INFORMATICA CORPORATION

**PROXY STATEMENT
FOR
2007 ANNUAL MEETING OF STOCKHOLDERS**

PROCEDURAL MATTERS

General

This Proxy Statement is being furnished to holders of common stock, par value \$0.001 per share (the "Common Stock"), of Informatica Corporation, a Delaware corporation ("Informatica" or the "Company"), in connection with the solicitation of proxies by the Board of Directors of Informatica for use at the Annual Meeting of Stockholders (the "Annual Meeting") to be held on Thursday, May 17, 2007 at 3:00 p.m., Pacific Time, and at any adjournment or postponement thereof for the purpose of considering and acting upon the matters set forth herein. The Annual Meeting will be held at Informatica's corporate offices, located at 100 Cardinal Way, Redwood City, CA 94063. The telephone number at that location is (650) 385-5000.

This Proxy Statement, the accompanying form of proxy card and the Company's 2006 Annual Report to Stockholders are first being mailed on or about April 6, 2007 to all stockholders entitled to vote at the Annual Meeting.

Stockholders Entitled to Vote; Record Date

Only holders of record of Informatica's Common Stock at the close of business on March 30, 2007 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting. Such stockholders are entitled to cast one vote for each share of Common Stock held as of the Record Date on all matters properly submitted for the vote of stockholders at the Annual Meeting. As of the Record Date, there were 86,990,410 shares of Common Stock outstanding and entitled to vote at the Annual Meeting. No shares of preferred stock were outstanding. For information regarding security ownership by management and by the beneficial owners of more than 5% of Informatica's Common Stock, see the section of this Proxy Statement entitled "Security Ownership by Principal Stockholders and Management."

Quorum; Required Vote

The presence of the holders of a majority of the shares of Common Stock entitled to vote generally at the Annual Meeting is necessary to constitute a quorum at the Annual Meeting. Stockholders are counted as present at the meeting if they (1) are present in person or (2) have properly submitted a proxy card or voted by telephone or by using the Internet.

A plurality of the votes duly cast is required for the election of directors. The affirmative vote of a majority of the votes duly cast is required to ratify the appointment of Ernst & Young LLP as the independent registered public accounting firm of the Company.

Under the General Corporation Law of the State of Delaware, an abstaining vote and a broker "non-vote" are counted as present and entitled to vote and are, therefore, included for purposes of determining whether a quorum is present at the Annual Meeting. An abstaining vote is deemed to be a "vote cast" and has the same effect as a vote cast against approval of a proposal requiring approval by a majority of the votes cast. However, broker "non-votes" are not deemed to be "votes cast." As a result, broker "non-votes" are not included in the tabulation of the voting results on the election of directors or issues requiring approval of a majority of the votes cast and, therefore,

do not have the effect of votes in opposition in such tabulations. A broker "non-vote" occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have

discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

Voting

Voting by telephone or the Internet. A stockholder may vote his or her shares by calling the toll-free number indicated on the enclosed proxy card and following the recorded instructions or by accessing the website indicated on the enclosed proxy card and following the instructions provided. When a stockholder votes by telephone or via the Internet, his or her vote is recorded immediately. Informatica encourages its stockholders to vote using these methods whenever possible.

Voting by proxy card. All shares entitled to vote and represented by properly executed proxy cards received prior to the Annual Meeting, and not revoked, will be voted at the Annual Meeting in accordance with the instructions indicated on those proxy cards. If no instructions are indicated on a properly executed proxy card, the shares represented by that proxy card will be voted as recommended by the Board of Directors. If any other matters are properly presented for consideration at the Annual Meeting, including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named as proxies in the enclosed proxy card and acting thereunder will have discretion to vote on those matters in accordance with their best judgment. The Company does not currently anticipate that any other matters will be raised at the Annual Meeting.

Voting by attending the meeting. A stockholder may also vote his or her shares in person at the Annual Meeting. A stockholder planning to attend the Annual Meeting should bring proof of identification for entrance to the Annual Meeting. If a stockholder attends the Annual Meeting, he or she may also submit his or her vote in person, and any previous votes that were submitted by the stockholder, whether by Internet, telephone or mail, will be superseded by the vote that such stockholder casts at the Annual Meeting.

Changing vote; revocability of proxy. If a stockholder has voted by telephone or the Internet or by sending a proxy card, such stockholder may change his or her vote before the Annual Meeting.

A stockholder that has voted by telephone or the Internet may change his or her vote by making a timely and valid later telephone or Internet vote, as the case may be.

Any proxy card given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. A proxy card may be revoked by (1) filing with the Secretary of the Company, at or before the taking of the vote at the Annual Meeting, a written notice of revocation or a duly executed proxy card, in either case dated later than the prior proxy card relating to the same shares, or (2) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not of itself revoke a proxy). Any written notice of revocation or subsequent proxy card must be received by the Secretary of the Company prior to the taking of the vote at the Annual Meeting. Such written notice of revocation or subsequent proxy card should be hand delivered to the Secretary of the Company or should be sent so as to be delivered to Informatica Corporation, 100 Cardinal Way, Redwood City, CA 94063, Attention: Corporate Secretary.

Expenses of Solicitation

Informatica will bear all expenses of this solicitation, including the cost of preparing and mailing this solicitation material. The Company may reimburse brokerage firms, custodians, nominees, fiduciaries and other persons representing beneficial owners of Common Stock for their reasonable expenses in forwarding solicitation materials to such beneficial owners. Directors, officers and employees of the Company may also solicit proxies in person or by telephone, letter, e-mail, telegram, facsimile or other means of communication. Such directors, officers and employees will not be additionally compensated, but they may be reimbursed for reasonable out-of-pocket expenses in connection with such solicitation. The Company may engage the services of a professional proxy solicitation firm to aid in the solicitation of proxies from certain brokers, bank nominees and other institutional owners. The Company's costs for such services, if retained, will not be significant.

Requirements for stockholder proposals to be considered for inclusion in the Company's proxy materials. Stockholders may present proper proposals for inclusion in the Company's proxy statement and for consideration at the next annual meeting of its stockholders by submitting their proposals in writing to the Secretary of the Company in a timely manner. In order to be included in the Company's proxy materials for the 2008 annual meeting of stockholders, stockholder proposals must be received by the Secretary of the Company no later than December 8, 2007 and must otherwise comply with the requirements of Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Requirements for stockholder proposals to be brought before an annual meeting. In addition, the Company's Bylaws establish an advance notice procedure for stockholders who wish to present certain matters before an annual meeting of stockholders. In general, nominations for the election of directors may be made by (1) the Board of Directors, (2) the Corporate Governance and Nominating Committee or (3) any stockholder entitled to vote who has delivered written notice to the Secretary of the Company within the Notice Period (as defined below), which notice must contain specified information concerning the nominees and concerning the stockholder proposing such nominations. However, if a stockholder wishes only to recommend a candidate for consideration by the Corporate Governance and Nominating Committee as a potential nominee for the Company's Board of Directors, see the procedures discussed in "Proposal One - Election of Directors - Corporate Governance Matters."

The Company's Bylaws also provide that the only business that may be conducted at an annual meeting is business that is (1) specified in the notice of meeting given by or at the direction of the Board of Directors, (2) properly brought before the meeting by or at the direction of the Board of Directors, or (3) properly brought before the meeting by any stockholder entitled to vote who has delivered written notice to the Secretary of the Company within the Notice Period (as defined below), which notice must contain specified information concerning the matters to be brought before such meeting and concerning the stockholder proposing such matters.

The "Notice Period" is defined as that period not less than 45 days nor more than 75 days prior to the anniversary of the date on which the Company first mailed its proxy materials for the previous year's annual meeting of stockholders. As a result, the Notice Period for the 2008 annual stockholder meeting will start on January 22, 2008 and end on February 21, 2008.

If a stockholder who has notified the Company of his or her intention to present a proposal at an annual meeting does not appear to present his or her proposal at such meeting, the Company need not present the proposal for vote at such meeting.

A copy of the full text of the Bylaw provisions discussed above may be obtained by writing to the Secretary of the Company. All notices of proposals by stockholders, whether or not included in the Company's proxy materials, should be sent to Informatica Corporation, 100 Cardinal Way, Redwood City, CA 94063, Attention: Corporate Secretary.

PROPOSAL ONE

ELECTION OF DIRECTORS

General

The Company's Board of Directors is currently comprised of eight members who are divided into three classes with overlapping three-year terms. A director serves in office until his or her respective successor is duly elected and qualified or until his or her earlier death or resignation. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of an equal number of directors. Three directors shall be elected at the Annual Meeting.

Three Class I directors are to be elected at the Annual Meeting for a three-year term ending in 2010. Upon the recommendation of the Corporate Governance and Nominating Committee, the Board of Directors has nominated **Janice D. Chaffin, Carl J. Yankowski and Charles J. Robel** for re-election as Class I directors. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the re-election of Ms. Chaffin, Mr. Yankowski and Mr. Robel. The Company expects that Ms. Chaffin, Mr. Yankowski and Mr. Robel will accept such nomination; however, in the event that any nominee is unable or declines to serve as a director at the time of the meeting, the proxies will be voted for any nominee who shall be designated by the Board of Directors to fill the vacancy. The term of office of each person elected as a director will continue until such director's term expires in 2010 or until such director's successor has been elected and qualified.

The Board of Directors recommends a vote FOR the nominees listed above.

The Compensation Committee acts pursuant to a written charter adopted by the Board of Directors, which is available in the "Investor Relations" section of our website at <http://www.informatica.com>.

Lead Independent Director. Mr. Pidwell was appointed Lead Independent Director in March 2005, whereby he serves as a liaison between management and the other non-employee directors. As Lead Independent Director, Mr. Pidwell will, among other things, schedule and chair meetings of the independent directors. In addition, the independent directors may hold a closed session at regularly scheduled board meetings.

Director Compensation

Cash Compensation. In 2006, non-employee members of the Board of Directors received (1) an annual retainer of \$30,000, paid quarterly at the rate of \$7,500 per quarter; (2) \$15,000 paid quarterly at the rate of \$3,750 per quarter for the Lead Independent Director (for 2006, Mr. Pidwell); (3) \$15,000 per year for each member of the Audit Committee (\$20,000 if such member is the chairperson); (4) \$10,000 per year for each member of the Compensation Committee (\$15,000 if such member is the chairperson); (5) \$5,000 per year for each member of the Corporate Governance and Nominating Committee (\$10,000 if such member is the chairperson) and (6) \$5,000 per year for each member of the Strategy Committee (\$10,000 if such member is the chairperson). For 2007 the annual retainer has been increased to \$35,000 paid quarterly at the rate of \$8,750 per quarter.

Non-Employee Director Option Grants. Non-employee directors are eligible to receive options to purchase the Company's Common Stock pursuant to the Company's 1999 Non-Employee Director Stock Incentive Plan (the [1999 Director Plan]), which provides for annual automatic grants of nonstatutory stock options to continuing non-employee directors. Under the 1999 Director Plan, each non-employee director will automatically be granted a nonstatutory stock option grant of 60,000 shares of the Company's Common Stock upon his or her initial election to the Board of Directors ([Initial Grant]). Immediately following each annual stockholders' meeting, each non-employee director who continues to serve as a non-employee director following such annual meeting will automatically be granted a nonstatutory stock option to purchase 25,000 shares of the Company's Common Stock ([Subsequent Grant]), as long as the director had been a non-employee director for at least six months prior to such annual meeting of stockholders. All options automatically granted to non-employee directors will have an exercise price equal to 100% of the fair market value on the date of grant. One third of the shares subject to the Initial Grant vests and becomes exercisable one year after the grant date and the remaining shares subject to the Initial Grant vest in equal monthly installments over the following 24-month period, such that the option is fully exercisable three years after its date of grant. Each Subsequent Grant vests and becomes 100% exercisable one year after the date such option is granted. In 2006, each of Ms. Chaffin and Messrs. Bertelsen, Pidwell, Seawell, Yankowski, Robel and Squire received Subsequent Grants.

Corporate Governance Matters

Code of Business Conduct. We have adopted a Code of Business Conduct that applies to all of our directors, officers (including our principal executive officer and senior financial and accounting officers), and employees. You can find our Code of Business Conduct in the [Investor Relations](#) section of our website at <http://www.informatica.com>. We will post any amendments to the Code of Business Conduct, as well as any waivers, that are required to be disclosed by the rules of either the SEC or The NASDAQ Stock Market on our website.

Independence of the Board of Directors. The Board of Directors has determined that, with the exception of Sohaib Abbasi, who is the Chief Executive Officer and President of Informatica, all of its members are [independent directors](#) as defined in the listing standards of The NASDAQ Stock Market. In making this determination, the Board considered that Mark A. Bertelsen is a member of the law firm of Wilson Sonsini

Goodrich & Rosati, Professional Corporation (WSGR). During fiscal 2006, WSGR provided legal services to the Company and received payments from the Company of approximately \$0.7 million. We believe the services performed by WSGR were provided in the ordinary course of business on terms no more or less favorable than those available from unrelated parties.

Contacting the Board of Directors. Stockholders and other individuals may communicate with the Board of Directors by submitting either an e-mail to board@informatica.com or a written communication addressed to the Board of Directors (or specific board member) Informatica Corporation, 100 Cardinal Way, Redwood City, California 94063. E-mail communications that are intended for a specific director should be sent to the e-mail address above to the attention of the applicable director.

Attendance at annual stockholder meetings by the Board of Directors. Although the Company does not have a formal policy regarding attendance by members of the Board of Directors at the Company's annual meeting of stockholders, the Company encourages, but does not require, directors to attend. Two directors attended the Company's 2006 annual meeting of stockholders.

Process for recommending candidates for election to the Board of Directors. The Corporate Governance and Nominating Committee is responsible for, among other things, determining the criteria for membership to the Board of Directors and recommending candidates for election to the Board of Directors. It is the policy of the Committee to consider recommendations for candidates to the Board of Directors from stockholders. Stockholder recommendations for candidates to the Board of Directors must be directed in writing to Informatica Corporation,

10

Corporate Secretary, 100 Cardinal Way, Redwood City, CA 94063 and must include the candidate's name, home and business contact information, detailed biographical data and qualifications, information regarding any relationships between the candidate and the Company within the last three years, and evidence of the nominating person's ownership of the Company's Common Stock.

The Committee's general criteria and process for evaluating and identifying the candidates that it recommends to the full Board of Directors for selection as director nominees, are as follows:

- The Committee regularly reviews the current composition and size of the Board of Directors.
- In its evaluation of director candidates, including the members of the Board of Directors eligible for re-election, the Committee seeks to achieve a balance of knowledge, experience and capability on the Board of Directors and considers (1) the current size and composition of the Board of Directors and the needs of the Board of Directors and the respective committees of the Board of Directors, (2) such factors as personal character, judgment, expertise, business experience, length of service, independence and other commitments, and (3) such other factors as the Committee may consider appropriate.
- While the Committee has not established specific minimum qualifications for director candidates, the Committee believes that candidates and nominees must reflect a Board that is comprised of directors who (1) are predominantly independent, (2) are of high integrity, (3) have broad, business-related knowledge and experience at the policy-making level in business, government or technology, including their understanding of the enterprise software industry and Informatica's business in particular, (4) have qualifications that will increase overall Board effectiveness and (5) meet other requirements as may be required by applicable rules, such as financial literacy or financial expertise with respect to audit committee members.
- In evaluating and identifying candidates, the Committee has the authority to retain third-party search firms with regard to candidates who are properly recommended by stockholders or by other means. The Committee will review the qualifications of any such candidate, this review may, in the Committee's discretion, include interviewing references for the candidate, direct interviews with the candidate, or other actions that the Committee deems necessary or proper.
- The Committee will apply these same principles when evaluating Board candidates who may be elected initially by the full Board of Directors to fill vacancies or add additional directors prior to the annual

meeting of stockholders at which directors are elected.

- After completing its review and evaluation of director candidates, the Committee recommends to the full Board of Directors the director nominees for selection.

PROPOSAL TWO

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed Ernst & Young LLP (["E&Y"]) as the independent registered public accounting firm of the Company for the fiscal year ending December 31, 2007. Although ratification by stockholders is not required by law, the Board has determined that it is desirable to request ratification of this selection by the stockholders. Notwithstanding its selection, the Audit Committee, in its discretion, may appoint a new independent registered public accounting firm at any time during the year if the Audit Committee believes that such a change would be in the best interest of the Company and its stockholders. If the stockholders do not ratify the appointment of E&Y, the Audit Committee may reconsider its selection.

E&Y has audited the Company's financial statements since the Company's inception. A representative of E&Y is expected to be present at the Annual Meeting with the opportunity to make a statement if he or she desires to do so, and is expected to be available to respond to appropriate questions.

The Board of Directors recommends a vote [FOR] this proposal.

11

Accounting Fees

The following table shows the fees paid or accrued by the Company for the audit and other services provided by E&Y for fiscal years 2005 and 2006.

	Fiscal Year	
	2005	2006
Audit Fees (1)	\$1,214,000	\$1,796,000
Audit-Related Fees (2)	79,000	499,000
Tax Fees (3)	1,168,000	1,609,000
All Other Fees	□	□
Total	\$2,461,000	\$3,904,000

- (1) Audit fees are for professional services rendered for the audit of the Company's annual financial statements and reviews of its quarterly financial statements. This category also includes fees for international statutory audits, consents, assistance with and review of documents filed with the SEC, attest services, work done by tax professionals in connection with the audit or quarterly reviews and attestation-related services in connection with Section 404 of the Sarbanes-Oxley Act of 2002 (["Section 404"]). The increase in fees in 2006 compared to 2005 was primarily due to an increase in the size and complexity of the Company.
- (2) These are fees for assurance and related services performed by E&Y that are reasonably related to the performance of the audit or review of Informatica's financial statements, which include fees for accounting consultations, internal control reviews and attest services

not required by statute or regulation. The increase in fees from \$79,000 in 2005 to \$499,000 in 2006 was primarily due to consulting services related to (i) acquisitions, (ii) issuance of Convertible Senior Notes and (iii) adoption of FAS 123(R). The 2005 fees were inadvertently stated as \$155,000 in the 2006 Proxy Statement.

- (3) These are fees for professional services performed by E&Y with respect to tax compliance and tax planning and advice. Tax compliance includes preparation of original and amended tax returns for the Company, refund claims, tax payment planning and tax audit assistance. Tax compliance fees totaled \$263,000 and \$660,000 for fiscal years 2005 and 2006, respectively. The increase in compliance fees in 2006 compared to 2005 was due to an increase in the size and complexity of the Company as well as its profitability. Tax planning and advice includes tax strategy planning and modeling, merger and acquisition related projects, intellectual property tax issues, intercompany and transfer pricing design and foreign employee tax matters. Tax planning and advice totaled \$905,000 and \$949,000 for fiscal years 2005 and 2006, respectively. The increase in tax planning and advice fees in 2006 compared to 2005 was primarily due to an acquisition that occurred in early 2006.

Pre-Approval of Audit and Non-Audit Services

All audit and non-audit services provided by E&Y to the Company must be pre-approved by the Audit Committee. The Audit Committee utilizes the following procedures in pre-approving all audit and non-audit services provided by E&Y. At or before the first meeting of the Audit Committee each year, the Audit Committee is presented with a detailed listing of the individual audit and non-audit services and fees (separately describing audit-related services, tax services and other services) expected to be provided by E&Y during the year. During the first quarter of each year, the Audit Committee is presented with an updated listing of approved services highlighting any new audit and non-audit services to be provided by E&Y. The Audit Committee reviews these listings and approves the services outlined therein if such services are acceptable to the Audit Committee.

To ensure prompt handling of unexpected matters, the Audit Committee delegates to the Chairman of the Audit Committee the authority to amend or modify the list of audit and non-audit services and fees; provided, however, that such additional or amended services may not affect E&Y's independence under applicable SEC rules. The Chairman reports any such action taken to the Audit Committee at the subsequent Audit Committee meeting.

All E&Y services and fees in 2005 and 2006 were pre-approved by the Audit Committee.

2000 Employee Stock Incentive Plan

In January 2000, the Board of Directors adopted the 2000 Employee Stock Incentive Plan (the "2000 Incentive Plan"), under which 1,600,000 shares were reserved for issuance. The 2000 Incentive Plan is not subject to stockholder approval. Under the 2000 Incentive Plan, eligible employees and consultants may be awarded stock options, stock appreciation rights, restricted shares and stock units. No stock options, stock appreciation rights, restricted shares or stock units from the 2000 Incentive Plan may be granted to directors or executive officers of the Company. The 2000 Incentive Plan is intended to help the Company attract and retain outstanding individuals in order to promote the Company's success. The 2000 Incentive Plan does not provide for the grant of incentive stock options. The exercise price for non-qualified options may not be less than 85% of the fair value of the Common Stock at the option grant date. COMPENSATION DISCUSSION AND ANALYSIS

Compensation Committee. Our Compensation Committee (the "Committee"), which serves under and at the discretion of our Board of Directors, is empowered to review and approve, or in certain circumstances recommend for the approval of the full Board the annual compensation for and compensation policies applicable to the Company's executive officers, including the Company's Chief Executive Officer.

Our Compensation Committee is primarily responsible for reviewing and evaluating the competitiveness of our executive compensation programs and setting the compensation for executive officers, including annual base salary, annual non-equity incentive bonus, stock option grants, other benefits and any severance or change in control arrangements. In addition the Committee oversees the Company's overall compensation philosophy and framework and administers the equity compensation plans. The Committee's charter, which is approved by the Board, is available in the "Investor Relations" section of our website at <http://www.informatica.com>.

The Committee meets at least quarterly usually in tandem with the quarterly Board of Directors' meetings. Members of the Committee also often meet with the Company personnel as a part of the compensation planning and administration process throughout the year. During its first meeting in January, the Committee reviews and approves for the year ahead the compensation philosophy, option ranges for hiring and retention, bonus metrics and benefits. In addition, the first meeting of the year is used to finalize executive compensation plans for the upcoming year.

The Compensation Committee currently consists of Ms. Chaffin, Mr. Yankowski and Mr. Pidwell with Mr. Pidwell acting as the Chairman of the Committee. Each member is independent as that term is defined pursuant to the Committee's charter in terms of the independence requirements of The NASDAQ Stock Market, the non-employee director definition under Section 16 of the Securities Exchange Act of 1934 and the outside director definition in Section 162(m) of the Internal Revenue Code of 1986. No Committee members are former or current officers or employees of Informatica or any of its subsidiaries.

Compensation Programs Discussion and Analysis

This section discusses the principles underlying our executive compensation programs, policies and decisions and important factors relevant to an analysis of these programs, policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by the Company's Chief Executive Officer, Chief Financial Officer and three other named executive officers listed in the Summary Compensation Table on page 18 (collectively referred to as "NEOs").

16

Objectives of Compensation Programs

The principal objective of the Company's compensation programs is to attract and retain top-tier talent to the organization, and further to motivate and reward employees who continually drive strong results for the Company and its stockholders. Our compensation philosophy, and the programs adopted in accordance with that philosophy, are driven by the belief that employee performance and success will result in economic growth for the Company, which will have the effect of increasing stockholder value.

Our executives are compensated under the same programs and in generally the same fashion as employees at other levels within the organization; although certain executive compensation elements are more heavily weighted towards overall Company performance. Rewarding strong performance and contribution, regardless of seniority within the Company, is an important part of the Company's culture and core values.

A significant portion of the overall compensation portfolio for our executive officers is directly tied to Company performance, ensuring that executive compensation, our financial results and stockholder value are properly aligned. The compensation programs also seek to maintain the proper balance between short and long-range performance objectives by appropriately rewarding executive officers on the achievement of the Company's current business plan objectives, as well as on the long-term increase in the Company's net worth and resulting improvement in stockholder value.

What Our Compensation Programs are Designed to Reward

The various elements that make up our compensation programs, and which are described below, are designed to work together to attract, retain, and motivate highly qualified and focused executives and individual employees and to reward those individuals for strong performance. To ensure the principle objectives of aligning strong performance with the Company's short and longer-term business goals, we have two key elements in the overall program:

- The Company's non-equity incentive plan which focuses on driving results for the fiscal year ahead. All of our executive officers participate in this bonus plan which directly rewards our executives for achievement against annual Company performance goals. The Company performance criteria against which achievement is measured and the actual bonus targets are determined by the Compensation Committee in consultation with the Board of Directors and the Company's Chief Executive Officer and Chief Financial Officer.
- The Company's equity incentive plans which are key to long-term performance. We grant employee stock options to executives under the Company's 1999 Stock Incentive Plan (the "Option Plan") and sponsor an Employee Stock Purchase Plan ("ESPP") with the belief that such equity incentive programs foster an entrepreneurial spirit and serve to properly incent our executive team to focus their efforts on building stockholder value through meeting longer-term financial and strategic goals. In addition, the grant of stock options and participation in the sponsored ESPP are often key in attracting and retaining high caliber talent, including executives, in the competitive technology labor market.

Elements of the Company's Compensation Programs; Why the Company Chose to Pay Each Element; and Information Considered or Formulas Used in Determining Amounts in Each Element

As discussed above, the Company's overall compensation strategy is designed to attract top-tier talent to our executive ranks as well as to the general employee population, to motivate and reward those employees for delivering strong results and to ensure that key contributors to the Company's success are retained within the organization.

As a general matter, the Compensation Committee consults with the Company's Human Resources leadership, and when appropriate, with outside executive and employee compensation and benefits consultants, to assist in the evaluation of and recommendations related to the Company's executive compensation program and each of the elements under the program. In 2004, in connection with the recruitment and hiring of the Company's current Chief Executive Officer, the Compensation Committee engaged Compensia, Inc. as an independent outside

17

compensation consultant to advise the Committee on compensation practices and policies relating to that hire. Since that time, the Company and the Compensation Committee have retained Compensia in connection with the review of the Company compensation programs and policies for the Company executives as well as the Board of Directors. Compensia receives compensation from the Company on a fee-per-project basis.

While the Compensation Committee may, from time to time, consult with the Company's Chief Executive Officer or Chief Financial Officer in connection with the planning or evaluation of compensation program-related matters, the Committee ultimately drives the process for establishing the executive compensation programs and remains responsible for oversight and control of the overall program and the individual elements of that program.

The following summary compensation table includes the compensation elements that were earned by our NEOs for the fiscal year period ended December 31, 2006 (the "2006 Fiscal Year"). Each element is discussed in more detail below the table.

The individual elements that make up the Company's executive compensation programs include the following:

Base Salary

The Compensation Committee, working closely with the Company's Human Resources professionals, strives to set executive base salary pay and total cash compensation at sufficiently high levels to attract and retain a strong and motivated leadership team in an increasingly competitive technology market.

Annual base salaries for the Company's executive officers are determined primarily on the basis of the executive officer's level of responsibility, general salary practices of a basket of comparable companies and the individual officer's specific qualifications and experience. The base salaries are reviewed annually and may be adjusted by the Compensation Committee in accordance with certain criteria including individual performance, the functions performed by the executive officer, the scope of the executive officer's on-going duties, general changes in the compensation data from the basket of companies with which the Company competes for executive talent, and the Company's recent financial performance. The weight given to each factor by the Compensation Committee in its determination of any merit salary increase may vary from individual to individual.

For executive pay, the Company uses Radford executive pay surveys as well as data provided by Compensia which focuses its market analysis on similar mid-sized, fast-growing software companies.

Non-Equity Incentive Plan

The Company's executive compensation program includes a non-equity incentive plan element which we believe appropriately motivates our executive officers and management to focus proper efforts on the achievement of annual performance goals tied to top and bottom-line results.

The Company performance criteria against which achievement is measured and the actual bonus targets are determined by the Compensation Committee in consultation with the Board of Directors and the Company's Chief Executive Officer and Chief Financial Officer. The bonus targets for each executive position are determined using competitive market data provided by external consultants and may vary according to certain criteria which include job function, market competitive data and the scope of the executive officer's position and on-going duties.

The bonus plan is designed to closely link reward with achievement against Company performance target metrics with bonuses paid out after the second calendar quarter for performance against targets achieved in the first half of the year, and after the fourth calendar quarter for performance against targets achieved in the second half of the year. These target metrics are directly linked to top-line and bottom-line Company performance with targets being specifically tied to two internal key performance indicators, net license orders and operating income adjusted for certain items, such as charges related to restructuring and acquisitions, stock-based

Edgar Filing: INFORMATICA CORP - Form DEF 14A

compensation and other non-recurring, non-cash charges, if any. These targets are set at levels requiring significant growth or improvement from the prior fiscal year's performance and the bonus plan sets a minimum threshold for any payout at 80% achievement of each target metric measured on a semi-annual basis.

For executive officers in the 2006 Fiscal Year, with the exception of our Executive Vice President, Sales, 100% of the executive's bonus earnings potential was tied to achievement against the internal Company performance metrics described above. The plan provides for the potential of over achievement against these performance metrics with a cap set at 200% of the executive's target that would be reached at the extremely difficult achievement of over 140% on all of the performance metrics. Such maximum has not been reached in the company's history. For the Executive Vice President, Sales, a portion of his non-equity incentive plan compensation is based on the achievement of the performance metrics but the remainder is structured as commissions earned against achievement of a global target for license sales of the Company's software products and the sale of support and services sold in connection with such licenses.

Actual amounts paid to our executives are approved by the Compensation Committee in consultation with the Company's Chief Executive Officer. An individual executive may earn more or less than his or her potential target based on factors including individual performance and contributions to the Company's success during the measurement period.

The following grant of plan-based awards table contains information regarding our NEOs related to (1) our non-equity incentive plan ranges for the 2006 Fiscal Year discussed above; and (2) grants of stock options during the 2006 Fiscal Year discussed below.

Paul Hoffman	4/11/2006		272,000	544,000					100,000(5)	\$15.26	640,11
Brian Gentile	(1) 3/6/2006		165,000	330,000					300,000(6)	\$16.03	2,088,00

(1) Mr. Gentile joined the Company as Executive Vice President, Chief Marketing Officer effective March 6, 2006.

(2) The target amounts represent the compensation the particular officer would receive assuming the Company's 100% achievement of

both performance target metrics as explained above. The performance target metrics are approved by the Compensation Committee during its first meeting of the year. Performance against the targets are examined by the Compensation Committee twice yearly: once after the second quarter and then after the fourth quarter, once results are known. As such, the payments related to the awards are made in the third quarter (relating to first and second quarter performance) and in the first quarter of the following year (relating to the third and fourth quarter performance).

(3) Actual non-equity incentive plan awards for Fiscal 2006 were:

Mr. Abbasi	\$ 278,438	
Mr. Fry	\$ 138,600	
Mr. Pancha	\$ 123,441	
Mr. Hoffman	\$ 206,051	(\$67,320 related to corporate performance and \$138,731 as commission compensation as described above)
Mr. Gentile	\$ 79,784	(reflects proration given his hire date)

(4) The maximum non-equity incentive plan awards listed are triggered if the Company achieves in excess of 140% of each of its performance metrics. Such achievement would be extremely difficult given the aggressive metrics and this maximum has not been reached in the company's history.

(5) These option grants are annual refresh grants with four year monthly vesting.

(6) This option grant is Mr. Gentile's new hire grant which has a four year vesting schedule with a one year cliff and subsequent monthly vesting. Given his hiring in March of 2006, Mr. Gentile was not eligible for an annual refresh grant.

(7) Please refer to Note 2 in the Company's annual report on Form 10-K for the year ended December 31, 2006 for our assumptions related to the FAS 123(R) compensation cost calculations. These amounts reflect the 2006 FAS 123(R) compensation cost incurred by the Company for the stock options granted during 2006 to the particular executive officer and do not correspond to the actual value that could or will be recognized by the particular individual. The calculations reflected in this table do not include any forfeiture rate estimates.

Equity Based Incentive Plans

The Company's executive compensation program includes two equity incentive plans, the Option Plan and the ESPP, which we believe, properly focus the attention of the recipient on the Company's long-term performance and on increasing shareholder value. Awards under these equity based incentive plans also serve as a valuable retention component to the overall compensation strategy.

Our Compensation Committee acts as the plan administrator for both the Option Plan and the ESPP; however, the Option Plan empowers only the Board of Directors to grant employee stock options to the Company's executive officers. In line with its responsibility to set compensation for the Company's executive officers, the Compensation Committee makes recommendations to the full Board on the amount of and terms under which options are granted to executive officers whether for initial new hire grants, promotional grants or annual refresh grants. As of January 2007, the Board reviews and approves the annual refresh option grants to the executives as a part of the review of their overall annual compensation package at the first meeting of the year.

Options ranges are set for each level and position within the Company for both new hire grants and annual retention grants and are reviewed and approved by the Compensation Committee at the start of each fiscal year. Ranges are built to balance the need to use equity grants to provide significant attraction and retention value and to work within the Company's target dilution rate. These options ranges provide reference guidelines for the Chief Executive Officer, Human Resources, the Compensation Committee and the Board when hiring new executives to the Company. Additionally, the Compensation Committee often looks to market data provided by third party consultants to ensure that new hire equity grants for executive officers are within the target positioning levels in the Company's basket of comparable companies.

21

The principal factors considered in granting stock options to executive officers of the Company are prior performance, level of responsibility, total compensation profile, and the executive officer's ability to influence the Company's long-term growth and profitability. In reviewing annual refresh grants, analysis is also conducted on the amount of vested and unvested options that the particular executive has from prior grants and the retention value of such options.

All full time employees are eligible to participate in our ESPP which provides a fifteen percent (15%) discount on purchase of shares twice a year. Executive officers may participate in this plan on the same plan terms as all other employees.

While the Company does encourage all of its employees to become owners of the Company and own shares of the Company's stock, the Company does not currently set guidelines on minimum stock ownership for executive officers or directors. This is reviewed periodically and discussed as part of the Company's corporate governance strategy.

During the 2006 Fiscal Year, none of the NEOs exercised stock options.

The following Outstanding Equity Awards table contains information regarding option awards outstanding for the NEOs as of December 31, 2006.

The Company has adopted certain general employee benefits plans in which executive officers are permitted to participate on parity with other employees. The benefits plans vary by geography to account for statutory requirements and local market practices but the core offerings are similar. The primary benefits plans in the United States which are available to all U.S. employees who work at least twenty-four hours per week are:

- Flexible time off for vacation or care of a personal or family illness;
- Medical, dental and vision coverage;
- Disability Insurance with the same coverage and payout levels regardless of seniority;
- Basic Life and Accidental Death & Dismemberment Insurance with the same coverage and payout levels regardless of seniority ; and
- 401(k) savings plan with Company match up to \$1,500.

Executive Severance Arrangements

The Company has entered into agreements with its NEOs regarding severance arrangements. Such agreements are standard in our industry and are necessary in order to attract the best talent for these executive positions. We have a standard agreement for our Executive Vice Presidents which has been signed by Mr. Fry, Mr. Pancha, Mr. Hoffman and Mr. Gentile. The following is a summary of the material terms and conditions in this standard Executive Severance Agreement:

Term of Agreement. Each agreement has an initial term of two years, and provides that the initial term will be automatically extended each year for an additional one year term unless the Company informs the executive officer at least ninety days prior to the date of automatic renewal that it is electing not to extend the term.

Severance. In the event that the Company terminates the executive officer's employment without cause or the executive resigns for good reason as such terms are defined in the agreements, and such termination occurs within the time period beginning on the date three months preceding a change of control of the Company and ending on the date twelve months following a change of control, the executive officer will receive the following severance package: (1) continued payment of the executive officer's base salary for a period of twelve months; (2) reimbursement for benefits premiums for a maximum of twelve months (to cease once eligible for similar benefits from another employer); and (3) twelve months accelerated vesting for any equity awards that are outstanding as of the date that the executive officer's employment is terminated.

24

Conditions. The severance payments, continued benefits, and accelerated vesting will be subject to the executive officer entering into (and not subsequently revoking): (1) a separation agreement and release of claims in a form satisfactory to the Company and the executive officer; (2) a non-compete and non-solicitation agreement that would be in effect during the 12 month period in which the executive officer receives continuing salary from the Company; and (3) a non-disparagement agreement.

For our Chief Executive Officer, the terms are the same as detailed above, with the following additions in the change of control situation, the Chief Executive Officer receives: (1) lump-sum payments, paid at the time the then-current fiscal year bonuses are paid to other executives, equal in total to his then-current target bonus; (2) an additional twelve months accelerated vesting for any equity awards that are outstanding as of the date that the executive officer's employment is terminated (for a total of twenty-four months acceleration); and (3) a tax gross-up payment in the event any of the foregoing benefits subject the Chief Executive Officer to excise tax on excess parachute payments as determined under Sections 280G and 4999 of the Internal Revenue Code which could include income and employment taxes on such tax gross up payment as well as interest and penalties.

- (1) This amount was calculated by adding up the value of each of the stock options that would accelerate (which is the market price on December 31, 2006 (\$12.21) minus the particular option's exercise price).
- (2) This amount reflects the annual cost of COBRA coverage to maintain the medical, dental and vision benefits currently provided to the Chief Executive Officer.

Also the Chief Executive Officer receives severance benefits if Company terminates his employment without cause or he resigns for good reason without any change of control. Such benefits would be: (1) continued payment of his base salary for twelve months; (2) lump-sum payments, paid at the time fiscal year bonuses are paid to other executives, equal in total to his then-current target bonus; (3) reimbursement for benefits premiums for a maximum of twelve months (to cease once eligible for similar benefits from another employer); and (4) twelve months accelerated vesting for any equity awards that are outstanding as of the date that his employment is terminated.

Estimated Payments and Vesting Upon Termination (as described above) as if on December 31, 2006

Name	Salary paid over 12 months	Value of Accelerated Options (1)	Total Target Bonus paid in two payments at the time paid to other officers (typically August and following February)	Reimbursement for Premiums Paid for Medical, Dental and Vision Benefits for 12 Months (2)
Sohaib Abbasi	\$450,000	\$4,272,123	\$450,000	\$14,053

- (1) This amount was calculated by adding up the value of each of the stock options that would accelerate (which is the market price on December 31, 2006 (\$12.21) minus the particular option's exercise price).
- (2) This amount reflects the annual cost of COBRA coverage to maintain the medical, dental and vision benefits currently provided to the Chief Executive Officer.

Stock Option Grant Process

Our Option Plan provides that only the Board of Directors has the authority to grant options to Section 16 officers of the Company. As such, the Board approves grants to new Section 16 officers as well as approves refresh and promotional grants to Section 16 officers.

The Company does not have any plan or practice to time option grants in coordination with the release of material non-public information. Our process as of November 2006 included making such grants to executives only at formal in-person Board meetings during the initial month of each quarter. The effective grant date and strike price is set as of the first business day of the second month of the quarter if such date is in an open window or if not, the next date that is in an open window, for new hire, promotion and refresh grants. The vesting commencement date is the executive start date for the new hire grants, the effective promotion date for promotional grants, and the actual grant date for the refresh grants. Prior to November 2006, the process allowed for granting of stock options by the Board by unanimous written consent and for granting of stock options by the Board with an effective date and strike price of the meeting or consent date.

For all other employees, the Compensation Committee approves new hire, promotional and refresh option grants. The timing, effective grant date, the strike price and the vesting commencement date are as set forth for the executive officers above.

Accounting and Tax Considerations

The Compensation Committee conducts annual reviews of the efficacy and affordability of the Company's compensation programs. Prior to the applicability of the FAS 123(R) regulations, the ESPP was adjusted to provide for only a six month look-back period (instead of the prior twenty four month look-back period) but the 15% discount was maintained, given the value of this program to employees and the importance placed on this benefit by our employees. Section 162(m) of the Internal Revenue Code ("IRC") disallows a deduction by the Company for compensation exceeding \$1.0 million paid to certain executive officers, excluding, among other things, performance-based compensation. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Company has not adopted a policy that all compensation must be deductible. The Company does not have any deferred compensation plans so the Company has not adopted any policies related to Section 409A.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with the Company's management. Based on such review and discussion, the Compensation Committee recommended to the Company's Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference in to the Company's Form 10-K for the annual period ended December 31, 2006.
