CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “Quarterly Report”) includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). All statements other than statements of historical fact contained in this Quarterly Report, including statements regarding our future results of operations and financial position, strategy and plans, and our expectations for future operations, are forward-looking statements. The words “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “might,” “will,” “should,” “can have,” “likely” and other words and terms of similar expressions are intended to identify forward-looking statements.

We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, strategy, short-term and long-term business operations and objectives and financial needs. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ from those expressed in our forward-looking statements. Our future financial position and results of operations, as well as any forward-looking statements are subject to change and inherent risks and uncertainties. You should consider our forward-looking statements in light of a number of factors that may cause actual results to vary from our forward-looking statements including, but not limited to:

risks discussed under the heading “Risk Factors” in the Company’s Annual Report on Form 10-K (the “Annual Report”), as well as our combined consolidated financial statements, related notes, and the other financial information appearing elsewhere in this Quarterly Report and our other filings with the United States Securities and Exchange Commission (“SEC”);

- changes in general economic conditions, in our industry and in the commercial finance and the real estate markets;
- changes to our business and investment strategy;
- our ability to obtain and maintain financing arrangements;
- the financing and advance rates for our assets;
- our actual and expected leverage;
- the adequacy of collateral securing our loan portfolio and a decline in the fair value of our assets;
- interest rate mismatches between our assets and our borrowings used to fund such investments;
- changes in interest rates and the market value of our assets;
- changes in prepayment rates on our assets;
- the effects of hedging instruments and the degree to which our hedging strategies may or may not protect us from interest rate and credit risk volatility;
- the increased rate of default or decreased recovery rates on our assets;
- the adequacy of our policies, procedures and systems for managing risk effectively;
- a potential downgrade in the credit ratings assigned to our investments;
- the impact of and changes in governmental regulations, tax laws and rates, accounting guidance and similar matters;
- our ability to maintain our qualification as a real estate investment trust (“REIT”) for U.S. federal income tax purposes and our ability and the ability of our subsidiaries to operate in compliance with REIT requirements;
- our ability and the ability of our subsidiaries to maintain our and their exemptions from registration under the Investment Company Act of 1940, as amended (the “Investment Company Act”);
- potential liability relating to environmental matters that impact the value of properties we may acquire or the properties underlying our investments;
- the inability of insurance covering real estate underlying our loans and investments to cover all losses;
- the availability of investment opportunities in mortgage-related and real estate-related instruments and other securities;
- fraud by potential borrowers;
- the availability of qualified personnel;

the degree and nature of our competition;
the market trends in our industry, interest rates, real estate values, the debt securities markets or the general economy;
and
the prepayment of the mortgages and other loans underlying our mortgage-backed and other asset-backed securities.

2

Table of Contents

You should not rely upon forward-looking statements as predictions of future events. In addition, neither we nor any other person assumes responsibility for the accuracy and completeness of any of these forward-looking statements. The forward-looking statements contained in this Quarterly Report are made as of the date hereof, and the Company assumes no obligation to update or supplement any forward-looking statements.

Ladder Capital Corp and Predecessor
Notes to Combined Consolidated Financial Statements
(Unaudited)

1. ORGANIZATION AND OPERATIONS

Ladder Capital Corp is an internally-managed real estate investment trust (“REIT”) that is a leader in commercial real estate finance. As the general partner of Ladder Capital Finance Holdings LLLP (“LCFH,” “Predecessor” or the “Operating Partnership”), Ladder Capital Corp, through LCFH and its subsidiaries, operates the Ladder Capital business. As of June 30, 2015, Ladder Capital Corp has a 53.2% economic interest in LCFH and controls the management of LCFH as a result of its ability to appoint its board members. As a result, Ladder Capital Corp consolidates the financial results of LCFH and records noncontrolling interest for the economic interest in LCFH held by the Continuing LCFH Limited Partners (as defined below). In addition, Ladder Capital Corp is subject to federal, state and local income taxes due to its corporate structure. Other than the noncontrolling interest in the Operating Partnership and federal, state and local income taxes, there are no material differences between Ladder Capital Corp’s combined consolidated financial statements and LCFH’s consolidated financial statements.

The IPO Transactions

Ladder Capital Corp was formed as a Delaware corporation on May 21, 2013. The Company conducted an initial public offering (“IPO”) which closed on February 11, 2014. The Company used the net proceeds from the IPO to purchase newly issued limited partnership units (“LP Units”) from LCFH. In connection with the IPO, Ladder Capital Corp also became a holding corporation and the general partner of, and obtained a controlling interest in, LCFH. Ladder Capital Corp’s only business is to act as the general partner of LCFH, and, as such, Ladder Capital Corp indirectly operates and controls all of the business and affairs of LCFH and its subsidiaries through its ability to appoint the LCFH board. The proceeds received by LCFH in connection with the sale of the LP Units have been and will be used for loan origination, real estate businesses and for general corporate purposes.

Ladder Capital Corp consolidates the financial results of LCFH and its subsidiaries. The ownership interest of certain existing owners of LCFH, who owned LP Units and an equivalent number of shares of Ladder Capital Corp Class B common stock as of the completion of the IPO (the “Continuing LCFH Limited Partners”) and continue to hold equivalent units in the Series of LCFH (as described below) and Ladder Capital Corp Class B common stock, is reflected as a noncontrolling interest in Ladder Capital Corp’s combined consolidated financial statements.

Immediately prior to the closing of the IPO on February 11, 2014, LCFH effectuated certain transactions intended to simplify its capital structure (the “Reorganization Transactions”). Prior to the Reorganization Transactions, LCFH’s capital structure consisted of three different classes of membership interests (Series A and Series B Participating Preferred Units and Class A Common Units), each of which had different capital accounts. The net effect of the Reorganization Transactions was to convert the multiple-class structure into LP Units, a single new class of units in LCFH, and an equal number of shares of Class B common stock of Ladder Capital Corp. The conversion of all of the different classes of LCFH occurred in accordance with conversion ratios for each class of outstanding units based upon the liquidation value of LCFH, as if it had been liquidated upon the IPO, with such value determined by the \$17.00 price per share of Class A common stock sold in the IPO. The distribution of LP Units per class of outstanding units was determined pursuant to the distribution provisions set forth in LCFH’s amended and restated Limited Liability Limited Partnership Agreement (the “Amended and Restated LLLP Agreement”). In addition, in connection with the IPO, certain of LCFH’s existing investors (the “Exchanging Existing Owners”) received 33,672,192 shares of Ladder Capital Corp Class A common stock in lieu of any or all LP Units and shares of Ladder Capital Corp Class B

common stock that would otherwise have been issued to such existing investors in the Reorganization Transactions, which resulted in Ladder Capital Corp, or a wholly-owned subsidiary of Ladder Capital Corp, owning one LP Unit for each share of Class A Common Stock so issued to the Exchanging Existing Owners.

The IPO resulted in the issuance by Ladder Capital Corp of 15,237,500 shares of Class A common stock to the public, including 1,987,500 shares of Class A common stock offered as a result of the exercise of the underwriters' over-allotment option, and net proceeds to Ladder Capital Corp of \$238.5 million (after deducting fees and expenses associated with the IPO). In addition, in connection with the IPO, the Company granted 1,687,513 shares of restricted Class A common stock to members of management, certain directors and certain employees. As a result, the equivalent number of LP Units were issued by LCFH to Ladder Capital Corp.

Table of Contents

Pursuant to the Amended and Restated LLLP Agreement, and subject to the applicable minimum retained ownership requirements and certain other restrictions, including notice requirements, from time to time, Continuing LCFH Limited Partners (or certain transferees thereof) had the right to exchange their LP Units for shares of Ladder Capital Corp's Class A common stock on a one-for-one basis.

As a result of the Company's acquisition of LP Units of LCFH and LCFH's election under Section 754 of Internal Revenue Code of 1986, as amended (the "Code"), the Company expects to benefit from depreciation and other tax deductions reflecting LCFH's tax basis for its assets. Those deductions will be allocated to the Company and will be taken into account in reporting the Company's taxable income.

As a result of the transactions described above, at the time of the IPO:

Ladder Capital Corp became the general partner of LCFH and, through LCFH and its subsidiaries, operates the Ladder Capital business. Accordingly, Ladder Capital Corp had a 51.0% economic interest in LCFH (which has since increased), and Ladder Capital Corp has a majority voting interest and controls the management of LCFH;

50,597,205 shares of Ladder Capital Corp's Class A common stock were outstanding (comprised of 15,237,500 shares issued to the investors in the IPO, 33,672,192 shares issued to the Exchanging Existing Owners and 1,687,513 shares issued to certain directors, officers, and employees in connection with the IPO), and 48,537,414 shares of Ladder Capital Corp's Class B common stock were outstanding. Class B common stock has no economic interest but rather voting interest in the Company. At the time of the IPO, 99,134,619 LP Units of LCFH were outstanding, of which 50,597,205 LP Units were held by Ladder Capital Corp and its subsidiaries and 48,537,414 units were held by the Continuing LCFH Limited Partners; and

LP Units became exchangeable on a one-for-one basis for shares of Ladder Capital Corp Class A common stock. In connection with an exchange, a corresponding number of shares of Ladder Capital Corp Class B common stock were required to be provided and canceled. LP units and Ladder Capital Corp Class B common stock could not be legally separated. However, the exchange of LP Units for shares of Ladder Capital Corp Class A common stock would not affect the exchanging owners' voting power since the votes represented by the canceled shares of Ladder Capital Corp Class B common stock would be replaced with the votes represented by the shares of Class A common stock for which such LP Units were exchanged.

The Company accounted for the Reorganization Transactions as an exchange between entities under common control and recorded the net assets and shareholders' equity of the contributed entities at historical cost.

The Reorganization Transactions and the IPO are collectively referred to as the "IPO Transactions."

The REIT Structuring Transactions

In anticipation of the Company's election to be subject to tax as a REIT beginning with its 2015 taxable year (the "REIT Election"), we effected an internal realignment as of December 31, 2014 that we believe permits us to operate as a REIT, subject to the risk factors described in our Annual Report on Form 10-K (the "Annual Report") (see "Risk Factors—Risks Related to Our Taxation as a REIT"). As part of this realignment, LCFH and certain of its wholly-owned subsidiaries were serialized in order to segregate our REIT-qualified assets and income from our non-REIT-qualified assets and income. Pursuant to such serialization, all assets and liabilities of LCFH and each such subsidiary were identified as taxable REIT subsidiary ("TRS") assets and liabilities (e.g., our conduit securitization and condominium sales businesses) and REIT assets and liabilities (e.g., balance sheet loans, real estate and most securities), and were allocated on our internal books and records into two pools within LCFH or such subsidiary, Series TRS and Series REIT (collectively, the "Series"), respectively.

Edgar Filing: Ladder Capital Corp - Form 10-Q

In connection with this serialization, the Amended and Restated LLLP Agreement was amended and restated, effective as of December 5, 2014 and again as of December 31, 2014 (the “Third Amended and Restated LLLP Agreement”). Pursuant to the Third Amended and Restated LLLP Agreement, as of December 31, 2014: all assets and liabilities of LCFH were allocated on LCFH’s internal books and records to either Series REIT or Series TRS of LCFH;

Table of Contents

the Company serves as general partner of LCFH and of Series REIT of LCFH;

LC TRS I LLC (“LC TRS I”), a Delaware limited liability company wholly-owned by Series REIT of LCFH, serves as the general partner of Series TRS of LCFH;

each outstanding LP Unit was exchanged for one Series REIT LP Unit (which is entitled to receive profits and losses derived from REIT assets and liabilities) and one Series TRS LP Unit (which is entitled to receive profits and losses derived from TRS assets and liabilities) (collectively, “Series Units”);

as a result, Ladder Capital Corp owned, directly and indirectly, an aggregate of 51.9% of Series REIT of LCFH, and, through such ownership, the right to receive 51.9% of the profits and distributions of Series TRS;

the limited partners of LCFH owned the remaining 48.1% of each of Series REIT and Series TRS of LCFH;

Series REIT of LCFH, in turn, owns, directly or indirectly, 100% of the REIT series of each of its serialized subsidiaries as well as certain wholly-owned REIT subsidiaries;

Series TRS of LCFH owns, directly or indirectly, 100% of the TRS series of each of its serialized subsidiaries as well as certain wholly-owned TRSs;

Series TRS LP Units are exchangeable for an equal number of shares (“TRS Shares”) of LC TRS I (a “TRS Exchange”);

in order to effect the exchange of Series Units for shares of Class A common stock of the Company on a one-for-one basis (the “Class A Exchange”), holders are required to surrender (i) one share of the Company’s Class B common stock, (ii) one Series REIT LP Unit, and (iii) either one Series TRS LP Unit or one TRS Share; and

Series REIT and Series TRS have separate boards, officers, books and records, bank accounts, and tax identification numbers.

Each Series of LCFH also signed a separate joinder agreement, agreeing effective as of 11:59:59 pm on December 31, 2014 (the “Effective Time”), to assume and pay when due (i) any and all liabilities of LCFH incurred or accrued by LCFH as of the Effective Time and (ii) any and all obligations of LCFH arising under contracts, bonds, notes, guarantees, leases or other agreements to which LCFH was a party as of the Effective Time (collectively, the “Agreements”), regardless of whether such obligations arise under the applicable Agreement at, prior to, or after the Effective Time, in each case, with the same force and effect as if each Series had been a signatory to such Agreements on the date thereof.

Also in connection with the planned REIT Election, the Company’s certificate of incorporation was amended and restated, effective as of February 27, 2015, following approval by our shareholders (the “Charter Amendment”), to, among other things, impose ownership limitations and transfer restrictions to facilitate our compliance with the REIT requirements. To qualify as a REIT under the Code, our stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year (other than the first year for which an election to be a REIT has been made). Also, not more than 50% of the value of the outstanding shares of our capital stock may be owned, directly or indirectly, by five or fewer “individuals” (as defined to include certain entities such as private foundations) during the last half of a taxable year (other than the first taxable year for which an election to be a REIT has been made). Finally, a person actually or constructively owning 10% or more of the vote or value of the outstanding shares of our capital stock could lead to a level of affiliation between the Company and one or more of its tenants that could disqualify our revenues from the affiliated tenants and possibly jeopardize or otherwise adversely impact our qualification as a REIT.

To facilitate satisfaction of these requirements for qualification as a REIT, the Charter Amendment contains provisions restricting the ownership and transfer of shares of all classes or series of our capital stock. Including ownership limitations in a REIT's charter is the most effective mechanism to monitor compliance with the above-described provisions of the Code. The Charter Amendment provides that, subject to certain exceptions and the constructive ownership rules, no person may own, or be deemed to own by virtue of the attribution provisions of the Code, in excess of (i) 9.8% in value of the outstanding shares of all classes or series of our capital stock or (ii) 9.8% in value or number (whichever is more restrictive) of the outstanding shares of any class of our common stock.

Table of Contents

In addition, our Tax Receivable Agreement with the Continuing LCFH Limited Partners (the “TRA Members”) was amended and restated in connection with our REIT Election, effective as of December 31, 2014 (the “TRA Amendment”), in order to preserve a portion of the potential tax benefits currently existing under the Tax Receivable Agreement that would otherwise be reduced in connection with our REIT Election. The TRA Amendment provides that, in lieu of the existing tax benefit payments under the Tax Receivable Agreement for the 2015 taxable year and beyond, LC TRS I will pay to the TRA Members 85% of the amount of the benefits, if any, that LC TRS I realizes or under certain circumstances (such as a change of control) is deemed to realize as a result of (i) the increases in tax basis resulting from the TRS Exchanges by the TRA Members, (ii) any incremental tax basis adjustments attributable to payments made pursuant to the TRA Amendment, and (iii) any deemed interest deductions arising from payments made by LC TRS I under the TRA Amendment. Under the TRA Amendment, LC TRS I expects to benefit from the remaining 15% of cash savings in income tax that it realizes, which is in the same proportion realized by the Company under the existing Tax Receivable Agreement. The purpose of the TRA Amendment was to preserve the benefits of the Tax Receivable Agreement to the extent possible in a REIT, although, as a result, the amount of payments made to the TRA Members under the TRA Amendment is expected to be less than would be made under the prior Tax Receivable Agreement. The TRA Amendment continues to share such benefits in the same proportions and otherwise has substantially the same terms and provisions as the prior Tax Receivable Agreement. See Note 2 and Note 16 for further discussion of the Tax Receivable Agreement.

As of March 4, 2015, the Company has made the necessary TRS and check-the-box elections and intends to elect to be taxed as a REIT on its tax return for the year ended December 31, 2015, expected to be filed in September 2016.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Principles of Combination and Consolidation

The accompanying combined consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). In the opinion of management, the unaudited financial information for the interim periods presented in this report reflects all normal and recurring adjustments necessary for a fair statement of results of operations, financial position and cash flows. The interim combined consolidated financial statements should be read in conjunction with the audited combined consolidated financial statements for the year ended December 31, 2014, which are included in the Company’s Annual Report on Form 10-K (“Annual Report”), as certain disclosures would substantially duplicate those contained in the audited combined consolidated financial statements have not been included in this interim report. Operating results for interim periods are not necessarily indicative of operating results for an entire fiscal year. The interim combined consolidated financial statements have been prepared, without audit, and do not necessarily include all information and footnotes necessary for a fair statement of our combined consolidated financial position, results of operations and cash flows in accordance with GAAP.

The combined consolidated financial statements include the Company’s accounts and those of its subsidiaries which are majority-owned and/or controlled by the Company and variable interest entities for which the Company has determined itself to be the primary beneficiary, if any. All significant intercompany transactions and balances have been eliminated. The combined consolidated financial statements of the Company are comprised of the consolidation of LCFH and its wholly-owned and majority owned subsidiaries, prior to the IPO Transactions, and the consolidated financial statements of Ladder Capital Corp, subsequent to the IPO Transactions.

Accounting Standards Codification (“ASC”) Topic 810 — Consolidation (“ASC 810”), provides guidance on the identification of entities for which control is achieved through means other than voting rights (“variable interest entities” or “VIEs”) and the determination of which business enterprise, if any, should consolidate the VIEs. Generally, the consideration of whether an entity is a VIE applies when either: (1) the equity investors (if any) lack one or more of

the essential characteristics of a controlling financial interest; (2) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support; or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The Company consolidates VIEs in which it is considered to be the primary beneficiary. The primary beneficiary is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the variable interest entity's performance; and (2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. As of June 30, 2015, the Company does not have investments in VIEs.

Table of Contents

Noncontrolling interests in consolidated subsidiaries are defined as “the portion of the equity (net assets) in the subsidiaries not attributable, directly or indirectly, to a parent.” Noncontrolling interests are presented as a separate component of capital in the combined consolidated balance sheets. In addition, the presentation of net income attributes earnings to shareholders/unitholders (controlling interest) and noncontrolling interests.

Use of Estimates

The preparation of the combined consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are reviewed periodically and the effects of resulting changes are reflected in the combined consolidated financial statements in the period the changes are deemed to be necessary. Significant estimates made in the accompanying combined consolidated financial statements include, but are not limited to the following:

- valuation of real estate securities;
- allocation of purchase price for acquired real estate;
- impairment, and useful lives, of real estate;
- useful lives of intangible assets;
- valuation of derivative instruments;
- valuation of deferred tax asset;
- amounts payable pursuant to the Tax Receivable Agreement;
- determination of effective yield for recognition of interest income;
- adequacy of provision for loan losses;
- determination of other than temporary impairment of real estate securities and investments in unconsolidated joint ventures;
- certain estimates and assumptions used in the accrual of incentive compensation and calculation of the fair value of equity compensation issued to employees;
- determination of the effective tax rate for income tax provision; and
- certain estimates and assumptions used in the allocation of revenue and expenses for our segment reporting.

Cash and Cash Equivalents

The Company considers all investments with original maturities of three months or less, at the time of acquisition, to be cash equivalents. The Company maintains cash accounts at several financial institutions, which are insured up to a maximum of \$250,000 per account as of June 30, 2015 and December 31, 2014. At June 30, 2015 and December 31, 2014 and at various times during the years, balances exceeded the insured limits.

Cash Collateral Held by Broker

The Company maintains accounts with brokers to facilitate financial derivative and repurchase agreement transactions in support of its loan and securities investments and risk management activities. Based on the value of the positions in these accounts and the associated margin requirements, the Company may be required to deposit additional cash into these broker accounts. The cash collateral held by broker is considered restricted cash.

Restricted Cash

Edgar Filing: Ladder Capital Corp - Form 10-Q

As of June 30, 2015 and December 31, 2014, included in other assets on the Company's combined consolidated balance sheets are \$35.0 million and \$24.4 million, respectively, of tenant security deposits, deposits related to real estate sales and acquisitions and required escrow balances on credit facilities, which are considered restricted cash.

Table of Contents

Debt Issuance Costs

In April 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs (“ASU 2015-03”), which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Beginning April 1, 2015, the Company elected to early adopt ASU 2015-03 and appropriately retrospectively applied the guidance to its senior unsecured notes, to all periods presented. Unamortized debt issuance costs of \$8.2 million are included in senior unsecured notes as of June 30, 2015, and unamortized debt issuance costs of \$9.4 million are included in senior unsecured notes as of December 31, 2014 (previously included in other assets on the combined consolidated balance sheets). This new guidance is framed around how to account for costs related to term debt and it does not address how to present fees paid to lenders or other costs to secure revolving lines of credit, which are, at the outset, not associated with an outstanding borrowing. At the June 18, 2015 Emerging Issues Task Force meeting, the SEC observer stated that, given the absence of authoritative guidance within ASU 2015-03 for debt issuance costs related to revolving debt arrangements, the SEC staff would not object to an entity deferring and presenting such costs as an asset and subsequently amortizing them ratably over the term of the revolving debt arrangement. The Company considers its repurchase facilities, borrowings under credit agreement and revolving credit facility to be revolving debt arrangements. Refer to Note 7, Debt Obligations and Note 8, Senior Unsecured Notes.

Revision

The Company had previously incorrectly included due to broker and due from broker amounts, which represent amounts related to purchases and sales of securities that had not settled as of the end of the period, as cash provided by (used in) operating activities rather than as non-cash investing activities. These transactions generally settle in three business days. Management evaluated the impact of the correction to the previously issued financial statements and concluded the effect was not material. However, for comparative purposes, the Company has revised the amounts in the prior quarter.

Recently Issued and Adopted Accounting Pronouncements

In June 2015, FASB issued ASU 2015-10, Technical Corrections and Improvements (“ASU 2015-10”). The amendments in this update cover a wide range of topics in the codification and are generally categorized as follows: amendments related to differences between original guidance and the codification; guidance clarification and reference corrections; simplification, and minor improvements. The amendments are effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted, but not required. As the objectives of this standard are to clarify the codification, correct unintended application of guidance, eliminate inconsistencies and to improve the codification’s presentation of guidance, the adoption of this standard is not expected to have a significant effect on current accounting practice or create a significant administrative cost on most entities. The Company anticipates adopting this update in the quarter ending March 31, 2016 and does not expect the adoption to have a material impact on the Company’s combined consolidated financial statements.

In May 2015, FASB issued ASU 2015-08, Business Combinations (Topic 805): Pushdown Accounting - Amendments to SEC Paragraphs Pursuant to Staff Accounting Bulletin No. 115 (“ASU 2015-08”). The amendments in ASU 2015-08 amend various SEC paragraphs included in the FASB’s Accounting Standards Codification (“ASC”) to reflect the issuance of Staff Accounting Bulletin No. 115 (“SAB 115”). SAB 115 rescinds portions of the interpretive guidance included in the SEC’s Staff Accounting Bulletins series and brings existing guidance into conformity with ASU 2014-17, Business Combinations (Topic 805): Pushdown Accounting, which provides an acquired entity with an option to apply pushdown accounting in its separate financial statements upon occurrence of an event in which an acquirer obtains control of the acquired entity. The Company has adopted the amendments in ASU 2015-08, effective

May 8, 2015, as the amendments in the update are effective upon issuance. The adoption did not have a material impact on the Company's combined consolidated financial statements.

Table of Contents

In April 2015, FASB issued ASU 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs (“ASU 2015-03”). The amended guidance requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the amendments in this ASU. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption of this ASU is permitted for financial statements that have not been previously issued. Entities must apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. The Company elected to early adopt this update in the quarter ended June 30, 2015. The adoption did not have a material impact on the Company’s combined consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis (“ASU 2015-02”). This ASU makes changes to the VIE model and voting interest (“VOE”) model consolidation guidance. The main provisions of the ASU include the following: i) adding a requirement that limited partnerships and similar legal entities must provide partners with either substantive kick-out rights or substantive participating rights over the general partner to qualify as a VOE rather than a VIE; ii) eliminating the presumption that the general partner should consolidate a limited partnership; iii) eliminating certain conditions that need to be met when evaluating whether fees paid to a decision maker or service provider are considered a variable interest; iv) excluding certain fees paid to decision makers or service providers when evaluating which party is the primary beneficiary of a VIE; and v) revising how related parties are evaluated under the VIE guidance. Lastly, the ASU eliminates the indefinite deferral of FAS 167, which allowed reporting entities with interests in certain investment funds to follow previous guidance in FIN 46 (R). However, the ASU permanently exempts reporting entities from consolidating registered money market funds that operate in accordance with Rule 2a-7 of the Investment Company Act. The ASU is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Entities may apply this ASU either using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning period of adoption or retrospectively to all prior periods presented in the financial statements. Early adoption is also permitted provided that the ASU is applied from the beginning of the fiscal year of adoption. The Company anticipates adopting this update in the quarter ending March 31, 2016 and does not expect the adoption to have a material impact on the Company’s combined consolidated financial statements.

In August 2014, FASB issued ASU 2014-15, Presentation of Financial Statements — Going Concern (Subtopic 205-40): Disclosure of Uncertainties About an Entity’s Ability to Continue as a Going Concern (“ASU 2014-15”). The guidance in ASU 2014-15 sets forth management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern as well as required disclosures. ASU 2014-15 indicates that, when preparing interim and annual financial statements, management should evaluate whether conditions or events, in the aggregate, raise substantial doubt about the entity’s ability to continue as a going concern for one year from the date the financial statements are issued or are available to be issued. This evaluation should include consideration of conditions and events that are either known or are reasonably knowable at the date the financial statements are issued or are available to be issued, and, if applicable, whether it is probable that management’s plans to address the substantial doubt will be implemented and, if so, whether it is probable that the plans will alleviate the substantial doubt. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods and annual periods thereafter. Early application is permitted. The Company anticipates adopting this update in the quarter ending March 31, 2017 and does not expect the adoption to have a material impact on the Company’s combined consolidated financial statements.

Table of Contents

In August 2014, FASB issued ASU 2014-14, Receivables-Trouble Debt Restructurings by Creditor (ASC Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans Upon Foreclosure (“ASU 2014-14”). The guidance in ASU 2014-14 requires that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if the following conditions are met: (1) the loan has a government guarantee that is not separable from the loan before foreclosure; (2) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and the creditor has the ability to recover under that claim; and (3) at the time of foreclosure, any amount of the claim that is determined on the basis of the fair value of the real estate is fixed. Upon foreclosure, the separate other receivable should be measured based on the amount of the loan balance (principal and interest) expected to be recovered from the guarantor. The guidance is effective for fiscal years beginning after December 15, 2014, and the interim periods within those fiscal years. An entity should adopt the amendments in ASU 2014-14 using either a prospective transition method or a modified retrospective transition method. Early adoption, including adoption in an interim period, is permitted if the entity already has adopted ASU 2014-4. The Company adopted this update in the quarter ended March 31, 2015, and the adoption did not have a material effect on the Company’s combined consolidated financial condition, results of operations or cash flows.

In August 2014, FASB issued ASU 2014-13, Consolidation (Topic 810): Measuring the Financial Assets and the Financial Liabilities of a Consolidated Collateralized Financing Entity (“ASU 2014-13”). For entities that consolidate a collateralized financing entity within the scope of this update, an option to elect to measure the financial assets and the financial liabilities of that collateralized financing entity using either the measurement alternative included in ASU 2014-13 or Topic 820 on fair value measurement is provided. The guidance is effective for fiscal years beginning after December 15, 2015, and the interim periods within those fiscal years. Early adoption is permitted as of the beginning of an annual period. The Company anticipates adopting this update in the quarter ending March 31, 2016 and does not expect the adoption to have a material effect on the Company’s combined consolidated financial condition, results of operations or cash flows.

In June 2014, FASB issued ASU 2014-12, Compensation-Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period, a consensus of the FASB Emerging Issues Task Force (“ASU 2014-12”). ASU 2014-12 requires that a performance target that affects vesting of share-based payment awards and that could be achieved after the requisite service period be treated as a performance condition. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the periods for which the requisite service has already been rendered. If the performance target becomes likely to be achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved. ASU 2014-12 is effective for all entities for interim and annual periods beginning after December 15, 2015, with early adoption permitted. An entity may apply the amendments in ASU 2014-12 either (i) prospectively to all awards granted or modified after the effective date or (ii) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The Company anticipates adopting this update in the quarter ending March 31, 2016 and does not expect the adoption to have a material impact on the Company’s combined consolidated financial condition or results of operations.

In June 2014, FASB issued ASU 2014-11, Repurchase-to-Maturity Transactions, Repurchase Financings and Disclosures (“ASU 2014-11”). The pronouncement changes the accounting for repurchase-to-maturity transactions and linked repurchase financings to secured borrowing accounting, which is consistent with the accounting for other

repurchase agreements. The pronouncement also requires two new disclosures. The first disclosure requires an entity to disclose information on transfers accounted for as sales in transactions that are economically similar to repurchase agreements. The second disclosure provides increased transparency about the types of collateral pledged in repurchase agreements and similar transactions accounted for as secured borrowings. The pronouncement is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. Early adoption is not permitted. The Company adopted this update in the quarter ended March 31, 2015, and the adoption did not have a material effect on the Company's combined consolidated financial condition, results of operations or cash flows.

Table of Contents

In May 2014, FASB issued ASU 2014-9, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-9”). ASU 2014-9 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In adopting ASU 2014-9, companies may use either a full retrospective or a modified retrospective approach. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. ASU 2014-9 is effective for the first interim period within annual reporting periods beginning after December 15, 2017, and early adoption is not permitted. The Company anticipates adopting this update in the quarter ending March 31, 2018 and does not expect the adoption to have a material impact on the Company’s combined consolidated financial condition or results of operations.

3. MORTGAGE LOAN RECEIVABLES

June 30, 2015 (\$ in thousands)

	Outstanding Face Amount	Carrying Value	Weighted Average Yield (1)	Remaining Maturity (years)
Mortgage loan receivables held for investment, at amortized cost	\$1,758,362	\$1,744,208	7.74	% 1.71
Provision for loan losses	N/A	(3,400)		
Total mortgage loan receivables held for investment, at amortized cost	1,758,362	1,740,808		
Mortgage loan receivables held for sale	507,425	507,710	4.30	% 8.39
Total	\$2,265,787	\$2,248,518		

(1) June 30, 2015 rates are used to calculate weighted average yield for floating rate loans.

As of June 30, 2015, \$385.4 million, or 22.1%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at fixed interest rates and \$1.4 billion, or 77.9%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at variable interest rates, linked to LIBOR, some of which include interest rate floors. As of June 30, 2015, \$507.7 million, or 100.0%, of the carrying value of our mortgage loan receivables held for sale, were at fixed interest rates.

December 31, 2014 (\$ in thousands)

	Outstanding Face Amount	Carrying Value	Weighted Average Yield (1)	Remaining Maturity (years)
Mortgage loan receivables held for investment, at amortized cost	\$1,536,923	\$1,524,153	7.33	% 1.96
Provision for loan losses	N/A	(3,100)		
Total mortgage loan receivables held for investment, at amortized cost	1,536,923	1,521,053		
Mortgage loan receivables held for sale	417,955	417,955	4.31	% 9.72
Total	1,954,878	1,939,008		

(1) December 31, 2014 rates are used to calculate weighted average yield for floating rate loans.

As of December 31, 2014, \$231.9 million, or 15.2%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at fixed interest rates and \$1.3 billion, or 84.8%, of the carrying value of our mortgage loan receivables held for investment, at amortized cost, were at variable interest rates, linked to LIBOR, some of which include interest rate floors. As of December 31, 2014, \$418.0 million, or 100%, of the carrying value of our mortgage loan receivables held for sale, were at fixed interest rates.

Edgar Filing: Ladder Capital Corp - Form 10-Q

Loan loss provision	(300) —
Balance June 30, 2014	\$ 1,026,118	\$ 103,719

During the three and six months ended June 30, 2015 and 2014, the transfers of financial assets via sales of loans have been treated as sales under ASC Topic 860 — Transfers and Servicing.

Table of Contents

The Company evaluates each of its loans for potential losses at least quarterly. Its loans are typically collateralized by real estate directly or indirectly. As a result, the Company regularly evaluates the extent and impact of any credit deterioration associated with the performance and/or value of the underlying collateral property, as well as the financial and operating capability of the borrower. Specifically, a property's operating results and any cash reserves are analyzed and used to assess (i) whether cash flow from operations is sufficient to cover the debt service requirements currently and into the future, (ii) the ability of the borrower to refinance the loan at maturity, and/or (iii) the property's liquidation value. The Company also evaluates the financial wherewithal of any loan guarantors as well as the borrower's competency in managing and operating the properties. In addition, the Company considers the overall economic environment, real estate sector, and geographic sub-market in which the collateral property is located. Such impairment analyses are completed and reviewed by asset management personnel, who utilize various data sources, including (i) periodic financial data such as property occupancy, tenant profile, rental rates, operating expenses, the borrowers' business plan, and capitalization and discount rates, (ii) site inspections, and (iii) current credit spreads and other market data. As a result of this analysis, the Company has concluded that none of its loans are individually impaired as of June 30, 2015 and December 31, 2014.

However, based on the inherent risks shared among the loans as a group, it is probable that the loans had incurred an impairment due to common characteristics and inherent risks in the portfolio. Therefore, the Company has recorded a reserve, based on a targeted percentage level which it seeks to maintain over the life of the portfolio, as disclosed in the tables below. Historically, the Company has not incurred losses on any originated loans. At June 30, 2015 and December 31, 2014, there was \$4.2 million and \$4.2 million, respectively, of unamortized discounts included in our mortgage loan receivables held for investment, at amortized cost on our combined consolidated balance sheets.

At June 30, 2015 and December 31, 2014, there was one loan on non-accrual status with an amortized cost of \$4.6 million and an unamortized discount of \$3.5 million included in our mortgage loan receivables held for investment, at amortized cost on our combined consolidated balance sheets. This loan was not originated by the Company. Instead it was credit impaired at the time of acquisition, which was reflected in Ladder's purchase price.

Provision for Loan Losses (\$ in thousands)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

Total	\$10,950,979	\$2,786,317	\$33,222	\$(3,973)	\$2,815,566					

(1)

Edgar Filing: Ladder Capital Corp - Form 10-Q

The amounts presented represent the principal amount of the mortgage loans outstanding in the pool in which the interest-only securities participate.

- (2) Represents the weighted average of the ratings of all securities in each asset type, expressed as an S&P equivalent rating. For each security rated by multiple rating agencies, the highest rating is used. Ratings provided were determined by third party rating agencies as of a particular date, may not be current and are subject to change (including the assignment of a “negative outlook” or “credit watch”) at any time.

- (3) CMBS, CMBS interest-only securities, GN construction securities, and GN permanent securities are classified as available-for-sale and reported at fair value with changes in fair value recorded in the current period in other comprehensive income.

- (4) Agency interest-only securities are recorded at fair value with changes in fair value recorded in current period earnings.

Table of Contents

The following is a breakdown of the carrying value of the Company's securities by remaining maturity based upon expected cash flows at June 30, 2015 and December 31, 2014 (\$ in thousands):

June 30, 2015

Asset Type	Within 1 year	1-5 years	5-10 years	After 10 years	Total
CMBS(1)	\$520,346	\$773,880	\$572,793	\$—	\$1,867,019
CMBS interest-only(1)	180	341,541	4,018	—	345,739
GNMA interest-only(2)	18	15,350	25,832	622	41,822
GN construction securities(1)	—	1,198	33,020	—	34,218
GN permanent securities(1)	—	9,020	1,517	—	10,537
Total	\$520,544	\$1,140,989	\$637,180	\$622	\$2,299,335

December 31, 2014

Asset Type	Within 1 year	1-5 years	5-10 years	After 10 years	Total
CMBS(1)	\$474,357	\$814,702	\$1,016,351	\$—	\$2,305,410
CMBS interest-only(1)	391	370,993	6,951	—	378,335
GNMA interest-only(2)	1,356	42,105	23,181	—	66,642
GN construction securities(1)	—	507	5,183	22,716	28,406
GN permanent securities(1)	25,915	9,334	1,524	—	36,773
Total	\$502,019	\$1,237,641	\$1,053,190	\$22,716	\$2,815,566

CMBS, CMBS interest-only securities, GN construction securities, and GN permanent securities are classified as (1) available-for-sale and reported at fair value with changes in fair value recorded in the current period in other comprehensive income.

(2) Agency interest-only securities are recorded at fair value with changes in fair value recorded in current period earnings.

There were \$0.9 million and \$1.4 million in unrealized losses on securities recorded as other than temporary impairments for the three and six months ended June 30, 2015, respectively, included in realized gain on securities in the combined consolidated statements of income. There were \$1.6 million in unrealized losses on securities recorded as other than temporary impairments for the three and six months ended June 30, 2014. For cash flow statement purposes, all receipts of interest from interest-only real estate securities are treated as part of cash flows from operations.

Totals			\$64,953	\$49,200	\$15,753		

Real Estate Held for Sale

During the six months ended June 30, 2015, the Company entered into a purchase and sale agreement to sell one single-tenant retail property, subject to a long-term net lease obligation. The Company expects the sale of this property to occur on or before October 15, 2015 and has designated this property as real estate held for sale in the combined consolidated statements of financial condition. The real estate held for sale, recorded at carrying value, is \$49.0 million as of June 30, 2015. There was no real estate designated as real estate held for sale as of December 31, 2014.

Real Estate Sold or Classified as Held for Sale

On January 1, 2014, the Company early adopted ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, and as the properties sold or classified as real estate held for sale in the six months ended June 30, 2015 will not represent a strategic shift (as the Company is not entirely exiting markets or property types), they have not been reflected as part of discontinued operations.

Table of Contents

The following table summarizes income from the properties sold or classified as held for sale during the six months ended June 30, 2015, for the three and six months ended June 30, 2015 and 2014 (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Operating lease income	\$1,562	\$1,483	\$3,201	\$3,204

Depreciation and amortization	(1,355) (1,389) (2,565) (2,387
Income from properties sold	\$1,471	\$1,090	\$3,094	\$2,812

The following table summarizes income from the properties sold or classified as held for sale during the six months ended June 30, 2014, for the three and six months ended June 30, 2014 (\$ in thousands):

	Three Months Ended June 30, 2014	Six Months Ended June 30, 2014
Operating lease income	\$921	\$1,972
Tenant recoveries	304	555
Depreciation and amortization	(808) (1,622
Income from properties sold	\$417	\$905

The following unaudited pro forma information has been prepared based upon our historical combined consolidated financial statements and certain historical financial information of the acquired properties, which are accounted for as business combinations, and should be read in conjunction with the combined consolidated financial statements and notes thereto. The unaudited pro forma combined consolidated financial information reflects the 2014 acquisition adjustments made to present financial results as though the acquisition of the properties occurred on January 1, 2013 and the 2015 acquisition adjustments made to present financial results as though the acquisition of the properties occurred on January 1, 2014. This unaudited pro forma information may not be indicative of the results that actually would have occurred if these transactions had been in effect on the dates indicated, nor do they purport to represent our future results of operations. (\$ in thousands)

	Three Months Ended June 30, 2015			Six Months Ended June 30, 2015

Depreciation expense on the combined consolidated statements of income also includes \$46,224 and \$0.1 million of depreciation on corporate fixed assets for the three months ended June 30, 2015 and 2014, respectively, and (1) \$51,411 and \$0.3 million of depreciation on corporate fixed assets for the six months ended June 30, 2015 and 2014, respectively.

Table of Contents

The Company's intangible assets are comprised of in-place leases, favorable leases compared to market leases and other intangibles. At June 30, 2015, gross intangible assets totaled \$139.0 million with total accumulated amortization of \$28.0 million, resulting in net intangible assets of \$111.0 million, including \$6.6 million of unamortized favorable lease intangibles which are included in real estate and related lease intangibles, net on the combined consolidated balance sheets. At December 31, 2014, gross intangible assets totaled \$127.4 million with total accumulated amortization of \$19.9 million, resulting in net intangible assets of \$107.5 million, including \$7.4 million of unamortized favorable lease intangibles which are included in real estate and related lease intangibles, net on the combined consolidated balance sheets. For the three and six months ended June 30, 2015, the Company recorded an offset against operating lease income of \$0.4 million and \$0.8 million, respectively, for favorable leases, compared to \$0.4 million and \$0.8 million, respectively, for the three and six months ended June 30, 2014.

The following table presents expected amortization expense during the next five years and thereafter related to the acquired in-place lease intangibles for property owned as of June 30, 2015 (\$ in thousands):

Period Ending December 31,	Amount
2015 (last 6 months)	\$8,558
2016	15,090
2017	10,976
2018	9,029
2019	8,781
Thereafter	58,528
Total	\$110,962

There were \$5.0 million and \$3.0 million of unbilled rent receivables included in other assets on the combined consolidated balance sheets as of June 30, 2015 and December 31, 2014, respectively.

There was unencumbered real estate of \$66.7 million and \$85.7 million as of June 30, 2015 and December 31, 2014, respectively.

The following is a schedule of contractual future minimum rent under leases (excluding property operating expenses paid directly by tenant under net leases or rent escalations under other leases from tenants) at June 30, 2015 (\$ in thousands):

Period Ending December 31,	Amount
2015 (last 6 months)	\$38,431
2016	69,533
2017	65,593
2018	62,880
2019	58,384
Thereafter	514,189
Total	\$809,010

6. INVESTMENT IN UNCONSOLIDATED JOINT VENTURES

As of June 30, 2015, the Company had an aggregate investment of \$3.0 million in its equity method joint ventures with unaffiliated third parties.

As of June 30, 2015, the Company owned a 10% limited partnership interest in Ladder Capital Realty Income Partnership I LP (“LCRIP I”) to invest in first mortgage loans held for investment and acted as general partner and Manager to LCRIP I. The Company accounts for its interest in LCRIP I using the equity method of accounting as it exerts significant influence but the unrelated limited partners have substantive participating rights, as well as kick-out rights. During the quarter ended June 30, 2015, the last loan held by LCRIP I was repaid. LCRIP I will continue in existence until the fifth anniversary of the date of its closing, April 15, 2016.

As of June 30, 2015, the Company owned a 25% membership interest in Grace Lake JV, LLC (“Grace Lake JV”) which it received in connection with the refinancing of a first mortgage loan on an office building campus in Van Buren Township, MI. The Company accounts for its interest in Grace Lake JV using the equity method of accounting as it has a 25% investment, compared to the 75% investment of its operating partner.

The following is a summary of the Company’s investments in unconsolidated joint ventures, which we account for using the equity method, as of June 30, 2015 and December 31, 2014 (\$ in thousands):

Entity	June 30, 2015	December 31, 2014
Ladder Capital Realty Income Partnership I LP	\$435	\$3,898
Grace Lake JV, LLC	2,557	2,143
Company’s investment in unconsolidated joint ventures	\$2,992	\$6,041

The following is a summary of the Company’s allocated earnings based on its ownership interests from investment in unconsolidated joint ventures for the three and six months ended June 30, 2015 and 2014 (\$ in thousands):

Entity	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Ladder Capital Realty Income Partnership I LP	\$14	\$762	\$116	\$886
Grace Lake JV, LLC	150	225	489	450
Earnings from investment in unconsolidated joint ventures	\$164	\$987	\$605	\$1,336

Ladder Capital Realty Income Partnership I LP

On April 15, 2011, the Company entered into a limited partnership agreement becoming the general partner and acquiring a 10% limited partnership interest in LCRIP I. Simultaneously with the execution of the LCRIP I Partnership Agreement, the Company was engaged as the manager of LCRIP I and is entitled to a fee based upon the average net equity invested in LCRIP I, which is subject to a fee reduction in the event average net equity invested in LCRIP I exceeds \$100.0 million. During the three months ended June 30, 2015 and 2014, the Company recorded \$14,964 and \$94,084, respectively, in management fees, which is reflected in fee income in the combined consolidated statements of income. During the six months ended June 30, 2015 and 2014, the Company recorded \$77,447 and \$228,544, respectively, in management fees, which is reflected in fee income in the combined

consolidated statements of income.

During the three and six months ended June 30, 2015 and 2014, there were no sales of loans to LCRIP I. It is the Company's policy to defer 10% of the gain on any sale of loans to LCRIP I, representing its 10% limited partnership interest, until such loans are subsequently sold by LCRIP I or repaid.

31

Table of Contents

The Company is entitled to income allocations and distributions based upon its limited partnership interest of 10% and is eligible for additional distributions of up to 25% if certain return thresholds are met upon asset sale, full prepayment or other disposition. During the three and six months ended June 30, 2015 and 2014, the return thresholds were met on certain assets that have been fully realized. The Company is obligated to provide LCRIP I 10% of any costs related to the assets held in its portfolio as of June 30, 2015.

Grace Lake JV, LLC

In connection with the origination of a loan in April 2012, the Company received a 25% equity kicker with the right to convert upon a capital event. On March 22, 2013, the loan was refinanced and the Company converted its interest into a 25% limited liability company membership interest in Grace Lake JV, which holds an investment in an office building complex. After taking into account the preferred return of 8.25% and the return of all equity remaining in the property to the Company's operating partner, the Company is entitled to 25% of the distribution of all excess cash flows and all disposition proceeds upon any sale. The Company does not participate in losses from its investment. The Company is not legally required to provide any future funding to Grace Lake JV.

Combined Summary Financial Information for Unconsolidated Joint Ventures

The following is a summary of the combined financial position of the unconsolidated joint ventures in which the Company had investment interests as of June 30, 2015 and December 31, 2014 (\$ in thousands):

	June 30, 2015	December 31, 2014
Total assets	\$81,625	\$118,762
Total liabilities	76,896	81,073
Partners'/members' capital	\$4,729	\$37,689

The following is a summary of the combined results from operations of the unconsolidated joint ventures for the period in which the Company had investment interests during the three and six months ended June 30, 2015 and 2014 (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Total revenues	\$4,788	\$6,870	\$10,463	\$13,982

Committed Loan and Securities Repurchase Facilities

The Company has entered into multiple committed master repurchase agreements in order to finance its lending activities. The Company has entered into three committed master repurchase agreements, as outlined in the table above, with multiple counterparties totaling \$1.3 billion of credit capacity. Assets pledged as collateral under these facilities are limited to whole mortgage loans or participation interests in mortgage loans collateralized by first liens on commercial properties. The Company also has a term master repurchase agreement with a major U.S. bank to finance CMBS totaling \$300.0 million. The Company's repurchase facilities include covenants covering net worth requirements, minimum liquidity levels, and maximum leverage ratios. The Company believes it was in compliance with all covenants as of June 30, 2015 and December 31, 2014.

Table of Contents

The Company has the option to extend some of the current facilities subject to a number of conditions, including satisfaction of certain notice requirements, no event of default exists, and no margin deficit exists, all as defined in the repurchase facility agreements. The lenders have sole discretion with respect to the inclusion of collateral in these facilities, to determine the market value of the collateral on a daily basis, to be exercised on a good faith basis, and have the right to require additional collateral, a full and/or partial repayment of the facilities (margin call), or a reduction in unused availability under the facilities, sufficient to rebalance the facilities if the estimated market value of the included collateral declines.

On April 29, 2014, the Company amended the terms of its master repurchase agreement with a major U.S. bank to finance loans the Company originates to temporarily increase financing capacity on its facility from \$300.0 million to \$450.0 million to enable the financing of one of its assets. The increase in capacity terminated in accordance with its terms. On October 30, 2014, the Company amended the terms of this master repurchase agreement to increase the financing capacity from \$300.0 million to \$450.0 million, to temporarily increase financing capacity on its facility from \$450.0 million to \$650.0 million to enable the financing of one of its assets and to remove the concentration limit on balance sheet financing. The temporary increase in capacity has since terminated in accordance with its terms. On December 31, 2014, the Series of LCFH were also added as additional guarantors.

On June 17, 2014, the Company amended the terms of its master repurchase agreement with a major U.S. bank to finance loans the Company originates to increase the maximum advance rate available on all classes of assets.

On June 30, 2014, the Company amended its master repurchase agreement with a major U.S. insurance company to finance loans the Company originates to extend the maturity date of the facility to December 31, 2014. The Company terminated this master repurchase agreement effective November 30, 2014.

On December 31, 2014, the Company amended the terms of its master repurchase agreement with a major U.S. bank to finance loans the Company originates to, among other items, permit the financing of mezzanine debt and amend the leverage covenant to be consistent with those in most of our other credit facilities. The Series of LCFH were also added as additional guarantors.

On February 19, 2015, the Company executed an amendment and extension of one of its credit facilities with a major banking institution, providing for, among other things, extending the maximum term of the facility to May 24, 2018, limiting the recourse exposure to the Company and modifying the pricing terms of the facility.

On April 10, 2015, the Company executed an amendment and extension of one of its credit facilities with a major banking institution, providing for, among other things, the extension of the maximum term of the facility to April 10, 2019 and increasing the maximum funding capacity of the facility to \$400.0 million.

Uncommitted Securities Repurchase Facilities

The Company has also entered into multiple master repurchase agreements with several counterparties collateralized by real estate securities. The borrowings under these agreements have typical advance rates between 65% and 95% of the fair value of collateral.

Borrowings under Credit Agreement

On January 24, 2013, the Company entered into a \$50.0 million credit agreement with one of its multiple committed financing counterparties in order to finance its securities and lending activities (the "Credit Agreement"). The Credit Agreement terminates on January 24, 2016 with no further extension options. Interest on the Credit Agreement is London Interbank Offered Rate ("LIBOR") plus 275 basis points per annum payable monthly in arrears. LCFH is

subject to customary affirmative covenants and negative covenants, including limitations on the assumption or incurrence of additional liens or debt, restrictions on certain payments or transfers of assets, and restrictions on the amendment of contracts or documents related to the assets under pledge. Under the credit agreement, LCFH is subject to customary financial covenants relating to maximum leverage, minimum tangible net worth, and minimum liquidity consistent with our other credit facilities. The Company's ability to borrow under this credit agreement is dependent on, among other things, LCFH's compliance with the financial covenants. The Company believes it was in compliance with all covenants as of June 30, 2015 and December 31, 2014.

Borrowings under Credit and Security Agreement

On October 31, 2014, the Company entered into a credit and security agreement (the “Credit and Security Agreement”) with a major banking institution to finance one of its assets in the amount of \$46.8 million and an interest rate of LIBOR plus 185 basis points. The Company is subject to customary affirmative and negative covenants under this agreement, including prohibitions on additional indebtedness or liens, restrictions on fundamental changes, and limitations to underlying loan actions or modifications. There are no financial covenants applicable to this agreement.

Revolving Credit Facility

On February 11, 2014, the Company entered into a revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility provides for an aggregate maximum borrowing amount of \$75.0 million, including a \$25.0 million sublimit for the issuance of letters of credit. The Revolving Credit Facility is available on a revolving basis to finance the Company’s working capital needs and for general corporate purposes. The Revolving Credit Facility has a three-year maturity, which maturity may be extended by two twelve-month periods subject to the satisfaction of customary conditions, including the absence of default. Interest on the Revolving Credit Facility is one-month LIBOR plus 3.50% per annum payable monthly in arrears.

The obligations under the Revolving Credit Facility are guaranteed by the Company and certain of its subsidiaries. The Revolving Credit Facility is secured by a pledge of the shares of (or other ownership or equity interests in) certain subsidiaries to the extent the pledge is not restricted under existing regulations, law or contractual obligations.

LCFH is subject to customary affirmative covenants and negative covenants, including limitations on the incurrence of additional debt, liens, restricted payments, sales of assets and affiliate transactions. In addition, under the Revolving Credit Facility, LCFH is required to comply with financial covenants relating to minimum net worth, maximum leverage, minimum liquidity, and minimum fixed charge coverage, consistent with our other credit facilities. The Company’s ability to borrow under the Revolving Credit Facility is dependent on, among other things, LCFH’s compliance with the financial covenants. The Revolving Credit Facility contains customary events of default, including non-payment of principal or interest, fees or other amounts, failure to perform or observe covenants, cross-default to other indebtedness, the rendering of judgments against the Company or certain of our subsidiaries to pay certain amounts of money and certain events of bankruptcy or insolvency.

Mortgage Loan Financing

During the six months ended June 30, 2015, the Company executed 20 term debt agreements to finance properties in its real estate portfolio. During the six months ended June 30, 2014, the Company executed one term debt agreement to finance such real estate. These nonrecourse debt agreements are fixed rate financing at rates, ranging from 4.25% to 6.75%, maturing in 2018, 2020, 2021, 2022, 2023, 2024 and 2025. These loans have carrying amounts of \$529.1 million and \$447.4 million, net of unamortized premiums of \$7.1 million and \$5.3 million at June 30, 2015 and December 31, 2014, respectively, representing proceeds received upon financing greater than the contractual amounts due under the agreements. The premiums are being amortized over the remaining life of the respective debt instruments using the effective interest method. The Company recorded \$0.2 million and \$0.4 million of premium amortization, which decreased interest expense, for the three and six months ended June 30, 2015, respectively. The Company recorded \$0.2 million and \$0.3 million of premium amortization, which decreased interest expense, for the three and six months ended June 30, 2014, respectively. The loans are collateralized by real estate and related lease intangibles, net, of \$691.0 million and \$591.6 million as of June 30, 2015 and December 31, 2014, respectively.

Borrowings from the Federal Home Loan Bank (“FHLB”)

Edgar Filing: Ladder Capital Corp - Form 10-Q

On July 11, 2012, Tuebor, a wholly-owned consolidated subsidiary, became a member of the FHLB and subsequently drew its first secured funding advances from the FHLB. On June 26, 2015, Tuebor's advance limit was increased to the lesser of \$2.9 billion, 40% of Ladder Capital Corp's total assets or 150% of Ladder Capital Corp's total equity.

As of June 30, 2015, Tuebor had \$1.8 billion of borrowings outstanding (with an additional \$507.8 million of committed term financing available from the FHLB), with terms of overnight to nine years, interest rates of 0.25% to 2.74%, and advance rates of 48.8% to 95.2% of the collateral. As of June 30, 2015, collateral for the borrowings was comprised of \$1.6 billion of CMBS and U.S. Agency Securities and \$704.6 million of first mortgage commercial real estate loans.

Table of Contents

As of December 31, 2014, Tuebor had \$1.6 billion of borrowings outstanding (with an additional \$289.0 million of committed term financing available from the FHLB), with terms of overnight to 10 years, interest rates of 0.30% to 2.74%, and advance rates of 50.0% to 95.2% of the collateral. As of December 31, 2014, collateral for the borrowings was comprised of \$1.6 billion of CMBS and U.S. Agency Securities and \$451.8 million of first mortgage commercial real estate loans.

Tuebor is subject to state regulations which require that dividends (including dividends to the Company as its parent) may only be made with regulatory approval. However, there can be no assurance that we would obtain such approval if sought. Largely as a result of this restriction, approximately \$378.8 million of the member's capital were restricted from transfer to Tuebor's parent without prior approval of state insurance regulators at June 30, 2015.

Combined Maturity of Debt Obligations

The following schedule reflects the Company's contractual payments under all borrowings by maturity (\$ in thousands):

Period ending December 31,	Borrowings by Maturity (1)(2)
2015 (last 6 months)	\$1,448,702
2016	1,037,702
2017	455,958
2018	78,323
2019	28,517
Thereafter	1,040,453
Total	\$4,089,655

(1) Contractual payments under current maturities, some of which are subject to extensions.

(2) Includes \$611.4 million of the Company's senior unsecured notes. Refer to Note 8.

The Company's debt facilities are subject to covenants which require the Company to maintain a minimum level of total equity. Largely as a result of this restriction, approximately \$900.3 million of the total equity is restricted from payment as a dividend by the Company at June 30, 2015.

8. SENIOR UNSECURED NOTES

In April 2015, FASB issued ASU 2015-03, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Beginning April 1, 2015, the Company elected to early adopt ASU 2015-03 and appropriately retrospectively applied the guidance to its senior unsecured notes, to all periods presented. Unamortized debt issuance costs of \$8.2 million are included in senior unsecured notes as of June 30, 2015, and unamortized debt issuance costs of \$9.4 million are included in senior unsecured notes as of December 31, 2014 (previously included in other assets on the combined consolidated balance sheets).

On September 19, 2012, LCFH issued \$325.0 million in aggregate principal amount of 7.375% Senior Notes due October 1, 2017 (the "2017 Notes"). The 2017 Notes require interest payments semi-annually in cash in arrears on April 1 and October 1 of each year, beginning on September 19, 2012. The 2017 Notes are unsecured and are subject to incurrence-based covenants, including limitations on the incurrence of additional debt, restricted payments, liens, sales of assets, affiliate transactions and other covenants typical for financings of this type.

On August 1, 2014, LCFH issued \$300.0 million in aggregate principal amount of 5.875% senior notes due 2021 (the “2021 Notes”). The 2021 Notes require interest payments semi-annually in cash in arrears on February 1 and August 1 of each year, beginning on February 1, 2015. The 2021 Notes will mature on August 1, 2021. The 2021 Notes are unsecured and are subject to incurrence-based covenants, including limitations on the incurrence of additional debt, restricted payments, liens, sales of assets, affiliate transactions and other covenants typical for financings of this type.

Table of Contents

On December 17, 2014, the Company retired \$5.4 million of principal of the 2017 Notes for a repurchase price of \$5.6 million recognizing a \$0.1 million loss on extinguishment of debt. The remaining \$319.6 million in aggregate principal amount of the 2017 Senior Notes is due October 2, 2017.

LCFH issued the 2021 Notes and the 2017 Notes (collectively, the “Notes”) with Ladder Capital Finance Corporation (“LCFC”), as co-issuers on a joint and several basis. LCFC is a 100% owned finance subsidiary of LCFH with no assets, operations, revenues or cash flows other than those related to the issuance, administration and repayment of the Notes. Ladder Capital Corp and certain subsidiaries of LCFH currently guarantee the obligations under the Notes and the indenture.

9. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is based upon market quotations, broker quotations, counterparty quotations or pricing services quotations, which provide valuation estimates based upon reasonable market order indications and are subject to significant variability based on market conditions, such as interest rates, credit spreads and market liquidity. The fair value of the mortgage loan receivables held for sale is based upon a securitization model utilizing market data from recent securitization spreads and pricing.

Fair Value Summary Table

The carrying values and estimated fair values of the Company’s financial instruments, which are both reported at fair value on a recurring basis (as indicated) or amortized cost/par, at June 30, 2015 and December 31, 2014 are as follows (\$ in thousands):

June 30, 2015

	Outstanding Face Amount	Amortized Cost Basis	Fair Value	Fair Value Method	Weighted Average Yield %	Remaining Maturity/Duration (years)

Revolving credit facility	25,000	25,000	25,000	Discounted Cash Flow(10)	3.66 %	2.12

Edgar Filing: Ladder Capital Corp - Form 10-Q

Mortgage loan financing	442,753	447,410	455,846	Discounted Cash Flow(4)	4.85 %	8.47
Borrowings from the FHLB	1,611,000	1,611,000	1,616,373	Discounted Cash Flow	0.79 %	2.05
Senior unsecured notes	619,555	619,555	611,745	Broker quotations, pricing services	6.65 %	4.61
Nonhedge derivatives(1)(8)	1,428,700	N/A	13,446	Counterparty quotations	N/A	1.41

(1) Measured at fair value on a recurring basis with the net unrealized gains or losses recorded as a component of other comprehensive income (loss) in equity

(2) Measured at fair value on a recurring basis with the net unrealized gains or losses recorded in current period earnings

(3) Fair value for repurchase agreement liabilities is estimated to approximate carrying amount primarily due to the short interest rate reset risk (30 days) of the financings and the high credit quality of the assets collateralizing these positions. If the collateral is determined to be impaired, the related financing would be revalued accordingly. There are no impairments on any positions.

(4) For the mortgage loan financing, the carrying value approximates the fair value discounting the expected cash flows at current market rates. If the collateral is determined to be impaired, the related financing would be revalued accordingly. There are no impairments on any positions.

(5) Fair value for floating rate mortgage loan receivables, held for investment is estimated to approximate the outstanding face amount given the short interest rate reset risk (30 days) and no significant change in credit risk. Fair value for fixed rate mortgage loan receivables, held for investment is measured using a hypothetical securitization model utilizing market data from recent securitization spreads and pricing.

(6) Fair value for mortgage loan receivables, held for sale is measured using a hypothetical securitization model utilizing market data from recent securitization spreads and pricing.

(7) Fair value of the FHLB stock approximates outstanding face amount as the Company's wholly-owned subsidiary is restricted from trading the stock and can only put the stock back to the FHLB, at the FHLB's discretion, at par.

(8) The outstanding face amount of the nonhedge derivatives represents the notional amount of the underlying contracts.

(9) Represents notional outstanding balance of underlying collateral

(10) Fair value for borrowings under credit agreement, credit and security agreement and revolving credit facility is estimated to approximate carrying amount primarily due to the short interest rate reset risk (30 days) of the financings and the high credit quality of the assets collateralizing these positions.

Table of Contents

The Company's counterparties held \$30.4 million and \$35.8 million of cash margin as collateral for derivatives as of June 30, 2015 and December 31, 2014, respectively, which is included in cash collateral held by brokers in the combined consolidated balance sheets.

Table of Contents

Credit Risk-Related Contingent Features

The Company has agreements with certain of its derivative counterparties that contain a provision whereby if the Company defaults on certain of its indebtedness, the Company could also be declared in default on its derivatives, resulting in an acceleration of payment under the derivatives. As of June 30, 2015 and December 31, 2014, the Company was in compliance with these requirements and not in default on its indebtedness. As of June 30, 2015 and December 31, 2014, there was \$6.6 million and \$11.7 million of cash collateral held by the derivative counterparties for these derivatives, respectively, included in cash collateral held by brokers in the combined consolidated statements of financial condition. No additional cash would be required to be posted if the acceleration of payment under the derivatives was triggered.

11. OFFSETTING ASSETS AND LIABILITIES

The following tables presents both gross information and net information about derivatives and other instruments eligible for offset in the statement of financial position as of June 30, 2015 and December 31, 2014. The Company's accounting policy is to record derivative asset and liability positions on a gross basis, therefore, the following table presents the gross derivative asset and liability positions recorded on the balance sheets while also disclosing the eligible amounts of financial instruments and cash collateral to the extent those amounts could offset the gross amount of derivative asset and liability positions. The actual amounts of collateral posted by or received from counterparties may be in excess than the amounts disclosed in the following table as the following only discloses amounts eligible to be offset to the extent of the recorded gross derivative positions.

As of June 30, 2015

Offsetting of Financial Assets and Derivative Assets

(1) Included in cash collateral held by broker on combined consolidated balance sheets.

Master netting agreements that the Company has entered into with its derivative and repurchase agreement counterparties allow for netting of the same transaction, in the same currency, on the same date. Assets, liabilities, and collateral subject to master netting agreements as of June 30, 2015 and December 31, 2014 are disclosed in the tables above. The Company does not present its derivative and repurchase agreements net on the combined consolidated financial statements as it has elected gross presentation.

12. EQUITY STRUCTURE AND ACCOUNTS

A description of the IPO Transactions is included in Note 1. In addition, a description of the distribution policies of and accounting for the predecessor capital structure is also included later in this Note.

Subsequent to the IPO Transactions, the Company has two classes of common stock, Class A and Class B, which are described as follows:

Class A Common Stock**Voting Rights**

Holders of shares of Class A common stock are entitled to one vote per share on all matters to be voted upon by the shareholders. The holders of Class A common stock do not have cumulative voting rights in the election of directors.

Table of Contents

Dividend Rights

Subject to the rights of the holders of any preferred stock that may be outstanding and any contractual or statutory restrictions, holders of Class A common stock are entitled to receive equally and ratably, share for share, dividends as may be declared by the board of directors out of funds legally available to pay dividends. Dividends upon Class A common stock may be declared by the board of directors at any regular or special meeting and may be paid in cash, in property, or in shares of capital stock. Before payment of any dividend, there may be set aside out of any funds available for dividends, such sums as the board of directors deems proper as reserves to meet contingencies, or for equalizing dividends, or for repairing or maintaining any of the Company's property, or for any proper purpose, and the board of directors may modify or abolish any such reserve.

Liquidation Rights

Upon liquidation, dissolution, distribution of assets or other winding up, the holders of Class A common stock are entitled to receive ratably the assets available for distribution to the shareholders after payment of liabilities and the liquidation preference of any outstanding shares of preferred stock.

Other Matters

The shares of Class A common stock have no preemptive or conversion rights and are not subject to further calls or assessment by the Company. There are no redemption or sinking fund provisions applicable to the Class A common stock. All outstanding shares of Class A common stock are fully paid and non-assessable.

Allocation of Income and Loss

Income and losses are allocated among the shareholders based upon the number of shares outstanding.

Class B Common Stock

Voting Rights

Holders of shares of Class B common stock are entitled to one vote for each share held of record by such holder and all matters submitted to a vote of shareholders. Holders of shares of our Class A common stock and Class B common stock vote together as a single class on all matters presented to our shareholders for their vote or approval, except as otherwise required by applicable law.

No Dividend or Liquidation Rights

Holders of Class B common stock do not have any right to receive dividends or to receive a distribution upon a liquidation or winding up of Ladder Capital Corp.

Exchange for Class A Common Stock

Pursuant to the Third Amended and Restated LLLP Agreement of LCFH, the Continuing LCFH Limited Partners may from time to time, subject to certain conditions, exchange one Series REIT LP Unit, one of either a Series TRS LP Unit or a TRS Share, and one share of the Company's Class B common stock for one share of the Company's Class A common stock, subject to equitable adjustments for stock splits, stock dividends and reclassifications.

Edgar Filing: Ladder Capital Corp - Form 10-Q

In 2014, 874,374 LP Units were exchanged for 874,374 shares of Class A common stock and 874,374 shares of Class B common stock were canceled. We received no other consideration in connection with these exchanges.

During the six months ended June 30, 2015, 1,049,939 Series REIT LP Units and 1,049,939 Series TRS LP Units were collectively exchanged for 1,049,939 shares of Class A common stock and 1,049,939 shares of Class B common stock were canceled. We received no other consideration in connection with these exchanges.

Table of Contents

Predecessor Capital Structure

The capital structure discussed below is reflective of LCFH's structure as it existed at February 11, 2014, immediately prior to the Reorganization Transactions described in Note 1. Immediately following the Reorganization Transactions, with the exception of the discussions regarding quarterly tax distributions, the provisions set forth below no longer apply.

Cash Distributions to Predecessor Partners

Distributions (other than tax distributions which are described below) will be made in the priorities described below at such times and in such amounts as determined by the Company's board of directors. All capitalized items used in this section but not defined shall have the respective meanings given to such capitalized terms in the LLLP Agreement of LCFH dated as of August 9, 2011, as amended (the "LLLP Agreement").

First, to the holders of Series A and Series B participating preferred units pro rata based on the capital account of each such holder's interests, until the Series A and Series B participating preferred unit holders have each received an amount equivalent to their respective capital accounts; then

Second, 20% to the common unit holders, and 80% to the holders of Series A participating preferred units, until the Series A participating preferred unit holders have each received an amount equivalent to \$124 per unit; and Thereafter, 20% to common unit holders, and 80% to the holders of Series A and Series B participating preferred units, pro rata based on the units held by each holder.

Notwithstanding the foregoing, subject to available liquidity as determined by Company's board of directors, the Company intends to make quarterly tax distributions equal to a partner's "Quarterly Estimated Tax Amount," which shall be computed (as more fully described in the LLLP Agreement) for each partner as the product of (x) the federal taxable income (or alternative minimum taxable income, as the case may be) allocated by the Company to such partner in respect of the partnership interests of the Company held by such partner and (y) the highest marginal blended federal, state and local income tax rate applicable to an individual residing in New York, NY, taking into account for federal income tax purposes, the deductibility of state and local taxes.

Allocation of Income and Loss

Income and losses and comprehensive income are allocated among the partners in a manner to reflect as closely as possible the amount each partner would be distributed under the LLLP Agreement upon liquidation of the Operating Partnership's assets.

Capitalized Offering Costs

As described in Note 1, the Company completed an IPO of its Class A Common Stock on February 11, 2014. Costs directly attributable to the Company's IPO of \$20.5 million were capitalized and charged against the proceeds of the IPO once completed.

Table of Contents

Changes in Accumulated Other Comprehensive Income

The following table presents changes in accumulated other comprehensive income related to the cumulative difference between the fair market value and the carrying value of CMBS for the six months ended June 30, 2015 (\$ in thousands):

	Accumulated Other Comprehensive Income	Accumulated Other Comprehensive Income of Noncontrolling Interests	Total Accumulated Other Comprehensive Income
December 31, 2014	\$15,656	\$14,494	\$30,150
Other comprehensive income (loss)	(10,779) (9,332) (20,111
Exchange of noncontrolling interest for common stock	380	(380) —
Rebalancing of ownership percentage between Company and Operating Partnership	83	(83) —
June 30, 2015	\$5,340	\$4,699	\$10,039

13. NONCONTROLLING INTERESTS

Pursuant to ASC 810, Consolidation, on the accounting and reporting for noncontrolling interests and changes in ownership interests of a subsidiary, changes in a parent's ownership interest (and transactions with noncontrolling interest unitholders in the subsidiary) while the parent retains its controlling interest in its subsidiary should be accounted for as equity transactions. The carrying amount of the noncontrolling interest shall be adjusted to reflect the change in its ownership interest in the subsidiary, with the offset to equity attributable to the parent. Accordingly, as a result of reorganization transactions which caused changes in ownership percentages between the Company's Class A shareholders and the noncontrolling interests in the Operating Partnership that occurred during the six months ended June 30, 2015, the Company has decreased noncontrolling interests in the Operating Partnership and increased additional paid-in capital and accumulated other comprehensive income in the Company's shareholders' equity by \$1.9 million as of June 30, 2015.

There are two main types of noncontrolling interest reflected in the Company's combined consolidated financial statements (i) noncontrolling interest in the operating partnership and (ii) noncontrolling interest in consolidated joint ventures.

Noncontrolling Interest in the Operating Partnership

As more fully described in Note 1, certain of the predecessor equity owners continue to own interests in the operating partnership as modified by the IPO Transactions. These interests were subsequently further modified by the REIT Structuring Transactions (also described in Note 1). These interests along with the Class B shares held by these investors are exchangeable for Class A shares of the Company. The roll-forward of the Operating Partnership's LP Units follow the Class B common stock of the Company as disclosed in the combined consolidated statements of changes in equity/capital.

Distributions to Noncontrolling Interest in the Operating Partnership

Notwithstanding the foregoing, subject to any restrictions in applicable debt financing agreements and available liquidity as determined by the board of directors of each of Series REIT of LCFH and Series TRS of LCFH, each

Series must use commercially reasonable efforts to make quarterly distributions to each of its partners (including the Company) at least equal to such partner's "Quarterly Estimated Tax Amount," which shall be computed (as more fully described in LCFH's Third Amended and Restated LLLP Agreement) for each partner as the product of (x) the federal taxable income (or alternative minimum taxable income, if higher) allocated by such Series to such partner in respect of the Series REIT LP Units and Series TRS LP Units held by such partner and (y) the highest marginal blended federal, state and local income tax rate (or alternative minimum taxable rate, as applicable) applicable to an individual residing in New York, NY, taking into account, for federal income tax purposes, the deductibility of state and local taxes; provided that Series TRS of LCFH may take into account, in determining the amount of tax distributions to holders of Series TRS LP Units, the amount of any distributions each such holder received from Series REIT of LCFH in excess of tax distributions.

Table of Contents

Allocation of Income and Loss

Income and losses and comprehensive income are allocated among the partners in a manner to reflect as closely as possible the amount each partner would be distributed under the Third Amended and Restated LLLP Agreement upon liquidation of the Operating Partnership's assets.

Noncontrolling Interest in Unconsolidated Joint Ventures

The Company consolidates eight ventures in which there are other noncontrolling investors which own between 1.2% - 22.5% of such ventures. These ventures hold investments in six office buildings, one warehouse and a condominium project. The Company makes distributions and allocates income from these ventures to the noncontrolling interests in accordance with the terms of the respective governing agreements.

14. EARNINGS PER SHARE

The Company's net income and weighted average shares outstanding for the three and six months ended June 30, 2015 and the period February 11, 2014 through June 30, 2014 consists of the following:

(\$ in thousands except share amounts)	For the Three Months Ended June 30, 2015	For the Three Months Ended June 30, 2014	For the Six Months Ended June 30, 2015	For the Period February 11, 2014 through June 30, 2014
Basic Net income available for Class A common shareholders	\$34,210	\$12,505	\$43,384	\$25,157
Diluted Net income available for Class A common shareholders	\$34,210	\$21,951	\$83,065	\$45,249
Weighted average shares outstanding				
Basic	50,335,095	48,909,692	50,161,553	48,909,692
Diluted	50,929,538	97,617,710	98,148,577	97,714,070

Net income per share information is not applicable for reporting periods prior to February 11, 2014. The calculation of basic and diluted net income per share amounts for the three and six months ended June 30, 2015, the three months ended June 30, 2014 and the period February 11, 2014 through June 30, 2014 are described and presented below.

Basic Net Income per Share

Numerator: utilizes net income available for Class A common shareholders for the three and six months ended June 30, 2015, the three months ended June 30, 2014 and the period February 11, 2014 through June 30, 2014, respectively.

Denominator: utilizes the weighted average shares of Class A common stock for the three and six months ended June 30, 2015, the three months ended June 30, 2014 and the period February 11, 2014 through June 30, 2014, respectively.

Diluted Net Income per Share

Edgar Filing: Ladder Capital Corp - Form 10-Q

Numerator: utilizes net income available for Class A common shareholders for the three and six months ended June 30, 2015, the three months ended June 30, 2014 and the period February 11, 2014 through June 30, 2014, respectively, for the basic net income per share calculation described above, adding net income amounts attributable to the noncontrolling interest in the Operating Partnership using the as-if converted method for the Class B common shareholders while adjusting for additional corporate income tax expense for the described net income add-back.

Denominator: utilizes the weighted average number of shares of Class A common stock for the three and six months ended June 30, 2015, the three months ended June 30, 2014 and the period February 11, 2014 through June 30, 2014, respectively, for the basic net income per share calculation described above adding the dilutive effect of shares issuable relating to Operating Partnership exchangeable interests and the incremental shares of unvested Class A restricted stock using the treasury method.

Additional corporate tax	—	(8,245) (4,087) (16,168
Diluted net income attributable to Class A common shareholders	\$34,210	\$21,951	\$83,065	\$45,249
Denominator:				
Basic weighted average number of shares of Class A common stock outstanding	50,335,095	48,909,692	50,161,553	48,909,692
Add - dilutive effect of:				
Shares issuable relating to converted Class B common shareholders	—	48,534,459	47,459,814	48,535,268
Incremental shares of unvested Class A restricted stock	594,443	173,559	527,210	269,110
Diluted weighted average number of shares of Class A common stock outstanding	50,929,538	97,617,710	98,148,577	97,714,070
Diluted net income per share of Class A common stock	\$0.67	\$0.22	\$0.85	\$0.46

The shares of Class B common stock do not share in the earnings of Ladder Capital Corp and are, therefore, not participating securities. Accordingly, basic and diluted net income per share of Class B common stock has not been presented, although the assumed conversion of Class B common stock has been included in the presented diluted net income per share of Class A common stock.

15. STOCK BASED COMPENSATION PLANS

2008 Incentive Equity Plan

The 2008 Incentive Equity Plan of the Company, as amended in 2012, was adopted by the board of directors on September 22, 2008 (the “2008 Plan”) and provided certain members of management, employees and directors of the Company or any other Ladder Company (as defined in the 2008 Plan) with additional incentives. Only one grant made to an employee pursuant to the 2008 Plan remains outstanding. All units issued under the 2008 Plan were converted to LP Units of LCFH in connection with the IPO. Post-IPO incentive-based compensation is governed by the 2014 Omnibus Incentive Plan discussed below.

50

Table of Contents

2014 Omnibus Incentive Plan

In connection with the IPO Transactions, the 2014 Ladder Capital Corp Incentive Equity Plan (the “2014 Omnibus Incentive Plan”) was adopted by the board of directors on February 11, 2014, and provides certain members of management, employees and directors of the Company or any other Ladder Company (as defined in the 2008 Plan) with additional incentives including grants of stock options, stock appreciation rights, restricted stock, other stock-based awards and other cash-based awards.

Reallocation Awards

On February 3, 2015, restricted stock awards were granted to members of management and certain employees (the “Grantees”) with an aggregate value of \$499,910, representing 25,742 shares of restricted Class A common stock. These restricted stock awards were allocated to the Grantees from employee forfeitures of the restricted stock awards initially granted on February 18, 2014 in connection with the IPO Transactions (the “IPO Restricted Stock Awards”) and vest on the same dates, subject to the same terms and conditions as the IPO Restricted Stock Awards described in our Proxy Statement.

The compensation expense related to the February 3, 2015 grants will be recognized and accrued for in the same manner as the IPO Restricted Stock Awards as well. See our Proxy Statement for a detailed description of the terms and accounting treatment of the IPO Restricted Stock Awards.

2015 Annual Restricted Stock Awards and Annual Option Awards

Members of management are eligible to receive annual restricted stock awards (the “Annual Restricted Stock Awards”) and annual option awards (the “Annual Option Awards”) based on the performance of the Company. On February 18, 2015, Annual Restricted Stock Awards were granted to our Executive Officers (each, a “Management Grantee”) with an aggregate value of \$12,632,140 which represents 688,400 shares of restricted Class A common stock in connection with 2014 compensation. Fifty percent of each restricted stock award granted is subject to time-based vesting criteria, and the remaining 50% of each restricted stock award is subject to specified performance-based vesting criteria. The time-vesting restricted stock granted to Brian Harris and the other Management Grantees will vest in three installments on each of the first three anniversaries of the date of grant, subject to continued employment on the applicable vesting dates. The performance-vesting restricted stock will vest in three equal installments on December 31 of each of 2015, 2016 and 2017 if the Company achieves a return on equity, based on core earnings divided by the Company’s average book value of equity, equal to or greater than 8% for such year (the “Performance Target”). If the Company misses the Performance Target during either the first or second calendar year but meets the Performance Target for a subsequent year during the three-year performance period and the Company’s return on equity for such subsequent year and any years for which it missed its Performance Target equals or exceeds the compounded return on equity of 8%, based on core earnings divided by the Company’s average book value of equity, the performance-vesting restricted stock which failed to vest because the Company previously missed its Performance Target will vest on the last day of such subsequent year. If the term “core earnings” is no longer used in the Company’s SEC filings and approved by the compensation committee, then the Performance Target will be calculated using such other pre-tax performance measurement defined in the Company’s SEC filings, as determined by the compensation committee.

The Company has elected to recognize the compensation expense related to the time-based vesting criteria of the Annual Restricted Stock Awards for the entire award on a straight-line basis over the requisite service period. We feel that this aligns the compensation expense with the obligation of the Company. As such, the compensation expense related to the February 18, 2015 Annual Restricted Stock Awards to Management Grantees shall be recognized as

follows:

1. Compensation expense for restricted stock subject to time-based vesting criteria granted to Brian Harris will be expensed 1/2 each year, for two years, on an annual basis following such grant

Compensation expense for restricted stock subject to time-based vesting criteria granted to the Management
2. Grantees other than Mr. Harris, will be expensed 1/3 each year, for three years on an annual basis following such grant.

Accruals of compensation cost for an award with a performance condition shall be based on the probable outcome of that performance condition. Therefore, compensation cost shall be accrued if it is probable that the performance condition will be achieved and shall not be accrued if it is not probable that the performance condition will be achieved.

51

Table of Contents

On February 18, 2015, Annual Stock Option Awards were granted to Management Grantees with an aggregate grant date fair value of \$1,441,050, which represents 670,256 shares of Class A common stock subject to the Annual Stock Option Awards. The stock option awards are subject to time-based vesting criteria only and vest in three equal installments on February 18 of each of 2016, 2017 and 2018, subject to continued employment until the applicable vesting date. Upon termination of a Management Grantee's employment or service due to death, disability, termination by the Company without Cause or termination by the Management Grantee for Good Reason (each, as defined in the 2014 Omnibus Incentive Plan), the respective Management Grantee's option awards will accelerate and vest in full. The actual grant date fair values of the Annual Option Awards granted to our Management Grantees were computed in accordance with FASB ASC Topic 718 using the Black Scholes model based on the following assumptions: (1) risk-free rate of 1.79%; (2) dividend yield of 5.3%; (3) expected life of six years; and (4) volatility of 24.0%.

On February 18, 2015, members of the board of directors received Annual Restricted Stock Awards with a grant date fair value of \$146,103, representing 7,962 shares of restricted Class A common stock, which will vest in full on the first anniversary of the date of grant, subject to continued service on the board of directors. Compensation expense for restricted stock subject to time-based vesting criteria granted to directors will be expensed in full on an annual basis following such grant.

Upon a change in control (as defined in the respective award agreements), all restricted stock and option awards will become fully vested, if (1) the Management Grantee continues to be employed through the closing of the change in control or (2) after the signing of definitive documentation related to the change in control, but prior to its closing, the Management Grantee's employment is terminated without Cause or due to death or disability or the Management Grantee resigns for Good Reason. The compensation committee retains the right, in its sole discretion, to provide for the accelerated vesting (in whole or in part) of the restricted stock and option awards granted.

On February 11, 2017 (the "Harris Retirement Eligibility Date"), all outstanding Annual Restricted Stock Awards, including the time-vesting portion and the performance-vesting portion, and all outstanding Annual Option Awards granted to Mr. Harris will become fully vested, and any Annual Restricted Stock Awards and Annual Option Awards granted after the Harris Retirement Eligibility Date will be fully vested at grant. For other Management Grantees, upon the date that is on or after February 11, 2019, where the sum of the individual's age and the individual's number of full, completed years of employment with us or our subsidiaries is equal to or greater than sixty (the "Executive Retirement Eligibility Date"), the time-vesting portion of the Annual Restricted Stock Awards and the Annual Option Awards will become fully vested, and the time-vesting portion of any Annual Restricted Stock Awards and Annual Option Awards granted after the Executive Retirement Eligibility Date will be fully vested at grant. Upon the occurrence of the Executive Retirement Eligibility Date, the performance-vesting portion of such Management Grantee's Annual Restricted Stock Awards will remain outstanding for the performance period and will vest to the extent we meet the Performance Target, including via the catch up provision described above, regardless of continued employment with us our subsidiaries following the Executive Retirement Eligibility Date.

On June 10, 2015, a new member of the board of directors received an Annual Restricted Stock Award with a grant date fair value of \$75,000, representing 4,223 shares of restricted Class A common stock, which will vest in three equal installments on each of the first three anniversaries of the date of grant, subject to continued service on the board of directors. Compensation expense for restricted stock subject to time-based vesting criteria granted to the director will be expensed 1/3 each year, for 3 years on an annual basis following such grant.

Table of Contents

A summary of the grants is presented below (\$ in thousands):

	Three Months Ended June 30,				Six Months Ended June 30,			
	2015		2014		2015		2014

The table below presents the number of unvested shares and outstanding stock options at June 30, 2015 and changes during 2015 of the (i) Class A Common stock and Stock Options of Ladder Capital Corp granted under the 2014 Omnibus Incentive Plan and (ii) Series B Participating Preferred Units of LCFH granted under the 2008 Plan, which were subsequently converted to LP Units of LCFH in connection with the IPO.

	Restricted Stock	Stock Options	LP Units(1)
Nonvested/Outstanding at December 31, 2014	1,384,439	—	8,063
Granted	726,327	670,256	—
Exercised		—	
Vested	(115,074)		(4,535)
Forfeited	(54,615)	—	—
Expired		—	
Nonvested/Outstanding at June 30, 2015	1,941,077	670,256	3,528
Exercisable at June 30, 2015		—	

Converted to LP Units of LCFH on February 11, 2014 in connection with IPO and then converted to an equal number of Series REIT LP Units and Series TRS LP Units on December 31, 2014. LCFH LP Unitholders also (1) received an equal number of shares of Class B Common stock of the Company in connection with the conversion. Refer to Note 1, Organization and Operations for further discussion of IPO and the Reorganization Transactions.

At June 30, 2015 there was \$23.3 million of total unrecognized compensation cost related to certain share-based compensation awards that is expected to be recognized over a period of up to 36 months, with a weighted-average remaining vesting period of 25.3 months.

Phantom Equity Investment Plan

LCFH maintains a Phantom Equity Investment Plan effective as of June 30, 2011 (the “Plan”). The Plan is an annual deferred compensation plan pursuant to which certain mandatory contributions were made to the Plan depending upon the participant’s specific level of compensation and to which participants also made elective contributions. See our Annual Report for a detailed description of the terms of the Plan.

Table of Contents

On July 3, 2014 the board of directors froze the Plan, effective as of such date, so there have been no additional participants in the Plan, nor additional amounts contributed to any accounts outstanding under the Plan. Amounts previously outstanding under the Plan will be paid in accordance with their original payment terms. As of June 30, 2015, there are 476,898 phantom units outstanding, of which 133,264 are unvested, resulting in a liability of \$8.4 million, which is included in accrued expenses on the combined consolidated balance sheets.

Ladder Capital Corp Deferred Compensation Plan

On July 3, 2014, the Company adopted a new, nonqualified deferred compensation plan, which was subsequently amended and restated effective March 17, 2015 (the “2014 Deferred Compensation Plan”) to set conditions for qualified retirement. Pursuant to the 2014 Deferred Compensation Plan, participants may elect, or in some cases may be required, to defer all or a portion of their annual cash performance-based bonuses into the 2014 Deferred Compensation Plan. Generally, if a participant’s total compensation is in excess of a certain threshold, a portion of a participant’s performance-based annual bonus is required to be deferred into the 2014 Deferred Compensation Plan. Otherwise, a portion of the participant’s annual bonus may be deferred into the 2014 Deferred Compensation Plan at the election of the participant, so long as such elections are timely made in accordance with the terms and procedures of the 2014 Deferred Compensation Plan. See our Annual Report for a detailed description of the terms of the 2014 Deferred Compensation Plan.

In February 2015, Company employees contributed \$3.4 million to the Plan. As of June 30, 2015, there are 113,274 phantom units outstanding, of which 113,274 are unvested, resulting in no liability.

Bonus Payments

On February 3, 2015, the compensation committee of the board of directors of Ladder Capital Corp approved 2014 bonus payments to employees, including officers, totaling \$62.3 million, which included \$14.4 million of equity based compensation. The bonuses were accrued for as of December 31, 2014 and paid to employees in full on February 13, 2015. During the three and six months ended June 30, 2015, the Company accrued and recorded compensation expense of \$11.7 million and \$18.0 million, respectively, related to 2015 bonuses. During the three and six months ended June 30, 2014, the Company accrued and recorded compensation expense of \$18.0 million and \$30.6 million, respectively, related to 2014 bonuses.

16. INCOME TAXES

Prior to February 11, 2014, the Company had not been subject to U.S. federal income taxes as the predecessor entity is a Limited Liability Limited Partnership (“LLLP”), but had been subject to the New York City Unincorporated Business Tax (“NYC UBT”). As a result of the IPO, a portion of the Company’s income is subject to federal, state and local corporate income taxes and taxed at the prevailing corporate tax rates in addition to being subject to NYC UBT. Because the Company is operating as a REIT effective January 1, 2015, the Company's income will generally no longer be subject to U.S. federal, state and local corporate income taxes. Income earned at the Company's taxable REIT subsidiaries will generally be subject to such taxes.

Components of the provision for income taxes consist of the following (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Current expense				
Federal	\$6,193	\$10,453	\$7,050	\$15,820

Edgar Filing: Ladder Capital Corp - Form 10-Q

State and local	1,784	2,957	1,987	4,763
Total current expense	7,977	13,410	9,037	20,583
Deferred expense/(benefit)				
Federal	(2,360)) (4,353) (708) (5,875
State and local	(440)) (858) (47) (1,220
Total deferred expense/(benefit)	(2,800)) (5,211) (755) (7,095
Provision for Income tax (benefit) expense	\$5,177	\$8,199	\$8,282	\$13,488

54

Table of Contents

There were \$1.3 million of corporate taxes payable as of June 30, 2015. Corporate taxes payable as of December 31, 2014 were \$0.8 million. NYC UBT taxes payable (receivable) at June 30, 2015 and December 31, 2014 were \$1.1 million and \$0.1 million, respectively. Prepaid corporate taxes as of June 30, 2015 and December 31, 2014 were \$8.6 million and \$12.5 million, respectively.

As of June 30, 2015 and December 31, 2014, the Company's net deferred tax assets were \$9.5 million and \$8.2 million, respectively, and are included in other assets in the Company's combined consolidated balance sheets. The Company believes it is more likely than not that the net deferred tax assets will be realized in the future. Realization of the net deferred tax assets is dependent upon our generation of sufficient taxable income in future years in appropriate tax jurisdictions to obtain benefit from the reversal of temporary differences. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change. The components of the Company's deferred tax assets and liabilities are as follows (\$ in thousands):

	June 30, 2015	December 31, 2014
Deferred Tax Assets		
Basis difference in operating partnerships	\$5,858	\$6,795
Tax intangibles from partner exchanges	1,237	778
Unrealized gains and losses	2,410	616
Unrealized gains and losses - derivatives	1,281	—
Valuation Allowance	(1,281)	—
Total Deferred Tax Assets	\$9,505	\$8,189

As of June 30, 2015, the Company has a deferred tax asset of \$1.3 million relating to capital losses which it may only use to offset capital gains. As the realization of these assets are not more likely than not before their expiration on current operations, the Company has provided a full valuation allowance against this deferred tax asset.

Our tax returns are subject to audit by taxing authorities. Generally, as of June 30, 2015 the tax years 2011, 2012, 2013 and 2014 remain open to examination by the major taxing jurisdictions in which the Company is subject to taxes. U.S. federal and state taxing authorities are currently examining income tax returns of various subsidiaries of the Company for tax years 2010 through 2012. These tax examinations often take a long time to complete and/or settle and there can be no assurances as to the possible outcomes. However, the Company believes that the examinations will result in no material changes to the filed income tax returns.

Under U.S. GAAP, a tax benefit related to an income tax position may be recognized when it is more likely than not that the position will be sustained upon examination by the tax authorities based on the technical merits of the position. The Company determined that no liability for unrecognized tax benefits for uncertain income tax positions was required to be recorded as of June 30, 2015. In addition, the Company does not believe that it has any tax positions for which it is reasonably possible that it will be required to record a significant liability for unrecognized tax benefits within the next twelve months.

Tax Receivable Agreement

Upon consummation of the IPO, the Company entered into a Tax Receivable Agreement with the Continuing LCFH Limited Partners. Under the Tax Receivable Agreement the Company generally is required to pay to those Continuing LCFH Limited Partners that exchange their interests in LCFH and Class B shares of the Company for Class A shares of the Company, 85% of the applicable cash savings, if any, in U.S. federal, state and local income tax that the

Company realizes (or is deemed to realize in certain circumstances) as a result of (i) the increase in tax basis in its proportionate share of LCFH's assets that is attributable to the Company as a result of the exchanges and (ii) payments under the Tax Receivable Agreement, including any tax benefits related to imputed interest deemed to be paid by the Company as a result of such agreement. The Company expects to make future payments under the Tax Receivable Agreement when the tax benefits are realized. We expect to benefit from the remaining 15% of cash savings in income tax that we realize. For purposes of the Tax Receivable Agreement, cash savings in income tax will be computed by comparing our actual income tax liability to the amount of such taxes that we would have been required to pay had there been no increase to the tax basis of the assets of LCFH as a result of the exchanges and had we not entered into the Tax Receivable Agreement.

Table of Contents

Payments to a Continuing LCFH Limited Partner under the Tax Receivable Agreement are triggered by each exchange and are payable annually commencing following the Company's filing of its income tax return for the year of such exchange. The timing of the payments may be subject to certain contingencies, including the Company having sufficient taxable income to utilize all of the tax benefits defined in the Tax Receivable Agreement.

As of June 30, 2015 and December 31, 2014, pursuant to Tax Receivable Agreement, the Company recorded a liability of \$1.3 million and \$0.9 million, respectively, included in amount payable pursuant to tax receivable agreement in the combined consolidated balance sheets for Continuing LCFH Limited Partners. The amount and timing of any payments may vary based on a number of factors, including the absence of any material change in the relevant tax law, the Company continuing to earn sufficient taxable income to realize all tax benefits, and assuming no additional exchanges that are subject to the Tax Receivable Agreement. Depending upon the outcome of these factors, the Company may be obligated to make substantial payments pursuant to the Tax Receivable Agreement. The actual payment amounts may differ from these estimated amounts, as the liability will reflect changes in prevailing tax rates, the actual benefit the Company realizes on its annual income tax returns, and any additional exchanges.

The first payment projected to be made under the Tax Receivable Agreement is in December 2015. To determine the current amount of the payments due, the Company estimates the amount of the Tax Receivable Agreement payments that will be made within twelve months of the balance sheet date.

As described in Note 1 above, the Tax Receivable Agreement was amended and restated in connection with our REIT Election, effective as of December 31, 2014, in order to preserve a portion of the potential tax benefits currently existing under the Tax Receivable Agreement that would otherwise be reduced in connection with our REIT Election. The purpose of the TRA Amendment was to preserve the benefits of the Tax Receivable Agreement to the extent possible in a REIT, although, as a result, the amount of payments made to the TRA Members under the TRA Amendment is expected to be less than the amount that would have been paid under the original Tax Receivable Agreement. The TRA Amendment continues to share such benefits in the same proportions and otherwise has substantially the same terms and provisions as the prior Tax Receivable Agreement.

17. RELATED PARTY TRANSACTIONS

Commercial Real Estate Loans

From time to time, the Company may provide commercial real estate loans to entities affiliated with certain of our directors, officers or large shareholders who are, as part of their ordinary course of business, commercial real estate investors. These loans are made in the ordinary course of the Company's business on an arms-length basis on the same terms and conditions as would be offered to any other borrower of similar type and standing on a similar property.

On May 20, 2015, the Company provided a \$25.0 million mezzanine loan to Halletts Investors LLC ("Borrower"), an entity affiliated with Douglas Durst, one of the Company's directors and chairman of The Durst Organization, one of the oldest family-run commercial and residential real estate companies in New York City, secured by Borrower's ownership interest in Durst Halletts Member LLC. Borrower and Durst Halletts Member LLC are the indirect owners of a 97.33% interest in the three limited liability companies that collectively own approximately 9.66 acres of undeveloped land located along the East River waterfront on Halletts Point Peninsula in Astoria Queens, New York. Douglas Durst and members of his family, including trusts for which Douglas Durst is a trustee, have an interest in Borrower, Durst Halletts Member LLC and the guarantors for this transaction.

Loan Referral Agreement

The Company entered into a loan referral agreement with Meridian, which, at the time, was an affiliate of a member of the Company's board of directors and an investor in the Company. The agreement provided for the payment of referral fees for loans originated pursuant to a formula based on the Company's net profit on a referred loan, as defined in the agreement, payable annually in arrears. While the arrangement gave rise to a potential conflict of interest, full disclosure was given to the borrower who, in each case, waived the conflict in writing. This agreement was cancellable by the Company based on the occurrence of certain events, or by Meridian for nonpayment of amounts due under the agreement. The Company terminated the loan referral agreement on April 2, 2014, as a result of the IPO on February 11, 2014.

Table of Contents

The Company incurred no fees for the three and six months ended June 30, 2014, for loans originated in accordance with this agreement. As of June 30, 2015 and December 31, 2014, \$0.3 million and \$0.6 million, respectively, was payable to Meridian pursuant to this agreement and included in accrued expenses in the combined consolidated statements of financial condition.

18. COMMITMENTS AND CONTINGENCIES

Leases

The Company entered into an operating lease for its previous primary office space, which commenced on January 5, 2009 and expired on May 30, 2015. Subsequent to entering into this leasing arrangement, the office space was subleased to a third party. Income received on the subleased office space is recorded in other income on the combined consolidated statements of income. In 2011, the Company entered into a lease for its primary office space which commenced on October 1, 2011 and expires on January 31, 2022 with no extension option. In 2012, the Company entered into a lease for secondary office space. The lease commenced on May 15, 2012 and would have expired on May 14, 2015 with no extension option. This lease was amended, however, on October 2, 2014, extending the expiration date from May 14, 2015 to May 14, 2018. The Company recorded \$0.4 million and \$0.9 million of rental expense for the three and six months ended June 30, 2015, respectively, which is included in operating expenses in the combined consolidated statements of income. The Company recorded \$0.4 million and \$0.9 million of rental expense for the three and six months ended June 30, 2014, respectively, which is included in operating expenses in the combined consolidated statements of income.

The following is a schedule of future minimum rental payments required under the above operating leases (\$ in thousands):

Period Ending December 31,	Amount
2015 (last 6 months)	\$ 589
2016	1,198
2017	1,255
2018	1,206
2019	1,180
Thereafter	2,459
Total	\$7,887

GN Construction Loan Securities

The Company committed to purchase GN construction loan securities over a period of six to twelve months. As of June 30, 2015, the Company's commitment to purchase these securities at fixed prices ranging from 102.0 to 104.4 was \$60.0 million, of which \$55.2 million was funded, with \$4.9 million remaining to be funded. As of December 31, 2014, the Company's commitment to purchase these securities at fixed prices ranging from 102.0 to 104.4 was \$60.0 million, of which \$49.4 million was funded, with \$10.6 million remaining to be funded. The fair value of those commitments at June 30, 2015 and December 31, 2014 was \$62,916 and \$63,614, respectively, as determined by market activity and third-party market quotes and as adjusted for estimated liquidity discounts. The fair value of these commitments is included in real estate securities, available-for-sale on the combined consolidated balance sheets.

Unfunded Loan Commitments

As of June 30, 2015, the Company's off-balance sheet arrangements consisted of \$126.0 million of unfunded commitments on mortgage loan receivables held for investment to provide additional first mortgage loan financing, at rates to be determined at the time of funding, which comprised \$124.6 million to provide additional first mortgage loan financing and \$1.4 million to provide additional mezzanine loan financing. As of December 31, 2014, the Company's off-balance sheet arrangements consisted of \$158.1 million of unfunded commitments of mortgage loan receivables held for investment, at rates to be determined at the time of funding, which comprised \$155.5 million to provide additional first mortgage loan financing and \$2.6 million to provide additional mezzanine loan financing. Such commitments are subject to our loan borrowers' satisfaction of certain financial and nonfinancial covenants and may or may not be funded depending on a variety of circumstances including timing, credit metric hurdles, and other nonfinancial events occurring. These commitments are not reflected on the combined consolidated balance sheets.

Table of Contents

19. SEGMENT REPORTING

The Company has determined that it has three reportable segments based on how the chief operating decision maker reviews and manages the business. These reportable segments include loans, securities, and real estate. The loans segment includes mortgage loan receivables held for investment (balance sheet loans) and mortgage loan receivables held for sale (conduit loans). The securities segment is composed of all of the Company's activities related to commercial real estate securities, which include investments in CMBS and U.S. Agency Securities. The real estate segment includes net leased properties, office buildings, a warehouse and condominium units. Corporate/other includes the Company's investments in joint ventures, other asset management activities and operating expenses.

The Company evaluates performance based on the following financial measures for each segment (\$ in thousands):

	Loans	Securities	Real Estate(1)	Corporate/Other(2)	Company Total

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the combined consolidated financial statements and the related notes of Ladder Capital Corp included within this Quarterly Report and the Annual Report. This Management’s Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. See “Cautionary Statement Regarding Forward-Looking Statements” within this Quarterly Report and “Risk Factors” within the Annual Report for a discussion of the uncertainties, risks and assumptions associated with these statements. Actual results may differ materially from those contained in any forward-looking statements as a result of various factors, including but not limited to, those in “Risk Factors” set forth within the Annual Report.

References to “Ladder,” the “Company,” “Successor” and “we,” “our” and “us” refer subsequent to the IPO and related transactions described below to Ladder Capital Corp, a Delaware corporation incorporated in 2013, and its combined consolidated subsidiaries. These references (other than “Successor”) in periods prior to the IPO and related transactions are to Ladder Capital Finance Holdings LLLP and subsidiaries (“LCFH” or “Predecessor”).

Ladder Capital Corp was incorporated on May 21, 2013 as a holding company for the purpose of facilitating an IPO of common equity. On February 5, 2014, a registration statement relating to shares of Class A common stock of Ladder Capital Corp was declared effective and the price of such shares was set at \$17.00 per share. The IPO closed on February 11, 2014.

As a result of the IPO and certain other recapitalization transactions (collectively, the “IPO Transactions”), Ladder Capital Corp became the sole general partner of LCFH and, as a result of the serialization of LCFH on December 31, 2014, became the sole general partner of Series REIT of LCFH. LC TRS I LLC, a wholly-owned subsidiary of Series REIT of LCFH, is the general partner of Series TRS of LCFH. Ladder Capital Corp has a controlling interest in Series REIT of LCFH, and through such controlling interest, also has a controlling interest in Series TRS of LCFH. Ladder Capital Corp’s only business is to act as the sole general partner of LCFH and Series REIT of LCFH, and, as a result of the foregoing, Ladder Capital Corp directly and indirectly operates and controls all of the business and affairs of LCFH, and each Series thereof, and consolidates the financial results of LCFH, and each Series thereof, into Ladder Capital Corp’s combined consolidated financial statements.

The following historical results of operations for the three and six months ended June 30, 2014 consists of LCFH’s operations for the period January 1, 2014 to February 10, 2014 and the Company’s operations for the period February 11, 2014 to June 30, 2014. Results since inception consist of LCFH’s operations from October 2008 to February 10, 2014 and Ladder Capital Corp’s operations from February 11, 2014 to June 30, 2015.

Overview

We are an internally-managed real estate investment trust (“REIT”) that is a leader in commercial real estate finance. As a non-bank lender with a proprietary loan origination platform and an established national footprint, we believe that we are well-positioned to benefit from the opportunities arising from the diminished supply of debt capital and the substantial demand for new financings in the commercial real estate sector. We believe that our comprehensive, fully-integrated in-house infrastructure, access to a diverse array of committed financing sources and highly experienced management team of industry veterans will allow us to continue to grow our business prudently as we endeavor to capitalize on profitable opportunities in various market conditions.

We conduct our business through three major business lines: commercial mortgage lending, investments in securities secured by first mortgage loans, and investments in selected net leased and other real estate assets. Historically, we have been able to generate attractive risk-adjusted returns by flexibly allocating capital among these well-established,

complementary business lines. We believe that we have a competitive advantage through our ability to offer a wide range of products, providing complete solutions across the capital structure to our borrowers. We apply a comprehensive underwriting approach to every loan and investment that we make, rooted in management's deep understanding of fundamental real estate values and proven expertise in these three complementary business lines through multiple economic and credit cycles.

Table of Contents

One of our key business strategies is originating conduit loans, which are first mortgage loans on stabilized, income producing commercial real estate properties that are available for sale in commercial mortgage-backed securities (“CMBS”) securitizations. From our inception in October 2008 through June 30, 2015, we originated \$10.4 billion of conduit loans, \$9.8 billion of which were sold into 31 CMBS securitizations, making us, by volume, the second largest non-bank contributor of loans to CMBS securitizations in the United States in such period. The securitization of conduit loans has been a consistently profitable business for us and enables us to reinvest our equity capital into new loan originations or allocate it to other investments. In addition to conduit loans, we originated \$3.2 billion of balance sheet loans held for investment from our inception through June 30, 2015. During this timeframe, we also acquired \$8.3 billion of investment grade-rated securities secured by first mortgage loans on commercial real estate and \$1.2 billion of selected net leased and other real estate assets. Although our securities investments and real estate assets remain available for opportunistic sales, these balance sheet business lines provide for a stable base of net interest and rental income and are complementary to our conduit lending activities.

We are led by a disciplined and highly aligned management team, the majority of whom have worked together for more than a decade. As of June 30, 2015, our management team and directors held interests in our Company comprising 12.3% of our total equity. On average, our management team members have 27 years of experience in the industry. Our management team includes Brian Harris, Chief Executive Officer; Michael Mazzei, President; Greta Guggenheim, Chief Investment Officer; Pamela McCormack, Chief Strategy Officer and General Counsel; Marc Fox, Chief Financial Officer; Thomas Harney, Head of Merchant Banking & Capital Markets; and Robert Perelman, Head of Asset Management.

As of June 30, 2015, we had \$5.7 billion in total assets and \$1.5 billion of total equity. As of that date, our assets included \$2.2 billion of loans, \$2.3 billion of securities, and \$846.3 million of real estate.

Our primary sources of revenue include net interest income on our investments, which comprised 26.9% and 33.6% of our total net interest income after provision for loan losses and total other income (“net revenues”) for the three and six months ended June 30, 2015, respectively, and income from sales of loans, net, which represents the income we earn from regular sales and securitizations of certain commercial mortgage loans, and which comprised 12.3% and 24.4% of our net revenues for the three and six months ended June 30, 2015, respectively. In addition, net interest income on our investments, comprised 46.2% and 70.7% of our net income for the three and six months ended June 30, 2015, respectively, and income from sales of loans, net, comprised 21.1% and 51.4% of our net income for the three and six months ended June 30, 2015, respectively. See “—Reconciliation of Non-GAAP Financial Measures” for a definition of net revenues and a reconciliation to total net interest income after provision for loan losses and total other income. We also generate net rental revenues from certain of our real estate and fee income from our loan originations and the management of our institutional bridge loan partnership.

Ladder was founded in October 2008. As of June 30, 2015, we were capitalized by public investors, our management team and a group of leading global institutional investors, including affiliates of Alberta Investment Management Corp., GI Partners, Ontario Municipal Employees Retirement System and TowerBrook Capital Partners. We have built our business to include 71 full-time industry professionals by hiring experienced personnel known to us in the commercial mortgage industry. Doing so has allowed us to maintain consistency in our culture and operations and to focus on strong credit practices and disciplined growth.

We have a diversified and flexible financing strategy supporting our business operations, including significant committed term financing from leading financial institutions. As of June 30, 2015, we had \$4.1 billion of debt financing outstanding. This financing comprised \$1.8 billion of financing from the FHLB, \$642.4 million committed secured term repurchase agreement financing, \$414.0 million of other securities financing, \$529.1 million of third-party, non-recourse mortgage debt, \$319.6 million in aggregate principal amount of 7.375% senior notes due October 1, 2017 (the “2017 Notes”) and \$300.0 million in aggregate principal amount of 5.875% senior notes due 2021

(the “2021 Notes” and, collectively with the 2017 Notes, the “Notes”), there were \$12.0 million borrowings outstanding under our Credit Agreement, \$46.8 million of borrowings under our Credit and Security Agreement and \$75.0 million borrowings outstanding under our Revolving Credit Facility. In addition, as of June 30, 2015, we had \$1.5 billion of committed, undrawn funding capacity available, consisting of \$38.0 million of availability under our \$50.0 million Credit Facility, \$507.8 million of undrawn committed FHLB financing and \$957.6 million of other undrawn committed financings. As of June 30, 2015, our debt-to-equity ratio was 2.7:1.0, as we employ leverage prudently to maximize financial flexibility.

Table of Contents

Our Businesses

We invest primarily in loans, securities and other interests in U.S. commercial real estate, with a focus on senior secured assets. Our complementary business segments are designed to provide us with the flexibility to opportunistically allocate capital in order to generate attractive risk-adjusted returns under varying market conditions. The following table summarizes the value of our investment portfolio as reported in our combined consolidated financial statements as of the dates indicated below (\$ in thousands):

	June 30, 2015	December 31, 2014
Loans		
Conduit first mortgage loans	\$507,710	\$417,955
Balance sheet first mortgage loans	1,464,375	1,358,985
Other commercial real estate-related loans	276,433	162,068
Total loans	2,248,518	1,939,008
Securities		
CMBS investments	2,212,758	2,683,745
U.S. Agency Securities investments	86,577	131,821
Total securities	2,299,335	2,815,566
Real Estate		
Real estate and related lease intangibles, net	797,328	768,986
Real estate held for sale	48,970	—
Total real estate	846,298	768,986
Total investments	5,394,151	5,523,560
Cash, cash equivalents and cash collateral held by broker	147,332	118,656
Other assets	177,067	172,019
Total assets	\$5,718,550	\$5,814,235

We invest in the following types of assets:

Loans

Conduit First Mortgage Loans. We originate conduit loans, which are first mortgage loans that are secured by cash-flowing commercial real estate and are available for sale to securitizations. These first mortgage loans are typically structured with fixed interest rates and generally have five- to ten-year terms. Our loans are directly originated by an internal team that has longstanding and strong relationships with borrowers and mortgage brokers throughout the United States. We follow a rigorous investment process, which begins with an initial due diligence review; continues through a comprehensive legal and underwriting process incorporating multiple internal and external checks and balances; and culminates in approval or disapproval of each prospective investment by our Investment Committee. Conduit first mortgage loans in excess of \$50.0 million also require approval of our board of directors' Risk and Underwriting Committee.

Table of Contents

Although our primary intent is to sell our conduit first mortgage loans to CMBS trusts, we generally seek to maintain the flexibility to keep them on our balance sheet or otherwise sell them as whole loans to third-party institutional investors. From our inception in 2008 through June 30, 2015, we have originated and have funded \$10.4 billion of conduit first mortgage loans and securitized \$9.8 billion of such mortgage loans in 31 separate transactions, including two securitizations in 2010, three securitizations in 2011, six securitizations in 2012, six securitizations in 2013, ten securitizations in 2014 and four securitizations in 2015. We generally securitize our loans together with certain financial institutions, which to date have included affiliates of Deutsche Bank Securities Inc., J.P. Morgan Securities LLC, UBS Securities LLC and Wells Fargo Securities, LLC, and we have also completed two single-asset securitizations. During the six months ended June 30, 2015 and 2014, conduit first mortgage loans remained on our balance sheet for a weighted average of 64 and 50 days prior to securitization, respectively. As of June 30, 2015, we held 26 first mortgage loans that were substantially available for contribution into a securitization with an aggregate book value of \$507.7 million. Based on the loan balances and the “as-is” third-party Financial Institutions Reform, Recovery and Enforcement Act of 1989 (“FIRREA”) appraised values at origination, the weighted average loan-to-value ratio of this portfolio was 65.7% at June 30, 2015. The Company holds these residential condominium units in its taxable REIT subsidiary.

Balance Sheet First Mortgage Loans. We also originate and invest in balance sheet first mortgage loans secured by commercial real estate properties that are undergoing transition, including lease-up, sell-out, and renovation or repositioning. These mortgage loans are structured to fit the needs and business plans of the property owners, and generally have LIBOR based floating rates and terms (including extension options) ranging from one to five years. Balance sheet first mortgage loans are originated, underwritten, approved and funded using the same comprehensive legal and underwriting approach, process and personnel used to originate our conduit first mortgage loans. Balance sheet first mortgage loans in excess of \$20.0 million also require the approval of our board of directors’ Risk and Underwriting Committee.

We generally seek to hold our balance sheet first mortgage loans for investment. These investments have been typically repaid at or prior to maturity (including by being refinanced by us into a new conduit first mortgage loan upon property stabilization). As of June 30, 2015, we held a portfolio of 57 balance sheet first mortgage loans with an aggregate book value of \$1.5 billion. Based on the loan balances and the “as-is” third-party FIRREA appraised values at origination, the weighted average loan-to-value ratio of this portfolio was 64.4% at June 30, 2015.

Other Commercial Real Estate-Related Loans. We selectively invest in note purchase financings, subordinated debt, mezzanine debt and other structured finance products related to commercial real estate which are generally held for investment. As of June 30, 2015, we held a portfolio of 37 other commercial real estate-related loans with an aggregate book value of \$276.4 million. Based on the loan balance and the “as-is” third-party FIRREA appraised values at origination, the weighted average loan-to-value ratio of the portfolio was 67.3% at June 30, 2015.

Table of Contents

The following charts set forth our total outstanding conduit first mortgage loans, balance sheet first mortgage loans and other commercial real estate-related loans as of June 30, 2015 and a breakdown of our loan portfolio by loan size and geographic location and asset type of the underlying real estate.

Table of Contents

Securities

CMBS Investments. We invest in CMBS secured by first mortgage loans on commercial real estate and own predominantly AAA-rated securities. These investments provide a stable and attractive base of net interest income and help us manage our liquidity. We have significant in-house expertise in the evaluation and trading of CMBS, due in part to our experience in originating and underwriting mortgage loans that comprise assets within CMBS trusts, as well as our experience in structuring CMBS transactions. AAA-rated CMBS investments in excess of \$50 million and all other securities positions in excess of \$26.0 million require the approval of our board of directors' Risk and Underwriting Committee. As of June 30, 2015, the estimated fair value of our portfolio of CMBS investments totaled \$2.2 billion in 162 CUSIPs (\$13.7 million average investment per CUSIP). As of that date, 98.4% of our CMBS investments were rated investment grade by Standard & Poor's Ratings Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch Ratings Inc. ("Fitch"), consisting of 83.4% AAA/Aaa-rated securities and 14.9% of other investment grade-rated securities, including 10.9% rated AA/Aa, 2.2% rated A/A and 1.7% rated BBB/Baa. In the future, we may invest in CMBS securities or other securities that are unrated. As of June 30, 2015, our CMBS investments had a weighted average duration of 3.5 years. The commercial real estate collateral underlying our CMBS investment portfolio is located throughout the United States. As of June 30, 2015, by property count and market value, respectively, 48.7% and 62.6% of the collateral underlying our CMBS investment portfolio was distributed throughout the top 25 metropolitan statistical areas ("MSAs") in the United States, with 3.5% and 26.3% of the collateral located in the New York-Newark-Edison MSA, and the concentrations in each of the remaining top 24 MSAs ranging from 0.4% to 7.6% by property count and 0.2% to 10.2% by market value.

U.S. Agency Securities Investments. Our U.S. Agency Securities portfolio consists of securities for which the principal and interest payments are guaranteed by a U.S. government agency, such as the Government National Mortgage Association ("Ginnie Mae"), or by a government-sponsored enterprise (a "GSE"), such as the Federal National Mortgage Association ("Fannie Mae") or Federal Home Loan Mortgage Corporation ("Freddie Mac"). In addition, these securities are secured by first mortgage loans on commercial real estate. As of June 30, 2015, the estimated fair value of our portfolio of U.S. Agency Securities was \$86.6 million in 41 CUSIPs (\$2.1 million average investment per CUSIP), with a weighted average duration of 6.7 years. The commercial real estate collateral underlying our U.S. Agency Securities portfolio is located throughout the United States. As of June 30, 2015, by market value 17.6% and 62.8% of the collateral underlying our U.S. Agency Securities, excluding the collateral underlying our Agency interest-only securities, was located in California and New York, respectively, with no other state having a concentration greater than 10.0%. By property count, New York represented 43.3% and California represented 31.7% of such collateral, with no other state's concentration greater than 10.0%. While the specific geographic concentration of our Agency interest-only securities portfolio as of June 30, 2015 is not obtainable, risk relating to any such possible concentration is mitigated by the interest payments of these securities being guaranteed by a U.S. government agency or a GSE.

Real Estate

Commercial Real Estate Properties. As of June 30, 2015, we owned 72 single tenant net lease properties with an aggregate book value of \$498.5 million. These properties are fully leased on a net basis where the tenant is generally responsible for payment of real estate taxes, property, building and general liability insurance and property and building maintenance expenses. As of June 30, 2015, our net leased properties comprised a total of 3.6 million square feet and had a 100% occupancy rate, an average age since construction of 10.1 years and a weighted average remaining lease term of 30.6 years.

As of June 30, 2015, we owned 28 other properties with an aggregate book value of \$259.1 million. Through separate joint ventures, we owned a portfolio of 13 office buildings in Richmond, VA with a book value of \$103.0 million, a portfolio of four office buildings in St. Paul, MN with a book value of \$59.9 million, a 26-story office building in

Minneapolis, MN with a book value of \$49.0 million, a portfolio of seven office buildings in Richmond, VA with a book value of \$18.7 million, a 13-story office building in Oakland County, MI with a book value of \$12.9 million, a two-story office building in Grand Rapids, MI with a book value of \$9.3 million and a warehouse in Grand Rapids, MI with a book value of \$6.3 million.

Residential Real Estate. We sold 25 and 50 condominium units at Veer Towers in Las Vegas, NV, during the three and six months ended June 30, 2015, respectively, generating aggregate gains on sale of \$4.0 million and \$9.4 million, respectively. We intend to sell the remaining units over time. As of June 30, 2015, we owned 170 residential condominium units at Veer Towers in Las Vegas, NV with a book value of \$43.1 million through a joint venture. As of June 30, 2015, the condominium units were 54.3% rented and occupied. During the three and six months ended June 30, 2015, the Company recorded \$0.6 million and \$1.2 million, respectively, of rental income from the condominium units. The Company holds these residential condominium units in its taxable REIT subsidiary.

Edgar Filing: Ladder Capital Corp - Form 10-Q

Table of Contents

We sold 24 and 57 condominium units at Terrazas River Park Village in Miami, FL, during the three and six months ended June 30, 2015, respectively, generating aggregate gains on sale of \$1.7 million and \$3.9 million, respectively. We intend to sell the remaining units over time. As of June 30, 2015, we owned 195 residential condominium units at Terrazas River Park Village in Miami, FL with a book value of \$45.6 million. As of June 30, 2015, the condominium units were 86.8% rented and occupied. During the three and six months ended June 30, 2015, the Company recorded \$1.0 million and \$1.9 million, respectively, of rental income from the condominium units.

The following table, organized by tenant type and acquisition date, summarizes our owned properties as of June 30, 2015. (\$ amounts in thousands):

(1) Lease expirations reflect the earliest date the lease is cancellable without penalty, although actual terms are longer.

Annual rental income represents twelve months of contractual rental income due under leases outstanding for the (2) year ended December 31, 2015. Operating lease income on the combined consolidated statements of income represents rental income earned and recorded on a straight line basis over the term of the lease.

(3) Properties were consolidated as of acquisition date.

We own a portfolio of residential condominium units, some of which are subject to residential leases. We intend to (4) sell these units. The residential leases are generally short term in nature and are not included in the table above given our intention to sell the units.

Table of Contents

We own, through a majority-owned joint venture with an operating partner, a portfolio of residential condominium units, some of which are subject to residential leases. The joint venture intends to sell these units. The residential leases are generally short term in nature and are not included in the table above given the joint venture's intention to sell the units.

(5) See Note 13 for further information regarding noncontrolling interests.

(6) Included in real estate held for sale on the combined consolidated balance sheets.

(7) Non-recourse.

Other Investments

Institutional Bridge Loan Partnership. In 2011, we established an institutional partnership ("LCRIP I") with a Canadian sovereign pension fund to invest in first mortgage bridge loans that meet predefined criteria. Our partner owns 90% of the limited partnership interest, and we own the remaining 10% on a pari passu basis and act as general partner. We retain discretion over which loans to present to LCRIP I and our partner retains the discretion to accept or reject individual loans. As the general partner, we have engaged our advisory entity to manage the assets of LCRIP I and earn management fees and incentive fees from LCRIP I. In addition, we are entitled to retain origination fees of up to 1% on loans that we sell to LCRIP I and on a case-by-case basis as approved by our partner, may retain certain exit fees. During the quarter ended June 30, 2015, the last loan held by LCRIP I was repaid. LCRIP I will continue in existence until the fifth anniversary of the date of its closing, April 15, 2016. As of June 30, 2015, the book value of our investment in LCRIP I was \$0.4 million.

Unconsolidated Joint Venture. In connection with the origination of a loan in April 2012, we received a 25% equity kicker with the right to convert upon a capital event. On March 22, 2013, we refinanced the loan, and we converted our equity kicker interest into a 25% limited liability company membership interest in Grace Lake JV, LLC ("Grace Lake LLC"). As of June 30, 2015, Grace Lake LLC owned an office building campus with a carrying value of \$67.0 million, which is net of accumulated depreciation of \$14.4 million, that is financed by \$74.7 million of long-term debt. Debt of Grace Lake LLC is nonrecourse to the limited liability company members, except for customary nonrecourse carve-outs for certain actions and environmental liability. As of June 30, 2015, the book value of our investment in Grace Lake LLC was \$2.6 million.

Other Asset Management Activities. As of June 30, 2015, we also managed a separate CMBS investment account for a private investor with total assets of \$0.4 million. As of October 2012, we are no longer purchasing any new investments for this account. However, we will continue to manage the existing investments until their full repayment or other disposition.

Our Financing Strategies

Our financing strategies are critical to the success and growth of our business. We manage our financing to complement our asset composition and to diversify our exposure across multiple capital markets and counterparties.

We fund our investments in commercial real estate loans and securities through multiple sources, including the \$611.6 million of gross cash proceeds we raised in our initial equity private placement beginning in October 2008, the \$257.4 million of gross cash proceeds we raised in our follow-on equity private placement in the third quarter of 2011, proceeds from the issuance of \$325.0 million of 2017 Notes in 2012, the \$238.5 million of net proceeds from the issuance of Class A common stock in 2014, proceeds from the issuance of \$300.0 million of 2021 Notes in 2014, current and future earnings and cash flow from operations, existing debt facilities, and other borrowing programs in which we participate.

We finance our portfolio of commercial real estate loans using committed term facilities provided by multiple financial institutions, with total commitments of \$1.3 billion at June 30, 2015, a \$50.0 million Credit Agreement, a \$46.8 million Credit and Security Agreement, a \$75.0 million Revolving Credit Facility and through our FHLB membership. As of June 30, 2015, there was \$518.2 million outstanding under the term facilities. We finance our securities portfolio, including CMBS and U.S. Agency Securities, through our FHLB membership, a \$300.0 million committed term master repurchase agreement from a leading domestic financial institution and uncommitted master repurchase agreements with numerous counterparties. As of June 30, 2015, we had total outstanding balances of \$538.2 million under all securities master repurchase agreements. We finance our real estate investments with nonrecourse first mortgage loans. As of June 30, 2015, we had outstanding balances of \$529.1 million on these nonrecourse mortgage loans.

Table of Contents

In addition to the amounts outstanding on our other facilities, we had \$1.8 billion of borrowings from the FHLB outstanding at June 30, 2015. As of June 30, 2015, we also had a \$50.0 million Credit Agreement, with \$12.0 million borrowings outstanding, a \$46.8 million Credit and Security Agreement, with \$46.8 million of borrowings outstanding, a \$75.0 million Revolving Credit Facility, with \$75.0 million borrowings outstanding, and \$619.6 million of Notes issued and outstanding. See Note 7, Debt Obligations and Note 8, Senior Unsecured Notes in our combined consolidated financial statements for the three and six months ended June 30, 2015 included elsewhere in this Quarterly Report for more information about our financing arrangements.

We enter into interest rate and credit spread derivative contracts to mitigate our exposure to changes in interest rates and credit spreads. We generally seek to hedge the interest rate risk on the financing of assets that have a duration longer than five years, including newly-originated conduit first mortgage loans, securities in our CMBS portfolio if long enough in duration, and most of our U.S. Agency Securities portfolio. We monitor our asset profile and our hedge positions to manage our interest rate and credit spread exposures, and we seek to match fund our assets according to the liquidity characteristics and expected holding periods of our assets.

We seek to maintain a debt-to-equity ratio of 3.0:1.0 or below. We expect this ratio to fluctuate during the course of a fiscal year due to the normal course of business in our conduit lending operations, in which we generally securitize our inventory of conduit loans at intervals, and also because of changes in our asset mix, due in part to such securitizations. As of June 30, 2015, our debt-to-equity ratio was 2.7:1.0. We believe that our predominantly senior secured assets and our moderate leverage provide financial flexibility to be able to capitalize on attractive market opportunities as they arise.

From time to time, we may add financing counterparties that we believe will complement our business, although the agreements governing our indebtedness may limit our ability and the ability of our present and future subsidiaries to incur additional indebtedness. Our amended and restated charter and by-laws do not impose any threshold limits on our ability to use leverage.

Business Outlook

We believe the commercial real estate finance market currently presents substantial opportunities for new origination, as it is characterized by stabilizing property values, a low interest rate environment, and a supply/demand imbalance for financing. Over the next five years, \$1.7 trillion of commercial real estate debt is scheduled to mature according to Trepp, while at the same time traditional real estate lenders such as banks and insurance companies face significant new capital and regulatory requirements.

April 2010 marked the first new-issue, multi-borrower CMBS securitization since June 2008. For 2010 as a whole, new CMBS issuances totaled \$11.6 billion. For the year ended December 31, 2011, new CMBS issuance totaled \$32.7 billion. For the year ended December 31, 2012, new CMBS issuance totaled \$48.4 billion, a 47.9% increase over 2011. For the year ended December 31, 2013, new CMBS issuance totaled \$86.1 billion, a 78.1% increase over the same period in 2012. For the year ended December 31, 2014, new CMBS issuance totaled \$94.1 billion, a 9.2% increase over the same period in 2013. In the first half of 2015, new CMBS issuance totaled \$54.5 billion. We believe the CMBS market will continue to play an important role in the financing of commercial real estate in the U.S.

We believe our ability to quickly and efficiently shift our focus between lending, investing in securities, and making real estate investments allows us to take advantage of attractive investment opportunities under a variety of market conditions. There are times when the conduit lending/securitization market conditions are very favorable and we shift our focus and allocate our equity toward that market. At other times, especially when markets are under stress, investment in securities is more attractive and we quickly shift focus and equity accordingly.

The passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) introduced complex, comprehensive legislation into the financial industry, which will have far reaching effects on the securitization industry and its participants. There is uncertainty as to how, in the coming years, the Dodd-Frank Act may affect us or our competitors. In addition, there can be no assurance that the recovery will continue or that we will be able to find appropriate investment opportunities.

Table of Contents

Factors impacting operating results

There are a number of factors that influence our operating results in a meaningful way. The most significant factors include: (1) our competition; (2) market and economic conditions; (3) loan origination volume; (4) profitability of securitizations; (5) avoidance of credit losses; (6) availability of debt and equity funding and the costs of that funding; (7) the net interest margin on our investments; and (8) effectiveness of our hedging and other risk management practices.

Results of Operations

Three months ended June 30, 2015 compared to the three months ended June 30, 2014

Investment overview

Investment activity in the three months ended June 30, 2015 focused on loan originations and securities activity. We originated and funded \$1.0 billion in principal value of commercial mortgage loans in the three months ended June 30, 2015. We acquired \$127.8 million of new securities, which was offset by \$356.6 million of sales and \$41.9 million of amortization in the portfolio, resulting in a net decrease in our securities portfolio of \$324.5 million. We also invested \$37.0 million in real estate.

Investment activity in the three months ended June 30, 2014 focused on loan originations and securities investments. We originated and funded \$1.3 billion in principal value of commercial mortgage loans in the three months ended June 30, 2014. We acquired \$326.0 million of new securities, which was offset by \$171.6 million of sales and \$76.1 million of amortization in the portfolio, which contributed to a net increase in our securities portfolio of \$84.4 million.

Operating overview

Net income attributable to Class A common shareholders totaled \$34.2 million for the three months ended June 30, 2015, compared to \$12.5 million for the three months ended June 30, 2014. The most significant drivers of the \$21.7 million increase are as follows:

an increase in net interest income of \$3.4 million, primarily as a result of higher average loan receivable and securities balances partially offset by higher interest expense as a result of higher outstanding financing obligations as well as the decrease in the average yield on the securities portfolio year-over-year;

an increase in total other income of \$31.0 million, primarily as a result of a \$52.1 million increase in net results from derivative transactions, a \$7.6 million increase in operating lease income, partially offset by a decrease in sale of loans, net;

a decrease in total costs and expenses of \$1.1 million compared to the prior year, primarily as a result of lower incentive compensation expense due to reduced net revenues and loan/investment production, partially offset by higher real estate operating and depreciation expenses related to our expanded real estate portfolio and higher costs associated with operating as a REIT;

a decrease in income tax (benefit) expense of \$3.0 million - our predecessor/operating partnership is taxed as a partnership but is subject to certain state and local income taxes. Subsequent to our IPO, the Company was subject to federal and state income taxes on its share of the income of the operating partnership. The Company's election to be taxed as a REIT will be effective as of January 1, 2015 and we expect to only pay taxes on the portion of our income earned in our taxable REIT subsidiary and some state and local taxes.

Core Earnings, a non-GAAP measure, totaled \$52.1 million for the three months ended June 30, 2015, compared to \$61.8 million for the three months ended June 30, 2014. The significant components of the \$9.7 million decrease in Core Earnings are a decrease in profits on sales of loans, net of \$31.0 million, partially offset by an increase in net interest income of \$3.4 million, an increase in operating lease income of \$7.6 million and a increase in net results from derivative transactions of \$1.8 million and the decrease of total costs and expenses discussed in the preceding paragraph. See “—Reconciliation of Non-GAAP Financial Measures.”

Table of Contents

Net interest income

Interest income totaled \$59.2 million for the three months ended June 30, 2015, compared to \$45.1 million for the three months ended June 30, 2014. The \$14.1 million increase in interest income was primarily attributable to an increase in our average investment balances in our loan and our securities portfolios. For the three months ended June 30, 2015, securities investments averaged \$2.5 billion and loan investments averaged \$2.1 billion. For the three months ended June 30, 2014, securities investments averaged \$1.8 billion and loan investments averaged \$1.4 billion. The impact of the expanded base of interest bearing assets was partially offset by lower interest spreads earned on securities acquired and loans originated subsequent to June 30, 2014 versus the interest spreads prevailing prior to that date.

Interest expense totaled \$27.5 million for the three months ended June 30, 2015, compared to \$16.8 million for the three months ended June 30, 2014. The \$10.7 million increase in interest expense was primarily attributable to the increase in average debt balance that are required to finance the expanded book of investment assets. For the three months ended June 30, 2015, our debt balances averaged \$4.2 billion versus an average debt balance of \$2.6 billion for the three months ended June 30, 2014. The unfavorable impact on interest expense attributed to the higher debt level was magnified by the addition of \$300.0 million of unsecured corporate bonds (5.875% coupon rate) in August 2014, partially offset by greater use of FHLB borrowings, a lower cost source of funding than other financing sources, for the three months ended June 30, 2015, as compared to the three months ended June 30, 2014. Our interest expense also includes interest expense related to mortgage loan financing against our real estate investments. Our investment in real estate and related lease intangibles, net has continued to increase during 2015 and 2014 and our mortgage loan financing secured by such investments has also similarly increased. Our interest expense related to mortgage loan financing increased by \$2.3 million from \$4.0 million for the three months ended June 30, 2014 to \$6.3 million for the three months ended June 30, 2015, primarily as a result of our increase in average outstanding mortgage loan financing of \$519.5 million for the three months ended June 30, 2015 compared to \$327.5 million for the three months ended June 30, 2014 and the increase in the average cost of financing.

Net interest income after provision for loan losses totaled \$31.6 million for the three months ended June 30, 2015, compared to \$28.2 million for the three months ended June 30, 2014. The \$3.4 million increase in net interest income after provision for loan losses was primarily attributable to the increase in loan and securities investment balances during 2015 compared to the same period a year ago, partially offset by the increase in debt balance.

Cost of funds, a non-GAAP measure, totaled \$34.0 million for the three months ended June 30, 2015, compared to \$19.3 million for the three months ended June 30, 2014. The \$14.7 million increase in cost of funds was primarily attributable to the increase in the average debt balance and the issuance of the 2021 Notes referred to above.

We present cost of funds, which is a non-GAAP measure, as a supplemental measure of the Company's cost of debt financing. We define cost of funds as interest expense as reported on our combined consolidated statements of income adjusted to include the net interest expense component resulting from our hedging activities, which is currently included in net results from derivative transactions on our combined consolidated statements of income. See “—Reconciliation of Non-GAAP Financial Measures” for our definition of cost of funds and a reconciliation to interest expense.

Interest spreads

As of June 30, 2015, the weighted average yield on our mortgage loan receivables was 7.0%, compared to 7.7% as of June 30, 2014 as the weighted average yield on new loans originated was lower than the weighted average yield on loans that were securitized or paid off. As of June 30, 2015, the weighted average interest rate on borrowings against our mortgage loan receivables was 1.9%, compared to 2.0% as of June 30, 2014. As of June 30, 2015, we had

outstanding borrowings secured by our mortgage loan receivables equal to 43.8% of the carrying value of our mortgage loan receivables, compared to 27.2% as of June 30, 2014.

As of June 30, 2015, the weighted average yield on our real estate securities was 2.9%, compared to 3.8% as of June 30, 2014 as the weighted average yield on securities purchased was lower than the weighted average yield on securities that were sold or paid off. As of June 30, 2015, the weighted average interest rate on borrowings against our real estate securities was 0.9%, compared to 0.8% as of June 30, 2014. The increase in the rate on borrowings against our real estate securities from June 30, 2014 to June 30, 2015 was primarily due to the utilization of a higher proportion of longer-term borrowings from the FHLB and greater use of securities repurchase facilities at higher cost as of June 30, 2015 versus June 30, 2014. As of June 30, 2015, we had outstanding borrowings secured by our real estate securities equal to 82.2% of the carrying value of our real estate securities, compared to 69.8% as of June 30, 2014.

Table of Contents

Our real estate is comprised of non-interest bearing assets; however, interest incurred on mortgage financing collateralized by such real estate is included in interest expense. As of June 30, 2015, the weighted average interest rate on mortgage borrowings against our real estate was 4.9%, compared to 4.9% as of June 30, 2014. As of June 30, 2015, we had outstanding borrowings secured by our real estate equal to 62.5% of the carrying value of our real estate, compared to 56.1% as of June 30, 2014.

Provision for loan losses

We had a \$0.2 million provision for loan losses for the three months ended June 30, 2015 and 2014. We invest primarily in loans with high credit quality, and we sell our conduit loans in the ordinary course of business. We estimate our loan loss provision based on our historical loss experience and our expectation of losses inherent in the investment portfolio but not yet realized. Since inception, we have had no events of impairment on the loans we originated, however, to ensure that the risk exposures are properly measured and the appropriate reserves are taken, the Company assesses a loan loss provision balance that will grow over time with its portfolio and the related risk as the assets approach maturity and ultimate refinancing where applicable. As a result, our provision for loan losses remained unchanged for the three months ended June 30, 2015 and the three months ended June 30, 2014.

Operating lease income and tenant recoveries

Operating lease income totaled \$20.4 million for the three months ended June 30, 2015, compared to \$12.8 million for the three months ended June 30, 2014. The increase of \$7.6 million was attributable to acquisitions, which increased real estate to \$846.3 million at June 30, 2015 versus \$561.2 million at June 30, 2014, as well as a full period of operations of properties acquired in 2014.

Tenant recoveries totaled \$2.5 million for the three months ended June 30, 2015, compared to \$2.1 million for the three months ended June 30, 2014. The increase of \$0.4 million reflects the acquisitions of office and residential real estate in 2014 and 2015. It also reflects additional recoveries on properties acquired in 2015 and a full period of recoveries on properties acquired in 2014.

Sales of loans, net

Income from sales of loans, net, which includes all loan sales, whether by securitization, whole loan sales or other means, totaled \$14.5 million for the three months ended June 30, 2015, compared to \$45.4 million for the three months ended June 30, 2014, a decrease of \$30.9 million. In the three months ended June 30, 2015, we participated in two separate securitization transactions, selling 45 loans with an aggregate outstanding principal balance of \$486.9 million. In the three months ended June 30, 2014, we participated in three securitization transactions, selling 36 loans with an aggregate outstanding principal balance of \$886.0 million. Income from sales of loans, net is subject to market conditions impacting timing, size and pricing and as such may vary significantly quarter to quarter. The decrease in income from sales of securitized loans, net of hedging of \$22.6 million for the three months ended June 30, 2015 compared to \$39.9 million for the three months ended June 30, 2014 was due to a decline in the aggregate outstanding principal balance of loans sold, period over period, as well as increasing competition in the market and lower prevailing lending credit spreads for conduit loans.

Income from sale of loans, net, represents gross proceeds received from the sale of loans, less the book value of those loans at the time they were sold, less any costs, such as legal and closing costs, associated with the sale. Income from sales of securitized loans, net, a non-GAAP measure, represents the portion of income from sales of loans, net related to the sale of loans into securitization trusts. See “—Reconciliation of Non-GAAP Financial Measures” for our definition of income from sale of securitized loans, net of hedging and a reconciliation to income from sale of loans, net.

Table of Contents

Realized gain (loss) on securities

Realized gain (loss) on securities totaled \$11.0 million for the three months ended June 30, 2015, compared to \$5.4 million for the three months ended June 30, 2014, an increase of \$5.6 million. For the three months ended June 30, 2015, we sold \$356.6 million of securities, which comprised of \$350.8 million of CMBS and \$5.8 million U.S. Agency Securities. For the three months ended June 30, 2014, we sold \$171.6 million of CMBS securities and no U.S. Agency Securities. The increase reflects higher transaction volume in 2015 as compared to 2014.

Unrealized gain (loss) on Agency interest-only securities

Unrealized gain (loss) on Agency interest-only securities represented a loss of \$0.1 million for the three months ended June 30, 2015, compared to a gain of \$2.8 million for the three months ended June 30, 2014. The negative change of \$2.9 million in unrealized gain (loss) on Agency interest-only securities was due to amortization of the portfolio during the three months ended June 30, 2015.

Income from sales of real estate, net

For the three months ended June 30, 2015, income from sales of real estate, net totaled \$7.3 million compared to \$9.1 million for the three months ended June 30, 2014. The decrease of \$1.8 million was a result of the commercial real estate and residential condominium sales discussed below.

During the three months ended June 30, 2015, we sold three single-tenant retail properties resulting in a net gain on sale of \$1.6 million. There were no sales of commercial real estate properties during the three months ended June 30, 2014.

During the three months ended June 30, 2015, income from sales of residential condominiums totaled \$5.7 million. We sold 25 residential condominium units from Veer Towers in Las Vegas, NV, resulting in a net gain on sale of \$4.0 million, and 24 residential condominium units from Terrazas River Park Village in Miami, FL, resulting in a net gain on sale of \$1.7 million. During the three months ended June 30, 2014, income from sales of 31 residential condominium units from Veer Towers in Las Vegas, NV, resulted in a net gain on sale of \$5.7 million, and 12 residential condominium units from Terrazas River Park Village in Miami, FL, resulting in a net gain on sale of \$0.5 million.

Other income

Fee income totaled \$3.8 million for the three months ended June 30, 2015, compared to \$2.2 million for the three months ended June 30, 2014. We generate fee income from the management of our institutional partnership and managed accounts, dividend income on our investment in FHLB stock, as well as from origination fees, exit fees and other fees on the loans we originate and in which we invest. The \$1.6 million increase in fee income year-over-year was primarily due to an increase in dividends from our investment in FHLB stock and increase in fee income on our loan portfolio.

Net result from derivative transactions

Net result from derivative transactions represented a gain of \$26.8 million for the three months ended June 30, 2015, which was comprised of an unrealized gain of \$16.8 million and a realized gain of \$10.0 million, compared to a loss of \$25.3 million which was comprised of an unrealized loss of \$6.3 million and a realized loss of \$19.0 million, for the three months ended June 30, 2014, a positive change of \$52.1 million. The derivative positions that generated these results were a combination of interest rate swaps, caps, and futures that we employed in an effort to hedge the

interest rate risk on the financing of our fixed rate assets and the net interest income we earn against the impact of changes in interest rates. The gain in 2015 was primarily related to an increase in interest rates during the three months ended June 30, 2015, which generally decreased the value of our fixed rate loan and securities investments, and increased the fair value of our offsetting derivative transactions. The total net result from derivative transactions is comprised of hedging interest expense, realized gains/losses related to hedge terminations and unrealized gains/losses related to changes in the fair value of asset hedges. The hedge positions were related to fixed rate conduit loans and securities investments.

Table of Contents

Earnings from investment in unconsolidated joint ventures

Total earnings from investment in unconsolidated joint ventures totaled \$0.2 million for the three months ended June 30, 2015, compared to \$1.0 million for the three months ended June 30, 2014. Earnings from our investment in LCRIP I totaled \$13,615 for the three months ended June 30, 2015, compared to \$0.8 million for the three months ended June 30, 2014. The decrease of \$0.7 million reflects a decrease in the number of loans held by LCRIP I in 2015 compared to 2014. LCRIP I held no loans as of June 30, 2015. Earnings from our investment in Grace Lake JV totaled \$0.1 million for the three months ended June 30, 2015, compared to \$0.2 million for the three months ended June 30, 2014.

Salaries and employee benefits

Salaries and employee benefits totaled \$15.9 million for the three months ended June 30, 2015, compared to \$26.5 million for the three months ended June 30, 2014. Salaries and employee benefits are comprised primarily of salaries, bonuses, originator bonuses related to loan profitability, equity based compensation and other employee benefits. The decrease of \$10.5 million in compensation expense was attributable to the decrease in incentive compensation expense in the three months ended June 30, 2015 compared the the three months ended June 30, 2014 due to reduced actual net revenues and loan/investment production in the most recently ended quarter.

Operating expenses

Operating expenses totaled \$6.7 million for the three months ended June 30, 2015, compared to \$3.7 million for the three months ended June 30, 2014. Operating expenses are primarily comprised of professional fees, lease expense, and technology expenses. The increase in operating expenses is a result of increased investments in loans, securities and real estate. It is also due to higher costs associated with operating as a public REIT and restructuring related to the Company's REIT election.

Real estate operating expenses

Real estate operating expenses totaled \$9.6 million for the three months ended June 30, 2015, compared to \$7.4 million for the three months ended June 30, 2014. The increase of \$2.2 million in real estate operating expense was in part due to the acquisitions of office and residential real estate in 2014 and 2015. It also reflects additional operating expenses related to properties acquired during 2015 and a full period of operating expenses on properties acquired during 2014.

Real estate acquisition costs

Real estate acquisition costs totaled \$0.5 million for the three months ended June 30, 2015, compared to none for the three months ended June 30, 2014. The increase of \$0.5 million in real estate acquisition costs was due to the purchase of \$37.0 million of real estate in the three months ended June 30, 2015, compared to none in the three months ended June 30, 2014.

Fee expense

Fee expense totaled \$1.5 million for the three months ended June 30, 2015, compared to \$0.7 million for the three months ended June 30, 2014. Fee expense is comprised primarily of custodian fees, financing costs and servicing fees related to loans. The increase of \$0.8 million in fee expense was primarily attributable to the increase in the balance of our mortgage loan receivables held for investment, net, at amortized cost at June 30, 2015, as compared to at June 30, 2014.

Depreciation and amortization

Depreciation and amortization totaled \$10.0 million for the three months ended June 30, 2015, compared to \$7.0 million for the three months ended June 30, 2014. The \$3.0 million increase in depreciation and amortization is attributable to acquisitions, which increased real estate to \$846.3 million at June 30, 2015 versus \$561.2 million at June 30, 2014, as well as a partial period of depreciation on 2015 acquisitions and a full period of depreciation on acquisitions made in 2014.

Table of Contents

Income tax (benefit) expense

Income tax (benefit) expense totaled \$5.2 million for the three months ended June 30, 2015, compared to \$8.2 million for the three months ended June 30, 2014. The decrease of \$3.0 million is primarily attributable to the decrease in consolidated effective tax rate from June 30, 2014 to June 30, 2015 due to the REIT Structuring Transactions and our REIT election.

Results of Operations

Six months ended June 30, 2015 compared to the six months ended June 30, 2014

Investment overview

Investment activity in the six months ended June 30, 2015 focused on loan originations and securities activity. We originated and funded \$1.8 billion in principal value of commercial mortgage loans in the six months ended June 30, 2015. We acquired \$371.7 million of new securities, which was offset by \$727.0 million of sales and \$114.8 million of amortization in the portfolio, resulting in a net decrease in our securities portfolio of \$516.2 million. We also invested \$140.2 million in real estate.

Investment activity in the six months ended June 30, 2014 focused on loan originations and securities investments. We originated and funded \$1.9 billion in principal value of commercial mortgage loans in the six months ended June 30, 2014. We acquired \$527.6 million of new securities, which was offset by \$229.9 million of sales and \$122.8 million of amortization in the portfolio, which contributed to a net increase in our securities portfolio of \$177.2 million.

Operating overview

As a result of the IPO Transactions, net income attributable to Class A common shareholders for the six months ended June 30, 2015 is not comparable to net income attributable to Class A common shareholders for the six months ended June 30, 2014.

Net income attributable to Class A common shareholders totaled \$43.4 million for the six months ended June 30, 2015, compared to \$25.2 million for the six months ended June 30, 2014. The most significant drivers of the \$18.2 million increase are as follows:

an increase in net interest income of \$11.0 million, primarily as a result of higher average loan receivable and securities balances partially offset by higher interest expense as a result of higher outstanding financing obligations as well as the decrease in the average yield on the securities portfolio year-over-year;

an increase in total other income of \$25.6 million, primarily as a result of a \$39.2 million increase in net results from derivative transactions, a \$16.0 million increase in realized gains on securities and a \$13.5 million increase in operating lease income, partially offset by a decrease in sale of loans, net;

an increase in total costs and expenses of \$3.7 million compared to the prior year, primarily as a result of additional personnel costs from additional head count, higher real estate operating and depreciation expenses related to our expanded real estate portfolio, higher costs associated with operating as a REIT and our executive compensation plans put in place at the time of our IPO, partially offset by reduced incentive compensation expense due to reduced actual net revenues and loan/investment production;

•

a decrease in income tax (benefit) expense of \$5.2 million - our predecessor/operating partnership is taxed as a partnership but is subject to certain state and local income taxes. Subsequent to our IPO, the Company was subject to federal and state income taxes on its share of the income of the operating partnership. The Company's election to be taxed as a REIT will be effective as of January 1, 2015 and we expect to only pay taxes on the portion of our income earned in our taxable REIT subsidiary and some state and local taxes.

Core Earnings, a non-GAAP measure, totaled \$100.1 million for the six months ended June 30, 2015, compared to \$117.2 million for the six months ended June 30, 2014. The significant components of the \$17.1 million decrease in Core Earnings are an increase in net interest income of \$11.0 million and an increase in operating lease income of \$13.5 million more than offset by a decrease in profits on sales of loans, net of \$41.3 million and a decrease in net results from derivative transactions of \$19.3 million and the decrease in total costs and expenses discussed in the preceding paragraph. See “—Reconciliation of Non-GAAP Financial Measures.”

Table of Contents

Net interest income

Interest income totaled \$115.6 million for the six months ended June 30, 2015, compared to \$81.9 million for the six months ended June 30, 2014. The \$33.7 million increase in interest income was primarily attributable to an increase in our average investment balances in our loan and our securities portfolios. For the six months ended June 30, 2015, securities investments averaged \$2.6 billion and loan investments averaged \$2.1 billion. For the six months ended June 30, 2014, securities investments averaged \$1.7 billion and loan investments averaged \$1.2 billion. The impact of the expanded base of interest bearing assets was partially offset by lower interest spreads earned on securities acquired and loans originated subsequent to June 30, 2014 versus the interest spreads prevailing prior to that date.

Interest expense totaled \$54.3 million for the six months ended June 30, 2015, compared to \$31.6 million for the six months ended June 30, 2014. The \$22.7 million increase in interest expense was primarily attributable to the increase in average debt balance that is required to finance the expanded book of investment assets. For the six months ended June 30, 2015, our debt balances averaged \$4.3 billion versus an average debt balance of \$2.4 billion for the six months ended June 30, 2014. The unfavorable impact on interest expense attributed to the higher debt level was magnified by the addition of \$300.0 million of 2021 Notes in August 2014, partially offset by greater use of FHLB borrowings, a lower cost source of funding than other financing sources, for the six months ended June 30, 2015, as compared to the six months ended June 30, 2014. Our interest expense also includes interest expense related to mortgage loan financing against our real estate investments. Our investment in real estate and related lease intangibles, net has continued to increase during 2015 and 2014 and our mortgage loan financing secured by such investments has also similarly increased. Our interest expense related to mortgage loan financing increased by \$4.3 million from \$7.4 million for the six months ended June 30, 2014 to \$11.7 million for the six months ended June 30, 2015, primarily as a result of our increase in average outstanding mortgage loan financing of \$494.9 million for the six months ended June 30, 2015 compared to \$322.8 million for the six months ended June 30, 2014 and the increase in the average cost of financing.

Net interest income after provision for loan losses totaled \$61.0 million for the six months ended June 30, 2015, compared to \$50.0 million for the six months ended June 30, 2014. The \$11.0 million increase in net interest income after provision for loan losses was primarily attributable to the increase in loan and securities investment balances during 2015 compared to the same period a year ago, partially offset by the increase in debt balance.

Cost of funds, a non-GAAP measure, totaled \$68.2 million for the six months ended June 30, 2015, compared to \$35.5 million for the six months ended June 30, 2014. The \$32.7 million increase in cost of funds was primarily attributable to the increase in the average debt balance and the issuance of the 2021 Notes referred to above.

We present cost of funds, which is a non-GAAP measure, as a supplemental measure of the Company's cost of debt financing. We define cost of funds as interest expense as reported on our combined consolidated statements of income adjusted to include the net interest expense component resulting from our hedging activities, which is currently included in net results from derivative transactions on our combined consolidated statements of income. See "—Reconciliation of Non-GAAP Financial Measures" for our definition of cost of funds and a reconciliation to interest expense.

Interest spreads

As of June 30, 2015, the weighted average yield on our mortgage loan receivables was 7.0%, compared to 7.7% as of June 30, 2014 as the weighted average yield on new loans originated was lower than the weighted average yield on loans that were securitized or paid off. As of June 30, 2015, the weighted average interest rate on borrowings against our mortgage loan receivables was 1.9%, compared to 2.0% as of June 30, 2014. As of June 30, 2015, we had outstanding borrowings secured by our mortgage loan receivables equal to 43.8% of the carrying value of our

mortgage loan receivables, compared to 27.2% as of June 30, 2014.

As of June 30, 2015, the weighted average yield on our real estate securities was 2.9%, compared to 3.8% as of June 30, 2014 as the weighted average yield on securities purchased was lower than the weighted average yield on securities that were sold or paid off. As of June 30, 2015, the weighted average interest rate on borrowings against our real estate securities was 0.9%, compared to 0.8% as of June 30, 2014. The increase in the rate on borrowings against our real estate securities from June 30, 2014 to June 30, 2015 was primarily due to the utilization of a higher proportion of longer-term borrowings from the FHLB and greater use of securities repurchase facilities at higher cost as of June 30, 2015 versus June 30, 2014. As of June 30, 2015, we had outstanding borrowings secured by our real estate securities equal to 82.2% of the carrying value of our real estate securities, compared to 69.8% as of June 30, 2014.

Table of Contents

Our real estate is comprised of non-interest bearing assets; however, interest incurred on mortgage financing collateralized by such real estate is included in interest expense. As of June 30, 2015, the weighted average interest rate on mortgage borrowings against our real estate was 4.9%, compared to 4.9% as of June 30, 2014. As of June 30, 2015, we had outstanding borrowings secured by our real estate equal to 62.5% of the carrying value of our real estate, compared to 56.1% as of June 30, 2014.

Provision for loan losses

We had a \$0.3 million provision for loan losses for the six months ended June 30, 2015 and 2014. We invest primarily in loans with high credit quality, and we sell our conduit loans in the ordinary course of business. We estimate our loan loss provision based on our historical loss experience and our expectation of losses inherent in the investment portfolio but not yet realized. Since inception, we have had no events of impairment on the loans we originated, however, to ensure that the risk exposures are properly measured and the appropriate reserves are taken, the Company assesses a loan loss provision balance that will grow over time with its portfolio and the related risk as the assets approach maturity and ultimate refinancing where applicable. As a result, our provision for loan losses remained unchanged for the six months ended June 30, 2015 and 2014.

Operating lease income and tenant recoveries

Operating lease income totaled \$39.5 million for the six months ended June 30, 2015, compared to \$26.0 million for the six months ended June 30, 2014. The increase of \$13.5 million was attributable to acquisitions, which increased real estate to \$846.3 million at June 30, 2015 versus \$561.2 million at June 30, 2014, as well as a full period of operations of properties acquired in 2014.

Tenant recoveries totaled \$5.0 million for the six months ended June 30, 2015, compared to \$4.2 million for the six months ended June 30, 2014. The increase of \$0.8 million reflects the acquisitions of office and residential real estate in 2014 and 2015. It also reflects additional recoveries on properties acquired in 2015 and a full period of recoveries on properties acquired in 2014.

Sales of loans, net

Income from sales of loans, net, which includes all loan sales, whether by securitization, whole loan sales or other means, totaled \$44.6 million for the six months ended June 30, 2015, compared to \$86.7 million for the six months ended June 30, 2014, a decrease of \$42.1 million. In the six months ended June 30, 2015, we participated in four separate securitization transactions, selling 90 loans with an aggregate outstanding principal balance of \$1.1 billion. In the six months ended June 30, 2014, we participated in five securitization transactions, selling 78 loans with an aggregate outstanding principal balance of \$1.7 billion. Income from sales of loans, net is subject to market conditions impacting timing, size and pricing and as such may vary significantly quarter to quarter. The decrease in income from sales of securitized loans, net of hedging of \$39.9 million for the six months ended June 30, 2015 compared to \$75.2 million for the six months ended June 30, 2014 was due to a decline in the aggregate outstanding principal balance of loans sold, period over period, as well as increasing competition in the market and lower prevailing lending credit spreads for conduit loans.

Income from sale of loans, net, represents gross proceeds received from the sale of loans, less the book value of those loans at the time they were sold, less any costs, such as legal and closing costs, associated with the sale. Income from sales of securitized loans, net, a non-GAAP measure, represents the portion of income from sales of loans, net related to the sale of loans into securitization trusts. See “—Reconciliation of Non-GAAP Financial Measures” for our definition of income from sale of securitized loans, net of hedging and a reconciliation to income from sale of loans, net.

Table of Contents

Realized gain (loss) on securities

Realized gain (loss) on securities totaled \$23.2 million for the six months ended June 30, 2015, compared to \$7.2 million for the six months ended June 30, 2014, an increase of \$16.0 million. For the six months ended June 30, 2015, we sold \$727.0 million of securities, which comprised of \$721.2 million of CMBS and \$5.8 million U.S. Agency Securities. For the six months ended June 30, 2014, we sold \$229.9 million of CMBS securities and no U.S. Agency Securities. The increase reflects higher transaction volume and higher profit margins in 2015 as compared to 2014.

Unrealized gain (loss) on Agency interest-only securities

Unrealized gain (loss) on Agency interest-only securities represented a loss of \$1.4 million for the six months ended June 30, 2015, compared to a gain of \$1.7 million for the six months ended June 30, 2014. The negative change of \$3.1 million in unrealized gain (loss) on Agency interest-only securities was due to amortization of the portfolio during the six months ended June 30, 2015.

Income from sales of real estate, net

For the six months ended June 30, 2015, income from sales of real estate, net totaled \$14.9 million compared to \$15.8 million for the six months ended June 30, 2014. The decrease of \$0.9 million was a result of the commercial real estate and residential condominium sales discussed below.

During the six months ended June 30, 2015, we sold three single-tenant retail properties resulting in a net gain on sale of \$1.6 million. There were no sales of commercial real estate properties during the six months ended and June 30, 2014.

During the six months ended June 30, 2015, income from sales of residential condominiums totaled \$13.3 million. We sold 50 residential condominium units from Veer Towers in Las Vegas, NV, resulting in a net gain on sale of \$9.4 million, and 57 residential condominium units from Terrazas River Park Village in Miami, FL, resulting in a net gain on sale of \$3.9 million. During the six months ended June 30, 2014, income from sales of 75 residential condominium units from Veer Towers in Las Vegas, NV, resulted in a net gain on sale of \$12.1 million, and 16 residential condominium units from Terrazas River Park Village in Miami, FL, resulting in a net gain on sale of \$0.8 million.

Other income

Fee income totaled \$7.4 million for the six months ended June 30, 2015, compared to \$4.5 million for the six months ended June 30, 2014. We generate fee income from the management of our institutional partnership and managed accounts, dividend income on our investment in FHLB stock, as well as from origination fees, exit fees and other fees on the loans we originate and in which we invest. The \$2.9 million increase in fee income year-over-year was primarily due to an increase in dividends from our investment in FHLB stock and increase in fee income on our loan portfolio.

Net result from derivative transactions

Net result from derivative transactions represented a loss of \$12.4 million for the six months ended June 30, 2015, which was comprised of an unrealized gain of \$5.3 million and a realized loss of \$17.7 million, compared to a loss of \$51.6 million which was comprised of an unrealized loss of \$16.8 million and a realized loss of \$34.8 million, for the six months ended June 30, 2014, a positive change of \$39.2 million. The derivative positions that generated these results were a combination of interest rate swaps, caps, and futures that we employed in an effort to hedge the interest rate risk on the financing of our fixed rate assets and the net interest income we earn against the impact of changes in

interest rates. The loss in 2015 was primarily related to a decrease in interest rates during the six months ended June 30, 2015, which generally increased the value of our fixed rate loan and securities investments, and decreased the fair value of our offsetting derivative transactions. The total net result from derivative transactions is comprised of hedging interest expense, realized gains/losses related to hedge terminations and unrealized gains/losses related to changes in the fair value of asset hedges. The hedge positions were related to fixed rate conduit loans and securities investments.

Table of Contents

Earnings from investment in unconsolidated joint ventures

Total earnings from investment in unconsolidated joint ventures totaled \$0.6 million for the six months ended June 30, 2015, compared to \$1.3 million for the six months ended June 30, 2014. Earnings from our investment in LCRIP I totaled \$0.1 million for the six months ended June 30, 2015, compared to \$0.8 million for the six months ended June 30, 2014. The decrease of \$0.7 million reflects decrease in the number of loans held by LCRIP I in 2015 compared to 2014. LCRIP I held no loans as of June 30, 2015. Earnings from our investment in Grace Lake JV totaled \$0.5 million for the six months ended June 30, 2015, compared to \$0.5 million for the six months ended June 30, 2014.

Salaries and employee benefits

Salaries and employee benefits totaled \$29.7 million for the six months ended June 30, 2015, compared to \$46.5 million for the six months ended June 30, 2014. Salaries and employee benefits are comprised primarily of salaries, bonuses, originator bonuses related to loan profitability, equity based compensation and other employee benefits. The decrease of \$16.8 million in compensation expense was attributable to the decrease in incentive compensation expense in the six months ended June 30, 2015 compared the the six months ended June 30, 2014 due to reduced actual net revenues and loan/investment production in the most recently ended quarter.

Operating expenses

Operating expenses totaled \$15.5 million for the six months ended June 30, 2015, compared to \$6.7 million for the six months ended June 30, 2014. Operating expenses are primarily comprised of professional fees, lease expense, and technology expenses. The increase in operating expenses is a result of increased investments in loans, securities and real estate. It is also due to higher costs associated with operating as a public REIT and restructuring related to the Company's REIT election.

Real estate operating expenses

Real estate operating expenses totaled \$19.0 million for the six months ended June 30, 2015, compared to \$15.0 million for the six months ended June 30, 2014. The increase of \$4.0 million in real estate operating expense was in part due to the acquisitions of office and residential real estate in 2014 and 2015. It also reflects additional operating expenses related to properties acquired during 2015 and a full period of operating expenses on properties acquired during 2014.

Real estate acquisition costs

Real estate acquisition costs totaled \$1.1 million for the six months ended June 30, 2015, compared to none for the six months ended June 30, 2014. The increase of \$1.1 million in real estate acquisition costs was due to the purchase of \$140.2 million of real estate in the six months ended June 30, 2015, compared to none in the six months ended June 30, 2014.

Fee expense

Fee expense totaled \$2.6 million for the six months ended June 30, 2015, compared to \$1.2 million for the six months ended June 30, 2014. Fee expense is comprised primarily of custodian fees, financing costs and servicing fees related to loans. The increase of \$1.4 million in fee expense was primarily attributable to the increase in the balance of our mortgage loan receivables held for investment, net, at amortized cost at June 30, 2015, as compared to at June 30, 2014.

Depreciation and amortization

Depreciation and amortization totaled \$19.7 million for the six months ended June 30, 2015, compared to \$14.4 million for the six months ended June 30, 2014. The \$5.3 million increase in depreciation and amortization is attributable to acquisitions, which increased real estate to \$846.3 million at June 30, 2015 versus \$561.2 million at June 30, 2014, as well as a partial period of depreciation on 2015 acquisitions and a full period of depreciation on acquisitions made in 2014.

Income tax (benefit) expense

Income tax (benefit) expense totaled \$8.3 million for the six months ended June 30, 2015, compared to \$13.5 million for the six months ended June 30, 2014. The decrease of \$5.2 million is primarily attributable to the decrease in consolidated effective tax rate from June 30, 2014 to June 30, 2015 due to the REIT Structuring Transactions and our REIT election.

Table of Contents

Liquidity and Capital Resources

Our financing strategies are critical to the success and growth of our business. We manage our financing to complement our asset composition and to diversify our exposure across multiple capital markets and counterparties.

We require substantial amounts of capital to support our business. The management team, in consultation with our board of directors, establishes our overall liquidity and capital allocation strategies. A key objective of those strategies is to support the execution of our business strategy while maintaining sufficient ongoing liquidity throughout the business cycle to service our financial obligations as they become due. When making funding and capital allocation decisions, members of our senior management consider business performance; the availability of, and costs and benefits associated with, different funding sources; current and expected capital markets and general economic conditions; our balance sheet and capital structure; and our targeted liquidity profile and risks relating to our funding needs.

Our primary uses of liquidity are for (1) the funding of loan and real estate-related investments, (2) the repayment of short-term and long-term borrowings and related interest, (3) the funding of our operating expenses and (4) distributions to our equity investors to comply with the REIT distribution requirements and the terms of our Third Amended and Restated LLLP Agreement. We require short-term liquidity to fund loans that we originate and hold on our combined consolidated balance sheet pending sale, including through whole loan sale, participation, or securitization. We generally require longer-term funding to finance the loans and real estate-related investments that we hold for investment.

Our primary sources of liquidity have been (1) cash and cash equivalents, (2) cash generated from operations, (3) borrowings under repurchase agreements, (4) principal repayments on investments including mortgage loans and securities, (5) borrowings under our credit agreement, (6) borrowings under our revolving credit facility, (7) proceeds from securitizations and sales of loans, (8) proceeds from the sale of securities, (9) proceeds from the sale of real estate, (10) proceeds from the issuance of the Notes, and (11) proceeds from the issuance of equity capital. As a REIT, we will also be required to make sufficient dividend payments to our shareholders (and equivalent distributions to the Continuing LCFH Limited Partners) in amounts at least sufficient to maintain our REIT status. We have obtained an IRS private letter ruling, pursuant to which we may elect to pay a portion of our dividends in stock subject to a cash/stock election to optimize our level of capital retention.

We have historically maintained a debt-to-equity ratio of 3:1 or below. This ratio typically fluctuates during the course of a fiscal year due to the normal course of business in our conduit lending operations, in which we generally securitize our inventory of loans at intervals, and also because of changes in our asset mix, due in part to such securitizations. We generally seek to match fund our assets according to their liquidity characteristics and expected hold period. We believe that the defensive positioning of our predominantly senior secured assets and our financing strategy has allowed us to maintain financial flexibility to capitalize on an attractive range of market opportunities as they have arisen.

We and our subsidiaries may incur substantial additional debt in the future. However, we are subject to certain restrictions on our ability to incur additional debt in the indentures governing the Notes (the "Indentures") and our other debt agreements. Under the Indentures, we may not incur certain types of indebtedness unless our consolidated debt to equity ratio (as defined in the Indentures) is less than or equal to 4.00 to 1.00 and our consolidated non-funding debt to equity ratio (as defined in the Indentures) is less than or equal to 1.75 to 1.00, although our subsidiaries are permitted to incur indebtedness where recourse is limited to the assets and/or the general credit of such subsidiary. Our borrowings under certain financing agreements and our committed loan facilities are subject to maximum consolidated leverage ratio limits (currently ranging from 3.50 to 1.00 to 4.00 to 1.00), including maximum consolidated leverage ratio limits weighted by asset composition that change based on our asset base at the time of

determination, and, in the case of one provider, a minimum interest coverage ratio requirement of 1.50 to 1.00 if certain liquidity thresholds are not satisfied. These restrictions, which would permit us to incur substantial additional debt, are subject to significant qualifications and exceptions.

Our principal debt financing sources include: (1) committed secured funding provided by banks, (2) uncommitted secured funding sources, including asset repurchase agreements with a number of banks, (3) long term nonrecourse mortgage financing, (4) long term senior unsecured notes in the form of corporate bonds and (5) borrowings on both a short- and long-term committed basis, made by our wholly-owned subsidiary, Tuebor from the FHLB.

As of June 30, 2015, we had unrestricted cash and cash equivalents of \$102.9 million, unencumbered loans of \$645.4 million, unencumbered securities of \$20.2 million and restricted cash of \$79.5 million.

Table of Contents

To maintain our qualification as a REIT under the Code, we must distribute our C corporation accumulated earnings and profits and we must annually distribute at least 90% of our taxable income. We expect that a portion of our annual distribution, as well as a one-time earnings and profits distribution, as required by the REIT rules, would be payable primarily in stock, to provide for meaningful capital retention, and would be subject to a cash/stock election in accordance with the private letter ruling we have received from the IRS. In general, the ruling provides, subject to the terms and conditions contained therein, that (1) any and all of the cash and stock distributed by us as part of a distribution of cash and stock will be treated as a taxable distribution of property with respect to our stock, and (2) the amount of any distribution of stock received by any of our shareholders as part of such distribution will be considered to be equal to the amount of the money that could have been received instead. In general, a holder of our stock will be required to report dividend income as a result of a distribution of cash and stock even if we distribute no cash or only nominal amounts of cash to such shareholder. The REIT distribution requirements limit our ability to retain earnings and thereby replenish or increase capital for operations. We believe that our significant capital resources and access to financing will provide us with financial flexibility at levels sufficient to meet current and anticipated capital requirements, including funding new investment opportunities, paying distributions to our shareholders and servicing our debt obligations.

Our captive insurance company subsidiary, Tuebor, is subject to state regulations which require that dividends may only be made with regulatory approval. Largely as a result of this restriction, \$378.8 million of Tuebor's member's capital was restricted from transfer to Tuebor's parent without prior approval of state insurance regulators at June 30, 2015.

The Company established a broker-dealer subsidiary, LCS, which was initially licensed and capitalized to do business in July 2010. LCS is required to be compliant with Financial Industry Regulatory Authority ("FINRA") and SEC regulations, which require that dividends may only be made with regulatory approval. Largely as a result of this restriction, \$3.0 million of LCS's member's capital was restricted from transfer to LCS's parent without prior approval of regulators at June 30, 2015.

Cash and cash equivalents

We held unrestricted cash and cash equivalents of \$102.9 million and \$76.2 million at June 30, 2015 and December 31, 2014, respectively.

Cash generated from operations

Our operating activities were a net provider of cash of \$0.1 million during the six months ended June 30, 2015, and were a net provider of cash of \$432.3 million for the six months ended June 30, 2014. Cash from operations includes the origination of loans held for sale, net of the proceeds from sale of loans and gains from sales of loans.

Table of Contents

Borrowings under various financing arrangements

Our financing strategies are critical to the success and growth of our business. We manage our leverage policies to complement our asset composition and to diversify our exposure across multiple counterparties. Our borrowings under various financing arrangements as of June 30, 2015 and December 31, 2014 are set forth in the table below (\$ in thousands):

	June 30, 2015	December 31, 2014
Committed loan facilities	\$518,170	\$509,024
Committed securities facility	124,202	174,853
Uncommitted securities facilities	414,008	747,789
Total repurchase agreements	1,056,380	1,431,666
Borrowings under credit agreement	12,000	11,000
Borrowings under credit and security agreement	46,750	46,750
Revolving credit facility	75,000	25,000
Mortgage loan financing	529,097	447,409
Borrowings from the FHLB	1,758,000	1,611,000
Total debt obligations	3,477,227	3,572,825
Senior unsecured notes	611,357	610,129
Total financing	\$4,088,584	\$4,182,954

The Company's repurchase facilities include covenants covering minimum net worth requirements (ranging from \$75.0 million to \$900.3 million), maximum reductions in net worth over stated time periods, minimum liquidity levels (typically \$30.0 million of cash or a higher standard that often allow for the inclusion of different percentages of liquid securities in the determination of compliance with the requirement), maximum leverage ratios (calculated in various ways based on specified definitions of indebtedness and net worth) and a fixed charge coverage ratio of 1.25x, and, in the instance of one provider, an interest coverage ratio of 1.50x, in each case, if certain liquidity thresholds are not satisfied. We believe we were in compliance with all covenants as of June 30, 2015 and December 31, 2014. Further, certain of our financing arrangements and loans on our real property are secured by the assets of the Company, including pledges of the equity of certain subsidiaries or the assets of certain subsidiaries. From time to time, certain of these financing arrangements and loans may prohibit certain of our subsidiaries from paying dividends to the Company, from making distributions on such subsidiary's capital stock, from repaying to the Company any loans or advances to such subsidiary from the Company or from transferring any of such subsidiary's property or other assets to the Company or other subsidiaries of the Company.

Committed loan facilities

We are parties to multiple committed loan repurchase agreement facilities, totaling \$1.3 billion of credit capacity. Assets pledged as collateral under these facilities are generally limited to whole mortgage loans collateralized by first liens on commercial real estate. Our repurchase facilities include covenants covering net worth requirements, minimum liquidity levels, and maximum debt/equity ratios. We believe we were in compliance with all covenants as of June 30, 2015.

We have the option to extend some of our existing facilities subject to a number of customary conditions. The lenders have sole discretion with respect to the inclusion of collateral in these facilities, to determine the market value of the collateral on a daily basis, and, if the estimated market value of the included collateral declines, the lenders have the right to require additional collateral or a full and/or partial repayment of the facilities (margin call), sufficient to rebalance the facilities. Typically, the facilities are established with stated guidelines regarding the maximum

percentage of the collateral asset's market value that can be borrowed. We often borrow at a lower percentage of the collateral asset's value than the maximum leaving us with excess borrowing capacity that can be drawn upon at a later date and/or applied against future margin calls so that they can be satisfied on a cashless basis.

Table of Contents

Committed securities facility

We are a party to a term master repurchase agreement with a major U.S. banking institution for CMBS, totaling \$300.0 million of credit capacity. As we do in the case of borrowings under committed loan facilities, we often borrow at a lower percentage of the collateral asset's value than the maximum leaving us with excess borrowing capacity that can be drawn upon a later date and/or applied against future margin calls so that they can be satisfied on a cashless basis.

Uncommitted securities facilities

We are party to multiple master repurchase agreements with several counterparties to finance our investments in CMBS and U.S. Agency Securities. The securities that served as collateral for these borrowings are highly liquid and marketable assets that are typically of relatively short duration. As we do in the case of other secured borrowings, we often borrow at a lower percentage of the collateral asset's value than the maximum leaving us with excess borrowing capacity that can be drawn upon a later date and/or applied against future margin calls so that they can be satisfied on a cashless basis.

Collateralized borrowings under repurchase agreement

The following table presents the amount of collateralized borrowings outstanding as of the end of each quarter, the average amount of collateralized borrowings outstanding during the quarter and the monthly maximum amount of collateralized borrowings outstanding during the quarter (\$ in thousands):

Quarter Ended	Total			Collateralized Borrowings Under Repurchase Agreements (1)			Other Collateralized Borrowings (2)		
	Quarter-end balance	Average quarterly balance	Maximum balance of any month-end	Quarter-end balance	Average quarterly balance	Maximum balance of any month-end	Quarter-end balance	Average quarterly balance	Maximum balance of any month-end
June 30, 2012	1,645,770	1,608,041	1,645,770	1,645,770	1,608,041	1,645,770	—	—	—
September 30, 2012	754,263	1,190,263	1,471,712	754,263	1,190,263	1,471,712	—	—	—

- (1) Collateralized borrowings under repurchase agreements include all securities and loan financing under repurchase agreements.
- (2) Other collateralized borrowings include borrowings under credit agreement and borrowings under credit and security agreement.

Borrowings under credit agreement

On January 24, 2013, we entered into a \$50.0 million credit agreement with one of our committed financing counterparties in order to finance our securities and lending activities. As of June 30, 2015, there were \$12.0 million borrowings outstanding under this facility. There were \$11.0 million of borrowings outstanding as of December 31, 2014.

Table of Contents

LCFH is subject to customary affirmative covenants and negative covenants, including limitations on the assumption or incurrence of additional liens or debt, restrictions on certain payments or transfers of assets, and restrictions on the amendment of contracts or documents related to the assets under pledge. Under the credit agreement, LCFH is subject to customary financial covenants relating to maximum leverage, minimum tangible net worth, and minimum liquidity consistent with our other credit facilities. Our ability to borrow under this credit agreement will be dependent on, among other things, LCFH's compliance with the financial covenants.

Borrowings under Credit and Security Agreement

On October 31, 2014, we entered into a credit and security agreement with a major banking institution to finance one of our assets in the amount of \$46.8 million and an interest rate of LIBOR plus 185 basis points. As of June 30, 2015 and December 31, 2014, there were \$46.8 million and \$46.8 million, respectively, of borrowings outstanding under the Company's Credit and Security Agreement.

We are subject to customary affirmative and negative covenants under this agreement, including prohibitions on additional indebtedness or liens, restrictions on fundamental changes, and limitations to underlying loan actions or modifications. There are no financial covenants applicable to this agreement.

Revolving Credit Facility

On February 11, 2014, we entered into a revolving credit facility (the "Revolving Credit Facility"). The Revolving Credit Facility provides for an aggregate maximum borrowing amount of \$75.0 million, including a \$25.0 million sublimit for the issuance of letters of credit. The Revolving Credit Facility is available on a revolving basis to finance the Company's working capital needs and for general corporate purposes. The Revolving Credit Facility has a three-year maturity, which maturity may be extended by two twelve-month periods subject to the satisfaction of customary conditions, including the absence of default. Interest is incurred on the Revolving Credit Facility at a rate of one-month LIBOR plus 3.50% per annum payable monthly in arrears.

The obligations under the Revolving Credit Facility are guaranteed by the Company and certain of its subsidiaries. The Revolving Credit Facility is secured by a pledge of the shares of (or other ownership or equity interests in) certain subsidiaries to the extent the pledge is not restricted under existing regulations, law or contractual obligations.

LCFH is subject to customary affirmative covenants and negative covenants, including limitations on the incurrence of additional debt, liens, restricted payments, sales of assets and affiliate transactions under the Revolving Credit Facility. In addition, under the Revolving Credit Facility, LCFH is required to comply with financial covenants relating to minimum net worth, maximum leverage, minimum liquidity, and minimum fixed charge coverage, consistent with our other credit facilities. Our ability to borrow under the Revolving Credit Facility will be dependent on, among other things, LCFH's compliance with the financial covenants. The Revolving Credit Facility contains customary events of default, including non-payment of principal or interest, fees or other amounts, failure to perform or observe covenants, cross-default to other indebtedness, the rendering of judgments against the Company or certain of our subsidiaries to pay certain amounts of money and certain events of bankruptcy or insolvency.

As of June 30, 2015 there were \$75.0 million borrowings outstanding under the Revolving Credit Facility. As of December 31, 2014, there were \$25.0 million of borrowings outstanding under the Revolving Credit Facility.

Mortgage loan financing

We generally finance our real estate using long-term nonrecourse mortgage financing. During the six months ended June 30, 2015, we executed 20 term debt agreements to finance real estate. These nonrecourse debt agreements are

fixed rate financing at rates ranging from 4.25% to 6.75%, maturing between 2018 and 2025 and totaling \$529.1 million at June 30, 2015 and \$447.4 million at December 31, 2014. These long-term nonrecourse mortgages include net unamortized premiums of \$7.1 million and \$5.3 million at June 30, 2015 and December 31, 2014, respectively, representing proceeds received upon financing greater than the contractual amounts due under the agreements. The premiums are being amortized over the remaining life of the respective debt instruments using the effective interest method. We recorded \$0.4 million and \$0.3 million of premium amortization, which decreased interest expense, for the six months ended June 30, 2015 and 2014, respectively. The loans are collateralized by real estate and related lease intangibles, net, of \$691.0 million and \$591.6 million as of June 30, 2015 and December 31, 2014, respectively.

Table of Contents

FHLB financing

On July 11, 2012, Tuebor, a wholly-owned consolidated subsidiary, became a member of the FHLB. As of June 30, 2015, Tuebor had \$1.8 billion of borrowings outstanding (with an additional \$507.8 million of committed term financing available from the FHLB), with terms of overnight to 9 years, interest rates of 0.25% to 2.74%, and advance rates of 48.8% to 95.2% of the collateral. As of June 30, 2015, collateral for the borrowings was comprised of \$1.6 billion of CMBS and U.S. Agency Securities and \$704.6 million of first mortgage commercial real estate loans. On June 26, 2015, Tuebor's advance limit was increased to the lesser of \$2.9 billion, 40% of Ladder Capital Corp's total assets or 150% of Ladder Capital Corp's total equity. As of December 31, 2014, Tuebor had \$1.6 billion of borrowings outstanding (with an additional \$289.0 million of committed term financing available from the FHLB), with terms of overnight to 10 years, interest rates of 0.30% to 2.74%, and advance rates of 50% to 95.2% of the collateral. As of December 31, 2014, collateral for the borrowings was comprised of \$1.6 billion of CMBS and U.S. Agency Securities and \$451.8 million of first mortgage commercial real estate loans.

On September 2, 2014, the Federal Housing Finance Agency ("FHFA") proposed a rule that would revise the requirements for financial institutions to apply for, and retain membership in, one of the 11 FHLBs. This proposed rule would revise FHFA's existing FHLB membership regulation to ensure that members maintain a commitment to housing finance and that the entities meeting the revised requirements can gain access to FHLB advances and the benefits of membership. Many of the provisions of the proposed rule would not be applicable to Tuebor. The most relevant and most notable provisions of the proposed rule would:

- a. Define "insurance company" to mean a company that has as its primary business the underwriting of insurance for nonaffiliated persons. The intent of this provision is to continue to include traditional insurance companies but exclude captive insurers from membership and prevent entities not eligible for membership from gaining access to FHLB advances through a captive insurer. Membership of existing captive insurers would be "sunset" over five years from the effective date of the new rule (the "Sunset Date") with defined limits on advances.
- b. Establish a new quantitative test requiring all members to hold one percent of their assets in home mortgage loans ("HML") and to do so on an ongoing basis. Currently, applicants for membership need only demonstrate a nominal amount of HML on their balance sheet at the time of their application, but not thereafter.

The comment period on the proposed rule remained open for 120 days and closed on January 12, 2014. As of June 30, 2015, there were no changes to the Tuebor's borrowing ability from the FHLB as a result of the proposed rule. If the rule is adopted as proposed, Tuebor's FHLB membership would continue in effect until the Sunset Date, with the terms of the future borrowings from the FHLB would be limited to maturity dates on or prior to the Sunset Date. Tuebor's total borrowings from the FHLB would be limited to 40.0% of its total assets, and Tuebor would be required to maintain at least 1.0% of its assets in the form of HML.

Tuebor is subject to state regulations which require that dividends (including dividends to the Company as its parent) may only be made with regulatory approval. However, there can be no assurance that we would obtain such approval if sought. Largely as a result of this restriction, \$378.8 million of the member's capital were restricted from transfer to Tuebor's parent without prior approval of state insurance regulators at June 30, 2015.

Senior unsecured notes

On August 1, 2014, LCFH issued \$300.0 million in aggregate principal amount of 5.875% senior notes due 2021 (the "2021 Notes"). The 2021 Notes require interest payments semi-annually in cash in arrears on February 1 and August 1 of each year, beginning on February 1, 2015. The 2021 Notes will mature on August 1, 2021. The 2021 Notes are unsecured and are subject to incurrence-based covenants, including limitations on the incurrence of additional debt,

restricted payments, liens, sales of assets, affiliate transactions and other covenants typical for financings of this type.

On September 19, 2012, LCFH issued \$325.0 million in aggregate principal amount of 7.375% Senior Notes due October 1, 2017 (the "2017 Notes"). The 2017 Notes require interest payments semi-annually in cash in arrears on April 1 and October 1 of each year, beginning on September 19, 2012. The 2017 Notes are unsecured and are subject to incurrence-based covenants, including limitations on the incurrence of additional debt, restricted payments, liens, sales of assets, affiliate transactions and other covenants typical for financings of this type.

On December 17, 2014, the Company retired \$5.4 million of principal of the 2017 Notes for a repurchase price of \$5.6 million recognizing a \$0.1 million loss on extinguishment of debt. The remaining \$319.6 million in aggregate principal amount of the 2017 Senior Notes is due October 2, 2017.

Table of Contents

LCFH issued the Notes with Ladder Capital Finance Corporation (“LCFC”), as co-issuers on a joint and several basis. LCFC is a 100% owned finance subsidiary of LCFH with no assets, operations, revenues or cash flows other than those related to the issuance, administration and repayment of the Notes. Ladder Capital Corp and certain subsidiaries of LCFH currently guarantee the obligations under the Notes and the indenture. Ladder Capital Corp is the general partner of LCFH and, through LCFH and its subsidiaries, operates the Ladder Capital business. As of June 30, 2015, Ladder Capital Corp has a 53.2% economic interest in LCFH, and has a majority voting interest and controls the management of LCFH as a result of its ability to appoint board members. As a result, Ladder Capital Corp consolidates the financial results of LCFH and records noncontrolling interest for the economic interest in LCFH held by the Continuing LCFH Limited Partners. In addition, Ladder Capital Corp is subject to federal, state and local income taxes due to its corporate structure. Other than the noncontrolling interest in the Operating Partnership and federal, state and local income taxes, there are no material differences between Ladder Capital Corp’s combined consolidated financial statements and LCFH’s consolidated financial statements.

Principal repayments on investments

We receive principal amortization on our loans and securities as part of the normal course of our business. Repayment of mortgage loan receivables provided net cash of \$439.8 million for the six months ended June 30, 2015 and \$79.4 million for the six months ended June 30, 2014. Repayment of real estate securities provided net cash of \$114.8 million for the six months ended June 30, 2015 and \$122.8 million for the six months ended June 30, 2014. The decrease in principal repayments on investments is due to the growth of our loan and securities investments year over year.

Proceeds from securitizations and sales of loans

We sell our conduit mortgage loans to securitization trusts and to other third-parties as part of our normal course of business. Proceeds from sales of mortgage loans provided net cash of \$1.1 billion for the six months ended June 30, 2015 and \$1.7 billion for the six months ended June 30, 2014.

Proceeds from the sale of securities

We invest in CMBS and U.S. Agency Securities. Proceeds from sales of securities provided net cash of \$727.0 million for the six months ended June 30, 2015 and \$229.9 million for the six months ended June 30, 2014.

Proceeds from the sale of real estate

We own a portfolio of commercial real estate properties as well as residential condominium units. Proceeds from sales of real estate provided net cash of \$63.8 million for the six months ended June 30, 2015 and \$64.9 million for the six months ended June 30, 2014.

Proceeds from the issuance of equity

For the six months ended June 30, 2015, there were no proceeds realized in connection with the issuance of equity. There were \$238.5 million proceeds realized for the issuance of equity for the six months ended June 30, 2014. We may issue additional equity in the future.

Other potential sources of financing

In the future, we may also use other sources of financing to fund the acquisition of our assets, including credit facilities, warehouse facilities, repurchase facilities and other secured and unsecured forms of borrowing. These financings may be collateralized or non-collateralized, may involve one or more lenders and may accrue interest at either fixed or floating rates. We may also seek to raise further equity capital or issue debt securities in order to fund our future investments.

Table of Contents

Contractual obligations

Contractual obligations as of June 30, 2015 were as follows (\$ in thousands):

	Contractual Obligations				Total
	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years	
Secured financings	\$1,448,702	\$1,099,105	\$106,839	\$740,454	\$3,395,100
Unsecured revolving credit facility	—	75,000	—	—	75,000
Senior unsecured notes	—	—	319,555	300,000	619,555
Interest payable(1)	67,217	47,066	84,419	107,257	305,959
Other funding obligations(2)	130,853	—	—	—	130,853
Payments pursuant to tax receivable agreement	—	862	—	—	862
Operating lease obligations	589	2,453	2,386	2,459	7,887
Total	\$1,647,361	\$1,224,486	\$513,199	\$1,150,170	\$4,535,216

(1) Comprised of interest on secured financings and on senior unsecured notes. For borrowings with variable interest rates, we used the rates in effect as of June 30, 2015 to determine the future interest payment obligations.

(2) Comprised of our off-balance sheet unfunded commitment to provide additional first mortgage loan financing and our commitment to purchase GN construction loan securities as of June 30, 2015.

The tables above do not include amounts due under our derivative agreements as those contracts do not have fixed and determinable payments. Our contractual obligations will be refinanced and/or repaid from earnings as well as amortization and sales of our liquid collateral.

Off-Balance Sheet Arrangements

We have made investments in various unconsolidated joint ventures. See Note 6, Investment in Unconsolidated Joint Ventures for further details of our unconsolidated investments. Our maximum exposure to loss from these investments is limited to the carrying value of our investments.

Unfunded Loan Commitments

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our borrowers. As of June 30, 2015, our off-balance sheet arrangements consisted of \$126.0 million of unfunded commitments of mortgage loan receivables held for investment, which was comprised of \$124.6 million to provide additional first mortgage loan financing and \$1.4 million to provide additional mezzanine loan financing. As of December 31, 2014, our off-balance sheet arrangements consisted of \$158.1 million of unfunded commitments of mortgage loan receivables held for investment, which was comprised of \$155.5 million to provide additional first mortgage loan financing and \$2.6 million to provide additional mezzanine loan financing. Such commitments are subject to our borrowers' satisfaction of certain financial and nonfinancial covenants and involve, to varying degrees, elements of credit risk in excess of the amount recognized in the combined consolidated balance sheets and are not reflected on our combined consolidated balance sheets.

Critical Accounting Policies

See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates" within the Annual Report for a full discussion of our critical accounting policies. Other than disclosed in

Note 2, Significant Accounting Policies, our critical accounting policies have not materially changed since December 31, 2014.

Table of Contents

Reconciliation of Non-GAAP Financial Measures

Core Earnings

We present Core Earnings, which is a non-GAAP measure, as a supplemental measure of our performance. We consider common shareholders and Continuing LCFH Limited Partners to have fundamentally equivalent interest in our pre-tax earnings. Accordingly, for purposes of computing Core Earnings we start with pre-tax earnings and adjust for other noncontrolling interest in consolidated joint ventures but we do not adjust for amounts attributable to noncontrolling interests held by Continuing LCFH Limited Partners.

We define Core Earnings as income before taxes adjusted to exclude (i) real estate depreciation and amortization, (ii) the impact of derivative gains and losses related to the hedging of assets on our balance sheet as of the end of the specified accounting period, (iii) unrealized gains/(losses) related to our investments in Agency interest-only securities, (iv) the premium (discount) on mortgage loan financing and the related amortization of premium (discount) on mortgage loan financing recorded during the period, (v) non-cash stock-based compensation and (vi) certain one-time transactional items.

As discussed in Note 2 to the combined consolidated financial statements included in the Annual Report, we do not designate derivatives as hedges to qualify for hedge accounting and therefore any net payments under, or fluctuations in the fair value of, our derivatives are recognized currently in our income statement. However, fluctuations in the fair value of the related assets are not included in our income statement. We consider the gain or loss on our hedging positions related to assets that we still own as of the reporting date to be “open hedging positions.” While recognized for GAAP purposes, we exclude the results on the hedges from Core Earnings until the related asset is sold and the hedge position is considered “closed,” whereupon they would then be included in Core Earnings in that period. These are reflected as “Adjustments for unrecognized derivative results” for purposes of computing Core Earnings for the period.

As more fully discussed in Note 2 to the combined consolidated financial statements included in the Annual Report, our investments in Agency interest-only securities are recorded at fair value with changes in fair value recorded in current period earnings. We believe that excluding these specifically identified gains and losses associated with the open hedging positions adjusts for timing differences between when we recognize changes in the fair values of our assets and derivatives which we use to hedge asset values.

During the preparation of the Core Earnings calculation for the quarter ended September 30, 2014, the Company identified certain errors in its historical calculations, specifically the Company identified that (i) it had not appropriately considered the impact of noncontrolling interests in consolidated joint ventures in the computation of the adjustments for the real estate depreciation, amortization, and gain add-backs in the prior periods and (ii) certain tracking errors relating to unrecognized hedging derivative results. The Company believes the effect of these adjustments to the prior periods presented is immaterial to its Core Earnings as previously reported, however in order to present the comparative information consistently, we have revised previously presented Core Earnings for all impacted periods. All such impacted previously reported Core Earnings will be revised the next time such Core Earnings are included in the Company’s filings. A summary of the impact of the revisions on previously reported amounts is as follows (\$ in thousands):

Core Earnings			
As Reported	NCI/Depreciation Related Adjustments	Unrecognized Hedging Adjustments	As Revised

---	---------	---------	----------	----------

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
GAAP gains/losses on sales of real estate include the effects of previously recognized real estate depreciation and amortization. For purposes of core earnings, real estate depreciation and amortization are eliminated and, accordingly, the resultant gain/losses must also be adjusted. Following is a reconciliation of the related consolidated GAAP amounts to the amounts reflected in Core Earnings				
GAAP realized gain on sale of real estate, net	\$7,278	\$9,060	\$14,941	\$15,753
Less: Realized gain from accumulated depreciation and amortization on real estate sold	(778)	(1,876)	(1,351)	(2,224)
Adjusted gain/loss on sale of real estate for purposes of Core Earnings	\$6,500	\$7,184	\$13,590	\$13,529

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Following is a reconciliation of GAAP net results from derivative transactions to our (2) hedging unrecognized result presented in the computation of Core Earnings in the preceding table (\$ in thousands):				
Hedging interest expense	\$(6,523)	\$(2,550)	\$(13,859)	\$(3,916)
Hedging realized result	394	(5,389)	(19,891)	(10,487)
Hedging unrecognized result	32,916	(17,334)	21,398	(37,157)
Net results from derivative transactions	\$26,787	\$(25,273)	\$(12,352)	\$(51,560)

(3) One-time transactional adjustment for costs related to restructuring the Company for REIT related operations. All costs were expensed and accrued for in the period incurred.

We present Core Earnings because we believe it assists investors in comparing our performance across reporting periods on a consistent basis by excluding non-cash expenses and unrecognized results from derivatives and Agency interest-only securities, which we believe makes comparisons across reporting periods more relevant by eliminating timing differences related to changes in the values of assets and derivatives. In addition, we use Core Earnings: (i) to evaluate our earnings from operations and (ii) because management believes that it may be a useful performance measure for us.

Core Earnings has limitations as an analytical tool. Some of these limitations are:

-

Core Earnings does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations and is not necessarily indicative of cash necessary to fund cash needs; and

other companies in our industry may calculate Core Earnings differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Core Earnings should not be considered in isolation or as a substitute for net income attributable to shareholders or as an alternative to cash flow as a measure of our liquidity or any other performance measures calculated in accordance with GAAP.

Table of Contents

In the future we may incur gains and losses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Core Earnings should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

Income from sales of securitized loans, net of hedging

We present income from sales of securitized loans, net of hedging, a non-GAAP measure, as a supplemental measure of the performance of our loan securitization business. Income from sales of securitized loans, net is a key component of our results. Since our loans sold into securitizations to date are comprised of long-term fixed-rate loans, the result of hedging those exposures prior to securitization represents a substantial portion of our interest rate hedging. Therefore, we view these two components of our profitability together when assessing the performance of this business activity and find it a meaningful measure of the Company's performance as a whole. When evaluating the performance of our sale of loans into securitization business, we generally consider the income from sales of securitized loans, net, in conjunction with other income statement items that are directly related to such securitization transactions, including portions of the realized net result from derivative transactions that are specifically related to hedges on the securitized or sold loans, which we reflect as hedge gain/(loss) related to loans securitized, a non-GAAP measure, in the table below.

Set forth below is an unaudited reconciliation of income from sale of securitized loans, net to income from sale of loans, net as reported in our combined consolidated financial statements included herein and an unaudited reconciliation of hedge gain/(loss) relating to loans securitized to net results from derivative transactions as reported in our combined consolidated financial statements included herein (\$ in thousands except for number of loans and securitizations):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Number of loans	45	36	90	78
Face amount of loans sold into securitizations	\$486,882	\$885,997	\$1,121,320	\$1,658,382
Number of securitizations	2	3	4	5
Income from sales of securitized loans, net (1)	\$14,524	\$45,219	\$44,551	\$86,521
Hedge gain/(loss) related to loans securitized (2)	8,101	(5,365)	(4,675)	(11,313)
Income from sales of securitized loans, net of hedging	\$22,625	\$39,854	\$39,876	\$75,208

(1) The following is a reconciliation of the non-GAAP measure of income from sales of securitized loans, net to income from sale of loans, net, which is the closest GAAP measure, as reported in our combined consolidated financial statements included herein (\$ in thousands).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Income from sales of loans (non-securitized), net	\$—	\$200	\$—	\$200
Income from sales of securitized loans, net	14,524	45,219	44,551	86,521
Income from sales of loans, net	\$14,524	\$45,419	\$44,551	\$86,721

Table of Contents

(2) The following is a reconciliation of the non-GAAP measure of hedge gain/(loss) related to loans securitized to net results from derivative transactions, which is the closest GAAP measure, as reported in our combined consolidated financial statements included herein (\$ in thousands).

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Hedge gain/(loss) related to lending and securities positions	\$ 18,686	\$ (19,908) \$(7,677) \$(40,247
Hedge gain/(loss) related to loans securitized	8,101	(5,365) (4,675) (11,313
Net results from derivative transactions	\$26,787	\$ (25,273) \$(12,352) \$(51,560

Cost of funds

We present cost of funds, which is a non-GAAP measure, as a supplemental measure of the Company's cost of debt financing. We define cost of funds as interest expense as reported on our combined consolidated statements of income adjusted to include the net interest expense component resulting from our hedging activities, which is currently included in net results from derivative transactions on our combined consolidated statements of income. Interest income, net of cost of funds, which is a non-GAAP measure, is defined as interest income, less cost of funds.

Set forth below is an unaudited reconciliation of interest expense to cost of funds (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Interest expense	\$ (27,487) \$(16,751) \$(54,311) \$(31,593
Net interest expense component of hedging activities (1)	(6,523) (2,550) (13,859) (3,916
Cost of funds	\$ (34,010) \$(19,301) \$(68,170) \$(35,509
Interest income	\$59,239	\$45,112	\$115,622	\$81,934
Cost of funds	(34,010) (19,301) (68,170) (35,509
Interest income, net of cost of funds	\$25,229	\$25,811	\$47,452	\$46,425

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
(1) Net interest expense component of hedging activities	\$ (6,523) \$(2,550) \$(13,859) \$(3,916
Hedging realized result	394	(5,389) (19,891) (10,487
Hedging unrecognized result	32,916	(17,334) 21,398	(37,157
Net result from derivative transactions	\$26,787	\$ (25,273) \$(12,352) \$(51,560

Net revenues

We present net revenues, which is a non-GAAP measure, as a supplemental measure of the Company's performance, excluding operating expenses. We define net revenues as net interest income after provision for loan losses and total other income, which are both disclosed on the Company's combined consolidated statements of income. We present

interest income on investments, net and income from sales of loans, net as a percent of net revenues to determine the impact of the net interest from our investments and the securitization activity on our net revenues (\$ in thousands).

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Net interest income after provision for loan losses	\$31,602	\$28,211	\$61,011	\$50,041
Total other income	86,452	55,488	121,489	95,923
Net revenues	\$118,054	\$83,699	\$182,500	\$145,964

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

The nature of the Company's business exposes it to market risk arising from changes in interest rates. Changes, both increases and decreases, in the rates the Company is able to charge its borrowers, the yields the Company is able to achieve in its securities investments, and the Company's cost of borrowing directly impacts its net income. The Company's interest income stream from loans and securities is generally fixed over the life of its assets, whereas it uses floating-rate debt to finance a significant portion of its investments. Another component of interest rate risk is the effect changes in interest rates will have on the market value of the assets the Company acquires. The Company faces the risk that the market value of its assets will increase or decrease at different rates than that of its liabilities, including its hedging instruments. The Company mitigates interest rate risk through utilization of hedging instruments, primarily interest rate swap and futures agreements. Interest rate swap and futures agreements are utilized to hedge against future interest rate increases on the Company's borrowings and potential adverse changes in the value of certain assets that result from interest rate changes. The Company generally seeks to hedge assets that have a duration longer than five years, including newly originated conduit first mortgage loans, securities in the Company's CMBS portfolio if long enough in duration, and most of its U.S. Agency Securities portfolio.

The following table summarizes the change in net income for a 12-month period commencing June 30, 2015 and the change in fair value of our investments and indebtedness assuming an increase or decrease of 100 basis points in the LIBOR interest rate on June 30, 2015, both adjusted for the effects of our interest rate hedging activities (\$ in thousands):

	Projected change in net income	Projected change in portfolio value
Change in interest rate:		
Decrease by 1.00%	\$ (8,008) \$42,787
Increase by 1.00%	11,603	(44,880)

Market Value Risk

The Company's securities investments are reflected at their estimated fair value. The change in estimated fair value of securities available-for-sale is reflected in accumulated other comprehensive income. The change in estimated fair value of Agency interest-only securities is recorded in current period earnings. The estimated fair value of these securities fluctuates primarily due to changes in interest rates and other factors. Generally, in a rising interest rate environment, the estimated fair value of these securities would be expected to decrease; conversely, in a decreasing interest rate environment, the estimated fair value of these securities would be expected to increase. As market volatility increases or liquidity decreases, the market value of the Company's assets may be adversely impacted. The Company's fixed rate mortgage loan portfolio is subject to the same risks. However, to the extent those loans are

classified as held for sale, they are reflected at the lower of cost or market. Otherwise, held for investment mortgage loans are reflected at values equal to the unpaid principal balances net of certain fees, costs and loan loss allowances.

Table of Contents

Liquidity Risk

Market disruptions may lead to a significant decline in transaction activity in all or a significant portion of the asset classes in which the Company invests and may at the same time lead to a significant contraction in short-term and long-term debt and equity funding sources. A decline in liquidity of real estate and real estate-related investments, as well as a lack of availability of observable transaction data and inputs, may make it more difficult to sell the Company's investments or determine their fair values. As a result, the Company may be unable to sell its investments, or only be able to sell its investments at a price that may be materially different from the fair values presented. Also, in such conditions, there is no guarantee that the Company's borrowing arrangements or other arrangements for obtaining leverage will continue to be available or, if available, will be available on terms and conditions acceptable to the Company. In addition, a decline in market value of the Company's assets may have particular adverse consequences in instances where it borrowed money based on the fair value of its assets. A decrease in the market value of the Company's assets may result in the lender requiring it to post additional collateral or otherwise sell assets at a time when it may not be in the Company's best interest to do so. The Company's captive insurance company subsidiary, Tuebor, is subject to state regulations which require that dividends may only be made with regulatory approval. The Company's broker-dealer subsidiary, LCS, is also required to be compliant with FINRA and SEC regulations which require that dividends may only be made with regulatory approval.

Credit Risk

The Company is subject to varying degrees of credit risk in connection with its investments. The Company seeks to manage credit risk by performing deep credit fundamental analyses of potential assets and through ongoing asset management. The Company's investment guidelines do not limit the amount of its equity that may be invested in any type of its assets; however, investments greater than a certain size are subject to approval by the Risk and Underwriting Committee of the board of directors.

Credit Spread Risk

Credit spread risk is the risk that interest rate spreads between two different financial instruments will change. In general, fixed-rate commercial mortgages and CMBS are priced based on a spread to Treasury swaps. The Company generally benefits if credit spreads narrow during the time that it holds a portfolio of mortgage loans or CMBS investments, and the Company may experience losses if credit spreads widen during the time that it holds a portfolio of mortgage loans or CMBS investments. The Company actively monitors its exposure to changes in credit spreads and the Company may enter into credit total return swaps or take positions in other credit related derivative instruments to moderate its exposure against losses associated with a widening of credit spreads.

Risks Related to Real Estate

Real estate and real estate-related assets, including loans and commercial real estate-related securities, are subject to volatility and may be affected adversely by a number of factors, including, but not limited to, national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions; changes or continued weakness in specific industry segments; construction quality, age and design; demographic factors; environmental conditions; competition from comparable property types or properties; changes in tenant mix or performance and retroactive changes to building or similar codes. In addition, decreases in property values reduce the value of the collateral and the potential proceeds available to a borrower to repay the underlying loans, which could also cause the Company to suffer losses.

Covenant Risk

In the normal course of business, the Company enters into loan and securities repurchase agreements and credit facilities with certain lenders to finance its real estate investment transactions. These agreements contain, among other conditions, events of default and various covenants and representations. If such events are not cured by the Company or waived by the lenders, the lenders may decide to curtail or limit extension of credit, and the Company may be forced to repay its advances or loans. In addition, the Company's Notes are subject to covenants, including limitations on the incurrence of additional debt, restricted payments, liens, sales of assets, affiliate transactions and other covenants typical for financings of this type. The Company's failure to comply with these covenants could result in an event of default, which could result in the Company being required to repay these borrowings before their due date. As of June 30, 2015, the Company believes it was in compliance with all covenants.

Table of Contents

Diversification Risk

The assets of the Company are concentrated in the real estate sector. Accordingly, the investment portfolio of the Company may be subject to more rapid change in value than would be the case if the Company were to maintain a wide diversification among investments or industry sectors. Furthermore, even within the real estate sector, the investment portfolio may be relatively concentrated in terms of geography and type of real estate investment. This lack of diversification may subject the investments of the Company to more rapid change in value than would be the case if the assets of the Company were more widely diversified.

Concentrations of Market Risk

Concentrations of market risk may exist with respect to the Company's investments. Market risk is a potential loss the Company may incur as a result of change in the fair values of its investments. The Company may also be subject to risk associated with concentrations of investments in geographic regions and industries.

Regulatory Risk

The Company established a broker-dealer subsidiary, LCS, which was initially licensed and capitalized to do business in July 2010. LCS is required to be compliant with FINRA and SEC requirements on an ongoing basis and is subject to multiple operating and reporting requirements to which all broker-dealer entities are subject. The Company established registered investment adviser subsidiaries, Ladder Capital Adviser LLC and LCR Income I GP LLC (the "Advisers"). The Advisers are required to be compliant with SEC requirements on an ongoing basis and are subject to multiple operating and reporting requirements to which all registered investment advisers are subject. In addition, Tuebor is subject to state regulation as a captive insurance company. If LCS, the Advisers or Tuebor fail to comply with regulatory requirements, they could be subject to loss of their licenses and registration and/or economic penalties.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Chief Executive Officer and the Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as required by Rules 13a-15 and 15d-15 under the Exchange Act as of June 30, 2015. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of June 30, 2015, to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

From time to time, we may be involved in litigation and claims incidental to the conduct of our business in the ordinary course. Further, certain of our subsidiaries, including our registered broker-dealer, registered investment advisers and captive insurance company, are subject to scrutiny by government regulators, which could result in enforcement proceedings or litigation related to regulatory compliance matters. We are not presently a party to any material enforcement proceedings, litigation related to regulatory compliance matters or any other type of material litigation matters. We maintain insurance policies in amounts and with the coverage and deductibles we believe are adequate, based on the nature and risks of our business, historical experience and industry standards.

Item 1A. Risk Factors

There have been no material changes during the three months ended June 30, 2015 to the risk factors in Item 1A in our Annual Report.

Item 2. Unregistered Sales of Securities

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.
