Chairman's
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with tax-free monthly income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Managers' Perspective and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder whether interest rates will rise, and whether that possibility should cause them to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio

NO ONE KNOWS WHAT THE FUTURE WILL BRING, WHICH IS WHY WE THINK A WELL-BALANCED PORTFOLIO IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS.

may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen Investments Municipal Closed-End Exchange-Traded Funds
(NUM, NMP, NZW, NUO, NXI, NBJ, NVJ)

Portfolio Managers'
PERSPECTIVE

Portfolio managers Dan Solender and Cathryn Steeves discuss the market environment, key investment strategies and the annual performance of the Michigan and Ohio Funds. With 12 years of investment experience, including eight at Nuveen, Dan assumed portfolio management responsibility for these Funds in November 2003. After the end of this reporting period, in August 2004, Cathryn assumed responsibility for the four Ohio Funds (NUO, NXI, NBJ, and NVJ). Cathryn has been a research analyst and portfolio manager with Nuveen since 1996.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE FISCAL YEAR ENDED JULY 31, 2004?

During much of this reporting period, the U.S. economy demonstrated signs of improvement, as increased capital spending and a rise in consumer confidence helped fuel strong growth in the overall gross domestic product. However, toward the end of the 12-month period, higher energy costs and the improving employment picture began to raise fears of a potential pick-up in inflation. This combination of inflation concerns and general economic momentum--plus continued geopolitical uncertainty--served as a catalyst for heightened volatility in the fixed-income markets. Although interest rates remained at or near historical lows through much of this 12-month period, yields in the long-term bond markets, including the municipal market, were increasingly driven by expectations that the Federal Reserve would raise short-term interest rates and by speculation over the timing and extent of those rate hikes.

As an example of this interest rate volatility, the Bond Buyer 25 Revenue Bond Index, a widely followed municipal market benchmark, began this 12-month reporting period with a yield of 5.41%. After briefly touching 5.50%, the yield fell steadily to 4.73% by mid-March 2004. From there, the Index's yield rose back to 5.31% by July 31, 2004.

On June 30, 2004, the Fed moved to increase the fed funds rate by 25 basis points to 1.25%, the first increase in four years, noting that it anticipated taking a "measured" approach to further tightening to avoid potential derailment of the economic recovery. (On August 10, 2004, following the close of this reporting period, the Fed added another 25 basis points, bringing the target

rate to 1.50%.)

In general, municipal supply nationwide remained relatively strong over the entire 12-month reporting period. About \$366.5 billion in new bonds came to market during

4

this period, down 7% from the preceding 12 months. The decrease in issuance was more evident late in the period, with \$214 billion in new municipal supply for the first seven months of 2004 compared with \$239 billion for January-July 2003.

HOW ABOUT ECONOMIC AND MARKET CONDITIONS IN MICHIGAN AND OHIO?

Although challenges remain, Michigan's economy finally appeared to be on the road to recovery. The state's business and services industries, as well as the life sciences and high-tech sectors, experienced modest, but accelerated, growth, and its industrial base slowly continued to diversify. Although down significantly from the 7.5% rate in July 2003, Michigan's unemployment rate of 6.8% in July 2004 remained well above the national average of 5.5%. The state's high cost structure and unionized workforce continued to provide impetus for consolidations, plant shutdowns and outsourcing to countries with lower labor costs. The state's rainy day and reserve funds were depleted in fiscal 2003, and Michigan turned to issuing \$1.2 billion in cashflow notes to balance the fiscal 2004 budget. As of July 31, 2004, state lawmakers had not agreed on a plan to close the \$1.3 billion budget shortfall for fiscal 2005, which begins October 1, 2004. However, we believe that Michigan's debt levels remain manageable, and leave some flexibility in bond financing if revenues fail to meet projected targets. During this 12-month reporting period, issuers in Michigan sold \$8.8 billion in new municipal bonds, a decrease of 25% from the previous 12 months. In late 2003, Moody's downgraded Michigan's general obligation debt to Aa1 from Aaa, and Standard & Poor's also revised its rating to AA+ from AAA. Both credit agencies maintained a stable outlook for the state based on Michigan's efforts to overcome the decline in state revenues and achieve a balanced budget.

Ohio's economy also appeared to be gradually emerging from recession. Modest job creation has replaced some of the massive job losses in manufacturing, and growth in the business/professional services and education sectors provided welcome diversity to the state economy. As of July 2004, unemployment in Ohio was 5.9%, down from 6.3% in July 2003. Ohio's budget shortfall of \$373 million for fiscal 2005 was closed through spending cuts, including Medicaid reductions, and the delay of a \$100 million transfer to the state's budget stabilization fund. The fiscal 2004-2005 \$48.9 billion biennial budget is also reliant on a two-year sales tax increase, which is expected to generate \$1.25 billion annually. In contrast to the national trend, municipal issuance in Ohio was up 15% over

5

the 12 months ended July 2004, with \$10.9 billion in new securities. Over the year period, the state's general obligation debt retained its ratings of Aa1 with a negative outlook from Moody's and AA+ with a stable outlook from S&P. Moody's negative outlook reflects the state's continued shortfalls in tax receipts and budget deficits that created pressure in 2004 and into 2005.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THE MICHIGAN AND OHIO FUNDS DURING THE 12 MONTHS ENDED JULY 31, 2004?

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

As the market continued to anticipate rising interest rates, our major focus during this fiscal year remained on positioning our Funds in maturities with the best expected returns, and on aligning the Funds to have more consistent interest rate risk. Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise (since bond prices move in the opposite direction of interest rates). We focused primarily on the 15 to 20 year maturity range, and we also bought bonds with coupons above current market rates to provide a degree of cushion for the Funds if rates were to rise. In many cases, bonds in the 15 to 20 year maturity range offered yields similar to those of longer-term bonds with less inherent interest rate risk and, we believed, greater total return prospects. We also added some bonds in the 10-year maturity range when we found what we believed were attractive opportunities. We think this yield curve positioning should also help the Funds produce more consistent returns over time as interest rates rise and fall.

In keeping with this strategy, some of the bonds we purchased carried coupons that were higher than current market rates. These "premium" bonds have the potential to help cushion the impact on the value of the Funds' portfolios if interest rates continue to rise. Some of these additions were financed through the sale of bonds with longer maturities (i.e., beyond 20 years). We also reduced our positions in pre-refunded and escrowed bonds in the three older Funds (NUM, NMP, and NUO). In NUO, for example, we cut our pre-refunded and escrowed holdings in half over the 12 month period, from 20% to 10%. In addition, because healthcare bonds were performing well, certain Funds took advantage of opportunities to sell selected bonds at attractive prices and modestly reduce their healthcare holdings. We tried to reinvest these proceeds in a variety of sectors to enhance the Funds' overall diversification.

6

In addition, we tried to balance the desire for quality with the need to generate income, especially in the newer Funds. For example, while we sold some lower-rated Puerto Rico tobacco bonds from NUO's and NBJ's portfolios, we maintained or added to our holdings in NXI and NVJ because of the higher yields offered by these bonds. We also added new BBB rated and sub-investment grade rated bonds to some of the portfolios to better diversify their lower credit quality holdings.

HOW DID THE FUNDS PERFORM?

Individual results for the Nuveen Michigan and Ohio Funds, as well as for relevant benchmarks, are presented in the accompanying table.

TOTAL RETURNS ON NET ASSET VALUE

For periods ended 7/31/04

(Annualized)

MICHIGAN FUNDS	1-YEAR	5-YEAR	10-YEAR
NUM	9.52%	7.14%	7.03%
NMP	8.56%	7.18%	7.37%
NZW	10.00%	NA	NA
Lipper Michigan Municipal Debt Funds Average	9.13%	7.25%	6.92%

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

OHIO FUNDS

NUO	7.87%	6.51%	7.25%
NXI	9.54%	NA	NA
NBJ	10.33%	NA	NA
NVJ	9.72%	NA	NA
Lipper Other States Municipal Debt Funds Average ²			
	9.64%	7.01%	7.28%
Lehman Brothers Municipal Bond Index ³			
	5.79%	6.07%	6.38%

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

For the 12 months ended July 31, 2004, the total returns on net asset value (NAV) for all seven Funds in this report outperformed the return on the Lehman Brothers index. NUM and NZW also outperformed their Lipper Michigan peer group, while NMP trailed this average. Among the Ohio Funds, NBJ bested the Lipper Other States group average, NVJ and NXI performed roughly in line with this measure, and NUO lagged its peer group.

- 1 The Lipper Michigan Municipal Debt Funds category average is calculated using the returns of all leveraged and unleveraged closed-end exchange-traded funds in this category for each period as follows: 1 year, 7 funds; 5 years, 5 funds; and 10 years, 4 funds. Fund and Lipper returns assume reinvestment of dividends.
- 2 The Lipper Other States Municipal Debt Funds category average is calculated using the returns of all leveraged and unleveraged closed-end exchange-traded funds in this category for each period as follows: 1 year, 44 funds; 5 years, 19 funds; and 10 years, 17 funds. Fund and Lipper returns assume reinvestment of dividends. It should be noted that the performance of the Lipper Other States category represents the overall average of annual returns for funds from 10 different states with a wide variety of economic and municipal market conditions and investment guidelines, making direct comparisons less applicable.
- 3 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman indexes do not reflect any expenses.

One of the primary factors benefiting the performance of each of these Funds relative to that of the unleveraged Lehman index was the Funds' use of leverage. While leveraging can add volatility to the Funds' NAVs and share prices,

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

especially when there are substantial shifts in interest rates, this strategy can also provide opportunities for additional income and total returns for common shareholders when short-term interest rates are low and long-term rates are relatively steady or falling.

All of these Funds also benefited from their allocations of lower quality bonds, which outperformed higher quality securities as the economy improved. In fact, some of the differences between the returns of these Funds reflect the varying allocations to these lower-rated securities, especially in Michigan. As of July 31, 2004, NZW had the greatest allocation (7%) of bonds rated BBB or lower among the Michigan Funds, while NMP had the lowest (3%). Among the Ohio Funds, NBJ's total return was enhanced by its holdings of BBB rated bonds. One example was the strong performance of bonds issued by Ohio Higher Educational Facilities Commission for Wittenberg University.

The healthcare sector, and particularly lower-rated hospital credits, also was a strong performer over the 12 month period. All seven Funds had sizeable allocations to this sector, ranging from 17% in NUO to 16% in NBJ, 15% in NVJ, 14% in NXI, 13% in NUM, 12% in NMP, and 11% in NZW. For at least part of this reporting period, all three Michigan Funds held positions in Ba3 rated bonds issued for Detroit Medical Center, which helped to boost their performance. Similarly, all four Ohio Funds held Baal rated Summa Health System bonds issued by the Akron, Bath and Copley Joint Township Hospital District for at least part of the period.

Also making a positive contribution to the Ohio Funds' total returns were BBB rated bonds issued by Puerto Rico and backed by revenues from the 1998 master tobacco settlement agreement. These bonds had the largest impact on NVJ.

Among the Funds' holdings that did not perform as well during this period were pre-refunded bonds, which underperformed the market as a whole, as measured by the Lehman index. Among the Michigan Funds, NMP had the heaviest weighting of

8

U.S. Guaranteed bonds, while NUO had the highest exposure among the Ohio Funds. We worked to reduce our positions in these bonds over the 12 month period.

HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels during this reporting period, the leveraged structures of these seven Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, the Funds generally pay relatively lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. During this reporting period, this strategy enabled us to implement two dividend increases in NBJ and one increase in NUM and NXI, while helping to maintain the dividends of NMP, NZW, NUO and NVJ throughout the period. In addition, due to capital gains generated by trading activity as part of our yield curve positioning strategy, common shareholders of NUM, NMP, NUO, NXI and NVJ received substantial capital gains and net ordinary income distributions at the end of December 2003.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of July 31, 2004, all seven of the Funds in this report had positive UNII balances.

As of the end of this reporting period, NUO was trading at a premium to its NAV, while the other six Funds were trading at discounts. As of July 31, 2004, all of the Funds were trading at smaller premiums or larger discounts than their average premium or discount over the course of the entire 12 month fiscal year.

9

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF JULY 31, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality was an important requirement. As of the end of July 2004, these seven Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 90% in NMP to 89% in NUM, 86% in NZW, 84% in NUO, 77% in NVJ, 75% in NBJ and 71% in NXI.

As of July 31, 2004, potential call exposure for these Funds during 2004-2005 ranged from zero in NZW and NVJ to 2% in NBJ, 6% in NUM, 10% in NXI, 12% in NUO and 13% in NMP. The number of actual bond calls in all of the Funds will depend largely on market interest rates.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Michigan Quality Income Municipal Fund, Inc., Nuveen Michigan Premium Income Municipal Fund, Inc., Nuveen Michigan Dividend Advantage Municipal Fund, Nuveen Ohio Quality Income Municipal Fund, Inc., Nuveen Ohio Dividend Advantage Municipal Fund, Nuveen Ohio Dividend Advantage Municipal Fund 2 and Nuveen Ohio Dividend Advantage Municipal Fund 3 as of July 31, 2004, and the related statements of operations, changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of investments owned as of July 31, 2004, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Michigan Quality Income Municipal Fund, Inc., Nuveen Michigan Premium Income Municipal Fund, Inc., Nuveen Michigan Dividend Advantage Municipal Fund,

Edgar Filing: NUVEEN OHIO QUALITY INCOME MUNICIPAL FUND INC - Form N-CSR/A

Nuveen Ohio Quality Income Municipal Fund, Inc., Nuveen Ohio Dividend Advantage Municipal Fund, Nuveen Ohio Dividend Advantage Municipal Fund 2 and Nuveen Ohio Dividend Advantage Municipal Fund 3 at July 31, 2004, and the results of their operations, changes in their net assets and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.
