10.1 - General financial and equity conditions

Directors should comment:

a) general financial and equity conditions

The directors understand that the Bank has all financial and asset conditions to ensure the compliance with obligations, guaranteeing the business expansion in the short- and long-terms.

The directors analysis is based on information from the last three financial statements at the balance sheet date and the last financial information disclosed, as follows:

2012

2012 posed a rather challenging scenario. It is important to evaluate the changes observed in the financial system, in view of the period experienced by the sector in the last years. Institutions have accordingly redoubled the attention they pay to the flow of operations, whereas also expanding the range of general services offered to customers.

In mid-2012 the world's major central banks unusually and forcefully renewed or extended the commitment to provide liquidity to markets, which has decisively contributed to reduce the risk of extreme events taking place in the international scenario. On the other hand, the need for fiscal adjustments in the US and Europe indicates a downward trend for the global growth in 2013.

Brazil is not immune to this global scenario, in spite of the improved macroeconomic fundamentals observed in the last years. Brazil, however, starts to reap the benefits of the larger room for maneuver it enjoys in comparison to other countries. The several incentive measures adopted over the last months have started producing visible effects regarding the resume of the economic activity, whereas certain relevant steps have been taken to improve infrastructure, adjust tax distortions and enhance the efficiency of the production sector, and these are significant topics for improving the economy growth.

.2.

In spite of Brazil's undeniable vocation to export, the main economic driving force has been and will continue to be the domestic demand, particularly the consumption by families and investments, which benefit from the upcoming great sports events to be held in the next three-year period. In this context and in view of the ongoing social mobility process and the readiness of Brazilian institutions in face of the new rules of capital limits and structure that should be implemented beginning 2013, the perspectives for the Brazilian banking system remain favorable.

For the Bradesco Organization, among the significant events highlighting the period, noteworthy were the following:

- **on March 5, start of activities of subsidiary Bradesco Securities Hong Kong Limited, in Hong Kong, China**, aimed at prospecting opportunities and distributing fixed- and non-fixed income products. Accordingly, Bradesco expands its international distribution channels, strengthening contacts with global investors present in that market, in addition to providing access to a new base of institutional investors;
- **on March 7, a 10% rise in the Monthly Dividends amount, paid per share to shareholders beginning May 2012**, in conformity with the Monthly Compensation System, from R\$0.014541175 per share to R\$0.015995293, for common shares, and from R\$0.015995293 per share to R\$0.017594822, for preferred shares. **On June 20**, the Board of Directors approved the **monthly payment of Interest on capital, in lieu of the Monthly dividends**, from August 2012;
- **on March 13, start of transactions involving ADRs – American Depositary Receipts indexed to common shares, on the New York Stock Exchange (NYSE), US**. The Program meets the demands of institutional investors, among them foreign investment funds, and with this measure, Bradesco has now both common and preferred shares traded in the US;

- **on August 30, launch of Bradesco Next – the bank of the future –**, a space at the forefront of innovation for introducing and experiencing new technologies, and customer products and services;

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.5.

At the end of 2011, the global economic scenario continued to be characterized by signs of slowdown and risk, particularly the developed countries. Evidences of accommodation in American economy have been quickly counteracted by political efforts on the eve of 2012 presidential elections. In Europe, the experiment of a monetary and customs alliance that has not developed toward a political and fiscal alliance may require a greater effort of certain governments to address current constraints.

Being involved in the unprecedented and rising trend toward transparency that has characterized developed nations over the last few decades, at the same time favored by it, developing countries have been able to take appropriate preventive measures in good time to avoid the mistakes presumably made by the former, thus enabling faster and less painful adjustment for their exchange rate, fiscal and monetary policies.

In this situation, which has partly affected the most optimistic forecasts posed in early 2011, we may feel relatively at ease in relation to Brazil's record and potential performance on social and economic issues. With a historical landmark exceeding 50% of its population integrated to the middle class, the country has found in the foreign market a powerful ally to sustain growth in 2011/2012, although at levels lowers than those recorded in 2010. On the other hand, the world recognition of the full development of its democratic regime, freedom of speech, Law independence, and consumption expansion, has transformed Brazil in a preferential destination for direct foreign investments.

Among the most significant events of 2011 for Bradesco, the following stand out: a) we opened 1,009 new branches, taking our total number of branches and points of service to 9,063 all over Brazil, showing the wide coverage and robustness of our structure, our confidence in Brazil, and our determination to invest; b) we acquired shareholder control of Banco do Estado do Rio de Janeiro S.A. (BERJ), which enabled Bradesco to provide payroll services for state government employees, and mobilized our teams all over the country, to turn the registration of 400,000 new accounts into great momentum to expand the Bank's business in the state; and c) the incorporation of BSP Empreendimentos Imobiliários S.A., a subsidiary of the Bank, in order to consolidate management of the Bradesco Organization's real estate assets, with a portfolio of 840 properties. Other highlights in terms of recognition: a) Bradesco continued listing on the NYSE's Dow Jones Sustainability Index; b) BM&FBovespa's Corporate

Sustainability Index (ISE); and c) reputable consultants recognized “Bradesco” as Brazil's most valuable brand. Also significant was August's 10% increase in the value of the monthly dividends paid out by the Bank.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.6.

Bradesco's commitment to democratized access to credit through its diversified offering has increasingly boosted its volume of loans made directly or in partnership with other agents in the market, and other lines of credit for individuals, such as loans repaid, through its extensive Branches Network, points of service and the Customer Service Center 0800 call Loans.

- The balance at the end of the year was R\$345,724 billion, for consolidated loan operations, under the expanded concept, with an 17.1% increase in the period; and

- R\$335,370 billion in managed funds, comprising Investment funds, managed portfolios and third-party fund units, showing an increase of 13.4% on the same period of the previous year;
- R\$151,081 billion, an increase of 32.0%, recorded in Foreign exchange portfolio, Borrowings and onlending, working capital, collection and payment of taxes and others, funds from issuance of securities and subordinated debt – domestic, and other funding;

Note that the Ibovespa stock index fell 18.1% over the same period.

2010

In 2010, the real appreciated by 4.3% in relation to the US dollar, reaching R\$1.6662 per US\$1.00 on December 31, 2010 as compared to R\$1.7412 per US\$1.00 on December 31, 2009. The Central Bank of Brazil increased the interest rate from 8.75% in December 2009 to 10.75% in December 2010.

The year of 2010 was characterized by the world economic growth recovery, although at a slower and uneven pace across the countries. If, on one hand, some developed countries will still have to overcome some difficulties generated by economic destabilization occurred in 2008/2009, on the other hand, there remains the clear perception that this scenario opens new opportunities for emerging countries, in particular for countries like Brazil, where the democratic environment is consolidated and the business sector has achieved a capacity consistent with such new challenges.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.8.

In spite of many challenges linked to long-term growth, Bradesco is prudently optimistic on perspectives for the next years. The Brazilian economy was already starting to present solid bases for growth recovery at the end of 2009, and confirmed this at the end of 2010, which was marked by a robust GDP expansion to the highest level since 1985.

In the political environment, 2010 was a year in which the full exercise of citizenship evidenced a deeply-rooted democratic system establishing freedom of speech and choice as a target.

Advances occurred according not only to economic indicators, but also to social indicators. In fact, improvements in people's life quality, especially spending power, achievements that brought a large part of the population into the middle class, which is a significant statistical fact in the country's history.

Among the most significant events of 2010, the following stand out: a) the expressive volume of credit operations that increased by 20.75% over 2009, and the recovery of overdue credits, which increased by 57.94% over the previous year; b) the expansion of Customer Service Network operating in all Brazilian municipalities through the opening of 178 new Branches; c) the reorganization of facilities abroad to meet properly the demands of the international market; d) Bradesco's presence as the leading coordinator of Petrobras capitalization process, the greatest operation of the kind in Brazilian and world stock markets; e) the acquisition of the whole capital stock of Ibi Services in Mexico, in which partnership with local C&A was part of the deal; f) partnership with Banco do Brasil and Caixa Econômica Federal for creation and management of a Brazilian card brand - ELO; g) Bradesco's permanence in the Dow Jones Sustainability World Index and in the Corporate Sustainability Index – ISE of BM&FBovespa; and h) from a socioenvironmental liability standpoint, the launch of the Corporate Code of Ethics of Bradesco Organization in Braille.

Book net income was R\$10,022 billion for the year, corresponding to R\$2.66 per share and annualized return of 22.7% on average Shareholders' Equity. Annualized return on average total assets at 1.8% was unchanged compared to previous year. The following are comments about our key indicators:

I) Basel Index

Brazilian financial institutions are subject to methodology for capital metrics and levels based on a risk-weighted asset index. The parameters of this methodology resemble the international framework for minimum capital measurements adopted for the Basel Accord. In Brazil, the Central Bank of Brazil requires banks to have a minimum capital ratio in relation to total weighted assets of 11.0%, using definitions and calculations of reference equity for purposes of verifying compliance with its operational limits pursuant to National Monetary Council Resolutions Nos. 3,444/07 and 3,490/07.

The calculation of our Basel Index is shown below:

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.11.

In December 2012, Bradesco's Reference Equity reached R\$96,933 million, against a Required Reference Equity of R\$66,057 million, thus making for a capital margin of R\$30,876 million. Most of the requirement was due to the credit risk portion (local acronym PEPR), which accounted for 83.8% of risk-weighted assets, reflecting partially the expansion of lending in the period.

The Basel ratio rose 1.0 p.p. from 15.1% in December 2011, to 16.1% in December 2012. It should be highlighted as follows: (i) the eligibility of Subordinated Financial Notes to make up the Tier II, in the amount of R\$13,455 million, which increase was basically offset by: (ii) the reduction due to maturities and rescheduling that occurred in the last five years of debt maturities, in the amount of R\$2,447 million; (iii) the increase in the credit risk portion, partially arising from the expansion of the loan portfolio; and (iv) the increase in the market risk portion, partially arising from the effects of the Central Bank of Brazil's Circular No. 3,568/11.

It is worth mentioning that in December 2012, only R\$26,638 million of the total subordinated debt were used in the calculation of the Basel Index, given the respective maturity.

In December 2011, Bradesco's Reference Equity reached R\$71,476 million, against a Required Reference Equity of R\$52,159 million, thus making for a capital margin of R\$19,317 million. Most of the requirement was due to the credit risk portion (local acronym PEPR), which accounted for 90.9% of risk-weighted assets, reflecting partially the expansion of lending in the period.

The Basel ratio rose 0.4 p.p. from 14.7% in December 2010 to 15.1% in December 2011, impacted mainly by: (i) subordinated financial notes (Letras Financeiras) counted as Tier II capital, in the amount of R\$9,402 million, and (ii) Central Bank of Brazil's Circular No. 3,563/11 lowering capital requirements for certain lending and leasing transactions (revoking Circular No. 3,515/10) and shares of investment funds for open pension plans (local acronyms PGBL and VGBL) as of November 2011.

It is worth mentioning that in December 2011, only R\$15,630 million of the total subordinated debt were used in the calculation of the Basel Index, given the respective maturity.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.12.

In December 2010, Bradesco's Reference Equity reached R\$56,147 million, against a Required Reference Equity of R\$41,892 million, thus making for a capital margin of R\$14,255 million. Most of the requirement was due to the credit risk portion (local acronym PEPR), which accounted for 93% of risk-weighted assets, reflecting mainly expansion of lending in the period.

The Basel Index ended the period at 14.7%, thus showing a fall of 3.1 p.p. against December 2009, primarily due to: (i) the exclusion of R\$3.0 billion of additional provisions in response No. 3,825/09, which revoked Resolution No. 3,674/08, both National Monetary Council, which allowed full additional provisions for doubtful accounts in the calculation of Tier I Reference Equity; and (ii) the R\$4.9 billion reduction due to maturing subordinated debt and escalation of these debts in the last five years, which was offset by R\$2.0 billion of new foreign debt eligible as Tier II capital.

It is worth mentioning that in December 2010, only R\$8,051 million of the total subordinated debt were used in the calculation of the Basel Index, given the respective maturity.

II) Operating Efficiency Ratio (OER) and Operating Coverage Ratio

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.13.

(1) It does not take into account profit sharing (PLR), which amounted to R\$1,031 million in 2012, R\$937 million in 2011 and R\$809 million in 2010. Total Personnel expenses amounted to R\$12,186 in 2012, R\$11,061 million in 2011 and R\$9,302 million in 2010;

(2) $IEO = (\text{Personnel expenses} - \text{PLR} + \text{Administrative expenses}) / (\text{Financial margin} + \text{Banking services fees} + \text{Income from insurance and pension plans} + \text{Equity in Earnings from affiliates} + \text{Other operating revenues} - \text{Other operating expenses})$; and

(3) $\text{Operating Coverage Ratio} = (\text{Banking services fees}) / (\text{Administrative expenses} + \text{Personnel expenses} + \text{PLR})$.

Operating Efficiency Ratio (OER)

A 2012-2011 comparison shows an improvement of 1.5 p.p. in the ratio, reaching 41.5% in the fourth quarter of 2012, which represented the lowest level in the last 10 quarters. This improvement is basically due to: (i) growth in the financial margin; and (ii) increase in banking service fees, which was affected by the increased average business volume, the result of the development of investments in accelerated organic growth started in the second half of 2011, aligned with the ongoing efforts to control expenses, including the actions taken by our Efficiency Committee, and IT investments.

A 2011 to 2010 comparison shows a 0.3 p.p. in the ratio. This increase is basically due to the faster pace of organic growth, particularly in the second half of 2011, impacting personnel and administrative expenses due to 11,030 new

points of service, in particular 1,009 new branches.

Operating Coverage

Comparing 2012 to 2011, operational coverage ratio recorded an improvement of 4.3 p.p. in the period, mostly as a result of the increase in banking service fees, aligned with the ongoing efforts to control expenses, including the actions taken by our Efficiency Committee in the period.

Comparing 2011 to 2010, operational coverage ratio fell by 2.0 p.p. reflecting: (i) higher personnel and administrative expenses, basically due to: (a) the impact of collective bargaining; and (b) higher expenses incurred, partly due to growth of business and points of service, in particular the faster pace of organic growth that led to 11,030 new points of service and in particular new 1,009 branches in the period; which was partly offset by: (ii) evolution of revenues from services.

III) Main Loan Portfolio Indicators

Delinquency Rate > 90 days ⁽¹⁾

⁽¹⁾ Concept defined by the Central Bank of Brazil.

In December 2012, the total delinquency rate for loans overdue 90 days reached 4.1% of the loan portfolio, recording a 0.2 p.p. rise as compared to December 2011, basically due to the increase of: (i) 0.3 p.p. in the delinquency rate for micro, small and mid-size companies; and (ii) 0.1 p.p. in the individuals rate.

In December 2011, the total delinquency rate for loans overdue 90 days reached 3.9% of the loan portfolio, recording a 0.3 p.p. rise as compared to December 2010, basically due to: (i) the increase of 0.6 p.p. in the delinquency rate for individuals; and (ii) the increase of 0,5 p.p. in the delinquency rate for micro, small and mid-sized companies.

In December 2010, the total delinquency rate for loans overdue 90 days reached 3.6% of the loan portfolio, recording a 1.3 p.p. rise as compared to December 2009, basically due to: (i) the decrease of 1.9 p.p. in the delinquency rate for individuals; and (ii) the decrease of 1.4 p.p. in the delinquency rate for micro, small and mid-sized companies. In 2010 the good performance of this ratio was a result of favorable economic conditions in Brazil.

Coverage Ratios ⁽¹⁾

(1) Concept defined by the Central Bank of Brazil.

In December 2012, the coverage ratio of the Allowance for doubtful accounts in relation to loans overdue from 60 to 90 days reached 147.3% and 178.2%, respectively, indicating a comfortable level of provisions. The small reductions in the period reflect the increased delinquency.

The balance of the Allowance for doubtful accounts of R\$21,299 million in December 2012 was composed of: (i) R\$17,288 million of provisions required by the Central Bank of Brazil; and (ii) R\$4,010 million of exceeding provisions.

In December 2011, the coverage ratio of the Allowance for doubtful accounts in relation to loans overdue from 60 to 90 days reached 151.8% and 184.4%, respectively, basically due to the nominal increase of overdue loans, which follow the growth of the loan portfolio, as well as the increased delinquency.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction N° 480 of December 7, 2009 .16.

In December 2011 the balance of the Allowance for doubtful accounts reached R\$19,540 million, a 20.0% increase, or R\$3,250 million as compared to December 2010, composed of: (i) R\$15,529 million of provisions required by the Central Bank of Brazil; and (ii) R\$4,011 million of exceeding provisions.

It is worth mentioning that in the third quarter of 2011, an additional provision in the amount of R\$1.0 billion was recognized, aimed at covering a possible worsening in the global economic scenario and possible effects in the Brazilian economy.

In December 2010, the coverage ratio of the Allowance for doubtful accounts in relation to loans overdue from 60 to 90 days reached 163.3% and 197.6%, respectively, with a 14.7 p.p. and 23.0 p.p. rise as compared to December 2009.

c) *capacity to pay financial commitments*

The directors understand that the operations stated in the balance sheet at the periods stated below, for the three last fiscal years, evidence that Bradesco has a comfortable liquidity margin to comply with its short-term liabilities. It is worth mentioning that Bradesco's asset and liability management policy is regularly reviewed to ensure sufficient liquidity to honor withdrawals, deposits, repay other obligations at maturity, extend loans or other forms of credit to

the customers and meet its own needs of working capital for investment. The following table presents our consolidated balance sheet by maturity:

.19.

Deposits

Deposits are our most important source of funding. Our deposits balance over these years progressed in the following manner:

- In December 2012, the balance of our deposits decreased by 2.5% as compared to December 2011, mainly due to decreased funding volume in the form of time deposits; and
- In December 2011, the balance of our deposits increased approximately 12.4% as compared to December 2010, mainly due to increased funding volume in the form of time and saving deposits.

Deposits accounted for approximately 44.8% of all obligations in December 2012. Our deposits consist primarily of real-denominated, interest-bearing time and savings deposits and real-denominated, non-interest-bearing demand deposits. The decrease of R\$20,105 million in time deposits, between 2012 and 2011, was basically a result of the new business opportunities offered to customers and the migration of funds to other investment sources, such as Financial notes and Debentures, thus giving rise to the rescheduling of average funding periods, which offset the increase of new volumes funded and the update of the deposit portfolio.

Savings deposits recorded an increase of 15.7%, mainly due to: (i) the larger funding volume, which was partially affected by the changes in the investment compensation rules; and (ii) the compensation of savings reserves.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.20.

Regarding demand deposits, there was an increase of R\$5,291 million, or 16.0%, in the comparison between 2012 and 2011, mainly arising from improved funding, which in turn derived from an increase in the account holders base in the period.

In December 2012, we had 25.7 million account holders and 48.6 million savings accounts as compared to 25.1 million account holders and 43,4 million savings accounts in December 2011. In December 2010, we had 23.1 million account holders and 41.1 million savings accounts.

Debentures

The increases stated in the comparison between December 2012 and 2011 and between December 2011 and 2010 basically refer to the placement of these securities, used as a guarantee in repurchase agreements, which were impacted by the pace of the economic activity.

Borrowing and Onlending

In the comparison between 2012 and 2011, the balance of Borrowings and Onlending recorded a fall of 17.0%, or R\$9,061 million, basically due to the decrease of R\$9,171 million in borrowings and onlending denominated and/or indexed to foreign currency, which balance decreased from R\$17,340 million in December 2011 to R\$8,169 million in December 2012, mainly due to: (i) the settlement of operations, being partially offset: (ii) the positive 8.9% foreign exchange variation in the period.

The variation of 39.4%, or R\$15,050 million, in the 2011 fiscal year, when compared to 2010, was mainly due to: (i) the increase of R\$9,344 million in borrowings and onlending denominated and/or indexed to foreign currency, which balance increased from R\$7,996 million in December 2010 to R\$17,340 million in December 2011, mainly due to new funding and the positive 12.6% foreign exchange variation in the period; and (ii) the increase of R\$5,706 million in the volume of funds raised through borrowings and onlending – domestic, basically, by way of Finame and BNDES operations.

Funds from Issuance of Securities

Comparing December 2012 to December 2011, the growth of 23.7% or R\$9,837 million in funds from securities issued was primarily from: (i) the increase in the volumes of operations with securities issued abroad, in the amount of R\$5,778 million, caused by new issuances carried out in the period and by the positive foreign exchange variation of 8.9%; (ii) the increase in operations with Real estate credit notes, in the amount of R\$2,086 million; (iii) the larger volume of operations with Agribusiness credit notes, in the amount of R\$1,355 million; (iv) the new issuances of Financial notes, which balance increased by R\$1,101 million; and partially offset: (v) by the decrease of R\$483 million in the balance of Mortgage notes.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.21.

The variation of 134.9%, or R\$23,848 million, in the 2011 fiscal year, when compared to 2010, was mainly due to: (i) new issues of financial notes (Letras Financeiras), the balance of which rose by R\$19,300 million, from R\$7,820 million in December 2010 to R\$27,120 million in December 2011; (ii) a R\$3,053 million increase in the volume of transactions in securities issued abroad, reflecting a favorable positive exchange rate variation of 12.6% and new issues placed in the period; (iii) a R\$1,367 million increase in real estate credit notes transactions; (iv) a R\$839 million increase in the volume of Agribusiness notes of credit; and partly offset by: (v) a reduction of R\$743 million in the balance of debentures, due to their maturing.

Subordinated Debt

At December 31, 2012, subordinated debt totaled R\$34,852 million (R\$8,807 million abroad and R\$26,045 million domestic). In the period, the amount of R\$19,837 million of Subordinated debt (R\$2,008 million abroad and R\$17,829 million domestic) was issued.

In December 2010, Bradesco's Subordinated Debt totaled R\$26,315 million (R\$5,079 million abroad and R\$21,236 million in Brazil). Issuance of subordinated notes in August 2010, in the amount of US\$1.1 billion, stands out.

e) financing sources for working capital and investments in non-current assets that it intends to use to cover liquidity deficits

The directors report that, as sources of funding for working capital and investments in non-current assets used for covering liquidity insufficiency, the Company may use the following resources: (i) Deposit Funding; (ii) Issuance of Debentures; (iii) Loans; (iv) Issuance of Securities; and (v) Capital contributed by controlling shareholders. It should be pointed out that Bradesco’s Treasury Department acts as a support center for our business segments by managing the funding and liquidity positions and executing investment objectives in accordance with asset and liability management policies. It is also responsible for setting the rates for our different products, including interbank rates. The Treasury Department covers any funding shortfall through borrowing in the interbank market, investing any surpluses in liquid instruments in the interbank market.

In some limited circumstances we may obtain emergency funds from the Central Bank of Brazil through a transaction referred to as “discount.” A discount is a loan from the Central Bank of Brazil to a financial institution, that loan being guaranteed by Federal Government securities owned by the financial institution. The amount of Federal Government securities held by the financial institution as trading securities limits the amount of discount transactions. Bradesco did not enter into discount transactions for liquidity purposes.

f) indebtedness levels and characteristics of related debts, also describing: i) relevant loan and financing contracts; ii) other long-term relationships with financial institutions; iii) level of subordination among debts; iv) any restrictions binding the issuer, in particular in relation to limits on indebtedness and new debt, distribution of dividends, disposal of assets, issue of new securities, and transfer of controlling interest

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.38.

b) variations in income from price changes, foreign exchange rates, inflation, changes in volumes and introduction of new products and services

Directors report that there were no significant variations in the issuer's financial revenues or income attributable to changing prices of our main inputs and products, exchange rates, inflation, altered volumes or the introduction of new products and services for the years ended on December 31, 2012, 2011 and 2010.

c) impact of inflation, variation of prices of main inputs and products, and foreign exchange and interest rates on the issuer's operating income and financial income

During periods of high interest rates, our financial income increases because the interest rates on our interest-earning assets are higher too. At the same time, we incur higher financial expenses since interest rates on interest-bearing liabilities are also higher. Changes in volumes of our assets and liabilities that incur interest also affect our revenues and expenses. For example, an increase in our interest income attributable to higher interest rates may be offset by a reduction in the volume of our outstanding loans.

Additionally, in the event of the Brazilian real depreciating, we: (i) incur losses on our liabilities denominated in/or indexed to, foreign currencies, such as our long-term debt denominated in dollars and foreign currency borrowings to the extent that the cost in Brazilian reais if the related financial expense is higher, and (ii) incur gains on our assets denominated to or indexed to, foreign currencies, such as our securities and dollar – geared loans, when revenue from these assets measured in Brazilian reais increases. Conversely, when the Brazilian real appreciates: (i) incur losses on assets denominated in/or indexed to, foreign currencies, and (ii) incur gains on our liabilities denominated in/or indexed to, foreign currencies.

In 2012, the financial “interest” rate increased 11.6%, from R\$37,670 million in 2011 to R\$42,021 million in 2012. The increase of R\$4,351 million in the income from interest transactions was mainly due to the increased business volume, and noteworthy were “Loans” and “Securities/Other.” It is worth mentioning that the interest rate (CDI) decreased from 11.6% in 2011 to 8.4% in 2012, and this decrease provided smaller gains in “Funding” margins.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.39.

In 2011, income from interest-bearing transactions increased 19.5%, from R\$ 31,525 million in 2010 to R\$ 37,670 million in 2011. The increase of R\$ 6,145 million in the income from interest transactions was mainly due to the increased business volume, and noteworthy were “Loans” and “Funding”. It is worth mentioning that the interest rate (CDI) increased from 9.8% in 2010 to 11.6% in 2011, and this increase provided higher gains in “Funding” margins.

10.3 - Events with Significant Effects (occurred and expected) on Financial Statements

Directors should comment on material effects that the events below have caused or are expected to cause for the issuer's financial statements and results:

a) introduction or sale of operating segment

No operational segment was introduced or sold in the period.

b) creation, acquisition or sale of equity interest

For the Bradesco Organization, among the significant events highlighting the period, noteworthy were the following:

- On March 2012, Bradesco started the operations of subsidiary Bradesco Securities Hong Kong Limited, in Hong Kong, China, aimed at prospecting opportunities and distributing fixed- and non-fixed income products. 10.4 - Significant Changes in Accounting Practices – Reservation and Emphases in the Auditor’s Opinion

Directors should comment:

a) significant changes in accounting practices

Directors report that no significant changes were made to the accounting practices we use in the fiscal years ended December 31, 2012, 2011 and 2010.

b) significant effects of changes in accounting practices

Directors emphasize that, even though no significant changes were made to our accounting practices, it is worth mentioning that, unlike other publicly-held companies that already adopt all CPCs, financial institutions, proceeding with the convergence process with the international financial reporting standards (IFRS), in addition to four pronouncements of the Accounting Pronouncements Committee (CPC), previously approved by the National Monetary Council, four new pronouncements were approved by the in 2012 and 2011. The other CPC pronouncements, interpretations and guidelines will only be applicable to financial institutions after approval.

It is currently not possible to estimate when National Monetary Council will approve the other CPC accounting pronouncements or if their adoption will be prospectively or retrospectively.

The eight CPC accounting pronouncements approved were as follows:

- Resolution №. 3,566/08 – Asset impairment (CPC 01);
 - Resolution №. 3,604/08 – Statement of cash flows (CPC 03);
 - Resolution №. 3,750/09 – Related party disclosures (CPC 05);
 - Resolution №. 3,823/09 – Provisions, contingent liabilities and contingent assets (CPC 25);
 - Resolution №. 3,973/11 – Subsequent events (CPC 24);
 - Resolution №. 3,989/11 – Share-based payment (CPC 10);
 - Resolution №. 4,007/11 – Accounting policies, changes in accounting estimates and errors (CPC 23); and
 - Resolution №. 4,144/12 – Basic conceptual pronouncement (R1).
-

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.41.

Out of the pronouncements approved in 2011, CPCs 10 and 23 came into effect in the 2012 fiscal year. The CPC basic conceptual pronouncement, approved in 2012, also came into effect in 2012. These three pronouncements have not given rise to any change in the accounting practices adopted by the Bradesco Organization (as described in item 10.4.a of this Reference Form), or produced any effect in net income and shareholders' equity.

c) reservations and emphases in the auditor's opinion

There were no reservations and emphases in the auditor's opinion.

10.5 - Critical Accounting Policies

Directors should indicate and comment on critical accounting policies adopted by the issuer, exploring in particular accounting estimates made by management on matters that are uncertain and relevant to the description of the financial position and results, which require subjective or complex judgments, such as: provisions, contingencies, revenue recognition, tax credits, long-lived assets, useful life of noncurrent assets, pension plans, adjustments to foreign currency conversion, environmental remediation costs, impairment testing criteria for assets and financial instruments.

Bradesco has disclosed critical risk factors and accounting policies, in conformity with the best international transparency and Corporate Governance practices, in relation to possible political and economic situations in the domestic and foreign markets, which may directly impact the day-to-day of operations and accordingly, the Bank's financial position.

Directors believe that the Bradesco's results are subject to accounting policies, assumptions and estimates. It is Management's responsibility to adopt fair accounting practices, in addition to using judgment while carrying out reasonable and conservative estimates to be used in the preparation of financial statements.

Regarding materiality, the items below describe the accounting policies deemed as critical, as well as the areas demanding better judgment and estimate or involving a high complexity level, which may affect our financial position and the result of our operations. The accounting estimates we carry out in this context cause us to make assumptions on issues involving uncertainties. For each case, should we have prepared other estimates or the changes in estimates occurred from period to period, significant impacts might have occurred on our financial position or the result of our operations.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

Allowance for Doubtful Accounts

The allowance for doubtful accounts is calculated in an amount sufficient to cover possible losses and take into account the rules and instructions issued by National Monetary Council and Central Bank of Brazil, together with the appraisals carried out by Management upon calculation of credit risks.

At the end of each period, the allowance for doubtful accounts is adjusted based on an analysis of our portfolio, including the estimate of losses in loan and leasing operations and other operations with credit characteristics.

In view of its nature, the determination of the allowance for doubtful accounts requires us to make judgments and assumptions related to our portfolios, both on individual and product-specific portfolio bases. Whenever we reassess the portfolio as a whole, a number of factors may affect the estimate of the probable losses, including which methodology we will adopt for measuring the historical delinquency rates and which historical period we will take into account to carry out such measurements. Other factors that may affect our judgment while we calculate the allowance for doubtful accounts include as follows:

- Brazilian general economic conditions and relevant conditions in the sector;
- previous experience with the debtor or the relevant economy sector, including the recent experience of losses;
- credit quality trends;

- values loan securities;
 - volume, composition and growth of our portfolio;
 - the Brazilian government's monetary policy; and
 - any delays in receiving information necessary to evaluate operations or confirm existing impairment.
-

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.43.

We use models to assist us in the analysis of our portfolios and calculate the required provision for losses. We use statistical factors to show losses and other risk indicators for groups of loans with similar risk characteristics to achieve an estimate of losses incurred by the portfolio and calculate the models. Although our models are often reviewed and improved, by their nature, they depend on our judgments made in relation to information and/or forecasts we receive. In addition, the Brazilian economy's volatility may lead to greater uncertainty in our models than one would expect in more stable macroeconomic environments. Therefore, our provision for doubtful debt may not be indicative of actual future losses.

The process to calculate the level of provision for doubtful debt requires a high judgment level. It is possible that others, taking into account the same information, may at any time reach reasonably different conclusions.

Classification of Securities and Derivatives

The classification of securities and derivatives is in three categories: held for trading, available for sale and held to maturity. This classification is based on the Management's intent, on the date the securities are acquired, of keeping or selling such securities. The accounting treatment to the securities we hold is dependent on how we classify them upon their acquisition.

Circumstantial changes may alter our strategy in relation to a specific security, which would require transfer between the three categories.

Evaluation of Securities and Derivatives

Financial instruments recorded at fair value in our consolidated financial statements largely consist of securities classified as: (i) held for trading; (ii) available for sale; and (iii) other trading assets, including derivatives. Fair value is defined as the value for which a position may be closed or sold in a transaction with an educated party willing to trade, on an arms' length basis.

We estimate the fair value by using the market prices, as available. We note that the price may be affected by the volume of shares transacted, and may also fail to reflect the "control premiums" under share agreements with shareholders, which holds significant investments. However, the Management believes that market prices are the best indicators of fair value.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.44.

At the determination of the fair value, when market prices are not available, the Management's judgment is made, as models depend on our judgment of weight assignable to different factors and the quality of information received. The factors used in these models include quotations by distributors, pricing models, prices of instruments with similar characteristics and discounted cash flows. Model-based pricing also uses information on interest rates, foreign exchange rates and volatility of options, whenever significant and available. Such as reliable market data while estimating the impact of keeping a large position is generally limited. We use likewise our judgment for estimating prices whenever there is no external parameter. If we make inaccurate assumptions or the model itself makes inaccurate correlations or assumptions, the amount of income or loss recorded for a specific asset or liability may be incorrect. Judgment should also determines whether a reduction in the fair value below the updated cost of a held-to-maturity or an available-for-sale security is not temporary, so that it would demand the possible recognition of impairment of the updated cost and that we may record this reduction as an expense. At that evaluation, if any devaluation is not temporary, the Management will decide which historic period should be considered and how severally a loss may be provisioned for.

These appraisal methods may lead Bradesco to have different results should the assumptions and estimates used fail to subsequently become real.

Tax Income and Social Contribution

The value determination of income tax and social contribution is complex, and therefore our evaluation is based on the analysis of our deferred fiscal assets and liabilities and income tax and social contribution payable. In general, our evaluation requires us to estimate the future amounts of deferred fiscal assets and income tax and social contribution payable. Evaluating the possibility of any deferred fiscal assets to be realized is subjective and involves evaluations and assumptions the origin of which is uncertain. Realization of deferred fiscal assets is subject to changes to future fiscal rates and the development of our tax planning strategies. Evaluations and assumptions may change over the time

as a result of unforeseen events or circumstances, and thereby change our judgment at the determination of the amount of our fiscal liabilities.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.45.

We continuously monitor and evaluate the impact of new tax laws on our liabilities, as well as new events likely to affect the evaluations and assumptions of our analysis of the possibility of deferred fiscal assets realization.

A significant judgment is required for the determination of the probability of a position on income tax and social contribution be sustained under examination, even after the result of any legal or administrative proceedings, on the basis of technical merits. An additional judgment is then required to determine the amount of benefit eligible to be recognized in our consolidated financial statements.

Impairment

The balances of securities classified as available for sale and held to maturity, in addition to non-financial assets (except for deferred tax credits), are reassessed at least on a yearly basis, to determine where there is any indication of impairment. When a loss is identified, we recognize an expense in income for the year. This occurs when the carrying amount of the asset exceeds its recoverable value.

We use a number of judgments to calculate the recoverable value, and accordingly we estimate the value of the most variable assets subject to impairment testing.

Technical Provisions for Insurance, Pension Plan and Capitalization

Technical provisions are liabilities representing estimates of the amounts to be due in a certain point in the future in favor of our customers, stakeholders, insured parties or their beneficiaries. Such actuarial hypotheses are based on our experience and are periodically reviewed to the industry standards, with the objective of ensuring actuarial credibility. However, significant changes to experience or hypotheses may require us to make a provision for future losses expected for a certain product, and make provisions for premium or contribution shortage. These provisions are set forth in short- or long-term agreements to forecast expected future losses.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

46.

For insurance, future claims to be paid include provisions for group and individual life, health, contingency, liability and damage insurance. These benefits are computed using actuarial hypotheses for mortality rates, incapacity, expiry date, investment performance, inflation, expenses, and others. For long-term insurance agreements, when the actuarial hypotheses in a specific policy or group of policies are fulfilled, they will not be changed during the validity time of the policy. Liabilities recognized for claims include provisions for incurred but not reported claims and provisions for unsettled claims. We recognize claims as they occur. However, costs of claims occurred in a specific period will not be clearly recognized until we receive, process and pay such indemnities. We determine the liability amount through actuarial methods based on history of claim payments to estimate claim liabilities. Methods to determine such estimates and establish the values of the technical provisions are reviewed and updated on a regular basis. The resulting adjustments are recognized in income for the respective period.

For pension plans, future benefits to be paid to participants or their beneficiaries include provisions for retirement, pension and redemptions, with actuarial hypotheses that take into account factors such as survivorship, interest rates, and disability, among others.

For capitalization operations, future payments to our customers include provisions for redemptions and raffles. These are calculated on the monetarily adjusted nominal values of the securities.

Accounting Provisions and Contingent Liabilities

We make accounting provisions taking into consideration our legal advisors' opinion, the nature of proceedings, their similarity with previous proceedings, their complexity and the Court's award, whenever the loss is considered likely to occur, which would lead to a possible allocation of funds to settle the obligations, and when related amounts are quite

securely measurable.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.47.

Contingent liabilities classified as eventual losses are not recognized for accounting purposes and should only be mentioned in explanatory notes when they are individually significant, while those classified as remote require no provisions or disclosure.

We continuously monitor the legal proceedings under way to evaluate, among other things: (i) their nature and complexity; (ii) process development; (iii) the opinion of our legal advisors; and (iv) our experience in similar proceedings. Upon determining whether a loss is likely to occur and estimating its value, we also consider:

- a) the probability of loss derived from claims occurred on or before the date of financial statements, which were identified by us after the date of such statements but before their publication; and
- b) the need to disclose claims or events occurred after the date of financial statements, but before their publication.

10.6 - Internal Controls relating to Preparation of Financial Statements – Levels of Efficiency and Deficiency and Recommendations in the Auditor's Report

In relation to internal controls used to ensure that reliable financial statements are prepared, the directors should comment:

- a) *the level of efficiency of such controls, indicating eventual deficiencies and actions taken to correct them*

There were no eventual deficiencies, and consequently no actions were taken in the preparation of the Bradesco's consolidated financial statements for the years ended on December 31, 2012, 2011 and 2010.

The Organization has a department managing internal control processes and an Internal Controls and Compliance Committee to advise the Board of Directors on fulfillment of its duties related to adoption of strategies, policies and measures for the dissemination of its culture of internal controls, risk mitigation and compliance with the regulations applicable.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.48.

Based on a policy defined and approved by the Board of Directors, the Organization also keeps all components of the internal controls system up-to-date in order to mitigate the potential losses caused by its risk exposure and to strengthen its Corporate Governance processes and procedures. The effectiveness of the Organization's internal controls is based on our people- processes-technology tripod. In this context, our skilled professional staff is working exclusively with previously determined processes using appropriate technology for business needs.

Our Policy for Internal Controls and Compliance, and our Corporate Methodology, are properly formalized and aligned with the leading frameworks for controls, such as the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and Control Objectives for Information and Related Technology (COBIT), covering the Business and Technology aspects respectively, pursuant to National Monetary Council Resolution No. 2,554/98, the Public Company Accounting Oversight Board (PCAOB), and Sarbanes-Oxley Section 404.

Internal controls are developed in conjunction with the various business areas managing the Organization's services, products and processes, and adherence tests are applied at the required intervals, and results reported to Bradesco's Audit and Internal Controls and Compliance Committees and to its Board of Directors. In cases of non-compliance, the appropriate corrective measures are taken and duly monitored.

These measures taken as a whole translate into enhanced quality for operational processes and dissemination of the importance of the culture of controls while ratifying improvements for best practices.

It is important to highlight the benefits at the corporate level from complying with the above-cited Law, which include disseminating the importance of a culture of control, improvements in the quality of operating and administrative processes, the robustness of the associated controls and improvements in requirements aimed at maintaining Corporate Governance best practices.

Directors/officers' comments on the Company in terms of Reference Form Item 10, pursuant CVM Instruction Nº 480 of December 7, 2009

.49.

b) deficiencies and recommendations on internal controls included in the independent auditor's report

In view of our stock of knowledge and the studies conducted by the independent auditor to assess our internal controls structure, designed to ensure the adequacy of Bradesco's financial statements, the auditor's report contains no faults or recommendations in relation to internal controls that could significantly affect our financial statements.

10.7 - Use of Proceeds from Public Offerings for Distribution and any Deviations

If the issuer has made a public offering for distribution of securities, the directors should comment:

a) how funds derived from the offering were used;

b) whether there were important deviations between the effective application of funds and the proposed application disclosed in leaflets on the respective distribution

c) if deviations occurred, the reasons for such deviations

Out of the net income for the year, 5% (five percent) will be allocated to the recording of legal reserve, which shall not exceed 20% (twenty percent) of the Company's capital stock. Pursuant the first Paragraph of Article 193 of the Corporate Law, the legal reserve may not be recorded in the fiscal year when the balance of such reserve, added by the amount related to capital reserves addressed by Paragraph 1 of Article 182 (with amendments introduced by the Law # 11,638/07), exceeds 30% (thirty percent) of the capital stock.

On December 31, 2012, the amount of the legal reserve was R\$3,838,474,433.34, which was equivalent to approximately 12.75% of the Company's paid up capital on the same date.

Dear Shareholders,

The parent companies of Banco Bradesco S.A., Cidade de Deus - Companhia Comercial de Participações and Fundação Bradesco, both represented by the Chief Executive Officer, hereby submit, to examination and resolution, proposal to:

I. Elect the Fiscal Council's members:

Pursuant to Article 2 of the Statute of the Fiscal Council and to Article 20 of the Company's Bylaws, the Fiscal Council does not operate on a permanent basis and, when installed, shall comprise 3 (three) to 5 (five) sitting members and an equal number of deputy members, shareholders or not, all with terms valid until the first Annual Shareholders' Meeting being held after their election.

Pursuant to letter "b", Paragraph 4 of Article 161 of Law # 6,404/76, the shareholders entitled to voting rights (with exception of the minority shareholders, to whom the item "a" of Paragraph Four of the said Article applies) may elect the majority of the Fiscal Council's members and their respective deputies.

Thus, the parent companies propose that the Fiscal Council be installed on a non-permanent basis, with term of office until the first Annual Shareholders' Meeting to be held after their election, and the controlling shareholders shall appoint, to comprise the Body, the highest number of members they are entitled to, pursuant to the legal provision aforementioned, contemplating, in this event, to elect:

a) as sitting members, Mr. **Nelson Lopes de Oliveira**, Brazilian, married, entrepreneur, RG (Identity Card) 3.962.261/SSP-SP, CPF (Individual Taxpayer's ID) 036.974.608/20; and **João Carlos de Oliveira**, Brazilian, married, business consultant, RG (Identity Card) 993.835/SSP-PR, CPF (Individual Taxpayer's ID) 171.602.609/10, both domiciled at Cidade de Deus, Vila Yara, Osasco, SP, CEP 06029-900; and

Further Information on the Board of Directors' Members

In compliance with the provisions of letter "a", Paragraph Four of Article 161 of Law # 6,404/76, preferred shareholders, in separate votes, are entitled to appoint a sitting member and respective deputy. The minority shareholders shall have the same right, provided that they jointly represent ten per cent or more of the voting shares.

Thus, Bradesco, in order to speed the process and facilitate the works in the Shareholders' Meeting, recommends that the shareholder or group of shareholders who wish to indicate candidates to compose the Fiscal Council, in its discretion, send to the Company, preferably, within up to 2 (two) working days before the date set for the completion of the respective Annual Shareholders' Meeting, their names, qualifications and curricula, observing the same rules and conditions of election. Such information must be directed via e-mail to governancacorp@bradesco.com.br and, alternatively, by fax at (55 11) 3684-4630 or (55 11) 3683-2564.

The appointed Fiscal Council's Members will take office after their names are approved by the Central Bank of Brazil. They comply with the conditions set forth in Article 162 of Law # 6,404/76, and they declared, under legal penalties, that they are not prevented from performing the management of a commercial company due to criminal conviction.

II. Establish the compensations of the Fiscal Council's Members:

Pursuant to Paragraph Three, Article 162, of Law # 6,404/76, the compensation of the members of the Fiscal Council shall be determined at the General Shareholders' Meeting in which they are elected and it cannot be lower, for each member in office, to 10% (ten percent) of the average compensation attributed to each Officer, without benefits, expense account and the Company's profit sharing.

At the Annual Shareholders' Meeting held on March 9, 2012, it was established a monthly amount of R\$12,000.00 to each member. For 2013, we propose the maintenance of the monthly compensation of R\$12,000.00 (twelve thousand reais) to each Sitting Member of the Fiscal Council and the Deputy Members are remunerated only when they replace the Sitting Members, in the cases of vacancy or temporary impediments.

Further Information on the Board of Directors' Members

Dear Shareholders,

The Board of Directors of Banco Bradesco S.A. hereby submits, to examination and resolution, proposals for the Management Compensation, as follows:

For the year 2013, we propose to maintain unchanged the amounts established at the Annual Shareholders' Meeting held on 2012, as follows:

- the total annual amount (fixed fees and possible variable compensation) of up to R\$250,000,000.00 to the compensation; and
- the annual amount of up to R\$250,000,000.00 to support the Management's Open Complementary Pension Plans targeted at the Management and Employees of Bradesco Organization.

These amounts are justified by the fact that the Managers have a wide experience and vast knowledge of the Company, due to the fact that most of them have developed their career at the Organization, as well as the need of retaining their talents in an increasingly competitive market.

The Remuneration Committee will permanently assess the company's performance, the fulfillment of objectives and the business sustainability, with a view to verifying if results justify the distribution of amounts mentioned above until the limits proposed herein.

Pursuant to letter "n" of Article 9 of the Bylaws, the annual global compensation and the social security amount will be distributed at a meeting of the Board of Directors to its members and to the members of the Board of Executive

Officers.

Information according to item 13 of the Reference Form of CVM Instruction #480, as of 12.7.2009

13. Management Compensation

13.1. Description of the policy or compensation practice, including the non-statutory Board of Executive Officers

a) Objectives of the policy or practice of compensation

In 2012, the Annual Shareholders' Meeting approved, for that fiscal year, the amount of up to R\$250,000,000.00 for the Management Compensation (Board of Directors and Board of Executive Officers).

At the same time, in item 13.2 of the Reference Form – 2012, said amount was dismembered in the title "Total Compensation for the current Year 12.31.2012 – Annual Values" as "Annual Fixed Remuneration", being R\$46,000,000.00 for the Board of Directors and R\$204,000,000.00 for the Board of Executive Officers.

On the other hand, in the same year, Bradesco adapted its compensation policy for managers to reflect the objectives outlined by Resolution # 3,921, of the National Monetary Council, of 11.25.2010, which resulted in the payment of part of the amount approved in the Annual Shareholders' Meeting, as variable compensation. Thus, these values are reflected, in this document, in items 13.2 - Total compensation of the board of directors, statutory board of executive officers and fiscal council, title "Total compensation for the Fiscal Year on 12.31.2012 - Annual Values", and 13.3 - Variable compensation of the board of directors, statutory board of executive officers and fiscal council, title "iv.

value effectively recognized in the results of 2012.”

Therefore, and as described in this document, the Compensation Policy of the Bradesco organization aims to:

- ensure that the compensation practice is in accordance with the law, rules and regulations that govern the matter, based on the Manager’s duties, which result from the positions they hold and functions they perform; time dedicated to their functions; in competence and professional reputation, in view of their experience and qualification; and in the value of their services in the market;
 - to provide alignment between compensation practices for the Management and the Organization’s interests, so that the decisions made are the best as possible, seeking to create value for its shareholders and investors, and
-

Further Information on the Board of Directors' Members

- to ensure that the compensation practice is related to objectives that seek the valuation of the Organization, not encouraging behaviors that increase the risk exposure above levels considered prudent for the strategies adopted short, medium and long term.

b) Composition of compensation, indicating:

i. description of the compensation elements and the objectives of each one of them

a) Board of Directors and Board of Executive Officers

The Management compensation consists of Fixed Compensation, represented by Monthly Fees fixed for the duration of their term, and any Variable Compensation awarded according to the criteria of multiple Monthly Fees, until the limit authorized by the Shareholders' Meeting or by the Managing Bodies.

In addition, annually, a proposal is submitted for approval by the Shareholders' Meeting to fund the Open Complementary Pension Plan for Managers and Employees of Bradesco Organization, the amounts of which are shown in item 13.2 as post-employment benefits.

Pursuant to CVM Circular Letter CVM/SEP/Nº 007/2011, in item 13.2, for the years 2012, 2011 and 2010, we are indicating the amounts corresponding to INSS (social security) contributions paid by Bradesco and recognized in its

results.

b) Fiscal Council

Compensation of the Members of the Fiscal Council shall be determined by the Shareholders' Meeting in which they are elected and it cannot be lower, for each member in office, to 10% (ten percent) of the average compensation attributed to each Officer, without, under current legislation, the payment of benefits, expense account and of the Company's profit sharing.

c) Audit Committee

Further Information on the Board of Directors' Members

The composition of the compensation of the Members of the Audit Committee, with exception of one member that only receives compensation to participate in the Board of Directors, is 100% fees, and aims at rewarding the contribution of each member for acting on advising the Board of Directors in the performance of its attributions related to the follow up of the accounting practices adopted in the preparation of the Company's financial statements and of its subsidiaries, as well as in the process of appointing and evaluating the effectiveness of the independent audit.

Another important factor in the definition of the compensation is that the Committee's members must have high technical qualification so as to exercise their position and at least one of them must have proven knowledge in the areas of accounting and auditing of financial institutions which qualify him to exercise his function, proving the high degree of expertise required from them, including the regulatory bodies.

d) Compensation Committee

The Compensation Committee, defined in the Bylaws, shall be composed by members chosen among the members of the Company's Board of Directors, and, also, as required by the Resolution #3,921 as of 11.25.2010, of the National Monetary Council, by 1 (one) member non-administrator. The Member of the Board of Directors and the member non-administrator, when an employee of the Bradesco Organization, will not be compensated by hold the position of Member of the Remuneration Committee. While being a non-employee, when nominated, the Member will have its compensation set by the Board of Directors, according to the market parameters. No Manager of Bradesco Organization is remunerated for the performance of their duties in the Organization's Committees.

e) Other Committees

The members of the other Committees (statutory and executive ones) are remunerated only for their duties which they perform in the management bodies or executive areas, in which they act at Bradesco Organization. No Manager of Bradesco Organization is remunerated for duties that they perform in the referred Committees.

ii. the proportion of each component in the total compensation

The Bradesco Organization's Remuneration Committee: proposes to the Board of Directors the Global Amount for compensation (Monthly Fees and possible Variable Compensation) and the payment of the Variable Compensation limited to Global Amount, to be distributed to the Managers of each subsidiary of the Organization.

To define the Global Amount for compensation (monthly fees and possible Variable Compensation), the Remuneration Committee shall observe the following aspects:

Audit Committee

The process for calculate and adjust the Audit Committee's compensation starts in the Remuneration Committee. The Board of Directors, on its turn, evaluates the recommendations and proposals of this Committee and defines the amount of fees for each Committee's member.

iv. reasons that justify the composition of compensation

Bradesco Organization adopts the system of "Closed Career", hiring people, preferably, to the initial positions, developing and preparing these employees to hold higher positions, when available. So the executive positions are filled with trained professionals at own Organization and, therefore, reveal a consolidated personal career, focused on the Organization's goals, in medium and long terms.

At the same time the system of "Closed Career", and as a way to allow the utilization of its best professionals, the Bradesco Organization promotes a constant and rotational motion, shifting employees/Managers, especially those in positions of command of areas. The Bradesco Organization provides to the Manager, through the "Rotation of Duties", greater integration, experience, personal challenges and consolidation of career, being continuously monitored and evaluated for possible movements in the hierarchy.

Within this context, the Organization aims to ensure that the compensation practice complies with the law, rules and regulations that govern to the matter, based on (i) the Managers responsibilities, taking into consideration the different positions they hold and the functions they perform; (ii) the time devoted to their duties; (iii) the competence and professional reputation, considering their experience and qualifications; and (iv) the value of its services in the market.

c) main performance indicators that are taken into consideration in determining each component of compensation

The uniformity in the treatment of work areas is one of the keys for the Organization's effectiveness, as a manner to inhibit the individualism, maintaining a good work environment favorable for teamwork.

Further Information on the Board of Directors' Members

The Organization maintains a collegiate management culture, in which all relevant decisions, business or administrative ones, are made by committees composed, primarily, by Managers.

Thus, even with the establishment of goals and objectives for all areas, individually, for purposes of compensation prevails the global performance of the Organization, making no segregation of area, if it is considered as area of business or support, technical or relationship.

The performance of Managers, considering the individual performances and of their respective areas, is accompanied by their respective superiors.

For the formal evaluation process, specific indicators are defined for areas and for individual assessment, as the functions of the Manager, taking into account the areas for business, controls, and other support areas.

For areas assessment, are considered, as a minimum, the following groups of indicators:

- a. main activity actions: are indicators that suggest the goals and objectives of the main activities of the area;

The performance evaluations of Managers in the areas of internal control and risk management should be based on the achievement of the objectives of their own functions and not specifically in the overall performance of the Organization. It is considered areas of internal control and risk management in the context of the Bradesco organization the Department of Internal Controls and Compliance – DCIC, the Integrated Risk Control Department-DCIR, and the General Inspectorate Department-IGL, as well as the related areas of other companies of the Bradesco Organization.

d) how compensation is structured to reflect the evolution of performance indicators

It is up to the Board of Directors, after completion of all stages of definition and approval of the Global Amount, to set the value of the Fixed Compensation and, by consequence, any Variable Compensation of each of the Managers, in compliance with the following rules:

- i. uniformity of compensation between members of the same hierarchy (office), or differentiation as a result of the time in that position, experience, academic background or other difference that the Board of Directors deems appropriate;

Further Information on the Board of Directors' Members

ii. part of the Global Amount approved will be distributed in fixed equal monthly installments during the term of office of the Manager, subject to the provisions above, called Monthly Fee;

iii. the remaining part of the Global Amount may be distributed as Variable Compensation, upon proposal of the Remuneration Committee, which shall comply, as a minimum, in addition to the scenarios set for the period, the performance (i) individual and unit of the business/area under the responsibility of the Manager; (ii) the performance of the Organization as a whole; and (iii) the relationship between these performances and the risks assumed, recording the result of these analyses in the minutes of meeting of the Body itself, covering the distribution proposal.

Based on the assessment and proposal of the Remuneration Committee, the Board of Directors shall define, if applicable, the amount of the Variable Compensation that will be paid to Managers, which will correspond to multiple equal Monthly Fee that each Director is receiving at the date of the resolution for payment of Variable Compensation.

e) how the compensation policy or practice is in line with the issuer's short, medium and long term interests

In addition to the current legislation, in Bradesco Organization, to fix the Managers' Compensation, is taken into consideration the organizational culture, having as the main practices the "Rotation of Duties" in management positions, the adoption of the system of "Closed Career" for the ascension in functional and managing positions and the taking decisions, primarily by collegiate bodies.

It's a practice of Bradesco Organization to develop, continuously, its human resources, understanding that the personal and professional growth is the main motivation for its employees and managers. The system of "Closed Career" is the way to allow the use of its best professionals. The staff, in all levels, including the leadership, have absolute confidence in the possibility offered, to any employee, to ascend the Organization on its own merits, being possible for a bookkeeper to reach the position of Chief Executive Officer or Chairman of the Board of Directors.

Further Information on the Board of Directors' Members

By force of this practice, consistently adopted over decades, is that the leadership positions, including in the Board of Directors, are held by people who began his career at Bradesco Organization.

In addition to this whole process of commitment of Managers, 50% of the net value of the Variable Compensation is for the acquisition of preferred shares issued by Banco Bradesco S.A., which will be recorded and unavailable ("Restricted Shares").

Restricted Shares will become available in 3 (three) equal, annual and successive installments, expiring the first installment in the subsequent year, counted from the first working day following the date of the beginning of his unavailability, subject to any adjustments in the event of a significant reduction of Recurring Profit Made or occurrence of negative result of the Company during the Period of Deferral.

For the establishment of the deferral of 50% described previously, in order to meet the provisions of Article 7 of the CMN (National Monetary Council) Resolution # 3,921, the Organization takes into account the rotation of duties of the Managers mentioned, as well as the collegiate decision-making process through its various committees, with a consequent dilution of possible risks arising from its decisions. Thus, a single 50% of net amount of Variable Remuneration, therefore above 40% provided for in Resolution, so as to balance the percentage of the deferred Variable Compensation at levels acceptable to all Managers.

f) existence of compensation supported by subsidiaries, controlled or direct or indirect parent companies

Bradesco does not practice this type of compensation for the mentioned Bodies.

g) existence of any compensation or benefit related to the occurrence of certain corporate event, such as the sale of the corporate control of the issuer
