TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission file number 001-04324

ANDREA ELECTRONICS CORPORATION

(Exact Name of Registrant as Specified in its Charter)

New York
State or other jurisdiction of
incorporation or organization

11-0482020
I.R.S. Employer Identification No.

620 Johnson Avenue Suite 1-B, Bohemia, NY
(Address of Principal Executive Offices)

11716
Zip Code

631-719-1800

Registrant's Telephone Number, Including Area Code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller Reporting Company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: As of November 9, 2018, there were 68,104,957 common shares outstanding.

Note 1. Basis of Presentation

Basis of Presentation - The accompanying unaudited condensed consolidated interim financial statements include the accounts of Andrea Electronics Corporation and its subsidiaries (“Andrea” or the “Company”). All intercompany balances and transactions have been eliminated in consolidation.

These unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In addition, the December 31, 2017 balance sheet data was derived from the audited consolidated financial statements, but does not include all disclosures required by GAAP. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for any other interim period or for the fiscal year.

These unaudited condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the fiscal year ended December 31, 2017 included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the Securities and Exchange Commission (the “SEC”) on March 26, 2018. The accounting policies used in preparing these unaudited condensed consolidated interim financial statements are consistent with those described in the December 31, 2017 audited consolidated financial statements.

Liquidity - The Company’s loss before income taxes was \$791,706 for the nine months ended September 30, 2018, of which \$109,189 represents non-cash stock based compensation, depreciation and amortization expenses. The Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) No. 2014-15, “Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern” (“ASU No. 2014-15”). ASU No. 2014-15 requires that management evaluate whether there are relevant conditions and events that, in the aggregate, raise substantial doubt about the entity’s ability to continue as a going concern and to meet its obligations as they become due within one year after the date that the financial statements are issued. Based upon the evaluation, management believes that there is not substantial doubt about the Company’s ability to continue as a going concern and to meet its obligations as they become due within the next twelve months from the date of the financial statement issuance. As part of the evaluation, management considered the Company’s cash balance of \$624,531 and its positive working capital of \$808,127 as of September 30, 2018 as well as the Company’s projected revenues and expenses for the next twelve months. If the Company is not successful in achieving its projected revenues and expenses it may need to seek other sources of revenue, areas of further expense reduction or seek additional funding from other sources such as debt or equity raising however there is no assurance that the Company would be successful or on terms that it would find acceptable.

Note 2. Summary of Significant Accounting Policies

Loss Per Share - Basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted loss adjusts basic loss earnings per share for the effects of convertible securities, stock options and other potentially dilutive financial instruments, only in the periods in which such effect is dilutive. Diluted loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method for the outstanding options, and the if-converted method for the outstanding convertible instruments. Under the treasury stock method, options are assumed to be exercised at the beginning of the period (or at the time of issuance, if later) and as if funds obtained thereby were used to purchase common stock at the average market price during the period. Under the if-converted method, outstanding convertible instruments are assumed to be converted into common stock at the beginning of the period (or at the time of issuance, if later). Securities that could potentially dilute basic earnings per share (“EPS”) in the future that were not included in the computation of the diluted EPS because to do so would have been anti-dilutive for the periods presented, consist of the following:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017

6

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Cash - Cash includes cash and highly liquid investments with original maturities of three months or less. At various times during the periods ended September 30, 2018 and December 31, 2017, the Company had cash deposits in excess of the maximum amounts insured by the Federal Deposit Insurance Corporation. At September 30, 2018 and December 31, 2017, the Company's cash was held at four financial institutions.

Concentration of Credit Risk - The following customers accounted for 10% or more of Andrea's consolidated total revenues during at least one of the periods presented below:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Customer A	52%	*	42%	*
Customer B	23%	*	21%	*
Customer C	*	95%	*	92%

* Amounts are less than 10%

As of September 30, 2018, Customers A and B accounted for approximately 70% and 14%, respectively, of accounts receivable. As of December 31, 2017, Customer A and B accounted for approximately 35% and 42% of accounts receivable.

Allowance for Doubtful Accounts - The Company performs on-going credit evaluations of its customers and adjusts credit limits based upon payment history and the customer's current credit worthiness, as determined by the review of their current credit information. Collections and payments from customers are continuously monitored. The Company maintains an allowance for doubtful accounts, which is based upon historical experience as well as specific customer collection issues that have been identified. While such bad debt expenses have historically been within expectations and allowances established, the Company cannot guarantee that it will continue to experience the same credit loss rates that it has in the past. If the financial condition of customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Inventories - Inventories are stated at the lower of cost (on a first-in, first-out) or net realizable value. The cost of inventory is based on the respective cost of materials. Andrea reviews its inventory reserve for obsolescence on a quarterly basis and establishes reserves on inventories based on the specific identification method as well as a general reserve. Andrea records changes in inventory reserves as part of cost of product revenues.

	September 30, 2018	December 31, 2017
Raw materials	\$ 55,704	\$ 29,153
Finished goods	283,039	214,976
	338,743	244,129
Less: reserve for obsolescence	(95,015)	(107,680)
	\$ 243,728	\$ 136,449

Long-Lived Assets - Andrea accounts for its long-lived assets in accordance with Accounting Standards Codification ("ASC") 360 "Property, Plant and Equipment" for purposes of determining and measuring impairment of its long-lived assets (primarily intangible assets) other than goodwill. Andrea's policy is to periodically review the value assigned to its long-lived assets to determine if they have been permanently impaired by adverse conditions which may affect Andrea whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If Andrea identifies a permanent impairment such that the carrying amount of Andrea's long lived assets is not recoverable using the sum of an undiscounted cash flow projection (gross margin dollars from product revenues), the impaired asset is adjusted to its estimated fair value, based on an estimate of future discounted cash flows which becomes the new cost basis for the impaired asset. Considerable management judgment is necessary to estimate undiscounted future operating cash flows and fair values and, accordingly, actual results could vary significantly from such estimates. At September 30, 2018 and December 31, 2017, Andrea concluded that intangibles and long-lived assets were not impaired.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Trade accounts payable and other current liabilities - Trade accounts payable and other current liabilities consist of the following:

	September 30, 2018	December 31, 2017
Trade accounts payable	\$ 46,250	\$ 34,659
Payroll and related expenses	30,194	23,494
Patent monetization expenses	140,105	200,769
Short-term deferred revenue	40,763	-
Professional and other service fees	162,523	108,404
Total trade accounts payable and other current liabilities	\$ 419,835	\$ 367,326

Revenue Recognition - On January 1, 2018 the Company adopted ASU No. 2014-09, "Revenue from Contracts with Customers" (Topic 606) ("ASU No. 2014-09"), which is described below in Recent Accounting Pronouncements. In accordance with Topic 606, the Company recognizes revenue using the following five-step approach:

1. Identify the contract with a customer.
2. Identify the performance obligations in the contract.
3. Determine the transaction price of the contract.
4. Allocate the transaction price to the performance obligations in the contract.
5. Recognize revenue when the performance obligations are met or delivered.

Andrea utilizes the modified retrospective approach when reviewing its current accounting policies to identify potential differences that would result from applying the new requirements to its customer contracts. This approach includes the evaluation of sales terms, performance obligations, variable consideration, and costs to obtain and fulfill contracts. Based on the Company's review, management did not need to record a cumulative effect adjustment to retained earnings as of the date of initial application and application of this guidance did not have a material impact on its consolidated financial statements.

The Company disaggregates its revenues into three contract types: (1) product revenues (2) service related revenue and (3) license revenues and by operating segment. Generally, product revenue is comprised of microphones and microphone connectivity product revenues. Product revenue is recognized when the Company satisfies its performance obligation by transferring promised goods to a customer. Revenue is measured at the transaction price, which is based on the amount of consideration that the Company expects to receive in exchange for transferring the promised goods to the customer. Contracts with customers are comprised of customer purchase orders, invoices and written contracts. Given the nature of this revenue, customer product orders are fulfilled at a point in time and not over a period of time. The Company does not have arrangements for returns from customers and does not have any future obligations directly or indirectly related to product resale by customers. The Company has no sales incentive programs. Service related and licensing revenues are recognized based on the terms and conditions of individual contracts using the five step approach listed above, which identifies performance obligation and transaction price. Typically, Andrea receives licensing reports from its licensees approximately one quarter in arrears due to the fact that its agreements require customers to report revenues between 30-60 days after the end of the quarter. Under this accounting policy, the licensing revenues reported are not based upon estimates. In addition, service related revenues, which are short-term in nature, are generally performed on a time-and-material basis under separate service arrangements and the corresponding revenue is generally recognized as the services are performed. As of the nine months ending September 30, 2018, the Company had \$40,763 of deferred revenue, which are advance payments from customers, are expected to be recognized as revenue within one year and are included in trade accounts payable and other current liabilities in the Company's unaudited condensed consolidated balance sheets. See Note 8 for additional description of the Company's reportable business segments and the revenue reported in each segment.

Income Taxes - Andrea accounts for income taxes in accordance with ASC 740, "Income Taxes." ASC 740 requires an asset and liability approach for financial accounting and reporting for income taxes, establishes for all entities a minimum threshold for financial statement recognition of the benefit of tax positions, and requires certain expanded disclosures. The provision for income taxes is based upon income or loss after adjustment for those permanent items that are not considered in the determination of taxable income. Deferred income taxes represent the tax effects of differences between the financial reporting and tax bases of the Company's assets and liabilities at the enacted tax rates in effect for the years in which the differences are expected to reverse. The Company evaluates the recoverability of deferred tax assets and establishes a valuation allowance when it is more likely than not that some portion or all of the deferred tax assets will not be realized. As of September 30, 2018 and December 31, 2017, the Company had recorded a full valuation allowance. Andrea expects it will reduce its valuation allowance in future periods to the extent that it can demonstrate its ability to utilize the assets. Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In management's opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary. Income tax expense consists of taxes payable for the period, withholding of income tax as mandated by the foreign jurisdiction in which the revenues are earned and the change during the period in deferred tax assets and liabilities. The Company has identified its federal tax return and its state tax return in New York as "major" tax jurisdictions. Based on the Company's evaluation, it has concluded that there are no significant uncertain tax positions requiring recognition in the Company's unaudited condensed consolidated interim financial statements. The Company's evaluation was performed for the tax years ended 2015 through 2018. The Company believes that its income tax positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material change to its financial position.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Stock-Based Compensation - At September 30, 2018, Andrea did not have any authorized and unexpired stock-based employee compensation plans. However, it did have equity awards outstanding at September 30, 2018 pursuant to its expired 2006 Plan, which is described more fully in Note 7. Andrea accounts for stock-based compensation in accordance with ASC 718, "Compensation – Stock Compensation." ASC 718 establishes accounting for stock-based awards exchanged for employee services. Under the provisions of ASC 718, share-based compensation cost is measured at the grant date, based on the fair value of the award, and is recognized as expense over the employee's requisite service period (generally the vesting period of the equity grant). The fair value of the Company's common stock options are estimated using the Black Scholes option-pricing model with the following assumptions: expected volatility, dividend rate, risk free interest rate and the expected life. The Company expenses stock-based compensation by using the straight-line method. In accordance with ASC 718, excess tax benefits realized from the exercise of stock-based awards are classified in cash flows from financing activities.

Use of Estimates - The preparation of unaudited condensed consolidated interim financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the unaudited condensed consolidated interim financial statements and the reported amounts of revenues and expenses during the reporting period.

Management bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. The most significant estimates, among other things, are used in accounting for allowances for bad debts, inventory valuation and obsolescence, product warranty, depreciation, deferred income taxes, expected realizable values for assets (primarily intangible assets), contingencies, and revenue recognition as well as the recording and presentation of the Company's convertible preferred stock. Estimates and assumptions are periodically reviewed and the effects of any material revisions are reflected in the unaudited condensed consolidated interim financial statements in the period that they are determined to be necessary. Actual results could differ from those estimates and assumptions.

Recent Accounting Pronouncements - In May 2014, the FASB issued ASU No. 2014-09, which supersedes the revenue recognition requirements in ASC Topic 605, "Revenue Recognition," and most industry-specific guidance. ASU No. 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. The amendments in the ASU must be applied using one of two retrospective methods. Andrea adopted ASU No. 2014-09 in the first quarter of 2018. Andrea is utilizing the modified retrospective transition method when reviewing its current accounting policies to identify potential differences that would result from applying the new requirements to its customer contracts. The approach includes the evaluation of sales terms, performance obligations, variable consideration, and costs to obtain and fulfill contracts. The Company has completed its process review and will continue to review any new arrangements that are entered into. Based on the Company's review, management does not need to record a cumulative effect adjustment to retained earnings as of the date of initial application and application of this guidance did not have a material impact on its consolidated financial statements. For further discussion, see the section titled "Revenue Recognition" in Note 2 of the notes to unaudited condensed consolidated interim financial statements.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." The standard addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU No. 2016-01 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. The Company has adopted ASU No. 2016-01 and the adoption of this standard did not have a material impact on the Company's financial position and results of operations.

In January 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)." This standard requires that a lessee recognize the assets and liabilities that arise from operating leases. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. ASU No. 2016-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. The Company is currently evaluating the impact the adoption of this new standard will have on its financial statements.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326) – Measurement of Credit Losses on Financial Instruments.” ASU No. 2016-13 provides financial statement readers more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. ASU No. 2016-13 is effective for annual reporting periods beginning after December 15, 2019. The Company will evaluate the effects, if any, that adoption of this guidance will have on its financial statements.

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows (Topic 230) – Classification of Certain Cash Receipts and Cash Payments.” ASU No. 2016-15 addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. It is effective for annual reporting periods beginning after December 15, 2017. The Company has adopted ASU No. 2016-15 and the adoption of this standard did not have a material impact on the Company’s financial position and results of operations.

In November 2016, the FASB issued ASU No. 2016-18, “Statement of Cash Flows (230) – Restricted Cash.” ASU No. 2016-18 requires an entity to include amounts described as restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. It is effective for annual reporting periods beginning after December 15, 2018. The adoption of this standard is not expected to have a material impact on the Company’s financial position and results of operations.

In May 2017, the FASB issued ASU No. 2017-09, “Compensation – Stock Compensation (Topic 718) – Scope of Modification Accounting.” ASU No. 2017-09 provides clarity and reduces complexity when applying the guidance in Topic 718 for changes in terms or conditions of share-based payment awards. It is effective for annual reporting periods beginning after December 15, 2017. The Company has adopted ASU No. 2017-09 and the adoption of this standard did not have a material impact on the Company’s financial position and results of operations.

In July 2017, the FASB issued a two-part ASU No. 2017-11, “I. Accounting for Certain Financial Instruments With Down Round Features” and “II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests With a Scope Exception” (“ASU No. 2017-11”). ASU No. 2017-11 amends guidance in FASB ASC 260, “Earnings Per Share,” FASB ASC 480, “Distinguishing Liabilities from Equity,” and FASB ASC 815, “Derivatives and Hedging.” The amendments in Part I of ASU No. 2017-11 change the classification analysis of certain equity-linked financial instruments (or embedded features) with down round features. The amendments in Part II of ASU No. 2017-11 re-characterize the indefinite deferral of certain provisions of Topic 480 that now are presented as pending content in the Codification, to a scope exception. Those amendments do not have an accounting effect. ASU No. 2017-11 is effective for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The Company is currently evaluating the impact the adoption of this new standard will have on its financial statements.

In June 2018, the FASB issued ASU No. 2018-07, “Compensation - Stock Compensation (Topic 718): Improvements to Nonemployee Share-based Payment Accounting.” ASU 2018-07 aligns accounting for share-based payments issued to nonemployees to that of employees under the existing guidance of Topic 718, with certain exceptions. This update supersedes previous guidance for equity-based payments to nonemployees under Subtopic 505-50, “Equity - Equity-based Payments to Nonemployees.” It is effective for annual reporting periods beginning after December 15, 2018. The Company is currently evaluating the impact the adoption of this new standard will have on its financial statements.

Subsequent Events - The Company evaluates events that occurred after the balance sheet date but before the unaudited condensed consolidated interim financial statements are issued. Based upon that evaluation, the Company, other than what is disclosed, did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the unaudited condensed consolidated interim financial statements.

Note 3. Revenue Sharing, Note Purchase Agreement and Long-Term Debt

On December 24, 2014, the Company entered into an Amended and Restated Revenue Sharing and Note Purchase Agreement (the “Revenue Sharing Agreement”) with AND34 Funding LLC (“AND34”) (acting as the “Revenue Participants,” the “Note Purchasers,” and the “Collateral Agent”), which was retroactively effective as of February 14, 2014. Under the Revenue Sharing Agreement, the Company granted AND34 a perpetual predetermined share in the rights of the Company’s specified future revenues from patents (“Monetization Revenues”) owned by the Company (the “Patents”) in exchange for \$3,500,000, which was fully repaid as of September 30, 2016 and issued certain notes containing the features described in the Revenue Sharing Agreement (the “Notes”), which were repaid in 2016. In 2016-2017, the parties executed and amended a rider to the Revenue Sharing Agreement (the “Rider”) pursuant to which Andrea agreed to issue and sell to AND34 additional Notes up to an aggregate amount of \$7,500,000 (the “Additional Notes”), or such greater amount as AND34 may agree to in its sole discretion, during the four-year period beginning on the date of execution of the Rider (August 10, 2016). The Additional Notes have a maturity date of August 31, 2020. The proceeds of the Additional Notes will be used to pay certain expenses related to the Revenue Sharing Agreement and expenses of the Company incurred in pursuing patent monetization. As of September 30, 2018, there was \$1,384,422 in Additional Notes principal and \$50,329 PIK Interest outstanding.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Any Monetization Revenues will first be applied 100% to the payment of accrued and unpaid interest on, and then to repay outstanding principal of, the Additional Notes. After the Additional Notes are paid in full, the Monetization Revenues will be allocated amongst the Revenue Participants and the Company in accordance with certain predetermined percentages (based on aggregate amounts received by the Revenue Participants) ranging from 50% to the Revenue Participants to ultimately 20%. Monetization Revenues is defined in the Revenue Sharing Agreement to include, but is not limited to, amounts that the Company receives from third parties with respect to the Patents, which may include new license revenues, certain product revenue, payments and judgments. Monetization Revenues and associated expenses are included in the Company's Patent Monetization Segment (See Note 8).

The Revenue Sharing Agreement contains many stipulations between the parties regarding the handling of various matters related to the monetization of the Patents including tax treatment. Following an Event of Default under the Revenue Sharing Agreement, the Note Purchasers and Revenue Participants may proceed to protect and enforce their rights by suit or other appropriate proceeding, either for specific performance or the exercise of any power granted under the Revenue Sharing Agreement or ancillary documents including the Additional Notes.

Long-term debt

	September 30, 2018	December 31, 2017
Note Payable	\$ 1,384,422	\$ 1,184,422
PIK interest	50,329	5,542
Total long-term debt	1,434,751	1,189,964
Less: current maturities of long-term debt	-	-
Long-term debt, net of current maturities	\$ 1,434,751	\$ 1,189,964

The unpaid principal amount of the Additional Notes (including any PIK Interest) has an interest rate equal to LIBOR (as defined in the Revenue Sharing Agreement) plus 2% per annum, (totaling 4.34% and 3.33% at September 30, 2018 and December 31, 2017, respectively); provided that upon and during the continuance of an Event of Default (as set forth in the Revenue Sharing Agreement), the interest rate will increase an additional 2% per annum. Interest may be paid in cash at the option of the Company and otherwise shall be paid by increasing the principal amount of the Additional Notes by the amount of such interest ("PIK Interest"). The Company may prepay the Additional Notes from time to time in whole or in part, without penalty or premium. During the nine months ended September 30, 2018 and year ended December 31, 2017, \$200,000 and \$5,700,000, respectively, of Additional Notes were issued to AND34. As of September 30, 2018, the remaining amount of Additional Notes that can be issued is \$200,000. Amounts reported as current maturities of long-term debt reflect amounts expected to be paid in the next twelve months.

Note 4. Series C Redeemable Convertible Preferred Stock

The Series C Preferred Stock had a stated value of \$10,000 plus a \$1,671 increase in the stated value, which sum is convertible into Common Stock at a conversion price of \$0.2551. The shares of Series C Preferred Stock are subject to antidilution provisions, which are triggered in the event of certain stock splits, recapitalizations, or other dilutive transactions. In addition, issuances of common stock at a price below the conversion price of \$0.2551, or the issuance of warrants, options, rights, or convertible securities which have an exercise price or conversion price less than that conversion price, other than for certain previously outstanding securities and certain "excluded securities" (as defined in the certificate of amendment), require the adjustment of the conversion price to that lower price at which shares of common stock have been issued or may be acquired. In the event that Andrea issues securities in the future which have a conversion price or exercise price which varies with the market price and the terms of such variable price are more favorable than the conversion price in the Series C Preferred Stock, the purchasers may elect to substitute the more favorable variable price when making conversions of the Series C Preferred Stock.

On July 17, 2018, 21.85765 shares of Series C Preferred Stock, together with related accrued dividends, were converted into 1,000,022 shares of Common Stock at a conversion price of \$0.2551.

As of September 30, 2018, there were 11.469249 shares of Series C Preferred Stock outstanding, which were convertible into 524,736 shares of Common Stock and had remaining accrued dividends of \$19,168.

Note 5. Series D Redeemable Convertible Preferred Stock

The Series D Preferred Stock is convertible into Common Stock at a conversion price of \$0.25 per share. The shares of Series D Preferred Stock are also subject to antidilution provisions, which are triggered in the event of certain stock splits, recapitalizations, or other dilutive transactions. In addition, issuances of common stock at a price below the conversion price then in effect (currently \$0.25), or the issuance of warrants, options, rights, or convertible securities which have an exercise price or conversion price less than that conversion price, other than for certain previously outstanding securities and certain "excluded securities" (as defined in the certificate of amendment), require the adjustment of the conversion price to that lower price at which shares of common stock have been issued or may be acquired. In the event that Andrea issues securities in the future which have a conversion price or exercise price which varies with the market price and the terms of such variable price are more favorable than the conversion price in the Series D Preferred Stock, the purchasers may elect to substitute the more favorable variable

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

price when making conversions of the Series D Preferred Stock. In addition, the Company is required to use its best efforts to secure the inclusion for quotation on the Over the Counter Bulletin Board for the common stock issuable under the Series D Preferred Stock and to arrange for at least two market makers to register with the Financial Industry Regulatory Authority. In the event that the holder of the Series D Preferred Stock and related warrants is unable to convert these securities into Andrea Common Stock, the Company shall pay to each such holder a Registration Delay Payment (as such term is defined in certificate of amendment). This payment is to be paid in cash and is equal to the product of (i) the stated value of such shares of Series D Preferred Stock multiplied by (ii) the product of (1) .0005 multiplied by (2) the number of days that sales cannot be made pursuant to the Registration Statement (excluding any days that may be considered grace periods as defined by the Registration Rights Agreement).

As of September 30, 2018, there were 907,144 shares of Series D Preferred Stock outstanding which were convertible into 3,628,576 shares of Common Stock.

Note 6. Commitments And ContingenciesLeases

In May 2015, Andrea entered into a lease for its current corporate headquarters located in Bohemia, New York, where Andrea leases space for research and development, sales and executive offices from an unrelated party. The lease is for approximately 3,000 square feet and expires in October 2020. Rent expense under this operating lease was \$8,765 and \$8,470 for the three months ended September 30, 2018 and 2017, respectively. Rent expense under this operating lease was \$25,901 and \$25,031 for the nine months ended September 30, 2018 and 2017, respectively. The current monthly rent under this lease is \$2,922 with annual escalations of 3.5%.

As of September 30, 2018, the minimum future lease payments under this lease and all other noncancellable operating leases are as follows:

2018 (October 1 – December 31)	\$ 15,628
2019	57,529
2020	35,787
Total	\$ 108,944

Employee Related Agreements

In August 2014, the Company entered into an employment agreement with Mr. Andrea, which was subsequently amended on February 19, 2018 and August 9, 2018. The effective date of the original employment agreement was August 1, 2014 and it currently expires on January 31, 2019, subject to renewal as approved by the Compensation Committee of the Board of Directors. Pursuant to his amended employment agreement, Mr. Andrea will receive an annual base salary of \$216,000. The employment agreement provides for quarterly bonuses equal to 5% of the Company's pre-bonus net after tax quarterly earnings for a total quarterly bonus amount not to exceed \$12,500; and annual bonuses equal to 9% of the Company's annual pre-bonus net after tax earnings in excess of \$300,000 up to \$3,000,000, and 3% of the Company's annual pre-bonus adjusted net after tax earnings in excess of \$3,000,000. Adjustments to net after tax earnings shall be made to remove the impact of change in recognition of accumulated deferred tax asset value. All bonuses shall be payable as soon as the Company's cash flow permits. All bonus determinations or any additional bonus in excess of the above will be made in the sole discretion of the Compensation Committee. Under certain circumstances, Mr. Andrea is entitled to a change in control payment equal to twelve months of the Executive's most recent Base Salary plus a pro-rated portion of the Executive's most recent annual and four quarterly bonuses paid immediately preceding the Change of Control, continuation of health and medical benefits for twelve months and immediate vesting of all stock options in the event of a change in control during the term of his agreement and subsequent termination of his employment within twelve months following the change of control. In the event of his termination without cause or resignation with the Company's consent, Mr. Andrea is entitled to a severance payment equal to two months of his base salary, plus the two months pro-rated portion of his most recent annual and quarterly bonuses, payment of \$12,500, the un-paid bonus for the quarter ended September 30, 2017 and a continuation of health insurance coverage for Mr. Andrea, his spouse and his dependents for 6 months. At September 30, 2018, the future minimum cash commitments under this agreement aggregate \$72,000.

On November 11, 2008, the Company entered into an amended and restated change in control agreement with Corisa L. Guiffre, Vice President, Chief Financial Officer and Assistant Corporate Secretary of the Company. The change in control agreement provides Ms. Guiffre with a severance benefit upon termination in connection with a change in control (as defined in the agreement). If Ms. Guiffre is terminated following a change in control, the Company will pay Ms. Guiffre a sum equal to three times Ms. Guiffre's average annual compensation for the five preceding taxable years. All restrictions on any restricted stock will lapse immediately and incentive stock options and stock appreciation rights, if any, will become immediately exercisable in the event of a change in control of the Company. Upon the occurrence of a change in control followed by Ms. Guiffre's termination of employment, the Company will cause to be continued life, medical, dental and disability coverage. Such coverage and payments shall cease upon the expiration of 36 full calendar months following the date of termination.

Legal Proceedings

In December 2010, Audrey Edwards, Executrix of the Estate of Leon Leroy Edwards, filed a lawsuit in the Superior Court of Providence County, Rhode Island, against 3M Company and over 90 other defendants, including the Company, alleging that the Company processed, manufactured, designed, tested, packaged, distributed, marketed or sold asbestos containing products that contributed to the death of Leon Leroy Edwards. In April 2018, Andrea sought and was granted a Motion for Summary Judgment and Motion for Entry of Final Judgment pursuant to Rule 54(b); therefore this matter is considered resolved.

In September 2016, the Company filed a Complaint with the United States International Trade Commission (“ITC”), alleging patent infringement against Apple Inc. (“Apple”) and Samsung Electronics Co., Ltd. and Samsung Electronics America, Inc. (together, “Samsung”), and requesting injunctive relief. An ITC investigation was instituted on October 19, 2016. Apple and Samsung answered the Company’s Complaint on November 21, 2016. Andrea and Samsung settled all of their current disputes on August 16, 2017 by entering into a Settlement Agreement and a Patent License Agreement. Andrea and Samsung moved to terminate the investigation with respect to Samsung based on these agreements on August 17, 2017, and the presiding ITC Administrative Law Judge (“ALJ”) granted the motion on August 22, 2017. The ITC affirmed the ALJ’s ruling on September 13, 2017, terminating Samsung from the investigation. The evidentiary hearing was held between Andrea and Apple on August 21-24, 2017, before the ALJ. The ALJ issued her initial determination on October 26, 2017. The ALJ ruled that (1) Andrea does not have standing to pursue the investigation as the sole complainant, (2) Apple does not literally infringe Andrea’s asserted patent, (3) the asserted patent is valid and enforceable, and (4) Andrea does not have a domestic industry pursuant to ITC law. The ALJ also recommended that, if Andrea does ultimately prove a violation of the relevant statute by Apple, the ITC should issue Andrea’s requested remedies of a limited exclusion order and cease and desist order against Apple, but delay their implementation by 3 months to one year. Andrea notified the ITC that it appeals the ALJ’s unfavorable rulings on standing, non-infringement, domestic industry, and delayed implementation of the requested remedies on November 8, 2017. Also on November 8, 2017, Apple contingently appealed the ALJ’s ruling on the validity of the asserted patent. On January 11, 2018, the ITC notified the parties that it intends to review the ALJ’s initial determination with respect to (1) standing, (2) infringement, (3) invalidity, (4) inequitable conduct, and (5) domestic industry. On January 11, 2018, the ITC also requested additional factual and legal arguments regarding Andrea’s standing. The ITC’s final decision was issued on March 22, 2018. The ITC overturned the ALJ’s finding on standing, and held that Andrea has standing as the sole complainant. The ITC affirmed the ALJ’s finding that Andrea does not have a domestic industry because it does not meet the “technical prong” of domestic industry. The ITC took no position on the other issues under review – infringement, validity, inequitable conduct, and the “economic prong” of domestic industry.

Also in September 2016, the Company filed complaints with the United States District Court for the Eastern District of New York, alleging patent infringement against Apple and Samsung, and requesting monetary and injunctive relief. Andrea also dismissed its New York case against Samsung on September 13, 2017 based on the aforementioned Settlement Agreement and a Patent License Agreement. The case against Apple remains stayed. On July 20, 2018, Andrea informed the Court of the status of relevant proceedings at the United States Patent and Trademark Office (PTO), as described below, and its intention to move forward with the case regarding claims 6-9 of Andrea’s U.S. Patent No. 6,363,345. Apple has submitted correspondence seeking to maintain the stay pending its appeal of the PTO holdings. Andrea intends to vigorously prosecute the New York litigation.

In January 2017, Apple filed four (4) petitions for inter partes review (“IPR”) of the Andrea patents asserted in the ITC and District Court litigation proceedings with the United States Patent and Trademark Office (PTO). Andrea filed its Patent Owner’s Preliminary Response in two of these IPR proceedings on May 1, 2017. The PTO instituted the four IPR proceedings requested by Apple on July 24, 2017. Andrea filed its Patent Owner’s Response in two of these IPR proceedings on November 7, 2017. On March 19, 2018, both Andrea and Apple requested oral argument in these two IPR proceedings which occurred on April 25, 2018. On July 12, 2018, the PTO issued its decisions in those two IPR proceedings, ruling that claims 6-9 of Andrea’s U.S. Patent No. 6,363,345 remain valid and enforceable after the PTO’s review.

Note 7. Stock Plans and Stock Based Compensation

In October 2006, the Board adopted the Andrea Electronics Corporation 2006 Equity Compensation Plan (“2006 Plan”), which was subsequently approved by the shareholders. The 2006 Plan, as amended, authorized the granting of awards, the exercise of which would allow up to an aggregate of 18,000,000 shares of Andrea’s Common Stock to be acquired by the holders of those awards. Awards could be granted to key employees, officers, directors and consultants. As the 2006 Plan has expired, no further awards will be granted under the 2006 Plan.

The stock option awards granted under this plan have been granted with an exercise price equal to the market price of the Company’s stock at the date of grant with vesting periods of up to four years and 10-year contractual terms. The fair values of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model that uses the weighted-average assumptions noted in the following table. Expected volatilities are based on implied volatilities from historical volatility of the Company’s stock. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Option activity during the nine months ended September 30, 2018 is summarized as follows:

	Options Outstanding				Options Exercisable				
	Options Outstanding	Weighted Average Exercise Price	Weighted Average Fair Value	Weighted Average Remaining Contractual Life	Options Exercisable	Weighted Average Exercise Price	Weighted Average Fair Value	Weighted Average Remaining Contractual Life	
At January 1, 2018	15,163,001	\$ 0.07	\$ 0.07	4.15 years	12,561,401	\$ 0.07	\$ 0.07	3.19 years	
Exercised	(2,190,000)	\$ 0.04	\$ 0.04						
Forfeited	(83,375)	\$ 0.05	\$ 0.05						
Canceled	(2,881,625)	\$ 0.04	\$ 0.04						
At September 30, 2018	10,008,001	\$ 0.08	\$ 0.08	5.06 years	7,690,176	\$ 0.09	\$ 0.09	4.13 years	

Based on the September 30, 2018 fair market value of the Company's common stock of \$0.07 per share, the aggregate intrinsic value for the 10,008,001 options outstanding and 7,690,176 options exercisable is \$74,500 and \$28,144, respectively.

Total compensation expense recognized related to stock option awards was \$12,779 and \$33,207 for the three months ended September 30, 2018 and 2017, respectively. In the accompanying unaudited condensed consolidated statement of operations for the three months ended September 30, 2018, \$10,931 of compensation expense is included in general, administrative and selling expenses and \$1,848 of compensation expense is included in research and development expenses. In the accompanying unaudited condensed consolidated statement of operations for the three months ended September 30, 2017, \$28,029 of compensation expense is included in general, administrative and selling expenses and \$5,178 of compensation expense is included in research and development expenses.

Total compensation expense recognized related to stock option awards was \$39,449 and \$101,364 for the nine months ended September 30, 2018 and 2017, respectively. In the accompanying unaudited condensed consolidated statement of operations for the nine months ended September 30, 2018, \$33,905 of compensation expense is included in general, administrative and selling expenses and \$5,544 of compensation expense is included in research and development expenses. In the accompanying unaudited condensed consolidated statement of operations for the nine months ended September 30, 2017, \$86,437 of compensation expense is included in general, administrative and selling expenses and \$14,927 of compensation expense is included in research and development expenses.

As of September 30, 2018, there was \$24,181 of total unrecognized compensation cost related to unvested share-based compensation arrangements granted under the 2006 Plan which is expected to be recognized over the weighted-average period of 0.63 years. Specifically, this unrecognized compensation cost is expected to be recognized during the remaining part of 2018 and 2019 in the amounts of \$6,471 and \$17,710, respectively.

Note 8. Segment Information

Andrea follows the provisions of ASC 280 "Segment Reporting." Reportable operating segments are determined based on Andrea's management approach. The management approach, as defined by ASC 280, is based on the way that the chief operating decision-maker organizes the segments within an enterprise for making operating decisions and assessing performance. While Andrea's results of operations are primarily reviewed on a consolidated basis, the chief operating decision-maker also manages the enterprise in two segments: (i) Patent Monetization and (ii) Andrea DSP Microphone and Audio Software Products. Patent Monetization includes Monetization Revenues (as defined in our Amended and Restated Revenue Sharing Agreement). Andrea DSP Microphone and Audio Software Products primarily include products based on the use of some, or all, of the following technologies: Andrea Digital Super Directional Array microphone technology ("DSDA"), Andrea Direction Finding and Tracking Array microphone technology ("DFTA"), Andrea PureAudio noise filtering technology, and Andrea EchoStop, an advanced acoustic echo cancellation technology.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

The following represents selected unaudited condensed consolidated interim financial information for Andrea's segments for the three and nine month periods ended September 30, 2018 and 2017 and the fiscal year end December 31, 2017.

2018 Three Month Segment Data	Patent Monetization	Andrea DSP Microphone and Audio Software Products	2018 Three Month Segment Data
Net product revenues	\$ -	\$ 438,188	\$ 438,188
Service related revenues	-	9,600	9,600
License revenues	345	4,757	5,102
Operating loss	(110,444)	(77,270)	(187,714)
Depreciation and amortization	8,500	14,582	23,082
Assets	239,071	1,347,622	1,586,693
Property and equipment and intangibles	141,202	193,111	334,313

Management assesses non-operating income statement data on a consolidated basis only. International revenues are based on the country in which the end-user is located. For the three-month periods ended September 30, 2018 and 2017 total revenues by geographic area were as follows:

	Geographic Data	September 30, 2018	September 30, 2017
Total revenues:			
United States		\$ 359,798	\$ 231,907
Foreign ⁽¹⁾		93,092	6,075,767
		\$ 452,890	\$ 6,307,674

Net revenues to any one foreign country did not exceed 10% for the three months ended September 30, 2018. Net revenues to the

(1) Republic of Korea represented 95% of total net revenues for the three months ended September 30, 2017.

For the nine-month periods ended September 30, 2018 and 2017 total revenues by geographic area were as follows:

	Geographic Data	September 30, 2018	September 30, 2017
Total revenues:			
United States		\$ 711,772	\$ 374,194
Foreign ⁽¹⁾		258,772	6,160,053
		\$ 970,544	\$ 6,534,247

Net revenues to the People's Republic of China represented 10% of total net revenues for the nine months ended September 30, 2018. Net revenues to the Republic of Korea represented 92% of total net revenues for the three months ended September 30, 2017.

(1) As of September 30, 2018 and December 31, 2017, accounts receivable by geographic area were as follows:

	Geographic Data	September 30, 2018	December 31, 2017
Accounts receivable:			
United States		\$ 293,376	\$ 187,222
Foreign		21,565	73,724
		\$ 314,941	\$ 260,946

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We design, develop and manufacture state-of-the-art digital microphone products and noise reduction software that facilitate natural language, human/machine interfaces. Our technologies eliminate unwanted background noise to enable the optimum performance of various speech-based and audio applications. We are incorporated under the laws of the State of New York and have been engaged in the electronic communications industry since 1934. Our patented and patent-pending digital noise canceling technologies enable a speaker to be at a distance from the microphone (we refer to this capability as "far-field" microphone use), and free the speaker from having to use a close talking microphone. We believe that the strength of our intellectual property rights are important to the success of our business. We utilize patent and trade secret protection, confidentiality agreements with customers and partners, disclosure and invention assignment agreements with employees and consultants and other contractual provisions to protect our intellectual property and other proprietary information. As part of our Patent Monetization efforts, we license specific, custom designs to our customers, charging royalties at a fixed amount per product or a percentage of sales, and we intend to vigorously defend and monetize our intellectual property through licensing arrangements and, where necessary, enforcement actions against those entities using our patented solutions in their products.

Our Critical Accounting Policies

Our unaudited condensed consolidated interim financial statements and the notes to our unaudited condensed consolidated interim financial statements contain information that is pertinent to management's discussion and analysis. The preparation of unaudited condensed consolidated interim financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. On a continual basis, management reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results may vary from these estimates and assumptions under different and/or future circumstances. Our significant accounting policies are described in Note 2 of the notes to unaudited condensed consolidated interim financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017. A discussion of our critical accounting policies and estimates are included in Management's Discussion and Analysis or Plan of Operation in our Annual Report on Form 10-K for the year ended December 31, 2017. Management has discussed the development and selection of these policies with the Audit Committee of the Company's Board of Directors, and the Audit Committee of the Board of Directors has reviewed the Company's disclosures of these policies. There have been no material changes to the critical accounting policies or estimates reported in the Management's Discussion and Analysis section of the Annual Report on Form 10-K for the year ended December 31, 2017.

Cautionary Statement Regarding Forward-Looking Statements

This report contains forward-looking statements that are based on assumptions and may describe future plans, strategies and expectations of the Company. These forward-looking statements are generally identified by use of the words "believe", "expect", "intend", "anticipate", "estimate", "project" or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company and its subsidiaries include, but are not limited to, changes in economic, competitive, governmental, technological and other factors that may affect our business and prospects. Additional factors are discussed below under "Risk Factors" and in Part I, *Item 1A – Risk Factors* in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 and the Company's quarterly reports on Form 10-Q. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Except as required by applicable law or regulation, the Company does not undertake, and specifically disclaims any obligation, to release publicly the result of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of the statements or to reflect the occurrence of anticipated or unanticipated events.

Results Of Operations***Three and Nine Months ended September 30, 2018 compared to Three and Nine Months ended September 30, 2017*****Total Revenues**

17

(a) The approximate \$6,003,000 and \$6,004,000 decreases in license revenues for the three and nine months ended September 30, 2018, respectively, compared to the three and nine months ended September 30, 2017 are the result of non-recurring revenue recognized for patent licensing agreements entered into during the three months ended September 30, 2017.

(b) The approximate \$178,000 and \$256,000 increases in revenues of automotive array microphone products for the three and nine months ended September 30, 2018, respectively, as compared to the same period in 2017 is the result of increased demand from integrators of public safety and mass transit vehicle solutions.

(c) The approximate \$21,000 decrease in revenues of OEM array microphone products for the three months ended September 30, 2018 as compared to the same period in 2017 is primarily the result of timing of sales to integrators of commercial product audio solutions. The approximate \$222,000 increase in revenues of OEM array microphone products for the nine months ended September 30, 2018 as compared to the same period in 2017 is primarily the result of securing additional integrators of commercial product audio solutions.

(d) The decreases of approximately \$23,000 and \$65,000 for the three and nine months ended September 30, 2018, as compared to the same period in 2017 in customized digital products revenue is related to the timing of purchases from an OEM customer for a customized digital product.

(e) The approximate \$27,000 and \$47,000 increases in revenues of all other Andrea DSP Microphone and Audio Software products for the three and nine months ended September 30, 2018, respectively, compared to the same periods in 2017 are primarily the result of new customers for new audio solutions.

(f) The decreases of approximately \$12,000 and \$20,000 in license and service related revenues are a result of decreases of royalties for the three and nine month periods ended September 30, 2018 as compared to the three and nine month periods ended September 30, 2017 partially offset by an increase in service related revenue.

Cost of Product Revenues

Cost of product revenues as a percentage of total revenues for the three months ended September 30, 2018 and 2017 was 33% and 1%, respectively. Cost of product revenues as a percentage of total revenues for the nine months ended September 30, 2018 and 2017 was 27% and 2%, respectively. There was no cost of product revenues associated with the Patent Monetization revenues of \$345 and \$984 for the three and nine months ended September 30, 2018 nor cost of product revenues associated with the Patent Monetization revenues of \$6,003,709 and \$6,004,726, for the three and nine months ended September 30, 2017. The cost of product revenues as a percentage of total revenues for the three months ended September 30, 2018 for Andrea DSP Microphone and Audio Software Products was 33% compared to 26% for the three months ended September 30, 2017. The cost of product revenues as a percentage of total revenues for the nine months ended September 30, 2018 and 2017 for Andrea DSP Microphone and Audio Software Products was 27%. These changes are primarily the result of the product mix described in "Total Revenues" above as well as the increased cost in manufacturing certain products.

Patent Monetization Expenses

Patent monetization expenses for the three months ended September 30, 2018 decreased 86% to \$47,670 from \$343,846 for the three months ended September 30, 2017. Patent monetization expenses for the nine months ended September 30, 2018 decreased 97% to \$143,549 from \$5,519,307 for the nine months ended September 30, 2017. These expenses are a result of our continuing efforts to pursue patent monetization including the filing of the complaints disclosed under Part II, Item 1 Legal Proceedings. The decreases in Patent Monetization expenses for the three and nine months ended September 30, 2018 is mainly attributable to the timing of legal services incurred to pursue patent monetization.

Research and Development Expenses

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

Research and development expenses for the three months ended September 30, 2018 decreased 24% to \$151,400 from \$199,698 for the three months ended September 30, 2017. Research and development expenses for the nine months ended September 30, 2018 decreased 29% to \$448,068 from \$627,990 for the nine months ended September 30, 2017. The expenses primarily relate to costs associated with the development of new products. For the three months ended September 30, 2018, the decrease in research and development expenses reflects a 45% increase in our Patent Monetization efforts to \$8,500, or 6% of total research and development expenses, and a 26% decrease in our Andrea DSP Microphone and Audio Software Technology efforts to \$142,900, or 94% of total research and development expenses. For the nine months ended September 30, 2018, the decrease in research and development expenses reflects a 33% increase in our Patent Monetization efforts to \$23,724, or 5% of total research and development expenses, and a 30% decrease in our Andrea DSP Microphone and Audio Software Technology efforts to \$424,344, or 95% of total research and development expenses. The increase in our Patent Monetization efforts represents an increase in intangible asset amortization expense while the decrease in our Andrea DSP Microphone and Audio Software Technology efforts reflects a decrease in salary expenses related to a project that was recently completed. With respect to DSP Microphone and Audio Software technologies, our research efforts are primarily focused on the pursuit of commercializing a natural language-driven human/machine interface by developing optimal far-field microphone solutions for various voice-driven interfaces, incorporating Andrea's digital super directional array microphone technology, and certain other related technologies such as noise suppression and stereo acoustic echo cancellation. We believe that continued research and development spending should benefit Andrea in the future.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

General, Administrative and Selling Expenses

General, administrative and selling expenses decreased approximately 13% to \$291,878 for the three months ended September 30, 2018 from \$334,161 for the three months ended September 30, 2017. For the three months ended September 30, 2018, general, administrative and selling expenses related to our Patent Monetization efforts were \$54,619, or 19% of the total general, administrative and selling expenses, and general, administrative and selling expenses related to our Andrea DSP Microphone and Audio Software Technology were \$237,259, or 81% of total general, administrative and selling expenses. General, administrative and selling expenses decreased approximately 12% to \$866,673 for the nine months ended September 30, 2018 from \$989,846 for the nine months ended September 30, 2017. For the nine months ended September 30, 2018, general, administrative and selling expenses related to our Patent Monetization efforts were \$168,438, or 19% of the total general, administrative and selling expenses, and general, administrative and selling expenses related to our Andrea DSP Microphone and Audio Software Technology were \$698,235, or 81% of total general, administrative and selling expenses. These decreases relate to salary reductions taken by executive management in 2018.

Interest expense, net

Interest expense, net for the three months ended September 30, 2018 was \$13,158 compared to \$35,227 for the three months ended September 30, 2017. Interest expense, net for the nine months ended September 30, 2018 was \$38,137 compared to \$65,137 for the nine months ended September 30, 2017. The change in this line item was attributable to a decrease in interest expense because of a lower amount of debt outstanding combined with a decrease of interest income related to lower cash balances.

Provision for Income Taxes

There was no income tax provision for the three months ended September 30, 2018 compared to a provision of \$3,514 for the three months ended September 30, 2017. The income tax provision for the nine months ended September 30, 2018 was \$1,863 compared to \$10,294 for the nine months ended September 30, 2017. The provision for the three and nine months ended September 30, 2018 and 2017 is a result of certain licensing revenues that are subject to withholding of income tax as mandated by the foreign jurisdiction in which the revenues are earned.

Net (loss) income

Net loss for the three months ended September 30, 2018 was \$200,872 compared to a net income of \$5,310,951 for the three months ended September 30, 2017. Net loss for the nine months ended September 30, 2018 was \$793,569 compared to a net loss of \$821,258 for the nine months ended September 30, 2017. The net loss for the three and nine months ended September 30, 2018 and the nine months ended September 30, 2017 principally reflects the factors described above.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Liquidity And Capital Resources

At September 30, 2018, we had cash of \$624,531 compared with \$1,164,057 at December 31, 2017. The decrease in our cash balance at September 30, 2018 was primarily a result of cash used in operating activities partially offset by cash provided by financing activities.

Our working capital balance at September 30, 2018 was \$808,127 compared to working capital of \$1,182,903 at December 31, 2017. The decrease in working capital reflects a decrease in total current assets of \$358,796 and an increase in total current liabilities of \$15,980. The decrease in total current assets of \$358,796 reflects a decrease in cash of \$539,526 offset in part by an increase in accounts receivable of \$53,995, an increase in inventories of \$107,279 and an increase in prepaid expenses and other current assets of \$19,456. The increase in total current liabilities of \$15,980 reflects an increase in trade accounts payable and other current liabilities offset in part by a decrease in Accrued Series C Preferred Stock Dividends.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

The decrease in cash of \$539,526 reflects \$767,814 of net cash used in operating activities, \$59,312 of net cash used in investing activities offset in part by \$287,600 of cash provided by financing activities.

The cash used in operating activities of \$767,814, excluding non-cash charges for the nine months ended September 30, 2018, was attributable to a \$55,858 increase in accounts receivable, a \$94,614 increase in inventories, a \$19,456 increase in prepaid expenses, other current assets and a \$52,509 increase in trade accounts payable and other current liabilities. The changes in accounts receivable, inventories, prepaid expenses, other current assets and trade accounts payable and other current liabilities primarily reflect differences in the timing related to both the payments for and the acquisition of inventory as well as for other services in connection with ongoing efforts related to Andrea's various product lines including continuing efforts to pursue patent monetization.

The cash used in investing activities of \$59,312 reflects an increase in patents and trademarks of \$45,374 and \$13,938 of purchases of property and equipment. The increase in patents and trademarks reflects capital expenditures associated with our intellectual property. The increases in property and equipment is associated with certain upgrades to our servers and computer equipment.

The cash provided by financing activities of \$287,600, reflects proceeds from the exercise of stock options of \$87,600 and proceeds from long-term notes of \$200,000.

We plan to improve our cash flows by aggressively pursuing monetization of our patents related to our Andrea DSP Microphone Audio Software, increasing the sales of our Andrea DSP Microphone Audio Software Products through the introduction of new products as well as the increased efforts we are putting into our sales and marketing efforts. As of November 9, 2018, Andrea had approximately \$600,000 of cash deposits. For discussion regarding management's evaluation of our ability to meet our obligations as they come due in coming months, see the section titled "Liquidity" in Note 1, Basis of Presentation, of the notes to unaudited condensed consolidated interim financial statements. We cannot assure that demand will continue for any of our products, including future products related to our Andrea DSP Microphone and Audio Software technologies, or, that if such demand does exist, that we will be able to obtain the necessary working capital to increase production and provide marketing resources to meet such demand on favorable terms, or at all.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Andrea's management, including its principal executive officer and principal financial officer, have evaluated the effectiveness of the Company's "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon their evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, Andrea's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that it files or submits under the Exchange Act with the SEC (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to Andrea's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that all control issues and instances of fraud, if any, within a company have been detected. Andrea's disclosure controls and procedures are designed to provide reasonable assurance of achieving its objectives.

There have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonable likely to materially affect the Company's internal controls over financial reporting during the period covered by this Quarterly Report.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In December 2010, Audrey Edwards, Executrix of the Estate of Leon Leroy Edwards, filed a lawsuit in the Superior Court of Providence County, Rhode Island, against 3M Company and over 90 other defendants, including the Company, alleging that the Company processed, manufactured, designed, tested, packaged, distributed, marketed or sold asbestos containing products that contributed to the death of Leon Leroy Edwards. In April 2018, Andrea sought and was granted a Motion for Summary Judgment and Motion for Entry of Final Judgment pursuant to Rule 54(b); therefore this matter is considered resolved.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

In September 2016, the Company filed a Complaint with the United States International Trade Commission (“ITC”), alleging patent infringement against Apple Inc. (“Apple”) and Samsung Electronics Co., Ltd. and Samsung Electronics America, Inc. (together, “Samsung”), and requesting injunctive relief. An ITC investigation was instituted on October 19, 2016. Apple and Samsung answered the Company’s Complaint on November 21, 2016. Andrea and Samsung settled all of their current disputes on August 16, 2017 by entering into a Settlement Agreement and a Patent License Agreement. Andrea and Samsung moved to terminate the investigation with respect to Samsung based on these agreements on August 17, 2017, and the presiding ITC Administrative Law Judge (“ALJ”) granted the motion on August 22, 2017. The ITC affirmed the ALJ’s ruling on September 13, 2017, terminating Samsung from the investigation. The evidentiary hearing was held between Andrea and Apple on August 21-24, 2017, before the ALJ. The ALJ issued her initial determination on October 26, 2017. The ALJ ruled that (1) Andrea does not have standing to pursue the investigation as the sole complainant, (2) Apple does not literally infringe Andrea’s asserted patent, (3) the asserted patent is valid and enforceable, and (4) Andrea does not have a domestic industry pursuant to ITC law. The ALJ also recommended that, if Andrea does ultimately prove a violation of the relevant statute by Apple, the ITC should issue Andrea’s requested remedies of a limited exclusion order and cease and desist order against Apple, but delay their implementation by 3 months to one year. Andrea notified the ITC that it appeals the ALJ’s unfavorable rulings on standing, non-infringement, domestic industry, and delayed implementation of the requested remedies on November 8, 2017. Also on November 8, 2017, Apple contingently appealed the ALJ’s ruling on the validity of the asserted patent. On January 11, 2018, the ITC notified the parties that it intends to review the ALJ’s initial determination with respect to (1) standing, (2) infringement, (3) invalidity, (4) inequitable conduct, and (5) domestic industry. On January 11, 2018, the ITC also requested additional factual and legal arguments regarding Andrea’s standing. The ITC’s final decision was issued on March 22, 2018. The ITC overturned the ALJ’s finding on standing, and held that Andrea has standing as the sole complainant. The ITC affirmed the ALJ’s finding that Andrea does not have a domestic industry because it does not meet the “technical prong” of domestic industry. The ITC took no position on the other issues under review – infringement, validity, inequitable conduct, and the “economic prong” of domestic industry.

Also in September 2016, the Company filed complaints with the United States District Court for the Eastern District of New York, alleging patent infringement against Apple and Samsung, and requesting monetary and injunctive relief. Andrea also dismissed its New York case against Samsung on September 13, 2017 based on the aforementioned Settlement Agreement and a Patent License Agreement. The case against Apple remains stayed. On July 20, 2018, Andrea informed the Court of the status of relevant proceedings at the United States Patent and Trademark Office (PTO), as described below, and its intention to move forward with the case regarding claims 6-9 of Andrea’s U.S. Patent No. 6,363,345. Apple has submitted correspondence seeking to maintain the stay pending its appeal of the PTO holdings. Andrea intends to vigorously prosecute the New York litigation.

In January 2017, Apple filed four (4) petitions for inter partes review (“IPR”) of the Andrea patents asserted in the ITC and District Court litigation proceedings with the United States Patent and Trademark Office (PTO). Andrea filed its Patent Owner’s Preliminary Response in two of these IPR proceedings on May 1, 2017. The PTO instituted the four IPR proceedings requested by Apple on July 24, 2017. Andrea filed its Patent Owner’s Response in two of these IPR proceedings on November 7, 2017. On March 19, 2018, both Andrea and Apple requested oral argument in these two IPR proceedings, which occurred on April 25, 2018. On July 12, 2018, the PTO issued its decisions in those two IPR proceedings, ruling that claims 6-9 of Andrea’s U.S. Patent No. 6,363,345 remain valid and enforceable after the PTO’s review.

ITEM 1A. RISK FACTORS

Risk Factors

Our operating results are subject to significant fluctuation, period-to-period comparisons of our operating results may not necessarily be meaningful and you should not rely on them as indications of our future performance.

Our results of operations have historically been and are subject to continued substantial annual and quarterly fluctuations. The causes of these fluctuations include, among other things:

- the volume of sales of our products under our collaborative marketing arrangements;
- the cost of development of our products;
- the mix of products we sell;
- the mix of distribution channels we use;
- the timing of our new product releases and those of our competitors;
- fluctuations in the computer and communications hardware and software marketplace; and
- general economic conditions.

Edgar Filing: ANDREA ELECTRONICS CORP - Form 10-Q

We cannot assure that the level of revenues and gross profit, if any, that we achieve in any particular fiscal period will not be significantly lower than in other fiscal periods. Our total revenues for the three months ended September 30, 2018 were \$452,890 compared to \$6,307,674 for the three months ended September 30, 2017. Our total revenues for the nine months ended September 30, 2018 were \$970,544 compared to \$6,534,247 for the nine months ended September 30, 2017. Net loss for the three months ended September 30, 2018 was \$200,872, or \$0.00 loss per share on a basic and diluted basis, compared to a net income of \$5,310,951, or \$0.08 earnings per share on a basic and \$0.07 earnings per share on a diluted basis for the three months ended September 30, 2017. Net loss for the nine months ended September 30, 2018 was \$793,569, or \$0.01 loss per share on a basic and diluted basis, compared to a net loss of \$821,258, or \$0.01 loss per share on a basic and diluted basis for the nine months ended September 30, 2017. We continue to explore opportunities to grow sales in other business areas and vigorously defend and monetize our intellectual property. However, we cannot predict whether such opportunities and defense of our intellectual property will be successful.

Shares Eligible For Future Sale May Have An Adverse Effect On Market Price and Andrea Shareholders May Experience Substantial Dilution.

Sales of a substantial number of shares of our common stock in the public market could have the effect of depressing the prevailing market price of our common stock. Of the 200,000,000 shares of common stock presently authorized, 68,104,957 were outstanding as of November 9, 2018. The number of shares outstanding does not include an aggregate of 14,161,313 shares of common stock that are issuable. This number of issuable common shares is equal to approximately 21% of the 68,104,957 outstanding shares. These issuable common shares are comprised of: (a) 10,008,001 shares of our common stock reserved for issuance upon exercise of outstanding awards granted under our 2006 Stock Plan; (b) 524,736 shares of common stock that are issuable upon conversion of the Series C Preferred Stock; and (c) 3,628,576 shares of common stock issuable upon conversion of the Series D Preferred Stock.

In addition to the risk factors set forth above and the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A – Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 and quarterly reports on Form 10-Q, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report on Form 10-K and quarterly reports on Form 10-Q are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
