Independent Auditor's Report

To the Buckeye Investment Committee
Buckeye Retirement Plan
Memphis, Tennessee

We have audited the accompanying statements of net assets available for benefits of Buckeye Retirement Plan as of June 30, 2002 and 2001, and the related statements of changes in net assets available for benefits for the years then

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Buckeye Retirement Plan at June 30, 2002 and 2001, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes prior to transfer of assets to other plan as of June 30, 2002 is presented for the purpose of complying with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is not a required part of the basic financial statements. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BUCKEYE RETIREMENT PLAN

Notes to Financial Statements
June 30, 2002 and 2001

Note 1 - Description of Plan

The following description of Buckeye Retirement Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Buckeye Retirement Plan (the "Plan") was terminated June 30, 2002 (see note 6). The Plan was a noncontributory defined contribution pension plan covering all eligible salaried and hourly employees, as defined in the plan document, of Buckeye Technologies Inc. and its wholly owned subsidiaries Buckeye Florida, Limited Partnership, Buckeye Florida Corporation, Buckeye Lumberton Inc., Buckeye Mt. Holly LLC, and BKI International Inc. (collectively the "Company"). Employees were eligible upon completion of 1,000 hours of service during their first year of employment or during any Plan year (July 1 to June 30). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Contributions made annually by the Company were computed based upon the following formula:

Contribution = (A+B)C A=1% B=.5% X number of years service not to exceed twenty (20) years. C=Plan year compensation. The

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

minimum is 1 1/2% of eligible compensation and the maximum is 11% of compensation.

Contributions were generally funded in the quarter following the Plan's year end.

Participant accounts

Each participant's account was credited with the allocation of the employer's contribution. The value of a participant's account was the contributions made on their behalf plus a proportionate interest in the investment earnings of the funds in which the contributions were invested. The benefit to which a participant was entitled was the benefit that could be provided from the participant's account.

Vesting

Participants were 100% vested in their accounts after completion of five years of credited service. In the event of death, disability, normal retirement (age 65) or if the Plan is discontinued, participants became 100% vested in their account balances.

Note 1 - Description of Plan (continued)

Payment of benefits

Participants could choose to receive account distributions either in the form of a lump sum payment or installments over a period of time as defined in the Plan Agreement. However, if the participant's vested balance did not exceed \$5,000, the Plan could distribute funds in the form of a lump sum payment without the consent of the participant.

Forfeitures

If an employee terminated before his or her account had become fully vested, such portion of the account was forfeited. Forfeitures are used to reduce future contributions by the Company. Forfeitures used to reduce employer contributions totaled \$189,210 in 2002.

Note 2 - Summary of significant accounting policies

Investments

Investments are stated at fair value and represent the Plan's share of the market value of fund holdings or are based upon quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

Benefit payments

Benefit payments to participants are recorded upon distribution.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions which affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3 - Investments

At June 30, 2001, the Plan's investment assets were held in a trust account by Fidelity Management Trust Company and consisted of an interest in the Buckeye Master Trust. The Master Trust also includes the investment assets of Buckeye Retirement Plus Savings Plan. The Master Trust was composed of the common stock of Buckeye Technologies Inc. and interests in ten mutual funds at June 30, 2001.
