**REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13A-16
OR 15D-16 OF THE SECURITIES EXCHANGE ACT OF 1934**

For the month of August, 2013
(Commission File No. 1-14862)

BRASKEM S.A.
(Exact Name as Specified in its Charter)

N/A
(Translation of registrant's name into English)

Rua Eteno, 1561, Polo Petroquimico de Camacari
Camacari, Bahia - CEP 42810-000 Brazil
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(1).

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(7).

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to
the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____.

**Braskem S.A.
Quarterly Information (ITR) at
June 30, 2013
and Report on Review of
Quarterly Information**

Report on Review of Quarterly Information

To the Board of Directors and Shareholders

Braskem S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Braskem S.A., included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2013, comprising the balance sheet as at that date and the statements of operations and comprehensive income for the quarter and six-month periods then ended, and the statements of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity,

respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent

company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Braskem S.A.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the six-month period ended June 30, 2013. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia, which jointly with its subsidiaries (hereinafter “Braskem” or “Company”), operates 36 industrial units, 29 in Brazil, 5 in the United States and 2 in Germany.

Braskem S.A. is controlled by Odebrecht S.A. (“Odebrecht”), which indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Material corporate and operating events

(a.1) On August 17, 2012, the Company inaugurated, in Marechal Deodoro, Alagoas, a new plant with annual production capacity of 200 kton of polyvinyl chloride (“PVC”). With the plant’s opening, Braskem’s annual PVC production capacity increased to 710 kton (unaudited).

(a.2) On September 13, 2012, the Company inaugurated, in the Triunfo Petrochemical Complex in the state of Rio Grande do Sul, a new plant with annual production capacity of 103 kton (unaudited) of butadiene. The new plant is already operating at full production capacity.

(a.3) In the last quarter of 2012, the ownership interests held in Cetrel and Braskem Distribuidora were divested, for R\$208,100 and R\$444,000, respectively. The Parent Company held 54.2% of the total and voting capital of Cetrel and 100% of the capital of Braskem Distribuidora.

(a.4) The Extraordinary Shareholders Meeting held on May 15, 2013 approved the increase in the capital stock of the subsidiary Braskem Idesa S.A.P.I. (“Braskem Idesa”), without the issue of new shares, in the amount of R\$141,620 (Mex\$850,061), through capital injection of R\$ 106,214 (Mex\$ 637,546) by the parent company and R\$ 35,406 (Mex\$ 212,515) by the non-controlling shareholder.

(b) Net working capital

On June 30, 2013, net working capital at the Parent Company and Consolidated were negative R\$2,279,490 and R\$1,768,255, respectively. The consolidated figures are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements. For this reasons, any analysis of the Parent Company’s working capital will not reflect the actual liquidity position of the consolidated group. Although the consolidated net working capital is negative, the Company does not have any issue regarding liquidity, since this condition is only temporary, for the following reason. Braskem S.A. and the Idesa Group temporarily financed the installation of the Ethylene XXI Project in Mexico of the subsidiary Braskem Idesa. The funds required are loaned by the shareholders proportionally to their interest in the capital of Braskem Idesa. As of June 30, 2013, a total of R\$1,964 million had been loaned, of which R\$1,472 million by Braskem and R\$492 million by the Idesa Group. These funds will be repaid upon the release of funds under the long-term loan Project Finance structure. The contracts were executed in December 2012 and the first tranche was made in July 2013 (Note 32). The amount owed to the Idesa Group is recorded in “other accounts payable” under current liabilities in the consolidated financial statements (Note 21).

Additionally, Braskem has three revolving credit lines in the amounts of: (i) US\$350 million that may be used without restrictions for a period of four years as from November 2012; and (ii) US\$250 million that may be used without restrictions for a period of five years as from August 2011; and (iii) R\$450 million for a period of

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

three years as from December 2012. These credit facilities enable Braskem to reduce the amount of cash it holds. Up to June 30, 2013, Braskem had not drawn credit from these lines.

(c) Effect of foreign exchange variation

The Company has balances and transactions in other currencies, mainly in U.S. dollar, as well as financial investments, trade accounts receivable, trade payables, borrowings and sales. The balances of assets and liabilities are translated based on the exchange rate at the end of each period, while transactions are based on the effective exchange rate on the date each operation occurs. These rates are informed by the Central Bank of Brazil.

The following table shows the U.S. dollar average and end-of-period exchange rates for the periods in this report:

U.S. dollar, end of period

June 2013	R\$ 2.2156
December 2012	R\$ 2.0435
Appreciation of the U.S. dollar in relation to the Brazilian real	8.42%

Average U.S. dollar rate

Six-month period ended June 30, 2013	R\$ 2.0333
Six-month period ended June 30, 2012	R\$ 1.8663
Appreciation of the U.S. dollar in relation to the Brazilian real	8.95%

2. Summary of significant accounting policies

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem S.A. as of December 31, 2012, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2012 financial statements.

The statement of operations and statement of comprehensive income for the second quarter of 2012 and for the period ended June 30, 2012, as well as their respective Notes for the period ended June 30, 2012 were restated to reflect the divestments of Cetrel S.A. ("Cetrel") and of Distribuidora de Água Camaçari S.A. ("Braskem Distribuidora"), as well as the decision to divest IQ Soluções & Química S.A. ("Quantiq") and IQAG Armazéns Gerais Ltda. ("IQAG") (Note 3). The balance sheet and statement of changes in shareholders' equity as on December 31, 2012, were resubmitted to reflect the effects of the retroactive application of CPC 33 (R1) and IAS 19, as explained in Note 20.

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

(a) Consolidated quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 (R1) and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements.

(b) Parent company quarterly information

The parent company Quarterly Information was prepared and is being presented in accordance with pronouncement CPC 21.

2.2. Accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2012 financial statements, except as presented in Notes 2.2.1 and 2.2.2.

2.2.1 Defined benefit plans

The defined benefit plans are financed by contributions to pension funds and the use of actuarial assumptions is necessary to measure the liability and the expenses of the plans, as well as the existence of actuarial gains and losses.

The liability recognized in respect of these plans is the present value of the defined benefit obligation at the balance sheet date, less the fair value of plan assets, adjusted by actuarial gains or losses and past-service costs.

The cost components of defined-benefit plans are recognized as follows:

- (i) actuarial gains and losses from the actuarial remeasurement are recognized under “other comprehensive income”.
- (ii) immediate recognition of the costs of past services in the profit or loss as they are incurred; and
- (iii) the net amount of interest on the assets and liabilities of the plan are recorded in the financial results of the period.

Until 2012, item (i) above was not recognized if the amount was lower than 10% (a) of the amount of the current defined benefit obligation; and (b) of the fair value of any plan assets. As of 2013, the amount must be recognized at the moment it is determined. The effects of this change in accounting standard are described in Note 20.

2.2.2 Derivative instruments and hedge operations

(a) Derivative instruments

Derivatives are permanently recognized at fair value. The recognition of gain or loss in the result depends on the designation of the derivative as a hedge instrument.

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

(b) Hedge operations

The fair value of a hedge derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is greater than 12 months.

The Management may designate the derivatives contracted as hedges for a specific risk associated to a recognized asset or liability, or a highly probable expected operation (cash flow hedge) and non-derivative financial instruments as hedges for the flow of highly probable future exports.

At the beginning of the operation, the Company documents the relationship between the hedge instruments and the respective hedged items, as well as the risk management objectives and strategy for undertaking the hedge. It also constantly documents its assessment as to whether the derivatives and non-derivatives used in the hedge operations are highly effective in offsetting the changes in fair values or cash flows of the hedged items.

The effective portion of changes in fair value of the hedge derivatives and the foreign exchange variation on financial liabilities designated and qualified as hedges for the flow of exports are recognized in "other comprehensive income". These amounts are transferred to the "financial result" in the periods when the item covered by hedge affects the result. The not effective portion is immediately booked at the statement of operations as "financial result".

When a hedge instrument expires, is sold, or no longer meets the criteria for hedge accounting, it is discontinued prospectively and all the accumulated gain or loss in shareholders' equity remains there and is recognized in the profit or loss of the year when the hedged item or transaction impacts the result. If the hedged item or transaction is settled in advance or discontinued or if any foreseen transaction is not expected to occur, the accumulated gain or loss in shareholders' equity is immediately transferred to "financial results".

Cash flow hedge operations held by the Company are described in Note 23.

(c) Derivatives measured at fair value through profit and loss

Derivatives not designated as hedge instruments are classified as current assets or liabilities.

Changes in the fair value of these derivative instruments are recognized immediately in the statement of operations under “financial results”, regardless of the instrument contracted.

2.3. Consolidated quarterly information

The consolidated quarterly information includes the quarterly information of the Parent Company and companies in which it, directly or indirectly, maintains a controlling equity interest or controls the activities, as presented below:

3. Held-for-sale assets and discontinued operations**(a) Assets held for sale - Quantiq and IQAG**

These investments are in the process of sale and the Management of the Company estimates that the negotiations will be concluded in 2013.

The operating profits or losses of Quantiq and IQAG were presented in the segment information as operating segment "Chemical distribution" (Note 30). The operating profits or losses of this segment in the period ended June 30, 2012 were R\$18,997.

The profits and losses of Quantiq and IQAG in 2012 are presented under “profit or loss from discontinued operations” in the consolidated statement of operations, and further detailed in item (b) of this Note. The assets and liabilities of these companies on December 31, 2012 are presented under “held-for-sale assets” and “held-for-sale liabilities”, respectively. These amounts should be assessed at the lowest between the book value as of December 31, 2012 and fair value, until the sale or eventual withdrawal from the divestment.

Profit or loss from discontinued operations includes only transactions with third parties.

The balances on June 30, 2013 and 2012 and the transactions during the period ended June 30, 2013 and 2012 of the parent company with Quantiq and IQAG are as follows:

	Balances at June 30, 2013						Income statement transactions from January to June 30, 2013

	Compensation of investments in foreign currency (ii)	(ii)	(222,297)	(307,639)
Total			94,253	206,635
	In current assets		39,149	172,146
	In non-current assets		55,104	34,489
Total			94,253	206,635

This table was presented in the 2012 annual financial statements of the Company, in Note 8.

(i) On June 30, 2013, the Parent Company held junior subordinated shares issued by receivables-backed investment funds. These shares are measured by their redemption value and are held until the conclusion of operations of said funds. The funds issue two other types of shares that enjoy priority in compensation over the junior subordinated shares. The risk related to the operations of these funds is limited to the value of the shares held by the Parent Company.

(ii) On June 30, 2013, Braskem Holanda had a financial investments held-to-maturity that was irrevocably offset by an export prepayment agreement of the Parent Company, in the amount of US\$100 million, as provided for in the credit assignment agreement entered into between these two companies and Banco Bradesco (Note 15). This accounting offset was carried out in accordance with CPC 39 and IAS 32, which provides for the possibility of offsetting financial instruments when there is intent and rightfully executable right to realize an asset and settle a liability simultaneously. On April 5, 2013, the amount of US\$50 million was settled upon maturity.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****6. Trade accounts receivable**

	Jun/2013	Parent company Dec/2012	Jun/2013	Consolidated Dec/2012
Consumers				
Domestic market	1,065,119	790,518	1,271,484	1,038,673
Foreign market	2,038,396	1,283,605	1,450,007	1,582,433
Allowance for doubtful accounts	(215,875)	(203,922)	(275,429)	(256,884)
Total	2,887,640	1,870,201	2,446,062	2,364,222
In current assets	2,747,302	1,834,491	2,302,954	2,326,480
In non-current assets	140,338	35,710	143,108	37,742
Total	2,887,640	1,870,201	2,446,062	2,364,222

This table was presented in the 2012 annual financial statements of the Company, in Note 9.

The Company realizes part of its trade accounts receivable through the sale of trade notes to funds that acquire receivables. These operations are not entitled to recourse, for which reason the trade notes are written-off at the moment of the operation.

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

(a) PIS and COFINS – Provisional Presidential Decree No. 613/13

Provisional Presidential Decree No. 613 was published on May 8, 2013, which, among others, reduced the PIS and COFINS taxes on imports and on revenue from sales in the domestic market of inputs manufactured by domestic manufacturers and offers fresh credit to the chemical and petrochemical production chain.

The price of raw materials acquired by Braskem includes PIS and COFINS taxes at 1%. While recording such purchases, Braskem considers a credit related to these contributions at the rate of 9.25% thus generating a benefit equivalent to 8.25% of the value of such purchases. Starting 2016, the rate of 1% will gradually increase to reach 9.25% as of 2018.

The realization of these credits may occur in two ways: (i) offset of overdue or falling due liabilities related to taxes levied by the Federal Revenue Service; or (ii) cash reimbursement.

(b) REINTEGRA Program

In the period ended June 30, 2013, the Company recognized credits in the amount of R\$92,587 (Note 27) and offset the amount of R\$45,038.

(c) Value added tax (“VAT”)

On June 30, 2013, this line included:

(i) R\$33,734 from sales by Braskem Alemanha to other countries. These credits are refunded in cash by the local government; and

(ii) R\$151,881 from purchases of machinery and equipment for the Ethylene XXI Project. These credits may be refunded, in cash, by the local government or offset with VAT due from the start of operations of the project.

10. Other accounts receivable - consolidated

The main change is due to the receipt of R\$233,000 from the divestment, in December 2012, of the interests held by the Parent Company in Cetrel and Braskem Distribuidora.

The information related to other accounts receivable was presented in the 2012 annual financial statements, in Note 15.

11. Judicial deposits

	Jun/2013	Consolidated Dec/2012

289,314

333,218

(i) Settlement of the contingency of Quattor booked upon the acquisition of this subsidiary in the amount of de R\$ 47,747 (Note 12(b.)).

This table and the information on provisions were presented in the 2012 annual financial statements of the Company, in Note 23.

19. Advances from customers – consolidated current liabilities

The main change in this item is related to advances made by clients abroad for the purchase of products in 2013.

The information related to advances from customers was presented in the 2012 annual financial statements of the Company, in Note 26.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****20. Defined-benefit plans**

The amounts recognized for defined benefit pension plans are as follows:

		Jun/2013	Consolidated Dec/2012
Petros Copesul		174,415	147,175
Novamont Braskem America	(i)	10,995	10,381
Braskem Alemanha	(i)	28,792	26,221
		214,202	183,777
Current liabilities		174,415	147,175
Non-current liabilities		39,787	36,602
Total		214,202	183,777

(i) With the adoption of CPC 33 (R1) and IAS 19, the actuarial losses previously unrecognized in these two plans in the amount of R\$18,204 (R\$11,816, net of income tax) were recognized under "other comprehensive income (loss)" on December 31, 2012. For comparison purposes, the information for December 31, 2011 was not restated, since the amounts are immaterial.

21. Other accounts payable – consolidated

The main variation was the addition to amounts payable to the non-controlling shareholder of Braskem Idesa of R\$231,757, due in 2013, arising from loans for the Ethylene XXI Project, which will be reimbursed upon disbursement of funds from the associated Project Finance structure (Note 32).

The information related to other accounts payable was presented in the 2012 annual financial statements of the Company, in Note 27.

22. Contingencies

The Company has contingent liabilities related to lawsuits and administrative proceedings arising from the normal course of its business. These contingencies are of a labor and social security, tax, civil and corporate nature and involve risks of losses that are classified by the Company's management as possible. A provision for the lawsuits for which the risk of loss is classified as probable is recognized and is presented in Note 18 of this Quarterly Information.

The balance of contingencies not booked at June 30, 2013:

	Jun/2013	Consolidated Dec/2012
Tax claims	2,862,456	2,967,799
Other lawsuits	336,292	411,324
Total	3,198,748	3,379,123

The description of the main contingent liabilities of the Company was presented in the 2012 annual financial statements, in Note 28.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****23. Financial instruments**

The information related to financial instruments was presented in the 2012 financial statements of the Company, in Note 20.

Fair value hierarchy

Level 1 – fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange.

Level 2 – fair value obtained from discounted cash flow models, when the instrument is a forward purchase or sale or a swap contract, or valuation models of option contracts, such as the Black-Scholes model, when the derivative has the characteristics of an option.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****23.2. Derivative and non-derivative financial instruments**

On June 30, 2013, Braskem Idesa held six interest rate swap contracts for a nominal value of US\$ 1,313 thousand, contracted on the future disbursements of the Project Finance contracted in US dollar at floating rates (based on Libor). In these swaps, Braskem Idesa receives floating rates (Libor) and pays fixed rates periodically, coinciding with the Project Finance cash flows. The objective of these swaps is to offset the changes in the future financial expenses from debt caused by changes in the Libor rate. The term, amount, settlement dates and floating interest rates coincide with the terms of the Project Finance.

Current liabilities (derivatives operations)					286,617
Non Current liabilities (derivatives operations)				340,790	
Total				319,861	286,617

The purpose of these swap operations is to offset the interest rate risk arising from the borrowings mentioned in Note 15.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****(b.ii) Non-derivative liabilities designated for export hedge accounting**

On May 1, 2013, Braskem S.A. designated non-derivative financial instruments liabilities, denominated in U.S. Dollars as hedging instrument for the flow of its highly probable future exports. Thus, the impact of exchange rates on future cash flows in dollars derived from these exports will be offset by the foreign exchange variation on the designated liabilities, partly eliminating the volatility of the statements of operations.

On June 30, 2013, the following non-derivative liabilities of Braskem S.A. were designated as hedge for the flow of its highly probable future exports:

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

The Company considers that the flow covered is highly probable, based, among others, on the following facts:

- Historically, annual export volume is three to four times higher than the annual amount covered. In the last five years, Braskem S.A. presented an average exportation of US\$ 2,4 billion that support hedged foreign sales; and
- The flow covered varies between 15% and 30% of the export flows planned by the Company.

The Company designated export flows that are longer than the financial liabilities that hedged them. Thus the hedge objects have their terms linked to these hedging instruments. However, for effectiveness test purposes, the export flows will be considered only until the maturity date of the linked debts instruments. Additionally, to ensure continuity of the relation and the hedge strategy proposed, the Company plans to refinance and/or replace these hedge instruments according to their maturity, in accordance with CPC 38 and IAS 39.

In order to maintain consistency between the parent company's results and the consolidated results, Braskem selected hedge instruments with subsidiaries abroad observing the guarantees on those companies whose counterparty is external to Braskem's. As such, non-derivative financial liabilities in which the foreign subsidiary acted as an intermediary in the operations were selected, maintaining the essence of the transactions.

On June 30, the following non-derivative financial liabilities were designated as guarantee for the hedge, considering the scope of the consolidated balance sheet:

(c) **Estimated maximum loss**

The amount at risk of the derivatives held by Braskem on June 30, 2013, which is defined as the highest loss that could result in one month and in 95% of the cases under normal market conditions, was estimated by the Company at US\$32,241 for the NCE swaps, and US\$64,361 for fixed rate / CDI swaps.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****23.3. Credit quality of financial assets****(a) Trade accounts receivable**

Only a few of the Company's customers have risk ratings assigned by credit rating agencies. For this reason, the Company developed its own credit rating system for all accounts receivable from domestic customers and for part of the accounts receivable from foreign customers. The Company does not apply this rating to all of its foreign customers because most accounts receivable from them are covered by an insurance policy or letters of credit issued by banks. On June 30, 2013, the credit ratings were as follows:

	Percentage
1 Minimum risk	15.25%
2 Low risk	27.11%
3 Moderate risk	25.65%
4 High risk	30.56%
5 Very high risk (i)	1.43%

(i) Most customers in this group are inactive and the respective accounts are in the process of collection actions in the courts. Customers in this group that are still active buy from Braskem and pay in advance.

Delinquency indicators for the periods ended:

June 30, 2013	0.30%	0.45%
December 31, 2012	0.28%	0.37%

December 31, 2011

0.18%

0.43%

LTM – last 12 months

(b) Other financial assets

In order to determine the credit ratings of counterparties in financial assets classified as cash and cash equivalents, held-for-trading, held-to-maturity and loans and receivables, the Company uses the following credit rating agencies: Standard & Poor's, Moody's and Fitch Ratings.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated**

	Jun/2013	Dec/2012

Other financial assets with no risk assessment	1,866	3,880
	44,998	168,876
Total	3,494,602	3,494,257

(i) Financial assets with no internal or external ratings and approved by the Management of the Company.

(ii) Investment funds with no assessment of internal or external risk, whose portfolio is composed of assets from major financial institutions and that comply with Braskem's financial policy.

(iii) Risk-free financial assets

Braskem's financial policy determines "A-" as the minimum rating for financial investments.

23.4. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On June 30, 2013, the main risks that can affect the value of the Company's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Mexican peso/U.S. dollar exchange rate;
- Euro/U.S. dollar exchange rate;
- LIBOR floating interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, the Company presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

Braskem S.A.

Notes to the financial statements

at June 30, 2013

All amounts in thousands of reais unless otherwise stated

(b) Selection of scenarios

In accordance with CVM Instruction No. 475/08, the Company included three scenarios in the sensitivity analysis, with one that is probable and two that represent adverse effects to the Company. In the preparation of the adverse scenarios, only the impact of the variables on the financial instruments, including derivatives, and on the items covered by hedge transactions, was considered. The overall impacts on the Company's operations, such as those arising from the revaluation of inventories and revenue and future costs, were not considered. Since the Company manages its exposure to foreign exchange rate risk on a net basis, adverse effects from depreciation in the Brazilian real in relation to the U.S. dollar can be offset by opposing effects on Braskem's operating results.

(b.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil on June 28, 2013 was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate and the CDI interest rate, using the reference date of December 31, 2013. The *Market Readout* presents a consensus of market expectations based on a survey of the forecasts made by various financial and non-financial institutions.

The *Market Readout* does not publish forecasts for the interest rates LIBOR and TJLP. Therefore, the Company considered the expectations for the CDI interest rate for determining the probable scenario for those rates, given their correspondence. The probable scenario for the TJLP is an increase of 0.5% from the current rate of 5%, in line with the size of the government's most recent decisions to increase or decrease the rate, and accompanying the forecast for the cumulative increase in the CDI rate by end-2013 of 1.25%.

(b.2) Possible and extreme adverse scenarios

For the Brazilian real/U.S. dollar and Mexican peso/U.S. dollar exchange rates, a positive change of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on June 30, 2013.

For the U.S. dollar/Euro exchange rate, a decrease of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the exchange rate on June 30, 2013.

For the Libor and CDI interest rates, a positive change of 25% was considered for the possible adverse scenario and of 50% for the extreme scenario based on the respective interest rate on June 30, 2013.

For the TJLP interest rate, an increase of 1% was considered for the possible adverse scenario and of 1.5% for the extreme scenario based on its rate on June 30, 2013, in accordance with the upward or downward adjustments made by the government in the rate, in this order of scale.

The sensitivity values in the table (c) below are the changes in the value of the financial instruments in each scenario, except for tables (d), (e), (f), (g) and (h) which show the changes in future cash flows.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****(c) Sensitivity to the Brazilian real/U.S. dollar exchange rate**

(i) American Depository Receipt, negotiated in the New York stock market (USA).

(ii) These shares are treated as "treasury shares" in consolidated Equity.

Braskem S.A.**Notes to the financial statements****at June 30, 2013****All amounts in thousands of reais unless otherwise stated****(b) Ongoing share repurchase programs****(b.1) 4th Share repurchase program**

On August 13, 2012, Braskem's Board of Directors approved a program for the repurchase of shares effective for the period between August 29, 2012 and August 28, 2013, through which the Company may acquire up to 13,376,161 class A preferred shares at market price. The shares may be acquired by the Company or by financial institutions hired for such purpose. Upon the expiration of the program, Braskem will have to acquire from financial institutions, at market value, the shares acquired by the latter. The private transaction was approved by the CVM. No shares were purchased under this program in the six-month period.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
