Item 5. Other Events and Regulation FD Disclosure

On December 18, 2001, the Virginia State Corporation Commission (Virginia Commission) ordered Virginia Electric and Power Company (the Company) to operate under a plan of functional separation by division. Under the approved plan, the Company will maintain its electric transmission and distribution operations in a regulated division of the Company, and will operate its generation assets in a separate non-regulated division, in keeping with the Virginia Electric Utility Restructuring Act's provision that deregulates generation as of January 1, 2002. The Order left open the possibility that the generation assets of the Company may in the future be placed into a separate affiliate. On January 17, 2002, the Company filed a Notice of Appeal with the Virginia Commission.
