**(4) Related Party Transactions**

**GDBA Investments, LLLP**

On November 26, 2004, we entered into a three-year Agreement to Fund our real estate projects with GDBA Investments, LLLP ( GDBA ), our largest shareholder. On September 28, 2006, GDBA Investments replaced the Agreement to Fund with a new investment structure that included 250,000 shares of Series A Convertible Preferred Stock at \$12.00 per share, a \$3.5 million Senior Subordinated Note and a \$3.5 million Senior Subordinated Revolving Note.

The Series A Convertible Preferred Stock issued under these transactions pays a 5% annual dividend on the Original Issue Price of \$12.00 per share, payable quarterly and is convertible to common stock at a \$3.00 conversion price. Each share of Series A Convertible Preferred Stock is convertible, at the option of the holder, at any time after the issuance of the such share.

In the event the Company issues or sells additional shares of common stock for consideration less than the Series A conversion price in effect on the date of such issuance or sale (currently \$3.00 per share), then the Series A conversion price will be reduced to a price equal to the consideration per share paid for such additional shares of common stock.

At any time following the one-year anniversary of the Series A original issuance date (September 28, 2006), the Company may cause the conversion of all, but not less than all, of the Series A Preferred Stock. However, the Company may not complete the mandatory conversion unless a registration statement under the Securities Act of 1933 is effective, registering for resale the shares of common stock to be issued upon conversion of the Series A Preferred Stock.

**Table of Contents**

The Senior Subordinated Note and the Senior Subordinated Revolving Note both mature on September 28, 2009 and carry a floating interest rate equal to the higher of 11% or the 90 day average of the 10 year U.S. Treasury Note plus 650 basis points, which resets and is payable quarterly. Both the Senior Subordinated Notes and the Senior Subordinated Revolving Notes are subordinated to our Senior Credit Facilities.

On September 28, 2006, the company recognized \$5,050,000 in revenue through a related party sale of its Riverdale and Stonegate properties to Aquatique Industries, Inc., a company controlled by GDBA.

On April 14, 2007, we completed a related transaction with GDBA Investments, LLLP which included an additional \$3 million in subordinated debt. The facility matures December 31, 2007 with the provision for one six-month extension. The facility has a floating interest rate equal to the 10 year Treasury plus 650 basis points, which is payable and resets quarterly.

On September 30, 2007, we owed dividends payable of \$37,808 to GDBA Investments, LLLP.

**BOCO Investments, LLC**

On September 28, 2006, we completed a \$10 million private placement with BOCO Investments, LLC consisting of 250,000 shares of Series A Convertible Preferred Stock at \$12.00 per share and \$7 million in Senior Subordinated Debt, \$3.5 million of which was drawn at closing and \$3.5 million of which has a revolving feature and can be drawn as needed. Additionally Mr. Joseph Zimlich, BOCO Investments, LLC's Chief Executive Officer, purchased 17,000 shares of Series A Convertible Preferred Stock at \$12.00 per share in his own name.

The Series A Convertible Preferred Stock issued under these transactions pays a 5% annual dividend on the Original Issue Price of \$12.00 per share, payable quarterly and is convertible to common stock at a \$3.00 conversion price. Each share of Series A Convertible Preferred Stock is convertible, at the option of the holder, at any time after the issuance of the such share.

In the event the Company issues or sells additional shares of common stock for consideration less than the Series A conversion price in effect on the date of such issuance or sale (currently \$3.00 per share), then the Series A conversion price will be reduced to a price equal to the consideration per share paid for such additional shares of common stock.

At any time following the one-year anniversary of the Series A original issuance date (September 28, 2006), the Company may cause the conversion of all, but not less than all, of the Series A Preferred Stock. However, the Company may not complete the mandatory conversion unless a registration statement under the Securities Act of 1933 is effective, registering for resale the shares of common stock to be issued upon conversion of the Series A Preferred Stock.

The Senior Subordinated Notes mature on September 28, 2009 and carry an interest rate equal to the higher of 11% or the 90 day average of the 10 year U.S. Treasury Note plus 650 basis points. The Revolving Notes mature on September 28, 2009 and carry an interest rate equal to the higher of 11% or the 90 day average of the 10 year U.S. Treasury Note plus 650 basis points. Both the Senior Subordinated Notes and the Senior Subordinated Revolving Notes are subordinated to our Senior Credit Facilities.

On April 14, 2007, we completed a transaction with BOCO Investments, LLC which included an additional \$3 million in subordinated debt. The facility matures December 31, 2007 with the provision for one six-month extension. The facility has a floating interest rate equal to the 10 year Treasury plus 650 basis points, which is payable and resets quarterly.

On September 30, 2007, we owed dividends payable of \$37,808 to BOCO Investments and \$2,571 to Mr. Zimlich.

**(5) Notes Receivable and Development Deposits**

During the course of acquiring properties for development, Across America Real Estate Corp, on behalf of its subsidiaries and development partners, typically is required to provide capital for earnest money deposits that may or may not be refundable in addition to investing in entitlements for properties before the actual land purchase. Because these activities represent a risk of our capital in the event the land purchase is not completed, it is our policy to require our development partners to personally sign promissory notes to Across America Real Estate Corp. for all proceeds expended before land is purchased. Once the land has been purchased and can collateralize the capital invested by us, the promissory note is cancelled. AARD had \$489,533 in earnest money deposits outstanding at September 30, 2007. These deposits were held by development partners who have each secured them through promissory notes held by us. These promissory notes generally are callable on demand and carry an interest rate of 12% per annum.

Under the plan, three of the company's officers were granted options to purchase a total of 385,000 shares of common stock at the closing stock price as of November 8, 2006, which was \$1.65 per share. The fair value of each option was calculated on the grant date of April 2, 2007 using the Black-Scholes model and was value at \$1.34 using the following assumptions and inputs:

Risk free interest rate	4.54%
Expected life	5.0
Dividend yield	0.00%
Expected volatility	86.87%
Fair Value	\$ 1.34

There are a number of assumptions and estimates used in calculating the fair value of options. These include the expected term of the option, the expected volatility and the risk free interest rate. These assumptions are included in the charts above. The basis for our expected volatility and expected term estimates is a combination of our historical information. The risk-free interest rate is based upon yields of U.S. Treasury strips with terms equal to the expected life of the option or award being valued. Across America Real Estate Corp does not currently pay a dividend nor does the Company expect to pay a dividend.

The total amount of compensation calculated for the full amount of options granted is \$465,923. We accrue the stock based compensation expense in the periods in which the grants vest. For the quarter ended September 30, 2007, we accrued \$30,758 in expense related to stock based compensation.

**(15) Impairment of Assets**

We invest significantly in real estate assets. Accordingly, our policy on asset impairment is considered a critical accounting estimate. Management periodically evaluates the Company's property and equipment to determine whether events or changes in circumstances indicate that a possible impairment in the carrying values of the assets has occurred. As part of this evaluation, and in accordance with Statement of Financial Accounting Standard (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No. 144), the Company records the carrying value of the property at the lower of its carrying value or its estimated fair value, less estimated selling costs. The amount the Company will ultimately realize on these asset sales could differ from the amount recorded in the financial statements. The Company engages real estate brokers to assist in determining the estimated selling price or when external opinions are not available uses their own market knowledge. The estimated selling costs are based on the Company's experience with similar asset sales. The Company records an impairment charge and writes down an asset's carrying value if the carrying value exceeds the estimated selling price less costs to sell.

For the quarter ending June 30, 2007, we recorded a \$1,939,513 impairment loss on various real estate assets, as detailed below.

For the quarter ending September 30, 2007, we recorded a \$40,868 recovery of an impairment loss on the final sale of the Hwy 278 & Hwy 170, LLC (Bluffton 278).

During the nine month ending September 30, 2007, we recorded a \$1,898,645 impairment of assets which consists of the following:

\$275,675 for Bluffton 278 which reflected the final disposition price of the property

\$442,925 for West Valley which represented the difference between our carrying value and the estimated fair value of the property.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATION**

The following discussion of our financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by, the consolidated financial statements and notes thereto included in, Item 1 in this Quarterly Report on Form 10-QSB. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements.

**Forward-Looking Statements**

This Quarterly Report on Form 10-QSB and the documents incorporated herein by reference contain forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on current expectations, estimates, and projections about our industry, management beliefs, and certain assumptions made by our management. Words such as anticipates, expects, intends, plans, believes, seeks, estimates, variations of such words, and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties, and assumptions that are difficult to predict; therefore, actual results may differ materially from those expressed or forecasted in any such forward-looking statements. Unless required by law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise. However, readers should carefully review the risk factors set forth herein and in other reports and documents that we file from time to time with the Securities and Exchange Commission, particularly the Report on Form 10-SB, and future Annual Reports on Form 10-KSB and any Current Reports on Form 8-K.

**(a) RISK FACTORS**

You should carefully consider the risks and uncertainties described below; and all of the other information included in this document. Any of the following risks could materially adversely affect our business, financial condition or operating results and could negatively impact the value of your investment.

**WHILE WE HAVE GENERATED A MODEST PROFIT IN TWO OF OUR LAST THREE FISCAL YEARS, THERE IS NO GUARANTEE THAT WE WILL BE PROFITABLE IN THE FUTURE. WE WERE UNPROFITABLE FOR OUR MOST RECENT FISCAL YEAR END, FOR OUR MOST RECENT FISCAL QUARTER AND FOR OUR MOST RECENT NINE MONTH FISCAL PERIOD.**

Our revenues for the fiscal year ended December 31, 2006 were \$8,459,994. We had a net loss of \$735,771 for the fiscal year ended December 31, 2006. On the other hand, our revenues for the fiscal year ended December 31, 2005 were \$7,951,962. We had net income of \$77,666 for the fiscal year ended December 31, 2005. Our revenues for the fiscal year ended December 31, 2004 were \$1,787,922. We had net income of \$25,686 for the fiscal year ended December 31, 2004. Although we have had a modest profit in two of the past three fiscal years, we cannot say whether we will be able to achieve sustained profitability. We were not profitable in our most recent fiscal quarter or for our most recent nine month fiscal period. We had a net loss of \$230,122 for the three months ended September 30, 2007 and a net loss of \$2,566,698 for the nine months ended September 30, 2007. In fact, we recorded an impairment to our assets of approximately \$1,900,000. We cannot guarantee that we will not experience further impairments to our assets or other losses which could cause us to be unprofitable in our latest fiscal year. We have only completed a limited number of transactions, so it continues to be difficult for us to accurately forecast our quarterly and annual revenue. However, we use our forecasted revenue to establish our expense budget. Most of our expenses are fixed in the short term or incurred in advance of anticipated revenue. As a result, we may not be able to decrease our expenses in a timely manner to offset any revenue shortfall. We attempt to keep revenues in line with expenses but cannot guarantee that we will be able to do so.

**Table of Contents**

**WE WILL NEED ADDITIONAL FINANCING IN THE FUTURE BUT CANNOT GUARANTEE THAT IT WILL BE AVAILABLE TO US.**

In order to expand our business, we will continue to need additional capital. To date, we have been successful in obtaining capital, but we cannot guarantee that additional capital will be available at all or under sufficient terms and conditions for us to utilize it. Because we have an ongoing need for capital, we may experience a lack of liquidity in our future operations. We will need additional financing of some type, which we do not now possess, to fully develop our business plan. We expect to rely principally upon our ability to raise additional financing, the success of which cannot be guaranteed. To the extent that we experience a substantial lack of liquidity, our development in accordance with our business plan may be delayed or indefinitely postponed, which would have a materially adverse impact on our operations and the investors' investment.

**AS A COMPANY WITH LIMITED OPERATING HISTORY, WE ARE INHERENTLY A RISKY INVESTMENT. OUR OPERATIONS ARE SUBJECT TO OUR ABILITY TO FINANCE REAL ESTATE PROJECTS.**

Because we are a company with a limited history, our operations, which consist of real estate financing of build-to-suite projects for specific national retailers, must be considered an extremely risky business, subject to numerous risks. Our operations will depend, among other things, upon our ability to finance real estate projects and for those projects to be sold. Further, there is the possibility that our proposed operations will not generate income sufficient to meet operating expenses or will generate income and capital appreciation, if any, at rates lower than those anticipated or necessary to sustain the investment. The value of our assets may become impaired by a variety of factors, which would make it unlikely, if not impossible to profit from the sale of our real estate. We have already experienced impairments to our assets and may do so in the future. Our operations may be affected by many factors, some of which are beyond our control. Any of these problems, or a combination thereof, could have a materially adverse effect on our viability as an entity.

**WE HAVE A HEAVY RELIANCE ON OUR CURRENT FUNDING COMMITMENTS WITH TWO SIGNIFICANT SHAREHOLDERS.**

We are currently dependant upon our relationships with GDBA Investments, LLLP,( GDBA ), our largest shareholder, and BOCO Investments, LLC,( BOCO ) a private Colorado limited liability company. Each has provided us with funding through a \$10 million subordinated debt vehicle and a \$3 million preferred convertible equity. In addition, BOCO has recently extended a \$3,000,000 term loan to us to facilitate the timing of the origination and completion of our fourth quarter projects. We would be unable to fund any projects if we lose our current funding commitment from these shareholders. In addition, our senior credit facility with Vectra Bank Colorado, which is renewable annually, has been guaranteed by GDBA and its principals. We are currently seeking to renew our senior credit facility without the continuation of these guarantees but cannot guarantee that we will be able to do so. In any case, we expect to rely upon both GDBA and BOCO for funding commitments for the foreseeable future.

**OUR INDEBTEDNESS UNDER OUR VARIOUS CREDIT FACILITIES ARE SUBSTANTIAL AND COULD LIMIT OUR ABILITY TO GROW OUR BUSINESS.**

As of September 30, 2007, we had total indebtedness under our various credit facilities of approximately \$28.7 million. Our indebtedness could have important consequences to you. For example, it could:

increase our vulnerability to general adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness if we do not maintain specified financial ratios, thereby reducing the availability of our cash flow for other purposes; or

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, thereby placing us at a competitive disadvantage compared to our competitors that may have less indebtedness.

**Table of Contents**

In addition, our credit facilities permit us to incur substantial additional indebtedness in the future. As of September 30, 2007, we had approximately \$26.3 million available to us for additional borrowing under our \$55 million various credit facilities. If we increase our indebtedness by borrowing under our various credit facilities or incur other new indebtedness, the risks described above would increase.

**OUR VARIOUS CREDIT FACILITIES HAVE RESTRICTIVE TERMS AND OUR FAILURE TO COMPLY WITH ANY OF THESE TERMS COULD PUT US IN DEFAULT, WHICH WOULD HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND PROSPECTS.**

Our various credit facilities contain a number of significant covenants. These covenants limit our ability and the ability of our subsidiaries to, among other things:

incur additional indebtedness;

make capital expenditures and other investments above a certain level;

merge, consolidate or dispose of our assets or the capital stock or assets of any subsidiary;

pay dividends, make distributions or redeem capital stock in certain circumstances;

enter into transactions with our affiliates;

grant liens on our assets or the assets of our subsidiaries; and

make or repay intercompany loans.

Our various credit facilities require us to maintain specified financial ratios. Our ability to meet these financial ratios and tests can be affected by events beyond our control, and we may not meet those ratios. A breach of any of these restrictive covenants or our inability to comply with the required financial ratios would result in a default under our various credit facilities or require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness. If the creditors accelerate amounts owing under our various credit facilities because of a default and we are unable to pay such amounts, the creditors have the right to foreclose on our assets.

**WE PAY INTEREST ON ALL OF OUR CREDIT FACILITIES AT VARIABLE RATES, RATHER THAN FIXED RATES, WHICH COULD AFFECT OUR PROFITABILITY.**

All of our credit facilities provide for the payment of interest at variable rates. None of our credit facilities provide for the payment of interest at fixed rates. We can potentially realize profitability to the extent that we can borrow at a lower rate of interest and charge a higher rate of interest in our operations. Because our credit facilities are at variable rates, our profit margins could be depressed or even eliminated by rising interest rates on funds we must borrow. Rising interest rates could have a materially adverse affect on our operations.

**WE DO NOT HAVE A LONG HISTORY OF BEING ABLE TO SELL PROPERTIES AT A PROFIT (ADD IMPAIRMENT DISCUSSION)**

We have only been in business since 2003. We do not have a significant track record and may be unable to sell properties upon completion. We have already experienced impairments to our assets of approximately \$1,900,000 in this fiscal year and may incur additional impairments in the future. We may be forced to sell properties at a loss. Furthermore, in order to sell properties for a profit, we may be forced to hold properties for longer periods that we plan, which may require the need for additional financing sources. Any of these conditions would likely result in reduced operating profits and could likely strain current funding agreements.

**Table of Contents**

**MANAGEMENT OF POTENTIAL GROWTH.**

We hope to experience rapid growth which, if achieved, will place a significant strain on our managerial, operational, and financial systems resources. To accommodate our current size and manage growth, we must continue to implement and improve our financial strength and our operational systems, and expand. There is no guarantee that we will be able to effectively manage the expansion of our operations, or that our systems, procedures or controls will be adequate to support our expanded operations or that we will be able to obtain facilities to support our growth. Our inability to effectively manage our future growth would have a material adverse effect on us.

**THE MANNER IN WHICH WE FINANCE OUR PROJECTS CREATES THE POSSIBILITY OF A CONFLICT OF INTEREST.**

We fund our projects with construction financing obtained through the efforts of our management and our shareholders, GDBA and BOCO. This arrangement could create a conflict of interest with respect to such financings. However, there may be an inherent conflict of interest in the arrangement until such time as we might seek such financings on a competitive basis.

**LACK OF INDEPENDENT DIRECTORS.**

We do not have a majority of independent directors on our board of directors and we cannot guarantee that our board of directors will have a majority of independent directors in the future. In the absence of a majority of independent directors, our executive officers, which are also principal stockholders and directors, could establish policies and enter into transactions without independent review and approval thereof. This could present the potential for a conflict of interest between our stockholders and us generally and the controlling officers, stockholders or directors.

**INTENSE COMPETITION IN OUR MARKET COULD PREVENT US FROM DEVELOPING REVENUE AND PREVENT US FROM ACHIEVING ANNUAL PROFITABILITY.**

We provide a defined service to finance real estate projects. The barriers to entry are not significant. Our service could be rendered noncompetitive or obsolete. Competition from larger and more established companies is a significant threat and expected to increase. Most of the companies with which we compete and expect to compete have far greater capital resources, and many of them have substantially greater experience in real estate development. Our ability to compete effectively may be adversely affected by the ability of these competitors to devote greater resources than we can.

**POTENTIAL FLUCTUATIONS IN QUARTERLY OPERATING RESULTS.**

Our quarterly operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside of our control, including: the demand for our products or services; seasonal trends in financing; the amount and timing of capital expenditures and other costs relating to the development of our properties; price competition or pricing changes in the industry; technical or regulatory difficulties; general economic conditions; and economic conditions specific to our industry. Our quarterly results may also be significantly impacted by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results will fall below our expectations or those of investors in some future quarter.

**Table of Contents**

**OUR SUCCESS WILL BE DEPENDENT UPON OUR OPERATING PARTNERS' EFFORTS.**

Our success will be dependent, to a large extent, upon the efforts of our operating partners in our various projects. To the extent that these partners, individually or collectively, fail to develop projects in a timely or cost-effective manner, our profit margins could be depressed or even eliminated. If we cannot or do not select appropriate partners for our projects, our profitability and viability will suffer. The absence of one or more partners who develop projects in a timely or cost-effective manner could have a material, adverse impact on our operations.

**OUR SUCCESS WILL BE DEPENDENT UPON OUR MANAGEMENT'S EFFORTS.**

Our success will be dependent upon the decision making of our directors and executive officers. These individuals intend to commit as much time as necessary to our business, but this commitment is no assurance of success. The loss of any or all of these individuals, particularly Ms. Ann L. Schmitt, our President, and James W. Creamer, III, our Chief Financial Officer, could have a material, adverse impact on our operations. We have no written employment agreements with any officers and directors, including Ms. Schmitt or Mr. Creamer. We have not obtained key man life insurance on the lives of any of these individuals.

**LIMITATION OF LIABILITY AND INDEMNIFICATION OF OFFICERS AND DIRECTORS.**

Our officers and directors are required to exercise good faith and high integrity in our management affairs. Our articles of incorporation provides, however, that our officers and directors shall have no liability to our stockholders for losses sustained or liabilities incurred which arise from any transaction in their respective managerial capacities unless they violated their duty of loyalty, did engaged in intentional misconduct or gross negligence. Our articles and bylaws also provide for the indemnification by us of the officers and directors against any losses or liabilities they may incur as a result of the manner in which they operate our business or conduct the internal affairs.

**OUR STOCK PRICE MAY BE VOLATILE, AND YOU MAY NOT BE ABLE TO RESELL YOUR SHARES AT OR ABOVE THE PUBLIC SALE PRICE.**

There has been, and continues to be, a limited public market for our common stock. Our common stock trades on the NASD Bulletin Board. However, an active trading market for our shares has not, and may never develop or be sustained. If you purchase shares of common stock, you may not be able to resell those shares at or above the initial price you paid. The market price of our common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, including the following:

- \* actual or anticipated fluctuations in our operating results;
- \* changes in financial estimates by securities analysts or our failure to perform in line with such estimates;
- \* changes in market valuations of other real estate oriented companies, particularly those that market services such as ours;
- \* announcements by us or our competitors of significant innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- \* introduction of technologies or product enhancements that reduce the need for our services;
- \* the loss of one or more key customers; and
- \* departures of key personnel.

**Table of Contents**

Further, we cannot assure that an investor will be able to liquidate his investment without considerable delay, if at all. The factors which we have discussed in this document may have a significant impact on the market price of our common stock. It is also possible that the relatively low price of our common stock may keep many brokerage firms from engaging in transactions in our common stock.

As restrictions on resale end, the market price of our stock could drop significantly if the holders of restricted shares sell them or are perceived by the market as intending to sell them.

**BUYING A LOW-PRICED PENNY STOCK SUCH AS OURS IS RISKY AND SPECULATIVE.**

Our shares are defined as a penny stock under the Securities and Exchange Act of 1934, and rules of the Commission. The Exchange Act and such penny stock rules generally impose additional sales practice and disclosure requirements on broker-dealers who sell our securities to persons other than certain accredited investors who are, generally, institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 jointly with spouse, or in transactions not recommended by the broker-dealer. For transactions covered by the penny stock rules, a broker-dealer must make a suitability determination for each purchaser and receive the purchaser's written agreement prior to the sale. In addition, the broker-dealer must make certain mandated disclosures in penny stock transactions, including the actual sale or purchase price and actual bid and offer quotations, the compensation to be received by the broker-dealer and certain associated persons, and deliver certain disclosures required by the SEC. Consequently, the penny stock rules may affect the ability of broker-dealers to make a market in or trade our common stock and may also affect your ability to sell any of our shares you may own in the public markets.

**WE DO NOT EXPECT TO PAY DIVIDENDS ON COMMON STOCK.**

We have not paid any cash dividends with respect to our common stock, and it is unlikely that we will pay any dividends on our common stock in the foreseeable future. Earnings, if any, that we may realize will be retained in the business for further development and expansion.

**Overview and History**

Across America Real Estate Corp. was incorporated under the laws of the State of Colorado on April 22, 2003.

In 2003, we completed a registered offering of our common shares under the provisions of the Colorado securities laws and under an exemption from the federal securities laws. We raised a total of \$34,325 in this offering.

We act as a co-developer, including as a financier, to develop built-to-suit real estate projects for specific retailers and other tenants who sign long-term leases for use of the property. Our primary source of revenue is from profits we receive upon the sale of our projects upon completion; however we also receive revenue from preferred dividends on our invested capital in projects, management fees we charge to our projects and rental income from our completed projects before their disposition. In addition we may share in certain revenues directly related to our projects with our development partners such as development fees and leasing and sales commissions

On September 28, 2006, we completed a \$20 million dollar funding. BOCO Investments, LLC, a private Colorado limited liability company, agreed to provide us with new funding through a \$7 million subordinated debt vehicle and a \$3 million preferred convertible equity. Simultaneously, GDBA Investments, LLLP, has agreed to restructure its \$10 million in subordinated debt to mirror the structure of the BOCO Investments, LLC contribution, including \$3 million preferred convertible equity.

In October, 2006, management began to implement a national sales strategy where five sales regions were created throughout the United States, to include the Pacific Northwest, Southwest, South Central, Midwest and East regions. Regional vice presidents were hired to manage each of the regions, which encompass five to six states. Management focused on hiring people with significant experience and established contacts in real estate, specifically in the triple net small-box retail space. Each regional vice president is responsible for marketing our services to retailers and developers throughout their regions, as well as hire and manage sales representatives and utilize independent contractors to cover the smaller markets in their regions. Additionally, we also hired a national sales manager, who in addition to supervising the regional sales vice presidents, is responsible for the marketing the company to national retail chains.

**Table of Contents**

On April 2, 2007, we hired a Senior Vice President of Operations. This individual will have the responsibility for the review of new project opportunities, oversight of projects in process and the sale of properties at project completion.

On April 14, 2007, we completed a related party transaction with GDBA Investments, LLLP and BOCO Investments, LLC which included an additional \$6 million in subordinated debt, consisting of \$3 million from each party. The facility matures December 31, 2007 with the provision for one six-month extension. The facility has a floating interest rate equal to the 10 year Treasury plus 650 basis points, which is payable and resets quarterly.

On May 7, 2007, we entered into a \$25 million senior credit facility with United Western Bank. . This commitment permits us to fund construction notes for build-to-suit real estate projects for national and regional chain retailers. The financing is facilitated through a series of promissory notes. Each note is issued for individual projects under the facility and must be underwritten and approved by United Western Bank and has a term of 12 months with one (1) allowable extension not to exceed 6 months subject to approval. Interest is funded from an interest reserve established with each construction loan. The interest rate on each note is equal to Prime rate minus 50 basis points. Each note under the facility is for an amount, as determined by United Western Bank, not to exceed the lesser of 75% of the appraised value of the real property under the approved appraisal for the project or 75% of the project costs. Principal on each note is due at maturity, with no prepayment penalty. United Western Bank retains a First Deed of Trust on each property financed.

During the quarter ending June 30, 2007 we recognized impairment charges on five properties totaling \$1,939,513. During the quarter ending September 30, 2007 we recognized a \$40,868 recover of the impairment on sale of Hwy 278 and Hwy 170, LLC (Bluffton 278), thus decreasing our year to date impairment charge to \$1,898,645 (see footnote 15). All of the impaired properties plus \$188,808 of our bad debt expense were related to business dealings with our former development partner Automotive Development Group, with whom we terminated our business relationship in October 2006.

Effective, October 25, 2007, we obtained a temporary line of credit to facilitate the timing of the origination and completion of our fourth quarter projects. We signed a promissory note to borrow from BOCO INVESTMENTS, LLC up to \$3,000,000 for a period of up to ninety days at an interest rate of the higher of the ninety day average for U.S. Treasury Notes with a 10-year maturity as determined on the last Business Day of each calendar quarter, using the constant maturity calculation, plus 650 basis points; or eleven percent (11%). The calculation of the Interest Rate is determined at the end of the term of the Note or upon the partial or complete payoff of this Note, whichever is earlier. This Note is senior to all of our other obligations except our credit agreements with Vectra Bank Colorado and United Western Bank. GDBA INVESTMENTS, LLLP and BOCO INVESTMENTS, LLC. have each agreed to subordinate their respective other credit agreements with us to this new promissory note.

Our principal business address is 700 17th Street, Suite 1200, Denver, Colorado 80202. We are in the business of financing and developing build-to-suit real estate projects for specific retailers who sign long-term leases for use of the property. We create each project such that it will generate income from the placement of the construction loan, rental income during the period in which the property is held, and capital appreciation upon sale of the facility. Our affiliates, subsidiaries and management develop the construction and permanent financing for our benefit.

We have not been subject to any bankruptcy, receivership or similar proceeding.

**Results of Operations**

The following discussion involves our results of operations for the quarters ending September 30, 2007 and September 30, 2006.

Our revenues for the quarter ended September 30, 2007 were \$1,024,980 compared to \$5,181,419 for the quarter ended September 30, 2006. Project sales for the quarter ended September 30, 2007 were \$815,000 compared to \$5,050,000 for the quarter ended September 30, 2006. During the most recent quarter, one project, which consisted of land that was not going to be developed, was sold as compared to the same quarter last year, in which two projects that were completed were sold to a related party. As we move current projects through our pipeline over the next several quarters, we would anticipate that project sales would likely increase. We had rental income for the quarter ended September 30, 2007 of \$51,283 compared to \$98,694 for the quarter ended September 30, 2006, which is attributable to having fewer rent producing properties in the current quarter versus the prior year. Because we target selling properties as soon as they are completed and occupied, we do not anticipate that these revenues will increase substantially over the next several quarters. Management fees and financing activity revenue, for the quarter ended September 30, 2007 were \$148,383 and \$10,314 respectively compared to \$32,725 and zero respectively for management fees and financing activity revenue for the quarter ended September 30, 2006. Management fees are primarily comprised of origination fees taken by us as we enter into new projects and financing activity revenues are recognized by us when a project is sold. We would anticipate these revenues will increase going forward as we continue our marketing efforts to increase our projects and as we continue to move projects through our pipeline.

We recognize cost of sales on projects during the period in which they are sold. Cost of sales for the quarter ended September 30, 2007 were \$815,000 compared to \$4,767,622 recognized for the quarter ended September 30, 2006. Gross margin for the quarter ended September 30, 2007 was 0.0% because the project that was sold was an impaired asset whose cost basis was adjusted, during the prior quarter, to equal its expected market value. We continue to expect gross margins in the range of 15% to 20% on un-impaired assets.

Selling, general and administrative costs were \$748,078 for the quarter ended September 30, 2007 compared to \$512,843 for the quarter ended September 30, 2006. This increase was largely attributable to the substantial increase in staff over the past year in addition to increased sales and marketing activity to generate additional projects. We anticipate these costs will moderate as required infrastructure has been put in place.

During the quarter ended September 30, 2007, we recognized a recovery of an impairment charge of \$40,868 on the final sale of the Bluffton 278 project (see footnote 15). All of the impaired properties were related to business dealings with our former development partner Automotive Development Group, with whom we terminated our business relationship in October 2006. Although Automotive Development Group is contractually liable for 49% of any losses or impairments on these properties, Across America Real Estate has recognized the full effect of the impairment or its associated recovery and we are currently evaluating our options to recoup any losses from our former development partner. While we believe that we have no other properties at immediate risk for impairment, we will continue to impairment test our portfolio on a quarterly basis.

We had a net loss of \$230,122 for the quarter ended September 30, 2007 compared to a net loss of \$175,305 for the quarter ended September 30, 2006. Comprehensive loss applicable to common shareholders, after preferred stock dividends was \$308,308 for the quarter ended September 30, 2007 compared to \$175,305 for the quarter ended September 30, 2006. The substantial increase in net loss was primarily a result of a lower than expected total gross margin for the quarter and a significant increase in selling, general and administrative costs incurred, particularly with the addition of new management and sales staff in the last year. Given that our targeted project cycle is between seven and eight months and we recognize the majority of our revenue once a project is sold upon completion, there is an expected lag of increased revenues to offset the increased cost of our additional sales and infrastructure. We anticipate that much of the increased revenue from our additional project sales efforts will be realized in the fourth quarter of 2007. We would anticipate generating enough revenue in 2008 to support the additional infrastructure and believe we could return to profitability within the next few quarters.

**Table of Contents**

The following discussion involves our results of operations for the nine months ending September 30, 2007 and September 30, 2006.

Our revenues for the nine-months ended September 30, 2007 were \$6,264,291 compared to \$7,200,415 for the nine-months ended September 30, 2006. Project sales for the nine-months ended September 30, 2007 were \$5,739,336 compared to 6,773,000 for the nine-months ended September 30, 2006. This represents five properties sold during the nine-months ended September 30, 2007 compared to three properties, of which two were sold to a related party, sold during the nine-months ended September 30, 2006. We had rental income for the nine-months ended September 30, 2007 of \$103,487 compared to \$367,690 for the nine-months ended September 30, 2006, which is attributable to having fewer rent producing properties in the current quarter versus the prior year. Management fees and financing activity revenue, for the nine-months ended September 30, 2007 were \$362,981 and \$58,487 respectively compared to management fees of \$59,725 and no financing activity revenue for the nine-months ended September 30, 2006. We would anticipate these revenues will increase going forward as we continue our marketing efforts to increase our projects and as we continue to move projects through our pipeline.

We recognize cost of sales on projects during the period in which they are sold. Cost of sales for the nine-months ended September 30, 2007 were \$5,460,324 compared to \$6,230,470 for the nine-months ended September 30, 2006. Gross margin for the nine-months ended September 30, 2007 was approximately 4.9%, which is significantly lower than our target gross margins of 15% to 20% primarily because of the high ratio of raw land sales of our impaired properties during the year. Gross margin for the nine-months ended September 30, 2006 was approximately 8.0%, which was lower than our targeted gross margins because 75% of project revenue for that period came from sales to a related party.

Selling, general and administrative costs were \$2,655,984 for the nine-months ended September 30, 2007 compared to \$1,143,337 for the nine-months ended September 30, 2006. This increase was largely attributable to the substantial increase in staff over the past year in addition to increased sales and marketing activity to generate additional projects. We anticipate these costs will continue to increase as we continue to grow our business activities going forward. Also included in selling, general and administrative costs for the nine-months ended September 30, 2007 was \$214,953 in bad debt expense which was a one time charge related to write-off of promissory notes with developers related with our impairment analysis.

During the nine-months ended September 30, 2007 we recognized impairment charges on five properties totaling \$1,898,645 (see footnote 15). All of the impaired properties plus \$188,808 of our bad debt expense were related to business dealings with our former development partner Automotive Development Group, with whom we terminated our business relationship in October 2006. We assessed the feasibility to moving forward and developing each project or liquidating the undeveloped properties. The status of these properties is as follows:

American Fork is completed and for sale

West Valley is under construction and for sale

Bluffton 46 is undeveloped and for sale

Bluffton 278 was sold in September, 2007

Ridgeview was sold in June, 2007

Ridgeview represented an impairment of \$898,047 or 47.3% of our total impairment. While this is a significantly larger impairment than we anticipated, we made the determination that it was better to liquidate the asset. Although Automotive Development Group is contractually liable for 49% of any losses or impairments on these properties, Across America Real Estate has recognized the full effect of the impairment and we are currently evaluating our options to recoup any losses from our former development partner. While we believe that we have no other properties at immediate risk for impairment, we will continue to impairment test our portfolio on an annual basis.

**Table of Contents**

We had a net loss of \$2,566,698 for the nine-months ended September 30, 2007 compared to a net loss of \$432,631 for the nine-months ended September 30, 2006. Comprehensive loss applicable to common shareholders, after preferred stock dividends was \$2,798,710 for the nine-months ended September 30, 2007 compared to \$432,631 for the nine-months ended September 30, 2006. The substantial increase in net loss was primarily the result of a lower than expected total gross margin for the period in addition to the substantial impairment charge recognized in the prior quarter. Additionally we have had a significant increase in selling, general and administrative costs incurred, particularly with the addition of new management and sales staff in the last year. Given that our targeted project cycle is between seven and eight months and we recognize the majority of our revenue once a project is sold upon completion, there is an expected lag of increased revenues to offset the increased cost of our additional sales and infrastructure.

We anticipate that much of the increased revenue from our additional project sales efforts will be realized in the fourth quarter of 2007. We would anticipate generating enough revenue in 2008 to support the additional infrastructure and believe we could return to profitability within the next few quarters.

**Liquidity and Capital Resources**

Cash and cash equivalents, were \$1,717,017 on September 30, 2007 compared to \$4,874,646 on September 30, 2006. Cash used in operating activities increased to \$14,789,751 for the nine-months ended September 30, 2007 compared to cash provided by operating activities of \$243,251 for the nine-months ended September 30, 2006. This was primarily the result of our increase project flow and funding construction in progress and investment in land, offset by additional indebtedness to related parties. As we continue to increase our project pipeline, we anticipate that cash used in operations will continue to be significant.

Cash provided by investing activities increased by \$29,495 for the nine-months ended September 30, 2007 compared to cash used in investing activities of \$213,378 for the nine-months ended September 30, 2006. We issue promissory notes to our development partners when we invest earnest money on potential new projects which are retired when we purchase the land into the subsidiary. The issuances of these notes receivable were slightly lower for the nine-months ended September 30, 2007 compared to September 30, 2006. Given our increased project pipeline activity, we expect that cash will be used in investing activities to fund additional earnest money investments.

Cash provided by financing activities was \$15,379,833 for the nine-months ended September 30, 2007 compared to cash provided by financing activities of \$4,664,277 for the nine-months ended September 30, 2006. This shift is primarily the result of our increase project activity. As we continue to increase our project pipeline we expect that our cash provided by financing activities will continue to be significant. On September 30, 2007 we were had total availability on our three Senior Subordinated Revolving Notes of \$200,000 and we had availability of \$21,145,134 on our two Senior Credit Facilities as of September 30, 2007.

Subsequent to the end of our fiscal quarter, we obtained a temporary line of credit to facilitate the timing of the origination and completion of our fourth quarter projects. Effective, October 25, 2007, we signed a promissory note to borrow from BOCO INVESTMENTS, LLC up to \$3,000,000 for a period of up to ninety days at an interest rate of the higher of the ninety day average for U.S. Treasury Notes with a 10-year maturity as determined on the last Business Day of each calendar quarter, using the constant maturity calculation, plus 650 basis points; or eleven percent (11%). The calculation of the Interest Rate is determined at the end of the term of the Note or upon the partial or complete payoff of this Note, whichever is earlier. This Note is senior to all of our other obligations except our credit agreements with Vectra Bank Colorado and United Western Bank. GDBA INVESTMENTS, LLLP and BOCO INVESTMENTS, LLC. have each agreed to subordinate their respective other credit agreements with us to this new promissory note.

Management continues to assess our capital resources in relation to our ability to fund continued operations on an ongoing basis. As such, management may seek to access the capital markets to raise additional capital through the issuance of additional equity, debt or a combination of both in order to fund our operations and continued growth.

**Recently Issued Accounting Pronouncements**

In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140. Companies are required to apply Statement 155 as of the first annual reporting period that begins after September 15, 2006. The Company does not believe adoption of SFAS No. 155 will have a material effect on its consolidated financial position, results of operations or cash flows.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140. Companies are required to apply Statement 156 as of the first annual reporting period that begins after September 15, 2006. The Company does not believe adoption of SFAS No. 156 will have a material effect on its consolidated financial position, results of operations or cash flows.

In June 2006, the FASB issued Interpretation No.48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 , (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes . FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return that results in a tax benefit. Additionally, FIN 48 provides guidance on de-recognition, statement of operations classification of interest and penalties, accounting in interim periods, disclosure, and transition. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company will adopt FIN 48 as of January 1, 2007, as required. The Company has determined that there is no impact in adopting FIN 48.

In September 2006, the SEC staff issued Staff Accounting Bulletin No. 108 (SAB 108), Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements, which addresses how uncorrected errors in previous years should be considered when quantifying errors in current-year financial statements. SAB 108 requires companies to consider the effect of all carry over and reversing effects of prior-year misstatements when quantifying errors in current-year financial statements and the related financial statement disclosures. SAB 108 must be applied to annual financial statements for the first fiscal year ending after November 15, 2006. We are currently assessing the impact of adopting SAB 108 but do not expect that it will have a material impact on our financial condition or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurement , (FAS 157). This Standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We have not determined the effect that the adoption of FAS 157 will have on our consolidated results of operations, financial condition or cash flows.

On September 29, 2006, the FASB issued SFAS No.158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires an entity to recognize in its statement of financial position the overfunded or underfunded status of a defined benefit postretirement plan measured as the difference between the fair value of plan assets and the benefit obligation. An entity will be required to recognize as a component of other comprehensive income, net of tax, the actuarial gains and losses and the prior service costs and credits that arise pursuant to FASB Statements No. 87, Employers Accounting for Pensions and No. 106, Employers Accounting for Postretirement Benefits Other Than Pensions. Furthermore, SFAS No. 158 requires that an entity use a plan measurement date that is the same as its fiscal year-end. An entity will be required to disclose additional information in the notes to financial statements about certain effects on net periodic benefit cost in the upcoming fiscal year that arise from delayed recognition of the actuarial gains and losses and the prior service costs and credits. The requirement to recognize the funded status of a defined benefit postretirement plan and the related disclosure requirements is effective for fiscal years ending after December 15, 2006. The requirement to change the measurement date to the year-end reporting date is for fiscal years ending after December 15, 2008. We do not anticipate this statement will have any impact on our results of operations or financial condition.

**Seasonality**

At this point in our business operations our revenues are not impacted by seasonal demands for our products or services. As we penetrate our addressable market and enter new geographical regions, we may experience a degree of seasonality.

**Critical Accounting Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

We believe that the estimates and assumptions that are most important to the portrayal of our financial condition and results of operations, in that they require subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to us. These relate to bad debts, impairment of intangible assets and long lived assets, contractual adjustments to revenue, and contingencies and litigation. We believe estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events or occurrences result in unanticipated consequences, there could be a material impact on our future financial conditions or results of operations.

**ITEM 3. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, based on an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act), each our Chief Executive Officer and the Chief Financial Officer has concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the applicable time periods specified by the SEC's rules and forms.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Subsequent to the end of our fiscal quarter, we obtained a temporary line of credit to facilitate the timing of the origination and completion of our fourth quarter projects. Effective, October 25, 2007, we signed a promissory note to borrow from BOCO INVESTMENTS, LLC up to \$3,000,000 for a period of up to ninety days at an interest rate of the higher of the ninety day average for U.S. Treasury Notes with a 10-year maturity as determined on the last Business Day of each calendar quarter, using the constant maturity calculation, plus 650 basis points; or eleven percent (11%). The calculation of the Interest Rate is determined at the end of the term of the Note or upon the partial or complete payoff of this Note, whichever is earlier. This Note is senior to all of our other obligations except our credit agreements with Vectra Bank Colorado and United Western Bank. GDBA INVESTMENTS, LLLP and BOCO INVESTMENTS, LLC. have each agreed to subordinate their respective other credit agreements with us to this new promissory note.
