The outlook for the global economy is one of a gradual rally in the second half of 2014, mainly fueled by the recovery of growth in the developed countries, which performed poorly at the beginning of the year.

The IMF has reduced its 2014 global growth projection to 3.4%, 0.3 p.p. below its previous estimate, reflecting the weak first-quarter performance and the less optimistic prospects for some of the emerging nations. The institution maintained its 4% growth estimate for 2015.

The global Purchasing Managers Index (PMI) recorded its 21st consecutive monthly upturn, averaging 54.1 points in the second quarter.

USA

The U.S. economy shrank by 2.1% in 1Q14 due to the lower exports and a reduction in private investments. Nevertheless, despite the exceptionally rigorous winter having jeopardized economic performance at the beginning of the year, recent indicators are pointing to positive results. The first GDP estimate for 2Q14 points to growth of 4%, fueled by private investments, exports and personal spending on consumption.

Manufacturing PMI averaged 56.4 points in 2Q14, the best result for four years, signaling a recovery in activity. Unemployment reached 6.1% in June, the lowest figure for 15 years, with the creation of 1.4 million new jobs in the first half. Installed capacity in May remained flat over April and March at 79%, while industrial production moved up by 0.6%, giving 12-month growth of 4.3%.

At its last meeting in June, the FOMC (the FED's Monetary Policy Committee), reduced its asset purchases by a further US\$10 billion, maintaining its decision to wind up the program at the end of the current year. The base rate was maintained at between 0% and 0.25%, and the Committee signaled that this level would be preserved. The FED estimates GDP growth in 2014 between 2.1% and 2.3%.

Europe

The first-quarter Eurozone numbers continued pointing to a gradual economic recovery. GDP in the region edged up by 0.2% over 4Q13, very close to the 0.3% recorded in the latter quarter. Hungary and Poland recorded the biggest growth, with 1.1% each, while the Netherlands recorded the biggest decline (-1.4%). The European Central Bank (ECB) expects growth of 1.0% in 2014 and 1.7% in 2015.

Manufacturing PMI fell from 53.1 points in March to 51.8 points in June, while the quarterly average declined from 53.4 to 52.4 points between 1Q14 and 2Q14.

In the 12 months through June 2014, Eurozone inflation came to 0.5%, below the long-term target of 2% established by the ECB.

As a result, the ECB has been adopting an expansionist monetary policy, reducing the banks' overnight deposit rates and strengthening prospects of low interest rates for a lengthy period of time.

Although the job market has shown some signs of improvement, Eurozone unemployment remained flat at 11.6% in May, still high.

In the UK, preliminary estimates point to GDP growth of 0.8% in 2Q14, identical to the 1Q14 figure, pushed by the service sector which recorded period growth of 1.0%. Industrial output increased by 3.7% in the 12 months through May, while manufacturing PMI reached 57.5 points in June, indicating expansion over the last 16 months. Annualized inflation came to 1.9% in June, higher than the 1.5% recorded in May. According to the British Treasury, the consensus of estimates points to GDP growth of 3.0% in 2014.

Asia

Reacting to signs of a slowdown at the beginning of the year, the Chinese government implemented a series of new measures to stimulate the economy and recent indicators suggest that they have been effective. Preliminary 2Q14 figures from the National Bureau of Statistics point to Chinese GDP growth of 7.5% over the same period last year and 2% over the previous quarter. Industrial production moved up by 8.8% in June over the same month the year before. After reaching its 48.0 points in March, the lowest level of the year, manufacturing PMI, disclosed by HSBC, began to improve as of April and closed June at 50.7 points, the first expansion since December 2013.

On the other hand, first-half investments in fixed assets grew by 17.3%, slightly less than the 17.6% recorded in 1Q14.

Given this scenario, the government maintained its 2014 GDP growth target at 7.5%.

The economic indicators in Japan point to an upturn in activity, even it is only a temporary one. Expectations of an increase in value added tax from 5% to 8% in April helped push up household consumption, which grew by 9.2% in the first quarter, resulting in annualized GDP growth of 6.7% in the same period, versus 0.3% in 4Q13.

Compound PMI reached 51.5 points in June, above the 49.9 points recorded in May, signaling an improvement in business conditions for the first time since February. Unemployment recorded 3.5% in May, the lowest rate since July 2007.

The Bank of Japan expects inflation to reach 1.25% p.a. in the midterm and 2% p.a. in the long term and is projecting GDP growth of 1.0% in 2014.

Brazil

May's seasonally-adjusted Central Bank Economic Activity Index (IBC-Br), used as a reference for GDP, fell by 0.18% in May over April after remaining flat since the beginning of the year. In the last 12 months, however, the IBC-Br moved up by 1.95%. The Central Bank's FOCUS report expects GDP growth of 0.90% in 2014 and 1.5% in 2015.

Inflation recorded by the IPCA consumer price index recorded 0.4% in June, giving 3.75% for the first half and 6.52% in the previous 12 months, exceeding the 6.5% ceiling of the annual inflationary target. The FOCUS report expects 2014 inflation of 6.41%, with a Selic base rate of 11.0% at year-end.

Given this scenario, and despite high inflation, the Central Bank's Monetary Policy Committee (COPOM) interrupted the series of hikes in the Selic, maintaining it at 11.0% p.a. at its last two meetings.

Industrial output in May fell by 0.6% over April and 3.2% over the same month last year, giving a decline of 1.6% in the first five months. Most of the downward pressure in May came from consumer durables production, which fell by 3.6%.

On the foreign exchange front, the Brazilian real appreciated by 2.7% against the U.S. dollar in 2Q14, closing June at R\$2.2025, reflecting higher market liquidity and the difference between real domestic and international interest rates.

CSN posted consolidated net revenue of R\$4,052 million in 2Q14, in line with the R\$4,060 million recorded in 2Q13, and 7% down on the R\$4,371 million reported in 1Q14, basically due to the reduction in revenue from steel and mining operations.

COGS totaled R\$2,747 million in 2Q14, 9% down on the R\$3,020 million posted in 2Q13, basically due to lower COGS from steel operations, partially offset by the upturn in mining COGS. In comparison with the R\$3,034 million registered in the previous quarter, COGS also fell by 9%.

Consolidated SG&A expenses totaled R\$358 million in 2Q14, 6% less than the R\$380 million reported in 2Q13, chiefly due to the reduction in selling expenses, and 22% up on the R\$294 million registered in the previous quarter, essentially due to higher freight and administrative expenses.

Other Operating Revenue/Expenses totaled R\$31 million in 2Q14, versus R\$145 million in 2Q13 and R\$177 million in 1Q14, mainly due to the reversal of provisions.

The Company uses Adjusted EBITDA to measure the segments' performance and operating cash flow capacity. It comprises net income before the net financial result, income and social contribution taxes, depreciation and amortization, results from investees and other operating revenue

(expenses), plus the proportional EBITDA of the jointly-owned subsidiaries, Namisa, MRS Logística and CBSI.

Second-quarter adjusted EBITDA amounted to R\$1,303 million, 19% up on the R\$1,095 million posted in 2Q13, basically due to the contribution from steel and mining operations, accompanied by an EBITDA margin of 30%, up by 6 p.p.

In comparison with 1Q14, adjusted EBITDA fell by 9%, chiefly influenced by the mining segment result, partially offset by the increase in EBITDA from steel, while the adjusted EBITDA margin remained at 30%.

In 2Q14, CSN's consolidated net financial result was negative by R\$815 million, mainly due to the following factors:

- Interest on loans and financing totaling R\$691 million;
- Expenses of R\$40 million with the monetary restatement of tax payment installments;
- Other financial expenses totaling R\$76 million;
- Monetary and foreign exchange variations amounting to R\$61 million;

These negative effects were partially offset by consolidated financial revenue of R\$53 million.

Gross debt, net debt and the net debt/EBITDA ratio presented below reflect the Company's proportional interest in Namisa, MRS Logística and CBSI, as well as the impact from the partial spin-off of Transnordestina Logística S/A.

On June 30, 2014, the Company's gross debt totaled R\$28.6 billion, almost identical to the figure on March 31, 2014, while net debt amounted to R\$16.7 billion, R\$900 million more than at the close of 1Q14. On the other hand, the net debt/EBITDA ratio based on LTM adjusted EBITDA closed the second quarter at 2.71x, virtually flat over the 2.66x recorded at the end of the previous quarter. Net debt was impacted by the following factors:

- Investments of R\$0.6 billion in fixed assets;
- A R\$0.6 billion effect related to the cost of debt;
- A R\$0.2 billion increase in working capital;
- Disbursements of R\$0.4 billion on the share buyback program;
- Foreign exchange variation of R\$0.1 billion;
- Other effects totaling R\$0.3 billion;

These negative effects were partially offset by 2Q14 EBITDA of R\$1.3 billion.

Indebtedness (R\$ million) and Net Debt /Adjusted EBITDA ratio

CSN's equity result was negative by R\$67 million in 2Q14, basically due to the result of the jointly-owned subsidiary Namisa.

CSN posted consolidated net income of R\$19 million in 2Q14, for the reasons mentioned above.

Investments reflect the Company's proportional interest in Namisa, MRS Logística and CBSI. The Company has ceased consolidating its interest in Transnordestina Logística S/A, due to the latter's partial spin-off on December 27, 2013 and the consequent entry into effect of the new shareholders' agreement.

CSN invested R\$560 million in 2Q14, R\$418 million of which in the parent company. Of this total, R\$207 million went to the Casa de Pedra mine and the Port of Itaguaí, R\$109 million to increasing cement production capacity, and R\$99 million to the steel segment, with scheduled maintenance programs.

The remaining R\$142 million went to subsidiaries or joint subsidiaries, mostly as follows:

- ü MRS: R\$67 million;
- ü Sepetiba Tecon: R\$22 million.

Working capital allocated to the Company's businesses closed 2Q14 at R\$2,732 million, R\$222 million more than at the end of 1Q14, chiefly due to the increase in inventories and accounts receivable, partially offset by the upturn in the suppliers line. The average supplier payment period increased by six days, the receivables period widened by three days and the average inventory turnover period increased by 11 days.

Scenario

According to the World Steel Association (WSA), global crude steel production totaled 821 million tonnes in the first half of 2014, 2.5% higher than in 2H13, with China, responsible for 411 million tonnes, recording growth of 3.0%. Global capacity use reached 78% in June, 1 p.p. down on March, which was the highest monthly figure of the year so far. The WSA expects global apparent steel consumption to grow by 3.1% in 2014, with apparent consumption in China moving up by 3%.

According to the Brazilian Steel Institute (IABr), domestic crude steel production came to 16.7 million tonnes in 1H14, 1.5% down on 1H13, while rolled flat output totaled 7.0 million tonnes, down by 6.3%.

Apparent domestic flat steel consumption amounted to 6.2 million tonnes in the first half, 1.4% more than in 1H13, while domestic sales fell by 4.3% to 5.8 million tonnes. On the other hand, flat steel imports climbed by 45.6% to 1.1 million tonnes in the 1H14, while exports fell by 26.5% to 0.7 million tonnes.

The IABr estimates domestic sales of 23.7 million tonnes in 2014, with apparent consumption of 27.2 million tonnes.

Automotive

According to ANFAVEA (the Auto Manufacturers' Association), light vehicle production totaled 1.5 million units in 1H14, 17% down on the same period last year, with sales of 1.6 million units, fell by 7%. The association estimates annual light vehicle production and sales growth of 10% and 5.4%, respectively, over 2013.

According to FENABRAVE (the Vehicle Distributors' Association), the number of vehicles licensed in 1H14 fell by 7.3% year-on-year. The association expects 2014 light vehicle sales to fall by 10.5% over last year.

Construction

According to ABRAMAT (the Construction Material Manufacturers' Association), first-half sales of building materials increased by 3.7% year-on-year. The association is maintaining its 2014 sales growth estimate of 4.5%.

Home Appliances

According to the IBGE (Brazilian Institute of Geography and Statistics), home appliance production fell by 1.6% year-on-year in the first five months of 2014.

Distribution

According to INDA (the Brazilian Steel Distributors' Association), domestic flat steel sales by distributors totaled 2.2 million tonnes in 1H14, 3.5% up on 1H13. For 2014 as a whole, the association has revised its sales growth estimate to 1%.

First-half purchases by the associated network came to 2.1 million tonnes, 7.4% less than in the same period last year. On the other hand, inventories closed June at 1.06 million tonnes, representing 3.3 months of sales.

Sales Volume

In 2Q14, CSN's steel sales totaled 1.26 million tonnes. Of this total, 73% went to the domestic market, 25% were sold by overseas subsidiaries and 2% went to exports.

Domestic Sales Volume

Domestic steel sales totaled 918,000 tonnes in 2Q14, 9% less than in 1Q14, basically due to the reduced pace of economic activity, impacted by the lower number of business days in the quarter.

Foreign Sales Volume

Foreign sales amounted to 345,000 tonnes in 2Q14, 8% less than in the previous quarter. Of this total, the overseas subsidiaries sold 321,000 tonnes, 184,000 of which by SWT. Direct exports came to 24,000 tonnes.

Prices

Net revenue per tonne averaged R\$2,214 in 2Q14, in line with 1Q14.

Net Revenue

Net revenue from steel operations totaled R\$2,843 million in 2Q14, 9% down on the R\$3,127 million recorded in 1Q14, essentially due to the reduction in sales volume.

Steel segment COGS came to R\$2,083 million in 2Q14, 13% down on the previous quarter, basically due to lower production costs and sales volume.

Adjusted EBITDA

Adjusted steel segment EBITDA totaled R\$793 million in 2Q14, 4% up on the R\$761 million recorded in 1Q14, essentially due to the reduction in COGS and the highest quarterly figure since 3Q10. The adjusted EBITDA margin came to 28%, 4 p.p. up on 1Q14.

Production

The Presidente Vargas Steelworks (UPV) produced 1.1 million tonnes of crude steel in 2Q14, 2% more than in 1Q14, while slab purchases from third parties remained in line with 1Q14. Second-quarter rolled steel output totaled 1.1 million tonnes, 4% up on the quarter before.

Scenario

In 2Q14, seaborne iron ore prices were negatively impacted by increased supply, chiefly fueled by Australian exporters. In regard to Chinese demand, the increased credit restrictions, the reduced pace of investments and the high level of iron ore stocks in the ports also contributed to the price slide.

In this scenario, the Platts Fe62% CFR China index averaged US\$102.60/dmt in 2Q14, 14.8% down on the 1Q14 average. The iron ore quality premium varied between US\$2.10/dmt and US\$1.70/dmt per 1% of Fe content, while freight costs on the Tubarão/Qingdao route averaged US\$20.31/wmt, 9% less than the previous quarter's average.

Brazil exported 80 million tonnes of iron ore in the second quarter, 12% up on 1Q14.

Iron ore sales

In 2Q14, sales of finished iron ore products totaled 7.2 million tonnes, 20% up on the 6.0 million tonnes sold in 2Q13 and 13% up on the 6.4 million tonnes recorded in the previous quarter. Of this total, 2.4 million tonnes were sold by Namisa¹. Virtually all iron ore sold in 2Q14 was exported.

Iron ore volume for own consumption reached 1.5 million tonnes in 2Q14.

¹ Sales volumes include 100% of the stake in NAMISA.

Net Revenue

Net revenue from mining operations totaled R\$1,117 million in 2Q14, 14% more than in 2Q13, primarily due to the upturn in sales volume.

In relation to the R\$1,247 million posted in 1Q14, net revenue fell by 10%, due to lower market prices, partially offset by the upturn in sales volume.

Cost of Goods Sold (COGS)

Mining COGS came to R\$740 million in 2Q14, 23% up on 2Q13, mostly due to the increase in iron ore sales volume, and 3% more than the R\$716 million recorded in 1Q14, also due to higher sales volume.

Adjusted EBITDA

Adjusted EBITDA from mining operations totaled R\$442 million in 2Q14, 11% up on the R\$398 million reported in 2Q13, for the same reasons mentioned above, accompanied by an adjusted EBITDA margin of 39%. In relation to the R\$585 million recorded in 1Q14, adjusted EBITDA fell by 25%.

Scenario

Railway Logistics

According to the ANTF (National Rail Transport Association), the Brazilian railways transported 115.3 million tonnes in 1Q14. The association expects rail cargo volume to move up by around 12% to 550 million tonnes between 2014 and 2016.

Port Logistics

According to ANTAQ (the National Waterway Transport Agency), Brazil's port installations handled around 215 million tonnes in 1Q14, 5% up on the same period the year before.

Also in 1Q14, bulk solids totaled 128 million tonnes, 5.7% more than in 1Q13, while container handling came to 2.1 million TEUs¹, 10.5% up year-on-year.

Port Logistics

Net revenue from port logistics amounted to R\$47 million in 2Q14, COGS totaled R\$31 million and adjusted EBITDA came to R\$18 million, with an adjusted EBITDA margin of 38%.

Scenario

Preliminary figures from SNIC (the Cement Industry Association) indicate local cement sales of 29 million tonnes in the first five months of 2014, 2.8% more than in the same period last year.

Analysis of Results

Cement sales reached the record level of 564,000 tonnes in 2Q14, with record net revenue of R\$113 million, while COGS came to R\$72 million, generating record EBITDA of R\$34 million, with a record margin of 30%.

Scenario

According to the Energy Research Company (EPE), Brazilian electricity consumption increased by 4.4% year-on-year in the first five months of 2014, led by the commercial and residential segments, with respective growth of 9.3% and 8.1%.

Analysis of Results

In 2Q14, net revenue from electricity reached the record amount of R\$87 million. COGS came to R\$49 million, generating record adjusted EBITDA of R\$37 million, with an adjusted EBITDA margin of 43%.

1. DESCRIPTION OF BUSINESS

Companhia Siderúrgica Nacional “CSN”, also referred to as the Company or Parent Company, is a publicly-held company incorporated on April 9, 1941, under the laws of the Federative Republic of Brazil (Companhia Siderúrgica Nacional, its subsidiaries, associates and jointly controlled entities collectively referred to herein as the “Group”). The Company’s registered office is located in São Paulo, SP, Brazil.

CSN has shares listed on the São Paulo Stock Exchange (BM&F BOVESPA) and the New York Stock Exchange (NYSE). Accordingly, it reports its information to the Brazilian Securities Commission (CVM) and the U.S. Securities and Exchange Commission (SEC).

The Group's main operating activities are divided into five (5) operating segments as follows:

- **Steel:**

The Company’s main industrial facility is the Presidente Vargas Steel Mill (“UPV”), located in the city of Volta Redonda, State of Rio de Janeiro. This segment consolidates the operations related to the production, distribution and sale of flat steel, long steel, metallic containers and galvanized steel. In addition to the facilities in Brazil, CSN has operations in the United States, Portugal and Germany aimed at gaining markets and performing excellent services for final consumers. Its steels are used in the home appliances, civil construction and automobile industries.

- **Mining:**

The production of iron ore is developed in the city of Congonhas, in the State of Minas Gerais. It further mines tin in the State of Rondônia to supply the needs of UPV, with the excess of these raw materials being sold to subsidiaries and third parties. CSN holds the concession to operate TECAR, a solid bulk terminal, one of the 4 (four) terminals that comprise the Itaguaí Port, in Rio de Janeiro. Importations of coal and coke are carried out through this terminal.

- **Cement:**

CSN entered the cement market boosted by the synergy between this new activity and its already existing businesses. Next to the Presidente Vargas Steel Mill in Volta Redonda (RJ), it installed a new business unit: CSN Cimentos, which produces CP-III type cement by using slag produced by the UPV blast furnaces in Volta Redonda. It also explores limestone and dolomite at the Arches drive in the State of Minas Gerais, to supply the needs of UPV and of the cement plant.

- **Logistics**

Railroads:

CSN has equity interests in three railroad companies: MRS Logística S. A., which manages the former Southeast Railway System of Rede Ferroviária Federal S.A., Transnordestina Logística S. A. (“TLSA”) and FTL - Ferrovia Transnordestina Logística S.A. (“FTL”), which operate the Northeast Railway System of RFFSA, in the States of Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas, with TLSA being responsible for the stretches of Missão Velha - Salgueiro, Salgueiro - Trindade, Trindade - Eliseu Martins, Salgueiro - Porto de Suape and Missão Velha - Porto de Pecém (Railway System II) and FTL being responsible for the stretches of São Luiz - Mucuripe, Arrojado - Recife, Itabaiana - Cabedelo, Paula Cavalcante - Macau and Propriá - Jorge Lins (Railway System I).

Ports:

In the State of Rio de Janeiro, by means of its subsidiary Sepetiba Tecon S. A., the Company operates the Container Terminal (Tecon) at the Itaguaí Port. Located in the Bay of Sepetiba, this port has privileged highway, railroad and maritime access.

Tecon handles the shipments of CSN steel products, movement of containers, as well as storage, consolidation and deconsolidation of cargo.

- **Energy:**

As energy is fundamental in its production process, the Company has assets for generation of electric power to guarantee its self-sufficiency.

For further details on the Group's segments, see Note 24 - Business Segment Reporting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The consolidated condensed interim financial statements have been prepared and are being presented in accordance with the International Accounting Standards (IAS 34 – Interim Financial Reporting) issued by the International Accounting Standards Board (IASB), which correlate in Brazil is the CPC 21 (R1) (Interim Financial Statements and Consolidated Interim Financial Statements) issued by the CPC (Accounting Pronouncements Committee) and approved by CVM (Brazilian Securities Commission).

The individual condensed interim financial statements have been prepared in accordance with the standards issued by the CPC and the CVM applicable to the preparation of the financial statements.

The significant accounting policies applied in these condensed interim financial statements are consistent with the policies described in Note 2 to the Company's financial statements for the year ended December

31, 2013, filed with the CVM.

These condensed interim financial statements do not include all requirements of annual or full financial statements and, accordingly, should be read together with the Company's financial statements for the year ended December 31, 2013.

Therefore, in these condensed interim financial statements the following notes were not repeated, either due to redundancy or to relevance in relation to those already presented in the annual financial statements:

Note 02 – Summary of significant accounting policies

Note 03 – Changes in accounting policies

Note 04 – Business combination

Note 28 – Employee benefits

The individual and consolidated condensed interim financial statements were approved by the Board of Directors on August 1, 2014.

(b) Basis of presentation

The consolidated condensed interim financial statements are presented in Brazilian reais (R\$), which is the Company's functional currency and the Group's presentation currency.

Transactions in foreign currencies are translated into the functional currency using the exchange rates in effect at the dates of the transactions or valuation on which items are remeasured. The asset and liability balances are translated at the exchange rate in effect at the end of the reporting period. As of June 30, 2014, US\$1 is equivalent to R\$2.2025 (R\$2.3426 as of December 31, 2013), €1 is equivalent to R\$3.0150 (R\$3.2265 as of December 31, 2013), and ¥1 is equivalent to R\$0.02175 (R\$0.02233 as of December 31, 2013).

The funds available in the Company and subsidiaries set up in Brazil are basically invested in investment funds, classified as exclusive, which were consolidated, with repurchase agreements backed by government and private bonds, with fixed rate yield and immediate liquidity.

Private securities are short-term investments in Bank Deposit Certificates (CDBs) with yields pegged to the Interbank Deposit Certificate (CDI) fluctuation, and government securities are basically repurchase agreements backed by National Treasury Notes and National Treasury Bills. The exclusive funds managed by BTG Pactual Serviços Financeiros S.A. DTVM and Caixa Econômica Federal and their assets collateralize possible losses on investments and transactions carried out. Investments in funds were consolidated.

In addition, a significant part of the funds of the Company and its foreign subsidiaries is invested in Time Deposits with leading banks, bearing fixed rates.

In order to meet the needs of some customers in the domestic market, related to the extension of the payment term for billing of steel, in common agreement with CSN's internal commercial policy and maintenance of its very short-term receipts (up to 7 days), at the request of the customer, transactions are carried out for assignment of receivables without co-obligation negotiated between the customer and banks with common relationship, where CSN assigns the trade notes/bills that it issues to the banks with common relationship.

Due to the characteristics of the transactions for assignment of receivables without co-obligation, after assignment of the customer's trade notes/bills and receipt of the funds from the closing of each transaction, CSN settles the trade receivables and becomes entirely free of the credit risk on the transaction. This transaction totals R\$424,674 as of June 30, 2014 (R\$386,732 as of December 31, 2013), less the trade receivables.

The changes in the Company's allowance for doubtful debts are as follows:

b) Events in 2013

- Transnordestina Logística S.A. (“TLSA”)

On September 20, 2013, the Company signed (i) An Addendum to the Concession Agreement of the Northeast Railway System, which encompasses the stretches between the cities of São Luís to Mucuripe, Arrojado to Recife, Itabaiana to Cabedelo, Paula Cavalcante to Macau, and Propriá to Jorge Lins (“Railway System I”) and the stretches between the cities of Missão Velha to Salgueiro, Salgueiro to Trindade, Trindade to Eliseu Martins, Salgueiro to Porto de Suape, and Missão Velha to Porto de Pecém (“Railway System II”), to include therein obligations assumed by TLSA related to the implementation of the Railway System II, as well as the adaptation of the stretches that comprise it and (ii) Conduct Adjustment Agreement between ANTT and TLSA, with the purpose of resolving pending items existing between the parties.

On that date the following agreements were also signed (i) a new Shareholders' Agreement of TLSA between CSN, Valec Engenharia, Construções e Ferrovias S.A. (“Valec”), Fundo de Desenvolvimento do Nordeste – FDNE (“FDNE”) and BNDES Participações S.A. – BNDESPAR (“BNDESPAR”), with the intervenience of TLSA, whose effectiveness was conditioned to the disproportionate spin-off of TLSA, to be implemented under the terms of ANTT Resolution 4,042/2013; and (ii) Investment Agreement between CSN, Valec and FDNE, with the intervenience of TLSA, which besides other matters, deals with the new budget and the sources of funds that will have to be contributed to TLSA or financed for implementation of the Railway System II.

At the Extraordinary Shareholders' Meeting held on December 27, 2013, as part of the reorganization process described above, the shareholders approved the disproportionate spin-off of TLISA, completing the segregation of Railway System I and Railway System II.

The purpose of this restructuring was to rebalance economically and financially the Northeast Railway System concession, leading to the extension of the Railway System II operation concession, which could reach 2057, and the segregation of the assets related to Railway System I, which were merged into subsidiary FTL - Ferrovia Transnordestina Logística S.A. ("FTL"), with the maintenance of the assets related to Railway System II in TLISA.

As a result of the spin-off, CSN became the holder of an 88.41% stake in FTL and a 77.30% stake in TLISA.

In April 2014, the shareholders of Transnordestina approved a capital increase in the amount of R\$400,000, through the issuance of 7,278,020 class "A" preferred shares, which were fully subscribed by the shareholder Valec and paid up through the capitalization of credits from Advances for Future Capital Increase held by such shareholder with Transnordestina. As a result of such increase CSN no longer holds a 77.30% interest, it currently holds 62.68% of the total capital of Transnordestina.

With the completion of the spin-off, the new Shareholders' Agreement became effective and control is now jointly held with the shareholders part of the public block, which became the holders of substantive rights to make certain material company decisions and influence the ordinary course of business, as well as CSN, by influencing budgeting, internal policies, capital expenditures, debt, etc., thus typifying the loss of control by CSN, pursuant to specific IFRS criteria.

Accordingly, as of December 31, 2013, in accordance with IFRS 10, corresponding to CPC 36(R3), CSN reversed all TLISA assets and liabilities and non-controlling interests and started to recognize the remaining stake in this investment at fair value on the date control was lost. After this initial recognition, the investment starts to be measured under the equity method.

The gain generated by the loss of control over the investment recognized in the income statement, in other operating income in 2013, is broken down as follows:

	Consolidated	Parent Company
	12/31/2013	12/31/2013
(+) Fair value of the remaining investment	1,984,204	1,984,204
(-) Carrying amount of net assets	1,714,232	1,325,099
(+) Carrying amount of non-controlling interests	389,133

(-) Capitalized interest written off	185,206	185,206
Gain on loss of control over Transnordestina	473,899	473,899
(-) Income tax and social contribution	161,126	161,126
Gain on loss of control, net of income tax and social contribution (*)	312,773	312,773

(*) the goodwill will be amortized monthly, from the completion of the construction work to the final concession date.

c) Changes in investments in subsidiaries, jointly controlled entities, joint ventures, associates, and other investments

II – Investments in financial instruments classified as available for sale and measured at fair value through OCI

These consist mainly of investments in shares acquired in Brazil involving top ranked companies, which are recognized in non-current assets, and any gains or losses are recognized in shareholders' equity, where they will remain until actual realization of the securities or when any loss is considered unrecoverable.

Potential impairment of financial assets classified as available for sale

The Company has investments in common (USIM3) and preferred (USIM5) shares (“Usiminas Shares”), designated as available-for-sale financial assets as they do not meet the criteria to be classified within any of the other categories of financial instruments (loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss). The asset is classified as a non-current asset under line item “investments” and is carried at fair value based on the quoted price on the stock exchange (BM&FBOVESPA).

Considering the volatility of the quotations of Usiminas shares, the Company evaluated whether, at the end of the reporting period, there was objective evidence of impairment of these financial assets, i.e., the Company’s management evaluated if the decline in the market value of Usiminas shares should be considered either significant or prolonged. In turn, this valuation requires judgment based on CSN’s policy, prepared according to practices used in the domestic and international markets, and consists of an instrument by instrument analysis based on quantitative and qualitative information available in the market, from the time an instrument shows a drop of 20% or more in its market value or from the time there is a significant drop in its market value as compared to its acquisition price during more than twelve months.

However, as of June 30, 2013, there was an additional decline in the quotation of the common shares (USIM3) as compared with the quotation as of June 30, 2012 which, according to the Company's accounting policy, generated a loss of R\$5,002, recorded directly in other operating expenses.

As of June 30, 2014, after a new decline in the common shares prices (USIM3) in comparison with the prices as of June 30, 2013, according to its accounting policy, the Company reclassified the accumulated losses recognized in other comprehensive income, in the amount of R\$34,396, net of income tax and social contribution, to profit (loss) for the period, recognizing R\$52,115 in other operating expenses and R\$17,719 in deferred taxes.

ITR — Quarterly Financial Information - June 30, 2014 – CIA SIDERURGICA NACIONAL

**Version:
1**

Beginning this date, pursuant to a Company's policy, gains and losses arising from the variation of the quotation of shares were recognized in other comprehensive income.

On April 9, 2014, the Administrative Council for Economic Defense (CADE - Conselho Administrativo de Defesa Econômica) issued its decision on the matter and a commitment agreement (Performance Commitment Agreement), or TCD, was signed between CADE and CSN. Under the terms of the decision of CADE and TCD, CSN must reduce its interest in Usiminas within a specified term. The term and percentage of reduction are confidential. Moreover, the political rights at Usiminas will continue suspended until the Company reaches the limits established in the TCD.

The Company's interest in Usiminas has not changed as compared with the percentage disclosed in the financial statements as of December 31, 2013.

The Company will continue to evaluate strategic alternatives with respect to its investment in Usiminas.

III – Fair values of assets and liabilities as compared to their carrying amounts

The estimated fair values of consolidated long-term borrowings and financing were calculated at prevailing market rates, taking into consideration the nature, terms and risks similar to those of the recorded contracts, as compared below:

		6/30/2014		12/31/2013

The Company is exposed to the risk of changes in equity prices due to the investments made and classified as available-for-sale. Equity investments refer to blue chips traded on BM&F BOVESPA.

The following table shows the impact of the net changes in the market value of financial instruments classified as available-for-sale on shareholders' equity, in other comprehensive income (note 30).

	6/30/2014	Other comprehensive income 12/31/2013	Consolidated Net change
Net change in available-for-sale financial assets	94,520	779,526	-685,006

The Company considers as probable scenario the amounts recognized at market prices as of June 30, 2014, net of tax. Sensitivity analysis is based on the assumption of maintaining as probable scenario the market values as of June 30, 2014. Therefore, there is no impact on the financial instruments classified as available for sale already presented above. The Company considered scenarios 1 and 2 as 25% and 50% of appreciation for volatility of the shares.

(*) The Company taxes foreign exchange differences on a cash basis to calculate income tax and social contribution.

Some Group companies recognized tax credits on income tax and social contribution loss carryforwards not subject to statute of limitations and based on the history of profitability and expected future taxable profits determined in technical studies approved by Management.

Since they are subject to significant factors that may change the projections for realization, the carrying amounts of deferred tax assets and projections are reviewed annually. These studies indicate the realization of these tax assets within the term stipulated by CVM Instruction 371/02 and the limit of 30% of the taxable profit.

Certain group companies have income tax and social contribution loss carryforwards in the amounts of R\$2,734,361 and R\$375,007, respectively, for which no deferred taxes were set up, of which R\$137,792 expire in 2015, R\$41,049 in 2018, R\$233,172 in 2015, and R\$77,994 in 2030.

The Company's corporate structure includes foreign subsidiaries whose profits are subject to income tax levied by the related countries, recognized at tax rates lower than in Brazil.

For the years from 2011 to 2014 these subsidiaries generated profits amounting to R\$3,570,425, which tax authorities may understand that have already been distributed, hence, it would be subject to additional taxation in Brazil, in the approximate amount of R\$1,213,944. The Company, based on its legal counsel's opinion, assessed the likelihood of loss in a potential challenge by tax authorities as possible and, therefore, no provision was recognized in the condensed interim financial statements.

- **Law 12,973/14**

Provisional Act 627, converted into Law 12,973 in May 2014, which abrogates the Transition Tax Regime (RTT) and introduces other measures, such as: (i) amendments to Decree-Law 1,598/77, which addresses the corporate income tax and social contribution on net income Law; (ii) definition that any change in or the adoption of accounting methods and criteria through administrative acts issued based on a competence attributed by the commercial law shall not have any impact on the calculation of federal taxes; (iii) inclusion of a specific treatment on the taxation of profits or dividends; (iv) inclusion of provisions on the calculation of interest on capital; and (v) new considerations about investments accounted for under the equity method of accounting. The provisions established in the law are effective starting 2015, however, companies may opt for their early adoption, on an irreversible basis, in 2014.

The Company prepared studies on the possible effects that could arise from the application of the provisions of Law 12,973 and concluded that they do not result in material adjustments to its financial statements as of June 30, 2014 and December 31, 2013.

Management is still awaiting the regulation of such law, as well as the accessory obligation to be provided by the Federal Revenue of Brazil and the term to apply for the adoption or not of the law still in 2014.

a) Tax Recovery Program (Federal Refis) – Law 11,941/09 and Law 12,865/13

- **New deadline – Law 11,941/09**

On November 26, 2009, the Group companies joined the Tax Recovery Programs established by Law 11,941/09 and Provisional Act 470/2009, aimed at settling tax liabilities through a special payment system and installment plan for the settlement of tax and social security obligations.

With the new deadline to join the Law 11,941/09 tax installment program established by the RFB/PGFN, pursuant to Law 12,865/13, the Company analyzed with its legal counsel the lawsuits that could have changed or be subject to new jurisprudence, the Company concluded that some tax debts could be included in the new tax installment plan on December 27, 2013. After the analysis, the Company concluded that there were debts that could be included in the program and applied for installment payment on December 27, 2013.

- **Overseas profits – Law 12,865/13**

Under Article 40 of Law 12,865/13, the federal government allowed the payment in installments of income tax and social contribution arising from the application of Article 74 of Provisional Act 2158-35/2001, the so-called overseas profits, which requires that profits earned by foreign subsidiaries or associates be taxed at year end.

The Company elected to join the amounts corresponding to the assessed period (2004-2009), on November 29, 2013.

Both programs provide for reductions in fines and interest, however, only income tax and social contribution debt arising from the application of Law 12,865/13 could be settled with tax credits claimed on tax loss carryforwards of subsidiaries and the parent company. The tax credit utilized by the subsidiaries total R\$565,273, of which R\$550,270 did not have a recognized tax credit.

The remaining balance was divided into 179 monthly installments adjusted by the SELIC and the amount determined pursuant to Laws 11,941/09 and 12,865/13 is subject to approval by the tax authorities.

- b) Other tax installments (regular and other)**

The Group companies also joined the Regular social security tax (INSS) installment plan and other plans.

§ Other administrative and judicial proceedings

The Group is a defendant in other administrative and judicial proceedings (tax, social security, labor, civil, and environmental), in the approximate amount of R\$13,667,160, of which

(a) R\$6,784,953 refers to the tax assessment notice issued against the Company for an alleged sale of 40% of the shares of its subsidiary NAMISA to a Japanese-Korean consortium, thus failing to determine and pay taxes on the capital gain resulting from this transaction, and in May 2013, the São Paulo (SP) Regional Judgment Office (lower administrative court) issued a decision favorable to the Company and cancelled the tax assessment notice. In light of this decision, an ex-officio appeal was filed that will be judged by the Administrative Board of Tax Appeals (CARF).

(b) R\$710,190 refers to tax foreclosures filed to require the Company to pay the ICMS, as liable party, allegedly due on the electricity purchased from a Generating Plant and fully consumed in the manufacturing of steel products. The tax auditors believe that the use of electricity in the production process does not exclude the Company responsibility for withholding ICMS levied on delivery of this input in the plant.

(c) R\$501,308 refers to the decision issued by the Federal Revenue Service that partially approved the request to pay debts in installments governed by Provisional Act 470/09, due to the insufficiency of tax loss carryforwards. When it consolidated the tax installment plan, the Federal Revenue Service considered the existing outstanding balance in the Inflationary Profit Tax Return (SAPLI) as the correct amount: however, this balance already included the adjustments to tax loss carryforwards as a result of the Overseas Profits tax assessment notice issued against the Company.

(d) R\$494,363 refers to the offset of taxes that were not approved by the Federal Revenue Service for different reasons. The taxes involved are CSLL, IRPJ, IPI, PIS and COFINS. The analysis of the entire documentation evidences the right to claim credits and the right to file the offset requests, processed at the time.

(e) R\$457,705 refers to the deficiency notice issued against the Company for an alleged nonpayment of income tax (IRPJ) and social contribution on net income (CSLL) on profits recognized in the balance sheets of its foreign subsidiaries in 2010.

(f) R\$418,650 refers to the disallowance of the ICMS credits claimed by the Company in the period 04/1999-07/2002 on the transfer of iron ore between the Casa de Pedra mine and the Presidente Vargas Plant. According to the tax auditors, the tax base used on the transfer under the Minas Gerais State Law is not accepted under the Rio de Janeiro State Law, reason why the difference was disallowed.

(g) R\$269,773 refers to the disallowance of the ICMS credits on the acquisition of subsidiary INAL's units located in the State of Rio de Janeiro. According to the tax auditors, the acquisition of a unit does not entitle an entity to claim ICMS credits. In light of these tax assessments, the Company filed for an injunction at the time and its right to change its State taxpayer master file was recognized, to state that the units acquired belong to CSN. This decision was favorable to the Company and can be applied in the judgment of our appeals by the Rio de Janeiro State Taxpayers Board.

(h) R\$2,512,395 refers to other tax (federal, state, and municipal) lawsuits.

(i) R\$922,371 refers to labor and social security lawsuits; R\$480,933 refers to civil lawsuits, and R\$114,519 refers to environmental lawsuits.

The assessments made by the legal counsel define these administrative and judicial proceedings as entailing risk of possible loss and, therefore, no provision was recorded in conformity with Management's judgment and accounting practices adopted in Brazil.

In the second quarter of 2014, the Company reassessed the costs with the remediation of environmental liabilities and concluded a new study of remediation alternatives for some areas in Volta Redonda (RJ) that were used as landfill by the Company in the past. The study comprised the change of the remediation technology, replacing the material removal by the on-site geotechnical confinement, as permitted by the Brazilian environmental legislation, resulting in a reversal of R\$120,582. For the other liabilities, there were no significant changes as compared with the balance as of December 31, 2013.

17. RELATED-PARTY BALANCES AND TRANSACTIONS

The information related to related-party transactions did not have significant changes in relation to that disclosed in the Company's financial statements as of December 31, 2013.

(*) The ore sales volumes presented in this note take into consideration Company sales and the interest in its subsidiaries and jointly controlled entities (Namisa 60%).

Adjusted EBITDA is the tool based on which the chief operating decision maker measures segment performance and the capacity to generate recurring operating cash, and consists of profit for the year less net finance income (costs), income tax and social contribution, depreciation and amortization, share of profits of investments, and other operating income (expenses), plus the proportional EBITDA of jointly controlled entities.

Even though it is an indicator used in segment performance measurements, EBITDA is not a measurement recognized by accounting practices adopted in Brazil or IFRS, does not have a standard definition, and may not be comparable with measurements using similar names provided by other entities.

1****28. INSURANCE**

In 2013, after negotiation with insurers and reinsurers in Brazil and abroad, an Insurance Issue Certificate was issued for the contracting of a policy of Operational Risk of Property Damages and Loss of Profits, with effect from June 30, 2013 to September 30, 2014. Under the insurance policy, the LMI (Maximum Limit of Indemnity) is US\$500,000,000 and covers the following units and subsidiaries of the Company: Usina Presidente Vargas, Mineração Casa de Pedra, CSN Paraná, Terminal de Cargas Tecar, Terminal Tecon, Namisa, CSN Handel and Namisa Handel. CSN takes responsibility for a range of retention of US\$300,000,000 in excess of the deductibles for property damages and loss of profits.

In view of their nature, the risk assumptions adopted are not part of the scope of an audit of condensed interim financial statements and, accordingly, were not reviewed by our independent auditors.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors and Shareholders of
Companhia Siderúrgica Nacional
São Paulo – SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Siderúrgica Nacional (“the Company”), identified as Parent and Consolidated, respectively, included in the Interim Financial Information Form (ITR), for the three-month period ended June 30, 2014, which comprises the balance sheet as of June 30, 2014 and the related statements of income, and of comprehensive income, for the three and six-months periods then ended and of changes in equity and of cash flows for the six-month period then ended, including the explanatory notes.

The Company’s management is responsible for the preparation of the individual interim financial information in accordance with technical pronouncement CPC 21 (R1) – Interim Financial Information and of the consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1), applicable to the preparation of the Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission.

Other matters

Statements of value added

We have also reviewed the individual and consolidated interim statements of value added (DVA), for the six-month period ended June 30, 2014, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR), and considered as supplemental information for International Financial Reporting Standards – IFRS, which do not require the presentation of DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying individual and consolidated interim financial information has been translated into English for the convenience of readers outside Brazil.
