Item 2.05. Costs Associated with Exit or Disposal Activities

As part of a continuing effort to increase manufacturing optimization and maintain world class manufacturing capabilities, on June 27, 2014 the Board of Directors of Franklin Electric Co., Inc. (the "Company") approved a plan to close its Wittlich, Germany manufacturing facility and transfer existing Wittlich manufacturing activity to its Brno, Czech Republic facility. Further, the Company will also complete other asset write-offs, miscellaneous realignments and fixed costs reductions in other European-based business units and facilities. The charges will begin in 2014 and are estimated to conclude by the end of 2016. On July 1, 2014, the Company issued a press release to announce this decision. A copy of the press release is attached as Exhibit 99.1.

The Company has estimated the pretax charge for these actions to be between \$13.2 million and \$14.0 million. The charges are projected to include severance, professional service fees, asset write-offs, and other facility costs. Approximately 90 percent of the total estimated charges are expected to be cash expenditures recognized as they are made.
