CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this Report) contains forward-looking statements. Forward-looking statements discuss matters that are not historical facts. Because they discuss future events or conditions, forward-looking statements may include words such as anticipate, believe, estimate, intend, could, should, would, might, will, expect, predict, project, forecast, potential, continue negatives thereof or similar. Forward-looking statements speak only as of the date they are made, are based on various underlying assumptions and current expectations about the future and are not guarantees. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievement to be materially different from the results of operations or plans expressed or implied by such forward-looking statements.

We cannot predict all of the risks and uncertainties. Accordingly, such information should not be regarded as representations that the results or conditions described in such statements or that our objectives and plans will be achieved and we do not assume any responsibility for the accuracy or completeness of any of these forward-looking statements. These forward-looking statements are found at various places throughout this Report and include information concerning possible or assumed future results of our operations, including statements about potential acquisition or merger targets; business strategies; future cash flows; financing plans; plans and objectives of management; any other statements regarding future acquisitions, future cash needs, future operations, business plans and future financial results, and any other statements that are not historical facts.

These forward-looking statements represent our intentions, plans, expectations, assumptions and beliefs about future events and are subject to risks, uncertainties and other factors. Many of those factors are outside of our control and could cause actual results to differ materially from the results expressed or implied by those forward-looking statements. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than we have described. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this Report. All subsequent written and oral forward-looking statements concerning other matters addressed in this Report and attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this Report.

Except to the extent required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, a change in events, conditions, circumstances or assumptions underlying such statements, or otherwise.

MOUNT KNOWLEDGE HOLDINGS, INC.

Notes to Unaudited Condensed Financial Statements

June 30, 2014

Note 1 - Business, Basis of Presentation and Significant Accounting Policies

Organization

Mount Knowledge Holdings, Inc. (**MKHD** , or the **Company**) was incorporated as Auror Capital Corp. under the laws of the State of Nevada on March 16, 2006. On January 25, 2010, the Company filed an amendment and restatement to the Articles of Incorporation of the Company with the State of Nevada, which were approved by the Board of Directors on October 20, 2009 by written consent in lieu of a special meeting in accordance with the Nevada corporation law, changing its name to Mount Knowledge Holdings, Inc. and increasing the number of authorized common and preferred shares.

At June 30, 2014 and December 31, 2013, the corporate structure of the Company consisted of only its own corporate accounts, with no ownership in any subsidiary companies.

Basis of Presentation

These unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (**US GAAP**) for interim financial statements and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature and considered necessary for a fair presentation of its financial condition and results of operations for the interim periods presented in this Quarterly Report on Form 10-Q have been included. Operating results for the interim periods are not necessarily indicative of the financial results for the full year ending December 31, 2014. These unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2013.

The accompanying unaudited interim condensed financial statements have been prepared in accordance with U.S. generally accepted accounting principles (**US GAAP**). In 2014 and 2013 the Company's functional currency is the US dollar.

Use of Estimates

In preparing these unaudited condensed financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Financial Instruments and Concentration of Risk

The fair value of financial instruments, which consist of cash, accounts payable and accrued liabilities and loans payable, were estimated to approximate their carrying values due to the immediate or relatively short maturity of these instruments. Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments.

Basic and Diluted Loss per Share

In accordance with the Accounting Standards Codification (ASC) subtopic 260-10 (formerly SFAS No. 128 Earnings Per Share), the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At June 30, 2014 and December 31, 2013, the Company had no stock equivalents that were anti-dilutive and excluded in the earnings per share computation.

Foreign Currency Translation

Mount Knowledge Holdings, Inc.'s functional currency is the U.S. dollar.

Comprehensive Income

The Company had adopted ASC220, *Reporting Comprehensive Income*, which establishes standards for reporting and displaying comprehensive income, its components, and accumulated balances in a full-set of general-purpose financial statements. The Company's accumulated other comprehensive income represents the accumulated balance of foreign currency translation adjustments.

Share-based Payments

The Company accounts for share-based payments in accordance with the authoritative guidance issued by the FASB on stock compensation, which establishes the accounting for transactions in which an entity exchanges its equity instruments for goods or services. Under the provisions of the authoritative guidance, share-based compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period). The Company estimates the fair value of share-based payments using the Black-Scholes option-pricing model. Additionally, share-based awards to non-employees are expensed over the period in which the related services are rendered at their fair value.

Related Parties

A party is considered to be related to the Company if the party directly or indirectly or through one or more intermediaries, controls, is controlled by, or is under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

Derivative Liability

Pursuant to ASC 815, *Derivatives and Hedging*, on June 30 2014 and at the end of subsequent quarterly periods, the Company recorded mark-to-market adjustments based on the fair value of the derivative liability on those dates, which resulted in a change of \$55,262 for the six months ended June 30, 2014. The fair value of the derivative liability was determined using the Black Scholes option pricing model, using the following data and assumptions:

Recently Issued Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of inception-to-date information on the statements of operations, cash flows and stockholders' equity. The amendments in ASU 2014-10 will be effective prospectively for annual reporting periods beginning after December 15, 2014, and interim periods within those annual periods, however early adoption is permitted. The Company adopted ASU 2014-10 during the quarter ended June 30, 2014, thereby no longer presenting or disclosing any information required by Topic 915.

Note 2 - Going Concern

The accompanying unaudited condensed financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has had no revenues and had a working capital deficit of \$2,104,178 and accumulated deficit of \$8,585,758 as of June 30, 2014. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to obtain financing and become successful in marketing products under the license agreement described above. Management has plans to seek additional capital through debt, and private and public offerings of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue as a going concern.

Note 3 Notes Payable

(a) During the year ended December 31, 2011, the Company entered into one securities purchase agreement (the Securities Purchase Agreement) with one party, and seven separate joinder agreements adjoining each other party to the original Securities Purchase Agreement (collectively, referred to as the Lenders), pursuant to which the Company issued a total of eight separate promissory notes in principal amounts totaling \$450,000. The notes mature one year from the closing date and accrue interest at a rate of 15% per annum on the unpaid and unconverted principal amount and such interest is payable on the maturity date. Amounts outstanding under the notes are convertible, in whole or in part, into shares of the Company's common stock at the option of the holder thereof at any time and from time to time, at a conversion price of \$0.15 per share. Subject to certain exceptions, payments due under the notes rank senior to all other indebtedness of the Company and its subsidiaries.

Under the terms of the purchase agreement, the holder of the notes is entitled to certain piggy back registration rights if at any time after the closing date the Company proposes to file a registration statement under the Securities Act of 1933, as amended (the Securities Act), with respect to an offering of its equity securities or securities or other obligations exercisable, exchangeable for, or convertible into its equity securities.

Promissory Notes

On January 11, 2012, the Company entered into a joinder agreement to the original Securities Purchase Agreement executed on September 14, 2011, pursuant to which the Company issued to Vukota Capital Management Inc., an Ontario, Canada company (the Lender), a promissory note in the principal amount of \$100,000. The note matures one

year from the closing date.

Bridge Financing - Forbearance of Promissory Notes Vukota Capital Management Inc.

On November 30, 2012, Vukota Capital Management Inc., an Ontario, Canada company (the Lender) executed a Forbearance Agreement with the Company, in which the Lender agreed, that during the period commencing on the date of execution of the Agreement and ending on and including December 31, 2013 (the "Forbearance Period"), the Lender would not file suit or take any other action to foreclose on the collateral or file suit or take any other action to enforce its rights under the Securities Purchase Agreement dated as of September 14, 2012 (as amended, supplemented or otherwise modified from time to time, including Amendment No. 1 to Securities Purchase Agreement dated on or about November 8, 2011, collectively referred to as the "Securities Purchase Agreement"), and those certain promissory notes dated as of September 14, 2012, and on subsequent dates thereafter, (as amended, supplemented or otherwise modified from time to time, all of which were joined to the Securities Purchase Agreement with the effective date of September 14, 2012, by the execution of those certain Joinder Agreements to Securities Purchase Agreement, by each and every Lender, separately (as amended, supplemented or otherwise modified from time to time, the "Joinder Agreements,") and, together with that certain Stock Pledge Agreement dated as of September 14, 2012 (as amended, supplemented or otherwise modified from time to time) by which Birch First Advisors, LLC pledged as collateral 18,261,690 common stock shares to the note holders under the securities purchase agreement. This limited forbearance does not extend to any other default or events of default under any other provision of the transaction documents or any of the other rights and remedies available to the Lender under the transaction documents.

Upon the earlier of (i) the occurrence of a forbearance default and (ii) the expiration of the Forbearance Period, the Lender s agreement to forbear shall automatically be deemed terminated and Lender shall be entitled to immediately and without notice exercise all of its rights and remedies under the credit agreements and all transaction documents.

On May 30, 2013, the Company entered into a joinder agreement to the original Securities Purchase Agreement executed on September 14, 2011, pursuant to which the Company had issued to the Dalen Family Trust, a Canadian Trust, a promissory note in the principal amount of \$40,000. The note matures one year from the Closing Date and is adjoined to the Forbearance Agreement dated November 30, 2012, extending the due date of the notes to December 31, 2013.

On March 18, 2014, Vukota Capital Management Inc. executed a Forbearance Agreement (the Forbearance) with the Company, in which the Lender agreed to extend the Forbearance Period until June 30, 2014. On March 18, 2014, Vukota Capital Management Inc. (Lender) executed a Forbearance Agreement (the Forbearance) with the Company, in which the Lender agreed to extend the Forbearance Period until June 30, 2014.

(b) On October 31, 2013, the Company issued a promissory note for \$88,750 regarding a trade payable to a creditor. The principal amount increased by \$3,703 during the quarter ended March 31, 2014. The note matures on March 31, 2014, is unsecured and bears interest at 15% per annum.

On April 10, 2014, the Company and the creditor executed a Forbearance Agreement to extend the maturity date until May 15, 2014. The Note is current past due and in default.

Note 4 Stockholders Deficit

(e) 2013 Sales of Unregistered Securities Preferred Stock

On June 18, 2013, the Company executed a Stock Purchase Agreement with an investor for the sale of 100,000 shares of the Company's Series A preferred stock at a price of \$0.20 per share, with rights and preferences as set forth in the Certificate of Designation, Preferences and Rights of Series A Preferred Stock of the Company dated on or above February 3, 2011, filed with the State of Nevada, including, but not limited to, the right to convert held preferred shares into common stock of the Company at a ratio of one-to-two, for total proceeds of \$20,000.

The number of shares of preferred stock of the Company issued to the investor pursuant to this Agreement is subject to adjustments from time to time as set forth in the Stock Purchase Agreement. Notwithstanding anything to the contrary in the Stock Purchase Agreement, if the shares of preferred stock held by the investor are converted into shares of common stock of the Company, at the option of the Investor and/or as a result of the closing of a pending transaction with Forum Mobile Inc., then the Company agrees to further adjust the total number of shares of common stock of the Company issuable to Investor in a manner which will represent a total of 1% of the post-merged entity in the proposed Forum transaction.

Note 5 Contingent Liabilities and Contractual Obligations

Definitive Agreement to Purchase Forum Mobile-Israel Ltd.

On November 13, 2012, the Board of Directors of the Company approved the execution of a non-binding Letter of Intent to purchase 100% of the ownership interest of Forum Mobile-Israel Ltd. (FM), from Forum Mobile Inc., a Delaware company publicly-traded on the US Over-the-Counter Stock Exchange (FRMB) in a share exchange merger transaction.

As a condition of the Letter of Intent, both parties agreed to keep confidential certain terms and conditions of the pending transaction, contingent upon further negotiations and execution of a Definitive Agreement, to be executed on or before December 31, 2012, with a subsequent date of closing, to be mutually agreed to by both parties.

Execution of Letter of Intent

On March 19, 2013, the Company entered into a Definitive Agreement with Forum Mobile Inc., a Delaware company publicly-traded on the US Over-the-Counter Stock Exchange (FRMB), pursuant to which the Company has agreed to purchase, from FRMB, 100% of the ownership interest in FM, in the form of a share exchange, in consideration for the issuance of common and preferred shares of the Company to FRMB, upon which FM will become a wholly owned subsidiary of the Company at closing.

The primary terms and conditions of the Agreement are as follows:

At closing,

(i)

FRMB will assign, transfer, convey and deliver the all of the outstanding shares of FM (the FM Shares) to an escrow agent, and

(ii)

in consideration and exchange therefore the Company shall issue and deliver to FRMB, a number of shares of:

(A)

common stock, par value \$0.0001 per share of the Company, equal to 4 shares of common stock of the Company, for 1 fully diluted share of common stock of the Company held by the existing stockholders of the Company immediately prior to the closing, and

(B)

Series A preferred stock, par value \$0.0001 per share of the Company, equal to 4 shares of preferred stock of the Company, for every 1 fully diluted share of preferred stock held by the existing stockholders of the Company immediately prior to the closing, in such amounts to be determined at closing.

Upon closing, FRMB will become the majority owner of the Company.

The Agreement sets forth certain closing conditions, including, but not limited to: (a) interim financing, and (b) a certain number of shares of the Company held by the Company controlling shareholder, placed into escrow, subject to certain subsequent financings, and other provisions which will be determined prior to and disclosed upon a closing. There can be no guarantee that these conditions will be met and that the transaction described above will close.

Due to unforeseen corporate changes with FM and its operations, the Company has decided to pursue other acquisition opportunities, and intends to formally withdraw from the contemplated transaction.

On May 8, 2014, the Company executed a Marketing Affiliate agreement (the "MA Agreement") with Birch First Global Investments Inc. ("Birch First Global") for the further development, marketing and sales of the ECO learning technology (the "Technology") owned by Birch First Global as a result of a prior settlement with the Company on or about December 28, 2012 (the "Settlement Date").

This MA Agreement was executed to set forth in a formal agreement the prior verbal understanding between the parties, which had been in place since the Settlement Date. The terms and conditions of the MA Agreement offers the Company the exclusive right to resell the Technology worldwide, subject to certain pricing and sales quotas, from the date of execution until December 31, 2014, with a renewal provision for one successive one year period thereafter, and other standard customary representations and warranties.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. See Cautionary Note Regarding Forward-Looking Statements.

As used in this quarterly report, the terms we, us, our, the Company Successor Company and MKHD mean Mount Knowledge Holdings, Inc., unless the context clearly requires otherwise.

General

The Company was incorporated as Auror Capital Corp. under the laws of the State of Nevada on March 16, 2006. The Company began as an exploration stage company engaged in the acquisition and exploration of mineral properties. On July 27, 2009, the Company changed its previous business plan to an educational software development and sales company.

Today, we are a software development and sales company engaged in the business of acquiring innovative and selling unique technologies. We currently have no operating subsidiaries, however, we operate from 2 major cities in the US and Canada.

On May 8, 2014, the Company executed a Marketing Affiliate agreement (the "MA Agreement") with Birch First Global Investments Inc. ("Birch First Global") for the further development, marketing and sales of the ECO learning technology (the "Technology") owned by Birch First Global as a result of a prior settlement with the Company on or about December 28, 2012 (the "Settlement Date").

This MA Agreement was executed to set forth in a formal agreement the prior verbal understanding between the parties, which had been in place since the Settlement Date. The terms and conditions of the MA Agreement offers the Company the exclusive right to resell the Technology worldwide, subject to certain pricing and sales quotas, from the date of execution until December 31, 2014, with a renewal provision for one successive one year period thereafter, and other standard customary representations and warranties.

Previously, the Company, through our wholly owned subsidiary, Mount Knowledge Asia Ltd. (MKA), acquired and operated Language Key Asia Ltd. (LKA) and the Language Key Group of companies (LK Group) which included Language Key Corporate Training Solutions Ltd. (a Hong Kong corporation, and formerly The Language Key China Ltd., established on August 21, 2002, LKCTS), The Language Key Training Ltd. (a Hong Kong corporation established on March 21, 2003, LKTR), The Language Key China Ltd. (a Wholly Owned Foreign Enterprise registered in Shanghai, China established on October 11, 2002, LKCH), and Language Key Publishing Ltd. Each of the LK Group companies were a direct, wholly owned subsidiary of LKA, providing custom business English and communications skills courses, soft skills workshops, executive coaching and other related services to public and private sector clients, including government entities in Hong Kong and other Fortune 500 corporations. We acquired LKA on December 31, 2010 and, as a result, we were no longer considered a development stage enterprise under SFAS No. 7 Accounting and Reporting by Development Stage Enterprises.

October 24, 2011, MKA sold LKA and all of its subsidiaries, except for LKTR (the LK Subsidiaries) to Software Sans Frontiere SA, a Belize corporation (SSF), for consideration representing the assumption of all of the liabilities of the LK Subsidiaries. Congruently, LKTR became a direct subsidiary of MKA. The Company s management made the decision to sell the LK Subsidiaries due to ongoing losses and failed restructuring efforts as a result of the lack of available financing for China based companies.

On February 24, 2012, we sold LKTR to SSF for consideration representing the assumption of all the liabilities of LKTR. In addition, the LK trademark and associated course training materials were returned to the original seller whose obligation was settled by the payment of \$15,000 prior to disposition. Subsequently, on December 28, 2012, we sold MKA and our US subsidiary, Mount Knowledge USA, Inc. (MTK USA), to SSF for consideration representing the assumption of all the liabilities of both MKA and MTKUSA.

On March 19, 2013, the Company entered into a Definitive Agreement with FRMB, pursuant to which the Company has agreed to purchase, from FRMB, 100% of the ownership interest in FM, in the form of a share exchange, in consideration for the issuance of common and preferred shares of the Company to FRMB, upon which FM will become a wholly owned subsidiary of the Company at closing.

The primary terms and conditions of the Agreement are as follows:

At closing,

(i) FRMB will assign, transfer, convey and deliver the all of the outstanding shares of FM (the FM Shares) to an escrow agent, and

(ii) in consideration and exchange therefore the Company shall issue and deliver to FRMB, a number of shares of:

A.)

common stock, par value \$0.0001 per share of the Company, equal to 4 shares of common stock of the Company, for 1 fully diluted share of common stock of the Company held by the existing stockholders of the Company immediately prior to the closing, and

B.)

Series A preferred stock, par value \$0.0001 per share of the Company, equal to 4 shares of preferred stock of the Company, for every 1 fully diluted share of preferred stock held by the existing stockholders of the Company immediately prior to the closing, in such amounts to be determined at closing.

Upon closing, FRMB will become the majority owner of the Company.

The Agreement sets forth certain closing conditions, including, but not limited to: (a) interim financing, and (b) a certain number of shares of the Company held by the Company controlling shareholder, placed into escrow, subject to certain subsequent financings, and other provisions which will be determined prior to and disclosed upon a closing. There can be no guarantee that these conditions will be met and that the transaction described above will close.

Due to unforeseen corporate changes with FRMB and its operations, the Company has decided to pursue other acquisition opportunities, and intends to formally withdraw from the contemplated transaction.

Corporate Structure

The Company is a platform company that was established for the purpose of acquiring and operating market-leading global technology development companies. As of June 30, 2014, the Company has no subsidiaries and operates its technology sale directly from the Company.

Plan of Operations

Over the 12-months of 2014, we must raise capital and complete certain milestones as described below.

Milestones

The Company anticipates identifying and completing one or more acquisitions and/or mergers over the next 6-12 months, beginning in the third quarter of 2014, for the purposes of obtaining operations and revenues.

Requirements and Utilization of Funds

To implement our plan of operations, including some or all of the above described milestones (objectives), we anticipate the need to continue to raise capital (equity) in an amount between \$500K and \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining approximately 6 months of 2014 on terms and conditions to be determined. Management may elect to seek subsequent interim or bridge financing in the form of debt (corporate loans) as may be necessary.

Proceed

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Operating costs and expenses

General and administrative expenses for the six months ended June 30, 2014 were \$96,352, as compared to \$500,266 for the six months ended June 30, 2013. This decrease was due to reduced operating costs. All of the general and administrative expenses for the six months ended June 30, 2014 were consulting fees to related parties.

Interest Expense

The Company incurred interest expense of \$71,541 during the six months ended June 30, 2014 compared to \$50,055 during the six months ended June 30, 2013.

Change in fair value of derivative liability

The Company incurred a loss from a change in fair value of derivative liability of \$55,262 during the six months ended June 30, 2014.

Liquidity and Capital Resources

As of June 30, 2014, we had \$8 cash. We had limited operations and revenues during the six month period ended June 30, 2014. We are illiquid and need cash infusions from investors and/or current shareholders to support our proposed marketing and sales operations.

Management believes this amount will not satisfy our cash requirements for the next 6 months and as such we will need to either raise additional proceeds and/or our officers and/or directors will need to make additional financial commitments to our company, neither of which is guaranteed. We plan to satisfy our future cash requirements, primarily the working capital required to execute on our objectives, including marketing and sales of our product, and to offset legal and accounting fees, through financial commitments from future debt/equity financings, if and when possible.

Management believes that we may generate some revenues within the next six (6) months, from acquisitions, but that these sales revenues may not satisfy our cash requirements during that period. We have no committed source for funds as of this date. No representation is made that any funds will be available when needed. In the event that funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve sales, and could fail to satisfy our future cash requirements as a result of these uncertainties.

If we are unsuccessful in raising the additional proceeds from officers and/or directors, we may then have to seek additional funds through debt financing, which would be extremely difficult for an early stage company to secure and may not be available to us. However, if such financing is available, we would likely have to pay additional costs

associated with high-risk loans and be subject to above market interest rates.

At such time as these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If we cannot raise additional proceeds via a private placement of our common stock or secure debt financing we would be required to cease business operations. As a result, investors in our common stock would lose all of their investment.

The staged development of our business will continue over the next six months. Other than engaging and/or retaining independent consultants to assist the Company in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next 6 months unless we obtain additional capital to pay our expenses. This is because we have not generated any revenues and no substantial revenues are anticipated in the near-term. Accordingly, we must raise cash from sources other than from the sale of our products.

Cash Flows

The following table summarizes the cash flows for the six month periods ended June 30, 2014 and 2013:

	SIX MONTHS ENDED JUNE 30 ,	
	2014	2013
	\$	\$
Net cash used in operating activities	-	(62,325)
Net cash (used in) investing activities	-	2,500
Net cash provided by financing activities	-	80,000
Effect of exchange rate changes on cash	-	-
	\$	\$
Cash and Cash Equivalents, at end of period	8	20,408

We anticipate that we will incur a minimum of \$50,000 for operating expenses in the next quarter. Accordingly, we will need to obtain additional financing in order to complete our business plan.

Cash Used In Operating Activities

We used cash in operating activities in the amount of \$(0) during the six month period ended June 30, 2014 and \$(62,325) during the six month period ended June 30, 2013. Cash used in operating activities was funded by cash from operating revenues and financing activities.

Cash from Investing Activities

We received cash in investment activities in the amount of \$0 during the six month period ended June 30, 2014 and used \$2,500 cash in investing activities during the six month period ended June 30, 2013.

Cash from Financing Activities

We generated \$0 and \$80,000 cash from financing activities during the six month period ended June 30, 2014 and June 30, 2013.

For the period from January 1, 2009 through June 30, 2014, the Company incurred net losses aggregating \$11,735,424. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should our company be unable to continue as a going concern.

Due to the uncertainty of our ability to meet our future operating expenses and the capital expenses in the report on the financial statements for the year period ended December 31, 2013, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned activities. There is no assurance that the Company will be able to obtain financing to carry on our legal, accounting and reporting needs.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Application of Critical Accounting Estimates

The financial statements of our company have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have been prepared within the framework of the significant accounting policies summarized below:

a)

Exploration Stage Activities and Mineral Property Interests

Until abandonment of its mineral property on January 23, 2009, the Company was an exploration stage mining company and had not realized any revenue from its operations. It was primarily engaged in the acquisition, exploration and development of mining properties.

b)

Financial Instruments and Concentration of Risk

The fair value of financial instruments, which consist of cash, and accounts payable and accrued liabilities, were estimated to approximate their carrying values due to the immediate or relatively short maturity of these instruments.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments.

c)

Basic and Diluted Loss per Share

In accordance with ASC Topic 260, Earnings Per Share (formerly SFAS 128), the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings per share excludes all dilutive potential shares if their effect is anti-dilutive.

The Company accounts for common stock purchase warrants at fair value in accordance with EITF 00-19, Accounting for Derivative Financial Instruments Indexed to and Practically Settled in, a Company's Own Stock, (codified in ASC 815, *Derivatives and Hedging*). The Black-Scholes option pricing valuation method is used to determine fair value of these warrants. Use of this method requires that the Company make assumptions regarding stock volatility, dividend yields, expected term of the warrants and risk-free rates.

d)

Foreign Currency Translation

The Company's functional currency is now the U.S. dollar.

While Language Key Asia Ltd. presents its consolidated financial results and accompanying notes in U.S. dollar terms, its functional currency for its operations in The People's Republic of China (PRC) is the Chinese Renminbi, and its functional currency for its operations in Hong Kong is the Hong Kong dollar.

Transactions in Renminbi and Hong Kong dollars are translated into U.S. dollars as follows:

i)

monetary items at the exchange rate prevailing at the balance sheet date;

ii)

non-monetary items at the historical exchange rate;

iii)

revenue and expense at the average rate in effect during the applicable accounting period.

Translation adjustments resulting from this process are recorded in Stockholders' Equity as a component of Accumulated Other Comprehensive Income (Loss). Gains and losses arising on translation or settlement of foreign

currency denominated transactions or balances are recorded in the Statement of Operations.

e)

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Actual results may differ from the estimates.

f)

Impairment of Long-Lived Assets

Impairment losses on long-lived assets used in operations are recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. In such cases, the amount of the impairment is determined based on the relative fair values of the impaired assets.

g)

Treasury Stock

Common stock repurchases are recorded as treasury stock at cost.

On forward stock split-ups, the number of all common shares disclosed in the financial statements is adjusted to give retroactive effect to such recapitalizations.

Recent Accounting Pronouncements

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on its financial position, results of operations or cash flows.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Smaller reporting companies are not required to provide the disclosure required by this item.

Item 4. Controls and Procedures.

Under the supervision and with the participation of management, our management evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act) as of the end of the period covered by this by this Report. Based upon that evaluation, the Chief Executive Officer, Principal Accounting Officer and Principal Financial Officer concluded that, as of the end of the period covered by this Report, our disclosure controls and procedures were not effective due to the following:

1.

The Company lacks an audit committee with an independent financial expert.

2.

The Company's accounting department lacks sufficient employees to maintain a segregation of duties.

Remediation of Material Weaknesses in Internal Control over Financial Reporting

1.

The Company is planning to form an audit committee and hopes to do so within the next fiscal year.

2.

The Company is planning to hire a controller and any necessary additional accounting personnel necessary to mitigate these issues.

Changes in Internal Control over Financial Reporting

During the quarter ended June 30, 2014, there were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

ITEM 1A. RISK FACTORS.

Smaller reporting companies are not required to provide the disclosure required by this item.
