect under certain circumstances, since the proportion allows for dilutive issuances which could prevent certain stockholders from changing the composition of the InfoSonics Board or render tender offers for a combination with another entity more difficult to successfully complete. The InfoSonics Board does not intend for the reverse stock split to have any anti-takeover effects.

Effect of the Reverse Split on Holders of Outstanding Common Stock

After the effective date of the proposed reverse stock split, if such split is necessary, each InfoSonics stockholder will own a reduced number of shares of InfoSonics Common Stock. Except to the extent that whole shares will be exchanged in lieu of fractional shares as described below, the proposed reverse stock split will affect all stockholders uniformly and will not affect any stockholder's percentage ownership interest in InfoSonics and proportionate voting rights and other rights and preferences of the holders of our common stock will not be affected by the proposed reverse stock split. The number of stockholders of record also will not be affected by the proposed reverse stock split, except to the extent that whole shares will be exchanged in lieu of fractional shares as described below. The following table contains approximate information relating to InfoSonics Common Stock under the proposed reverse stock split ratios, without giving effect to any adjustments for fractional shares of InfoSonics Common Stock and with the assumption that the Authorized Shares Increase Proposal (Proposal 3) will be approved by InfoSonics stockholders at the Special Meeting (not taking into account the shares issued in the Private Placement or shares issued in connection with the Merger), as of October 26, 2017:

Table of Contents

- (1) The pre-reverse stock split number of shares of our common stock reserved for future issuance includes the following, as of October 26, 2017:

213,216 shares reserved for issuance pursuant to outstanding options, restricted stock units, warrants or rights to acquire from InfoSonics, or instruments convertible into or exchangeable for, or agreements or understandings with respect to the sale or issuance by InfoSonics of, InfoSonics Common Stock; and

217,899 shares of common stock available for future grant under InfoSonics 2006 and 2015 Equity Plans. If the proposed reverse stock split is implemented, it will increase the number of InfoSonics stockholders who own odd lots of fewer than 100 shares of InfoSonics Common Stock. Brokerage commission and other costs of transactions in odd lots are generally higher than the costs of transactions of more than 100 shares of common stock.

After the effective date of the reverse stock split, InfoSonics Common Stock would have a new committee on uniform securities identification procedures (CUSIP) number, a number used to identify InfoSonics Common Stock.

InfoSonics Common Stock is currently registered under Section 12(b) of the Exchange Act, and we are subject to the periodic reporting and other requirements of the Exchange Act. The proposed reverse stock split will not affect the registration of InfoSonics Common Stock under the Exchange Act. InfoSonics Common Stock would continue to be reported on the NASDAQ Capital Market under the symbol IFON, although it is likely that the NASDAQ Stock Market would add the letter D to the end of the trading symbol for a period of twenty trading days after the effective date of the reverse stock split to indicate that the reverse stock split had occurred.

Effective Date

The proposed reverse stock split would become effective on the date of filing of articles of amendment to our Articles of Incorporation with the State Department of Assessments and Taxation of the State of Maryland. On the effective date, shares of InfoSonics Common Stock issued and outstanding and shares held in treasury, in each case, immediately prior thereto will be combined and converted, automatically and without any action on the part of the stockholders, into new shares of InfoSonics Common Stock in accordance with the reverse stock split ratio determined by the InfoSonics Board within the limits set forth in this proposal. If the proposed amendment is not approved by the InfoSonics stockholders, a reverse stock split will not occur.

Treatment of Fractional Shares

No fractional shares would be issued if, as a result of the reverse stock split, a registered stockholder would otherwise become entitled to a fractional share. Instead, stockholders who otherwise would be entitled to receive fractional shares because they hold a number of shares not evenly divisible by the ratio of the reverse stock split will automatically be entitled to receive an additional share of common stock. In other words, any fractional share will be rounded up to the nearest whole number.

Record and Beneficial Stockholders

If the reverse stock split is authorized by the stockholders and the InfoSonics Board elects to implement the reverse stock split, stockholders of record holding some or all of their shares of InfoSonics Common Stock electronically in

book-entry form under the direct registration system for securities will receive a transaction statement at their address of record indicating the number of shares of InfoSonics Common Stock they hold after the reverse stock split. Non-registered stockholders holding InfoSonics Common Stock through a bank, broker or other nominee should note that such banks, brokers or other nominees may have different procedures for

Table of Contents

processing the consolidation than those that would be put in place by us for registered stockholders. If you hold your shares with such a bank, broker or other nominee and if you have questions in this regard, you are encouraged to contact your nominee.

If the reverse stock split is authorized by the stockholders and the InfoSonics Board elects to implement the reverse stock split, stockholders of record holding some or all of their shares in certificate form will receive a letter of transmittal, as soon as practicable after the effective date of the reverse stock split. Our transfer agent will act as exchange agent for the purpose of implementing the exchange of stock certificates. Holders of pre-reverse stock split shares will be asked to surrender to the exchange agent certificates representing pre-reverse stock split shares in exchange for post-reverse stock split shares, including whole shares to be issued in lieu of fractional shares (if any) in accordance with the procedures to be set forth in the letter of transmittal. Until surrender, each certificate representing shares before the reverse stock split would continue to be valid and would represent the adjusted number of shares based on the exchange ratio of the reverse stock split rounded up to the nearest whole share. No new post-reverse stock split share certificates, including those representing whole shares to be issued in lieu of fractional shares, will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent.

STOCKHOLDERS SHOULD NOT DESTROY ANY PRE-SPLIT STOCK CERTIFICATE AND SHOULD NOT SUBMIT ANY CERTIFICATES UNTIL THEY ARE REQUESTED TO DO SO.

Accounting Consequences

The par value per share of InfoSonics Common Stock would remain unchanged at \$0.001 per share after the reverse stock split. As a result, on the effective date of the reverse stock split, the stated capital on InfoSonics balance sheet attributable to InfoSonics Common Stock will be reduced proportionally, based on the exchange ratio of the reverse stock split, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share common stock net income or loss and net book value will be increased because there will be fewer shares of InfoSonics Common Stock outstanding. The shares of InfoSonics Common Stock held in treasury, if any, will also be reduced proportionately based on the exchange ratio of the reverse stock split. We will reclassify prior period per share amounts for the effect of the reverse stock split for any prior periods in our financial statements and reports such that prior periods are comparable to current period presentation. We do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Appraisal Rights

Our stockholders are not entitled to dissenters' or appraisal rights under the MGCL with respect to the Reverse Split Proposal and we will not independently provide the stockholders with any such right if the reverse stock split is implemented.

Material Federal U.S. Income Tax Consequences of the Reverse Stock Split

The following discussion sets forth the material U.S. federal income tax consequences that management believes will apply with respect to InfoSonics and holders of InfoSonics Common Stock who are U.S. holders at the effective time of the reverse split. This discussion does not address the tax consequences of transactions effectuated prior to or after the reverse split, including, without limitation, the tax consequences of the exercise of options, warrants or similar rights to purchase InfoSonics Common Stock. For this purpose, a U.S. holder is a holder of InfoSonics Common Stock that is: (i) a citizen or resident of the United States, (ii) a domestic corporation, (iii) an estate whose income is subject to U.S. federal income tax regardless of its source, or (iv) a trust if a U.S. court can exercise primary

supervision over the trust's administration and one or more U.S. persons are authorized to control all substantial decisions of the trust. This discussion does not describe all of the tax

Table of Contents

consequences that may be relevant to a holder in light of the holder's particular circumstances or to holders subject to special rules (such as dealers in securities, financial institutions, insurance companies, tax-exempt organizations, foreign individuals and entities and persons who acquired their InfoSonics Common Stock as compensation). In addition, this summary is limited to holders who hold their InfoSonics Common Stock as capital assets. This discussion also does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. Accordingly, each holder is strongly urged to consult with a tax adviser to determine the particular federal, state, local or foreign income or other tax consequences to such holder related to the reverse split.

In general, no gain or loss should be recognized by a U.S. holder of InfoSonics Common Stock upon such holder's exchange of pre-split shares for post-split shares except for those associated with any additional shares the holder receives as a result of rounding up any post-split fractional shares. The aggregate tax basis of the post-split shares received in the reverse split should be the same as the holder's aggregate tax basis in the pre-split shares. Special tax basis and holding period rules may apply to U.S. holders that acquired different blocks of shares at different prices or at different times. The holder's holding period for the post-split shares should include the period during which the holder held the pre-split shares surrendered in the reverse split.

As discussed above in Proposal 4 The Reverse Split Proposal Fractional Shares, no fractional shares of InfoSonics Common Stock will be issued as a result of the reverse split. Instead, if the reverse split leaves a holder with fractional shares, the number of shares due to the holder will be rounded up. The U.S. federal income tax consequences of the receipt of such additional fraction of a share of InfoSonics Common Stock are not clear. A holder who receives one whole share of InfoSonics Common Stock in lieu of a fractional share may recognize income or gain in an amount not to exceed the excess of the fair market value of such share over the fair market value of the fractional share to which the holder was otherwise entitled. InfoSonics is not making any representation as to whether the receipt of one whole share in lieu of a fractional share will result in income or gain to a holder, and each holder is urged to consult with his or her own tax adviser as to the possible tax consequences of receiving a whole share in exchange for a fractional share in the reverse stock split.

THE PRECEDING DISCUSSION IS INTENDED ONLY AS A SUMMARY OF CERTAIN FEDERAL U.S. INCOME TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT AND DOES NOT PURPORT TO BE A COMPLETE ANALYSIS OR DISCUSSION OF ALL POTENTIAL TAX EFFECTS RELEVANT THERETO. YOU SHOULD CONSULT YOUR OWN TAX ADVISORS AS TO THE PARTICULAR FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT IN LIGHT OF YOUR SPECIFIC CIRCUMSTANCES.

Vote Required and Board Recommendation

In accordance with InfoSonics Articles of Incorporation, Maryland law and the NASDAQ Listing Rules, approval and adoption of the Reverse Split Proposal requires the affirmative vote of the holders of a majority of InfoSonics Common Stock outstanding on the record date (assuming a quorum is present in person or by proxy). If you abstain, it will have the same effect as voting against the Reverse Split Proposal.

THE INFOSONICS BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE REVERSE SPLIT PROPOSAL.

PROPOSAL 5 THE EXECUTIVE COMPENSATION PROPOSAL

Under Section 14A of the Exchange Act, which was enacted as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, the InfoSonics Board is asking InfoSonics stockholders to cast an advisory (non-binding) vote on the compensation that may be payable to its named executive officers in connection with the Merger, as described in the section entitled *The Merger Interests of the InfoSonics Directors and Executive Officers Golden Parachute Compensation*, including in the associated narrative discussion.

In accordance with these requirements, InfoSonics is asking its stockholders to vote on the adoption of the following resolution:

RESOLVED, that the compensation that may be payable to InfoSonics named executive officers in connection with the Merger, as disclosed in the table captioned *Golden Parachute Payment* in the section entitled *The Merger Interests of the InfoSonics Directors and Executive Officers Golden Parachute Compensation*, including the associated narrative discussion, and the agreements or understandings pursuant to which such compensation may be payable, are hereby APPROVED.

Vote Required

Approval of the Executive Compensation Proposal requires the affirmative vote of a majority of the votes cast on the proposal (assuming a quorum is present in person or by proxy). If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of the Executive Compensation Proposal.

Consequences If Not Approved

The vote on the executive compensation payable in connection with the Merger is a vote separate and apart from the vote to adopt the Merger Agreement. You may vote to approve this proposal and vote not to approve the Merger Proposal, or you may vote against this proposal and vote to adopt the Merger Proposal. Because the vote on this proposal is advisory in nature only, it will not be binding on InfoSonics. Accordingly, because InfoSonics is contractually obligated to pay the compensation covered by this proposal, such compensation will be payable, subject only to certain applicable conditions, if the Merger is approved and regardless of the outcome of the advisory vote.

THE INFOSONICS BOARD RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE EXECUTIVE COMPENSATION PROPOSAL.

PROPOSAL 6 THE ADJOURNMENT PROPOSAL

The InfoSonics Board is asking InfoSonics stockholders to vote on a proposal to adjourn the Special Meeting, if necessary or appropriate, in order to allow for the solicitation of additional proxies if there are insufficient votes at the time of the Special Meeting to approve the Merger Proposal or any of the other proposals or if necessary to achieve a quorum.

Vote Required

Approval of the Adjournment Proposal requires the affirmative vote of a majority of all votes cast (assuming a quorum is present in person or by proxy) on each proposal. If you vote to abstain, or if you fail to vote or fail to instruct your bank, broker, custodian or other record holder how to vote, it will have no effect on the voting outcome of the Adjournment Proposal.

Consequences If Not Approved

If the proposal to adjourn the Special Meeting is not approved and there are insufficient votes at the time of the Special Meeting to approve the Merger or any of the other proposals or proposal or achieve a quorum, InfoSonics may be required to incur additional time and expense in order to hold an effective stockholder meeting for the Merger Proposal to be considered and approved.

THE INFOSONICS BOARD RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF THE ADJOURNMENT OF THE SPECIAL MEETING, IF NECESSARY OR APPROPRIATE, TO SOLICIT ADDITIONAL PROXIES.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The unaudited pro forma condensed combined financial information presented below sets forth the financial position and results of operations of InfoSonics after giving effect to the Merger and the following two related transactions:

- a) the August 2, 2017 equity offering by InfoSonics of 500,000 common shares and warrants pursuant to the Public Offering; and
- b) the private placement by InfoSonics of 875,000 common shares and warrants to be completed in connection with the Merger, pursuant to the Private Placement.

The following unaudited pro forma condensed combined financial statements give effect to the Merger and related transactions and were prepared in accordance with the regulations of the SEC and generally accepted accounting principles in the United States. The unaudited pro forma condensed combined balance sheet as of June 30, 2017 is presented as if the pending Merger and the transactions occurred on June 30, 2017, while the unaudited pro forma condensed combined statement of operations for the six months ended June 30, 2017 and for the year ended December 31, 2016 are presented as if the Merger and the transactions occurred on January 1, 2016. For accounting purposes, Cooltech is considered to be acquiring InfoSonics in the Merger. Cooltech was determined to be the accounting acquirer based upon the terms of the Merger Agreement and the Securities Purchase Agreements: (1) Cooltech stockholders will own 13,875,000 shares of InfoSonics Common Stock, which, at \$2.00 per share is valued at \$27.75 million, and the warrants on 1,375,000 additional shares, which together gives them approximately 84% of the common shares of the combined organization following the closing of the Merger (the Merger Consideration is valued at \$25.0 million, and the Public Offering and the Private Placement are valued at \$1.0 million and \$1.75 million, respectively), (ii) Cooltech directors will hold a majority of board seats in the combined organization and (iii) Cooltech management will hold all key positions in the management of the combined organization. Consequently, in accordance with the provisions of Accounting Standards Codification Topic 805, Business Combinations (ASC 805), the Merger will be accounted for as a reverse acquisition using the acquisition method of accounting.

The pro forma financial information is presented for informational purposes only and is not necessarily indicative of what the combined company's financial position actually would have been had the Merger transactions been completed on date indicated or what the combined company's results of operations actually would have been had the Merger transactions been completed as of the beginning of the periods indicated. In addition, the pro forma financial statements do not purport to project the future financial position or operating results of the combined company. The pro forma financial statements include adjustments for events that are (1) directly attributable to the aforementioned transactions, (2) factually supportable, and (3) with respect to the statements of operations, expected to have a continuing impact on the combined results. Certain of these adjustments are preliminary and may be revised. There can be no assurance that such revisions will not result in material changes to the information presented.

It should be noted that there have been no material transactions between InfoSonics and Cooltech during the periods presented in the unaudited pro forma condensed combined financial statements. In addition, these statements do not reflect any cost or growth synergies that the combined company may achieve as a result of the Merger, or the costs to combine the operations of InfoSonics and Cooltech.

The pro forma financial information has been derived from and should be read in conjunction with the following, which are incorporated by reference in this proxy statement/prospectus:

Table of Contents**NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION****1. Basis of Presentation**

The unaudited pro forma condensed combined balance sheet as of June 30, 2017 is presented as if the following three transactions occurred on June 30, 2017: the Merger, the Public Offering and the Private Placement. The unaudited pro forma condensed combined statement of operations for the six months ended June 30, 2017 and for the year ended December 31, 2016 assume that the three transactions took place on January 1, 2016, and combines the historical results of InfoSonics and Cooltech for the respective periods. The unaudited pro forma condensed combined balance sheet does not reflect the proposed acquisition of OneClick License LLC and OneClick International LLC by Cooltech since such acquisition had not closed as of the compilation of this financial information.

2. Merger Consideration and Bargain Purchase

Because of the change of control that results from the Merger, it is considered to be a reverse merger and Cooltech is deemed to be acquiring InfoSonics for accounting purposes. In addition, because the Merger involves only the exchange of equity and Cooltech is a private company whose value is difficult to measure, the fair value of the equity of InfoSonics is used to measure consideration transferred because it has a quoted market price. The market price per share used for the pro forma presentation pre-reverse stock split, is \$0.40 per share, the price used for the recent Public Offering and Private Placement. Using this price, the Merger consideration amounts to approximately \$8.5 million. However, the net assets of InfoSonics acquired amount to approximately \$12.5 million. The resulting bargain purchase represents an immediate gain of approximately \$4.0 million that will be recognized by Cooltech in earnings upon the closing of the Merger.

For further clarification, pre-reverse stock split, the Merger provides for the issuance by InfoSonics of 62,500,000 shares of its common stock in exchange for all of the outstanding stock of Cooltech. The Merger was preceded by the sale of 2,500,000 shares in the Public Offering. There were a total of 14,388,728 shares of InfoSonics common stock outstanding before the sale of shares in the Public Offering, resulting in 16,888,728 shares including the new shares outstanding immediately before the Merger after the Public Offering. Contingent on the Merger and receipt of approval from the Company's stockholders, the Company also agreed to sell an additional 4,375,000 shares in a private placement to current shareholders of Cooltech; provided, however, the determination of the accounting consideration for the Merger was based solely on the 62,500,000 shares to be issued.

As indicated in ASC 805-40-30-2, the Merger is a reverse acquisition in which Cooltech is the accounting acquirer and InfoSonics is the accounting acquiree. Consistent with this concept, Cooltech is not issuing consideration to acquire InfoSonics and InfoSonics is issuing its common stock to the owners of Cooltech as consideration in the Merger. The measurement of the consideration transferred by Cooltech for its interest in InfoSonics is based on the fair value of the equity interest that Cooltech would have had to issue to give the InfoSonics shareholders the same percentage equity interest in the combined company. As such, this consideration would be the fair value of 25.39% of the combined company calculated as 21,263,728 shares held by InfoSonics shareholders prior to the Merger divided by 83,763,728 shares outstanding after the Merger. Therefore, the fair value of the consideration to be given by Cooltech in the Merger is calculated by multiplying the 21,263,728 shares by the \$0.40/per share price of InfoSonics common stock to yield \$8,505,491.

The disclosure stating that the shares held by Cooltech shareholders after the Merger will be valued at \$27.75 million is an aggregate value for not only the 62,500,000 shares issued to affect the Merger, but also the 2,500,000 shares

from the Public Offering and the 4,375,000 shares in the Private Placement (not taking into effect the reverse stock split).

3. Pro Forma Adjustments

The unaudited pro forma condensed combined financial statements include pro forma adjustments, prior to the reverse stock split effected on October 10, 2017, to give effect to InfoSonics' issuance of 2,500,000 shares of its common stock in the Public Offering, the issuance of 4,375,000 shares in the Private Placement and the acquisition of the value of InfoSonics' net assets by Cooltech. The pro forma adjustments are described below.

To reflect the \$1.0 million of proceeds from the Public Offering and the \$1.75 million of proceeds from the Private Placement.

To record InfoSonics' estimated transaction costs, primarily legal, advisory and transactional fees and severance that were not incurred as of June 30, 2017. Approximately \$50,000 of the transaction costs are related to the Public Offering and the Private Placement and are recorded as a reduction of additional paid-in capital.

To record Cooltech's estimated transaction costs, primarily legal fees that were not incurred as of June 30, 2017.

To record the fair value of the consideration transferred by Cooltech in connection with the Merger equivalent to the approximately 21.3 million shares of InfoSonics stock that will be outstanding at the time of the Merger (giving effect to both the Public Offering and the Private Placement) at an assumed market price of \$0.40 per share.

To reflect the elimination of InfoSonics' historical common stock and accumulated deficit, including the impact of the pro forma adjustments to InfoSonics' current liabilities.

To reflect the recognition by Cooltech of the bargain purchase element that arises from the excess of the value of the net assets of InfoSonics acquired over the fair value of the consideration transferred in the Merger.

To reflect shares issued from the Public Offering, the Private Placement and the Merger, as well as the elimination of Cooltech shares.

It should be noted that adjustments B, C and F are reflected in the pro forma condensed combined balance sheet only. The adjustments comprise the estimated transaction expenses incurred by InfoSonics and Cooltech, as well as the one-time gain to be recognized by Cooltech on the acquisition of InfoSonics. In accordance with the rules of the SEC contained in Regulation S-X Rule 11.02(b)(6), these adjustments are not reflected in the pro forma condensed combined statement of operations because they represent material nonrecurring charges or credits which result directly from the transaction and which will be included in the statement of operations of the combined entity within the 12 months following the transaction.

Table of Contents**COOLTECH'S BUSINESS****Corporate Overview**

Cooltech was incorporated in Nevada on October 3, 2016, in order to acquire the business and operations of Icon Networks LLC, a Florida limited liability company (Icon). Cooltech is comprised of OneClick License, LLC, a Florida limited liability company (OneClick License) and OneClick International, LLC, a Florida limited liability company (OneClick International, together with OneClick License, OneClick), a chain of retail stores and an Apple authorized reseller, in addition to Icon, an authorized distributor to the OneClick stores and other resellers of Apple products and other high-profile consumer electronic brands. OneClick, with locations in the U.S., Argentina and the Dominican Republic, is focused on becoming the largest authorized reseller of Apple products and services in the Americas. As an Apple Premier Partner, sales of Apple products account for more than half of Cooltech's revenues, and sales of other consumer electronics and third-party accessories account for the remainder.

Cooltech's executive offices are located at 48 NW 25th Street, Suite 107/108, Miami, Florida 33127 and its telephone number is (786) 675-5257.

Icon Acquisition

On December 15, 2016, Cooltech consummated a securities exchange transaction (the Transaction) with Icon in which Cooltech acquired all of the outstanding membership interests of Icon in consideration for (i) 1,300,000 shares of Cooltech's common stock and (ii) 4,408,410 shares of Cooltech's Series A Convertible Preferred Stock (collectively, the Cooltech Stock). As a result, Icon became Cooltech's wholly-owned operating subsidiary, and XPro Global, LLC, a Florida limited liability company (XPro), a 50% owned subsidiary of Icon, became a 50% owned subsidiary of Cooltech. At such time, XPro was an inactive subsidiary with no operations, and on July 25, 2017, XPro filed for voluntary dissolution with the Secretary of State of the State of Florida. In addition to the Transaction, Cooltech issued the founders of Icon, Class A Promissory Notes (the Class A Notes) in the aggregate principal amount of \$747,500; Class B Promissory Notes (the Class B Notes) in the aggregate principal amount of \$300,000 and Class C Promissory Notes (the Class C Notes) in the aggregate principal amount of \$1,000,000. To date, Cooltech has repaid the Class A Notes in full.

Edgar Filing: InfoSonics Corp - Form S-4/A

Pursuant to the terms of the Transaction with Icon in which Cooltech acquired all of the outstanding membership interests of Icon, at any time following the date that is nine (9) months from the December 15, 2016

closing date of the acquisition of Icon, provided that (i) Cooltech has not consummated an initial public offering of the Cooltech's Common Stock pursuant to which Cooltech receives gross proceeds of at least \$10,000,000 (which, for the avoidance of doubt, may include a reverse merger, acquisition or similar transaction with a publicly traded company consummated in conjunction with a financing in which Cooltech receives at least \$10,000,000 in gross proceeds) (the Put/Call Exercise Period) and (ii) the Class A Notes have not yet been paid in full, the holders of Cooltech's outstanding shares of Series A Preferred Stock may exercise their right to (a) return the Cooltech Stock to Cooltech for cancellation and require Cooltech to return all previously surrendered membership interests of Icon to such holders and (b) sell and to require the founders of Icon to purchase, at the aggregate purchase price at which such holders of Series A Preferred Stock purchased its Icon membership interests from the Icon founders, the membership interests held by the holders of the Series A Preferred Stock (the Put Option). At such time during the Put/Call Exercise Period as the holders of Series A Preferred Stock have not exercised the Put Option, the Icon founders may exercise their right to cause and (a) require Cooltech to return the Icon membership interests to the former Icon members in consideration for the return of the Cooltech Shares received by such holders in exchange therefore to Cooltech for cancellation and (ii) require the holders of Series A Preferred Stock to sell, at the original purchase price, their Icon membership interests to the Icon founders (the Call Option). Upon exercise of the Put Option or the Call Option, as the case may be, Cooltech's acquisition of Icon would effectively be unwound, Cooltech's outstanding Class A, Class B and Class C promissory notes (collectively, the Promissory Notes) would be deemed null and void and Cooltech's employment agreements with its current management team would be terminated. The Put Option and Call Option was terminated upon repayment of the Class A Notes, which has occurred as of the date of this proxy statement/prospectus. Banco de Brasil has a first priority lien on all assets of Icon.

OneClick Acquisition

Effective on October 1, 2017, Cooltech acquired all of the outstanding membership interests of OneClick International, LLC (OneClick International) and of OneClick License, LLC (OneClick License) (collectively, OneClick) (the OneClick Acquisition). In consideration for all of the outstanding membership interests of OneClick International, Cooltech issued promissory notes to the former owners of OneClick International in the aggregate principal amount of \$3,395,709.68. In addition, Cooltech assumed OneClick International's indebtedness in the aggregate amount of \$7,707,616.56. As a result, OneClick International became a wholly-owned subsidiary of Cooltech. In consideration for all of the outstanding membership interests of OneClick License, Cooltech issued promissory notes to the former owners of OneClick License in the aggregate principal amount of \$561,797. In addition, Cooltech assumed OneClick License's obligations arising under certain promissory notes issued to the former owners of Sawgrass OneClick, LLC (Sawgrass), a wholly-owned subsidiary of OneClick License, in the aggregate amount of \$260,900. As a result, OneClick License became a wholly-owned subsidiary of Cooltech and Sawgrass became an indirect subsidiary of Cooltech. The aggregate amount of indebtedness assumed in the OneClick Acquisition was \$11,926,023.24.

OneClick is a consumer electronics retailer, specializing in commercializing Apple products, compatible brand accessories, self-produced products, and providing professional technical support to Apple retail customers. OneClick, with locations in the U.S., Argentina and the Dominican Republic, is focused on becoming the largest authorized reseller of Apple products and services in the Americas.

The acquisition of OneClick and its retail operations complements Cooltech's distribution business. Cooltech, in combining its distribution business with OneClick's retail operations, now operates as a vertically integrated company in the consumer electronics industry focused on the sale of Apple products and third-party accessories. Prior to the acquisition, OneClick would have to purchase inventory from a distributor, like Cooltech, resulting in lower potential profits. Through the acquisition of OneClick, Cooltech has effectively expanded its business to cover each level of the distribution chain, benefiting from both wholesale and retail pricing. By combining its retail and distribution

businesses, Cooltech is likely to realize higher profit margins given its geographical expansion throughout North America and Latin America.

Table of Contents**Contractual Arrangements**

On December 15, 2016, Cooltech entered into an Athletic Endorsement and Sponsor Agreement (the "Athletic Agreement") with Juan Pablo Montoya and Monty Motorsport LLC, a Delaware limited liability company (together with Mr. Montoya, the "Athlete") pursuant to which the Athlete granted Cooltech the worldwide, non-exclusive license and right to use the Athlete Identification (defined hereafter) until December 15, 2019 to advertise and endorse its products. Athlete Identification means Athlete's name, nickname, likeness, reputation, autograph, identity, voice, initials or biographical information. In addition, if requested by Cooltech, during the term of the Athletic Agreement, the Athlete will participate in a minimum of 12 appearances none of which shall exceed six hours in length. Moreover, during each one year term of the Athletic Agreement, the Athlete will participate in (i) a minimum of 12 vendor meetings none of which will exceed 4 hours in length and (ii) a minimum of four Cooltech Board meetings (where he may discuss with the Cooltech Board matters relating to his services under the Athletic Agreement) none of which shall exceed four hours in length. Pursuant to the terms of the Athletic Agreement, if requested by Cooltech, the Athlete will provide a reasonable amount of promotion of Cooltech through his personal website and/or social media outlets including, but not limited to, Facebook and Twitter. The Athlete will be required to post a minimum of two posts per month to the extent such posts are requested by Cooltech. In addition to the foregoing, to the extent permitted by Athlete's sponsors, the Athlete will display Cooltech's name or logo on his uniform. Cooltech will pay the Athlete \$20,000 per month and may, at its discretion, pay the Athlete additional compensation for participation in vendor and Cooltech Board meetings.

Description of Operations

In Cooltech's distribution business, Cooltech purchases and sells a variety of technology products to resellers who, in turn, typically sell directly to end-users or other resellers. Through its close ties with various manufacturers, Cooltech adds value to its vendors by acting as a conduit to a large and highly fragmented base of resellers. Cooltech provides its customers, primarily resellers, with a variety of value added services, including multi-vendor solutions, integration services, electronic commerce tools, marketing, financing, training and enablement, technical support, and inventory management. Cooltech targets resellers that service small and medium-sized businesses. Cooltech believes it is generally more difficult for larger suppliers to interact with this market due to its diversity and fragmentation, and this provides Cooltech with an opportunity in a large, higher-margin segment of the consumer electronics markets in the United States and Latin America, to entrench itself as a key element of the supply chain of its vendors.

Cooltech's retail brand, OneClick, operates a chain of retail stores specializing in commercializing Apple products, compatible brand accessories, self-produced products, and providing professional technical support to Apple customers. By combining the retail and distribution businesses, Cooltech can benefit from an increase in profits by controlling prices at each level of the distribution chain. OneClick's retail locations cater to the end-user, from the initial sale to individualized technical support and tutorials.

Principal Products

Cooltech distributes and markets a wide variety of technology products throughout Latin America and the United States.

Cooltech generally does not independently provide warranties on the products it distributes; however, local laws, which vary by country, may impose warranty obligations upon distributors. Cooltech does, however, sell extended warranty programs in certain markets on supplier products which are supported by third party carriers, and does not bear the costs associated with such programs. For example, in Latin America and in the U.S. Cooltech sells warranty programs for Apple products, namely, AppleCare. Provision for estimated warranty costs is recorded at the time of

sale and periodically adjusted to reflect actual experience.

Cooltech offers a wide variety of products across several technology segments as further discussed below. Product assortments vary by market, and the suppliers' relative contribution to Cooltech's sales also varies from

Table of Contents

country to country. Cooltech is focused on building its presence in those product categories and solutions that will benefit from key growth trends, such as the continuing technology shift to mobile devices and the need for enterprise computing solutions to handle the growing data center market. Cooltech is developing a more formal marketing and tracking process to leverage the benefits of these trends.

Through Cooltech's distribution business, Cooltech primarily sells the following types of products:

Consumer Electronics. Cooltech offers a variety of products within the Consumer Electronics category that fall within the following sub-categories: Computers, Laptops, Speakers, Accessories.

Systems. Cooltech offers a variety of systems, such as rack, tower and blade servers; desktops; and portable personal computers and tablets.

Software. Cooltech defines its software category as a broad variety of applications containing computer instructions or data that can be stored electronically. Cooltech offers a variety of software products, such as business application software, operating system software, entertainment software, middleware, developer software tools, security software (firewalls, intrusion detection, and encryption), storage software and virtualization software.

Networking. Cooltech's networking category includes networking hardware, communication products and network security hardware. Networking hardware includes switches, hubs, routers, wireless local area networks, wireless wide area networks, network interface cards, cellular data cards, network-attached storage and storage area networks. Communication products incorporate Voice over Internet Protocol (or VoIP), communications, modems, phone systems and video/audio conferencing. Network security hardware includes firewalls, Virtual Private Networks (or VPNs), intrusion detection, and authentication devices and appliances.

Mobility. Cooltech's mobility category includes mobile handsets, tablets, navigation devices, air cards, SIM cards, flash memory, and other mobile companion products, including health and fitness bands, wearables, app-accessories and services.

Sales and Marketing

Cooltech engages sales representatives and technical specialists at its only office which is located in Miami. These representatives and specialists provide customers with product specifications and solution design, system configuration, new product/service introductions, pricing, and availability. In addition, Cooltech's sales representatives regularly introduce Cooltech's reseller partners to new technologies and markets in order to assist them in expanding their businesses.

Cooltech's marketing group helps generate demand for its suppliers' products and services, enables the launch of new products, and facilitates customer contact. Cooltech's marketing programs are tailored to meet specific supplier and reseller customer needs. These needs are met through a wide offering of services by its in-house marketing organizations, including web design, email marketing, search engine marketing and optimization, social media and social marketing, data analytics, influencer marketing, programmatic media buying, and point-of-sale design and activation.

Customers

Cooltech conducts business with most of the leading resellers of IT products and services around the world and with many of the world's leading cell phone carriers and distributors, or mobility companies. Cooltech serves a customer

base that is divided into categories including resellers, retailers, custom installers, systems integrators, mobile network operators, mobile virtual network operators, direct marketers, Internet-based resellers, independent dealers, product category specialists, reseller purchasing associations, managed service providers,

Table of Contents

cloud services providers, PC assemblers, independent agents and dealers, IT and mobile device manufacturers and other distributors, B2B (SMB and enterprise). Although during the fiscal year ended 2016, Icon's largest three customers accounted for approximately 45% of Icon's revenues, Cooltech tries to reduce its exposure to the impact of business fluctuations and credit risk by maintaining a balance in the customer categories it serves.

In most cases Cooltech conducts business with its customers under its general terms and conditions, without minimum purchase requirements. Cooltech also has resale contracts with some of its reseller customers that are terminable at will after a reasonable notice period and have no minimum purchase requirements. Cooltech typically delivers products locally from its central shipping location to its customers' forwarding location and, as such, does not incur shipping liability.

Competitors

Within Cooltech's business, it competes against broad-based distributors such as Tech Data, Ingram Micro, Brightstar Corp, Viastara and Intcomex. Cooltech faces competition from a number of specialized competitors including distributors, manufacturers and resellers that focus on one market or product or a particular sector. In its retail business, Cooltech competes against consumer electronics retailers operating in similar regions. In the United States, competitors include retailers such as Best Buy, Universe Digital, Cellaris and Brandsmart. In Latin America, competitors include such retailers as Punto Mac, iPoint, Macstation, Garbarino and Fravega. Cooltech may encounter increased competition from new competitors, some of which may be Cooltech's current customers and/or suppliers. Cooltech believes that suppliers, resellers and other customers pursuing global strategies continue to seek distribution and logistics providers with global sales and support capabilities.

Further, the geographic regions in which Cooltech operates (the United States and Latin America) is highly competitive. Competitive factors include:

ability to tailor specific solutions to customer needs;

availability of technical and product information;

effectiveness of information systems;

credit terms and availability;

an increase in costs of production;

ability to offer products and services at competitive prices;

effectiveness of sales and marketing programs;

products and services availability;

quality and breadth of product lines and services;

speed and accuracy of delivery;

availability of web- or call center-based sales;

e-commerce capabilities;

partner connectivity support; and

web-integrated configuration, renewal and bidding tools.

Suppliers, Contractors and Licenses

Cooltech has written distribution agreements with many of its suppliers and these agreements usually provide for nonexclusive distribution rights and often include territorial restrictions that limit the countries, and in some cases, certain channels, in which Cooltech may distribute the products. Some of its agreements with

Table of Contents

suppliers may contain limitations of liability with respect to its suppliers' obligations and warranties. The agreements also are generally short-term, subject to periodic renewal, and often contain provisions permitting termination by either party without cause upon relatively short notice. Certain distribution agreements either require (at Cooltech's option) or allow for the repurchase of inventory upon termination of the agreement. In cases in which suppliers are not obligated to accept inventory returns upon termination, some suppliers will nevertheless elect to repurchase the inventory while other suppliers will assist with either liquidation or resale of the inventory.

Employees

As of June 30, 2017, Cooltech employs 20 individuals at its executive office, which includes its executive officers, employees, contractors and consultants (as measured on a full-time equivalent basis). Effective October 1, 2017 as a result of the OneClick Acquisition, Cooltech employs approximately 128 individuals in its retail business, with 26 individuals located in the United States, 58 employees located in the Dominican Republic, and 44 employees located in Argentina. Cooltech's success depends on the talent and dedication of its associates, and Cooltech strives to attract, hire, develop, and retain outstanding associates. Cooltech believes it realizes significant benefits from having a strong and seasoned management team with many years of experience in the IT and related industries. Cooltech believes that it maintains good relations with its employees, contractors and consultants.

Cooltech's executive office is located at 48 NW 25 Street, Suite 107/108, Miami, Florida 33127. Cooltech's OneClick retail stores are located in the United States and Latin America. In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Cooltech's actual results may differ materially from those results described in or implied by the forward-looking statements discussed below. Factors that could cause or contribute to such differences include, but are not limited to, those identified below, and those discussed in the section titled "Risk Factors" in this proxy statement/prospectus.

The following entities were consolidated in the consolidated combined financial statements: Cooltech, Icon and Xpro. The consolidated combined financial statements include 100% of all the assets and liabilities of each of the three entities.

The financial statements are presented in US dollars, which is Cooltech's functional currency. There were no foreign currency transactions. The financial results of Cooltech up to the date of the reverse acquisition of Icon include the combined results of Icon, Xpro Global LLC and DBA Trading Corp., which operated the electronics distribution business as a separate entity under common management.

Overview

Cooltech Holding Corp. (Cooltech) was incorporated in October 2016 under the laws of the State of Nevada. Cooltech is an acquirer and operator of businesses in the consumer electronics industry. References to Cooltech refer to Cooltech and its subsidiary, Icon. The principal address of Cooltech's business is 48 NW 25th Street, Suite 107/108, Miami, Florida.

Icon Acquisition

On December 15, 2016, Cooltech acquired Icon Networks LLC, a Florida limited liability company (Icon). Pursuant to the terms of a share exchange agreement by and between Cooltech and Icon, Cooltech acquired all of the membership interests of Icon in exchange for: (i) an aggregate of 1,300,000 shares of common stock of Cooltech; (ii) 4,408,410 shares of Series A Convertible Preferred Stock of Cooltech; and (iii) \$2,047,500 in the aggregate in the form of non-interest bearing promissory notes that are only repayable upon the closing of certain subsequent financing transactions (the Transaction). As a result of the Transaction, Icon became a wholly-owned subsidiary of Cooltech.

Recent Developments

On July 25, 2017, Cooltech entered into the Merger Agreement with InfoSonics and InfoSonics Acquisition Sub, Inc. (Merger Sub), pursuant to which Cooltech is to merge with and into the Merger Sub (the Merger), with Cooltech surviving as a wholly-owned subsidiary of InfoSonics. The Merger Agreement provides that InfoSonics will issue an aggregate of 62,500,000 shares of its common stock (which, after taking into account the reverse stock split effected on October 10, 2017, will equal an aggregate of 12,500,000 shares of its common stock) in exchange for all of the issued and outstanding capital stock of Cooltech. The Merger and the transactions contemplated thereby are subject to

a number of customary closing conditions, including approval of the Merger Agreement and the Merger by InfoSonics stockholders and Board of Directors.

On October 1, 2017, Cooltech executed two purchase agreements (collectively, the Purchase Agreement) and acquired all of the outstanding membership interests of OneClick International LLC and of OneClick License, LLC (collectively, OneClick). As a result, OneClick became a wholly-owned subsidiary of Cooltech.

Table of Contents

OneClick is a consumer electronics retailer, specializing in commercializing Apple products, compatible brand accessories, self-produced products, and providing professional technical support to Apple retail customers. OneClick, with locations in the U.S., Argentina and the Dominican Republic, is focused on becoming the largest authorized reseller of Apple products and services in the Americas.

The acquisition of OneClick and its retail operations complements Cooltech's distribution business. Cooltech, in combining its distribution business with OneClick's retail operations, now operates as a vertically integrated company in the consumer electronics industry focused on the sale of Apple products and third-party accessories. Prior to the acquisition, OneClick would have to purchase inventory from a distributor, like Cooltech, resulting in lower potential profits. Through the acquisition of OneClick, Cooltech has effectively expanded its business to cover each level of the distribution chain, benefiting from both wholesale and retail pricing. By combining its retail and distribution businesses, Cooltech is likely to realize higher profit margins given its geographical expansion throughout North America and Latin America.

Cooltech expects the acquisition of OneClick to significantly increase its profit margins due to both its geographic expansion and entry into the retail business. It is anticipated that Cooltech will continue to grow as a result of OneClick and its retail stores, and such growth will require additional capital in order to fund this expansion.

Private Placement Financing

In March 2017, Cooltech conducted a private placement of its common stock at a price of \$2.50 per share (the Offering). Upon completion of the Offering, Cooltech issued 2,275,222 shares of its common stock for total gross proceeds of \$5,688,055 and net proceeds of \$4,641,310. Cooltech also granted three-year broker warrants to purchase up to 227,522 shares of its common stock at an exercise price of \$2.50 per share.

Table of Contents

Critical Accounting Policies

Cooltech prepares its consolidated combined financial statements under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements in conformity with GAAP requires Cooltech to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent liabilities as of the date of its most recent balance sheet, and the reported amounts of revenues and expenses during the reporting periods. Cooltech reviews its estimates and assumptions on an ongoing basis. Cooltech's estimates are based on its historical experience and other assumptions that Cooltech believes to be reasonable under the circumstances. Actual results are likely to differ from these estimates under different assumptions or conditions, but Cooltech does not believe such differences will materially affect its financial position or results of operations, although they may.

Use of Estimates

The preparation of these condensed consolidated combined interim financial statements under US GAAP requires Cooltech to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the condensed consolidated combined interim balance sheets and the reported amounts of revenue and expenses during the reporting period.

These estimates and assumptions include impairment of equity investments, valuation of preferred shares and promissory notes, and accruals contained within trade and other payables.

Actual results could differ from these estimates and assumptions.

Business Combinations

Cooltech accounts for business combinations in accordance with ASC 805, Business Combinations (ASC 805). ASC 805 requires that transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other professional and consulting fees, related to acquisitions be expensed as incurred. Upon acquisition of a business, Cooltech allocates the purchase price of the business based upon the fair value of the net assets acquired.

Inventory

Inventory is stated at the lower of cost or net realizable value. Costs are computed based on the weighted average cost method. Inventory is comprised of finished goods only. Finished goods include products purchased for resale, including costs related to freight and delivery, net of discounts. The reserve for inventory as of June 30, 2017 is \$49,795 (December 31, 2016 \$36,463). The net realizable value is estimated using an inventory aging schedule.

Any write-down to net realizable value is recognized as an expense in the period in which the write-down occurs.

Loss Per Share

Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted earnings-per-share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise of stock options and warrants (using the treasury stock method). The computation of basic net loss per share for the three- and six-month periods ended June 30, 2017 and 2016 excludes potentially dilutive securities. The computations of net loss per share for each period presented is the

same for both basic and fully diluted.

INFORMATION ABOUT INFOSONICS

Company Overview

We are a provider of wireless handsets (which may be referred to herein as phones, cell phones, mobile phones, feature phones and smartphones), tablets and accessories to carriers, distributors and retailers, primarily in Latin America. We define, source and sell our proprietary line of products under the *verykool*[®] brand, with the goal to provide the market with products that are unique, handsomely designed, feature rich and provide exceptional value for the consumer. Our *verykool*[®] products include a wide range of GSM Android-based smartphones and a limited number of feature phones and Android-based tablets.

Our corporate headquarters are in San Diego, California. We have wholly owned subsidiaries in Mexico, Central America and South America, which conduct some of our business activities in their respective regions, as well as subsidiaries in Hong Kong and China where we source our *verykool*[®] products, oversee production at manufacturers, conduct quality control and monitor third party logistics and warehousing for shipment to our customers. We also have sales representatives, field engineers and marketing resources located throughout Latin America, our principal market.

We incorporated under the laws of the State of California on February 7, 1994, under the name InfoSonics Corporation. On September 11, 2003, we reincorporated under the same name under the laws of and into the State of Maryland.

Global Wireless Industry

Today's wireless handsets can be segmented into two primary categories: smartphones and feature phones. The distinguishing characteristics of smartphones are that they are built on a mobile operating system and are generally more sophisticated, have higher computing power and are more expensive than feature phones. Rapid technological developments within the wireless telecommunications industry have allowed wireless subscribers to talk, send and receive text messages, send and receive e-mails, capture and transmit digital images and videos, send and receive multimedia messages, play games, listen to music, watch visual content, run application programs and browse the Internet using all-in-one wireless handsets. Wireless handsets, accessories and services also are being used around the world to provide remote monitoring, point-of-sale transaction and payment processing, inter-device communications, local area networks, location monitoring, sales force automation and customer relationship management. While current demand for some of these more advanced services and features is not as strong in certain of the price-sensitive foreign markets we serve, we believe smartphones will ultimately dominate the handset market as they become relatively more affordable and consumers upgrade from existing feature phones.

Our Business and Strategy

The worldwide market for wireless handsets and tablets is extremely competitive. It is characterized by a large number of providers, often with very similar products, that ultimately compete on price at very thin margins. The capabilities and features of the phones are primarily a function of the chipset manufacturers, and it is difficult to achieve differentiation. Despite this, we still strive to achieve the following: (1) a consistent, attractive industrial design, (2) a compelling combination of hardware and software features, (3) a quality product with low failure rate, and (4) an attractive price point, which together provide exceptional value to the consumer.

Our strategy includes the following elements:

Consistent introduction of new models to our verykool® portfolio to keep it refreshed and attractive to customers.

Table of Contents

Maintenance of a broad selection of smartphones across various price points in response to the affordability and popularity of smartphones in worldwide markets. In addition, we focus on large-screen phones to fill the elevated consumer appetite for such devices.

Expansion of our retail sales channel throughout Latin America, building upon our success in Mexico.

Maintain a strong presence in social media and other selected outlets to promote brand awareness of verykool®.

Development of a software platform that will provide a suite of services and cloud-based solutions for retailers and other potential customers.

Technological advances and affordability in smartphones, including the pervasiveness of the open source Android operating system, have driven the global wireless industry. The popularity of smartphones has gained dramatically in developed countries with broader-based consumer purchasing power. However, in certain geographic regions, including Latin America, the market is extremely price sensitive and the current price points of traditional smartphones are beyond the reach of many consumers. With increasing volumes and lower production costs for smartphones, we have expanded our portfolio of affordable smartphones. Although we continue to carry a small number of low-end feature phones, more expensive feature phones have been replaced with entry-level smartphones.

Customers

Our current Latin American customers include carriers, distributors and retailers. We exited the United States market in late 2016, a decision prompted by our lack of penetration in the United States market and the significant cost of defending ourselves against patent lawsuits from domestic non-practicing entities. We sell our products pursuant to customer purchase orders and ship products by common carrier based on customer-specified delivery dates. During 2016, we sold products to approximately 35 customers. Our three largest customers in 2016 represented 20%, 19% and 14% of our net sales, respectively. Our first and third largest customers were big box retailers and our second largest customer was a carrier.

Purchasing and Suppliers

We have established key relationships with a number of independent design houses and Original Design Manufacturers (ODMs) in China who design and manufacture wireless handsets to our specifications or based upon their own criteria. In 2016, we purchased products from 18 manufacturers, the top three representing 42%, 19% and 17%, respectively, of our cost of sales.

We purchase products from manufacturers pursuant to purchase orders placed from time to time in the ordinary course of business. Purchase orders are typically filled, based on manufacturing lead times, and shipped to our designated warehouses by common freight carriers. We believe that our relationships with our suppliers are generally good. Any failure or delay by our suppliers in supplying us with products on favorable terms and at competitive prices may severely diminish our ability to obtain and deliver products to our customers on a timely and competitive basis. Although there are a number of such suppliers available to provide or manufacture our products, the establishment of these relationships typically requires a significant investment of time by both parties, and a change in suppliers could cause a delay in or loss of sales and adversely affect our results.

Sales and Marketing

We believe that direct selling and one-on-one relationships, as well as in-depth product and competitive landscape knowledge, are important factors in the marketing of the products we sell. Accordingly, in our business-to-business environment, we promote relationship building and maintenance through personal customer contact by our in-country sales and marketing professionals. Additionally, in order to promote our *verykool*[®]

Table of Contents

brand, we advertise in certain of the geographies where we do business in industry publications, both print and online, on billboards and by attending industry trade shows. Further, we participate in co-op advertising sponsored by our customers in other forms of media.

As of December 31, 2016, we employed or contracted with 11 sales, marketing and merchandizing professionals who are assigned specific geographic territories, most of whom reside in-country. Each salesperson is generally compensated with a base salary or retainer plus a commission or bonus based on sales in his or her territory.

Research and Development

In previous years we maintained an in-house design team in China to develop certain of our products, including our ruggedized line of xTreme products. However, in 2014, we shut down the design team. Research and Development (R&D) expense for the year ended December 31, 2014 was \$588,000, and there were no R&D expenses in 2015 or 2016.

Financial and Other Information about Our Business

Other information, including financial, customer, competitive and geographic information is incorporated by reference herein from Items 1A, 7 and 7A hereof and Note 11 to our Consolidated Audited Financial Statements.

Seasonality

Our operations may be influenced by a number of seasonal factors in the countries and markets in which we operate. Absent other factors, our business historically has experienced stronger sales during the fourth quarter of the calendar year due to the Christmas holiday season. On the supply side of our business, because all manufacturing of our branded *verykool*[®] phones is done in China, the first quarter of the calendar year can be a difficult time during closure of factories for the Chinese New Year. We strive to manage around the closure, but if factories have difficulty starting back up, we could experience delays in getting product and satisfying customer orders, which could have a material adverse effect on our results.

Competition

The industry and markets where we operate are highly competitive and such competition may increase in the future. We compete for sales of wireless handsets and accessories with well-established large manufacturers, many small brands and independent design houses. Wireless handsets are subject to price competition and price erosion over the lives of the products. We compete on a number of factors, including product design and features, product pricing, product quality, level of services offered, market and product knowledge, customer service, product availability and overall value provided to our customers. Our competitors often possess substantially greater financial, technological, marketing, personnel and other resources than we do, which could enable them to withstand substantial price competition, launch new products and implement extensive advertising and promotional campaigns. Historically, the barriers to entry into the sourcing and distribution of wireless handsets have been relatively low. Our ability to continue to compete successfully in the wireless handset business is largely dependent on our ability to anticipate and respond to various competitive and other factors affecting the industry, including new or changing outsourcing requirements, new technology requirements, new and differentiated product introductions, inconsistent or inadequate supply of product, changes in consumer preferences, demographic trends, regional and local economic conditions, and discount pricing strategies and promotional activities by competitors.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF INFOSONICS
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following is a discussion and analysis of InfoSonics' consolidated financial condition at June 30, 2016 and should be read in conjunction with InfoSonics' consolidated financial statements and notes thereto presented in this proxy statement/prospectus beginning on page F-1.

Forward-Looking Statements, Safe Harbor Statement and Other General Information

This discussion and analysis of financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements set forth in F-1 and condensed notes thereto and other information included in this report and our Annual Report on Form 10-K for the year ended December 31, 2016 (including our 2016 audited consolidated financial statements and related notes thereto and other information). Our discussion and analysis of financial condition and results of operations are based upon, among other things, our unaudited consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of financial statements in conformity with GAAP requires us to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent liabilities as of the date of our most recent balance sheet, and the reported amounts of revenues and expenses during the reporting periods. We review our estimates and assumptions on an ongoing basis. Our estimates are based on our historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from these estimates under different assumptions or conditions, but we do not believe such differences will materially affect our financial position or results of operations, although they may. Our critical accounting policies, the policies we believe are most important to the presentation of our financial statements and require the most difficult, subjective and complex judgments are outlined in Critical Accounting Policies in our Annual Report on Form 10-K, as may be updated in our subsequent Quarterly Reports on Form 10-Q. All references to results of operations in this discussion generally are to results from continuing operations, unless otherwise noted.

This report contains forward-looking statements, including, without limitation, statements about customer relationships, marketing of our *verykool*[®] products, sales levels, cost reductions, operating efficiencies, currency-related matters, profitability and adequacy of working capital, that are based on, among other things, current management knowledge and expectations and which involve certain risks and uncertainties. These risks and uncertainties, in whole or in part, could cause expectations to fail to be achieved and could have a material adverse effect on our business, financial condition and results of operations, and include, without limitation: (1) the pending Merger transaction and related PIPE stock sale may not close and could expose us to significant expenses in connection with the Merger; if the Merger does close, we will be subject to substantially all the liabilities of Cooltech and will be faced with the integration process, which could have a materially adverse effect on our business; (2) intense competition internationally, including competition from alternative business models, such as manufacturer-to-carrier sales, which may lead to reduced prices, lower sales, lower gross margins, extended payment terms with customers, increased capital investment and interest costs, bad debt risks and product supply shortages; (3) our ability to source our *verykool*[®] handsets and successfully introduce them into new markets; (5) our ability to have access to adequate capital to fund operations; (5) our ability to secure adequate supply of competitive products on a timely basis and on commercially reasonable terms; (6) foreign exchange rate fluctuations and/or devaluation of a foreign currency (most notably the Mexican peso) and our ability to effectively hedge for such fluctuations or devaluations, adverse governmental controls or actions, political or economic instability, or disruption of a foreign market, including, without limitation, the imposition, creation, increase or modification of tariffs, taxes, duties, levies and other charges and other related risks of our international operations which could significantly increase selling

prices of our products to our customers and end-users and decrease profitability; (7) the ability to attract new sources of profitable business from expansion of products or services or risks associated with entry into new markets or expanding in existing markets, including geographies, products, services and big box retailers; (8) an interruption or failure of our information

Recent Developments

On July 25, 2017, the Company entered into an Agreement and Plan of Merger (*Merger Agreement*) by and among the Company, Cooltech Holding Corp. (*Cooltech*), and the Company's wholly-owned subsidiary, InfoSonics Acquisition Sub, Inc. (*Merger Sub*), pursuant to which Cooltech will merge with and into the Merger Sub (the *Merger*), with Cooltech surviving as a wholly-owned subsidiary of InfoSonics. The Merger Agreement provides that the Company will issue an aggregate of 62.5 million shares of its common stock in exchange for all of the outstanding capital stock of Cooltech. The Merger and the transactions contemplated thereby are subject to a number of customary closing conditions, including approval of the Merger Agreement and the Merger by the Company's stockholders. Stockholders of the Company will be asked to vote on the adoption and approval of the Merger Agreement and the Merger at a special meeting of stockholders to be called by the Company.

On August 2, 2017, in accordance with a provision of the Merger Agreement, certain investors affiliated with Cooltech purchased from the Company 2.5 million shares of Company common stock at a price of \$0.40 per share in cash and warrants exercisable into 2.5 million additional shares of Company common stock with an exercise price of \$0.484 per share (a 10% premium to the closing bid price of Company common stock on the NASDAQ Capital market on July 24, 2017). The approximately \$1 million of proceeds from this sale of stock will be used by the Company to cover costs associated with the Merger and related financings. Also on August 3, 2017, certain investors affiliated with Cooltech entered into a purchase agreement to purchase from the Company an additional 4.375 million shares of Company common stock and warrants to purchase an equal number of shares under the same terms, contingent upon receipt of stockholder approval of such issuance in accordance with Nasdaq rules. The proceeds from such sale have been escrowed pending receipt of stockholder approval and the closing of the Merger.

*Three months ended June 30, 2017 compared with three months ended June 30, 2016**Net Sales*

For the three months ended June 30, 2017, our net sales amounted to \$5,297,000, a decrease of \$6,829,000, or 56%, from \$12,126,000 in the same period last year. The largest portion of the decline occurred in Central America where sales declined by \$3.6 million, due principally to the absence of sales to a large carrier customer to whom future sales are uncertain. Sales to retail customers in Mexico during the quarter were softer than expected and declined by \$2,605,000. As a result of our exit from the U.S. market at the end of third quarter 2016, we had no sales to U.S. customers during the quarter compared to \$352,000 of sales in the prior year quarter. Sales to U.S.-based Latin American distributors and to customers in South America declined \$196,000 and \$72,000, respectively. We shipped approximately 201,000 units in the second quarter of 2017, a decrease of 56%, compared to the second quarter of 2016. Our average unit selling price decreased by 2%, due to a higher product mix of low-priced feature phones.

Gross Profit and Gross Margin

For the three months ended June 30, 2017, our gross profit amounted to \$605,000, a decrease of \$552,000, or 48%, from \$1,157,000 in the same period last year. Our gross profit margin for the three months ended June 30, 2017 was 11.4%, an improvement from 9.6% in the same period last year. The reduced gross profit in the current year quarter was the result of the low level of sales, which also made it difficult to absorb fixed overhead costs. The reduced gross profit margin in the prior year quarter was the result of discounts given to liquidate aging inventory.

Table of Contents*Operating Expenses*

For the three months ended June 30, 2017, total operating expenses amounted to \$1,373,000, a decrease of \$600,000, or 30%, from \$1,973,000 in the same period last year. The decrease reflected expense reduction actions we implemented during the second and third quarters of 2016. The most significant decreases were in wages and benefits, product certification and homologation, professional fees and marketing. We also implemented additional expense reduction actions during the current year quarter in the form of staff reductions representing approximately \$490,000 in annual expense which we expect will benefit future quarters.

Other Expense

Interest expense for the three months ended June 30, 2017 and 2016 of \$44,000 and \$63,000, respectively, related primarily to interest bearing vendor credit, with some bank interest during the prior year quarter. For the three months ended June 30, 2016, other expense of \$156,000 consisted primarily of losses on options and forward exchange contracts to hedge currency exposure against the Mexican peso. No such expense was incurred during the current year quarter.

Provision for Income Taxes

Because of our prior operating losses, our tax provisions for the three months ended June 30, 2017 and 2016 were nil.

Six months ended June 30, 2017 compared with six months ended June 30, 2016*Net Sales*

For the six months ended June 30, 2017, our net sales amounted to \$11.5 million, a decrease of \$10.0 million, or 47%, from \$21.5 million in the same period last year. The largest decrease of \$7.9 million came from the absence of sales to carrier customers in South and Central America that we moved away from. Sales to retail customers in Mexico during the current year period were softer than expected and resulted in a decline of \$2.7 million from the prior year period. As a result of our exit from the U.S. market at the end of the third quarter of 2016, we had no sales to U.S. customers during the current year period compared to \$1.2 million of sales in the prior year period. These decreases were partially offset by a \$1.6 million increase in sales to Miami-based distributors selling to Latin American customers and improved sales to other smaller customers in both Central and South America. In terms of units, we shipped approximately 363,000 units in the first six months of 2017, a decrease of 49%, compared to the first six months of 2016. Our average unit selling price increased by 3%, reflecting less price discounting in the current year period compared to the prior year.

Gross Profit and Gross Margin

For the six months ended June 30, 2017, our gross profit amounted to \$927,000, a decrease of \$1,408,000, or 60%, from \$2,335,000 in the same period last year. Our gross profit margin for the six months ended June 30, 2017 was 8.0%, down from 10.8% in the same period last year. These reductions were primarily the result of the low level of sales, which also made it difficult to absorb fixed overhead costs.

Operating Expenses

For the six months ended June 30, 2017, total operating expenses amounted to \$2,735,000, a decrease of \$1,095,000, or 29%, from \$3,830,000 in the same period last year. The most significant decreases were in wages and benefits,

product certification and homologation, legal fees and marketing. The decrease reflects expense reduction actions we implemented during the second and third quarters of 2016, as well as the settlement of all patent lawsuits by the end of the third quarter of 2016. We also implemented additional expense reduction actions during the second quarter of 2017 in the form of staff reductions representing approximately \$490,000 in annual expense which we expect will benefit future quarters.

Table of Contents*Other Expense*

For the six months ended June 30, 2017 and 2016, interest expense of \$93,000 and \$119,000, respectively, related to borrowings against our bank line of credit and interest bearing vendor credit. In the six months ended June 30, 2017 and 2016, other expense of \$12,000 and \$321,000, respectively, consisted primarily of losses on options and forward exchange contracts to hedge currency exposure against the Mexican peso.

Provision for Income Taxes

Because of our prior operating losses, our tax provisions for the six months ended June 30, 2017 and 2016 were nominal.

Currency Rate Fluctuations

Changes in the relative values of non-U.S. currencies, most importantly the Mexican peso, to the U.S. dollar affect our financial results and financial position. With the exception of Mexico, where we denominate sales in Mexican pesos, all other sales are denominated in U.S. dollars. Over the last two years, the strength of the U.S. dollar versus the Mexican peso has resulted in assets and liabilities denominated in Mexican pesos at our Mexican subsidiary being translated into less U.S. dollars in our consolidated financial statements. However, during the six months ended June 30, 2017, the Mexican peso strengthened by 13.4% against the U.S. dollar, which resulted in a foreign currency gain for the period of \$496,000. However, there still remains a balance of \$2,199,000 in our accumulated other comprehensive loss account on our Consolidated Balance Sheet at June 30, 2017 related to the impact of previous U.S. dollar strengthening against the Mexican peso.

Foreign currency fluctuations often drive operational responses that mitigate the simple mechanical translation of earnings. During periods of sustained movements in currency, the marketplace and competition adjust to the changing rates. For example, when pricing our products to the marketplace, we may use some of the advantage from a weakening U.S. dollar to improve our position competitively, and price more aggressively to win the business, essentially passing on a portion of the currency advantage to our customers. Competition will frequently take the same action. Conversely, when the U.S. dollar is stronger, as it currently is, we try to raise prices to mitigate the currency impact, but this may not always be possible in the marketplace and our competitors may not always act in the same way. See Note 10 to our consolidated financial statements in this report for information regarding our foreign exchange hedging facility, which we may use when we deem advantageous to try to reduce some of our currency risk with the Mexican peso.

Liquidity and Capital Resources

Since 2014, in addition to our existing cash reserves, we have relied primarily on two sources to fund our business: (1) vendor credit from the factories who supply our phones, and (2) our bank line of credit. Our primary suppliers typically provide us with a line of credit that is supported by credit insurance. In these arrangements, at the time we place an order, we generally pay a 15% deposit plus the cost of credit insurance. When the product is delivered and the invoice is issued, we are given 60-day payment terms with interest due at a stated rate at the time of payment. At June 30, 2017, our aggregate lines of credit with vendors amounted to \$6.8 million. At the beginning of 2016, our bank line of credit was \$7 million. However, this amount was reduced to \$3 million in August 2016, and was augmented in October 2016 to provide for a \$2 million sublimit that enabled the Company to borrow against its Mexican peso deposits held at the Bank at a 70% advance rate. Then, in March 2017, due to the Company's continuing losses, the line of credit was amended to eliminate the Company's ability to borrow against its accounts receivable. We will, therefore, need to rely for the foreseeable future upon our existing working capital, vendor credit and sales of

equity securities as the sole sources of financing. Given the losses we have sustained over the last four quarters, these resources may not be sufficient to adequately fund our operations for the coming year and cover the significant Merger related expenses. This could force us to make further reductions in spending, curtail planned programs or take other actions that could materially harm our business,

Table of Contents

results of operations and future prospects. It may also be necessary for us to seek other debt, equity or equity-based financing. See Note 2 to our consolidated financial statements in this report for information regarding Going Concern Considerations.

In the six months ended June 30, 2017, our cash balances decreased by \$1,096,000 compared to December 31, 2016. We generated \$3,218,000 from reductions in trade and other receivables and \$496,000 from foreign currency gains. These inflows were offset by \$1,734,000 used to fund increased inventory, \$1,705,000 to fund our net loss adjusted for non-cash items, \$1,146,000 to reduce accounts payable and accrued expenses, and \$225,000 to fund increased property and equipment and changes in prepaid and other assets.

As of June 30, 2017, we had \$1.1 million of cash and cash equivalents, \$8.8 million of net working capital and no outstanding funded debt. In addition, as noted under *Recent Developments* above, on August 2, 2017, we sold 2.5 million shares of Company common stock and warrants for gross proceeds of \$1 million to cover costs associated with the Merger and related financings. Also on August 3, 2017, we entered into an agreement to sell an additional 4.375 million shares of Company common stock and warrants for gross proceeds of \$1.75 million, contingent upon receipt of stockholder approval of such issuance in accordance with Nasdaq rules. The proceeds from such sale have been escrowed pending receipt of stockholder approval and the closing of the Merger.

Critical Accounting Policies

There have been no material changes to our critical accounting policies and estimates affecting the application of those accounting policies since our Annual Report on Form 10-K for the year ended December 31, 2016. Effective January 1, 2017, we adopted the guidance FASB issued ASU 2014-15, *Presentation of Financial Statements Going Concern (Subtopic 205-40) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, which adoption did not have an impact on the Company's consolidated financial statements.

Quantitative and Qualitative Disclosures about Market Risk

The primary objective of the following information is to provide forward-looking quantitative and qualitative information about our potential exposure to market risk. The term *market risk* for us refers to the risk of loss arising from adverse changes in interest rates and various foreign currencies. The disclosures are not meant to be precise indicators of expected future losses, but rather indicators of what could cause certain potentially material losses. This forward-looking information provides an overview of how we view and manage ongoing market risk exposures.

Interest Rates

We are exposed to market risk from changes in interest rates on balances owed to certain of our manufacturing vendors. At June 30, 2017, we owed \$2.8 million to these vendors which could be affected by changes in short-term interest rates. The annual interest rates on these balances at June 30, 2017 ranged from 6.0% to 8.0%, were negotiated individually with each vendor and were not tied to any particular index. For every 1% increase in the negotiated rate, our interest expense would increase by approximately \$28,000, assuming the same \$2.8 million remained outstanding for the entire year.

Foreign Exchange and Other Risks

All of our sales transactions are denominated in U.S. dollars with the exception of sales to certain customers in Mexico, which are priced in Mexican pesos. At June 30, 2017 and December 31, 2016, foreign currency cash accounts in Mexican pesos amounted to \$13,000 and \$205,000, respectively. Also, at June 30, 2017 and December 31, 2016,

accounts receivable denominated in Mexican pesos amounted to \$856,000 and \$3,746,000,

Table of Contents

respectively. Product costs and the majority of our operating expenses are denominated in U.S. dollars. However, lease expenses and certain other immaterial operating costs of our China quality control team are denominated in Chinese Yuan Renminbi, and payroll and operating expenses of our employees in Mexico are denominated in Mexican pesos. See Note 10 to our consolidated financial statements in this report for information regarding our foreign exchange hedging facility, which we have used on occasion as we deemed advantageous in an effort to reduce some of our Mexican peso currency risk.

Foreign currency risks are associated with our cash, receivables, payroll and payables denominated in foreign currencies. Fluctuations in exchange rates can result in foreign exchange gains and losses on these foreign currency assets and liabilities, which are included in other income (expense) in our consolidated statements of operations and comprehensive loss. For the six months ended June 30, 2017 and 2016, losses of \$12,000 and \$325,000, respectively, on options and foreign exchange forward contracts used to protect against the exchange rate risk of the Mexican peso are included in other income (expense). See [Currency Rate Fluctuations](#) above for additional information.

As a result of our international sales, our future operating results could also be adversely affected by a variety of factors, including changes in specific countries' political, economic (including inflationary and deflationary) or regulatory conditions and trade protection measures.

Reverse Stock Splits; Consolidation Division, and Subdivision	<p>Under the MGCL, the issued shares of a corporation with a class of equity securities registered under the Exchange Act may be combined into a smaller number of shares, without stockholder action, at a ratio of not more than ten shares into one share in any twelve-month period. Under Maryland law, a reverse stock split is defined as a combination of outstanding shares of stock of a corporation into a lesser number of shares of stock of the same class without any change in the aggregate amount of stated capital of the corporation, except for a change resulting from an elimination of fractional shares. Also under Maryland law, a division of issued shares into a greater number of shares of the same class without any change in the aggregate amount of stated capital may be accomplished without stockholder action.</p> <p>If necessary to qualify for the NASDAQ new listing requirements, it intends to conduct one or more reverse stock splits sufficient to maintain the minimum price per share requirements for continued listing. person in a like position under similar circumstances. Maryland law provides that a director is presumed to satisfy this standard of conduct. Under the MGCL, a director who complies with this standard of conduct ordinarily is immune from liability. A party challenging the propriety of a decision of a board of directors typically bears the burden of rebutting the applicability of the protection afforded to directors by the business judgment rule, which is a legal presumption that the director acted in accordance with the duties of care and loyalty. Under the MGCL, an act of a director relating to or affecting an acquisition or a potential acquisition of control of a corporation is not subject to a higher duty or greater scrutiny than is applied to any other act of a director. The Court of Appeals of Maryland, the highest court in the State, has held that, when a corporation is being sold in a cash-out transaction, the immunity from liability described above does not apply, and the director has a common law duty of candor and to maximize value.

Under Maryland law, a member of the board of directors, or a member of any committee designated by the board of directors, is entitled, in the performance of such member's duties, to rely upon information, opinions, reports, statements, including financial statements or other financial data, prepared or presented by the corporation's officers or employees, or committees of the board of directors (on which such director does not serve), or by a lawyer, certified public accountant or other person as to a matter that the director reasonably believes to be within the person's professional or expert competence

information, opinions, reports, books of account or statements, including financial statements and other financial data, that are prepared or presented by: (a) one or more directors, officers or employees of the corporation reasonably believed to be reliable and competent in the matters prepared or presented; (b) counsel, public accountants, financial advisers, valuation advisers, investment bankers or other persons as to matters reasonably believed to be within the preparer's or presenter's professional or expert competence; or (c) a committee on which the director or officer relying thereon does not serve, established in accordance with the NRS as to matters within the committee's designated authority and matters on which the committee is reasonably believed to merit confidence, but a director or officer is not entitled to rely on such information, opinions, reports, books of account or statements if the director or officer has knowledge concerning the matter in question that would cause reliance thereon to be unwarranted. Directors and officers, in deciding upon matters of business, are presumed to act in good faith, on an informed basis and with a view to the interests of the corporation. Directors and officers, in exercising their respective powers with a view to the interests of the corporation, may consider: a) the interests of the corporation's employees, suppliers, creditors and customers; (b) the economy of the state and nation; (c) the interests of the community and of society; and (d) the long-term as well as short-term interests of the corporation and its stockholders, including the possibility that these interests may be best served by the continued independence of the corporation. Directors and officers are not required to consider the effect of a proposed

particular group having an interest in the corporation as a dominant factor.

Under Nevada law, a member of the board of directors, or a member of any committee designated by the board of directors, must, in the performance of such member's duties, be fully protected in relying in good faith upon the records of the corporation and upon such information, opinions, reports or statements presented to the corporation by any of the corporation's officers or employees, or committees of the board of directors, or by any other person as to matters the member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the corporation.

Conflicts of Interest of Directors

Under Maryland law, a contract or transaction in which a director has an interest will not be voidable solely for this reason if (i) the facts about such interested director's relationship or interest are disclosed or are known to the board of directors or a committee thereof, and a majority of disinterested directors or such committee in good faith authorizes the transaction by the affirmative vote of a majority of the disinterested directors, (ii) the facts about such interested director's relationship or interest are disclosed or are known to the stockholders entitled to vote on such transaction, and the transaction is approved by vote of the majority of shares held by disinterested stockholders entitled to vote thereon or (iii) the transaction is fair and reasonable to the corporation as of the time it is authorized, approved or ratified. The NRS further provides, to the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to above, or in defense of any claim, issue or matter therein, the corporation shall indemnify him or her against expenses, including attorneys fees, actually and reasonably incurred by him or her in connection with the defense.

In suits that are not brought by or in the right of the corporation, Nevada law permits a corporation to indemnify directors, officers, employees and agents for attorney s fees and other expenses, judgments and amounts paid in settlement. The person seeking indemnity may recover as long as he acted in good faith and believed his actions were either in the best interests of or not opposed to the best interests of the corporation. Similarly, the person seeking indemnification must not have had any reason to believe his conduct was unlawful. In derivative suits, a corporation may indemnify its agents for expenses that the person actually and reasonably incurred. A corporation may not indemnify a person if the person was adjudged to be liable to the corporation unless a court otherwise orders.

No corporation may indemnify a party unless it makes a determination, through its stockholders, directors or independent counsel, that the indemnification is proper.

The Cooltech Bylaws further provide that any such indemnification, unless ordered by a court or advanced pursuant to the provisions of such bylaws, shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances.

InfoSonics bylaws provide that written notice of an annual and special meeting may be served personally, by mail, by email, by leaving it at the stockholder's residence or usual place of business, or by any other means permitted under Maryland law. No business may be transacted at a special meeting except as specifically designated in the notice.

The Cooltech Bylaws provide that notice of an annual and special meeting of stockholders may be given in writing, by any means not prohibited by the provisions of Nevada statutes, including by mail, electronic delivery (including through the Internet or similar systems) or other means. Notice of a special meeting must also state the purpose for which the special meeting is called.

Quorum at Stockholder Meetings

InfoSonics bylaws provide that the presence in person or by proxy of stockholders entitled to cast a majority of all of the votes entitled to be cast at the meeting on any matter constitutes a quorum at any annual or special meeting of stockholders.

The Cooltech Bylaws provide that the presence in person or by proxy of stockholders entitled to cast a majority of all of the votes entitled to be cast at the meeting constitutes a quorum at any annual or special meeting of stockholders.

Adjournment of Stockholder Meetings

InfoSonics bylaws provide that, whether or not a quorum is present, a meeting may be adjourned to a date not more than 120 days after the original record date without notice other than announcement at the meeting, if the time and place thereof are announced at the meeting at which the adjournment is taken.

The Cooltech Bylaws provide that, whether or not a quorum is present, a majority of the stockholders present in person or by proxy may adjourn the meeting. No notice of an adjourned meeting need be given unless the adjournment is for more than 30 days or a new record date is fixed for the adjourned meeting.

Voting Rights

Under InfoSonics Charter and bylaws, each holder of InfoSonics common stock is entitled to one vote for each share of InfoSonics common stock that he or she holds as of the record date for the meeting, and each holder of Series A Convertible Preferred Stock is entitled to one vote for each share of such preferred stock that he or she holds as of the record date for the meeting. quorum is present, all matters (other than the election of directors) will be decided by the majority of all votes cast unless more than a majority of the votes cast is required by statute or by InfoSonics Charter. Under Maryland law, approval of a merger generally requires the affirmative vote of two-thirds of all votes entitled to be cast on the merger, unless a different proportion is provided in the articles of incorporation of the corporation (which will be no less than a majority of all of the votes entitled to be cast).

InfoSonics Charter provides that, with respect to any actions to be taken by the company's stockholders for which Maryland law requires a two-thirds vote to approve, such action may be taken by the affirmative vote of a majority of all of the votes entitled to be cast on the matter.

Under the MGCL and InfoSonics bylaws, any action to be taken at a meeting of the stockholders may be taken by unanimous written consent of each stockholder entitled to vote on the matter. Under InfoSonics bylaws, a unanimous written consent must set forth the action and be signed by each of the stockholders entitled to vote on the matter.

Cooltech

Under the Cooltech Bylaws, at any meeting of stockholders at which a quorum is present, all matters (other than the election of directors) will be decided by a vote of the holders of a majority of the stock having voting power present in person or represented by proxy, unless the question is one upon which by express provision of the NRS or of the articles of incorporation a different vote is required, in which case such express provision will govern and control the decision of such question.

Unless otherwise provided in a company's articles of incorporation or any resolutions of the board of directors, the NRS generally requires the affirmative vote of the holders of a majority of the outstanding shares of each class entitled to vote to approve a merger.

Under NRS Section 78.320, unless otherwise provided in a corporation's articles of incorporation or bylaws, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing setting forth the actions so taken is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

Under the Cooltech Bylaws, stockholders can act by written consent so long as such consent is signed by the holders of outstanding stock having not

As InfoSonics common stock is listed on the NASDAQ Capital Market on the record date for determining stockholders entitled to vote on the Merger, InfoSonics stockholders do not have appraisal rights with respect to the Merger.

The MGCL provides, among other procedural requirements for the exercise of the appraisal rights, that a stockholder who files with the corporation a written objection to the proposed transaction, may not vote in favor of the transaction, and must make a written demand on the successor for payment of the stockholder stock.

Unless a corporation's articles of incorporation provide otherwise, there is no right of dissent with respect to a plan of merger, conversion or exchange in favor of stockholders of any class or series which is: (i) a covered security under section 18(b)(1)(A) or (B) of the Securities Act; (ii) traded in an organized market and has at least 2,000 stockholders and a market value of at least \$20,000,000, exclusive of the value of such shares held by the corporation's subsidiaries, senior executives, directors and beneficial stockholders owning more than 10 percent of such shares; or (iii) issued by an open end management investment company registered with the Securities and Exchange Commission under the Investment Company Act of 1940 and which may be redeemed at the option of the holder at net asset value.

However, this exception does not apply if the stockholders receive in exchange for their shares anything other than cash, shares or other proprietary interest of another entity. The shares or proprietary interest must be of the surviving corporation or of another entity that is publicly listed or held by more than 2,000 stockholders.

Nevada law provides, among other procedural requirements for the exercise of the appraisal rights, that a stockholder's written demand for appraisal of shares must be received before the taking of the vote on the matter giving rise to appraisal rights, when the matter is voted on at a meeting of stockholders and that the stockholder not vote in favor of the merger or consolidation. effect of making it more difficult for a third party to acquire InfoSonics. Maryland law prohibits certain business combinations with interested stockholders, including mergers, consolidations, share exchanges, and asset transfers. An interested stockholder is anyone who beneficially owns 10% or more of the voting power of the corporation's shares or is an affiliate of the corporation who was a beneficial owner of 10% or more of the voting power of the corporation's outstanding shares within the two-year period immediately before the date in question.

Business combinations with an interested stockholder or an affiliate of the interested stockholder are prohibited for five years after the most recent date on which the interested stockholder became an interested stockholder; thereafter, except in certain circumstances, any business combination with the interested stockholder must be recommended by the board of directors of the corporation and approved by at least 80% of the shares entitled to be voted and two-thirds of the shares entitled to be voted other than those held by the interested stockholder. The business combination statute does not apply to business combinations that are approved by the corporation's board of directors before the time that the interested stockholder becomes an interested stockholder. It also does not apply to stockholders that became interested stockholders in transactions approved by the corporation's board of directors.

A corporation may opt out of the business combination statute under the MGCL,

Section 78.439 provides that business combinations are prohibited for two years after the date that the person first became an interested director, unless approved by the corporation's directors or other stockholders or unless the price and terms of the transaction meet the criteria set forth in the statute. The business combination statute does not apply to business combinations that are approved by the corporation's board of directors before the time that the interested stockholder becomes an interested stockholder. It also does not apply to stockholders that became interested stockholders in transactions approved by the corporation's board of directors.

The MGCL separately provides that holders of control shares of a Maryland corporation acquired in a control share acquisition have no voting rights with respect to the control shares except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter, excluding shares of stock owned by the acquirer, by officers of the corporation or by employees who are also directors of the corporation. Control shares are shares of stock of the corporation which, if aggregated with other shares controlled by the acquirer, would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power: one-tenth or more but less than one-third, one-third or more but less than a majority, or a majority or more of all voting power. Control shares do not include shares that the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. Generally, a control share acquisition means the acquisition of outstanding control shares. A control share acquisition does not include shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or to acquisitions approved or exempted by the articles of incorporation or bylaws of the corporation.

A corporation may opt out of the control share statute under the MGCL generally and specifically either by approving a

The NRS separately provides that holders of control shares of certain Nevada corporations acquired in a control share acquisition have no voting rights with respect to the control shares except to the extent approved by a vote of holders of a majority of the voting power of the issuing corporation, and, if the acquisition would adversely alter or change any preference or any relative or other right given to any other class or series of outstanding shares, the holders of a majority of each class or series affected, excluding those shares as to which any interested stockholder exercises voting rights. An interested stockholder means a person who directly or indirectly exercises voting rights in the shares of an issuing corporation and who is: an acquiring person, an officer or a director of the corporation, or an employee of the corporation. Control shares are outstanding voting shares of an issuing corporation which an acquiring person, and those persons acting in association with an acquiring person, acquire in an acquisition to offer to acquire in an acquisition and acquire within 90 days immediately preceding the date when the acquiring person becomes the acquiring person.

The Cooltech Bylaws provide that an amendment to the bylaws requires the affirmative vote of the holders of at least sixty-six and two-thirds (66 2/3%) of the outstanding voting power of Cooltech, voting together as a single class.

Other Anti-Takeover Provisions

Title 3, Subtitle 8 of the MGCL was enacted in 1999 specifically to address perceived abuses in unsolicited or hostile takeovers of Maryland companies (the *Maryland Unsolicited Takeover Act*). Under the Maryland Unsolicited Takeover Act, a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors may elect to be subject, by provision in its articles of incorporation or bylaws or by resolutions of its board of directors and notwithstanding any contrary provision in the articles of incorporation or bylaws, to any or all of five provisions:

Under Cooltech's articles of incorporation and bylaws, the Cooltech Board may make, alter, amend and repeal bylaws (except those that provide otherwise), and any bylaws made by the directors may be altered, amended or repealed by the directors or the stockholders, except that the affirmative vote of at least 66 2/3% of the voting power of all shares entitled to vote generally in the election of directors, voting together as a single class, is required to alter, amend or repeal or adopt a provision inconsistent with certain provisions of the bylaws relating to (i) the removal of a director, (ii) director nominations, (iii) bylaw

A Maryland corporation may elect by resolution of its board of directors or bylaw amendment either to be subject to any or all of the provisions of Title 3, Subtitle 8, or to be prohibited from electing to be subject to any or all of such provisions. InfoSonics has made no elections regarding the Maryland Unsolicited Takeover Act, though it may seek to do so in the future.

Any stockholder entitled to vote in the election of directors of a corporation may petition a court of equity to dissolve the corporation on grounds that, among other circumstances, the acts of the directors or those in control of the corporation are illegal, oppressive or fraudulent. Any stockholder or creditor of a corporation may petition a court of equity to dissolve the corporation on the grounds that the corporation is unable to meet its debts as they mature in the ordinary course of business. NO APPRAISAL RIGHTS

Appraisal rights are statutory rights that, if applicable under law, enable stockholders to dissent from an extraordinary transaction, such as a merger, and to demand that the corporation pay the fair value for their shares as determined by a court in a judicial proceeding instead of receiving the consideration offered to stockholders in connection with the extraordinary transaction.

The MGCL provides that appraisal rights are available to dissenting stockholders in connection with certain mergers, consolidations, share exchanges, transfers of assets, amendments to the articles of incorporation, business combinations and conversions. However, the MGCL does not provide for appraisal rights if: (i) the shares of the corporation are listed on a national securities exchange on the record date for determining stockholders entitled to vote on the transaction; (ii) the stock is that of a successor in a merger (unless the merger alters the contract rights of the stock or converts it into something other than stock, cash or other interests); (iii) the stock is not entitled to vote on the transaction or the stockholder did not hold the stock as of the applicable record date; or (iv) the articles of incorporation provide that holders of the stock are not entitled to exercise appraisal rights.

As InfoSonics common stock is listed on the NASDAQ Capital Market on the record date for determining stockholders entitled to vote on the Merger, InfoSonics stockholders do not have appraisal rights with respect to the Merger.

At various times over the last several years we have faced potential delisting from the NASDAQ Stock Market for failure to maintain the minimum \$1.00 bid price per share requirement for continued listing. On May 2, 2017 we received notification from NASDAQ that on May 11, 2017 our common stock would be delisted and trading suspended unless we requested an appeal. On May 4, 2017, we requested an oral hearing before the NASDAQ Hearings Panel (the Panel) to appeal the NASDAQ staff's delisting determination, which hearing was held on June 1, 2017. We presented a plan to the Panel to regain compliance with the minimum bid price requirement which included the Merger and a reverse stock split, and requested a further extension of time to execute the plan. On June 6, 2017, we received a letter from the NASDAQ Office of General Counsel advising us of the decision of the Panel to grant the Company an extension of time until October 30, 2017. On October 10, 2017, we effected a one-for-five reverse stock split of our common stock in order to maintain our NASDAQ listing prior to completion of the Merger and we intend to continue to closely monitor the bid price of our stock in light of the Merger. NASDAQ Listing Rule 5110(a) requires that because the Merger with Cooltech (a non-NASDAQ entity) will result in a change of control, we must submit an initial listing application for the post-Merger entity, which would require us to comply with a higher minimum bid price requirement of \$4.00 per share and necessitate a larger or additional reverse stock split. If our common stock were to be delisted from the NASDAQ Capital Market, trading of our common stock most likely would be conducted in the over-the-counter market on an electronic bulletin board established for unlisted securities such as OTC Pink, OTCQX, OTCQB or the OTC Bulletin Board. Such trading would reduce the market liquidity of our common stock. As a result, an investor would find it more difficult to dispose of, or obtain accurate quotations for the price of, our common stock, thereby negatively impacting the share price of our common stock.

Under Section 92A.390 of the NRS and Cooltech's charter documents, holders of shares of Cooltech's common stock will not be entitled to statutory rights of appraisal, commonly referred to as dissenters' rights or appraisal rights (i.e., the right to seek a judicial determination of the fair value of their shares and to compel the purchase of their shares for cash in that amount) with respect to the Merger.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

InfoSonics Corporation

San Diego, California

We have audited the accompanying consolidated balance sheets of InfoSonics Corporation and subsidiaries (collectively, the Company) as of December 31, 2016 and 2015, and the related consolidated statements of operations and comprehensive loss, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2016. Our audits also included the financial statement schedule of InfoSonics Corporation and subsidiaries listed in Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of InfoSonics Corporation and subsidiaries as of December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Table of Contents**NOTE 1 ORGANIZATION AND LINE OF BUSINESS**

InfoSonics Corporation (InfoSonics) was incorporated in February 1994 in the state of California and reincorporated in September 2003 in the state of Maryland. InfoSonics and its subsidiaries, InfoSonics Latin America, Inc., InfoSonics de Mexico S.A. de C.V., InfoSonics de Guatemala S.A., InfoSonics El Salvador S.A. de C.V., verykool USA, Inc., InfoSonics de Panama, verykool Hong Kong Limited, and verykool Wireless Technology Limited (collectively, the Company), define, source and sell wireless telecommunication products and accessories to wireless carriers and distributors. The Company markets its branded products throughout Latin America.

NOTE 2 R&D EXPENSE

From 2010 through 2014, the Company had an in-house design team in China to develop certain of its products, including its ruggedized line of xTreme products. However, in 2014, the design team was phased out and shut down after all of its internal development projects were completed. R&D expense in 2014 was \$588,000 and there were no R&D expenses during 2015 or 2016.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*Principles of Consolidation*

The Consolidated Financial Statements include the accounts of InfoSonics and its wholly owned subsidiaries as listed in Note 1. All significant intercompany accounts and transactions are eliminated in consolidation.

Revenue Recognition and Allowance for Returns

Revenues for wireless handset and accessory sales are recognized when (i) shipment of the products to customers has occurred and title has passed, (ii) collection of the outstanding receivables are probable and (iii) the final price of the product is determined, which occurs at the time of shipment or delivery, depending on terms of sale. Sales are recorded net of discounts, rebates, cooperative marketing arrangements, returns and allowances. On select sales, the Company may agree to cooperative arrangements wherein the Company agrees to fund future marketing programs related to the products purchased by the customer. Such arrangements are usually agreed to in advance. The amount of the co-op allowance is recorded as a reduction of the sale and added to accrued expenses as a current liability. Subsequent expenditures made pursuant to the arrangements reduce this liability. To the extent the Company incurs costs in excess of the established cooperative fund, the Company recognizes the amount as a selling or marketing expense. As part of the sales process, the Company may perform certain value-added services such as programming, software loading and quality assurance testing. These value-added services are considered an ancillary component of the sales process and amounts attributable to these processes are included in the unit cost to the customer. Furthermore, these value-added services are related to services prior to the shipment of the products, and no value-added services are provided after delivery of the products. The Company recognizes as a reserve against the related receivables estimates for product returns based on historical experience and other judgmental factors, evaluates these estimates on an ongoing basis and adjusts its estimates each period based on actual product return activity. The Company recognizes freight costs billed to its customers in net sales and actual freight costs incurred as a component of cost of sales.

Foreign Currency Transactions

Certain of the Company's foreign subsidiaries have a functional currency that is not the U.S. Dollar. Assets and liabilities of such subsidiaries are translated to U.S. Dollars using exchange rates in effect at the balance sheet dates.

Revenues and expenses are translated at average exchange rates in effect during the period. Translation adjustments are included in stockholders' equity in the accompanying consolidated balance sheets as a component of accumulated other comprehensive loss.

Table of Contents

Comprehensive Income (Loss)

Comprehensive income (loss) as defined by U.S. generally accepted accounting principles (GAAP) includes all changes in equity (net assets) during a period from non-owner sources. The Company's comprehensive loss includes foreign currency translation adjustments, which are excluded from net income (loss) and are reported as a separate component of stockholders' equity as accumulated other comprehensive loss.

Cash and Cash Equivalents

For consolidated financial statement purposes, cash equivalents are defined as investments which have an original maturity of ninety days or less from the original date of purchase. Cash and cash equivalents consist of cash on hand and in banks. The Company maintains its cash and cash equivalents balances in banks that from time to time exceed amounts insured by the Federal Deposit Insurance Corporation. As of December 31, 2016 and 2015, the Company maintained deposits totaling \$1.9 million and \$2.2 million, respectively, with certain financial institutions in excess of federally insured amounts. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Trade Accounts Receivable

The Company provides for the possible inability to collect accounts receivable by recording an allowance for doubtful accounts. The Company writes off an account when it is considered to be uncollectible. The Company evaluates the collectability of its accounts receivable on an ongoing basis. In circumstances where the Company is aware of a specific customer's inability to meet its financial obligations, the Company records a specific allowance against amounts due to reduce the net recognized receivable to the amount the Company reasonably believes will be collected. For all other customers, the Company recognizes allowances for doubtful accounts based on the length of time the receivables are past due, the current business environment and the Company's historical experience. The allowance for doubtful accounts was \$113,000 and \$95,000 at December 31, 2016 and 2015, respectively.

Inventory

Inventory is stated at the lower of cost (first-in, first-out) or market and consists primarily of wireless phones and wireless phone accessories. The Company writes down its inventory when it is estimated to be excess or obsolete. As of December 31, 2016 and 2015, the inventory was net of write-downs of \$84,000 and \$276,000, respectively. From time to time, the Company has prepaid inventory as a result of deposit payments for products which have not been received by the balance sheet date. As of December 31, 2016 and 2015, the prepaid inventory balances included in prepaid assets were \$1,112,000 and \$1,232,000, respectively.

Property and Equipment

Property and equipment are stated at cost. The Company provides for depreciation using the straight-line method over estimated useful lives of eighteen months to seven years. Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains or losses on the sale of property and equipment are reflected in the statements of operations.

Fair Value of Financial Instruments

The Company measures its financial instruments in its financial statements at fair value or amounts that approximate fair value. The Company maximizes the use of observable inputs and minimizes the use of unobservable inputs when

developing fair value measurements. When available, the Company uses quoted market prices to measure fair value. If market prices are not available, fair value measurement is based upon models that use primarily market-based or independently-sourced market parameters. If market observable

F-7

Table of Contents

inputs for model-based valuation techniques are not available, the Company makes judgments about assumptions market participants would use in estimating the fair value of the financial instrument. Carrying values of cash and cash equivalents, accounts receivable, prepaid expenses, accounts payable, and accrued expenses approximate their fair values due to the short-term nature and liquidity of these financial instruments.

Accounting for the Impairment of Long-Lived Assets

The Company records impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. Management determined that there was no impairment of long-lived assets during the years ended December 31, 2016, 2015 and 2014.

Stock-Based Compensation

The Company's share-based compensation plans are described in Note 9. The Company measures compensation cost for all employee stock-based awards at fair value on the date of grant and recognizes compensation expense, net of estimated forfeitures, over the requisite service period, usually the vesting period. Equity instruments issued to non-employees for goods or services are accounted for at fair value and are marked to market until service is complete or a performance commitment date is reached, whichever is earlier. The fair value of stock options is determined using the Black-Scholes valuation model.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which do not have vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options.

Advertising Expense

The Company expenses all advertising costs, including direct response advertising, as they are incurred. Advertising expense for the years ended December 31, 2016, 2015 and 2014 was \$252,000, \$992,000 and \$745,000, respectively.

Income Taxes

The Company recognizes deferred tax assets and liabilities for the future consequences of events that have been recognized in the Company's financial statements or tax returns. The measurement of the deferred items is based on enacted tax laws. In the event the future consequences of differences between financial reporting bases and the tax bases of the Company's assets and liabilities result in a deferred tax asset, the Company performs an evaluation of the probability of being able to realize the future benefits indicated by such asset. A valuation allowance related to a deferred tax asset is recorded when it is more likely than not that some portion or the entire deferred tax asset will not be realized.

In addition, the Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination. The amount recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Company recognizes interest and penalties related to tax uncertainties as operating expenses.

Based on our evaluation, the Company has concluded that there are no significant uncertain tax positions requiring recognition in its financial statements.

Table of Contents

The Company is subject to U.S. federal income tax as well as to income tax of multiple state and foreign country jurisdictions. Federal income tax returns of the Company are subject to IRS examination for the 2004 through 2016 tax years. State income tax returns are subject to examination for a period of three to four years after filing.

Earnings (Loss) Per Share

The Company computes basic earnings (loss) per share by dividing income (loss) available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings (loss) per share is computed similarly to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would be issued assuming exercise of outstanding stock options. In periods when a net loss is incurred, no additional shares are included in the computation of diluted loss per share because the effect of inclusion would be anti-dilutive.

Common shares from exercise of certain options are excluded from the computation of diluted earnings per share when their exercise prices are greater than the Company's weighted-average stock price for the period. For the years ended December 31, 2016 and 2015, the number of such shares excluded was 514,000 and 20,000, respectively. No such shares were excluded for the year ended December 31, 2014. In addition, because their effect would have been anti-dilutive to the loss calculation, common shares from exercise of in-the-money options for the years ended December 31, 2016 and 2015 of 562,000 and 1,237,000, respectively, have also been excluded from the computation of net loss per share.

Geographic Reporting

The Company allocates revenues to geographic areas based on the location to which the product was shipped.

Estimates and Assumptions

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Major Suppliers

The Company contracts with various suppliers. Although there are a limited number of suppliers that could supply the Company's inventory, management believes any shortfalls from existing suppliers might be absorbed from other suppliers on comparable terms; however, there are no assurances of such other suppliers providing products on acceptable terms. Furthermore, a change in suppliers could cause a delay in sales and adversely affect results.

During the year ended December 31, 2016, the Company's three largest suppliers accounted for 42%, 19% and 17%, respectively, of total cost of sales. During the year ended December 31, 2015, the Company's three largest suppliers accounted for 16%, 15% and 12%, respectively, of total cost of sales. During the year ended December 31, 2014, the Company's three largest suppliers accounted for 38%, 14% and 12%, respectively, of total cost of sales.

Concentrations of Credit Risk, Customers and Suppliers

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash equivalents and accounts receivable. We maintain our cash and cash equivalents with various

Table of Contents

high-credit-quality financial institutions located primarily in the United States. Currently, the Company's cash balances are kept primarily in demand accounts at these banks, but the Company may periodically invest excess cash in certificates of deposit or money market accounts in order to maintain safety and liquidity. The Company's investment strategy generally results in lower yields on investments but reduces the risk to principal in the short term prior to these funds being used in its business. The Company has not experienced any material losses on financial instruments held at financial institutions.

The Company has historically sold its products primarily to wireless network carriers throughout Latin America, as well as to distributors and value added resellers, or VARs. The Company provides credit to its customers in the normal course of business and generally requires no collateral. Credit risk with respect to accounts receivable is generally concentrated due to the small number of entities comprising the Company's overall customer base. The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses based upon the Company's historical experience related to credit losses and any unusual circumstances that may affect the ability of its customers to meet their obligations. The Company's bad debt expenses have not been significant relative to its total revenues.

In 2016, four customers represented 10% or more of the Company's total net sales. Those top four customers accounted for 20%, 19%, 14% and 14%, respectively, of total net sales and represented 32%, 0%, 2% and 30%, respectively, of accounts receivable at December 31, 2016. One additional customer represented 14% of accounts receivable at December 31, 2016. In both 2015 and 2014, three customers represented 10% or more of the Company's total net sales. The top three customers in 2015 accounted for 18%, 15% and 10%, respectively, of total net sales and represented 35%, 16% and 16%, respectively, of accounts receivable at December 31, 2015. The top three customers in 2014 accounted for 25%, 13% and 11%, respectively, of total net sales and represented 25%, 19% and 14%, respectively, of accounts receivable at December 31, 2014.

For its *verykool*[®] products, the Company contracts with a number of OEM suppliers, design houses and contract manufacturers. In 2016, the Company purchased products from 18 manufacturers, with the top three representing 42%, 19% and 17%, respectively, of cost of sales. Although each may supply a somewhat differentiated product or service, management believes any shortfalls from existing suppliers can be absorbed by other suppliers on comparable terms. However, there are no assurances this can be achieved, and a change in suppliers could cause a delay in product shipments and sales and adversely affect results.

*Recently Issued Accounting Pronouncements**Issued (Not adopted yet):*

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, this guidance requires that entities disclose the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers—Principal versus Agent Considerations (Reporting revenue gross versus net), which clarifies gross versus net revenue reporting when another party is involved in the transaction. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers—Identifying Performance Obligations and Licensing, which amends the revenue guidance on identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers—Narrow-Scope Improvements and Practical Expedients, which provides narrow-scope improvements to the guidance on collectability, non-cash

consideration, and completed contracts at transition. In December 2016, the FASB issued ASU 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers, which amended the guidance on performance obligation disclosures and makes technical corrections and improvements to the new revenue standard. The standard is

effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, and permits early adoption on a limited basis. The update permits the use of either the retrospective or cumulative effect transition method. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements as well as the expected adoption method.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements Going Concern (Subtopic 205-40) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This ASU requires management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the ASU (1) provides a definition of the term substantial doubt, (2) requires an evaluation every reporting period, including interim periods, (3) provides principles for considering the mitigating effect of management's plans, (4) requires certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) requires an express statement and other disclosures when substantial doubt is not alleviated, and (6) requires an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). This standard is effective for the fiscal years ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. We do not expect the adoption of this new guidance to have an impact on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which revises the accounting related to lessee accounting. Under the new guidance, lessees will be required to recognize a lease liability and a right-of-use (ROU) asset for all leases. For finance leases the lessee would recognize interest expense and amortization of the ROU asset and for operating leases the lessee would recognize a straight-line total lease expense. The new lease guidance also simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. ASU 2016-02 is effective for annual and interim reporting periods within those years beginning after December 15, 2018 and early adoption is permitted. This update should be applied through a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The Company is currently evaluating the new guidance to determine the impact it will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-05, Derivatives and Hedging (Topic 815), which clarifies that a change in the counterparty to a derivative instrument that has been designed as a hedging instrument under Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. ASU 2016-05 is effective for annual and interim reporting periods within those years beginning after December 15, 2016 and early adoption is permitted. This update should be applied either on a prospective basis or through a modified retrospective basis. We do not expect the adoption of this new guidance to have an impact on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation—Stock Compensation (Topic 718), which simplifies several aspects of the accounting for share-based payments, including immediate recognition of all excess tax benefits and deficiencies in the income statement, changing the threshold to qualify for equity classification up to the employees' maximum statutory tax rates, allowing an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures as they occur, and clarifying the classification on the statement of cash flows for the excess tax benefit and employee taxes paid when an employer withholds shares for tax-withholding purposes. ASU 2016-09 is effective for annual and interim reporting periods within those years beginning after December 15, 2016 and early adoption is permitted. This update should be applied through the following methods: 1) a modified retrospective transition approach as related to the timing of when tax benefits are recognized, minimum statutory withholding requirements, forfeitures, and intrinsic value, 2) retrospectively as related to the presentation of employee taxes paid on the statement of cash flows when an employer withholds shares to meet the minimum statutory withholding requirement, 3) prospectively as related to the recognition of excess tax benefits

and tax deficiencies in the

F-11

income statement and the practical expedient for estimating expected term and 4) either prospective transition method or a retrospective transition method as related to the presentation of excess tax benefits on the statement of cash flows. We do not expect the adoption of this new guidance to have an impact on the Company's consolidated financial statements.

Other Accounting Standards Updates not effective until after December 31, 2016 are not expected to have a material effect on the Company's financial position or results of operations.

NOTE 5 FOREIGN EXCHANGE HEDGING FACILITY

On January 14, 2016, the Company entered into an Agreement for Purchase and Sale of Foreign Securities (the "FS Agreement") with Silicon Valley Bank ("SVB"). Under the FS Agreement, the Company and SVB can enter into foreign currency spot contracts, forward contracts, forward window contracts and options to manage the Company's foreign currency risk. On January 20, 2016, the Company entered into forward contracts designated as cash flow hedges to protect against the foreign currency exchange rate risk of the Mexican Peso inherent in its forecasted net sales and cash collections from customers in Mexico. The hedges matured on a monthly basis through June 30, 2016. Changes in the fair value of the hedges were initially recorded in accumulated other comprehensive loss as a separate component of stockholders' equity in the Consolidated Balance Sheet and subsequently reclassified into earnings as other income (loss) on the Consolidated Statement of Operations and Comprehensive Income (Loss) in the period in which the hedge matured. During the year ended December 31, 2016, the Company recorded \$325,000 of losses on forward contracts that matured during the year. No such contracts were outstanding at December 31, 2016.

The Credit Facility, which is secured by substantially all of the Company's assets, contains representations and warranties, affirmative, restrictive and financial covenants, and events of default which are customary for credit facilities of this type, has since been subjected to seven amendments and currently provides for a maximum borrowing availability under the Credit Facility of \$3 million. It also provides for a \$2 million sublimit which enables the Company to borrow against its Mexican

Peso deposits held at the Bank at a 70% advance rate. Borrowings under the Credit Facility bear interest based on the face amount of financed receivables at the prime rate plus 4.5% for domestic receivables and 3.53% for foreign receivables, or, in the case of Mexican Peso borrowings, at the prime rate based on the borrowed amount. At December 31, 2016, the Company was in compliance with all covenants, no amounts were drawn against the Credit Facility and \$3 million was available for borrowing under the credit line. The maturity date of the Credit Facility is September 27, 2017.

Table of Contents**NOTE 9 STOCKHOLDERS EQUITY***Preferred Stock*

The Company has authorized the issuance of 10,000,000 shares of preferred stock, which may be issued from time to time in one or more series by the Board of Directors. In addition, the Board is authorized to set the rights, preferences, privileges and restrictions of these shares, including dividends rights, conversion rights, voting rights and liquidation preferences. These shares may have rights senior to those of the Company's common stock holders. As of December 31, 2016 and 2015, the Company did not have any preferred shares outstanding.

Common Stock

The Company has authorized the issuance of 40,000,000 shares of common stock. As of both December 31, 2016 and 2015, a total of 14,388,728 shares were outstanding.

Stock Options

The Company has two stock-based compensation plans: the 2006 Equity Incentive Plan (2006 Plan) and the 2015 Equity Incentive Plan (2015 Plan), both of which were approved by our stockholders. As of December 31, 2016, options to purchase 810,000 and 265,000 shares were outstanding under the 2006 Plan and the 2015 Plan, respectively, and a total of 1,080,000 shares were available for grant under the 2015 Plan. No options or other equity awards are available for grant under the 2006 Plan.

The 2015 Plan was approved by stockholders in June 2015, with 1,205,749 shares of the Company's common stock authorized for issuance thereunder. Shares subject to outstanding options under the 2006 Plan that cease to be subject to such options, such as by expiration or forfeiture, also become available for issuance under the 2015 Plan, up to an aggregate maximum of 958,668 shares. The 2015 Plan is intended to provide incentives to key employees, officers, directors and consultants who provide significant services to the Company. The exercise price is determined by the Compensation Committee, but must be at least equal to the fair market value of the common stock on the date of grant of such option. The Compensation Committee also establishes the vesting schedule for each option granted and the term of each option, which cannot exceed 10 years from the date of grant. In the event of termination, vested options generally must be exercised within three months. In a change of control, if outstanding awards under the 2015 Plan are assumed or substituted by a successor company, such awards do not automatically fully vest but may become fully vested in the event of a qualifying termination following such change of control. Outstanding options granted under the 2006 Plan provide 100% vesting upon a change of control of the Company.

The Company's stock options vest on an annual or a monthly basis. The Company recognizes stock-based compensation expense on a straight-line basis over the requisite service period of the award, which is generally the option vesting term. Options granted generally vest over a two-year or three-year period. Income tax effects of share-based payments are recognized in the financial statements for those awards which will normally result in tax deductions under existing tax law. Under current U.S. federal tax law, we would receive a compensation expense deduction related to non-qualified stock options only when those options are exercised and vested shares are received. Accordingly, the financial statement recognition of compensation expense for non-qualified stock options creates a deductible temporary difference which results in a deferred tax asset and a corresponding deferred tax benefit in the income statement.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in 2015 and 2014: risk-free interest rates of 1.94% and

1.56%, respectively, based on the U.S. Treasury yields in effect at the time of grant; expected dividend yields of 0% as the Company has not, and does not intend to, issue dividends; and expected lives of 4 to

Table of Contents

6 years based upon the historical life of the Company's options. For grants in 2015 and 2014, the expected volatility used ranged from 93.41% to 96.65% based on the Company's historical stock price fluctuations for a period matching the expected life of the options. No stock options were granted during 2016.

A summary of stock option activity for the year ended December 31, 2016 is as follows (shares and aggregate intrinsic value in thousands):

As of December 31, 2016, the Company does not expect any material changes to unrecognized tax positions within the next twelve months.

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company has recorded a full valuation allowance against its deferred tax assets, as realization of such assets is uncertain based on the Company's history of operating losses. Significant components of deferred tax assets and liabilities are shown below (in thousands):

	December 31,	
	2016	2015

At December 31, 2016, the Company had federal and state net operating loss carryforwards of approximately \$12,387,000 and \$14,492,000, respectively. The federal and state net operating loss carryforwards begin to expire in 2027 and 2017, respectively.

Included in the net operating loss carryforward balances noted above are approximately \$2,431,000 and \$1,067,000, for federal and state purposes, respectively, which are attributed to the exercise of non-qualified stock options for which the tax effect will be a component of the Company's Additional Paid in Capital.

Pursuant to Internal Revenue Code Section 382, use of the Company's net operating loss carryforwards will be limited if a cumulative change in ownership of more than 50% occurs within a three-year period.

Following the Company's adoption on January 1, 2007 of ASC 740-10 regarding accounting for uncertainty in income taxes, the Company made a comprehensive review of its portfolio of uncertain tax positions in accordance with the guidance. In this regard, an uncertain tax position represents the Company's expected treatment of a tax position taken in a filed tax return, or planned to be taken in a future tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. As a result of that review, the Company concluded there were no uncertain

tax positions and no cumulative effect on retained earnings at the time of adoption. Subsequent to that date of adoption through December 31, 2016, the Company has continued to evaluate its tax positions and concluded that it has not had any material uncertain tax positions.

InfoSonics Corporation
Condensed Notes to Consolidated Financial Statements

June 30, 2017

(unaudited)

NOTE 1. Basis of Presentation

The accompanying unaudited consolidated financial statements and these condensed notes have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934, as amended (the Exchange Act). Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. The preparation of financial statements requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results are likely to differ from those estimates, but management does not believe such differences will materially affect the financial position or results of operations of InfoSonics Corporation (the Company), although they may. These unaudited consolidated financial statements and condensed notes should be read in conjunction with the financial statements and notes as of and for the year ended December 31, 2016 included in the Company s Annual Report on Form 10-K for such year.

The Company s consolidated financial statements include assets, liabilities and operating results of its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, these unaudited consolidated financial statements reflect all normal recurring adjustments considered necessary to fairly present the Company s results of operations, financial position and cash flows as of June 30, 2017 and for all periods presented. The results reported in these consolidated financial statements for the three and six months ended June 30, 2017 are not necessarily indicative of the operating results, financial condition or cash flows that may be expected for the full fiscal year of 2017 or for any future period.

NOTE 2: Going Concern Considerations

Effective January 1, 2017, the Company adopted the guidance issued by the FASB under ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity s Ability to Continue as a Going Concern. This update provides U.S. GAAP guidance on management s responsibility in evaluating whether there is substantial doubt about a company s ability to continue as a going concern and about related footnote disclosures. Under this standard, the Company is required to evaluate whether there is substantial doubt about its ability to continue as a going concern each reporting period, including interim periods.

In evaluating the Company s ability to continue as a going concern, management considered the conditions and events that could raise substantial doubt about the Company s ability to continue as a going concern for 12 months following August 11, 2017, the date the Company s financial statements were issued. Management considered the Company s current financial condition and liquidity sources, including current funds available, forecasted future cash flows and the Company s conditional and unconditional obligations due before August 11, 2018. Management also considered expenses the Company expects to incur in connection with the pending Cooltech Merger transaction discussed in Note 15. Management believes that such expenses will be adequately covered by the \$1 million of proceeds received from the sale of shares of Company common stock on August 2, 2017, which proceeds were intended to be used by the

Company to pay for transaction expenses and for other general corporate purposes.

The Company has incurred operating losses and used cash for operating activities for the past two years, and the Company's ability to borrow against its accounts receivable line of credit was terminated on March 24, 2017.

F-22

Table of Contents

The Company has continued to keep operating expenses at a reduced level; however, there can be no assurance that the Company's current level of operating expenses will not increase or that other uses of cash will not be necessary. The Company believes that based on its current level of operating expenses, its currently available cash resources together with the ability to factor receivables if needed, it will have sufficient funds available to cover operating cash needs through the twelve month period from the financial statement reporting date. Based on the above factors, management determined there is no substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued.

NOTE 3. Stock-Based Compensation

The Company has two stock-based compensation plans: the 2006 Equity Incentive Plan (2006 Plan) and the 2015 Equity Incentive Plan (2015 Plan), both of which were approved by our stockholders. As of June 30, 2017, options to purchase 810,000 and 256,000 shares were outstanding under the 2006 Plan and the 2015 Plan, respectively, and a total of 1,089,000 shares were available for grant under the 2015 Plan. No options are available for grant under the 2006 Plan.

The Company's stock options vest on an annual or a monthly basis. Stock options generally are exercisable for up to seven years after grant, subject to continued employment or service. The Company recognizes stock-based compensation expense on a straight-line basis over the requisite service period of the award, which is generally the option vesting term. Such amount may change as a result of additional grants, forfeitures, modifications in assumptions and other factors. Income tax effects of share-based payments are recognized in the financial statements for those awards which will normally result in tax deductions under existing tax law. During the three and six months ended June 30, 2017, we recorded an expense of \$36,000 and \$76,000, respectively, related to options previously granted. During the three and six months ended June 30, 2016, we recorded an expense of \$78,000 and \$155,000, respectively, related to options previously granted. Under current U.S. federal tax law, we receive a compensation expense deduction related to non-qualified stock options only when those options are exercised and vested shares are received. Accordingly, the financial statement recognition of compensation expense for non-qualified stock options creates a deductible temporary difference that results in a deferred tax asset and a corresponding deferred tax benefit in our consolidated statements of operations.

During the six months ended June 30, 2017 and 2016, the Company did not grant any stock options. As of June 30, 2017, there was \$50,000 of total unrecognized compensation expense related to non-vested stock options. That expense is expected to be recognized over the remaining weighted-average period of 0.42 years.

A summary of option activity under both the 2006 Plan and the 2015 Plan as of June 30, 2017 and changes during the six months then ended is presented in the table below (shares in thousands):

NOTE 4. Earnings Per Share

Basic earnings per share are computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings per share are computed similarly to basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential additional common shares that were dilutive had been issued. Common share equivalents are excluded from the computation if their effect is anti-dilutive. The Company's common share equivalents consist of stock options.

Common shares from the potential exercise of certain options are excluded from the computation of diluted earnings (loss) per share if their exercise prices are greater than the Company's average stock price for the period. For both the three and six month periods ended June 30, 2017, the number of such shares excluded was 1,066,000. For both the three and six month periods ended June 30, 2016, the number of such shares excluded was 551,000. In addition, because their effect would have been anti-dilutive, common shares from exercise of 571,000 in-the-money options for both the three and six month periods ended June 30, 2016 were excluded from the computation of net loss per share. No such shares were excluded for both the three and six month periods ended June 30, 2017.

NOTE 5. Income Taxes

The Company made a comprehensive review of its portfolio of uncertain tax positions in accordance with applicable standards of the Financial Accounting Standards Board (FASB). In this regard, an uncertain tax position represents the Company s expected treatment of a tax position taken in a filed tax return, or planned to be taken in a future tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. As a result of this review, the Company concluded that at this time there are no uncertain tax positions, and there has been no cumulative effect on retained earnings.

F-24

Table of Contents

The Company is subject to U.S. federal income tax as well as income tax in multiple states and foreign jurisdictions. For all major taxing jurisdictions, the tax years 2004 through 2016 remain open to examination or re-examination. As of June 30, 2017, the Company does not expect any material changes to unrecognized tax positions within the next twelve months.

The Company recognizes the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in our financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could materially impact the Company's financial position or results of operations. For the three and six months ended June 30, 2017, deferred income tax assets and the corresponding valuation allowances increased by \$320,000 and \$541,000, respectively.

NOTE 6. Inventory

Inventory is stated at the lower of cost (first-in, first-out) or market and consists primarily of cellular phones and cellular phone accessories. The Company records a reserve against inventories to account for obsolescence and possible price concessions required to liquidate inventories below cost. During the six months ended June 30, 2017, the inventory reserve balance was increased by \$58,000. As of June 30, 2017 and December 31, 2016, the inventory reserve was \$142,000 and \$84,000, respectively. From time to time, the Company has prepaid inventory as a result of payments for products which have not been received by the balance sheet date. As of June 30, 2017 and December 31, 2016, the prepaid inventory balances were \$781,000 and \$1,112,000, respectively, which are included in prepaid assets in the accompanying consolidated balance sheets. Inventory consists of the following (in thousands):

NOTE 9. Line of Credit

The Company is party to a Loan and Security Agreement and an attendant Intellectual Property Security Agreement (collectively the Agreement) with Silicon Valley Bank (SVB or the Bank) which is secured by substantially all of the Company's assets. The Agreement contains representations and warranties, affirmative and restrictive covenants, and events of default which are customary for credit facilities of this type. The Agreement originally provided the Company with the ability to borrow against both its domestic and foreign eligible accounts receivable based on specified advance rates. It was then augmented in October 2016 to provide for a \$2 million sublimit that enabled the Company to borrow against its Mexican peso deposits held at the Bank at a 70% advance rate with such borrowings bearing interest at the prime rate. In March 2017, due to the Company's continuing losses, the Agreement was amended to eliminate the Company's ability to borrow against its accounts receivable and all related financial covenants were removed. At June 30, 2017, the Company was in compliance with all its non-financial covenants under the Agreement and no amounts were drawn against the credit facility, which matures on September 27, 2017.

NOTE 10. Foreign Exchange Hedging Facility

On January 14, 2016, the Company entered into an Agreement for Purchase and Sale of Foreign Securities (the FS Agreement) with SVB. Under the FS Agreement, the Company and SVB can enter into foreign currency spot contracts, forward contracts, forward window contracts and options to manage the Company's foreign currency risk. On January 20, 2016, the Company entered into forward contracts designated as cash flow hedges to protect against the foreign currency exchange rate risk of the Mexican peso inherent in its forecasted net sales and cash collections from customers in Mexico. The hedges matured on a monthly basis through June 30, 2016. Changes in the fair value of the hedges were initially recorded in accumulated other comprehensive loss as a separate component of stockholders' equity in the Consolidated Balance Sheet and subsequently reclassified into earnings as other income (loss) on the Consolidated Statement of Operations and Comprehensive Income (Loss) in the period in which the hedge matured. During the three and six months ended June 30, 2016, the Company recorded a losses of \$157,000 and \$325,000, respectively, on forward contracts that matured during the periods. During the three months ended March 31, 2017, the Company recorded a loss of \$12,000 on a peso option that it purchased in January 2017 and subsequently sold in February 2017. No such losses were recorded during the three months ended June 30, 2017 and no foreign exchange hedging instruments were outstanding under the FS Agreement at June 30, 2017.

NOTE 11. Recent Accounting Pronouncements

Recently Adopted:

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-15, Presentation of Financial Statements Going Concern (Subtopic 205-40) Disclosure of

F-26

Table of Contents

Uncertainties about an Entity's Ability to Continue as a Going Concern. This ASU requires management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the ASU (1) provides a definition of the term substantial doubt, (2) requires an evaluation every reporting period, including interim periods, (3) provides principles for considering the mitigating effect of management's plans, (4) requires certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) requires an express statement and other disclosures when substantial doubt is not alleviated, and (6) requires an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). This standard was effective for the fiscal years ending after December 15, 2016, and for annual periods and interim periods thereafter. As discussed in Note 2 above, the Company adopted this guidance effective January 1, 2017, which adoption did not have an impact on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-05, Derivatives and Hedging (Topic 815), which clarifies that a change in the counterparty to a derivative instrument that has been designed as a hedging instrument under Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. ASU 2016-05 was effective for annual and interim reporting periods within those years beginning after December 15, 2016, with application either on a prospective basis or through a modified retrospective basis. The Company adopted this guidance effective January 1, 2017, which adoption did not have an impact on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation—Stock Compensation (Topic 718), which simplifies several aspects of the accounting for share-based payments, including immediate recognition of all excess tax benefits and deficiencies in the income statement, changing the threshold to qualify for equity classification up to the employees' maximum statutory tax rates, allowing an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures as they occur, and clarifying the classification on the statement of cash flows for the excess tax benefit and employee taxes paid when an employer withholds shares for tax-withholding purposes. ASU 2016-09 was effective for annual and interim reporting periods within those years beginning after December 15, 2016. This update should be applied through the following methods: 1) a modified retrospective transition approach as related to the timing of when tax benefits are recognized, minimum statutory withholding requirements, forfeitures, and intrinsic value, 2) retrospectively as related to the presentation of employee taxes paid on the statement of cash flows when an employer withholds shares to meet the minimum statutory withholding requirement, 3) prospectively as related to the recognition of excess tax benefits and tax deficiencies in the income statement and the practical expedient for estimating expected term and 4) either prospective transition method or a retrospective transition method as related to the presentation of excess tax benefits on the statement of cash flows. The Company adopted this guidance effective January 1, 2017, which adoption did not have an impact on the Company's consolidated financial statements.

Issued (Not adopted yet):

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, this guidance requires that entities disclose the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers—Principal versus Agent Considerations (Reporting revenue gross versus net), which clarifies gross versus net revenue reporting when another party is involved in the transaction. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers—Identifying Performance Obligations and Licensing, which amends the revenue guidance on identifying performance obligations and accounting for licenses of intellectual property. In

May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers Narrow-Scope Improvements and Practical Expedients, which provides narrow-

F-27

Table of Contents

scope improvements to the guidance on collectability, non-cash consideration, and completed contracts at transition. In December 2016, the FASB issued ASU 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers, which amended the guidance on performance obligation disclosures and makes technical corrections and improvements to the new revenue standard. The standard is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, and permits early adoption on a limited basis. The update permits the use of either the retrospective or cumulative effect transition method. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements as well as the expected adoption method.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which revises the accounting related to lessee accounting. Under the new guidance, lessees will be required to recognize a lease liability and a right-of-use (ROU) asset for all leases. For finance leases the lessee would recognize interest expense and amortization of the ROU asset and for operating leases the lessee would recognize a straight-line total lease expense. The new lease guidance also simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. ASU 2016-02 is effective for annual and interim reporting periods within those years beginning after December 15, 2018 and early adoption is permitted. This update should be applied through a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The Company is currently evaluating the new guidance to determine the impact it will have on its consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, Compensation-Stock Compensation (Topic 718), Scope of Modification Accounting. ASU 2017-09 clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions or the classification of the award changes as a result of the change in terms or conditions. The guidance is effective prospectively for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years, and early adoption is permitted. The Company does not expect the adoption of this new guidance to have a material impact on the Company's consolidated financial statements.

Other accounting standards updates effective after June 30, 2017 are not expected to have a material effect on our consolidated financial statements.

NOTE 12. Geographic Information

Table of Contents**NOTE 13. Commitments and Contingencies**

The Company has in the past and may in the future become involved in certain legal proceedings and claims which arise in the normal course of business. As of the filing date of this report, the Company did not have any significant litigation outstanding.

NOTE 14. Fair Value of Financial Instruments

The FASB accounting guidance requires disclosure of fair value information about financial instruments, whether or not recognized in the accompanying consolidated balance sheets. Fair value as defined by the guidance is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value estimates of financial instruments are not necessarily indicative of the amounts we might pay or receive in actual market transactions. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts. Effective April 1, 2008 the Company adopted and follows ASC 820, Fair Value Measurements and Disclosures (ASC 820), which established a fair value hierarchy that requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instruments categorization within the hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The Company's cash, cash equivalents and forward contracts used to hedge foreign currency risk are measured at fair value in the Company's consolidated financial statements and are valued using unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs under ASC 820). The carrying amount of our accounts receivable, other accounts receivable, prepaid expenses, accounts payable and other accrued expenses reported in the consolidated balance sheets approximates fair value because of the short maturity of those instruments.

At June 30, 2017 and December 31, 2016, we did not have any material applicable nonrecurring measurements of nonfinancial assets and nonfinancial liabilities.

NOTE 15. Subsequent Events

On July 25, 2017, the Company entered into an Agreement and Plan of Merger (Merger Agreement) by and among the Company, Cooltech Holding Corp. (Cooltech), and the Company's wholly-owned subsidiary, InfoSonics Acquisition Sub, Inc. (Merger Sub), pursuant to which Cooltech will merge with and into the Merger Sub (the Merger), with Cooltech surviving as a wholly-owned subsidiary of InfoSonics. The Merger Agreement provides that the Company will issue an aggregate of 62.5 million shares of its common stock in exchange for all of the outstanding capital stock of Cooltech. The Merger and the transactions contemplated thereby are subject to a number of customary closing conditions, including approval of the Merger Agreement and the Merger by the Company's stockholders. Stockholders of the Company will be asked to vote on the adoption and approval of the Merger Agreement and the Merger at a special meeting of stockholders to be called by the Company.

On August 2, 2017, in accordance with a provision of the Merger Agreement, certain investors affiliated with Cooltech purchased from the Company 2.5 million shares of Company common stock at a price of \$0.40 per share in cash and warrants exercisable into 2.5 million additional shares of Company common stock with an exercise price of \$0.484 per share (a 10% premium to the closing bid price of Company common stock on the NASDAQ Capital market on July 24, 2017). The approximately \$1 million of proceeds from this sale of stock will be used by the Company to cover costs associated with the Merger and related financings. On August 3, 2017, certain investors affiliated with Cooltech entered into a purchase agreement to purchase from the Company an additional 4.375 million shares of Company common stock and warrants to purchase an equal number of shares under the same terms,

contingent upon receipt of stockholder approval of such issuance in accordance with Nasdaq rules. The proceeds from such sale have been escrowed pending receipt of stockholder approval and the closing of the Merger.

Independent Auditors Report

To the Shareholders of Cooltech Holdings Corp.:

We have audited the accompanying consolidated combined balance sheets of Cooltech Holdings Corp., Icon Networks LLC, Xpro Global LLC and DBA Trading Corp. (together, "Cooltech") as at December 31, 2016 and 2015, and the related consolidated combined statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended. These consolidated combined financial statements are the responsibility of the Cooltech's management. Our responsibility is to express an opinion on these consolidated combined financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated combined financial statements are free of material misstatement. Cooltech is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated combined financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated combined financial statements referred to above present fairly, in all material respects, the financial position of Cooltech as of December 31, 2016 and 2015 and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles in the United States of America.

1. Nature of operations

Cooltech Holding Corp. (Cooltech or the Company) was incorporated in October 2016 under the laws of the State of Nevada. The Company is an acquirer and operator of businesses in the consumer electronics industry. References to the Company refer to the Company and its subsidiaries, Icon Networks LLC and Xpro Global LLC. The principal address of the Company's business is 108-48 NW 25th Street, in Miami, Florida.

On December 15, 2016, pursuant to a Share Exchange Agreement between Cooltech, as a standalone company and Icon Networks LLC (Icon), Cooltech issued 1,300,000 common shares and 4,408,410 Series A preferred stock and promissory notes with an aggregate face value of \$2,047,500 (the Transaction). The promissory notes are non-interest bearing and are only repayable upon the closing of certain subsequent financing transactions (note 9). Each preferred share is convertible at the option of the holder, into one share of the common stock of the Company. As a result of the Transaction, Icon Networks LLC is now a fully-owned subsidiary of Cooltech Holding Corp.

For accounting purposes, the Transaction was treated as a reverse acquisition with Icon being the accounting acquirer. Therefore, the Company's historical financial statements reflect those of Icon. Prior to the reverse acquisition, Cooltech was a shell company with no business operations.

After closing of the Transaction, there were 2,330,553 shares of common stock outstanding, of which 1,300,000, approximately 55.8%, were held by former members of Icon Networks LLC.

These consolidated combined financial statements were authorized for issue by the Board of Directors on June 7, 2017.

2. Basis of presentation

The Company prepares its consolidated combined financial statements under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America (GAAP). The following entities were consolidated in these consolidated combined financial statements: Cooltech Holding Corp, Icon Networks LLC and Xpro Global LLC. The consolidated combined financial statements include 100% of all the assets and liabilities of the three entities and all intercompany accounts and transactions have been eliminated. The consolidated combined financial statements are presented in US dollars, which is the Company's functional currency. There were no foreign currency transactions during the years ended December 31, 2016 and 2015. The financial results of the Company up to the date of the reverse acquisition (note 17) include the combined results of Icon Networks LLC, Xpro Global LLC and DBA Trading Corp., which operated the electronics distribution business as entities under common management. In 2016, the Company transferred all operations in DBA, including contracts, business relationships, and inventory from DBA Trading Corp. to Icon Networks LLC. The consolidated combined financial statements include 100% of all the assets and liabilities of the three entities and all intercompany accounts and transactions have been eliminated. At the closing of the reverse acquisition, the net assets of DBA Trading Corp. were disposed of for nil consideration.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all years presented in the consolidated combined financial statements.

(a) Basis of consolidation

These consolidated combined financial statements include the accounts of the Company and its subsidiaries. Subsidiaries are entities controlled by the Company. Subsidiaries' results are consolidated into the financial

Table of Contents

results of the Company from the effective date of acquisition up to the effective date of disposition or loss of control. The subsidiaries of Cooltech that have been consolidated are as follow:

Icon Networks LLC 100% owned

XPro Global, LLC 50% owned

All intercompany transactions and balances are eliminated on consolidation. Each entity within the consolidated group determines its own functional currency and items included in the consolidated combined financial statements of each entity are measured using the functional currency. The US dollar is the functional currency of each entity within the consolidated group.

(b) Use of estimates

The preparation of these consolidated combined financial statements under US GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated combined balance sheets and the reported amounts of revenue and expenses during the reporting period. These estimates and assumptions include the allowance for doubtful accounts, inventory provision, impairment of equity investments, valuation of preferred shares and promissory notes, and accruals contained within trade and other payables. Actual results could differ from these estimates and assumptions.

(c) Cash and cash equivalents

Cash and cash equivalents include all cash and investments with an original maturity of three months or less. The Company maintains its cash in bank accounts in amounts that may exceed federally insured limits. The Company has not experienced any losses in these accounts in the past. The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature.

(d) Accounts receivable

The Company's receivables are stated at their outstanding balance reduced by an allowance for uncollectible accounts. The allowance for doubtful accounts is an estimate to cover the risk of losses resulting from the ability of customers to make payments for outstanding balances. The Company mitigates this risk by monitoring the credit worthiness of its customers by taking into consideration the overall quality and aging of the accounts receivable, credit evaluations of the customers' financial condition and historical experience with collection. The Company evaluates the recoverability of its receivables whenever events occur or there are changes in circumstances such that management believes it is probable that it will be unable to collect all amounts due according to the contractual terms of the receivables.

(e) Equipment

Equipment is carried at cost less accumulation depreciation. Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the assets. The estimated useful life for the current and comparative periods for property and equipment are as follows: equipment - 3 years; furniture and fixtures - 5 years and leasehold improvements - 3 years.

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Expenditures for improvements that extend the useful lives of equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

When assets are retired or otherwise disposed of, the cost and accumulated depreciation is removed from the accounts and any resulting gain or loss is reflected in operations in the period realized.

Table of Contents

(f) Business combinations

The Company accounts for business combinations in accordance with ASC 805, Business Combinations (ASC 805). ASC 805 requires that transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other professional and consulting fees, related to acquisitions be expensed as incurred. Upon acquisition of a business, the Company allocates the purchase price of the business based upon the fair value of the net assets acquired.

(g) Revenue recognition

Revenue for product sales is recognized once the following criteria are met: (1) the Company must have persuasive evidence that an arrangement exists; (2) delivery must occur, which generally happens at the point of shipment (this includes the transfer of both title and risk of loss, provided that no significant obligations remain); (3) the price must be fixed or determinable; and (4) collectability must be reasonably assured. In general, the Company recognizes revenue on a gross basis. In such arrangements where the Company is not the primary obligor, revenues are recognized as the net fee associated with serving as an agent.

Service revenue associated with marketing, training, fulfillment and other services is recognized when the work is complete and the four criteria discussed above have been met.

(h) Costs of goods sold

Cost of goods sold includes the product price paid to suppliers, net of any incentives, rebates and purchase discounts received from suppliers. It also consists of provision for inventory losses, write-downs, shipping and handling costs.

(i) Fair value of financial instruments

The Company's financial instruments include cash and cash equivalents, accounts receivable, due from related parties, accounts payable and accrued liabilities, due to related parties, line of credit and notes payable. Pursuant to FASB ASC 820 Fair Value Measurements and Disclosures, the Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The Company discloses the estimated fair value of its financial instruments according to a fair value hierarchy (Level 1, 2 and 3). The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels are defined as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Cash and cash equivalents, accounts receivable, due from related parties, accounts payable and accrued liabilities, and due to related parties are recorded at carrying values that approximate their fair value as they have maturities of less than one year. The fair value of the due to related parties is fairly reflected by the book value as it has interest rates

which are similar to current market interest rates. Notes payable issued pursuant to the reverse acquisition (note 9 and 17) are classified as Level 3 in the fair value hierarchy.

Table of Contents

(j) Inventory

Inventory is stated at the lower of cost or net realizable value. Costs are computed based on the weighted average cost method. Inventory is comprised of finished goods only. Finished goods include products purchased for resale, including costs related to freight and delivery, net of discounts. The net realizable value is estimated using the selling price in the ordinary course of business minus any costs to complete and sell the goods.

Any write-down to net realizable value is recognized as an expense in the period in which the write-down occurs.

(k) Income taxes

The Company accounts for income taxes in accordance with Accounting Standard Codification 740, Income Taxes (ASC 740), on a tax jurisdictional basis. The Company files income tax returns in the United States.

Deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the tax bases of assets and liabilities and their financial statement reported amounts using enacted tax rates and laws in effect in the year in which the differences are expected to reverse. A valuation allowance is provided against deferred tax assets when it is determined to be more likely than not that the deferred tax asset will not be realized.

The Company assesses the likelihood of the financial statement effect of a tax position that should be recognized when it is more likely than not that the position will be sustained upon examination by a taxing authority based on the technical merits of the tax position, circumstances, and information available as of the reporting date. The Company is subject to examination by taxing authorities in jurisdictions such as the United States and Canada. Management does not believe that there are any uncertain tax positions that would result in an asset or liability for taxes being recognized in the accompanying consolidated combined financial statements. The Company recognizes tax-related interest and penalties, if any, as a component of income tax expense.

ASC 740 prescribes recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in periods, disclosure and transition. At December 31, 2016, the Company has not taken any tax positions that would require disclosure under ASC 740.

(l) Investments

Investments in which the Company does not have a controlling direct or indirect voting interest, but can exercise significant influence over the entity with respect to its operations and major decisions, are accounted for using the equity method of accounting. The carrying value of the Company's investment is adjusted for its proportionate share of the investee's net income or loss and reduced by distributions received. The Company reviews the carrying value of its investment for other than temporary impairment whenever events or changes in circumstances indicate a possible impairment. Financial condition, operational performance, and other economic trends are some of the factors it considers when evaluating the existence of impairment indicators. When it has a carrying value of zero for its investment, it suspends the equity method of accounting until such time that the affiliate's net income equals or exceeds the share of net losses not recognized during the time in which the equity method of accounting was suspended.

(m) Impairment of long-lived assets

Long-lived assets consisting of equipment that is held and used is analyzed for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Assets having an indefinite useful life are assessed for impairment annually. The Company evaluates at each balance sheet date whether circumstances have occurred that indicate possible impairment. If there are indications of impairment,

Table of Contents

the Company uses future undiscounted cash flows of the related asset or asset grouping over the remaining life in measuring whether the carrying amounts are recoverable. In the event such cash flows are not expected to be sufficient to recover the recorded asset values, the assets are written down to their estimated fair value.

(n) Recent accounting pronouncements

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. For the Company, ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2018, and early adoption is permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated combined financial statements and the timing of adoption.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flow – Classification of Certain Cash Receipts and Cash Payments (Topic 230)* (ASU 2016-15), which addresses a few specific cash flow issues with the objective of reducing the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. For the Company, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If the Company early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* as a new Topic, ASC Topic 606. The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new standard, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. In July 2015, the FASB deferred the effective date, for the Company ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017 and interim periods within annual periods beginning after December 15, 2018. Early adoption is permitted to the original effective date of December 15, 2016 and interim periods within annual periods beginning after December 15, 2017. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently evaluating the potential impact this standard may have on the consolidated combined financial statements and the method and timing of adoption.

In February 2016, the FASB issued ASU 2016-02, *Leases*. This update requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The new guidance will also require additional disclosure about the amount, timing and uncertainty of cash flows arising from leases. The provisions of this update are effective for annual and interim periods beginning after December 15, 2018. The Company is still assessing the impact that the adoption of ASU 2016-02 will have on the consolidated combined

balance sheet and the consolidated combined results of operations.

Table of Contents

In November 2015, the FASB issued ASU No. 2015-17, Balance Sheet Classification of Deferred Taxes, which requires that deferred tax liabilities and assets be classified on our Consolidated Combined Balance Sheets as noncurrent based on an analysis of each taxpaying component within a jurisdiction. ASU No. 2015-17 is effective for the fiscal year commencing after December 15, 2017. The Company does not anticipate that the adoption of ASU No. 2015-17 will have a material effect on the consolidated combined balance sheet or the consolidated combined results of operations.

(o) Recent accounting pronouncements

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Combined Financial Statements.

4. Accounts receivable

During the years ended December 31, 2016 and 2015, the Company entered into factoring agreements with various financial institutions to sell its accounts receivable under non-recourse agreements. These transactions were treated as a sale and have been accounted for as a reduction in accounts receivable because the agreements transfer effective control over and risk related to the receivables to the buyers. Thus, cash proceeds from these arrangements are reflected as operating activities, including the change of accounts receivable in the consolidated combined statement of cash flows each year. The Company does not service any factored accounts after the factoring has occurred. The Company does not have any servicing assets or liabilities. The Company utilizes factoring arrangements as an integral part of its financing for working capital. During the year ended December 31, 2016, the aggregate gross amount factored under these facilities was \$1,734,565 (2015 -\$2,375,727). The cost of factoring such accounts receivable, is reflected in the accompanying consolidated combined statements of income (loss) and comprehensive income (loss) as finance expense. The cost of factoring such accounts receivable for the years ended December 31, 2016 and 2015 was \$28,880 (2015 - \$36,998). Any change in the availability of these factoring arrangements could have a material adverse effect on the Company's financial condition.

During the year ended December 31, 2016, the Company had an allowance for doubtful accounts of \$17,778 (2015 - \$nil), and recorded bad debt expense of \$46,900 (2015 - \$nil).

5. Investment

The Company uses the equity method to account for its investments in which it has significant influence. The investment is stated at cost and adjusted for its proportionate share of its net income or loss and reduced by distributions received.

The Company held a 33.1126% membership interest in Contour Investors Miami, LLC (CIM), a Floridian limited liability corporation with a passive investment in Contour LLC, a manufacturer of action camera equipment.

A first priority security interest lien on all assets of Icon Networks LLC was pledged to the lender, an international financial institution. This liability is guaranteed personally by the CEO and the EVP, Sales and Marketing of the Company. There was also a provision in the loan agreement that prohibited any transaction that would have constituted a change in control of Icon Networks LLC. The Company obtained a waiver from the lender as part of completing its reverse acquisition (note 17). Further, the lender has agreed to waive priority to any payment of outstanding loans of the Company prior to the full repayment of the credit facility. As at December 31, 2016, the amount drawn on the credit facility was \$500,000 (2015 - \$nil).

Vendor take-back notes

During 2016, the Company issued Class A, B, and C promissory notes as part of a reverse acquisition (note 17). The Class A promissory notes are non-interest bearing, and are payable upon the closing of a financing of at least \$3,000,000. The Class B promissory notes are non-interest bearing, and payable upon the closing of an initial public offering of the Company's common stock (including any reverse merger or similar combination with a publicly traded company in conjunction with a financing transaction) (an IPO). The Class C promissory notes are non-interest bearing, and payable on the earlier of (i) the one year anniversary of the closing of an IPO and (ii) the closing of a post-IPO financing transaction in which the Company receives gross proceeds of at least \$10,000,000. Fair values for promissory notes are calculated using the discounted cash flow method, which applies a probability of each note becoming payable at its expected maturity date, and discounts the face value of the note over its maturity. The results from these measurements are classified as Level 3 in the fair value hierarchy. The key Level 3 inputs used by management to determine the fair value are the discount rate, yield-to-maturity, expected maturity, and probability of triggering repayment at each expected maturity. The following assumptions were used:

						Classified	
	Discount rate	Yield-to-Maturity	Expected maturity (years)	Probability of triggering repayment	as current liability	Classified as long-term liability	
Class A promissory notes	8.00%	8.00%	0.25	100%	\$735,888		\$

13. Income taxes

The Company is subject to income tax in the United States of America, and certain state jurisdictions.

Prior to the reverse acquisition (note 17), Icon Networks LLC and Xpro Global LLC elected as S Corps and were considered flow through entities. They were treated as a partnership for federal income tax purposes and did not incur income taxes. Instead, their earnings and losses were included in the personal returns of the members and taxed depending on their personal tax situations. Thus, the consolidated combined financial statements did not reflect a provision for income taxes for the period prior to the reverse acquisition (note 17). Income taxes have not been recognized in profit and loss, as it is not probable that future taxable profits will be available against which the accumulated tax losses can be utilized.

Table of Contents**14. Commitments and contingencies**

In the ordinary course of conducting its business, the Company may periodically be a defendant in various legal proceedings. Any estimated loss contingencies in excess of amounts covered by business liability insurance are included in accrued expenses. The Company determines the amount of the loss contingency based on the amount of exposure and an analysis of the likelihood that the Company will incur a loss. It is the best judgment of management that neither the financial position nor results of operations of the Company will be materially affected by the final outcome of these legal proceedings. During the years ended December 31, 2016 and 2015, the Company was not involved in legal proceedings and hence has not accrued any losses.

Effective October 2016, the Company has entered into a lease agreement for the Company's head office in Miami, Florida. The base rent commitment for the remainder of the lease is as follows:

15. Financial instruments and risk management*Risk management*

In the normal course of its business, the Company is exposed to a number of financial risks that can affect its operating performance. These risks, and the actions taken to manage them, are as noted below.

Market risk

Market risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate because of changes in the market prices. The Company's cash includes cash held in bank accounts that earn interest at variable interest rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values.

Interest rate risk

The Company is subject to cash flow interest rate risk due to fluctuations in the prevailing levels of market interest rates. The Company's objective of managing interest rate risk is to minimize the volatility of earnings. Exposure to interest rate risk exists through its revolving credit facility due to the variable nature of the interest rates contained in the terms therein. As at December 31, 2016, \$500,000 (2015 - \$nil) of the Company's liabilities carried variable interest rates.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The credit risk on cash is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies. Management will also, from time to time, factor certain accounts receivable to mitigate credit risk. The Company is also exposed to credit risk on amounts due from related parties. Management has not recognized a provision for this amount as the risk of loss is small.

The carrying amount of financial assets recorded in the consolidated combined financial statements, net of any allowance for losses, represents the Company's maximum exposure to credit risk.

Concentration risk

The Company had significant sales and accounts receivable balances from specific customers during the years ended December 31, 2016 and 2015. 3 customers represent 96% of the Company's trade receivables

Table of Contents

(December 31 2015 - 3 customers - 81%). During the year ended December 31, 2016, these 3 customers accounted for 40% (December 31, 2015 - 3 customers - 24%) of the total sales. Of these 3 customers, 2 were related parties.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations as they fall due. The Company's strategy is to satisfy its liquidity needs using cash on hand, cash flow generated from operating activities, and cash flow provided by financing activities. As of December 31, 2016, the Company had a working capital deficit of \$2,203,257 (2015 - surplus of \$109,619). Subsequent to the year, the Company commenced a private placement of common shares (note 18). As of the date of these financial statements, the Company has raised gross proceeds of \$3,736,480.

16. Capital risk management

The capital of the Company includes equity, which is comprised of issued share capital and retained earnings. The Company's objective when managing its capital is to safeguard the ability to continue as a going concern in order to provide returns for its shareholders, and other stakeholders and to maintain a strong capital base to support the Company's core activities.

17. Reverse acquisition

On December 15, 2016, the Company completed a reverse acquisition whereby it purchased 100% of the membership interests (the "Membership Interests") of Icon Networks LLC from the members of Icon pursuant to a share exchange agreement (the "SEA"). The Company issued 1,300,000 common shares and 4,408,410 Series A preferred stock and promissory notes with an aggregate face value of \$2,047,500 (note 9). As a result of this transaction, Icon Networks LLC is now a fully-owned subsidiary of Cooltech Holding Corp.

As the former Icon members ended up owning the majority of the Company, Icon is deemed to be the accounting acquirer. As Cooltech Holding Corp. was the accounting acquiree the net liabilities acquired are reflected in the statement of equity.

A breakdown of the net liabilities acquired is as follows:

NOTE 1 NATURE OF OPERATIONS

Cooltech Holding Corp. (Cooltech or the Company) was incorporated in October 2016 under the laws of the State of Nevada. The Company is an acquirer and operator of business in the consumer electronics industry. References to the Company refer to the Company and its subsidiary Icon Networks LLC. The principal address of the Company's business is 108-48 NW 25th Street, in Miami, Florida.

On December 15, 2016, Pursuant to a Share Exchange Agreement between Cooltech, as a standalone company and Icon Network LLC (Icon), Cooltech issued 1,300,000 common shares and 4,408,410 Series A preferred stock and promissory notes with an aggregate face value of \$2,047,500 (the Transaction). The promissory notes are only repayable upon the closing of certain subsequent financing transactions (note 7). Each preferred share is convertible at the option of the holder, into one of the common stock of the Company. As a result of the Transaction, Icon Networks LLC is now fully-owned subsidiary of Cooltech Holding Corp.

For accounting purposes, the Transaction was treated as a reverse acquisition with icon being the accounting acquirer. Therefore, the Company's historical financial statements reflect those of Icon. Prior to the reverse acquisition, Cooltech was a shell company with no business operations.

After closing the Transaction there were 2,330,553 shares of common stock outstanding, of which 1,300,000 were held by former members of Icon Networks LLC.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Unaudited condensed consolidated combined interim financial statements

These unaudited condensed consolidated combined interim financial statements have been prepared on the same basis as the annual audited financial statements and should be read in conjunction with those annual audited financial statements for the year ended December 31, 2016. In the opinion of management, these unaudited condensed consolidated interim financial statements reflect adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

(b) Use of estimates

The preparation of these condensed consolidated combined interim financial statements under US GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the condensed consolidated combined interim balance sheets and the reported amounts of revenue and expenses during the reporting period.

These estimates and assumptions include impairment of equity investments, valuation of preferred shares and promissory notes, and accruals contained within trade and other payables.

Actual results could differ from these estimates and assumptions.

(c) Business combinations

The Company accounts for business combinations in accordance with ASC 805, Business Combinations (ASC 805), ASC 805 requires that transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other

professional and consulting fees, related to acquisitions be expensed as incurred. Upon acquisition of a business, the Company allocates the purchase price of the business based upon the fair value of the net assets acquired.

Table of Contents**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****(d) Inventory**

Inventory is stated at the lower of cost or net realizable value. Costs are computed based on the weighted average cost method. Inventory is comprised of finished goods only. Finished goods include products purchased for resale, including costs related to freight and delivery, net of discounts. The reserve for inventory as at June 30, 2017 is \$49,795 (December 31, 2016 - \$36,463). The net realizable value is estimated using an inventory aging schedule.

Any write-down to net realizable value is recognized as an expense in the period in which the write-downs occurs.

(e) Loss per share

Basic net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise of stock options and warrants (using the treasury stock method). The computation of basic net loss per share for the three and six-month periods ended June 30, 2017 and 2016 excludes potentially dilutive securities. The computations of net loss per share for each period presented is the same for both basic and fully diluted.

(f) Newly adopted and recently issued accounting pronouncements

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*. This ASU provides eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for the fiscal year commencing after December 15, 2017. The Company is still assessing the impact that the adoption of ASU 2016-15 will have on the consolidated statement of cash flows.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations: Clarifying the definition of a Business* which amends the current definition of a business. Under ASU 2017-01, to be considered a business, an acquisition would have to include an input and a substantive process that together significantly contributes to the ability to create outputs. ASU 2017-01 further states that when substantially all of the fair value of gross assets acquired is concentrated in a single asset (or a group of similar assets), the assets acquired would not represent a business. The new guidance also narrows the definition of the term *outputs* to be consistent with how it is described in Topic 606, *Revenue from Contracts with Customers*. The changes to the definition of a business will likely result in more acquisitions being accounted for as asset acquisitions. ASU 2017-01 is effective for acquisitions commencing on or after June 30, 2019, with early adoption permitted. Adoption of this guidance will be applied prospectively on or after the effective date.

In January 2017, the FASB issued ASU 2017-04, *Intangibles - Goodwill and Other*. ASU 2017-04 simplifies the accounting for goodwill impairment by eliminating Step 2 of the current goodwill impairment test, which required a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which the reporting unit's carrying value exceeds its fair value, limited to the carrying value of the goodwill. ASU 2017-04 is effective for financial statements issued for fiscal years, and interim periods beginning after December 15, 2019.

NOTE 3 ACCOUNTS RECEIVABLE

During the six-month periods ended June 30, 2017 and 2016, the Company had factoring agreements with financial institutions to sell its accounts receivable under non-recourse terms. These transactions were treated as a

F-57

Table of Contents

sale and have been accounted for as a reduction in accounts receivable because the agreements transfer effective control over and risk related to the receivables to the buyers. Thus, cash proceeds from these arrangements are reflected as operating activities, including the change of accounts receivable in the consolidated combined statement of cash flows each year. The Company does not service any factored accounts after the factoring has occurred. The Company does not have any servicing assets or liabilities. The Company utilizes factoring arrangements as an integral part of its financing for working capital.

The cost of factoring such accounts receivable, is reflected in the accompanying condensed consolidated combined interim statements of income loss and comprehensive loss as a finance expense. The costs of factoring such accounts receivable for the three-month and six-month periods ended June 30, 2017 were \$11,620 and \$15,727 respectively (2016 \$18,072 and \$24,315). Any change in the availability of these factoring arrangements could have a material adverse effect on the Company's financial condition.

As at June 30, 2017, the Company had an allowance for doubtful accounts of \$61,444 (December 31, 2016 \$17,778).

Further, the lender has agreed to waive priority to any payment of outstanding loans of the Company prior to the full repayment of the credit facility. 10% interest note, due on demand

During 2015, the Company issued promissory notes of \$500,000, with interest payable on the first of each month at a rate of 10% per annum, and a maturity date of April 30, 2016. The Class B promissory notes are non-interest bearing, and payable upon the closing of an initial public offering of the Company's common stock or any reverse merger or similar combination with a publicly traded company in conjunction with a financing transaction (collectively referred to as an IPO). The Class C promissory notes are non-interest bearing, and payable on the earlier of (i) the one year anniversary of the closing of an IPO and (ii) the closing of a post-IPO financing transaction in which the Company receives gross proceeds of at least \$10,000,000.

Fair values for promissory notes are calculated using the discounted cash flow method, which applies a probability of each note becoming payable at its expected maturity date, and discounts the face value of the note

Table of Contents

over its maturity. The results from these measurements are classified as Level 3 in the fair value hierarchy. The key Level 3 inputs used by management to determine the fair value are the discount rate, yield-to-maturity, expected maturity, and probability of triggering repayment at each expected maturity. The following assumptions were used for valuation of Class B and Class C promissory notes as at June 30, 2017:

	Discount rate	Yield-to-maturity	Expected maturity (years)	Probability of triggering repayment	Classified as current liability	Classified as long-term liability
Class B promissory notes	8.00%	8.00%	0.08	100%	298,234	
Class C promissory notes	8.00%	8.00%	0.83	100%	938,357

Until so surrendered or transferred, as the case may be, each such Certificate or Uncertificated Share shall represent after the Effective Time for all purposes only the right to receive such Merger Consideration and the right to receive any dividends or distributions pursuant to Section 2.04(f).

(c) If any portion of the Merger Consideration is to be paid to a Person other than the Person in whose name the surrendered Certificate or the transferred Uncertificated Share is registered, it shall be a condition to such payment that (i) either such Certificate shall be properly endorsed or shall otherwise be in proper form for transfer or such Uncertificated Share shall be properly transferred and (ii) the Person requesting such payment shall pay to the Exchange Agent any transfer or other Taxes required as a result of such payment to a Person other than the registered holder of such Certificate or Uncertificated Share or establish to the satisfaction of the Exchange Agent that such Tax has been paid or is not payable.

(d) After the Effective Time, there shall be no further registration of transfers of shares of Company Stock. If, after the Effective Time, Certificates or Uncertificated Shares are presented to the Surviving Corporation or the Exchange Agent, they shall be canceled and exchanged for the Merger Consideration provided for, and in accordance with the procedures set forth, in this Article 2.

If the Exchange Agent, the Surviving Corporation or Parent, as the case may be, so withholds amounts and remits such amounts to the appropriate Taxing Authority, such amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the shares of Company Stock in respect of which the Exchange Agent, the Surviving Corporation or Parent, as the case may be, made such deduction and withholding.

Section 2.08. *Lost Certificates.* If any Certificate shall have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such Certificate to be lost, stolen or destroyed (the **Lost Certificate Affidavit**) and, if required by the Surviving Corporation, the posting by such Person of a bond, in such reasonable amount as the Surviving Corporation may direct, as indemnity against any claim that may be made against it with respect to such Certificate, the Exchange Agent will issue, in exchange for such lost, stolen or destroyed Certificate, the Merger Consideration to be paid in respect of the shares of Company Stock represented by such Certificate, as contemplated by this Article 2.

Section 4.08. *Absence of Certain Changes.*

(a) Since the Company Balance Sheet Date, the business of the Company and its Subsidiaries has been conducted in the ordinary course consistent with past practices and there has not been any event, occurrence, development or state of circumstances or facts that has had or would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(b) Except as disclosed in Section 4.08(b) of the Company Disclosure Schedule, from the Company Balance Sheet Date until the date hereof, there has not been any action taken by the Company or any of its Subsidiaries that, if taken during the period from the date of this Agreement through the Effective Time without Parent's consent, would constitute a breach of Section 6.01.

Section 4.09. *No Undisclosed Material Liabilities.* There are no liabilities or obligations of the Company or any of its Subsidiaries of any kind whatsoever, whether accrued, contingent, absolute, determined, determinable or otherwise, and there is no existing condition, situation or set of circumstances that could reasonably be expected to result in such a liability or obligation, other than: (i) liabilities or obligations disclosed and provided for in the Company Balance Sheet or in the notes thereto; (ii) liabilities or obligations incurred in the ordinary course of business consistent with past practices since the Company Balance Sheet Date; and (iii) liabilities or obligations that would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

There is no judgment, decree, injunction, rule or order of any arbitrator or Governmental Authority outstanding against the Company or any of its Subsidiaries that has had or would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect or that in any manner seeks to prevent, enjoin, alter or materially delay the Merger or any of the other transactions contemplated hereby.

The Company and its Subsidiaries have made all material filings with Governmental Authorities and have received all material Permits necessary to conduct and operate its business as currently conducted or operated by it and to permit the Company or any of its Subsidiaries to own or use its assets in the manner in which such assets are currently owned or used.

Section 4.13. *Litigation.* There is no action, suit, investigation or proceeding (or any basis therefor) pending against, or, to the knowledge of the Company, threatened against or affecting, the Company, any of its Subsidiaries, any present or former officer, director or employee of the Company or any of its Subsidiaries or any Person for whom the Company or any of its Subsidiaries may be liable or any of their respective properties before (or, in the case of threatened actions, suits, investigations or proceedings, would be before) or by any Governmental Authority or arbitrator, that would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

The Company has made available to Parent a copy of the most recent Internal Revenue Service determination letter with respect to each such Company Employee Plan. Except as would not have a Company Material Adverse Effect, each Company Employee Plan has been maintained in compliance with its terms and with the requirements prescribed by any and all statutes, orders, rules and regulations, including ERISA and the Code, which are applicable to such Company Employee Plan. (e) The consummation of the transactions contemplated by this Agreement will not (either alone or together with any other event) entitle any employee or independent contractor of the Company or any of its Subsidiaries to severance pay or accelerate the time of payment or vesting or trigger any payment of funding (through a grantor trust or otherwise) of compensation or benefits under, increase the amount payable or trigger any other material obligation pursuant to, any Company Employee Plan. Except as set forth on Section 4.18(e) of the Company Disclosure Schedule, there is no contract, plan or arrangement (written or otherwise) covering any employee or former employee of the Company or any of its Subsidiaries that, individually or collectively, would entitle any employee or former employee to any severance or other payment solely as a result of the transactions contemplated hereby, or could reasonably be expected to give rise to the payment of any amount that would not be deductible pursuant to the terms of Section 280G of the Code. According to the actuarial assumptions and valuations most recently used for the purpose of funding each Company International Plan (or, if the same has no such assumptions and valuations or is unfunded, according to actuarial assumptions and valuations in use by the PBGC on the date hereof), as of the date hereof the total amount or value of the funds available under such Company International Plan to pay benefits accrued thereunder or segregated in respect of such accrued benefits, together with any reserve or accrual with respect thereto, exceeds the present value of all benefits accrued as of such date of all participants and past participants therein in respect of which the Company or any of its Subsidiaries has or would have after the Effective Time any obligation. From and after the Effective Time, Parent and its Affiliates will get the full benefit of any such funds, accruals or reserves.

To the Knowledge of the Company, no union has attempted or threatened to organize or represent the employees of the Company or any of its Subsidiaries. (a) So long as the Special Committee has not made an Adverse Recommendation Change (as hereinafter defined) with respect to a Superior Acquisition Proposal, Parent shall cause a meeting of its shareholders (the **Parent Shareholder Meeting**) to be duly called and held as soon as reasonably practicable after the Registration Statement is declared effective under the 1933 Act for the purpose of voting on (i) the approval and adoption of this Agreement and the Merger in accordance with the rules of The NASDAQ Stock Market LLC and (ii) the Amendment to the Articles. The Special Committee shall (i) recommend approval and adoption of this Agreement, the Merger and the other transactions contemplated hereby by Parent's shareholders (the **Special Committee Recommendation**), (ii) use reasonable efforts to obtain the the Parent Shareholder Approval, (iii) not make, withdraw or modify in a manner adverse to Company the Special Committee Recommendation, not fail to include the Special Committee Recommendation in the Proxy Statement, or publicly propose to do any of the foregoing (any of the foregoing in this clause (iii), an **Adverse Recommendation Change**) except as specifically permitted below, (iv) recommend approval of the Amendment to the Articles and (v) otherwise comply with all legal requirements applicable to such meeting.

(b) Notwithstanding anything to the contrary contained in this Agreement, if at any time after the date of this Agreement and prior to the Effective Time, Parent or any of its Representatives receives a bona fide, unsolicited Acquisition Proposal from any Person, and if the Special Committee determines in good faith, after consultation with its independent financial advisors and outside legal counsel, that such Acquisition Proposal constitutes or is reasonably likely to constitute a Superior Acquisition Proposal and that the failure to take such action would, or would reasonably be expected to, be inconsistent with the directors' fiduciary duties under Applicable Law, then Parent and its Representatives may, (i) furnish information (including non-public information) with respect to Parent to the Person who has made such Acquisition Proposal; provided that Parent shall concurrently with the delivery to such Person make available to the Company any non-public information concerning Parent that is provided or made available to such Person or its Representatives unless such non-public information has previously been provided to the Company and (ii) engage in or otherwise participate in discussions or negotiations with the Person making such Acquisition Proposal and its Representatives regarding such Acquisition Proposal.

(c) Notwithstanding anything to the contrary contained in this Agreement, prior to the Effective Time, the Special Committee (i) may make an Adverse Recommendation Change other than in response to an Acquisition Proposal if, prior to taking such action, the Special Committee has determined in good faith, after consultation with its independent financial advisors and Maryland Corporate Counsel, both: (a) that an Intervening Event has occurred and (b) that an Adverse Recommendation Change is required to comply with the directors' fiduciary duties under Applicable Law, provided, however, that, prior to taking such action, (A) Parent has given the Company at least three (3) Business Days' prior written notice of the existence and nature of the Intervening Event and its intention to take such action, (B) Parent has negotiated, and has caused its Representatives to negotiate, in good faith with the Company during such three (3) Business Day period, to the extent the Company wishes to negotiate, to make such

revisions to the terms of this Agreement as would permit the Special Committee to conclude that the Intervening Event no longer forms the basis for the Special Committee to effect

an Adverse Recommendation Change, and (C) following the end of the three (3) Business Days notice period, the Special Committee shall have determined, after consultation with its independent financial advisors and Maryland Corporate Counsel and the receipt of written legal guidance in connection with such consultation, and giving due consideration to the proposed revisions to the terms of this Agreement to which the Company has irrevocably committed in writing, that the Intervening Event remains such that effecting an Adverse Recommendation Change is required to comply with the directors' fiduciary duties under Applicable Law; and (ii) may make an Adverse Recommendation Change and/or authorize, cause or permit Parent to enter into a Parent Acquisition Agreement, in either such case in response to a bona fide, unsolicited Acquisition Proposal, if prior to taking such action, the Special Committee has determined in good faith, after consultation with its independent financial advisors and outside legal counsel, that (a) such Acquisition Proposal constitutes a Superior Acquisition Proposal and (b) such action would, or would reasonably be expected to be, required to comply with the directors' fiduciary duties under Applicable Law; provided, however, that, prior to taking such action, (A) Parent has given the Company at least three (3) Business Days prior written notice of its intention to take such action, including the terms and conditions of, and the identity of the Person making, any such Superior Acquisition Proposal and has contemporaneously provided to the Company a copy of such Superior Acquisition Proposal or any proposed Parent Acquisition Agreements (or, in each case, if not provided in writing to Parent, a written summary of the material terms thereof), (B) Parent has negotiated, and has caused its Representatives to negotiate, in good faith with the Company during such three (3) Business Day period, to the extent the Company wishes to negotiate, to make such revisions to the terms of this Agreement as would permit the Special Committee not to effect an Adverse Recommendation Change in connection with a Superior Acquisition Proposal or take any action pursuant to Section 10.01(d)(ii), and (C) following the end of the three (3) Business Days notice period, the Special Committee shall have determined, after consultation with its independent financial advisors and outside legal counsel, and giving due consideration to the revisions to the terms of this Agreement to which the Company has irrevocably committed in writing, that the Acquisition Proposal would nevertheless constitute a Superior Acquisition Proposal and that such action is required to comply with the directors' fiduciary duties under Applicable Law (it being previously understood and agreed that any change to the financial or other material terms of a proposal that was previously the subject of a notice hereunder shall require a new notice to the Company as provided above), but with respect to any subsequent notices references herein to a three (3) Business Day notice period shall be deemed references to a two (2) Business Day notice period.

Section 7.04. *Director and Officer Liability.* Parent shall cause the Surviving Corporation, and the Surviving Corporation hereby agrees, to do the following:

(a) For six (6) years after the Effective Time, the Surviving Corporation shall indemnify and hold harmless the present and former officers and directors of the Company (each, an **Indemnified Person**) in respect of acts or omissions occurring at or prior to the Effective Time to the fullest extent permitted by Nevada Law or any other Applicable Law or provided under the Company's articles of incorporation and bylaws in effect on the date hereof or agreements between an Indemnified Person and the Company or any of its Subsidiaries as of the date hereof; *provided* that such indemnification shall be subject to any limitation imposed from time to time under Applicable Law.

(b) For six (6) years after the Effective Time, Parent shall cause to be maintained in effect provisions in the Surviving Corporation's articles of incorporation and bylaws (or in such documents of any successor to the business of the Surviving Corporation) regarding elimination of liability of directors, indemnification of officers, directors and employees and advancement of expenses that are no less advantageous to the intended beneficiaries than the corresponding provisions in existence in the Company's articles of incorporation and bylaws on the date of this Agreement.

(c) Prior to the Effective Time, the Company shall or, if the Company is unable to, Parent shall cause the Surviving Corporation as of the Effective Time to, obtain (from the Company's current insurance carrier or from another

If the Company or the Surviving Corporation for any reason fail to obtain such tail insurance policies as of the Effective Time, the Surviving Corporation shall continue to maintain in effect, for a period of at least six (6) years from and after the Effective Time, the D&O Insurance in place as of the date hereof with terms, conditions, retentions and limits of liability that are no less advantageous to the Indemnified Persons than the coverage provided under the Company's existing policies as of the date hereof, or the Surviving Corporation shall purchase comparable D&O Insurance for such six (6) year period from another insurance carrier with the same or better credit rating as the Company's current insurance carrier with respect to D&O Insurance and with terms, conditions, retentions and limits of liability that are no less advantageous to the Indemnified Persons than those provided in the Company's existing policies as of the date hereof; provided that in no event shall Parent or the Surviving Corporation be required to expend for such policies pursuant to this sentence an annual premium amount in excess of 250% of the amount per annum the Company paid in its last full fiscal year, which amount is set forth in Section 7.04(c) of the Company Disclosure Schedule; and *provided further* that if the aggregate premiums of such insurance coverage exceed such amount, the Surviving Corporation shall be obligated to obtain a policy with the greatest coverage available, with respect to matters occurring prior to the Effective Time, for a cost not exceeding such amount.

(d) If Parent, the Surviving Corporation or any of its successors or assigns (i) consolidates with or merges into any other Person and shall not be the continuing or surviving corporation or entity of such consolidation or merger, or (ii) transfers or conveys all or substantially all of its properties and assets to any Person, then, and in each such case, to the extent necessary, proper provision shall be made so that the successors and assigns of Parent or the Surviving Corporation, as the case may be, shall assume the obligations set forth in this Section 7.04.

(e) The rights of each Indemnified Person under this Section 7.04 shall be in addition to any rights such Person may have under the articles of incorporation or bylaws of the Company or any of its Subsidiaries, or under Nevada Law or any other Applicable Law or under any agreement of any Indemnified Person with the Company or any of its Subsidiaries. These rights shall survive consummation of the Merger and are intended to benefit, and shall be enforceable by, each Indemnified Person and his or her heirs and legal representatives.

Section 7.05. *Stock Exchange Listing.* Parent shall use reasonable efforts to cause the shares of Parent Stock to be issued as part of the Merger Consideration to be approved for quotation on the NASDAQ Capital Market, subject to official notice of issuance.

Section 7.06. *Employee Matters.*

Parent shall, and shall cause its Subsidiaries and Affiliates (including, the Surviving Corporation) to (i) waive all limitations as to preexisting conditions, exclusions, waiting periods, actively-at-work requirements, evidence-of-insurability requirements and all other limitations and restrictions with respect to participation and coverage requirements applicable to the Continuing Employees (and any spouses, domestic partners, dependents and beneficiaries thereof) under any welfare benefit plans that such individuals may be eligible to participate in after the Effective Time, other than limitations or waiting periods that are already in effect with respect to such employees and that have not been satisfied as of the Effective Time under any welfare benefit plan maintained for the Continuing Employees immediately prior to the Effective Time.

(b) Notwithstanding the foregoing, the provisions of Section 7.06(a) shall apply only with respect to Continuing Employees who are covered under Company Employee Plans that are maintained primarily for the benefit of employees of the Company employed in the United States (including Continuing Employees regularly employed outside the United States to the extent they participate in such Company Employee Plans). With respect to Continuing Employees not described in the preceding sentence, from and after the Effective Time, Parent shall, or shall cause the Surviving Corporation and its Subsidiaries to, comply with all Applicable Laws relating to employees and employee benefits matters applicable to such employees.

(c) Without limiting the generality of Section 11.06, the provisions of this Section 7.06 are solely for the benefit of the parties to this Agreement, and no current or former employee or other service provider or other individual associated therewith shall be regarded for any purpose as a third party beneficiary of this Agreement. Nothing contained in this Agreement shall (i) constitute or be deemed to be an amendment to any Company Employee Plan or any other compensation or benefit plan, program or arrangement of the Company, Parent or any of their respective Subsidiaries for any purpose, (ii) confer or create any agreement of, or right to, employment for any Person, (iii) guarantee employment for any period of time, or preclude the ability of Parent or the Surviving Corporation and its Subsidiaries to terminate any employee of the Company or any of its Subsidiaries for any reason, (iii) require Parent or the Surviving Corporation or any of their respective Subsidiaries to continue any Company Employee Plan, employee benefits plans or arrangements or prevent the amendment, modification or termination thereof, in accordance with the terms thereof and Applicable Law.

Section 7.07. Parent Board. Parent shall take all appropriate action to appoint three Company nominees (which nominees shall be selected by the Company) to the Board of Directors of Parent promptly at the Effective Time and cause three (3) directors of Parent to resign, such that the entire Board of Directors of Parent shall be comprised of four (4) directors, all in accordance with Parent's bylaws. Such nominee's appointment to the Board of Directors of Parent shall be subject to the consent of such nominees and the information and notice requirements proscribed under the 1934 Act (the **Board Re-composition**).

(b) The parties hereto agree that any information contained in any part of any Parent SEC Document shall only be deemed to be an exception to (or a disclosure for purposes of) Parent's representations and warranties if the relevance of that information as an exception to (or a disclosure for purposes of) such representations and warranties would be readily apparent to a reasonable person who has read that information concurrently with such representations and warranties, without any independent knowledge on the part of the reader regarding the matter(s) so disclosed; *provided* that in no event shall any information contained in any part of any Parent SEC Document entitled "Risk Factors" or containing a description or explanation of forward-looking statements be deemed to be an exception to (or a disclosure for purposes of) any representations and warranties of any party contained in this Agreement.

EXHIBIT A

VOTING AGREEMENT

THIS VOTING AGREEMENT (this *Agreement*), dated as of July 25, 2017 (the *Effective Date*) among the undersigned stockholder (*Stockholder*) of InfoSonics Corporation, a Maryland corporation (*Parent*), and Cooltech Holding Corp., a Nevada corporation (the *Company*). Parent, Stockholder and the Company are sometimes referred to herein individually as a **Party** and collectively as the *Parties* .

WHEREAS, concurrently with or following the execution of this Agreement, the Company, Parent and InfoSonics Acquisition Sub, Inc., a Nevada corporation and a wholly-owned subsidiary of Parent (the *Merger Sub*), have entered, or will enter, into an Agreement and Plan of Merger (as the same may be amended from time to time, the *Merger Agreement*), providing for, among other things, the merger (the *Merger*) of the Merger Sub with and into the Company pursuant to the terms and conditions of the Merger Agreement;

WHEREAS, as a condition to its willingness to enter into the Merger Agreement, the Company has required that Stockholder execute and deliver this Agreement; and

WHEREAS, in order to induce the Company to enter into the Merger Agreement, Stockholder is willing to make certain representations, warranties, covenants and agreements with respect to the shares of Parent's common stock, par value \$0.001 per share (*Parent Common Stock*) beneficially owned by Stockholder (including any such shares of Parent Common Stock which are issuable upon exercise of outstanding options held by Stockholder, whether vested or unvested or other securities of Parent convertible into Parent Common Stock) and set forth below Stockholder's signature on the signature page hereto (the *Original Shares* and, together with any additional shares of Parent Common Stock pursuant to **Section 6** hereof, the *Shares*).

NOW, THEREFORE, in consideration of the premises and for other good and valuable consideration, the receipt, sufficiency and adequacy of which are hereby acknowledged, the Parties hereto agree as follows:

1. **Definitions.** For purposes of this Agreement, capitalized terms used and not defined herein shall have the respective meanings ascribed to them in the Merger Agreement.

2. **Representations of Stockholder.** Stockholder represents and warrants to the Company that:

(a) (i) Stockholder owns beneficially (as such term is defined in Rule 13d-3 under the Exchange Act) all of the Original Shares free and clear of all Liens, and (ii) except pursuant hereto, there are no options, warrants or other rights, agreements, arrangements or commitments of any character to which Stockholder is a party relating to the pledge, disposition or voting of any of the Original Shares and there are no voting trusts or voting agreements with respect to the Original Shares. The Original Shares listed on the signature page hereto constitute all of the shares of Parent Stock or other securities of Parent beneficially owned by Stockholder as of the date hereof and no person has any contractual or other right or obligation to purchase or otherwise acquire any of the Original Shares. Stockholder has full voting power with respect to the Shares, and full power of disposition, full power to issue instructions with respect to the matters set forth herein and full power to agree to all of the matters set forth in this Agreement, in each case with respect to all Shares.

(b) Stockholder has full corporate power, authority and legal capacity to enter into, execute and deliver this Agreement and to perform fully Stockholder's obligations hereunder (including the proxy described in **Section 3(b)** below)). This Agreement has been duly and validly executed and delivered by Stockholder and constitutes the legal,

valid and binding obligation of Stockholder, enforceable against Stockholder in accordance with its terms subject to limitations on the enforcement of equitable remedies.

(c) None of the execution and delivery of this Agreement by Stockholder, the consummation by Stockholder of the transactions contemplated hereby or compliance by Stockholder with any of the provisions hereof will conflict with or result in a breach, or constitute a default (with or without notice of lapse of time or both) under any provision of, any trust agreement, loan or credit agreement, note, bond, mortgage, indenture, lease or other agreement or instrument applicable to Stockholder or to Stockholder's property or assets.

Table of Contents

(d) No consent, approval or authorization of, or designation, declaration or filing with, any Governmental Authority or other Person on the part of Stockholder is required in connection with the valid execution and delivery of this Agreement.

(e) Stockholder has had the opportunity to review the Merger Agreement and this Agreement with counsel of Stockholder's own choosing. Stockholder understands and acknowledges that Parent, the Company and the Merger Sub are entering into the Merger Agreement in reliance upon Stockholder's execution, delivery and performance of this Agreement.

(f) With respect to Stockholder, as of the date hereof, there is no suit, claim, action, proceeding, litigation, hearing, writ, injunction, notice of violation, investigation, arbitration, mediation, audit, dispute or demand letter pending against, or, to the knowledge of Stockholder, threatened against Stockholder or any of Stockholder's properties or assets (including the Shares) that would reasonably be expected to prevent or materially delay or materially impair the consummation by Stockholder of the transactions contemplated by this Agreement or otherwise materially adversely impact Stockholder's ability to perform its obligations hereunder.

(g) No broker, finder, financial advisor, investment banker or other person is entitled to any brokerage, finder's, financial advisor's or other similar fee or commission in connection with the transactions contemplated hereby based upon arrangements made by or on behalf of Stockholder.

3. Agreement to Vote Shares; Irrevocable Proxy.

(a) For so long as the Special Committee has not made an Adverse Recommendation Change, Stockholder agrees during the term of this Agreement to vote his Shares (either in person, by proxy, execution of an action by written consent or consents or otherwise), and to cause any holder of record of his Shares to vote (either in person, by proxy, execution of an action by written consent or consents or otherwise): (i) in favor of the Merger, the Merger Agreement, the Amendment to the Articles and the Financing Transactions, at every meeting (or in connection with any action by written consent) of the stockholders of Parent at which such matters are considered and at every adjournment or postponement thereof; (ii) against (1) any Acquisition Proposal, (2) any action, proposal, transaction or agreement that would result in a breach of any covenant, representation or warranty or any other obligation or agreement of Parent under the Merger Agreement or any definitive documents governing the Financing Transactions or of Stockholder under this Agreement and (3) any action, proposal, transaction or agreement that would impede, interfere with, delay, discourage, adversely affect or inhibit the timely consummation of the Merger or the fulfillment of Parent's, the Company's or the Merger Sub's conditions under the Merger Agreement or change in any manner the voting rights of any class of shares of Parent. For the avoidance of doubt and notwithstanding any other term hereof, in the event the Special Committee has made any Adverse Recommendation Change, this Agreement shall immediately and automatically terminate and Stockholder will not be bound by any of the provisions hereof and shall be free to vote the Shares (either in person, by proxy, execution of an action by written consent or consents or otherwise), and to cause any holder of record of Shares to vote (either in person, by proxy, execution of an action by written consent or consents or otherwise), on any matter or proposal submitted to Parent stockholders for action or consideration, including without limitation, any Superior Acquisition Proposal.

(b) Stockholder hereby appoints the Company and any designee of the Company, and each of them individually, its proxies and attorneys-in-fact, with full power of substitution and resubstitution, to vote or act by written consent during the term of this Agreement with respect to the Shares in accordance with **Section 3(a)**. This proxy and power of attorney is given to secure the performance of the duties of Stockholder under this Agreement. Stockholder shall take such further action or execute such other instruments as may be necessary to effectuate the intent of this proxy. This proxy and power of attorney granted by Stockholder shall be irrevocable during the term of this Agreement, shall

be deemed to be coupled with an interest sufficient in law to support an irrevocable proxy and shall revoke any and all prior proxies granted by Stockholder with respect to the Shares. The power of attorney granted by Stockholder herein is a durable power of attorney and shall survive the

dissolution, bankruptcy, death or incapacity of Stockholder. The proxy and power of attorney granted hereunder shall terminate upon the termination of this Agreement.

4. **No Voting Trusts or Other Arrangement.** Stockholder agrees that Stockholder will not, and will not permit any entity under Stockholder's control to, deposit any of the Shares in a voting trust, grant any proxies with respect to the Shares or subject any of the Shares to any arrangement with respect to the voting of the Shares other than agreements entered into with the Company.

5. **Transfer and Encumbrance.** Stockholder agrees that during the term of this Agreement, Stockholder will not, directly or indirectly, transfer, sell, offer, exchange, assign, pledge or otherwise dispose of or encumber (*Transfer*) any of the Shares or enter into any contract, option or other agreement with respect to, or consent to, a Transfer of, any of the Shares or Stockholder's voting or economic interest therein. Any attempted Transfer of Shares or any interest therein in violation of this **Section 5** shall be null and void. This **Section 5** shall not prohibit a Transfer of the Shares by Stockholder to any member of Stockholder's immediate family, or to a trust for the benefit of Stockholder or any member of Stockholder's immediate family, or upon the death of Stockholder; provided, that a Transfer referred to in this sentence shall be permitted only if, as a precondition to such Transfer, the transferee agrees in a writing, reasonably satisfactory in form and substance to the Company, to be bound by all of the terms of this Agreement.

6. **Additional Shares.** Stockholder agrees that all shares of Parent Common Stock or other securities convertible into Parent Common Stock that Stockholder purchases, acquires the right to vote or otherwise acquires beneficial ownership (as defined in Rule 13d-3 under the Exchange Act) of after the execution of this Agreement shall be subject to the terms of this Agreement and shall constitute Shares for all purposes of this Agreement.

7. **Termination.** Notwithstanding any other term hereof, this Agreement shall terminate upon the earliest to occur of (a) the Effective Time; (b) the date on which the Merger Agreement is terminated in accordance with its terms; and (c) any Adverse Recommendation Change made by the Special Committee.

8. **No Agreement as Director or Officer.** Stockholder makes no agreement or understanding in this Agreement in Stockholder's capacity as a director or officer of Parent or any of its subsidiaries, and nothing in this Agreement: (a) will limit or affect any actions or omissions taken by Stockholder in Stockholder's capacity as such a director or officer, including in exercising rights under the Merger Agreement, and no such actions or omissions shall be deemed a breach of this Agreement or (b) will be construed to prohibit, limit or restrict Stockholder from exercising Stockholder's fiduciary or legal duties as an officer or director to Parent or its stockholders and Stockholder will not be in breach or violation of this Agreements for exercising such fiduciary or legal duties.

9. **Specific Performance.** Each Party hereto acknowledges that it will be impossible to measure in money the damage to the other Parties if a Party hereto fails to comply with any of the obligations imposed by this Agreement, that every such obligation is material and that, in the event of any such failure, the other Parties will not have an adequate remedy at law or damages. Accordingly, each Party hereto agrees that injunctive relief or other equitable remedy, in addition to remedies at law or damages, is the appropriate remedy for any such failure and will not oppose the seeking of such relief on the basis that the other Parties has an adequate remedy at law. Each Party hereto agrees that it will not seek, and agrees to waive any requirement for, the securing or posting of a bond in connection with the other Parties seeking or obtaining such equitable relief.

10. **Entire Agreement.** This Agreement supersedes all prior agreements, written or oral, between the Parties hereto with respect to the subject matter hereof and contains the entire agreement between the Parties with respect to the subject matter hereof. This Agreement may not be amended or supplemented, and no provisions hereof may be modified or waived, except by an instrument in writing signed by both of the Parties hereto. No waiver of any

provisions hereof by either Party shall be deemed a waiver of any other provisions hereof by such Party, nor shall any such waiver be deemed a continuing waiver of any provision hereof by such Party.

(c) EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES AND, THEREFORE, EACH SUCH PARTY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY LEGAL ACTION ARISING OUT OF OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT. EACH PARTY TO THIS AGREEMENT CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT SEEK TO ENFORCE THE FOREGOING WAIVER IN THE EVENT OF A LEGAL ACTION, (B) SUCH PARTY HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (C) SUCH PARTY MAKES THIS WAIVER VOLUNTARILY, AND (D) SUCH PARTY HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS **Section 12(c)**.

July 25, 2017

The Special Committee of the Board of Directors of

Infosonics Corporation

c/o

Mr. Kirk A. Waldron

Mr. Randall P. Marx

3636 Nobel Drive, Suite 325

San Diego, CA 92122

Dear Members of the Special Committee of the Board of Directors:

As described further below, we understand that Infosonics Corporation, a Maryland corporation ("Infosonics" or the "Company") is considering the following two potential transactions: (i) a private placement of shares of the Company's common stock and warrants to purchase shares of the Company's common stock, and (ii) the acquisition by the Company of Cooltech Holding Corp. ("Cooltech" or "Merger Partner") pursuant to the merger of Cooltech with and into a wholly owned subsidiary of the Company.

First, we understand that Infosonics is contemplating a potential transaction whereby the Company would issue 6,875,000 shares of the Company's common stock and warrants to purchase 6,875,000 shares of the Company's common stock to certain investors (collectively, the "Private Placement Investors"). Pursuant to one securities purchase agreement contemplated by this transaction (the "First Tranche Securities Purchase Agreement"), (a) 2,500,000 shares of the Company's common stock (the "First Tranche Shares") will be privately placed at \$0.40 per share (the "First Tranche Consideration") and (b) the Company will issue warrants to purchase 2,500,000 shares of the Company's common stock at a 10% premium to the closing bid price of the Company's common stock on the business day prior to the execution of the First Tranche Securities Purchase Agreement (the "First Tranche Warrants" and, collectively with the First Tranche Shares, the "First Tranche Securities"). Pursuant to another securities purchase agreement contemplated by this transaction (the "Second Tranche Securities Purchase Agreement" and, together with the First Tranche Securities Purchase Agreement, the "Securities Purchase Agreements"), (a) 4,375,000 shares of the Company's common stock (the "Second Tranche Shares") will be privately placed at \$0.40 per share (the "Second Tranche Consideration" and, collectively with the First Tranche Consideration, the "Private Placement Consideration") and (b) the Company will issue warrants to purchase 4,375,000 shares of the Company's common stock at a 10% premium to the closing bid price of the Company's common stock on the business day prior to the execution of the Second Tranche Securities Purchase Agreement (the "Second Tranche Warrants" and, collectively with the Second Tranche Shares, the "Second Tranche Securities"). The First Tranche Securities and Second Tranche Securities are collectively referred to herein as the "Private Placement Securities" . The execution of the Securities Purchase Agreements and the consummation of the transactions contemplated thereby, including the Company's receipt of the Private Placement

Consideration and the issuance of the Private Placement Securities, is hereby referred to as the Private Placement Transaction .

In addition, InfoSonics is contemplating a potential transaction in which InfoSonics and its wholly-owned subsidiary, InfoSonics Acquisition Sub, Inc., a Nevada corporation (Merger Subsidiary), will enter into an Agreement and Plan of Merger (the Merger Agreement) by and among Cooltech, InfoSonics and Merger Subsidiary. Pursuant to the Merger Agreement, Cooltech would merge with and into Merger Subsidiary, with Cooltech surviving the merger as a wholly owned subsidiary of the Company, and the Company issuing 62,500,000 shares of the Company s common stock, in the aggregate, to the securityholders of Cooltech immediately prior to the Merger (the Merger). We understand that the Merger would occur as soon as practicable following the consummation of the Private Placement Transactions. The Private Placement Transaction and the Merger are referred to hereinafter, together, as the Transactions .

It is our understanding that the holders of the Company s outstanding common stock immediately preceding the Transactions (the Existing Company Stockholders) will hold shares of the Company s common stock equal to 15.9% of the Company s common stock on a fully diluted basis following the consummation of the Transactions.

The Special Committee of the Board of Directors of InfoSonics (the Special Committee) has requested that Stout Risius Ross, LLC (Stout) render an opinion to the Special Committee with respect to the fairness, from a financial point of view, of the Private Placement Consideration to be received by the Company pursuant to the Private Placement Transaction (the Private Placement Opinion). In addition, the Special Committee of the Board of Directors of InfoSonics has requested that Stout render an opinion to the Special Committee with respect to the fairness, from a financial point of view, of the Merger to the Existing Company Stockholders (the Merger Opinion). The foregoing Private Placement Opinion and the Merger Opinion are referred to hereinafter, together, as the Opinions .

The Opinions are intended to be utilized by the Special Committee as only one input to consider in its process of analyzing the Transactions. No opinion, counsel or interpretation is intended in matters that require legal, regulatory, accounting, insurance, tax or other similar professional advice. We have not been requested to opine as to, and our Opinions do not in any manner address the following: (i) the underlying business decision of the Company, its securityholders, the Board of Directors of the Company (the Board), the Special Committee or any other party to proceed with or effect the Transactions; (ii) the merits of the Transactions relative to any alternative business strategies that may exist for the Company or any other party or the effect of any other transactions in which the Company or any other party might have engaged; (iii) the terms of any arrangements, understandings, agreements or documents related to, or the form or any other portion or aspect of, the Transactions or otherwise, except as expressly addressed in the Opinions; (iv) the fairness of any portion or aspect of the Transactions to the holders of any class of securities, creditors or other constituencies of the Company, or to any other party, not specifically addressed in the Opinions; (v) the solvency, creditworthiness or fair value of the Company or any other participant in the Transactions under any applicable laws relating to bankruptcy, insolvency or similar matters or (vi) how the Board, the Special Committee, the Company s securityholders or any other person should act with respect to the Transactions.

Further, the Opinions are not intended to and do not constitute a recommendation to any stockholder of the Company as to how such stockholder should vote in regard to the Transactions. The Special Committee acknowledges that Stout was not engaged to, and has not, (a) initiated any discussions with, or solicited any indications of interest from, third parties with respect to (i) the Transactions, (ii) the assets of the Company, (iii) any businesses or operations of the Company, Merger Partner or any other party, or (iv) any alternatives to the Transactions, or (b) negotiated the terms of the Transactions or the financing for the Transactions.

Our understanding that the Existing Company Stockholders will hold shares of the Company's common stock equal to 15.9% of the Company's common stock on a fully diluted basis following the consummation of the Transactions; and

An analysis of other facts and data resulting in our conclusions.

Our Opinions are also premised on the assumption that the assets, liabilities, financial condition, and prospects of InfoSonics as of the date of this letter have not changed materially since May 31, 2017, the date of the most recent financial statements made available to us. Our Opinions are premised on the assumption that the assets, liabilities, financial condition, and prospects of Cooltech as of the date of this letter have not changed materially since June 30, 2017, the date of the most recent financial statements made available to us.

In rendering our Opinions, we have not been provided, at this time, a consolidated balance sheet of Cooltech on a pro forma basis reflecting the proposed acquisition of OneClick License LLC and OneClick International LLC (together OneClick) since the acquisition of OneClick has not closed as of the date of the Opinions. As such, our Opinions are premised upon and assume that any such pro forma consolidated balance sheet of Cooltech, which we believe would include, among other things, the effect of the assets and liabilities of OneClick and other affiliates, to the extent appropriate, would have no material effect on the other materials related to Cooltech we have reviewed and the overall valuation of Cooltech. The Company and the Special Committee are encouraged to undertake its own review and opinion of the effect, if any, of any such pro forma consolidated balance sheet of Cooltech on the Cooltech Financial Statements, the material reviewed and relied upon in connection with the Opinions, and the valuation of Cooltech. Without limiting the generality of the foregoing, in rendering our Opinions, we have assumed that the indebtedness reflected on any such pro forma consolidated balance sheet of Cooltech will not exceed the sum of (a) \$2.3 million of existing indebtedness as of June 30, 2017 plus (b) \$8.9 million of indebtedness incurred in connection with the acquisition of OneClick. We further assume that Cooltech on a pro forma basis and upon consummation of the Transaction will have sufficient working capital.

In rendering our Opinions, we have also assumed and relied upon, without independent verification, (i) the accuracy and completeness of all financial and other information that was publicly available, furnished by Cooltech, furnished by InfoSonics, or otherwise reviewed by or discussed with us and (ii) the representations and warranties contained in

the drafts of the Securities Purchase Agreements and Merger Agreement that we have reviewed. We have also relied upon representations of management of Cooltech and Infosonics that they are not aware of any facts that would make any of the information provided or made available inaccurate, incomplete or misleading. We have assumed, without independent verification, that the financial forecasts and projections for

InfoSonics and Cooltech provided to us have been prepared in good faith and reflect the best currently available estimate of the future financial results of the Company and Cooltech, and we have relied upon such projections in arriving at our Opinions. We have not been engaged to assess the reasonableness or achievability of such forecasts and projections or the assumptions upon which they were based, and we express no view as to the forecasts, projections, or assumptions. We have assumed that the Transactions will be consummated on the terms described in the Securities Purchase Agreements and the Merger Agreement, as applicable, without any waiver of any material terms or conditions by the parties to these agreements.

We have not conducted a physical inspection of InfoSonics or Cooltech's facilities or assets. We have assumed, with your consent, that the final executed forms of the Securities Purchase Agreements and the Merger Agreement will not materially differ from the draft of the agreements that we have examined, that the conditions to the Transactions as set forth in the Securities Purchase Agreements and the Merger Agreement will be satisfied, and that the Transactions will be consummated on a timely basis in the manner contemplated by the Securities Purchase Agreements and the Merger Agreement. Our Opinions are necessarily based on business, economic, market, and other conditions as they exist and can be evaluated by us at the date of this letter. It should be noted that although subsequent developments may affect these Opinions, we do not have any obligation to update, revise, or reaffirm our Opinions. We reserve the right, however, to withdraw, revise, or modify our Opinions based upon additional information that may be provided to or obtained by us after the issuance of the Opinions that suggests, in our judgment, a material change in the assumptions upon which our Opinions are based.

Stout conducted its analyses at the request of the Special Committee to provide a particular perspective of the Transactions. In so doing, Stout did not form a conclusion as to whether any individual analysis, when considered independently of the other analyses conducted by Stout, supported or failed to support our Opinions as to the fairness of the Transactions from a financial point of view. Stout does not specifically rely upon or place any specific weight on any individual analysis. Rather, Stout deems that the analyses, taken as a whole, support our conclusion and Opinions. Accordingly, Stout believes that the analyses must be considered in their entirety, and that selecting portions of the analyses or the factors they considered, without considering all analyses and factors together, could create an imperfect view of the processes underlying the analyses performed by Stout in connection with the preparation of the Opinions.

Our Opinions are furnished for the use and benefit of the Special Committee in connection with the Transactions and are not intended to be used, and may not be used, for any other purpose without our express prior written consent. Further, our Opinions are not intended to, and do not, confer any rights or remedies upon any other person except Existing Company Stockholders, and only to the extent such persons have such rights or remedies under applicable laws or regulations. Without limiting the generality of the foregoing, our Opinions may not be used or relied upon by the Private Placement Investors, Cooltech or Cooltech's securityholders, in connection with the Transactions or otherwise. We will receive a fee for the Opinions and financial advisory services; however, our compensation for providing the Opinions and the financial advisory services to the Special

Committee is neither based upon nor contingent on the results of our engagement or the consummation of the proposed Transactions. Further, none of our employees who worked on this engagement has any known financial interest in the assets or equity of InfoSonics or Cooltech or the outcome of our engagement. In addition, InfoSonics has agreed to indemnify us for certain liabilities arising out of our engagement. We have not previously provided financial advisory services to InfoSonics. We may provide other financial advisory services to the Company, the Special Committee or InfoSonics in the future and from time to time.

The issuance of the Opinions has been approved by a committee of Stout authorized to approve opinions of this nature.

It is understood that the Opinions were prepared at the request of the Special Committee for its confidential use and may not be reproduced, disseminated, quoted, or referred to at any time in any manner or for any purpose without our prior written consent, except as required by applicable securities laws. Notwithstanding anything to the contrary, the Company may reproduce this letter in its entirety in any filing with the Securities and Exchange Commission required to be made by the Company in respect of the Transaction pursuant to the Securities Act of 1933 or the Securities Exchange Act of 1934; provided, however, that this letter shall be reproduced in such document in full and any description of, or reference to, us or this letter will be in a form reasonably acceptable to us and our counsel.

Based upon and subject to the foregoing, it is our opinion that, as of the date hereof, the Private Placement Consideration to be received by the Company pursuant to the Private Placement Transaction is fair to the Company, from a financial point of view. Moreover, it is our opinion that, as of the date hereof, the Merger is fair to the Existing Company Stockholders from a financial point of view.

Yours very truly,

No fractional shares of Common Stock are to be issued upon the conversion of any Preferred Shares. If the issuance would result in the issuance of a fraction of a share of Common Stock, the Company shall round such fraction of a share of Common Stock up to the nearest whole share.

(c) **Mechanics of Conversion.** The conversion of each Preferred Share shall be conducted in the following manner:

(i) **Holder's Conversion.** To convert a Preferred Share into validly issued, fully paid and non-assessable shares of Common Stock on any date (a **Conversion Date**), a Holder shall deliver (whether via facsimile or otherwise), for receipt on or prior to 11:59 p.m., New York time, on such date, a copy of an executed notice of conversion of the share(s) of Preferred Shares subject to such conversion in the form attached hereto as **Exhibit I** (the **Conversion Notice**) to the Company. If required by Section 4(c)(vi), within five (5) Trading Days following a conversion of any such Preferred Shares as aforesaid, such Holder shall surrender to a nationally recognized overnight delivery service for delivery to the Company the original certificates representing the share(s) of Preferred Shares (the **Preferred Share Certificates**) so converted as aforesaid.

(ii) **Company's Response.** On or before the second (2nd) Trading Day following the date of receipt of a Conversion Notice, the Company shall transmit by facsimile an acknowledgment of confirmation, in the form attached hereto as **Exhibit II**, of receipt of such Conversion Notice to such Holder and the transfer agent for the Company's Common Stock (the **Transfer Agent**), which confirmation shall constitute an instruction to the Transfer Agent to process such Conversion Notice in accordance with the terms herein. On or before the second (2nd) Trading Day following the date of receipt by the Company of such Conversion Notice, the Company shall (1) provided that the Transfer Agent is participating in DTC Fast Automated Securities Transfer Program, credit such aggregate number of shares of Common Stock to which such Holder shall be entitled to such Holder's or its designee's balance account with DTC

through its Deposit/Withdrawal at Custodian system, or (2) if the Transfer Agent is not participating in the DTC Fast Automated Securities Transfer Program, issue and deliver (via reputable overnight courier) to the

address as specified in such Conversion Notice, a certificate, registered in the name of such Holder or its designee, for the number of shares of Common Stock to which such Holder shall be entitled. If the number of Preferred Shares represented by the Preferred Share Certificate(s) submitted for conversion pursuant to Section 4(c)(vi) is greater than the number of Preferred Shares being converted, then the Company shall if requested by such Holder, as soon as practicable and in no event later than three (3) Trading Days after receipt of the Preferred Share Certificate(s) and at its own expense, issue and deliver to such Holder (or its designee) a new Preferred Share Certificate representing the number of Preferred Shares not converted.

(iii) **Record Holder**. The Person or Persons entitled to receive the shares of Common Stock issuable upon a conversion of Preferred Shares shall be treated for all purposes as the record holder or holders of such shares of Common Stock on the Conversion Date.

(iv) **Company's Failure to Timely Convert**. If the Company shall fail, for any reason or for no reason, to issue to a Holder within three (3) Trading Days after the Company's receipt of a Conversion Notice (whether via facsimile or otherwise) (the **Share Delivery Deadline**), a certificate for the number of shares of Common Stock to which such Holder is entitled and register such shares of Common Stock on the Company's share register or to credit such Holder's or its designee's balance account with DTC for such number of shares of Common Stock to which such Holder is entitled upon such Holder's conversion of any Preferred Shares (as the case may be) (a **Conversion Failure**), then, in addition to all other remedies available to such Holder, such Holder, upon written notice to the Company, may void its Conversion Notice with respect to, and retain or have returned (as the case may be) any Preferred Shares that have not been converted pursuant to such Holder's Conversion Notice, provided that the voiding of a Conversion Notice shall not affect the Company's obligations to make any payments which have accrued prior to the date of such notice pursuant to the terms of these Articles Supplementary or otherwise and (y) the Company shall pay in cash to such Holder on each day after such third (3rd) Trading Day that the issuance of such shares of Common Stock is not timely effected an amount equal to 1.5% of the product of (A) the aggregate number of shares of Common Stock not issued to such Holder on a timely basis and to which the Holder is entitled and (B) the Closing Sale Price of the Common Stock on the Trading Day immediately preceding the last possible date on which the Company could have issued such shares of Common Stock to the Holder without violating Section 4(c). In addition to the foregoing, if within three (3) Trading Days after the Company's receipt of a Conversion Notice (whether via facsimile or otherwise), the Company shall fail to issue and deliver a certificate to such Holder and register such shares of Common Stock on the Company's share register or credit such Holder's or its designee's balance account with DTC for the number of shares of Common Stock to which such Holder is entitled upon such Holder's conversion hereunder (as the case may be), and if on or after such third (3rd) Trading Day such Holder (or any other Person in respect, or on behalf, of such Holder) purchases (in an open market transaction or otherwise) shares of Common Stock to deliver in satisfaction of a sale by such Holder of all or any portion of the number of shares of Common Stock, or a sale of a number of shares of Common Stock equal to all or any portion of the number of shares of Common Stock, issuable upon such conversion that such Holder so anticipated receiving from the Company, then, in addition to all other remedies available to such Holder, the Company shall, within three (3) Business Days after such Holder's request and in such Holder's discretion, either (i) pay cash to such Holder in an amount equal to such Holder's total purchase price (including brokerage commissions and other out-of-pocket expenses, if any) for the shares of Common Stock so purchased (including, without limitation, by any other Person in respect, or on behalf, of such Holder) (the **Buy-In Price**), at which point the Company's obligation to so issue and deliver such certificate or credit such Holder's balance account with DTC for the number of shares of Common Stock to which such Holder is entitled upon such Holder's conversion hereunder (as the case may be) (and to issue such shares of Common Stock) shall terminate, or (ii) promptly honor its obligation to so issue and deliver to such Holder a certificate or certificates representing such shares of Common Stock

or credit such Holder's balance account with DTC for the number of shares of Common Stock to which such Holder is entitled upon such Holder's conversion hereunder (as the case may be) and pay cash to such Holder in an amount equal to the excess (if any) of the Buy-In Price over the product of (A) such number of shares of Common Stock multiplied by (B) the lowest Closing Sale Price of the Common Stock on any Trading Day during the period commencing on the date of the applicable Conversion Notice and ending on the date of such issuance and payment under this clause

(v) **Pro Rata Conversion; Disputes.** In the event the Company receives a Conversion Notice from more than one Holder for the same Conversion Date and the Company can convert some, but not all, of such Preferred Shares submitted for conversion, the Company shall convert from each Holder electing to have Preferred Shares converted on such date a pro rata amount of such Holder's Preferred Shares submitted for conversion on such date based on the number of Preferred Shares submitted for conversion on such date by such Holder relative to the aggregate number of Preferred Shares submitted for conversion on such date. In the event of a dispute as to the number of shares of Common Stock issuable to a Holder in connection with a conversion of Preferred Shares, the Company shall issue to such Holder the number of shares of Common Stock not in dispute and resolve such dispute in accordance with Section 22.

(vi) **Book-Entry.** Notwithstanding anything to the contrary set forth in this Section 4, upon conversion of any Preferred Shares in accordance with the terms hereof, no Holder thereof shall be required to physically surrender the certificate representing the Preferred Shares to the Company following conversion thereof unless (A) the full or remaining number of Preferred Shares represented by the certificate are being converted (in which event such certificate(s) shall be delivered to the Company as contemplated by this Section 4(c)(vi)) or (B) such Holder has provided the Company with prior written notice (which notice may be included in a Conversion Notice) requesting reissuance of Preferred Shares upon physical surrender of any Preferred Shares. Each Holder and the Company shall maintain records showing the number of Preferred Shares so converted by such Holder and the dates of such conversions or shall use such other method, reasonably satisfactory to such Holder and the Company, so as not to require physical surrender of the certificate representing the Preferred Shares upon each such conversion. In the event of any dispute or discrepancy, such records of such Holder establishing the number of Preferred Shares to which the record holder is entitled shall be controlling and determinative in the absence of manifest error. A Holder and any transferee or assignee, by acceptance of a certificate, acknowledge and agree that, by reason of the provisions of this paragraph, following conversion of any Preferred Shares, the number of Preferred Shares represented by such certificate may be less than the number of Preferred Shares stated on the face thereof. Each certificate for Preferred Shares shall bear the following legend:

ANY TRANSFEREE OR ASSIGNEE OF THIS CERTIFICATE SHOULD CAREFULLY REVIEW THE TERMS OF THE CORPORATION'S ARTICLES OF INCORPORATION AND ARTICLES SUPPLEMENTARY RELATING TO THE SHARES OF 0% SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE, INCLUDING SECTION 4(c)(vi) OF THE ARTICLES SUPPLEMENTARY. THE NUMBER OF SHARES OF 0% SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE MAY BE LESS THAN THE NUMBER OF SHARES OF 0% SERIES A PREFERRED STOCK STATED ON THE FACE HEREOF PURSUANT TO SECTION 4(c)(vi) OF THE ARTICLES SUPPLEMENTARY RELATING TO THE SHARES OF 0% SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE.

(d) **Taxes.** The Company shall pay any and all documentary, stamp, transfer (but only in respect of the registered holder thereof), issuance and other similar taxes that may be payable with respect to the issuance and delivery of shares of Common Stock upon the conversion of Preferred Shares.

(e) **Limitation on Beneficial Ownership.** Notwithstanding anything to the contrary contained in the Charter or Articles Supplementary, the Preferred Shares held by a Holder shall not be convertible by such Holder, and the Company shall not effect any conversion of any Preferred Shares held by such Holder, to the extent (but only to the extent) that such Holder or any of its affiliates would beneficially own in excess of 4.99% (the **Maximum Percentage**) of the Common Stock. To the extent the above limitation applies, the determination of whether the Preferred Shares held by such Holder shall be convertible (vis-à-vis other convertible, exercisable or exchangeable securities owned by such Holder or any of its affiliates) and of which such securities shall be convertible, exercisable or exchangeable (as among all such securities owned by such Holder and its affiliates) shall, subject to such Maximum Percentage limitation, be determined on the basis of the first submission to the Company for conversion, exercise or exchange (as the case may be). No prior inability of a Holder to convert Preferred Shares, or of the Company to issue shares of Common Stock to such Holder, pursuant to this Section 4(e) shall have any effect on the applicability of the provisions of this Section 4(e) with respect to any subsequent determination of convertibility or issuance (as the case may be). For purposes of this Section 4(e), beneficial ownership and all determinations and calculations (including, without limitation, with respect to calculations of percentage ownership) shall be determined in accordance with Section 13(d) of the 1934 Act and the rules and regulations promulgated thereunder. The provisions of this Section 4(e) shall be implemented in a manner otherwise than in strict conformity with the terms of this Section 4(e) to correct this Section 4(e) (or any portion hereof) which may be defective or inconsistent with the intended Maximum Percentage beneficial ownership limitation herein contained or to make changes or supplements necessary or desirable to properly give effect to such Maximum Percentage limitation. The limitations contained in this Section 4(e) shall apply to a successor holder of Preferred Shares. The holders of Common Stock shall be third party beneficiaries of this Section 4(e) and the Company may not waive this Section 4(e). For any reason at any time, upon the written or oral request of a Holder, the Company shall within two (2) Business Days confirm orally and in writing to such Holder the number of shares of Common Stock then outstanding, including by virtue of any prior conversion or exercise of convertible or exercisable securities into Common Stock, including, without limitation, pursuant to these Articles Supplementary or securities issued pursuant to the Exchange Agreements. By written notice to the Company, any Holder may increase or decrease the Maximum Percentage to any other percentage not in excess of 9.99% specified in such notice; provided that (i) any such increase will not be effective until the 61st day after such notice is delivered to the Company, and (ii) any such increase or decrease will apply only to such Holder sending such notice and not to any other Holder.

5. Rights Upon Issuance of Purchase Rights and Other Corporate Events.

(a) **Purchase Rights.** Notwithstanding subsection (d) of Article FOURTH of the Charter, and in addition to any adjustments pursuant to Section 7 below, if at any time the Company grants, issues or sells any Options, Convertible Securities or rights to purchase stock, warrants, securities or other property pro rata to all of the record holders of any class of Common Stock (the **Purchase Rights**), then each Holder will be entitled to acquire, upon the terms applicable to such Purchase Rights, the aggregate Purchase Rights which such Holder could have acquired if such Holder had held the number of shares of Common Stock acquirable upon complete conversion of all the Preferred Shares (without taking into account any limitations or restrictions on the convertibility of the Preferred Shares) held by such Holder immediately before the date on which a record is taken for the grant, issuance or sale of such Purchase Rights, or, if no such record is taken, the date as of which the record holders of Common Stock are to be determined for the grant, issue or sale of such Purchase Rights (provided, however, to the extent that such Holder's right to participate in any such Purchase Right would result in such Holder exceeding the Maximum Percentage, then such Holder shall not be entitled to participate in such Purchase Right to such extent (or beneficial ownership of such shares of Common Stock as a result of such Purchase Right to such extent) and such Purchase Right to such extent shall be held in abeyance for such Holder until such time, if ever, as its right thereto would not result in such Holder exceeding the Maximum Percentage).

(b) **Other Corporate Events.** In addition to and not in substitution for any other rights hereunder, prior to the consummation of any Fundamental Transaction pursuant to which holders of shares of Common Stock are entitled to receive securities or other assets with respect to or in exchange for shares of Common Stock (a **Corporate Event**), the Company shall make appropriate provision to insure that each Holder will thereafter have the right to receive upon a conversion of all the Preferred Shares held by such Holder (i) in addition to the shares of Common Stock receivable upon such conversion, such securities or other assets to which such Holder would have been entitled with respect to such shares of Common Stock had such shares of Common Stock been held by such Holder upon the consummation of such Corporate Event (without taking into account any limitations or restrictions on the convertibility of the Preferred Shares contained in these Articles Supplementary) or (ii) in lieu of the shares of Common Stock otherwise receivable upon such conversion, such securities or other assets received by the holders of shares of Common Stock in connection with the consummation of such Corporate Event in such amounts as such Holder would have been entitled to receive had the Preferred Shares held by such Holder initially been issued with conversion rights for the form of such consideration (as opposed to shares of Common Stock) at a conversion rate for such consideration commensurate with the Conversion Rate. The provisions of this Section 5(b) shall apply similarly and equally to successive Corporate Events and shall be applied without regard to any limitations on the conversion of the Preferred Shares contained in these Articles Supplementary.

6. **Rights Upon Fundamental Transactions.** Upon the occurrence of any Fundamental Transaction, the Successor Entity shall succeed to, and be substituted for (so that from and after the date of such Fundamental Transaction, the provisions of the Charter and Articles Supplementary and the other Transaction Documents referring to the Company shall refer instead to the Successor Entity), and may exercise every right and power of the Company and shall assume all of the obligations of the Company under the Charter and Articles Supplementary and the other Transaction Documents with the same effect as if such Successor Entity had been named as the Company herein and therein. In addition to the foregoing, upon consummation of a Fundamental Transaction, the Successor Entity shall deliver to each Holder confirmation that there shall be issued upon conversion of the Preferred Shares at any time after the consummation of such Fundamental Transaction, in lieu of the shares of Common Stock (or other securities, cash, assets or other property (except such items still issuable under Sections 5 and 11, which shall continue to be receivable thereafter)) issuable upon the conversion of the Preferred Shares prior to such Fundamental Transaction, such shares of the Successor Entity (including its Parent Entity) or other consideration which each Holder would have been entitled to receive upon the happening of such Fundamental Transaction had all the Preferred Shares held by each Holder been converted immediately prior to such Fundamental Transaction (without regard to any limitations on the conversion of the Preferred Shares contained in these Articles Supplementary), as adjusted in accordance with the provisions of these Articles Supplementary. The provisions of this Section 6 shall apply similarly and equally to successive Fundamental Transactions and shall be applied without regard to any limitations on the conversion of the Preferred Shares.

7. **Rights Upon Issuance of Other Securities.**

(i) (a) **Record Date.** If the Company takes a record of the holders of shares of Common Stock for the purpose of entitling them (A) to receive a dividend or other distribution payable in shares of Common Stock, Options or in Convertible Securities or (B) to subscribe for or purchase shares of Common Stock, Options or Convertible Securities, then such record date will be deemed to be the date of the issue or sale of the shares of Common Stock deemed to have been issued or sold upon the declaration of such dividend or the making of such other distribution or the date of the granting of such right of subscription or purchase (as the case may be).

(b) **Adjustment of Conversion Price upon Subdivision or Combination of Common Stock.** Without limiting any provision of Sections 5 and 11, if the Company at any time on or after the Initial Issuance Date subdivides (by any stock split, stock dividend, recapitalization or otherwise) one or more classes of its outstanding shares of Common

Stock into a greater number of shares, the Conversion Price in effect immediately prior to such subdivision will be proportionately reduced. Without limiting any provision of

Table of Contents

Sections 5 and 11, if the Company at any time on or after the Initial Issuance Date combines (by combination, reverse stock split or otherwise) one or more classes of its outstanding shares of Common Stock into a smaller number of shares, the Conversion Price in effect immediately prior to such combination will be proportionately increased. Any adjustment pursuant to this Section 7(b) shall become effective immediately after the effective date of such subdivision or combination. If any event requiring an adjustment under this Section 7(b) occurs during the period that a Conversion Price is calculated hereunder, then the calculation of such Conversion Price shall be adjusted appropriately to reflect such event.

(c) **Other Events.** In the event that the Company (or any Subsidiary) shall take any action to which the provisions hereof are not strictly applicable, or, if applicable, would not operate to protect any Holder from dilution or if any event occurs of the type contemplated by the provisions of this Section 7 but not expressly provided for by such provisions (including, without limitation, the granting of stock appreciation rights, phantom stock rights or other rights with equity features), then the Board shall in good faith determine and implement an appropriate adjustment in the Conversion Price so as to protect the rights of such Holder, provided that no such adjustment pursuant to this Section 7(c) will increase the Conversion Price as otherwise determined pursuant to this Section 7, provided further that if such Holder does not accept such adjustments as appropriately protecting its interests hereunder against such dilution, then the Board and such Holder shall agree, in good faith, upon an independent investment bank of nationally recognized standing to make such appropriate adjustments, whose determination shall be final and binding and whose fees and expenses shall be borne by the Company.

(d) **Calculations.** All calculations under this Section 7 shall be made by rounding to the nearest one-hundred thousandth of a cent or the nearest 1/100th of a share, as applicable. The number of shares of Common Stock outstanding at any given time shall not include shares owned or held by or for the account of the Company, and the disposition of any such shares shall be considered an issue or sale of Common Stock.

8. Authorized Shares.

(a) **Reservation.** The Company shall initially reserve out of its authorized and unissued Common Stock a number of shares of Common Stock equal to 125% of the Conversion Rate with respect to the Base Amount of each Preferred Share as of the Initial Issuance Date (assuming for purposes hereof, that all the Preferred Shares issuable pursuant to the Merger Agreement have been issued, such Preferred Shares are convertible at the Conversion Price and without taking into account any limitations on the conversion of such Preferred Shares set forth in herein) issuable pursuant to the terms of these Articles Supplementary from the Initial Issuance Date through the second anniversary of the Initial Issuance Date assuming (assuming for purposes hereof, that all the Preferred Shares issuable pursuant to the Merger Agreement have been issued and without taking into account any limitations on the issuance of securities set forth herein). So long as any of the Preferred Shares are outstanding, the Company shall take all action necessary to reserve and keep available out of its authorized and unissued shares of Common Stock, solely for the purpose of effecting the conversion of the Preferred Shares, as of any given date, 125% of the number of shares of Common Stock as shall from time to time be necessary to effect the conversion of all of the Preferred Shares issued or issuable pursuant to the Merger Agreement assuming for purposes hereof, that all the Preferred Shares issuable pursuant to the Merger Agreement have been issued and without taking into account any limitations on the issuance of securities set forth herein), provided that at no time shall the number of shares of Common Stock so available be less than the number of shares required to be reserved by the previous sentence (without regard to any limitations on conversions contained in the Charter or Articles Supplementary) (the **Required Amount**). The initial number of shares of Common Stock reserved for conversions of the Preferred Shares and each increase in the number of shares so reserved shall be allocated pro rata among the Holders based on the number of Preferred Shares held by each Holder on the Initial Issuance Date or increase in the number of reserved shares (as the case may be) (the **Authorized Share Allocation**). In the event a Holder shall sell or otherwise transfer any of such Holder's Preferred Shares, each transferee shall be

allocated a pro rata portion of such Holder's Authorized Share Allocation.

E-7

Table of Contents

Any shares of Common Stock reserved and allocated to any Person which ceases to hold any Preferred Shares shall be allocated to the remaining Holders of Preferred Shares, pro rata based on the number of Preferred Shares then held by such Holders.

(i) **Insufficient Authorized Shares.** If, notwithstanding Section 8(a) and not in limitation thereof, at any time while any of the Preferred Shares remain outstanding the Company does not have a sufficient number of authorized and unissued shares of Common Stock to satisfy its obligation to have available for issuance upon conversion of the Preferred Shares at least a number of shares of Common Stock equal to the Required Amount (an **Authorized Share Failure**), then the Company shall promptly take all action necessary to increase the Company's authorized shares of Common Stock to an amount sufficient to allow the Company to reserve and have available the Required Amount for all of the Preferred Shares then outstanding. Without limiting the generality of the foregoing sentence, as soon as practicable after the date of the occurrence of an Authorized Share Failure, but in no event later than sixty (60) days after the occurrence of such Authorized Share Failure, the Company shall hold a meeting of its stockholders or conduct a consent solicitation for the approval of an increase in the number of authorized shares of Common Stock. In connection with such meeting, the Company shall provide each stockholder with a proxy statement and shall use its commercially reasonable efforts to solicit its stockholders' approval of such increase in authorized shares of Common Stock and to cause its Board to recommend to the stockholders that they approve such proposal. Nothing contained in this Section 8 shall limit any obligations of the Company under any provision of the Merger Agreement. In the event that the Company is prohibited from issuing shares of Common Stock upon a conversion of any Preferred Share due to the failure by the Company to have sufficient shares of Common Stock available out of the authorized but unissued shares of Common Stock (such unavailable number of shares of Common Stock, the **Authorization Failure Shares**), in lieu of delivering such Authorization Failure Shares to such Holder of such Preferred Shares, the Company shall pay cash in exchange for the cancellation of such Preferred Shares convertible into such Authorized Failure Shares at a price equal to the sum of (i) the product of (x) such number of Authorization Failure Shares and (y) the Closing Sale Price on the Trading Day immediately preceding the date such Holder delivers the applicable Conversion Notice with respect to such Authorization Failure Shares to the Company and (ii) to the extent such Holder purchases (in an open market transaction or otherwise) shares of Common Stock to deliver in satisfaction of a sale by such Holder of Authorization Failure Shares, any brokerage commissions and other out-of-pocket expenses, if any, of such Holder incurred in connection therewith.

9. **Voting Rights.** Except as otherwise expressly required by law, each holder of Preferred Shares shall be entitled to vote on all matters submitted to shareholders of the Company and shall be entitled to the number of votes for each Preferred Share owned at the record date for the determination of shareholders entitled to vote on such matter or, if no such record date is established, at the date such vote is taken or any written consent of shareholders is solicited, equal to the number of shares of Common Stock such Preferred Shares are convertible into (voting as a class with Common Stock) based on a per share price of \$1.00, but not in excess of the conversion limitations set forth in Section 4(e) herein. Except as otherwise required by law, the holders of Preferred Shares shall vote together with the holders of Common Stock on all matters and shall not vote as a separate class.

10. **Liquidation, Dissolution, Winding-Up.** In the event of a Liquidation Event, the Holders shall be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its shareholders (the **Liquidation Funds**), before any amount shall be paid to the holders of any of shares of Junior Stock, an amount per Preferred Share equal to the greater of (a) par value of the Preferred Shares, and (b) the amount per share such Holder would receive if such Holder converted such Preferred Shares into Common Stock immediately prior to the date of such payment; provided, however, that, if the Liquidation Funds are insufficient to pay the full amount due to the Holders and holders of shares of Parity Stock, then each Holder and each holder of Parity Stock shall receive a percentage of the Liquidation Funds equal to the full

Table of Contents

amount of Liquidation Funds payable to such Holder and such holder of Parity Stock as a liquidation preference, in accordance with their respective articles supplementary (or equivalent), as a percentage of the full amount of Liquidation Funds payable to all holders of Preferred Shares and all holders of shares of Parity Stock. To the extent necessary, the Company shall cause such actions to be taken by each of its Subsidiaries so as to enable, to the maximum extent permitted by law, the proceeds of a Liquidation Event to be distributed to the Holders in accordance with this Section 10. All the preferential amounts to be paid to the Holders under this Section 10 shall be paid or set apart for payment before the payment or setting apart for payment of any amount for, or the distribution of any Liquidation Funds of the Company to the holders of shares of Junior Stock in connection with a Liquidation Event as to which this Section 10 applies.

11. **Participation.** In addition to any adjustments pursuant to these Articles Supplementary, the Holders shall, as holders of Preferred Shares, be entitled to receive such dividends paid and distributions made to the holders of shares of Common Stock to the same extent as if such Holders had converted each Preferred Share held by each of them into shares of Common Stock (without regard to any limitations on conversion herein or elsewhere) and had held such shares of Common Stock on the record date for such dividends and distributions. Payments under the preceding sentence shall be made concurrently with the dividend or distribution to the holders of shares of Common Stock (provided, however, to the extent that a Holder's right to participate in any such dividend or distribution would result in such Holder exceeding the Maximum Percentage, then such Holder shall not be entitled to participate in such dividend or distribution to such extent (or the beneficial ownership of any such shares of Common Stock as a result of such dividend or distribution to such extent) and such dividend or distribution to such extent shall be held in abeyance for the benefit of such Holder until such time, if ever, as its right thereto would not result in such Holder exceeding the Maximum Percentage).

12. **Vote to Change the Terms of or Issue Preferred Shares.** In addition to any other rights provided by law, except where the vote or written consent of the holders of a greater number of shares is required by law or by another provision of the Charter, without first obtaining the affirmative vote at a meeting duly called for such purpose or the written consent without a meeting of holders of at least 60% of the outstanding Preferred Shares including (the **Required Holders**), voting together as a single class, the Company shall not: (a) amend or repeal any provision of, or add any provision to, its Charter or bylaws, or file any articles supplementary or articles of amendment of any series of shares of preferred stock, if such action would adversely alter or change in any respect the preferences, rights, privileges or powers, or restrictions provided for the benefit, of the Preferred Shares, regardless of whether any such action shall be by means of amendment to the Charter or by merger, consolidation or otherwise; (b) increase or decrease (other than by conversion) the authorized number of Preferred Shares; (c) issue any Preferred Shares other than pursuant to the Merger Agreement; or (d) without limiting any provision of Section 16, whether or not prohibited by the terms of the Preferred Shares, circumvent a right of the Preferred Shares.

13. **Intentionally Omitted.**

14. **Lost or Stolen Certificates.** Upon receipt by the Company of evidence reasonably satisfactory to the Company of the loss, theft, destruction or mutilation of any certificates representing Preferred Shares (as to which a written certification and the indemnification contemplated below shall suffice as such evidence), and, in the case of loss, theft or destruction, of an indemnification undertaking by the applicable Holder to the Company in customary and reasonable form and, in the case of mutilation, upon surrender and cancellation of the certificate(s), the Company shall execute and deliver new certificate(s) of like tenor and date.

15. **Remedies, Characterizations, Other Obligations, Breaches and Injunctive Relief.** The remedies provided in these Articles Supplementary shall be cumulative and in addition to all other remedies available under these Articles Supplementary and any of the other Transaction Documents, at law or in equity (including a decree of specific

performance and/or other injunctive relief), and no remedy contained herein shall be deemed a waiver of compliance with the provisions giving rise to such remedy. Nothing herein shall limit any Holder's right to pursue actual and consequential damages for any failure by the Company to comply with the terms of these

Table of Contents

Articles Supplementary. The Company covenants to each Holder that there shall be no characterization concerning this instrument other than as expressly provided herein. Amounts set forth or provided for herein with respect to payments, conversion and the like (and the computation thereof) shall be the amounts to be received by a Holder and shall not, except as expressly provided herein, be subject to any other obligation of the Company (or the performance thereof). The Company acknowledges that a breach by it of its obligations hereunder will cause irreparable harm to the Holders and that the remedy at law for any such breach may be inadequate. The Company therefore agrees that, in the event of any such breach or threatened breach, each Holder shall be entitled, in addition to all other available remedies, to an injunction restraining any such breach or any such threatened breach, without the necessity of showing economic loss and without any bond or other security being required. The Company shall provide all information and documentation to a Holder that is requested by such Holder to enable such Holder to confirm the Company's compliance with the terms and conditions of these Articles Supplementary.

16. **Noncircumvention.** The Company hereby covenants and agrees that the Company will not, by amendment of its Charter, bylaws or through any reorganization, transfer of assets, consolidation, merger, scheme of arrangement, dissolution, issue or sale of securities, or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms of these Articles Supplementary, and will at all times in good faith carry out all the provisions of the Charter and Articles Supplementary and take all action as may be required to protect the rights of the Holders. Without limiting the generality of the foregoing or any other provision of the Charter or Articles Supplementary, the Company (i) shall not increase the par value of any shares of Common Stock receivable upon the conversion of any Preferred Shares above the Conversion Price then in effect, (ii) shall take all such actions as may be necessary or appropriate in order that the Company may validly and legally issue fully paid and non-assessable shares of Common Stock upon the conversion of Preferred Shares and (iii) shall, so long as any Preferred Shares are outstanding, take all action necessary to reserve and keep available out of its authorized and unissued shares of Common Stock, solely for the purpose of effecting the conversion of the Preferred Shares, the maximum number of shares of Common Stock as shall from time to time be necessary to effect the conversion of the Preferred Shares then outstanding (without regard to any limitations on conversion contained herein).

17. **Failure or Indulgence Not Waiver.** No failure or delay on the part of a Holder in the exercise of any power, right or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such power, right or privilege preclude other or further exercise thereof or of any other right, power or privilege. No waiver shall be effective unless it is in writing and signed by an authorized representative of the waiving party. These Articles Supplementary shall be deemed to be jointly drafted by the Company and all Holders and shall not be construed against any Person as the drafter hereof.

18. **Notices.** The Company shall provide each Holder of Preferred Shares with prompt written notice of all actions taken pursuant to the terms of these Articles Supplementary, including in reasonable detail a description of such action and the reason therefor. Whenever notice is required to be given under these Articles Supplementary, unless otherwise provided herein, such notice must be in writing and shall be given in accordance with the terms of the Merger Agreement. Without limiting the generality of the foregoing, the Company shall give written notice to each Holder (i) promptly following any adjustment of the Conversion Price, setting forth in reasonable detail, and certifying, the calculation of such adjustment and (ii) at least fifteen (15) days prior to the date on which the Company closes its books or takes a record (A) with respect to any dividend or distribution upon the Common Stock, (B) with respect to any grant, issuances, or sales of any Options, Convertible Securities or rights to purchase stock, warrants, securities or other property to all holders of shares of Common Stock as a class or (C) for determining rights to vote with respect to any Fundamental Transaction, dissolution or liquidation, provided, in each case, that such information shall be made known to the public prior to, or simultaneously with, such notice being provided to any Holder.

19. Transfer of Preferred Shares. The Holder may transfer some or all of its Preferred Shares without the consent of the Company.

20. Preferred Shares Register. The Company shall maintain at its principal executive offices (or such other office or agency of the Company as it may designate by notice to the Holders), a register for the Preferred Shares, in which the Company shall record the name, address and facsimile number of the Persons in whose name the Preferred Shares have been issued, as well as the name and address of each transferee. The Company may treat the Person in whose name any Preferred Shares is registered on the register as the owner and holder thereof for all purposes, notwithstanding any notice to the contrary, but in all events recognizing any properly made transfers.

The fees and expenses of such accountant or accounting firm (as the case may be) shall be borne solely by the Company, and such accountant's or accounting firm's (as the case may be) arithmetic calculation shall be final and binding upon all parties absent manifest error.

PART II INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 20. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

The registrant's articles of incorporation limit the liability of its directors and officers to the fullest extent permitted by the Maryland General Corporation Law (as amended from time to time, or the MGCL) and, together with the registrant's bylaws, as amended, requires the registrant to indemnify its present and former directors and officers and any individual who, while a director or officer and at the request of the registrant, serves or has served another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, against liabilities to the fullest extent allowed under Maryland law. The registrant's articles of incorporation and bylaws permit the registrant, with the approval of its board of directors, to indemnify and advance or reimburse the expenses of any director, officer, employee or agent of the registrant or of any predecessor, to the maximum extent permitted by the MGCL.

The MGCL requires a corporation (unless its articles of incorporation provide otherwise, which the registrant's do not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he or she is made a party by reason of his or her service in that capacity. The MGCL permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities unless it is established that:

an act or omission of the director or officer was material to the matter giving rise to the proceeding and:

- (1) was committed in bad faith; or
- (2) was the result of active and deliberate dishonesty;

the director or officer actually received an improper personal benefit in money, property or services; or

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

However, under the MGCL, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that personal benefit was improperly received, unless in either case a court orders indemnification, and then only for expenses. In addition, the MGCL permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

Edgar Filing: InfoSonics Corp - Form S-4/A

a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

The registrant's bylaws, as amended, obligate the registrant, to the fullest extent permitted by Maryland law in effect from time to time, without requiring a preliminary determination of the ultimate entitlement to indemnification, to pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

any present or former director or officer who is made a party to the proceeding by reason of his or her service in that capacity; or

make any individual who, while a director or officer and at the registrant's request, serves or has served another corporation, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee and who is made a party to the proceeding by reason of his or her service in that capacity.

II-1

Table of Contents

Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling the registrant for liability arising under the Securities Act of 1933, as amended, the registrant has been informed that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

The MGCL permits a Maryland corporation to include in its articles of incorporation a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from actual receipt of an improper benefit or profit in money, property or services or active and deliberate dishonesty established by a final judgment as being material to the cause of action. The registrant's articles of incorporation contain such a provision which eliminates such liability to the maximum extent permitted by Maryland law.

The foregoing summaries are necessarily subject to the complete text of the MGCL, the registrant's articles of incorporation and bylaws, as amended, and the arrangements referred to above and are qualified in their entirety by reference thereto.

We maintain a directors' and officers' liability insurance policy. The policy insures directors and officers against unindemnified losses arising from certain wrongful acts in their capacities as directors and officers and reimburses us for those losses for which we have lawfully indemnified the directors and officers. The policy contains various exclusions.

ITEM 21. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

A list of the exhibits included as part of this registration statement is set forth in the Exhibit Index included at the end of this registration statement, and is incorporated herein by reference.

ITEM 22. UNDERTAKINGS.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (or the *Securities Act*);

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

II-2

Table of Contents

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20 F at the start of any delayed offering or throughout a continuous offering.

(5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, if the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness; provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(6) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) (1) The undersigned registrant undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus shall contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the application form.

(c) (2) The registrant undertakes that every prospectus (i) that is filed pursuant to paragraph (c)(1) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act and is used in

Table of Contents

connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(d) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference to the prospectus pursuant to Item 4, 10(b), 11 or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(e) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

(f) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
