CORPORATE GOVERNANCE

Board of Directors and Committees of the Board

Our Board of Directors, elected by the stockholders, is the ultimate decision-making body of the Company, except with respect to those matters reserved to the stockholders. The Board acts as an advisor and counselor to executive

management and oversees and monitors its performance.

6

Our Board of Directors held eleven meetings during 2017. Each director attended either in person or via teleconference at least 75% of the aggregate of all Board and applicable committee meetings during fiscal 2017 for the period in which they served as director. Although we do not have a formal policy regarding attendance by members of the Board of Directors at our annual meeting of stockholders, directors are encouraged to attend our annual meetings. None of our current directors attended our annual meeting of stockholders in 2017.

Our Board of Directors has established four standing committees: an Audit Committee; a Compensation Committee; a Governance and Nominating Committee; and a Mergers and Acquisitions Committee. Each of these committees has adopted a written charter.

Audit Committee. Our Audit Committee is comprised of three members: Messrs. Campbell, Gulko and Szabo. The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of the Nasdaq Stock Market listing standards as well as within the meaning of Rule 10A-3 of the Exchange Act, and that each Audit Committee member is able to read and understand fundamental financial statements. The Audit Committee reviews our financial statements and accounting practices, makes recommendations to the Board of Directors regarding the selection of our independent registered public accounting firm and reviews the results and scope of our annual audit and other services provided by our independent registered public accounting firm. The Audit Committee is responsible for establishing, and has established, procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters. In addition, all related party transactions are reviewed and subject to approval by the Audit Committee. The Board of Directors has adopted and approved a written charter for the Audit Committee. A current copy of this charter is posted on our website at <http://www.smithmicro.com> under the Investor Relations section. Mr. Gulko is the Audit Committee Chairman and the Board has determined that he qualifies as a financial expert, as that term is described in SEC regulations. The Audit Committee held four meetings during 2017.

Compensation Committee. The Compensation Committee is comprised of two members: Messrs. Campbell and Gulko. The Board of Directors has determined that all the members of the Compensation Committee are independent within the meaning of the Nasdaq Stock Market listing standards and applicable SEC regulations. The Compensation Committee administers our executive compensation programs and makes recommendations to the Board of Directors concerning officer and director compensation. The Compensation Committee also has the authority to administer our Plan, and to make awards under the Plan. The Board of Directors has adopted and approved a written charter for the Compensation Committee. A current copy of this charter is posted on our website at <http://www.smithmicro.com> under the Investor Relations section. The Compensation Committee held one meeting during 2017.

The Compensation Committee's primary objectives in structuring and administering our executive officer compensation program are to attract, motivate and retain talented and dedicated executive officers; tie annual and long-term cash and stock incentives to achievement of measurable corporate and individual performance objectives; and reinforce business strategies and objectives to enhance stockholder value. To achieve these goals, our Compensation Committee maintains compensation plans that tie a portion of executives' overall compensation to key strategic goals such as the Company's financial and operational performance, as measured by metrics such as total revenue and non-GAAP operating expense. Our Compensation Committee evaluates individual executive performance along with our CEO (other than with respect to his own performance) as part of the review process. Our Compensation Committee periodically reviews our executive officers' compensation to determine whether we provide adequate incentives and motivation to our executive officers and whether we adequately compensate our executive officers relative to comparable officers in other similarly situated companies. The Committee did not engage any compensation consultants during 2017. Management plays a significant role in the compensation-setting process for executive officers, other than the CEO, by evaluating employee performance, recommending business performance targets and establishing objectives, and recommending salary levels, bonuses and equity-based awards.

Governance and Nominating Committee. The Governance and Nominating Committee is comprised of two members: Messrs. Arno and Campbell. The Board of Directors has determined that all the members of the Governance and Nominating Committee are independent within the meaning of the Nasdaq Stock Market listing standards and applicable SEC regulations. The Governance and Nominating Committee receives proposed nominations to the Board of Directors, reviews the eligibility of each proposed nominee, and recommends for nomination by the Board of

7

Directors, new members of the Board of Directors to be submitted to the stockholders for election at each annual meeting. The Board of Directors has adopted and approved a written charter for the Governance and Nominating Committee. A current copy of this charter is posted on our website at <http://www.smithmicro.com> under the Investor Relations section. The Governance and Nominating Committee held no separate meetings during 2017.

When considering a potential candidate for membership on our Board of Directors, our Governance and Nominating Committee considers relevant business and industry experience and demonstrated character and judgment. The Governance and Nominating Committee considers diversity in identifying candidates by generally seeking to achieve a diversity of occupational and personal backgrounds on the Board. However, the Governance and Nominating Committee has no formal policy regarding diversity. The Governance and Nominating Committee will consider stockholder nominations for directors submitted in accordance with the procedure set forth in Article II, Section 12 of our Bylaws. The procedure provides that a notice relating to the nomination must be timely given in writing to our Corporate Secretary prior to the meeting. Such notice shall set forth (a) as to each person whom the stockholder proposes to nominate for election or reelection as a director, (i) the name, age, business address and residence address of each such person, (ii) the principal occupation or employment of such person, (iii) the class and number of shares of Smith Micro Common Stock that are beneficially owned by such person and (iv) any other information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including, without limitation, such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and (b) as to the stockholder giving the notice (i) the name and address of such stockholder as they appear on our books and (ii) the class and number of shares of Smith Micro common stock that are beneficially owned by such stockholder. There are no differences in the manner in which the Governance and Nominating Committee evaluates a candidate that is recommended for nomination for membership on our Board of Directors by a stockholder. However, the Governance and Nominating Committee has not received any recommended nominations from any of our stockholders in connection with the 2018 Annual Meeting.

Mergers and Acquisitions Committee. The Mergers and Acquisitions Committee (the "M&A Committee") is comprised of three members: Messrs. Arno, Elfman and Szabo. The Board of Directors has determined that all the members of the M&A Committee are independent within the meaning of the Nasdaq Stock Market listing standards. The M&A Committee evaluates and reviews potential acquisition targets, strategic investments and divestitures, and makes recommendations regarding the same to our Board of Directors. The M&A Committee is also charged with overseeing the due diligence process with respect to proposed acquisitions, strategic investments and divestitures. The Board of Directors has adopted and approved a written charter for the Mergers and Acquisitions Committee. A current copy of this charter is posted on our website at <http://www.smithmicro.com> under the Investor Relations section. The Board of Directors has adopted and approved a written charter for the M&A Committee. The M&A Committee held one meeting during 2017.

Executive Sessions

Independent directors meet in executive session without the presence of our CEO and Chairman or other members of management to review the criteria upon which the performance of the CEO and Chairman is based, to review the performance of the CEO and Chairman against those criteria, to ratify the compensation of the CEO and Chairman as approved by the Compensation Committee, and to discuss any other relevant matters.

Board Leadership Structure

The Board's current leadership structure is characterized by:

- a combined Chairman of the Board and Chief Executive Officer;
- a robust Committee structure with oversight of various types of risks; and
- an engaged and independent Board.

The Board believes that its current leadership structure provides independent board leadership and engagement while deriving the benefits from having our CEO also serve as Chairman of the Board. As the individual with primary

8

responsibility for managing the Company's day-to-day operations and in-depth knowledge and understanding of the Company, he is best positioned to chair regular Board meetings as we discuss key business and strategic issues. This combined structure provides independent oversight while avoiding unnecessary confusion regarding the Board's oversight responsibilities and the day-to-day management of business operations. We do not have a lead independent director.

Risk Oversight

Our Board oversees an enterprise-wide approach to risk management, designed to support the achievement of our strategic and organizational objectives, improve long-term organizational performance and enhance stockholder value. A fundamental part of risk oversight is to understand the risks our Company faces and the steps management is taking to manage those risks and to assess management's overall appetite for risk. It is management's responsibility to manage risk and bring material risks facing our Company to the Board's attention. Our Board receives regular reports from management on matters relating to strategic and operational initiatives, financial performance and legal developments which are each integrated with enterprise-risk exposures. Our Board also approves our CEO's performance goals for each year. In doing so, the Board has an opportunity to ensure that the CEO's goals include responsibility for broad risk management. The involvement of the full Board in setting our strategic plan is a key part of its assessment of the risks inherent in our corporate strategy.

The Committees of the Board are also involved in evaluating and overseeing the management of risks particular to their respective areas of oversight. For example, the Audit Committee focuses on financial risk and internal controls, and receives an annual risk assessment report from our external auditors. The Compensation Committee evaluates and sets compensation programs that encourage decision-making predicated upon a level of risk-taking consistent with our business strategy. The Compensation Committee also reviews compensation and benefit plans and the risks associated with them. The Governance and Nominating Committee oversees governance and succession risk, including Board and CEO succession and evaluates director skills and qualifications to appoint particular directors to our standing committees based upon the needs of that committee. Each Committee reports its activities to the full Board of Directors to ensure that the Board is regularly informed about these risks.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our employees, executive officers and directors. We will provide a copy of the Code of Ethics upon request made by email to investor-relations@smithmicro.com or in writing to Smith Micro Software, Inc. at 51 Columbia, Aliso Viejo, California 92656, Attention: Investor Relations. The full text of our Code of Ethics is posted on our website at <http://www.smithmicro.com> under the Investor Relations section. We intend to disclose any amendment to the Code of Ethics or waiver of a provision of the Code of Ethics applicable to our executive officers or directors, including the name of the executive officer or director to whom the amendment applies or for whom the waiver was granted, at the same location on our website identified above. The inclusion of our website address in this proxy does not include or incorporate by reference the information on our website into this proxy or our Annual Report on Form 10-K.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms filed by such person.

Based solely on our review of such forms furnished to us and written representations from such reporting persons, we believe that all filing requirements applicable to our executive officers, directors and more than 10% stockholders were met in a timely manner.

9

Item 11. EXECUTIVE COMPENSATION

The Summary Compensation Table below sets forth information concerning our compensation of the executive officers named therein (our “named executive officers” or “NEOs”) for all services rendered to us by our named executive officers during 2017 and 2016. Our NEOs for 2017 were as follows:

- William W. Smith, Jr., President and Chief Executive Officer
- David P. Sperling, Vice President, Chief Technology Officer
- Charles B. Messman, Vice President, Corporate Development and Investor Relations
 - Steven M. Yasbek, former Vice President and Chief Financial Officer

The principal elements of our executive compensation program are base salary, cash incentive compensation, long-term equity incentives in the form of restricted stock, and other benefits and perquisites, including certain reimbursements and matching contributions under our 401(k) savings plan. We view these components of compensation as related but distinct. Although our Compensation Committee does review total compensation, we do not believe that significant compensation derived from one component of compensation should negate or offset compensation from other components. Our executive compensation program is designed to attract, motivate, and retain talented and dedicated executive officers, who are critical to our success. Under this program, a significant portion of our executive officers’ overall compensation is tied to the achievement of key strategic financial and operational goals, as measured by metrics such as revenue and adjusted profitability. The following highlights our approach to executive compensation:

Competitive Positioning: We seek to establish the overall compensation of our executive officers at levels that we believe are roughly comparable with the average levels of compensation of executives at other fast-growing technology companies of similar size.

Significant Portion of Executive Officer Compensation Tied to Performance: Our executive compensation program has four primary components: base salary; cash incentive compensation; equity compensation in the form of restricted stock awards; and other benefits and perquisites. Among these components, both cash incentive compensation and equity compensation are tied in whole or in part to the satisfaction of performance criteria. Performance-based incentive compensation constitutes a significant portion of potential compensation for our executive officers.

Limited other Compensation: Consistent with our “pay-for-performance” philosophy, we restrict all other forms of compensation to our executive officers to levels that are consistent with competitive market practices.

Base Salary Compensation

We provide our named executive officers and other executives with base salaries that we believe enable us to hire and retain highly qualified individuals in a competitive environment and to reward individual performance and contributions to our overall business goals, while taking into account the unique circumstances of our company. We review base salaries for our named executive officers annually and increases or decreases, are generally based on Company and individual performance. We also take into account the base compensation paid by companies that we believe to be our competitors and by other public companies with which we believe we generally compete for executives.

Performance-based Cash Bonus Awards

As part of our compensation program and in order to maintain appropriate financial incentives, our named executive officers and other executives are eligible for cash bonus compensation pursuant to an annual cash bonus plan. Under the plan, cash bonuses are determined and paid each fiscal year on a quarterly basis based upon the achievement of certain performance objectives. Our cash bonus plan is designed to focus our management on achieving key corporate

financial objectives, motivate certain desirable behaviors and reward achievement of our key corporate financial objectives and individual goals. Under the terms of the cash bonus plan, the Compensation

10

Committee establishes performance objectives and annual target cash bonus amounts for each named executive officer. In determining the appropriate level of annual target cash bonus for each officer the Compensation Committee considers information provided through independent, third-party surveys and other information collected from public sources for similar positions at peer companies, relative base salary and bonus amounts for each individual and the recommendations of our Chief Executive Officer.

Since the Company has had a turnaround focus for the past several years, the Company has maintained performance-based cash bonus awards to incentivize short-term tactical behavior related to reaching revenue and cost targets on a quarterly basis due to the recent volatility of the business.

Our bonus plan contains performance objectives with a dollar value ascribed to each objective, so that the sum total equals the approved annual target cash bonus for each named executive officer. In each of 2016 and 2017 the objectives for NEOs were related to (1) revenue achievement and (2) operating expense management, which were evenly weighted in terms of target cash bonuses. For each objective, the Compensation Committee applied the percentage by which the objective was achieved (which could exceed 100% in the case of quantitative performance objectives) to the dollar value ascribed to each objective. The dollar values for each objective were then combined to determine the actual cash bonuses paid to each NEO.

Achievement of the quantitative performance objectives was determined on a quarterly basis based on our financial results for the preceding quarter. As a result, the cash paid in a given fiscal year is the result of the overlap of the attainment achieved for the fourth quarter of the previous year and the first three quarters of the current year. The total of these payments is equal to the amount of non-equity plan compensation reflected in the Summary Compensation Table. Performance objectives are set by the Compensation Committee by quarter for each fiscal year.

The table below outlines the quantitative performance objectives that were established for each named executive officer and the actual results that correspond with their performance cash bonus payouts for 2017:

	Q4	Q1	Q2	Q3
(in thousands)	2016	2017	2017	2017
Revenue – target	\$14,400	\$5,845	\$9,589	\$10,091
Revenue – actual	\$7,084	\$5,576	\$5,862	\$5,804
Operating Expenses* - target	\$9,288	\$6,582	\$5,869	\$6,398
Operating Expenses* - actual	\$8,376	\$6,512	\$5,902	\$5,438

* excluding stock-based compensation, amortization of intangible assets, and impairment of long-lived assets and before the reclassification of engineering expenses to cost of goods sold

We believe that the performance objectives for our named executive officers were sufficiently challenging to achieve and that performance at a high level, while devoting full time and attention to their responsibilities, is required for our named executive officers to earn their respective cash bonuses.

Equity Compensation

We believe that for growth companies in the software technology sector, such as Smith Micro, equity awards are a significant compensation-related motivator in attracting and retaining executive-level employees. Accordingly, we have provided our named executive officers and other executives with long-term equity incentive awards that incentivize those individuals to stay with us for long periods of time, which in turn should provide us with greater stability over such periods than we would experience without such awards. We provided grants of restricted stock to

each of our executive officers in 2016. On August 17, 2016, we effected a 1:4 reverse stock split. All information presented herein relative to 2016 equity awards has been retrospectively adjusted to reflect the reverse stock split as if it took place as of the earliest period presented. No restricted stock or other equity awards were granted to our named executive officers during 2017.

Our 2016 restricted stock grants vest over a period of four years from the grant date. Half of each total grant vests on a monthly basis and will be earned based on continuous service by the executive over the vesting period. The remaining half is subject to a performance-based hurdle required for each executive. One quarter of each total

11

grant will be earned if the Company achieves a specific annual revenue target, and an additional one quarter of each total grant will be earned if the Company achieves a specific annual operating expense target (determined on a non-GAAP basis, excluding stock-based compensation and the amortization of intangible assets), with a proportionate adjustment to the total performance portion of the grant if the targets are not fully met. Shares earned under the performance conditions cannot exceed the total number of performance shares, even if the sum of the revenue attainment and the expense attainment exceed 100%. Once performance against these hurdles is determined, the “earned” shares will vest 25% on the determination (earnings) date and then ratably over the next thirty-six months, based on continuous service by the executive.

Executive Benefits and Perquisites

We provide the opportunity for our named executive officers and other executives to receive certain perquisites and general health and welfare benefits. We also offer participation in our defined contribution 401(k) plan to our named executive officers. We provide a 20% match on all eligible employee contributions to our 401(k) plan. We provide these benefits to create additional incentives for our executives and to remain competitive in the general marketplace for executive talent.

(1) The amounts shown in this column represent the aggregate grant date fair value of Restricted Shares granted in 2016 computed in accordance with FASB ASC Topic 718. Generally, the aggregate grant date fair value is the amount that the company expects to expense in its financial statements over the award’s vesting schedule. These amounts reflect the Company’s accounting expense and do not correspond to the actual value that will be realized

by the named executive officers. For Restricted Shares, the fair value is calculated using the closing price of our stock on the date of grant. The assumptions we used with respect to the valuation of stock grants are set forth in Note 10 to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Employment Agreements

Agreement with William W. Smith, Jr.

In June 2005, we agreed to make to William W. Smith, Jr., our Chairman of the Board, President and Chief Executive Officer, a lifetime payment of \$6,000 annually, subject to annual increases of 5%, in connection with his future retirement or resignation from employment. The agreement provides that we may, at our option, discharge our obligations under the agreement by purchasing a single premium annuity for the benefit of Mr. Smith. We estimate that it would cost approximately \$74,000 to purchase such an annuity.

In connection with Mr. Yasbek's resignation from employment on June 19, 2017, effective July 10, 2017, Mr. Yasbek and the Company entered into a Resignation Severance and Release Agreement, which provided for a general release of claims in favor of the Company and its officers, directors, employees and other affiliates, and provided that Mr. Yasbek would receive (i) six month's salary of \$135,375 payable in semi-monthly installments of \$11,281.25, (ii) if Mr. Yasbek would elect to continue receiving group health insurance coverage pursuant to the federal "COBRA" law, reimbursement of the cost of the premium for such coverage through December 31, 2017, (iii) eligibility to receive a fiscal year 2017 second quarter bonus, and (iv) accelerated vesting of 42,382 shares of restricted stock.

Other than as disclosed above, none of the named executive officers has an employment agreement with us, and the employment of each of the named executive officers may be terminated at any time at the discretion of the Board of Directors.

Potential Payments Upon Termination or Change in Control

The terms of the restricted stock award agreements associated with restricted stock granted under our Plan provide that the shares of restricted stock granted thereunder automatically become fully vested, no longer subject to restrictions and freely transferable upon a “Change of Control” as such term is defined in our Plan. We provide this benefit in order to properly incentivize our executives to support a Change of Control that would be deemed beneficial to our shareholders.

Director Compensation

The following table sets forth compensation that our directors (other than Mr. Smith, who is a named executive officer) earned during 2017 for services as members of our Board of Directors.

Each of these related party transactions were reviewed and approved in special meetings by the Board, excluding in each instance any director participating in such a transaction, were reported in previously filed Current Reports on Form 8-K, and are summarized below.

In connection with such refinancing, the Company issued each of Smith and Elfman a new Secured Promissory Note in the amount of \$1.0 million, bearing interest at the rate of 12% per annum and maturing on September 25, 2017 (each, a "Replacement Note"). Each of the Replacement Notes is secured by the Company's accounts receivable and other

assets. The maturity date under the Smith Replacement Note was amended on January 30, 2018 to extend the maturity date to July 25, 2018, and was again amended on March 6, 2018 to further extend the maturity date to March

The Arno Notes were amended on January 30, 2018 to extend the maturity date for the remaining balance to July 25, 2018, and were again amended on March 6, 2018 to further extend the maturity date to March 25, 2020, in each case as described below.

On September 29, 2017, the Company exchanged shares of the Company’s newly designated Series B 10% Convertible Preferred Stock for outstanding indebtedness with a principal amount of \$2.8 million owed to Smith and Arno for 2,750 and 50 shares, respectively, of Series B Preferred Stock.

In connection with the Offering, on March 5, 2018, the Company entered into a Securities Purchase Agreement (the “Purchase Agreement”) with investors containing customary representations and warranties. Pursuant to the terms of the Purchase Agreement, the Company agreed to use its best efforts to cause the conversion of all shares of the Company’s Series B 10% Convertible Preferred Stock (the “Series B Preferred Stock”) into shares of Common Stock pursuant to the terms of the Company’s Certificate of Designation (the “Certificate of Designation”) with respect to the Series B Preferred Stock. In connection therewith, the Company entered into Letter Agreements with each of Smith and Arno, whereby each of Smith and Arno agree to take certain action to convert the shares of Series B Preferred Stock held by them pursuant to terms outlined in the Purchase Agreement, and further agreed that their shares upon conversion shall not be subject to resale registration rights. Pursuant to the terms of the Purchase Agreement, the Company has entered into voting agreements with each of its directors, executive officers and greater than 10% stockholders, by which each such person has agreed to vote all shares of Company capital stock held by them in favor of waiving any applicable beneficial ownership threshold in the Company’s existing Certificate of Designation for the Series B Preferred Stock.
