PROXY STATEMENT

INFORMATION ABOUT THE MEETING AND VOTING PROCEDURES

General

This proxy statement is being furnished to you in connection with the solicitation of proxies by the Board of Directors of Cognex Corporation (*Cognex*) for use at the 2018 Annual Meeting of Shareholders to be held at 9:00 a.m. local time on Wednesday, April 25, 2018, at our headquarters at One Vision Drive, Natick, Massachusetts 01760, and at any adjournments or postponements of that meeting. Our telephone number is (508) 650-3000. At this meeting, shareholders will consider and vote on the following proposals:

1. To elect two Directors to serve for a term of three years and to elect one Director to serve for a term of two years, all as more fully described in the proxy statement for the meeting;
2. To amend our Articles of Organization to increase the number of shares of common stock that we have the authority to issue from 200,000,000 to 300,000,000 shares;
3. To approve the amendment and restatement of the Cognex Corporation 2001 General Stock Option Plan;
4. To ratify the selection of Grant Thornton LLP as our independent registered public accounting firm for fiscal year 2018;
5. To cast a non-binding advisory vote to approve executive compensation (*say-on-pay*); and
6. To consider and act upon any other business that may properly come before the meeting or any adjournment or postponement thereof.

This proxy statement is first being made available to our shareholders on or about March 14, 2018.

Voting Rights and Quorum

Shareholders of record at the close of business on March 2, 2018 (the *Record Date*) are entitled to receive notice of and to vote at the meeting. As of the close of business on the Record Date, there were 172,858,091 shares of our common stock outstanding and entitled to vote. Each outstanding share of our common stock entitles the record holder to one vote.

The holders of a majority of our common stock outstanding on the Record Date for the meeting are required to be present in person or be represented by proxy at the meeting in order to constitute a quorum for the transaction of business. Following the determination of a quorum, the vote required for approval of the matters to be considered at

the meeting is as follows:

Nominees for Director will be elected if the votes cast for such nominee's election exceed the votes cast against such nominee's election. An incumbent director who does not receive more votes for than against his election will promptly offer to tender his resignation. The resignation would be considered by the Nominating and Corporate Governance Committee and acted upon by our Board of Directors (without participation by the incumbent Director who tendered his resignation) within 90 days of the election. Thereafter, our Board will promptly disclose its decision whether to accept the Director's resignation in a Current Report on Form 8-K furnished to the Securities and Exchange Commission (SEC).

Table of Contents

Approval of the proposal to increase the number of shares of common stock which Cognex has the authority to issue requires the affirmative vote of holders of at least a majority of the shares of common stock outstanding on the Record Date.

Other matters presented at the meeting require the affirmative vote of a majority of votes cast on the matter.

Treatment of Abstentions and Broker Non-Votes

We will count both abstentions and broker non-votes as present for the purpose of determining the existence of a quorum for the transaction of business. A broker non-vote refers to shares held by a broker or nominee that does not have the authority, either express or discretionary, to vote on a particular matter. For the purpose of determining the number of shares voting on a particular proposal, we will not count abstentions and broker non-votes as votes cast or shares voting. As a result, abstentions and broker non-votes, if any, will have no effect on the voting for the election of Directors, the approval of the amendment and restatement of our 2001 General Stock Option Plan, the ratification of the selection of our independent registered public accounting firm or the non-binding advisory proposal regarding executive compensation. Abstentions and broker non-votes, if any, will have the same effect as a vote against the proposal regarding the amendment to our Articles of Organization to increase the number of shares of common stock that we have authority to issue.

Voting Your Shares

If you received a paper copy of the proxy materials, you may vote your shares by submitting the proxy card accompanying this material for use at the meeting. Please complete, date, sign and submit the proxy card as instructed. You may also vote your shares by telephone or via the Internet by following the instructions included on the proxy card or on the Notice of Internet Availability of Proxy Materials. The Internet and telephone voting facilities for shareholders of record will close at 1:00 a.m. Eastern time on April 25, 2018.

Our Board of Directors recommends an affirmative vote on all proposals described in the notice for the meeting. Proxies will be voted as specified. If your proxy is properly submitted, it will be voted in the manner that you direct. **If you do not specify instructions with respect to any particular matter to be acted upon at the meeting, proxies will be voted in favor of the Board of Directors' recommendations as set forth in this proxy statement.**

You may revoke your proxy at any time before your proxy is voted at the meeting by:

Giving written notice of revocation of your proxy to the Secretary of Cognex;

Completing and submitting a new proxy card relating to the same shares and bearing a later date;

Properly casting a new vote through the Internet or by telephone at any time before the closure of the Internet or telephone voting facilities; or

Voting in person at the meeting, although meeting attendance will not, by itself, revoke a proxy.

Expense of Solicitation

Edgar Filing: COGNEX CORP - Form DEF 14A

The cost of this solicitation will be borne by Cognex. It is expected that the solicitation will be made primarily by delivery of these materials, but regular employees or representatives of Cognex (none of whom will receive any extra compensation for their activities) may also solicit proxies by telephone, email, fax and in person and arrange for brokerage houses and other custodians, nominees and fiduciaries to send proxy materials to their principals at our expense.

Table of Contents

CORPORATE GOVERNANCE

Code of Business Conduct and Ethics

We have a Code of Business Conduct and Ethics that applies to our Board of Directors and our employees, including our named executive officers. Pre-dating this code are our company's ten corporate values, which include integrity, that are the basis for ensuring we maintain the highest ethical standards in all that we do. Copies of our company's Code of Business Conduct and Ethics and ten corporate values are available on our website at www.cognex.com under Company Investor Information Governance. We intend to disclose on our website any amendment to, or waiver of, any provision of this code applicable to our directors and named executive officers that would otherwise be required to be disclosed under the rules of the SEC or The NASDAQ Stock Market LLC (Nasdaq).

Director Independence

Our Board of Directors has determined that all of the Director nominees and incumbent Directors are independent as such term is defined in the applicable listing standards of Nasdaq, except for Robert J. Shillman and Robert J. Willett, who are executive officers of Cognex, and Patrick A. Alias, who is a non-executive employee of Cognex.

Board Leadership Structure

The positions of Chief Executive Officer and Chairman of the Board of Directors were separated in March 2011. At that time, Mr. Willett was promoted to become our Chief Executive Officer. Dr. Shillman retained his position as Chairman of the Board of Directors.

Because Dr. Shillman continues to serve as an executive officer of Cognex, our Board has appointed Anthony Sun to serve in the role of Lead Independent Director. As Lead Independent Director, Mr. Sun presides at all meetings of our Board of Directors at which the Chairman is not present, and he chairs the executive sessions of independent Directors, who regularly meet in executive sessions at which only independent Directors are present. Mr. Sun may also provide input regarding meeting agendas and bear such further responsibilities as our Board may designate from time to time.

Our Board believes this leadership structure promotes unified leadership and direction for the Board and management that, together with having a Lead Independent Director, assists the Board in the administration of its risk oversight responsibilities.

The Board's Role in Risk Oversight

The role of our Board of Directors in our company's risk oversight process includes receiving regular reports from management on areas of material risk to our company, including operational, financial, legal and regulatory, and strategic and reputational risks. The full Board (or the appropriate committee in the case of risks that are under the purview of a particular committee) receives these reports from the appropriate risk owner within our company so that it can understand our risk identification, risk management and risk mitigation strategies. When a committee receives the report, the Chairman of the relevant committee reports on the discussion to the full Board. This enables the Board and its committees to coordinate the risk oversight role. Our Board of Directors also administers its risk oversight function through the required approval by the Board (or a committee of the Board) of significant transactions and other material decisions, and regular periodic reports

Table of Contents

from our company's independent registered public accounting firm and other outside consultants regarding various areas of potential risk, including, among others, those relating to our internal controls and financial reporting. As part of its charter, the Audit Committee discusses with management and our independent registered public accounting firm significant risks and exposures and the steps management has taken to minimize those risks.

Policy on Pledging, Hedging and Trading of Cognex Stock

Our insider trading policy governs the timing and type of transactions in Cognex stock by our Board of Directors and certain Cognex employees who have regular access to material non-public information, including our executive officers. Among other provisions, the policy:

Prohibits our Directors and any Cognex employee, including our executive officers, from engaging in short sales of Cognex stock with violators subject to immediate termination;

Prohibits our Directors and executive officers from trading in exchange-traded options for Cognex stock or any other derivative security designed to hedge or offset risk of a decline in the market value of Cognex stock; and

Prohibits our Directors and executive officers from pledging Cognex stock as collateral for a loan without the approval of the Compensation/Stock Option Committee of the Board of Directors.

Communications to Directors

Shareholders who wish to communicate with our Board of Directors or with a particular Director may send a letter to the Secretary of Cognex Corporation at One Vision Drive, Natick, Massachusetts 01760. The mailing envelope should contain a clear notation indicating that the enclosed letter is a Shareholder-Board Communication or Shareholder-Director Communication. The letter should clearly state whether the intended recipients are all members of our Board or certain specified individual Directors. The Secretary will make copies of all letters and circulate them to the appropriate Director(s).

Board Meetings, Committees and Attendance

Our Board of Directors held nine meetings during 2017. During 2017, each Director attended at least 75% of the total number of meetings of the Board of Directors and meetings of the committees of which such Director was a member. Our Directors are strongly encouraged to attend the annual meeting of shareholders or the special meeting in lieu of the annual meeting; however, we do not have a formal policy with respect to attendance at that meeting. All of our Directors attended the 2017 Annual Meeting of Shareholders held on April 27, 2017.

The Board has three standing committees: The Compensation/Stock Option Committee, the Audit Committee and the Nominating and Corporate Governance Committee. Each committee acts according to a written charter approved by the Board. The charters are available on our website at www.cognex.com under Company Investor Information Governance. Each Director who served on a Board committee during 2017 was independent as such term is defined in the applicable listing standards of Nasdaq and rules of the SEC. The agenda for committee meetings is determined by its Chairman in consultation with the other members of the committee and management. The Chairman reports the actions and determinations of the committee to the full Board on a regular basis.

During 2017, J. Bruce Robinson, who resigned from our Board of Directors effective February 23, 2018, also served on the Audit Committee through April 27, 2017 and the Compensation/Stock Option Committee through the date of his resignation.

Compensation/Stock Option Committee

In accordance with its written charter, the Compensation/Stock Option Committee:

Discharges the Board's responsibilities relating to the compensation of Cognex's executives, including the determination of the compensation of our Chief Executive Officer and other executive officers;

Oversees our overall compensation structure, policies and programs;

Administers our stock option and other equity-based plans;

Reviews and makes recommendations to the Board regarding the compensation of our Directors; and

Is responsible for producing the annual report included in this proxy statement.

Our Chief Executive Officer, other Cognex executives, and the Cognex Corporate Employee Services department support the Compensation/Stock Option Committee in its duties and may be delegated authority to fulfill certain administrative duties regarding Cognex's compensation programs. In addition, our Chief Executive Officer makes recommendations to the Compensation/Stock Option Committee on an annual basis regarding salary increases, potential bonuses, and stock option grants for each of our other executive officers. Our Chief Executive Officer also has been delegated the authority to approve stock options and other equity-based awards to non-executive employees of Cognex not to exceed 80,000 shares to any one individual in the aggregate per calendar year.

The Compensation/Stock Option Committee has sole authority under its charter to retain, approve fees for, determine the scope of the assignment of, and terminate advisors and consultants as it deems necessary to assist in the fulfillment of its responsibilities. The Compensation/Stock Option Committee typically does not retain compensation consultants, but may utilize independent third-party benchmarking surveys acquired by Cognex.

Committee meetings are regularly attended by our Chief Executive Officer, except when his compensation is being discussed, and may also include other executives at the invitation of the Committee. The Compensation/Stock Option Committee also meets in executive session as appropriate. The Compensation/Stock Option Committee met six times in 2017.

Table of Contents

The full Board determines the compensation of our Directors, after considering any recommendations of the Compensation/Stock Option Committee.

Further information regarding the processes and procedures of the Compensation/Stock Option Committee for establishing and overseeing our executive compensation programs is provided under the heading Compensation Discussion and Analysis.

Audit Committee

In accordance with its written charter, the Audit Committee's general responsibilities include, among other things, the following:

Being directly responsible for the appointment, compensation, retention and termination, and oversight of the work of, Cognex's independent registered public accounting firm;

Reviewing the qualifications, performance and independence of Cognex's independent registered public accounting firm;

Reviewing our audited and unaudited financial statements;

Reviewing the adequacy and effectiveness of our internal control over financial reporting with management and our independent registered public accounting firm;

Reviewing and authorizing both audit and non-audit services to be provided to Cognex by its independent registered public accounting firm and related fees;

Reviewing and approving related party transactions; and

To the extent deemed necessary by the Audit Committee to carry out its responsibilities, engaging independent counsel and other advisers and determining the compensation payable to them.

For 2017, among other functions, the Audit Committee reviewed with our independent registered public accounting firm the scope of the audit for the year, the results of the audit when completed and the independent registered public accounting firm's fees for services performed. The Audit Committee also appointed the independent registered public accounting firm and reviewed with management various matters related to our internal controls. The Audit Committee held six meetings during 2017.

The Board of Directors has determined that all members of the Audit Committee are financially literate, and that each of Messrs. Krantz and Schneider qualifies as an audit committee financial expert under the rules of the SEC.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to serve as members of the Board and recommending to the Board nominees for election as Directors at each annual meeting of shareholders and when vacancies in the Board occur for any reason. The Nominating and Corporate Governance Committee is also responsible for developing and recommending to the Board a set of corporate governance guidelines to assist and guide the Board in the exercise of its responsibilities, periodically reviewing these guidelines and recommending changes deemed appropriate, and coordinating any evaluations of the Board and its committees. The Nominating and Corporate Governance Committee met three times during 2017.

Table of Contents

In 2017, our Board amended our corporate governance guidelines to implement a policy addressing board diversity when identifying potential director nominees. The policy provides that our Nominating and Corporate Governance Committee will include women and individuals from minority groups who meet the required qualifications on the initial list of director candidates from which new board nominees are chosen. In addition, any search firm retained by the Nominating and Corporate Governance Committee will be required to abide by these guidelines.

In February 2018, the Nominating and Corporate Governance Committee met and recommended the Director nominees for election at the meeting. Eugene Banucci and Jerry A. Schneider have been nominated for re-election, and Dianne M. Parrotte has been nominated to fill the vacancy created by the resignation of Mr. Robinson. Dr. Parrotte was initially recommended to the Nominating and Corporate Governance Committee for election to the Board by Dr. Shillman.

Compensation/Stock Option Committee Interlocks and Insider Participation

During 2017, Messrs. Krantz, Robinson and Sun served on the Compensation/Stock Option Committee. No member of the Compensation/Stock Option Committee served as an officer or employee of Cognex or any of its subsidiaries, nor had any business relationship or affiliation with Cognex or any of its subsidiaries during 2017 other than his service as a Director.

Certain Relationships and Related Transactions

In accordance with its written charter, the Audit Committee conducts an appropriate review of all related party transactions for potential conflict of interest situations on an ongoing basis, and the approval of the Audit Committee is required for all related party transactions. Under our Code of Business Conduct and Ethics, any transaction or relationship engaged in by our employees that reasonably could be expected to give rise to a conflict of interest should be reported promptly to our Compliance Officer (currently Mr. Curran), who may notify our Board of Directors or a committee thereof as he deems appropriate. Actual or potential conflicts of interest involving a Director or executive officer are required to be disclosed directly to the Chairman of our Board of Directors.

Director Nominees

When considering a potential candidate for membership on our Board of Directors, the Nominating and Corporate Governance Committee will consider any criteria it deems appropriate, including, among other things, the experience and qualifications of any particular candidate as well as such candidate's past or anticipated contributions to our Board and its committees. At a minimum, each nominee is expected to have high personal and professional integrity and demonstrated ability and judgment to be effective, with the other Directors and management, in collectively serving the long-term interests of our shareholders. Each nominee is expected to be personable and support our "Work Hard, Play Hard, Move Fast" culture. And, each nominee is expected to have direct and significant experience in one or more industries or markets in which our company does, or plans to do, business, and/or significant senior-level management experience in functions or roles which are helpful to our company. This includes, for example, finance, accounting, human resources, engineering, manufacturing, and sales and marketing.

In addition to the minimum qualifications set forth above, when considering potential candidates for our Board of Directors, the Nominating and Corporate Governance Committee seeks to ensure that the Board of Directors is comprised of a majority of independent Directors, that the committees of the Board are comprised entirely of independent Directors, and that at least one member of the Audit Committee qualifies as an audit

committee financial expert under SEC rules. The Nominating and Corporate Governance Committee may also consider any other standards that it deems appropriate.

The Nominating and Corporate Governance Committee and our Board seek the talents and backgrounds that would be most helpful to Cognex when selecting Director nominees. In particular, the Committee, when recommending Director candidates to the full Board for nomination, may consider whether a Director candidate, if elected, assists in achieving a mix of Board members that represents a diversity of background and experience.

In 2017, our Board amended our corporate governance guidelines to implement a policy addressing board diversity when identifying potential director nominees. The policy provides that our Nominating and Corporate Governance Committee will include women and individuals from minority groups who meet the required qualifications on the initial list of director candidates from which new board nominees are chosen. In addition, any search firm retained by the Nominating and Corporate Governance Committee will be required to abide by these guidelines.

At our 2018 Annual Meeting of Shareholders, Eugene Banucci and Jerry A. Schneider have been nominated for re-election, and Dianne M. Parrotte has been nominated to fill the vacancy created by the resignation of Mr. Robinson.

In practice, the Nominating and Corporate Governance Committee generally will evaluate and consider all candidates recommended by our Directors, officers and shareholders. The Nominating and Corporate Governance Committee intends to consider shareholder recommendations for Directors using the same criteria as potential nominees recommended by the members of the Nominating and Corporate Governance Committee or others. The Nominating and Corporate Governance Committee did not receive any shareholder nominations for Director with respect to this meeting.

Shareholders who wish to submit Director candidates for consideration as nominees for election at our 2019 Annual Meeting of Shareholders should send such recommendations to the Secretary of Cognex Corporation at our executive offices on or before November 14, 2018. These recommendations must include:

the name and address of record of the shareholder;

a representation that the shareholder is a record holder of our common stock, or if the shareholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Exchange Act;

the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding ten full fiscal years of the proposed Director candidate;

a description of the qualifications and background of the proposed Director candidate which addresses the minimum qualifications described above and any other criteria for Board membership approved by the Board from time to time;

a description of all arrangements or understandings between the shareholder and the proposed Director candidate; and

the consent of the proposed Director candidate to be named in the proxy statement, to serve as a Director if elected at such meeting, and to give our company the authority to carry out a detailed and thorough investigation of his/her educational, professional, financial and personal history.

Shareholders must also submit any other information regarding the proposed Director candidate that is required to be included in a proxy statement filed pursuant to SEC rules. See also the information under the heading Shareholder Proposals.

PROPOSAL 1: ELECTION OF DIRECTORS

Our Board of Directors currently consists of nine Directors and is divided into three classes, with one class being elected each year for a term of three years. We are proposing that Eugene Banucci and Jerry A. Schneider be elected to serve terms expiring at the 2021 Annual Meeting of Shareholders and in each case until their successors are duly elected and qualified or until they sooner die, resign or are removed. Mr. Miller was not nominated to stand for re-election as a director at the Annual Meeting, and his term as a Director of Cognex will end at the Annual Meeting.

In addition, the Board has nominated Dianne M. Parrotte to fill the vacancy created by the resignation of Mr. Robinson. Dr. Parrotte would be elected to serve in the class of Directors whose terms expire at the 2020 Annual Meeting of Shareholders and until her successor has been duly elected and qualified or until her earlier death, resignation or removal.

Following the Annual Meeting, the size of the Board of Directors will be decreased to eight members.

Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ELECTION OF EUGENE BANUCCI, JERRY A. SCHNEIDER AND DIANNE M. PARROTTE.

The persons named in the accompanying proxy will vote, unless authority is withheld, FOR the election of the nominees named above. Our Board of Directors anticipates that each of the nominees, if elected, will serve as a Director. If any nominee is unable to accept election, the persons named in the accompanying proxy will vote for such substitute as our Board of Directors may recommend. Should our Board not recommend a substitute for any nominee, then the proxy will be voted for the election of the remaining nominees. There are no family relationships between any incumbent Director or Director nominee and any executive officer of Cognex or its subsidiaries.

Information Regarding Directors and Director Nominees

Set forth below is information furnished to us by the Director nominees and the incumbent Directors whose terms will continue after the meeting. The biographical description for each Director and Director nominee includes his or her age, all positions he or she holds with Cognex, his or her principal occupation and business experience over the past five years, and the names of other publicly held companies for which he or she currently serves as a director or has served during the past five years. It also includes the specific experience, qualifications, attributes and skills that led to our Board's conclusion that he or she should serve as a director of Cognex or, with respect to each Director who is not standing for election, that the Board would expect to consider if it were making a conclusion currently as to whether he or she should serve as a director.

We believe that all of our directors have a reputation for integrity, honesty and adherence to high ethical standards. Each has demonstrated business acumen and an ability to exercise sound judgment as well as a commitment of service to Cognex and, to the extent applicable, our Board. Our Board did not currently evaluate whether the incumbent Directors who are not standing for election should serve as directors, as the terms for which they were previously elected continue beyond the meeting.

COMPENSATION POLICIES AND PROCEDURES

Cognex's approach to compensation and performance management is to provide a competitive total compensation package with periodic reviews to encourage ongoing high-quality performance. We strive to hire, retain and promote talented individuals based on their achievements, to reward employees based on their overall contribution to the success of our company, and to motivate employees to continue increasing shareholder value.

In addition to salary, total compensation may include overtime pay, commissions, stock options and potential bonuses depending on the employee's job and level within Cognex. It also includes benefits consistent with our "Work Hard, Play Hard, Move Fast" culture that recognize employee achievement and encourage new levels of success, such as President's Awards, which are given annually to our top performers, and Perseverance Awards, which reward employee longevity, commitment and loyalty. Other benefits available to all employees include company-paid basic group term life insurance, basic accidental death and dismemberment insurance, an employer match of eligible compensation that employees invest in their 401(k) accounts, and tuition reimbursement.

The Compensation/Stock Option Committee oversees the compensation program for all Cognex employees. The Committee has discussed the concept of risk as it relates to our compensation program and does not believe that our compensation program is structured to encourage excessive or inappropriate risk taking for the following reasons:

Compensation consists of both fixed and variable components. The fixed portion (i.e. base salary) provides a steady income to our employees regardless of the performance of our company or stock price. The variable portion (i.e. annual company bonus, sales commissions and stock option awards) is based upon individual, company and stock price performance. This mix of compensation is designed to motivate our employees, including our named executive officers, to produce superior short- and long-term corporate performance without taking unnecessary or excessive risks to the detriment of important business metrics.

For the variable portion of compensation, the company bonus is an annual program and is focused on profitability, while the stock option program generally has a four year service-based vesting period and is focused on stock price performance. We believe that these programs provide a check on excessive risk taking because to inappropriately benefit one would be a detriment to the other. For example, focusing solely on profitability would be detrimental to our company over the long term, ultimately harming our stock price and the value of stock options.

In addition, we prohibit all hedging transactions involving Cognex stock by our Board of Directors and certain employees who have regular access to material non-public information, including our named executive officers, so that they cannot insulate themselves from the effects of poor stock performance. And, any Cognex employee engaged in short sales of Cognex stock is subject to immediate termination.

In order for any employee to be eligible for a company bonus, Cognex must first achieve certain financial goals that are established annually by the Compensation/Stock Option Committee related to our consolidated operating income as a percentage of revenue (we refer to this metric as "operating margin"). We believe that focusing on profitability rather than other measures encourages a balanced approach to performance and emphasizes consistent behavior across the organization.

Our annual bonus program is capped for each employee at director level and above, which includes our named executive officers, which we believe mitigates excessive risk taking by limiting bonus payouts even if our company dramatically exceeds its operating margin target.

Table of Contents

Our annual bonus program has been structured around attaining a certain level of profitability for many years and we have seen no evidence that it encourages unnecessary or excessive risk taking.

The calculation of our operating margin target is defined annually by our Compensation/Stock Option Committee and is designed to keep it from being susceptible to manipulation by any employee, including our named executive officers. We have a Code of Business Conduct and Ethics that covers, among other things, accuracy of books and records. And, pre-dating this code is our company's ten corporate values, which include integrity, that are the basis for ensuring we maintain the highest ethical standards in all that we do.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

We maintain a performance-based compensation philosophy. The compensation program for our named executive officers utilizes a combination of base salaries, annual bonuses and stock option awards. We target paying our named executive officers a base salary that is in the mid-range of benchmarks from Radford's Global Technology Survey, which includes executive compensation levels across a wide spectrum of technology sector companies comparable in revenue size; we establish a potential annual bonus that is market competitive and linked to individual and company performance objectives; and we grant stock options in a manner that aligns the interests of our named executive officers with those of our shareholders.

Total compensation for our named executive officers also includes other benefits that are available to all Cognex employees generally. This includes Perseverance Awards (which reward employee longevity, commitment and loyalty), company-paid basic group term life insurance and basic accidental death and dismemberment insurance, an employer match of eligible compensation that employees invest in their 401(k) accounts, and tuition reimbursement.

The Compensation/Stock Option Committee, which consists entirely of independent directors, reviews and approves all compensation for our named executive officers, using its judgment and experience in determining the mix of compensation. The Committee views salary and bonuses as short-term compensation to reward our named executive officers for meeting individual and company performance objectives, and stock option awards as a reward for increasing shareholder value and improving corporate performance over the long term. The Compensation/Stock Option Committee also believes that the stock option program is instrumental in our ability to recruit, retain and motivate our high caliber employees.

Determinations with respect to compensation for a fiscal year are generally made in conjunction with our Board of Directors' approval of Cognex's annual budget for that year, which typically occurs at the end of the prior fiscal year.

Say-on-Pay Feedback from Shareholders

At our 2017 Annual Meeting of Shareholders, approximately 97% of the votes cast on the say-on-pay proposal were in favor of the approval of the compensation of our named executive officers, with 3% of the votes cast against such proposal. The Compensation/Stock Option Committee believes that this shareholder vote endorses the compensation philosophy of our company, and the Compensation/Stock Option Committee did not make any changes to our executive compensation program for 2017 as a result of the say-on-pay vote by our shareholders. At our 2017 Annual Meeting, a majority of votes were cast in favor of holding annual say-on-pay votes. Based on these results, and consistent with the recommendation of the Board of Directors, we will continue to conduct an advisory vote on the compensation of our named executive officers on an annual basis until the next advisory vote on the frequency of such say-on-pay votes, which we expect will occur at our 2023 Annual Meeting of Shareholders.

2017 Business Results

Cognex reported record financial results for 2017 with the highest revenue, net income and earnings per share from continuing operations in our 37-year history. Revenue was \$748 million, a 44% increase over the \$520 million reported for the prior year. This was our eighth consecutive year of record revenue from continuing

Table of Contents

operations, with all geographic regions, all major product categories and a wide range of industries contributing to our growth. We were also highly profitable, reporting an operating margin of 35%, reflecting significant expansion over 31% reported in 2016. Notably, our record-breaking performance was achieved even with a one-time charge of \$101 million for U.S. tax on unrepatriated foreign earnings resulting from the Tax Cuts and Jobs Act of 2017.

Our achievements in 2017 reflect the hard work and dedication of our employees, who we refer to as Cognoids, around the world and the entrepreneurial spirit that is an integral part of our corporate culture. We believe that our investments in them, including employee stock options, have contributed to our recent success, and that the loyalty of our people, and their unique sense of company pride and ownership, help to fuel our growth.

As we celebrated our success during 2017, we continued to focus on the long term, investing in engineering and in our sales organization, as well as the processes and systems needed to support our business in the coming years. We introduced new products that we expect to extend our leadership in the machine vision market. And, we spent \$124 million to repurchase our common stock and paid out \$29 million in dividends to shareholders. We were pleased with these achievements in 2017.

Compensation Program Highlights

Our executive compensation program is designed to be largely performance-based with base salary providing a steady income to our employees and the annual company bonus and stock option awards based upon individual, company and stock price performance. In its deliberations of compensation for our named executive officers, the Compensation/Stock Option Committee considers the following:

The levels of responsibility associated with each executive's position;

The past performance of the individual executive;

The extent to which individual, departmental and company-wide goals have been met;

The overall competitive environment and the level of compensation necessary to attract and retain talented and motivated individuals in key positions;

The recommendations of our Chief Executive Officer with respect to the salary increases, potential bonuses and stock option grants for those executive officers that report to him; and

The outcome of advisory shareholder votes on executive compensation (commonly known as say-on-pay proposals).

The Compensation/Stock Option Committee also considers ways to maximize deductibility of executive compensation under U.S. tax laws, while retaining the discretion of the Compensation/Stock Option Committee as is appropriate to compensate executive officers at levels commensurate with their responsibilities and achievements. Beginning in 2018, recently-enacted U.S. tax legislation will impact Cognex's ability to deduct annual compensation in

excess of \$1 million for anyone who served as a named executive officer in any year after 2016. The Compensation/Stock Option Committee believes that shareholder interests are best served if its discretion and flexibility in awarding compensation is not restricted, even though some compensation awards may result in non-deductible compensation expenses.

Neither Cognex nor the Compensation/Stock Option Committee typically uses compensation consultants other than independent third-party benchmarking surveys of annual compensation paid by companies in the high-technology industry, such as Radford's Global Technology Survey described above.

Base Salary

In determining the base salaries paid to our named executive officers for fiscal year 2017, the Compensation/Stock Option Committee considered, in particular, their levels of responsibility, salary increases

Table of Contents

awarded in the past, and the executive's experience and potential. The base salary approved for each of our named executive officers for fiscal year 2017 was made based on the following criteria:

Radford's Global Technology Survey of annual compensation paid by companies in the high-technology industry that have between \$250 million and \$500 million of annual revenue, with our named executive officers' salaries in 2017 falling below the 50th percentile of their respective positions;

The levels of responsibility associated with each executive's position;

The past performance of the individual employee; and

The increase in salary levels approved by our Board of Directors in the fourth quarter of 2016 in conjunction with its approval of our annual budget for fiscal year 2017.

During 2017, Mr. Willett's salary remained consistent with 2016 at \$375,000. Mr. Curran received a salary increase of 7% to an annual base salary of \$300,000 when he became our Chief Financial Officer. Ms. DiPalma received a salary increase of 10% to an annual base salary of \$245,000 in conjunction with her promotion to Senior Vice President of Corporate Employee Services and, in such capacity, as an executive officer. Consistent with prior years, Dr. Shillman elected to forgo his annual salary for 2017 and, as requested by him, we donated this amount to a public charity.

In February 2017, Mr. Morin, our former Executive Vice President of Finance and Administration and Chief Financial Officer, retired after 18 years with our company. The Board of Directors appointed Mr. Curran, then Senior Vice President of Finance of Cognex, as Chief Financial Officer. Following his retirement, Mr. Morin continued with Cognex in a non-executive role as Senior Vice President and Corporate Secretary. Mr. Morin's salary did not change in 2017 prior to his retirement. Following his retirement, Mr. Morin's salary was adjusted to a level appropriate for his new responsibilities.

Annual Company Bonuses

The Compensation/Stock Option Committee views annual company bonuses as a way to reward employees for meeting individual and company performance objectives. All Cognex employees, including our named executive officers, are eligible to participate in the performance-based annual company bonus program except for those employees on a sales commission plan. The Compensation/Stock Option Committee approves the annual company bonus plan in conjunction with our Board of Directors' approval of Cognex's annual budget, which typically takes place at the end of the prior fiscal year.

The annual company bonus plan is designed to be variable. In order for any employee to be eligible for an annual company bonus, Cognex must first achieve financial goals set forth in the annual budget related to budgeted non-GAAP consolidated operating income as a percentage of revenue (we refer to this metric as "operating margin"). Once the operating margin criterion is met, the amount each employee at director level and above, which includes our named executive officers, receives depends upon the achievement of individual performance goals, which are established annually.

The Compensation/Stock Option Committee determined that operating margin is an appropriate metric for our bonus plan because the Committee believes employee performance is integral in achieving desired levels of company profitability. Non-GAAP operating income as used in the calculation of operating margin for purposes of our bonus program is calculated by adjusting our operating income as determined in accordance with generally accepted accounting principles (GAAP) for certain items including expense related to stock options and other equity-based awards and foreign currency gains or losses.

Table of Contents

In order for any cash bonus to be paid to an employee, a minimum level of operating margin for the company must be achieved. Once the minimum level has been achieved, each employee's eligible bonus is calculated as follows:

If the actual operating margin is above the minimum level but below the operating margin target in the annual budget, each employee is eligible to receive a pro-rata portion of his or her target bonus;

If the actual operating margin is equal to the operating margin target in the annual budget, each employee is eligible to receive 100% of his or her target bonus; and

If the actual operating margin is above the operating margin target in the annual budget, all exempt employees are eligible to receive an additional amount depending upon his or her grade level up to a maximum level approved by the Compensation/Stock Option Committee. The payout is scaled in such a way that this additional amount is funded by a portion of the incremental operating income above Cognex's operating margin target. (Exempt employees are those employees who receive an annual salary and are exempt from certain wage and hour laws.)

The Compensation/Stock Option Committee approves the target bonus for each employee at the vice president level and above, which includes our named executive officers, and the amount by which each individual can participate in any increase due to company performance in excess of the operating margin target. The target bonus amount is based upon a percentage of base salary with the percentage based upon the individual's level of responsibility. Individual performance goals are established annually and generally relate to near-term strategic, financial and operational performance that supports the company's business objectives. A weighting is assigned to each individual performance goal. For fiscal year 2017:

The target bonus for Dr. Robert J. Shillman, our Executive Chairman, was \$100,000, with the opportunity to earn 0-250% of this amount based on company performance and the achievement of individual performance goals;

The target bonus for Robert J. Willett, our President and Chief Executive Officer, was \$243,750, with the opportunity to earn 0-325% of this amount based on company performance and the achievement of individual performance goals;

The target bonus for John J. Curran, our Senior Vice President, Chief Financial Officer and Treasurer, was \$150,000, with the opportunity to earn 0-200% of this amount based on company performance and the achievement of individual performance goals; and

The target bonus for Sheila M. DiPalma, our Senior Vice President of Corporate Employee Services, was \$88,800, with the opportunity to earn 0-175% of this amount based on company performance and the achievement of individual performance goals.

Mr. Morin was not eligible to participate in our 2017 bonus program following his retirement. The Compensation/Stock Option Committee believes that the payment of an annual company bonus based upon the achievement of company and individual performance goals is an appropriate way to reward our named executive officers for meeting performance objectives while also achieving desired levels of company profitability.

For 2017, the operating margin target was consistent with our long-term financial model of 30% of revenue or greater. The actual consolidated operating margin achieved was 38.7%, which was above the target. As a result, each of our named executive officers was eligible to receive 100% of the individual's bonus target plus an additional amount depending upon his level of responsibility and up to a maximum approved by the Compensation/Stock Option Committee. The annual bonuses for 2017 for our named executive officers are listed

under the heading Executive Compensation Summary Compensation Table and will be paid in the first quarter of 2018. Consistent with prior years, Dr. Shillman elected to forgo his 2017 bonus, and, as requested by him, we will donate this amount to a public charity.

Stock Option Awards

Cognex's stock option program is intended to reward the majority of our eligible exempt employees, which includes our named executive officers, for their efforts in building shareholder value and improving corporate performance over the long term. The Compensation/Stock Option Committee believes that the stock option program is instrumental in our ability to recruit, retain and motivate our high caliber employees.

The Compensation/Stock Option Committee approves the options granted to our named executive officers on an individual basis. Our Chief Executive Officer has been delegated the authority to approve stock options and other equity-based awards to our non-executive employees not to exceed 80,000 shares to any one individual in the aggregate per calendar year.

Each year, the Compensation/Stock Option Committee determines the stock options to be granted to current employees in the form of annual grants by considering, among other factors, the impact of the options on shareholder dilution. We have always been, and will continue to be, sensitive to shareholders' concerns about the increase in the number of outstanding shares caused by new option grants. In that regard, we have reduced our net yearly option grants over the past ten years from 3.3% of average outstanding shares in fiscal 2007 to 2.5% of average outstanding shares in fiscal 2017. We have also reduced share dilution by repurchasing Cognex stock on the open market during that period. As a result, the number of outstanding shares has decreased by 2% from January 1, 2007 to December 31, 2017 (disregarding the impact of stock splits effected through the issuance of stock dividends). We intend to continue to actively manage our use of shares each year.

Messrs. Willett, Curran and Morin and Ms. DiPalma participated in our annual stock option grants, which were completed in the first quarter of the year. Their annual option grants were consistent with the vesting schedules and expiration dates of the majority of grants made to our other employees. Dr. Shillman declined to accept an annual option award when offered by the Compensation/Stock Option Committee as he feels that he has been adequately rewarded in the past and would prefer that any options that would be granted to him be available for granting to other employees.

In addition to annual grants, the Compensation/Stock Option Committee also granted options to Mr. Curran and Ms. DiPalma in conjunction with their promotions during 2017. In that regard, Mr. Curran was granted options to purchase 150,000 shares of our common stock, which consist of two grants as follows: 1) an option to purchase 50,000 shares which vests in four equal annual installments commencing on November 2, 2018; and 2) an option to purchase 100,000 shares which vests in one installment on November 2, 2022. Ms. DiPalma was granted options to purchase 100,000 shares of our common stock, also consisting of two grants as follows: 1) an option to purchase 60,000 shares which vests in four equal annual installments commencing on November 1, 2018; and 2) an option to purchase 40,000 shares which vests in one installment on November 1, 2022.

In each case, these option grants are subject to Mr. Curran's and Ms. DiPalma's continued employment with Cognex. In determining the number of option shares and vesting schedules, the Compensation/Stock Option Committee considered various criteria including: the Radford Executive Compensation Report's benchmarking survey referred to above; and the named executive officer's level of responsibility, experience and potential. The Compensation/Stock Option Committee utilized a mix of compensation in order to provide each named executive officer with greater incentive to increase shareholder value and improve corporate performance over the long term.

Table of Contents

Our policy is to grant stock options on certain fixed dates. The annual grants are predetermined to occur each year on the fourth Monday in January of such year. The options for employees hired or promoted during a month are granted on the last Monday of that month. If any such Monday falls within a designated quiet period, then the grants will instead be made on the first Monday following the completion of the quiet period. If Nasdaq is closed on the appropriate Monday as described above, then the grants will instead be made on the next day that Nasdaq is open for trading. The Compensation/Stock Option Committee retains the discretion to grant options at such other times as it may otherwise deem appropriate. The exercise price for all stock options granted equals the closing price of our common stock on Nasdaq on the date of grant.

The Compensation/Stock Option Committee believes that the primary purpose of stock option awards is to align employee interests with the interests of our shareholders, and to provide our employees, including our named executive officers, with incentives to increase shareholder value over time. Change of control transactions typically represent events where our shareholders are realizing the value of their equity interests in our company. We believe it is appropriate for our Directors and named executive officers to share in this realization of shareholder value.

Accordingly, all stock option agreements covering the unvested options held by our non-employee Directors, Dr. Shillman, and Messrs. Alias, Curran and Morin, and the November 2017 options held by Ms. DiPalma, provide for such options to vest immediately upon a change of control of Cognex. All options held by Mr. Willett, except for his November 2014 option grants, are subject to immediate vesting if there is both a change in control of Cognex and his employment is involuntarily terminated within twelve months following such transaction. With respect to Mr. Willett's November 2014 option grants, (a) there is no acceleration of vesting in connection with a change of control with respect to the grant of stock options to purchase 480,000 shares which vest in four equal annual installments, and (b) the grants of options to purchase 800,000 shares subject to cliff vesting will become fully vested if the two conditions above are satisfied, but only to the extent that such options would have otherwise vested within two years from the date of termination of his employment. In providing for the immediate vesting of options held by Mr. Curran and Ms. DiPalma, the Compensation/Stock Option Committee noted that, given their roles with Cognex, it was unlikely that their employment with Cognex would be continued following a change of control transaction.

We do not have a stock ownership policy for our named executive officers or members of our Board of Directors.

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Compensation to our named executive officers consists primarily of salary, bonus and stock option awards as well as other benefits which are also available to all Cognex employees generally. These benefits include company-paid basic group term life insurance, basic accidental death and dismemberment insurance, an employer match of eligible compensation that employees invest in their 401(k) accounts, tuition reimbursement, and benefits consistent with our "Work Hard, Play Hard, Move Fast" culture such as Perseverance Awards, which reward employee longevity, commitment, and loyalty. Cognex's executive compensation policies, pursuant to which the compensation set forth in the Summary Compensation Table and Grants of Plan-Based Awards Table was paid or awarded, are described under the heading "Compensation Discussion and Analysis."

During 2017, Mr. Willett's salary remained consistent with 2016 at \$375,000. Mr. Curran received a salary increase of 7% when he became our Chief Financial Officer. Ms. DiPalma received a salary increase of 10% in conjunction with her promotion to Senior Vice President of Corporate Employee Services and, in such capacity,

as an executive officer. Consistent with prior years, Dr. Shillman elected to forgo his annual salary for 2017 and, as requested by him, we donated this amount to a public charity. Mr. Morin's salary did not change in 2017 prior to his retirement. Following his retirement, Mr. Morin's salary was adjusted to a level appropriate for his new responsibilities.

Cognex provides each named executive officer with the opportunity to earn a cash bonus pursuant to a performance-based annual company bonus program that is based first on the achievement of the consolidated financial goal set forth in Cognex's annual budget related to non-GAAP operating income as a percentage of revenue (we refer to this metric as "operating margin"), and then on the achievement of individual performance goals, which are also established annually. The Compensation/Stock Option Committee approves the target bonus for each named executive officer. For 2017, the target bonus for Dr. Shillman was \$100,000, with the opportunity to earn 0-250% of this amount; the target bonus for Mr. Willett was \$243,750, with the opportunity to earn 0-325% of this amount; the target bonus for Mr. Curran was \$150,000, with the opportunity to earn 0-200% of this amount; and the target bonus for Ms. DiPalma was \$88,800, with the opportunity to earn 0-175% of this amount. Mr. Morin was not eligible to participate in our 2017 bonus program following his retirement.

Cognex's actual consolidated operating margin for 2017 was 38.7%, which was above the target. As a result, each of our named executive officers was eligible to receive 100% of the individual's bonus target plus an additional amount depending upon his level of responsibility and up to a maximum approved by the Compensation/Stock Option Committee. Dr. Shillman achieved 100% of his individual performance goals, Mr. Willett achieved 100% of his individual performance goals, Mr. Curran achieved 90% of his individual performance goals, and Ms. DiPalma achieved 99% of her individual performance goals.

During 2017, Messrs. Willett, Curran and Morin and Ms. DiPalma participated in our annual stock option grants, which were completed in the first quarter of the year. Their annual option grants were consistent with the vesting schedules and expiration dates of the majority of grants made to our other employees. Dr. Shillman declined to accept an annual option award when offered by the Compensation/Stock Option Committee as he feels that he has been adequately rewarded in the past and would prefer that any options that would be granted to him be available for granting to other employees. Mr. Curran and Ms. DiPalma were each awarded two additional option grants in conjunction with their promotions during the year. A total of 4,131,200 options were granted to Cognex employees in fiscal year 2017.

Option Exercises and Stock Vested Table 2017

The following table sets forth the amounts realized in fiscal year 2017 by our named executive officers as a result of option exercises.

Name	Option Awards	
	Number of Shares Acquired on Exercise	Value Realized on Exercise(1)
Robert J. Shillman		\$
Robert J. Willett	800,000	\$ 33,883,153
John J. Curran	25,000	\$ 866,903
Richard A. Morin	137,000	\$ 3,001,005
Sheila M. DiPalma	62,000	\$ 1,492,616

- (1) The value realized on exercise represents the difference between the exercise price of the stock option and the closing price of our common stock on Nasdaq upon exercise of the stock option, multiplied by the number of shares underlying the option exercised.

EMPLOYMENT AGREEMENT WITH ROBERT J. WILLETT

We entered into an employment agreement with Mr. Willett in June 2008 when he joined our company as Executive Vice President and President of the Modular Vision Systems Division which entitles him to receive benefits that are available to all Cognex employees generally.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

All stock option agreements covering the unvested options held by our non-employee Directors, Dr. Shillman, and Messrs. Alias, Curran and Morin, and the November 2017 options held by Ms. DiPalma, provide for such options to vest immediately upon a change of control of Cognex, which is defined as a corporate transaction in which the holders of Cognex common stock before the transaction control less than 51% of the stock of Cognex or any successor corporation after the transaction.

All stock option agreements covering unvested options held by Mr. Willett, except for his November 2014 option grants, provide for any unvested options held by him to become fully vested if the following two conditions are met: 1) there is a change in control of Cognex (as defined above) and 2) his employment is involuntarily terminated within twelve months following such transaction. Mr. Willett's employment will be considered to be involuntarily terminated if Cognex terminates his employment without cause or he resigns his employment for good reason. Cause means his willful and continued failure to perform substantially his duties with Cognex (other than any failure resulting from

incapacity due to physical or mental illness), or his

Table of Contents

willful engagement in illegal conduct or gross misconduct which is materially injurious to Cognex. Good reason means a material diminution in his duties or responsibilities (excluding for this purpose any diminution related solely to Cognex ceasing to be a public reporting company), or the requirement to be based at any office or location that is more than 50 miles from his current office.

With respect to Mr. Willett's November 2014 option grants, (a) there is no acceleration of vesting in connection with a change of control with respect to the grant of stock options to purchase 480,000 shares which vest in four equal annual installments, and (b) the grants of options to purchase 800,000 shares subject to cliff vesting will become fully vested if the two conditions above are satisfied, but only to the extent that such options would have otherwise vested within two years from the date of termination of his employment.

The following table indicates the amount of unvested shares held by each named executive officer that would have become fully exercisable assuming that with respect to Dr. Shillman's, Messrs. Morin's and Curran's and Ms. DiPalma's option grants, a change of control of Cognex occurred at December 31, 2017, and with respect to the options granted to Mr. Willett, the termination of his employment occurred in the circumstances described above at December 31, 2017 following a change of control. These amounts are estimates only and do not necessarily reflect the actual number of shares that would accelerate or their value, which would only be known at the time that the individual becomes entitled to the accelerated vesting of his or her options.

Name	Number of Option Shares That Would Have Accelerated Vesting	Value of Option Shares That Would Have Accelerated Vesting(1)
Robert J. Shillman		\$
Robert J. Willett	760,000	\$ 28,349,725
John J. Curran	375,000	\$ 11,075,625
Richard A. Morin	58,500	\$ 1,985,555
Sheila M. DiPalma	100,000	\$

(1) Amounts shown in this column are based on the positive difference, if any, between the closing price of our common stock on Nasdaq on December 29, 2017 (\$61.16) and the exercise prices for such options.

CEO Pay Ratio

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of Robert J. Willett, our President and Chief Executive Officer. For 2017, our last completed fiscal year:

The median of the annual total compensation of all employees of our company (other than our Chief Executive Officer) was \$83,500; and

The annual total compensation of our Chief Executive Officer, as reported in the Summary Compensation Table included elsewhere in this proxy statement, was \$3,866,577.

Based on this information, for 2017 the ratio of the annual total compensation of our Chief Executive Officer to the median of the annual total compensation of all employees was approximately 46 to 1.

We believe our CEO Pay Ratio for 2017 demonstrates our pay-for-performance philosophy. Our compensation program consists of both fixed and variable components, and is designed to motivate all employees to produce superior short- and long-term corporate performance. The ratio of our CEO's salary to the salary of

Table of Contents

our median employee was approximately 5 to 1 because the fixed portion of our CEO's compensation was set below the 50th percentile of his position per the Radford's Global Technology Survey. Given our CEO's level of responsibility, experience and potential, the Compensation/Stock Option Committee awards him a mix of compensation with a higher variable component (i.e. annual company bonus and stock option awards) that is based upon individual, company and stock price performance. As a result, a substantial percentage of our CEO's total compensation is at risk every year, providing him with greater incentive to increase shareholder value and improve corporate performance over the long term.

To identify the median of the annual total compensation of all our employees, we took the following steps:

We selected October 2, 2017 (the first business day in October of that year), which is within the last three months of 2017, as the date upon which we would identify the median employee to allow sufficient time to identify the median employee given the global scope of our operations.

We determined that, as of October 2, 2017, our employee population consisted of approximately 1,680 individuals working for Cognex and its consolidated subsidiaries, with approximately 45% of these individuals located in the United States, 30% in Asia and 25% in Europe. This population consisted of our full-time, part-time and temporary employees. We do not have seasonal employees.

To identify the median employee from our employee population, we examined the annual base salary, annual bonus target and annual sales commissions for 2017 for all full-time, part-time and temporary employees employed by Cognex and its consolidated subsidiaries at the start of business on October 2, 2017. We believe these pay elements are appropriate because it was impractical to gather actual data from multiple payroll systems utilized to pay our worldwide workforce, and the actual achievement of the variable portion of compensation can vary widely from year to year.

We annualized compensation for any permanent employees that were only employed for part of 2017.

No adjustments were made for cost-of-living differences.

A U.S. dollar exchange rate as of September 30, 2017 was applied to compensation reported in a foreign currency.

All employees except for our CEO were ranked from lowest to highest with the median determined from this list.

Once we identified our median employee, we combined all of the elements of such employee's compensation for 2017 in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K, resulting in annual total compensation of \$83,500. With respect to the annual total compensation of our Chief Executive Officer, we used the amount reported in the Total column of our Summary Compensation Table included in this proxy statement under the heading Executive Compensation .

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules, based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

**PROPOSAL 2: AMENDMENT TO OUR ARTICLES OF ORGANIZATION TO INCREASE
NUMBER OF AUTHORIZED SHARES OF COMMON STOCK**

Under Massachusetts law, we may only issue shares of common stock to the extent such shares have been authorized for issuance under our Articles of Organization. Our Articles of Organization currently authorize the issuance of up to 200,000,000 shares of common stock. In order to ensure sufficient shares of common stock will be available for issuance by Cognex, our Board of Directors has approved, subject to shareholder approval, an amendment to our Articles of Organization to increase the number of shares of such common stock authorized for issuance from 200,000,000 to 300,000,000 shares.

Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL TO AMEND OUR ARTICLES OF ORGANIZATION TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK THAT WE HAVE THE AUTHORITY TO ISSUE FROM 200,000,000 TO 300,000,000 SHARES.

Description and Effect of Proposed Amendment

If approved by shareholders, the amendment will authorize Cognex to issue an additional 100,000,000 shares of our common stock, par value \$.002 per share, without further action by shareholders unless required by law or Nasdaq rules or the rules of any other stock exchange on which the stock is then listed. Under the proposed amendment, each of the newly authorized shares of common stock will have the same rights and privileges as currently authorized common stock. Adoption of the proposed amendment to our Articles of Organization will not affect the rights of the holders of currently outstanding common stock of Cognex nor will it change the par value of the common stock.

To the extent that additional authorized shares are issued in the future, however, they may decrease the existing shareholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing shareholders. The holders of our common stock do not have preemptive rights. This means that shareholders do not have a prior right to purchase any new issue of common stock in order to maintain their proportionate ownership interest.

The proposed amendment to increase the authorized number of shares of common stock could, under certain circumstances, have an anti-takeover effect or delay or prevent a change in control of Cognex by providing Cognex with the capability to engage in actions that would be dilutive to a potential acquirer, to pursue alternative transactions, or to otherwise increase the potential cost to acquire control of Cognex. Although the proposed amendment has been prompted by business and financial considerations, it may have the effect of discouraging unsolicited takeover attempts.

Reasons for the Recommendation

On October 30, 2017, we announced that our Board of Directors approved a two-for-one stock split of the company's common stock, payable in the form of a stock dividend. The stock dividend was paid on December 1, 2017, significantly reducing the number of authorized and unissued shares of our common stock.

Our Board believes that the authorized number of shares of our common stock should be increased to provide sufficient shares to raise additional capital through the sale of equity securities, to acquire another company or its assets, to provide equity incentives to employees, officers and directors, for stock splits and dividends, and for other

corporate purposes. Our authorized common stock currently consists of 200,000,000 shares, par value \$.002 per share, of which, as of March 2, 2018, 172,858,091 shares were outstanding, 14,313,971 shares were subject to outstanding stock options, and 10,150,002 shares remained available for grant pursuant to our stock incentive plans. Accordingly, we currently have only approximately 2,677,936 shares of common stock available for future issuance.

Table of Contents

We currently have no specific plans, arrangements or understandings to issue additional shares of our common stock, except for issuances under our stock incentive plans (including as discussed in Proposal 3). However, our Board of Directors considers the authorization of additional shares of common stock advisable to ensure the availability of shares for issuance to take timely advantage of market conditions and/or the availability of opportunities without delay. The proposed increase in authorized common stock would provide our Board of Directors with greater flexibility to implement corporate actions in the future.

Appraisal Rights

Under Massachusetts law, dissenting shareholders are not entitled to appraisal rights with respect to this proposed amendment to our Articles of Organization.

Effectiveness of Amendment

If approved, the amendment to our Articles of Organization will become effective upon the filing of Articles of Amendment to the Articles of Organization with the Secretary of the Commonwealth of Massachusetts. We would make that filing promptly after the Annual Meeting if this proposal is approved.

**PROPOSAL 3: APPROVAL OF THE AMENDMENT AND RESTATEMENT
OF THE COGNEX CORPORATION 2001 GENERAL STOCK OPTION PLAN**

There will be presented at the meeting a proposal to approve the amendment and restatement of Cognex's 2001 General Stock Option Plan (the "2001 Plan"), which was adopted by our Board of Directors on February 10, 2018. Approval of this proposal requires a majority of the votes cast, following determination of a quorum. All references to share amounts in the tables and narrative below have been restated to reflect the effect of the two-for-one stock split in December 2017.

Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE AMENDMENT AND RESTATEMENT OF THE COGNEX CORPORATION 2001 GENERAL STOCK OPTION PLAN.

Proposal

On February 10, 2018, our Board of Directors amended and restated the 2001 Plan, subject to the approval of our shareholders. Among other changes, the 2001 Plan, as amended and restated, will reserve an additional 10,000,000 shares to be granted under the 2001 Plan. The 2001 Plan is used to grant stock option awards to employees who are not subject to the reporting and other provisions of Section 16 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), not subject to Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), and not ten percent shareholders of our company, as selected from time to time by the Compensation/Stock Option Committee in its discretion.

Since the founding of Cognex in 1981, stock options have played a crucial role in our ability to recruit, retain and motivate key employees. While we seek to hire only the best employees, our compensation philosophy is to set salaries at the 50th percentile level. These relatively low salary levels keep fixed employee expenses low each year and, at the same time, they allow our company to build its cash reserve. We can continue this successful compensation strategy only if we can continue to grant meaningful stock options. Without that ability, we would either lose key employees, or, alternatively, we may be able to keep them only by raising their salaries substantially.

We believe that the 2001 Plan is critical to our ongoing effort to build shareholder value. In 2017, our revenue grew by 44% over the prior year. To help support this growth our headcount increased from 1,421 employees as of December 31, 2016 to 1,771 employees as of December 31, 2017. To support our growth and execute on our operating plans and strategic initiatives, we must effectively attract, retain and motivate skilled employees. We believe that providing employees with a direct stake in Cognex assures a closer identification of their interests with those of our company and its shareholders, thereby stimulating the efforts of our employees on our behalf and strengthening their desire to remain with Cognex.

Our Board of Directors and executive officers have always been, and will continue to be, sensitive to shareholders concerns about the increase in the number of outstanding shares caused by new option grants. During the past ten years, we have reduced our net yearly option grants from 3% of average outstanding shares in fiscal 2007 to 2% of average outstanding shares in fiscal 2017. During this period, our employee headcount more than doubled. We intend to continue to actively manage our use of shares each year.

We have also reduced share dilution by repurchasing Cognex stock on the open market. During the period of 2007 to 2017, we repurchased a total of 42,780,000 shares of Cognex common stock. As a result, the number

Table of Contents

of outstanding shares has decreased by 2% from January 1, 2007 to December 31, 2017. The shares that we repurchase on the open market are not returned to the reserved pool under the 2001 Plan.

We urge you to allow Cognex to continue its successful compensation strategy by voting **FOR** the approval of the 2001 Plan.

Summary of Material Features

The material features of the 2001 Plan are:

The maximum number of shares of common stock to be issued under the 2001 Plan is increased by 10,000,000 shares of common stock (from 28,440,000 shares to 38,440,000 shares);

The award of stock options (including both incentive and non-qualified options) is permitted;

Shares tendered or held back for taxes will not be added back to the reserved pool under the 2001 Plan. Additionally, shares reacquired by the Company on the open market or otherwise using cash proceeds of option exercises will not be added to the reserved pool;

Options will generally be subject to a minimum vesting period of one year;

No dividends shall be paid with respect to any unexercised options, whether vested or unvested;

No option will have a term in excess of ten years;

No option repricing is permitted, including through cancellation and re-grants or cancellation of options in exchange for cash; and

The term of the 2001 Plan will expire on February 10, 2028.

Based solely on the closing price of our common stock as reported by Nasdaq on March 2, 2018, the maximum aggregate market value of the 10,000,000 shares of common stock proposed to be added to the 2001 Plan is approximately \$530,000,000. The shares issued by us under the 2001 Plan will be authorized but unissued shares. The shares underlying any awards that are forfeited, canceled, expire, are reacquired by us prior to vesting, or are otherwise terminated (other than by exercise) under the 2001 Plan are added back to the shares available for issuance under the 2001 Plan.

Rationale for Share Increase

The 2001 Plan is critical to our ongoing effort to build shareholder value. Our overall equity incentive program is broad-based and equity incentive awards are also an important component of our employees' compensation. Our Compensation/Stock Option Committee and Board believe we must continue to offer a competitive equity compensation program in order to attract, retain and motivate the talented and qualified employees necessary for our continued growth and success.

We manage our long-term shareholder dilution by limiting the number of equity incentive awards granted annually. The Compensation/Stock Option Committee carefully monitors our annual net burn rate, total dilution, and equity expense by granting only the appropriate number of equity incentive awards that it believes are necessary to attract, reward and retain employees. Our compensation philosophy reflects broad-based eligibility for equity incentive awards, and we grant awards to substantially all of our employees. By doing so, we link employee interests with shareholder interests throughout the organization and motivate our employees to act as owners of the business.

Table of Contents

The 2001 Plan had 7,110,000 shares of common stock reserved for issuance (which number became 28,440,000 shares as a result of our 2-for-1 stock splits in September 2013 and December 2017). We are requesting the increase of this share amount by 10,000,000 shares. As of March 2, 2018, there were 4,497,562 shares available for future grant under the 2001 Plan. In addition, we have 13,200,000 shares authorized for issuance under our 2007 Stock Option and Incentive Plan (the 2007 Plan), of which 5,652,440 shares were available for grant as of March 2, 2018. Although all directors, officers, employees and other key persons of Cognex and its subsidiaries are eligible to receive grants under the 2007 Plan, the 2007 Plan has been used primarily to grant equity awards to our directors and officers who are not eligible to participate in the 2001 Plan.

Burn Rate

The following table sets forth information regarding historical awards granted and earned for the 2015 through 2017 period, and the corresponding burn rate, which is defined as the number of shares subject to equity-based awards granted in a year divided by the weighted-average common shares outstanding for that year, for each of the last three fiscal years:

	2017	2016	2015
Total stock options granted	4,293,000	3,860,000	3,038,000
Weighted average common shares outstanding during the fiscal year	173,287,000	170,676,000	172,592,000
Annual Burn Rate	2.5%	2.3%	1.8%
Three-Year Average Burn Rate		2.2%	

Our three-year average burn rate for the 2015-2017 period was 2.2%, which is below the ISS burn rate benchmark of 6.16% for Russell 3000 (excluding S&P 500) companies in the technology industry.

If our request to increase the share reserve of the 2001 Plan by an additional 10,000,000 shares is approved by shareholders, we will have approximately 20,150,002 total shares available for grant after the Annual Meeting, which is based on 4,497,562 shares available for grant under the 2001 Plan at March 2, 2018, 5,652,440 shares available for grant under the 2007 Plan at March 2, 2018, and the 10,000,000 shares subject to this proposal. Our Compensation/Stock Option Committee determined the size of the requested share increase based on projected equity awards to non-officer employees and an assessment of the magnitude of increase that our institutional investors and the firms that advise them would likely find acceptable. We anticipate that if our request to increase the share reserve is approved by shareholders, it will be sufficient to provide equity incentives to attract, retain and motivate non-officer employees under the 2001 Plan through 2022.

Summary of the 2001 Plan

The following description of certain features of the 2001 Plan is intended to be a summary only. The summary is qualified in its entirety by the full text of the 2001 Plan, as amended and restated, that is attached to this proxy statement as *Appendix A*.

Plan Administration. The 2001 Plan may be administered by the full Board or a committee consisting of two or more members of the Board, and it is currently administered by the Compensation/Stock Option Committee. Subject to the terms of the Plan, the Compensation/Stock Option Committee may determine the employees of Cognex and its subsidiaries (from among the class of eligible employees) to whom options may be granted, determine the time or times at which options may be granted, determine the option price of shares subject to each option, determine the time

or times when each option shall become exercisable and the duration of the exercise

Table of Contents

period, determine the extent and nature of any restrictions on any options or shares, and determine the size of any options under the 2001 Plan. Our Chief Executive Officer also has limited authority to grant stock options to employees eligible to participate in the 2001 Plan.

Eligibility. Persons eligible to participate in the 2001 Plan will be those employees of Cognex and its subsidiaries who are not subject to the reporting and other provisions of Section 16 of the Exchange Act, not subject to Section 162(m) of the Code, and not ten percent shareholders of our company, as selected from time to time by the Compensation/Stock Option Committee in its discretion. Approximately 1,800 individuals are currently eligible to participate in the 2001 Plan.

Stock Options. The 2001 Plan permits the granting of (1) options to purchase common stock intended to qualify as incentive stock options under Section 422 of the Code and (2) options that do not so qualify. Options granted under the 2001 Plan will be non-qualified options if they fail to qualify as incentive stock options or exceed the annual limit on incentive stock options. The option exercise price of each option will be determined by the Compensation/Stock Option Committee but may not be less than 100% of the fair market value of the common stock on the date of grant. Fair market value for this purpose will be the last reported sale price of our shares of common stock as reported on Nasdaq on the date of grant. The exercise price of an option may not be reduced after the date of the option grant, other than to appropriately reflect changes in our capital structure.

The term of each option will be fixed by the Compensation/Stock Option Committee and may not exceed ten years from the date of grant. The Compensation/Stock Option Committee will determine at what time or times each option may be exercised. Options may be made exercisable in installments and the exercisability of options may be accelerated by the Compensation/Stock Option Committee. No option granted under the 2001 Plan is transferable by the optionee other than by will or by the laws of descent and distribution, and options may be exercised during the optionee's lifetime only by the optionee.

Upon exercise of an option, the option exercise price must be paid in full either in cash, by certified or bank check or other instrument acceptable to the Compensation/Stock Option Committee or by delivery (or attestation to the ownership) of shares of common stock that are beneficially owned by the optionee provided that the payment of the exercise price by delivery of common stock may be made only if such payment does not result in a charge for financial accounting purposes as determined by the Compensation/Stock Option Committee. Subject to applicable law, the exercise price may also be delivered to us by a broker pursuant to irrevocable instructions to the broker from the optionee.

To qualify as incentive options, options must meet additional federal tax requirements, including a \$100,000 limit on the value of shares subject to incentive options that first become exercisable by a participant in any one calendar year.

Minimum Vesting Requirements. Except in the case of death, disability, retirement or a sale event, or awards with respect to no more than 5% of shares reserved for issuance under the 2001 Plan, the minimum vesting period with respect to any option shall be no less than one year.

Change of Control Provisions. The 2001 Plan provides that upon the effectiveness of a sale event as defined in the 2001 Plan, except as otherwise provided by the Compensation/Stock Option Committee in the award agreement, all stock options will terminate unless the parties to the sale event agree that such awards will be assumed or continued by the successor entity. In addition, in the case of a sale event in which our shareholders will receive cash consideration, we may make or provide for a cash payment to participants holding options equal to the difference between the per share cash consideration and the exercise price of the options. While the

Table of Contents

Compensation/Stock Option Committee has the discretion to accelerate the vesting of outstanding stock options under the 2001 Plan, the 2001 Plan does not provide for the automatic acceleration of vesting upon a sale event.

Adjustments for Stock Dividends, Stock Splits, Etc. The 2001 Plan requires the Compensation/Stock Option Committee to make appropriate adjustments to the number of shares of common stock that are subject to the 2001 Plan, to certain limits in the 2001 Plan, and to any outstanding awards to reflect stock dividends, stock splits, extraordinary cash dividends and similar events.

Tax Withholding. Participants in the 2001 Plan are responsible for the payment of any federal, state or local taxes that Cognex is required by law to withhold upon the exercise of options. Subject to approval by the Compensation/Stock Option Committee, participants may elect to have the tax withholding obligations satisfied by authorizing us to withhold shares of common stock to be issued pursuant to the exercise or vesting.

Amendments and Termination. Our Board may at any time amend or discontinue the 2001 Plan and may at any time amend or cancel any outstanding award for the purpose of satisfying changes in the law or for any other lawful purpose. However, no such action may adversely affect any rights under any outstanding award without the holder's consent. Unless otherwise approved by shareholders, the Compensation/Stock Option Committee may not reduce the exercise price of options or affect repricing through cancellation and re-grants or cancellation of options in exchange for cash.

Effective Date of 2001 Plan. Our Board amended and restated the 2001 Plan on February 10, 2018, and the 2001 Plan, as amended and restated, will become effective on the date it is approved by our shareholders. No options may be granted under the 2001 Plan after the date that is 10 years from the date of Board approval.

Tax Aspects Under the Code

The following is a summary of the principal federal income tax consequences of certain transactions under the 2001 Plan. It does not describe all federal tax consequences under the 2001 Plan, nor does it describe state or local tax consequences.

Incentive Options. No taxable income is generally realized by the optionee upon the grant or exercise of an incentive option. If shares of common stock issued to an optionee pursuant to the exercise of an incentive option are sold or transferred after two years from the date of grant and after one year from the date of exercise, then (1) upon sale of such shares, any amount realized in excess of the option price (the amount paid for the shares) will be taxed to the optionee as a long-term capital gain, and any loss sustained will be a long-term capital loss, and (2) Cognex will not be entitled to any deduction for federal income tax purposes. The exercise of an incentive option will give rise to an item of tax preference that may result in alternative minimum tax liability for the optionee.

If shares of common stock acquired upon the exercise of an incentive option are disposed of prior to the expiration of the two-year and one-year holding periods described above (a disqualifying disposition), generally (1) the optionee will realize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of the shares of common stock at exercise (or, if less, the amount realized on a sale of such shares of common stock) over the option price, and (2) we will be entitled to deduct such amount. Special rules will apply where all or a portion of the exercise price of the incentive option is paid by tendering shares of common stock.

If an incentive option is exercised at a time when it no longer qualifies for the tax treatment described above, the option is treated as a non-qualified option. Generally, an incentive option will not be eligible for the

Table of Contents

tax treatment described above if it is exercised more than three months following termination of employment (or one year in the case of termination of employment by reason of disability). In the case of termination of employment by reason of death, the three-month rule does not apply.

Non-Qualified Options. No income is realized by the optionee at the time the option is granted. Generally (1) at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares of common stock on the date of exercise, and we receive a tax deduction for the same amount, and (2) at disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on how long the shares of common stock have been held. Special rules will apply where all or a portion of the exercise price of the non-qualified option is paid by tendering shares of common stock. Upon exercise, the optionee will also be subject to Social Security taxes on the excess of the fair market value over the exercise price of the option.

Parachute Payments. The vesting of any portion of an option or other award that is accelerated due to the occurrence of a change in control (such as a sale event) may cause a portion of the payments with respect to such accelerated awards to be treated as parachute payments as defined in the Code. Any such parachute payments may be non-deductible to Cognex, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment (in addition to other taxes ordinarily payable).

Table of Contents**New Plan Benefits**

The following table provides information with respect to options granted under the 2001 Plan in the fiscal year ended December 31, 2017, to employees who are not officers or directors of our company. Our directors and executive officers are not eligible to participate in the 2001 Plan. It is not possible to state the amount of options which will be granted under the 2001 Plan because these grants are subject to the discretion of the Compensation/Stock Option Committee.
