ANNEX 1

CHIEF EXECUTIVE OFFICER REPORT

Consolidated

Final printing

--- Highlights

**Third Quarter 2009**

In the third quarter, lines in service decreased by 69 thousand mainly due to competition from cellular telephony, a global trend, and to the economic situation, which has affected our customers' payment capacity. The decrease in lines compares favorably with previous quarters. Including cellular telephony services and of other fixed operators, TELMEX now has 17.2% of total lines in service and 83.0% of fixed lines, similar to the average of 85.3%\* for the 35 countries identified as having high levels of telecommunications competition.

In broadband services, continuing the trends of the last 5 years, we have maintained growth in the number of customers and increased market share. These positive developments reflect our substantial investments and the quality of our services, which include the same speed throughout the day and progressively increasing speed to customers by passing along the benefits of our world-class technological platform. This has been achieved in spite of the fact that Mexico is the only country belonging to the OECD and one of the few in the world that do not have technological convergence, which has generated a lag in investments and in the development of the sector. Convergence, in the countries where it exists, is a proven contributor to broadband growth and to increasing the market penetration of Information Technology tools and applications that benefit the population, competitiveness and economic development.

The commercial agreement with Dish Mexico has allowed significant growth of Pay TV services in the country because the offering has attracted many customers who previously did not have this service. As a result, older established Pay TV monopolies have had to reduce their prices, benefiting consumers in the market segments that Dish Mexico serves.

**Broadband** Broadband services in the country have grown substantially from 428 thousand in December 2003 to approximately 9.2 million in September 2009, including cellular telephony services. That increase results in an annual average growth rate of 70.5%, making Mexico one of the countries with the highest broadband growth rates in the world. Broadband growth has been driven by installment sales of more than 2.3 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth. In order to increase computer penetration, in July we launched a laptop offering of well recognized brands, with payments starting at 100 pesos per month (VAT included), installments up to 48 months, and a down payment depending on the customer's PC choice.

The October 3, 2006, "Acuerdo de Convergencia" (Convergence Agreement), which was issued by the Federal Government through the Secretaría de Comunicaciones y Transportes (Communications and Transportation Ministry), established the basis for the convergence of telecommunications networks more than 3 years ago. TELMEX has met its requirements to provide interconnection, network interoperability and number portability. Nevertheless, to date, the authorities have not issued the corresponding resolutions.

All of our Infinitum customers have free access in Mexico to the Prodigy Móvil network (wireless Internet access) in public sites, which include airports, restaurants, hospitals, public parks, education centers and shopping malls, among others, and through several commercial agreements, our customers have Internet access at more than 120 thousand sites worldwide along with the

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

most advanced telecommunications network in the country.

TELMEX continues to deploy its "Programa de Educación y Cultura Digital" (Education and Digital Culture Program), which provides educational workshops and information technology tools to children, teenagers, parents and teachers nationwide. TELMEX equips digital libraries, TELMEX homes and computer halls and provides digital scholarships. These initiatives benefit more than 1.5 million people.

In the third quarter, total revenues were 29.5 billion pesos, 5.0% lower than the same period of the previous year. These results reflected increases of 18.0% in Internet access revenues and 13.4% in corporate networks and decreases of 7.5%, 15.2% and 12.8% in local, long distance and interconnection revenues, respectively.

From July to September 2009, EBITDA (1) totaled 13.0 billion pesos, producing a margin of 43.9%. Operating income totaled 8.5 billion pesos, with a margin of 28.7%.

Net income in the quarter totaled 4.8 billion pesos, 11.9% lower than the third quarter of last year. For the third quarter, earnings per share were 26 Mexican cents, 10.3% lower than the same period of last year, and earnings per ADR (2) were 39 US cents, a decrease of 30.4% compared with the third quarter of 2008.

TELMEX's total debt at September 30, 2009, was the equivalent of 7.063 billion dollars. Total net debt (3) was equivalent to 6.484 billion dollars, 1.122 billion dollars less than September 30, 2008.

In the third quarter, capital expenditures (Capex) were the equivalent of 147 million dollars and for the nine months, Capex was the equivalent of 537 million dollars. From July to September, the company used 1.355 billion pesos to repurchase 119 million 416 thousand of its own shares.

\* *Bank of America / Merrill Lynch, Global Wireline Matrix 2009, page 31.*

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to [www.telmex.com](http://www.telmex.com) in the Investor Relations section where you will find the reconciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

### Operating Results

The October 3, 2006, "Acuerdo de Convergencia" (Convergence Agreement) established the basis for the convergence of telecommunications networks more than 3 years ago. The requirements stated in the Agreement in order for TELMEX to be able to provide Pay TV services include:

1. **Interconnection and Interoperability.** All requests from operators to be connected with the TELMEX network have been met. Today, we have 91 agreements with fixed local, long distance, local mobile operators and cable TV companies.
2. **Portability.** Began July 5, 2008, which can be verified in COFETEL's documents
3. **Fulfilling Title of Concession obligations.** TELMEX has complied with its Title of Concession obligations.

In all of the above, TELMEX has complied with all the requirements and is waiting for the corresponding resolutions.

### Lines in service and local traffic

At the end of the third quarter, the number of lines in service was 17 million 346 thousand, 69 thousand lower than the second quarter of 2009. The number of disconnections is occurring mainly as a result of competition from fixed, mobile and pay TV

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

companies and also because our packages enable some of our customers to cancel additional lines.

Of our lines in service, approximately 10.3 million are in areas that interest competitors and where they also have presence. However, 7.0 million lines are in areas that hold no interest to competitors. In the nine months, these lines generated revenues of approximately 13.921 billion pesos and an operating loss of 2.739 billion pesos.

During the third quarter, local traffic decreased 6.4% compared with the same period of 2008, totaling 5.333 billion local calls. Local traffic volume continues to be affected mainly by the increase in penetration of cellular telephony, which is changing customers' consumption habits, by the reduction in the number of lines in service and by competition from local and pay TV operators.

### **Long distance**

In the third quarter, domestic long distance (DLD) traffic increased 1.8% compared with last year's third quarter, totaling 5.033 billion minutes, due to growth of multi-service package offerings that include DLD minutes and to the increase in termination traffic from other long distance operators, partially offset by the decrease in termination traffic with cellular telephony operators.

From July to September, outgoing international long distance (ILD) traffic decreased 34.1% compared with last year's third quarter, totaling 324 million minutes. The decline reflected a decrease in traffic from mobile operators and the slowdown of economic activity in the country. Incoming international long distance traffic decreased 11.3% compared with the same period of the previous year, totaling 1.567 billion minutes. The incoming-outgoing ratio was 4.8x.

### **Interconnection**

In the third quarter, interconnection traffic totaled 11.137 billion minutes, 4.8% lower than the same quarter of 2008, mainly due to the decrease of 12.7% in calling party pays traffic. Interconnection traffic with local, long distance and cellular telephony operators decreased 2.4%.

### **Internet access**

During the third quarter, TELMEX maintained its commitment to promote penetration of broadband services to enhance the deployment of digital culture and technological development in Mexico. In the quarter there was a gain of 403 thousand Inifinitum (ADSL) broadband services, bringing the total to 6.3 million customers, an increase of 44.5% compared with the number of customers in September 2008.

Broadband growth has been driven by installment sales of more than 2.3 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth. In order to increase computer penetration, in July we launched a laptop offering of well recognized brands, with payments starting at 100 pesos per month (VAT included), installments up to 48 months, and a down payment depending on the customer's PC choice.

The increase in broadband services has been driven by our multi-service packages, which offer broadband access and various voice services and provide discounts of up to 42%. In the quarter, we launched the "Mi Negocio" (My business) package, a product for micro and small businesses, which for 549 pesos per month (VAT included) includes monthly line rent, broadband Inifinitum (ADSL) service of up to 1Mbps of speed, 125 local calls, 50 DLD minutes and digital services.

## **Financial Results**

**The following financial information for 2009 and 2008 is presented in nominal pesos, according to Mexican Financial Reporting Standards.**

**Revenues:** In the third quarter, revenues totaled 29.544 billion pesos, a decrease of 5.0% compared with the same period of the previous year, as a result of increases of 18.0% in Internet access revenues and 13.4% in corporate networks revenues, as well as decreases of 7.5% in local service revenues, 15.2% in long distance revenues and 12.8% in interconnection revenues.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- **Local:** Local service revenues totaled 11.250 billion pesos in the third quarter, a decrease of 7.5% compared with the same quarter of 2008, due to decreases of 6.1% in revenue per local billed call and 6.4% in local traffic volume.
- **DLD:** In the quarter, DLD revenues totaled 3.568 billion pesos, 7.4% lower than the third quarter of 2008, because the 1.8% increase in traffic did not offset the 9.0% decline in average revenue per minute. The results reflected increased penetration of multi-service packages that include long distance service, which incentivizes traffic but reduces average revenue per minute.
- **ILD:** From July to September, ILD revenues totaled 1.556 billion pesos, a decrease of 28.9% compared with the same period of the previous year. Contributing factors included the 8.3% increase in average revenue per minute and the 34.1% decrease in outgoing traffic reflecting, among other things, the decrease in the country's economic activity.. Incoming international long distance traffic revenues totaled 567 million pesos, a decrease of 29.2% compared with the third quarter of the previous year, due to the decline of 20.1% in average revenue per minute and the decrease of 11.3% in incoming traffic.

**Interconnection:** In the quarter, interconnection revenues decreased 12.8% to 4.201 billion pesos compared with the third quarter of 2008, due to the 12.7% decline in calling party pays services and the decrease of 4.9% in average revenue of these services.

**Corporate Networks:** Due to the increase in services from VPN (Virtual Private Networks) and the integration of value-added services to our portfolio of products and services for the corporate market, the corresponding revenues increased 13.4% compared with the same period of the previous year, totaling 3.483 billion pesos.

- **Internet access:** Revenues from Internet access in the third quarter totaled 4.046 billion pesos, 18.0% higher than last year's third quarter due to the increase of 40.1% in Internet access services, offset by lower average unit revenue for broadband Infinitum services.

**Costs and expenses:** In the third quarter, total costs and expenses were 21.066 billion pesos, similar to the same period of 2008, mainly due to the initiatives that were carried out to optimize resource use. Other factors included lower interconnection costs resulting from the decrease of 9.9% in the calling party pays rate, partially offset by higher commissions related to growth in broadband services, charges related to labor costs and a higher reserve for uncollectables.

**Cost of sales and services:** In the third quarter, cost of sales and services increased 2.9% compared with the same period of 2008, totaling 8.337 billion pesos, due to higher costs related to services for corporate customers, computer sales and charges related to labor costs.

- **Commercial, administrative and general:** In the third quarter, commercial, administrative and general expenses totaled 5.311 billion pesos, 7.7% higher than last year's third quarter, mainly due to higher commissions related to growth in broadband services and an increase in the reserve for uncollectables.

**Interconnection:** Interconnection costs totaled 2.937 billion pesos, a decrease of 20.5% compared with the third quarter of 2008 due to the 9.9% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease of 12.7% in calling party pays traffic.

**Depreciation and amortization:** In the third quarter, depreciation and amortization increased 1.5% compared with the same period of 2008, to 4.481 billion pesos.

**EBITDA (1) and operating income:** EBITDA (1) totaled 12.959 billion pesos in the third quarter, a decrease of 9.8% compared with the same period of last year. The EBITDA margin was 43.9%. Operating income totaled 8.478 billion pesos in the third quarter and the operating margin was 28.7%.

**Financing cost:** In the third quarter, financing cost produced a charge of 1.289 billion pesos. This resulted from: i) a net interest charge of 1.231 billion pesos, which includes the recognition of the market value of interest rate swaps, partially offset by the decrease in interest paid due to lower debt and ii) a net exchange loss of 58 million pesos from the third-quarter exchange rate depreciation of 0.3019 pesos per dollar and 4.586 billion dollars in dollar-peso hedges.

**Net income:** In the third quarter, net income totaled 4.791 billion pesos, 11.9% lower than the same period of the previous year. Earnings per share were 26 Mexican cents, 10.3% lower than the same quarter of 2008, and earnings per ADR (2) were 39 US cents, a decrease of 30.4% compared with the same period of last year.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

**Investments and other uses of cash:** In the third quarter, capital expenditures (Capex) were the equivalent of 147 million dollars and for the nine months, Capex was the equivalent of 537 million dollars, of which 71.5% was used for projects in the data, connectivity and transmission platforms and the rest for other projects providing operational support.

Additionally, based on actuarial estimates, a contribution of 5.6 billion pesos was made to the pension fund in the third quarter.

**Debt:** Total debt at September 30, 2009 was the equivalent of 7.063 billion dollars, of which 75.5% is long-term, 49.8% has fixed rates considering interest rate swaps, and 68.9% is in foreign currency, equivalent to 4.864 billion dollars. To minimize risks from variations in the exchange rate, at the end of September we had dollar-peso hedges for 4.586 billion dollars. Total net debt (3) decreased during the last twelve months the equivalent of 1.122 billion dollars, bringing the total to 6.484 billion dollars.

On August 17, 2009, TELMEX prepaid 1.3 billion dollars associated with tranche A of the syndicated loan entered into on August 11, 2006. The original maturity was scheduled for October 20, 2009.

**Repurchase of shares:** During the third quarter, the company used 1.355 billion pesos to repurchase 119 million 416 thousand of its own shares.

On October 7, 2009, COFECO (Comisión Federal de Competencia) Mexico's Antitrust Commission, notified TELMEX of a resolution in which it declares the company has substantial power in wholesale markets in origination of public switched voice traffic through public telecommunications networks which provide local fixed service that are rendered to concessionaries of public telecommunications networks who are authorized to offer long distance services.

TELMEX, as the case may be, will act on its rights to a review process as provided in the Federal Economic Competition Law (Ley Federal de Competencia Económica) in the time frame and under the conditions set by law. The resolutions put forth by COFECO will not take effect while that process is under way. TELMEX believes that its arguments are well founded; nevertheless, there is no certainty of the outcome in this matter.

### Mexico Local and Long Distance Accounting Separation

**Based on Condition 7-5 of the Amendments of the Concession Title of Teléfonos de México, the commitment to present the accounting separation of the local and long distance services is presented below for the third quarter of 2009 and 2008.**

RECOGNITION OF THE EFFECTS OF INFLATION

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

From January 1, 2008, Mexican FRS B-10 "Effects of Inflation", replaced Mexican accounting Bulletin B-10 "Accounting Recognition of the Effects of Inflation on Financial Information". Based on Mexican FRS B-10, the economic environments in Mexico in 2009 and 2008 have been qualified as non-inflationary, due to inflation in the preceding three fiscal years was 15.01% and 11.56%, respectively. Therefore, during 2009 and 2008 the effects of inflation on financial information of this period were not recognized, keeping the effects of inflation recognized up to December 31, 2007.

### BALANCE SHEET

#### S 23 AND S 28 BANK LOANS

In this item are included the bank credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term caption to suppliers does not exist in EMISNET.

TELMEX entered into a syndicated loan agreement in 2004, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven-year maturity. In August 2009, TELMEX prepaid the total amount of the first tranche, which original maturity was scheduled for October 2009.

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount for 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively.

#### S 24 AND S 29 SENIOR NOTES

On November 19, 2003, TELMEX issued a bond for U.S.\$ 1.0 billion due November 2008, with an annual interest of 4.5%. Interests were payable semiannually. In November 2008, the Company repaid the outstanding balance of this bond.

On January 27, 2005 and with a reopening on February 22, 2005, TELMEX placed senior notes in the total amount of U.S.\$1.75 billions divided into two issuances of U.S.\$ 950 million and U.S.\$ 800 million, respectively, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interests are payable semiannually.

On January 26, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4,500,000 (nominal value), maturing in 2016 and bearing interest at 8.75% annual. Interests are payable semiannually.

On September 30, 2005, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). As of April 30, 2007, domestic senior notes had been issued for the total amount authorized under this program.

In December 2007, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). In April 2008, domestic senior notes were placed in the amount of Ps.1,600,000. On July 8, 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.8,000,000.

In September 2009, TELMEX obtained approval for a dual program to issue short and long-term domestic senior notes in the total amount of P. 15,000,000 (nominal amount).

#### S 29 SENIOR NOTES (LONG-TERM)

As of September 30, 2009 and 2008, this item rose to \$ 35,181,753 and \$ 35,285,825, respectively, and is comprised as follows:

	2009	2008
Domestic Senior Notes	Ps. 19,900,000	Ps. 11,900,000
Bonds	10,781,753	18,885,825
Global peso Senior Notes		

Ps 4,500,000	4,500,000
--------------	-----------

#### S 42 RETAINED EARNINGS AND CAPITAL RESERVES

On March 3, 2009 the Annual Ordinary Shareholders' Meeting approved to increase in Ps. 10,000,000 (nominal value), the funds authorized to repurchase its own shares, bringing the total maximum amount to Ps. \$ 10,340,868 (nominal value).

From January through September 2009, the Company acquired 269.8 million L shares for Ps. 3,034,953 and 1.4 million A shares for Ps. 15,277.

From January through September 2008, the Company acquired 656.8 million L shares for Ps 11,051,622 and 1.7 million A shares for Ps. 28,876.

The Company's repurchased shares are applied to unappropriated retained earnings, in the amount exceeding the portion of the capital stock, corresponding to the repurchased shares.

#### S 104 EMPLOYEES BENEFITS

This item includes the projected net assets as of September 30, 2009 and 2008 pursuant to Mexican FRS D-3 "Employees Benefits".

#### S 87 OTHERS

In this item there are included the inventories for telephone plant operation, which are valued by the average cost method and up to December 31, 2007 were updated based on the specific index method which is similar to its replacement value, without exceeding their market value.

#### S 58 OTHER CURRENT LIABILITIES

As of September 30, 2009 and 2008, this item rose to Ps. 8,678,749 and Ps. 7,885,923 respectively and is comprised as follows:

	2009	2008
Accounts payable	Ps. 5,289,112	Ps 5,749,437
Other accrued liabilities	1,794,772	1,143,757
Deferred credits	1,594,865	992,729

#### S 91 EMPLOYEE BENEFITS

This item includes liabilities for deferred employee profit sharing and actuarial obligations for labor termination as of September 2009 and 2008, pursuant to Mexican FRS D-3 and Bulletin D-3, respectively.

#### RATIOS

#### P 08 INVENTORY TURNOVER RATE-COST

EMISNET automatically calculates the inventory turnover rate by dividing the cost of sales and services (Ref. R 02) by the inventories for sale (Ref. S 06), affecting the actual inventory turnover rate.

## RECLASIFICACIONES

Certain 2008 financial statements have been reclassified to conform with the presentation used for the year 2009.

**Notes:**

**A.- Interest rates:**

The credits breakdown is presented with an integrated rate as follows:

- (1) 6 months USD Libor rate plus margin
- (2) 3 months USD Libor rate plus margin
- (3) Fixed Rate
- (4) 28 days TIIE rate plus margin
- (5) 91 days TIIE rate plus margin

(6) 3 months JPY LIBOR plus margin

B.- The following rates were considered:

- Libor at 6 months in US dollars is equivalent to 0.6288 at September 30, 2009

- Libor at 3 months in US dollars is equivalent to 0.2869 at September 30, 2009

- TIE at 28 days is equivalent to 4.9300 at September 30, 2009

- TIE at 91 days is equivalent to 5.0300 at September 30, 2009

- Libor at 3 months in JPY is equivalent to 0.3513 at September 30, 2009

C.- The suppliers' Credits are reclassified to Bank Loans because in this document, Emisnet, Long-Term opening to Suppliers' does not exist.

D.- Liabilities in foreign currency were exchanged at the prevailing exchange rate at the end of the reporting period, which at September 30, 2009 were as follows:

CURRENCY	AMOUNT	E.R.
DOLLAR (USD)	4,623,220	13.50
EURO (EUR)	12,915	19.74
JAPANESE YEN (JPY)	19,891,200	0.15

---

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX's controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.

**CURRENT SITUATION OF FINANCIAL LIMITED**

At September 30, 2009, the Company has complied with such restrictive covenants.

**TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM FOREIGN OPERATIONS**

Consolidated

Final printing

---

**Exchange rate variations**

Transactions in foreign currencies are recorded at the exchange rate applicable at the time of its occurrence. The assets and liabilities in foreign currencies are valued at the exchange rate of the balance sheet date. The exchange rate differences between the execution date and the payment date, as well as those arising from the conversion of balances denominated in foreign currencies at the date of the financial statements, are applied to results.

**Translation of financial statements of foreign companies**

The financial statements of subsidiaries and associated companies located abroad are consolidated or the method of participation is recognized, as appropriate, after the financial statements are translated into the Mexican financial reporting standards in the relevant local currency, and conversion to the report currency. The conversion of monetary assets and liabilities in the financial statements of our associate and subsidiary, were translated into Mexican pesos at the exchange rate prevailing at year-end, stockholders' equity accounts at the exchange rate prevailing on the date the capital contributions were made and profits were generated; revenues, costs and expenses to the historical exchange rate and the difference resulting from the conversion process is recognized in the "Effect of conversion of foreign entities" which is included in the stockholders' equity, "other items of income earned" section.

## Derivative Instruments

As of September 30, 2009, Teléfonos de México, S.A.B. de C.V. (the "Company") had cross currency swap agreements in the equivalent of U.S.\$4,216 million, which have hedged the exchange rate and interest rate risks related to the bonds with maturity in 2010 and 2015 for a total amount of U.S.\$1,495 million and bank loans with maturity from 2009 to 2018 for a total amount of U.S.\$2,721 million. During this quarter, cross currency swaps agreements early matured in the amount of U.S.\$ 440 million which were entered into to cover the tranche A of the U.S.\$ 1,300 million syndicated loan. These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of \$10.5704 Mexican pesos per US dollar, as well as to partially set a fixed rate with a range between 7.52% for bonds maturing in 2010 and 8.57% for bonds maturing in 2015 and for other cases, an average interest rate of 28-day TIEE less 26 basis points.

At the end of the third quarter, the Company had forward agreements for U.S.\$370 million at a weighted average exchange rate of \$13.5311 per dollar. These agreements hedge bank loans with maturities until January 2010.

Additionally, the Company had interest rate swaps in Mexican pesos for Ps.\$23,752 million to hedge the floating rate risk in local currency fixing it at an average of 8.19%. During the quarter interest rate swap agreements in U.S. dollars matured in an amount of U.S.\$100 million which were used to hedge our floating rate U.S. dollar debt, fixing it at 4.47%.

These transactions have been carried out based on the Company's policies, strategies and guidelines that are explained below.

### I. Qualitative and quantitative Information

#### i. Policies for using of derivative instruments

##### Objective to enter into derivative transactions and selected instruments

With the purpose of reducing the risks related to the variations of exchange rate and interest rate, the Company uses derivative instruments connecting the hedges to the contracted debt. The derivative instruments that have been selected are mainly:

- (a) instruments for purchasing US dollars at a specified future time (forwards);
- (b) instruments that involve the exchange of principal and interest from one currency to another (cross currency swaps); and
- (c) instruments to fix the floating interest rates of the debt (interest rate swaps).

##### Hedge strategies

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

When the market conditions are favorable, the Company's Management determines the amounts and objective parameters considered in the hedging agreements. This strategy seeks to reduce the risk exposure of abnormal fluctuations in the market of the main variables that affect our debt, including exchange rate and interest rate, to maintain a solid and healthy financial structure.

These strategies of hedging financial risks are included in the Corporate Governance Guidelines adopted by the Company, and its application is authorized by the Audit Committee.

### **Trading markets and eligible counterparts**

The financial institutions and counterparts with which the Company enters into such derivative instruments are considered to have a proven reputation and solvency in the market, which allows us to balance our risk positions with the counterparts. Also, the Company only uses derivative instruments that are of common use in the markets, and therefore, can be quoted by two or more financial institutions to assure the best conditions in the negotiation.

### **Policies for the appointment of calculation and valuation agents**

Given that the Company uses derivative instruments of common use in the market, it appoints a third party that is responsible to provide the market price of such instruments. These prices are compared by the Company with the ones provided by the financial intermediaries, also, in certain transactions the counterpart is able to act as valuation agent under the applicable documentation, when it is a financial institution with a proven reputation.

### **Main terms and conditions of the agreements**

It is a policy of the Company that the amount, date and interest rate conditions of the debt to be hedged, if possible, have to coincide with the terms of the hedges, that is usual for this type of transactions in the different markets where it operates. All the transactions with derivative instruments are made under the ISDA Master Agreement (International Swap Dealers Association) standardized and duly executed by the legal representatives of the Company and the financial institutions, and in the case of counterparts in México, pursuant to the uses and practices of the market in our country.

### **Margin policies, collaterals and lines of credit**

In some cases, the Company has entered into an accessory agreement to the ISDA Master Agreement with the financial institutions, the Credit Support Annex, which sets forth an obligation to grant collaterals for margin calls in case the mark-to market value exceeds certain established credit limits (threshold amount). The Company has the policy to keep a close watch of the volume of the transactions entered with each financial institution in order to avoid, if possible, any margin call.

### **Processes of levels of authorization required by type of negotiation**

The strategy for hedging financial risks is discussed and approved by the Audit Committee. Subsequently, the Board of Directors is informed for its knowledge and ratification. The Treasury is in charge of its implementation and is supervised by the Company's Chief Financial Officer.

### **Existence of an independent third party that reviews such processes**

Both, the fulfillment of the Corporate Governance Guidelines and the measurement of effectiveness of the derivative instruments, to comply with the international financial reporting standards, are discussed with the external auditors that validate the correct accounting application of the effect of such instruments in the income statement and the balance sheet.

### **ii. Generic description of the valuation techniques**

As previously stated, derivative instruments are carried out by the Company only for hedging purposes. The measurement of the effectiveness of the hedges is made in a prospective and retrospective manner. For the prospective valuation, we use statistic techniques that allow us to measure in what proportion the change in the value of the hedged debt (primary position) is compensated by the change in the value of the derivative instrument. The retrospective valuation is made by comparing the historic results of the debt flows with the flows of the respective hedges.

### **iii. Internal and external liquidity sources to meet the requirements related to derivative instruments**

It is estimated that the Company's cash generation has been enough to service debt and the established derivative instruments to hedge the risks associated with such debt.

**iv. Changes in the exposure to the main identified risks and its management**

The identified risks are those related to the variations of the exchange rate and interest rate. Given the direct relationship between the hedged debt and the derivative instruments and that they do not have any variables that could affect or terminate the hedge in advance, the Company does not foresee any risk that such hedges could differ from the original purpose for which the hedges were established.

In the third quarter of 2009, it was recognized in the statements of income a net credit of Ps.1,346 million for the exchange rate hedges and an accrued net credit at the end of September of Ps.141 million. Furthermore, it was recognized in the statements of income a net charge of Ps.424 million and an accrued net charge at the end of September of Ps.1,636 million for interest rate hedges.

During the third quarter, there have not been any margin calls.

To date, there has not been any breach in the terms and conditions of the respective agreements.

**v. Quantitative information**

See TABLE 1 attached.

**II. SENSITIVITY ANALYSIS**

In the case of the Company, the sensitivity analysis does not apply for the derivative instruments, since they are only carried out for hedging purposes.

(\*) Of our hedge agreements, 60.9% of the total hedged amount include margin calls when the market value exceeds the amounts of the lines of credit that we have for the amount of USD\$290 million.

1. These swaps hedge the debt position in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less a margin and with an average life of 5 years.
2. This forward position mainly hedges debt position in US dollars with maturity in January 2010.
3. These swaps hedge debt position in Yens, with the obligation of paying in Mexican pesos \$2,000 million (equivalent to USD\$222 million) at a floating rate and mature in February 2014.
4. These swaps hedge the interest payment of debt in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less a margin and with maturities up to 2010.
5. These agreements hedge debt position in Mexican pesos at a floating rate, fixing it at an average of 8.19% and with an average life of 7 years.
6. These agreements hedged debt position in US dollars at a floating rate, fixing it at an average of 4.47% and matured in August 2009.
