Highlights

Acuerdo de Convergencia (Convergence Agreement)

The October 3, 2006, "Acuerdo de Convergencia" (Convergence Agreement), which was issued by the Federal Government through the Secretaría de Comunicaciones y Transportes (Communications and Transportation Ministry), established the basis for the convergence of networks more than 21 months ago.

Nevertheless, even though TELMEX has met the requirements in a timely manner, to date there has not been a favorable resolution from the authority that would allow the company to participate in the various telecommunications services that will be offered in a competitive market in which consumers benefit from faster and better attention which is affecting the company and the development of telecommunications in the country.

It is important to mention that cable TV operators have been offering voice, data and video services to their customers for more than 2 years and with lower investments.

At TELMEX, we have carried out investments to maintain state-of-the-art technology, and we constantly are working on increasing the company's productivity and reducing our operating costs. Additionally, we are driving the digital culture through broadband services, the sale of computers, multi-service packages and providing connectivity to thousands of communities that cover more than 90% of the population.

The sale of computers in installments of up to 48 months increases penetration of computers in Mexican homes, since only 22.1% of them have a computer. That proportion is significantly below the average of nearly 62% for member countries of the OECD.

TELMEX continues to experience substantially decreased voice service revenues due to ongoing price reduction and strong competition. TELMEX's market share is 19.0% in the voice market overall, which includes both local and cellular operators, and 48.1% in the market segment consisting only of operators of fixed lines.

During the second quarter, there was a gain of 488 thousand broadband Infinitum accounts (ADSL), an increase of 59.8% compared with the same period of 2007. At June 30, TELMEX served 4.1 million Internet services of which 93% are broadband Infinitum.

In the second quarter, total revenues were 30.9 billion pesos, 6.3% lower than the same period of the previous year. These results reflected increases of 19.6% in Internet access revenues and 4.1% in corporate networks revenues and decreases of 10.4% and 9.0% in local and long distance revenues, respectively.

EBITDA (1) totaled 14.4 billion pesos, 7.5% lower than the second quarter of the previous year. Operating income totaled 9.9 billion pesos, 9.8% lower than last year's second quarter.

Majority income from continuing operations in the quarter totaled 6.2 billion pesos, 13.0% lower than the same period of last year. In the second quarter, earnings per share were 33 Mexican cents, a decrease of 8.3%, and earnings per ADR (2) were 64 US cents, a decrease of 1.5% compared with the second quarter of 2007.

At June 30, net debt (3) increased the equivalent of 830 million dollars to a total of 7.925 billion dollars compared with June 30, 2007.

Capital expenditures (Capex) were equivalent to 338 million dollars for the first half. In the quarter, the company repurchased 211 million 421 thousand of its own shares.

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to www.telmex.com in the Investor Relations section where you will find the reconciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

Operating Results

Lines in service and local traffic

At the end of the second quarter, there were 17.7 million lines in service, a decrease of 3.0% compared with the same period of 2007, due to disconnections caused by the increase in competition from both fixed and cellular lines and to growth in broadband Infinitum services, which in some cases represent substitutions for conventional lines.

Of our lines in service, approximately 10.4 million are in areas that interest competitors and where they also have presence. However, 7.3 million lines are in areas that hold no interest to competitors. For the six months these lines generated revenues of approximately 9.937 billion pesos and an operating loss of 1.226 billion pesos.

During the second quarter, local traffic decreased 10.3% compared with the same period in 2007, with a total of 5.644 billion local calls. Local traffic volume was affected by competition from local and cellular telephony and by managed networks, a trend that strengthens the data business although it adversely affects local traffic.

Long distance

Domestic long distance (DLD) traffic increased 11.3% compared with last year's second quarter, totaling 5.119 billion minutes, due to more packages that include DLD minutes and higher traffic from cellular operators, offset by the decrease in termination traffic with other long distance operators.

In the quarter, outgoing international long distance (ILD) traffic increased 13.8% compared with last year's second quarter, totaling 539 million minutes due to more traffic from cellular operators. Incoming international long distance traffic decreased 16.3% compared with the same period of the previous year, totaling 1.649 billion minutes. The incoming-outgoing ratio was 3.1x.

Interconnection

In the second quarter, interconnection traffic increased 1.0% compared with the second quarter of the previous year, totaling 11.482 billion minutes. Calling party pays traffic decreased 10.5% as a result of the decrease in local and international calling party pays traffic and to the increase of cellular services. Interconnection traffic with local, long distance and cellular telephony operators increased 5.0%.

Internet access and corporate networks

At June 30, 2008, TELMEX had 4.1 million Internet access services, of which 3.8 million are broadband Infinitum. In the second quarter, we obtained a record quarterly gain of 488 thousand Infinitum accounts, 92.7% higher than the number of new accounts opened in last year's second quarter.

Growth of broadband Infinitum services has been supported by the sale of multi-service packages that offer access to broadband service along with various voice services at competitive prices. Multi-service packages increased 71.8% compared with last year's second quarter. The sale of computers also contributed to the increase in revenues of Tiendas TELMEX (TELMEX Stores) and of our telmex.com portal.

In the corporate market, billed line equivalents for data transmission increased 36.4% compared with the second quarter of 2007, bringing the total to 3.4 million line equivalents of 64 Kbps.

Financial Results

The following financial information for 2008 is presented in nominal pesos and the financial information for 2007 is expressed in constant pesos as of December 2007, according to Mexican Financial Reporting Standards.

Revenues:

In the second quarter, revenues totaled 30.9 billion pesos, a decrease of 6.3% compared with the same period of the previous year. This result was due to the increases of 19.6% in Internet access revenues, 4.1% in corporate networks revenues and 47.4% in other revenues, which includes revenues from Tiendas TELMEX (TELMEX stores) and from the telmex.com portal, as well as for decreases of 10.4% and 9.0% in local and long distance services, respectively, and for the 19.5% decrease in interconnection revenues resulting from the 10.5% decrease in traffic volume and the 9.9% decline in the calling party pays rate.

Local:

Local revenues totaled 12.327 billion pesos in the second quarter, a decrease of 10.4% compared with the second quarter of 2007 due to the 8.5% reduction in real terms of revenue per local billed call and to the decrease in local traffic due to competition from both cellular telephony and other fixed telephony operators.

DLD:

DLD revenues totaled 4.175 billion pesos in the second quarter, 5.2% lower than the second quarter of 2007. The 11.3% increase in traffic was not enough to offset the 11.3% decrease in the average revenue per minute.

ILD:

In the second quarter, ILD revenues totaled 2.103 billion pesos, a decrease of 15.6% compared with the second quarter of the previous year. Revenues from outgoing traffic declined 11.8% to 1.388 billion pesos compared with the second quarter of 2007 due to the 15.5% decrease in average revenue per minute, partially offset by the 13.8% increase in outgoing ILD traffic. Incoming international long distance revenues totaled 716 million pesos, a decrease of 22.1% compared with the second quarter of 2007, reflecting the 16.3% decrease in incoming traffic.

Interconnection:

In the second quarter, interconnection revenues decreased 19.5% to 4.774 billion pesos compared with the same period of 2007, mainly due to the 10.5% decline in calling party pays traffic and the decrease of 9.9% in the calling party pays rate.

Corporate networks:

In the second quarter, revenues from services related to data transmission through private and managed networks totaled 2.872 billion pesos, 4.1% higher than the same period of the previous year. The increase was due to the higher number of services and the sale of value-added services, which offset the reduction in unit prices of these services.

Internet:

Revenues from Internet access in the second quarter totaled 3.190 billion pesos, 19.6% higher than last year's second quarter due to the increase of 39.4% in Internet services, partially offset by lower average unit revenue for broadband Infinitum services.

Costs and expenses:

In the second quarter, total costs and expenses were 21.013 billion pesos, a decrease of 4.6% compared with the second quarter of 2007. This decrease was mainly due to initiatives carried out to optimize resource use, to the 12.4% decrease in the amount paid to cellular operators for calling party pays services, partially offset by higher charges related to the sale of computers and equipment for customers and to the increase in the provision for uncollectables.

Cost of sales and services:

In the second quarter, cost of sales and services decreased 2.2% compared with the same period of 2007, totaling 8.055 billion pesos, due to higher computer and telecommunications equipment costs related to higher sales, offset by initiatives carried out to optimize resource use.

Commercial, administrative and general:

In the quarter, commercial, administrative and general expenses totaled 4.973 billion pesos, 2.5% higher than last year's second quarter due to an increase in the provision for uncollectables related to services rendered to another telecommunications operator.

Interconnection:

In the second quarter, interconnection costs totaled 3.473 billion pesos, a decrease of 19.9% compared with the same period of 2007 as a result of the 12.4% decrease in the amount paid to cellular telephony operators for calling party pays service and the decrease of 10.5% in calling party pays traffic.

Depreciation and amortization:

In the quarter, depreciation and amortization decreased 1.8% to 4.512 billion pesos due to a lower level of investment in recent years.

EBITDA (1) and operating income

: EBITDA (1) totaled 14.424 billion pesos in the second quarter, a decrease of 7.5% compared with the same period of last year. The EBITDA margin was 46.6%. Operating income totaled 9.912 billion pesos in the second quarter and the operating margin was 32.1%.

Comprehensive financing cost:

Comprehensive financing cost produced a charge of 598 million pesos in the quarter. This resulted from: i) a net interest charge of 578 million pesos, 864 million pesos less than the charge registered in the same period of 2007, due to recognition of the market value of interest rate swaps and the decrease in the level of indebtedness, ii) a net

exchange loss of 20 million pesos from the second-quarter exchange rate appreciation of 0.4121 pesos per dollar, offset by 6.977 billion dollars in dollar-peso hedges (weighted average exchange rate: 10.7671 pesos per dollar) and iii) recognition of a decline in the monetary position of 270 million pesos in 2007, an effect that is absent in 2008 under current accounting rules.

Majority income from continuing operations:

Majority net income from continuing operations in the second quarter totaled 6.187 billion pesos, 13.0% lower than the same period of the previous year. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Thousands of Mexican Pesos)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(2008 in millions of nominal Mexican pesos and 2007 in millions of Mexican pesos with purchasing power at December 31,2007)

Spin-Off ("Escisión")

DISCONTINUED OPERATIONS

On December 21, 2007, the stockholders of TELMEX approved the split-up of the Company's Latin American subsidiaries, as well as of its yellow pages business. As a result of the split-up, Telmex Internacional, S.A.B. de C.V. was incorporated on December 26, 2007 and was transferred the assets, liabilities and stockholders' equity of the majority of the foreign subsidiaries and of the yellow pages business. The split-up date for legal, book and tax purposes is December 26, 2007, on which date Telmex Internacional was legally incorporated as a separate Mexican company and from which time, the Company ceased to have control over the subsidiaries mentioned above.

The terms of the split-up establish that neither TELMEX nor Telmex Internacional are to hold shares of the other. At the time of the split-up, all TELMEX stockholders became Telmex Internacional stockholders and consequently, both companies are currently controlled by the same group of stockholders. The relationship between TELMEX and Telmex Internacional will be limited to: i) ordinary commercial relationships, such as those related to international traffic termination services and the preparation and distribution of telephone directories; ii) agreements relating to the implementation of the split-up; and iii) certain temporary agreements that will remain in force until Telmex Internacional has its own administrative capabilities.

In the 2007 financial statements, all assets and liabilities of the split-up entity have been included in the current and non-current long-term assets and liabilities of discontinued operations captions. All income and expenses of the new entity are presented in the statements of income under the caption "Income from discontinued operations, net of income tax". The figures of the 2007 financial statements corresponding to periods prior to the split-up, and their corresponding notes were restructured to present only the assets and liabilities and revenues, costs and expenses of continued operations, without including discontinued operations.

All the assets and liabilities of the split-up operations were transferred to Telmex Internacional at book value. The amount of stockholders' equity transferred to Telmex Internacional in the split-up represents the difference between the assets and liabilities that were transferred. Such amount was recognized as a reduction to stockholders' equity at the time of the split-up.

RECOGNITION OF THE EFFECTS OF INFLATION

From January 1, 2008, Mexican FRS B-10 "Effects of Inflation", replaced Mexican accounting Bulletin B-10 "Accounting Recognition of the Effects of Inflation on Financial Information". Based on Mexican FRS B-10, the economic environment in Mexico in 2008 has been qualified as non-inflationary, due to inflation in the preceding three fiscal years was less than 12%. Therefore, during 2008 the effects of inflation on financial information of this period were not recognized, keeping the effects of inflation recognized up to December 31, 2007.

Also based on Mexican FRS B-10, in 2008 the total result from holding non-monetary assets, net from deferred taxes, and the accumulated deficit from monetary position, were reclassified to retained earnings.

The financial statements as of June 30, 2007, are presented in monetary units with purchasing power as of December 31, 2007.

BALANCE SHEET

S 87 OTHERS

In this item are included the inventories for telephone plant operation that as of June 30, 2008 and 2007 rose \$2,180,499 and \$2,092,927 respectively, which are valued by the average cost method and are updated based on the specific index method, without exceeding their market value.

S 84 INTANGIBLE ASSETS FOR LABOR OBLIGATIONS

This item includes the projected net asset pursuant to Mexican FRS D-3, "Employees Benefits", effective on January 1, 2008, issued by the Mexican Council for Research and Development of Financial Reporting Standards (CINIF).

As of June 30, 2008, the market value of the established pensions and seniority premium fund was greater than the defined benefit obligation and unamortized items, therefore, pursuant to Mexican FRS D-3, the balance sheet presents a net projected asset.

At June 30, 2007, the market value of the established pensions and seniority premium fund was greater than the accumulated benefit obligation (ABO), and pursuant to Bulletin D-3 effective in 2007, it was not recognized neither

any additional liability nor the related intangible asset and effect of labor obligation on stockholders' equity. As a result of the foregoing, the balance sheet presents a projected net asset.

S 23 AND S 28 BANK LOANS

In this item are included the bank credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term caption to suppliers does not exist in EMISNET.

TELMEX entered into a syndicated loan agreement in 2004, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven- year maturity.

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount for 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively.

S 24 AND S 29 SENIOR NOTES

On November 19, 2003, TELMEX issued a bond for U.S.\$ 1.0 billion due November 2008, with an annual interest of 4.5%. Interests are payable semiannually.

On January 27, 2005, TELMEX placed senior notes in aggregate principal amount of U.S.\$1.3 billion in two issuances of U.S.\$650 million each. The first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interests are payable semiannually. On February 22, 2005, there was a reopening of this transaction and the amounts of such issuances increased to U.S. \$950 million and U.S. \$800 million, respectively.

On January 26, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4.5 billion (nominal value), maturing in 2016 and bearing interest at 8.75% annual. Interests are payable semiannually.

On April 21, 2008, TELMEX placed domestic senior notes "*Certificados Bursátiles*" for Ps. 1.6 billion with a term of 10 years at an annual fixed rate of 8.27%.

As of June 30, 2008, the Company had cross currency swaps agreements, which have hedged the exchange rate and interest rate risks related to the bonds with maturity in 2010 and 2015 for a total amount of 1.750 billion dollars and mainly with the bank syndicated loans with maturity from 2009 to 2013 for a total amount of 3.2 billion dollars (with interest rates of three-month Libor plus 20 basis points, three-month Libor plus 25 basis points and three-month Libor plus 32.5 basis points, respectively). These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of 10.7358 Mexican pesos per US dollar, as well as to set a fixed rate of 7.52% and 8.57% for the bonds, respectively, and an average interest rate of 28-day TIE less 38 basis points for the syndicated loans.
