VORNADO REALTY TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization

Vornado Realty Trust ("Vornado") is a fully integrated real estate investment trust ("REIT") and conducts its business through, and substantially all of its interests in properties are held by, Vornado Realty L.P., a Delaware limited partnership (the "Operating Partnership"). Vornado is the sole general partner of, and owned approximately 94.0% of the common limited partnership interest in the Operating Partnership at June 30, 2013. All references to "we," "us," "our," the "Company" and "Vornado" refer to Vornado Realty Trust and its consolidated subsidiaries, including the Operating Partnership.

2. Basis of Presentation

The accompanying consolidated financial statements are unaudited and include the accounts of Vornado and its consolidated subsidiaries, including the Operating Partnership. All intercompany amounts have been eliminated. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and changes in cash flows have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. These condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission (the "SEC") and should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K, for the year ended December 31, 2012, as filed with the SEC.

We have made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the operating results for the full year. Certain prior year balances have been reclassified in order to conform to current year presentation.

3. Recently Issued Accounting Literature

In February 2013, the Financial Accounting Standards Board ("FASB") issued an update ("ASU 2013-02") to Accounting Standards Codification ("ASC") Topic 220, *Comprehensive Income* ("Topic 220"). ASU 2013-02 requires additional disclosures regarding significant reclassifications out of each component of accumulated other comprehensive income, including the effect on the respective line items of net income for amounts that are required to be reclassified into net income in their entirety and cross-references to other disclosures providing additional information for amounts that are not required to be reclassified into net income in their entirety. The adoption of this update as of January 1, 2013, did not have a material impact on our consolidated financial statements, but resulted in additional disclosures (see Note 13 - Accumulated Other Comprehensive Income).

In June 2013, the FASB issued an update ("ASU 2013-08") to ASC Topic 946, *Financial Services - Investment Companies* ("Topic 946"). ASU 2013-08 amends the guidance in Topic 946 for determining whether an entity qualifies as an investment company and requires certain additional disclosures. ASU 2013-08 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2013. We are currently evaluating the impact, if any, of ASU 2013-08 on our real estate fund and our consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(UNAUDITED)

4. Vornado Capital Partners Real Estate Fund (the "Fund")

We are the general partner and investment manager of our \$800,000,000 Fund, to which we committed \$200,000,000. The Fund has an eight-year term and a three-year investment period which ended in July 2013. During the investment period, the Fund was our exclusive investment vehicle for all investments that fit within its investment parameters, as defined. The Fund is accounted for under the AICPA Investment Company Guide and its investments are reported on its balance sheet at fair value, with changes in value each period recognized in earnings. We consolidate the accounts of the Fund into our consolidated financial statements, retaining the fair value basis of accounting.

At June 30, 2013, the Fund had ten investments with an aggregate fair value of \$622,124,000, or \$114,751,000 in excess of cost, and had remaining unfunded commitments of \$246,582,000, of which our share was \$61,645,000. Below is a summary of income from the Fund for the three and six months ended June 30, 2013 and 2012.

5. Mortgage and Mezzanine Loans Receivable

As of June 30, 2013 and December 31, 2012, the carrying amount of mortgage and mezzanine loans receivable was \$175,699,000 and \$225,359,000, respectively. These loans have a weighted average interest rate of 10.8% and 10.3% at June 30, 2013 and December 31, 2012, respectively, and have maturities ranging from August 2014 to May 2016.

On March 27, 2013, we transferred, at par, a 25% participation in a mortgage loan on 701 Seventh Avenue to a third party for \$59,375,000 in cash. We acquired this participation in October 2012, together with a 25% interest in a mezzanine loan on the property. The transfer did not qualify for sale accounting given our continuing interest in the mezzanine loan. Accordingly, we continue to include the 25% participation in the mortgage loan in "Mortgage and Mezzanine Loans Receivable" and have recorded a \$59,375,000 liability in "Other Liabilities" on our consolidated balance sheet.

On April 17, 2013, a \$50,091,000 mezzanine loan that was scheduled to mature in August 2015, was repaid. In connection therewith, we received net proceeds of \$55,358,000, including prepayment penalties, which resulted in income of \$5,267,000, included in "interest and other investment income (loss)" on our consolidated statement of income.

⁽¹⁾ Excludes management, leasing and development fees of \$827 and \$717 for the three months ended June 30, 2013 and 2012, respectively, and \$1,676 and \$1,420 for the six months ended June 30, 2013 and 2012, respectively, which are included as a component of "fee and other income" on our consolidated statements of income.

6. Marketable Securities and Derivative Instruments

Our portfolio of marketable securities is comprised of equity securities that are classified as available for sale. Available for sale securities are presented on our consolidated balance sheets at fair value. Unrealized gains and losses resulting from the mark-to-market of these securities are included in "other comprehensive income (loss)." Realized gains and losses are recognized in earnings only upon the sale of the securities and are recorded based on the weighted average cost of such securities.

Investment in J.C. Penney Company, Inc. ("J.C. Penney") (NYSE: JCP)

On March 4, 2013, we sold 10,000,000 J.C. Penney common shares at a price of \$16.03 per share, or \$160,300,000 in the aggregate, resulting in a net loss of \$36,800,000, which is included in "net gain (loss) on disposition of wholly owned and partially owned assets" on our consolidated statement of income. In addition, in the first quarter of 2013, we wrote down the remaining 8,584,010 J.C. Penney common shares we own to fair value and recorded a \$39,487,000 impairment loss, which is included in "interest and other investment income (loss), net" on our consolidated statement of income.

As of June 30, 2013, we own an economic interest in 13,400,000 J.C. Penney common shares, or 6.1% of its outstanding common shares. Below are the details of our investment.

We own 8,584,010 common shares at a GAAP cost of \$15.11, per share, or \$129,704,000 in the aggregate. As of June 30, 2013, these shares have an aggregate fair value of \$146,615,000, based on J.C. Penney's closing share price of \$17.08 per share.

We also own an economic interest in 4,815,990 common shares through a forward contract at a weighted average strike price of \$29.27 per share, or \$140,947,000 in the aggregate. The forward contract may be settled, at our election, in cash or common shares, in whole or in part, at any time prior to October 8, 2022. The counterparty may accelerate settlement, in whole or in part, on October 8, 2014, or any anniversary thereof, or in the event we were to receive a credit downgrade. The forward contract strike price per share increases at an annual rate of LIBOR plus 95

basis points during the first two years of the contract and LIBOR plus 80 basis points thereafter. The contract is a derivative instrument that does not qualify for hedge accounting treatment. Gains and losses from the mark-to-market of the underlying common shares are recognized in "interest and other investment income (loss), net" on our consolidated statements of income. In the three and six months ended June 30, 2013, we recognized income of \$9,065,000 and a loss of \$13,475,000, respectively, from the mark-to-market of the underlying common shares, and as of June 30, 2013, have funded \$69,377,000 in connection with this derivative position. In the three and six months ended June 30, 2012, we recognized losses of \$58,732,000 and \$57,687,000, respectively, from the mark-to-market of the underlying common shares.

As of June 30, 2013, the aggregate economic net loss on our investment in J.C. Penney, including shares sold, was \$201,119,000.

Investment in Lexington Realty Trust ("Lexington") (NYSE: LXP)

From the inception of our investment in Lexington in 2008, until the first quarter of 2013, we accounted for that investment under the equity method because of our ability to exercise significant influence over Lexington's operating and financial policies. As a result of Lexington's common share issuances, our ownership interest has been reduced over time from approximately 17.2% to 8.8% at March 31, 2013. In the first quarter of 2013, we concluded that we no longer have the ability to exercise significant influence over Lexington's operating and financial policies, and began accounting for this investment as a marketable equity security – available for sale, in accordance with Accounting Standards Codification ("ASC") Topic 320, *Investments – Debt and Equity Securities*.

Toys "R" Us ("Toys")

As of June 30, 2013, we own 32.6% of Toys. We account for our investment in Toys under the equity method and record our share of Toys' net income or loss on a one-quarter lag basis because Toys' fiscal year ends on the Saturday nearest January 31, and our fiscal year ends on December 31. The business of Toys is highly seasonal. Historically, Toys' fourth quarter net income accounts for more than 80% of its fiscal year net income.

In the fourth quarter of 2012, we recorded a \$40,000,000 non-cash impairment loss on our investment in Toys and disclosed, that if current facts don't change, our share of Toys' undistributed income, which in accordance with the equity method of accounting, would increase the carrying amount of our investment above fair value, would require an offsetting impairment loss.

In the first quarter of 2013, we recognized our share of Toys' fourth quarter net income of \$78,542,000 and a corresponding non-cash impairment loss of the same amount.

As of June 30, 2013, the carrying amount of our investment in Toys is less than our share of Toys' equity by approximately \$146,215,000. This basis difference resulted primarily from the non-cash impairment losses aggregating \$118,542,000 that were recognized in 2012 and 2013. We have allocated the basis difference to Toys' intangible assets (primarily trade names and trademarks). The basis difference is not being amortized and will be recognized upon disposition of our investment.

Alexander's, Inc. ("Alexander's") (NYSE: ALX)

As of June 30, 2013, we own 1,654,068 Alexander's common shares, or approximately 32.4% of Alexander's common equity. We manage, lease and develop Alexander's properties pursuant to agreements which expire in March of each year and are automatically renewable. As of June 30, 2013, Alexander's owed us \$44,883,000 in fees under these agreements.

As of June 30, 2013, the market value ("fair value" pursuant to ASC 820) of our investment in Alexander's, based on Alexander's June 30, 2013 closing share price of \$293.71, was \$485,816,000, or \$315,635,000 in excess of the carrying amount on our consolidated balance sheet. As of June 30, 2013, the carrying amount of our investment in Alexander's, excluding amounts owed to us, exceeds our share of the equity in the net assets of Alexander's by approximately \$43,292,000. The majority of this basis difference resulted from the excess of our purchase price for the Alexander's common stock acquired over the book value of Alexander's net assets. Substantially all of this basis difference was allocated, based on our estimates of the fair values of Alexander's assets and liabilities, to real estate (land and buildings). We are amortizing the basis difference related to the buildings into earnings as additional depreciation expense over their estimated useful lives. This depreciation is not material to our share of equity in Alexander's net income. The basis difference related to the land will be recognized upon disposition of our investment.

Independence Plaza

On December 21, 2012, we acquired a 58.75% economic interest in Independence Plaza, a three-building 1,328 unit residential complex in the Tribeca submarket of Manhattan (the "Property"). We determined, at that time, that we were the primary beneficiary of the variable interest entity ("VIE") that owned the Property. Accordingly, we consolidated the operations of the Property from the date of acquisition. Upon consolidation, our preliminary purchase price allocation was primarily to land (\$309,848,000) and building (\$527,578,000). Based on a third party appraisal and additional information about facts and circumstances that existed at the acquisition date, which was obtained subsequent to the date of acquisition, we finalized the purchase price allocation in the first quarter of 2013, and retroactively adjusted our December 31, 2012 consolidated balance sheet as follows:

| (Amounts in thousands) | |
|---|---------------|
| Land | \$ 602,662 |
| Building and improvements | 252,844 |
| Acquired above-market leases (included in identified intangible assets) | 13,115 |

| Purchase price | \$ 844,800 |

On June 7, 2013, the existing \$323,000,000 mortgage loan was refinanced with a \$550,000,000 five-year, fixed-rate interest only mortgage loan bearing interest at 3.48%. The net proceeds of \$219,000,000, after repaying the existing loan and closing costs, were distributed to the partners, of which our share was \$137,000,000. Simultaneously with the refinancing, we sold an 8.65% economic interest in the Property to our partner for \$41,000,000 in cash, which reduced our economic interest to 50.1%. As a result of this transaction, we determined that we are no longer the primary beneficiary of the VIE. Accordingly, we deconsolidated the operations of the Property on June 7, 2013 and began accounting for our investment under the equity method.

2013 Activity:

On January 24, 2013, we completed the sale of the Green Acres Mall located in Valley Stream, New York, for \$500,000,000. The sale resulted in net proceeds of \$185,000,000, after repaying the existing loan and closing costs, and a net gain of \$202,275,000.

On April 15, 2013, we sold The Plant, a power strip shopping center in San Jose, California, for \$203,000,000. The sale resulted in net proceeds of \$98,000,000, after repaying the existing loan and closing costs, and a net gain of \$32,169,000.

On April 15, 2013, we sold a retail property in Philadelphia, which is a part of the Gallery at Market Street, for \$60,000,000. The sale resulted in net proceeds of \$58,000,000, and a net gain of \$33,058,000.

During 2013, we sold an additional 10 properties, including nine non-core retail properties, in separate transactions, for an aggregate of \$40,200,000, in cash, which resulted in a net gain aggregating \$492,000.

2012 Activity:

On January 6, 2012, we completed the sale of 350 West Mart Center, a 1.2 million square foot office building in Chicago, Illinois, for \$228,000,000, in cash, which resulted in a net gain of \$54,911,000.

During 2012, we sold 11 non-core retail properties in separate transactions, for an aggregate of \$136,000,000, in cash, which resulted in a net gain aggregating \$17,802,000.

We have reclassified the revenues and expenses of all of the properties discussed above, as well as certain other retail properties that are currently held for sale to "income from discontinued operations" and the related assets and liabilities to "assets related to discontinued operations" and "liabilities related to discontinued operations" for all of the periods presented in the accompanying financial statements. The tables below set forth the assets and liabilities related to discontinued operations at June 30, 2013 and December 31, 2012 and their combined results of operations for the three and six months ended June 30, 2013 and 2012.

Notes to preceding tabular information (amounts in thousands):

(1) Represents the extended maturity for certain loans in which we have the

unilateral right, ability and intent to extend.

On February 20, 2013, we completed a \$390,000 financing of this property.

The 10-year fixed-rate interest only loan bears interest at 3.61%. This property

was previously unencumbered.

In 2012, due to the rising vacancy rate at the Skyline properties (45.2% at June 30, 2013), primarily from the effects of the Base Realignment and Closure statute; insufficient cash flows to pay current obligations, including interest payments to the lender; and the significant amount of capital required to re-tenant these properties, we requested that the mortgage loan be transferred to the special servicer. In connection therewith, we entered into a forbearance agreement with the special servicer, that provides for interest shortfalls to be deferred and added to the principal balance of the loan and not give rise to a loan default. The forbearance agreement has been amended and extended a number of times, the latest of which extends its maturity through September 1, 2013. As of June 30, 2013, the accrued deferred interest amounted to \$47,559. We continue to negotiate with the special servicer to restructure the terms of the loan.

On March 25, 2013, we completed a \$300,000 financing of this property. The 10-year fixed-rate interest only loan bears interest at 3.56%. The property was

previously encumbered by a \$282,000 floating-rate loan.

On May 13, 2013, we notified the lender that due to tenants vacating, the property's operating cash flow will be insufficient to pay the debt service; accordingly, at our request, the mortgage loan was transferred to the special servicer. We are in discussions with the special servicer to restructure the terms of the loan; there can be no assurance as to the timing and ultimate

resolution of these discussions.

11. Redeemable Noncontrolling Interests

Redeemable noncontrolling interests on our consolidated balance sheets are primarily comprised of Class A Operating Partnership units held by third parties. Redeemable noncontrolling interests on our consolidated balance sheets are recorded at the greater of their carrying amount or redemption value at the end of each reporting period. Changes in the value from period to period are charged to "additional capital" in our consolidated statements of changes in equity. Below is a table summarizing the activity of redeemable noncontrolling interests.

As of June 30, 2013 and December 31, 2012, the aggregate redemption value of redeemable Class A units was \$939,988,000 and \$898,152,000, respectively.

Redeemable noncontrolling interests exclude our Series G-1 through G-4 convertible preferred units and Series D-13 cumulative redeemable preferred units, as they are accounted for as liabilities in accordance with ASC 480,

Distinguishing Liabilities and Equity, because of their possible settlement by issuing a variable number of Vornado common shares. Accordingly, the fair value of these units is included as a component of "other liabilities" on our consolidated balance sheets and aggregated \$55,073,000 and \$55,011,000 as of June 30, 2013 and December 31, 2012, respectively.

On May 9, 2013, we redeemed all of the outstanding 6.875% Series D-15 Cumulative Redeemable Preferred Units with an aggregate face amount of \$45,000,000 for \$36,900,000 in cash, plus accrued and unpaid distributions through the date of redemption.

12. Shareholders' Equity

On January 25, 2013, we sold 12,000,000 5.40% Series L Cumulative Redeemable Preferred Shares at a price of \$25.00 per share in an underwritten public offering pursuant to an effective registration statement. We retained aggregate net proceeds of \$290,536,000, after underwriters' discounts and issuance costs, and contributed the net proceeds to the Operating Partnership in exchange for 12,000,000 Series L Preferred Units (with economic terms that mirror those of the Series L Preferred Shares). Dividends on the Series L Preferred Shares are cumulative and payable quarterly in arrears. The Series L Preferred Shares are not convertible into, or exchangeable for, any of our properties or securities. On or after five years from the date of issuance (or sooner under limited circumstances), we may redeem the Series L Preferred Shares at a redemption price of \$25.00 per share, plus accrued and unpaid dividends through the date of redemption. The Series L Preferred Shares have no maturity date and will remain outstanding indefinitely unless redeemed by us.

On February 19, 2013, we redeemed all of the outstanding 6.75% Series F Cumulative Redeemable Preferred Shares and 6.75% Series H Cumulative Redeemable Preferred Shares at par, for an aggregate of \$262,500,000 in cash, plus accrued and unpaid dividends through the date of redemption.

14. Variable Interest Entities ("VIEs")

Consolidated VIEs

The entity that owns Independence Plaza was a consolidated VIE at December 31, 2012. On June 7, 2013, we sold a portion of our economic interest in this entity and determined that we are no longer its primary beneficiary. Accordingly, we deconsolidated this VIE (see Note 7 – *Investments in Partially Owned Entities*). The table below summarizes the assets and liabilities of the VIE at December 31, 2012. The liabilities were secured only by the assets of the VIE, and were non-recourse to us.

Unconsolidated VIEs

At June 30, 2013, we have unconsolidated VIEs comprised of our investments in the entities that own the Warner Building and Independence Plaza. We do not consolidate these entities because we are not the primary beneficiary and the nature of our involvement in the activities of these entities does not give us power over decisions that significantly affect these entities' economic performance. We account for our investment in these entities under the equity method (see Note 7 – *Investments in Partially Owned Entities*). As of June 30, 2013, the net carrying amount of our investment in these entities was \$151,644,000, and at December 31, 2012, the carrying amount of our investment in the Warner Building was \$8,775,000. Our maximum exposure to loss in these entities, is limited to our investment.

15. Fair Value Measurements

ASC 820, Fair Value Measurement and Disclosures defines fair value and establishes a framework for measuring fair value. The objective of fair value is to determine the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels: Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities; Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and Level 3 – unobservable inputs that are used when little or no market data is available. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as consider counterparty credit risk in our assessment of fair value. Considerable judgment is necessary to interpret Level 2 and 3 inputs in determining the fair value of our financial and non-financial assets and liabilities. Accordingly, our fair value estimates, which are made at the end of each reporting period, may be different than the amounts that may ultimately be realized upon sale or disposition of these assets.

Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis

Financial assets and liabilities that are measured at fair value in our consolidated financial statements consist of (i) marketable securities, (ii) Real Estate Fund investments, (iii) the assets in our deferred compensation plan (for which there is a corresponding liability on our consolidated balance sheet), (iv) derivative positions in marketable equity securities, (v) interest rate swaps and (vi) mandatorily redeemable instruments (Series G-1 through G-4 convertible preferred units and Series D-13 cumulative redeemable preferred units). The tables below aggregate the fair values of these financial assets and liabilities by their levels in the fair value hierarchy at June 30, 2013 and December 31, 2012, respectively.

Real Estate Fund Investments

At June 30, 2013, our Real Estate Fund had ten investments with an aggregate fair value of \$622,124,000, or \$114,751,000 in excess of cost. These investments are classified as Level 3. We use a discounted cash flow valuation technique to estimate the fair value of each of these investments, which is updated quarterly by personnel responsible for the management of each investment and reviewed by senior management at each reporting period. The discounted cash flow valuation technique requires us to estimate cash flows for each investment over the anticipated holding period, which currently ranges from 0.1 to 7.0 years. Cash flows are derived from property rental revenue (base rents plus reimbursements) less operating expenses, real estate taxes and capital and other costs, plus projected sales proceeds in the year of exit. Property rental revenue is based on leases currently in place and our estimates for future leasing activity, which are based on current market rents for similar space plus a projected growth factor. Similarly, estimated operating expenses and real estate taxes are based on amounts incurred in the current period plus a projected growth factor for future periods. Anticipated sales proceeds at the end of an investment's expected holding period are determined based on the net cash flow of the investment in the year of exit, divided by a terminal capitalization rate, less estimated selling costs.

The fair value of each property is calculated by discounting the future cash flows (including the projected sales proceeds), using an appropriate discount rate and then reduced by the property's outstanding debt, if any, to determine the fair value of the equity in each investment. Significant unobservable quantitative inputs used in determining the fair value of each investment include capitalization rates and discount rates. These rates are based on the location, type and nature of each property, and current and anticipated market conditions, which are derived from original underwriting assumptions, industry publications and from the experience of our Acquisitions and Capital Markets departments. Significant unobservable quantitative inputs in the table below were utilized in determining the fair value of these Fund investments at June 30, 2013.

| | | Weighted |
|---------------------------------|----------------|-------------------------|
| | | Average |
| | | (based on fair value of |
| Unobservable Quantitative Input | Range | investments) |
| Discount rates | 12.5% to 19.0% | 14.3 % |
| Terminal capitalization rates | 5.3% to 6.0% | 5.8 % |

The above inputs are subject to change based on changes in economic and market conditions and/or changes in use or timing of exit. Changes in discount rates and terminal capitalization rates result in increases or decreases in the fair values of these investments. The discount rates encompass, among other things, uncertainties in the valuation models with respect to terminal capitalization rates and the amount and timing of cash flows. Therefore, a change in the fair value of these investments resulting from a change in the terminal capitalization rate, may be partially offset by a change in the discount rate. It is not possible for us to predict the effect of future economic or market conditions on our estimated fair values.

The table below summarizes the changes in the fair value of Fund investments that are classified as Level 3, for the three and six months ended June 30, 2013 and 2012.

<u>Deferred Compensation Plan Assets</u>

Deferred compensation plan assets that are classified as Level 3 consist of investments in limited partnerships and investment funds, which are managed by third parties. We receive quarterly financial reports from a third-party administrator, which are compiled from the quarterly reports provided to them from each limited partnership and investment fund. The quarterly reports provide net asset values on a fair value basis which are audited by independent public accounting firms on an annual basis. The third-party administrator does not adjust these values in determining our share of the net assets and we do not adjust these values when reported in our consolidated financial statements.

The table below summarizes the changes in the fair value of Deferred Compensation Plan Assets that are classified as Level 3, for the three and six months ended June 30, 2013 and 2012.

Fair Value Measurements on a Nonrecurring Basis

Assets measured at fair value on a nonrecurring basis on our consolidated balance sheets consist primarily of our investment in Toys "R" Us and real estate assets that were written-down to estimated fair value at December 31, 2012. The fair values of these assets were determined using widely accepted valuation techniques, including (i) discounted cash flow analysis, which considers, among other things, leasing assumptions, growth rates, discount rates and terminal capitalization rates, (ii) income capitalization approach, which considers prevailing market capitalization rates, and (iii) comparable sales activity. Generally, we consider multiple valuation techniques when measuring fair values but in certain circumstances, a single valuation technique may be appropriate. The tables below aggregate the fair values of these assets by their levels in the fair value hierarchy.

Financial Assets and Liabilities not Measured at Fair Value

Financial assets and liabilities that are not measured at fair value on our consolidated balance sheets include cash equivalents (primarily money market funds, which invest in obligations of the United States government), mortgage and mezzanine loans receivable and our secured and unsecured debt. Estimates of the fair value of these instruments are determined by the standard practice of modeling the contractual cash flows required under the instrument and discounting them back to their present value at the appropriate current risk adjusted interest rate, which is provided by a third-party specialist. For floating rate debt, we use forward rates derived from observable market yield curves to project the expected cash flows we would be required to make under the instrument. The fair value of cash equivalents is classified as Level 1 and the fair value of our mortgage and mezzanine loans receivable is classified as Level 3. The fair value of our secured and unsecured debt are classified as Level 2. The table below summarizes the carrying amounts and fair value of these financial instruments as of June 30, 2013 and December 31, 2012.

16. Incentive Compensation

Our 2010 Omnibus Share Plan (the "Plan") provides for grants of incentive and non-qualified stock options, restricted stock, restricted Operating Partnership units and out-performance plan rewards to certain of our employees and officers. We account for all stock-based compensation in accordance ASC 718, *Compensation – Stock Compensation*. Stock-based compensation expense was \$9,129,000 and \$8,438,000 in the three months ended June 30, 2013 and 2012, respectively and \$16,595,000 and \$15,047,000 in the six months ended June 30, 2013 and 2012, respectively.

On March 15, 2013, our Compensation Committee (the "Committee") approved the 2013 Outperformance Plan, a performance-based equity compensation plan and related form of award agreement (the "2013 OPP"). Under the 2013 OPP, participants have the opportunity to earn compensation payable in the form of operating partnership units in the second and/or third year during a three-year performance measurement period, if and only if, we outperform a predetermined total shareholder return ("TSR") and/or outperform the market with respect to relative total TSR. Awards under our 2013 OPP may be earned if (i) we achieve a TSR greater than 14% over the two-year performance measurement period, or 21% over the three-year performance measurement period (the "Absolute Component"), and/or (ii) we achieve a TSR above that of the SNL US REIT Index (the "Index") over a two-year or three-year performance measurement period (the "Relative Component"). To the extent awards would be earned under the Absolute Component but we underperform the Index, such awards earned would be reduced (and potentially fully negated) based on the degree to which we underperform the Index. In certain circumstances, in the event we outperform the Index but awards would not otherwise be fully earned under the Absolute Component, awards may be increased under the Relative Component. To the extent awards would otherwise be earned under the Relative Component but we fail to achieve at least a 6% per annum absolute TSR, such awards earned under the Relative Component would be reduced based on our absolute TSR performance, with no awards being earned in the event our TSR during the applicable measurement period is 0% or negative, irrespective of the degree to which we may outperform the Index. If the designated performance objectives are achieved, OPP Units are also subject to time-based vesting requirements. Awards earned under the 2013 OPP vest 33% in year three, 33% in year four and 34% in year five. Dividends on awards earned accrue during the performance measurement period. In addition, our executive officers (for the purposes of Section 16 of the Exchange Act) are required to hold earned OPP awards for one year following vesting.

(1) On February 6, 2013, we received \$124,000 pursuant to a settlement agreement with Stop & Shop, which terminates our right to receive \$6,000 of additional annual rent under a 1992 agreement, for a period potentially through 2031. As a result of this settlement, we collected a \$47,900 receivable and recognized \$59,599 of income in the first quarter of 2013.

Management and leasing fees include management fees from Interstate Properties, a related party, of \$131,000 and \$192,000 for the three months ended June 30, 2013 and 2012, respectively, and \$333,000 and \$391,000 for the six months ended June 30, 2013 and 2012, respectively. The above table excludes fee income from partially owned entities, which is typically included in "income from partially owned entities" (see Note 7 – *Investments in Partially Owned Entities*).

20. Income Per Share

The following table provides a reconciliation of both net income and the number of common shares used in the computation of (i) basic income per common share - which includes the weighted average number of common shares outstanding without regard to dilutive potential common shares, and (ii) diluted income per common share - which includes the weighted average common shares and dilutive share equivalents. Dilutive share equivalents may include our Series A convertible preferred shares, employee stock options and restricted stock.

Insurance

We maintain general liability insurance with limits of \$300,000,000 per occurrence and all risk property and rental value insurance with limits of \$2.0 billion per occurrence, including coverage for terrorist acts, with sub-limits for certain perils such as floods. Our California properties have earthquake insurance with coverage of \$180,000,000 per occurrence, subject to a deductible in the amount of 5% of the value of the affected property, up to a \$180,000,000 annual aggregate.

Penn Plaza Insurance Company, LLC ("PPIC"), our wholly owned consolidated subsidiary, acts as a re-insurer with respect to a portion of all risk property and rental value insurance and a portion of our earthquake insurance coverage, and as a direct insurer for coverage for acts of terrorism, including nuclear, biological, chemical and radiological ("NBCR") acts, as defined by the Terrorism Risk Insurance Program Reauthorization Act. Coverage for acts of terrorism (excluding NBCR acts) is fully reinsured by third party insurance companies and the Federal government with no exposure to PPIC. Coverage for NBCR losses is up to \$2.0 billion per occurrence, for which PPIC is responsible for a deductible of \$3,200,000 and 15% of the balance of a covered loss and the Federal government is responsible for the remaining 85% of a covered loss. We are ultimately responsible for any losses incurred by PPIC.

We continue to monitor the state of the insurance market and the scope and costs of coverage for acts of terrorism. However, we cannot anticipate what coverage will be available on commercially reasonable terms in future policy years.

Our debt instruments, consisting of mortgage loans secured by our properties which are non-recourse to us, senior unsecured notes and revolving credit agreements contain customary covenants requiring us to maintain insurance. Although we believe that we have adequate insurance coverage for purposes of these agreements, we may not be able to obtain an equivalent amount of coverage at reasonable costs in the future. Further, if lenders insist on greater coverage than we are able to obtain it could adversely affect our ability to finance our properties and expand our

Other Commitments and Contingencies

We are from time to time involved in legal actions arising in the ordinary course of business. In our opinion, after consultation with legal counsel, the outcome of such matters is not expected to have a material adverse effect on our financial position, results of operations or cash flows.

Each of our properties has been subjected to varying degrees of environmental assessment at various times. The environmental assessments did not reveal any material environmental contamination. However, there can be no assurance that the identification of new areas of contamination, changes in the extent or known scope of contamination, the discovery of additional sites, or changes in cleanup requirements would not result in significant costs to us.

Our mortgage loans are non-recourse to us. However, in certain cases we have provided guarantees or master leased tenant space. These guarantees and master leases terminate either upon the satisfaction of specified circumstances or repayment of the underlying loans. As of June 30, 2013, the aggregate dollar amount of these guarantees and master leases is approximately \$372,000,000.

At June 30, 2013, \$22,053,000 of letters of credit were outstanding under one of our revolving credit facilities. Our credit facilities contain financial covenants that require us to maintain minimum interest coverage and maximum debt to market capitalization ratios, and provide for higher interest rates in the event of a decline in our ratings below Baa3/BBB. Our credit facilities also contain customary conditions precedent to borrowing, including representations and warranties, and also contain customary events of default that could give rise to accelerated repayment, including such items as failure to pay interest or principal.

Two of our wholly owned subsidiaries that are contracted to develop and operate the Cleveland Medical Mart and Convention Center, in Cleveland, Ohio, are required to fund \$11,500,000, primarily for tenant improvements, and they are responsible for operating expenses and are entitled to the net operating income, if any, upon the completion of development and the commencement of operations. As of June 30, 2013, our subsidiaries have funded approximately \$3,177,000 of the commitment.

As of June 30, 2013, we expect to fund additional capital to certain of our partially owned entities aggregating approximately \$168,000,000.

22. Segment Information

As a result of certain organizational changes and asset sales in 2012, the Merchandise Mart segment no longer meets the criteria to be a separate reportable segment; accordingly, effective January 1, 2013, the remaining assets have been reclassified to our Other segment. We have also reclassified the prior period segment financial results to conform to the current year presentation. Below is a summary of net income and a reconciliation of net income to EBITDA⁽¹⁾ by segment for the three and six months ended June 30, 2013 and 2012.
