NOTE 1 – DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

About Griffon Corporation

Griffon Corporation (the “Company” or “Griffon”) is a diversified management and holding company that conducts business through wholly-owned subsidiaries. Griffon oversees the operations of its subsidiaries, allocates resources among them and manages their capital structures. Griffon provides direction and assistance to its subsidiaries in connection with acquisition and growth opportunities as well as in connection with divestitures. In order to further diversify, Griffon also seeks out, evaluates and, when appropriate, will acquire additional businesses that offer potentially attractive returns on capital.

Griffon currently conducts its operations through three reportable segments:

Home & Building Products (“HBP”) consists of two companies, The AMES Companies, Inc. (“AMES”) and Clopay Building Products Company, Inc. (“CBP”):

AMES is a global provider of non-powered landscaping products for homeowners and professionals.

CBP is a leading manufacturer and marketer of residential, commercial and industrial garage doors to professional dealers and major home center retail chains.

Telephonics Corporation (“Telephonics”) designs, develops and manufactures high-technology integrated information, communication and sensor system solutions for military and commercial markets worldwide.

Clopay Plastic Products Company, Inc. (“PPC”) is an international leader in the development and production of embossed, laminated and printed specialty plastic films used in a variety of hygienic, health-care and industrial applications.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not include all the information and footnotes required by U.S. GAAP for complete financial statements. As such, they should be read with reference to Griffon's Annual Report on Form 10-K for the year ended September 30, 2015, which provides a more complete explanation of Griffon's accounting policies, financial position, operating results, business properties and other matters. In the opinion of management, these financial statements reflect all adjustments considered necessary for a fair statement of interim results. Griffon's HBP operations are seasonal; for this and other reasons, the financial results of the Company for any interim period are not necessarily indicative of the results for the full year.

The condensed consolidated balance sheet information at September 30, 2015 was derived from the audited financial statements included in Griffon's Annual Report on Form 10-K for the year ended September 30, 2015.

The consolidated financial statements include the accounts of Griffon and all subsidiaries. Intercompany accounts and transactions have been eliminated on consolidation.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. These estimates may be adjusted due to changes in economic, industry or customer financial conditions, as well as changes in technology or demand. Significant estimates include allowances for doubtful accounts receivable and returns, net realizable value of inventories, restructuring reserves, valuation of goodwill and intangible assets, percentage of completion method of accounting, pension assumptions, useful lives associated with depreciation and amortization of intangible and fixed assets, warranty reserves, sales incentive accruals, stock based compensation assumptions, income taxes and tax valuation reserves, environmental reserves, legal reserves, insurance reserves

and the valuation of assets and liabilities of discontinued operations, acquisition assumptions used and the accompanying disclosures. These estimates are based on management's best knowledge of current events and actions Griffon may undertake in the future. Actual results may ultimately differ from these estimates.

Certain amounts in the prior year have been reclassified to conform to current year presentation.

NOTE 2 – FAIR VALUE MEASUREMENTS

The carrying values of cash and equivalents, accounts receivable, accounts and notes payable, and revolving credit and variable interest rate debt approximate fair value due to either the short-term nature of such instruments or the fact that the interest rate of the revolving credit and variable rate debt is based upon current market rates.

Applicable accounting guidance establishes a fair value hierarchy requiring the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. The accounting guidance establishes three levels of inputs that may be used to measure fair value, as follows:

Level 1 inputs are measured and recorded at fair value based upon quoted prices in active markets for identical assets.

Level 2 inputs include inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The fair values of Griffon's 2022 senior notes and 2017 4% convertible notes approximated \$588,000 and \$115,375, respectively, on March 31, 2016. Fair values were based upon quoted market prices (level 1 inputs).

Insurance contracts with values of \$2,935 at March 31, 2016, are measured and recorded at fair value based upon quoted prices in active markets for similar assets (level 2 inputs) and are included in Prepaid and other current assets on the Consolidated Balance Sheets.

Items Measured at Fair Value on a Recurring Basis

At March 31, 2016, trading securities, measured at fair value based on quoted prices in active markets for similar assets (level 2 inputs), with a fair value of \$1,200 (\$1,000 cost basis) were included in Prepaid and other current assets on the Consolidated Balance Sheets. During the first quarter of 2016, the Company settled trading securities with proceeds totaling \$715 and recognized a loss of \$13 in Other income (expense). During the second quarter of the prior year, the Company settled all outstanding available-for-sale securities with proceeds totaling \$8,891 and recognized a gain of \$489 in Other income (expense) and, accordingly, a gain of \$870, net of tax, on available-for-sale securities was reclassified out of Accumulated other comprehensive income (loss) ("AOCI"). Realized and unrealized gains and losses on trading securities, and realized gains and losses on available-for-sale securities are included in Other income in the Consolidated Statements of Operations and Comprehensive Income (Loss).

In the normal course of business, Griffon's operations are exposed to the effect of changes in foreign currency exchange rates. To manage these risks, Griffon may enter into various derivative contracts such as foreign currency exchange contracts, including forwards and options. During 2016, Griffon entered into several such contracts in order

to lock into a foreign currency rate for planned settlements of trade and inter-company liabilities payable in US dollars.

At March 31, 2016, Griffon had \$33,000 of Australian dollar contracts at a weighted average rate of \$1.30, which qualified for hedge accounting. These hedges were all deemed effective as cash flow hedges with gains and losses related to changes in fair value deferred and recorded in AOCI and Prepaid and other current assets, or Accrued liabilities, until settlement. Upon settlement,

6

gains and losses are recognized in the Consolidated Statements of Operations and Comprehensive Income (Loss) in Cost of goods and services ("COGS"). AOCI included deferred losses of \$2,714 (\$1,981, net of tax) at March 31, 2016 and gains of \$181 and \$585 were recorded in COGS during the quarter and six months ended March 31, 2016, respectively, for all settled contracts. All contracts expire in 28 to 270 days.

At March 31, 2016, Griffon had \$4,615 of Canadian dollar contracts at a weighted average rate of \$1.30. The contracts, which protect Canada operations from currency fluctuations for U.S. dollar based purchases, do not qualify for hedge accounting. For the quarter and six months ended March 31, 2016, a fair value loss of \$385 and \$284 were recorded to Other liabilities and to Other income for the outstanding contracts, based on similar contract values (level 2 inputs). All contracts expire in 15 to 180 days.

NOTE 3 – ACQUISITIONS AND INVESTMENTS

On February 14, 2016, AMES Australia acquired substantially all of the Intellectual Property (IP) assets of Australia-based Nylex Plastics Pty Ltd. for approximately \$1,700. Through this acquisition, AMES and Griffon secured the ownership of the trademark "Nylex" for certain categories of AMES products, principally in the country of Australia. Previously, the Nylex name was licensed. The acquisition of the Nylex IP was contemplated as a post-closing activity of the Cyclone acquisition and supports AMES' Australian watering products strategy. The purchase price was allocated to indefinite lived trademarks and is not deductible for income taxes.

In December 2015, Telephonics invested an additional \$2,726 increasing its equity stake from 26% to 49% in Mahindra Telephonics Integrated Systems (MTIS), a joint venture with Mahindra Defence Systems, a Mahindra Group Company. MTIS is an aerospace and defense manufacturing and development facility in Prithla, India. This investment is accounted for using the equity method.

On April 16, 2015, AMES acquired the assets of an operational wood mill in Champion, PA from the Babcock Lumber Company for \$2,225. The purchase price was preliminarily allocated to property, plant and equipment. The wood mill secures wood supplies, lowers overall production costs and mitigates risk associated with manufacturing handles for wheelbarrows and long-handled tools.

NOTE 4 – INVENTORIES

Inventories are stated at the lower of cost (first-in, first-out or average) or market.

The following table details the components of inventory:

	At March 31, 2016	At September 30, 2015
Raw materials and supplies	\$ 83,854	\$ 91,973
Work in process	66,862	70,811
Finished goods	160,851	163,025
Total	\$ 311,567	\$ 325,809

NOTE 5 – PROPERTY, PLANT AND EQUIPMENT

The following table details the components of property, plant and equipment, net:

	At March 31, 2016	At September 30, 2015
--	-------------------------	-----------------------------

Edgar Filing: GRIFFON CORP - Form 10-Q

Land, building and building improvements	\$ 131,200	\$ 131,546

Accumulated depreciation and amortization	(574,001)	(546,233)
Total	\$ 386,109	\$ 379,972

7

Depreciation and amortization expense for property, plant and equipment was \$15,248 and \$15,279 for the quarters ended March 31, 2016 and 2015, respectively, and \$30,457 and \$30,558 for the six months ended March 31, 2016 and 2015, respectively. Depreciation included in SG&A expenses was \$3,250 and \$3,262 for the quarters ended March 31, 2016 and 2015, respectively, and \$6,408 and \$6,432 for the six months ended March 31, 2016 and 2015, respectively. Remaining components of depreciation, attributable to manufacturing operations, are included in Cost of goods and services.

No event or indicator of impairment occurred during the six months ended March 31, 2016, which would require additional impairment testing of property, plant and equipment.

NOTE 6 – GOODWILL AND OTHER INTANGIBLES

The following table provides changes in the carrying value of goodwill by segment during the six months ended March 31, 2016:

	At September 30, 2015	Other adjustments including currency translations	At March 31, 2016
Home & Building Products	\$ 285,825	\$ 1,774	\$ 287,599

PPC	51,871	2,079	53,950
Total	\$ 356,241	\$ 3,853	\$ 360,094

The following table provides the gross carrying value and accumulated amortization for each major class of intangible assets:

	At March 31, 2016			At September 30, 2015	
	Gross Carrying Amount	Accumulated Amortization	Average Life (Years)	Gross Carrying Amount	Accumulated Amortization
Customer relationships	\$ 171,123	\$ 43,882	25	\$ 168,560	\$ 39,755
Unpatented technology	6,195	3,864	12.5	6,107	3,525
Total amortizable intangible assets	177,318	47,746		174,667	43,280

Total intangible assets	\$ 262,479	\$ 47,746		\$ 257,117	\$ 43,280

Amortization expense for intangible assets was \$1,870 and \$1,914 for the quarters ended March 31, 2016 and 2015, respectively and \$3,745 and \$3,895 for the six months ended March 31, 2016 and 2015, respectively.

No event or indicator of impairment occurred during the six months ended March 31, 2016 which would require impairment testing of long-lived intangible assets including goodwill.

NOTE 7 – INCOME TAXES

In both the quarter and six months ended March 31, 2016 and 2015, the Company reported pretax income, and recognized tax provisions of 38.0% and 36.6% for the quarter and six months ended March 31, 2016, respectively, compared to 37.5% and 37.7%, respectively, in the comparable prior year periods.

The six months ended March 31, 2016 included a \$356 discrete tax benefit primarily resulting from the retroactive extension of the federal R&D credit signed into law December 18, 2015. The current quarter ended March 31, 2016 included a de minimis discrete tax provision. The comparable prior year second quarter and six months ended March 31, 2015 included discrete tax provisions of \$145 and \$494, respectively, primarily resulting from taxes on repatriation of foreign earnings, partially offset by the benefit of the retroactive extension of the federal R&D credit signed into law December 19, 2014 and release of a valuation allowance. Excluding discrete items, the effective tax rates for the quarter and six months ended March 31, 2016 were 37.6% and 38.2%, respectively, compared to 35.7% and 35.2%, respectively, in the comparable prior year periods.

(a) On February 27, 2014, in an unregistered offering through a private placement under Rule 144A, Griffon issued, at par, \$600,000 of 5.25% Senior Notes due 2022 ("Senior Notes"); interest is payable semi-annually on March 1 and September 1. Proceeds from the Senior Notes were used to redeem \$550,000 of 7.125% senior notes due 2018, to pay a call and tender offer premium of \$31,530 and to make interest payments of \$16,716, with the balance used to pay a portion of the related transaction fees and expenses. In connection with the issuance of the Senior Notes, all obligations under the \$550,000 of 7.125% senior notes due 2018 were discharged.

The Senior Notes are senior unsecured obligations of Griffon guaranteed by certain domestic subsidiaries, and subject to certain covenants, limitations and restrictions. On June 18, 2014, Griffon exchanged all of the Senior Notes for substantially identical Senior Notes registered under the Securities Act of 1933 via an exchange offer. The fair value of the Senior Notes approximated \$588,000 on March 31, 2016 based upon quoted market prices (level 1 inputs).

In connection with these transactions, Griffon capitalized \$10,313 of underwriting fees and other expenses incurred related to the issuance and exchange of the Senior Notes, which will amortize over the term of such notes. Griffon recognized a loss on the early extinguishment of debt on the 7.125% senior notes aggregating \$38,890, comprised of the \$31,530 tender offer premium, the write-off of \$6,574 of remaining deferred financing fees and \$786 of prepaid interest on defeased notes.

(b) On March 22, 2016, Griffon amended its Revolving Credit Facility (the "Credit Agreement") to increase the maximum borrowing availability from \$250,000 to \$350,000, extend its maturity date from March 13, 2020 to March 22, 2021 and modify certain other provisions of the facility. The facility includes a letter of credit sub-facility with a limit of \$50,000 and a multi-currency sub-facility of \$50,000. The Credit Agreement provides for same day borrowings of base rate loans in lieu of a swing line sub-facility. Borrowings under the Credit Agreement may be repaid and re-borrowed at any time, subject to final maturity of the facility or the occurrence or event of default under the Credit Agreement. Interest is payable on borrowings at either a LIBOR or base rate benchmark rate, in each case without a floor, plus an applicable margin, which adjusts based on financial performance. Current margins are 1.25% for base rate loans and 2.25% for LIBOR loans. The Credit Agreement has certain financial maintenance tests including a maximum total leverage ratio, a maximum senior secured leverage ratio and a minimum interest coverage ratio, as well as customary affirmative and negative covenants, and events of default. The negative covenants place limits on Griffon's ability to, among other things, incur indebtedness, incur liens, and make restricted payments and investments. Borrowings under the Credit Agreement are guaranteed by Griffon's material domestic subsidiaries and are secured, on a first priority basis, by substantially all domestic assets of the Company and the guarantors, and a pledge of not greater than 65% of the equity interest in Griffon's material, first-tier foreign subsidiaries (except that a lien on the assets of Griffon's material domestic subsidiaries securing a limited amount of the debt under the credit agreement relating to Griffon's Employee Stock Ownership Plan ("ESOP") ranks pari passu with the lien granted on such assets under the Credit Agreement; see footnote (e) below). At March 31, 2016, outstanding borrowings and standby letters of credit were \$122,500 and \$15,922, respectively, under the Credit Agreement; \$211,578 was available, subject to certain loan covenants, for borrowing at that date.

(c) On December 21, 2009, Griffon issued \$100,000 principal of 4% convertible subordinated notes due 2017 (the "2017 Notes"). The current conversion rate of the 2017 Notes is 70.1631 shares of Griffon's common stock per \$1 principal amount of notes, corresponding to a conversion price of \$14.25 per share. Prior to July 15, 2016, if for at least 20 trading days out of the last 30 trading days during any fiscal quarter the closing price of Griffon's common stock is 130% or greater than the conversion price on each such trading day, then at any time during the immediately subsequent fiscal quarter any holder has the option to convert such holder's note (and the Company is required to notify the trustee under the notes, and the holders of the notes, that this condition to conversion has been met). At any time on or after July 15, 2016, any holder has the option to convert such holder's notes; Griffon has the right to settle the conversion of the 2017 Notes in cash, stock or a combination of cash and stock. Griffon

has the intent and ability to settle the principal components of any conversion of notes in cash. When a cash dividend is declared that would result in an adjustment to the conversion ratio of less than 1%, any adjustment to the conversion ratio is deferred until the first to occur of (i) actual conversion; (ii) the 42nd trading day prior to maturity of the notes; and (iii) such time as the cumulative adjustment equals or exceeds 1%. At both March 31, 2016 and 2015, the 2017 Notes had a capital in excess of par component, net of tax, of \$15,720. The fair value of the 2017 Notes approximated \$115,375 on March 31, 2016 based upon quoted market prices (level 1 inputs). These notes are classified as long term debt as Griffon has the intent and ability to refinance the principal amount of the notes, including with borrowings under the Credit Agreement.

In September 2015 and March 2016, Griffon entered into mortgage loans in the amounts of \$32,280 and \$8,000, respectively. The mortgage loans are secured by four properties occupied by Griffon's subsidiaries. The loans (d) mature in September 2025 and April 2018, respectively, are collateralized by the specific properties financed and are guaranteed by Griffon. The loans bear interest at a rate of LIBOR plus 1.50%. At March 31, 2016, \$38,556 was outstanding, net of issuance costs.

In December 2013, Griffon's ESOP entered into an agreement that refinanced the two existing ESOP loans into one new Term Loan in the amount of \$21,098 (the "Agreement"). The Agreement also provided for a Line Note with \$10,000 available to purchase shares of Griffon common stock in the open market. In July 2014, Griffon's ESOP entered into an amendment to the existing Agreement which provided an additional \$10,000 Line Note available to purchase shares in the open market. During 2014, the Line Notes were combined with the Term Loan to form one new Term Loan. The Term Loan bears interest at LIBOR plus 2.38% or the lender's prime rate, at Griffon's option. (e) The Term Loan requires quarterly principal payments of \$551, with a balloon payment of approximately \$30,137 due at maturity on December 31, 2018. During 2014, 1,591,117 shares of Griffon common stock, for a total of \$20,000 or \$12.57 per share, were purchased with proceeds from the Line Notes. As of March 31, 2016, \$35,454, net of issuance costs, was outstanding under the Term Loan. The Term Loan is secured by shares purchased with the proceeds of the loan and with a lien on a specific amount of Griffon assets (which lien ranks pari passu with the lien granted on such assets under the Credit Agreement) and is guaranteed by Griffon.

In October 2006, CBP entered into a capital lease totaling \$14,290 for real estate in Troy, Ohio. The lease matures (f) in 2022, bears interest at a fixed rate of 5.0%, is secured by a mortgage on the real estate and is guaranteed by Griffon. At March 31, 2016, \$6,850 was outstanding, net of issuance costs.

In September 2015, Clopay Europe GmbH ("Clopay Europe") entered into a EUR 5,000 (\$5,678 as of March 31, 2016) revolving credit facility and EUR 15,000 term loan. The term loan is payable in twelve quarterly installments of EUR 1,250, bears interest at a fixed rate of 2.5% and matures in September 2018. The revolving facility matures in September 2016, but is renewable upon mutual agreement with the bank. The revolving credit (g) facility accrues interest at EURIBOR plus 1.75% per annum (1.75% at March 31, 2016). The revolver and the term loan are both secured by substantially all of the assets of Clopay Europe and its subsidiaries. Griffon guarantees the revolving facility and term loan. The term loan has an outstanding balance of EUR 12,500 (\$14,006 at March 31, 2016, net of issuance costs) and the revolver had no borrowings outstanding at March 31, 2016. Clopay Europe is required to maintain a certain minimum equity to assets ratio and is subject to a maximum debt leverage ratio (defined as the ratio of total debt to EBITDA).

Clopay do Brazil maintains lines of credit of R\$12,800 (\$3,597 as of March 31, 2016). Interest on borrowings accrues at a rate of Brazilian CDI plus 6.0% (20.13% at March 31, 2016). At March 31, 2016 there was approximately R\$6,911 (\$1,942 as of March 31, 2016) borrowed under the lines. PPC guarantees the loan and lines.

In November 2012, Garant G.P. ("Garant") entered into a CAD \$15,000 (\$11,567 as of March 31, 2016) revolving credit facility. The facility accrues interest at LIBOR (USD) or the Bankers Acceptance Rate (CDN) plus 1.3% per annum (1.93% LIBOR USD and 2.16% Bankers Acceptance Rate CDN as of March 31, 2016). The revolving facility matures in October 2016. This facility is classified as long term debt as Griffon has the intent and ability to refinance the borrowings. Garant is required to maintain a certain minimum equity. At March 31, 2016, there was CAD \$8,371 (\$6,455 as of March 31, 2016) borrowed under the revolving credit facility with CAD \$6,629 (\$5,112 as of March 31, 2016) available for borrowing.

In December 2013 and May 2014, Griffon Australia Holdings Pty Ltd (formerly known as Northcote Holdings Australia Pty Ltd) entered into two unsecured term loans in the outstanding amounts of AUD 12,500 and AUD 20,000, respectively. The AUD 12,500 term loan requires quarterly interest payments with principal due upon maturity in December 2016. This loan is classified as long term debt as Griffon has the intent and ability to refinance the principal amount. The AUD 20,000 term loan requires quarterly principal payments of AUD 625, with a balloon payment due upon maturity in May 2017. The loans accrue interest at Bank Bill Swap Bid Rate "BBSY" plus 2.8% per annum (5.09% at March 31, 2016 for each loan). As of March 31, 2016, Griffon had an outstanding combined balance of AUD \$30,555 (\$23,432 as of March 31, 2016) on the term loans, net of issuance costs.

A subsidiary of Northcote Holdings Pty Ltd also maintains a line of credit of AUD 5,000 (\$3,835 as of March 31, 2016), which accrues interest at BBSY plus 2.50% per annum (4.79% at March 31, 2016). At March 31, 2016, there

were AUD 4,000 (\$3,068 as of March 31, 2016) under the lines. The assets of a subsidiary of Northcote Holdings Pty Ltd secures the AUD 5,000 line of credit.

(h) Other long-term debt primarily consists of a loan with the Pennsylvania Industrial Development Authority with the balance consisting of capital leases.

At March 31, 2016, Griffon and its subsidiaries were in compliance with the terms and covenants of all credit and loan agreements.

NOTE 9 — SHAREHOLDERS' EQUITY

During 2016, the Company paid a quarterly cash dividend of \$0.05 per share in each quarter, totaling \$0.10 per share for the six months ended March 31, 2016. During 2015, the Company paid quarterly cash dividends of \$0.04 per share, totaling \$0.16 per share for the year. Dividends paid on allocated shares in the ESOP were used to pay down the ESOP loan and recorded as a reduction of debt service payments and compensation expense. A dividend payable was established for the holders of restricted shares; such dividends will be released upon vesting of the underlying restricted shares.

On May 4, 2016 the Board of Directors declared a quarterly cash dividend of \$0.05 per share, payable on June 23, 2016 to shareholders of record as of the close of business on May 27, 2016.

Compensation expense for restricted stock is recognized ratably over the required service period based on the fair value of the grant, calculated as the number of shares granted multiplied by the stock price on the date of grant and, for performance shares, the likelihood of achieving the performance criteria. Compensation cost related to stock-based awards with graded vesting, generally over a period of three to four years, is recognized using the straight-line attribution method and recorded within SG&A expenses.

On January 29, 2016, shareholders approved the Griffon Corporation 2016 Equity Incentive Plan ("Incentive Plan") under which awards of performance shares, performance units, stock options, stock appreciation rights, restricted shares, restricted stock units, deferred shares and other stock-based awards may be granted. Options granted under the Incentive Plan may be either "incentive stock options" or nonqualified stock options, generally expire ten years after the date of grant and are granted at an exercise price of not less than 100% of the fair market value at the date of grant. The maximum number of shares of common stock available for award under the Incentive Plan is 2,350,000 (600,000 of which may be issued as incentive stock options), plus (i) any shares reserved for issuance under the 2011 Equity Incentive Plan as of the effective date of the Incentive Plan, and (ii) any shares underlying awards outstanding on such effective date under the 2011 Incentive Plan that are canceled or forfeited. As of March 31, 2016, 1,795,603 shares were available for grant.

All grants outstanding under former equity plans will continue under their terms; no additional awards will be granted under such plans.

During the first quarter of 2016, Griffon granted 372,243 shares of restricted stock, subject to certain performance conditions, with vesting periods of three years, with a total fair value of \$6,425, or a weighted average fair value of \$17.26 per share. During the second quarter of 2016, Griffon granted 677,461 shares of restricted stock consisting of 605,000 shares to two senior executives with a vesting period of four years and a two year post-vesting holding period, and 31,761 shares of restricted stock, subject to certain performance conditions, with a vesting period of three years and a fair value of \$473, or a weighted average fair value of \$14.90 per share. Griffon also granted 40,700 shares with a vesting period of three years and a fair value of \$618, or a weighted average fair value of \$15.18 per share. The grants issued to two senior executive are subject to the achievement of certain absolute and relative performance conditions relating to the price of Griffon's common stock. So long as the minimum performance condition is attained, the amount of shares that can vest will range from 220,000 to 605,000. The total fair value of these restricted shares is approximately \$4,247, or a weighted average fair value of \$7.02.

For the quarters ended March 31, 2016 and 2015, stock based compensation expense totaled \$2,489 and \$2,795, respectively. For the six months ended March 31, 2016 and 2015, stock based compensation expense totaled \$5,555 and \$5,372, respectively.

During the quarter and six months ended March 31, 2016, 1,683 shares, with a market value of \$25 or \$14.85 per share, and 188,222 shares, with a market value of \$3,577 or \$19.00 per share, respectively, were withheld to settle

employee taxes due to the vesting of restricted stock, and were added to treasury.

On each of March 20, 2015 and July 29, 2015, Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock. Under these share repurchase programs, the Company may purchase shares in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. During the quarter ended March 31, 2016, Griffon purchased 1,516,919 shares of common stock under both the March 2015 and July 2015 programs, for a total of \$22,705 or \$14.97 per share. During the six months ended March 31, 2016, Griffon purchased 1,949,338 shares of common stock under both the

March 2015 and July 2015 programs, for a total of \$29,935 or \$15.36 per share. As of March 31, 2016, \$27,990 remains under the July 2015 Board authorization.

From August 2011 to March 31, 2016, Griffon repurchased 14,256,115 shares of common stock, for a total of \$183,067 or \$12.84 per share, under Board authorized repurchase programs.

In addition to repurchases under Board authorized programs, on December 10, 2013, Griffon repurchased 4,444,444 shares of its common stock for \$50,000 from GS Direct, L.L.C. (“GS Direct”), an affiliate of The Goldman Sachs Group, Inc. Subject to certain exceptions, if GS Direct intends to sell its remaining 5,555,556 shares of Griffon common stock at any time prior to December 31, 2016, it will first negotiate in good faith to sell such shares to the Company.

NOTE 10 – EARNINGS PER SHARE (EPS)

Basic EPS (and diluted EPS in periods when a loss exists) was calculated by dividing income available to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted EPS was calculated by dividing income available to common shareholders by the weighted average number of shares of common stock outstanding plus additional common shares that could be issued in connection with stock based compensation and upon the settlement of the 2017 Convertible notes. In the six months ended March 31, 2015, the 2017 Notes were anti-dilutive due to the conversion price being greater than the average stock price during the periods presented.

The following table is a reconciliation of the share amounts (in thousands) used in computing earnings per share:

	Three Months		Six Months	
	Ended March		Ended March	
	31,	31,	31,	31,
	2016	2015	2016	2015
Weighted average shares outstanding - basic	41,426	45,349	41,697	45,829
Incremental shares from stock based compensation	2,059	1,874	2,135	1,853
Convertible debt due 2017	406	446	895	—
Weighted average shares outstanding - diluted	43,891	47,669	44,727	47,682
Anti-dilutive options excluded from diluted EPS computation	416	567	418	580

Griffon has the intent and ability to settle the principal amount of the 2017 Notes in cash, and as such, the potential issuance of shares related to the principal amount of the 2017 Notes does not affect diluted shares.

NOTE 11 – BUSINESS SEGMENTS

Griffon’s reportable segments are as follows:

- HBP is a leading manufacturer and marketer of residential, commercial and industrial garage doors to professional dealers and major home center retail chains, as well as a global provider of non-powered landscaping products for homeowners and professionals.
- Telephonics develops, designs and manufactures high-technology integrated information, communication and sensor system solutions for military and commercial markets worldwide.
- PPC is an international leader in the development and production of embossed, laminated and printed specialty plastic films used in a variety of hygienic, health-care and industrial applications.

NOTE 13 – RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued guidance on revenue from contracts with customers. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved, in certain circumstances. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. This guidance permits the use of either the retrospective or cumulative effect transition method and is effective for the Company beginning in 2019; early adoption is permitted beginning in 2018. We have not yet selected a transition method and are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In August 2014, the FASB issued guidance on management's responsibility in evaluating whether there is substantial doubt about a company's ability to continue as a going concern and related footnote disclosures. Management will be required to evaluate, at each reporting period, whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. This guidance is effective prospectively for annual and interim reporting periods beginning in 2017; implementation of this guidance is not expected to have a material effect on the Company's financial condition or results of operations.

In April 2015, the FASB issued guidance on simplifying the presentation of debt issuance costs. This guidance requires debt issuance costs on the balance sheet to be presented as a direct deduction from the carrying amount of a related debt liability, similar to debt discounts. The Company early adopted this guidance in March 2015 and applied it retrospectively for all periods presented in the financial statements. Adoption of this standard did not have a significant impact on the Company's consolidated financial statements.

In November 2015, the FASB issued guidance on simplifying the presentation of deferred income taxes, requiring deferred income tax liabilities and assets to be classified as non-current in the statement of financial position. This guidance may be applied retrospectively or prospectively to all annual and interim periods presented and is effective for the Company beginning in fiscal 2018; implementation of this guidance is not expected to have a material effect on the Company's financial condition or results of operations.

In February 2016, the FASB issued guidance on lease accounting requiring lessees to recognize a right-of-use asset and a lease liability for long-term leases. The liability will be equal to the present value of lease payments. This guidance must be applied using a modified retrospective transition approach to all annual and interim periods presented and is effective for the company beginning in fiscal 2019. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In March 2016, the FASB issued guidance on simplifying several aspects of accounting for share-based payment award transactions, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This guidance requires a mix of prospective, modified retrospective, and retrospective transition to all annual and interim periods presented and is effective for the Company beginning in fiscal 2018. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements, and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 14 – DISCONTINUED OPERATIONS

The following amounts related to the Installation Services segment, discontinued in 2008, and other businesses discontinued several years ago, which have been segregated from Griffon's continuing operations, and are reported as assets and liabilities of discontinued operations in the condensed consolidated balance sheets:

	At March 31, 2016	At September 30, 2015
Assets of discontinued operations:		
Prepaid and other current assets	\$ 1,325	\$ 1,316
Other long-term assets	2,259	2,175
Total assets of discontinued operations	\$ 3,584	\$ 3,491
Liabilities of discontinued operations:		
Accrued liabilities, current	\$ 1,924	\$ 2,229
Other long-term liabilities	3,220	3,379
Total liabilities of discontinued operations	\$ 5,144	\$ 5,608

There was no Installation Services revenue or income for the six months ended March 31, 2016 or 2015.

NOTE 15 – OTHER EXPENSE

For the quarters ended March 31, 2016 and 2015, Other income (expense) included \$322 and \$985, respectively, of net currency exchange losses in connection with the translation of receivables and payables denominated in currencies other than the functional currencies of Griffon and its subsidiaries as well as \$10 and \$517, respectively, of net investment income.

For the six months ended March 31, 2016 and 2015, Other income (expense) included \$109 and \$(1,525), respectively, of net currency exchange gains (losses) in connection with the translation of receivables and payables denominated in currencies other than the functional currencies of Griffon and its subsidiaries as well as \$202 and \$563, respectively, of net investment income.

NOTE 16 – WARRANTY LIABILITY

Telephonics offers warranties against product defects for periods generally ranging from one to two years, depending on the specific product and terms of the customer purchase agreement. Typical warranties require Telephonics to repair or replace the defective products during the warranty period at no cost to the customer. At the time revenue is recognized, Griffon records a liability for warranty costs, estimated based on historical experience, and periodically assesses its warranty obligations and adjusts the liability as necessary. AMES offers an express limited warranty for a period of ninety days on all products from the date of original purchase unless otherwise stated on the product or packaging.

Changes in Griffon's warranty liability, included in Accrued liabilities, were as follows:

	Three Months Ended March 31,		Six Months Ended March 31,

NOTE 18 — COMMITMENTS AND CONTINGENCIES

Legal and environmental

Department of Environmental Conservation of New York State (“DEC”), with ISC Properties, Inc. Lightron Corporation (“Lightron”), a wholly-owned subsidiary of Griffon, once conducted operations at a location in Peekskill in the Town of Cortlandt, New York (the “Peekskill Site”) owned by ISC Properties, Inc. (“ISC”), a wholly-owned subsidiary of Griffon. ISC sold the Peekskill Site in November 1982.

Subsequently, Griffon was advised by the DEC that random sampling at the Peekskill Site and in a creek near the Peekskill Site indicated concentrations of solvents and other chemicals common to Lightron's prior plating operations. ISC then entered into a consent order with the DEC in 1996 (the "Consent Order") to perform a remedial investigation and prepare a feasibility study. After completing the initial remedial investigation pursuant to the Consent Order, ISC was required by the DEC, and did accordingly conduct over the next several years, supplemental remedial investigations, including soil vapor investigations, under the Consent Order.

In April 2009, the DEC advised ISC's representatives that both the DEC and the New York State Department of Health had reviewed and accepted an August 2007 Remedial Investigation Report and an Additional Data Collection Summary Report dated January 30, 2009. With the acceptance of these reports, ISC completed the remedial investigation required under the Consent Order and was authorized, accordingly, by the DEC to conduct the Feasibility Study required by the Consent Order. Pursuant to the requirements of the Consent Order and its obligations thereunder, ISC, without acknowledging any responsibility to perform any remediation at the Site, submitted to the DEC in August 2009, a draft feasibility study which recommended for the soil, groundwater and sediment media, remediation alternatives having a current net capital cost value, in the aggregate, of approximately \$5,000. In February 2011, DEC advised ISC it has accepted and approved the feasibility study. Accordingly, ISC has no further obligations under the consent order.

Upon acceptance of the feasibility study, DEC issued a Proposed Remedial Action Plan ("PRAP") that sets forth the proposed remedy for the site. The PRAP accepted the recommendation contained in the feasibility study for remediation of the soil and groundwater media, but selected a different remediation alternative for the sediment medium. The approximate cost and the current net capital cost value of the remedy proposed by DEC in the PRAP is approximately \$10,000. After receiving public comments on the PRAP, the DEC issued a Record of Decision ("ROD") that set forth the specific remedies selected and responded to public comments. The remedies selected by the DEC in the ROD are the same remedies as those set forth in the PRAP.

It is now expected that DEC will enter into negotiations with potentially responsible parties to request they undertake performance of the remedies selected in the ROD, and if such parties do not agree to implement such remedies, then the State of New York may use State Superfund money to remediate the Peekskill site and seek recovery of costs from such parties. Griffon does not acknowledge any responsibility to perform any remediation at the Peekskill Site.

Improper Advertisement Claim involving Union Tools® Products. Since December 2004, a customer of AMES has been named in various litigation matters relating to certain Union Tools products. The plaintiffs in those litigation matters have asserted causes of action against the customer of AMES for improper advertisement to end consumers. The allegations suggest that advertisements led the consumers to believe that Union Tools' hand tools were wholly manufactured within boundaries of the United States. The complaints assert various causes of action against the customer of AMES under federal and state law, including common law fraud. At some point, likely once the litigation against the customer of AMES ends, the customer may seek indemnity (including recovery of its legal fees and costs) against AMES for an unspecified amount. Presently, AMES cannot estimate the amount of loss, if any, if the customer were to seek legal recourse against AMES.

Union Fork and Hoe, Frankfort, NY site. The former Union Fork and Hoe property in Frankfort, NY was acquired by Ames in 2006 as part of a larger acquisition, and has historic site contamination involving chlorinated solvents, petroleum hydrocarbons and metals. AMES has entered into an Order on Consent with the New York State Department of Environmental Conservation. While the Order is without admission or finding of liability or acknowledgment that there has been a release of hazardous substances at the site, AMES is required to perform a remedial investigation of certain portions of the property and to recommend a remediation option. At the conclusion of the remediation phase to the satisfaction of the DEC, the DEC will issue a Certificate of Completion. AMES has performed significant investigative and remedial activities in the last few years under work plans approved by the DEC, and the DEC recently approved the final remedial investigation report. AMES is now required to submit a

Feasibility Study investigating four remedial options, and expects to do so in calendar 2016. The DEC is expected to issue a Record of Decision approving the selection of a remedial alternative in calendar 2016. Implementation of the selected remedial alternative is expected to occur in 2017. AMES has a number of defenses to liability in this matter, including its rights under a Consent Judgment entered into between the DEC and a predecessor of AMES relating to the site.

U.S. Government investigations and claims

Defense contracts and subcontracts, including Griffon's contracts and subcontracts, are subject to audit and review by various agencies and instrumentalities of the United States government, including among others, the Defense Contract Audit Agency ("DCAA"), the Defense Criminal Investigative Service ("DCIS"), and the Department of Justice ("DOJ") which has responsibility for asserting claims on behalf of the U.S. government. In addition to ongoing audits, Griffon is currently in discussions with the civil division of the U.S. Department of Justice regarding certain amounts the civil division has indicated it believes it is owed from Griffon with respect to certain U.S. government contracts in which Griffon acted as a subcontractor. No claim has been asserted against Griffon in connection with this matter, and Griffon believes that it does not have a material financial exposure in connection with this matter.

In general, departments and agencies of the U.S. Government have the authority to investigate various transactions and operations of Griffon, and the results of such investigations may lead to administrative, civil or criminal proceedings, the ultimate outcome of which could be fines, penalties, repayments or compensatory or treble damages. U.S. Government regulations provide that certain findings against a contractor may lead to suspension or debarment from future U.S. Government contracts or the loss of export privileges for a company or an operating division or subdivision. Suspension or debarment could have a material adverse effect on Telephonics because of its reliance on government contracts.

General legal

Griffon is subject to various laws and regulations relating to the protection of the environment and is a party to legal proceedings arising in the ordinary course of business. Management believes, based on facts presently known to it, that the resolution of the matters above and such other matters will not have a material adverse effect on Griffon's consolidated financial position, results of operations or cash flows.

Operating Leases

Griffon rents property and equipment under operating leases expiring at various dates. Most of the real property leases have escalation clauses related to increases in real property taxes. Rent expense for all operating leases totaled approximately \$7,305 and \$7,638 for the three months ended March 31, 2016 and 2015, respectively and totaled approximately \$14,638 and \$15,400 for the six months ended March 31, 2016 and 2015, respectively. Aggregate future annual minimum lease payments for operating leases are \$26,292 in 2016, \$20,741 in 2017, \$17,889 in 2018, \$14,729 in 2019, \$10,041 in 2020 and \$9,294 thereafter.

NOTE 19 — CONSOLIDATING GUARANTOR AND NON-GUARANTOR FINANCIAL INFORMATION

Griffon's Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior secured basis by the domestic assets of Clopay Building Products Company, Inc., Clopay Plastic Products Company, Inc., Telephonics Corporation, The AMES Companies, Inc., ATT Southern, Inc. and Clopay Ames True Temper Holding Corp., all of which are indirectly 100% owned by Griffon. In accordance with Rule 3-10 of Regulation S-X promulgated under the Securities Act of 1933, presented below are condensed consolidating financial information as of March 31, 2016 and September 30, 2015 and for the three and six months ended March 31, 2016 and 2015. The financial information may not necessarily be indicative of the results of operations or financial position of the guarantor companies or non-guarantor companies had they operated as independent entities. The guarantor companies and the non-guarantor companies include the consolidated financial results of their wholly-owned subsidiaries accounted for under the equity method.

The indenture relating to the Senior Notes (the "Indenture") contains terms providing that, under certain limited circumstances, a guarantor will be released from its obligations to guarantee the Senior Notes. These circumstances include (i) a sale of at least a majority of the stock, or all or substantially all the assets, of the subsidiary guarantor as permitted by the Indenture; (ii) a public equity offering of a subsidiary guarantor that qualifies as a "Minority Business" as defined in the Indenture (generally, a business the EBITDA of which constitutes less than 50% of the segment adjusted EBITDA of the Company for the most recently ended four fiscal quarters), and that meets certain other specified conditions as set forth in the Indenture; (iii) the designation of a guarantor as an "unrestricted subsidiary" as defined in the Indenture, in compliance with the terms of the Indenture; (iv) Griffon exercising its right to defease the Senior Notes, or to otherwise discharge its obligations under the Indenture, in each case in accordance with the terms of the Indenture; and (v) upon obtaining the requisite consent of the holders of the Senior Notes.

NOTE 20 – SUBSEQUENT EVENT

During the third quarter of 2016, PPC anticipates incurring pre-tax restructuring and related exit costs approximating \$5,000 primarily related to headcount reductions at PPC's Dombuhl, Germany facility, other location headcount reductions and for costs related to the shut down of PPC's Turkey facility. The Dombuhl charges are related to an optimization plan that will drive innovation and enhance our industry leading position in printed breathable back sheet. The facility will be transformed into a state of the art hygiene products facility focused on breathable printed film and siliconized products. In conjunction with this effort, our customer base will be streamlined, and we will dispose of old assets and reduce overhead costs, allowing for gains in efficiencies.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

BUSINESS OVERVIEW

Griffon Corporation (the "Company" or "Griffon") is a diversified management and holding company conducting business through wholly-owned subsidiaries. Griffon oversees the operations of its subsidiaries, allocates resources among them and manages their capital structures. Griffon provides direction and assistance to its subsidiaries in connection with acquisition and growth opportunities as well as in connection with divestitures. In order to further diversify, Griffon also seeks out, evaluates and, when appropriate, will acquire additional businesses that offer potentially attractive returns on capital.

Griffon currently conducts its operations through three reportable segments:

Home & Building Products ("HBP") consists of two companies, The AMES Companies, Inc. ("AMES") and Clopay Building Products Company, Inc. ("CBP"):

AMES is a global provider of non-powered landscaping products for homeowners and professionals.

CBP is a leading manufacturer and marketer of residential, commercial and industrial garage doors to professional dealers and major home center retail chains.

Telephonics Corporation ("Telephonics") designs, develops and manufactures high-technology integrated information, communication and sensor system solutions for military and commercial markets worldwide.

Clopay Plastic Products Company, Inc. ("PPC") is an international leader in the development and production of embossed, laminated and printed specialty plastic films used in a variety of hygienic, health-care and industrial applications.

We are focused on acquiring, owning and operating businesses in a variety of industries. We are long-term investors that have substantial experience in a variety of industries. Our intent is to continue the growth of our existing segments and diversify further through investments and acquisitions.

As a result of the decline in the U.S. housing market, in May 2008, we announced the divestiture of our Installation Services business, which was consummated by September 2008. In September 2008, Griffon strengthened its balance sheet by raising \$248,600 in equity through a common stock rights offering and a related investment by GS Direct L.L.C., an affiliate of The Goldman Sachs Group, Inc. Since that time, Griffon has continued to refine and enhance the strategic direction and operating performance of its companies, while strengthening its balance sheet. During this period, Griffon has grown revenue and earnings through organic growth, cost containment and acquisitions, while returning capital to its shareholders through dividends and stock buybacks.

On September 30, 2010, Griffon purchased AMES for \$542,000 in cash. Subsequently, Griffon acquired three businesses complementary to AMES: the pots and planters business of Southern Sales & Marketing ("Southern Patio"), Northcote Pottery™ ("Northcote") and the Australian Garden and Tools division of Illinois Tool Works, Inc. ("Cyclone").

On October 17, 2011, AMES acquired Southern Patio for approximately \$23,000. Southern Patio is a leading designer, manufacturer and marketer of landscape accessories.

In January 2013, AMES announced its intention to close certain U.S. manufacturing facilities and consolidate affected operations primarily into its Camp Hill and Carlisle, PA locations. These actions, which were completed at the end of the first quarter of 2015, improve manufacturing and distribution efficiencies, allow for in-sourcing of certain production previously performed by third party suppliers, and improve material flow and absorption of fixed costs. Management estimates that the AMES' initiative resulted in annualized cash savings exceeding \$10,000. Realization of savings began in the 2015 second quarter.

On December 31, 2013, AMES acquired Northcote, founded in 1897 and a leading brand in the Australian outdoor planter and decor market, for approximately \$22,000.

On May 21, 2014, AMES acquired Cyclone for approximately \$40,000. Cyclone offers a full range of quality garden and hand tool products sold under various leading brand names including Cyclone®, Nylex® and Trojan®, designed to meet the requirements

of both the Do-it-Yourself and professional trade segments. The Northcote and Cyclone acquisitions complement Southern Patio and add to AMES' existing lawn and garden operations in Australia.

From August 2011 through March 31, 2016, Griffon repurchased 18,700,559 shares of its common stock, for a total of \$233,067 or \$12.46 per share. This included the repurchase of 14,256,115 shares on the open market, as well as the December 10, 2013 repurchase of 4,444,444 shares from GS Direct for \$50,000, or \$11.25 per share. In each of August 2011, May 2014, March 2015, and July 2015, Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock. Under these programs, the Company may purchase shares in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. At March 31, 2016, \$27,990 in the aggregate remains under the July 2015 Board authorization.

Since September 2008, Griffon's Employee Stock Ownership Plan ("ESOP") has purchased 4,013,459 shares of Griffon's common stock, for a total of \$44,973 or \$11.21 per share. At March 31, 2016, the ESOP holds allocated and unallocated shares totaling 5,434,742, or 12% of Griffon's outstanding shares, with a related loan balance of \$35,454, net of issuance costs.

On November 17, 2011, the Company began declaring quarterly dividends. During the first six months of 2016, and during 2015, 2014 and 2013, the Company declared and paid dividends per share of \$0.10, \$0.16, \$0.12 and \$0.10, respectively, for a total of \$24,250 dividends paid during the period.

During 2014, Griffon issued \$600,000 of 5.25% Senior Notes due 2022 the proceeds of which were used to redeem \$550,000 of 7.125% senior notes due 2018.

In January 2016, Griffon launched its new website: www.griffon.com.

On March 22, 2016, Griffon amended its Revolving Credit Facility to increase the credit facility from \$250,000 to \$350,000, extend its maturity date from March 13, 2020 to March 22, 2021 and modify certain other provisions of the facility.

Griffon also has outstanding \$100,000 principal amount of 4% Convertible Subordinated Notes due 2017, with a current conversion rate of 70.1631 shares of Griffon's common stock per \$1 principal amount of notes, which corresponds to a conversion price of \$14.25 per share.

OVERVIEW

Revenue for the quarter ended March 31, 2016 was \$500,107 compared to \$500,020 in the prior year quarter. Excluding the unfavorable impact of foreign currency, revenue increased 2%, primarily from Telephonics and continued growth at HBP, partially offset by reduced PPC volume. Net income was \$6,095 or \$0.14 per share, compared to \$5,122 or \$0.11 per share, in the prior year quarter; foreign currency was not material in the quarter. The current and prior year discrete tax provisions were not material.

Revenue for the six months ended March 31, 2016 was \$994,256 compared to \$1,002,180 in the prior year period, a decrease of 1%. Excluding the unfavorable impact of foreign currency, revenue increased 2%, primarily from Telephonics and growth at CBP, partially offset by the impact of warmer seasonal weather conditions at AMES and reduced PPC volume. Net income was \$14,691 or \$0.33 per share, compared to a net income of \$12,593 or \$0.26 per share, in the prior year period. The current and prior year results for the six months ended March 31, 2016 included discrete tax benefits, net, of \$356 or \$0.01 per share, compared to discrete tax provisions of \$494, or \$0.01 per share in the six months ended March 31, 2015. Excluding discrete items from the respective periods, Net income would have been \$14,335 or \$0.32 per share in the six months ended March 31, 2016 compared to \$13,087 or \$0.27 per

share in the six months ended March 31, 2015. Excluding both the impact of foreign currency and discrete tax items, current year-to-date Net income would have been \$16,057 or \$0.36 per share in the six months ended March 31, 2016, compared to \$15,537 or \$0.33 in the six months ended March 31, 2015.

For the quarter ended March 31, 2016, revenue increased \$15,629 or 6%, compared to the prior year quarter. Excluding a \$4,400 or 2% unfavorable foreign currency impact, revenue increased 8% compared to the prior year quarter. AMES revenue increased 4% due to improved U.S. snow tool, garden tool and pot and planter sales; foreign currency was 3% unfavorable. CBP revenue increased 8% due to increased volume and favorable product mix; foreign currency did not have a material impact on CBP revenue.

For the quarter ended March 31, 2016, Segment operating profit increased 106% to \$17,810 compared to \$8,651 in the prior year quarter, driven by increased sales, operational efficiency improvements and cost control measures at AMES, and increased volume, favorable product mix and decreased material costs at CBP; foreign currency was 2% unfavorable. Segment depreciation and amortization increased \$151 from the prior year quarter.

For the six months ended March 31, 2016, revenue increased \$5,117 or 1%, compared to the prior year period. Excluding a \$14,300 or 3% unfavorable foreign currency impact, revenue increased 4% compared to the prior year period. AMES revenue decreased 3%, due to reduced snow tool sales in both Canada and U.S. as a result of warmer seasonal weather conditions, partially offset by improved pots and planter sales; foreign currency was 4% unfavorable. CBP revenue increased 5% due to increased volume and favorable product mix; foreign currency was 1% unfavorable.

For the six months ended March 31, 2016, Segment operating profit increased 56% to \$38,969 compared to \$25,020 in the prior year period, driven by AMES operational efficiency improvements and cost control measures and at CBP, increased volume, favorable mix and decreased material costs, partially offset by the impact of reduced snow tool sales at AMES; foreign currency was 11% unfavorable. Segment depreciation and amortization increased \$418 from the prior year period.

On February 14, 2016, AMES Australia acquired substantially all of the Intellectual Property (IP) assets of Australia-based Nylex Plastics Pty Ltd. for approximately \$1,700. Through this acquisition, AMES and Griffon secured the ownership of the trademark "Nylex" for certain categories of AMES products, principally in the country of Australia. Previously, the Nylex name was licensed. The acquisition of the Nylex IP was contemplated as a post-closing activity of the Cyclone acquisition and supports AMES' Australian watering products strategy. The purchase price was allocated to indefinite lived trademarks and is not deductible for income taxes.

For the quarter ended March 31, 2016, revenue increased \$7,187 or 7% compared to the prior year quarter, due to mobile ground surveillance systems, secured digital intercommunication systems and contract manufacturing of dismounted Electronic Countermeasure ("ECM") systems, partially offset by decreased revenue from certain maritime surveillance radar systems.

Table of Contents

For the quarter ended March 31, 2016, Segment operating profit decreased \$1,239 or 14%, and operating profit margin decreased 180 basis points, compared to the prior year quarter, driven by the timing of work performed on maritime surveillance radar systems, partially offset by the timing of research and development expenses.

For the six months ended March 31, 2016, revenue increased \$25,566 or 14%, compared to the prior year period, due to airborne maritime and ground surveillance radar systems and contract manufacturing of dismantled ECM systems, partially offset by cost growth recognized on certain components for airport surveillance radar systems.

For the six months ended March 31, 2016, Segment operating profit decreased \$943 or 6%, and operating margin decreased 150 basis points compared to the prior year period, driven by the cost growth on airport surveillance radar systems, partially offset by the timing of work performed on research and development initiatives.

During the six months ended March 31, 2016, Telephonics was awarded several new contracts and incremental funding on existing contracts approximating \$219,000. Contract backlog was \$446,000 at March 31, 2016, with 76% expected to be fulfilled in the next 12 months. Backlog was \$442,000 at September 30, 2015 and \$482,000 at March 31, 2015. Backlog is defined as unfilled firm orders for products and services for which funding has been both authorized and appropriated by the customer or Congress, in the case of the U.S. government agencies. In December 2015, Telephonics invested an additional \$2,726, increasing its equity stake from 26% to 49% in Mahindra Telephonics Integrated Systems (MTIS), a joint venture with Mahindra Defence Systems, a Mahindra Group Company. MTIS is an aerospace and defense manufacturing and development facility in Prithla, India.

For the quarter ended March 31, 2016, revenue decreased \$22,729, or 17%, compared to the prior year quarter, due to reduced volume of 12% driven by lower North American baby care orders, a \$5,500 or 4% unfavorable foreign currency impact, and a 1% unfavorable impact from the pass through of resin costs in customer selling prices. PPC adjusts selling prices based on underlying resin costs on a delayed basis.

For the quarter ended March 31, 2016, Segment operating profit decreased \$3,987 or 40% compared to the prior year quarter, driven by decreased volume and the change in the impact of resin pricing pass through of \$1,700, partially offset by favorable product mix; foreign currency had no material impact on Segment operating profit for the quarter. Segment depreciation was consistent with the prior year quarter.

For the six months ended March 31, 2016, revenue decreased \$38,607, or 14%, compared to the prior year period, due to the unfavorable impact of foreign currency of \$17,100 or 6%, reduced volume of 6% from lower North American baby care orders, a 1% unfavorable product mix and a 1% unfavorable impact from the pass through of resin costs in customer selling prices.

For the six months ended March 31, 2016, Segment operating profit decreased \$5,990 or 33% compared to the prior year period driven by decreased volume and first quarter operational inefficiencies experienced in Europe from bringing down equipment for maintenance. Resin and foreign currency had no material impact on Segment operating profit for the year. Segment depreciation decreased \$759 from the prior year period.

During April 2016, PPC announced a \$50,000 Sof-flex® breathable film investment which will expand breathable film capacity in North America, Europe and Brazil, increase our extrusion and print capacity, and enhance our innovation and technology capabilities. We expect the project to be completed in late calendar 2017.

Table of Contents

These investments will allow PPC to maintain and extend its technological advantage and allow us to differentiate ourselves from competitors, while meeting increasing customer demand for lighter, softer, more cost effective and more environmentally friendly products.

In addition, PPC expects to record approximately \$5,000 in restructuring charges in the third quarter of 2016. The charges are primarily related to headcount reductions at PPC's Dombuhl, Germany facility, other location headcount reductions and for costs related to the shut down of PPC's Turkey facility. The Dombuhl charges are related to an optimization plan that will drive innovation and enhance our industry leading position in printed breathable backsheets. The facility will be transformed into a state of the art hygiene products facility focused on breathable printed film and siliconized products. In conjunction with this effort, our customer base will be streamlined, and we will dispose of old assets and reduce overhead costs, allowing for gains in efficiencies. Management estimates that these actions will result in annual cash savings of \$3,000 based on current operating levels.

Unallocated

For the quarter ended March 31, 2016, unallocated amounts totaled \$9,379 compared to \$7,580 in the prior year; for the six months ended March 31, 2016, unallocated amounts totaled \$19,007 compared to \$15,844 in the prior year. The increase in the current quarter and six months compared to the respective prior year periods primarily relates to compensation and incentive costs.

Segment Depreciation and Amortization

Segment depreciation and amortization decreased \$80 and \$258, respectively, for the quarter and six months ended March 31, 2016 compared to the prior year periods, primarily due to assets fully amortizing, partially offset by the onset of depreciation for new assets placed in service.

Other Expense

For the quarters ended March 31, 2016 and 2015, Other income (expense) included \$322 and \$985, respectively, of net currency exchange losses in connection with the translation of receivables and payables denominated in currencies other than the functional currencies of Griffon and its subsidiaries as well as \$10 and \$517, respectively, of net investment income.

For the six months ended March 31, 2016 and 2015, Other income (expense) included \$109 and \$(1,525), respectively, of net currency exchange gains (losses) in connection with the translation of receivables and payables denominated in currencies other than the functional currencies of Griffon and its subsidiaries as well as \$202 and \$563, respectively, of net investment income.

Provision for income taxes

In both the quarter and six months ended March 31, 2016 and 2015, the Company reported pretax income, and recognized tax provisions of 38.0% and 36.6% for the quarter and six months ended March 31, 2016, respectively, compared to 37.5% and 37.7%, respectively, in the comparable prior year periods.

The six months ended March 31, 2016 included a \$356 discrete tax benefit primarily resulting from the retroactive extension of the federal R&D credit signed into law December 18, 2015. The current quarter ended March 31, 2016 included a de minimis discrete tax provision. The comparable prior year periods ended March 31, 2015 included discrete tax provisions of \$145 and \$494, respectively, primarily resulting from taxes on repatriation of foreign earnings, partially offset by the benefit of the retroactive extension of the federal R&D credit signed into law December 19, 2014 and release of a valuation allowance. Excluding discrete items, the effective tax rates for the

quarter and six months ended March 31, 2016 were 37.6% and 38.2%, respectively, compared to 35.7% and 35.2%, respectively, in the comparable prior year periods.

Stock based compensation

For the quarters ended March 31, 2016 and 2015, stock based compensation expense totaled \$2,489 and \$2,795, respectively. For the six months ended March 31, 2016 and 2015, such expense totaled \$5,555 and \$5,372, respectively.

Comprehensive income (loss)

For the quarter ended March 31, 2016, total other comprehensive income, net of taxes, of \$12,420, included a \$13,683 gain from foreign currency translation adjustments primarily due to the strengthening of the Euro, Canadian, Australian and Brazilian currencies, all in comparison to the U.S. Dollar, a \$386 benefit from pension amortization of actuarial losses and a \$1,649 loss on cash flow hedges.

Table of Contents

For the quarter ended March 31, 2015, total other comprehensive loss, net of taxes, of \$30,019, included a \$30,384 loss from foreign currency translation adjustments primarily due to the weakening of the Euro, Canadian, Australian and Brazilian currencies, all in comparison to the U.S. Dollar, a \$353 benefit from pension amortization of actuarial losses, an \$80 loss on cash flow hedges and a \$92 gain on available-for-sale securities.

For the six months ended March 31, 2016, total other comprehensive income, net of taxes, of \$8,442 included a \$10,334 gain from foreign currency translation adjustments primarily due to the strengthening of the Australian, Brazilian and Canadian currencies, partially offset by the weakening of the Euro, all in comparison to the U.S. Dollar, and a \$772 benefit from pension amortization of actuarial losses and \$2,664 loss on cash flow hedges.

For the six months ended March 31, 2015, total other comprehensive loss, net of taxes, of \$46,202 included a \$45,884 loss from foreign currency translation adjustments primarily due to the weakening of the Euro, Canadian, Australian and Brazilian currencies, all in comparison to the U.S. Dollar, and a \$706 benefit from pension amortization of actuarial losses, a \$154 loss on cash flow hedges and \$870 settlement of available-for-sale securities.

Discontinued operations – Installation Services

There was no revenue or income from the Installation Services' business for the quarters and six months ended March 31, 2016 and 2015.

LIQUIDITY AND CAPITAL RESOURCES

Management assesses Griffon's liquidity in terms of its ability to generate cash to fund its operating, investing and financing activities. Significant factors impacting liquidity include: cash flows from operating activities, capital expenditures, acquisitions, dispositions, bank lines of credit and the ability to attract long-term capital under satisfactory terms. Griffon believes it has sufficient liquidity available to invest in its existing businesses and execute strategic acquisitions, while managing its capital structure on both a short-term and long-term basis.

The following table is derived from the Condensed Consolidated Statements of Cash Flows:

Cash Flows from Continuing Operations (in thousands)	For the Six Months Ended March 31,	
	2016	2015
Net Cash Flows Provided by (Used In):		
Operating activities	\$(5,408)	\$(43,051)
Investing activities	(48,839)	(30,645)
Financing activities	56,321	28,206

Cash used in continuing operations for the six months ended March 31, 2016 was \$5,408 compared to \$43,051 in the prior year period. Current assets net of current liabilities, excluding short-term debt and cash, increased to \$473,005 at March 31, 2016 compared to \$397,824 at September 30, 2015, primarily due to decreased collections of accounts receivable and contract costs and recognized income not yet billed and increased settlement of accounts payable and accrued expenses, partially offset by increases in inventory.

During the six months ended March 31, 2016, Griffon used cash for investing activities of \$48,839 compared to \$30,645 in the prior year; the prior year included proceeds received of \$8,891 from the sale of available securities. Capital expenditures for the six months ended March 31, 2016 totaled \$45,952, an increase of \$6,239 from the prior year. In December 2015, Telephonics invested an additional \$2,726 increasing its equity stake from 26% to 49% in Mahindra Telephonics Integrated Systems (MTIS), a joint venture with Mahindra Defence Systems, a Mahindra Group Company. MTIS is an aerospace and defense manufacturing and development facility in Prithla, India. This investment is accounted for using the equity method. On February 14, 2016, AMES Australia acquired substantially all of the Intellectual Property (IP) assets of Australia-based Nylex Plastics Pty Ltd. for approximately \$1,700. Through this acquisition, AMES and Griffon secured the ownership of the trademark Nylex for certain categories of AMES products, principally in the country of Australia. Previously, the Nylex name was licensed. The acquisition of the Nylex IP was contemplated as a post-closing activity of the Cyclone acquisition and supports AMES' Australian watering products strategy. The purchase price was allocated to indefinite lived trademarks and is not deductible for income taxes.

During the six months ended March 31, 2016, cash provided by financing activities totaled \$56,321 compared to \$28,206 in the prior year. The inflow of cash provided by financing activities in the current year compared to the prior year principally reflects the changes in net borrowings under the Revolving Credit Facility (the "Credit Agreement") in 2016 compared to 2015. At March 31, 2016, outstanding borrowings under the Credit Agreement were \$122,500 compared to outstanding borrowings of \$95,000 at the same date in the prior year. On March 20, 2015 Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock; on July 29, 2015, an additional \$50,000 was authorized. Under these programs, the Company may purchase shares in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. During the six months ended March 31, 2016, Griffon purchased 1,949,338 shares of common stock under both the March 2015 and July 2015 programs, for a total of \$29,935 or \$15.36 per share. In addition, during the six months ended March 31, 2016, 188,222 shares, with a market value of \$3,577, or \$19.00 per share, were withheld to settle employee taxes due upon the vesting of restricted stock, and were added to treasury stock.

During the six months ended March 31, 2016, the Board of Directors approved two quarterly cash dividends of \$0.05 per share each. On May 4, 2016 the Board of Directors declared a quarterly cash dividend of \$0.05 per share, payable on June 23, 2016 to shareholders of record as of the close of business on May 27, 2016.

Payments related to Telephonics revenue are received in accordance with the terms of development and production subcontracts; certain of such receipts are progress or performance based payments. PPC customers are generally substantial industrial companies whose payments have been steady, reliable and made in accordance with the terms governing such sales. PPC sales satisfy orders that are received in advance of production, in which payment terms are established in advance. With respect to HBP, there have been no material adverse impacts on payment for sales.

Table of Contents

A small number of customers account for, and are expected to continue to account for, a substantial portion of Griffon's consolidated revenue. For the six months ended March 31, 2016:

The United States Government and its agencies, through either prime or subcontractor relationships, represented 16% of Griffon's consolidated revenue and 73% of Telephonics' revenue.

Procter & Gamble Co. represented 12% of Griffon's consolidated revenue and 52% of PPC revenue.

The Home Depot represented 13% of Griffon's consolidated revenue and 24% of HBP's revenue.

No other customer exceeded 10% of consolidated revenue. Future operating results will continue to substantially depend on the success of Griffon's largest customers and our ongoing relationships with them. Orders from these customers are subject to fluctuation and may be reduced materially. The loss of all or a portion of volume from any one of these customers could have a material adverse impact on Griffon's liquidity and operations.

On February 27, 2014, in an unregistered offering through a private placement under Rule 144A, Griffon issued, at par, \$600,000 of 5.25% Senior Notes due 2022 ("Senior Notes"); interest is payable semi-annually on March 1 and September 1. The Senior Notes are senior unsecured obligations of Griffon guaranteed by certain domestic subsidiaries, and subject to certain covenants, limitations and restrictions. On June 18, 2014, Griffon exchanged all of the Senior Notes for substantially identical Senior Notes registered under the Securities Act of 1933 via an exchange offer. The fair value of the Senior Notes approximated \$588,000 on March 31, 2016 based upon quoted market prices (level 1 inputs).

On March 22, 2016, Griffon amended its Credit Agreement to increase the maximum borrowing availability from \$250,000 to \$350,000, extend its maturity date from March 13, 2020 to March 22, 2021, and modify certain other provisions of the facility. The facility includes a letter of credit sub-facility with a limit of \$50,000 and a multi-currency sub-facility of \$50,000. Borrowings under the Credit Agreement may be repaid and re-borrowed at any time, subject to final maturity of the facility, or the occurrence or event of default under the Credit Agreement. Interest is payable on borrowings at either a LIBOR or base rate benchmark rate, in each case without a floor, plus an applicable margin, which adjusts based on financial performance. Current margins are 1.25% for base rate loans and 2.25% for LIBOR loans. The Credit Agreement has certain financial maintenance tests including a maximum total leverage ratio, a maximum senior secured leverage ratio and a minimum interest coverage ratio, as well as customary affirmative and negative covenants and events of default. The negative covenants place limits on Griffon's ability to, among other things, incur indebtedness, incur liens, and make restricted payments and investments. Borrowings under the Credit Agreement are guaranteed by Griffon's material domestic subsidiaries and are secured, on a first priority basis, by substantially all domestic assets of the Company and the guarantors and a pledge of not greater than 65% of the equity interest in Griffon's material, first-tier foreign subsidiaries (except that a lien on the assets of Griffon's material domestic subsidiaries securing a limited amount of the debt under the credit agreement relating to Griffon's Employee Stock Ownership Plan ("ESOP") ranks pari passu with the lien granted on such assets under the Credit Agreement). At March 31, 2016, outstanding borrowings and standby letters of credit were \$122,500 and \$15,922, respectively, under the Credit Agreement; \$211,578 was available, subject to certain loan covenants, for borrowing at that date.

On December 21, 2009, Griffon issued \$100,000 principal of 4% convertible subordinated notes due 2017 (the "2017 Notes"). The current conversion rate of the 2017 Notes is 70.1631 shares of Griffon's common stock per \$1 principal amount of notes, corresponding to a conversion price of \$14.25 per share. Prior to July 15, 2016, if for at least 20 trading days out of the last 30 trading days during any fiscal quarter the closing price of Griffon's common stock is 130% or greater than the conversion price on each such trading day, then at any time during the immediately subsequent fiscal quarter any holder has the option to convert such holder's note (and the Company is required to notify the trustee under the notes, and the holders of the notes, that this condition to conversion has been met). At any time on or after July 15, 2016, any holder has the option to convert such holder's notes; Griffon has the right to settle the conversion of the 2017 Notes in cash, stock or a combination of cash and stock. Griffon has the intent and ability to settle the principal components of any conversion of notes in cash. When a cash dividend is declared that would result in an adjustment to the conversion ratio of less than 1%, any adjustment to the conversion ratio is deferred until the

first to occur of (i) actual conversion; (ii) the 42nd trading day prior to maturity of the notes; and (iii) such time as the cumulative adjustment equals or exceeds 1%. At both March 31, 2016 and 2015, the 2017 Notes had a capital in excess of par component, net of tax, of \$15,720. The fair value of the 2017 Notes approximated \$115,375 on March 31, 2016 based upon quoted market prices (level 1 inputs). These notes are classified as long term debt as Griffon has the intent and ability to refinance the principal amount of the notes, including with borrowings under the Credit Agreement.

In September 2015 and March 2016, Griffon entered into mortgage loans in the amounts of \$32,280 and \$8,000, respectively. The mortgage loans are secured by four properties occupied by Griffon's subsidiaries. The loans mature in September 2025 and April 2018, respectively, are collateralized by the specific properties financed and are guaranteed by Griffon. The loans bear interest at a rate of LIBOR plus 1.50%. At March 31, 2016, 38,556 was outstanding under the mortgages, net of issuance costs.

In December 2013, Griffon's ESOP entered into an agreement that refinanced the two existing ESOP loans into one new Term Loan in the amount of \$21,098 (the "Agreement"). The Agreement also provided for a Line Note with \$10,000 available to purchase shares of Griffon common stock in the open market. In July 2014, Griffon's ESOP entered into an amendment to the existing Agreement which provided an additional \$10,000 Line Note available to purchase shares in the open market. During 2014, the Line Notes were combined with the Term Loan to form one new Term Loan. The Term Loan bears interest at LIBOR plus 2.38% or the lender's prime rate, at Griffon's option. The Term Loan requires quarterly principal payments of \$551, with a balloon payment of approximately \$30,137 due at maturity on December 31, 2018. During 2014, 1,591,117 shares of Griffon common stock, for a total of \$20,000 or \$12.57 per share, were purchased with proceeds from the Line Notes. As of March 31, 2016, \$35,454, net of issuance costs, was outstanding under the Term Loan. The Term Loan is secured by shares purchased with the proceeds of the loan and with a lien on a specific amount of Griffon assets (which lien ranks pari passu with the lien granted on such assets under the Credit Agreement) and is guaranteed by Griffon.

In October 2006, CBP entered into a capital lease totaling \$14,290 for real estate in Troy, Ohio. The lease matures in 2022, bears interest at a fixed rate of 5.0%, is secured by a mortgage on the real estate and is guaranteed by Griffon. At March 31, 2016, \$6,850 was outstanding, net of issuance costs.

In September 2015, Clopay Europe GmbH ("Clopay Europe") entered into a EUR 5,000 (\$5,678 as of March 31, 2016) revolving credit facility and a EUR 15,000 term loan. The term loan is payable in twelve quarterly installments of EUR 1,250, bears interest at a fixed rate of 2.5% and matures in September 2018. The revolving facility matures in September 2016, but is renewable upon mutual agreement with the bank. The revolving credit facility accrues interest at EURIBOR plus 1.75% per annum (1.75% at March 31, 2016). The revolver and the term loan are both secured by substantially all of the assets of Clopay Europe and its subsidiaries. Griffon guarantees the revolving facility and term loan. The term loan has an outstanding balance of EUR 12,500 (\$14,006 at March 31, 2016, net of issuance costs) and the revolver had no borrowings outstanding at March 31, 2016. Clopay Europe is required to maintain a certain minimum equity to assets ratio and is subject to a maximum debt leverage ratio (defined as the ratio of total debt to EBITDA).

Clopay do Brazil maintains lines of credit of R\$12,800 (\$3,597 as of March 31, 2016). Interest on borrowings accrues at a rate of Brazilian CDI plus 6.0% (20.13% at March 31, 2016). At March 31, 2016 there was approximately R\$6,911 (\$1,942 as of March 31, 2016) borrowed under the lines. PPC guarantees the loan and lines.

In November 2012, Garant G.P. ("Garant") entered into a CAD \$15,000 (\$11,567 as of March 31, 2016) revolving credit facility. The facility accrues interest at LIBOR (USD) or the Bankers Acceptance Rate (CDN) plus 1.3% per annum (1.93% LIBOR USD and 2.16% Bankers Acceptance Rate CDN as of March 31, 2016). The revolving facility matures in October 2016. This facility is classified as long term debt as Griffon has the intent and ability to refinance the borrowings. Garant is required to maintain a certain minimum equity. At March 31, 2016, there was CAD \$8,371 (\$6,455 as of March 31, 2016) borrowed under the revolving credit facility with CAD \$6,629 (\$5,112 as of March 31,

2016) available for borrowing.

In December 2013 and May 2014, Griffon Australia Holdings Pty Ltd (formerly known as Northcote Holdings Australia Pty Ltd) entered into two unsecured term loans in the outstanding amounts of AUD 12,500 and AUD 20,000, respectively. The AUD 12,500 term loan requires quarterly interest payments with principal due upon maturity in December 2016. This loan is classified as long term debt as Griffon has the intent and ability to refinance the principal amount. The AUD 20,000 term loan requires quarterly principal payments of AUD 625, with a balloon payment due upon maturity in May 2017. The loans accrue interest at Bank Bill Swap Bid Rate "BBSY" plus 2.8% per annum (5.09% at March 31, 2016 for each loan). As of March 31, 2016, Griffon had an outstanding combined balance of AUD \$30,555 (\$23,432 as of March 31, 2016) on the term loans, net of issuance costs.

A subsidiary of Northcote Holdings Pty Ltd also maintains a line of credit of AUD 5,000 (\$3,835 as of March 31, 2016), which accrues interest at BBSY plus 2.50% per annum (4.79% at March 31, 2016). At March 31, 2016, there were AUD 4,000 (\$3,068 as of March 31, 2016) under the lines. The assets of a subsidiary of Northcote Holdings Pty Ltd secures the AUD 5,000 line of credit.

Table of Contents

At March 31, 2016, Griffon and its subsidiaries were in compliance with the terms and covenants of its credit and loan agreements.

In each of March 2015 and July 2015, Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock. Under both programs, the Company may, from time to time, purchase shares of its common stock in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. During the quarter ended March 31, 2016, Griffon purchased 1,516,919 shares of common stock under the March 2015 and July 2015 programs, for a total of \$22,705 or \$14.97 per share. During the six month period ended March 31, 2016, Griffon purchased 1,949,338 shares of common stock under both the March 2015 and July 2015 programs for a total of \$29,935 or \$15.36 per share.

The December 10, 2013 repurchase of 4,444,444 shares from GS Direct for \$50,000 was effected in a private transaction at a per share price of \$11.25, an approximate 9.2% discount to the stock's closing price on November 12, 2013, the day before announcement of the transaction. This transaction was exclusive of the Company's authorized share repurchase programs. After closing the transaction, GS Direct continued to hold approximately 5.56 million shares (approximately 10% of the shares outstanding at such time) of Griffon's common stock. Subject to certain exceptions, if GS Direct intends to sell its remaining 5,555,556 shares of Griffon common stock at any time prior to December 31, 2016, it will first negotiate in good faith to sell such shares to the Company.

From August 2011 through March 31, 2016, Griffon repurchased 18,700,559 shares of its common stock, for a total of \$233,067 or \$12.46 per share, inclusive of the December 10, 2013 repurchase of 4,444,444 shares of its common stock for \$50,000 from GS Direct. As of March 31, 2016, \$27,990 remains under the July 2015 Board authorization.

On November 17, 2011, the Company began declaring quarterly cash dividends. During 2015, the Company declared and paid dividends totaling \$0.16 per share. During the six months ended March 31, 2016, the Board of Directors approved two quarterly cash dividends of \$0.05 per share. The Company currently intends to pay dividends each quarter; however, payment of dividends is determined by the Board of Directors at its discretion based on various factors, and no assurance can be provided as to the payment of future dividends.

On May 4, 2016 the Board of Directors declared a quarterly cash dividend of \$0.05 per share, payable on June 23, 2016 to shareholders of record as of the close of business on May 27, 2016.

During the six months ended March 31, 2016 and 2015, Griffon used cash for discontinued operations of \$578 and \$545, respectively, primarily related to settling remaining Installation Services liabilities and environmental costs.

CRITICAL ACCOUNTING POLICIES

The preparation of Griffon's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the use of estimates, assumptions, judgments and subjective interpretations of accounting principles that have an impact on assets, liabilities, revenue and expenses. These estimates can also affect supplemental information contained in public disclosures of Griffon, including information regarding contingencies, risk and its financial condition. These estimates, assumptions and judgments are evaluated on an ongoing basis and based on historical experience, current conditions and various other assumptions, and form the basis for estimating the carrying values of assets and liabilities, as well as identifying and assessing the accounting treatment for commitments and contingencies. Actual results may materially differ from these estimates. There have been no changes in Griffon's critical accounting policies from September 30, 2015.

Griffon's significant accounting policies and procedures are explained in the Management Discussion and Analysis section in the Annual Report on Form 10-K for the year ended September 30, 2015. In the selection of the critical accounting policies, the objective is to properly reflect the financial position and results of operations for each reporting period in a consistent manner that can be understood by the reader of the financial statements. Griffon considers an estimate to be critical if it is subjective and if changes in the estimate using different assumptions would result in a material impact on the financial position or results of operations of Griffon.

RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board issues, from time to time, new financial accounting standards, staff positions and emerging issues task force consensus. See the Notes to Condensed Consolidated Financial Statements for a discussion of these matters.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, especially “Management’s Discussion and Analysis”, contains certain “forward-looking statements” within the meaning of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Such statements relate to, among other things, income (loss), earnings, cash flows, revenue, changes in operations, operating improvements, industries in which Griffon Corporation (the “Company” or “Griffon”) operates and the United States and global economies. Statements in this Form 10-Q that are not historical are hereby identified as “forward-looking statements” and may be indicated by words or phrases such as “anticipates,” “supports,” “plans,” “projects,” “expects,” “believes,” “should,” “would,” “hope,” “forecast,” “management is of the opinion,” “may,” “will,” “estimates,” “intends,” “explores,” “opportunities,” the neg these expressions, use of the future tense and similar words or phrases. Such forward-looking statements are subject to inherent risks and uncertainties that could cause actual results to differ materially from those expressed in any forward-looking statements. These risks and uncertainties include, among others: current economic conditions and uncertainties in the housing, credit and capital markets; Griffon’s ability to achieve expected savings from cost control, integration and disposal initiatives; the ability to identify and successfully consummate and integrate value-adding acquisition opportunities; increasing competition and pricing pressures in the markets served by Griffon’s operating companies; the ability of Griffon’s operating companies to expand into new geographic and product markets and to anticipate and meet customer demands for new products and product enhancements and innovations; reduced military spending by the government on projects for which Griffon’s Telephonics Corporation supplies products, including as a result of continuing budgetary cuts resulting from sequestration and other government actions; the ability of the federal government to fund and conduct its operations; increases in the cost of raw materials such as resin and steel; changes in customer demand or loss of a material customer at one of Griffon’s operating companies; the potential impact of seasonal variations and uncertain weather patterns on certain of Griffon’s businesses; political events that could impact the worldwide economy; a downgrade in Griffon’s credit ratings; changes in international economic conditions including interest rate and currency exchange fluctuations; the reliance by certain of Griffon’s businesses on particular third party suppliers and manufacturers to meet customer demands; the relative mix of products and services offered by Griffon’s businesses, which impacts margins and operating efficiencies; short-term capacity constraints or prolonged excess capacity; unforeseen developments in contingencies, such as litigation and environmental matters; unfavorable results of government agency contract audits of Telephonics Corporation; Griffon’s ability to adequately protect and maintain the validity of patent and other intellectual property rights; the cyclical nature of the businesses of certain of Griffon’s operating companies; and possible terrorist threats and actions and their impact on the global economy. Additional important factors that could cause the statements made in this Quarterly Report on Form 10-Q or the actual results of operations or financial condition of Griffon to differ are discussed under the caption “Item 1A. Risk Factors” and “Special Notes Regarding Forward-Looking Statements” in Griffon’s Annual Report on Form 10-K for the year ended September 30, 2015. Readers are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements speak only as of the date made. Griffon undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Item 3 - Quantitative and Qualitative Disclosure About Market Risk

Griffon’s business’ activities necessitates the management of various financial and market risks, including those related to changes in interest rates, foreign currency rates and commodity prices.

Interest Rates

Griffon’s exposure to market risk for changes in interest rates relates primarily to variable interest rate debt and investments in cash and equivalents.

The revolving credit facility and certain other of Griffon's credit facilities have a LIBOR-based variable interest rate. Due to the current and expected level of borrowings under these facilities, a 100 basis point change in LIBOR would not have a material impact on Griffon's results of operations or liquidity.

Foreign Exchange

Griffon conducts business in various non-U.S. countries, primarily in Canada, Germany, Brazil, China and Australia; therefore, changes in the value of the currencies of these countries affect the financial position and cash flows when translated into U.S. Dollars. Griffon has generally accepted the exposure to exchange rate movements relative to its non-U.S. operations. Griffon may, from time to time, hedge its currency risk exposures. A change of 10% or less in the value of all applicable foreign currencies would not have a material effect on Griffon's financial position and cash flows.

Table of Contents

Item 4 - Controls and Procedures

Under the supervision and with the participation of Griffon's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), Griffon's disclosure controls and procedures, as defined by Exchange Act Rule 13a-15(e) and 15d-15(e), were evaluated as of the end of the period covered by this report. Based on that evaluation, Griffon's CEO and CFO concluded that Griffon's disclosure controls and procedures were effective at the reasonable assurance level.

During the period covered by this report, there were no changes in Griffon's internal control over financial reporting which materially affected, or are reasonably likely to materially affect, Griffon's internal control over financial reporting.

Limitations on the Effectiveness of Controls

Griffon believes that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all controls issues and instances of fraud, if any, within a company have been detected. Griffon's disclosure controls and procedures, as defined by Exchange Act Rule 13a-15(e) and 15d-15(e), are designed to provide reasonable assurance of achieving their objectives.

Item 1A Risk Factors

In addition to the other information set forth in this report, carefully consider the factors discussed in Item 1A to Part I in Griffon's Annual Report on Form 10-K for the year ended September 30, 2015, which could materially affect Griffon's business, financial condition or future results. The risks described in Griffon's Annual Report on Form 10-K are not the only risks facing Griffon. Additional risks and uncertainties not currently known to Griffon or that Griffon currently deems to be immaterial also may materially adversely affect Griffon's business, financial condition and/or operating results.
