ALTRIMEGA HEALTH CORPORATION  
(DEVELOPMENT STAGE COMPANY)  
NOTES TO FINANCIAL STATEMENTS

-----  
1. ORGANIZATION

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

The Company was incorporated under the laws of the State of Nevada on September 8, 1998 with the name of Altrimega Health Corporation with authorized common stock of 50,000,000 shares with a par value of \$0.001 and preferred stock of 10,000,000 shares with a par value of \$0.001. The board of directors will determine the powers and rights of the preferred stock when it is issued. On June 23, 1999 the name was changed to Altrimega Health Corporation. The Company was organized for the purpose of marketing nutritional products.

The Company is in the development stage.

On March 5, 2001 the Company completed a forward stock split of four shares for each outstanding share. This report has been prepared showing after stock split shares from inception.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Accounting Methods

-----

The Company recognizes income and expenses based on the accrual method of accounting.

#### Dividend Policy

-----

The Company has not adopted a policy regarding payment of dividends.

#### Income Taxes

-----

On September 30, 2002 the Company had a net operating loss carryforward of \$200,041. The tax benefit of approximately \$ 60,012 from the loss carry forward has been fully offset by a valuation reserve because the use of the future tax benefit is doubtful, since the Company has no operations on which to project future net profits. The loss carryover will expire in 2023.

#### Basic and Diluted Net Income (Loss) Per Share

-----

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of the preferred share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

-----

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Financial Instruments

-----

The carrying amounts of financial instruments, including accounts payable, are

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

considered by management to be their estimated fair values.

### Estimates and Assumptions

-----

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

### Other Recent Accounting Pronouncements

-----

The Company does not expect that the adoption of other recent accounting pronouncements to have any material impact on its financial statements.

### 3. RECENT ACCOUNTING PRONOUNCEMENTS

On July 21, 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141 (SFAS No. 141), "Business Combinations", and No. 142 (SFAS No. 142), "Goodwill and Other Intangible Assets." SFAS No. 141 addresses financial accounting and reporting for goodwill and other intangible assets acquired in a business combination at acquisition. SFAS No. 141 requires the purchase method of accounting to be used for all business combinations initiated after June 30, 2001 and establishes specific criteria for the recognition of intangible assets separately from goodwill; SFAS No. 142 addresses financial accounting and reporting for goodwill and other intangible assets subsequent to their acquisition. SFAS No. 142 provides that goodwill and intangible assets which have indefinite useful lives will not be amortized, but rather will be tested at least annually for impairment. It also provides that intangible assets that have finite useful lives will continue to be amortized over their useful lives, but those lives will no longer be limited to forty years. SFAS No. 141 is effective for all business combinations after June 30, 2001. The provisions of SFAS No. 142 are effective beginning January 1, 2002. The Company has implemented the provisions of SFAS No. 141 and No. 142 and has concluded that the adoption does not have a material impact on the Company's financial statements.

In October 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which requires companies to record the fair value of a liability for asset retirement obligations in the period in which they are incurred. The statement applies to a company's legal obligations associated with the retirement of a tangible long-lived asset that results from the acquisition, construction, and development or through the normal operation of a long-lived asset. When a liability is initially recorded, the company would capitalize the cost, thereby increasing the carrying amount of the related asset. The capitalized asset retirement cost is depreciated over the life of the respective asset while the liability is accreted to its present value. Upon settlement of the liability, the obligation is settled at its recorded amount or the company incurs a gain or loss. The statement is effective for fiscal years beginning after June 30, 2002. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In October 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". Statement 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets. The statement provides a single accounting model for long-lived assets to be disposed of. New criteria must be met to classify the asset as an asset held-for-sale. This statement also focuses on reporting the effects of a disposal of a segment of a business. This statement is effective for fiscal years beginning after December

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

15, 2001. The Company does not expect the adoption to have a material impact to its financial position or results of operations.

-8-

In April 2002, the FASB issued Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This Statement rescinds FASB Statement No. 4, "Reporting Gains and Losses from Extinguishment of Debt," and an amendment of that Statement, FASB Statement No. 64, "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements" and FASB Statement No. 44, "Accounting for Intangible Assets of Motor Carriers." This Statement amends FASB Statement No. 13, "Accounting for Leases," to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In July 2002, the FASB issued SFAS No. 146 "Accounting for Exit or Disposal Activities." The provisions of this statement are effective for disposal activities initiated after December 31, 2002, with early application encouraged. The Company does not expect the adoption of FASB No. 146 to have a material impact on the Company's financial position or results of operations.

#### 4. SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

A former president-director has made a contribution to the capital by the forgiveness of debt due him from the Company of \$37,663. Former officers-directors have made contributions to the capital of the Company by the payment of expenses incurred by the Company of \$4,492.

#### 5. GOING CONCERN

The Company will need additional working capital to service its debt and for its future planned activity and continuation of the Company as a going concern is dependent upon obtaining sufficient working capital to be successful in that effort and the management of the Company has developed a strategy, which it believes will accomplish this objective through additional equity funding, and long term financing, which will enable the Company to operate for the coming year.

#### 6. SHARE EXCHANGE WITH CREATIVE HOLDINGS, INC.

On August 15, 2002 the Company entered into a definitive Merger Agreement (the "Merger Agreement") among the Company, Altrimega Acquisition Co., a Nevada corporation ("Acquisition Co."), Creative Holdings, Inc. a South Carolina corporation ("Creative Holdings") and the shareholders of Creative Holdings (the "Shareholders"). Pursuant to the Merger Agreement, Creative Holdings was to be merged with and into Acquisition Co., which was to be the surviving corporation and continue its corporate existence under the laws of the State of Nevada as a wholly-owned subsidiary of the Company. In consideration of the merger, the Company was to issue a total of 320,000,000 shares of common stock of the Company to the Shareholders in exchange for all of the common stock of Creative Holdings. At closing, 20,000,000 shares of common stock of the Company were issued and delivered to the Shareholders. Upon consummation of the merger and the approval by a majority of the outstanding shares of capital stock authorizing an amendment to the Company's Articles of Incorporation increasing the authorized common stock of the Company to 800,000,000, the remaining 300,000,000 shares of common stock of the Company were to be issued and

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

delivered to the Shareholders.

On September 2, 2002, the Company, Creative Holdings and the Shareholders amended the Merger Agreement and restructured the merger into a stock exchange transaction, whereby Creative Holdings will become a wholly-owned subsidiary of the Company. Pursuant to the Share Exchange Agreement (the "Share Exchange Agreement"), effective as of August 15, 2002 by and among the Company, Creative Holdings and the Shareholders, the Shareholders will exchange with, and deliver to the Company the issued and outstanding capital stock of Creative Holdings in exchange for 20,000,000 shares of common stock of the Company and 1,000,000 shares of Series A Convertible Preferred Stock of the Company. Each shares of Series A Convertible Preferred stock will be convertible into 300 shares of common stock of the Company.

Creative Holdings is a real estate holding company. Pursuant to a Joint Venture Agreement, dated June 27, 2002, by and between Silver Carolina Development Company, LLC ("Silver Carolina") and Creative Holdings (the "Joint Venture Agreement"), Creative Holdings has the right to purchase a 49% interest in a joint venture with respect to the development, construction, lease, sales and management of a portion of the residential and commercial property known as the Barefoot Resort and Golf Community in North Myrtle Beach, South Carolina. The project is under development and contemplates a yacht marina with 167 slips and a multi-use building for retail and residential units.

-9-

### 7. SUBSEQUENT EVENTS

On November 12, 2002, the Company, through its subsidiary Sea Garden Funding, LLC, a South Carolina limited liability company ("Sea Garden Funding"), acquired real property in the Sea Garden development in North Myrtle Beach, South Carolina.

Sea Garden is a townhouse condominium project consisting of approximately 116 sold units with an additional 10 units currently under construction and remaining sites for 49 additional units.

Creative Holdings owns 80% of Sea Garden Funding. Sea Garden Funding paid \$210,000 cash and assumed debt of \$1,071, 344.66 to complete the transaction. The current sales prices for the 2 bedroom 2.5 bath town homes are averaging \$88,000.00. This would create approximately \$5,200,000 in revenues upon sell-out. The construction costs on the remaining units to be completed would be approximately \$2,775,000 at current cost estimates. Horry County State Bank provided the funding for the purchase.

## PART 11 - OTHER INFORMATION

### ITEM 3. CONTROLS AND PROCEDURES

QUARTERLY EVALUATION OF THE COMPANY'S DISCLOSURE CONTROLS AND INTERNAL CONTROLS. Within the 90 days prior to the date of this Quarterly Report on Form 10-QSB, the Company evaluated the effectiveness of the design and operation of its "disclosure controls and procedures" (Disclosure Controls), and its "internal controls and procedures for financial reporting" (Internal Controls). This evaluation (the Controls Evaluation) was done under the supervision and with the participation of management, including our Chief Executive Officer (CEO)/Chief Financial Officer (CFO). Rules adopted by the SEC require that in this section of the Quarterly Report we present the conclusions of the CEO/CFO about the effectiveness of our Disclosure Controls and Internal Controls based on and as of the date of the Controls Evaluation.

CEO/CFO CERTIFICATION. Appearing immediately following the Signatures section of this Quarterly Report there are two separate forms of "Certifications" of the CEO/CFO. The second form of Certification is required in accord with Section 302 of the Sarbanes-Oxley Act of 2002 (the Section 302 Certification). This section of the Quarterly Report which you are currently reading is the information concerning the Controls Evaluation referred to in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.

DISCLOSURE CONTROLS AND INTERNAL CONTROLS. Disclosure Controls are procedures

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 (Exchange Act), such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms. Disclosure Controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the CEO/CFO, as appropriate to allow timely decisions regarding required disclosure. Internal Controls are procedures which are designed with the objective of providing reasonable assurance that (1) our transactions are properly authorized; (2) our assets are safeguarded against unauthorized or improper use; and (3) our transactions are properly recorded and reported, all to permit the preparation of our financial statements in conformity with generally accepted accounting principles.

**LIMITATIONS ON THE EFFECTIVENESS OF CONTROLS.** The Company's management, including the CEO/CFO, does not expect that our Disclosure Controls or our Internal Controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**SCOPE OF THE CONTROLS EVALUATION.** The CEO/CFO evaluation of our Disclosure Controls and our Internal Controls included a review of the controls' objectives and design, the controls' implementation by the Company and the effect of the controls on the information generated for use in this Quarterly Report. In the course of the Controls Evaluation, we sought to identify data errors, controls problems or acts of fraud and to confirm that appropriate corrective action, including process improvements, were being undertaken. This type of evaluation will be done on a quarterly basis so that the conclusions concerning controls effectiveness can be reported in our Quarterly Reports on Form 10-QSB and Annual Report on Form 10-KSB. Our Internal Controls are also evaluated on an ongoing basis by our independent auditors in connection with their audit and review activities. The overall goals of these various evaluation activities are to monitor our Disclosure Controls and our Internal Controls and to make modifications as necessary; our intent in this regard is that the Disclosure Controls and the Internal Controls will be maintained as dynamic systems that change (including with improvements and corrections) as conditions warrant.

-12-

Among other matters, we sought in our evaluation to determine whether there were any "significant deficiencies" or "material weaknesses" in the Company's Internal Controls, or whether the Company had identified any acts of fraud involving personnel who have a significant role in the Company's Internal

## Edgar Filing: ALTRIMEGA HEALTH CORP - Form 10QSB

Controls. This information was important both for the Controls Evaluation generally and because items 5 and 6 in the Section 302 Certifications of the CEO/CFO require that the CEO/CFO disclose that information to our Board of Directors and to our independent auditors and to report on related matters in this section of the Quarterly Report. In the professional auditing literature, "significant deficiencies" are referred to as "reportable conditions"; these are control issues that could have a significant adverse effect on the ability to record, process, summarize and report financial data in the financial statements. A "material weakness" is defined in the auditing literature as a particularly serious reportable condition where the internal control does not reduce to a relatively low level the risk that misstatements caused by error or fraud may occur in amounts that would be material in relation to the financial statements and not be detected within a timely period by employees in the normal course of performing their assigned functions. We also sought to deal with other controls matters in the Controls Evaluation, and in each case if a problem was identified, we considered what revision, improvement and/or correction to make in accord with our on-going procedures.

In accord with SEC requirements, the CEO/CFO notes that, since the date of the Controls Evaluation to the date of this Quarterly Report, there have been no significant changes in Internal Controls or in other factors that could significantly affect Internal Controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

CONCLUSIONS. Based upon the Controls Evaluation, our CEO/CFO has concluded that, subject to the limitations noted above, our Disclosure Controls are effective to ensure that material information relating to the Company is made known to management, including the CEO/CFO, particularly during the period when our periodic reports are being prepared, and that our Internal Controls are effective to provide reasonable assurance that our financial statements are fairly presented in conformity with generally accepted accounting principles.
