This Quarterly Report on Form 10-Q is a combined report being filed by three separate registrants: Questar Corporation (Questar or the Company), Questar Gas Company and Questar Pipeline Company. Questar Gas Company and Questar Pipeline Company are wholly-owned subsidiaries of Questar Corporation. Separate financial statements for Wexpro Company have not been included since Wexpro is not a registrant. See Note 9 to the accompanying financial statements for a summary of operations by line of business. Information contained herein related to any individual registrant is filed by such registrant solely on its own behalf. Each registrant makes no representation as to information relating exclusively to the other registrants.

Item 1 of Part I of this Quarterly Report on Form 10-Q includes separate financial statements (i.e. statements of income, statements of comprehensive income, balance sheets and statements of cash flows, as applicable) for Questar Corporation, Questar Gas Company and Questar Pipeline Company. The notes accompanying the financial statements are presented on a combined basis for all three registrants. Management's Discussion and Analysis of Financial Condition and Results of Operations included under Item 2 of Part I is presented by line of business.

QUESTAR CORPORATION
QUESTAR GAS COMPANY
QUESTAR PIPELINE COMPANY
NOTES ACCOMPANYING THE FINANCIAL STATEMENTS

The notes accompanying the financial statements apply to Questar Corporation, Questar Gas Company and Questar Pipeline Company unless otherwise noted.

Note 1 - Nature of Business

Questar Corporation is a Rockies-based integrated natural gas company with three principal complementary and wholly-owned lines of business:

Questar Gas Company (Questar Gas) provides retail natural gas distribution in Utah, Wyoming and Idaho. Wexpro Company (Wexpro) develops and produces natural gas from cost-of-service reserves for Questar Gas customers.

Questar Pipeline Company (Questar Pipeline) operates interstate natural gas pipelines and storage facilities in the western United States and provides other energy services.

Questar is headquartered in Salt Lake City, Utah. Shares of Questar common stock trade on the New York Stock Exchange (NYSE:STR).

#### Note 2 - Basis of Presentation of Interim Financial Statements

The interim financial statements contain the accounts of Questar and its wholly-owned subsidiaries. The financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP) and with the instructions for Quarterly Reports on Form 10-Q and SEC Regulations S-X and S-K. All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial statements reflect all normal, recurring adjustments and accruals that are, in the opinion of management, necessary for a fair presentation of financial position and results of operations for the interim periods presented. Interim financial statements do not include all of the information and notes required by GAAP for audited annual financial statements. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The preparation of financial statements and notes in conformity with GAAP requires that management make estimates and assumptions that affect the amounts of revenues, expenses, assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from estimates. The results of operations for the three, six and 12 months ended June 30, 2013, are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

Certain reclassifications were made to prior year information to conform to the current year presentation. This includes reclassifications on the Questar Condensed Consolidated Statements of Comprehensive Income and Condensed Consolidated Balance Sheets to reflect revised accounting for reclassifications out of accumulated other comprehensive loss related to the Company's pension and other postretirement benefit plans.

Questar uses the equity method to account for its investment in an unconsolidated affiliate where it does not have control, but has significant influence. White River Hub, LLC is a limited liability company and FERC-regulated transporter of natural gas. Questar Pipeline owns 50% of White River Hub, LLC and is the operator. Generally, the

investment in White River Hub, LLC on the Company's balance sheets equals the Company's proportionate share of equity reported by White River Hub, LLC. The investment is assessed for possible impairment when events indicate that the fair value of the investment may be below the Company's carrying value. When such a condition is deemed to be other-than-temporary, the carrying value of the investment is written down to its fair value, and the amount of the write-down is included in the determination of net income.

Questar Gas obtains the majority of its gas supply from Wexpro's cost-of-service production and pays Wexpro an operator service fee based on the terms of the Wexpro Agreement. Questar Gas also obtains transportation and storage services from Questar Pipeline. These intercompany revenues and expenses are eliminated in the Questar Consolidated Statements of Income by reducing revenues and cost of sales. The underlying costs of Wexpro's production and Questar Pipeline's transportation and storage services are disclosed in other categories in the Consolidated Statements of Income, including operating and maintenance expense and depreciation, depletion and amortization expense. During the second and third quarters of the year, a significant portion of the natural gas from Wexpro production is injected into underground storage. This gas is withdrawn from

Questar 2013 Form 10-Q

storage as needed during the heating season in the first and fourth quarters. The cost of natural gas sold is credited with the value of natural gas as it is injected into storage and debited as it is withdrawn from storage. The reported balance in consolidated cost of sales may be a negative amount during the second and third quarters because of the entries to record injection of gas into storage and the elimination of intercompany transactions. The details of Questar's consolidated cost of sales are as follows:

Note 3 - Comprehensive Income

Beginning in 2012, the Company and its subsidiaries adopted accounting guidance issued in June 2011 that resulted in the addition of statements of comprehensive income to the primary financial statements. Beginning in 2013, the Company and its subsidiaries adopted accounting guidance issued in February 2013 that requires additional disclosures about reclassifications from accumulated other comprehensive income into earnings.

Comprehensive income, as reported in Questar's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Consolidated Statements of Income and other comprehensive income (loss) (OCI). OCI includes recognition of the under-funded position of pension and other postretirement benefit plans, interest rate cash flow hedges, changes in the fair value of long-term investment, and the related income taxes. These transactions are not the culmination of the earnings process but result from periodically adjusting historical balances to fair value. Income or loss is recognized when the pension or other postretirement benefit (OPRB) costs are accrued, as the Company records interest expense for hedged interest payments and when the long-term investment is sold or otherwise realized. Details of the changes in the components of consolidated accumulated other comprehensive income (loss) (AOCI), net of income taxes, as reported in Questar's Condensed Consolidated Balance Sheets, are shown in the table below. The table also discloses details of income taxes related to each component of OCI.

Questar 2013 Form 10-Q

	Pension and OPRB	Interest rate cash flow hedges	Long-terrinvest.	m	Total	Pension and OPRB	Interest rate cas flow hedges		Long-term invest.	<sup>l</sup> Total

Total income taxes	(3.1)	_	0.1		(3.0)	(6.0)	(0.1	)	0.1	(6.0)	)
Net other comprehensive income	4.8	0.1	_		4.9	9.7	0.2		_	9.9	
AOCI at June 30, 2013	\$(213.5)	\$(23.0)	\$ 0.1		\$(236.4)	\$(213.5)	\$(23.0	)	\$ 0.1	\$(236	5.4)

<sup>(1)</sup> Interest rate cash flow hedge amounts are included in their entirety as charges to interest expense on the Consolidated Statements of Income.

Pension and other postretirement benefits AOCI reclassifications are included in the computation of net periodic pension and postretirement benefit costs. See Note 10 for additional details.

Comprehensive income (loss), as reported in Questar Pipeline's Condensed Consolidated Statements of Comprehensive Income, is the sum of net income as reported in the Questar Pipeline Consolidated Statements of Income and OCI. OCI includes interest rate cash flow hedges and the related income taxes. These transactions are not the culmination of the earnings process but result from periodically adjusting historical balances to fair value. Income or loss is recognized as the company records interest expense for hedged interest payments. Disclosures above regarding interest rate cash flow hedges, including income taxes and income statement reclassifications effects, apply to Questar Pipeline.

#### Note 4 - Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income by the weighted-average number of common shares outstanding during the reporting period. Diluted EPS includes the potential increase in the number of outstanding shares that could result from the exercise of in-the-money stock options, the vesting of restricted stock units (RSUs) with forfeitable dividends and the distribution of performance shares that are part of the Company's Long-Term Stock Incentive Plan (LTSIP), less shares repurchased under the treasury stock method. Restricted shares and RSUs with nonforfeitable dividends are participating securities for the computation of basic earnings per share. The application of the two-class method had an insignificant impact on the calculation of both basic and diluted EPS. A reconciliation of the components of basic and diluted shares used in the EPS calculation follows:

3 Month	s Ended	6 Month	s Ended	12 Mont	hs Ended
June 30,		June 30,		June 30,	
2013	2012	2013	2012	2013	2012
(in millio	ons)				
175.5	177.2	175.4	177.8	175.3	177.7

<sup>(2)</sup> Interest rate cash flow hedge amounts are included in their entirety as credits to income taxes on the Consolidated Statements of Income.

Weighted-average basic common shares outstanding Potential number of shares issuable under the Company's LTSIP Weighted-average diluted common shares outstanding	0.8	1.1	0.8	1.1	0.8	1.2
	176.3	178.3	176.2	178.9	176.1	178.9
Questar 2013 Form 10-Q 16						

#### Note 5 - Asset Retirement Obligations

Questar records an asset retirement obligation (ARO) along with an increase to the carrying value of the related property, plant and equipment when there is a legal obligation associated with the retirement of a tangible long-lived asset. Questar's AROs apply primarily to abandonment costs associated with gas and oil wells, production facilities and certain other properties. The Company has not recorded AROs on a majority of its long-lived transportation and distribution assets because the Company does not have a legal obligation to restore the area surrounding abandoned assets. The fair value of retirement costs is estimated by Company personnel based on abandonment costs of similar properties available to field operations and depreciated over the life of the related assets. Revisions to estimates result from material changes in the expected timing or amount of cash flows associated with AROs. Income or expense resulting from the settlement of ARO liabilities is included in net gain (loss) from asset sales in the Consolidated Statements of Income. The ARO liability is adjusted to present value each period through an accretion calculation using a credit-adjusted risk-free interest rate. Changes in Questar's AROs from the Condensed Consolidated Balance Sheets were as follows:

	6 Months E	6 Months Ended					
	June 30,						
	2013	2012					
	(in millions	s)					
AROs at beginning of year	\$67.2	\$63.8					
Accretion	1.5	1.5					
Liabilities incurred	1.3	1.7					
Revisions in estimated cash flows	(6.8	) (1.2	)				
Liabilities settled	(0.8	) (0.2	)				
AROs at June 30,	\$62.4	\$65.6					

Wexpro collects from Questar Gas and deposits in trust certain funds related to AROs. The funds are recorded as other noncurrent assets and used to satisfy retirement obligations as the properties are abandoned. The accounting treatment of reclamation activities associated with AROs for properties administered under the Wexpro Agreement is defined in a guideline letter between Wexpro and the Utah Division of Public Utilities and the staff of the Wyoming Public Service Commission (PSCW).

#### Note 6 - Fair Value Measurements

Questar complies with the provisions of the accounting standards for fair value measurements and disclosures. The standards establish a fair value hierarchy. Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The Company had no assets or liabilities measured using Level 3 inputs at June 30, 2013, June 30, 2012 or December 31, 2012.

Beginning in 2012, Questar adopted fair value accounting guidance issued in May 2011. The guidance did not result in any changes to the reported amounts of assets or liabilities, but did result in disclosure of the fair value hierarchy levels associated with fair value estimates for financial assets and liabilities not carried at fair value.

Questar 2013 Form 10-Q

#### Questar

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar's financial statements in this Quarterly Report on Form 10-Q:

	Hierarchy Leve of Fair Value Estimates	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value		Estimated Fair Value
		June 30, 20 (in millions		June 30, 2	2012	Dec. 31, 2	2012
Financial assets							
Cash and cash equivalents	1	\$	\$	<b>\$</b> —	\$	\$16.8	\$16.8
Long-term investment	1	16.5	16.5	14.7	14.7	15.5	15.5
Financial liabilities							
Checks outstanding in excess of cash balances	1	0.5	0.5	11.8	11.8	_	_
Short-term debt	1	206.0	206.0	190.0	190.0	263.0	263.0
Long-term debt, including current portion	2	1,100.0	1,200.3	1,083.4	1,245.5	1,140.9	1,303.1

The carrying amounts of cash and cash equivalents, checks outstanding in excess of cash balances and short-term debt approximate fair value. The long-term investment is recorded at fair value and consists of money market and short-term bond index mutual funds held in Wexpro's trust (see Note 5). The fair value of the long-term investment is based on quoted prices for the underlying funds. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using the Company's current credit risk-adjusted borrowing rates.

#### Questar Gas

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Gas's financial statements in this Quarterly Report on Form 10-Q:

	Hierarchy Leve of Fair Value Estimates	l Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	, .	Estimated Fair Value
		June 30, 20 (in millions		June 30, 2	2012	Dec. 31, 2	.012
Financial assets							
Cash and cash equivalents	1	<b>\$</b> —	<b>\$</b> —	<b>\$</b> —	\$	\$1.4	\$1.4
Financial liabilities							
Checks outstanding in excess of cash balances	1	3.4	3.4	5.4	5.4	_	_
Notes payable to Questar	1	137.3	137.3	102.1	102.1	166.1	166.1
Long-term debt, including current portion	2	386.5	433.3	368.0	449.1	426.5	503.7

The carrying amounts of cash and cash equivalents, checks outstanding in excess of cash balances and notes payable to Questar approximate fair value. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Gas's current credit risk-adjusted borrowing rates.

#### Questar Pipeline

The following table discloses the carrying amount, estimated fair value and level within the fair value hierarchy of certain financial instruments not disclosed in other notes to Questar Pipeline's financial statements in this Quarterly Report on Form 10-Q:

Questar 2013 Form 10-Q

	Hierarchy Leve of Fair Value Estimates	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	, ,	Estimated Fair Value	
		June 30, 2013 (in millions)		June 30, 2012		Dec. 31, 2012		
Financial assets								
Cash and cash equivalents	1	\$5.7	\$5.7	\$0.3	\$0.3	\$7.1	\$7.1	
Notes receivable from Questar	1	34.4	34.4	18.8	18.8	38.7	38.7	
Financial liabilities								
Long-term debt	2	458.9	508.1	459.0	535.9	458.9	536.6	

The carrying amounts of cash and cash equivalents and notes receivable from Questar approximate fair value. The fair value of fixed-rate long-term debt is based on the discounted present value of cash flows using Questar Pipeline's current credit risk-adjusted borrowing rates.

#### Note 7 - Derivative Instruments and Hedging Activities

Questar and its subsidiaries may enter into derivative instruments to manage exposure to changes in current and future market interest rates. In order to mitigate its exposure to changes in the fair value of its fixed-rate corporate debt resulting from changes in benchmark interest rates, in the second quarter of 2011 Questar executed a fixed-to-floating interest rate swap transaction with a counterparty and converted \$125.0 million of its 2.75% fixed-rate long-term debt to floating-rate debt. The 2.75% rate was swapped for a London Interbank Offered Rate (LIBOR)-based floating rate. Questar terminated and settled this hedge transaction in March 2012, for a deferred gain of \$7.2 million, which is being amortized to interest expense through the maturity of the notes in 2016. Prior to its termination, this swap was accounted for as a fair value hedge under the accounting standards for derivatives and hedging.

Questar Pipeline entered into forward starting swaps totaling \$150.0 million in the second and third quarters of 2011 in anticipation of issuing \$180.0 million of notes in December 2011. Settlement of these swaps required payments of \$37.3 million in the fourth quarter of 2011 because of declines in interest rates. These swaps qualified as cash flow hedges and the settlement payments are being amortized to interest expense over the 30-year life of the debt.

The following table presents the pre-tax effects of the derivative instruments designated as a fair value hedge (including the hedged item) and cash flow hedges on the Consolidated Statements of Income as well as the pre-tax effects of the derivative instruments designated as cash flow hedges on OCI:

	Financial Statement	3 Month June 30,		6 Months Ended June 30,		12 Months Ended June 30,

Questar 2013 Form 10-Q	19							

There was no ineffectiveness recognized on the fair value hedge for the three, six and 12 months ended June 30, 2013 and 2012. There was no ineffectiveness recognized on the cash flow hedges for the three and six months ended June 30, 2013 and 2012 and the 12 months ended June 30, 2013. Ineffectiveness recognized on the cash flow hedges was de minimis in the 12 months ended June 30, 2012. Reclassifications into earnings of amounts reported in AOCI will continue while interest expense is recorded for the hedged interest payments through maturity in 2041. Pre-tax net losses of \$0.5 million are expected to be reclassified from AOCI to the Consolidated Statements of Income in the next 12 months. As of June 30, 2013, the Company was not hedging any exposure to variability in future cash flows of forecasted transactions. There were no derivative assets or liabilities outstanding at June 30, 2013, June 30, 2012 or December 31, 2012.

#### Note 8 - Share-Based Compensation

Questar may issue stock options, restricted shares, RSUs and performance shares to certain officers, employees and non-employee directors under its LTSIP. Questar recognizes expense over time as the stock options, restricted shares, RSUs and performance shares vest. Total share-based compensation expense amounted to \$8.3 million for the first half of 2013 compared to \$5.2 million in 2012. Deferred share-based compensation, representing the unvested value of restricted share and RSU awards, amounted to \$8.5 million at June 30, 2013. For the first half, cash flow from income tax benefits in excess of recognized compensation expense amounted to \$1.4 million in 2013 compared to \$3.9 million in 2012. There were 5,573,044 shares available for future grants at June 30, 2013.

Unvested stock options decreased by 29,398 shares to zero shares in the first half of 2013. No stock options were granted in the first half of 2013. Stock option transactions under the terms of the LTSIP are summarized below:

	Options Exercise		Weighted-Average
	Outstanding Price Range		Exercise Price
Balance at December 31, 2012	770,923	\$4.37 - \$17.35	\$ 11.35
Exercised	(50,750)	4.37 4.37	4.37
Balance at June 30, 2013	720,173	\$7.84 - \$17.35	\$ 11.84

Option	s Outstanding		Options Exercisable				
Range of exercise prices		Number outstanding at June 30, 2013	Weighted-average remaining term in years	Weighted-average exercise price	Number exercisable at June 30, 2013	Weighted-average exercise price	
\$7.84	- \$11.40	404,174	2.4	\$10.52	404,174	\$10.52	
13.10	- 17.35	315,999	3.0	13.54	315,999	13.54	
		720,173	2.7	\$11.84	720,173	\$11.84	

Restricted share grants typically vest in equal installments over a three- or four-year period from the grant date. Several grants vest in a single installment after a specified period. The weighted-average remaining vesting period of unvested restricted shares at June 30, 2013, was 12 months. Transactions involving restricted shares under the terms of the LTSIP are summarized below:

	Restricted Shares Outstanding	Price Range	Weighted-Average Price	
Balance at December 31, 2012	810,342	\$13.10 - \$20.90	\$ 17.74	
Granted	658	21.53 21.53	21.53	
Vested	(338,750	) 13.10 - 19.39	17.54	
Balance at June 30, 2013	472,250	\$13.10 - \$21.53	\$ 17.89	

Starting in the first quarter of 2013, Questar granted RSUs to certain officers, employees and non-employee directors under its LTSIP. One share of Questar common stock will be distributed for each RSU at the time of vesting. RSU grants typically vest in equal installments over a three-year period from the grant date. Several grants vest in a single installment after a specified period. The weighted-average remaining vesting period of unvested RSUs at June 30, 2013, was 20 months.

Questar 2013 Form 10-Q

Transactions involving RSUs under the terms of the LTSIP are summarized below:

	RSUs	Price Range	Weighted-Average
	Outstanding	File Kange	Price
Granted	322,026	\$23.09 - \$25.44	\$ 23.63
Vested	(4,234)	23.62 23.62	23.62
Balance at June 30, 2013	317,792	\$23.09 - \$25.44	\$ 23.63

Grants of RSUs with deferred share distributions (deferred RSUs) typically vest in equal installments over a three-year period from the grant date. At June 30, 2013, Questar's outstanding deferred RSUs totaled 72,482 with a weighted-average price of \$15.62 per share. The deferred RSUs were fully vested as of July 1, 2013. One share of Questar common stock will be distributed for each vested deferred RSU (including accrued reinvested dividend equivalents) at the time of the grantee's separation from service.

Questar grants performance shares to certain Company executive officers under the terms of the LTSIP. The awards are designed to motivate and reward these executives for long-term Company performance and provide an incentive for them to remain with the Company. The target number of performance shares for each executive officer is subject to adjustment upward or downward based on the Company's performance relative to a specified peer group of companies over a three-year performance period with respect to defined performance criteria. Each three-year performance period commences at the beginning of the year of grant. The actual performance shares awarded, if any, are distributed in the quarter following the conclusion of the performance period so long as such executive officer was employed by the Company or its affiliates as of the last day of the performance period.

Half of any award will be distributed in shares of Questar common stock and half in cash. The Monte Carlo simulation method was used to estimate the grant-date fair value of the performance share awards. The liability associated with awards to be settled in cash is adjusted to its estimated fair value through earnings on a quarterly basis. Equity- and liability-based performance share compensation expense amounted to \$3.9 million in the first half of 2013 and \$1.0 million in the first half of 2012. The weighted-average remaining vesting period of unvested performance shares at June 30, 2013, was 18 months. Performance share transactions under the terms of the LTSIP are summarized below:

	Target Number of Performance Shares Outstanding	Grant-Date Fair Value Range	Average Grant-Date Fair Value
Balance at December 31, 2012	264,867	\$18.23 - \$25.42	\$21.94
Granted	126,606	39.62 39.62	39.62
Balance at June 30, 2013	391,473	\$18.23 - \$39.62	\$27.66

Note 9 - Operations by Line of Business

Questar's three principal complementary lines of business include Questar Gas, which provides retail natural gas distribution in Utah, Wyoming and Idaho; Wexpro, which develops and produces natural gas from cost-of-service reserves for Questar Gas customers; and Questar Pipeline, which operates interstate natural gas pipelines and storage facilities. Line-of-business information is presented according to senior management's basis for evaluating performance and considering differences in the nature of products, services and regulation, among other factors.

#### Note 10 - Employee Benefits

The Company has a noncontributory defined benefit pension plan and a life insurance plan covering a majority of its employees and a postretirement medical plan providing coverage to less than half of its employees. Employees hired or rehired after June 30, 2010 are not eligible for the noncontributory defined benefit pension plan and employees hired or rehired after December 31, 1996, are not eligible for the postretirement medical plan and are not eligible to receive basic life insurance once they retire.

Questar is subject to and complies with minimum-required and maximum-allowed annual contribution levels for its qualified pension plan as determined by the Employee Retirement Income Security Act and the Internal Revenue Code. The 2013 estimated net cost for the qualified pension plan is \$32.2 million.

The Company also has a nonqualified pension plan that covers a group of management employees in addition to the noncontributory qualified pension plan. The nonqualified pension plan provides for defined benefit payments upon retirement of the management employee, or to the spouse upon death of the management employee, above the benefit limit defined by the Internal Revenue Service for the qualified plan. The nonqualified pension plan is unfunded; claims are paid from the Company's general funds. The 2013 net cost for the nonqualified pension plan is estimated to be \$3.4 million.

Questar 2013 Form 10-Q

Components of the qualified and nonqualified net pension cost included in the determination of net income are listed in the table below:

	3 Months Ended		6 Month	6 Months Ended		ths Ended
	June 30,		June 30	June 30,		,
	2013	2012	2013	2012	2013	2012
	(in millio	ons)				
Service cost	\$3.4	\$3.2	\$6.8	\$6.5	\$13.5	\$11.4
Interest cost	7.9	7.8	15.8	15.5	31.4	29.8

Net postretirement benefit cost	\$1.4	\$1.6	\$2.8	\$3.3	\$6.6	\$5.6

#### Note 11 - Debt

The Company has a revolving credit facility with various lenders to provide back-up credit liquidity support for its commercial paper program. Credit commitments under this revolving credit facility totaled \$750.0 million at June 30, 2013, with no amounts borrowed. This revolving credit facility has interest-rate options generally below the prime interest rate and carries commitment fees on the unused balance. In April 2013, Questar amended and restated its revolving credit facility to increase its size from \$500.0 million to \$750.0 million and extend its maturity from August 31, 2016 to April 19, 2018. Under the facility, consolidated funded debt cannot exceed 70% of consolidated capitalization. Commercial paper outstanding amounted to \$206.0 million at June 30, 2013, \$190.0 million at June 30, 2012 and \$263.0 million at December 31, 2012.

Except for the amendment and restatement to the Company's revolving credit facility, there have not been any significant new borrowings or modifications of existing financing arrangements at Questar, Questar Gas or Questar Pipeline since December 31, 2012.

#### Note 12 - Strategic Review of Questar Southern Trails Pipeline

In the fourth quarter of 2012, Questar Pipeline initiated a strategic review of Questar Southern Trails Pipeline. All strategic options were analyzed, including joint ventures, asset sales or other alternatives. The western segment of Southern Trails Pipeline runs 96 miles from Whitewater to Long Beach, California. This segment has not been placed in service. The eastern segment of Southern Trails Pipeline runs 487 miles from the San Juan Basin in New Mexico to

connections with other pipelines in the eastern portion of southern California.

As a result of that review, Questar Pipeline entered into an agreement with another pipeline company to evaluate and potentially convert the western portion of its Southern Trails Pipeline back to its original purpose as a crude oil transport pipeline and to develop a rail terminal to offload crude from railcars and into the pipeline for transportation to refineries in

Questar 2013 Form 10-Q

Long Beach, California. Questar Pipeline's net book value of the western segment of Southern Trails Pipeline is approximately \$21 million.

Questar Pipeline is also in discussions with parties to either purchase the eastern segment of Southern Trails Pipeline or to enter into a long-term transportation contract for the full capacity of the pipeline. Questar Pipeline's net book value of the eastern segment of Southern Trails Pipeline is approximately \$81 million.

Current expectations of future net cash flows from the western and eastern segments show that the carrying values are recoverable assuming the projects described above are successful. However, asset impairments may be indicated if the projects are not successful.

Note 13 - Subsequent Events

#### Questar Gas

Utah General Rate Case - On July 1, 2013, Questar Gas filed a general rate case in Utah requesting an increase in revenues of \$19 million and a continuation of its 10.35% authorized return on equity. A decision on the case is expected in the first quarter of 2014, with any changes becoming effective in the same quarter.

Long-term Debt Commitment - Questar Gas has entered into a commitment to borrow \$150 million of long-term debt in the private placement market to be funded in December 2013. Questar Gas will issue \$90 million of 30-year notes with an interest rate of 4.78% and \$60 million of 35-year notes with an interest rate of 4.83%. Proceeds from the debt issuance will be used to repay existing indebtedness and for general corporate purposes.

## Wexpro

Acquisition - On July 29, 2013, Wexpro Company entered into a definitive agreement to acquire an additional interest in natural gas-producing properties for \$106.4 million. Wexpro is increasing its working interest in existing Wexpro-operated wells in the Trail Unit of southwestern Wyoming's Vermillion Basin.

#### Questar Pipeline

Strategic Review of Questar Southern Trails Pipeline - In July 2013, Questar Pipeline entered into an agreement with another pipeline company to evaluate and potentially convert the western portion of its Southern Trails Pipeline back to its original purpose as a crude oil transport pipeline and to develop a rail terminal to offload crude from railcars and into the pipeline for transportation to refineries in Long Beach, California. Questar Pipeline is also in discussions with parties to either purchase the eastern segment of Southern Trails Pipeline or to enter into a long-term transportation contract for the full capacity of the pipeline.

# ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following information updates the discussion of Questar's financial condition provided in its 2012 Form 10-K and analyzes the changes in the results of operations between the three, six and 12 months ended June 30, 2013 and 2012. For definitions of commonly used terms found in this Quarterly Report on Form 10-Q, please refer to the "Glossary of Commonly Used Terms" provided in Questar's 2012 Form 10-K.

#### **RESULTS OF OPERATIONS**

Following are comparisons of net income (loss) by line of business:

	3 Months Ended June 30,			6 Month	s Ended Ju	une 30,	12 Months Ended June 30,

#### **QUESTAR GAS**

Questar Gas reported a net loss of \$1.2 million in the second quarter of 2013 compared to a net loss of \$2.3 million in the second quarter of 2012. Questar Gas net income was \$35.8 million in the first half of 2013 compared to \$32.6 million in the first half of 2012. Net income was \$50.3 million in the 12 months ended June 30, 2013, compared to \$44.9 million in the year-earlier period. Questar Gas, because of the seasonal nature of its business, typically reports income in the first and fourth quarters of the year and losses in the second and third quarters of the year.

Customers at June 30, (in thousands)

Questar 2013 Form 10-Q

#### Margin Analysis

Questar Gas margin (revenues minus gas costs) increased \$1.0 million in the second quarter of 2013 compared to the second quarter of 2012, decreased \$1.6 million in the first half of 2013 compared to the first half of 2012 and decreased \$0.9 million in the 12 months ended June 30, 2013, compared to the 12 months ended June 30, 2012. Following is a summary of major changes in Questar Gas margin:

	3 Months	6 Months	12 Months
	2013 vs. 2012	2013 vs. 2012	2013 vs. 2012
	(in millions)

Alternative fuel tax credit and other	0.6	0.3	1.3
Increase (decrease)	\$1.0	\$(1.6	\$(0.9)

At June 30, 2013, Questar Gas served 938,342 customers, up 1.5% from 924,239 at June 30, 2012. Customer growth increased the margin by \$0.7 million in the second quarter of 2013, \$2.2 million in the first half of 2013 and \$3.8 million in the 12 months ended June 30, 2013.

Questar Gas has benefited from a conservation enabling (revenue decoupling) tariff since 2006. Under this tariff, Questar Gas is allowed to earn a margin for each general service customer. Differences between the margin and the amount billed to customers are recovered from customers or refunded to customers through future rate changes. Because of this tariff, changes in usage per customer do not impact the company's margin. In addition, a weather-normalization adjustment of customer bills offsets the revenue impact of temperature variations.

Questar Gas has an infrastructure cost-tracking mechanism that allows the company to place into rate base and earn on capital expenditures associated with a multi-year high-pressure natural gas feeder-line replacement program, and do it immediately upon the completion of each project. Questar Gas recognized \$1.1 million of increased margin due to the infrastructure tracking mechanism in the second quarter of 2013, \$4.6 million in the first half of 2013 and \$7.5 million in the 12 months ended June 30, 2013.

Lower recovery of demand-side management costs decreased Questar Gas margin during the three-, six- and 12-month periods ended June 30, 2013. Demand-side management costs are incurred to promote energy conservation by customers. Changes in the margin contribution from demand-side management recovery revenues are offset by equivalent changes in program expenses.

## Expenses

Cost of natural gas sold increased 11% in the second quarter of 2013, 20% in the first half of 2013 and 7% in the 12 months ended June 30, 2013, compared to the same periods of 2012. The increases were due to higher gas prices and higher volumes resulting from colder weather. Questar Gas accounts for purchased-gas costs in accordance with procedures authorized by the Public Service Commission of Utah (PSCU) and the PSCW. Purchased-gas costs that are different from those provided for in present rates are accumulated and recovered or credited through future rate changes. As of June 30, 2013, Questar Gas had a \$6.4 million over-collected balance in the purchased-gas adjustment account representing amounts recovered from customers in excess of costs incurred.

Operating and maintenance expenses decreased 6% in the second quarter of 2013, decreased 13% in the first half of 2013 and decreased 10% in the 12 months ended June 30, 2013, compared to the same periods of 2012. These decreases included lower demand-side management costs of \$2.0 million, \$10.0 million and \$15.8 million for the

three-, six- and 12-month periods, respectively. The demand-side management costs are for the company's energy efficiency program and are recovered from customers through periodic rate changes. General and administrative expenses increased 8% in both the 2013 second quarter and first half and increased 5% in the 12 months ended June 30, 2013, compared to the prior year periods. The increases were due to higher employee and corporate allocated costs and higher bad-debt costs. Operating, maintenance, general and administrative expenses per customer, exclusive of demand-side management costs, were \$146 in the 12 months ended June 30, 2013, compared to \$141 in the 12 months ended June 30, 2012.

Questar 2013 Form 10-Q

Other taxes increased 2% in the second quarter of 2013, increased 10% in the first half of 2013 and increased 8% in the 12 months ended June 30, 2013, compared to year-earlier periods due to increased property taxes.

Depreciation and amortization expense increased 5% in the second quarter of 2013 and increased 4% in both the first half of 2013 and the 12 months ended June 30, 2013, compared to the 2012 periods. The higher expense was caused by plant additions driven by customer growth and feeder line replacements.

## Utah General Rate Case

On July 1, 2013, Questar Gas filed a general rate case in Utah requesting a \$19 million increase in revenues and a continuation of its 10.35% authorized return on equity. A decision on the case is expected in the first quarter of 2014, with any changes effective in the following quarter.

#### **WEXPRO**

Wexpro reported net income of \$28.4 million in the second quarter of 2013 compared to \$25.8 million in the second quarter of 2012, a 10% increase. Wexpro earned \$54.7 million in the first half of 2013 compared to \$50.1 million in the first half of 2012. Wexpro earned \$108.5 million for the 12 months ended June 30, 2013, compared to \$99.3 million for the year-earlier period. Following is a summary of Wexpro financial and operating results:

	3 Months Ended June 30,			6 Months Ended June 30,			12 Months Ended June 30,

Questar 2013 Form 10-Q

#### Revenues

Wexpro earned a 19.9% after-tax return on its average investment base for the 12 months ended June 30, 2013. Wexpro 2013 operating results benefited from a higher average investment base compared to the prior year periods. Pursuant to the terms of the Wexpro Agreement, Wexpro recovers its costs and receives an after-tax return on its investment base. Wexpro's investment base includes its costs of commercial wells and related facilities adjusted for working capital and reduced for deferred income taxes and accumulated depreciation, depletion and amortization. The investment base grew by 6% in the 12 months ended June 30, 2013. The increase was due to investment in commercial wells, partially offset by increased deferred taxes due to bonus depreciation allowed for income tax purposes. Following is a summary of changes in the Wexpro investment base:

	12 Monus L	mucu June 30,	
	2013	2012	
	(in millions)		
Beginning investment base	\$517.7	\$443.5	
Successful development wells	120.2	171.7	
Depreciation, depletion and amortization	(76.0	) (67.2	)
Deferred income taxes	(15.0	) (30.3	)
Ending investment base	\$546.9	\$517.7	

Wexpro produced 14.8 Bcf of cost-of-service natural gas for Questar Gas during the second quarter of 2013, up 3% from the second quarter of 2012. Wexpro produced 30.2 Bcf in the first half of 2013 compared to 29.3 Bcf in the first half of 2012. Wexpro produced 58.4 Bcf of cost-of-service gas in the 12 months ended June 30, 2013, compared to 55.3 Bcf in the 12 months ended June 30, 2012. On an annual basis, Wexpro natural gas production provides more than half of Questar Gas's supply requirements.

Revenues from oil and NGL sales increased 4% in the second quarter of 2013 over the second quarter of 2012, were up 9% in the first half of 2013 over the first half of 2012 and were up 13% in the 12 months ended June 30, 2013, over the year-earlier period. The increase in the quarter was due to higher prices and slightly higher production volumes of oil and NGL for which income is shared with Questar Gas customers pursuant to the Wexpro Agreement. The increases in the six- and 12-month periods ended June 30, 2013, were due to higher shared oil and NGL production volumes, partially offset by lower prices. The increases in revenues were partially offset by higher oil-related operating and maintenance expenses.

#### **Expenses**

Operating and maintenance expenses were up 15% in the second quarter of 2013, up 6% in the first half of 2013 and up 10% in the 12-month period ended June 30, 2013, compared to prior year periods. The increases were due to higher water disposal and workover costs. Lease operating expense per Mcfe was \$0.44 in the first half of 2013 compared to \$0.43 in the first half of 2012. General and administrative expenses were higher in the three-, six- and 12-month periods ended June 30, 2013, compared to prior year periods. These increases were due to higher employee expenses and allocated corporate costs.

Production and other taxes were higher in the second quarter and first half of 2013 and lower in the 12 months ended June 30, 2013, compared to prior year periods. These costs are driven by increasing production as well as changes in the values of natural gas, oil and NGL.

Depreciation, depletion and amortization expense increased 3% in the second quarter of 2013, increased 9% in the first half of 2013 and increased 14% in the 12 months ended June 30, 2013, over the 2012 periods due to increased production volumes and investment in natural gas wells and facilities.

Wexpro II

12 Months Ended June 30

Wexpro and Questar Gas have received approval of the PSCU and PSCW (the Commissions) for a Wexpro II Agreement to potentially expand the properties under the cost-of-service pricing methodology for the benefit of Questar Gas customers. The Agreement is modeled after the terms of the original Wexpro Agreement. Under the Wexpro II Agreement, Wexpro may acquire gas development properties and Questar Gas may submit an application to the Commissions to treat these properties similar to the original Wexpro properties. If the Commissions approve the applications, the gas will be developed for the benefit of Questar Gas customers. Wexpro will be entitled to a return on the acquisition costs based on Questar Gas's approved cost of capital. Future development costs will earn returns consistent with the original Wexpro Agreement.

Questar 2013 Form 10-Q

## **QUESTAR PIPELINE**

Questar Pipeline reported second quarter 2013 net income of \$14.5 million compared with \$16.1 million in the second quarter of 2012, a 10% decrease. Questar Pipeline earned \$30.3 million in the first half of 2013, down 7% from \$32.7 million in the first half of 2012. Questar Pipeline earned \$62.3 million in the 12 months ended June 30, 2013, compared to \$68.7 million in the 12 months ended June 30, 2012. Following is a summary of Questar Pipeline financial and operating results:

Questar 2013 Form 10-Q

#### Revenues

As of June 30, 2013, Questar Pipeline had net firm transportation contracts of 5,028 Mdth per day, including 1,020 Mdth per day from Questar Pipeline's 50% ownership of White River Hub, compared with 4,969 Mdth per day as of June 30, 2012. The decrease in transportation revenues for the second quarter of 2013 was driven by a renewed contract on Southern Trails Pipeline at a reduced rate and the transition to summer volumes for Questar Gas's seasonal contract. New contracts from the Uinta Basin liquid project partially offset these decreases. The decrease in transportation revenues in the 12 months ended June 30, 2013, was driven by lower interruptible volumes, the reduced-rate contract on Southern Trails and the expiration of firm contracts. For the first half of 2013, increased revenue from the Uinta Basin liquid project and Questar Gas's seasonal contract offset decreases from the expiration of firm contracts and the reduced-rate contract on Southern Trails.

Questar Pipeline earns its largest transportation revenue from Questar Gas, with contracts for 916 Mdth per day during the heating season and 841 Mdth per day during off-peak months. The majority of Questar Gas transportation contracts extend through mid-2017.

Questar Pipeline owns and operates the Clay Basin underground storage complex in eastern Utah. This facility is 100% subscribed under long-term contracts. In addition to Clay Basin, Questar Pipeline owns and operates three smaller aquifer gas storage facilities. Questar Gas has contracted for 25% of firm-storage capacity at Clay Basin for terms extending from four to seven years and 100% of the firm-storage capacity at the aquifer facilities for terms extending for five years.

Questar Pipeline charges FERC-approved transportation and storage rates that are based on straight-fixed-variable rate design. Under this rate design, all fixed costs of providing service, including depreciation and return on investment, are recovered through the demand charge. About 95% of Questar Pipeline costs are fixed and recovered through these demand charges. Questar Pipeline's earnings are driven primarily by demand revenues from firm shippers. Interruptible transportation volumes and revenues have decreased on Questar Pipeline's system due to readily available released capacity contracts.

Questar Pipeline has three primary sources of NGL revenue. These sources include two major regulated processing facilities (transportation NGL sales) and an unregulated subsidiary that provides third-party processing services (field services NGL sales).

Within Questar Pipeline, regulated processing facilities at Clay Basin condition gas to meet pipeline gas-quality specifications. These facilities are part of an agreement that allows Questar Pipeline to recover any shortfall between the NGL revenues and the cost of service for conditioning the gas. Other processing facilities on Questar Pipeline's transmission system are not subject to the Clay Basin gas processing agreement. NGL sales for the regulated operations decreased 11% in the second quarter of 2013, 8% in the first half of 2013 and 16% in the 12 months ended June 30, 2013, compared to the prior year periods. The decreases were driven by 9% lower net revenue per barrel in the second quarter of 2013, 12% lower net revenue per barrel in the first half of 2013 and 17% lower net revenue per barrel in the 12 months ended June 30, 2013, compared to the prior year periods. Lower net revenue per barrel was partially offset by increases in volumes of 5% and 3% for the six- and 12-month periods, respectively.

NGL sales for the unregulated subsidiary decreased 82% in the second quarter of 2013, 72% in the first half of 2013 and 39% in the 12 months ended June 30, 2013, compared to the prior year periods. The decrease in the second quarter of 2013 was driven by 2% lower net revenue per barrel and 82% lower volumes compared to the second quarter of 2012. The decrease in the first half of 2013 was driven by 5% lower net revenue per barrel and 70% lower volumes compared to the first half of 2013. The decrease in the 12 months ended June 30, 2013 was driven by 17% lower net revenue per barrel and 27% lower volumes compared to the 12 months ended June 30, 2012. The decrease in 2013 volumes was due largely to upstream processing.

During the fourth quarter of 2012, Questar Pipeline sold 1.3 MMdth of natural gas for a net gain of \$1.3 million. In addition, Questar Pipeline sold 220 Mdth of natural gas to settle gas imbalances during the first quarter of 2013. Revenue for the 2013 sales approximated cost. Questar Pipeline received this gas to settle the shortfall between NGL revenue and the cost of service for conditioning gas at Clay Basin.

#### Expenses

Operating and maintenance expenses decreased 20% in the second quarter of 2013, decreased 17% in the first half of 2013 and decreased 4% in the 12 months ended June 30, 2013, compared to the corresponding 2012 periods. The decreases for the quarter and first half were due primarily to lower maintenance expenses and lower processing product costs. The decrease for the 12-month period was driven by higher capitalization of internal costs, lower processing product costs and lower maintenance expense. General and administrative expenses decreased 2% in the second quarter of 2013, were flat in the first half of 2013 and increased 7% in the 12 months ended June 30, 2013, compared to corresponding 2012 periods. The 12-month

Questar 2013 Form 10-Q

increase was due to higher employee costs and allocations of corporate costs. Operating, maintenance, general and administrative expenses per dth transported were \$0.09 in the first half of 2013, unchanged from the first half of 2012.

Other taxes were flat in both the second quarter and the first half of 2013 and decreased 5% in the 12 months ended June 30, 2013, compared to year-earlier periods. The decrease in the 12-month period was primarily due to lower property taxes.

Depreciation and amortization expense was up 4% in both the second quarter and the first half of 2013 and was up 5% in the 12 months ended June 30, 2013, compared to the 2012 periods because of system expansions placed into service.

#### Strategic review of Southern Trails Pipeline

In the fourth quarter of 2012, Questar Pipeline initiated a strategic review of Questar Southern Trails Pipeline. All strategic options were analyzed, including joint ventures, asset sales or other alternatives. The western segment of Southern Trails Pipeline runs 96 miles from Whitewater to Long Beach, California. This segment has not been placed in service. The eastern segment of Southern Trails Pipeline runs 487 miles from the San Juan Basin in New Mexico to connections with other pipelines in the eastern portion of southern California.

As a result of that review, Questar Pipeline entered into an agreement with another pipeline company to evaluate and potentially convert the western portion of its Southern Trails Pipeline back to its original purpose as a crude oil transport pipeline and to develop a rail terminal to offload crude from railcars and into the pipeline for transportation to refineries in Long Beach, California. Questar Pipeline is also in discussions with parties to either purchase the eastern segment of Southern Trails Pipeline or to enter into a long-term transportation contract for the full capacity of the pipeline.

#### Other Consolidated Results

#### **Questar Fueling**

Other consolidated results include losses from the start-up of Questar Fueling Company (Questar Fueling) operations of \$0.2 million in the second quarter of 2013, \$0.4 million in the first half of 2013 and \$0.7 million in the 12 months ended June 30, 2013. There were no appreciable start-up losses in the three-, six- and 12-month periods ended June 30, 2012. Questar Fueling began its operation in mid-2012 to provide natural gas fueling infrastructure nationally, with specific focus on the medium- to heavy-duty vehicle market. Questar Fueling has signed contracts with large national firms to build three fueling facilities, and construction is underway.

#### Interest expense

Consolidated interest expense was 3% lower in the first half of 2013 compared to the first half of 2012 due to the use of lower-cost commercial paper to repay maturing long-term debt in advance of the later issuance of new long-term debt.

#### Income taxes

Questar's effective combined federal and state income tax rate was 38.2% in the first half of 2013 and 36.3% in the first half of 2012. The higher rate in the first half of 2013 was due to adjustments to 2012 and 2013 estimated state income taxes for the consolidated Questar return that were in excess of state income taxes calculated on a separate return basis for the operating companies.

## Retirement incentive

In October 2012, Questar announced a retirement incentive program for retirement-eligible employees. This program provided an incentive payment equal to six months of base salary for those who were eligible and elected to retire by

March 1, 2013. Approximately in the fourth quarter of 2012.	100 employees participated in this in	ncentive. The cost of this program was	recognized

32

#### LIQUIDITY AND CAPITAL RESOURCES

## **Operating Activities**

Net cash provided by operating activities increased 11% in the first half of 2013 compared to the first half of 2012 due primarily to smaller pension contributions and a prior year refund of over-collected purchased-gas costs to Questar Gas customers. Net cash provided by operating activities is presented below:

6 Months E

#### **Investing Activities**

A comparison of capital expenditures for the first half of 2013 and 2012 and a forecast for calendar year 2013 are presented below:

6 Months End	Forecast 12 Months Ended December 31,	
2013	2012	2013
(in millions)		
\$74.1	\$85.9	\$195
83.6	74.0	255
32.3	25.3	85
2.9	5.6	30
\$192.9	\$190.8	\$565
	2013 (in millions) \$74.1 83.6 32.3 2.9	(in millions) \$74.1 \$85.9 83.6 74.0 32.3 25.3 2.9 5.6

Questar Gas expects to invest about \$55 million in its infrastructure-replacement program as well as provide for customer growth of approximately 1.5% in 2013. Wexpro is continuing to participate in wells drilled in the Pinedale area. Questar Pipeline's 2013 capital expenditure plans include transmission-system expansions and pipeline replacements. The 2013 Wexpro forecast amount includes the cost of the Trail acquisition. See Note 13.

## Financing Activities

In the first half of 2013, the Company decreased short-term debt by \$57.0 million from the excess of cash flow from operating activities over investing activities.

Questar issues commercial paper to meet short-term financing requirements. The commercial-paper program is supported by a five-year revolving credit facility with various banks that provides back-up credit liquidity. Credit commitments under the revolving credit facility totaled \$750.0 million at June 30, 2013, with no amounts borrowed. In April 2013, Questar increased the size of its revolving credit facility from \$500.0 million to \$750.0 million and extended its maturity to April 2018. Commercial paper outstanding amounted to \$206.0 million at June 30, 2013, compared with \$190.0 million a year earlier. The Company believes the credit commitments are adequate for its working capital and short-term financing requirements during 2013.

Questar Gas has entered into a commitment to borrow \$150 million of long-term debt in the private placement market to be funded in December 2013. Questar Gas will issue \$90 million of 30-year notes with an interest rate of 4.78% and \$60 million of 35-year notes with an interest rate of 4.83%. Proceeds from the debt issuance will be used to repay

existing indebtedness and for general corporate purposes. The Company believes it will have adequate access to long-term capital based on current credit markets and its investment-grade credit ratings.

In December 2012, Questar Gas issued \$40.0 million of 12-year notes with an interest rate of 2.98% and \$110.0 million of 15-year notes with an interest rate of 3.28%. Proceeds from the debt issue were used to repay \$133.5 million of long-term debt that

Questar 2013 Form 10-Q

has matured or will mature as follows: \$25.0 million that matured in August 2012; \$66.5 million that matured in October 2012; \$40.0 million that matured in January 2013; and \$2.0 million that will mature in September 2013.

In March 2012, Questar occupied a new headquarters building and recorded a capital lease obligation for this building of \$40.8 million, which is being amortized as lease payments are made over the 17-year lease term.

During the first half of 2012, Questar repurchased 2.8 million shares of its common stock in the market at a cost of \$55.3 million. These repurchases were under a \$100 million program approved by the Board of Directors to reduce the share count approximately to its June 30, 2010 level. The \$100 million program expired on December 31, 2012. Questar has approval to repurchase up to 1 million shares of its common stock per year to offset share dilution from shares issued under company incentive plans. Questar did not repurchase any shares under this program during the first half of 2013.

At June 30, 2013, combined short-term debt, long-term debt and capital lease obligation were 55% and equity was 45% of total capital. The Company does not expect the ratio of debt in the capital structure to materially change over the next several years, except for seasonal variation in short-term debt for working capital requirements.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Questar Gas's primary market risk exposures arise from changes in demand for natural gas and competition from other energy sources. The demand for natural gas varies based on economic conditions, conservation efforts and prices. The temperature-adjusted usage per residential customer has historically decreased due to more energy efficient appliances and homes, and behavior changes in response to higher natural gas prices. The economic impact of this decline in usage per customer for residential customers has been offset by the addition of new customers and the conservation enabling tariff.

Wexpro operations are subject to various government controls and regulation at the federal, state and local levels. Wexpro must obtain permits to drill and produce, maintain bonding requirements to drill and operate wells, submit and implement spill-prevention plans, and file notices relating to the presence, use, and release of specified contaminants incidental to gas and oil production. Wexpro is also subject to various conservation matters, including the regulation of the size of drilling and spacing units, the number of wells that may be drilled in a unit and the unitization or pooling of gas and oil properties. In addition, the Utah Division of Public Utilities and the PSCW are entitled to monitor the performance of the Company and Wexpro under the Wexpro Agreement and have retained two monitors, an independent certified public accountant and an independent petroleum engineer, to review performance of the agreement.

Questar Pipeline's primary market risk exposures arise from changes in demand for transportation and storage services and competition from other pipelines. The demand for transportation and storage services will vary based on the market's expectations about future volumes of natural gas likely to be produced in the basins served by Questar Pipeline and changes in market demand for natural gas. On some portions of its pipeline systems, the company faces the risk that it will not be successful in recontracting capacity under favorable terms once existing contracts expire. Questar Southern Trails Pipeline, whose net book value was approximately \$102 million at June 30, 2013, recontracted half of its capacity in the third quarter of 2012 at a market rate significantly lower than the previous rate, reducing revenues on this pipeline. Questar Southern Trails Pipeline is reviewing other strategic options for this pipeline because of the changing market for natural gas transportation to California. The Company continues to believe that at this time no impairment of the pipeline is necessary and will continue to assess the need for impairment as these options are evaluated. See Note 12.

Credit Risk

Questar Gas's primary market area is located in Utah, southwestern Wyoming and southeastern Idaho. Exposure to credit risk may be affected by the concentration of customers in these regions due to changes in economic or other conditions. Customers include individuals and numerous commercial and industrial enterprises that may react differently to changing conditions. Management believes that its credit review procedures, loss reserves, customer deposits and collection procedures have adequately provided for usual and customary credit-related losses.

Questar Pipeline requests credit support, such as letters of credit and cash deposits, from companies that pose unfavorable credit risks. All companies posing such concerns were current on their accounts at June 30, 2013. Questar Pipeline's largest customers include Questar Gas, Rockies Express Pipeline, EOG Resources, Wyoming Interstate Company, EnCana Marketing, Shell Energy North America, PacifiCorp and Anadarko Energy Services Company.

#### Interest-Rate Risk

On June 30, 2013, Questar had \$1,100.0 million of fixed-rate long-term debt with a fair value of \$1,200.3 million and a weighted-average life to maturity of 11.1 years. Questar also had \$206.0 million of floating-rate debt outstanding in the form of short-maturity commercial paper at June 30, 2013.

#### Forward-Looking Statements

This quarterly report may contain or incorporate by reference information that includes or is based upon "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements give expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They use words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," and other words and terms of similar meaning in connection with a discussion of future operating or financial performance. In particular, these include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, development efforts, expenses, the outcome of contingencies such as legal proceedings, trends in operations and financial results.

Any or all forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many such factors will be important in determining actual future results. These statements are based on current expectations and the current economic environment. They involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance. Actual results could differ materially from those expressed or implied in the forward-looking statements. Among factors that could cause actual results to differ materially are:

the risk factors discussed in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2012;

general economic conditions, including the performance of financial markets and interest rates;

- changes in energy commodity prices;
- changes in industry trends;
- changes in laws or regulations; and
- other factors, most of which are beyond the Company's control.

Questar undertakes no obligation to publicly correct or update the forward-looking statements in this quarterly report, in other documents, or on the Web site to reflect future events or circumstances. All such statements are expressly qualified by this cautionary statement.

#### ITEM 4. CONTROLS AND PROCEDURES.

## Evaluation of Disclosure Controls and Procedures.

The Chief Executive Officers and Chief Financial Officer of Questar, Questar Gas and Questar Pipeline have evaluated the effectiveness of the disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2013. Based on such evaluation, such officers have concluded that, as of June 30, 2013, Questar's, Questar Gas's and Questar Pipeline's disclosure controls and procedures are effective.

#### Changes in Internal Controls.

There were no changes in Questar's, Questar Gas's and Questar Pipeline's internal controls over financial reporting that occurred during the quarter ended June 30, 2013, that have materially affected, or are reasonably likely to materially affect, Questar's, Questar Gas's and Questar Pipeline's internal control over financial reporting.

#### PART II. OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS.

On May 1, 2012, Questar Gas Company filed a legal action against QEP Field Services Company, a subsidiary of QEP Resources, Inc. The case, entitled Questar Gas Company v. QEP Field Services Company, was filed in the Third District Court in Salt Lake County, Utah. Questar Gas believes certain charges of QEP Field Services Company for gathering services exceed the amounts contemplated under a Gas Gathering Agreement, effective September 1, 1993, pertaining to certain gas produced by Wexpro Company under the Wexpro Agreement. Questar Gas is alleging breach of contract by QEP Field Services Company and is seeking an accounting, damages and a declaratory judgment relating to the services and charges under the Gas Gathering Agreement. The charges under the Gas Gathering Agreement are included in Questar Gas's rates as part of its

Questar 2013 Form 10-Q

purchased gas costs. While Questar Gas intends to vigorously pursue its legal rights, the claims involve complex legal issues and uncertainties that make it difficult to predict the outcome of the case and therefore management cannot determine at this time whether this litigation may have an adverse material effect on its financial position, results of operations or cash flows.

Questar incurs environmental remediation costs related to both owned and previously-owned facilities. These facilities include a previously-owned chemical business, manufactured gas plant sites, and transmission and production facilities.

Questar and each of its subsidiaries are involved in various commercial, environmental, and regulatory claims. Litigation and other legal proceedings arise in the ordinary course of business. Except as stated above concerning the QEP lawsuit, management does not believe any of them individually or in the aggregate will have a material adverse effect on Questar's, Questar Gas's or Questar Pipeline's financial position, results of operations or cash flows.

A liability is recorded for a loss contingency when its occurrence is probable and damages can be reasonably estimated based on the anticipated most likely outcome. Disclosures are provided for contingencies reasonably likely to occur, which would have a material adverse effect on Questar's, Questar Gas's or Questar Pipeline's financial position, results of operations or cash flows. Some of the claims involve highly complex issues relating to liability, damages and other matters subject to substantial uncertainties and, therefore, the probability of liability or an estimate of loss cannot be reasonably determined.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Questar had no unregistered sales of equity securities during the second quarter of 2013. The following table sets forth the Company's purchases of common stock registered under Section 12 of the Securities Exchange Act of 1934 that occurred during the quarter ended June 30, 2013:

2013	Number of Shares Purchased <sup>(1)</sup>	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan <sup>(2)</sup>	Maximum Number of Shares that May Yet Be Purchased Under the Plan
Month #1 April 1, 2013 through April 30, 2013	_	\$	_	1,000,000
Month #2 May 1, 2013 through May 31, 2013	_	\$—	_	1,000,000
Month #3 June 1, 2013 through June 30, 2013	_	<b>\$</b> —	_	1,000,000
Totals		<b>\$</b> —	_	

<sup>(1)</sup> There were no share purchases in Month #1, Month #2 or Month #3 in conjunction with tax-payment elections under the Company's Long-term Stock Incentive Plan and rollover shares used in exercising stock options.

<sup>(2)</sup> Questar's Board of Directors authorized Questar to acquire, or cause to be acquired after January 1, 2013, up to 1 million shares of common stock, on an annual basis, in the name and on behalf of the Company in the open market and negotiated purchases from time to time, in accordance with all applicable Security and Exchange rules.

#### ITEM 6. EXHIBITS.

The following exhibits are being filed as part of this report: Exhibits No. Exhibits
