(c) Exhibits. The following exhibit is being furnished herewith:

99.1: Allergan, Inc. press release dated October 22, 2003

**ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On October 22, 2003, Allergan, Inc. ( Allergan ) issued a press release announcing its operating results for the third quarter ended September 26, 2003. A copy of the press release is furnished as Exhibit 99.1 to this report and is hereby incorporated into this Item 12 by reference.

In its press release Allergan included historical non-GAAP financial measures, as defined in Regulation G promulgated by the Securities and Exchange Commission, with respect to the three and nine month periods ended September 26, 2003 and the corresponding periods for 2002. Allergan believes that its presentation of historical non-GAAP financial measures provides useful supplementary information to investors. The presentation of historical non-GAAP financial measures is not meant to be considered in isolation from or as a substitute for results prepared in accordance with accounting principles generally accepted in the United States.

In the press release, Allergan reported the non-GAAP financial measure adjusted diluted earnings. Allergan uses adjusted diluted earnings to enhance the investor s overall understanding of the financial performance and prospects for the future of Allergan s core business activities. Specifically, Allergan believes that a report of adjusted diluted earnings provides consistency in its financial reporting and facilitates the comparison of results of core business operations between its current, past and future periods. Adjusted diluted earnings is one of the primary indicators management uses for planning and forecasting in future periods. Allergan also uses adjusted diluted earnings for evaluating management performance for compensation purposes.

In the press release, Allergan also reported sales performance using the non-GAAP financial measure of constant currency sales. Constant currency sales represent current period reported sales adjusted for the translation effect of changes in average foreign exchange rates between the current period and the corresponding period in the prior year. Allergan calculates the currency effect by comparing adjusted current period reported amounts, calculated using the monthly average foreign exchange rates for the corresponding period in the prior year, to the actual current period reported amounts. Management refers to growth rates at constant currency so that sales results can be viewed without the impact of changing foreign currency exchange rates, thereby facilitating period-to-period comparisons of Allergan s sales. Generally, when the dollar either strengthens or weakens against other currencies, the growth at constant currency rates will be higher or lower, respectively, than growth reported at actual exchange rates.

Allergan is also holding a webcast and investor conference beginning at 8:00 a.m. Pacific Time on October 22, 2003 to disclose its financial results for the quarter ended September 26, 2003. The webcast can be accessed live through the Allergan website, [www.allergan.com](http://www.allergan.com). Replays of the webcast will also be available from October 22, 2003 at 11:00 a.m. Pacific Time until October 24, 2003 at 5:00 p.m. Pacific Time, and can be accessed through [www.allergan.com](http://www.allergan.com) or by calling 1-800-925-3758 for domestic locations, or 1-402-220-4151 for international locations. A passcode will not be required.

The information in this section shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933.
