VISTA GOLD CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(All dollar amounts in U.S dollars and in thousands, except per share and per option amounts unless otherwise noted)

1. Nature of Operations and Basis of Presentation

Vista Gold Corp. and its subsidiaries (collectively, “Vista,” the “Company,” “we,” “our,” or “us”) operate in the gold mining industry. We are focused on the evaluation, acquisition, exploration and advancement of gold exploration and potential development projects, which may lead to gold production or value adding strategic transactions such as earn-in right agreements, option agreements, leases to third parties, joint venture arrangements with other mining companies, or outright sales of assets for cash and/or other consideration. We look for opportunities to improve the value of our gold projects through exploration drilling and/or technical studies focused on optimizing previous engineering work.

Our principal asset is our flagship Mt Todd gold project (“Mt Todd”) in Northern Territory, Australia where we continue to work to identify opportunities to improve project economics with the goal of advancing the project toward to development. We also hold 4.4% of the outstanding common shares in the capital of Midas Gold Corp. (“Midas Gold Shares”), non-core projects in Mexico and the United States, and royalty interests in Indonesia.

The interim Condensed Consolidated Financial Statements (“interim statements”) of the Company are unaudited. In the opinion of management, all adjustments and disclosures necessary for a fair presentation of these interim statements have been included. The results reported in these interim statements are not necessarily indicative of the results that may be reported for the entire year. These interim statements should be read in conjunction with the Company’s Consolidated Financial Statements for the year ended December 31, 2015 as filed on February 26, 2016 on Form 10-K. The year-end balance sheet data was derived from the audited financial statements and, in accordance with the instructions to Form 10-Q, certain information and footnote disclosures required by United States generally accepted accounting principles have been condensed or omitted.

References to C\$ refer to Canadian currency, A\$ to Australian currency and \$ to United States currency.

2. Recent Accounting Pronouncements

Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting (Accounting Standard Update 2016-09)

In March 2016, the Financial Accounting Standards Board issued guidance related to accounting for stock-based compensation which is intended to improve the accounting for employee share-based payments and affect all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment award transactions are simplified, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. For public companies, the amendments are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any organization in any interim or annual period. We do not expect to early adopt this guidance and do not believe that the adoption of this guidance will have a material impact on our financial statements.

3. Short-term and Other Investments

Short-term investments

As of June 30, 2016 and December 31, 2015, the amortized cost basis of our short-term investments was \$8,955 and \$11,990, respectively. The amortized cost basis approximates fair value at June 30, 2016 and December 31, 2015. Short-term investments are comprised of U.S. and/or Australian government treasury bills and/or notes which have maturity dates greater than 90 days but less than one year.

Table of Contents

VISTA GOLD CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(All dollar amounts in U.S dollars and in thousands, except per share and per option amounts unless otherwise noted)

Other investments - Midas Gold Shares

During March 2015, we sold 8,000,000 Midas Gold Shares, at a price of C\$0.46 (\$0.36) per Midas Gold Share, for net proceeds of \$2,772. We currently own 7,802,615 Midas Gold Shares or approximately 4.4% of the Midas Gold Shares outstanding, on a non-dilutive basis.

Upon initial recognition of our investment in the Midas Gold Shares, we elected to apply the fair value option, and as such, the investment is recorded at fair value in the Condensed Consolidated Balance Sheets. Subsequent changes in fair value are recorded in the Condensed Consolidated Statements of Income/(Loss) and Comprehensive Income/(Loss) in the period in which they occur.

The following table summarizes our investment in Midas Gold Shares as of June 30, 2016 and December 31, 2015.

	June 30, 2016	December 31, 2015
Fair value at beginning of period	\$ 1,798	\$ 6,163
Sale of Midas Gold Shares, net of costs to sell	—	(2,772)
Gain/(loss) during the period	3,820	(1,593)
Fair value at end of period	\$ 5,618	\$ 1,798
Midas Gold Shares held at the end of the period	7,802,615	7,802,615

4. Mineral Properties

Edgar Filing: VISTA GOLD CORP - Form 10-Q

	At June 30, 2016	At December 31, 2015
Mt Todd, Australia	\$ 2,146	\$ 2,146
Guadalupe de los Reyes, Mexico	1,728	1,728
	\$ 3,874	\$ 3,874

Guadalupe de los Reyes Gold/Silver Project, Sinaloa, Mexico

During April 2014, Minera Gold Stake S.A. de C.V., Vista's wholly-owned subsidiary, entered into a definitive option agreement (the "Option Agreement") to option a 70% interest in the Guadalupe de los Reyes gold/silver project in Sinaloa, Mexico to Great Panther Silver Limited (formerly Cangold Limited) ("Great Panther") for consideration of \$5,000 in payments over a three-year period. On February 25, 2016 Vista received notification from Great Panther that it was terminating the Option Agreement. Pursuant to the terms of the Option Agreement, Vista retains the \$996 already paid by Great Panther (\$500 received in 2014 and \$496 net of legal costs was received in March 2015) and 100% of the Guadalupe de los Reyes gold/silver project.

Los Cardones

In October 2013, we sold our 100% debt and equity participation in the Los Cardones gold project located in Baja California Sur, Mexico ("Los Cardones Sale") to Investure Group, S.A. de C.V. ("Investure") and RPG Structured Finance S.a.r.l. (together the "Purchasers") for a total of \$13,000 (\$7,000 of which was paid in October 2013 and \$6,000 of which was originally payable in January 2014 (the "Subsequent Payment") subject to the Purchasers' option to elect to not make the Subsequent Payment. In 2014, the due date for the Subsequent Payment was extended to January 30, 2015 for additional consideration of \$500. In October 2014, Investure announced that the Los Cardones gold project had been suspended because the conditions for its development were not favorable at that time, which introduced substantial doubt that the Subsequent Payment would be made. After making this announcement, there were no apparent significant favorable changes to incentivize Investure to lift the suspension. In January 2015, we agreed to amend the payment terms (the "Amendment") of the Los Cardones Sale. Under the Amendment, the Company received a payment of \$2,994 net of

Table of Contents

VISTA GOLD CORP.

(All dollar amounts in U.S dollars and in thousands, except per share and per option amounts unless otherwise noted)

legal costs from the Purchasers as the final payment for 100% of the Company's interest in the project. This resulted in a realized gain of \$1,958.

Utah Claims

During the first quarter of 2016, we sold our unpatented mining claims located in Utah for \$150 and a 2% net smelter return royalty ("NSR") on any future production from said claims. This resulted in a realized gain of \$150.

5. Plant and Equipment

	June 30, 2016			December 31, 2015		
	Cost	Accumulated depreciation	Net	Cost	Accumulated depreciation	Net

Used mill equipment, Canada	6,500	—	6,500	6,500	—	6,500
	\$ 12,561	\$ 4,032	\$ 8,529	\$ 12,537	\$ 3,745	\$ 8,792

6. Common Shares

Stock-Based Compensation

Edgar Filing: VISTA GOLD CORP - Form 10-Q

Under our Stock Option Plan (the “Plan”) and our Long-Term Equity Incentive Plan (the “LTIP”), we may grant options and/or restricted stock units (“RSUs”) or restricted stock awards to our directors, officers, employees and consultants. The combined maximum number of shares in the capital of Vista (“Common Shares”) that may be reserved for issuance under the Plan and the LTIP is a variable number equal to 10% of the issued and outstanding Common Shares on a non-diluted basis. Options and RSUs under the Plan and LTIP, respectively, are granted from time to time at the discretion of the Board of Directors of the Company (“Board”), with vesting periods and other terms as determined by the Board. Stock-based compensation expense for the three and six months ended June 30, 2016 and 2015 is as follows:

	Three Months		Six Months	
	Ended June 30, 2016	2015	Ended June 30, 2016	2015
Stock options	\$ 3	\$ 2	\$ 5	\$ 4
Restricted stock units	163	237	303	463
	\$ 166	\$ 239	\$ 308	\$ 467

As of June 30, 2016, stock options and RSUs had unrecognized compensation expense of \$20 and \$275, respectively, which is expected to be recognized over a weighted average period of 2.50 and 0.91 years, respectively.

Table of Contents

VISTA GOLD CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(All dollar amounts in U.S dollars and in thousands, except per share and per option amounts unless otherwise noted)

Stock Options

A summary of options under the Plan as of June 30, 2016 is set forth in the following table:

	Number of options	Weighted average exercise price per option	Weighted average remaining contractual term	Aggregate intrinsic value
Outstanding - December 31, 2015	2,257,500	\$ 1.60	2.02	\$ —
Expired	(667,500)	2.87		
Outstanding - June 30, 2016	1,590,000	\$ 1.07	2.18	\$ 1,770
Exercisable - June 30, 2016	1,343,750	\$ 1.20	2.13	\$ 1,388

A summary of our unvested stock options as of June 30, 2016 is set forth in the following table:

	Number of options	Weighted average grant-date fair value per option	Weighted average remaining amortization period (Years)
Unvested - December 31, 2015	246,250	\$ 0.22	
Unvested - June 30, 2016	246,250	\$ 0.22	2.50

Restricted Stock Units

The following table summarizes the RSUs under the LTIP as of June 30, 2016:

	Number of units	Weighted average grant-date fair value per unit
Unvested - December 31, 2015	4,085,446	\$ 0.44
Vested	(20,570)	1.68
Granted	483,000	0.52
Unvested - June 30, 2016	4,547,876	\$ 0.44

A portion of the RSU awards vest on a fixed future date provided the recipient continues to be affiliated with Vista on that date. Other RSU awards vest subject to certain performance and market criteria, including the accomplishment of certain corporate objectives and the Company's share price performance. The vesting period for RSUs is at least one year.

7. Commitments and Contingencies

Our exploration and development activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and are generally becoming more restrictive. As such, the future expenditures that may be required for compliance with these laws and regulations cannot be predicted. We conduct our operations to minimize effects on the environment and believe our operations are in compliance with applicable laws and regulations in all material respects.

Under our agreement with the Jawoyn Association Aboriginal Corporation (the "JAAC"), we must offer the JAAC the opportunity to establish a joint venture with Vista holding a 90% participating interest and the JAAC holding a 10% participating interest in the Mt Todd mining licenses. In addition, the JAAC will be entitled to an annual cash payment,

Table of Contents

VISTA GOLD CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(All dollar amounts in U.S dollars and in thousands, except per share and per option amounts unless otherwise noted)

or payment in kind, equal to 1% of the value of the annual gold production from the current mining licenses, and a 1% NSR royalty on other metals, subject to a minimum payment of A\$50 per year.

During November 2015, we entered into a two-year lease agreement to store our used mill equipment. Monthly rent for the term of the lease is C\$18 (\$13).

8. Fair Value Accounting

The following table sets forth the Company's assets measured at fair value by level within the fair value hierarchy. As required by accounting guidance, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Fair value at June 30, 2016		
	Total	Level 1	Level 3
Marketable securities	\$ 125	\$ 125	\$ —
Other investments (Midas Gold Shares)	5,618	5,618	—

	Fair value at December 31, 2015		
	Total	Level 1	Level 3
Marketable securities	\$ 61	\$ 61	\$ —
Other investments (Midas Gold Shares)	1,798	1,798	—
Used mill equipment (non-recurring)	6,500	—	6,500

Our marketable securities and investment in Midas Gold Shares are classified as Level 1 of the fair value hierarchy as they are valued at quoted market prices in an active market. Marketable securities are included in other current assets on the Condensed Consolidated Balance Sheets for each period presented.

The mill equipment is classified as Level 3 of the fair value hierarchy as its value at December 31, 2015 was based on a third party assessment of the projected sale value less costs to sell giving full consideration to current market conditions and an orderly sale process. As of June 30, 2016, there is no indication that the carrying value of the used mill equipment may not be recoverable, consequently no fair value assessment is required for the period ended June 30, 2016. The mill equipment is included in plant and equipment on the Condensed Consolidated Balance Sheets for each period presented.

There have been no transfers between levels in 2016 nor have there been any changes in valuation techniques.

9. Geographic and Segment Information

The Company has one reportable operating segment, consisting of evaluation, acquisition, and exploration activities. We evaluate, acquire, explore and advance gold exploration and potential development projects, which may lead to gold production or value adding strategic transactions. These activities are focused principally in Australia and North America. We reported no revenues during the three and six months ended June 30, 2016 and 2015. Geographic location of mineral properties and plant and equipment is provided in Notes 4 and 5, respectively.

10. Research and Development Grant

During the six months ended June 30, 2016 and 2015, the Company received a \$744 and \$5,863, respectively, Research & Development (“R&D”) Tax Incentive refund, net of costs to prepare and file, paid under the Australian Government’s R&D Tax Incentive Program, a program designed to encourage industry to engage in R&D activities that benefit Australia. This refund is related to costs we incurred during the 2014 and 2012 fiscal years, respectively, for qualifying R&D programs. The R&D tax incentive program is a self-assessment process, and as such, the Australian Government has the right to audit the qualifying programs and expenditures for a period of four years.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements for the three and six months ended June 30, 2016, and the related notes thereto, which have been prepared in accordance with generally accepted accounting principles in the United States. This discussion and analysis contains forward-looking statements and forward-looking information that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements and information as a result of many factors. See section heading "Note Regarding Forward-Looking Statements" below.

All dollar amounts stated herein are in U.S. dollars in thousands, except per share amounts and currency exchange rates unless specified otherwise. References to C\$ refer to Canadian currency, A\$ to Australian currency and \$ to United States currency.

Overview

Vista Gold Corp. and its subsidiaries (collectively, "Vista," the "Company," "we," "our," or "us") are engaged in the gold mining industry. We are focused on the evaluation, acquisition, exploration and advancement of gold exploration and potential development projects, which may lead to gold production or value adding strategic transactions such as earn-in right agreements, option agreements, leases to third parties, joint venture arrangements with other mining companies, or outright sales of assets for cash and/or other consideration. We look for opportunities to improve the value of our gold projects through exploration drilling and/or technical studies focused on optimizing previous engineering work.

Our principal asset is our flagship Mt Todd gold project ("Mt Todd") in Northern Territory, Australia where we continue to work to identify opportunities to improve project economics with the goal of moving the project closer to development. We also hold 4.4% of the outstanding common shares in the capital of Midas Gold Corp. ("Midas Gold Shares"), non-core projects in Mexico and the United States, and royalty interests in Indonesia.

Outlook

We do not currently generate cash flows from mining operations. Since 2013, we have financed our business without significant share dilution and we have substantially reduced our costs to ensure that the Company remained liquid during the downturn in the gold market.

The positive shift in the gold market that we observed during the first quarter of 2016 intensified through the second quarter as several macro-economic factors favorable to gold have emerged. We are cautiously optimistic that the bear market in the sector that began in 2013 may be ending. However, we currently have no intention of changing our forecasted spending. The Company's 2016 fixed costs (those cash expenditures necessary to ensure that we preserve our property rights and meet all of our safety, regulatory and environmental responsibilities) are expected to continue to average \$1,400 to \$1,600 per quarter. Subject to availability of funding, we will continue to consider selected discretionary programs, mainly consisting of technical studies and exploration programs, that could add value to Mt Todd. We continue to believe that we have sufficient cash to fund our currently planned programs into 2018.

Results from Operations

Summary

As a result of our strict cost management policies, together with the realization of R&D grants and non-dilutive financing, the Company continues to be well funded and able to execute selected strategic discretionary programs.

Consolidated net income for the three months ended June 30, 2016 and 2015 was \$1,637 and \$3,589 or \$0.02 and \$0.04 per share, respectively. Consolidated net income for the six months ended June 30, 2016 and 2015 was \$923 and \$2,642 or \$0.01 and \$0.03 per share, respectively. The principal components of these year-over-year changes are discussed below.

Table of Contents

Exploration, property evaluation and holding costs

Exploration, property evaluation and holding costs were \$824 and \$984 during the three months ended June 30, 2016 and 2015, respectively, and \$1,811 and \$1,959 during the six months ended June 30, 2016 and 2015, respectively. These costs are predominantly associated with Mt Todd. Fixed costs in 2016 (those cash expenditures necessary to ensure that we preserve our property rights and meet all of our safety, regulatory and environmental responsibilities) and, on an Australian dollar basis are substantially unchanged from 2015. Minor 2016 cost reductions were driven by the weaker Australian dollar, together with slightly lower non-cash stock-based compensation.

Corporate administration

Corporate administration costs were \$650 and \$798 during the three months ended June 30, 2016 and 2015, respectively, and \$1,738 and \$1,842 during the six months ended June 30, 2016 and 2015, respectively. Corporate fixed cash costs were substantially unchanged year over year. Cost reductions in 2016 were primarily driven by a decrease in non-cash stock-based compensation.

Non-operating income and expenses

Gain/(loss) on other investments

Gain/(loss) on other investments was \$3,277 and \$(312) for the three months ended June 30, 2016 and 2015, respectively, and \$3,820 and \$(1,050) for the six months ended June 30, 2016 and 2015, respectively. These amounts are the result of changes in fair value of our Midas Gold Shares. The 2015 loss includes a realized loss of \$348 on the sale of 8,000,000 Midas Gold Shares.

Research and development grant

During the six months ended June 30, 2016 and 2015, the Company received \$744 and \$5,863, respectively, net of costs to prepare and file, from the Australian Government related to R&D activities at Mt Todd.

Financial Position, Liquidity and Capital Resources

Operating activities

Net cash provided by/(used) in operating activities was \$(2,709) and \$2,594 for the six months ended June 30, 2016 and 2015, respectively. Cash used in 2016 is net of grants totaling \$744 from the Government of Australia related to R&D expenditures we incurred in 2014. Cash provided in 2015 includes grants totaling \$5,863 from the Government of Australia related to R&D expenditures we incurred in 2012. Other factors that contributed to the year-over-year change are those discussed in “Results from Operations” above.

Investing activities

Net cash of \$3,161 for the six months ended June 30, 2016 was primarily provided from the net disposition of short-term investments.

Net cash of \$6,293, after the purchase of short-term investments of \$8,793, for the six months ended June 30, 2015 was provided from proceeds received from the sale of the Los Cardones gold project of \$2,994 net of legal costs, the Option Agreement (as defined under the heading Guadalupe de Los Peyes Gold/Silver Project, Sinaloa, Mexico of \$496, and the sale of 8,000,000 Midas Gold Shares for net proceeds of \$2,772.

Financing activities

There were no cash transactions from financing activities during the six months ended June 30, 2016 or 2015.

Table of Contents

Liquidity and capital resources

Cash flows generated during the six months ended June 30, 2016 included the receipt of grants totaling \$744, net of costs to prepare and file, from the Government of Australia related to the R&D Tax Incentive for qualifying R&D expenditures we incurred in 2014. Our cash and short-term investments (comprised of U.S. and Australian Government Treasury Bills) as of June 30, 2016 decreased to \$10,309 from \$12,892 as at December 31, 2015; and our net working capital increased to \$15,957 from \$14,399 as at December 31, 2015. The working capital increase results from an improved mark-to-market value of our Midas Gold Shares, net of the reduction in cash and short-term investments.

The continuing long-term viability of the Company is dependent upon our ability to secure sufficient funding and ultimately to generate future profits from operations. The underlying value and recoverability of the amounts shown as mineral properties and plant and equipment in our Condensed Consolidated Balance Sheets are dependent on our ability to fund exploration and development activities that could lead to profitable production or proceeds from the disposition of these assets.

Fair Value Accounting

The following table sets forth the Company's assets measured at fair value by level within the fair value hierarchy. As required by accounting guidance, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Fair value at June 30, 2016		
	Total	Level 1	Level 3
Marketable securities	\$ 125	\$ 125	\$ —
Other investments (Midas Gold Shares)	5,618	5,618	—
	Fair value at December 31, 2015		
	Total	Level 1	Level 3
Marketable securities	\$ 61	\$ 61	\$ —
Other investments (Midas Gold Shares)	1,798	1,798	—
Used mill equipment (non-recurring)	6,500	—	6,500

Our marketable securities and investment in Midas Gold Shares are classified as Level 1 of the fair value hierarchy as they are valued at quoted market prices in an active market. Marketable securities are included in other current assets on the Condensed Consolidated Balance Sheets for each period presented.

The mill equipment is classified as Level 3 of the fair value hierarchy as its value at December 31, 2015 was based on a third party assessment of the projected sale value less costs to sell giving full consideration to current market conditions and an orderly sale process. As of June 30, 2016, there is no indication that the carrying value of the used mill equipment may not be recoverable, consequently no fair value assessment is required for the period ended June 30, 2016. The mill equipment is included in plant and equipment on the Condensed Consolidated Balance Sheets for each period presented.

There have been no transfers between levels in 2016 nor have there been any changes in valuation techniques.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Contractual Obligations

During November 2015, we entered into a two-year lease agreement to store our used mill equipment. Monthly rent for the term of the lease is C\$18 (\$13).

Table of Contents

Project Updates

Mt Todd Gold Project, Northern Territory, Australia

During 2016, we plan to continue our focus on Mt Todd. A team of technical experts has completed a review of the key areas of the project, concentrating on metallurgical recovery, process engineering and plant design, pit slope rock mechanics, mine plans and scheduling, and the gas-fired power plant, and we are following up on certain recommendations that may lead to improved project economics.

In addition, subject to availability of funding, we continue to consider other selected discretionary programs, mainly consisting of technical studies and exploration programs, that are expected to add value to Mt Todd and better position us to quickly advance the project to development when economic conditions warrant.

In the fourth quarter of 2015, we submitted a request for authorization under the Australian Environmental Protection and Biodiversity Conservation Act of 1999, as it relates to the Gouldian Finch. The Australian Commonwealth Department of Environment has requested additional modelling and testing information from us as part of their review. We are working with our consultants to develop the additional modelling and testing information as quickly as possible.

Guadalupe de los Reyes Gold/Silver Project, Sinaloa, Mexico

During April 2014, Minera Gold Stake S.A. de C.V., Vista's wholly-owned subsidiary, entered into a definitive option agreement (the "Option Agreement") to option a 70% interest in the Guadalupe de los Reyes gold/silver project in Sinaloa, Mexico to Great Panther Silver Limited (formerly Cangold Limited) ("Great Panther") for consideration of \$5,000 in payments over a three-year period. On February 25, 2016 Vista received notification from Great Panther that it was terminating the Option Agreement. Pursuant to the terms of the Option Agreement, Vista retains the \$996 already paid by Great Panther (\$500 received in 2014 and \$496 net of legal costs was received in March 2015) and 100% of the Guadalupe de los Reyes gold/silver project.

We do not consider the Guadalupe de los Reyes gold/silver project a material project. We intend to seek partners to advance the project.

Certain U.S. Federal Income Tax Considerations

Vista has been a “passive foreign investment company” (“PFIC”) as defined under Section 1297 of the U.S. Internal Revenue Code of 1986, as amended, in recent years and expects to continue to be a PFIC in the future. Current and prospective United States shareholders should consult their tax advisors as to the tax consequences of PFIC classification and the U.S. federal tax treatment of PFICs. Additional information on this matter is included in Vista’s Annual Report on Form 10-K for the year ended December 31, 2015, under “Part II. Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities — Certain United States Federal Income Tax Considerations.”

Note Regarding Forward-Looking Statements

This quarterly report on Form 10-Q contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and forward-looking information under Canadian securities laws that are intended to be covered by the safe harbor created by such legislation. All statements, other than statements of historical facts, included in this quarterly report on Form 10-Q, our other filings with the SEC and Canadian securities commissions and in press releases and public statements by our officers or representatives that address activities, events or developments that we expect or anticipate will or may occur in the future are forward-looking statements and forward-looking information, including, but not limited to, such things as those listed below:

- the Company’s ability to sustain its fixed costs at \$1,400 to \$1,600 per quarter for the foreseeable future;
- the ability to fund the Company’s currently planned programs into 2018;

Table of Contents

- the potential monetization of our non-core assets, including our mill equipment which is for sale;
- our plan to not introduce immediate changes to the business plan or forecasted spending;
- our expectation that future R&D grants from the Government of Australia, if any, will be significantly less than those received in 2015 and 2016;

- our belief that we have positioned the Company to judiciously pursue near-term value creating opportunities;
- the nature and magnitude of future discretionary programs, if any, and the availability of funding for such programs;
- our ability to quickly advance Mt Todd to development when economic conditions permit;
- our cautious optimism that the bear market in the sector may be ending;
- estimates of future operating and financial performance;
- potential funding requirements and sources of capital, including near-term sources of additional cash;
- our expectation that the Company will continue to incur losses and will not pay dividends for the foreseeable future;
- our intention to continue cost management efforts;
- our potential ability to generate proceeds from operations or the disposition of our assets;
- the timing, performance and results of feasibility studies;
- plans and anticipated effects of holding 4.4% of the outstanding Midas Gold Shares;
 - our potential entry into agreements to find, lease, purchase, option or sell mineral interests;
- plans to focus our efforts on Mt Todd;
- plans for evaluation and advancement of Mt Todd;
- our expectation that technical and exploration programs at Mt Todd will increase the value of Mt Todd;
- our ability to complete the Mt Todd feasibility study within six months of commencement;
- the feasibility of Mt Todd;
- our expectation of Mt Todd's impact, including environmental and economic impacts;
- plans and estimates concerning potential project exploration and development, including the use of high pressure grinding roll crushers and access to a water supply, as well as the ability to obtain required permits;
- our belief that we are in compliance in all material respects with applicable mining, health, safety and environmental statutes and regulations in all of the jurisdictions in which we operate;
- our belief that we maintain reasonable amounts of insurance;
- estimates of mineral reserves and mineral resources;
- our intention to seek partners to advance the Guadalupe de los Reyes project;
- potential changes in regulations or taxation initiatives; and
- our expectation that we will continue to be a PFIC.

Forward-looking statements and forward-looking information have been based upon our current business and operating plans, as approved by the Company's Board of Directors; our cash and other funding requirements and timing and sources thereof; results of pre-feasibility and feasibility studies, mineral resource and reserve estimates, preliminary economic assessments and exploration activities; advancements of the Company's required permitting processes; our

Table of Contents

experience working with our regulators; current market conditions and project development plans. The words “estimate,” “plan,” “anticipate,” “expect,” “intend,” “believe,” “will,” “may” and similar expressions are intended to identify forward-looking statements and forward-looking information. These statements involve known and unknown risks, uncertainties, assumptions and other factors which may cause our actual results, performance or achievements to be materially different from any results, performance or achievements expressed or implied by such forward-looking statements and forward-looking information. These factors include risks such as:

- our ability to raise additional capital or raise funds from the sale of non-core assets on favorable terms, if at all;
- pre-feasibility and feasibility study results and preliminary assessment results and the accuracy of estimates and assumptions on which they are based;
- resource and reserve estimate results, the accuracy of such estimates and the accuracy of sampling and subsequent assays and geologic interpretations on which they are based;
- technical and operational feasibility and the economic viability of deposits;
- our ability to obtain, renew or maintain the necessary authorizations, agreements and permits for Mt Todd, including its development plans and operating activities;
- the timing and results of a feasibility study on Mt Todd;
- delays in commencement of construction at Mt Todd;
- our ability to secure the permits for Mt Todd;
- increased costs that affect our operations or our financial condition;
- our reliance on third parties to fulfill their obligations under agreements with us;
- whether projects not managed by us will comply with our standards or meet our objectives;
- a shortage of skilled labor, equipment and supplies;
- whether our acquisition, exploration and development activities, as well as the realization of the market value of our assets, will be commercially successful and whether any transactions we enter into will maximize the realization of the market value of our assets;
- trading price of our securities and our ability to raise funds in new share offerings due to future sales of common shares in the public or private market;
- the lack of cash dividend payments by us;
 - the success of future joint ventures, partnerships and other arrangements relating to our properties;
- industry consolidation which could result in the acquisition of a control position in the Company for less than fair value;
- the market price of the securities held by us;
- our ability to timely monetize our Midas Gold Shares;
- perception of potential environmental impact of Mt Todd;
- reclamation liabilities, including reclamation requirements at Mt Todd;
- our history of losses from operations;
- future water supply issues at Mt Todd;
- litigation or other legal claims;
- environmental lawsuits;
- lack of adequate insurance to cover potential liabilities;

Table of Contents

- our ability to attract, retain and hire key personnel;
- fluctuations in the price of gold;
- volatility in our stock price;
- inherent hazards of mining exploration, development and operating activities;
- the accuracy of calculations of mineral reserves, mineral resources and mineralized material fluctuations therein based on metal prices, and inherent vulnerability of the ore and recoverability of metal in the mining process;
- changes in environmental regulations to which our exploration and development operations are subject;
- changes in climate change regulations could result in increased operating costs;
- intense competition in the mining industry;
- potential challenges to the title to our mineral properties;
- political and economic instability in Mexico;
- tax initiatives on domestic and international levels;
- fluctuation in foreign currency values;
- our R&D grants may be subject to review; and
- our likely status as a PFIC for U.S. federal tax purposes.

For a more detailed discussion of such risks and other important factors that could cause actual results to differ materially from those in such forward-looking statements and forward-looking information, please see the risk factors contained in our Annual Report on Form 10-K for the year ended December 31, 2015, under “Part I-Item 1A. Risk Factors”. Although we have attempted to identify important factors that could cause actual results to differ materially from those described in forward-looking statements and forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that these statements will prove to be accurate as actual results and future events could differ materially from those anticipated in the statements. Except as required by law, we assume no obligation to publicly update any forward-looking statements and forward-looking information, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are engaged in the acquisition of gold projects and related activities, including exploration, engineering, permitting and the preparation of feasibility studies. The value of our properties, as well as our marketable securities and our investment in Midas Gold Shares, are related to the price of gold, and changes in the price of gold could affect the value of, and/or our ability to generate revenue from, our mineral projects and other assets.

Gold prices may fluctuate widely from time to time and are affected by numerous factors, including: expectations with respect to the rate of inflation, currency exchange rates, interest rates, global and regional political and economic circumstances and governmental policies, including those with respect to gold holdings by central banks. The demand for and supply of gold affect gold prices, but not necessarily in the same manner as demand and supply affect the prices of other commodities. The supply of gold consists of a combination of new mine production and existing stocks of bullion and fabricated gold held by governments, public and private financial institutions, industrial organizations and private individuals. The demand for gold primarily consists of jewelry and investments. Additionally, hedging activities by producers, consumers, financial institutions and individuals can affect gold supply and demand. The market value for gold cannot be predicted with any accuracy for future time periods.

Because we have exploration operations in Australia, we are subject to foreign currency fluctuations. We are not currently engaged in currency hedging to offset any risk of currency fluctuations.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures.

At the end of the period covered by this quarterly report on Form 10-Q for the six months ended June 30, 2016, an evaluation was carried out under the supervision of and with the participation of our management, including the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of the design and operations of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based on that evaluation, the CEO and the CFO have concluded that as of the end of the period covered by this quarterly report, our disclosure controls and procedures were effective in ensuring that: (i) information required to be disclosed by us in reports that we file or submit to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and (ii) material information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow for accurate and timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS.

We are not aware of any material pending or threatened litigation or of any proceedings known to be contemplated by governmental authorities that are, or would be, likely to have a material adverse effect upon us or our operations, taken as a whole.

ITEM 1A. RISK FACTORS.

Other than the risk factor discussed below, there have been no material changes from the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2015 as filed with the SEC on February 26, 2016.

Our R&D grants are subject to governmental review and there is no guarantee that the Australian government will continue to approve such R & D grants.

The R&D tax incentive program is a self-assessment process, and as such, the Australian Government has the right to review the qualifying programs and expenditures for a period of four years and there is no assurance that we will continue to receive R &D grants from such tax incentive program.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURE.

We consider health, safety and environmental stewardship to be a core value for the Company.

Pursuant to Section 1503(a) of the United States Dodd-Frank Wall Street Reform and Consumer Protection Act of 2011 (the “Dodd-Frank Act”), issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine in

Table of Contents

the United States are required to disclose in their periodic reports filed with the SEC information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities under the regulation of the Federal Mine Safety and Health Administration (“MSHA”) under the United States Federal Mine Safety and Health Act of 1977 (the “Mine Act”). During the six months ended June 30, 2016, our U.S exploration properties were not subject to regulation by the MSHA under the Mine Act and consequently no disclosure is required under Section 1503(a) of the Dodd-Frank Act.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.
