Dynegy Inc. ("Dynegy") is filing this Form 12b-25 respecting its annual report on Form 10-K for the fiscal year ended December 31, 2002 because it needs additional time to complete its financial statements and the audit of such statements. Further, Dynegy is continuing its efforts to refinance its current bank facilities. The financial statements to be included in its Form 10-K are being prepared on a going concern basis, which assumes the satisfactory completion of these efforts. Dynegy could not eliminate its inability to timely file its Form 10-K as a result of the inability to complete these financial statements and the audit of such statements without unreasonable effort or expense. Dynegy expects to file its annual report for the fiscal year ended December 31, 2002 on or before April 15, 2003.

ATTACHMENT

The registrant anticipates that a significant change in its results of operations from the last fiscal year will be reflected by the earnings statements to be included in its 2002 Form 10-K. Specifically, the registrant expects to report a net loss of approximately \$2.8 billion for 2002, compared to net income of more than \$420 million previously reported for 2001. The 2002 net loss was impacted by a number of previously announced significant charges, including impairments of goodwill and other assets and investments and a loss associated with discontinued operations.
