**Item 1.01 Entry into a Material Definitive Agreement.**

On March 1, 2011, Loral Space & Communications Inc. and one of its subsidiaries (collectively, "Loral" or the "Company") entered into agreements (the "Assignment Agreements") with Telesat Canada and one of its subsidiaries (collectively, "Telesat") pursuant to which Loral will assign to Telesat and Telesat will assume from Loral all of Loral's rights and obligations with respect to the Canadian payload on the ViaSat-1 satellite, which is being built by Space Systems/Loral, Inc. ("SS/L"), and all related agreements. Under the Assignment Agreements, Loral will receive from Telesat \$13 million and will be reimbursed for approximately \$48.2 million of net costs incurred through closing of the sale, including costs for the satellite, launch and insurance, and costs of the gateways and related equipment. Also, if Telesat obtains any non-geostationary capacity on the payload, Loral will be entitled to receive one-half of any net revenue actually earned by Telesat in connection with the leasing of such supplemental capacity to its customers during the first four years after the commencement of service using the supplemental capacity. In connection with the sale, Loral will also assign to Telesat and Telesat will assume Loral's 15-year contract with Barrett Xplore Inc. for delivery of high throughput satellite Ka-band capacity and gateway services for broadband services in Canada. Gain on the transaction will be recorded upon completion of the transaction which is expected to be in March 2011. After completion of the transaction, other than SS/L's obligations as the manufacturer of the ViaSat-1 satellite, Loral will have no further obligations with respect to the Canadian payload on the satellite.

The foregoing description of the Assignment Agreements is not intended to be complete and is qualified in its entirety by reference to the full text of the Assignment Agreements attached to this report as Exhibit 10.1, Exhibit 10.2 and Exhibit 10.3, respectively.
