Corning Reports Third-Quarter Results

CORNING, N.Y. -- Corning Incorporated (NYSE: GLW) today announced third-quarter sales of \$1.006 billion, and that it incurred a net loss of \$2.491 billion or \$1.78 per share. This net loss includes a number of noncash special items that reduced Corning's results by \$2.704 billion or \$1.92 per share in the quarter.

"Our third-quarter results reflect Corning's highest level of sales since the fourth quarter of 2001," James R. Houghton, chairman and chief executive officer, said. "We are disappointed with the magnitude of the noncash accounting charges we took in the quarter, but we continue to be pleased with our sequential revenue improvement and our strong gross margin. We believe that our business strategy is working, and we are well on track to meet our performance objectives for the year," he said.

Corning's third-quarter net income was reduced by \$2.704 billion or \$1.92 per share as a result of the following:

- . Restructuring, impairment and other charges and credits of \$1.794 billion (\$1.798 billion after-tax and minority interest) primarily related to the previously announced impairment of goodwill and fixed assets in the Telecommunications segment.
- . A \$50 million gain to reflect the decrease in the market value of Corning common stock to be contributed to settle the asbestos litigation related to Pittsburgh Corning Corporation.
- . A \$4 million charge related to Corning's ongoing debt reduction program.
- . A \$937 million increase in the company's income tax expense as a result of the company's previously-announced decision to provide a valuation allowance against a significant portion of its deferred tax assets.
- . A previously-announced \$35 million impairment of equity method investments in the Telecommunications segment, included in equity earnings of associated companies, net of impairments.
- . A \$20 million gain related to the final settlement of escrowed proceeds from the fourth-quarter 2002 sale of Corning Precision Lens, recorded as income from discontinued operation.

Corning Reports Third-Quarter Results
Page Two

Third-Quarter Operating Results

Corning's third-quarter sales of \$1.006 billion increased 4 percent over the previous quarter's sales of \$971 million. The sequential increase was the result of continued growth of the Display Technologies segment and stronger than expected sales in the Telecommunications segment.

The company's operating performance remained strong with gross margins reaching 40 percent versus 36 percent last quarter. Corning continued to record strong quarterly equity earnings from Samsung Corning Precision Glass Co., Ltd and Dow Corning Corporation.

Sales for the Display Technologies segment grew 6 percent to \$295 million compared to \$277 million for the second quarter. Liquid crystal display (LCD) glass volume grew sequentially 4 percent and year-over-year it increased greater than 70 percent. Pricing for the quarter remained stable. Net income for the segment increased 5 percent to \$142 million from \$135 million in the previous quarter.

Edgar Filing: CORNING INC /NY - Form 8-K

Telecommunications segment sales were \$412 million, a 5 percent improvement over second-quarter sales of \$392 million. The segment recorded a net loss of \$1.820 billion versus a net loss of \$21 million in the previous quarter, primarily due to goodwill, fixed assets and equity method investment impairment charges of \$1.837 billion. Fiber volume increased more than 20 percent sequentially while pricing was essentially flat. The segment's third-quarter results reflected the strength of the company's fiber and cable and hardware and equipment volumes in North America, principally driven by its participation in Verizon's ramp up of its fiber-to-the-premises project. Corning said that its fiber exports to China have been impacted by the recent anti-dumping preliminary determination but not to the levels originally anticipated.

Environmental Technologies segment sales for the third quarter were \$136 million, a decline from the previous quarter's sales of \$141 million. Quarterly sales were impacted by a recent slowdown in diesel products retrofit sales. Segment earnings were down primarily due to disappointing manufacturing performance and higher development spending on diesel products. The Life Sciences segment saw third-quarter revenues and earnings off slightly from the previous quarter.

Cash Flow/Liquidity Update

Corning ended the third quarter with \$1.7 billion in cash and short-term investments, an increase from the previous quarter's balance of \$1.6 billion. The improved cash flow performance was primarily due to the receipt of customer deposits and proceeds from divestitures. The company's debt-to-capital ratio increased to 42 percent versus 31 percent at the end of last quarter as a result of the loss in the third quarter.

(more)

Corning Reports Third-Quarter Results Page Three

"Putting aside the noncash accounting charges, we had a very strong third quarter," James B. Flaws, vice chairman and chief financial officer, said. "We surpassed a billion dollars in quarterly sales, we continued to improve our gross margins, and we again experienced strong cash flow," he said.

Fourth-Quarter Outlook

The company said that it expects fourth-quarter sales to be in the range of \$950 million to \$1 billion and earnings per share in the range of \$0.10 to \$0.12 before special items. This earning per share estimate is a non-GAAP financial measure and excludes any previously announced special items. A reconciliation of the non-GAAP financial estimate is on the company's Investor Relations web site and accompanies this news release. Corning expects that foreign exchange rates will remain stable, and that its gross margin will be in the range of 37 percent to 38 percent.

In its Display Technologies segment, Corning expects that its LCD glass sequential sales volume will increase between 3 percent and 10 percent, with continued stable pricing. The company expects to bring on some additional capacity this quarter, but it said that current customer demand exceeds Corning's ability to supply the market.

Wendell P. Weeks, president and chief operating officer, said that the consumer electronics industry has recently begun to reduce retail pricing on LCD monitors and LCD televisions. "We are now seeing some historically low prices for LCD

Edgar Filing: CORNING INC /NY - Form 8-K

monitors, which we believe in turn, will drive retail sales in the fourth quarter. It is our belief that the global LCD glass market volume will grow approximately 60 percent this year, and Corning's glass volume will grow 65 percent to 70 percent this year. It is important to note that the pace of growth is subject to normal business factors, including the level of inventory supply within the supply chain," Weeks said.

In the Telecommunications segment, the company anticipates that fourth-quarter fiber volumes will decline 10 percent to 20 percent, reflecting typical seasonal declines in North America and greater Europe, while volumes in China should be similar to the third quarter. Fourth-quarter pricing declines are expected to be less than 5 percent.

Presentation of Information in this News Release

Corning's earnings estimate for the fourth quarter is a non-GAAP financial measure as it excludes the impact of any potential gains or losses arising from previously announced restructuring actions; any potential gains or losses arising from debt repurchases or debt retirements; and any further adjustments to the asbestos settlement reserve required by movement in Corning's stock price. The company believes presenting earnings estimates that exclude these items is helpful in understanding Corning's operating results. This earnings estimate is reconciled on the company's website at www.corning.com/investor_relations and accompanies this news release.

About Corning Incorporated

Corning Incorporated (www.corning.com) is a diversified technology company that concentrates its efforts on high-impact growth opportunities. Corning combines its expertise in specialty glass, ceramic materials, polymers and the manipulation of the properties of light, with strong process and manufacturing capabilities to develop, engineer and commercialize significant innovative products for the telecommunications, flat panel display, environmental, life sciences and semiconductor industries.

Third-Quarter Conference Call Information

The company will host a third-quarter conference call at 8:30 a.m. EST on Thursday, Oct.21. To access the call, dial (517) 308-9004. The password is Earnings. The leader is Sofio. A replay of the call will begin at approximately 10:30 a.m. EST and will run through 5 p.m. EST, Thursday, Nov. 4. To listen, dial (203) 369-1765, no pass code is required. To listen to a live audio webcast of the call at 8:30 a.m. on Thursday, Oct.21, please go to Corning's Web site and follow the instructions: http://www.corning.com/investor_relations. The audio webcast will be archived for one year following the call.

Forward-Looking and Cautionary Statements

This news release contains forward-looking statements that involve a variety of business risks and other uncertainties that could cause actual results to differ materially. These risks and uncertainties include the possibility of changes or fluctuations in global economic and political conditions; tariffs, import duties and currency fluctuations; product demand and industry capacity; competitive products and pricing; manufacturing efficiencies; cost reductions; availability and costs of critical components and materials; new product development and commercialization; order activity and demand from major customers in the liquid crystal display industry and other businesses; capital spending by larger customers in the liquid crystal display industry and other businesses; changes in the mix of sales between premium and non-premium products; facility

Edgar Filing: CORNING INC /NY - Form 8-K

expansions and new plant start-up costs; possible disruption in commercial activities due to terrorist activity, armed conflict, political instability or major health concerns; ability to obtain financing and capital on commercially reasonable terms; adequacy and availability of insurance; capital resource and cash flow activities; capital spending; equity company activities; interest costs; acquisition and divestiture activities; the level of excess or obsolete inventory; the rate of technology change; the ability to enforce patents; product and components performance issues; changes in key personnel; stock price fluctuations; and adverse litigation or regulatory developments. These and other risk factors are identified in Corning's filings with the Securities and Exchange Commission. Forward-looking statements speak only as of the day that they are made, and Corning undertakes no obligation to update them in light of new information or future events.

- (1) Non-direct research, development and engineering expenses are allocated based upon direct project spending for each segment.
- (2) Interest expense is allocated to segments based on a percentage of segment net operating assets. Consolidated subsidiaries with independent capital structures do not receive additional allocations of interest expense.
- (3) Many of Corning's administrative and staff functions are performed on a

Edgar Filing: CORNING INC /NY - Form 8-K

centralized basis. Where practicable, Corning charges these expenses to segments based upon the extent to which each business uses a centralized function. Other staff functions, such as corporate finance, human resources and legal are allocated to segments primarily as a percentage of sales.

(4) (Loss) income before minority interests and equity (losses) earnings includes an allocation of depreciation of corporate property, plant and equipment not specifically identifiable to a segment. Related depreciable assets are not allocated to segment assets.

(5) Minority interests includes the following restructuring, impairment and other charges and (credits):

For the three and nine months ended September 30, 2004, gains from the sale of assets of Corning Asahi Video Products Company in excess of assumed salvage value of \$4 and \$17, respectively.

For the nine months ended September 30, 2003, charges of \$59 related to impairment of long-lived assets of Corning Asahi Video Products Company.

(6) Equity in (losses) earnings of associated companies, net of impairments includes the following charges related to impairments of equity investments in the Telecommunications segment:

\$35 million for the three and nine months ended September 30, 2004.

\$7 million for the nine months ended September 30, 2003.

CORNING INCORPORATED AND SUBSIDIARY COMPANIES SEGMENT RESULTS (Unaudited; in millions)

- non-reportable operating segments.
- (2) Non-segment loss and other includes the results of non-segment operations and other corporate activities.
 - (3) (Provision) benefit for income taxes includes taxes associated with non-segment restructuring, impairment and other charges and \$937 for the impact of establishing a valuation allowance against certain deferred tax assets in the third quarter of 2004.
 - (4) Equity in earnings of associated companies, net of impairments includes amounts derived from corporate investments, primarily Dow Corning Corporation.

CORNING INCORPORATED AND SUBSIDIARY COMPANIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Restructuring, Impairment and Other Charges and (Credits)

In the third quarter of 2004, we recorded net charges of \$1,794 million (\$1,798 million after-tax and minority interest) included in restructuring, impairment and other charges and (credits). A summary of the charges/(credits) follows:

- (a) Telecommunications segment charges totaling \$1,802 million included the following:

- . Goodwill - Pursuant to Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets," goodwill is required to be tested for impairment annually at the reporting unit level. The reporting unit for our Telecommunications segment goodwill is our Telecommunications operating segment. While our annual goodwill recoverability assessment is completed in the fourth quarter, it is the culmination of our annual strategic planning process that runs from June to October. Management performed an assessment in the third quarter of 2004 and reviewed the outcome with Corning's board of directors on October 6, 2004. The result of this strategic review is that we have lowered our estimates and projections for the long-term revenue growth of the Telecommunications segment.

Based on our updated estimates for the long-term growth of the Telecommunications segment, management concluded that the fair value of the Telecommunications segment was below its carrying amount. Accordingly, we recorded an impairment charge of \$1,420 million to reduce the carrying value of goodwill to its estimated fair value of approximately \$120 million.

- . Fixed Assets - As a result of the lowered long-term outlook for the Telecommunications segment discussed above, Corning recorded asset impairment charges of \$374 million in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." These charges primarily relate to the permanent abandonment of the unfinished phase II expansion of the Concord, North Carolina optical fiber plant. This portion of the facility was only partially completed before Corning mothballed the entire Concord plant in October 2002.

Edgar Filing: CORNING INC /NY - Form 8-K

- . Loss on sale of business - Corning completed the previously-announced sale of its frequency controls business for net proceeds of \$80 million and recorded a loss of \$14 million.
- . Other - Corning recorded net credits of \$6 million for adjustments to prior years' restructuring and impairment charges.

(b) In the third quarter of 2004, Corning completed the final sale of Corning Asahi Video Products Company assets to Henan Anyang CPT Glass Bulb Group, Xinyi Electronic Glass, Co., LTD, a Chinese corporation. In connection with this asset sale, Corning recorded a gain of \$8 million before minority interest.

2. Asbestos Settlement

On March 28, 2003, we announced that we had reached agreement with the representatives of asbestos claimants for the settlement of all current and future asbestos claims against us and Pittsburgh Corning Corporation ("PCC"), which might arise from PCC products or operations. Accordingly, we recorded a charge of \$298 million in the first quarter of 2003. The charge included the value of 25 million shares of Corning common stock that we will contribute as part of the settlement. Also at that time, we indicated that any changes in the value of our common stock contribution would be recognized in our quarterly results through the date of contribution to the settlement trust. As required, we recorded a mark-to-market credit of \$50 million in the third quarter of 2004 reflecting the decrease in Corning's common stock from June 30 to September 30, 2004. Beginning with the first quarter of 2003, we have recorded total net charges of \$429 million to reflect the initial settlement and to mark-to-market the value of our common stock. We will make our contributions to the settlement trust under the agreement after the plan is approved, becomes effective and is no longer subject to appeal.

3. Long-Term Debt

In the third quarter of 2004, we issued 6 million shares of common stock and paid \$4 million in cash in exchange for 57,500 of our 3.5% convertible debentures with a book value of \$58 million. In accordance with SFAS No. 84, "Induced Conversions of Convertible Debt," Corning recognized a charge of \$4 million reflecting the fair value of the incremental consideration given (i.e., the cash) beyond those required by the terms of the debentures.

4. Provision for Income Taxes

In the third quarter of 2004, we increased our tax expense by \$937 million as a result of the company's decision to establish a valuation allowance against a significant portion of its deferred tax assets, primarily in the U.S. We performed an assessment of positive and negative evidence regarding the realization of our net deferred tax assets as required by SFAS No. 109, "Accounting for Income Taxes" (SFAS 109). SFAS 109 requires that a valuation allowance be established when it is more likely than not that all or a portion of a deferred tax asset will not be realized. SFAS 109 further requires that "greater weight be given to previous cumulative losses than the outlook for future profitability when determining whether deferred tax assets can be used."

We have incurred significant losses in the U.S. due primarily to the restructuring and impairment charges and operating losses in our Telecommunications segment over the last four years. As a result of the third

Edgar Filing: CORNING INC /NY - Form 8-K

quarter impairment charges and the lowering of our long-term outlook for the Telecommunications segment, our largest U.S. business, we concluded that a valuation allowance against these tax assets is required until realization is more assured.

5. Equity Investments

In the third quarter of 2004, Corning recorded impairment charges of \$35 million to write-down certain Telecommunications segment equity-method investments to their estimated fair value. As a result of Corning's revised Telecommunications segment outlook, we determined that these investments were no longer strategic assets. Accordingly, we recorded a charge to fully impair the book values of our investments in these entities. These impairment charges are included in "equity in earnings of associated companies, net of impairments" in the statements of operations.

6. Discontinued Operation

In the third quarter of 2004, we reached a final settlement agreement with 3M Company for disbursement of funds held in escrow as part of our December 2002 sale of our precision lens business. Accordingly, we recognized a gain of \$20 million upon receipt of these proceeds. This gain is included in "income from discontinued operation" in the statements of operations.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURE TO GAAP FINANCIAL MEASURE
Nine Months Ended September 30, 2004
(Unaudited; amounts in millions, except per share amounts)

Corning's earnings excluding certain items for the third quarter is a non-GAAP financial measure within the meaning of Regulation G of the Securities and Exchange Commission. The company believes presenting earnings estimates that exclude these items is helpful in understanding Corning's operating results. This non-GAAP measure is not in accordance with and should not be considered an alternative of measurements required under generally accepted accounting principles (GAAP). A detailed reconciliation is provided below outlining the differences between this non-GAAP measure and the directly related GAAP measure.

- (a) Corning recorded charges of \$1.794 billion in the third quarter of 2004. The following charges are associated with its Telecommunications segment: \$1.420 billion to impair goodwill; \$374 million to impair certain fixed assets; and \$14 million for the completion of the sale of the frequency controls business. Also in the third quarter of 2004, Corning completed the final sale of Corning Asahi Video Products Company assets to Henan Anyang CPT Glass Bulb Group, Xinyi Electronic Glass, Co., LTD. and recorded a gain of \$8 million before minority interest. Lastly, Corning recorded net credits of \$6 million for adjustments to prior year restructuring and impairment charges.
- (b) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. This portion of the asbestos liability requires quarterly adjustment based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the third quarter of 2004, Corning recorded a credit of \$50 million for the change in its common stock price of \$11.08 at September 30, 2004 compared to \$13.06, the common stock price at June 30, 2004.
- (c) From time to time, Corning may repurchase or retire debt, which could result in a gain or loss during the quarter. In the third quarter of 2004, Corning retired certain amounts of its 3.5% convertible bonds due 2008, resulting in a loss of \$4 million.
- (d) In the third quarter of 2004, Corning increased income tax expense by \$937 million as a result of the company's previously-announced decision to provide a valuation allowance against a significant portion of its deferred tax assets.
- (e) This amount reflects charges for impairments of certain non-strategic equity method investments in Corning's Telecommunications segment.
- (f) This gain relates to the final settlement of the sale of Corning's precision lens business to 3M Company.

 This schedule will be updated as additional announcements occur.

- (a) As part of Corning's asbestos settlement arrangement to be incorporated into the Pittsburgh Corning Corporation reorganization plan, Corning will contribute, when the reorganization plan becomes effective, 25 million shares of Corning common stock to a trust. The common stock will be contributed to the trust, after the plan has been approved by the asbestos claimants and bankruptcy court. The portion of the asbestos liability to be settled in common stock requires adjustment each quarter based upon movements in Corning's common stock price prior to contribution of the shares to the trust. In the fourth quarter of 2004, Corning will record a charge or credit for the change in its common stock price as of December 31, 2004 compared to \$11.08, the common stock price at September 30, 2004.
- (b) From time to time, Corning may need to make adjustments to estimates used in the determination of prior year restructuring and impairment charges, which could result in a gain or loss during the quarter.
- (c) From time to time, Corning may repurchase or retire debt, which could

Edgar Filing: CORNING INC /NY - Form 8-K

result in a gain or loss during the quarter.

Please note that the company may pursue other financing, restructuring and divestiture activities at any time in the future, and that the potential impact of these events is not included within Corning's third quarter guidance.

This schedule contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements are based on current expectations and involve certain risks and uncertainties. Actual results may differ from those projected in the forward looking statements. Additional information concerning factors that could cause actual results to materially differ from those in the forward looking statements is contained in the Securities and Exchange Commission filings of this Company.
