FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

COMMISSION FILE NUMBER 1-1361

Tootsie Roll Industries, Inc.

(Exact Name of Registrant as Specified in its Charter)

VIRGINIA 22-1318955
(State of Incorporation) (I.R.S. Employer Identification No.)

7401 South Cicero Avenue, Chicago, Illinois 60629
(Address of Principal Executive Offices) (Zip Code)

773-838-3400

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files)
Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

Large accelerated filer

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)
Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date (June 30, 2017).

Class	Outstanding
Common Stock, \$.69 4/9 par value	38,318,644
Class B Common Stock, \$.69 4/9 par value	24,917,660

TOOTSIE ROLL INDUSTRIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2017

(in thousands except per share amounts) (Unaudited)

Note 1 — Significant Accounting Policies

General Information

Foregoing data has been prepared from the unaudited financial records of Tootsie Roll Industries, Inc. (the Company) and in the opinion of management all adjustments, which are of a normal recurring nature, necessary for a fair statement of the results for the interim period have been reflected. Certain amounts previously reported have been reclassified to conform to the current year presentation. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the related notes included in the Company's Form 10-K for the year ended December 31, 2016 (the "2016 Form 10-K").

Results of operations for the period ended June 30, 2017 are not necessarily indicative of results to be expected for the year to end December 31, 2017 because of the seasonal nature of the Company's operations. Historically, the third quarter has been the Company's largest sales quarter due to pre-Halloween sales.

Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09 that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within that reporting period.

The Company is currently evaluating the new guidance to determine the impact it may have on the consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01 which modifies certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. This standard is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, and early adoption is permitted. The Company is currently evaluating the new guidance to determine the impact it may have on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02 which amends existing guidance to require lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by long-term leases and to disclose additional quantitative and qualitative information about leasing arrangements. This ASU also provides clarifications surrounding the presentation of the effects of leases in the income statement and statement of cash flows. This guidance will be effective for the Company on January 1, 2019. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements.

In April 2016, the FASB issued ASU 2016-10, which contains amendments to the new revenue recognition standard on identifying performance obligations and accounting for licenses of intellectual property. The amendments related to identifying performance obligations clarify when a promised good or service is separately identifiable and allows entities to disregard items that are immaterial in the context of a contract. The licensing implementation amendments clarify how an entity should evaluate the nature of its promise in granting a license of intellectual property, which will determine whether revenue is recognized over time or at a point in time. This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within that reporting period. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements.

Table of Contents

In August 2016, the FASB issued ASU 2016-15, which includes amendments addressing eight specific cash flow issues with the objective of reducing the existing diversity in practice. The effective date of the amendments to the standard is for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, which requires employers who offer defined benefit and postretirement benefit plans to report the service cost component in the same line item as other compensation costs arising from services rendered by employees during the reporting period. The other components of net benefit costs will be presented in the income statement separately from the service cost and outside of a subtotal of income from operations. In addition, only the service cost component may be eligible for capitalization where applicable. This guidance is effective for annual periods beginning after December 15, 2017. The Company is currently evaluating this new guidance to determine the impact it will have on its consolidated financial statements.

Recently Adopted Pronouncements

In November 2015, the FASB issued ASU 2015-17 which simplifies the presentation of deferred income taxes by requiring that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position. This guidance was adopted on January 1, 2017 on a prospective basis. Prior period balances have not been adjusted.

Note 2 — Average Shares Outstanding

The average number of shares outstanding for six months 2017 reflects stock purchases of 536 shares for \$20,140 and a 3% stock dividend of 1,850 shares distributed on April 17, 2017. The average number of shares outstanding for six months 2016 reflects stock purchases of 283 shares for \$9,166 and a 3% stock dividend of 1,819 shares distributed on April 8, 2016.

Note 3 — Income Taxes

The Company is subject to taxation in the U.S. and various state and foreign jurisdictions. The Company remains subject to examination by U.S. federal and state and foreign tax authorities for the years 2013 through 2015. With few exceptions, the Company is no longer subject to examination by tax authorities for the year 2012 and prior. The consolidated effective tax rates were 27.4% and 33.0% in second quarter 2017 and 2016, respectively, and 28.3% and 31.9% in first half 2017 and 2016, respectively. The lower effective tax rate in second quarter and first half 2017 compared to second quarter and first half 2016 principally reflects certain benefits resulting from filing amended federal and state income tax returns, including a state income tax carry forward.

Note 4 — Fair Value Measurements

Current accounting guidance defines fair value as the price that would be received on the sale of an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Guidance requires disclosure of the extent to which fair value is used to measure financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. Guidance establishes a three-level valuation hierarchy based upon the transparency of inputs utilized in the measurement and valuation of financial assets or liabilities as of the measurement date. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, foreign currency exchange rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's own judgments about the assumptions market participants would use in pricing the asset or liability. The use of observable and unobservable inputs is reflected in the hierarchy assessment disclosed in the table below.

Table of Contents

As of June 30, 2017, December 31, 2016 and June 30, 2016, the Company held certain financial assets that are required to be measured at fair value on a recurring basis. These included derivative hedging instruments related to the purchase of certain raw materials and foreign currencies, investments in trading securities and available for sale securities. The Company's available for sale securities principally consist of corporate and municipal bonds that are publicly traded and variable rate demand notes with interest rates that generally reset weekly and the security can be "put" back and sold weekly. Trading securities principally consist of equity mutual funds that are publicly traded.

The following table presents information about the Company's financial assets and liabilities measured at fair value as of June 30, 2017, December 31, 2016 and June 30, 2016 and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

	Estimated Fair Value June 30, 2017			
	Total	Input Levels Used		
	Fair Value	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 57,804	\$ 57,804	\$ -	\$ -

Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

Total assets measured at fair value	\$ 313,617	\$ 160,917	\$ 152,700	\$ -
-------------------------------------	------------	------------	------------	------

The fair value of the Company's industrial revenue development bonds at June 30, 2017, December 31, 2016 and June 30, 2016 were valued using Level 2 inputs which approximates the carrying value of \$7,500 for the respective periods. Interest rates on these bonds are reset weekly based on current market conditions.

Note 5 — Derivative Instruments and Hedging Activities

The Company uses derivative instruments, including foreign currency forward contracts, commodity futures contracts and commodity option contracts, to manage its exposures to foreign exchange and commodity prices. Commodity futures contracts and most commodity option contracts are intended and effective as hedges of market price risks associated with the anticipated purchase of certain raw materials (primarily sugar). Foreign currency forward contracts are intended and effective as hedges of the Company's exposure to the variability of cash flows, primarily related to the foreign exchange rate changes of products manufactured in Canada and sold in the United States. The Company does not engage in trading or other speculative use of derivative instruments.

The Company recognizes all derivative instruments as either assets or liabilities at fair value in the Condensed Consolidated Statement of Financial Position. Derivative assets are recorded in other receivables and derivative liabilities are recorded in accrued liabilities. The Company uses either hedge accounting or mark-to-market accounting for its derivative instruments. Derivatives that qualify for hedge accounting are designated as cash flow hedges by formally documenting the hedge relationships, including identification of the hedging instruments, the hedged items and other critical terms, as well as the Company's risk management objectives and strategies for undertaking the hedge transaction.

Changes in the fair value of the Company's cash flow hedges are recorded in accumulated other comprehensive loss, net of tax, and are reclassified to earnings in the periods in which earnings are affected by the hedged item. Substantially all amounts reported in accumulated other comprehensive loss for commodity derivatives are expected to be reclassified to cost of goods sold. Substantially all amounts reported in accumulated other comprehensive loss for foreign currency derivatives are expected to be reclassified to other income, net.

The following table summarizes the Company's outstanding derivative contracts and their effects on its Condensed Consolidated Statements of Financial Position at June 30, 2017, December 31, 2016 and June 30, 2016:

	June 30, 2017		
	Notional Amounts	Assets	Liabilities
Derivatives designated as hedging instruments:			
Foreign currency forward contracts	\$ 3,200	\$ 83	\$ -
Commodity futures contracts	12,543	74	(422)
Total derivatives		\$ 157	\$ (422)
	December 31, 2016		

Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

	Notional Amounts	Assets	Liabilities
Derivatives designated as hedging instruments:			
Foreign currency forward contracts	\$ 2,357	\$ -	\$ (119)
Commodity futures contracts	10,811	1,932	(186)
Total derivatives		\$ 1,932	\$ (305)

	June 30, 2016 Notional Amounts	Assets	Liabilities
Derivatives designated as hedging instruments:			
Foreign currency forward contracts	\$ 9,010	\$ -	\$ (911)
Commodity futures contracts	11,631	2,664	(3)
Total derivatives		\$ 2,664	\$ (914)

Table of Contents

The effects of derivative instruments on the Company's Condensed Consolidated Statements of Earnings and Retained Earnings and the Condensed Consolidated Statements of Comprehensive Earnings for periods ended June 30, 2017 and June 30, 2016 are as follows:

	For Quarter Ended June 30, 2017		
	Gain (Loss) Recognized in OCI	Gain (Loss) Reclassified from Accumulated OCI into Earnings	Gain (Loss) on Amount Excluded from Effectiveness Testing Recognized in Earnings
Foreign currency forward contracts	\$ 125	\$ (29)	\$ -

Total	\$ 3,123	\$ (983)	\$ -

Table of Contents

Note 6 — Pension Plans

During 2017 and 2016, the Company received updated notices that the Bakery, Confectionery, Tobacco Workers and Grain Millers International Union Pension Plan (Plan), a multi-employer defined benefit pension plan for certain Company union employees, is in “critical and declining status”, as defined by the Pension Protection Act (PPA) and the Pension Benefit Guaranty Corporation (PBGC), and that the Plan is projected to become insolvent in 13 years. The Company has been advised that its withdrawal liability would have been \$72,700 if it had withdrawn from the Plan during 2016. Should the Company actually withdraw from the Plan at a future date, a withdrawal liability, which could be higher than the above discussed amount, could be payable to the Plan.

The Company is currently unable to determine the ultimate outcome of the above discussed matter and therefore, is unable to determine the effects on its consolidated financial statements, but the ultimate outcome or the effects of any modifications to the current rehabilitation plan could be material to its consolidated results of operations or cash flows in one or more future periods. See also the Company’s Consolidated Financial Statements and related notes and Management’s Discussion and Analysis of Financial Condition and Results of Operations incorporated into the Company’s 2016 Form 10-K.

Table of Contents

Note 8 — Restricted Cash

Restricted cash comprises certain cash deposits of the Company's majority-owned Spanish companies with international banks that are pledged as collateral for letters of credit and bank borrowings.

Note 9 — Bank Loans

Long term bank loans comprise borrowings by the Company's majority-owned Spanish companies which are held by international banks. The interest rate at June 30, 2017 and 2016 was 2.0 % and 2.2%, respectively, and maturity dates range from 1 to 2 years for both periods. Short term bank loans also relate to the Company's majority-owned Spanish companies.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This financial review discusses the Company's financial condition, results of operations, liquidity and capital resources and other matters. Dollars are presented in thousands, except per share amounts. This review should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and related notes included in this Form 10-Q and with the Company's Consolidated Financial Statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Form 10-K for the year ended December 31, 2016 (the "2016 Form 10-K").

Net product sales were \$104,897 in second quarter 2017 compared to \$104,259 in second quarter 2016, an increase of \$638 or 0.6%. First half 2017 net product sales were \$208,322 compared to \$207,621 in first half 2016, an increase of \$701 or 0.3%. The timing of sales to certain customers as well as currency translation of foreign sales had some adverse impact on second quarter and first half 2017 sales compared to the prior year corresponding periods.

Product cost of goods sold were \$65,259 in second quarter 2017 compared to \$65,009 in second quarter 2016, and first half 2017 product cost of goods sold were \$130,675 compared to \$130,833 in first half 2016. Product cost of goods sold includes \$498 and \$281 of certain deferred compensation expenses in second quarter 2017 and 2016, respectively, and \$1,285 and \$294 of certain deferred compensation expenses in first half 2017 and 2016, respectively. These deferred compensation expenses principally result from the changes in the market value of investments and investment income from trading securities relating to compensation deferred in previous years and are not reflective of

current operating results. Adjusting for the aforementioned, product cost of goods sold increased from \$64,728 in second quarter 2016 to \$64,761 in second quarter 2017, an increase of \$33 or 0.1%; but decreased from \$130,539 in first half 2016 to \$129,390 in first half 2017, a decrease of \$1,149 or 0.9%. As a percentage of net product sales, adjusted product cost of goods sold was 61.7% and 62.1% in second quarter 2017 and 2016, respectively, a favorable decrease of 0.4%; and adjusted product cost of goods sold was 62.1% and 62.9% in first half 2017 and 2016, respectively, a favorable decrease of 0.8%. Adjusted cost of goods sold as a percent of sales benefited from continuing improvements in manufacturing operating efficiencies driven by capital improvements and ongoing cost containment programs. However, adjusted costs of goods sold in prior year second quarter and first half 2016 were adversely affected by higher manufacturing costs relating to uncertainties surrounding certain changes in state and national product labeling. The aforementioned reflects the adverse effects of lower production volumes and inventory reductions which resulted in reduced efficiencies during second quarter and first half 2016.

Selling, marketing and administrative expenses were \$26,429 in second quarter 2017 compared to \$25,618 in second quarter 2016, and first half 2017 selling, marketing and administrative expenses were \$53,027 compared to \$49,671 in first half 2016. Selling, marketing and administrative expenses includes \$1,319 and \$787 of certain deferred compensation expenses in second quarter 2017 and 2016, respectively, and \$3,414 and \$827 of certain deferred compensation expenses in first half 2017 and 2016, respectively. As discussed above, these expenses principally result from changes in the market value of investments and investment income from trading securities relating to compensation deferred in previous years, and are not reflective of current operating results. Adjusting for the aforementioned, selling, marketing and administrative expenses increased from \$24,831 in second quarter 2016 to \$25,110 in second quarter 2017, an increase of \$279 or 1.1%; and selling, marketing and administrative expenses increased from \$48,844 in first half 2016 to \$49,613 in first half 2017, an increase of \$769 or 1.6%. As a percentage

Table of Contents

of net product sales, adjusted selling, marketing and administrative expenses increased from 23.8% in second quarter 2016 to 23.9% in 2017, an unfavorable increase of 0.1% as a percent of net sales, and selling, marketing and administrative expenses increased from 23.5% in first half 2016 to 23.8% in first half 2017, an unfavorable increase of 0.3% as a percent of net sales. Additional expenses relating to changes in product labeling requirements contributed to these higher expenses in second quarter and first half 2017. Selling, marketing and administrative expenses include \$9,409 and \$9,459 for freight, delivery and warehousing expenses in second quarter 2017 and 2016, respectively, and \$19,076 and \$18,645 for freight, delivery and warehousing expenses in first half 2017 and 2016, respectively. These expenses were 9.0% and 9.1% of net product sales in second quarter 2017 and 2016, respectively, and 9.2% and 9.0% of net product sales in first half 2017 and 2016, respectively.

Earnings from operations were \$13,857 in second quarter 2017 compared to \$14,297 in second quarter 2016, and were \$26,032 in first half 2017 compared to \$28,513 in first half 2016. Earnings from operations include \$1,817 and \$1,068 of certain deferred compensation expenses in second quarter 2017 and 2016, respectively, and include \$4,699 and \$1,121 of certain deferred compensation expenses in first half 2017 and 2016, respectively, which are discussed above. Adjusting for these deferred compensation costs and expenses, operating earnings were \$15,674 and \$15,365 in second quarter 2017 and 2016, respectively, an increase of \$309 or 2.0%; and adjusted operating earnings were \$30,731 and \$29,634 in first half 2017 and 2016, respectively, an increase of \$1,097 or 3.7%. As a percentage of net product sales, these adjusted operating earnings were 14.9% and 14.7% in second quarter 2017 and 2016, respectively, a favorable increase of 0.2% as a percentage of net product sales; and as a percentage of net product sales, these adjusted operating earnings were 14.8% and 14.3% in first half 2017 and 2016, respectively, a favorable increase of 0.5% as a percentage of net product sales. These increases as a percentage of net product sales principally reflects the benefits of improved plant operating efficiencies and ongoing cost containment programs in second quarter and first half 2017. Increased aggregate operating losses from foreign operations in second quarter and first half 2017 also adversely affected adjusted consolidated operating earnings in second quarter and first half 2017. Management believes the presentation in this and the preceding paragraphs relating to amounts adjusted for deferred compensation expense are more reflective of the underlying operations of the Company.

Other income, net was \$2,465 in second quarter 2017 compared to \$2,239 in second quarter 2016, a favorable increase of \$226; and other income, net, was \$4,444 in first half 2017 compared to \$2,204 in first half 2016, a favorable increase of \$2,240. Other income, net for second quarter 2017 and 2016 includes net gains and investment income of \$1,817 and \$1,068, respectively, on trading securities which provide an economic hedge of the Company's deferred compensation liabilities; and other income, net for first half 2017 and 2016 includes net gains and investment income of \$4,699 and \$1,121, respectively, on trading securities relating to these programs. These changes in trading securities were substantially offset by a like amount of deferred compensation expense included in product cost of goods sold and selling, marketing, and administrative expenses in the respective periods as discussed above. Other income, net includes gains (losses) on foreign exchange of \$(64) and \$645 in second quarter 2017 and 2016, respectively, and \$(1,610) and \$10 in first half 2017 and 2016, respectively.

The consolidated effective tax rates were 27.4% and 33.0% in second quarter 2017 and 2016, respectively, and 28.3% and 31.9% in first half 2017 and 2016, respectively. The lower effective tax rates in second quarter and first half 2017 compared to second quarter and first half 2016 principally reflect certain benefits resulting from filing amended federal and state income tax returns, including a state income tax carry forward benefit.

Net earnings attributable to Tootsie Roll Industries, Inc. were \$11,895 (after \$45 net loss attributed to non-controlling interests) in second quarter 2017 compared to \$11,136 (after \$62 net loss attributed to non-controlling interests) in second quarter 2016, and earnings per share were \$0.19 and \$0.17 in second quarter 2017 and 2016, respectively, an increase of \$0.02 per share, or 12%. First half 2017 net earnings attributable to Tootsie Roll Industries, Inc. were \$21,946 (after \$85 net loss attributed to non-controlling interests) compared to first half 2016 net earnings of \$21,032 (after \$102 net earnings attributed to non-controlling interests), and net earnings per share were \$0.35 and \$0.33 in first half 2017 and first half 2016, respectively, an increase of \$0.02 per share or 6%. Higher net earnings for second quarter and first half 2017 were principally the result of lower effective state and federal income tax rates and improved adjusted operating earnings as discussed above, but were adversely affected by unfavorable foreign exchange as discussed above. Earnings per share attributable to Tootsie Roll Industries, Inc. for second quarter and first half 2017 did benefit from the reduction in average shares outstanding resulting from purchases in the open market by the Company of its common stock. Average shares outstanding decreased from 64,274 in second quarter 2016 to 63,270 in second quarter 2017, and from 64,313 in first half 2016 to 63,439 in first half 2017.

Table of Contents

Goodwill and intangibles are assessed annually as of December 31 or whenever events or circumstances indicate that the carrying values may not be recoverable from future cash flows. The Company has not identified any triggering events, as defined, or other adverse information that would indicate a material impairment of its goodwill or intangibles in first half 2017. There were also no impairments in the comparative first half 2016 period or calendar 2016.

Beginning in 2012, the Company received periodic notices from the Bakery, Confectionery, Tobacco Workers and Grain Millers International Union Pension Plan (Plan), a multi-employer defined benefit pension plan for certain Company union employees, that the Plan's actuary certified the Plan to be in "critical status", the "Red Zone", as defined by the Pension Protection Act (PPA) and the Pension Benefit Guaranty Corporation (PBGC), and that a plan of rehabilitation was adopted by the trustees of the Plan in 2012 (and was further amended in 2016). During 2015, the Company received notices that the Plan's status was changed to "critical and declining status", as defined by the PPA and PBGC, for the plan year beginning January 1, 2015, and that the Plan was projected to have an accumulated funding deficiency for the 2017 through 2024 plan years. A designation of "critical and declining status" implies that the Plan is expected to become insolvent in the next 20 years. In April 2017, the Company received new notices that the Plan remains in "critical and declining status" and is projected to become insolvent in 13 years. These notices also advise that the Plan trustees are considering the reduction or elimination of certain retirement benefits and may seek assistance from the PBGC.

Based on these updated notices, the Plan's funded percentages (plan investment assets as a percentage of plan liabilities), as defined, were 57.0%, 62.8% and 65.1% as of January 1, 2016 (most recent valuation date available), 2015, and 2014, respectively (these valuation dates are as of the beginning of each Plan year). These funded percentages are based on actuarial values, as defined, and do not reflect the actual market value of Plan investments as of these dates. If the market value of investments had been used as of January 1, 2016, the funded percentage would be 53.0% (not 57.0%). As of the January 1, 2016 valuation date (most recent valuation available), 20% of Plan participants were current active employees, 51% were retired or separated from service and receiving benefits, and 29% were retired or separated from service and entitled to future benefits. The number of current active employee Plan participants as of January 1, 2016 fell 2% from the previous year and 4% over the past two years. When compared to the Plan valuation date of January 1, 2011 (five years earlier), current active employees participants have declined 31%, whereas participants who were retired or separated from service and receiving benefits increased 6% and participants who were retired or separated from service and entitled to future benefits increased 8%. The bankruptcy of a major participating employer in the Plan contributed to the above discussed Plan results.

The Company has been advised that its withdrawal liability would have been \$72,700, \$61,000 and \$56,400 if it had withdrawn from the Plan during 2016, 2015 and 2014, respectively. The increase from 2015 to 2016 principally reflects poor investment returns of the plan in 2015, a decrease in the PBGC interest rates, and a higher share of the Plan's unfunded vested benefits allocated to the Company. Based on the above, including the Plan's projected insolvency in 13 years, management believes that the Company's withdrawal liability will likely increase further in future years. Based on the Company's actuarial study and certain provisions in ERISA and the law relating to withdrawal liability payments, management believes that the Company's liability would likely be limited to twenty annual payments of \$2,914 which have a present value in the range of \$34,200 to \$44,700. The aforementioned is

based on a range of valuation interest rates which management understands is provided under the statute. Should the Company actually withdraw from the Plan at a future date, a withdrawal liability, which could be higher than the above discussed amounts, could be payable to the Plan.

The Company's existing labor contract with the local union commits the Company's participation in this Plan through third quarter 2017. The amended rehabilitation plan, which continues, requires that employer contributions include 5% compounded annual surcharge increases each year for an unspecified period of time beginning in 2012 as well as certain plan benefit reductions. The Company's pension expense for this Plan for calendar years 2016 and 2015 was \$2,541 and \$2,574, respectively. The aforementioned expense includes surcharges of \$542 and \$447 in calendar years 2016 and 2015, respectively, as required under the plan of rehabilitation as amended. The Company's pension expense for this Plan for first half 2017 and 2016 was \$1,368 and \$1,186 respectively, which includes surcharges of \$343 and \$253 respectively.

The Company is currently unable to determine the ultimate outcome of the above discussed matter and therefore, is unable to determine the effects on its consolidated financial statements, but the ultimate outcome or the effects of any

Table of Contents

modifications to the current rehabilitation plan could be material to its consolidated results of operations or cash flows in one or more future periods. See also the Company's Consolidated Financial Statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's 2016 Form 10-K.

LIQUIDITY AND CAPITAL RESOURCES

Net cash flows provided by operating activities were \$8,379 and \$21,648 in first half 2017 and 2016, respectively, a decrease of \$13,269. The decrease in first half 2017 cash flows from operating activities principally reflects the timing of sales and collections of account receivables, the effects of higher finished goods inventories reflecting changes in the annual production plans, the timing of payments of income taxes, and changes in other receivables primarily due to increased broker margin deposit requirements on commodity hedges.

Net cash used in investing activities was \$39,658 in first half 2017 compared to \$34,601 in first half 2016. Cash flows from investing activities reflect \$40,622 and \$34,826 of purchases of available for sale securities during first half 2017 and 2016, respectively, and \$10,985 and \$12,777 of sales and maturities of available for sale securities during first half 2017 and 2016, respectively. First half 2017 and 2016 investing activities include capital expenditures of \$7,427 and \$10,389, respectively. All capital expenditures in 2017 are expected to be funded from the Company's cash flow from operations and internal sources. In addition, Company management has committed approximately \$15,000 to a manufacturing plant rehabilitation upgrade and expansion of one of its manufacturing facilities in the U.S.A. Management anticipates capital outlays for this project to approximate \$2,000 in 2017, \$9,000 in 2018, \$2,000 in 2019 and \$2,000 in 2020.

The Company's consolidated financial statements include bank borrowings of \$334 and \$622 at June 30, 2017 and 2016, respectively, all of which relates to its two majority-owned and controlled Spanish companies. The Company had no other outstanding bank borrowings at June 30, 2017.

Financing activities include Company common stock purchases and retirements of \$20,140 and \$9,166 in first half 2017 and 2016, respectively. Cash dividends of \$11,282 and \$11,077 were paid in first half 2017 and 2016, respectively.

The Company's current ratio (current assets divided by current liabilities) was 4.1 to 1 at June 30, 2017 compared to 4.7 to 1 at December 31, 2016 and 3.9 to 1 at June 30, 2016. Net working capital was \$203,192 at June 30, 2017 compared to \$235,739 and \$195,016 at December 31, 2016 and June 30, 2016, respectively.

The aforementioned net working capital amounts are principally reflected in aggregate cash and cash equivalents and short-term investments of \$129,744 at June 30, 2017 compared to \$186,658 and \$124,936 at December 31, 2016 and June 30, 2016, respectively. In addition, long term investments, principally debt securities comprising corporate and municipal bonds were \$196,308 at June 30, 2017, as compared to \$164,665 and \$186,931 at December 31, 2016 and June 30, 2016, respectively. Aggregate cash and cash equivalents and short and long-term investments were \$326,052, \$351,323, and \$311,867, at June 30, 2017, December 31, 2016 and June 30, 2016, respectively. The aforementioned includes \$75,265, \$67,995, and \$63,866 at June 30, 2017, December 31, 2016 and June 30, 2016, respectively, relating to trading securities which are used as an economic hedge for the Company's deferred compensation liabilities. Investments in corporate and municipal bonds, variable rate demand notes, and other debt securities that matured during first half 2017 and 2016 were generally used to purchase the Company's common stock or were replaced with debt securities of similar maturities.

The Company periodically contributes to a VEBA trust, managed and controlled by the Company, to fund the estimated future costs of certain employee health, welfare and other benefits. The Company is currently using these VEBA funds to pay the actual cost of such benefits through a portion of 2017. The VEBA trust held \$1,305, \$3,027 and \$4,635 of aggregate cash and cash equivalents at June 30, 2017, December 31, 2016 and June 30, 2016, respectively. This asset value is included in prepaid expenses in the Company's Consolidated Statement of Financial Position. These assets are categorized as Level 1 within the fair value hierarchy. The Company is planning to make a contribution to this VEBA in the range of \$10,000 to \$15,000 in fourth quarter 2017. This contribution would result in the prepayment of these employee benefits.

ACCOUNTING PRONOUNCEMENTS

See Note 1 of the Company's condensed consolidated financial statements.

RISK FACTORS

There were no material changes to the risk factors disclosed in the Company's 2016 Form 10-K.

FORWARD-LOOKING STATEMENTS

This discussion and certain other sections contain forward-looking statements that are based largely on the Company's current expectations and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the use of words such as "anticipated," "believe," "expect," "intend," "estimate," "project," "plan" and other words of similar meaning in connection with a discussion of future operating or financial performance and are subject to certain factors, risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in the forward-looking statements. Such factors, risks, trends and uncertainties, which in some instances are beyond the Company's control, include the overall competitive environment in the Company's industry, changes in assumptions and judgments discussed above under the heading "Significant Accounting Policies and Estimates," and factors identified and referred to above under the heading "Risk Factors."

The risk factors identified and referred to above are believed to be significant factors, but not necessarily all of the significant factors that could cause actual results to differ from those expressed in any forward-looking statement. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made only as of the date of this report. The Company undertakes no obligation to update such forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to various market risks, including fluctuations in and sufficient availability of sugar, corn syrup, edible oils, including palm oils, cocoa, dextrose, milk and whey, and gum-base input ingredients and packaging, and fuel costs principally relating to freight and delivery fuel surcharges. The Company is exposed to exchange rate fluctuations in the Canadian dollar which is the currency used for a portion of the raw material and packaging material costs and all labor, benefits and local plant operating costs at its Canadian plants. The Company is

exposed to exchange rate fluctuations in Mexico, Canada, and Spain where its subsidiaries sell products in their local currencies. The Company invests in securities with maturities dates of up to approximately three years which are generally held to maturity, and variable rate demand notes where interest rates are generally reset weekly, all of which limits the Company's exposure to interest rate fluctuations. There have been no material changes in the Company's market risks that would significantly affect the disclosures made in the Form 10-K for the year ended December 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of management, the Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2017 and, based on their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures are effective. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes the Company's purchases of its common stock during the quarter ended June 30, 2017:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	Shares Purchased as Part of Publicly Announced Plans Or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Apr 1 to Apr 30	86,343	\$ 37.74	Not Applicable	Not Applicable
May 1 to May 31	182,007	36.34	Not Applicable	Not Applicable
Jun 1 to Jun 30	7,721	35.22	Not Applicable	Not Applicable
Total	276,071	\$ 36.74	Not Applicable	Not Applicable

While the Company does not have a formal or publicly announced stock purchase program, the Company's board of directors periodically authorizes a dollar amount for share purchases. The treasurer executes share purchase transactions according to these guidelines.
