TOP SHIPS REPORTS SECOND QUARTER AND FIRST HALF 2010 FINANCIAL RESULTS

ATHENS, GREECE (August 5, 2010) TOP Ships Inc. (NasdaqGS:TOPS) today announced its financial results for the second quarter and first half of 2010.

For the three months ended June 30, 2010, the Company reported:

-

Net loss of \$1.8 million or \$0.06 per share.

-

Operating income of \$4.1 million.

-

Revenues of \$21.8 million.

For the six months ended June 30, 2010, the Company reported:

-

Net loss of \$0.9 million or \$0.03 per share.

-

Operating income of \$9.5 million.

-

Revenues of \$44.9 million.

Evangelos J. Pistiolis, President and Chief Executive Officer of TOP Ships Inc., commented:

We are pleased to report a positive operating income for the second quarter and the first six months of 2010, which is a result of our committed charter portfolio. Net profit would have been marginally positive for the second quarter and \$1.8 million for the first six months of 2010, respectively, before drydocking costs.

We are also pleased to report that we expect to complete an agreement with DVB Bank to restructure the bridge loan, which was due to be repaid on July 30, 2010. We expect that the agreement will involve a partial repayment and new maturity date. We believe that our relationship with DVB Bank remains excellent.

The visibility of our cash flows has been further enhanced following our entry into a 3-year time charter contract for the M/V Cyclades with a well-established charterer at a daily rate of \$20,000. The charter will commence upon redelivery of the vessel from its present charterer.

The following indicators serve to highlight the operational performance of the Company's current fleet during the three-month and six-month periods ended June 30, 2009 and 2010:

CURRENT FLEET FIGURES

	Three Months Ended June		Six Months Ended June 30,	
	30, 2009	2010	2009	2010
Total number of vessels	12	13	12	13
Total calendar days for fleet (1)	1,040	1,183	1,767	2,353
Total available days for fleet (2)	1,013	1,151	1,703	2,303
Total operating days for fleet (3)	995	1,149	1,674	2,301
Fleet utilization (4)	98.21%	99.82%	98.33%	99.88%

(1) We define calendar days as the total days the vessels were in our possession for the relevant period. Calendar days are an indicator of the size of our fleet over the relevant period and affect both the amount of revenues and expenses that we record during that period.

(2) We define available days as the number of calendar days less the aggregate number of days that our vessels are off-hire due to scheduled repairs or scheduled guarantee inspections in the case of newbuildings, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels. Companies in the shipping industry generally use available days to measure the number of days in a period during which vessels should be capable of generating revenues. We determined to use available days as a performance metric for the first time in the second quarter and first half of 2009. We have determined to adjust the calculation method of utilization to include available days in order to be comparable with shipping companies that calculate utilization using operating days divided by available days.

(3) We define operating days as the number of available days in a period less the aggregate number of days that our vessels are off-hire due to unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which the vessels actually generate revenues.

(4) We calculate fleet utilization by dividing the number of operating days during a period by the number of available days during that period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the number of days that its vessels are off-hire for reasons other than scheduled repairs or scheduled guarantee inspections in the case of newbuildings, vessel upgrades, special or intermediate surveys and vessel positioning. We used a new calculation method for fleet utilization for the first time in the second quarter and first half of 2009. In all prior filings and reports, utilization was calculated by dividing operating days by calendar days. We have determined to adjust the calculation method in order to be comparable with most shipping companies, which calculate utilization using operating days divided by available days.

The following table presents the Company's current fleet and employment profile:

A. On January 11, 2010 we announced that we had received from the bareboat charterer of the M/T Ionian Wave and the M/T Tyrrhenian Wave, a reduced charter hire rate of \$10,000 per day, rather than the \$14,300 per day on a bareboat basis that is set forth in the charter agreement. We have been examining this unilateral reduction and intend to take all necessary steps to recover the amounts owed since the said charterer is considered to be in breach of the charter.

Outstanding Indebtedness

As of June 30, 2010, we had total indebtedness under senior secured and unsecured credit facilities with our lenders of \$383.9 million (excluding unamortized deferred financing fees of \$4.1 million) with maturity dates from 2010 through 2019.

We expect to complete an agreement with DVB Bank in relation to restructuring the DVB bridge loan which was due to be repaid on July 30, 2010.

As of June 30, 2010, we had no non-restricted cash.

Loan Covenants and Discussions with Banks

As of June 30, 2010, we were in breach of loan covenants relating to Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), overall cash position (minimum liquidity covenants), adjusted net worth, net asset value and asset cover with certain banks. As a result of these covenant breaches with certain banks, we have classified all of our debt and financial instruments as current. The amount of long-term debt and financial instruments that have been reclassified and presented together with current liabilities amounts to \$333.7 million and \$10.3 million, respectively.

We have been in discussions with all of our banks in relation to these covenant breaches as well as covenant breaches previously waived, for which waiver periods expired as of the end of the first quarter.

We have obtained waivers from Emporiki Bank for all covenant breaches until June 30, 2011.

About TOP Ships Inc.

TOP Ships Inc., formerly known as TOP Tankers Inc., is an international provider of worldwide seaborne crude oil and petroleum products and drybulk transportation services. The Company operates a combined tanker and drybulk fleet as follows:

n

A fleet of eight double-hull Handymax tankers and an average age of 3.3 years with a total carrying capacity of approximately 0.4 million dwt, of which 76%, in terms of dwt, are sister ships. Two of the Company's Handymaxes are on time charter contracts with an average term of 11 months with both of the time charters including profit sharing agreements above their base rates. Six of the Company's Handymax tankers are fixed on a bareboat charter basis with an average term of 7.7 years.

n

A fleet of five drybulk vessels with a total carrying capacity of approximately 0.3 million dwt and an average age of 9.3 years, of which 47%, in terms of dwt, are sister ships. All of the Company's drybulk vessels have fixed rate employment contracts for an average period of 24 months.

Forward-Looking Statements

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intends," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect" "pending" and similar expressions identify forward-looking statements. The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, failure of a seller to deliver one or more vessels or of a buyer to accept delivery of one or more vessels, inability to procure acquisition financing, default by one or more charterers of our ships, changes in the demand for crude oil and petroleum products, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
