Item 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The duties of the Compensation Committee (the Committee) include establishing the salaries, incentives and other forms of compensation for our Named Executive Officers. This includes awards under our equity-based compensation plans. The Committee's current policy is to insure that compensation programs contribute directly to the success of our company, including enhanced share value.

In connection with the Committee's deliberations for 2006 compensation, the Committee selected and retained Riley, Dettmann & Kelsey LLC, an independent compensation consulting firm, to advise the Committee. The Committee received from Riley, Dettmann & Kelsey LLC a comprehensive position-by-position benchmarking analysis regarding base salary, annual bonus and total compensation levels at the companies which comprised our comparator group (as described below). Riley, Dettmann & Kelsey LLC also provided the Committee with a market update regarding changes in equity incentive trends and other trends in the compensation area. Riley, Dettmann & Kelsey LLC reports directly to the Committee. We believe that the use of an independent consultant provides additional assurance that our programs are reasonable and consistent with our objectives.

Philosophy

Our compensation programs are designed to:

Provide competitive compensation and benefits to attract and retain the highest quality officers;

Provide variable pay opportunities through bonus plans and incentive plans that reward performers who contribute to superior company results; and

Establish an appropriate relationship between compensation and the creation of long-term stockholder value. Accordingly, the total compensation of our Named Executive Officers has been set at levels that are intended to be competitive with companies in similar industries to ours, but whose revenues and number of employees are greater than ours. We chose these companies because we anticipate growth in our revenues and number of employees. In order to establish total compensation levels, we reviewed compensation practices at selected peer companies. The companies comprising the peer group are:

Applied Signal Technology, Inc.
Channell Commercial Corporation
Datalink Corporation
Delphax Technologies, Inc.

FSI International
Lifecore Biomedical, Inc.
LoJack Corporation
Nortech Systems, Inc.

Table of Contents

We do not target a specific position in the range of comparative data for each individual or for each component of compensation. However, we considered that base salaries above 50% of the median base salary of the peer group would be competitive. We establish individual compensation levels based on the reviews discussed above, our financial and operational performance and other factors regarding the individual officer such as level of responsibility, prior experience and our judgment as to that officer's individual performance.

To achieve its policy goals, the Committee has utilized salary, cash bonuses and grants of stock options. The Committee has focused on the establishment of salaries and other items of compensation that are externally competitive and internally equitable for each of our Named Executive Officers. We do not currently provide our Named Executive Officers with other long term incentive compensation other than the ability to contribute their earnings to Applied Digital's 401(k) Plan, as described below.

Executive Compensation Components and Practices (other than the Chief Executive Officer)

Salaries. Each NEO, other than Kevin McGrath, our Chief Executive Officer, has entered into an employment agreement that specifies a minimum level of base salary for the officer. The Committee, however is able to increase each officer's salary as it deems appropriate. Mr. Nordfjeld joined our company in connection with our acquisition of DSD Holding A/S in February 2005. Although we subsequently entered into a new employment agreement with Mr. Nordfjeld, the material terms of the agreement, such as base salary level, were influenced by his prior employment agreement with DSD Holding A/S. At the beginning of each fiscal year, the Committee reviews salary recommendations for each of our Named Executive Officers (other than the Chief Executive Officer) and then approves such recommendations, with modifications that it deems appropriate. The salary recommendations are made by our Chief Executive Officer. Salaries are determined based on the benchmarking review discussed above and evaluations of each individual officer, market changes and the economic and business conditions affecting Digital Angel at the time of the evaluation. Evaluations of each individual officer are based on a relative valuing of the duties and responsibilities of such officer, such officer's role in developing and implementing our overall business strategy and such officer's past and expected future performance.

As a result of its review of the peer group salary information, for fiscal year 2006 the Committee approved a salary increase for Mr. Cairnie to bring his salary in line with what the Committee felt was a competitive salary. The Committee did not increase Messrs. Santelli and Nordfjeld's salaries in 2006. However, the 2006 salaries reflect a full year of compensation at the same base salary rate for Messrs. Santelli and Nordfjeld, while the 2005 salaries reflected only ten months of compensation. In addition, for Mr. Nordfjeld, the change in the 2006 salary also reflects a change in the exchange rate since he is paid in pounds sterling.

Bonuses. The employment agreements for Messrs. Cairnie and Nordfjeld provide for a minimum bonus potential as a percentage of salary. The Committee, however, is able to increase each such bonus potential as it deems appropriate. In May 2006, we established the Digital Angel Corporation Annual Incentive Plan to promote the interests of our company and to enhance stockholder value by creating an annual incentive program to:

- attract and retain employees who will strive for excellence, and

- motivate those individuals to set above-average objectives and achieve above-average results by providing them with rewards for contributions to our financial performance.

The annual incentive opportunities are tied directly to the achievement of individual and company-wide financial and operational performance targets that are established at the beginning of each year by the Committee based on recommendations from our Chief Executive Officer. Targets have been set for the various executives participating in the plan at 100%, 60% and 30% of their respective base salary, and in no event can amounts awarded under the Plan exceed 200%, 120% or 60% of a respective participant's base salary. However, the Committee can increase or decrease the amount of the annual incentive in its discretion. At the end of each year, our Chief Executive Officer provides the Committee with his recommendations regarding the performance of each Named Executive Officer (other than the Chief Executive Officer) against his or her performance targets and the amount of bonus to be paid to such officer.

Table of Contents

In March of 2007, the Committee reviewed the accomplishments of each Named Executive Officer during 2006 against the performance goals established at the beginning of the year. The performance goals for our Named Executive Officers related to revenue, operating income, cash and management/Board discretion. These factors were chosen because the Committee believes that growing the top line is the most important factor for our near-term success. The performance goals for each officer vary depending on the officer's level and performance. Performance goals are established at levels that are achievable, but require better than expected planned performance from each Named Executive Officer. Each of the performance goals has a minimum, target and maximum level of payment opportunity. Because the performance goals were not met, no bonuses under the plan were paid to our Named Executive Officers in 2006. However, pursuant to Mr. Cairnie's employment agreement, he received a bonus of \$5,341 in 2006.

Equity-Based Compensation. Our Board of Directors' historical practice has been to grant equity-based awards to attract, retain, motivate and reward our employees, particularly our executive officers, and to encourage their ownership of an equity interest in us. Such grants have consisted of stock options—specifically non-qualified stock options, that is, options that do not qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended.

Historically, our Board has granted awards of stock options to our executive officers upon their appointment as executive officers, with our obligation to grant the options typically memorialized in the offer letter or employment agreement, or an addendum to an employment agreement, entered into with the applicable executive officer. In determining the aggregate amount of options to be awarded company-wide, the Committee considers the value of such option grants based on SFAS 123R and compares all of this information to the comparative group data compiled by Riley, Dettmann & Kelsey LLC. After a consideration of the relevant tax, accounting, dilution, valuation, incentive and other considerations, the Committee concluded that stock option awards were the appropriate form of equity-based, long-term incentive compensation.

In 2006, only Messrs. Nordfjeld and Cairnie received option grants. In determining the size of the option grants to Messrs. Nordfjeld and Cairnie, the Committee granted an amount it believed would incentivize long-term commitments to our company by these executives as the Committee does not expect to consider future grants for the Named Executive Officers for the next few years. The options granted to Messrs. Nordfjeld and Cairnie provide for a five-year vesting period, with options exercisable for one-fifth of the underlying shares vesting each year.

If approved by our stockholders, future stock options and other equity-based awards will be granted under our 2007 Equity Participation Plan, which is described in the preliminary proxy statement filed on March 22, 2007 in Proposal 3. Stock options for our Named Executive Officers are granted at least at the prevailing market price on the grant date and thus will only have value if our stock price increases. Generally, grants vest in equal amounts over a period of five years. We believe that this vesting schedule aids the company in retaining executives and motivating longer-term performance. The Committee (1) sets the number of the total options to be awarded that will be allocated to our Named Executive Officers, (2) approves the absolute number of options to be awarded to our Chief Executive Officer and (3) approves the Chief Executive Officer's recommended allocation of the remainder of the Named Executive Officers' award to the other individual Named Executive Officers.

We do not have any program, plan or practice that requires us to grant equity-based awards on specified dates and we have not made grants of such awards that were timed to precede or follow the release or withholding of material non-public information. It is possible that we will establish programs or policies regarding the timing of equity-based awards in the future. Authority to make equity-based awards to executive officers rests with our Committee, which considers the recommendations of our Chief Executive Officer. As an AMEX-listed company, we are subject to AMEX listing standards that, in general, require stockholder approval of equity-based plans.

All equity-based awards have been reflected in our consolidated financial statements, based upon the applicable accounting guidance. Previously, we accounted for equity compensation paid to our employees and directors using the intrinsic value method under APB Opinion No. 25 and FASB Financial Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation—an Interpretation of APB Opinion No. 25. Under the intrinsic value method, no stock-based compensation was recognized in our consolidated statements of operations for options granted to our directors, employees, consultants and others because the exercise price of such stock options equaled or

exceeded the fair value of the underlying stock on the dates of grant. Effective January 1, 2006, we adopted SFAS 123R using the modified prospective transition method. Under this method, stock-based compensation expense is recognized using the fair-value based method for all awards granted on or after the date of adoption of SFAS 123R. SFAS 123R requires us to estimate and record an expense over the service period of the stock-based award. In 2006, our Committee, conscious of the less favorable accounting treatment for stock options resulting from adoption of SFAS 123R, took a more deliberate approach to the granting of awards of stock options.

Table of Contents

We structure cash incentive compensation so that it is taxable to our executive officers at the time it becomes available to them. We currently intend that all cash compensation paid will be tax deductible for us. However, with respect to equity-based awards, while any gain recognized by our executive officers and other employees from non-qualified stock options should be deductible, to the extent that in the future we grant incentive stock options, any gain recognized by the optionee related to such options will not be deductible by us if there is no disqualifying disposition by the optionee. In addition, our grant of shares of restricted stock or restricted stock units that are not subject to performance vesting provisions may not be fully deductible by us at the time the grant is otherwise taxable to the grantee.

Other Benefits. We believe establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. Executive officers are eligible to participate in all of our employee benefit plans, such as medical, dental, vision, group life and disability insurance in each case on the same basis as other employees. Messrs. McGrath and Cairnie are also provided individual term life insurance policies. In addition, our United States employees, including the Named Executive Officers, are eligible to participate in the Applied Digital retirement savings plan under section 401(k) under which they may elect to contribute a percentage of their salaries. We provide an employer match up to 4% of our employees' contributions. Our officers and employees residing in foreign countries, including Mr. Cairnie who is a resident of the United Kingdom and Mr. Nordfjeld who is a resident of Denmark, may have somewhat different employee benefit and retirement plans than those we offer domestically, typically based on certain legal requirements in those countries.

Severance and Change of Control Benefits. We have entered into a change of control agreement with Mr. McGrath and employment agreements with our other Named Executive Officers. Each of these agreements provides for certain payments and other benefits if the executive's employment terminates under certain circumstances, including in the event of a change in control. See Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table Employment Agreements.

The Committee believes that these severance and change in control arrangements are an important part of the overall compensation for our Named Executive Officers because they help to secure the continued employment and dedication of our Named Executive Officers, notwithstanding any concern that they might have regarding their own continued employment prior to or following a change in control. The Committee also believes that these arrangements are important as a recruitment and retention device.

The executive employment agreements also contain provisions that prohibit the executive from disclosing our company's confidential information and that prohibit the executive from engaging in certain competitive activities or soliciting any of our employees, customers, potential customers or acquisition prospects. An executive will forfeit his right to receive post-termination compensation if he breaches these or other restrictive covenants in the employment agreements. We believe that these provisions help ensure the long-term success of our company.

Perquisites. Our Board of Directors annually reviews the perquisites that members of senior management receive. We generally provide reimbursement for our Named Executive Officers' use of personal communication devices. In addition, because Mr. Nordfjeld is a resident of Denmark, we provide a vehicle allowance, which includes lease payments and expenses. We also provide Mr. Nordfjeld with housing arrangements in Minnesota and reimbursement for travel between Denmark and Minnesota. We have determined that providing Mr. Nordfjeld with housing arrangements in Minnesota is more cost effective than reimbursing him for hotel accommodations when he travels to Minnesota.

Compensation of Chief Financial Officer

We appointed Thomas Hoyer as our Chief Financial Officer in January, 2007. In connection with our search for a new Chief Financial Officer, we consulted and retained an executive search firm. After considering the backgrounds and qualifications of the candidates presented by the search firm, our Board realized that Mr. Hoyer was the ideal candidate for the position given his extensive background in finance and accounting. Based on information provided to our Board by the search firm at the outset of the search for a Chief Financial Officer, our Board had developed a sense of the compensation package in terms of base salary, guaranteed bonus, additional at-risk incentive compensation and equity interest that would need to be provided to a candidate for the position. Additionally, the compensation committee reviewed generally the compensation of chief financial officers of peer companies provided

by Riley, Dettmann & Kelsey LLC.

Table of Contents

Mr. Hoyer's employment agreement with us provides for an initial base salary of \$265,000 per year, a targeted annual bonus of 60% of his annual base salary based upon plan metrics, our performance and individual contribution. His bonus will be capped at 120% of his annual base salary. In addition, he received a ten-year option to purchase 250,000 shares of common stock. The option will vest ratably over a five-year period and has a strike price equal to the market closing price as of January 2, 2007. Mr. Hoyer will also be entitled to participate in any of our benefit plans or programs as are from time to time available to our officers and is entitled to an automobile allowance. The agreement also provides that Mr. Hoyer will receive a change of control payment if a change of control, as defined in the agreement, occurs and Mr. Hoyer's employment is terminated within 3 months of the change of control (regardless if voluntary resignation or involuntary termination). The change of control payment equals the sum of two times his then base salary plus two times the larger of his target bonus or average annual bonus for the prior three years. In addition, all unvested stock options will immediately vest in full.

Mr. Santelli, who served as our Chief Financial Officer for all of 2006, was receiving an annual base salary of \$205,000 at the time of his resignation as our Chief Financial Officer in January 2007. Mr. Santelli continued his employment with us until January 31, 2007, when he retired, in order to effect a smooth transition to the new Chief Financial Officer. As described under Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table Employment Agreements, we will pay Mr. Santelli a retirement package which includes payment of an amount equal to the sum of 13 months of his current base salary plus 100% of the larger of either his 2005 or 2006 bonus, which was \$50,000 in 2005, and \$4,944 in healthcare benefits.

Compensation of Chief Executive Officer

The Committee fixes the base salary of our Chief Executive Officer based on a review of competitive compensation data, the Chief Executive Officer's overall compensation package and the Committee's assessment of his past performance and its expectation as to his future performance in leading Digital Angel. In connection with this process, our Chief Executive Officer presents the Committee for its consideration a self-assessment of his performance during the applicable fiscal year and his proposed goals for Digital Angel during the next fiscal year.

The Committee establishes our Chief Executive Officer's base salary based upon the same criteria and review process that it uses for the establishment of the base salaries of the other Named Executive Officers. As a result of its review, the Committee increased Mr. McGrath's base salary for 2006 by approximately 67%.

In 2007, the Committee reviewed Mr. McGrath's 2006 performance against his performance goals established in 2006. The Committee considered the same financial and operational achievements discussed above in evaluating Mr. McGrath's bonus for 2006. Because the performance goals were not met, Mr. McGrath did not receive a bonus or any equity-based grants in 2006.

Effect of Regulatory Requirements on Executive Compensation

Code Section 162(m). Under U.S. federal income tax law, we cannot take a tax deduction for certain compensation paid in excess of \$1 million to our Named Executive Officers. However, performance-based compensation, as defined in the tax law, is fully deductible if the programs are approved by stockholders and meet other requirements. The 2007 Equity Participation Plan is currently qualified so that awards under such Plan constitute performance-based compensation not subject to the deduction limit under Section 162(m) of the Internal Revenue Code of 1986, as amended.

Although the Committee has not adopted any specific policy with respect to the application of Section 162(m), the Committee generally seeks to structure executive compensation to our executive officers in a manner that is intended to avoid disallowance of deductions under Section 162(m). We may make payments that are not fully deductible if, in our judgment, such payments are necessary to achieve our compensation objectives and to protect stockholder interests.

Table of Contents

Code Section 409A. Code Section 409A generally changes the tax rules that affect most forms of deferred compensation that were not earned and vested prior to 2005. Although complete guidance regarding Code Section 409A has not been issued, the Committee takes Code Section 409A into account in determining the form and timing of compensation paid to our executives. Our company operates and administers its compensation arrangements in accordance with a reasonable good faith interpretation of the new rules.

Code Sections 280G and 4999. Sections 280G and 4999 of the Internal Revenue Code of 1986, as amended limit our company's ability to take a tax deduction for certain excess parachute payments (as defined in Code Sections 280G and 4999) and impose excise taxes on each executive that receives excess parachute payments in connection with his or her severance from our company in connection with a change in control. The Committee considers the adverse tax liabilities imposed by Code Sections 280G and 4999, as well as other competitive factors, when it structures certain post-termination compensation payable to our Named Executive Officers. The potential adverse tax consequences to our company and/or the executive, however, are not necessarily determinative factors in such decisions.

Accounting Rules. Various rules under generally accepted accounting practices determine the manner in which our company accounts for grants of equity-based compensation to our employees in our financial statements. The Compensation Committee takes into consideration the accounting treatment of alternative grant proposals under SFAS 123R when determining the form and timing of equity compensation grants to employees, including our Named Executive Officers. The accounting treatment of such grants, however, is not determinative of the type, timing, or amount of any particular grant of equity-based compensation to our employees.

Summary

The Committee and the Board believe that the caliber and motivation of all our employees, and especially our executive leadership, are essential to our performance. We believe our management compensation programs contribute to our ability to differentiate our performance from others in the marketplace. The Committee believes that our overall executive compensation philosophy and programs are market competitive, performance-based and stockholder aligned. Accordingly, the Committee believes that we will continue to attract, motivate and retain high caliber executive management to serve the interests of Digital Angel and its stockholders. We will continue to evolve and administer our compensation program in a manner that we believe will be in stockholders' interests and worthy of stockholder support.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table*Employment Agreements*

We do not have a formal written employment agreement with Kevin N. McGrath, our President and Chief Executive Officer. On December 2, 2004, we entered into a Change of Control Agreement with Mr. McGrath. Upon a change of control (as defined in the agreement), Mr. McGrath would be entitled to receive three times his base salary and three times his average bonus paid to him for the three full years immediately prior to the change of control. In addition, all unvested stock options will immediately vest in full. Further, we will continue to pay any lease payments on any vehicle then used by Mr. McGrath.

Effective as of April 1, 2002, we entered into an employment agreement with Mr. James P. Santelli, our former Vice President, Finance and Chief Financial Officer. The agreement provided that we pay Mr. Santelli an initial base salary of \$175,000 per year and that he was entitled to participate in any of our benefit and deferred compensation plans or programs as are from time to time available to our officers. The agreement contained confidentiality, non-compete and assignment of invention clauses. The agreement also provided that if the Board of Directors terminated Mr. Santelli's

employment with us because of his willful and material misconduct or because he has breached the agreement in any material respect, or if Mr. Santelli terminated his employment other than for Good Reason (as that term is defined in the agreement), he would be entitled to salary and benefits accrued through the date of termination of employment. If Mr. Santelli died or became disabled (as disabled is determined under the agreement), if we terminated his employment for reasons other than his misconduct or his breach of the agreement, or if he terminated his employment for Good Reason, we were required to pay him his accrued compensation and benefits for the remaining term of the agreement, including any extensions. The employment agreement provided that upon a change of control, Mr. Santelli may terminate his employment at any time within one year after the change of control upon 15 days notice. Upon such termination, he would be entitled to a severance payment equal to the base amount as defined in Section 280G(b)(3) of the Internal Revenue Code minus \$1.00. Upon a change of control, all unvested stock options held by Mr. Santelli would immediately vest in full.

Effective January 2, 2007, Mr. Santelli resigned as our Vice President, Finance and Chief Financial Officer. Mr. Santelli continued his employment with us until January 31, 2007, when he retired in order to effect a smooth transition to Mr. Hoyer, the new Chief Financial Officer. We agreed to pay Mr. Santelli a retirement package which includes payment of an amount equal to \$222,083, which is the sum of 13 months of his base salary plus \$50,000, which is equal to the larger of either his 2005 or 2006 bonus, plus continued healthcare benefits in the amount of \$4,944.

Table of Contents

Effective as of February 28, 2005, we entered into an employment agreement with Mr. Lasse Nordfjeld, our President of the Animal Applications Group. The agreement has an initial term of one year which automatically renews for successive one-year terms on each anniversary date of the agreement, which is added at the end of the then existing term, unless either party notifies the other at least 90 days prior to such an anniversary date. The agreement provides that we will pay Mr. Nordfjeld a base salary of 1,200,000 Danish Kroner per year (\$201,600 in United States Dollars, translated at a rate for 2006 of 0.168), a performance based annual bonus up to 50% of his base salary and a one time option to purchase 150,000 shares of our common stock, and that he is entitled to participate in any of the benefit plans or programs as are from time to time available to officers of DSD Holding A/S, our wholly-owned subsidiary. The agreement contains confidentiality, non-compete and assignment of invention clauses. The agreement also provides that if our Board of Directors terminates Mr. Nordfjeld's employment with us because of his willful and material misconduct or because he has breached the agreement in any material respect, or if Mr. Nordfjeld terminates his employment other than for Good Reason (as that term is defined in the agreement), he is entitled to salary, bonus and benefits accrued through the date of termination of employment. If Mr. Nordfjeld dies, his estate is entitled to his salary, bonus and benefits accrued through the last day of the month in which his death occurs. If Mr. Nordfjeld becomes disabled (as determined under the agreement), Mr. Nordfjeld is entitled to salary, bonus and benefits accrued through 90 days after notice of termination. If we terminate his employment for reasons other than his misconduct or his breach of the agreement, or if he terminates his employment for Good Reason, then we must pay him his accrued compensation, salary and benefits for the remaining term of the agreement, including any extensions. The employment agreement provides that upon a change of control, Mr. Nordfjeld may terminate his employment at any time within one year after the change of control upon 15 days' notice. Upon such termination, we must pay to Mr. Nordfjeld a severance payment equal to his accrued compensation, salary and benefits for the remaining term of the agreement, including any extensions. Upon a change of control, all outstanding stock options held by Mr. Nordfjeld would become fully exercisable.

We have an employment agreement with David M. Cairnie effective April 13, 1993. The initial term of the agreement was one year until terminated by either party giving six months' notice or payment in lieu of such notice expiring on or at any time one year after the effective date of the agreement. The agreement provides that we will pay Mr. Cairnie an initial base salary of £75,000 per year, or a higher rate as to which the parties may from time to time agree. The agreement also provides for a bonus based on the achievement of profits, as defined in the agreement. In addition, under the agreement, we will provide an automobile to Mr. Cairnie. The agreement includes a 6 month non-compete provision.

The agreement contains, among other things, minimum purchase requirements in order to maintain exclusivity. Under the agreement, VeriChip is required to purchase \$875,000, \$1,750,000 and \$2,500,000 for each of 2007, 2008 and 2009, respectively, and \$3,750,000 for 2010 and each year thereafter. The agreement continues until March 2013 and, as long as VeriChip continues to meet the minimum purchase requirements, will automatically renew annually under its terms. The agreement includes a license for the use of our technology in VeriChip's identified markets. Under the agreement, we are the sole manufacturer and supplier to VeriChip. Revenue recognized under the agreement was \$0.4 million for 2006.

Policy for Related Party Transactions

Our Board of Directors has adopted a written policy for related party transactions. This policy establishes procedures to ensure that all related party transactions are prudently and properly evaluated, authorized, executed, and disclosed in accordance with all applicable legal and contractual requirements. For purposes of the policy, a related party transaction means any transaction between us and any of our affiliates (other than transactions available to all employees generally) that involve more than \$10,000 when aggregated with all similar transactions, and includes any related party transactions as defined in Item 404 of Regulation S-K. For purposes of the policy, affiliates include:

- our directors;

- our executive officers;

- nominees for election of directors; and

- stockholders who own 5% of our voting securities.

Affiliates include members of the immediate family of the above persons and entities in which any of the above persons is employed or is an affiliate.

Under the policy, every related party transaction must be approved or ratified by the Independent Director Committee. The Independent Director Committee will only approve those proposed related party transactions that comply with all applicable legal and contractual requirements and that the Independent Director Committee reasonably believes to be in the best interests of our company. In approving a proposed related party transaction, the Independent Director Committee will consider:

- the interest of the affiliate in the proposed transaction;

- how the proposed transaction compares to a comparable arm's length transaction with a person who is not an affiliate of our company;

- whether the transaction is to be effected at fair market value; and

- whether any terms of the transaction are not ordinary and customary for commercial transactions of the type.

All related person transactions shall be disclosed in our applicable SEC filings as required under SEC rules.

Independence of the Board

The Board of Directors has determined that the following four individuals of its six members of the Board of Directors are independent as defined by the American Stock Exchange: Messrs. Block, Edelstein, Weintraub and Zarriello.

Applied Digital currently owns 55.2% of our outstanding common stock. As a result, we are a controlled company within the meaning of the corporate governance standards of the American Stock Exchange (AMEX). We have not elected to take advantage of the controlled company exemption as permitted under Section 801(a) of the AMEX

Company Guide. All of the directors on our Compensation Committee are independent, a majority of the members of our Board of Directors are independent and we have an Independent Director Committee.

Pre-Approval Policies and Procedures for Audit and Permitted Non-Audit Services

The Audit Committee approves, on a case by case basis, any audit or permitted non-audit service proposed to be performed by Eisner LLP in advance of the performance of such service. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has not implemented a policy or procedure which delegates the authority to approve, or pre-approve, audit or permitted non-audit services to be performed by Eisner LLP. In connection with making any pre-approval decision, the Audit Committee must consider whether the provision of such permitted non-audit services by Eisner LLP is consistent with maintaining Eisner LLP's status as our independent auditors.

Consistent with these procedures, the Audit Committee approved all of the services rendered by Eisner LLP during fiscal year 2006, as described above.
