GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

Franklin Universal Trust

YOUR FUND'S GOALS AND MAIN INVESTMENTS: Franklin Universal Trust's primary investment objective is to provide high, current income consistent with preservation of capital. Its secondary objective is growth of income through dividend increases and capital appreciation.

PERFORMANCE DATA QUOTED REPRESENT PAST PERFORMANCE, WHICH DOES NOT GUARANTEE FUTURE RESULTS. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE, AND YOU MAY HAVE A GAIN OR LOSS WHEN YOU SELL YOUR SHARES. CURRENT PERFORMANCE MAY DIFFER FROM FIGURES SHOWN. Dear Shareholder:

We are pleased to bring you Franklin Universal Trust's semiannual report for the period ended February 28, 2005.

PERFORMANCE OVERVIEW

For the six months under review, the Fund's cumulative total returns were +11.55% based on change in net asset value and +12.14% based on change in market price on the New York Stock Exchange, as shown in the Performance Summary on page 5. For comparison, the Credit Suisse First Boston (CSFB) High Yield Index returned 7.53%, and utilities stocks, as measured by the Standard & Poor's (S&P) Utilities Index, returned 17.95% for the period ended February 28, 2005. 1

1. Source: Credit Suisse First Boston. The CSFB High Yield Index is designed to mirror the investible universe of the U.S. dollar denominated high yield debt market and includes reinvested interest. The S&P Utilities Index is a market capitalization-weighted index that includes utility stocks in the S&P 500 Composite Index. The index includes reinvested dividends. The indexes are unmanaged. One cannot invest directly in an index, nor is an index representative of the Fund's portfolio.

THE DOLLAR VALUE, NUMBER OF SHARES OR PRINCIPAL AMOUNT, AND NAMES OF ALL PORTFOLIO HOLDINGS ARE LISTED IN THE FUND'S STATEMENT OF INVESTMENTS (SOI). THE SOI BEGINS ON PAGE 11.

ECONOMIC AND MARKET OVERVIEW

During the six-month period, investors focused on consumer and business spending. Small businesses, which have historically created about two-thirds of all new jobs, added 3% more jobs for the three months ended February 2005, according to the National Federation of Independent Businesses (NFIB) survey. This job growth helped increase consumers' disposable income and allowed them to continue spending, boosting economic growth.

Increases in business spending also contributed to economic growth. For example, nonresidential investment spending increased 13% and 14.5% in the third and fourth quarters of 2004. 2 Historically low interest rates during the reporting period allowed many businesses to refinance their old debt at more attractive levels. This enhanced business operating performance, and corporate profits reflected this data. Productivity continued to grow, which helped businesses generate more goods and services without substantially raising inflation.

However, energy prices rose dramatically during the period under review as oil futures ended February 2005 at \$51.75 per barrel. 3 The core Consumer Price Index, a measure of inflation excluding food and energy costs, rose at a relatively modest 2.4% in February 2005 compared with a year earlier. Aiming to keep inflation tame, the Federal Reserve Board (Fed) raised the federal funds target rate to 2.5% from 1.5% during the reporting period. Still, interest rates remained historically low. The Fed funds futures contracts expect further increases at some of the Fed's upcoming meetings. The 10-year U.S. Treasury yield exhibited some volatility, beginning the period at 4.13%, ranging from a low of 3.99% to a high of 4.40%, and finishing the period at 4.36%.

INVESTMENT STRATEGY

We invest primarily in two asset classes: high yield bonds and utility stocks. Within the high yield portion of the portfolio, we use fundamental research to invest in a diversified portfolio of bonds. Within the utility portion of the portfolio, we focus on companies with attractive dividend yields and with a history of increasing their dividends.

MANAGER'S DISCUSSION

During the period under review, the Fund benefited from positive returns in each of its primary asset classes. High yield corporate bonds gained from a strong fundamental environment as well as continued investor interest in higher yielding assets. Due to a continuing economic recovery, the default rate fell to 1.25% in 2004, well below the 4.40% historical average experienced since 1985. 4 Utility stocks benefited from investor preference for dividend paying stocks and a continued low interest rate environment. Many utility companies maintained their "back to basics" strategy, which focused on core, regulated assets and generating shareholder returns through dividend increases or share repurchases.

HIGH YIELD CORPORATE BONDS

The Fund benefited from its overweighted positions in wireless telecommunications and chemicals relative to the CSFB High Yield Index. 5 The wireless telecommunications industry benefited from merger and acquisition activity, in particular the merger of Fund holding Nextel Communications with investment grade-rated Sprint. In addition, industry growth remained positive and the feared demise of revenues from roaming charges failed to materialize. The chemicals industry experienced renewed pricing power, as demand for plastics and other chemical end-products improved along with the economy. Since very little new capacity was built during the recent industry downturn, the increase in demand led to higher operating rates, which enabled companies to expand margins in spite of high oil and natural gas costs. In this favorable fundamental environment, several companies, including Fund holdings Nalco, Celanese (BCP Caylux Holding in the SOI) and Huntsman International Holdings, issued equity via initial public offerings.

The Fund's underweighted position in utilities and overweighted position in broadcasting hindered performance in the high yield sector. Utility bonds generated returns greater than that of the overall index. However, the Fund intentionally kept its high yield utility exposure fairly low given its large exposure to that sector through utility stocks. More defensive sectors such as broadcasting underperformed the index during the reporting period's strong market environment. We held a greater exposure than the index because we preferred broadcasters' free cash flow generation and the asset protection afforded by the value of radio and television stations.

5. In the SOI, the wireless telecommunications industry is part of communications; the chemicals industry is part of process industries.

Dividend Reinvestment and Cash Purchase Plan

The Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan") offers you a prompt and simple way to reinvest dividends and capital gain distributions in shares of the Fund. The Plan also allows you to purchase additional shares of the Fund by making voluntary cash payments. PFPC Inc. (the "Plan Agent"), P.O. Box 9223, Chelsea, MA 02150-9223, acts as your Plan Agent in administering the Plan. The complete Terms and Conditions of the Dividend Reinvestment and Cash Purchase Plan are contained in the Fund's Dividend Reinvestment and Cash Purchase Plan Brochure. A copy of that Brochure may be obtained from the Fund at the address on the back cover of this report.

You are automatically enrolled in the Plan unless you elect to receive dividends or distributions in cash. If you own shares in your own name, you should notify the Plan Agent, in writing, if you wish to receive dividends or distributions in cash.

If the Fund declares a dividend or capital gain distribution payable either in cash or in stock of the Fund and the market price of shares on the valuation date equals or exceeds the net asset value, the Fund will issue new shares to you at the higher of net asset value or 95% of the then current market price. Whenever the Fund declares a distribution from capital gains or an income dividend payable in either cash or shares, if the net asset value per share of the Fund's common stock exceeds the market price per share on the valuation date, the Plan Agent shall apply the amount of such dividend or distribution payable to participants to the purchase of shares (less their pro rata share of brokerage commissions incurred with respect to open market purchases in connection with the reinvestment of such dividend or distribution). If the price exceeds the net asset value before the Plan Agent has completed its purchases, the average purchase price may exceed the net asset value, resulting in fewer shares being acquired than if the Fund had issued new shares. All reinvestments are in full and fractional shares, carried to three decimal places. The Fund will not issue shares under the Plan at a price below net asset value.

The Plan permits you on a voluntary basis to submit in cash payments of not less

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

than \$100 each up to a total of \$5,000 per month to purchase additional shares of the Fund. It is entirely up to you whether you wish to buy additional shares with voluntary cash payments, and you do not have to send in the same amount each time if you do. These payments should be made by check or money order payable to PFPC Inc. and sent to PFPC Inc., Attn: Franklin Universal Trust, P.O. Box 9223, Chelsea, MA 02150-9223.

Your cash payment will be aggregated with the payments of other participants and invested on your behalf by the Plan Agent in shares of the Fund that are purchased in the open market.

Semiannual Report | 7

The Plan Agent will invest cash payments on approximately the 5th of each month in which no dividend or distribution is payable and, during each month in which a dividend or distribution is payable, will invest cash payments beginning on the dividend payment date. UNDER NO CIRCUMSTANCES WILL INTEREST BE PAID ON YOUR FUNDS HELD BY THE PLAN AGENT. Accordingly, you should send any voluntary cash payments you wish to make shortly before an investment date but in sufficient time to ensure that your payment will reach the Plan Agent not less than two business days before an investment date. Payments received less than two business days before an investment date will be invested during the next month or, if there are more than 30 days until the next investment date, will be returned to you. You may obtain a refund of any cash payment by written notice, if the Plan Agent receives the written notice not less than 48 hours before an investment date.

There is no direct charge to participants for reinvesting dividends and capital gain distributions, since the Plan Agent's fees are paid by the Fund. However, when shares are purchased in the open market, each participant will pay a pro rata portion of any brokerage commissions incurred. The Plan Agent will deduct a \$5.00 service fee from each of your voluntary cash payments.

The automatic reinvestment of dividends and capital gain distributions does not relieve you of any taxes which may be payable on dividends or distributions. In connection with the reinvestment of dividends and capital gain distributions, if the Fund issues new shares, shareholders receiving such shares generally will be treated as having a distribution equal to the market value of the shares received, and if shares are purchased on the open market, shareholders generally will be treated as having received a distribution equal to the cash distribution that would have been paid.

The Fund does not issue new shares in connection with voluntary cash payments. All investments are in full and fractional shares, carried to three decimal places. If the market price exceeds the net asset value at the time the Plan Agent purchases the additional shares, you will receive shares at a price greater than the net asset value.

You will receive a monthly account statement from the Plan Agent showing total dividends and capital gain distributions, date of investment, shares acquired and price per share, and total shares of record held by you and by the Plan Agent for you. You are entitled to vote all shares of record, including shares purchased for you by the Plan Agent, and, if you vote by proxy, your proxy will include all such shares.

8 | Semiannual Report

As long as you participate in the Plan, the Plan Agent will hold the shares it

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

has acquired for you in safekeeping, in its name or in the name of its nominee. This convenience provides added protection against loss, theft or inadvertent destruction of certificates. However, you may request that a certificate representing your Plan shares be issued to you.

You may withdraw from the Plan without penalty at any time by notifying the Plan Agent, in writing, at the address above. If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares. The Plan Agent will convert any fractional shares you hold at the time of your withdrawal to cash at current market price and send you a check for the proceeds.

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to the Plan Agent at the address noted above. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to determine if your nominee will participate in the Plan on your behalf.

The Fund or the Plan Agent may amend or terminate the Plan. You will receive written notice at least 90 days before the effective date of termination or of any amendment. In the case of termination, you will receive written notice at least 90 days before the record date of any dividend or capital gain distribution by the Fund.

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Franklin Universal Trust (the Fund) is registered under the Investment Company Act of 1940 as a diversified, closed-end investment company. The Fund has two classes of securities: senior fixed-rate notes (the Notes) and shares of beneficial interest (the Shares). The Fund seeks high current income consistent with preservation of capital.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Some methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income. Fund distributions to shareholders are determined on an income tax basis and may differ from net investment income and realized gains for financial reporting purposes.

D. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

E. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liability arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

At February 28, 2005, there were an unlimited number of shares authorized (\$0.01 par value). During the period ended February 28, 2005, there were no share transactions; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

3. SENIOR FIXED RATE NOTES

On August 29, 2003, the Fund issued \$55 million principal amount of a new class of five-year senior note (the Note). The Note is a general unsecured obligation of the Fund and ranks senior to Trust shares and all existing or future unsecured indebtedness of the Fund.

The Note bears interest, payable semi-annually, at the rate of 4.14% per year, to maturity on August 29, 2008. The Fund may prepay the Note at any time; therefore, market value approximates the principal amount of the Note. The Fund is required to maintain on a monthly basis a specified discounted asset value for its portfolio in compliance with guidelines established by Standard & Poor's Corporation, and is required to maintain asset coverage for the Notes of at least 300%. The Fund has met these requirements during the period ended February 28, 2005.

The issuance costs of \$200,000 incurred by the Fund are deferred and amortized on a straight line basis over the term of the Note.

4. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers or directors of the following subsidiaries:

ENTITY	AFFILIATION
Franklin Advisers Inc. (Advisers)	Investment manager
Franklin Templeton Services LLC (FT Services)	Administrative manager

Semiannual Report | 23

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

4. TRANSACTIONS WITH AFFILIATES (CONTINUED)

A. MANAGEMENT FEES

The Fund pays an investment management fee to Advisers of 0.75% per year of the average weekly net assets plus the principal amount of the Note.

B. ADMINISTRATIVE FEES

Under an agreement with Advisers, FT Services provides administrative services

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

to the Fund. The fee is paid by Advisers based on average daily net assets, and is not an additional expense of the Fund.

5. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended February 28, 2005, the custodian fees were reduced as noted in the Statement of Operations.

6. INCOME TAXES

At August 31, 2004, the Fund had tax basis capital losses which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:

2008.....	\$	5,088,195
2009.....		1,167,255
2010.....		6,827,086
2011.....		34,372,527
2012.....		18,676,213

	\$	66,131,276
		=====

At August 31, 2004, the Fund had deferred capital losses occurring subsequent to October 31, 2003 of \$3,019,069. For tax purposes, such losses will be reflected in the year ending August 31, 2005.

Net investment income and net realized capital gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions and bond discounts and premiums.

24 | Semiannual Report

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

6. INCOME TAXES (CONTINUED)

At February 28, 2005, the net unrealized appreciation (depreciation) based on the cost of investments for income tax purposes were as follows:

Cost of investments	\$	231,192,535
		=====
Unrealized appreciation	\$	36,462,080
Unrealized depreciation		(21,203,206)

Net unrealized appreciation (depreciation).....	\$	15,258,874
		=====

7. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term securities) for the period ended February 28, 2005 aggregated \$46,567,896 and \$50,874,972, respectively.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

8. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

9. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 69% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At February 28, 2005, the value of these securities was \$3,648,203, representing 1.5% of the Fund's portfolio. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. For information as to specific securities, see the accompanying Statement of Investments.

Semiannual Report | 25

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

10. RESTRICTED SECURITIES

At February 28, 2005, investments in securities included issues that are restricted and illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and are valued under methods approved by the Board of Trustees as reflecting fair value. A security may also be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. At February 28, 2005, the Fund held investments in restricted and illiquid securities, as follows:

SHARES/ PRINCIPAL AMOUNT/ WARRANTS	ISSUER	ACQUISITION DATE	COST
4,000,000	Asia Pulp & Paper Co. Ltd., 12.00%, pfd., Perpetual	2/14/97	\$ 4,000,000

TOTAL RESTRICTED SECURITIES (0.25% OF NET ASSETS)			

11. REGULATORY MATTERS

INVESTIGATIONS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, received subpoenas and/or requests for documents, information and/or testimony. The Company and its current employees provided documents and information in response to those requests and subpoenas.

SETTLEMENTS

Beginning in August 2004, the Company entered into settlements with certain regulators investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters described in this section is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

On August 2, 2004, Franklin Resources, Inc. announced that its subsidiary, Franklin Advisers, Inc., reached an agreement with the SEC that resolved the issues resulting from the SEC investigation into market timing activity. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings Pursuant to Sections 203(e) and 203(k)

of the Investment Advisers Act of 1940 and Sections 9(b) and 9(f) of the Investment Company Act of 1940, Making Findings and Imposing Remedial Sanctions and a Cease-and-Desist Order" (the "Order"). The SEC's Order concerned the activities of a limited number of third parties that ended in 2000 and those that were the subject of the first Massachusetts administrative complaint described below.

Under the terms of the SEC's Order, pursuant to which Franklin Advisers, Inc. neither admitted nor denied any of the findings contained therein, Franklin Advisers, Inc. agreed to pay \$50 million, of which \$20 million is a civil penalty, to be distributed to shareholders of certain funds in accordance with a plan to be developed by an independent distribution consultant. At this time, it is unclear which funds or which shareholders of any particular fund will receive distributions. The Order also required Franklin Advisers, Inc. to, among other things, enhance and periodically review compliance policies and procedures.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

On September 20, 2004, Franklin Resources, Inc. announced that two of its subsidiaries, Franklin Advisers, Inc. and Franklin Templeton Alternative Strategies, Inc. ("FTAS"), reached an agreement with the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts (the "State of Massachusetts") related to its administrative complaint filed on February 4, 2004, concerning one instance of market timing that was also a subject of the August 2, 2004 settlement that Franklin Advisers, Inc. reached with the SEC, as described above.

Under the terms of the settlement consent order issued by the State of Massachusetts, Franklin Advisers, Inc. and FTAS consented to the entry of a cease-and-desist order and agreed to pay a \$5 million administrative fine to the State of Massachusetts (the "Massachusetts Consent Order"). The Massachusetts Consent Order included two different sections: "Statements of Fact" and "Violations of Massachusetts Securities Laws." Franklin Advisers, Inc. and FTAS admitted the facts in the Statements of Fact.

On October 25, 2004, the State of Massachusetts filed a second administrative complaint, alleging that Franklin Resources, Inc.'s Form 8-K filing, in which it described the Massachusetts Consent Order and stated that "Franklin did not admit or deny engaging in any wrongdoing", failed to state that Franklin Advisers, Inc. and FTAS admitted the Statements of Fact portion of the Massachusetts Consent Order (the "Second Complaint"). Franklin Resources, Inc. reached a second agreement with the State of Massachusetts on November 19, 2004, resolving the Second Complaint. As a result of the November 19, 2004 settlement, Franklin Resources, Inc. filed a new Form 8-K. The terms of the Massachusetts Consent Order did not change and there was no monetary fine associated with this second settlement.

On November 17, 2004, Franklin Resources, Inc. announced that Franklin Templeton Distributors, Inc. ("FTDI") reached an agreement with the CAGO, resolving the issues resulting from the CAGO's investigation concerning sales and marketing support payments. Under the terms of the

settlement, FTDI neither admitted nor denied the allegations in the CAGO's complaint and agreed to pay \$2 million to the State of California as a civil penalty, \$14 million to the funds, to be allocated by an independent distribution consultant to be paid for by FTDI, and \$2 million to the CAGO for its investigative costs.

On December 13, 2004, Franklin Resources, Inc. announced that its subsidiaries FTDI and Franklin Advisers, Inc. reached an agreement with the SEC, resolving the issues resulting from the SEC's investigation concerning marketing support payments to securities dealers who sell fund shares. In connection with that agreement, the SEC issued an "Order Instituting Administrative and Cease-and-Desist Proceedings, Making Findings, and Imposing Remedial Sanctions Pursuant to Sections 203(e) and 203(k) of the Investment Advisers Act of 1940, Sections 9(b) and 9(f) of the Investment Company Act of 1940, and Section 15(b) of the Securities Exchange Act of 1934" (the "Second Order").

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

Under the terms of the Second Order, in which FTDI and Franklin Advisers, Inc. neither admitted nor denied the findings contained therein, they agreed to pay the funds a penalty of \$20 million and disgorgement of \$1 (one dollar). FTDI and Franklin Advisers, Inc. also agreed to implement certain measures and undertakings relating to marketing support payments to broker-dealers for the promotion or sale of fund shares, including making additional disclosures in the funds' Prospectuses and Statements of Additional Information. The Second Order further requires the appointment of an independent distribution consultant, at the Company's expense, who shall develop a plan for the distribution of the penalty and disgorgement to the funds.

The SEC's Second Order and the CAGO settlement agreement concerning marketing support payments provide that the distribution of settlement monies are to be made to the relevant funds, not to individual shareholders. The independent distribution consultant has substantially completed preparation of these distribution plans. The CAGO has approved the distribution plan pertaining to the distribution of the monies owed under the CAGO settlement agreement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the participating funds and are recorded as other income in the current period. The SEC has not yet approved the distribution plan pertaining to the Second Order. When approved, disbursements of settlement monies under the SEC's Second Order will be made promptly in accordance with the terms and conditions of that order.

OTHER LEGAL PROCEEDINGS

The Trust, in addition to the Company and other funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different federal courts in Nevada, California, Illinois, New York and Florida, alleging violations of various federal securities laws and seeking, among other relief, monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 Plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, resulting in alleged market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts administrative complaint and the findings in the SEC's August 2, 2004 Order, as described above. The lawsuits are styled as class actions, or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

In addition, the Company, as well as certain current and former officers, employees, and directors, have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of directed brokerage payments and/or payment of allegedly excessive advisory, commission, and distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or

derivative actions brought on behalf of certain funds.

The Company and fund management strongly believe that the claims made in each of the lawsuits identified above are without merit and intend to vigorously defend against them. The Company cannot predict with certainty, however, the eventual outcome of the remaining governmental investigations or private lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on the Company's future financial results. If the Company finds that it bears responsibility for any unlawful or inappropriate conduct that caused losses to the Trust, it is committed to making the Trust or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.
