HARSCO CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

Harsco Corporation (the "Company") has prepared these unaudited condensed consolidated financial statements based on Securities and Exchange Commission rules that permit reduced disclosure for interim periods. In the opinion of management, all adjustments (all of which are of a normal recurring nature) that are necessary for a fair presentation are reflected in the unaudited condensed consolidated financial statements. The December 31, 2013 Condensed Consolidated Balance Sheet information contained in this Quarterly Report on Form 10-Q was derived from the 2013 audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for an annual report. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Operating results and cash flows for the three months ended March 31, 2014 are not indicative of the results that may be expected for the year ending December 31, 2014.

2. Recently Adopted and Recently Issued Accounting Standards

The following accounting standards have been adopted in 2014:

On January 1, 2014, the Company adopted Financial Accounting Standards Board ("FASB") issued changes related to a parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. The changes resolve diversity in practice related to these matters. The adoption of these changes did not have a material impact on the Company's consolidated financial statements.

On January 1, 2014, the Company adopted FASB issued changes related to financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists that could be used to offset the liability for an uncertain tax position. The changes resolve diversity in practice related to these matters. The adoption of these changes did not have a material impact on the Company's consolidated financial statements.

Additional accounting standards which have been issued and become effective for the Company at various future dates are not expected to have a material impact on the Company's consolidated financial statements.

3. Acquisitions and Dispositions

Acquisitions

In January 2014, the Company acquired Hammco Corporation ("Hammco"), a U.S. manufacturer of high specification air-cooled heat exchangers for the natural gas and petrochemical processing markets. Hammco has been included in the results of the Harsco Industrial Segment. Inclusion of pro forma financial information for this transaction is not necessary due to the immaterial size of the acquisition.

Dispositions

In November 2013, the Company consummated the previously announced transaction to sell the Company's Harsco Infrastructure Segment into a strategic venture with Clayton, Dubilier & Rice ("CD&R") as part of a transaction that combines the Harsco Infrastructure Segment with Brand Energy & Infrastructure Services, Inc., which CD&R simultaneously acquired (the "Infrastructure transaction"). The Company has contributed substantially all of the Company's equity interest in, and the net assets of, the Harsco Infrastructure Segment to the strategic venture in exchange for \$300 million, subject to working capital and other adjustments, and an approximate 29% equity interest in the resulting entity (the "Infrastructure strategic venture" or "Brand"). The Company's equity interest in the Infrastructure strategic venture is accounted for under the equity method of accounting as prescribed by U.S. GAAP.

See Note 5, Equity Method Investments, for additional information on equity method investments.

8

---

Table of Contents

As a result of the Infrastructure transaction, the Company recorded an estimated loss on disposal of the Harsco Infrastructure Segment of \$271.3 million during 2013 and recorded an additional loss of \$0.7 million during the first quarter of 2014. Further adjustments to the loss on disposal of the Harsco Infrastructure Segment may be necessary and the final loss may differ, possibly materially, as a result of any adjustments made to the valuation of certain items set forth on the closing statement prepared by Brand in connection with the Infrastructure transaction, which has been reviewed by the Company and requires final agreement between Brand and the Company. See Note 1, Summary of Significant Accounting Policies, and Note 3, Acquisitions and Dispositions, to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for additional information on the Company's policy on impairment of long-lived assets (other than goodwill) and the loss on disposal of the Harsco Infrastructure Segment.

Additionally, the Company incurred \$1.4 million of transaction costs during the three months ended March 31, 2014 in conjunction with the Infrastructure transaction.

#### 4. Accounts Receivable and Inventories

Accounts receivable consist of the following:

(In thousands)	March 31 2014	December 31 2013
Trade accounts receivable	\$406,267	\$359,819
Less: Allowance for doubtful accounts	(6,566)	(6,638)
Trade accounts receivable, net	\$399,701	\$353,181

Other receivables (a) \$52,078 \$46,470  
(a) Other receivables include insurance claim receivables, employee receivables, tax claim receivables and other miscellaneous receivables not included in Trade accounts receivable, net.

The provision for doubtful accounts related to trade accounts receivable was as follows:

(In thousands)	Three Months Ended March 31	
	2014	2013
Provision for doubtful accounts related to trade accounts receivable	\$(19)	\$2,217

Inventories consist of the following:

(In thousands)	March 31 2014	December 31 2013
Finished goods	\$22,234	\$23,112
Work-in-process	31,044	25,623
Raw materials and purchased parts	82,627	72,118
Stores and supplies	30,873	34,836
Inventories	\$166,778	\$155,689

#### 5. Equity Method Investments

As a result of the Infrastructure transaction, the Company now possesses an approximate 29% equity interest in Brand at March 31, 2014. See Note 3, Acquisitions and Dispositions, for additional information related to the Infrastructure transaction.

Brand is a leading provider of specialized services to the global energy, industrial and infrastructure markets that combines a global footprint, broad service offerings and rigorous operating processes to support customer required

facility maintenance and turnaround needs and capital driven upgrade and expansion plans. Brand's range of services includes work access, corrosion management, atmospheric and immersion coatings, insulation services, fireproofing and refractory, mechanical services, forming and shoring and other complementary specialty services. Brand delivers services through a global network of strategically located branches in six continents with a particular focus on major hydrocarbon and power generation markets globally. In addition, Brand has co-located branches at energy-related customer facilities providing a consistent presence for required maintenance work.

Table of Contents

The book value of the Company's investment in Brand at March 31, 2014 was \$298.3 million. The Company records the Company's proportionate share of Brand's net income or loss one quarter in arrears. Brand's results of operations for the period ended December 31, 2013 are summarized as follows:

(In thousands)	December 31 2013
Summarized Balance Sheet Information of Brand:	
Current assets	\$728,131
Property and equipment , net	886,305
Other noncurrent assets	1,743,965
Total assets	\$3,358,401
Short-term borrowings, including current portion of long-term debt	\$13,829
Other current liabilities	386,908
Long-term debt	1,756,757
Other noncurrent liabilities	415,840
Total liabilities	2,573,334
Equity	785,067
Total liabilities and equity	\$3,358,401
	Period From November 27, 2013 Through December 31, 2013
Summarized Statement of Operations Information of Brand:	
Net revenues	\$236,094
Gross profit	48,832
Net loss	(4,245 )
Harsco's equity in income of Brand (a)	(1,231 )

(a) The Company's equity method investment in Brand began on November 26, 2013 and accordingly there is only approximately one month of related equity loss. The results of the Harsco Infrastructure Segment from January 1, 2013 through the date of closing are reported in the Company's results of operations for 2013.

As part of the Infrastructure transaction, the Company is required to make a quarterly payment to the Company's partner in the Infrastructure strategic venture, either (at the Company's election) (i) in cash, with total payments to equal approximately \$22 million per year on a pre-tax basis (approximately \$15 million per year after-tax), or (ii) in kind through the transfer of approximately 2.5% of the Company's ownership interest in the Infrastructure strategic venture on an annual basis (the "unit adjustment liability"). The resulting liability is reflected in the caption, Unit adjustment liability, on the Company's Condensed Consolidated Balance Sheets. The Company will recognize the change in fair value to unit adjustment liability each period until the Company is no longer required to make these payments or chooses not to make these payments. The change in fair value to unit adjustment liability is a non-cash expense. For the three months ended March 31, 2014, the Company recognized \$2.5 million of change in fair value to unit adjustment liability.

The Company's obligation to make a quarterly payment will cease upon the earlier of (i) Brand achieving \$479.0 million in last twelve months' earnings before interest, taxes, depreciation and amortization for three quarters, which need not be consecutive, or (ii) eight years after the closing of the Infrastructure transaction. In addition, upon the initial public offering of Brand, the Company's quarterly payment obligation will decrease by the portion of CD&R's

ownership interest sold or eliminated completely once CD&R's ownership interest in Brand falls below 20%. In the event of a liquidation of Brand, CD&R is entitled to a liquidation preference of approximately \$336 million, plus any quarterly payments that had been paid in kind.

The Condensed Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013 include balances related to the unit adjustment liability of \$103.3 million and \$106.3 million, respectively in the current and non-current captions, Unit adjustment liability.

The Company intends to make these quarterly payments in cash and will continue to evaluate the implications of making payments in cash or in kind based upon performance of the Infrastructure strategic venture. In the future, should the Company decide not to make the cash payment, the value of both the equity method investment in Brand and the related unit adjustment liability may be impacted, and the change may be reflected in earnings in that period.

Table of Contents

Balances related to transactions between the Company and Brand are as follows:

(In thousands)	March 31 2014	December 31 2013
Balances due from Brand	\$22,925	\$85,908
Balances due to Brand	43,009	149,325

These balances between the Company and Brand relate primarily to the finalization of the Infrastructure transaction, including transition services and the funding of certain transferred defined benefit pension plan obligations through 2018. There is not expected to be any significant level of revenue or expense between the Company and Brand on an ongoing basis once all aspects of the Infrastructure transaction have been finalized.

No instances of impairment were noted on the Company's equity method investments for the three months ended March 31, 2014.

#### 6. Property, Plant and Equipment

Property, plant and equipment consists of the following:

(In thousands)	March 31 2014	December 31 2013
Land	\$16,431	\$16,652
Land improvements	13,758	13,615
Buildings and improvements	213,409	192,346
Machinery and equipment	1,996,779	1,969,493
Uncompleted construction	76,587	86,508
Gross property, plant and equipment	2,316,964	2,278,614
Less: Accumulated depreciation	(1,593,945)	(1,567,268)
Property, plant and equipment, net	\$723,019	\$711,346

#### 7. Goodwill and Other Intangible Assets

The following table reflects the changes in carrying amounts of goodwill by segment for the three months ended March 31, 2014:

(In thousands)	Harsco Metals & Minerals Segment	Harsco Industrial Segment	Harsco Rail Segment	Consolidated Totals
Balance at December 31, 2013	\$421,955	\$—	\$9,310	\$431,265
Changes to goodwill (a)	—	7,949	—	7,949
Foreign currency translation	(367)	—	—	(367)
Balance at March 31, 2014	\$421,588	\$7,949	\$9,310	\$438,847

(a) Changes to goodwill relate to the acquisition of Hammco. See Note 3, Acquisitions and Dispositions.

The Company tests for goodwill impairment annually or more frequently if indicators of impairment exist or if a decision is made to dispose of a business. The Company performs its annual goodwill impairment test as of October 1 and monitors for triggering events on an ongoing basis. The Company determined that as of March 31, 2014, no interim goodwill impairment testing was necessary. There can be no assurance that the Company's annual goodwill impairment testing will not result in a charge to earnings. Any impairment could result in the write-down of the carrying value of goodwill to its implied fair value.

Table of Contents

Intangible assets consist of the following:

(In thousands)	March 31, 2014		December 31, 2013	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer related	\$163,901	\$112,318	\$150,307	\$110,889
Non-compete agreements	1,126	1,032	1,126	1,024
Patents	6,237	5,344	6,211	5,273
Technology related	26,957	19,469	27,185	18,931
Trade names	7,667	3,159	4,113	2,969
Other	7,629	4,356	7,753	4,348
Total	\$213,517	\$145,678	\$196,695	\$143,434

Amortization expense for intangible assets was as follows:

(In thousands)	Three Months Ended	
	March 31 2014	March 31 2013
Amortization expense for intangible assets	\$2,553	\$3,948

The estimated amortization expense for the next five fiscal years based on current intangible assets is as follows:

(In thousands)	2014	2015	2016	2017	2018
Estimated amortization expense	\$10,000	\$8,500	\$8,000	\$5,000	\$4,750

(a) These estimated amortization expense amounts do not reflect the potential effect of future foreign currency exchange fluctuations.

## 8. Employee Benefit Plans

Defined Benefit Net Periodic Pension Cost (In thousands)	Three Months Ended			
	March 31		March 31	
	U. S. Plans		International Plans	
	2014	2013	2014	2013
Defined benefit plans:				
Service cost	\$558	\$641	\$407	\$909
Interest cost	3,217	2,941	10,912	10,781
Expected return on plan assets	(4,196)	) (3,909)	) (12,588)	) (11,819)
Recognized prior service costs	22	35	46	92
Recognized loss	838	1,263	3,553	4,150
Defined benefit plans net periodic pension cost	\$439	\$971	\$2,330	\$4,113

Company Contributions (In thousands)	Three Months Ended	
	March 31 2014	March 31 2013
Defined benefit pension plans:		
United States	\$566	\$483
International	17,421	17,559
Multiemployer pension plans	701	2,816
Defined contribution pension plans	4,069	4,828

The Company currently anticipates contributing an additional \$9.2 million and \$13.3 million for the U.S. and international defined benefit pension plans, respectively, during the remainder of 2014.

## Table of Contents

### 9. Income Taxes

The effective income tax rate related to continuing operations for the three months ended March 31, 2014 was 24.1% compared with 34.4% for the three months ended March 31, 2013. The effective income tax rate related to continuing operations and income tax expense from continuing operations decreased primarily due to changes in the jurisdictional mix of income. In particular, losses generated in certain jurisdictions where no tax benefit can be recognized declined, partially offset by the elimination of temporary 2013 tax benefits not legislatively renewed in 2014.

An income tax benefit from an uncertain tax position may be recognized when it is more-likely-than-not that the position will be sustained upon examination, based on technical merits, including resolutions of any related appeals or litigation processes. The unrecognized income tax benefit at March 31, 2014 was \$20.1 million, including interest and penalties. Within the next twelve months, it is reasonably possible that up to \$1.3 million of unrecognized income tax benefits will be recognized upon settlement of tax examinations and the expiration of various statutes of limitations.

The Company was contacted by the U.S. Internal Revenue Service to audit the Company's 2010 income tax return. The U.S. Internal Revenue Service commenced its audit during the second quarter of 2013.

### 10. Commitments and Contingencies

#### Environmental

The Company is involved in a number of environmental remediation investigations and cleanups and, along with other companies, has been identified as a "potentially responsible party" for certain waste disposal sites. While each of these matters is subject to various uncertainties, it is probable that the Company will agree to make payments toward funding certain of these activities and it is possible that some of these matters will be decided unfavorably to the Company. The Company has evaluated its potential liability, and its financial exposure is dependent upon such factors as the continuing evolution of environmental laws and regulatory requirements, the availability and application of technology, the allocation of cost among potentially responsible parties, the years of remedial activity required and the remediation methods selected. The Condensed Consolidated Balance Sheets as of March 31, 2014 and December 31, 2013 include accruals in Other current liabilities of \$1.3 million and \$1.2 million, respectively, for environmental matters. The amounts charged against pre-tax income related to environmental matters totaled \$0.7 million and \$0.3 million for the three months ended March 31, 2014 and 2013, respectively.

The Company evaluates its liability for future environmental remediation costs on a quarterly basis. Although actual costs to be incurred at identified sites in future periods may vary from the estimates (given inherent uncertainties in evaluating environmental exposures), the Company does not expect that any costs that are reasonably possible to be incurred by the Company in connection with environmental matters in excess of the amounts accrued would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

#### Brazilian Tax Disputes

The Company is involved in a number of tax disputes with federal, state and municipal tax authorities in Brazil. These disputes are at various stages of the legal process, including the administrative review phase and the collection action phase, and include assessments of fixed amounts of principal and penalties, plus interest charges that increase at statutorily determined amounts per month and are assessed on the aggregate amount of the principal and penalties. In addition, the losing party at the collection action or court of appeals phase could be subject to a charge to cover statutorily mandated legal fees, which are generally calculated as a percentage of the total assessed amounts due, inclusive of penalty and interest. A large number of the claims relate to value-added ("ICMS") services and social security ("INSS") tax disputes. The largest proportion of the assessed amounts relate to ICMS claims filed by the State Revenue Authorities from the State of São Paulo, Brazil (the "SPRA"), encompassing the period from January 2002 to May 2005.

In October 2009, the Company received notification of the SPRA's final administrative decision regarding the levying of ICMS in the State of São Paulo in relation to services provided to a customer in the State between January 2004 and May 2005. As of March 31, 2014, the principal amount of the tax assessment from the SPRA with regard to this case was approximately \$3 million, with penalty, interest and fees assessed to date increasing such amount by an additional \$28 million. Any change in the aggregate amount since the Company's Annual Report on Form 10-K for the year ended December 31, 2013 reflects an increase in assessed interest and statutorily mandated legal fees for the period and includes the effect of foreign currency translation.

Table of Contents

Another ICMS tax case involving the SPRA refers to the tax period from January 2002 to December 2003. This case is still pending at the administrative phase, where the aggregate amount assessed by the tax authorities in August 2005 was approximately \$11 million (the amounts with regard to this claim are valued as of the date of the assessment since it has not yet reached the collection phase), composed of a principal amount of \$2.5 million, with penalty and interest assessed through that date increasing such amount by an additional \$8.5 million. All such amounts include the effect of foreign currency translation.

The Company continues to believe it is not probable that it will incur a loss for these assessments by the SPRA. The Company also continues to believe that sufficient coverage for these claims exists as a result of the Company's customer's indemnification obligations and such customer's pledge of assets in connection with the October 2009 notice, as required by Brazilian procedure.

The Company intends to continue its practice of vigorously defending itself against these tax claims under various alternatives, including judicial appeal. The Company will continue to evaluate its potential liability with regard to these claims on a quarterly basis; however, it is not possible to predict the ultimate outcome of these tax-related disputes in Brazil. No loss provision has been recorded in the Company's consolidated financial statements because the loss contingency is not deemed probable, and the Company does not expect that any costs that are reasonably possible to be incurred by the Company in connection with Brazilian tax disputes would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Other

In the United States, the Company has been named as one of many defendants (approximately 90 or more in most cases) in legal actions alleging personal injury from exposure to airborne asbestos over the past several decades. In their suits, the plaintiffs have named as defendants, among others, many manufacturers, distributors and installers of numerous types of equipment or products that allegedly contained asbestos.

The Company believes that the claims against it are without merit. The Company has never been a producer, manufacturer or processor of asbestos fibers. Any component within a Company product that may have contained asbestos would have been purchased from a supplier. Based on scientific and medical evidence, the Company believes that any asbestos exposure arising from normal use of any Company product never presented any harmful levels of airborne asbestos exposure, and, moreover, the type of asbestos contained in any component that was used in those products was protectively encapsulated in other materials and is not associated with the types of injuries alleged in the pending suits. Finally, in most of the depositions taken of plaintiffs to date in the litigation against the Company, plaintiffs have failed to specifically identify any Company products as the source of their asbestos exposure.

The majority of the asbestos complaints pending against the Company have been filed in New York. Almost all of the New York complaints contain a standard claim for damages of \$20 million or \$25 million against the approximately 90 defendants, regardless of the individual plaintiff's alleged medical condition, and without specifically identifying any Company product as the source of plaintiff's asbestos exposure.

As of March 31, 2014, there are 17,515 pending asbestos personal injury claims filed against the Company. Of these cases, 17,129 are pending in the New York Supreme Court for New York County in New York State. The other claims, totaling 386, are filed in various counties in a number of state courts, and in certain Federal District Courts (including New York), and those complaints generally assert lesser amounts of damages than the New York State court cases or do not state any amount claimed.

As of March 31, 2014, the Company has obtained dismissal by stipulation, or summary judgment prior to trial, in 27,307 cases.

In view of the persistence of asbestos litigation nationwide, the Company expects to continue to receive additional claims. However, there have been developments during the past several years, both by certain state legislatures and by certain state courts, which could favorably affect the Company's ability to defend these asbestos claims in those jurisdictions. These developments include procedural changes, docketing changes, proof of damage requirements and other changes that require plaintiffs to follow specific procedures in bringing their claims and to show proof of damages before they can proceed with their claim. An example is the action taken by the New York Supreme Court (a trial court), which is responsible for managing all asbestos cases pending within New York County in the State of

New York. This Court issued an order in December 2002 that created a Deferred or Inactive Docket for all pending and future asbestos claims filed by plaintiffs who cannot demonstrate that they have a malignant condition or discernible physical impairment, and an Active or In Extremis Docket for plaintiffs who are able to show such medical condition. As a result of this order, the majority of the asbestos cases filed against the Company in New York County have been moved to the Inactive Docket until such time as the plaintiffs can show that they have incurred a physical impairment. As of March 31, 2014, the Company has been listed as a defendant in 218 Active or In Extremis asbestos cases in New York County. The Court's Order has been challenged by some plaintiffs.

Table of Contents

Except with regard to the legal costs in a few limited, exceptional cases, the Company's insurance carrier has paid all legal and settlement costs and expenses to date related to the Company's U.S. asbestos cases. The Company has liability insurance coverage under various primary and excess policies that the Company believes will be available, if necessary, to substantially cover any liability that might ultimately be incurred on these claims.

The Company intends to continue its practice of vigorously defending these claims and cases. It is not possible to predict the ultimate outcome of asbestos-related lawsuits, claims and proceedings due to the unpredictable nature of personal injury litigation, and no loss provision has been recorded in the Company's consolidated financial statements because a loss contingency is not deemed probable or estimable. Despite this uncertainty, and although results of operations and cash flows for a given period could be adversely affected by asbestos-related lawsuits, claims and proceedings, the Company does not expect that any costs that are reasonably possible to be incurred by the Company in connection with asbestos litigation would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

The Company is subject to various other claims and legal proceedings covering a wide range of matters that arose in the ordinary course of business. In the opinion of management, all such matters are adequately covered by insurance or by established reserves, and, if not so covered, are without merit or are of such kind, or involve such amounts, as would not have a material adverse effect on the financial position, results of operations or cash flows of the Company. Insurance liabilities are recorded when it is probable that a liability has been incurred for a particular event and the amount of loss associated with the event can be reasonably estimated. Insurance reserves have been estimated based primarily upon actuarial calculations and reflect the undiscounted estimated liabilities for ultimate losses, including claims incurred but not reported. Inherent in these estimates are assumptions that are based on the Company's history of claims and losses, a detailed analysis of existing claims with respect to potential value, and current legal and legislative trends. If actual claims differ from those projected by management, changes (either increases or decreases) to insurance reserves may be required and would be recorded through income in the period the change was determined. When a recognized liability is covered by third-party insurance, the Company records an insurance claim receivable to reflect the covered liability. Insurance claim receivables are included in Other receivables on the Company's Condensed Consolidated Balance Sheets. See Note 1, Summary of Significant Accounting Policies, to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for additional information on Accrued Insurance and Loss Reserves.

## 11. Reconciliation of Basic and Diluted Shares

	Three Months Ended March 31	
(In thousands, except per share amounts)	2014	2013
Income from continuing operations attributable to Harsco Corporation common stockholders	\$11,542	\$7,642
Weighted-average shares outstanding - basic	80,816	80,706
Dilutive effect of stock-based compensation	206	224
Weighted-average shares outstanding - diluted	81,022	80,930
Earnings from continuing operations per common share, attributable to Harsco Corporation common stockholders:		
Basic	\$0.14	\$0.09
Diluted	\$0.14	\$0.09

The following average outstanding stock-based compensation units were not included in the three months ended computation of diluted earnings per share because the effect was antidilutive:

## 12. Derivative Instruments, Hedging Activities and Fair Value

## Derivative Instruments and Hedging Activities

The Company uses derivative instruments, including foreign currency forward exchange contracts, cross-currency interest rate swaps and, at times, commodity contracts, to manage certain foreign currency, interest rate and commodity price exposures. Derivative instruments are viewed as risk management tools by the Company and are not used for trading or speculative purposes.

All derivative instruments are recorded on the Condensed Consolidated Balance Sheets at fair value. Changes in the fair value of derivatives used to hedge foreign currency denominated balance sheet items are reported directly in earnings, along with offsetting transaction gains and losses on the items being hedged. Derivatives used to hedge forecasted cash flows associated with foreign currency commitments or forecasted commodity purchases may be accounted for as cash flow hedges, as deemed appropriate and if the criteria for hedge accounting are met. Gains and losses on derivatives designated as cash flow hedges are deferred as a separate component of equity and reclassified to earnings in a manner that matches the timing of the earnings impact of the hedged transactions. Generally, at March 31, 2014, these deferred gains and losses are reclassified to earnings over 10 to 15 years from the balance sheet date. The ineffective portion of all hedges, if any, is recognized currently in earnings.

The fair values of outstanding derivative contracts recorded as assets and liabilities on the Condensed Consolidated Balance Sheets at March 31, 2014 and December 31, 2013 were as follows:

(In thousands)	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
March 31, 2014				
Derivatives designated as hedging instruments:				
Foreign currency forward exchange contracts	Other current assets	\$52	Other current liabilities	\$45
Cross-currency interest rate swaps	Other assets	24,046	Other liabilities	17,412
Total derivatives designated as hedging instruments		\$24,098		\$17,457

## Derivatives not designated as hedging instruments:

Foreign currency forward exchange contracts	Other current assets	\$3,729	Other current liabilities	\$2,770
(In thousands)	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
December 31, 2013				

## Derivatives designated as hedging instruments:

Foreign currency forward exchange contracts	Other current assets	\$40	Other current liabilities	\$17
Cross-currency interest rate swaps	Other assets	26,001	Other liabilities	13,410
Total derivatives designated as hedging instruments		\$26,041		\$13,427

## Derivatives not designated as hedging instruments:

Foreign currency forward exchange contracts	Other current assets	\$1,216	Other current liabilities	\$3,267
---	----------------------	---------	---------------------------	---------

All of the Company's derivatives are recorded in the Condensed Consolidated Balance Sheets at gross amounts and not offset. All of the Company's cross-currency interest rate swaps and certain foreign currency forward exchange contracts are transacted under International Swaps and Derivatives Association ("ISDA") documentation. Each ISDA master agreement permits the net settlement of amounts owed in the event of default. The Company's derivative assets

and liabilities subject to enforceable master netting arrangements resulted in a \$0.1 million net liability at both March 31, 2014 and December 31, 2013.

Table of Contents

The effect of derivative instruments on the Condensed Consolidated Statements of Operations and the Condensed Consolidated Statements of Comprehensive Income for the three months ended March 31, 2014 and 2013 was as follows:

## Derivatives Designated as Hedging Instruments

(In thousands)	Amount of Gain (Loss) Recognized in Other Comprehensive Income ("OCI") on Derivative - Effective Portion	Location of Gain (Loss) Reclassified from Accumulated OCI into Income - Effective Portion	Amount of Gain (Loss) Reclassified from Accumulated OCI into Income - Effective Portion	Location of Gain (Loss) Recognized in Income on Derivative - Ineffective Portion and Amount Excluded from Effectiveness Testing	Amount of Gain (Loss) Recognized in Income on Derivative - Ineffective Portion and Amount Excluded from Effectiveness Testing
Three Months Ended March 31, 2014:					
Foreign currency forward exchange contracts	\$ 11	Cost of services and products sold	\$(2 )		\$—
Cross-currency interest rate swaps	(4,360 )		—	Cost of services and products sold	(1,574 ) (a)
	\$ (4,349 )		\$(2 )		\$ (1,574 )
Three Months Ended March 31, 2013:					
Foreign currency forward exchange contracts	\$ 5	Cost of services and products sold	\$(6 )		\$—
Cross-currency interest rate swaps	2,493		—	Cost of services and products sold	20,453 (a)
	\$ 2,498		\$(6 )		\$ 20,453

(a) These gains (losses) offset foreign currency fluctuation effects on the debt principal.

## Derivatives Not Designated as Hedging Instruments

(In thousands)	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Income on Derivative for the Three Months Ended March 31 (a)	2014	2013
Foreign currency forward exchange contracts	Cost of services and products sold		\$ 1,556	\$ 2,059

(a) These gains (losses) offset amounts recognized in cost of services and products sold principally as a result of intercompany or third party foreign currency exposures.

## Foreign Currency Forward Exchange Contracts

The Company conducts business in multiple currencies and, accordingly, is subject to the inherent risks associated with foreign exchange rate movements. The financial position and results of operations of substantially all of the Company's foreign subsidiaries are measured using the local currency as the functional currency. Foreign currency-denominated assets and liabilities are translated into U.S. dollars at the exchange rates existing at the respective balance sheet dates. Income and expense items are translated at the average exchange rates during the respective periods. The aggregate effects of translating the balance sheets of these subsidiaries are deferred and recorded in Accumulated other comprehensive loss, which is a separate component of equity.

The Company uses derivative instruments to hedge cash flows related to foreign currency fluctuations. Foreign currency forward exchange contracts outstanding are part of a worldwide program to minimize foreign currency exchange operating income and balance sheet exposure by offsetting foreign currency exposures of certain future payments between the Company and its various subsidiaries, suppliers or customers. These unsecured contracts are with major financial institutions. The Company may be exposed to credit loss in the event of non-performance by the contract counterparties. The Company evaluates the creditworthiness of the counterparties and does not expect default by them. Foreign currency forward exchange contracts are used to hedge commitments, such as foreign currency debt, firm purchase commitments and foreign currency cash flows for certain export sales transactions.

The following tables summarize, by major currency, the contractual amounts of the Company's foreign currency forward exchange contracts in U.S. dollars at March 31, 2014 and December 31, 2013. The "Buy" amounts represent the U.S. dollar equivalent of commitments to purchase foreign currencies, and the "Sell" amounts represent the U.S. dollar equivalent of commitments to sell foreign currencies. The recognized gains and losses offset amounts recognized in cost of services and products sold principally as a result of intercompany or third party foreign currency exposures.

Table of Contents

## Contracted Amounts of Foreign Currency Forward Exchange Contracts Outstanding at March 31, 2014:

(In thousands)	Type	U.S. Dollar Equivalent	Maturity	Recognized Gain (Loss)
British pounds sterling	Sell	\$27,256	April 2014	\$(76 )
British pounds sterling	Buy	10,144	April 2014	45
Euros	Sell	252,913	April 2014 through July 2014	3,258
Euros	Buy	243,761	April 2014 through September 2014	(2,455 )
Other currencies	Sell	16,289	April 2014 through August 2014	52
Other currencies	Buy	10,827	April 2014 through August 2014	142
Total		\$561,190		\$966

Included in the contracted amounts of foreign currency exchange forward contracts outstanding at March 31, 2014 are \$125.0 million of foreign currency exchange forward contracts entered into by the Company under the Transition Services Agreement with Brand. The Company has recognized a \$0.1 million mark-to-market liability associated with these foreign currency exchange forward contracts.

## Contracted Amounts of Foreign Currency Forward Exchange Contracts Outstanding at December 31, 2013:

(In thousands)	Type	U.S. Dollar Equivalent	Maturity	Recognized Gain (Loss)
British pounds sterling	Sell	\$26,931	January 2014	\$(277 )
British pounds sterling	Buy	1,976	January 2014	15
Euros	Sell	248,943	January 2014 through July 2014	(335 )
Euros	Buy	242,385	January 2014 through March 2014	(1,335 )
Other currencies	Sell	12,708	January 2014 through July 2014	(134 )
Other currencies	Buy	8,907	January 2014 through August 2014	38
Total		\$541,850		\$(2,028 )

Included in the contracted amounts of foreign currency exchange forward contracts outstanding at December 31, 2013 are \$121.2 million of foreign currency exchange forward contracts entered into by the Company under the Transition Services Agreement with Brand. The Company has recognized a \$0.7 million mark-to-market liability associated with these foreign currency exchange forward contracts.

In addition to foreign currency forward exchange contracts, the Company designates certain loans as hedges of net investments in international subsidiaries. The Company recorded pre-tax net gain of \$0.2 million and \$1.7 million during the three months ended March 31, 2014 and 2013, respectively, into Accumulated other comprehensive loss.

Cross-Currency Interest Rate Swaps

The Company uses cross-currency interest rate swaps in conjunction with certain debt issuances in order to secure a fixed local currency interest rate. Under these cross-currency interest rate swaps, the Company receives interest based on a fixed or floating U.S. dollar rate and pays interest on a fixed local currency rate based on the contractual amounts in dollars and the local currency, respectively. The cross-currency interest rate swaps are recorded on the Condensed Consolidated Balance Sheets at fair value, with changes in value attributed to the effect of the swaps' interest spread recorded in Accumulated other comprehensive loss. Changes in value attributed to the effect of foreign currency fluctuations are recorded in the statements of operations and offset currency fluctuation effects on the debt principal. The following table indicates the contractual amounts of the Company's cross-currency interest rate swaps at March 31, 2014:

(In millions)	Contractual Amount	Interest Rates	
		Receive	Pay
Maturing 2018	\$ 250.0	Fixed U.S. dollar rate	Fixed euro rate
Maturing 2020	220.0	Fixed U.S. dollar rate	Fixed British pound sterling rate

Maturing 2016 through 2017    10.2                      Floating U.S. dollar rate                      Fixed rupee rate

Fair Value of Derivative Assets and Liabilities and Other Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Company utilizes market data or assumptions that the Company believes market participants would use in valuing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

Table of Contents

The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs), and (2) an entity's own assumptions about market participant assumptions based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

**Level 1**—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

**Level 2**—Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

**Level 3**—Inputs that are both significant to the fair value measurement and unobservable.

In instances in which multiple levels of inputs are used to measure fair value, hierarchy classification is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following table indicates the fair value hierarchy of the financial instruments of the Company at March 31, 2014 and December 31, 2013:

Level 2 Fair Value Measurements (In thousands)	March 31 2014	December 31 2013
<b>Assets</b>		
Foreign currency forward exchange contracts	\$3,781	\$1,256
Cross-currency interest rate swaps	24,046	26,001
<b>Liabilities</b>		
Foreign currency forward exchange contracts	2,815	3,284
Cross-currency interest rate swaps	17,412	13,410

The following table reconciles the beginning and ending balances for liabilities measured on a recurring basis using unobservable inputs (Level 3) for three months ended March 31, 2014:

Level 3 Liabilities—Unit Adjustment Liability (a) for the Three Months Ended March 31 (b) (In thousands)	2014
Balance at December 31, 2013	\$106,343
Payments	(5,580)
Change in fair value to unit adjustment liability	2,546
Balance at March 31, 2014	\$103,308

(a) See Note 5, Equity Method Investments, for additional information related to the unit adjustment liability.

(b) Does not total due to rounding.

The Company primarily applies the market approach for recurring fair value measurements and endeavors to utilize the best available information. Accordingly, the Company utilizes valuation techniques that maximize the use of observable inputs, such as forward rates, interest rates, the Company's credit risk and counterparties' credit risks, and which minimize the use of unobservable inputs. The Company is able to classify fair value balances based on the ability to observe those inputs. Commodity derivatives, foreign currency forward exchange contracts and cross-currency interest rate swaps are classified as Level 2 fair value based upon pricing models using market-based inputs. Model inputs can be verified, and valuation techniques do not involve significant management judgment. The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and short-term borrowings approximate fair value due to the short-term maturities of these assets and liabilities. At

March 31, 2014 and December 31, 2013, the total fair value of long-term debt, including current maturities, was \$893.1 million and \$832.6 million, respectively, compared with a carrying value of \$855.9 million and \$803.4 million at March 31, 2014 and December 31, 2013, respectively. Fair values for debt are based on quoted market prices (Level 1) for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities.

Table of Contents

## 13. Review of Operations by Segment

The Company has reclassified segment operating results for the three months ended March 31, 2013 to conform to the revised manner in which the Company now allocates corporate expenses to operating segments as a result of changes in organizational structure resulting from the Infrastructure transaction. The changes do not impact the Company's previously reported consolidated revenues from continuing operations, operating income from continuing operations or income from continuing operations before income taxes and equity loss.

(In thousands)	Three Months Ended	
	March 31 2014	2013
Revenues From Continuing Operations		
Harsco Metals & Minerals	\$353,038	\$337,324
Harsco Infrastructure	—	216,059
Harsco Industrial	102,100	90,446
Harsco Rail	57,561	71,566
Total revenues from continuing operations	\$512,699	\$715,395
Operating Income (Loss) From Continuing Operations		
Harsco Metals & Minerals	\$23,218	\$23,229
Harsco Infrastructure	—	(7,052)
Harsco Industrial	16,571	15,609
Harsco Rail	5,499	3,178
Corporate (a)	(12,949)	(9,179)
Total operating income from continuing operations	\$32,339	\$25,785

(a) For the three months ended March 31, 2014, Corporate includes a \$2.1 million loss on disposal of the Harsco Infrastructure Segment and transaction costs and \$1.4 million of net periodic pension cost for defined benefit pension plans retained by the Company as part of the Infrastructure transaction.

## Reconciliation of Segment Operating Income to Income From Continuing Operations Before Income Taxes and Equity Loss

Amortization of cash flow hedging instruments (a):			
Foreign currency forward exchange contracts	\$2	\$6	Cost of services and products sold
Tax benefit	(1	) —	
Total reclassification of cash flow hedging instruments	\$1	\$6	

(a) Amounts in parentheses indicate credits to profit/loss.

(b) These accumulated other comprehensive loss components are included in the computation of net periodic pension costs. See Note 8, Employee Benefit Plans, for additional details.

## 16. Restructuring Programs

In recent years, the Company has instituted restructuring programs to balance short-term profitability goals with long-term strategies. A primary objective of these programs has been to establish platforms upon which the affected businesses can grow with reduced fixed investment and generate annual operating expense savings. The restructuring programs have been instituted in response to the continuing impact of global financial and economic uncertainty on the Company's end markets. Restructuring costs incurred in these programs were recorded in the Other income caption of the Condensed Consolidated Statements of Operations. The timing of associated cash payments is dependent on the type of restructuring cost and can extend over a multi-year period. The remaining accrual for restructuring programs was \$4.6 million and \$5.1 million at March 31, 2014 and December 31, 2013, respectively. The remaining accrual at March 31, 2014 relates primarily to exit activity costs for lease terminations expected to be paid over the remaining life of the leases.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements as well as the audited consolidated financial statements of Harsco Corporation (the "Company"), including the notes thereto, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, which includes additional information about the Company's critical accounting policies, contractual obligations, practices and the transactions that support the financial results, and provides a more comprehensive summary of the Company's outlook, trends and strategies for 2014 and beyond.

Certain amounts included in Item 2 of this Quarterly Report on Form 10-Q are rounded in millions and all percentages are calculated based on actual amounts. As a result, minor differences may exist due to rounding.

Forward-Looking Statements

The nature of the Company's business and the many countries in which it operates subject it to changing economic, competitive, regulatory and technological conditions, risks and uncertainties. In accordance with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, the Company provides the following cautionary remarks regarding important factors that, among others, could cause future results to differ materially from the results contemplated by forward-looking statements, including the expectations and assumptions expressed or implied herein. Forward-looking statements contained herein could include, among other things, statements about management's confidence in and strategies for performance; expectations for new and existing products, technologies and opportunities; and expectations regarding growth, sales, cash flows, and earnings. Forward-looking statements can be identified by the use of such terms as "may," "could," "expect," "anticipate," "intend," "believe," "likely," "estimate," "plan" or other comparable terms.

Factors that could cause actual results to differ, perhaps materially, from those implied by forward-looking statements include, but are not limited to: (1) changes in the worldwide business environment in which the Company operates, including general economic conditions; (2) changes in currency exchange rates, interest rates, commodity and fuel costs and capital costs; (3) changes in the performance of equity and bond markets that could affect, among other things, the valuation of the assets in the Company's pension plans and the accounting for pension assets, liabilities and expenses; (4) changes in governmental laws and regulations, including environmental, tax and import tariff standards; (5) market and competitive changes, including pricing pressures, market demand and acceptance for new products, services and technologies; (6) unforeseen business disruptions in one or more of the many countries in which the Company operates due to political instability, civil disobedience, armed hostilities, public health issues or other calamities; (7) the seasonal nature of the Company's business; (8) the Company's ability to successfully enter into new contracts and complete new acquisitions or strategic ventures in the time-frame contemplated, or at all; (9) the integration of the Company's strategic acquisitions; (10) the amount and timing of repurchases of the Company's common stock, if any; (11) the prolonged recovery in global financial and credit markets and economic conditions generally, which could result in the Company's customers curtailing development projects, construction, production and capital expenditures, which, in turn, could reduce the demand for the Company's products and services and, accordingly, the Company's revenues, margins and profitability; (12) the outcome of any disputes with customers; (13) the financial condition of the Company's customers, including the ability of customers (especially those that may be highly leveraged and those with inadequate liquidity) to maintain their credit availability; (14) the Company's ability to successfully implement and receive the expected benefits of cost-reduction and restructuring initiatives, including the achievement of expected cost savings in the expected time frame; (15) the ability to successfully implement the Company's strategic initiatives and portfolio optimization and the impact of such initiatives; (16) the ability of the strategic venture between the Company and Clayton, Dubilier & Rice ("CD&R") to effectively integrate the Company's Infrastructure business and the Brand Energy & Infrastructure Services business and realize the synergies contemplated by the transaction; (17) the Company's ability to realize cost savings from the divestiture of the Infrastructure business, as well as the transaction being accretive to earnings and improving operating margins and return on capital; (18) risk and uncertainty associated with intangible assets; and (19) other risk factors listed from time to time in the Company's SEC reports. A further discussion of these, along with other potential risk factors, can be found in Part I, Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended

December 31, 2013. The Company cautions that these factors may not be exhaustive and that many of these factors are beyond the Company's ability to control or predict. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. The Company undertakes no duty to update forward-looking statements except as may be required by law.

Table of Contents

## Executive Overview

In November 2013, the Company consummated the previously announced transaction to sell the Company's Harsco Infrastructure Segment into a strategic venture with CD&R as part of a transaction that combines the Harsco Infrastructure Segment with Brand Energy & Infrastructure Services, Inc., which CD&R simultaneously acquired (the "Infrastructure transaction"). The Company has contributed substantially all of the Company's equity interest in, and the net assets of, the Harsco Infrastructure Segment to the strategic venture in exchange for \$300 million, subject to working capital and other adjustments, and an approximate 29% equity interest in the resulting entity (the "Infrastructure strategic venture" or "Brand").

Revenues by Segment (In millions)	Three Months Ended March 31					
	2014	2013	Change	%		
Harsco Metals & Minerals	\$353.0	\$337.3	\$15.7	4.7		%
Harsco Infrastructure (a)	—	216.1	(216.1)	(100.0)	)	)
Harsco Industrial	102.1	90.4	11.7	12.9		
Harsco Rail	57.6	71.6	(14.0)	(19.6)	)	)
Total revenues	\$512.7	\$715.4	\$(202.7)	(28.3)	)	)%

(a) In November 2013, the Company consummated the previously announced transaction to sell the Company's Harsco Infrastructure Segment into a strategic venture, and accordingly, there is no revenue for the Harsco Infrastructure Segment for 2014. The results of the Harsco Infrastructure Segment from January 1, 2013 through the date of closing are reported in the Company's results of operations for 2013.

Revenues by Region (In millions)	Three Months Ended March 31					
	2014	2013	Change	%		
Western Europe	\$159.5	\$262.6	\$(103.1)	(39.3)	)	)%
North America	220.9	269.5	(48.7)	(18.1)	)	)
Latin America (a)	63.0	79.7	(16.8)	(21.0)	)	)
Asia-Pacific	34.4	43.5	(9.1)	(20.9)	)	)
Middle East and Africa	19.0	41.4	(22.4)	(54.2)	)	)
Eastern Europe	16.0	18.7	(2.7)	(14.3)	)	)
Total revenues	\$512.7	\$715.4	\$(202.7)	(28.3)	)	)%

(a) Includes Mexico

Revenue for the Company during the first quarter of 2014 was \$512.7 million compared with \$715.4 million in the first quarter of 2013. The change is primarily related to the Harsco Infrastructure Segment that was disposed of as part of the Infrastructure transaction in the fourth quarter of 2013. Foreign currency translation decreased revenues by \$4.3 million for the first quarter of 2014 in comparison with the first quarter of 2013.

Operating Income (Loss) by Segment (a) (In millions)	Three Months Ended March 31					
	2014	2013	Change	%		
Harsco Metals & Minerals	\$23.2	\$23.2	\$—	—		%
Harsco Infrastructure (b)	—	(7.1)	) 7.1	100.0		
Harsco Industrial	16.6	15.6	1.0	6.2		
Harsco Rail	5.5	3.2	2.3	73.0		
Corporate (c)	(12.9)	) (9.2)	) (3.8)	(41.1)	)	)
Total operating income	\$32.3	\$25.8	\$6.6	25.4		%

(a) The Company has reclassified segment operating results for the three months ended March 31, 2013 to conform to the revised manner in which the Company now allocates corporate expenses to operating segments as a result of

changes in organizational structure resulting from the Infrastructure transaction which occurred in the fourth quarter of 2013. The changes do not impact the Company's previously reported consolidated revenues from continuing operations, operating income from continuing operations or income from continuing operations before income taxes and equity loss.

(b) In November 2013, the Company consummated the previously announced transaction to sell the Company's Harsco Infrastructure Segment into a strategic venture, and accordingly, there is no operating income (loss) for the Harsco Infrastructure Segment for 2014. The results of the Harsco Infrastructure Segment from January 1, 2013 through the date of closing are reported in the Company's results of operations for 2013.

(c) For the three months ended March 31, 2014, Corporate includes a \$2.1 million loss on disposal of the Harsco Infrastructure Segment and transaction costs and \$1.4 million of net periodic pension cost for defined benefit pension plans retained by the Company as part of the Infrastructure transaction.

Table of Contents

	Three Months Ended			
	March 31			
Operating Margin by Segment (a)	2014		2013	
Harsco Metals & Minerals	6.6	%	6.9	%
Harsco Infrastructure (b)	—		(3.3	)
Harsco Industrial	16.2		17.3	
Harsco Rail	9.6		4.4	
Consolidated operating margin	6.3	%	3.6	%

(a) The Company has reclassified segment operating results for the three months ended March 31, 2013 to conform to the revised manner in which the Company now allocates corporate expenses to operating segments as a result of changes in organizational structure resulting from the Infrastructure transaction which occurred in the fourth quarter of 2013. The changes do not impact the Company's previously reported consolidated revenues from continuing operations, operating income from continuing operations or income from continuing operations before income taxes and equity loss.

(b) In November 2013, the Company consummated the previously announced transaction to sell the Company's Harsco Infrastructure Segment into a strategic venture, and accordingly, there is no operating income (loss) for the Harsco Infrastructure Segment for 2014. The results of the Harsco Infrastructure Segment from January 1, 2013 through the date of closing are reported in the Company's results of operations for 2013.

Operating income from continuing operations for the first quarter of 2014 was \$32.3 million compared with operating income from continuing operations of \$25.8 million in the first quarter of 2013. The change is primarily related to the non-repeated operating loss generated by the Harsco Infrastructure Segment that was disposed of as part of the Infrastructure transaction in the fourth quarter of 2013.

This change in operating income from continuing operations, partially offset by the non-cash change in fair value to unit adjustment liability related to the Infrastructure transaction, was the primary driver of the diluted earnings per share from continuing operations for the first quarter of 2014 of \$0.14 compared with diluted earnings per share from continuing operations of \$0.09 for the first quarter of 2013.

The Company continues to have sufficient available liquidity and has been able to obtain all necessary financing. The Company currently expects operational and business needs to be met by cash from operations supplemented with borrowings from time to time due to historical patterns of seasonal cash flow and for the funding of various projects. See Liquidity and Capital Resources below for further discussion on liquidity, capital resources and cash flows.

## Harsco Metals &amp; Minerals Segment:

Significant Effects on Revenues	Three Months Ended
(In millions)	March 31, 2014
Revenues — 2013	\$337.3
Net effects of price/volume changes, primarily attributable to volume changes.	24.0
Net impact of new contracts and lost contracts (including exited underperforming contracts).	(4.4 )
Impact of foreign currency translation.	(3.9 )
Revenues — 2014	\$353.0

## Factors Positively Affecting Operating Income:

• Increased global steel production in the metals services business. Overall, steel production by customers under services contracts increased 5% in the first quarter of 2014 compared with the same period in 2013.

## Factors Negatively Impacting Operating Income:

Continued lower pricing for by-product in North America.

Lower demand in the roofing granules business.

Nickel prices decreased 16% in the first quarter of 2014 compared with the same period in 2013.

Foreign currency translation in the first three months of 2014 decreased operating income for this Segment by \$1.7 million compared with the same period in the prior year.

Table of Contents

## Harsco Industrial Segment:

Significant Effects on Revenues	Three Months Ended March 31, 2014
(In millions)	
Revenues — 2013	\$90.4
Effect of Hammco acquisition.	10.9
Net effects of price/volume changes, primarily attributable to volume changes.	2.1
Impact of foreign currency translation.	(1.3 )
Revenues — 2014	\$102.1

## Factors Positively Affecting Operating Income:

• Incremental effect of the acquisition of Hammco Corporation ("Hammco"), a U.S. manufacturer of high specification air-cooled heat exchangers for the natural gas and petrochemical processing markets, on January 2, 2014.

• Higher gain from sale of assets in the first quarter of 2014 compared with the first quarter of 2013.

## Harsco Rail Segment:

Significant Impacts on Revenues	Three Months Ended March 31, 2014
(In millions)	
Revenues — 2013	\$71.6
Net impacts of price/volume changes, primarily attributable to volume changes.	(14.9 )
Effect of foreign currency translation.	0.9
Revenues — 2014	\$57.6

## Factors Positively Affecting Operating Income:

• Increased contract services and strong parts sales

## Factors Negatively Impacting Operating Income:

• Decreased volume from machine sales primarily due to the completion of the large contract with the China Ministry of Railways (the "CRC").

## Outlook, Trends and Strategies

In addition to items noted in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, the following significant items, risks, trends and strategies are expected to affect the Company for the remainder of 2014 and beyond:

• The Company will focus on the goal of providing top quartile returns for its stockholders by balancing its portfolio of businesses, and by executing its strategic and operational strategies with reasonable amounts of financial leverage.

• The Company will continue to build and transform its management team, build and develop strong core capabilities and develop an active and lean corporate center that balances costs with value added services. Management will continue to be selective and disciplined in allocating capital by rigorously analyzing projects and utilizing a return based capital allocation process. The Company expects capital expenditures in 2014 to exceed 2013 levels due to a higher level of committed contract renewals in the Harsco Metals & Minerals Segment and targeted investment in the Harsco Industrial Segment.

The Company expects that the Infrastructure transaction will provide synergies and growth potential in the Infrastructure strategic venture that create additional value for the Company's equity interest upon exit in the future.

• The Company expects its effective income tax rate to approximate 30 percent to 32 percent for the full year 2014.

## Table of Contents

### Harsco Metals & Minerals Segment:

The Company does not expect a material increase in steel production or pricing in 2014.

The Company will focus on improving the Harsco Metals & Minerals Segment's returns through simplifying its business model, executing on operational efficiency opportunities, and improving its contract outcomes through better contract portfolio management and mix.

The Company will continue to focus on winning contracts in emerging markets where steel production is increasing and where the customers value the Company's environmental solutions. The Company will continue its focus on ensuring that forecasted profits for contracts meet certain established requirements and deliver returns above costs of capital. Given this strategy, the possibility exists that additional contracts may not be renewed resulting in exit costs during the period in which such decisions are finalized.

As the Company has disclosed previously, one of the Company's large steel mill customers in Europe has filed for receivership. The Company has approximately \$12 million of receivables with this customer. During the fourth quarter of 2013, the Company recorded a bad debt reserve of \$2.6 million related to this receivable. Although the Company believes the remaining amounts are collectible, should there be an adverse change in the Company's view on collectability, there could be a charge against income in future periods.

### Harsco Industrial Segment:

The Company is expecting another year of consistent performance for revenue and operating income in 2014 in the Harsco Industrial Segment, and will continue to focus on product innovation and development to drive strategic growth in its businesses.

The Company acquired Hammco in January 2014 as part of the Company's focus on growing the Harsco Industrial Segment through disciplined expansion. This acquisition provides the Harsco Industrial Segment with an entry into the process cooler market.

### Harsco Rail Segment:

The short-term outlook for this business is unfavorably impacted by the volume comparative of equipment deliveries from its large contract with the CRC, which were mostly completed during the first half of 2013. Compared with 2013, revenues for this Segment are expected to remain relatively flat in 2014 with modest organic growth in its after-market parts business and expected deliveries of existing equipment orders with improving operating income and margins.

The success in China has been leveraged to secure several new orders in other geographies. Recently, the Company secured a contract award worth over \$100 million through 2016 from the SBB, the federal railway system of Switzerland. The Company's capabilities to compete and deliver on large projects provides increased opportunities to build out its pipeline further, and enables the Company to continue to pursue other large projects.

The longer-term outlook for this Segment continues to be favorable. The global demand for railway maintenance-of-way equipment, parts and services continues to be strong, giving positive indication of further opportunities.

### Infrastructure Strategic Venture:

The Infrastructure strategic venture creates opportunities for additional value creation from the Company's equity position in a stronger and larger business with a more diversified portfolio of services and offerings.

As part of the Infrastructure transaction, the Company is required to make a quarterly payment to its partner in the Infrastructure strategic venture, either (at the Company's election) (i) in cash, with total payments to equal approximately \$22 million per year on a pre-tax basis (approximately \$15 million per year after-tax), or (ii) in kind through the transfer of approximately 2.5% of the Company's ownership interest in the Infrastructure strategic venture on an annual basis (the "unit adjustment liability"). The Company's obligation to make such quarterly payments will cease upon the earlier of (i) the Infrastructure strategic venture achieving \$479.0 million in last twelve months' earnings before interest, taxes, depreciation and amortization ("EBITDA") for three quarters, which need not be consecutive, or (ii) eight years after the closing of the Infrastructure transaction. The Company intends to make these

quarterly payments in cash and will continue to evaluate the implications of making payments in cash or in kind based upon performance of the Infrastructure strategic venture.

## Comparative Analysis of Consolidated Results

## Revenues

Revenues for the first quarter of 2014 decreased \$202.7 million or 28.3% from the first quarter of 2013. Changes in revenues for the periods presented were attributable to the following significant items:

Change in Revenues — 2014 vs. 2013	Three Months Ended	
(In millions)	March 31, 2014	
Revenue decrease following the disposal of the Harsco Infrastructure Segment.	\$(216.1	)
Net decreased revenues in the Harsco Rail Segment due principally to the completion of the large contract with CRC.	(14.9	)
Impact of foreign currency translation.	(4.3	)
Net increased revenues in the Harsco Metals & Minerals Segment due to price/volume, primarily attributable to volume changes.	19.6	
Net increased revenues in the Harsco Industrial Segment, primarily attributable to the effects of its business acquisition.	13.0	
Total change in revenues — 2014 vs. 2013	\$(202.7	)

## Cost of Services and Products Sold

Cost of services and products sold for the first quarter of 2014 decreased \$154.8 million or 27.4% from the first quarter of 2013. Changes in cost of services and products sold for the periods presented were attributable to the following significant items:

Change in Cost of Services and Products Sold — 2014 vs. 2013	Three Months Ended	
(In millions)	March 31, 2014	
Lower costs following the disposal of the Harsco Infrastructure Segment.	\$(158.8	)
Impact of foreign currency translation.	(3.2	)
Increased costs due to changes in revenues (exclusive of the effects of the timing of the Infrastructure transaction, foreign currency translation, and fluctuations in commodity costs	11.5	

included in selling prices).

Other	(4.3	)
Total change in cost of services and products sold — 2014 vs. 2013	\$(154.8	)

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the first quarter of 2014 decreased \$57.9 million or 46.4% from the first quarter of 2013. The decrease was primarily related to the lower costs following the disposal of the Harsco Infrastructure Segment.

Table of Contents

## Loss on Disposal of Harsco Infrastructure Segment and Transaction Costs

The Company recorded an additional loss of \$0.7 million during the first quarter of 2014 related to the Infrastructure transaction. Further adjustments to the loss on disposal of the Harsco Infrastructure Segment may be necessary and the final loss may differ, possibly materially, as a result of any adjustments made to the valuation of certain items set forth on the closing statement prepared by Brand in connection with the Infrastructure transaction, which has been reviewed by the Company and requires final agreement between Brand and the Company. Additionally, the Company incurred \$1.4 million in transaction costs during the first quarter of 2014 in conjunction with the Infrastructure transaction which are included in this caption.

Please see Note 3, Acquisitions and Dispositions, to the Consolidated Financial Statements in Part I, Item 1, Financial Statements for additional information on the Infrastructure transaction.

## Other Income

This income statement classification includes; costs for employee termination benefit costs, impaired asset write-downs, costs to exit activities, and net gains on the disposal of non-core assets. The most significant change in Other expenses relates to the volume of net gains on the disposal of non-core assets. Additional information on Other income is included in Note 14, Other Income, in Part I, Item 1, Financial Statements.

(In thousands)	Three Months Ended	
	March 31	
	2014	2013
Net gains	(2,358	) (3,692
Other	1,702	2,150
Other income	\$(656	) \$(1,542

## Interest Expense

Interest expense during the first quarter of 2014 decreased \$0.3 million from the first quarter of 2013. The decrease primarily reflects lower average borrowings offset by higher interest rates on short-term borrowings.

## Change in Fair Value to Unit Adjustment Liability

This caption represents the non-cash fair value adjustment to the Company's unit adjustment liability related to the Infrastructure transaction.

As part of the Infrastructure transaction, the Company is required to make a quarterly payment to its partner in the Infrastructure strategic venture. The resulting liability is reflected in the caption, Unit adjustment liability, on the Company's Condensed Consolidated Balance Sheets. The Company will recognize the change in fair value to unit adjustment liability each period until the Company is no longer required to make these payments or chooses not to make these payments. The change in fair value to unit adjustment liability is a non-cash expense. For the first quarter of 2014, the Company recognized expense of \$2.5 million related to the change in fair value to unit adjustment liability.

The Company's obligation to make such quarterly payments will cease upon the earlier of (i) Brand achieving \$479.0 million in last twelve months' EBITDA for three quarters, which need not be consecutive, or (ii) eight years after the closing of the Infrastructure transaction. In addition, upon the initial public offering of Brand, the Company's quarterly payment obligation will decrease by the portion of CD&R's ownership interest sold or eliminated completely once CD&R's ownership interest in Brand falls below 20%. In the event of a liquidation of Brand, CD&R is entitled to a liquidation preference of approximately \$336 million, plus any quarterly payments that had been paid in kind.

The Company intends to make these quarterly payments in cash and will continue to evaluate the implications of making payments in cash or in kind based upon performance of the Infrastructure strategic venture. In the future,

should the Company decide not to make the cash payment, the value of both the equity method investment in Brand and the related unit adjustment liability may be impacted, and the change may be reflected in earnings in that period.

#### Income Tax Expense

The effective income tax rate related to continuing operations for the three months ended March 31, 2014 was 24.1% compared with 34.4% for the three months ended March 31, 2013. The effective income tax rate related to continuing operations and income tax expense from continuing operations decreased primarily due to changes in the jurisdictional mix of income. In particular, losses generated in certain jurisdictions where no tax benefit can be recognized declined, partially offset by the elimination of temporary 2013 tax benefits not legislatively renewed in 2014.

## Table of Contents

### Income from Continuing Operations

The income from continuing operations was \$12.9 million in the first quarter of 2014 compared with the income from continuing operations of \$9.5 million in the first quarter of 2013. The increase was primarily related to the non-repeated operating loss generated by the Harsco Infrastructure Segment that was disposed of as part of the Infrastructure transaction in the fourth quarter of 2013 partially offset by the non-cash fair value adjustment to the Company's unit adjustment liability related to the Infrastructure transaction.

### Liquidity and Capital Resources

#### Overview

The Company continues to have sufficient available liquidity and has been able to obtain all necessary financing. The Company currently expects operational and business needs to be met with cash from operations supplemented with borrowings from time to time due to historical patterns of seasonal cash flow and for the funding of various projects. The Company continues to implement and perform capital efficiency initiatives to enhance liquidity. These initiatives have included: focused allocation of capital spending to projects where the highest returns can be achieved while redeploying existing capital investments; optimization of worldwide cash positions; reductions in discretionary spending; and frequent evaluation of customer and business-partner credit risk.

During the first three months of 2014, the Company's operations provided \$27.5 million in operating cash flow, an increase from the \$3.4 million provided in the first three months of 2013. There were no significant operating cash disbursements in the first three months of 2014 for restructuring program costs compared with approximately \$8 million of operating cash disbursed in the first three months of 2013. In the first three months of 2014, the Company invested \$39.9 million in capital expenditures, mostly for the Harsco Metals & Minerals Segment, compared with \$53.7 million invested in the first three months of 2013. Additionally, the Company paid \$16.6 million in common stock dividends in the first three months of 2014, compared with \$16.5 million in the first three months of 2013.

The Company's net cash borrowings increased by \$44.9 million in the first three months of 2014, primarily to fund capital expenditures, principally in the Harsco Metals & Minerals Segment and for the Hammco acquisition.

The Company plans to redeploy discretionary cash for disciplined organic growth and international or market segment diversification; for growth in long-term, higher-return service contracts for the Harsco Metals & Minerals Segment, principally in targeted growth markets or for customer diversification; and for strategic investments or possible acquisitions in the Harsco Rail and Harsco Industrial Segments. The Company also foresees continuing its long and consistent history of paying dividends to stockholders.

The Company continues its focus on improving working capital efficiency. The Company's Continuous Improvement initiatives are being used to further improve effective and efficient use of working capital, particularly in accounts receivable and inventories.

The Company also generated \$3.8 million and \$10.6 million in cash from asset sales in the first three months of 2014 and 2013, respectively. Asset sales have been a normal part of the Company's business model, primarily for the Harsco Metals & Minerals Segment.

#### Sources and Uses of Cash

The Company's principal sources of liquidity are cash from operations and borrowings under its credit agreement, augmented by cash proceeds from asset sales. The primary drivers of the Company's cash flow from operations are the Company's revenues and income. Cash returns on capital investments made in prior years, for which limited cash is currently required, are a significant source of cash from operations. Depreciation expense related to these investments is a non-cash charge.

Major uses of operating cash flows and borrowed funds include: capital investments, principally in the Harsco Metals & Minerals Segment; payroll costs and related benefits; dividend payments; pension funding payments; inventory purchases for the Harsco Rail and Harsco Industrial Segments; income tax payments; debt principal and interest payments; insurance premiums and payments of self-insured casualty losses; payment of the unit adjustment liability and machinery, equipment, automobile and facility lease payments.

Table of Contents

Resources available for cash requirements for operations and growth initiatives

In addition to utilizing cash from operations and cash proceeds from asset sales, the Company has bank credit facilities available throughout the world. Public markets are also accessed through discrete-term note issuance to investors. The Company also utilizes capital leases to finance the acquisition of certain equipment when appropriate which allows the Company to minimize capital expenditures. The Company expects to continue to utilize all these sources to meet future cash requirements for operations and growth initiatives.

The following table illustrates available credit at March 31, 2014:

(In millions)	March 31, 2014		
	Facility Limit	Outstanding Balance	Available Credit
Multi-year revolving credit agreement (a U.S.-based program)	\$525.0	\$82.5	\$442.5

At March 31, 2014 and December 31, 2013, the Company had \$82.5 million and \$35.0 million, respectively, of Credit Agreement borrowings outstanding. At March 31, 2014 and December 31, 2013, all such balances were classified as long-term borrowings in the Condensed Consolidated Balance Sheets. Classification of such balances is based on the Company's ability and intent to repay such amounts over the subsequent twelve months, as well as the Company's current intent and ability to borrow for a period longer than a year. To the extent the Company expects to repay any amounts within the subsequent twelve months, the amounts are classified as short-term borrowings.

#### Credit Ratings and Outlook

The following table summarizes the Company's current debt ratings:

Rating Agency	Long-term Notes	Watch / Outlook
Standard & Poor's (S&P)	BB+	Negative Outlook
Moody's	Ba1	Stable Outlook
Fitch	BBB-	Negative Outlook

In March 2014, S&P reaffirmed the Company's BB+ long-term rating while placing the Company on negative outlook. Subsequently, in April 2014, Moody's reaffirmed the Company's Ba1 long-term rating and stable outlook while Fitch reaffirmed the Company's BBB- long-term rating and negative outlook. These rating agency actions resulted from reviews initiated upon the departure of the Company's prior President and Chief Executive Officer in February 2014.

Any future downgrades to the Company's credit ratings may increase borrowing costs to the Company, while an improvement in the Company's credit ratings may decrease such costs. However, any future downgrades in the Company's credit ratings will not reduce availability under the Company's Credit Agreement.

Table of Contents

## Working Capital Position

Changes in the Company's working capital are reflected in the following table:

(Dollars in millions)	March 31 2014	December 31 2013	Increase (Decrease)
<b>Current Assets</b>			
Cash and cash equivalents	\$83.4	\$93.6	\$(10.2 )
Trade accounts receivable, net	399.7	353.2	46.5
Other receivables	52.1	46.5	5.6
Inventories	166.8	155.7	11.1
Assets held-for-sale	—	114.0	(114.0 )
Other current assets	74.8	75.8	(1.1 )
Total current assets	776.7	838.8	(62.0 )
<b>Current Liabilities</b>			
Short-term borrowings and current maturities	27.8	27.7	—
Accounts payable	192.4	181.4	11.0
Accrued compensation	49.3	53.1	(3.8 )
Income taxes payable	5.3	7.2	(1.9 )
Advances on contracts	66.4	24.1	42.3
Liabilities of assets held-for-sale	—	109.2	(109.2 )
Due to unconsolidated affiliate	15.3	25.0	(9.6 )
Unit adjustment liability	22.3	22.3	—
Other current liabilities	173.4	156.8	16.6
Total current liabilities	552.1	606.8	(54.6 )
Working Capital	\$224.6	\$232.0	\$(7.4 )
Current Ratio (a)	1.4	1.4	

(a) Calculated as Total current assets divided by Total current liabilities

The net \$7.4 million decrease in working capital for the first three months of 2014 is due primarily to the following factors:

- Working capital was negatively affected by an increase in Advances on contracts of \$42.3 million due to increased customer advances in the Harsco Rail Segment;

- Working capital was negatively affected by an increase in Other current liabilities of \$16.6 million primarily due to increased accrued interest payable and the timing of payment of other accruals; and

- Working capital was negatively affected by an increase in Accounts payable of \$11.0 million due to the timing of payments.

These working capital decreases were partially offset by the following:

- Working capital was positively affected by an increase in Trade accounts receivable, net of \$46.5 million due to the timing of invoicing and collections, primarily in the Harsco Metals & Minerals Segment; and

- Working capital was positively affected by an increase in Inventories of \$11.1 million due primarily to the long lead times associated with orders in the Harsco Rail Segment and the Hammco acquisition in the Harsco Industrial Segment.

The net impact of the settlement of Assets held-for-sale and Liabilities of assets held-for-sale related to the Infrastructure transaction did not have a significant impact on the Company's working capital at March 31, 2014.

**Certainty of Cash Flows**

The certainty of the Company's future cash flows is underpinned by the long-term nature of the Company's metals services contracts, the order backlog for the Company's railway track maintenance services and equipment, and overall discretionary cash flows (operating cash flows plus cash from asset sales in excess of the amounts necessary for capital expenditures to maintain current revenue levels) generated by the Company. Historically, the Company has utilized these discretionary cash flows for growth-related capital expenditures, strategic acquisitions, debt repayment and dividend payments.

Table of Contents

The types of products and services that the Company provides are not subject to rapid technological change, which increases the stability of related cash flows. Additionally, the Company believes each business in its balanced portfolio is a leader in the industries and major markets the Company serves. Due to these factors, the Company is confident in the Company's future ability to generate positive cash flows from operations.

**Cash Flow Summary**

The Company's cash flows from operating, investing and financing activities, as reflected in the Condensed Consolidated Statements of Cash Flows, are summarized in the following table:

(In millions)	Three Months Ended March 31	
	2014	2013
Net cash provided (used) by:		
Operating activities	\$27.5	\$3.4
Investing activities	(65.6	) (40.2
Financing activities	28.3	36.4
Impact of exchange rate changes on cash	(0.5	) (1.9
Net change in cash and cash equivalents	\$(10.2	) \$(2.3

Cash provided by operating activities — Net cash provided by operating activities in the first three months of 2014 was \$27.5 million, an increase of \$24.1 million from the first three months of 2013. The increase is primarily attributable to increased customer advances and decreased incentive bonus payments, partially offset by the timing of accounts payable disbursements and accounts receivable collections.

Included in the Cash flows from operating activities section of the Condensed Consolidated Statements of Cash Flows is the caption, Other assets and liabilities. For the three months ended March 31, 2014 and 2013, the decreases in this caption were \$13.7 million and \$11.9 million, respectively. A summary of the major components of this caption for the periods presented is as follows:

(In millions)	Three Months Ended March 31	
	2014	2013
Net cash provided by (used in):		
Change in net defined benefit pension liabilities	\$(15.8	) \$(12.0
Change in prepaid expenses	(1.0	) (3.3
Other	3.1	3.4
Total	\$(13.7	) \$(11.9

Cash used by investing activities — Net cash used in investing activities in the first three months of 2014 was \$65.6 million, an increase of \$25.4 million from the first three months of 2013. The net increase was primarily due to the Hammco acquisition in the Harsco Industrial Segment.

Cash provided by financing activities — Net cash provided by financing activities in the first three months of 2014 was \$28.3 million, a decrease of \$8.1 million from the first three months of 2013. The change was primarily due to a decrease in year-over-year net cash borrowings.

**Debt Covenants**

The Company's Credit Agreement contains covenants that provide for a maximum total consolidated debt to consolidated EBITDA ratio not to exceed 3.5 to 1.0, limit the proportion of subsidiary consolidated indebtedness to a maximum of 10% of consolidated tangible assets and require a minimum total consolidated EBITDA to consolidated interest charges ratio of 3.0 to 1.0. The Company's 5.75% and 2.70% notes include covenants that require the Company to offer to repurchase the notes at 101% of par in the event of a change of control of the Company or disposition of substantially all of the Company's assets in combination with a downgrade in the Company's credit rating to non-investment grade. At March 31, 2014, the Company was in compliance with these covenants as the total consolidated debt to consolidated EBITDA ratio was 2.5 to 1.0, the proportion of subsidiary consolidated indebtedness to consolidated tangible assets was 6.0% and total consolidated EBITDA to consolidated interest charges

was 7.8 to 1.0. Based on balances at March 31, 2014, the Company could increase borrowings by \$396.2 million and still be in compliance with these debt covenants. Alternatively, keeping all other factors constant, the Company's EBITDA could decrease by \$113.2 million and the Company would still be within these debt covenants. The Company expects to continue to be in compliance with these debt covenants for at least the next twelve months.

## Table of Contents

### Cash and Value-Based Management

The Company has various cash management systems throughout the world that centralize cash in various bank accounts where it is economically justifiable and legally permissible to do so. These centralized cash balances are then redeployed to other operations to reduce short-term borrowings and to finance working capital needs or capital expenditures. Due to the transitory nature of cash balances, they are normally invested in bank deposits that can be withdrawn at will or in very liquid short-term bank time deposits and government obligations. The Company's policy is to use the largest banks in the various countries in which the Company operates. The Company monitors the creditworthiness of banks and when appropriate will adjust banking operations to reduce or eliminate exposure to less credit worthy banks. The Company plans to continue the strategy of targeted, prudent investing for strategic purposes for the foreseeable future and to make more efficient use of existing investments.

At March 31, 2014, the Company's consolidated cash and cash equivalents included approximately \$80 million held by non-U.S. subsidiaries. At March 31, 2014, less than 10% of the Company's consolidated cash and cash equivalents had regulatory restrictions that would preclude the transfer of funds with and among subsidiaries. The cash and cash equivalents held by non-U.S. subsidiaries also included approximately \$17 million held in consolidated strategic ventures. The strategic venture agreements may require strategic venture partner approval to transfer funds with and among subsidiaries. While the Company's remaining non-U.S. cash and cash equivalents can be transferred with and among subsidiaries, the majority of these non-U.S. cash balances will be used to support the on-going working capital needs and continued growth of the Company's non-U.S. operations.

The Company currently expects to continue paying dividends to stockholders. In April 2014, the Company declared its 257th consecutive quarterly cash dividend, payable in August 2014.

The Company's financial position and debt capacity should enable it to meet current and future requirements. As additional resources are needed, the Company should be able to obtain funds readily and at competitive costs. The Company intends to continue investing in high-return, organic growth projects and prudent, strategic alliances and ventures; and pay cash dividends as a means of enhancing stockholder value.

### Recently Adopted and Recently Issued Accounting Standards

Information on recently adopted and recently issued accounting standards is included in Note 2, Recently Adopted and Recently Issued Accounting Standards, in Part I, Item 1, Financial Statements.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks have not changed significantly from those disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

### ITEM 4. CONTROLS AND PROCEDURES

Based on the evaluation required by Securities Exchange Act Rules 13a-15(b) and 15d-15(b), the Company's management, including the Interim Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of disclosure controls and procedures, as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e), at March 31, 2014. Based on that evaluation, the Interim Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective at March 31, 2014. There have been no changes in internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting during the first quarter of 2014.
