INFORMATION TO BE INCLUDED IN REPORT

Item 2.02. Results of Operations and Financial Condition

On January 25, 2016, registrant issued a press release entitled "Halliburton Announces Fourth Quarter Income From Continuing Operations of \$0.31 Per Diluted Share, Excluding Special Items."

The text of the Press Release is as follows:

**HALLIBURTON ANNOUNCES FOURTH QUARTER INCOME FROM CONTINUING OPERATIONS OF \$0.31 PER DILUTED SHARE, EXCLUDING SPECIAL ITEMS**

Reported loss from continuing operations of \$0.03 per diluted share

HOUSTON - January 25, 2016 - Halliburton Company (NYSE:HAL) announced today that income from continuing operations for the fourth quarter of 2015 was \$270 million, or \$0.31 per diluted share, excluding special items. This compares to income from continuing operations for the third quarter of 2015 of \$265 million, or \$0.31 per diluted share, excluding special items. Adjusted operating income was \$473 million in the fourth quarter of 2015, compared to adjusted operating income of \$506 million in the third quarter of 2015. Halliburton's total revenue in the fourth quarter of 2015 was \$5.1 billion, compared to \$5.6 billion in the third quarter of 2015.

As a result of the downturn in the energy market and its corresponding impact on the company's business outlook, Halliburton recorded company-wide charges related primarily to asset write-offs and severance costs of approximately \$192 million, after-tax, or \$0.22 per diluted share, in the fourth quarter of 2015, compared to \$257 million, after-tax, or \$0.30 per diluted share, in the third quarter of 2015. Halliburton recorded Baker Hughes acquisition-related costs of \$79 million, after-tax, or \$0.09 per diluted share, in the fourth quarter of 2015, compared to \$62 million, after-tax, or \$0.07 per diluted share, in the third quarter of 2015. Halliburton also incurred \$27 million, after-tax, or \$0.03 per diluted share, of interest expense associated with the \$7.5 billion debt issuance in the fourth quarter of 2015.

Reported loss from continuing operations was \$28 million, or \$0.03 per diluted share, in the fourth quarter of 2015, compared to reported loss from continuing operations of \$54 million, or \$0.06 per diluted share, in the third quarter of 2015. Reported operating income was \$86 million for the fourth quarter of 2015, compared to reported operating income of \$43 million for the third quarter of 2015.

Total revenue for the full year of 2015 was \$23.6 billion, a decrease of \$9.2 billion, or 28%, from 2014. Reported operating loss for 2015 was \$165 million, compared to reported operating income of \$5.1 billion for 2014. Both revenue and operating income declines resulted from the impact of reduced commodity prices creating widespread pricing pressure and activity reductions on a global basis. Adjusted income from continuing operations for 2015 was \$1.3 billion, or \$1.56 per diluted share, compared to adjusted income from continuing operations for 2014 of \$3.4 billion, or \$4.02 per diluted share. Reported loss from continuing operations for 2015 was \$666 million, or \$0.78 per diluted share, compared to reported income from continuing operations for 2014 of \$3.4 billion, or \$4.03 per diluted share.

---

“We are pleased with our fourth quarter and full-year results in this challenging environment, as once again we outperformed our peer group in North America and international revenue, both sequentially and on a full-year basis,” said Jeff Miller, President.

“Total company annual revenue of \$23.6 billion declined 28% year-over-year, outperforming a 35% decline in both the average worldwide rig count and global drilling and completions spend.

“Our international business was resilient during 2015. Annual revenue declined 16% from the prior year, outperforming our largest peer sequentially and on a full year basis for both revenue and margins. Despite pricing and activity headwinds, we were able to improve 2015 operating margins due to a focus on cost management. North America revenue declined 39% compared to 2014, as a result of unprecedented declines in activity, with the U.S. land rig count ending the year down 64% from the 2014 peak.

“Fourth quarter total company revenue of \$5.1 billion declined 9% sequentially, while adjusted operating income declined by 7% to \$473 million.

“For our international business, fourth quarter revenue and operating income declined sequentially by 5% and 10%, respectively, as a result of price concessions and activity declines. In addition, due to customer budget constraints, we did not see the typical benefit from year-end equipment and software sales.

“In the Middle East / Asia region, revenue declined by 5% sequentially, with a similar decline in operating income of 6%. Lower activity levels in Saudi Arabia and Iraq were partially offset by modestly higher sales in China and increased activity in Kuwait and Oman.

“In Europe/Africa/CIS, revenue declined 6% sequentially with a decrease in operating income of 18%. The decline was primarily driven by activity reductions in the North Sea, partially offset by increased activity levels in Angola and Algeria.

“Latin America revenue and operating income declined sequentially by 6% and 9%, respectively, driven by reduced activity across most of the region. Partially offsetting this decline was improved activity levels in Mexico.

“North America revenue declined 13% sequentially, led by reduced activity and pricing concessions in US Land. Operating margins improved by 160 basis points, driven by cost reduction efforts, and year-end completion tool sales in the Gulf of Mexico. Our margins continue to include an elevated cost structure in North America, in anticipation of the pending Baker Hughes acquisition.

---

“Our strategy remains unchanged. We are focused on maintaining a strong customer portfolio, investing in more efficient technology, and delivering reliable, best-in-class service quality for our customers. We are looking through this cycle, drawing upon our management’s deep experience and preparing the business for growth when the industry recovers,” said Miller.

“We remain fully committed to closing the pending acquisition of Baker Hughes. We are continuing our discussions with competition authorities, and recently offered an enhanced set of divestitures in an effort to resolve competition-related concerns as soon as possible. We are diligently focused on pending regulatory reviews, the divestiture process, and planning for integration activities after the closing of the deal,” added Dave Lesar, Chairman and CEO.

“2016 is expected to be another challenging year for the industry. We believe our customers will remain focused on cost per barrel optimization and gaining higher levels of efficiency, both of which bode very well for Halliburton. Ultimately, when this market recovers we believe North America will respond the quickest and offer the greatest upside, and that Halliburton will be positioned to outperform,” concluded Lesar.

#### Completion and Production

Completion and Production (C&P) revenue in the fourth quarter of 2015 was \$2.8 billion, a decrease of \$369 million, or 12%, from the third quarter of 2015, primarily driven by activity and pricing headwinds in all regions. Sequentially, North America revenue declined as a result of seasonal activity reductions for pressure pumping as well as customer budget constraints, partially offset by higher year-end sales in the Gulf of Mexico. Latin America revenue declined sequentially for all product lines due to lower activity in Argentina, Mexico, Brazil and Colombia. Sequentially, Europe/Africa/CIS revenue declined as a result of lower cementing activity in the North Sea, and Middle East/Asia revenue improved due to increased stimulation services in Kuwait and Australia, as well as higher production solutions activity across the region.

C&P operating income was \$144 million, which decreased \$19 million, or 12%, compared to the third quarter of 2015. Sequentially, North America C&P operating income increased \$15 million, or 31%, driven primarily by year-end sales in the Gulf of Mexico. Latin America C&P operating income decreased \$37 million, or 70%, from the third quarter of 2015, as a result of lower completion sales in Mexico and lower stimulation activity in Argentina and Mexico. Europe/Africa/CIS C&P operating income fell \$14 million, or 18%, sequentially, due to lower completion product sales and cementing services in the North Sea. Middle East/Asia C&P operating income improved by \$17 million, or 21%, compared to the third quarter of 2015, resulting from higher stimulation services in Kuwait and Australia and higher production solution activity throughout the region.

-more-

---

## Drilling and Evaluation

Drilling and Evaluation (D&E) revenue in the fourth quarter of 2015 was \$2.3 billion, a decrease of \$131 million, or 5%, from the third quarter of 2015, driven primarily by decreased drilling activity and logging services in the United States, Latin America, and Europe/Africa/CIS, along with reduced project management activity and drilling services in Middle East/Asia. This was partially offset by increased fluid services and software sales in Mexico.

D&E operating income was \$399 million, which was essentially flat compared to the third quarter of 2015. North America D&E operating income increased \$18 million, or 32%, sequentially, as a result of increased offshore activity and software sales in the United States. Latin America D&E operating income improved \$27 million, or 49%, sequentially, primarily from increased fluid services, software sales, and testing activity in Mexico. Europe/Africa/CIS D&E operating income declined \$13 million, or 18%, from the third quarter of 2015, mainly from reduced drilling services in Norway and Azerbaijan. Middle East/Asia D&E operating income fell \$34 million, or 16%, sequentially, due to reduced drilling services in Saudi Arabia and Papua New Guinea, which coupled with lower project management services in Iraq more than offset higher drilling sales in China.

## Corporate and Other

During the fourth quarter of 2015, Halliburton incurred \$79 million, after-tax, for costs related to the pending Baker Hughes acquisition. Halliburton also incurred \$27 million, after-tax, of interest expense associated with the \$7.5 billion debt offering, which was recorded in "Interest expense, net".

## Significant Recent Events and Achievements

Halliburton issued \$7.5 billion aggregate principal amount of senior notes in five tranches: \$1.25 billion of 5-year notes bearing interest at a fixed rate of 2.7% per year and maturing on November 15, 2020; \$1.25 billion of 7-year notes bearing interest at a fixed rate of 3.375% per year and maturing on November 15, 2022; \$2.0 billion of 10-year notes bearing interest at a fixed rate of 3.8% per year and maturing on November 15, 2025; \$1.0 billion of 20-year notes bearing interest at a fixed rate of 4.85% per year and maturing on November 15, 2035; and \$2.0 billion of 30-year notes bearing interest at a fixed rate of 5.0% per year and maturing on November 15, 2045. Halliburton intends to use the net proceeds of the offering for general corporate purposes, including financing a portion of the cash consideration component of Halliburton's pending acquisition of Baker Hughes.

Halliburton officially opened its Elmendorf South Texas Sand Plant with a ribbon-cutting ceremony. It is the largest Halliburton sand facility in the world and represents a \$36 million investment. The facility, with eight silos and a laboratory, is located at the Alamo Junction Rail Park in Elmendorf, near the company's South Texas Operations Center in southern Bexar County. It has the capability to offload 150 railcars and load 450-500 trucks daily.

Halliburton's Landmark business line and CGG, a global provider of fully integrated geoscience technology and services, announced a geosciences technology collaboration. The collaboration will allow shared customers to seamlessly access best-in-class interpretation and reservoir characterization technologies and geoscience data from both companies, using the industry's first E&P enterprise class platform - Landmark's DecisionSpace®. The technology collaboration will significantly enhance existing unconventional and 4D workflows by providing full interoperability of combined capabilities across the complete lifecycle of the reservoir. These next generation software suites will support improved prospect generation, well location and path definition, completion design, development planning and reservoir management.

Halliburton held its 22nd annual Halliburton Charity Golf Tournament and raised a record of more than \$3 million for 43 nonprofit organizations across the U.S., making it one of the largest non-PGA golf tournament fundraisers in Texas. The tournament surpassed the 2014 record of \$2.4 million, and has donated almost \$14 million to charities over its 22-year history.

#### About Halliburton

Founded in 1919, Halliburton is one of the world's largest providers of products and services to the energy industry. With approximately 65,000 employees, representing 140 nationalities in approximately 80 countries, the company serves the upstream oil and gas industry throughout the lifecycle of the reservoir - from locating hydrocarbons and managing geological data, to drilling and formation evaluation, well construction and completion, and optimizing production through the life of the field. Visit the company's website at [www.halliburton.com](http://www.halliburton.com). Connect with Halliburton on Facebook, Twitter, LinkedIn, Oilpro, and YouTube.

## Additional Information

This communication does not constitute an offer to buy or sell or the solicitation of an offer to buy or sell any securities or a solicitation of any vote or approval. This communication relates to a proposed business combination between Halliburton and Baker Hughes. In connection with this proposed business combination, Halliburton has filed with the Securities and Exchange Commission (the "SEC") a registration statement on Form S-4, including Amendments No. 1 and 2 thereto, and a definitive joint proxy statement/prospectus of Halliburton and Baker Hughes and other documents related to the proposed transaction. The registration statement was declared effective by the SEC on February 17, 2015 and the definitive proxy statement/prospectus has been mailed to stockholders of Halliburton and Baker Hughes. **INVESTORS AND SECURITY HOLDERS OF HALLIBURTON AND BAKER HUGHES ARE URGED TO READ THE JOINT PROXY STATEMENT/PROSPECTUS, REGISTRATION STATEMENT AND OTHER DOCUMENTS FILED OR THAT MAY BE FILED WITH THE SEC CAREFULLY AND IN THEIR ENTIRETY BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION.** Investors and security holders may obtain free copies of these documents and other documents filed with the SEC by Halliburton and/or Baker Hughes through the website maintained by the SEC at <http://www.sec.gov>. Copies of the documents filed with the SEC by Halliburton are available free of charge on Halliburton's internet website at <http://www.halliburton.com> or by contacting Halliburton's Investor Relations Department by email at [investors@Halliburton.com](mailto:investors@Halliburton.com) or by phone at +1-281-871-2688. Copies of the documents filed with the SEC by Baker Hughes are available free of charge on Baker Hughes' internet website at <http://www.bakerhughes.com> or by contacting Baker Hughes' Investor Relations Department by email at [alondra.oteyza@bakerhughes.com](mailto:alondra.oteyza@bakerhughes.com) or by phone at +1-713-439-8822.

## Participants in Solicitation

Halliburton, Baker Hughes, their respective directors and certain of their respective executive officers may be considered participants in the solicitation of proxies in connection with the proposed transaction. Information about the directors and executive officers of Halliburton is set forth in its Annual Report on Form 10-K for the year ended December 31, 2014, which was filed with the SEC on February 24, 2015, its proxy statement for its 2015 annual meeting of stockholders, which was filed with the SEC on April 7, 2015, and its Quarterly Report on Form 10-Q for the quarter ended September 30, 2015, which was filed with the SEC on October 23, 2015. Information about the directors and executive officers of Baker Hughes is set forth in its Annual Report on Form 10-K for the year ended December 31, 2014, which was filed with the SEC on February 26, 2015, its proxy statement for its 2015 annual meeting of stockholders, which was filed with the SEC on March 27, 2015, and its Quarterly Report on Form 10-Q for the quarter ended September 30, 2015, which was filed with the SEC on October 21, 2015. These documents can be obtained free of charge from the sources indicated above. Additional information regarding the participants in the proxy solicitations and a description of their direct and indirect interests, by security holdings or otherwise, are contained in the proxy statement/prospectus and other relevant materials filed with the SEC.

Impairments and other charges	(2,177)	(129)
Baker Hughes acquisition-related costs	(308)	(17)
Total operating income (loss)	\$(165)	\$5,097

See Footnote Table 2 for Reconciliation of As Reported Operating Income (Loss) to Adjusted Operating Income.

---

## FOOTNOTE TABLE 1

## HALLIBURTON COMPANY

## Reconciliation of As Reported Operating Income to Adjusted Operating Income

(Millions of dollars)

(Unaudited)

	Three Months Ended		
	December 31, 2015	December 31, 2014	September 30, 2015
As reported operating income	\$86	\$1,299	\$43
Impairments and other charges:			
Fixed asset impairments	112	47	154
Inventory write-downs	74	24	64
Severance costs	45	28	96
Intangible asset impairments	3	10	37
Other	48	20	30
Total Impairments and other charges	282	129	381
Baker Hughes acquisition-related costs	105	17	82
Adjusted operating income (a)	\$473	\$1,445	\$506

Management believes that operating income adjusted for impairments and other charges and Baker Hughes acquisition-related costs for the quarters ended December 31, 2015, September 30, 2015, and December 31, 2014 is useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the company's

- (a) normal operating results. Management analyzes operating income without the impact of these items as an indicator of performance, to identify underlying trends in the business, and to establish operational goals. The adjustments remove the effects of these items. Adjusted operating income is calculated as: "As reported operating income" plus "Total Impairments and other charges" and "Baker Hughes acquisition-related costs" for the quarters ended December 31, 2015, September 30, 2015, and December 31, 2014.

## FOOTNOTE TABLE 2

## HALLIBURTON COMPANY

## Reconciliation of As Reported Operating Income (Loss) to Adjusted Operating Income

(Millions of dollars)

(Unaudited)

	Year Ended December 31		
	2015	2014	
As reported operating income (loss)	\$(165	)\$5,097	
Impairments and other charges:			
Fixed asset impairments	760	47	
Inventory write-downs	484	24	
Severance costs	352	28	
Intangible asset impairments	212	10	
Country closures	80	—	
Other	289	20	
Total Impairments and other charges	\$2,177	\$129	
Baker Hughes acquisition-related costs	308	17	
Macondo-related activity	—	(195	)
Adjusted operating income (a)	\$2,320	\$5,048	

Management believes that operating income (loss) adjusted for impairments and other charges and Baker Hughes acquisition-related costs for the years ended December 31, 2015 and December 31, 2014, and Macondo-related activity for the year ended December 31, 2014, is useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the company's normal operating results. Management analyzes operating income

- (a) without the impact of these items as an indicator of performance, to identify underlying trends in the business, and to establish operational goals. The adjustments remove the effects of these items. Adjusted operating income is calculated as: "As reported operating income (loss)" plus "Total Impairments and other charges" and "Baker Hughes acquisition-related costs" for the year ended December 31, 2015, and "As reported operating income (loss)" plus "Total Impairments and other charges", "Baker Hughes acquisition-related costs", and "Macondo-related activity" for the year ended December 31, 2014.

## FOOTNOTE TABLE 3

## HALLIBURTON COMPANY

## Reconciliation of As Reported (Loss) from Continuing Operations to

## Adjusted Income from Continuing Operations

(Millions of dollars and shares except per share data)

(Unaudited)

	Three Months Ended	
	December 31, 2015	September 30, 2015
As reported (loss) from continuing operations attributable to company	\$(28	)(54 )
Impairments and other charges, net of tax (a)	192	257
Baker Hughes acquisition-related costs, net of tax (a)	79	62
Interest expense for acquisition, net of tax (a)	27	—
Adjusted income from continuing operations attributable to company (a)	\$270	\$265
As reported diluted weighted average common shares outstanding (b)	856	855
Adjusted diluted weighted average common shares outstanding (b)	858	857
As reported (loss) from continuing operations per diluted share (c)	\$(0.03	)(0.06 )
Adjusted income from continuing operations per diluted share (c)	\$0.31	\$0.31

- Management believes that (loss) from continuing operations adjusted for impairments and other charges, Baker Hughes acquisition-related costs, and interest expense associated with the acquisition is useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the company's normal operating results. Management analyzes income (loss) from
- (a) continuing operations without the impact of these items as an indicator of performance, to identify underlying trends in the business, and to establish operational goals. The adjustments remove the effects of these items. Adjusted income from continuing operations attributable to company is calculated as: "As reported (loss) from continuing operations attributable to company" plus "Impairments and other charges, net of tax", "Baker Hughes acquisition-related costs, net of tax", and "Interest expense for acquisition, net of tax".
- As reported diluted weighted average common shares outstanding for the three months ended December 31, 2015 and September 30, 2015 both exclude options to purchase two million shares of common stock as their impact
- (b) would be antidilutive since our reported income from continuing operations attributable to company was in a loss position during the periods. When adjusting income from continuing operations attributable to company in each period for the special items discussed above, these two million shares become dilutive.
- As reported (loss) from continuing operations per diluted share is calculated as: "As reported (loss) from continuing operations attributable to company" divided by "As reported diluted weighted average common shares
- (c) outstanding."
- Adjusted income from continuing operations per diluted share is calculated as: "Adjusted income from continuing operations attributable to company" divided by "Adjusted diluted weighted average common shares outstanding."

## FOOTNOTE TABLE 4

## HALLIBURTON COMPANY

## Reconciliation of As Reported Income (Loss) from Continuing Operations to

## Adjusted Income from Continuing Operations

(Millions of dollars and shares except per share data)

(Unaudited)

	Year Ended December 31	
	2015	2014
As reported income (loss) from continuing operations attributable to company	\$(666	)\$3,436
Impairments and other charges, net of tax (a)	1,529	90
Baker Hughes acquisition-related costs, net of tax (a)	243	17
Venezuela currency devaluation loss (a)	199	—
Interest expense for acquisition, net of tax (a)	27	—
Macondo-related activity, net of tax (a)	—	(124
Bridge loan expense for acquisition, net of tax (a)	—	2
Adjusted income from continuing operations attributable to company (a)	\$ 1,332	\$3,421
As reported diluted weighted average common shares outstanding (b)	853	852
Adjusted diluted weighted average common shares outstanding (b)	855	852
As reported income (loss) from continuing operations per diluted share (c)	\$(0.78	)\$4.03
Adjusted income from continuing operations per diluted share (c)	\$ 1.56	\$4.02

Management believes that income (loss) from continuing operations adjusted for impairments and other charges, Baker Hughes acquisition-related costs, Venezuela currency devaluation loss, interest and bridge loan expenses associated with the acquisition, and Macondo-related activity is useful to investors to assess and understand operating performance, especially when comparing those results with previous and subsequent periods or forecasting performance for future periods, primarily because management views the excluded items to be outside of the company's normal operating results. Management analyzes income (loss) from continuing operations without the impact of these items as an indicator of performance, to identify underlying trends in the business, and

(a) to establish operational goals. The adjustments remove the effects of these items. Adjusted income from continuing operations attributable to company is calculated as: "As reported income (loss) from continuing operations attributable to company" plus "Impairments and other charges, net of tax", "Baker Hughes acquisition-related costs, net of tax", "Venezuela currency devaluation loss", and "Interest expense for acquisition, net of tax" for the year ended December 31, 2015, and "As reported income (loss) from continuing operations attributable to company" plus "Impairments and other charges, net of tax", "Baker Hughes acquisition-related costs, net of tax", "Macondo-related activity, net of tax", and "Bridge loan expense for acquisition, net of tax" for the year ended December 31, 2014.

As reported diluted weighted average common shares outstanding for the year ended December 31, 2015 excludes options to purchase two million shares of common stock as their impact would be antidilutive since our reported income from continuing operations attributable to company was in a loss position during the period. When adjusting income from continuing operations attributable to company in the period for the special items discussed above, these two million shares become dilutive.

(c) As reported income (loss) from continuing operations per diluted share is calculated as: "As reported income (loss) from continuing operations attributable to company" divided by "As reported diluted weighted average common shares outstanding."

Adjusted income from continuing operations per diluted share is calculated as: "Adjusted income from continuing operations attributable to company" divided by "Adjusted diluted weighted average common shares outstanding."
