During the three months ended December 31, 2013, the Company issued 88,277,815 shares of common stock upon conversion of promissory notes for principal in the amount of

\$196,400, plus \$6,307 in accrued interest. During the three months ended December 31, 2012, the Company exchanged a demand note in the amount of \$350,000 plus accrued

The accompanying notes are an integral part of these financial statements

XSUNX, INC.

(A Development Stage Company)

Notes to Financial Statements (Unaudited)

December 31, 2013

1.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2013 are not necessarily indicative of the results that may be expected for the year ending September 30, 2014. For further information refer to the financial statements and footnotes thereto included in the Company's Form 10-K/A for the year ended September 30, 2013.

Going Concern

The accompanying unaudited financial statements have been prepared on a going concern basis of accounting, which contemplates continuity of operations, realization of assets and liabilities and commitments in the normal course of business. The accompanying financial statements do not reflect any adjustments that might result if the Company is unable to continue as a going concern. The Company does not generate significant revenue, and has negative cash flows from operations, which raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern and appropriateness of using the going concern basis is dependent upon, among other things, additional cash infusion. The Company has obtained funds from its shareholders since its inception through the period ended December 31, 2013. Management believes the existing shareholders and the prospective new investors will provide the additional cash needed to meet the Company's obligations as they become due, and will allow the development of its business.

2.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of XsunX, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally

accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Development Stage Activities and Operations

The Company has been in its initial stages of formation and for the three months ended December 31, 2013, had revenues of \$30,808 associated with the initial sales efforts for its solar electric photovoltaic (PV) system installation services which the Company began to market in the period covered by this report. A development stage activity as one in which all efforts are devoted substantially to establishing a new business and even if planned principal operations have commenced, revenues are insignificant.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements. Significant estimates made in preparing these financial statements include the estimate of useful lives of property and equipment, the deferred tax valuation allowance, and the fair value of stock options. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash and cash equivalents include cash in banks and money markets with an original maturity of three months or less.

Loss per Share Calculations

Loss per Share is the calculation of basic earnings per share and diluted earnings per share. Basic earnings per share are computed by dividing income available to common shareholders by the weighted-average number of common shares available. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. The Company's diluted loss per share is the same as the basic loss per share for the three months ended December 31, 2013, as the inclusion of any potential shares would have had an anti-dilutive effect due to the Company generating a loss.

Revenue Recognition

The Company recognizes revenue when services are performed, and at the time of shipment of products, provided that evidence of an arrangement exists, title and risk of loss have passed to the customer, fees are fixed or determinable, and collection of the related receivable is reasonably assured. To date the Company has had minimal revenue and is still in the development stage.

Stock-Based Compensation

Share-based Payment applies to transactions in which an entity exchanges its equity instruments for goods or services and also applies to liabilities an entity may incur for goods or services that are to follow a fair value of those equity instruments. We are required to follow a fair value approach using an option-pricing model, such as the Black Scholes option valuation model, at the date of a stock option grant. The deferred compensation calculated under the fair value method would then be amortized over the respective vesting period of the stock option. This has not had a material impact on our results of operations.

Fair Value of Financial Instruments

Fair Value of Financial Instruments, requires disclosure of the fair value information, whether or not recognized in the balance sheet, where it is practicable to estimate that value. As of December 31, 2013, the balances reported for cash, prepaid expenses, accounts payable, accrued expenses, and derivative liability approximate the fair value because of their short maturities.

We adopted ASC Topic 820 (originally issued as SFAS 157, Fair Value Measurements) as of January 1, 2008 for financial instruments measured as fair value on a recurring basis. ASC Topic 820 defines fair value, established a framework for measuring fair value in accordance with accounting principles generally accepted in the United States and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

.

Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;

.

Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and

.

Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

We measure certain financial instruments at fair value on a recurring basis. Assets and liabilities measured at fair value on a recurring basis are as follows at December 31, 2013:

	Total	(Level 1)	(Level 2)	(Level 3)
Assets	\$	\$	\$	\$
	-	-	-	-
Total assets measured at fair value	\$	\$	\$	\$
	-	-	-	-
Liabilities				
Derivative Liability	\$	\$	\$	\$
	659,785	-	-	659,785
Convertible Promissory Notes, net of discount	186,047	-	-	186,047
Total liabilities measured at fair value	\$	\$	\$	\$
	845,832	-	-	845,832

Recently Adopted Accounting Pronouncements

Management reviewed accounting pronouncements issued during the three months ended December 31, 2013, and no pronouncements were adopted during the period.

3.

CAPITAL STOCK

At December 31, 2013, the Company's authorized stock consisted of 2,000,000,000 shares of common stock, with no par value. The Company is also authorized to issue 50,000,000 shares of preferred stock with a par value of \$0.01 per share of which 10,000 shares have been designated as Series A Preferred Stock. The rights, preferences and privileges of the holders of the preferred stock are determined by the Board of Directors prior to issuance of such shares.

During the period ended December 31, 2013, the Company issued 88,277,815 shares of common stock upon conversion of convertible notes in the aggregate fair value of \$1,018,559 at prices ranging between \$0.0054 and \$0.0017.

4.

STOCK OPTIONS AND WARRANTS

On January 5, 2007, the Board of Directors of XsunX resolved to establish the Company's 2007 Stock Option Plan (the Plan) to enable the Company to obtain and retain the services of the types of employees, consultants and directors who could contribute to the Company's long range success and to provide incentives which are linked directly to increases in share value which will inure to the benefit of all stockholders of the Company. Options granted under the Plan may be either Incentive Options or Nonqualified Options and shall be administered by the Company's Board of Directors ("Board"). Each Option shall be exercisable to the nearest whole share, in installments or otherwise, as the respective Option agreements may provide. Notwithstanding any other provision of the Plan or of any Option agreement, each Option shall expire on the date specified in the Option agreement. A total of 20,000,000 shares of common stock are authorized under the plan, and at December 31, 2013 9,500,000 options are issued and outstanding under the Plan.

The following tables set forth summary information, as of December 31, 2013, concerning securities authorized for issuance under all equity compensation plans and agreements as of December 31, 2013 is as follows:

Risk free interest rate	0.29% to 0.38%
Stock volatility factor	138.33% to 169.56%
Weighted average expected option life	2-3 years
Expected dividend yield	None

A summary of the Company's stock option activity and related information follows:

	For the period ended 12/31/2013	
	Number of Options	Weighted average exercise price
Outstanding, beginning of the period	9,500,000\$	
		0.066
Granted	-	-
Exercised	-	-
Expired	-	-
Outstanding, end of the period	9,500,000\$	
		0.066
Exercisable at the end of the period	8,500,000\$	
		0.043
Weighted average fair value of options granted during the period	\$	
		-

The weighted average remaining contractual life of options outstanding issued under the plan as of December 31, 2013 was as follows:

Exercisable Prices	Stock Options Outstanding	Stock Options Exercisable	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price of Options Outstanding	Weighted Average Exercise Price of Options Exercisable
\$	2,500,000	2,500,000	0.25 years	\$	\$
0.160				0.16	0.16
\$	500,000	500,000	1.36 years	\$	\$
0.014				0.16	0.16
\$	1,000,000	-	1.80 years	\$	\$
0.100				0.16	0.16
\$	4,000,000	4,000,000	2.22 years	\$	\$
0.014				0.16	0.16
\$	1,500,000	1,500,000	3.03 years	\$	\$

0.045			0.16	0.16
	9,500,000	8,500,000		

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest. Stock-based compensation expense recognized in the financial statements of operations during the three months ended December 31, 2013, included compensation expense for the stock-based payment awards granted prior to, but not yet vested, as of December 31, 2013 based on the grant date fair value estimated, and compensation expense for the stock-based payment awards granted subsequent to December 31, 2013, based on the grant date fair value estimated. We account for forfeitures as they occur, and no options were forfeited during the period ended December 31, 2013. There was no stock-based compensation expense recognized in the statement of income during the three months ended December 31, 2013, and 2012.

5.

CONVERTIBLE PROMISSORY NOTES

As previously disclosed by XsunX, Inc. (the Company) in its Annual Report on Form 10-K for the year ended September 30, 2012, filed on January 11, 2013, the Company, in exchange for a promissory note (the Note) that had matured on September 30, 2012, issued in November 2012 a new unsecured 12% convertible promissory exchange note (the Exchange Note) for the remaining accrued principal and interest totaling \$385,863. The Exchange Note had a maturity date of September 30, 2013. On September 30, 2013, the Exchange Note had an outstanding balance of \$293,496, including accrued interest. Effective September 30, 2013, the Company and the Holder entered into an Extension and Amendment Agreement (Amendment Agreement), under which the Company issue an Amended and Restated 12% Promissory Note (the Amended Note.) The Amended Note provides for, among other things, an extension of the maturity date to September 30, 2014, and amended the conversion price to be 60% of the lowest volume weighted average price (VWAP) occurring during the twenty trading days preceding any conversion date by Holder. The balance of provisions remained substantially the same. No additional cash consideration was provided or exchanged. During the period ended December 31, 2013, the lender converted \$90,000 in principal of the note, plus interest of \$858, leaving a remaining principal balance of \$203,496. Upon conversion the Company issued an aggregate of 41,299,127 shares common stock to the lender. As of December 31, 2013, the Company recognized interest expense of \$9,001.

On November 7, 2012, the Company issued a 10% unsecured convertible promissory note (the Note) for the principal sum of up to \$78,000 plus accrued interest on any advanced principal funds. On November 6, 2013, the lender advanced \$28,000 to the Company under the note. As of December 31, 2013, the lender has advanced \$78,000 under the Note to the Company, and the Note has a remaining principal balance of \$28,000. The Note matures one year from each advance. The Note may be converted by the lender into shares of common stock of the Company at the lesser of \$.0125 per share at fifty percent (50%) of the lowest trade price in the twenty five (25) trading days prior to the conversion of any outstanding funded principal or accrued interest under the Note. On November 1, 2013, the lender converted \$25,000 in principal, plus \$1,171 of accrued interest. Upon conversion the Company issued 14,954,989 shares of common stock to the lender. During the period ended December 31, 2013, the Company recognized interest expense of \$641.

On December 13, 2012, the Company issued a 10% unsecured convertible promissory note (the Note) for the principal sum of up to \$250,000 and accrued interest on any advanced principal funds. The consideration is \$225,000 with an original issue discount of \$25,000. Under the Note the Lender has advanced an aggregate principal sum of \$215,000 to the Company, including \$40,000 advanced to the Company on December 10, 2013. The Lender may only advance additional consideration to the Company subject to consent by the Company. The Company shall be required to repay only the consideration funded by the lender, and shall not have any interest or other rights extend to any unfunded portion of the Note. The Note matures one year from the date each advance under the Note. The Note may be converted by the Lender into shares of common stock of the Company at the lesser of \$.025 per share or sixty percent (60%) of the lowest trade price in the twenty five (25) trading days prior to the conversion of any outstanding funded principal or accrued interest under the Note. During the period ended December 31, 2013, the lender converted \$43,900 of the convertible note, plus original issued discount and interest of \$5,556 leaving a remaining principal balance of \$96,100, plus original issue discount and accrued interest of \$12,788 for a total sum of \$108,878. During the period ended December 31, 2013, the Company recognized interest expense of \$7,222, which includes original issue discount of \$4,444.

On October 16, 2013, and November 13, 2013, the Company issued securities purchase agreements to an unrelated third party providing for the sale of two 8% convertible promissory notes (the Convertible Notes) in the amount of \$37,500 and \$32,500 respectively. The Convertible Notes were issued to an existing holder under terms substantially similar to previous Convertible Notes. After one hundred and eighty days from the date consideration is provided to the Company, the Convertible Notes can be converted into shares of common stock at a conversion price of 60% of the average lowest three (3) closing bid prices for the common stock, during the ten (10) trading day period ending on the latest complete trading day prior to the conversion date. Each of the Convertible Notes mature nine months after the date of issuance. The Company has the right to redeem a portion or all amounts outstanding under the Convertible Notes prior to one hundred and eighty one days from issuance of the Convertible Notes under a variable redemption rate premium. During the period ended December 31, 2013, the lender converted a note in the principal amount of \$37,500, plus \$1,500 in accrued interest, leaving a remaining aggregate principal balance of \$140,000. Upon conversion the Company issued an aggregate of 13,973,430 shares of voting common stock to the lender. The remaining Notes mature on April 11, 2014, May 22, 2014, July 18, 2014, and August 15, 2014. The Company has the right to redeem a portion or all amounts outstanding under the any Note prior to one hundred and eighty one days from issuance of the Note under a variable redemption rate premium. After one hundred and eighty days the holder may convert into shares of common stock at a variable conversion price of 60% multiplied by the market price of the average lowest three (3) trading prices for the common stock during the ten (10) trading days prior to the conversion date. During the period ended December 31, 2013, the Company recognized \$2,578 in interest expense.

Issuance of Convertible Promissory Notes for Services to Related Party

On October 1, 2013, the Company issued a total of \$48,000 in unsecured Convertible Promissory Notes (the Promissory Notes) in the amount of \$12,000 each to Board members Joseph Grimes, Tom Anderson, Dr. Michael Russak, and Oz Fundlingsland (the Holders) in exchange for their services as directors during the fiscal year ending September 30, 2014. The Promissory Notes can be converted into shares of common stock by the Holder for \$0.0045 per share. The Promissory Notes mature on October 1, 2015, and bear zero (0%) percent interest during the first 12 months from the date of issuance. If the Promissory Note is not paid in full by the Company, or through conversion by the Holder, on or before the first anniversary, a one-time interest charge of 10% shall be applied to any remaining principal sum. So long as any shares issuable under a conversion are subject to transfer and sale restrictions imposed pursuant to SEC Rule 144 of the Rules promulgated under the Securities Act of 1933, the Company shall, upon written request by Holder, file Form S-8, if applicable, with the U.S. Securities and Exchange commission to register the issued shares.

6. DERIVATIVE LIABILITIES

In June 2008, the FASB issued authoritative guidance on determining whether an instrument (or embedded feature) is indexed to an entity's own stock. Under the authoritative guidance, effective January 1, 2009, instruments which did not have fixed settlement provisions were deemed to be derivative instruments. As a result, certain convertible notes issued described in Notes 5 do not have fixed settlement provisions because their conversion prices may be lowered if the Company issues securities at lower prices in the future. The conversion feature has been characterized as derivative liabilities to be re-measured at the end of every reporting period with the change in value reported in the statement of operations.

At September 30, 2013, the outstanding fair value of the convertible notes accounted as derivative liabilities amounted to \$705,118.

During the period ended December 31, 2013, as a result of aggregate total of convertible notes we issued that were accounted for as derivative liabilities, we determined that the fair value of the conversion feature of the convertible notes at issuance was \$375,178, based upon a Black-Scholes calculation. We recorded the full value of the derivative as a liability at issuance with an offset to valuation discount, which will be amortized over the life of the notes. As the aggregate fair value of these liabilities of \$375,178 exceeded the aggregate value of the notes, the excess of the liability over the total combined note value of \$237,178 was considered as a cost of the debt and reported in the accompanying Statement of Operation as financing cost.

During the period ended December 31, 2013, approximately \$196,400 in convertible notes were converted. As a result of the conversion of these notes, the Company recorded a gain in change in fair value of the derivative liability of \$970,159 due to the extinguishment of the corresponding derivative liability. Furthermore, during the period ended December 31, 2013, the Company recognized a loss of \$549,648 to account for the change in fair value of the derivative liabilities. At December 31, 2013, the fair value of the derivative liability was \$659,785.

For purpose of determining the fair market value of the derivative liability for the embedded conversion, the Company used Black Scholes option valuation model. The significant assumptions used in the Black Scholes valuation of the derivative are as follows:

Risk free interest rate	Between 0.03% and 0.14%
Stock volatility factor	Between 106.82% and 409.17%
Months to Maturity	9 months to 1 year
Expected dividend yield	None

7.

SUBSEQUENT EVENTS

The following are items management has evaluated as subsequent events pursuant to the requirement of ASC Topic 855.

Between January 21, 2014 and January 28, 2014 the Company issued 5,322,765 shares of common stock at prices ranging from \$0.0077 to \$0.0068 upon conversion of the aggregate amount of \$39,000 dollars of principal and accrued interest to the holder of 8% convertible notes. The shares were issued in a transaction exempt from registration pursuant to Section 4(2) of the Securities Act.

Between January 13, 2014 and February 3, 2014 the Company issued 4,900,000 shares of common stock upon conversion of the aggregate amount of \$26,460 dollars of principal, interest, and original issue discount fees by the holder of a 10% convertible. The shares were issued in a transaction exempt from registration pursuant to Section 4(2) of the Securities Act.

On January 14, 2014, the Company issued a securities purchase agreement providing for the sales of an 8% convertible promissory note (the Note) in the amount of \$32,500. After one hundred and eighty days from the date of funding, the Note can be converted into shares of common stock at a conversion price of 60% of the average lowest five (5) closing bid prices for the common stock, during the ten (10) trading day period ending on the latest complete trading day prior to the conversion date. The Note matures on October 16, 2014. The Company has the right to redeem a portion or all amounts outstanding under the Note prior to one hundred and eighty one days from issuance of the Note under a variable redemption rate premium.

On February 5, 2014 the Company and Board members Joseph Grimes, Tom Anderson, Dr. Michael Russak, and Oz Fundlingsland (the Holders), of an unsecured convertible promissory note (the Promissory Notes) in the principal amount of \$12,000 each agreed to the amendment of the conversion provisions under the Promissory Note. The conversion provisions were amended to provide for a fixed conversion price of \$0.0045 per share (the Conversion Price). No other provisions of the Promissory Notes were amended.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

CAUTIONARY AND FORWARD LOOKING STATEMENTS

In addition to statements of historical fact, this Quarterly Report on Form 10-Q contains forward-looking statements. The presentation of future aspects of XsunX, Inc. ("XsunX", the "Company" or "issuer") found in these statements is subject to a number of risks and uncertainties that could cause actual results to differ materially from those reflected in such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. Without limiting the generality of the foregoing, words such as "may", "will", "expect", "believe", "anticipate", "intend", or "could" or the negative variations thereof or comparable terminology are intended to identify forward-looking statements. Our actual results could differ materially from those anticipated by these forward-looking statements as a result of many factors, including those discussed under Item 1A: Risk Factors in the Company's Annual Report on Form 10-10K/A.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause XsunX's actual results to be materially different from any future results expressed or implied by XsunX in those statements. Important facts that could prevent XsunX from achieving any stated goals include, but are not limited to, the following:

Some of these risks might include, but are not limited to, the following:

(a) volatility or decline of the Company's stock price;

(b) potential fluctuation in quarterly results;

(c) failure of the Company to earn revenues or profits;

(d) inadequate capital to continue or expand its business, inability to raise additional capital or financing to implement its business plans;

(e) failure to commercialize its technology or to make sales;

(f) rapid and significant changes in markets;

(g) litigation with or legal claims and allegations by outside parties;

(h) insufficient revenues to cover operating costs.

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services. The Company may not be able to attract or retain qualified executives and technology personnel, the Company's products and services may become obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of warrants and stock options, and other risks inherent in the Company's businesses.

The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the factors described in other documents the Company files from time to time with the Securities and Exchange Commission, including the Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K filed by the Company and any Current Reports on Form 8-K filed by the Company.

Management believes the summary data presented herein is a fair presentation of the Company's results of operations for the periods presented. Due to the Company's change in primary business focus and new business opportunities these historical results may not necessarily be indicative of results to be expected for any future period. As such, future results of the Company may differ significantly from previous periods.

Business Overview

XsunX, Inc. focuses on providing solar energy solutions that provide the greatest bottom-line financial benefits to businesses. Our background and experience spans virtually all aspects of solar including technology assessment, design, and development.

During the fiscal year ending September 30, 2014, the Company is executing a plan that focuses operations on the sale, design, and installation of Solar Photovoltaic (PV) Systems for commercial and industrial real-estate applications as a licensed contractor in California.

The purpose of our efforts are to capitalize on the increasing demand within the California commercial real-estate markets for the installation of solar electric PV systems. The improving demand, underscored in a 2013 market data from the U.S. Solar Energy Industries Association (SEIA) indicating 26% growth in the non-residential PV systems market year-over-year, stems from the significant reductions to the per-watt sales price for silicon solar modules which has resulted in the general overall significant reductions to the installed cost-per-watt for solar PV systems. These reductions, coupled with government tax and investment incentives, can provide significant investment incentives for consumers whom we market to in efforts to make sales.

In October 2013, we completed the required licensing process and began to focus our efforts on the marketing and sales of Solar PV Systems. To aid us in developing a competitive advantage we have established factory direct pricing for the major components of the Solar PV Systems we design and sell, and have qualified to offer 100% financing options through a licensed lender.

We see these efforts as a significant business development opportunity as management has the skillset associated with construction management, we have extensive experience associated with PV technologies and the design requirements associated with the delivery of a solar PV systems, and there is a market demand available for us to provide these services to.

Our operations are currently focused on the rapid development and market acceptance for our Solar PV Systems design and installation services. We feel that these efforts will provide us the ability to reduce future dependency on the sale of debt or equity to fund operations, as during the three months ended December 31, 2013, we began to recognize initial revenues from these activities.

Results of Operations for the Three Months Ended December 31, 2013 compared to Three Months Ended December 31, 2012.

Revenue and Cost of Sales:

The Company generated revenues in the three months ended December 31, 2013 and 2012 of \$30,808 and \$0, respectively. The \$30,808 in revenue during the three months ended December 31, 2013 were a result of our initial efforts in the sale of solar PV Systems. The costs of goods sold for the three months ended December 31, 2013 was \$29,791 and \$0, respectively. The Company to date has had minimal revenue and cost of sales, and is still in the development stage. Management expects to continue to generate revenues on this scale for the near future as it works to increase its sales volumes.

Selling, General and Administrative Expenses:

Selling, General and Administrative (SG&A) expenses increased by \$9,722 during the three months ended December 31, 2013 to \$138,728 as compared to \$129,006 for the three months ended December 31, 2012. The increase in SG&A expenses was related primarily to an increase in non-cash expense for outside services of \$12,000, with a decrease in other SG&A expenses of \$2,278.

Research and Development:

Research and development decreased by \$12,434 during the three months ended December 31, 2013 to \$2,566 as compared to \$15,000 for the three months ended December 31, 2012. The decrease was primarily due to a reduction in research related employees used in the prior period. We anticipate this trend to continue as we do not anticipate devoting substantial resources towards additional testing, calibration, or enhancements to our CIGSolar® technology until such time that we either enter into a sales agreement for the technology or the market demand for thin film technologies warrants additional investments.

Net Loss:

For the three months ended December 31, 2013, our net loss was \$1,056,705 as compared to a net loss of \$534,632 for the three months ended December 31, 2012. The increase in net loss of \$522,073 primarily stems from a loss on settlement of debt in the current period. The Company anticipates the trend of losses to continue in future periods until the Company can recognize sales of significance of which there is no assurance.

Liquidity and Capital Resources

We had a working capital deficit at December 31, 2013 of \$910,653, as compared to a working capital deficit of \$889,448 as of September 30, 2013. The increase of \$21,205 in working capital deficit was the result of an increase in cash, inventory, credit card payable, accrued expenses, and convertible notes, with a decrease in accounts payable, and derivative liability.

Cash flow used by operating activities was \$136,896 for the three months ended December 31, 2013, as compared to cash flow used by operating activities of \$94,545 for the three months ended December 31, 2012. The increase in cash flow used of \$42,351 by operating activities was primarily due to a net change in non-cash expenses, inventory, accounts payable, and accrued expenses, with a decrease in prepaid expenses.

Cash flow provided by investing activities was \$5,400 for the three months ended December 31, 2013, as compared to cash flow used in investing activities of \$29,615 during the three months ended December 31, 2012. The net change in investing activities was primarily due to proceeds received of \$5,400 from the sale of certain assets in the current period.

Cash provided by financing activities for the three-months ended December 31, 2013 was \$138,000, as compared to \$117,500 for the same period 2012. Our capital needs have primarily been met from the proceeds of private placements and the sale of convertible debt, as we are currently in the development stage and had minimal initial revenues.

Our financial statements as of December 31, 2013 have been prepared under the assumption that we will continue as a going concern from inception (February 25, 1997) through December 31, 2013. Our independent registered public accounting firm has issued their report dated January 14, 2014, that included an explanatory paragraph expressing substantial doubt in our ability to continue as a going concern without additional capital becoming available. Our ability to continue as a going concern ultimately is dependent on our ability to generate a profit which is dependent upon our ability to obtain additional equity or debt financing, attain further operating efficiencies and, ultimately, to achieve profitable operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

For the three months ended December 31, 2013, the Company's capital needs have been met from the use of working capital provided by the proceeds of (i) the Company's working capital and (ii) the sale of convertible debt proceeds totaling \$138,000, and (iii) revenues in the amount of \$30,808.

Short Term.

On a short-term basis, we do not generate revenues sufficient to cover operations. Based on prior history, we may continue to have insufficient revenue to satisfy current and recurring expenses and liabilities. For short term needs we may continue to be dependent on receipt, if any, of offering proceeds and the growth of our revenue.

Capital Resources

We have only common and preferred stock as our capital resources. We have no material commitments for capital expenditures within the next year, however as we work to market and make sales of our Solar PV System services, substantial capital will be needed to pay for these activities.

Need for Additional Financing

We do not have capital sufficient to meet our cash needs. We will have to seek loans or equity placements to cover such cash needs. No commitments to provide additional funds have been made by our management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to us to allow it to cover our expenses as they may be incurred.

DEVELOPMENT STAGE COMPANY

The Company is currently engaged in efforts to establish a Solar PV System sales, design, and installation service business, and as of the period ended December 31, 2013, did not generate significant revenues. We have in the past experienced substantial losses and negative cash flow from operations and have required financing, including equity and debt financing. We expect that we will continue to need significant financing to operate our business. If additional financing is not available or not available on terms acceptable to us, our ability to fund our operations, or otherwise respond to competitive pressures may be significantly impaired. We could also be forced to curtail our business operations, reduce our investments, decrease or eliminate capital expenditures and delay the execution of our business plan which would have a material adverse effect on our business.

While we have been able to raise capital in a series of equity and debt offerings in the past there can be no assurances that we will be able to obtain such additional financing, on terms acceptable to us and at the times required, or at all.

Irrespective of whether the Company's cash assets prove to be inadequate to meet the Company's operational needs, the Company might seek to compensate providers of services by issuances of stock in lieu of cash.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We do not have any market risk sensitive instruments. Since all operations are in U.S. dollar denominated accounts, we do not have foreign currency risk. Our operating costs are reported in U.S. dollars.

The Company does not invest in term financial products or instruments or derivatives involving risk other than money market accounts, which fluctuate with interest rates at market.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer, principal financial officer, and principal operating officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

As required by SEC Rule 15d-15(e), our management, consisting of our Chief Executive Officer/Principal Accounting Officer carried out an evaluation, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our principal executive officer/ principal accounting officer, concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control structure and procedures over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f)) under the Exchange Act. The SEC rule making for the Sarbanes-Oxley Act of 2002 Section 404 requires that a company's internal controls over financial reporting be based upon a recognized internal control framework. Our management conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2013 based on the framework set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) that has been modified to more appropriately reflect the current limited operational scope of the Company as a Development Stage company. The Company used the COSO guide - The Internal Control over Financial Reporting - Guidance for Smaller Public Companies to implement the Company 's internal control framework. Additionally, the limited scope of operations of the Company means that traditional separation of duties controls are not used by the Company as a result of the limited staffing within the Company. The Company relies on alternative procedures to overcome this non-material control weakness.

Based on that evaluation, our Chief Executive Officer/Principal Accounting Officer concluded that our internal control over financial reporting as of December 31, 2013 was effective. Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended December 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

In the ordinary conduct of our business, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have, individually or in the aggregate, a material adverse effect on our business, financial condition or operating results.

Item 1A. Risk Factors

Not Applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Amendment of Existing Promissory Note

As previously disclosed by XsunX, Inc. (the Company) in its Annual Report on Form 10-K/A for the year ended September 30, 2012, filed on January 14, 2013, the Company, in exchange for a promissory note (the Note) that had matured on September 30, 2012, issued in November 2012 a new unsecured 12% convertible promissory exchange note (the Exchange Note) for the remaining accrued principal and interest totaling \$385,863. The Exchange Note had a maturity date of September 30, 2013. On September 30, 2013, the Exchange Note had an outstanding balance of \$293,496, including accrued interest. Effective September 30, 2013, the Company and the Holder entered into an Extension and Amendment Agreement (Amendment Agreement), under which the Company issue an Amended and Restated 12% Promissory Note (the Amended Note.) The Amended Note provides for, among other things, an extension of the maturity date to September 30, 2014, and amended the conversion price to be 60% of the lowest volume weighted average price (VWAP) occurring during the twenty trading days preceding any conversion date by Holder. The balance of provisions remained substantially the same. No additional cash consideration was provided or exchanged.

Issuance of Convertible Promissory Notes

On October 16, 2013, and November 13, 2013, the Company issued securities purchase agreements to an unrelated third party providing for the sale of two 8% convertible promissory notes (the Convertible Notes) in the amount of \$37,500 and \$32,500 respectively. The Convertible Notes were issued to an existing holder under terms substantially similar to previous Convertible Notes. After one hundred and eighty days from the date consideration is provided to the Company, the Convertible Notes can be converted into shares of common stock at a conversion price of 60% of the average lowest three (3) closing bid prices for the common stock, during the ten (10) trading day period ending on the latest complete trading day prior to the conversion date. Each of the Convertible Notes mature nine months after the date of issuance. The Company has the right to redeem a portion or all amounts outstanding under the Convertible Notes prior to one hundred and eighty one days from issuance of the Convertible Notes under a variable redemption rate premium.

The securities above were offered and sold pursuant to an exemption from the registration requirements under Section 4(2) of the Securities Act of 1933, as amended (the Securities Act) and Rule 506 of Regulation D promulgated thereunder since, among other things, the transactions did not involve a public offering and the securities were acquired for investment purposes only and not with a view to or for sale in connection with any distribution thereof.

Common Stock Issued Upon Conversion of Notes

During the period of October 1, 2013 through December 30, 2013, the Company made the following unregistered issuances of securities:

The Company issued 41,299,128 shares of common stock upon conversion of the aggregate amount of \$90,858 dollars of principal and accrued interest to the holder of 12% convertible note.

The Company issued 13,973,430 shares of common stock at fair value ranging from \$0.0036 to \$0.0023 upon conversion of the aggregate amount of \$39,000 dollars of principal and accrued interest to the holder of 8% convertible notes.

The Company issued 18,050,267 shares of common stock at fair value ranging from \$0.0054 to \$0.0021 upon conversion of the aggregate amount of \$49,456 dollars of principal, interest, and original issue discount fees by the holder of a 10% convertible.

The Company issued 14,954,990 shares of common stock to the holder of a 10% convertible note upon conversion by the holder of \$26,171 dollars of principal and accrued interest thereunder.

The securities above were issued pursuant to an exemption from the registration requirements under Section 4(2) of the Securities Act since, among other things, the transactions did not involve a public offering.

Issuance of Convertible Promissory Notes for Services to Related Party

On October 1, 2013, the Company issued a total of \$48,000 in unsecured Convertible Promissory Notes (the Promissory Notes) in the amount of \$12,000 each to Board members Joseph Grimes, Tom Anderson, Dr. Michael Russak, and Oz Fundlingsland (the Holders) in exchange for their services as directors during the fiscal year ending September 30, 2014. The Promissory Notes can be converted into shares of common stock by the Holder for \$0.0045 per share. The Promissory Notes mature on October 1, 2015, and bear zero (0%) percent interest during the first 12 months from the date of issuance. If the Promissory Note is not paid in full by the Company, or through conversion by the Holder, on or before the first anniversary, a one-time interest charge of 10% shall be applied to any remaining principal sum. So long as any shares issuable under a conversion are subject to transfer and sale restrictions imposed pursuant to SEC Rule 144 of the Rules promulgated under the Securities Act of 1933, the Company shall, upon written request by Holder, file Form S-8, if applicable, with the U.S. Securities and Exchange commission to register the issued shares.

The securities above were offered and sold pursuant to an exemption from the registration requirements under Section 4(2) of the Securities Act since, among other things, the transactions did not involve a public offering.

Receipt of Additional Consideration

On November 7, 2013 the holder of 10% unsecured convertible promissory note, issued by the Company on November 7, 2012, with no outstanding accrued principal or interest elected to advance \$28,000 to the Company. Any funds advanced under the note mature one year from payment to the Company and may be converted by the Lender into shares of common stock of the Company, subject to securities compliance, at the lesser of \$.0125 per share or fifty percent (50%) of the lowest trade price in the twenty five (25) trading days prior to the conversion.

On December 10, 2013 the holder of 10% unsecured convertible promissory note, issued by the Company on December 14, 2012, with an accrued principal, interest, and original issue discount balance of \$91,667 elected to advance \$40,000 to the Company. Any funds advanced under the note mature one year from payment to the Company and may be converted by the Lender into shares of common stock of the Company, subject to securities compliance, at the lesser of \$.025 per share or sixty percent (60%) of the lowest trade price in the twenty five (25) trading days prior to the conversion.

The securities above were issued pursuant to an exemption from the registration requirements under Section 4(2) of the Securities Act since, among other things, the transactions did not involve a public offering.

Use of Proceeds from the Sale of Securities

The proceeds from the above sales of securities were and are being used primarily to fund efforts by the Company to expand operations to include the sale, design, and installation of solar electric PV systems, and in the day-to-day operations of the Company, and to pay the accrued liabilities associated with these operations.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mining and Safety Disclosures

Not Applicable

Item 5. Other information

Effective October 30, 2013, as a result of the sale by the property owner of the Irvine, California shop facility, the Company vacated the Irvine, CA shop facilities where it had been conducting assembly, testing, and marketing of its CIGSolar thin film co-evaporation technologies. The Company elected to relocate the system to a facility in La Mirada California where the system could continue to be shown to interested buyers of the system and processing technology.

After approval by the Board of Directors for the expansion of business operation the Company announced the addition of Solar PV System sales, design, and installation services to its business development efforts on October 16, 2013. The Company's CEO and President, Mr. Tom Djokovich, as a licensed contract in California since 1979 provided the Company with qualification for a California B-1 contractor's license, effective October 14, 2013, to allow the Company to promote and enter into agreements with customers interested in these new business services.

On November 1, 2013 the Company and Mr. Joseph Grimes, agreed that he would no longer provide services to the Company as executive sales manager, and agreed to retain Mr. Grimes as a business development consultant, under his company, Solar Utility Networks, LLC, (SUN) assisting the Company in its efforts to expand services to include the sales, design, and installation of solar PV systems. The services to be provided include the development of project leads, project financial analysis, conceptual project layouts and project locations, estimates for Government-based incentives, sourcing of system components, and assistance in procuring project financing. The Company has agreed to pay a commission of up to 6% on projects we enter into sales agreements that were the result of leads developed by and introduced to us by SUN. Mr. Grimes is also a Director for the Company and Mr. Grimes has agreed to act in the best interests of the Company under the agreement to provide the Company with the benefit of customer development and introduction by Mr. Grimes for the mutual benefit of both parties.

Between January 21, 2014 and January 28, 2014 the Company issued 5,322,765 shares of common stock at prices ranging from \$0.0077 to \$0.0068 upon conversion of the aggregate amount of \$39,000 dollars of principal and accrued interest to the holder of 8% convertible notes. The shares were issued in a transaction exempt from registration pursuant to Section 4(2) of the Securities Act.

Between January 13, 2014 and February 3 the Company issued 4,900,000 shares of common stock upon conversion of the aggregate amount of \$26,460 dollars of principal, interest, and original issue discount fees by the holder of a 10% convertible. The shares were issued in a transaction exempt from registration pursuant to Section 4(2) of the Securities Act.

On January 14, 2014, the Company issued a securities purchase agreement providing for the sale of an 8% convertible promissory note (the Note) in the amount of \$32,500. After one hundred and eighty days from the date of funding, the

Note can be converted into shares of common stock at a conversion price of 60% of the average lowest five (5) closing bid prices for the common stock, during the ten (10) trading day period ending on the latest complete trading day prior to the conversion date. The Note matures on October 16, 2014. The Company has the right to redeem a portion or all amounts outstanding under the Note prior to one hundred and eighty one days from issuance of the Note under a variable redemption rate premium.

On February 5, 2014 the Company and Board members Joseph Grimes, Tom Anderson, Dr. Michael Russak, and Oz Fundlingsland (the Holders), of an unsecured convertible promissory note (the Promissory Notes) in the principal amount of \$12,000 each agreed to the amendment of the conversion provisions under the Promissory Note. The conversion provisions were amended to provide for a fixed conversion price of \$0.0045 per share (the Conversion Price).

Item 6. Exhibits
