Edgar Filing: CORNERSTONE STRATEGIC VALUE FUND INC - Form N-2

Approximate Date of Proposed Public Offering: As soon as practicable after the effective date of this Registration Statement

If any securities being registered on this form will be offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, other than securities offered in connection with a distribution reinvestment plan, check the following box .... [ ]

It is proposed that this filing will become effective (check appropriate box)

[X] when declared effective pursuant to section 8(c)

CALCULATION OF REGISTRATION FEE UNDER THE SECURITIES ACT OF 1933

Title of Securities Being Registered	Amount Being Registered	Proposed Maximum Offering Price Per Unit	Proposed Maximum Aggregate Offering Price(1)	Amount of Registration Fee
Common Stock	150,603	\$6.64	\$1,000,004	\$136.40

- (1) Estimated solely for the purpose of calculating fee as required by Rule 457(o) under the Securities Act of 1933, as amended, based upon the closing price reported on the New York Stock Exchange consolidated reporting system of \$7.38 on September 6, 2013.

Pursuant to Rule 473 under the Securities Act of 1933, as amended, the Registrant hereby amends the Registration Statement to delay its effective date until the Registrant shall file a further amendment that specifically states that the Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to Section 8(a), may determine.

---

Cornerstone Strategic Value Fund, Inc.  
 [\_\_\_\_\_] Rights for [\_\_\_\_\_] Shares of Common Stock

---

Cornerstone Strategic Value Fund, Inc. (the “Fund”) is issuing non-transferable rights (“Rights”) to its holders of record of shares (“Shares”) of common stock (“Common Stock”) (such holders hereinafter referred to as “Stockholders”, and the shares of Common Stock, the “Shares”). These Rights will allow Stockholders to subscribe for new Shares. For every three (3) Rights a Stockholder receives, such Stockholder will be entitled to buy one (1) new Share. Each Stockholder will receive one Right for each outstanding Share it owns on [\_\_\_\_\_] , 2013 (the “Record Date”). Fractional Shares will not be issued upon the exercise of the Rights. Accordingly, the number of Rights to be issued to a Stockholder on the Record Date will be rounded up to the nearest whole number of Rights evenly divisible by three. Stockholders on the Record Date may purchase Shares not acquired by other Stockholders in this Rights offering (the “Offering”), subject to certain limitations discussed in this Prospectus. Additionally, if there are not enough unsubscribed Shares to honor all over-subscription requests, the Fund may, in its sole discretion, issue additional Shares up to 100% of the Shares available in the Offering to honor over-subscription requests. See “The Offering” below.

The Rights are non-transferable, and may not be purchased or sold. Rights will expire without residual value at the Expiration Date (defined below). The Rights will not be listed for trading on the NYSE MKT LLC (“NYSE MKT”), and there will not be any market for trading Rights. The Shares to be issued pursuant to the Offering will be listed for trading on the NYSE MKT, subject to the NYSE MKT being officially notified of the issuance of those Shares. On [\_\_\_\_\_] , 2013, the last reported net asset value (“NAV”) per Share was \$[\_\_\_\_\_] and the last reported sales price per Share on the NYSE MKT was \$[\_\_\_\_\_] , which represents a [\_\_\_\_\_] % premium to the Fund’s NAV per Share. The subscription price per Share (the “Subscription Price”) will be the greater of (i) 107% of NAV per Share as calculated at the close of trading on the date of expiration of the Offering and (ii) 90% of the market price per Share at such time. The considerable number of shares that may be issued as a result of the Offering may cause the premium above NAV at which the Fund’s shares are currently trading to decline, especially if stockholders exercising the Rights attempt to sell sizeable numbers of shares immediately after such issuance.

STOCKHOLDERS WHO CHOOSE TO EXERCISE THEIR RIGHTS WILL NOT KNOW THE SUBSCRIPTION PRICE PER SHARE AT THE TIME THEY EXERCISE SUCH RIGHTS BECAUSE THE OFFERING WILL EXPIRE (i.e., CLOSE) PRIOR TO THE AVAILABILITY OF THE FUND’S NAV AND OTHER RELEVANT MARKET INFORMATION ON THE EXPIRATION DATE. ONCE A STOCKHOLDER SUBSCRIBES FOR SHARES AND THE FUND RECEIVES PAYMENT, SUCH STOCKHOLDER WILL NOT BE ABLE TO CHANGE HIS, HER OR ITS DECISION. THE OFFERING WILL EXPIRE AT 5:00 P.M., NEW YORK CITY TIME, ON [\_\_\_\_\_] , 2013 (THE “EXPIRATION DATE”), UNLESS EXTENDED, AS DISCUSSED IN THIS PROSPECTUS.

The Fund is a diversified, closed-end management investment company. The Fund’s investment objective is to seek long-term capital appreciation through investing primarily in the equity securities of U.S. and non-U.S. companies. There can be no assurance that the Fund’s objective will be achieved.

For more information, please call AST Fund Solutions, LLC (the “Information Agent”) toll free at (800) 581-4001.

Investing in the Fund involves risks. See “Risk Factors” on page [\_\_] of this prospectus.

	Estimated Subscription Price(1)	Estimated Sales Load	Estimated Proceeds to the Fund(2)
Per Share	\$[_____]	None	\$[_____]

Total                                      \$[\_\_\_\_\_]                                      None                                      \$[\_\_\_\_\_] 

---

- (1) Because the Subscription Price will not be determined until after printing and distribution of this prospectus, the “Estimated Subscription Price” above is an estimate of the subscription price based on the Fund’s per-Share NAV and market price at the close of trading on [\_\_\_\_\_] , 2013. See “The Offering - Subscription Price” and “The Offering - Payment for Shares.”
- (2) Proceeds to the Fund are before deduction of expenses incurred by the Fund in connection with the Offering, estimated to be approximately \$[\_\_\_\_\_] . Funds received prior to the final due date of this Offering will be deposited in a segregated account pending allocation and distribution of Shares. Interest, if any, on subscription monies will be paid to the Fund regardless of whether Shares are issued by the Fund; interest will not be used as credit toward the purchase of Shares.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is [\_\_\_\_\_] , 2013.

(continued from previous page)

The Fund's Shares are listed on the NYSE MKT under the ticker symbol "CLM."

Investment Adviser. Cornerstone Advisors, Inc. (the "Adviser") acts as the Fund's investment adviser. See "Management of the Fund." As of June 30, 2013, the Adviser managed two other closed-end funds with combined assets under management, together with the Fund of approximately \$263.1 million. The Adviser's address is 1075 Hendersonville Road, Suite 250, Asheville, North Carolina, 28803.

This prospectus sets forth concisely the information about the Fund that you should know before deciding whether to invest in the Fund. A Statement of Additional Information, dated [\_\_\_\_], 2013 (the "Statement of Additional Information"), and other materials, containing additional information about the Fund, have been filed with the Securities and Exchange Commission (the "SEC"). The Statement of Additional Information is incorporated by reference in its entirety into this prospectus, which means it is considered to be part of this prospectus. You may obtain a free copy of the Statement of Additional Information, the table of contents of which is on page [\_\_\_\_] of this prospectus, and other information filed with the SEC, by calling toll free (800) 581-4001 or by writing to the Fund c/o AST Fund Solutions, LLC, 200A Executive Drive, Edgewood, NY 11717 or by visiting the Fund's website at [www.cornerstonestrategicvaluefund.com](http://www.cornerstonestrategicvaluefund.com). The Fund files annual and semi-annual stockholder reports, proxy statements and other information with the SEC. You can obtain this information or the Fund's Statement of Additional Information or any information regarding the Fund filed with the SEC from the SEC's website at [www.sec.gov](http://www.sec.gov).

The Fund's Shares do not represent a deposit or obligation of, and are not guaranteed or endorsed by, any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any governmental agency.

You should rely only on the information contained or incorporated by reference in this prospectus. We have not authorized anyone to provide you with different information. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. The information contained in this prospectus is accurate only as of the date of this prospectus. The Fund will amend this prospectus if, during the period this prospectus is required to be delivered, there are any material changes to the facts stated in this prospectus subsequent to the date of this prospectus.

## SUMMARY

This summary does not contain all of the information that you should consider before investing in the Fund. You should review the more detailed information contained or incorporated by reference in this prospectus and in the Statement of Additional Information, particularly the information set forth under the heading “Risk Factors.”

**The Fund** Cornerstone Strategic Value Fund, Inc. is a diversified, closed-end management investment company. It was incorporated in Maryland on May 1, 1987 and commenced investment operations on June 30, 1987. The Fund’s Shares of Common Stock are traded on the NYSE MKT under the ticker symbol “CLM”. As of August 31, 2013, the Fund had 18,915,045 Shares issued and outstanding.

**The Offering** The Fund is offering non-transferable rights (“Rights”) to its Stockholders as of the close of business on [\_\_\_\_], 2013. These Rights will allow Stockholders to subscribe for an aggregate of [\_\_\_\_] Shares. For every three (3) Rights a Stockholder receives, such Stockholder will be entitled to buy one (1) new Share at a subscription price equal to the greater of (i) 107% of NAV of the Shares as calculated on the Expiration Date and (ii) 90% of the market price at the close of trading on such date. Each Stockholder will receive one Right for each outstanding Share he or she owns on the Record Date (the “Basic Subscription”). Fractional Shares will not be issued upon the exercise of the Rights. Accordingly, the number of Rights to be issued to a Stockholder as of the Record Date will be rounded up to the nearest whole number of Rights evenly divisible by three. Stockholders as of the Record Date may purchase Shares not acquired by other Stockholders in this Rights offering (the “Offering”), subject to certain limitations discussed in this prospectus. Additionally, if there are not enough unsubscribed Shares to honor all over-subscription requests, the Fund may, in its discretion, issue additional Shares up to 100% of the Shares available in the Offering to honor over-subscription requests.

Shares will be issued within the 15-day period immediately following the record date of the Fund’s monthly’s distribution and Stockholders exercising rights will not be entitled to receive such distribution with respect to the shares issued pursuant to such exercise.

The Fund previously conducted a rights offering that expired on December 21, 2012 (the “2012 Offering”) and included similar terms and conditions as this Offering. Pursuant to the 2012 Offering, the Fund issued 3,880,289 Shares in fulfillment of Basic Subscription requests at a subscription price of \$5.99 per Share, for a total offering of \$23,242,931.

Prior to the 2012 Offering, the Fund previously conducted a rights offering that expired on December 16, 2011 (the “2011 Offering”) and included similar terms and conditions as this Offering. Pursuant to the 2011 Offering, which was fully subscribed, the Fund issued 5,734,886 Shares (2,867,443 Shares of which were Over-Allotment Shares) at a subscription price of \$6.09 per Share, for a total offering of \$34,925,455.

Prior to the 2011 Offering, the Fund conducted a rights offering that expired on December 10, 2010 (the “2010 Offering”) and included similar terms and conditions as this Offering. Pursuant to the 2010 Offering, the Fund issued 1,433,827 Shares in fulfillment of Basic Subscription requests at a subscription price of \$8.24 per Share, for a total offering of \$11,812,869.

Purpose of the Offering	<p>The Board of Directors of the Fund has determined that it would be in the best interests of the Fund and its Stockholders to increase the assets of the Fund. The primary reasons include:</p>
	<ul style="list-style-type: none"><li>· The Basic Subscription will provide existing Stockholders an opportunity to purchase additional Shares at a price that is potentially below market value without incurring any commission or transaction charges.</li><li>· Raising more cash will better position the Fund to take advantage of investment opportunities that exist or may arise.</li><li>· Increasing the Fund’s assets will provide the Fund additional flexibility in maintaining the Fund’s managed distribution policy (the “Distribution Policy”) (see discussion below). This policy permits Stockholders to receive a predictable level of cash flow and some liquidity periodically with respect to their Shares without having to sell Shares.</li><li>· Increasing Fund assets may lower the Fund’s expenses as a proportion of net assets because the Fund’s fixed costs would be spread over a larger asset base. There can be no assurance that by increasing the size of the Fund, the Fund’s expense ratio will be lowered.</li><li>· Because the Offering will increase the Fund’s outstanding Shares, it may increase the number of Stockholders over the long term, which could increase the level of market interest in and visibility of the Fund and improve the trading liquidity of the Shares on the NYSE MKT.</li><li>· The Offering is expected to be anti-dilutive to all Stockholders, including those electing not to participate, because the estimated expenses incurred for the Offering will be more than offset by the increase in the net assets of the Fund such that non-participating Stockholders will receive an increase in their net asset value, so long as the number of Shares issued to participating Stockholders is not materially less than a full exercise of the Basic Subscription amount.</li></ul>
Investment Objective and Policies	<p>The Fund’s investment objective is to seek long-term capital appreciation through investment in equity securities of U.S. and non-U.S. companies.</p>
	<p>There is no assurance that the Fund will achieve its investment objective. The Fund’s investment objectives and some of its investment policies are considered fundamental policies and may not be changed without Stockholder approval. The Statement of Additional Information contains a list of the fundamental and non-fundamental investment policies of the Fund under the heading “Investment Restrictions.”</p>
	<p>During periods of adverse market or economic conditions, the Fund may temporarily invest all or a substantial portion of its net assets in cash or cash equivalents.</p>
Investment Strategies	<p>Under normal circumstances, the Fund’s portfolio will consist principally of the equity securities of U.S. and non-U.S. companies. The Fund invests in common stocks and may also invest in preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.</p>

In determining which securities to buy for the Fund's portfolio, the Adviser uses a balanced approach, including "value" and "growth" investing by seeking out companies at reasonable prices, without regard to sector or industry, which demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios; and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand. Fluctuations in these characteristics may trigger trading decisions to be made by the Adviser.

Although the Fund has the ability to invest a significant portion of its assets in non-U.S. companies, the Fund has consistently maintained the investment of at least 95% of its assets in U.S. listed companies for the last decade.

The Fund may invest without limitation in other closed-end investment companies and ETFs, provided that the Fund limits its investment in securities issued by other investment companies so that not more than 3% of the outstanding voting stock of any one investment company will be owned by the Fund. As a stockholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested.

The Fund may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that the Fund may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. The Fund will invest only in such illiquid securities that, in the opinion of Fund management, present opportunities for substantial growth over a period of two to five years.

To comply with provisions of the 1940 Act, on any matter upon which the Fund is solicited to vote as a shareholder in an investment company in which it invests, the Adviser votes such shares in the same general proportion as shares held by other shareholders of that investment company. The Fund does not and will not invest in any other closed-end funds managed by the Adviser.

The Fund may, without limitation, hold cash or invest in assets in money market instruments, including U.S. and non-U.S. government securities, high grade commercial paper and certificates of deposit and bankers' acceptances issued by U.S. and non-U.S. banks having deposits of at least \$500 million.

The Fund's annual portfolio turnover rate is expected to continue to be relatively low, ranging between 10% and 90%.

**Investment Adviser and Fee**      Cornerstone Advisors, Inc. (the “Adviser”), the investment adviser of the Fund, is registered with the Securities and Exchange Commission (“SEC”) as an investment adviser under the Investment Advisers Act of 1940, as amended. As of June 30, 2013, the Adviser managed two other closed-end funds with combined assets under management, with the Fund, of approximately \$263.1 million.

The Adviser is entitled to receive a monthly fee at the annual rate of 1.00% of the Fund’s average weekly net assets. See “Management of the Fund.”

**Administrator**      AST Fund Solutions, LLC (“AFS”), 200A Executive Drive, Edgewood, NY 11717, serves as administrator and accounting agent to the Fund. Under the administration agreement with the Fund, AFS is responsible for generally managing the administrative affairs of the Fund, including supervising the preparation of reports to Stockholders, reports to and filings with the SEC and materials for meetings of the Board, and is entitled to receive a monthly fee at the annual rate of 0.075% of the Fund’s average daily net assets, subject to a minimum annual fee of \$50,000. See “Management of the Fund.”

**Fund Accounting Agent**      Ultimus Fund Solutions, LLC (“Ultimus”), 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246, serves as accounting agent to the Fund. Under the Fund Accounting Agreement, Ultimus is responsible for calculating the net asset value per share and maintaining the financial books and records of the Fund. For the performance of these services, Ultimus is entitled to receive a base fee of \$2,500 per month plus an asset based fee of 0.010% of the first \$500 million of average daily net assets and 0.005% of such assets in excess of \$500 million. See “Management of the Fund.”

Closed-End Fund  
Structure

Closed-end funds differ from open-end management investment companies (commonly referred to as mutual funds) in that closed-end funds do not redeem their shares at the option of the stockholder and generally list their shares for trading on a securities exchange. By comparison, mutual funds issue securities that are redeemable daily at net asset value at the option of the stockholder and typically engage in a continuous offering of their shares. Mutual funds are subject to continuous asset in-flows and out-flows that can complicate portfolio management, whereas closed-end funds generally can stay more fully invested in securities consistent with the closed-end fund's investment objectives and policies. In addition, in comparison to open-end funds, closed-end funds have greater flexibility in the employment of financial leverage and in the ability to make certain types of investments, including investments in illiquid securities.

Although the Fund's Shares have frequently traded at a premium to its net asset value during the past several years, shares of closed-end funds frequently trade at a discount from their net asset value. In recognition of the possibility that the Shares might trade at a discount to net asset value and that any such discount may not be in the interest of Stockholders, the Fund's Board of Directors, in consultation with the Adviser, may, from time to time, review possible actions to reduce any such discount, including considering open market repurchases or tender offers for the Fund's Shares. There can be no assurance that the Board of Directors will decide to undertake any of these actions or that, if undertaken, such actions would result in the Shares trading at a price equal to or close to net asset value per Share.

In addition, the Fund's managed distribution policy may continue to be an effective action to counter a trading discount. See "Distribution Policy."

The Board of Directors may also consider the conversion of the Fund to an open-end investment company. The Board of Directors believes, however, that the closed-end structure is desirable, given the Fund's investment objective and policies. Investors should assume, therefore, that it is highly unlikely that the Board of Directors would vote to convert the Fund to an open-end investment company.

Summary of  
Principal Risks

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. Therefore, before investing you should consider carefully the following principal risks that you assume when you invest in the Fund.

**Stock Market Volatility.** Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. The Fund is subject to the general risk that the value of its investments may decline if the stock markets perform poorly. There is also a risk that the Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

**Issuer Specific Changes.** Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

**Common Stock Risk.** The Fund will invest a significant portion of its net assets in common stocks. Common stocks represent an ownership interest in a company. The Fund may also invest in securities that can be exercised for or converted into common stocks (such as convertible preferred stock). Common stocks and similar equity securities are more volatile and more risky than some other forms of investment. Therefore, the value of your investment in the Fund may sometimes decrease instead of increase. Common stock prices fluctuate for many reasons, including changes in investors' perceptions of the financial condition of an issuer, the general condition of the relevant stock market or when political or economic events affecting the issuers occur. In addition, common stock prices may be sensitive to rising interest rates, as the costs of capital rise for issuers. Because convertible securities can be converted into equity securities, their values will normally increase or decrease as the values of the underlying equity securities increase or decrease. The common stocks in which the Fund will invest are structurally subordinated to preferred securities, bonds and other debt instruments in a company's capital structure in terms of priority to corporate income and assets and, therefore, will be subject to greater risk than the preferred securities or debt instruments of such issuers.

**Other Investment Company Securities Risk.** The Fund invests in the securities of other closed-end investment companies and in ETFs. Investing in other investment companies and ETFs involves substantially the same risks as investing directly in the underlying instruments, but the total return on such investments at the investment company level may be reduced by the operating expenses and fees of such other investment companies, including advisory fees. To the extent the Fund invests a portion of its assets in investment company securities, those assets will be subject to the risks of the purchased investment company's portfolio securities, and a stockholder in the Fund will bear not only his proportionate share of the expenses of the Fund, but also, indirectly, the expenses of the purchased investment company. There can be no assurance that the investment objective of any investment company or ETF in which the Fund invests will be achieved.

Foreign Securities Risk. Investments in securities of non-U.S. issuers involve special risks not presented by investments in securities of U.S. issuers, including the following: less publicly available information about companies due to less rigorous disclosure or accounting standards or regulatory practices; the impact of political, social or diplomatic events, including war; possible seizure, expropriation or nationalization of the company or its assets; possible imposition of currency exchange controls; and changes in foreign currency exchange rates. These risks are more pronounced to the extent that the Fund invests a significant amount of its investments in companies located in one region. These risks may be greater in emerging markets and in less developed countries. For example, prior governmental approval for foreign investments may be required in some emerging market countries, and the extent of foreign investment may be subject to limitation in other emerging countries. With respect to risks associated with changes in foreign currency exchange rates, the Fund does not expect to engage in foreign currency hedging transactions. See “Foreign Currency Risk.”

Market Discount from Net Asset Value. Shares of closed-end investment companies frequently trade at a discount from their net asset value. This characteristic is a risk separate and distinct from the risk that the Fund’s net asset value could decrease as a result of its investment activities and may be greater for investors expecting to sell their Shares in a relatively short period following completion of the Offering. The net asset value of the Shares will be reduced immediately following the offering as a result of the payment of certain costs of the Offering. Whether investors will realize gains or losses upon the sale of the Shares will depend not upon the Fund’s net asset value but entirely upon whether the market price of the Shares at the time of sale is above or below the investor’s purchase price for the Shares. Because the market price of the Shares will be determined by factors such as relative supply of and demand for the Shares in the market, general market and economic conditions, and other factors beyond the control of the Fund, the Fund cannot predict whether the Shares will trade at, below or above net asset value.

**Defensive Positions.** During periods of adverse market or economic conditions, the Fund may temporarily invest all or a substantial portion of its assets in cash or cash equivalents. The Fund would not be pursuing its investment objective in these circumstances and could miss favorable market developments.

**Management Risk.** The Fund is subject to management risk because it is an actively managed portfolio. The Fund's successful pursuit of its investment objective depends upon the Adviser's ability to find and exploit market inefficiencies with respect to undervalued securities. Such situations occur infrequently and sporadically and may be difficult to predict, and may not result in a favorable pricing opportunity that allows the Adviser to fulfill the Fund's investment objective. The Adviser's security selections and other investment decisions might produce losses or cause the Fund to underperform when compared to other funds with similar investment goals. If one or more key individuals leave the employ of the Adviser, the Adviser may not be able to hire qualified replacements, or may require an extended time to do so. This could prevent the Fund from achieving its investment objective. The Adviser may also benefit from the Offering because its fee is based on the assets of the Fund, which could be perceived as a conflict of interest.

**Managed Distribution Risk.** Under the Fund's managed distribution policy (the "Distribution Policy", the Fund makes monthly distributions to Stockholders at a rate that may include periodic distributions of its net income and net capital gains ("Net Earnings"), or from return-of-capital. For any fiscal year where total cash distributions exceeded Net Earnings (the "Excess"), the Excess would decrease the Fund's total assets and, as a result, would have the likely effect of increasing the Fund's expense ratio. There is a risk that the total Net Earnings from the Fund's portfolio would not be great enough to offset the amount of cash distributions paid to Stockholders. If this were to be the case, the Fund's assets would be depleted, and there is no guarantee that the Fund would be able to replace the assets. In addition, in order to make such distributions, the Fund may have to sell a portion of its investment portfolio, including securities purchased with the proceeds of the Offering, at a time when independent investment judgment might not dictate such action. Furthermore, such assets used to make distributions will not be available for investment pursuant to the Fund's investment objective. Since the Fund adopted the Distribution Policy in 2002, the Fund's distributions have exceeded its Net Earnings for each year except one (2005). The Fund may use the proceeds of the Offering to maintain the Distribution Policy by providing funding for future distributions, which may constitute a return of capital to Stockholders and lower the tax basis in their Shares. Stockholders are advised to consult with their own tax advisers with respect to the tax consequences of their investment in the Fund. Furthermore, the Fund may need to raise additional capital in order to maintain the Distribution Policy.

**Preferred Securities Risk.** Investment in preferred securities carries risks including credit risk, deferral risk, redemption risk, limited voting rights, risk of subordination and lack of liquidity. Fully taxable or hybrid preferred securities typically contain provisions that allow an issuer, at its discretion, to defer distributions for up to 20 consecutive quarters. Traditional preferreds also contain provisions that allow an issuer, under certain conditions to skip (in the case of "noncumulative preferreds") or defer (in the case of "cumulative preferreds"), dividend payments. If the Fund owns a preferred security that is deferring its distributions, the Fund may be required to report income for tax purposes while it is not receiving any distributions. Preferred securities typically contain provisions that allow for redemption in

the event of tax or security law changes in addition to call features at the option of the issuer. In the event of a redemption, the Fund may not be able to reinvest the proceeds at comparable rates of return. Preferred securities typically do not provide any voting rights, except in cases when dividends are in arrears beyond a certain time period, which varies by issue. Preferred securities are subordinated to bonds and other debt instruments in a company's capital structure in terms of priority to corporate income and liquidation payments, and therefore will be subject to greater credit risk than those debt instruments. Preferred securities may be substantially less liquid than many other securities, such as U.S. government securities, corporate debt or common stocks. Dividends paid on preferred securities will generally not qualify for the reduced federal income tax rates applicable to qualified dividends under the Code. See "Federal Income Tax Matters."

**Convertible Securities Risk.** The value of a convertible security, including, for example, a warrant, is a function of its "investment value" (determined by its yield in comparison with the yields of other securities of comparable maturity and quality that do not have a conversion privilege) and its "conversion value" (the security's worth, at market value, if converted into the underlying common stock). The investment value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors may also have an effect on the convertible security's investment value. The conversion value of a convertible security is determined by the market price of the underlying common stock. If the conversion value is low relative to the investment value, the price of the convertible security is governed principally by its investment value. Generally, the conversion value decreases as the convertible security approaches maturity. To the extent the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible security will be increasingly influenced by its conversion value. A convertible security generally will sell at a premium over its conversion value by the extent to which investors place value on the right to acquire the underlying common stock while holding a fixed income security.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by the Fund is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party. Any of these actions could have an adverse effect on the Fund's ability to achieve its investment objective.

**Repurchase Agreement Risk.** The Fund could suffer a loss if the proceeds from a sale of the securities underlying a repurchase agreement to which it is a party turns out to be less than the repurchase price stated in the agreement. In addition, repurchase agreements may involve risks in the event of default or insolvency of the seller, including possible delays or restrictions upon the Fund's ability to dispose of the underlying securities.

**Managed Distribution Policy**

Effective June 25, 2002, the Fund initiated a fixed, monthly distribution to Stockholders (the "Distribution Policy"). On November 29, 2006, the Distribution Policy was updated to provide for the annual resetting of the monthly distribution amount per share based on the Fund's net asset value on the last business day in October. The terms of the Distribution Policy will be reviewed and approved at least annually by the Fund's Board of Directors and can be modified at the Board's discretion. To the extent that these distributions exceed the current earnings of the Fund, the balance will be generated from sales of portfolio securities held by the Fund, and will be distributed as either short-term or long-term capital gains or a tax-free

return-of-capital. To the extent these distributions are not represented by net investment income and capital gains, they will not represent yield or investment return on the Fund's investment portfolio. Although return of capital distributions may not be taxable, such distributions may reduce a Stockholder's cost basis in his or her Shares, and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such Shares, even if such Shares are sold at a loss to the Stockholder's original investment amount. The Fund plans to maintain the Distribution Policy even if a return-of-capital distribution would exceed an investor's tax basis and therefore be a taxable distribution.

To the extent necessary to meet the amounts distributed under the Fund's Distribution Policy, portfolio securities, including those purchased with the proceeds of this Offering, may be sold to the extent adequate income is not available. Sustaining the Distribution Policy could require the Fund to raise additional capital in the future.

Although it has no current intention to do so, the Board may terminate this Distribution Policy at any time, and such termination may have an adverse effect on the market price for the Fund's Shares. The Fund determines annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including capital loss carryovers, if any. To the extent that the Fund's taxable income in any calendar year exceeds the aggregate amount distributed pursuant to the Distribution Policy, an additional distribution may be made to avoid the payment of a 4% U.S. federal excise tax, and to the extent that the aggregate amount distributed in any calendar year exceeds the Fund's taxable income, the amount of that excess may constitute a return-of-capital for tax purposes. Dividends and distributions to Stockholders are recorded by the Fund on the ex-dividend date.

Distribution Reinvestment Plan	Unless a Stockholder elects otherwise, the Stockholder's distributions will be reinvested in additional Shares under the Fund's distribution reinvestment plan. Stockholders who elect not to participate in the Fund's distribution reinvestment plan will receive all distributions in cash paid to the Stockholder of record (or, if the Shares are held in street or other nominee name, then to such nominee). See "Distribution Reinvestment Plan."
Stock Purchases and Tenders	The Board of Directors may consider repurchasing the Fund's Shares in the open market or in private transactions, or tendering for Shares, in an attempt to reduce or eliminate a market value discount from net asset value, if one should occur. There can be no assurance that the Board of Directors will determine to effect any such repurchase or tender or that it would be effective in reducing or eliminating any market value discount.
Custodian and Transfer Agent	U.S. Bank National Association serves as the Fund's custodian and American Stock Transfer and Trust Company serves as the Fund's transfer agent. See "Management of the Fund".

SUMMARY OF FUND EXPENSES

The following table shows Fund expenses as a percentage of net assets attributable to the Fund's Shares.

Stockholder Transaction Expenses	
Sales load	None
Distribution Reinvestment Plan fees	None
Annual Expenses (as a percentage of net assets attributable to the Shares)	
Management fees	1.00%
Other expenses(1)	0.45%
Acquired Fund fees and expenses(2)	0.56%
Total Annual Expenses	2.01%

Example(3)

The following example illustrates the hypothetical expenses that you would pay on a \$1,000 investment in the Shares, assuming (i) annual expenses of 2.01% of net assets attributable to the Shares and (ii) a 5% annual return:

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$20	\$63	\$109
