## NOTICE TO THE MARKET

**São Paulo, April 2, 2014** - BRASKEM S.A. (“Braskem”) (BM&FBovespa: BRKM5, BRKM3, BRKM6; NYSE: BAK; LATIBEX: XBRK), in response to official letter BM&FBovespa GAE 0838-14, which requested clarifications on the content of the article published by the newspaper *Valor Econômico* on April 1<sup>st</sup>, 2014, entitled “Synthos e Braskem fecham acordo de US\$ 1,5 bilhão” [Synthos and Braskem sign US\$1.5 billion agreement], “and other information deemed relevant,” hereby clarifies to the market that: (i) it has entered into agreements with Synthos to supply butadiene and utilities (such as steam and water) to the future synthetic rubber plant to be built by Synthos at the Triunfo petrochemical complex in Rio Grande do Sul (“Agreements”), which are still subject to certain conditions; (ii) Braskem will not be required to make significant investments in connection with said Agreements, since Synthos will be responsible for the investments in and operation of the future plant; (iii) the execution of the Agreements does not have a material economic impact on Braskem, since the butadiene currently produced and exported will be sold in the domestic market. In view of the aforementioned, Braskem believes that the execution of the Agreements and the effective start of supply do not produce an obligation to disclose said information under the laws and regulations in force.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
